|     |       | Geographically Deaveraged UNE Zones and applicable rates have been established for certain services, as shown in this Agreement. Where Geographically Deaveraged UNE Zones and applicable rates are established, Statewide rates are obsolete. Further, BellSouth is in the process of enhancing its billing systems in order to accomodate this Geographically Deaveraged UNE Zone Rate Structure. Until these enhancements are accomplished, estimated to be mid 2001, the UNE Zone 1 rate will be billed for all services residing in Zones 1, 2, 3 or 4, i.e., Rates for services residing in UNE Zones 2, 3 and UNE Zone 4, where applicable, will not be billed. Once billing enhancements are complete, all applicable UNE Zone rates reflected in this Agreement will be billed. |     |       | Cost Based Rates are applied where BellSouth is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |         |      |       |       |             |         |         |        |           |        |         |       |       |       |
|     |       | Features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |         |      |       |       |             |         |         |        |           |        |         |       |       |       |
|     |       | End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations.                                                                                                                                                                                                                                                                                                                                                                                                                                                      |         |      |       |       |             |         |         |        |           |        |         |       |       |       |
|     |       | For Georgia, Kentucky, Louisiana, Mississippi, South Carolina and Tennessee, the recurring UNE Port and Loop charges listed apply to Currently Combined and Not Currently Combined Combos. The first and additional Port nonrecurring charges apply to Not Currently Combined Combos for all states. In GA, KY, LA, MS, SC and TN these nonrecurring charges are commission ordered cost based rates and in AL, FL and NC these nonrecurring charges are Market Rates and are also listed in the Market Rate section. For Currently Combined Combos in all other states, the nonrecurring charges shall be those identified in the Nonrecurring - Currently Combined sections. |         |      |       |       |             |         |         |        |           |        |         |       |       |       |

| NOTE: (1) Electronic Service Order: CLEC should contact its contract negotiator if it prefers the state specific electronic service ordering charges as ordered by the State Commissions. The electronic service ordering charge currently contained in this rate exhibit is the BellSouth regional electronic service ordering charge. CLEC may elect either the state specific Commission ordered rates for the electronic service ordering charges, or CLEC may elect the regional electronic service ordering charge.                                                                                                          |               |                                                                                            |  |  |         |      |     |             |           |              |        |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |
| NOTE: (2) Any element that can be ordered electronically will be billed according to the SOMEK rate listed in this category. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEK rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |               |                                                                                            |  |  |         |      |     |             |           |              |        |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |

Unbundled port/loop combinations that are Not Currently Combined in Alabama, Florida and North Carolina.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| 2. Unbundled port/loop combinations that are Currently Combined or Not Currently Combined in Zone 1 of the Top 8 MSAs in BellSouth's region for end users with 4 or more DS0 equivalent lines.                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| The Top 8 MSAs in BellSouth's region are: FL (Orlando, Ft. Lauderdale, Miami); GA (Atlanta); LA (New Orleans); NC (Greensboro-Winston Salem-Highpoint/Charlotte-Gastonia-Rock Hill); TN (Nashville).                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| BellSouth currently is developing the billing capability to mechanically bill the recurring and non-recurring Market Rates in this section except for nonrecurring charges for not currently combined in AL, FL and NC. In the interim where BellSouth cannot bill Market Rates, BellSouth shall bill the rates in the Cost-Based section preceding in lieu of the Market Rates and reserves the right to true-up the billing difference.                                                                                                                                                                                                                     |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| The Market Rate for unbundled ports includes all available features in all states.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations which have a flat rate usage charge (USOC: URECU).                                                                                                                                                                                                                                                                                                                                                                                   |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| For Not Currently Combined scenarios where Market Rates apply, the Nonrecurring charges are listed in the First and Additional NRC columns for each Port USOC. For Currently Combined scenarios, the Nonrecurring charges are listed in the NRC - Currently Combined section. Additional NRCs may apply also and are categorized accordingly.                                                                                                                                                                                                                                                                                                                 |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| Non-Recurring Charges (NRC) Associated with 4-Wire DS1 Loop with Channelization with Port - Conversion Charge Based on a System                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| A Minimum System configuration is One (1) DS1, One (1) D4 Channel Bank, and Up To 24 DSO Ports with Feature Activations.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| Multiples of this configuration functioning as one are considered Add'l after the minimum system configuration is counted.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| UNBUNDLED CENTREX PORT/LOOP COMBINATIONS - COST BASED RATES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| 1. Cost Based Rates are applied where BellSouth is required by FCC and/or State Commission rule to provide Unbundled Local Switching or Switch Ports.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| 2. Features shall apply to the Unbundled Port/Loop Combination - Cost Based Rate section in the same manner as they are applied to the Stand-Alone Unbundled Port section of this Rate Exhibit.                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| 3. End Office and Tandem Switching Usage and Common Transport Usage rates in the Port section of this rate exhibit shall apply to all combinations of loop/port network elements except for UNE Coin Port/Loop Combinations.                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| For Georgia, Kentucky, Louisiana, Mississippi and Tennessee, the recurring UNE Port and Loop charges listed apply to Currently Combined and Not Currently Combined Combos. The the first and additional Port nonrecurring charges apply to Not Currently Combined Combos for all states. In GA, KY, LA, MS and TN these nonrecurring charges are commission ordered cost based rates and in AL, FL, NC and SC these nonrecurring charges are Market Rates and are listed in the Market Rate section. For Currently Combined Combos in all other states, the nonrecurring charges shall be those identified in the Nonrecurring - Currently Combined sections. |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| 5. Market Rates for Unbundled Centrex Port/Loop Combination will be negotiated on an Individual Case Basis, until further notice.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                             |         |      |       |       |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |

|                                | NOTE: (1) Electronic Service Order: CLEC should contact its contract negotiator if it prefers the state specific electronic service ordering charges as ordered by the State Commissions. The electronic service ordering charge currently contained in this rate exhibit is the BellSouth regional electronic service ordering charge. CLEC may elect either the state specific Commission ordered rates for the electronic service ordering charges, or CLEC may elect the regional electronic service ordering charge.                                                                                                            |             |      |             |        |           |              |       |                         |       |               |                                           |                                               |                                                                          |                                                                            |                                                                               |                                                                                 |
|                                | NOTE: (2) Any element that can be ordered electronically will be billed according to the SOME C rate listed in this category. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOME C rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |             |      |             |        |           |              |       |                         |       |               |                                           |                                               |                                                                          |                                                                            |                                                                               |                                                                                 |
