- 2.9.11.4 When end office trunking is ordered by BellSouth to deliver BellSouth originated traffic to Sprint CLEC, BellSouth will provide overflow routing through BellSouth tandems consistent with how BellSouth overflows its traffic. The overflow will be based on the homing arrangements Sprint CLEC displays in the LERG. Likewise, if Sprint CLEC interconnects to a BellSouth end office for delivery of Sprint CLEC originated traffic, Sprint CLEC may overflow the traffic through the BellSouth tandems based on the BellSouth homing arrangements shown in the LERG.
- 2.9.11.5 Furthermore, each Party as an originating Party shall establish direct end office trunking to the terminating Party's end office (which may have a Tandem routed overflow) if the traffic destined for that end office exceeds the equivalent of a DS1, unless otherwise mutually agreed to by the Parties.
- 2.9.11.6 BellSouth shall allow for the mutual exchange of local traffic using existing and new facilities procured in Sprint's capacity as an interexchange carrier, "Local Over Feature Group D" trunking, pursuant to the following:
- 2.9.11.6.1 Sprint shall pay all reasonable costs incurred by BellSouth to implement and maintain the Local Over Feature Group D trunking configuration.
- 2.9.11.6.2 Sprint and BellSouth will agree on the details of this trunking configuration. This configuration will form the basis of the cost study to determine reasonable cost.
- 2.9.11.6.3 Sprint may convert the Local Over Feature Group D trunking arrangement to a standard local interconnection trunking arrangement at any time subject to applicable charges for establishing such local interconnection trunking arrangements. Should the Sprint conversion to a standard local interconnection trunking arrangement cause an incremental reduction in the costs that BellSouth incurs in the ongoing maintenance and administration of the Local Over Feature Group D trunking arrangement, the ongoing charges to Sprint for such maintenance and administration will reflect such incremental reductions.
- 2.9.11.6.4 The Parties will track and report, through the use of factors set forth in Section 6 of this Attachment, the jurisdictional nature of the combined traffic on the Feature Group D facilities procured in Sprint's capacity as an interexchange carrier.

**2.9.12 Other Interconnection Trunk Groups**

#### 2.9.12.1 E911 Trunk Group

2.9.12.1.1 A segregated trunk group for each NPA shall be established to each appropriate E911 Tandem within the local exchange area in which Sprint CLEC offers exchange service. This trunk group shall be set up as a one-way outgoing only and shall utilize MF CAMA signaling or SS7 signaling if available. Sprint CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.

2.9.12.1.2 Sprint CLEC shall provide a minimum of two (2) one-way outgoing channels on 9-1-1 trunks dedicated for originating 9-1-1 emergency service calls from the Point of Interconnection (POI) to the BellSouth 9-1-1 Tandem. Unless otherwise agreed to by the Parties, the 9-1-1 trunk groups will be initially established as two (2) one-way CAMA MF trunk groups or SS7 connectivity where applicable.

2.9.12.1.3 Sprint CLEC will cooperate with BellSouth to promptly test all 9-1-1 trunks and facilities between the Sprint CLEC network and the BellSouth 9-1-1 Tandem to assure proper functioning of 9-1-1 service. Sprint CLEC will not turn-up live traffic until successful testing is completed by both Parties.

#### 2.9.12.1.4 Wireless Access to 911/E911 Emergency Network

2.9.12.1.4.1 BellSouth and Sprint PCS recognize that 911 and E911 services were designed and implemented primarily as methods of providing emergency services to fixed location subscribers. While BellSouth and Sprint PCS recognize the need to provide "911-like" service to mobile subscribers, both parties recognize that current technological restrictions prevent an exact duplication of the services provided to fixed location customers. BellSouth will route "911-like" calls received from Sprint PCS to the emergency agency designated by Sprint PCS for such calls. Sprint PCS will provide the information necessary to BellSouth so that each call may be properly routed and contain as much pertinent information as is technically feasible.

2.9.12.1.4.2 BellSouth and Sprint PCS recognize that the technology and regulatory requirements for the provision of "911-like" service by CMRS carriers are evolving and agree to modify or supplement the foregoing in order to incorporate industry accepted technical improvements that Sprint PCS desires to implement and to permit Sprint PCS to comply with applicable regulatory requirements.

#### 2.9.12.2 High Volume Call In (HVCI) / Mass Calling (Choke) Trunk Group

2.9.12.2.1 Where the Parties have the capability to perform call gapping or code gapping with the effect of choking traffic to the HVCI/Mass Calling customer, the Parties shall not be required to establish an HVCI/Mass Calling trunk.

- 2.9.12.2.2 Except as set forth above, a dedicated trunk group shall be required to the designated Public Response HVCI/Mass Calling Network Access Tandem in each serving area. This trunk group shall be one-way outgoing only and shall utilize MF or SS7 signaling where technically capable. As the HVCI/Mass Calling trunk group is designed to block all excessive attempts toward HVCI/Mass Calling NXXs, it is necessarily exempt from the one percent blocking standard described elsewhere for other final local Interconnection trunk groups. The Party originating the traffic will have administrative control for the purpose of issuing ASRs on this one-way trunk group.
- 2.9.12.2.3 If Sprint CLEC should acquire a HVCI/Mass Calling customer, e.g., a radio station, Sprint CLEC shall notify BellSouth. BellSouth shall determine whether call gapping or other means can be used to choke the traffic or if it is necessary for BellSouth to order trunk groups as referenced above to the Sprint CLEC customer's serving office.
- 2.9.12.2.4 If Sprint CLEC finds it necessary to issue a new choke telephone number to a new or existing HVCI/Mass Calling customer, Sprint CLEC may request a meeting to coordinate with BellSouth the assignment of HVCI/Mass Calling telephone number from the existing choke NXX. In the event that Sprint CLEC establishes a new choke NXX, Sprint CLEC must notify BellSouth a minimum of ninety (90) days prior to deployment of the new HVCI/Mass Calling NXX.
- 2.9.12.2.5 Where BellSouth and Sprint CLEC both provide HVCI/Mass Calling trunking, both Parties' trunks may ride the same DS-1. MF and SS7 trunk groups shall not be provided within a DS-1 facility; a separate DS-1 per signaling type must be used.
- 2.9.12.3 Operator Services/Directory Assistance Trunk Group(s)
- 2.9.12.3.1 If BellSouth provides Inward Assistance Operator Services for Sprint CLEC, Sprint CLEC will initiate an ASR for a two-way trunk group from its designated operator services switch to the BellSouth Operator Services Tandem utilizing MF signaling.
- 2.9.12.3.2 If BellSouth provides Directory Assistance and/or Operator Services for Sprint CLEC, the following trunk groups are required:
- 2.9.12.3.3 Directory Assistance (DA):
- 2.9.12.3.3.1 Sprint CLEC may contract for DA services only. A segregated trunk group for these services will be required to the appropriate BellSouth Operator Services Tandem in the LATA for the NPA Sprint CLEC wishes to serve. This trunk group is set up as one-way outgoing only and utilizes Modified Operator Services

Signaling (2 Digit Automatic Number Identification (ANI)). Sprint CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.

2.9.12.3.4 Directory Assistance Call Completion (DACC):

2.9.12.3.4.1 Sprint CLEC may also contract for DACC. This requires a segregated one-way trunk group to each BellSouth Operator Services Tandem within the LATA for the combined DA and DACC traffic. This trunk group is set up as one-way outgoing only and utilizes Modified Operator Services Signaling (2 Digit ANI). Sprint CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.

2.9.12.3.5 Busy Line Verification/Emergency Interrupt (BLV/EI):

2.9.12.3.5.1 When BellSouth's operator is under contract to verify the busy status of the Sprint CLEC End Users, BellSouth will utilize a segregated one-way with MF signaling trunk group from BellSouth's Operator Services Tandem to Sprint CLEC's switch. Sprint CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.

2.9.12.3.6 Operator Assistance (0+, 0-):

2.9.12.3.6.1 This service requires a one-way trunk group from the Sprint CLEC switch to BellSouth's Operator Services Tandem. Two types of trunk groups may be utilized. If the trunk group transports DA/DACC, the trunk group will be designated with the appropriate traffic use code and modifier. If DA is not required or is transported on a segregated trunk group, then the group will be designated with a different appropriate traffic use code and modifier. Modified Operator Services Signaling (2 Digit ANI) will be required on the trunk group. Sprint CLEC will have administrative control for the purpose of issuing ASR's on this one-way trunk group.

2.9.12.3.7 Trunk Design Blocking Criteria

2.9.12.3.7.1 Trunk requirements for forecasting and servicing shall be based on the blocking objectives shown in Table 1. Trunk requirements shall be based upon time consistent average busy season busy hour twenty (20) day averaged loads applied to industry standard Neal-Wilkinson Trunk Group Capacity algorithms (use Low day-to-day Variation and 1.0 Peakedness factor until actual traffic data is available).

TABLE 1

| Trunk Group Type | Design Blocking Objective |
|------------------|---------------------------|
|------------------|---------------------------|

|                                        |       |
|----------------------------------------|-------|
| Local Tandem                           | 1%    |
| Local Direct End Office (Primary High) | ECCS* |
| Local Direct End Office (Final)        | 1%    |
| IntraLATA                              | 1%    |
| Local/IntraLATA                        | 1%    |
| InterLATA (Meet Point) Tandem          | 0.5%  |
| 911                                    | 1%    |
| Operator Services (DA/DACC)            | 1%    |
| Operator Services (0+, 0-)             | 0.5%  |
| Busy Line Verification-Inward Only     | 1%    |

\*During implementation the Parties will mutually agree on an ECCS or some other means for the sizing of this trunk group if it is a two-way trunk group that carries the Parties Local and IntraLATA Toll.

### **2.9.13 Trunk Servicing**

- 2.9.13.1 Orders between the Parties to establish, add, change or disconnect trunks shall be processed by using an Access Service Request (ASR). Sprint CLEC will have administrative control for the purpose of issuing ASR's on two-way trunk groups. The Parties agree that neither Party shall alter trunk sizing without first conferring the other party.
- 2.9.13.2 Both Parties will jointly manage the capacity of Local Interconnection Trunk Groups. Both Parties may send a Trunk Group Service Request (TGSR) to the other Party to trigger changes to the Local Interconnection Trunk Groups based on capacity assessment. Both Parties reserve the right to issue applicable ASRs if so required in the normal course of business.
- 2.9.13.3 Unless in response to a blocking situation or for a project, when either Party orders interconnection trunk group augmentations, a Firm Order confirmation (FOC) shall be returned to the ordering Party within four (4) business days from receipt of a valid error free ASR. A project is defined as a new trunk group or the request of 96 or more trunks on a single or multiple trunk group(s) in a given local calling area. Blocking situations and projects shall be managed through the BellSouth Interconnection Trunking Project Management group and Sprint CLEC's equivalent trunking group.
- 2.9.13.4 Each Party agrees to service trunk groups to the foregoing blocking criteria in a timely manner when trunk groups exceed measured blocking thresholds on an average time consistent busy hour for a twenty (20) business day study period. The Parties agree that twenty (20) business days is the study period duration objective. However, a study period on occasion may be less than twenty (20) business days but at minimum must be at least three (3) business days to be utilized for engineering purposes, although with less statistical confidence.

### 3. Network Design And Management For CLEC Interconnection

- 3.1 Network Management and Changes. Both Parties will work cooperatively with each other to install and maintain the most effective, economical and reliable interconnected telecommunications networks, including but not limited to, the exchange of toll-free maintenance contact numbers and escalation procedures. Both Parties agree to provide public notice of changes in the information necessary for the transmission and routing of services using its local exchange facilities or networks, as well as of any other changes that would affect the interoperability of those facilities and networks.
- 3.2 Interconnection Technical Standards. The interconnection of all networks will be based upon accepted industry/national guidelines for transmission standards and traffic blocking criteria. Interconnecting facilities shall conform, at a minimum, to the telecommunications industry standard of DS-1 pursuant to Bellcore Standard No. TR-NWT-00499. Signal transfer point, Signaling System 7 (“SS7”) connectivity is required at each interconnection point. BellSouth will provide out-of-band signaling using Common Channel Signaling Access Capability where technically feasible and economically practicable. BellSouth Facilities of each Party shall provide the necessary on-hook, off-hook answer and disconnect supervision and shall hand off calling number ID (Calling Party Number) when technically feasible.
- 3.3 Quality of Interconnection. The local interconnection for the transmission and routing of telephone exchange service and exchange access that each Party provides to each other will be at least equal in quality to what it provides to itself and any subsidiary or affiliate or to any other Party to which each Party provides local interconnection.
- 3.4 Network Management Controls. Both Parties will work cooperatively with each other to apply sound network management principles by invoking appropriate network management controls (e.g., call gapping) to alleviate or prevent network congestion.
- 3.4.1 Restrictive Controls
- 3.4.1.1 Either Party may use protective network traffic management controls such as 6-digit and 10-digit code gaps set at appropriate levels on traffic toward each other's network, when required, to protect the public switched network from congestion due to facility failures, switch congestion, or failure or focused overload. Sprint CLEC and BellSouth will immediately notify each other of any protective control action planned or executed.

### 3.4.2 Expansive Controls

- 3.4.2.1 Where the capability exists, originating or terminating traffic reroutes may be implemented by either Party to temporarily relieve network congestion due to facility failures or abnormal calling patterns. Reroutes will not be used to circumvent normal trunk servicing. Expansive controls will only be used when mutually agreed to by the Parties.

### 3.4.3 Mass Calling

- 3.4.3.1 Sprint CLEC and BellSouth shall cooperate and share pre-planning information regarding cross-network call-ins expected to generate large or focused temporary increases in call volumes.

- 3.5 Common Channel Signaling. Both Parties will provide LEC-to-LEC Common Channel Signaling ("CCS") to each other, where available, in conjunction with all traffic in order to enable full interoperability of CLASS features and functions except for call return. All CCS signaling parameters will be provided, including automatic number identification ("ANI"), originating line information ("OLI") calling company category, charge number, etc. All privacy indicators will be honored, and each Party will cooperate with each other on the exchange of Transactional Capabilities Application Part ("TCAP") messages to facilitate full interoperability of CCS-based features between the respective networks. Neither Party shall alter the CCS parameters, or be a party to altering such parameters, or knowingly pass CCS parameters that have been altered in order to circumvent appropriate interconnection charges.

- 3.5.1 Sprint CLEC shall provide all SS7 signaling information including, without limitation, charge number and originating line information ("OLI"). For terminating FGD, BellSouth will pass all SS7 signaling information including, without limitation, CPN if it receives CPN from FGD carriers. All privacy indicators will be honored. Where available, network signaling information such as transit network selection ("TNS") parameter, carrier identification codes ("CIC") (CCS platform) and CIC/OZZ information (non-SS7 environment) will be provided by Sprint CLEC wherever such information is needed for call routing or billing. The Parties will follow all OBF adopted standards pertaining to TNS and CIC/OZZ codes.

- 3.5.2 Signaling Call Information. BellSouth and Sprint CLEC will send and receive 10 digits for Local Traffic. Additionally, BellSouth and Sprint CLEC will exchange the proper call information, i.e. originated call company number and destination call company number, CIC, and OZZ, including all proper translations for routing between networks and any information necessary for billing.

- 3.6 Forecasting Requirements. The Parties shall exchange technical descriptions and forecasts of their interconnection and traffic requirements in sufficient detail necessary to establish the interconnections required to assure traffic completion to and from all customers in their respective designated service areas. In order for the Parties to provide as accurate reciprocal trunking forecasts as possible to each other, each Party must timely inform the other Party of any known or anticipated events that may affect reciprocal trunking requirements. If either Party is unable to provide such information, the Parties shall provide trunking forecasts based only on existing trunk group growth and annual estimated percentage of subscriber line growth.
- 3.6.1 Both Parties shall meet every six months or at otherwise mutually agreeable intervals for the purpose of exchanging trunk group busy season traffic loads and non-binding forecasts of traffic and volume requirements for the interconnection and network elements provided under this Agreement, in the form and in such detail as agreed by the Parties. Sprint CLEC may request additional traffic data via the Network Usage Information Service offered in Section A32 of the BellSouth state General Subscriber Service Tariff, or by the New Business Request process described in Section 7 of the General Terms and Conditions of the Agreement. The Parties agree that each forecast provided under this Section shall be deemed “Confidential Information” in the General Terms and Conditions – Part A of this Agreement.
- 3.6.2 The trunk forecast should include trunk requirements for all of the interconnecting trunk groups for the current year plus the next future year. The forecast meeting between the two companies may be a face-to-face meeting, video conference or audio conference. It may be held regionally or geographically. Ideally, these forecast meetings should be held at least semi-annually, or more often if the forecast is no longer usable. Updates to a forecast or portions thereof should be made whenever the Party providing the forecast deems necessary or whenever a significant increase or decrease in trunking demand for the forecasting period occurs. Either Party should notify the other Party if they have measurements indicating that a trunk group is exceeding its designed call carrying capacity and is impacting other trunk groups in the network. Also, either Party should notify the other Party if they know of situations in which the traffic load is expected to increase significantly and thus affect the interconnecting trunk requirements as well as the trunk requirements within the other Party’s network. The Parties agree that the forecast information provided under this Section shall be deemed “Confidential Information” as set forth in the General Terms and Conditions section of this Agreement.
- 3.6.3 For a non-binding trunk forecast, agreement between the two Parties on the trunk quantities and the timeframe of those trunks does not imply any liability for failure to perform if the trunks are not available for use at the required time.

#### **4. Wireless Network Design and Management**

- 4.1 BellSouth and Sprint PCS will work cooperatively to install and maintain reliable interconnected telecommunications networks, including but not limited to, maintenance contact numbers and escalation procedures. BellSouth will provide public notice of changes in the information necessary for the transmission and routing of services using its local exchange facilities or networks, as well as of any other changes that would affect the interoperability of those facilities and networks.
- 4.2 The interconnection of all networks will be based upon accepted industry/national guidelines for transmission standards and traffic blocking criteria.
- 4.3 BellSouth and Sprint PCS will work cooperatively to apply sound network management principles by invoking appropriate network management controls to alleviate or prevent network congestion.
- 4.4 Neither party intends to charge rearrangement, reconfiguration, disconnection, termination or other non-recurring fees that may be associated with the initial reconfiguration of either party's network interconnection arrangement contained in this Agreement. However, the interconnection reconfigurations will have to be considered individually as to the application of a charge. Notwithstanding the foregoing, BellSouth and Sprint PCS do intend to charge non-recurring fees for any additions to, or added capacity to, any facility or trunk purchased. Parties who initiate SS7 STP changes may be charged authorized non-recurring fees from the appropriate tariffs.
- 4.5 BellSouth and Sprint PCS will provide Common Channel Signaling (CCS) information to one another, where available and technically feasible, in conjunction with all traffic in order to enable full interoperability of CLASS features and functions except for call return. All CCS signaling parameters will be provided, including automatic number identification (ANI), originating line information (OLI) calling party category, charge number, etc. All privacy indicators will be honored, and BellSouth and Sprint PCS agree to cooperate on the exchange of Transactional Capabilities Application Part (TCAP) messages to facilitate full interoperability of CCS-based features between the respective networks.
- 4.6 For network expansion, BellSouth and Sprint PCS will review engineering requirements on a quarterly basis and establish forecasts for trunk utilization. New trunk groups will be implemented as stated by engineering requirements for both parties.
- 4.7 BellSouth and Sprint PCS will provide each other with the proper call information, including all proper translations for routing between networks and any information

necessary for billing where BellSouth provides recording capabilities. This exchange of information is required to enable each party to bill properly.

- 4.8 Nothing in this Agreement shall prohibit Sprint PCS from enlarging its CMRS network through management contracts with third parties for the construction and operation of a CMRS system under the SPCS brand name and license. Traffic originating on such extended networks shall be treated as Sprint PCS traffic under the terms and conditions of this Agreement. All billing for such traffic will be in the name of Sprint PCS, and subject to the terms and conditions of this Agreement.

**5. Local Dialing Parity**

Each Party shall provide local dialing parity, meaning that each Party's customers will not have to dial any greater number of digits than the other Party's customers to complete the same call.

**6. Interconnection Compensation**

- 6.1 Compensation for Call Transport and Termination for CLEC Local Traffic, ISP-Bound Traffic and Wireless Local Traffic is the result of negotiation and compromise between BellSouth, Sprint CLEC and Sprint PCS. The Parties' agreement to establish a bill and keep compensation arrangement was based upon extensive evaluation of costs incurred by each party for the termination of traffic. Specifically, Sprint PCS provided BellSouth a substantial cost study supporting its costs. As such the bill and keep arrangement is contingent upon the agreement by all three Parties to adhere to bill and keep. Should either Sprint CLEC or Sprint PCS opt into another interconnection arrangement with BellSouth pursuant to 252(i) of the Act which calls for reciprocal compensation, the bill and keep arrangement between BellSouth and the remaining Sprint entity shall be subject to termination or renegotiation as deemed appropriate by BellSouth.

- 6.1.1 The Parties hereby agree to a bill-and-keep arrangement for usage on CLEC Local Traffic, ISP-bound traffic, and Wireless Local Traffic. Such bill-and-keep arrangement includes any per minute of use rate elements associated with the transport and termination of CLEC Local Traffic, ISP-bound Traffic, and Wireless Local Traffic. Such bill-and-keep arrangement does not include trunks and associated dedicated transport, transit and intermediary traffic, or interMajor Trading Area traffic.

- 6.1.2 Sprint CLEC charges for dedicated transport and associated facilities of calls on Sprint CLEC's or BellSouth's respective networks are as set forth in Exhibit A to this Attachment. If Sprint CLEC, pursuant to 47 CFR §51.711(b), demonstrates that its costs support different rates for the transport mileage described in this Section, upon approval by the appropriate state commission, such other rates shall

be included within this Agreement to be applied prospectively from the effective date of the Commission approval.

- 6.1.3 If Sprint CLEC chooses to provide local switching of BellSouth-originated calls through use of a switch located outside the LATA in which the calls originate, any transport charges that BellSouth may owe Sprint CLEC as reciprocal compensation for transporting such calls shall be governed by this Section. BellSouth shall compensate Sprint CLEC at the dedicated transport rates specified in Exhibit A, as is appropriate to the specific circumstances of the individual call. To the extent that BellSouth is required to pay such transport on a distance-sensitive basis, the distance the call is considered transported, for purposes of determining any reciprocal compensation owed, shall not exceed the shortest distance in airline miles between the point BellSouth hands the call off to Sprint CLEC (the appropriate Point of Interconnection where the two networks join in the LATA) and the LATA boundary. If Sprint CLEC, pursuant to 47 CFR §51.711(b), demonstrates that its costs support different rates for the transport mileage described in this Section, upon approval by the appropriate state commission, such other rates shall be included within this Agreement to be applied prospectively from the effective date of the Commission approval.
- 6.1.4 Neither Party shall represent switched access services traffic (e.g. FGA, FGB, FGD) as Local Traffic for purposes of payment of reciprocal compensation.
- 6.1.5 For BellSouth and Sprint CLEC traffic, the jurisdiction of a call is determined by its originating and terminating (end-to-end) points, not the telephone number dialed.
- 6.1.5.1 Further, if Sprint CLEC assigns NPA/NXXs to specific BellSouth rate centers within a BellSouth originating end user's local calling area, and then assigns numbers from those NPA/NXXs to Sprint CLEC end users physically located outside of the BellSouth originating end user's local calling area, Sprint CLEC agrees to identify such traffic to BellSouth and to compensate BellSouth for originating and transporting such traffic to Sprint CLEC at BellSouth's intrastate switched access tariff rates. If Sprint CLEC does not identify such traffic to BellSouth, to the best of BellSouth's ability BellSouth shall determine which whole Sprint CLEC NPA/NXXs on which to charge the applicable rates for originating intrastate switched access service as reflected in BellSouth's Intrastate Access Service Tariff. BellSouth shall make appropriate billing adjustments if Sprint CLEC can provide sufficient information for BellSouth to determine whether said traffic is Local Traffic.
- 6.1.5.2 Notwithstanding the foregoing, neither Party waives its position on how to determine the end point of ISP traffic and the associated compensation.

- 6.1.6 Fiber Meet, Design One. Each party will compensate the other for the Local Channels, from the POI to the other Party's switch location within the LATA, ordered on the other Party's portion of the Fiber Meet.
- 6.2 CLEC Percent Local Use. BellSouth and Sprint CLEC will report to the other a Percentage Local Usage ("PLU"). The application of the PLU will determine the amount of Local minutes to be billed to the other Party. For purposes of developing the PLU, BellSouth and Sprint CLEC shall consider every local call and every long distance call, excluding Transit Traffic. By the first of January, April, July and October of each year, BellSouth and Sprint CLEC shall provide a positive report updating the PLU. Detailed requirements associated with PLU reporting shall be as set forth in BellSouth's Percent Local Use Reporting Guidebook for Interconnection Purchasers, as it is amended from time to time during this Agreement, or as mutually agreed to by the Parties. Notwithstanding the foregoing, where the terminating Party has message recording technology that identifies the jurisdiction of traffic terminated as defined in this Agreement, such information, in lieu of the PLU factor, shall at the terminating Party's option be utilized to determine the appropriate Local usage compensation to be paid.
- 6.3 CLEC Percent Local Facility. BellSouth and Sprint CLEC will report to the other a Percentage Local Facility (PLF). The application of PLF will determine the portion of switched transport to be billed per the local jurisdiction rates. The PLF will be applied to Local Channels, multiplexing and Interoffice Channel dedicated transport utilized in the provision of local interconnection trunking. By the first of January, April, July and October of each year, BellSouth and Sprint CLEC shall provide a positive report updating the PLU and PLF. Detailed requirements associated with PLU and PLF reporting shall be as set forth in BellSouth's Percent Local Use/Percent Local Facility Reporting Guidebook for Interconnection Purchasers, as it is amended from time to time during this Agreement, or as mutually agreed to by the Parties.
- 6.4 CLEC Percentage Interstate Usage. In the case where Sprint CLEC desires to terminate its local traffic over or co-mingled on its Switched Access Feature Group D trunks, Sprint CLEC will be required to provide a projected Percentage Interstate Usage ("PIU") to BellSouth. Detailed requirements associated with PIU reporting shall be as set forth in BellSouth's Percent Interstate Use Reporting Guidebook for Interconnection Purchasers. After interstate and intrastate traffic percentages have been determined by use of PIU procedures, the PLU and PLF factors will be used for application and billing of local interconnection. Notwithstanding the foregoing, where the terminating Party has message recording technology that identifies the jurisdiction of traffic terminated as defined in this Agreement, such information, in lieu of the PIU and PLU factor, shall at the terminating Party's option be utilized to determine the appropriate local usage compensation to be paid.

6.5 Audits. On sixty (60) days written notice, each Party must provide the other the ability and opportunity to conduct an annual audit to ensure the proper billing of traffic. BellSouth and Sprint shall retain records of call detail for a minimum of nine months from which a PLU, PLF and/or PIU can be ascertained. The audit shall be accomplished during normal business hours at an office designated by the Party being audited. Audit requests shall not be submitted more frequently than one (1) time per calendar year. Each party shall bear its own expenses in connection with the conduct of the Audit or Examination. In the event that the audit is performed by a mutually acceptable independent auditor, the costs of the independent auditor shall be paid for by the Party requesting the audit. The PLU, PLF and/or PIU shall be adjusted based upon the audit results and shall apply to the usage for the quarter the audit was completed, to the usage for the quarter prior to the completion of the audit, and to the usage for the two quarters following the completion of the audit. If, as a result of an audit, either Party is found to have overstated the PLU, PLF and/or PIU by twenty percentage points (20%) or more, that Party shall reimburse the auditing Party for the cost of the audit.

6.6 Rate True-up

**This section applies only to BellSouth and Sprint CLEC for rates that are interim or expressly subject to true-up as marked by an I in Exhibit C of this Attachment.**

6.6.1 The interim prices for Unbundled Network Elements and Other Services and Local Interconnection shall be subject to true-up according to the following procedures:

6.6.2 The interim prices shall be true-up, either up or down, based on final prices determined either by further agreement between the Parties, or by an effective order of the Commission. The Parties shall implement the true-up by comparing the actual volumes and demand for each item, together with interim prices for each item, with the final prices determined for each item. Each Party shall keep its own records upon which the true-up can be based, and any final payment from one Party to the other shall be in an amount agreed upon by the Parties based on such records. In the event of any disagreement as between the records or the Parties regarding the amount of such true-up, the Parties agree that the body having jurisdiction over the matter shall be called upon to resolve such differences, or the Parties may mutually agree to submit the matter to the Dispute Resolution process in accordance with the provisions of Section 14 of the General Terms and Conditions of this Agreement.

6.6.3 The Parties may continue to negotiate toward final prices, but in the event that no such agreement is reached within ninety (90) days or as mutually agreed to by the Parties, either Party may petition the Commission to resolve such disputes and to

determine final prices for each item. Alternatively, upon mutual agreement, the Parties may submit the matter to the Dispute Resolution Process set forth in the General Terms and Conditions of the Agreement, so long as they file the resulting Agreement with the Commission as a “negotiated agreement” under Section 252(e) of the Act.

6.6.4 An effective order of the Commission that forms the basis of a true-up shall be based upon cost studies submitted by either or both Parties to the Commission and shall be binding upon BellSouth and Sprint specifically or upon all carriers generally, such as a generic cost proceeding.

#### 6.7 Wireless Non-Local Traffic Interconnection

6.7.1 The delivery of Non-Local Traffic by a party to the other party shall be reciprocal and compensation will be mutual. For terminating its Non-Local Traffic on the other party’s network, each party will pay either the access charges described in paragraph 6.7.2 hereunder or the Non-Local Intermediary Charges described in paragraph 6.7.4 hereunder, as appropriate.

6.7.2 For originating and terminating intrastate or interstate interMTA Non-Local Traffic, each party shall pay the other BellSouth’s intrastate or interstate, as appropriate, switched network access service rate elements on a per minute of use basis, which are set out in BellSouth’s Intrastate Access Services Tariff or BellSouth’s Interstate Access Services Tariff as those tariffs may be amended from time to time during the term of this Agreement.

6.7.3 Actual traffic measurements in each of the appropriate categories is the preferred method of classifying and billing traffic. If, however, either party cannot measure traffic in each category, then BellSouth and Sprint PCS shall agree on a surrogate method of classifying and billing traffic, taking into consideration territory served (e.g. MTA boundaries, LATA boundaries and state boundaries) and traffic routing of BellSouth and Sprint PCS.

6.7.4 If Non-Local Traffic originated by Sprint PCS is delivered by BellSouth for termination to the network of a nonparty telecommunications carrier (“Nonparty Carrier”) and Sprint PCS and BellSouth participate in Meet Point Billing as defined in paragraph 6.11, then BellSouth will bill Sprint PCS and Sprint PCS shall pay a \$.002 per minute intermediary charge. None of the Non-Local Traffic delivered to Sprint PCS by BellSouth shall be subject to the Non-Local Intermediary Charges.

#### 6.8 Compensation for CLEC IntraLATA Toll Traffic

6.8.1 CLEC IntraLATA Toll Traffic. For purposes of this Attachment, CLEC IntraLATA Toll Traffic is defined as any telecommunications call between Sprint

CLEC and BellSouth end users that originates and terminates in the same LATA and results in intraLATA toll charges being billed to the originating end user by the originating Party. Moreover, BellSouth originated IntraLATA Toll Traffic will be delivered to Sprint CLEC using traditional Feature Group C non-equal access signaling.

- 6.8.2 Compensation for CLEC IntraLATA Toll Traffic. For terminating its CLEC IntraLATA Toll Traffic on the other company's network, the originating Party will pay the terminating Party the terminating Party's current effective or Commission approved (if required) intrastate or interstate, whichever is appropriate, terminating Switched Access rates.
- 6.8.3 Compensation for CLEC 8XX Traffic. Each Party (BellSouth and Sprint CLEC) shall compensate the other pursuant to the appropriate Switched Access charges, including the database query charge as set forth in the Party's current effective or Commission approved (if required) intrastate or interstate Switched Access tariffs.
- 6.8.4 Records for 8XX Billing. Each Party (BellSouth and Sprint CLEC) will provide to the other the appropriate records necessary for billing intraLATA 8XX customers.
- 6.8.5 8XX Access Screening. BellSouth's provision of 8XX Toll Free Dialing (TFD) to Sprint CLEC requires interconnection from Sprint CLEC to BellSouth 8XX SCP. Such interconnections shall be established pursuant to BellSouth's Common Channel Signaling Interconnection Guidelines and Bellcore's CCS Network Interface Specification document, TR-TSV-000905. Sprint CLEC shall establish CCS7 interconnection at the BellSouth Local Signal Transfer Points serving the BellSouth 8XX SCPs that Sprint CLEC desires to query. The terms and conditions for 8XX TFD are set out in BellSouth's Intrastate Access Services Tariff as amended.
- 6.9 Mutual Provision of Switched Access Service for Sprint CLEC and BellSouth
- 6.9.1 Switched Access Traffic. Switched Access Traffic is described in the BellSouth Access Tariff. Subject to the provisions of 5.8.1.1 following, any interexchange telecommunications traffic utilizing the Public Switched Telephone Network, regardless of transport protocol method, where the originating and terminating points, end-to-end points, are in different LATAs, or in different local calling areas as defined by the originating Party and delivered to the terminating Party using Feature Groups A, B, or D switched access services shall be considered Switched Access Traffic. The traffic described herein shall not be considered Local Traffic. Irrespective of transport protocol method used, a call that originates in one LATA and terminates in another LATA (i.e., the end-to-end points of the call) shall not be compensated as local.

- 6.9.1.1 The Parties acknowledge that they cannot agree on the jurisdictional nature of Public Switched Telephone Network computer-to-phone or phone-to-computer telecommunications traffic. The Parties further acknowledge that the issue of compensation for this traffic is currently under consideration by the FCC. Until such time as the FCC issues an effective order on the jurisdiction of this traffic, the Parties shall utilize a bill and keep mechanism for compensating each other for such traffic (neither Party will bill the other Party for the phone end of computer-to-phone or phone-to-computer interexchange telecommunications traffic). Further, upon an effective order from the FCC, the Parties will amend the Agreement consistent with such order.
- 6.9.2 When Sprint CLEC's end office switch, subtending the BellSouth Access Tandem switch for receipt or delivery of switched access traffic, provides an access service connection between an interexchange carrier (IXC) by either a direct trunk group to the IXC utilizing BellSouth facilities, or via BellSouth's tandem switch, each Party will provide its own access services to the IXC on a multi-bill, multi-tariff meet-point basis. Each Party will bill its own access services rates to the IXC with the exception of the interconnection charge. The interconnection charge will be billed by the Party providing the end office function. Each Party will use the Multiple Exchange Carrier Access Billing (MECAB) system to establish meet point billing for all applicable traffic. Thirty (30)-day billing periods will be employed for these arrangements. The recording Party agrees to provide to the initial billing Party, at no charge, the Switched Access detailed usage data within no more than sixty (60) days after the recording date. The initial billing Party will provide the switched access summary usage data to all subsequent billing Parties within 10 days of rendering the initial bill to the IXC. Each Party will notify the other when it is not feasible to meet these requirements so that the customers may be notified for any necessary revenue accrual associated with the significantly delayed recording or billing. As business requirements change data reporting requirements may be modified as necessary.
- 6.9.3 BellSouth and Sprint CLEC will retain for a minimum period of sixty (60) days, access message detail sufficient to recreate any data which is lost or damaged by their company or any third party involved in processing or transporting data.
- 6.9.4 BellSouth and Sprint CLEC agree to recreate the lost or damaged data within forty-eight (48) hours of notification by the other or by an authorized third party handling the data.
- 6.9.5 BellSouth and Sprint CLEC also agree to process the recreated data within forty-eight (48) hours of receipt at its data processing center.
- 6.9.6 The Initial Billing Party shall keep records for no more than 13 months of its billing activities relating to jointly-provided Intrastate and Interstate access services. Such records shall be in sufficient detail to permit the Subsequent Billing Party to,

by formal or informal review or audit, to verify the accuracy and reasonableness of the jointly-provided access billing data provided by the Initial billing Party. Each Party agrees to cooperate in such formal or informal reviews or audits and further agrees to jointly review the findings of such reviews or audits in order to resolve any differences concerning the findings thereof.

6.9.7 Unless otherwise mutually agreed to by the Parties, Sprint CLEC shall not deliver Switched Access Traffic to BellSouth for termination using a trunk group obtained pursuant to this Agreement, but shall instead use a Feature Group D or other switched access trunk group or facility obtained via the BellSouth switched access tariff.

6.10 Transit Traffic Service. BellSouth shall provide tandem switching and transport services for Sprint CLEC's Transit Traffic that originates from, or terminates to a Sprint CLEC end user. Switched Access traffic that originates from or terminates to a Sprint CLEC end user via the BellSouth network is Transit Traffic (Switched Access Transit Traffic). Rates for local transit traffic shall be the applicable call transport and termination charges as set forth in Exhibit A to this Attachment. Rates for Switched Access Transit Traffic shall be each Party's Interstate or Intrastate Switched Access rates for call transport and termination. Billing associated with all Transit Traffic shall be pursuant to MECAB procedures. Wireless Type 1 traffic shall not be treated as Transit Traffic from a routing or billing perspective. Wireless Type 2A traffic shall not be treated as Transit Traffic from a routing or billing perspective until BellSouth and the Wireless carrier have the capability to properly meet-point-bill in accordance with MECAB guidelines.

6.10.1 The delivery of traffic which transits the BellSouth network and is transported to another carrier's network is excluded from any BellSouth billing guarantees and will be delivered at the rates stipulated in this Agreement to a terminating carrier. BellSouth agrees to deliver this traffic to the terminating carrier; provided, however, that Sprint CLEC is solely responsible for negotiating and executing any appropriate contractual agreements with the terminating carrier for the receipt of this traffic through the BellSouth network. BellSouth will not be liable for any compensation to the terminating carrier or to Sprint CLEC. Sprint CLEC agrees to compensate BellSouth for any charges or costs for the delivery of Sprint CLEC originated non-Switched Access Transit Traffic to a connecting carrier on behalf of Sprint. Additionally, the Parties agree that any billing to a third party or other telecommunications carrier under this section shall be pursuant to MECAB procedures.

6.11 Wireless Meet Point Billing

6.11.1 For purposes of this Agreement, Meet Point Billing, as supported by Multiple Exchange Carrier Access Billing (MECAB) guidelines, shall mean the exchange of billing data relating to jointly provided switched access calls and calls transiting

BellSouth's network from an originating telecommunications carrier other than BellSouth and terminating to a telecommunications carrier other than BellSouth or the originating telecommunications carrier. Subject to Sprint PCS providing all necessary information, BellSouth agrees to participate in Meet Point Billing for traffic which transits its network when both the originating and terminating parties participate in Meet Point Billing with BellSouth. Traffic from a network which does not participate in Meet Point Billing will be delivered by BellSouth, however, call records for traffic originated and/or terminated by a non-Meet Point Billing network will not be delivered to the originating and/or terminating network. Parties participating in Meet Point Billing with BellSouth are required to provide information necessary for BellSouth to identify the parties to be billed. Information required for Meet Point Billing includes Regional Accounting Office code (RAO) and Operating Company Number (OCN) per state. The following information is required for billing in a Meet Point Billing environment and includes, but is not limited to; (1) a unique Access Carrier Name Abbreviation (ACNA), (2) Percent Interstate Usage, (3) Percent Local Usage, (4) 800 Service Percent Interstate Usage or default of 50%, and (5) Billing Interconnection Percentage. A default Billing Interconnection Percentage of 95% BellSouth and 5% Sprint PCS will be used if Sprint PCS does not file with NECA to establish a Billing Interconnection Percentage other than default. Sprint PCS must support Meet Point Billing for all intermediary calls in accordance with Mechanized Exchange Carrier Access Billing (MECAB) guidelines. BellSouth and Sprint PCS acknowledge that the exchange of 1150 records will not be required.

- 6.11.2 Meet Point Billing will be provided for traffic which transits BellSouth's network at the access tandem level only. Parties desiring Meet Point Billing will subscribe to access tandem level interconnections with BellSouth and will deliver all transit traffic to BellSouth over such access tandem level interconnections. Additionally, exchange of records will necessitate both the originating and terminating networks to subscribe to dedicated NXX codes, which can be identified as belonging to the originating and terminating network. When the access tandem, in which interconnection occurs, does not have the capability to record messages and either surrogate or self-reporting of messages and minutes of use occur, Meet Point Billing will not be possible and will not occur. BellSouth and Sprint PCS will work cooperatively to develop and enhance processes to deal with messages handled on a surrogate or self-reporting basis.
- 6.11.3 In a Meet Point Billing environment, when a party actually uses a service provided by BellSouth, and said party desires to participate in Meet Point Billing with BellSouth, said party will be billed for miscellaneous usage charges, as defined in BellSouth's FCC No.1 and appropriate state access tariffs, (i.e. Local Number Portability queries and 800 Data Base queries) necessary to deliver certain types of calls. Should Sprint PCS desire to avoid such charges Sprint PCS may perform the appropriate data base query prior to delivery of such traffic to BellSouth.

6.11.4 Participation in Meet Point Billing is outside the reciprocal compensation requirements of this agreement. Meet Point Billing, as defined in section 6.11.1 above, under this Section will result in Sprint PCS compensating BellSouth at the intermediary rate of \$.002 for traffic delivered to BellSouth's network, which terminates to a third party network. Meet Point Billing to IXC's for jointly provided switched access traffic will occur consistent with the most current MECAB billing guidelines.

6.12 00- Local Traffic

00- traffic from Sprint IXC presubscribed end user customers will continue to be routed to Sprint IXC over originating switched access FGD service. Sprint CLEC will determine the amount of total 00- traffic that is local and will report that factor and the associated minutes of use (MOU) used to determine the factor to BST. Using that data and the Sprint IXC total switched access MOUs for that month, BST will calculate a credit on Sprint IXC's switched access bill which will be applied in the following month. The credit will represent the amount of 00- traffic that is local and will take into consideration TELRIC rate based billing for the 00- MOUs that are local. The credit will be accomplished via a netting process whereby Sprint IXC will be given a full credit for all applicable billed access charges offset by the billing of 00- transport charges only based upon the applicable state TELRIC rates contained in Attachment 3 of this Agreement. BellSouth will have audit rights on the data reported by Sprint CLEC.

7. **Operational Support Systems (OSS) Rates**

BellSouth has developed and made available the following mechanized systems by which Sprint may submit LSRs electronically.

|      |                                   |
|------|-----------------------------------|
| LENS | Local Exchange Navigation System  |
| EDI  | Electronic Data Interface         |
| TAG  | Telecommunications Access Gateway |

LSRs submitted by means of one of these interactive interfaces will incur an OSS electronic ordering charge as specified in Attachment 6 of this Agreement.

| LOCAL INTERCONNECTION - Alabama                                                                                                                                             |               |  |  |  |  |         |      |            |       |             |        |        |        | Attachment: 3                    |                                      | Exhibit: A                                               |                                                            |                                                               |                                                                 |  |  |  |  |  |  |

**Attachment 4**  
**Physical Collocation**

## **BELLSOUTH PHYSICAL COLLOCATION**

### **1. Scope of Attachment**

1.1 Scope of Attachment. The rates, terms, and conditions contained within this Attachment shall only apply when Sprint is occupying the collocation space as a sole occupant or as a Host within a Premises location pursuant to Section 4.

1.1.1 The parties agree to comply with all applicable federal, state, county, local and administrative laws, rules, ordinances, regulations and codes in the performance of their obligations hereunder.

1.2 Right to occupy. BellSouth shall offer to Sprint collocation on rates, terms, and conditions that are just, reasonable, non-discriminatory and consistent with the rules of the Federal Communications Commission ("FCC"). Subject to Section 4 of this Attachment, BellSouth hereby grants to Sprint a right to occupy that certain area designated by BellSouth within a BellSouth Premises, of a size which is specified by Sprint and agreed to by BellSouth, which agreement should not be unreasonably withheld (hereinafter "Collocation Space"). BellSouth Premises include BellSouth Central Offices and Serving Wire Centers, as well as all buildings or similar structures owned or leased by BellSouth that house BellSouth Network Facilities and all structures that house facilities on public rights-of-way, including but not limited to, vaults containing loop concentrators and other similar structures. To the extent this Agreement does not include all the necessary rates, terms and conditions for BellSouth Premises other than BellSouth Central Offices, the Parties will negotiate said rates, terms, and conditions at the request for collocation at other than a Central Office. Notwithstanding the foregoing, BellSouth shall consider in its designation for cageless collocation any unused space within the BellSouth Premises.

1.2.1 Space Reclamation. In the event of space exhaust within a central office premises, Sprint may be required to release unused space to BellSouth to be allocated to other physical collocation applicants when 100% of the space in Sprint's collocation arrangement is not being utilized by the end of the second year of operation. Sprint will first have the option of subleasing any amount of space not being utilized pursuant to this sub-Section in lieu of releasing space to BellSouth. Prior to reclaiming any such unused space BellSouth shall notify Sprint of its intent in writing. Sprint will respond to BellSouth within fourteen (14) calendar days of receipt of BellSouth's notice. Said response shall provide a summary of Sprint's current use or planned use of remaining space for the next three (3) months, either by placing Sprint equipment in the remaining space or the subleasing of such Collocation Space. If BellSouth disagrees with Sprint's assertions it may avail itself of the Dispute Resolution procedures set forth in the General Terms and Conditions section of this Agreement.

- 1.2.2 Space Reservation. BellSouth and Sprint may reserve floor space for their own specific uses for a two-year period, except in Florida, where the period shall be eighteen (18) months. Except as otherwise provided, upon denial of a Sprint request for physical collocation, BellSouth shall provide to the Commission justification for the reserved space based on what is currently required by and provided to the applicable Commission. BellSouth shall remove obsolete unused equipment from the premises according to its scheduled date for such removal. BellSouth shall, upon request from Sprint, remove obsolete unused equipment from its premises prior to BellSouth's scheduled removal of such equipment, to make available the amount of space requested for collocation by Sprint. There will be no additional cost for such removal of obsolete and unused equipment over and above the Space Preparation Charges assessed for said collocation space. Consistent with FCC Rule 51.323(f)(5), BellSouth shall relinquish any space held for future use prior to denying a Sprint request for virtual collocation unless BellSouth proves to the Commission that virtual collocation at that point is not technically feasible. Neither BellSouth nor any of BellSouth's affiliates may reserve space for future use on more preferential terms than those set forth above.
- 1.2.2.1 For Tennessee, upon denial of a Sprint request for physical collocation, BellSouth shall provide justification for the reserved space to Sprint based on a demand and facility forecast which includes, but is not limited to, three to five years of historical data and forecasted growth, in twelve month increments, by functional type of equipment (e.g., switching, transmission, power, etc.). In estimating the space requirement for growth, BellSouth shall use the most recent access line growth rate and use the space requirement data applicable to any planned changes that reflect forward looking technology as it relates to switching, power, MDF and DCS. BellSouth shall not reserve active space that is supported by existing telecommunications infrastructure without growth forecasts to support such reservation. BellSouth shall disclose to Sprint the space it reserves for its own future growth and for its interLATA, advanced services, and other affiliates upon request and in conjunction with a denial of Sprint's request for physical collocation, subject to appropriate proprietary protections.
- 1.3 Use of Space. Sprint shall use the Collocation Space for the purposes of installing, maintaining and operating Sprint's equipment (to include testing and monitoring equipment) necessary, as that term is defined by the FCC, for interconnection with BellSouth services and facilities or for accessing BellSouth unbundled network elements for the provision of telecommunications services. The Collocation Space may be used by Sprint [OK for BST 12/14/01] for any purposes consistent with effective FCC and state Commission Orders or as authorized in writing by BellSouth.
- 1.4 Rates and charges. Sprint agrees to pay the rates and charges identified at Exhibit C attached hereto.

- 1.5 Due Dates. Except in Georgia, if any due date contained in this Attachment falls on a weekend or National holiday, then the due date will be the next business day thereafter.

## 2. **Space Notification**

- 2.1 Availability of Space. BellSouth will permit Sprint to physically collocate, pursuant to the terms of this Attachment, at any BellSouth Premises, unless BellSouth is prepared to demonstrate to the State Commission pursuant to Section 2.4 that there is no space available due to space limitations or no space available due to technical infeasibility. Unless otherwise specified, BellSouth will respond to an application within ten (10) calendar days as to whether the Application is Bona Fide (“Bona Fide”) and if it is not Bona Fide, the items necessary to cause the Application to become Bona Fide. Additionally, BellSouth shall notify Sprint as to whether space is available or not available within a BellSouth Premises. If BellSouth determines that the amount of space requested by Sprint is not available, BellSouth’s response will identify the amount of space that is available.
- 2.1.1 In Florida, BellSouth shall respond within fifteen (15) calendar days from receipt of an application.
- 2.2 Reporting. Upon request from Sprint, BellSouth will provide a written report specifying the amount of collocation space available at the Premises requested, the number of collocators present at the Premises, any modifications in the use of the space since the last report at the Premises requested and the measures BellSouth is taking to make additional space available for collocation arrangements.
- 2.2.1 The request from Sprint must be written and must include the Premises and Common Language Location Identification (CLLI) code of the Premises. Such information regarding Premises and CLLI code is located in the National Exchange Carriers Association (NECA) Tariff FCC No. 4.
- 2.2.2 BellSouth will respond to a request for a report regarding space availability for a particular BellSouth Premise in accordance with the following intervals from receipt of such request. BellSouth will respond in ten (10) calendar days to requests for a report regarding space availability in the top 100 MSAs. For those requests that do not fall within the top 100 MSAs, BellSouth will respond in ten (10) calendar days to such a request when the request includes up to and including ten (10) BellSouth Premises locations within the same State. BellSouth will respond within fifteen (15) calendar days to the request for the eleventh (11) to fifteenth (15) locations within the same State. BellSouth will respond within twenty (20) calendar days to the request for the sixteenth (16) to twentieth (20) locations within the same State. When Sprint requests greater than twenty (20) locations within a State, BellSouth's time for response will increase in a similar five (5) calendar day intervals for the additional (5) five locations

requested (e.g. twenty-five (25) days for twenty-first to twenty-fifth locations; thirty (30) days for twenty-sixth to thirtieth locations, etc.).

- 2.3 Denial of Application. If BellSouth contends space for physical collocation is not available in a BellSouth Premises (“Denial of Application”), BellSouth shall notify Sprint in writing, pursuant to Section 2.1 of this Attachment. The written notice of denial shall provide Sprint with information relevant to the denial of its request for collocation space, give some detail as to why the space was denied, and information regarding planned building additions and/or office relief plans to the extent they are known. In addition, BellSouth shall allow Sprint to tour the entire premises in question, not just the area in which space was denied, without charge, within ten (10) days, or such other time not to exceed thirty (30) calendar days as the Parties may mutually agree upon, of the receipt of BellSouth’s denial of space. Prior to the tour, BellSouth shall provide to Sprint engineering floor plans for the premise in question. The engineering floor plans provided to Sprint will be in the format that BellSouth uses when filing its petition for Waiver with the Commission. In the event said floor plans are illegible or more detailed information is required, upon request from Sprint, BellSouth shall provide full-sized, detailed engineering floor plans prior to the tour for the premise in question. In order to schedule said tour within ten (10) calendar days, the request for a tour of the Premises must be received by BellSouth within five (5) calendar days of the Denial of Application or as otherwise agreed to by the Parties.
- 2.4 Filing of Petition for Waiver. Upon Denial of Application, BellSouth will timely file a petition for Waiver with the Commission pursuant to 47 U.S.C. § 251(c)(6) in accordance with applicable Commission requirements. However, in the absence of any Commission requirement, BellSouth will file a Petition for Waiver within thirty (30) calendar days after the date of Denial of Application.
- 2.5 Waiting List. As new space becomes available, BellSouth will identify the quantity of space available and the type or types of physical collocation that can be accommodated in that space. BellSouth will maintain a waiting list of requesting carriers who have either received a Denial of Application or, where it is publicly known that the Premises is out of space, have submitted a Letter of Intent to collocate. BellSouth will notify those CLECs that can be accommodated on said waiting list that space shall become available within sixty (60) calendar days prior to space becoming available, to the extent known, where a waiver has previously been filed. If not known sixty (60) calendar days in advance, BellSouth shall notify carriers on the list within two (2) business days of the determination that space is available. The notification to the CLEC will include the following information: space availability date, which is the date that the subsequently available space becomes subject to Application for physical collocation, the date by which BellSouth must have received the updated, complete, and correct Application, which is thirty (30) calendar days following the space availability date, and the amount of space that BellSouth has identified as available for the customer. Within thirty (30) calendar days of the Space Availability date, Sprint must notify BellSouth in writing that Sprint

wants to maintain its place on the waiting list either without accepting such space or accepting an amount of space less than its original request. If Sprint does not submit such an application or notify BellSouth in writing as described above, BellSouth will offer such space to the next CLEC on the waiting list and remove Sprint from the waiting list. BellSouth will use best efforts to notify the next CLEC on the waiting list of the space availability as soon as practicable so that space availability can be communicated and assigned in an expeditious fashion. Upon request, BellSouth will advise Sprint as to its position on the list. In this scenario, if a CLEC that has been offered newly available space declines such space, BellSouth will use best efforts to notify the next CLEC on the waiting list of the space availability as soon as practicable so that space availability can be communicated and assigned in an expeditious fashion.

2.6 Public Notification. BellSouth will maintain on its Interconnection Services website a notification document that will indicate all Premises that are without available space. BellSouth shall update such document within ten (10) calendar days of the Denial of Application date. BellSouth will also post a document on its Interconnection Services website that contains a general notice where space has become available in a Central Office previously on the space exhaust list. BellSouth shall allocate said available space pursuant to the waiting list referenced in Section 2.5.

2.7 State Agency Procedures. Notwithstanding the foregoing, should any state or federal regulatory agency impose procedures or intervals that are applicable to Sprint that are different than those set forth in this section, those procedures or intervals shall supersede the requirements set forth herein for that jurisdiction.

### 3. **Collocation Options**

3.1 Cageless. BellSouth shall allow Sprint to collocate Sprint's equipment and facilities without requiring the construction of a cage or similar structure and without requiring the creation of a separate entrance to the Collocation Space. BellSouth shall allow Sprint to have direct access to its equipment and facilities but may require Sprint to use a central entrance to the BellSouth Premises. BellSouth shall make cageless collocation available in single bay increments pursuant to Section 6. Except where Sprint's equipment requires special technical considerations (e.g., special cable racking, isolated ground plane), BellSouth shall assign cageless Collocation Space in conventional equipment rack lineups where technically feasible. For equipment requiring special technical considerations, Sprint must provide the equipment layout, including spatial dimensions for such equipment pursuant to generic requirements contained in BellCore (Telcordia) GR-63-Core and shall be responsible for constructing all special technical requirements associated with such equipment pursuant to Section 5.5 following.

3.2 Cages and Adjacent Arrangement Enclosures. BellSouth shall authorize the enclosure of Sprint's equipment and facilities at Sprint's option. Sprint must arrange with a

- BellSouth certified contractor to construct a collocation arrangement enclosure in accordance with BellSouth's guidelines and specifications (hereinafter, "BellSouth's Guidelines"), or if there are more stringent applicable requirements, then pursuant to section 1.1.1 and at its sole expense. BellSouth will provide guidelines and specifications upon request. Sprint's BellSouth certified contractor shall be responsible for filing and receiving any and all necessary permits and/or licenses for such construction. The Certified Vendor shall bill Sprint directly for all work performed for Sprint pursuant to this Attachment and BellSouth shall have no liability for nor responsibility to pay such charges imposed by the Certified Vendor. Sprint must provide the local BellSouth building contact with two Access Keys used to enter the locked enclosure. Except in case of emergency, BellSouth will not access Sprint's locked enclosure prior to notifying Sprint.
- 3.2.1 BellSouth has the right to review Sprint's plans and specifications prior to allowing construction to start. Such review shall not unreasonably delay provisioning intervals as specified herein. BellSouth has the right to inspect the enclosure after construction to make sure it is designed and constructed according to BellSouth's guidelines and to require Sprint to remove or correct at Sprint's cost any structure that does not meet these BellSouth Guidelines.
- 3.3 Shared (Subleased) Caged Collocation. Sprint may allow other telecommunications carriers to share Sprint's caged collocation arrangement pursuant to terms and conditions agreed to by Sprint ("Host") and other telecommunications carriers ("Guests") and pursuant to this section with the following exceptions: (1) where local building code does not allow Shared (Subleased) Caged Collocation and (2) where the BellSouth Premises is located within a leased space and BellSouth is prohibited by said lease from offering such an option. Sprint shall notify BellSouth in writing upon execution of any agreement between the Host and its Guest within ten (10) business days of its execution and prior to any Firm Order. Further, such notice shall include the name of the Guest(s) and the term of the agreement, and shall contain a certification by Sprint that said agreement imposes upon the Guest(s) the same terms and conditions for collocation space as set forth in this Agreement between BellSouth and Sprint.
- 3.3.1 Sprint shall be the sole interface and responsible Party to BellSouth for assessment of rates and charges contained within this Attachment and for the purposes of ensuring that the safety and security requirements of this Attachment are fully complied with by the Guest, its employees and agents. BellSouth shall provide Sprint with a proration of the costs of the collocation space based on the number of collocators and the space used by each. In all states other than Florida, and in addition to the foregoing, Sprint shall be the responsible party to BellSouth for the purpose of submitting Applications for initial and additional equipment placement of Guest. In the event the Host and Guest jointly submit an Application, only one Application Fee will be assessed. A separate Guest Application shall require the assessment of an Application Fee, as set forth in Exhibit C. Notwithstanding the foregoing, Guest may arrange directly with

BellSouth for the provision of the interconnecting facilities between BellSouth and Guest and for the provision of the services and access to unbundled network elements.

3.3.2 Sprint shall indemnify and hold harmless BellSouth from any and all claims, actions, and causes of action, of whatever kind or nature arising out of the presence of Sprint's Guests in the Collocation Space. Nothing herein shall be construed to require indemnification by a party for the willful misconduct or gross negligence of the other party or, where prohibited by law, indemnification for a party's own negligence or sole negligence and, to the extent such exclusion must be expressly stated the term indemnification as used in this section shall be construed to exclude specifically a party's gross negligence or willful misconduct and a party's own negligence or sole negligence. Where indemnification by a party is permitted for claims arising out of the other party's own negligence but such intention must be expressly stated, the term "indemnify" is used in this section shall include the duty to indemnify for such other party's negligence. Nothing herein shall be construed to require indemnification in excess of that permitted by law and, to the extent any part of this section is found to be invalid or unenforceable, the parties agree that the obligation to indemnify under this Agreement shall be to the fullest extent permitted in the relevant jurisdiction, excluding only such claims as are prohibited therein.

3.4 Adjacent Collocation. BellSouth will provide adjacent collocation in controlled environmental vaults or similar structures to be constructed or otherwise procured by Sprint ("Adjacent Arrangement") where space within the Premises is legitimately exhausted, subject to technical feasibility, and reasonable safety and maintenance requirements. BellSouth and Sprint will mutually agree on the location of the designated space on the BellSouth property where the adjacent structure, such as a controlled environmental vault or similar structure, will be placed. BellSouth may withhold agreement with respect to a location, which would otherwise be prohibited pursuant to Section 1.1. Neither party shall unreasonably withhold agreement as to any proposed location, provided, however, that it shall be in BellSouth's final discretion as to the location of the adjacent structure. The Adjacent Arrangement shall be constructed or procured by Sprint and in conformance with BellSouth's design and construction specifications in effect at the time the adjacent structure is requested. After the adjacent arrangement is constructed any changes to these specifications will not be binding on Sprint for such already constructed arrangements without Sprint's prior written concurrence. Further, Sprint shall construct, procure, maintain and operate said Adjacent Arrangement(s) pursuant to all of the terms and conditions set forth in this Attachment. Rates shall be negotiated at the time of the request for Adjacent Collocation.

3.4.1 Should Sprint elect such option, Sprint must arrange with a BellSouth certified contractor to construct an Adjacent Arrangement structure in accordance with BellSouth's guidelines and specifications, or if there are more stringent applicable requirements, then pursuant to section 1.1.1. BellSouth will provide guidelines and specifications upon request.

- 3.4.2 Sprint's contractor shall be responsible for filing and receiving any and all necessary zoning, permits and/or licenses for such construction. Sprint's BellSouth Certified Vendor shall bill Sprint directly for all work performed for Sprint pursuant to this Attachment and BellSouth shall have no liability for nor responsibility to pay such charges imposed by the Certified Vendor. Sprint must provide the local BellSouth building contact with two cards, keys or other access device used to enter the locked enclosure. Except in cases of emergency, BellSouth shall not access Sprint's locked enclosure prior to notifying Sprint.
- 3.4.3 BellSouth maintains the right to review Sprint's plans and specifications prior to construction of an Adjacent Arrangement(s). BellSouth may inspect the Adjacent Arrangement(s) following construction and prior to commencement, as defined in Section 4.1 following, to ensure the design and construction comply with BellSouth's Guidelines. Such review shall not unreasonably delay provisioning intervals as specified herein. BellSouth may require Sprint, at Sprint's sole cost, to correct any deviations from BellSouth's Guidelines found during such inspection(s), as such Guidelines existed at the time the application was accepted by BellSouth. Such corrections may include removal of the Adjacent Arrangement, within five (5) business days of BellSouth's inspection, unless the Parties mutually agree to an alternative time frame.
- 3.4.4 Sprint shall provide a concrete pad, the structure housing the arrangement, HVAC, lighting, and all facilities that connect the structure (i.e. racking, conduits, etc.) to the BellSouth point of interconnection. At Sprint's option, BellSouth shall provide an AC power source and access to physical collocation services and facilities subject to the same nondiscriminatory requirements as applicable to any other physical collocation arrangement. In Alabama and Louisiana, BellSouth will provide DC power to Adjacent Collocation sites where technically feasible, as that term has been defined by the FCC, and subject to individual case basis pricing. Sprint's contractor shall be responsible for filing and receiving any and all necessary zoning, permits and/or licenses for such arrangement.
- 3.4.5 BellSouth shall allow Shared (Subleased) Caged Collocation within an Adjacent Arrangement pursuant to the terms and conditions set forth in Section 3.3 preceding.
- 3.5 Co-carrier Cross Connect (CCXC). At BellSouth's sole option, BellSouth will provide, or permit Sprint to provide, a connection between the equipment in the collocated spaces of Sprint and any other telecommunications carrier whose Agreement contains co-carrier cross-connect language. Sprint's use of the collocation space for interconnection with BellSouth or accessing BellSouth's Unbundled Network Elements and using Co-carrier Cross Connects shall be in accordance with the FCC's Fourth Report and Order in Docket No. 98-147. If BellSouth elects to provision the CCXC, the rates, terms and conditions shall be negotiated between the Parties.

- 3.5.1 If Sprint provisions the CCXC to other telecommunications carriers, such connections to other carriers may be made using either optical or electrical facilities. Sprint may deploy such optical or electrical connections directly between its own facilities and the facilities of the other telecommunications carrier(s) without being routed through BellSouth equipment. Sprint may not self-provision CCXC on any BellSouth distribution frame, Pot Bay, DSX or LGX. If either collocation arrangement is a virtual collocation arrangement, the CLEC having the virtual collocation arrangement must either have sufficient terminations for the CCXC cable or must provide additional termination equipment in its arrangement. Sprint and the other CLEC shall not intermingle their equipment within a virtual collocation arrangement. Sprint is responsible for ensuring the integrity of the signal.
- 3.5.2 Sprint shall be responsible for obtaining authorization from the other telecommunications carrier(s) involved. If Sprint provisions the CCXC to other telecommunications carriers, Sprint must use a BellSouth Certified Vendor to place the CCXC in cases where the Sprint equipment and the equipment of the other telecommunications carrier are not located within caged contiguous collocation spaces. There will be a recurring charge per linear foot, per cable of common cable support structure used.
- 3.5.3 In cases where Sprint's equipment and the equipment of the other telecommunications carrier are located in caged contiguous collocation spaces, Sprint shall have the option to deploy the CCXCs between the sets of equipment. Sprint shall have the option of constructing its own dedicated support structure or utilizing BellSouth's common cable support structure. There will be a recurring charge per linear foot, per cable of common cable support structure used.
- 3.5.4 Sprint may order CCXC in its initial Application. In the Application, Sprint must include the type of cross connect facilities to be used, the name of the telecommunications carrier(s) to whom the CCXC is to be routed, and a copy of the authorization from all other telecommunications carriers involved. If Sprint, or Sprint's Guest(s) in a shared arrangement, desires to order CCXC after the Bona Fide Firm Order, Sprint must submit to BellSouth a complete Subsequent Application containing the same CCXC information as required in an initial Application. If Sprint submits a Subsequent Application for CCXC only, the Subsequent Application fee for CCXC as defined in Exhibit C will apply. If Sprint submits a Subsequent Application for CCXCs in addition to other modifications to the Collocation Space, a Subsequent Application Fee will be assessed pursuant to Sections 6.1.2 and 6.1.3.

#### **4. Occupancy**

- 4.1 Commencement Date. The "Commencement Date" shall be the day Sprint's equipment becomes operational as described in Article 4.2, following.

4.2 Occupancy. BellSouth will notify Sprint in writing that the Collocation Space is ready for occupancy. Sprint must place operational telecommunications equipment in the Collocation Space and connect with BellSouth's network within one hundred eighty (180) calendar days after receipt of such notice unless otherwise agreed to by the Parties. Sprint must notify BellSouth in writing that collocation equipment installation is complete and is operational with BellSouth's network. BellSouth may, at its option, not accept orders for interconnected service until receipt of such notice. If Sprint fails to place operational telecommunications equipment in the Collocation Space within one hundred eighty (180) calendar days, unless otherwise agreed to by the Parties, and such failure continues for a period of thirty (30) calendar days after receipt of written notice from BellSouth, then and in that event Sprint's right to occupy the Collocation Space terminates and BellSouth shall have no further obligations to Sprint with respect to said Collocation Space. Termination of Sprint's rights to the Collocation Space pursuant to this paragraph shall not operate to release Sprint from its obligation to reimburse BellSouth for all costs reasonably incurred by BellSouth in preparing the Collocation Space, but rather such obligation shall survive this Attachment. For purposes of this paragraph, Sprint's telecommunications equipment will be deemed operational when cross-connected to BellSouth's network for the purpose of service provision.

4.3 Termination. Except where otherwise agreed to by the Parties, Sprint may terminate occupancy in a particular Collocation Space upon thirty (30) calendar days prior notice to BellSouth by submitting an Application. An Application Fee will not apply. Upon termination of such occupancy, Sprint at its expense shall remove its equipment and other property from the Collocation Space. Sprint shall have thirty (30) calendar days from the termination date, or such other period as agreed to by the Parties, to complete such removal, including the removal of all equipment and facilities of Sprint's Guests; provided, however, that Sprint shall continue payment of monthly fees to BellSouth until such date as Sprint has fully vacated the Collocation Space. Should Sprint fail to vacate the Collocation Space within thirty (30) calendar days from the termination date, BellSouth shall have the right to remove the equipment and other property of Sprint at Sprint's expense and with no liability for damage or injury to Sprint's property unless caused by the gross negligence or intentional misconduct of BellSouth. Upon expiration of this Attachment, Sprint shall surrender the Collocation Space to BellSouth in the same condition as when first occupied by Sprint except for ordinary wear and tear. Sprint shall be responsible for the cost of removing any enclosure, together with all support structures (e.g., racking, conduits), of an Adjacent Collocation arrangement at the termination of occupancy and restoring the grounds to their original condition unless Sprint at its sole discretion sub-leases or otherwise conveys such enclosure.

## 5. **Use of Collocation Space**

5.1 Equipment Type. BellSouth permits the collocation of any type of equipment necessary for interconnection to BellSouth's network or for access to BellSouth's

unbundled network elements in the provision of telecommunications services, as the term “necessary” is defined by FCC 47 C.F.R. Section 51.323 (b). The primary purpose and function of any equipment collocated in a Premises must be for interconnection to BellSouth’s network or for access to BellSouth’s unbundled network elements in the provision of telecommunications services.

- 5.1.1 Examples of equipment that would not be considered necessary include but are not limited to: Traditional circuit switching equipment, equipment used exclusively for call-related databases, computer servers used exclusively for providing information services, operations support system (OSS) equipment used to support CLEC network operations, equipment that generates customer orders, manages trouble tickets or inventory, or stores customer records in centralized databases, etc. BellSouth will determine upon receipt of an application if the requested equipment is necessary based on the criteria established by the FCC. Multifunctional equipment placed on BellSouth's Premises must not place any greater relative burden on BellSouth's property than comparable single-function equipment. BellSouth reserves the right to permit collocation of any equipment on a nondiscriminatory basis.
- 5.1.2 Such equipment must, at a minimum meet the following Telcordia Network Equipment Building Systems (NEBS) General Equipment Requirements: Criteria Level 1 requirements as outlined in the Telcordia Special Report SR-3580, Issue 1; equipment design spatial requirements per GR-63-CORE, Section 2; thermal heat dissipation per GR-063-CORE, Section 4, Criteria 77-79; acoustic noise per GR-063-CORE, Section 4, Criterion 128, and National Electric Code standards. BellSouth may not object to the collocation of equipment on the grounds that the equipment does not comply with safety or engineering standards that are more stringent than the safety or engineering standards that BellSouth applies to its own equipment. BellSouth may not object to the collocation of equipment on the ground that the equipment fails to comply with NEBS performance standards. If BellSouth denies collocation of Sprint's equipment, citing safety standards, BellSouth must provide to Sprint within five (5) business days of the denial a list of all equipment that BellSouth locates within the premises in question, together with an affidavit attesting that all of that equipment meets or exceeds the safety standard that BellSouth contends Sprint’s equipment fails to meet.
- 5.1.3 Sprint shall not request more DS0, DS1, DS3 and optical terminations for a collocation arrangement than the total port or termination capacity of the equipment physically installed in the arrangement. The total capacity of the equipment collocated in the arrangement will include equipment contained in the application in question as well as equipment already placed in the arrangement. If full network termination capacity of the equipment being installed is not requested in the application, additional network terminations for the installed equipment will require the submission of another application. In the event that Sprint submits an application for terminations that exceed the total capacity of the collocated equipment, Sprint will be informed of the discrepancy and will be required to submit a revision to the application.

- 5.1.4 Sprint shall not use the Collocation Space for marketing purposes nor shall it place any identifying signs or markings in the area surrounding the Collocation Space or on the grounds of the Premises.
- 5.1.5 Sprint shall place a plaque or other identification affixed to Sprint's equipment necessary to identify Sprint's equipment, including a list of emergency contacts with telephone numbers.
- 5.2 Entrance Facilities. Sprint may elect to place Sprint-owned or Sprint-leased fiber entrance facilities into the Collocation Space. The Parties will discuss the proposed point of entrance in an attempt to mutually agree upon a point of entrance provided, however, that it will be in BellSouth's final discretion to designate the point of entrance in close proximity to the Central Office building housing the Collocation Space, such as an entrance manhole or a cable vault which are physically accessible by both parties. Sprint will provide and place fiber cable at the point of entrance of sufficient length to be pulled through conduit and into the splice location. Sprint will provide and install a sufficient length of fire retardant riser cable, to which the entrance cable will be spliced, which will extend from the splice location to Sprint's equipment in the Collocation Space. In the event Sprint utilizes a non-metallic, riser-type entrance facility, a splice will not be required. Sprint must contact BellSouth for instructions prior to placing the entrance facility cable in the manhole. Sprint is responsible for maintenance of the entrance facilities. At Sprint's option, BellSouth will accommodate where technically feasible a microwave entrance facility pursuant to separately negotiated terms and conditions referenced in Attachment 4C of this Agreement. In Florida, in the case of adjacent collocation, unless BellSouth determines that limited space is available for the entrance facilities, copper facilities may be used between the adjacent collocation arrangement and the central office termination point.
- 5.2.1 Dual Entrance. BellSouth will provide at least two interconnection points at each Premises where there are at least two such interconnection points available. Where dual entrance does not exist, or there is a lack of capacity, BellSouth will construct such dual entrance upon Sprint's request, where technically feasible and at Sprint's sole expense. Such construction will be considered an extraordinary modification and charges for such construction shall be assessed accordingly on an individual case basis. Upon receipt of a request for physical collocation under this Attachment, BellSouth shall provide Sprint with information regarding BellSouth's capacity to accommodate dual entrance facilities. If conduit in the serving manhole(s) is available, BellSouth will make the requested conduit space available for installing a second entrance facility to Sprint's arrangement. The Parties will discuss the proposed location of the serving manhole(s) in an attempt to mutually agree upon a point of entrance provided, however, that it will be in BellSouth's final discretion as to the location of the serving manhole. Where dual entrance is not available due to lack of capacity, BellSouth will so state in the Application Response.

- 5.2.2 Shared Use. Sprint may utilize spare capacity on an existing interconnector entrance facility for the purpose of providing an entrance facility to another Sprint collocation arrangement within the same BellSouth Central Office. Sprint must arrange with BellSouth for BellSouth to splice the utilized entrance facility capacity to Sprint-provided riser cable.
- 5.3 Splicing in the Entrance Manhole. Although not generally permitted, should Sprint request a splice to occur in the entrance manhole(s), BellSouth, at its sole discretion, may grant such a request, provided that BellSouth will not unreasonably withhold approval of requests to make such a splice. When the request for a splice is granted to Sprint by BellSouth, Sprint shall ensure its employees or agents entering and/or performing work in the entrance manhole(s) are trained and comply with BellSouth procedures and OSHA requirements regarding access to manholes and that BellSouth personnel are notified and present for all entrances and work performed in the entrance manhole(s). Manhole covers shall be properly closed and secured at the conclusion of entry and/or work. Advance notification to BellSouth shall occur at a minimum of 48 hours prior to desired entry for normal work activities and at a minimum of 2 hours prior to desired entry in an out of service condition.
- 5.4 Demarcation Point. In Alabama, Georgia, Louisiana, Mississippi and South Carolina, BellSouth will designate the point(s) of demarcation between Sprint's equipment and/or network and BellSouth's network. BellSouth will make a good faith effort to locate the demarcation point as close to Sprint's collocation space as technically feasible. Each party will be responsible for maintenance and operation of all equipment/facilities on its side of the demarcation point. For 2-wire and 4-wire connections to BellSouth's network, the demarcation point shall be a common block on the BellSouth designated conventional distributing frame. Sprint shall be responsible for providing, and Sprint's BellSouth Certified Vendor shall be responsible for installing and properly labeling/stenciling, the common block, and necessary cabling pursuant to Section 6.8. For all other terminations BellSouth shall designate a demarcation point on a per arrangement basis. Sprint or its agent must perform all required maintenance to equipment/facilities on its side of the demarcation point, pursuant to subsection 5.5, following, and may self-provision cross-connects that may be required within the collocation space to activate service requests. At Sprint's option and expense, a Point of Termination (POT) bay or frame may be placed in the Collocation Space, but will not serve as the demarcation point. Sprint must make arrangements with a BellSouth certified vendor for such placement.
- 5.4.1 Demarcation Point (Florida). At Sprint's expense, a Point of Termination ("POT") bay or frame may be placed in the Collocation Space in Sprint's designated equipment line-up, and shall serve as the demarcation point, provided that BellSouth has twenty-four (24) hours a day, seven (7) days a week unrestricted access for purposes of testing and maintenance. BellSouth will identify each cable extension (i.e., T-1, T-3, DSO) by correctly stenciling and labeling each cable extension as to its corresponding

- termination point(s) on the BellSouth network frame or bay. Sprint or its agent must perform all required maintenance to equipment/facilities on its side of the demarcation point, except as provided above, and may self-provision cross-connects that may be required within the collocation space to activate service requests. This demarcation point arrangement shall be utilized unless otherwise agreed to by the Parties.
- 5.4.2 **Demarcation Point (Tennessee).** BellSouth will designate the point(s) of demarcation between Sprint's equipment and/or network and BellSouth's network. Each Party will be responsible for maintenance and operation of all equipment/facilities on its side of the demarcation point. The demarcation point shall be a Sprint provided Point of Termination Bay (POT Bay) in a common area within the Premises. BellSouth will make a good faith effort to locate Sprint's POT Bay as close to Sprint's collocation space as technically feasible. In all cases BellSouth will make the final determination of the specific location. Sprint shall be responsible for providing, and a supplier certified by BellSouth ("Sprint's Certified Supplier") shall be responsible for installing and properly labeling, the POT Bay as well as the necessary cabling between Sprint's collocation space and the demarcation point. Sprint or its agent must perform all required maintenance to equipment/facilities on its side of the demarcation point, pursuant to Section 5.5, following, and may self-provision cross-connects that may be required within the Collocation Space to activate service requests.
- 5.5 **Sprint's Equipment and Facilities.** Sprint, or if required by this Attachment, Sprint's BellSouth certified vendor, is solely responsible for the design, engineering, installation, testing, provisioning, performance, monitoring, maintenance and repair of the equipment and facilities used by Sprint. Such equipment and facilities may include but are not limited to cable(s), equipment, and point of termination connections.
- 5.6 **Easement Space.** From time to time BellSouth may require access to the Collocation Space. BellSouth retains the right to access such space for the purpose of making BellSouth equipment and building modifications (e.g., running, altering or removing racking, ducts, electrical wiring, HVAC, and cables). BellSouth will give reasonable notice to Sprint when access to the Collocation Space is required. Sprint may elect to be present whenever BellSouth performs work in the Collocation Space. The Parties agree that Sprint will not bear any of the expense associated with this work.
- 5.7 **Access.** Pursuant to Section 11, Sprint shall have access to the Collocation Space twenty-four (24) hours a day, seven (7) days a week. Sprint agrees to provide the name and social security number or date of birth or driver's license number of each employee, contractor, or agent provided with Access Keys or cards ("Access Keys") prior to the issuance of said Access Keys. Access Keys shall not be duplicated under any circumstances. Sprint agrees to be responsible for all Access Keys and for the return of all said Access Keys in the possession of Sprint employees, contractors, Guests, or agents after termination of the employment relationship, contractual obligation with Sprint or upon the termination of this Attachment or the termination of occupancy of an individual collocation arrangement.

- 5.8 Lost or Stolen Access Keys. Sprint shall notify BellSouth in writing immediately in the case of lost or stolen Access Keys. Should it become necessary for BellSouth to re-key buildings as a result of an Access Key(s) lost or not returned by Sprint, Sprint shall pay for all reasonable and demonstrative costs associated with the re-keying.
- 5.9 Interference or Impairment. Notwithstanding any other provisions of this Attachment, equipment and facilities placed in the Collocation Space shall not interfere with or impair service provided by BellSouth or by any other interconnector located in the Central Office; shall not endanger or damage the facilities of BellSouth or of any other interconnector, the Collocation Space, or the Central Office; shall not compromise the privacy of any communications carried in, from, or through the Central Office; and shall not create an unreasonable risk of injury or death to any individual or to the public. If BellSouth reasonably determines that any equipment or facilities of Sprint violate the provisions of this paragraph, BellSouth shall give written notice to Sprint, which notice shall direct Sprint to cure the violation within forty-eight (48) hours of Sprint's actual receipt of written notice or, at a minimum, to commence curative measures within 24 hours and to exercise reasonable diligence to complete such measures as soon as possible thereafter. After receipt of the notice, the parties agree to consult immediately and, if necessary, to inspect the arrangement. If Sprint fails to take curative action within 48 hours or if the violation is of a character which poses an immediate and substantial threat of damage to property, injury or death to any person, or interference/impairment of the services provided by BellSouth or any other interconnector, then and only in that event BellSouth may take such action as it deems appropriate to correct the violation, including without limitation the interruption of electrical power to Sprint's equipment. BellSouth will endeavor, but is not required, to provide notice to Sprint prior to taking such action and shall have no liability to Sprint for any damages arising from such action, except to the extent that such action by BellSouth constitutes gross negligence or willful misconduct.
- 5.10 Personalty and its Removal. Subject to requirements of this Attachment, Sprint may place or install in or on the Collocation Space such facilities and equipment, including storage for and spare equipment, as it deems desirable for the conduct of business; Provided that such equipment is telecommunications equipment, does not violate floor loading requirements, imposes or could impose or contains or could contain environmental conditions or hazards. Personal property, facilities and equipment placed by Sprint in the Collocation Space shall not become a part of the Collocation Space, even if nailed, screwed or otherwise fastened to the Collocation Space, but shall retain their status as personalty and may be removed by Sprint at any time. Any damage caused to the Collocation Space by Sprint's employees, agents or representatives during the removal of such property shall be promptly repaired by Sprint at its expense.
- 5.11 Alterations. In no case shall Sprint or any person acting on behalf of Sprint make any rearrangement, modification, improvement, addition, repair, or other alteration to the

Collocation Space or the BellSouth Central Office without the written consent of BellSouth, which consent shall not be unreasonably withheld. The cost of any such specialized alterations shall be paid by Sprint.

- 5.12 Janitorial Service. Sprint shall be responsible for the general upkeep and cleaning of the Caged Collocation Space and, if necessary, shall arrange directly with a BellSouth certified contractor for janitorial services. BellSouth shall provide a list of such contractors on a site-specific basis upon request.

## **6. Ordering and Preparation of Collocation Space**

- 6.1 Application for Space. Sprint shall submit an application document when Sprint or Sprint's Guest(s), as defined in Section 3.3, desires to request or modify the use of the Collocation Space.

- 6.1.1 Initial Application. For Sprint or Sprint's Guest(s) initial equipment placement, Sprint shall submit to BellSouth a complete and accurate Physical Expanded Interconnection Application Document (Bona Fide Application), together with payment of the Application Fee as stated in Exhibit C. The Bona Fide Application shall contain a detailed description and schematic drawing of the equipment to be placed in Sprint's Collocation Space(s) and an estimate of the amount of square footage required.

- 6.1.2 Subsequent Application (All states except Tennessee). In the event Sprint or Sprint's Guest(s) desire to modify the use of the Collocation Space, Sprint shall complete an Application document detailing all information regarding the modification to the Collocation Space. BellSouth shall determine what modifications, if any, to the Premises are required to accommodate the change requested by Sprint in the Application. Such necessary modifications to the Premises may include but are not limited to, floor loading changes, changes necessary to meet HVAC requirements, changes to power plant requirements, and equipment additions. The fee paid by Sprint for its request to modify the use of the Collocation Space shall be dependent upon the level of assessment needed for the modification requested. Where the subsequent application does not require assessment for provisioning or construction work by BellSouth, no Subsequent Application Fee will be required. The fee for an application where the modification requested has limited effect (e.g., does not require assessment related to capital expenditure by BellSouth) shall be the Subsequent Application Fee as set forth in Exhibit C. If the modification requires capital expenditure assessment, the full Application Fee Charge for the appropriate state shall apply. BellSouth shall provide a detailed explanation of the charges exceeding the minimum Subsequent Application Fee costs upon request. In the event such modifications require the assessment of a full Application Fee as set forth in Exhibit C, the outstanding balance shall be due by Sprint within 30 calendar days following Sprint's receipt of a bill or invoice from BellSouth.

- 6.1.3 Subsequent Application (Tennessee). In Tennessee, in the event Sprint or Sprint's Guest(s) desire to modify the use of the Collocation Space, Sprint shall complete an Application document detailing all information regarding the modification to the Collocation Space. BellSouth shall determine what modifications, if any, to the Premises are required to accommodate the change requested by Sprint in the Application. Such necessary modifications to the Premises may include but are not limited to, floor loading changes, changes necessary to meet HVAC requirements, changes to power plant requirements, and equipment additions. The fee paid by Sprint for its request to modify the use of the Collocation Space shall be dependent upon the level of assessment needed for the modification requested. Where the subsequent application does not require assessment for provisioning or construction work by BellSouth, no Planning Fee will be required. All other modifications shall require a Planning Fee assessed at the applicable Planning Fee rate in Exhibit C to this Attachment.
- 6.1.4 Subsequent Application for Power Reduction. If Sprint submits a Subsequent Application for power reduction only, the Subsequent Application fee for power reduction or to reduce BDFB fused positions as set forth in Exhibit C will apply.
- 6.2 Application Response.
- 6.2.1 In Georgia, Mississippi, and South Carolina, when space has been determined to be available, BellSouth will provide a comprehensive written response ("Application Response") within twenty (20) calendar days of receipt of a complete application. The Application Response will include, at a minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee and the space preparation fees, as described in Section 7.
- 6.2.2 In Alabama, when space has been determined to be available, BellSouth will provide a comprehensive written response ("Application Response") within thirty (30) calendar days of receipt of a complete application. The Application Response will include, at a minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee and the space preparation fees, as described in Section 7.
- 6.2.3 In Kentucky, and North Carolina, when space has been determined to be available, BellSouth will provide a written response ("Application Response") within twenty-three (23) business days of the receipt of a Bona Fide Application, which will include, at a minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee, and the space preparation fees, as described in Section 7.
- 6.2.4 In Florida, within fifteen (15) calendar days of receipt of a Bona Fide Application, when space has been determined to be available or when a lesser amount of space than that requested is available, then with respect to the space available, BellSouth will provide a written response ("Application Response") including sufficient information to enable Sprint to place a Firm Order. The Application Response will include, at a

- minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee, and the space preparation fees, as described in Section 7. When Sprint submits ten (10) or more Applications within ten (10) calendar days, the initial fifteen (15) day response period will increase by ten (10) days for every additional ten (10) Applications or fraction thereof.
- 6.2.5 In Louisiana, when space has been determined to be available, BellSouth will provide a written response (“Application Response”) within thirty (30) calendar days for one (1) to ten (10) Applications; thirty-five (35) calendar days for eleven (11) to twenty (20) Applications; and for requests of more than twenty (20) Applications it is increased by five (5) calendar days for every five (5) Applications received within five (5) business days. The Application Response will include, at a minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee, and the space preparation fees, as described in Section 7.
- 6.2.6 In Tennessee, BellSouth will provide a written response (“Application Response”) within thirty (30) calendar days of receipt of a Bona Fide Application. The Application Response will include, at a minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee, and the space preparation fees, as described in Section 7.
- 6.3 Bona Fide Firm Order.
- 6.3.1 Except as otherwise provided, Sprint shall indicate its intent to proceed with equipment installation in a BellSouth Central Office by submitting a Bona Fide Firm Order to BellSouth. A Bona Fide Firm Order requires Sprint to complete the Application/Inquiry process described in Subsection 6.1, preceding, and submit the Physical Expanded Interconnection Firm Order document (BSTEI-1P-F) indicating acceptance of the written application response provided by BellSouth (“Bona Fide Firm Order”) and all appropriate fees. The Bona Fide Firm Order must be received by BellSouth no later than thirty (30) calendar days after BellSouth’s response to Sprint’s Application/Inquiry.
- 6.3.2 In Kentucky and North Carolina, Sprint shall indicate its intent to proceed with equipment installation in a BellSouth Premises by submitting a Physical Expanded Interconnection Firm Order document (“Firm Order”) to BellSouth. A Firm Order shall be considered Bona Fide when Sprint has completed the Application/Inquiry process described in Section 6.1, preceding, and has submitted the Firm Order document indicating acceptance of the Application Response provided by BellSouth. The Bona Fide Firm Order must be received by BellSouth no later than five (5) business days after BellSouth’s Application Response to Sprint’s Bona Fide Application.
- 6.3.3 If Sprint makes changes to its application in light of BellSouth’s written Application Response, BellSouth will be required to re-evaluate and respond to the change(s). In

this event, BellSouth's provisioning interval will not start until the re-evaluation and response to the change(s) is complete and the Bona Fide Firm Order is received by BellSouth. Such re-evaluation of an application shall be completed promptly by BellSouth but in no event shall exceed the Application Response intervals as set forth in Section 6.2. Where such changes requested do not require assessment for provisioning and construction work by BellSouth, no Subsequent Application Fee will be required. If BellSouth needs to reevaluate Sprint's application as a result of changes requested by Sprint to Sprint's original application, and the modification requested has limited effect (e.g., does not require assessment related to capital expenditure by BellSouth), BellSouth may charge Sprint a Subsequent Application Fee. Major changes such as requesting additional space or adding additional equipment may require Sprint to resubmit the application with an application fee.

- 6.3.4 BellSouth will establish a firm order date, per request, based upon the date BellSouth is in receipt of a Bona Fide Firm Order. BellSouth will acknowledge the receipt of Sprint's Bona Fide Firm Order with a Firm Order Confirmation containing the firm order date within seven (7) calendar days of receipt indicating that the Bona Fide Firm Order has been received.
- 6.3.5 BellSouth will permit one accompanied site visit to Sprint's designated collocation arrangement location after receipt of the Bona Fide Firm Order without charge to Sprint. Such accompanied site visits and associated charges will not apply subsequent to Sprint's completion of BellSouth Security Training requirements.
- 6.3.6 Sprint must submit to BellSouth the completed Access Control Request Form (RF-2906-C) for all employees or agents requiring access to the BellSouth Premises a minimum of 30 calendar days prior to the date Sprint desires access to the Collocation Space. In order to permit reasonable access during construction of the Collocation Space, Sprint may submit such a request at any time subsequent to BellSouth's receipt of the Bona Fide Firm Order. For access requests subsequent to the accompanied site visit permitted in 6.3.2 above but prior to approval of Sprint's Access Control Request Form, BellSouth shall permit Sprint to access the Collocation Space accompanied by a security escort at Sprint's expense. Sprint must request escorted access at least three (3) business days prior to the date such access is desired, unless otherwise agreed to by the Parties.
- 6.4 Construction and Provisioning Interval.
  - 6.4.1 In Kentucky and North Carolina, BellSouth will complete construction of collocation arrangements within seventy-six (76) business days from receipt of an Application or as agreed to by the Parties. Under extraordinary conditions, BellSouth will complete construction for collocation arrangements within ninety-one (91) business days. Examples of extraordinary conditions include, but are not limited to, major Company equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental

hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. In the event Sprint submits a forecast as described in the following section three (3) months or more prior to the application date, the above intervals shall apply. In the event Sprint submits such a forecast between two (2) months and three (3) months prior to the application date, the above intervals may be extended by one (1) additional month. In the event Sprint submits such a forecast less than two (2) months prior to the application date, the above intervals may be extended by sixty (60) calendar days. BellSouth will attempt to meet standard intervals for unforecasted requests and any interval adjustments will be discussed with Sprint at the time the application is received. Raw space, which is space lacking the necessary infrastructure to provide collocation space including but not limited to HVAC, Power, etc., conversion time frames fall outside the normal intervals and are negotiated on an individual case basis. BellSouth will use its best efforts to minimize the additional time required to condition collocation space and will inform Sprint of the time estimates as soon as possible.

- 6.4.1.1 To be considered a timely and accurate forecast, Sprint must submit to the Company the CLEC Forecast Form, as set forth in Exhibit B attached hereto, containing the following information: Central Office/Service Wire Center CLLI, number of Caged square feet and/or Cageless bays, number of DS0, DS1, DS3 frame terminations, number of fused amps and planned application date.
- 6.4.2 In Alabama, when preconditioned space is available BellSouth will complete construction for cageless collocation arrangements within thirty (30) calendar days from receipt of Bona Fide Firm Order, under ordinary conditions as soon as possible and within a maximum of sixty (60) calendar days from receipt of a Bona Fide Firm Order and ninety (90) calendar days for extraordinary conditions or as agreed to by the Parties. Preconditioned space is defined as space where all infrastructure is in place and all that is required is a record change to show that the space has been assigned to Sprint. Ordinary conditions are defined as space available with only minor changes to support systems required, such as but not limited to, HVAC, cabling and the power plant(s). Extraordinary conditions are defined to include but are not limited to major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.
- 6.4.3 In Georgia and Mississippi, BellSouth will complete construction for caged collocation arrangements under ordinary conditions as soon as possible and within a maximum of ninety (90) calendar days from receipt of a Bona Fide Firm Order or as agreed to by the Parties. BellSouth will complete construction for cageless collocation arrangements under ordinary conditions as soon as possible and within a maximum of sixty (60) calendar days from receipt of a Bona Fide Firm Order and ninety (90)

- calendar days for extraordinary conditions or as agreed to by the Parties. Ordinary conditions are defined as space available with only minor changes to support systems required, such as but not limited to, HVAC, cabling and the power plant(s). Extraordinary conditions are defined to include but are not limited to major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. Under extraordinary conditions, BellSouth may elect to renegotiate an alternative provisioning interval with Sprint or seek a waiver from this interval from the Commission.
- 6.4.4 In Florida, BellSouth will complete construction for collocation arrangements as soon as possible and within a maximum of ninety (90) calendar days from receipt of a Bona Fide Firm Order or as agreed to by the Parties. If BellSouth does not believe that construction will be completed within the relevant time frame and BellSouth and Sprint cannot agree upon a completion date, within forty-five (45) calendar days of receipt of the Bona Fide Firm Order for an initial request, BellSouth may seek an extension from the Florida PSC.
- 6.4.5 In Louisiana, BellSouth will complete construction for collocation arrangements under ordinary conditions as soon as possible and within a maximum of ninety (90) calendar days from receipt of a Bona Fide Firm Order for an initial request, or as agreed to by the Parties. Ordinary conditions are defined as space available with only minor changes to support systems required, such as but not limited to, HVAC, cabling and the power plant(s). BellSouth will complete construction of all other Collocation Space ("extraordinary conditions") within one hundred twenty (120) calendar days of the receipt of a Bona Fide Firm Order. Examples of extraordinary conditions include but are not limited to major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. The Parties may elect to renegotiate an alternative provisioning interval with Sprint or seek a waiver from this interval from the Commission.
- 6.4.6 In South Carolina, BellSouth will complete the construction and provisioning activities for cageless and caged collocation arrangements as soon as possible, but no later than ninety (90) calendar days from receipt of a bona fide firm order. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.
- 6.4.7 In Tennessee, BellSouth will complete construction for collocation arrangements under Ordinary Conditions as follows: (i) for caged collocation arrangements, within a maximum of 90 calendar days from receipt of an Bona Fide Firm Order, or as agreed to by the Parties; (ii) for cageless collocation arrangements, within 30 calendar days from receipt of a Bona Fide Firm Order when there is conditioned space and Sprint

installs the bays/racks. In no event shall the provisioning interval for cageless collocation exceed 90 calendar days from the receipt of a Bona Fide Firm Order, or as agreed to by the Parties. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission. For the purpose of defining conditioned space as referenced in the TRA order setting intervals for cageless collocation in Tennessee, the following conditions must apply: i) floor space must be available; ii) floor space must be equipped with adequate air conditioning to accommodate equipment listed on application; iii) Cable racking, any fiber duct, riser cable support structure and power cable support structure must be in place to support equipment listed on the application; and iv) power plant capacity at BDFB or main power board must be available. If LGX or DGX equipment is requested on the application and adequate existing capacity is not available then conditioned space is considered unavailable. If BellSouth is required by the application to place power cabling, conditioned space is considered unavailable.

6.4.8 Augments are defined as changes to collocation space after initial space completion (“Augmentation”).

6.4.8.1 In Florida, upon receipt of a Bona Fide Firm Order, BellSouth will complete Augments within forty-five (45) calendar days. If BellSouth does not believe that construction will be completed within the relevant time frame and BellSouth and Sprint cannot agree upon a completion date, BellSouth may seek an extension from the Florida PSC by giving written notice to the Florida PSC within thirty (30) calendar days from date BellSouth receives the Bona Fide Firm Order from Sprint.

6.4.8.2 In Georgia, BellSouth will complete simple augments, such as the placement of additional AC convenience outlets, or only a fuse change for additional DC power, within twenty (20) days from BellSouth’s receipt of Sprint’s Bona Fide Firm Order. For minor augments, such as interconnection cabling arrangements where the infrastructure exists, BellSouth will complete said augments within forty-five (45) days from the receipt of the application Sprint’s Bona Fide Firm Order. The interval for intermediate augments, consisting of additional interconnect panels/blocks, cabling DC Power arrangements, where minor infrastructure work is required, shall be sixty (60) days from BellSouth’s receipt of Sprint’s Bona Fide Firm Order. Within sixty (60) days of the execution of this agreement, the Parties shall meet to determine the specific augmentations that shall be included in the augmentation provisioning categories noted above (i.e., simple augments, minor augments and intermediate augments). If the Parties are unable to reach agreement, the Parties shall utilize the Dispute Resolution procedures set forth in Section 14 of the General Terms and Conditions of this Agreement.

6.4.8.3 In Louisiana, BellSouth will complete Augmentation requests within sixty (60) calendar days from the receipt of a Bona Fide Firm Order.

- 6.4.8.4 For North Carolina, the parties acknowledge that the issue as to whether BellSouth should be willing to commit to specific completion intervals for specific types of additions and augmentations to the collocation space is currently before the Commission and agree to modify this Agreement to conform to the orders of said Commission.**
- 6.5 Joint Planning Meeting. Unless otherwise agreed to by the Parties, a joint planning meeting or other method of joint planning between BellSouth and Sprint will commence within a maximum of fifteen (15) business days from BellSouth's receipt of a Bona Fide Firm Order. At such meeting, the Parties will agree to the preliminary design of the Collocation Space and the equipment configuration requirements as reflected in the Application and affirmed in the Bona Fide Firm Order. The Collocation Space Completion time period will be provided to Sprint during the joint planning meeting or as soon as possible thereafter. BellSouth will complete all design work following the joint planning meeting.
- 6.6 Permits. Each Party or its agents will diligently pursue filing for the permits required for the scope of work to be performed by that Party or its agents within seven (7) business days of the completion of finalized construction designs and specifications.
- 6.7 Acceptance Walk Through. Sprint and BellSouth will complete an acceptance walk through of each Collocation Space requested from BellSouth by Sprint within fifteen (15) calendar days of BellSouth's notifying Sprint that the collocation space is ready for occupancy ("Space Ready Date"). In the event that Sprint fails to complete an acceptance walkthrough within this fifteen (15) day interval, the Collocation Space shall be deemed accepted by Sprint. BellSouth will correct any deviations to Sprint's original or jointly amended requirements within five (5) business days after the walk through, unless the Parties jointly agree upon a different time frame.
- 6.7.1 Prior to the expiration of the fifteen (15) calendar days the Parties may mutually agree to conduct the walk through after the fifteen (15) calendar days but no later than thirty (30) calendar days. Upon completion of the walk through, if the Parties mutually agree discrepancies exist, BellSouth will credit Sprint for the charges applied after the fifteen (15) calendar days and prior to the walk through. BellSouth will correct any mutually agreed to deviations to Sprint's original or jointly amended requirements within five (5) business days after the walk through, unless the Parties jointly agree upon a different time frame.
- 6.8 Circuit Facility Assignments (CFAs). Unless otherwise specified, BellSouth will make best efforts to provide CFAs to Sprint prior to the calculated Space Ready Date for those Premises in which Sprint has a physical collocation with no POT bay or with a POT bay provided by BellSouth prior to 6/1/99. BellSouth will make best efforts to provide CFAs to Sprint prior to the calculated Space Ready Date for those Premises in which Sprint has a physical collocation with a POT bay provided by Sprint prior to

6/1/99 or a virtual collocation after Sprint provides BellSouth with the following information:

For Sprint-provided POT bay - a complete layout of the POT panels showing locations, speeds, etc.

For virtual - a complete layout of Sprint's equipment (equipment inventory update (EIU) form), including locations of the low speed ports and specific frame termination the equipment will be wired to by Sprint's Certified Supplier

BellSouth will bill Sprint a nonrecurring charge as set forth in Exhibit C each time Sprint requests a resend of CFAs.

- 6.9 Use of Certified Vendor. Sprint shall select a vendor which has been approved as a BellSouth Certified Vendor to perform all engineering and installation work required in the Collocation Space. In some cases, Sprint must select separate BellSouth Certified Vendors for transmission equipment, switching equipment and power equipment. BellSouth shall provide Sprint with a list of Certified Vendors upon request. The Certified Vendor(s) shall be responsible for installing Sprint's equipment and components, installing co-carrier cross connects, extending power cabling to the BellSouth power distribution frame, performing operational tests after installation is complete, and notifying BellSouth's equipment engineers and Sprint upon successful completion of installation. The Certified Vendor shall bill Sprint directly for all work performed for Sprint pursuant to this Agreement and BellSouth shall have no liability for nor responsibility to pay such charges imposed by the Certified Vendor. BellSouth shall consider certifying Sprint or any vendor including Original Equipment Manufacturers (OEMS) proposed by Sprint.
- 6.10 Alarm and Monitoring. BellSouth shall place environmental alarms in the Central Office for the protection of BellSouth equipment and facilities. Sprint shall be responsible for placement, monitoring and removal of environmental and equipment alarms used to service Sprint's Collocation Space. Upon request, BellSouth will provide Sprint with applicable tariffed service(s) to facilitate remote monitoring of collocated equipment by Sprint. Both parties shall use best efforts to notify the other of any verified environmental hazard known to that party. The parties agree to utilize and adhere to the Environmental Hazard Guidelines identified as Exhibit A attached hereto.
- 6.11 Basic Telephone Service. Upon request of Sprint, BellSouth will provide basic telephone service to the Collocation Space under the rates, terms and conditions of the current tariff offering for the service requested.
- 6.12 Space Preparation.

- 6.12.1 Unless otherwise specified, Space Preparation Fees consist of a nonrecurring charge for Firm Order Processing and monthly recurring charges for Central Office Modifications, assessed per arrangement, per square foot, and Common Systems Modifications, assessed per arrangement, per square foot for cageless collocation and per cage for caged collocation. The charges recover the costs associated with preparing the Collocation Space, which includes survey, engineering of the Collocation Space, design and modification costs for network, building and support systems. In the event Sprint opts for cageless space, the space preparation fees will be assessed based on the total floor space dedicated to Sprint as prescribed in Section 7.
- 6.12.2 In Georgia, the Space Preparation Fee is a one-time fee, assessed per arrangement, per location. It recovers a portion of costs associated with preparing the Collocation Space, which includes survey, engineering of the Collocation Space, design and modification costs for network, power, building and support systems. This is a set fee of \$100 per square foot as established by the Georgia Public Service Commission Order in Docket No. 7061-U. In the event Sprint opts for non-enclosed space, the space preparation fee will be assessed based on the total floor space dedicated to Sprint as prescribed in Section 7.
- 6.12.3 In North Carolina, space preparation fees consist of monthly recurring charges for Central Office Modifications, assessed per arrangement, per square foot; Common Systems Modifications, assessed per arrangement, per square foot for cageless and per cage for caged collocation; and Power, assessed per the nominal –48V DC ampere requirements specified by Sprint on the Bona Fide Application. The charges recover the costs associated with preparing the Collocation Space, which includes survey, engineering of the Collocation Space, design and modification costs for network, building and support systems. In the event Sprint opts for cageless space, the space preparation fees will be assessed based on the total floor space dedicated to Sprint as described in Section 7.
- 6.13 Virtual Collocation Transition.
- 6.13.1 In the event physical collocation space was previously denied at a location due to technical reasons or space limitations, and that physical collocation space has subsequently become available, Sprint may transition its virtual collocation arrangements to physical collocation arrangements and pay the appropriate non-recurring fees for physical collocation and for the rearrangement or reconfiguration of services terminated in the virtual collocation arrangement. In the event that BellSouth knows when additional space for physical collocation may become available at the location requested by Sprint, such information will be provided to Sprint in BellSouth's written denial of physical collocation. To the extent that (i) physical collocation space becomes available to Sprint within 180 days of BellSouth's written denial of Sprint's request for physical collocation, and (ii) Sprint was not informed in the written denial that physical collocation space would become available within such 180 days, then Sprint may transition its virtual collocation arrangement to a physical

- collocation arrangement and will receive a credit for any nonrecurring charges previously paid for such virtual collocation. Sprint must arrange with a BellSouth certified vendor for the relocation of equipment if required from its virtual collocation space to its physical collocation space and will bear the cost of such relocation.
- 6.13.2 BellSouth will authorize the conversion of virtual collocation arrangements to physical collocation arrangements without requiring the relocation of the virtual arrangement where the arrangement conforms with the terms and conditions of this Attachment and where (1) there is no change to the arrangement; and (2) the conversion of the virtual arrangement would not cause the arrangement to be located in the area of the Premises reserved for BellSouth's forecast of future growth.
- 6.13.3 For conversions from virtual collocation arrangements to physical collocation arrangements that do not require relocation (In Place), BellSouth will bill Sprint an Administrative Only Application Fee as set forth in Exhibit C for these charges.
- 6.13.4 In Alabama and Tennessee, BellSouth will complete Virtual to Physical Conversions (In Place) within thirty (30) calendar days.
- 6.14 Cancellation. If, at anytime, Sprint cancels its order for the Collocation Space(s), Sprint will reimburse BellSouth for any reasonable and demonstrative expenses incurred up to the date that written notice of the cancellation is received. In no event will the level of reimbursement under this paragraph exceed the maximum amount Sprint would have otherwise paid for work undertaken by BellSouth if no cancellation of the order had occurred.
- 6.15 Licenses. Sprint, at its own expense, will be solely responsible for obtaining from governmental authorities, and any other appropriate agency, entity, or person, all rights, privileges, and licenses necessary or required to operate as a provider of telecommunications services to the public or to occupy the Collocation Space.
- 7. Rates and Charges**
- 7.1 Recurring Charges. Recurring fees for space occupancy shall be billed upon space completion or space acceptance, whichever occurs first. Other charges shall be billed upon request for the services. All charges shall be due within 30 days of the bill date.
- 7.2 Cable Installation. Cable Installation Fee(s) are assessed per entrance fiber cable placed.
- 7.3 Floor Space. The floor space charge includes reasonable charges for lighting, heat, air conditioning, ventilation and other allocated expenses associated with maintenance of the Central Office but does not include amperage necessary to power Sprint's equipment. When the Collocation Space is enclosed, Sprint shall pay floor space charges based upon the number of square feet so enclosed. When the Collocation

Space is not enclosed, Sprint shall pay floor space charges based upon the following floor space calculation: [(depth of the equipment lineup in which the rack is placed) + (0.5 x maintenance aisle depth) + (0.5 x wiring aisle depth)] X (width of rack and spacers). For purposes of this calculation, the depth of the equipment lineup shall consider the footprint of equipment racks plus any equipment overhang. BellSouth will assign unenclosed Collocation Space in conventional equipment rack lineups where technically feasible. In the event Sprint's collocated equipment requires special cable racking, isolated grounding or other treatment which prevents placement within conventional equipment rack lineups, Sprint shall be required to request an amount of floor space sufficient to accommodate the total equipment arrangement. Floor space charges are due beginning with the date on which BellSouth releases the Collocation Space for occupancy or on the date Sprint first occupies the Collocation Space, whichever is sooner.

- 7.4 Power. BellSouth shall supply -48 Volt (-48V) DC power for Sprint's Collocation Space within the Premises and shall make available AC power at Sprint's option for Adjacent Arrangement collocation. Recurring charges for -48V DC power will be assessed per ampere per month based upon the certified vendor engineered and installed power feed fused ampere capacity. Rates include redundant feeder fuse positions (A&B) and cable rack to Sprint's equipment or space enclosure. Recurring power charges begin on the Space Acceptance Date or on the date Sprint first occupies the Collocation Space, whichever is first. If Sprint fails to schedule and complete an acceptance walk through within fifteen (15) calendar days after BellSouth releases the space for occupancy, BellSouth shall begin billing Sprint for recurring charges as of the sixteenth day after the Space Ready Date. Prior to the expiration of the fifteen (15) calendar days the Parties may mutually agree to conduct the walk through after the fifteen (15) calendar days but no later than thirty (30) calendar days. Upon completion of the walk through, if the Parties mutually agree discrepancies exist, BellSouth will credit Sprint for the charges applied after the fifteen (15) calendar days and prior to the walk through. When obtaining power from a BellSouth Battery Distribution Fuse Bay, fuses and power cables (A&B) must be engineered (sized), and installed by Sprint's certified vendor. When obtaining power from a BellSouth Power Board, power cables (A&B) must be engineered (sized), and installed by Sprint's certified power vendor. Sprint's certified vendor must also provide a copy of the engineering power specification prior to the Commencement Date. The non-recurring construction charge for construction of additional DC power plant or upgrade of the existing DC power plant in a Central Office as a result of Sprint's request to collocate in that Central Office ("Power Plant Construction"), will be assessed per the nominal -48V DC ampere requirements specified by Sprint on the physical collocation application. BellSouth reserves the right to monitor actual usage to verify accuracy of Sprint's power requirements. Sprint shall pay its pro-rata share of costs associated with the Power Plant Construction, including but not limited to, standby AC plant elements, DC power plant elements, and the Battery Distribution Fuse Bay (BDFB), where applicable. The pro-ration shall be based on the cost of providing one (1) ampere of DC power multiplied by the nominal drain requirements indicated by Sprint

in its physical collocation application. If Sprint does not require power feeders from a BDFB, the BDFB component will not be applied to the Power Plant Construction charge. If Sprint requires power feeders from both a BellSouth power board and a BellSouth BDFB, the Power Plant Construction charge will include all three components for the amount of nominal current fed from the BDFB, but will only include the standby AC and DC power plant components for the amount of nominal current fed from the power board. BellSouth shall comply with all BellCore (Telcordia) and ANSI Standards regarding power cabling, including BellCore (Telcordia) Network Equipment Building System (NEBS) Standard GR-63-CORE. The costs of Power Plant Construction shall be pro-rated and shared among all who benefit from that construction. Sprint shall pay BellSouth one-half of its pro-rata share of the estimated Power Plant Construction costs prior to commencement of the work. Sprint shall pay BellSouth the balance due (actual cost less one-half of the estimated cost) within thirty (30) days of completion of the Power Plant Construction. If BellSouth has not previously invested in power plant capacity for collocation at a specific site, Sprint has the option to add its own dedicated power plant; provided, however, that such work shall be performed by a BellSouth certified contractor and such contractor shall comply with BellSouth's Guidelines. Where the Power Plant Construction results in construction of a new power plant room, upon termination of this Attachment Sprint shall have the right to remove its equipment from the power plant room, but shall otherwise leave the room intact.

7.4.1 Sprint is responsible for contracting with a BellSouth certified vendor for power distribution feeder cable runs from a BellSouth BDFB or power board to Sprint's equipment. When obtaining power from a BellSouth BDFB or miscellaneous fuse positions on a BellSouth power board, power cables must be engineered, furnished and installed by Sprint using a BellSouth certified power vendor. Determination of the BellSouth BDFB or BellSouth power board as the power source will be made at BellSouth's sole, but reasonable, discretion. The certified vendor contracted by Sprint must provide BellSouth a copy of the engineering power specifications prior to the Commencement Date. BellSouth will provide the power feeder cable support structure between the BellSouth BDFB or power board and Sprint's arrangement area. Sprint shall contract a BellSouth certified vendor who will be responsible for the following: power cable support structure within Sprint's arrangement, power cable feeds, and terminations of cable. Any terminations at a BellSouth power board must be performed by a certified power vendor. Sprint shall comply with all applicable National Electric Code (NEC), BellSouth TR-73503, BellCore (Telcordia) and ANSI Standards regarding power cabling.

7.4.2 If Sprint elects to install its own DC Power Plant, BellSouth shall provide AC power to feed Sprint's DC Power Plant. Charges for AC power will be assessed per breaker ampere per month. Rates include the provision of commercial and standby AC power. When obtaining power from a BellSouth Service Panel, protection devices and power cables must be engineered (sized), and installed by Sprint's certified vendor except that BellSouth shall engineer and install protection devices and power cables for Adjacent

- Collocation. Sprint's certified vendor must also provide a copy of the engineering power specification prior to the Commencement Date. Charges for AC power shall be assessed pursuant to the rates specified in Exhibit C. AC power voltage and phase ratings shall be determined on a per location basis. At Sprint's option, Sprint may arrange for AC power in an Adjacent Collocation arrangement from a retail provider of electrical power.
- 7.4.3 In Tennessee, Recurring charges for -48V DC power consumption will be assessed per ampere per month based upon the engineered and installed power feed fused ampere capacity. Rates include redundant feeder fuse positions (A&B) and common cable rack to Sprint's equipment or space enclosure. Sprint shall contract with a Certified Supplier who will be responsible for the following: dedicated power cable support structure within Sprint's arrangement and terminations of cable within the collocation space.
- 7.4.3.1 In Tennessee, Non-recurring charges for -48V DC power distribution will be based on the common power feeder cable support structure between the BellSouth BDFB and Sprint's arrangement area.
- 7.4.4 In Alabama, Louisiana and South Carolina, Sprint has the option to purchase power directly from an electric utility company. Under such an option, Sprint is responsible for contracting with the electric utility company for its own power feed and meter, and is financially responsible for purchasing all equipment necessary to accomplish the arrangement, including inverters, batteries, power boards, bus bars, BDFBs, backup power supplies and cabling. The actual work to install this arrangement must be performed by a BellSouth Certified Supplier hired by Sprint. Sprint's BellSouth Certified Supplier must comply with all applicable safety codes, including the National Electric Safety Codes, in installing this power arrangement. Any floor space, cable racking, etc utilized by Sprint in provisioning said power will be billed on an ICB basis.
- 7.4.5 Sprint may order a reduction in the amount of power or reduce fused positions on BellSouth's BDFB that BellSouth is providing to Sprint. Sprint must submit a Subsequent Application. If Sprint submits a Subsequent Application for power reduction only, the Subsequent Application fee for power reduction or to reduce BDFB fused positions as set forth in Exhibit C will apply. If Sprint submits a Subsequent Application for power reduction or to reduce BDFB fused positions in addition to other modifications to the Collocation Space, a Subsequent Application will be assessed pursuant to Section 6.1.2. Sprint must maintain at least ten (10) amps of power to the Collocation Space at all times.
- 7.4.5.1 If the power reduction involves the retermination of Sprint's power from BellSouth's main power board to a BellSouth provided BDFB, immediately after the BellSouth Certified Supplier abolishes the connection from the BellSouth main power board to the Collocation Space, Sprint must, at its own expense, have a BellSouth Certified

Supplier remove Sprint's power cable(s) from BellSouth's cable support structure the entire length from Sprint's Collocation Space to BellSouth's main power board.

- 7.4.5.2 In Alabama, if Sprint is currently served from the BellSouth power board and requests to be connected to a BellSouth BDFB Sprint must submit a Subsequent Application. BellSouth must respond to such application within seven (7) calendar days and no application fee will apply.
- 7.5 Security Escort. A security escort will be required whenever Sprint or its approved agent desires access to the entrance manhole or must have access to the Premises after the one accompanied site visit allowed pursuant to Section 6.3.5 prior to completing BellSouth's Security Training requirements and/or prior to Space Acceptance. Rates for a security escort are assessed in one-half (1/2) hour increments according to the schedule appended hereto as Exhibit C.
- 7.6 Rate "True-Up". The Parties agree that the prices reflected as interim herein shall be true-up, either up or down, based on final prices determined either by further agreement between the Parties, or by an effective order of the Commission. The Parties shall implement the true-up by comparing the actual volumes and demand for each item, together with interim prices for each item, with the final prices determined for each item. Each Party shall keep its own records upon which the true-up can be based, and any final payment from one Party to the other shall be in an amount agreed upon by the Parties based on such records. In the event of any disagreement as between the records or the Parties regarding the amount of such true-up, the Parties agree that the body having jurisdiction over the matter shall be called upon to resolve such differences, or the Parties may mutually agree to submit the matter to the Dispute Resolution process in accordance with the provisions of Section 14 of the General Terms and Conditions.
- 7.6.1 The Parties may continue to negotiate toward final prices, but in the event that no such Agreement is reached within ninety (90) days, either Party may petition the Commission to resolve such disputes and to determine final prices for each item. Alternatively, upon mutual agreement, the Parties may submit the matter to the Dispute Resolution Process set forth in Section 14 of the General Terms and Conditions of the Agreement, so long as they file the resulting Agreement with the Commission as a "negotiated Agreement" under Section 252(e) of the Act.
- 7.6.2 An effective order of the Commission that forms the basis of a true-up shall be based upon cost studies submitted by either or both Parties to the Commission and shall be binding upon BellSouth and Sprint specifically or upon all carriers generally, such as a generic cost proceeding.
- 7.7 Other. If no rate is identified in the contract, the rate for the specific service or function will be negotiated by the Parties upon request by either party. Payment of all other charges under this Attachment shall be due thirty (30) days after receipt of the

bill (payment due date). Sprint will pay a late payment charge of the rate permitted by law assessed monthly on any balance which remains unpaid after the payment due date.

- 7.8 Cable Record charges. These charges apply for work required to build cable records in BellSouth's systems

## **8. Insurance**

- 8.1 Sprint shall, at its sole cost and expense, procure, maintain, and keep in force insurance as specified in this Section 8 and underwritten by insurance companies licensed to do business in the states applicable under this Attachment and having a BEST Insurance Rating of B ++ X (B ++ ten).
- 8.2 Sprint shall maintain the following specific coverage:
- 8.2.1 Commercial General Liability coverage in the amount of ten million dollars (\$10,000,000.00) or a combination of Commercial General Liability and Excess/Umbrella coverage totaling not less than ten million dollars (\$10,000,000.00). BellSouth shall be named as an ADDITIONAL INSURED on ALL applicable policies as specified herein.
- 8.2.2 Statutory Workers Compensation coverage and Employers Liability coverage in the amount of one hundred thousand dollars (\$100,000.00) each accident, one hundred thousand dollars (\$100,000.00) each employee by disease, and five hundred thousand dollars (\$500,000.00) policy limit by disease.
- 8.2.3 Sprint may elect to purchase business interruption and contingent business interruption insurance, having been advised that BellSouth assumes no liability for loss of profit or revenues should an interruption of service occur.
- 8.3 All policies purchased by Sprint shall be deemed to be primary and not contributing to or in excess of any similar coverage purchased by BellSouth. All insurance must be in effect on or before the date equipment is delivered to the Premises and shall remain in effect for the term of this Attachment or until all of Sprint's property has been removed from the Premises, whichever period is longer. If Sprint fails to maintain required coverage, BellSouth may pay the premiums thereon and seek reimbursement of same from Sprint.
- 8.4 Sprint shall submit certificates of insurance reflecting the coverage required pursuant to this Section a minimum of ten (10) days prior to the commencement of any work in the Collocation Space. Failure to meet this interval may result in construction and equipment installation delays. Sprint shall arrange for BellSouth to receive thirty (30) days advance notice of cancellation from Sprint's insurance company. Sprint shall

forward a certificate of insurance and notice of cancellation to BellSouth at the following address:

BellSouth Telecommunications, Inc.  
Attn.: Risk Management Coordinator  
600 N. 19<sup>th</sup> Street, 18B3  
Birmingham, Alabama 35203

8.5 Sprint must conform to recommendations made by BellSouth's fire insurance company to the extent BellSouth has agreed to, or shall hereafter agree to, such recommendations.

8.6 Failure to comply with the provisions of this Section will be deemed a material breach of this Attachment.

## **9. Mechanics Liens**

9.1 Each Party must keep the property free from any liens arising from any work performed, materials furnished, or obligations incurred by or at the request of that Party. If any liens are filed against the property, or any improvements thereon, as a result of the acts or omissions of a Party, or that of the Party's employees, agents, or contractors, such Party must discharge the lien within thirty (30) days or furnish a bond in accordance with law within thirty (30) days of the date such Party receives written notice that the lien has been filed. If a Party fails to discharge the lien or provide a bond as required by this section, then, in addition to any other right or remedy, the other Party may, at such other Party's election, discharge the lien by:

- paying the amount claimed to be due; or
- obtaining the discharge by deposit with a court or a title company; or
- furnishing a bond conditioned upon the discharge of said lien.

Sprint will defend and indemnify BellSouth from and against any lien enforcement action, defend and indemnify BellSouth for direct costs, including payments to contractors, costs of deposits or bond costs, as well as any attorney's fees expended by BellSouth as a result of Sprint's failure to fulfill Sprint's obligations under this section.

BellSouth will defend and indemnify Sprint from and against any lien enforcement action, and defend and indemnify Sprint for direct costs, including payments to contractors, costs of deposits or bond costs, as well as any attorney's fees expended by Sprint as a result of BellSouth's failure to fulfill BellSouth's obligations under this section.

## **10. Inspections**

- 10.1 BellSouth shall conduct an inspection of Sprint's equipment and facilities in the Collocation Space(s) prior to the activation of facilities between Sprint's equipment and equipment of BellSouth. Such inspection shall not unreasonably delay the activation of facilities between Sprint's equipment and equipment of BellSouth. BellSouth may conduct an inspection if Sprint adds equipment and may otherwise conduct routine inspections at reasonable intervals mutually agreed upon by the Parties. BellSouth shall provide Sprint with a minimum of forty-eight (48) hours or two (2) business days, whichever is greater, advance notice of all such inspections. All costs of such inspection shall be borne by BellSouth.

## **11. Security and Safety Requirements**

- 11.1 The security and safety requirements set forth in this section are as stringent as the security requirements BellSouth maintains at its own premises either for its own employees or for authorized contractors. Only BellSouth employees, BellSouth certified vendors and authorized employees, authorized Guests, pursuant to Section 3.3, preceding, or authorized agents of Sprint will be permitted in the BellSouth Premises. Sprint shall provide its employees and agents with picture identification which must be worn and visible at all times while in the Collocation Space or other areas in or around the Premises. The photo Identification card shall bear, at a minimum, the employee's name and photo, and the Sprint name. BellSouth reserves the right to remove from its premises any employee of Sprint not possessing identification issued by Sprint. Sprint shall hold BellSouth harmless for any damages resulting from such removal of its personnel from BellSouth premises. Sprint shall be solely responsible for ensuring that any Guest of Sprint is in compliance with all subsections of this Section 11.
- 11.1.1 Sprint will be required, at its own expense, to conduct a statewide investigation of criminal history records for each Sprint employee being considered for work on the BellSouth Premises, for the states/counties where the Sprint employee has worked and lived for the past five years. Where state law does not permit statewide collection or reporting, an investigation of the applicable counties is acceptable.
- 11.1.2 Sprint will be required to administer to its personnel assigned to the BellSouth Premises security training either provided by BellSouth, or meeting criteria defined by BellSouth.
- 11.1.3 Sprint shall not assign to the BellSouth Premises any personnel with records of felony criminal convictions. Sprint shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions, except for misdemeanor traffic violations, without advising BellSouth of the nature and gravity of the offense(s). BellSouth reserves the right to refuse building access to any Sprint personnel who have been identified to have misdemeanor criminal convictions, except for misdemeanor traffic violations. Notwithstanding the foregoing, in the event that Sprint chooses not to

- advise BellSouth of the nature and gravity of any misdemeanor conviction, Sprint may, in the alternative, certify to BellSouth that it shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions (other than misdemeanor traffic violations).
- 11.1.4 For each Sprint employee requiring access to a BellSouth Premises pursuant to this agreement, Sprint shall furnish BellSouth, prior to an employee gaining such access, a certification that the aforementioned background check and security training were completed. The certification will contain a statement that no felony convictions were found and certifying that the security training was completed by the employee. If the employee's criminal history includes misdemeanor convictions, Sprint will disclose the nature of the convictions to BellSouth at that time. In the alternative, Sprint may certify to BellSouth that it shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions other than misdemeanor traffic violations.
- 11.1.5 At BellSouth's request, Sprint shall promptly remove from the BellSouth Premises any employee of Sprint BellSouth does not wish to grant access to its premises pursuant to any investigation conducted by BellSouth, 1) if it is established and mutually agreed in good faith that Sprint's employees are responsible for the alleged act, or 2) prior to the initiation of an investigation in the event that an employee of Sprint is found interfering with the property or personnel of BellSouth or another CLEC, provided that an investigation shall promptly be commenced by BellSouth.
- 11.2 Notification to BellSouth. BST reserves the right to interview Sprint's employees, agents, or contractors in the event of wrongdoing in or around BellSouth's property or involving BellSouth's or another CLEC's property or personnel, provided that BellSouth shall provide reasonable notice to Sprint's Security contact of such interview. Sprint and its contractors shall reasonably cooperate with BellSouth's investigation into allegations of wrongdoing or criminal conduct committed by, witnessed by, or involving Sprint's employees, agents, or contractors. Additionally, BellSouth reserves the right to bill Sprint for all reasonable costs associated with investigations involving its employees, agents, or contractors if it is established and mutually agreed in good faith that Sprint's employees, agents, or contractors are responsible for the alleged act. BellSouth shall bill Sprint for BellSouth property which is stolen or damaged where an investigation determines the culpability of Sprint's employees, agents, or contractors and where Sprint agrees, in good faith, with the results of such investigation. Sprint shall notify BellSouth in writing immediately in the event that Sprint discovers one of its employees already working on the BellSouth premises is a possible security risk. Upon request of the other Party, the Party who is the employer shall discipline consistent with its employment practices, up to and including removal from the BellSouth Premises, any employee found to have violated the security and safety requirements of this section. Sprint shall hold BellSouth harmless for any damages resulting from such removal of its personnel from BellSouth premises.

- 11.3 Use of Supplies. Unauthorized use of telecommunications equipment or supplies by either Party, whether or not used routinely to provide telephone service (e.g. plug-in cards,) will be strictly prohibited and handled appropriately. Costs associated with such unauthorized use may be charged to the offending Party, as may be all associated investigative costs.
- 11.4 Use of Official Lines. Except for non-toll calls necessary in the performance of their work, neither party shall use the telephones of the other Party on the BellSouth Premises. Charges for unauthorized telephone calls may be charged to the offending Party, as may be all associated investigative costs.
- 11.5 Full compliance with the Security requirements of this section shall in no way limit the liability of either Party to the other for the improper actions of its employees that would otherwise exist pursuant to this Agreement or applicable law.

## **12. Destruction of Collocation Space**

- 12.1 In the event a Collocation Space is wholly or partially damaged by fire, windstorm, tornado, flood or by similar causes to such an extent as to be rendered wholly unsuitable for Sprint's permitted use hereunder, then either party may elect within ten (10) days after such damage, to terminate this Attachment, and if either party shall so elect, by giving the other written notice of termination, both parties shall stand released of and from further liability under the terms hereof. If the Collocation Space shall suffer only minor damage and shall not be rendered wholly unsuitable for Sprint's permitted use, or is damaged and the option to terminate is not exercised by either party, BellSouth covenants and agrees to proceed promptly without expense to Sprint, except for improvements not the property of BellSouth, to repair the damage. BellSouth shall have a reasonable time within which to rebuild or make any repairs, and such rebuilding and repairing shall be subject to delays caused by storms, shortages of labor and materials, government regulations, strikes, walkouts, and causes beyond the control of BellSouth, which causes shall not be construed as limiting factors, but as exemplary only. Sprint may, at its own expense, accelerate the rebuild of its collocated space and equipment provided however that a certified vendor is used and the necessary space preparation has been completed. Rebuild of equipment must be performed by a BellSouth Certified Vendor. If Sprint's acceleration of the project increases the cost of the project, then those additional charges will be incurred by Sprint. Where allowed and where practical, Sprint may erect a temporary facility while BellSouth rebuilds or makes repairs. In all cases where the Collocation Space shall be rebuilt or repaired, Sprint shall be entitled to an equitable abatement of rent and other charges, depending upon the unsuitability of the Collocation Space for Sprint's permitted use, until such Collocation Space is fully repaired and restored and Sprint's equipment installed therein (but in no event later than thirty (30) days after the Collocation Space is fully repaired and restored). Where Sprint has placed an Adjacent Arrangement pursuant to section 3.4, Sprint shall have the sole responsibility to repair or replace said Adjacent Arrangement provided herein.

Pursuant to this section, BellSouth will restore the associated services to the Adjacent Arrangement.

**13. Eminent Domain**

- 13.1 If the whole of a Collocation Space or Adjacent Arrangement shall be taken by any public authority under the power of eminent domain, then this Attachment shall terminate as of the day possession shall be taken by such public authority and rent and other charges for the Collocation Space or Adjacent Arrangement shall be paid up to that day with proportionate refund by BellSouth of such rent and charges as may have been paid in advance for a period subsequent to the date of the taking. If any part of the Collocation Space or Adjacent Arrangement shall be taken under eminent domain, BellSouth and Sprint shall each have the right to terminate this Attachment and declare the same null and void, by written notice of such intention to the other party within ten (10) days after such taking.

**14. Nonexclusivity**

- 14.1 Sprint understands that this Attachment is not exclusive and that BellSouth may enter into similar agreements with other parties. Assignment of space pursuant to all such agreements shall be determined by space availability and made on a first come, first served basis.

**ATTACHMENT 4A**

**VIRTUAL COLLOCATION**

### Section 1. Introduction

Virtual Collocation will be provided by BellSouth pursuant to and in accordance with the applicable state tariff or in the absence of a state tariff, in accordance with the FCC Tariff No. 1 unless otherwise specified in this Agreement. For the interconnection to BellSouth's network and access to BellSouth unbundled network elements, Sprint may purchase 2-wire and 4-wire cross-connects as set forth in Exhibit C of Attachment 4, and Sprint may place within its Virtual Collocation arrangements the telecommunications equipment set forth in Section 5.1 of Attachment 4.

### Section 2. Virtual Collocation

BellSouth will complete construction and provisioning of virtual collocation arrangements as soon as possible and within a maximum of 60 calendar days from receipt of a complete and accurate Bona Fide Firm Order.

### Section 3. Virtual Collocation Rates

The rates for Virtual Collocation shall be as set forth in Exhibit C.

## REMOTE SITE PHYSICAL COLLOCATION

## BELLSOUTH

### REMOTE SITE PHYSICAL COLLOCATION

#### 1. Scope of Attachment

- 1.1 Scope of Attachment. The rates, terms, and conditions contained within this Attachment shall only apply when Sprint is occupying the Remote Collocation Space as a sole occupant or as a Host within a Remote Site Location pursuant to Section 4. All the negotiated rates, terms and conditions set forth in this Attachment pertain to Remote Site Collocation and the provisioning of Remote Collocation Space.
- 1.2 Right to occupy. BellSouth shall offer to Sprint Remote Site Collocation on rates, terms, and conditions that are just, reasonable, non-discriminatory and consistent with the rules and orders of the Federal Communications Commission ("FCC"). Subject to the rates, terms, and conditions of this Attachment, BellSouth hereby grants to Sprint a right to occupy that certain area designated by BellSouth within a BellSouth Remote Site Location, of a size which is specified by Sprint and agreed to by BellSouth (hereinafter "Remote Collocation Space"). BellSouth Remote Site Locations include cabinets, huts, and controlled environmental vaults owned or leased by BellSouth that house BellSouth Network Facilities. To the extent this Attachment does not include all the necessary rates, terms and conditions for BellSouth remote locations other than cabinets, huts and controlled environmental vaults, the Parties will negotiate said rates, terms, and conditions at the request for Remote Site collocation at BellSouth remote locations other than those specified above.
- 1.2.1 Space Reservation. BellSouth and Sprint may reserve floor space for their own specific uses for a two-year period, except in Florida, where the period shall be eighteen (18) months. Except as otherwise provided, upon denial of a Sprint request for physical collocation, BellSouth shall provide to the Commission justification for the reserved space based on what is currently required by and provided to the applicable Commission. BellSouth shall remove obsolete unused equipment from the premises according to its scheduled date for such removal. BellSouth shall, upon request from Sprint, remove obsolete unused equipment from its premises prior to BellSouth's scheduled removal of such equipment, to make available the amount of space requested for collocation by Sprint. There will be no additional cost for such removal of obsolete and unused equipment over and above the Space Preparation Charges assessed for said collocation space. Consistent with FCC Rule 51.323(f)(5), BellSouth shall relinquish any space held for future use prior to denying a Sprint request for virtual collocation unless BellSouth proves to the Commission that virtual collocation at that point is not technically feasible. Neither BellSouth nor any of

BellSouth's affiliates may reserve space for future use on more preferential terms than those set forth above.

- 1.2.1.1 For Tennessee, upon denial of a Sprint request for physical collocation, BellSouth shall provide justification for the reserved space to Sprint based on a demand and facility forecast which includes, but is not limited to, three to five years of historical data and forecasted growth, in twelve month increments, by functional type of equipment (e.g., switching, transmission, power, etc.). In estimating the space requirement for growth, BellSouth shall use the most recent access line growth rate and use the space requirement data applicable to any planned changes that reflect forward looking technology as it relates to switching, power, MDF and DCS. BellSouth shall not reserve active space that is supported by existing telecommunications infrastructure without growth forecasts to support such reservation. BellSouth shall disclose to Sprint the space it reserves for its own future growth and for its interLATA, advanced services, and other affiliates upon request and in conjunction with a denial of Sprint's request for physical collocation, subject to appropriate proprietary protections.
- 1.3 Third Party Property. If the Premises, or the property on which it is located, is leased by BellSouth from a Third Party or otherwise controlled by a Third Party, special considerations and intervals may apply in addition to the terms and conditions of this Agreement. Additionally, where BellSouth notifies Sprint that BellSouth's agreement with a Third Party does not grant BellSouth the ability to provide access and use rights to others, upon Sprint's request, BellSouth will use its best efforts to obtain the owner's consent and to otherwise secure such rights for Sprint. Sprint agrees to reimburse BellSouth for the reasonable and demonstrable costs incurred by BellSouth in obtaining such rights for Sprint. In cases where a Third Party agreement does not grant BellSouth the right to provide access and use rights to others as contemplated by this Agreement and BellSouth, despite its best efforts, is unable to secure such access and use rights for Sprint as above, Sprint shall be responsible for obtaining such permission to access and use such property. BellSouth shall cooperate with Sprint in obtaining such permission.
- 1.4 Space Reclamation. In the event of space exhaust within a Remote Site Location, BellSouth may include in its documentation for the Petition for Waiver filing any vacant space in the Remote Site Location. Sprint will be responsible for any justification of vacant space within its Remote Collocation Space, if such justification is required by the appropriate state commission.
- 1.5 Use of Space. Sprint shall use the Remote Collocation Space for the purposes of installing, maintaining and operating Sprint's equipment (to include testing and monitoring equipment) used or useful primarily to interconnect with BellSouth services and facilities, including access to unbundled network elements, for the provision of telecommunications services. Pursuant to Section 5 following, Sprint may at its option, place Sprint-owned fiber entrance facilities to the Collocation Space. In addition to, and not in lieu of, interconnection to BellSouth services and facilities, in

Georgia, Kentucky and Tennessee Sprint may connect to other interconnectors within the designated BellSouth Central Office (including to its other virtual or physical collocated arrangements) through co-carrier cross connect facilities designated by Sprint pursuant to section 5.6 following. The Collocation Space may be used for any purpose consistent with effective FCC and state Commission Orders or as authorized in writing by BellSouth.

1.6 Rates and charges. Sprint agrees to pay the rates and charges identified in Exhibit C attached hereto.

1.7 Compliance. The parties agree to comply with all applicable federal, state, county, local and administrative laws, orders, rules, ordinances, regulations, and codes in the performance of their obligations hereunder.

1.8 Due Dates. Except in Georgia, if any due date contained in this Attachment falls on a weekend or National holiday, then the due date will be the next business day thereafter.

## 2. **Space Notification**

2.1 Availability of Space. BellSouth will permit Sprint to physically collocate, pursuant to the terms of this Attachment, at any BellSouth Premises, unless BellSouth is prepared to demonstrate to the State Commission pursuant to Section 2.4 that there is no space available due to space limitations or no space available due to technical infeasibility. Unless otherwise specified, BellSouth will respond to an application within ten (10) calendar days as to whether the Application is Bona Fide ("Bona Fide") and if it is not Bona Fide, the items necessary to cause the Application to become Bona Fide. Additionally, BellSouth shall notify Sprint as to whether space is available or not available within a BellSouth Premises. In the event space is not immediately available at a Remote Site Location, BellSouth reserves the right to make additional space available, in which case the conditions in Section 6.6.5 or Section 6.6.5.1 shall apply, or BellSouth may elect to deny space in accordance with this section in which case Virtual or Adjacent Collocation options may be available. If the amount of space requested is not available, BellSouth will notify Sprint of the amount of space that is available.

2.1.1 In Florida, BellSouth shall respond within fifteen (15) calendar days from receipt of an application.

2.2 Reporting. Upon request from Sprint, BellSouth will provide a written report ("Space Availability Report") specifying the amount of Remote Collocation Space available at the Remote Site Location requested, the number of collocators present at the Remote Site Location, any modifications in the use of the space since the last report on the Remote Site Location requested and the measures BellSouth is taking to make additional space available for collocation arrangements.

- 2.2.1 The request from Sprint for a Space Availability Report must be written and must include the Common Language Location Identification (“CLLI”) code for both the Remote Site Location and the serving central office. Such information regarding the CLLI code for the serving central offices is located in the National Exchange Carriers Association (NECA) Tariff FCC No. 4. To obtain a CLLI code for a remote site directly from BellSouth, Sprint should submit to BellSouth a Remote Site Interconnection Request for Remote Site CLLI Code prior to submitting its request for a Space Availability Report. Sprint should complete all the requested information and submit the Request with the applicable fee, set forth in Exhibit C, to BellSouth.
- 2.2.2 Upon request, BellSouth will provide Sprint with the following information concerning BellSouth’s remote terminals: (i) the address of the remote terminal; (ii) the CLLI code of the remote terminal; (iii) the carrier serving area of the remote terminal; (iv) the designation of which remote terminals subtend a particular central office; and (v) the number and address of customers that are served by a particular remote terminal. In Georgia, BellSouth will provide this information on a first come, first served basis within thirty (30) calendar days of a Sprint request subject to the following conditions: (i) the information will only be provided on a CD in the same format in which it appears in BellSouth’s systems; (ii) the information will only be provided for each serving wire center designated by Sprint, up to a maximum of thirty (30) wire centers per Sprint request per month and up to for a maximum of 120 wire centers total per month for all CLECs; and (iii) Sprint agrees to pay the costs incurred by BellSouth in providing the information.
- 2.2.2.1 In all states other than Georgia, until BellSouth completes development of the process needed to provide this information, BellSouth will use best efforts to provide the above information to Sprint within thirty (30) calendar days of a Sprint request subject to the information request conditions described in 2.2.2. If BellSouth finds that it will be unable to meet this interval, said interval shall be negotiated on a case-by-case basis at the time Sprint requests said information.
- 2.2.3 BellSouth will respond to a request for a report regarding space availability for a particular BellSouth Premise in accordance with the following intervals from receipt of such request. BellSouth will respond in ten (10) calendar days to requests for a space availability report in the top 100 MSAs. For those requests that do not fall within the top 100 MSAs, BellSouth will respond in ten (10) calendar days to such a request when the request includes up to and including ten (10) BellSouth Premises locations within the same State. BellSouth will respond within fifteen (15) calendar days to the request for the eleventh to fifteenth locations within the same State. BellSouth will respond within twenty (20) calendar days to the request for the sixteenth to twentieth locations within the same State. When Sprint requests greater than twenty (20) locations within a State, BellSouth's time for response will increase in a similar five calendar day intervals for the additional five locations requested (e.g. twenty-five (25)

days for twenty-first to twenty-fifth locations; thirty (30) days for twenty-sixth to thirtieth locations, etc.)

- 2.3 Denial of Application. After notifying Sprint that BellSouth has no available space in the requested Remote Site Location (“Denial of Application”), BellSouth will allow Sprint, upon request, to tour the Remote Site Location within ten (10) calendar days of such Denial of Application. In order to schedule said tour within ten (10) calendar days, the request for a tour of the Remote Site Location must be received by BellSouth within five (5) calendar days of the Denial of Application, or as otherwise agreed to by the Parties.
- 2.4 Filing of Petition for Waiver. Upon Denial of Application BellSouth will timely file a petition with the Commission pursuant to 47 U.S.C. § 251(c)(6) in accordance with applicable Commission requirements. However, in the absence of any Commission requirement BellSouth will file a petition for waiver within thirty (30) calendar days after the date of denial of application.
- 2.5 Waiting List. As new space becomes available, BellSouth will identify the quantity of space available and the type or types of physical collocation that can be accommodated in that space. BellSouth will maintain a waiting list of requesting carriers who have either received a Denial of Application or, where it is publicly known that the Premises is out of space, have submitted a Letter of Intent to collocate. BellSouth will notify those CLECs that can be accommodated on said waiting list that space shall become available within sixty (60) calendar days prior to space becoming available, to the extent known, where a waiver has previously been filed. If not known sixty (60) calendar days in advance, BellSouth shall notify carriers on the list within two (2) business days of the determination that space is available. The notification to the CLEC will include the following information: space availability date, which is the date that the subsequently available space becomes subject to Application for physical collocation, the date by which BellSouth must have received the updated, complete, and correct Application, which is thirty (30) calendar days following the space availability date, and the amount of space that BellSouth has identified as available for the customer. Within thirty (30) calendar days of the Space Availability date, Sprint must notify BellSouth in writing that Sprint wants to maintain its place on the waiting list either without accepting such space or accepting an amount of space less than its original request. If Sprint does not submit such an application or notify BellSouth in writing as described above, BellSouth will offer such space to the next CLEC on the waiting list and remove Sprint from the waiting list. BellSouth will use best efforts to notify the next CLEC on the waiting list of the space availability as soon as practicable so that space availability can be communicated and assigned in an expeditious fashion. Upon request, BellSouth will advise Sprint as to its position on the list. In this scenario, if a CLEC that has been offered newly available space declines such space, BellSouth will use best efforts to notify the next CLEC on the waiting list of the space availability as soon as practicable so that space availability can be communicated and assigned in an expeditious fashion.

2.6 Public Notification. BellSouth will maintain on its Interconnection Services website a notification document that will indicate all Remote Site Locations that are without available space. BellSouth shall update such document within ten (10) calendar days of the Denial of Application date. BellSouth will also post a document on its Interconnection Services website that contains a general notice where space has become available in a Remote Site Location previously on the space exhaust list. BellSouth shall allocate said available space pursuant to the waiting list referenced in Section 2.5.

2.7 State Agency Procedures. Notwithstanding the foregoing, should any state or federal regulatory agency impose procedures or intervals that are applicable to Sprint that are different than those set forth in this section, those procedures or intervals shall supersede the requirements set forth herein for that jurisdiction.

### 3. **Collocation Options**

3.1 Cageless. BellSouth shall allow Sprint to collocate Sprint's equipment and facilities without requiring the construction of a cage or similar structure. BellSouth shall allow Sprint to have direct access to its equipment and facilities. BellSouth shall make cageless collocation available in single rack/bay increments pursuant to Section 6. For equipment requiring special technical considerations, Sprint must provide the equipment layout, including spatial dimensions for such equipment pursuant to generic requirements contained in BellCore (Telcordia) GR-63-Core and shall be responsible for constructing all special technical requirements associated with such equipment pursuant to Section 6.9 following. Subject to space availability and technical feasibility, at Sprint's option, Sprint may enclose its equipment.

3.2 Shared (Subleased) Collocation. Sprint may allow other telecommunications carriers to share Sprint's Remote Site collocation arrangement pursuant to terms and conditions agreed to by Sprint ("Host") and other telecommunications carriers ("Guests") and pursuant to this section, except where the BellSouth Remote Site Location is located within a leased space and BellSouth is prohibited by said lease from offering such an option or is located on property for which BellSouth holds an easement and such easement does not permit such an option. Sprint shall notify BellSouth in writing upon execution of any agreement between the Host and its Guest within ten (10) business days of its execution unless as otherwise agreed to, and prior to any Firm Order. Further, such notice shall include the name of the Guest(s) and the term of the agreement, and shall contain a certification by Sprint that said agreement imposes upon the Guest(s) the same terms and conditions for Remote Collocation Space as set forth in this Attachment between BellSouth and Sprint.

3.2.1 Sprint shall be the sole interface and responsible Party to BellSouth for assessment of rates and charges contained within this Attachment and for the purposes of ensuring that the safety and security requirements of this Attachment are fully complied with by

the Guest, its employees and agents. BellSouth shall provide Sprint with a proration of the costs of the collocation space based on the number of collocators and the space used by each. In all states other than Florida, and in addition to the foregoing, Sprint shall be the responsible party to BellSouth for the purpose of submitting Applications for initial and additional equipment placement of Guest. In the event the Host and Guest jointly submit an Application, only one Application Fee will be assessed. A separate Guest Application shall require the assessment of an Application Fee, as set forth in Exhibit C. Notwithstanding the foregoing, Guest may arrange directly with BellSouth for the provision of the interconnecting facilities between BellSouth and Guest and for the provision of the services and access to unbundled network elements.

- 3.2.2 Sprint shall indemnify and hold harmless BellSouth from any and all claims, actions, causes of action, of whatever kind or nature arising out of the presence of Sprint's Guests in the Collocation Space. Nothing herein shall be construed to require indemnification by a party for the willful misconduct or gross negligence of the other party or, where prohibited by law, indemnification for a party's own negligence or sole negligence and, to the extent such exclusion must be expressly stated the term indemnification as used in this section shall be construed to exclude specifically a party's gross negligence or willful misconduct and a party's own negligence or sole negligence. Where indemnification by a party is permitted for claims arising out of the other party's own negligence but such intention must be expressly stated, the term "indemnify" is used in this section shall include the duty to indemnify for such other party's negligence. Nothing herein shall be construed to require indemnification in excess of that permitted by law and, to the extent any part of this section is found to be invalid or unenforceable, the parties agree that the obligation to indemnify under this Agreement shall be to the fullest extent permitted in the relevant jurisdiction, excluding only such claims as are prohibited therein.

- 3.3 Adjacent Collocation. BellSouth will provide adjacent collocation in controlled environmental vaults or similar structures to be constructed or otherwise procured by Sprint ("Adjacent Arrangement") where space within the Premises is legitimately exhausted, subject to technical feasibility, and reasonable safety and maintenance requirements. BellSouth and Sprint will mutually agree on the location of the designated space on the BellSouth property where the adjacent structure, such as a controlled environmental vault or similar structure, will be placed. BellSouth may withhold agreement with respect to a location which would otherwise be prohibited pursuant to Section 1.1. Neither party shall unreasonably withhold agreement as to any proposed location, provided, however, that it shall be in BellSouth's final discretion as to the location of the adjacent structure. The Adjacent Arrangement shall be constructed or procured by Sprint and in conformance with BellSouth's design and construction specifications in effect at the time the adjacent structure is requested. After the adjacent arrangement is constructed any changes to these specifications will not be binding on Sprint for such already constructed arrangements without Sprint's prior written concurrence. Further, Sprint shall construct, procure, maintain and operate said Adjacent Arrangement(s) pursuant to all of the terms and conditions set

forth in this Attachment. Rates shall be negotiated at the time of the request for Adjacent Collocation.

- 3.3.1 Should Sprint elect such option, Sprint must arrange with a BellSouth certified contractor to construct an Adjacent Arrangement structure in accordance with BellSouth's guidelines and specifications, or if there are more stringent applicable requirements, then pursuant to section 1.1.1. BellSouth will provide guidelines and specifications upon request.
- 3.3.2 Sprint's contractor shall be responsible for filing and receiving any and all necessary zoning, permits and/or licenses for such construction. Sprint's BellSouth Certified Vendor shall bill Sprint directly for all work performed for Sprint pursuant to this Attachment and BellSouth shall have no liability for nor responsibility to pay such charges imposed by the Certified Vendor. Sprint must provide the local BellSouth building contact with two cards, keys or other access device used to enter the locked enclosure. Except in cases of emergency, BellSouth shall not access Sprint's locked enclosure prior to notifying Sprint.
- 3.3.3 BellSouth maintains the right to review Sprint's plans and specifications prior to construction of a Remote Adjacent Arrangement(s). BellSouth may inspect the Adjacent Arrangement(s) following construction and prior to commencement, as defined in Section 4.1 following, to ensure the design and construction comply with BellSouth's Guidelines. Such review shall not unreasonably delay provisioning intervals as specified herein. BellSouth may require Sprint, at Sprint's sole cost, to correct any deviations from BellSouth's Guidelines found during such inspection(s), as such Guidelines existed at the time the application was accepted by BellSouth. Such corrections may include removal of the Adjacent Arrangement, within five (5) business days of BellSouth's inspection, unless the Parties mutually agree to an alternative time frame.
- 3.3.4 Sprint shall provide a concrete pad, the structure housing the arrangement, HVAC, lighting, and all facilities that connect the structure (i.e. racking, conduits, etc.) to the BellSouth point of interconnection. At Sprint's option, BellSouth shall provide an AC power source and access to physical collocation services and facilities subject to the same nondiscriminatory requirements as applicable to any other physical collocation arrangement. In Alabama and Louisiana, BellSouth will provide DC power to Adjacent Collocation sites where technically feasible, as that term has been defined by the FCC, and subject to individual case basis pricing. Sprint's contractor shall be responsible for filing and receiving any and all necessary zoning, permits and/or licenses for such arrangement.
- 3.3.5 BellSouth shall allow Shared (Subleased) Caged Collocation within a Remote Site Adjacent Arrangement pursuant to the terms and conditions set forth in Section 3.3 preceding.

- 3.4 Co-carrier Cross Connect (CCXC). At BellSouth's sole option, BellSouth will provide, or permit Sprint to provide, a connection between the equipment in the collocated spaces of Sprint and any other telecommunications carrier whose Agreement contains co-carrier cross-connect language. Sprint's use of the collocation space for interconnection with BellSouth or accessing BellSouth's Unbundled Network Elements and using Co-carrier Cross Connects shall be in accordance with the FCC's Fourth Report and Order in Docket No. 98-147. If BellSouth elects to provision the CCXC, the rates, terms and conditions shall be negotiated between the Parties.
- 3.4.1 If Sprint provisions the CCXC to other telecommunications carriers, such connections to other carriers may be made using either optical or electrical facilities. Sprint may deploy such optical or electrical connections directly between its own facilities and the facilities of the other telecommunications carrier(s) without being routed through BellSouth equipment. Sprint may not self-provision CCXC on any BellSouth distribution frame, Pot Bay, DSX or LGX. If either collocation arrangement is a virtual collocation arrangement, the CLEC having the virtual collocation arrangement must either have sufficient terminations for the CCXC cable or must provide additional termination equipment in its arrangement. Sprint and the other CLEC shall not intermingle their equipment within a virtual collocation arrangement. Sprint is responsible for ensuring the integrity of the signal.
- 3.4.2 Sprint shall be responsible for obtaining authorization from the other telecommunications carrier(s) involved. If Sprint provisions the CCXC to other telecommunications carriers, Sprint must use a BellSouth Certified Vendor to place the CCXC in cases where the Sprint equipment and the equipment of the other telecommunications carrier are not located within caged contiguous collocation spaces. There will be a recurring charge per linear foot, per cable of common cable support structure used.
- 3.4.3 In cases where Sprint's equipment and the equipment of the other telecommunications carrier are located in caged contiguous collocation spaces, Sprint shall have the option to deploy the CCXCs between the sets of equipment. Sprint shall have the option of constructing its own dedicated support structure or utilizing BellSouth's common cable support structure. There will be a recurring charge per linear foot, per cable of common cable support structure used.
- 3.4.4 Sprint may order CCXC in its initial Application. In the Application, Sprint must include the type of cross connect facilities to be used, the name of the telecommunications carrier(s) to whom the CCXC is to be routed, and a copy of the authorization from all other telecommunications carriers involved. If Sprint, or Sprint's Guest(s) in a shared arrangement, desires to order CCXC after the Bona Fide Firm Order, Sprint must submit to BellSouth a complete Application containing the same CCXC information as required in an initial Application.

#### **4. Occupancy**

- 4.1 Commencement Date. The “Commencement Date” shall be the day Sprint’s equipment becomes operational as described in Article 4.2, following.
- 4.2 Occupancy. BellSouth will notify Sprint in writing that the Remote Collocation Space is ready for occupancy. Sprint must notify BellSouth in writing that collocation equipment installation is complete and is operational with BellSouth’s network. BellSouth may, at its option, not accept orders for interconnected service until receipt of such notice. For purposes of this paragraph, Sprint’s telecommunications equipment will be deemed operational when connected to BellSouth’s network for the purpose of service provision.
- 4.3 Termination. Except where otherwise agreed to by the Parties, Sprint may terminate occupancy in a particular Remote Collocation Space by submitting an Application providing thirty (30) calendar days prior notice to BellSouth. An Application Fee will not apply. Upon termination of such occupancy, Sprint at its expense shall remove its equipment and other property from the Remote Collocation Space. Sprint shall have thirty (30) calendar days from the termination date or such other period as agreed to by the parties to complete such removal, including the removal of all equipment and facilities of Sprint’s Guests; provided, however, that Sprint shall continue payment of monthly fees to BellSouth until such date as Sprint has fully vacated the Remote Collocation Space. Should Sprint or Sprint’s Guest fail to vacate the Remote Collocation Space within thirty (30) calendar days from the termination date, BellSouth shall have the right to remove the equipment and other property of Sprint or Sprint’s Guest at Sprint’s expense and with no liability for damage or injury to Sprint or Sprint’s Guest’s property unless caused by the gross negligence or intentional misconduct of BellSouth. Upon termination of occupancy with respect to a Remote Collocation Space, Sprint shall surrender such Remote Collocation Space to BellSouth in the same condition as when first occupied by the Sprint except for ordinary wear and tear unless otherwise agreed to by the Parties. Sprint shall be responsible for the cost of removing any enclosure, together with all support structures (e.g., racking, conduits), of a Remote Site Adjacent Arrangement at the termination of occupancy and restoring the grounds to their original condition, unless Sprint at its own sole discretion subleases or otherwise conveys such enclosure.

#### **5. Use of Remote Collocation Space**

- 5.1 Equipment Type. BellSouth permits the collocation of any type of equipment used or useful for interconnection to BellSouth’s network or for access to unbundled network elements in the provision of telecommunications services. Such equipment used or useful for interconnection and access to unbundled network elements includes, but is not limited to transmission equipment including, but not limited to, optical terminating equipment and multiplexers, and digital subscriber line access multiplexers, routers, asynchronous transfer mode multiplexers, and remote switching modules. Nothing in

- this section requires BellSouth to permit collocation of equipment used solely to provide enhanced services; provided, however, that BellSouth may not place any limitations on the ability of requesting carriers to use all the features, functions, and capabilities of equipment collocated pursuant to the Act and applicable state and federal law.
- 5.1.1 Such equipment must at a minimum meet the following BellCore (Telcordia) Network Equipment Building Systems (NEBS) General Equipment Requirements: Criteria Level 1 requirements as outlined in the BellCore (Telcordia) Special Report SR-3580, Issue 1; equipment design spatial requirements per GR-63-CORE, Section 2; thermal heat dissipation per GR-063-CORE, Section 4, Criteria 77-79; acoustic noise per GR-063-CORE, Section 4, Criterion 128, and National Electric Code standards. BellSouth may not object to the collocation of equipment on the grounds that the equipment does not comply with safety or engineering standards that are more stringent than the safety or engineering standards that BellSouth applies to its own equipment. BellSouth may not object to the collocation of equipment on the ground that the equipment fails to comply with NEBS performance standards. If BellSouth denies collocation of Sprint's equipment, citing safety standards, BellSouth must provide to Sprint within five business days of the denial a list of all equipment that BellSouth locates within the premises in question, together with an affidavit attesting that all of that equipment meets or exceeds the safety standard that BellSouth contends Sprint's equipment fails to meet.
  - 5.1.2 Sprint shall not use the Remote Collocation Space for marketing purposes nor shall it place any identifying signs or markings in the area surrounding the Remote Collocation Space or on the grounds of the Remote Site Location.
  - 5.1.3 Sprint shall place a plaque or other identification affixed to Sprint's equipment necessary to identify Sprint's equipment, including a list of emergency contacts with telephone numbers.
  - 5.1.4 All Sprint equipment installation shall comply with BellSouth TR 73503-11, Section 8, "Grounding - Engineering Procedures." Metallic cable sheaths and metallic strength members of optical fiber cables as well as the metallic cable sheaths of all copper conductor cables shall be bonded to the designated grounding bus for the remote collocation site. All copper conductor pairs, working and non-working, shall be equipped with a solid-state protector unit (over-voltage protection only) which has been listed by a nationally recognized testing laboratory.
  - 5.2 Entrance Facilities. Sprint may elect to place Sprint-owned or Sprint-leased entrance facilities into the Remote Collocation Space from Sprint's point of presence. The Parties will discuss the proposed point of entrance in an attempt to mutually agree upon a point of entrance provided, however, that it will be in BellSouth's final discretion to designate the point of entrance at the Remote Site Location housing the Remote Collocation Space which is physically accessible by both Parties. Sprint will

- provide and place copper cable through conduit from the Remote Collocation Space to the Feeder Distribution Interface to the splice location of sufficient length for splicing by BellSouth. Sprint must contact BellSouth for instructions prior to placing the entrance facility cable. Sprint is responsible for maintenance of the entrance facilities.
- 5.2.1 Shared Use. Sprint may utilize spare capacity on an existing interconnector entrance facility for the purpose of providing an entrance facility to another Sprint collocation arrangement within the same BellSouth Remote Site Location.
- 5.3 Demarcation Point. BellSouth will designate the point(s) of demarcation between Sprint's equipment and/or network and BellSouth's network. BellSouth will make a good faith effort to locate the demarcation point as close to Sprint's collocation space as technically feasible. Each Party will be responsible for maintenance and operation of all equipment/facilities on its side of the demarcation point. Sprint or its agent must perform all required maintenance to Sprint equipment/facilities on its side of the demarcation point, pursuant to Section 5.4, following.
- 5.3.1 Demarcation Point (Tennessee). BellSouth will designate the point(s) of demarcation between Sprint's equipment and/or network and BellSouth's network. Each Party will be responsible for maintenance and operation of all equipment/facilities on its side of the demarcation point. The demarcation point shall be a Sprint provided Point of Termination Bay (POT Bay) in a common area within the Premises. BellSouth will make a good faith effort to locate Sprint's POT Bay as close to Sprint's collocation space as technically feasible. In all cases BellSouth will make the final determination of the specific location. Sprint shall be responsible for providing, and a supplier certified by BellSouth ("Sprint's Certified Supplier") shall be responsible for installing and properly labeling, the POT Bay as well as the necessary cabling between Sprint's collocation space and the demarcation point. Sprint or its agent must perform all required maintenance to equipment/facilities on its side of the demarcation point, pursuant to Section 5.5, following, and may self-provision cross-connects that may be required within the Collocation Space to activate service requests.
- 5.4 Sprint's Equipment and Facilities. Sprint, or if required by this Attachment, Sprint's BellSouth Certified Supplier, is solely responsible for the design, engineering, installation, testing, provisioning, performance, monitoring, maintenance and repair of the equipment and facilities used by Sprint.
- 5.5 BellSouth's Access to Remote Collocation Space. BellSouth retains the right to access the Remote Collocation Space for the purpose of making BellSouth equipment and Remote Site Location modifications.
- 5.6 Access. Pursuant to Section 11, Sprint shall have access to the Remote Collocation Space twenty-four (24) hours a day, seven (7) days a week. Sprint agrees to provide the name and social security number or date of birth or driver's license number of each

- employee, contractor, or agents of Sprint or Sprint's Guests provided with access keys ("Access Keys") prior to the issuance of said Access Keys. Access Keys shall not be duplicated under any circumstances. Sprint agrees to be responsible for all Access Keys and for the return of all said Access Keys in the possession of Sprint employees, contractors, Guests, or agents after termination of the employment relationship, contractual obligation with Sprint or upon the termination of this Attachment or the termination of occupancy of an individual Remote Site collocation arrangement.
- 5.7 Lost or Stolen Access Keys. Sprint shall notify BellSouth in writing immediately in the case of lost or stolen Access Keys. Should it become necessary for BellSouth to re-key the Premises as a result of an Access Key(s) lost or not returned by Sprint, Sprint shall pay for all reasonable and demonstrative costs associated with the re-keying.
- 5.8 Interference or Impairment. Notwithstanding any other provisions of this Attachment, equipment and facilities placed in the Remote Collocation Space shall not significantly degrade, interfere with or impair service provided by BellSouth or by any other interconnector located in the Remote Site Location; shall not endanger or damage the facilities of BellSouth or of any other interconnector, the Remote Collocation Space, or the Remote Site Location; shall not compromise the privacy of any communications carried in, from, or through the Remote Site Location; and shall not create an unreasonable risk of injury or death to any individual or to the public. If BellSouth reasonably determines that any equipment or facilities of Sprint violate the provisions of this paragraph, BellSouth shall use commercially reasonable efforts to immediately verbally notify the designated Sprint contact located on Sprint's collocation arrangement and shall give written notice to Sprint, which notice shall direct Sprint to cure the violation within forty-eight (48) hours of Sprint's actual receipt of written notice or, at a minimum, to commence curative measures within 24 hours and to exercise reasonable diligence to complete such measures as soon as possible thereafter. After receipt of the notice, the Parties agree to consult immediately and, if necessary, to inspect the arrangement.
- 5.8.1 Except in the case of the deployment of an advanced service which significantly degrades the performance of other advanced services or traditional voice band services, if Sprint fails to take curative action within 48 hours or if the violation is of a character which poses an immediate and substantial threat of damage to property, injury or death to any person, or other interference/impairment of the services provided by BellSouth or any other interconnector, then and only in that event BellSouth may take such action as it deems appropriate to correct the violation, including without limitation the interruption of electrical power to Sprint's equipment. BellSouth will endeavor, but is not required, to provide notice to Sprint prior to taking such action and shall have no liability to Sprint for any damages arising from such action, except to the extent that such action by BellSouth constitutes gross negligence or willful misconduct.

- 5.8.2 For purposes of this section, the term significantly degrade shall mean an action that noticeably impairs a service from a user's perspective. In the case of the deployment of an advanced service which significantly degrades the performance of other advanced services or traditional voice band services and Sprint fails to take curative action within 48 hours then BellSouth will establish before the relevant Commission that the technology deployment is causing the significant degradation. Any claims of network harm presented to Sprint or, if subsequently necessary, the relevant Commission must be supported with specific and verifiable information. Where BellSouth demonstrates that a deployed technology is significantly degrading the performance of other advanced services or traditional voice band services, Sprint shall discontinue deployment of that technology and migrate its customers to technologies that will not significantly degrade the performance of other such services. Where the only degraded service itself is a known disturber, and the newly deployed technology satisfies at least one of the criteria for a presumption that is acceptable for deployment under 47 C.F.R. 51.230, the degraded service shall not prevail against the newly-deployed technology.
- 5.9 Presence of Facilities. Facilities and equipment placed by Sprint in the Remote Collocation Space shall not become a part of the Remote Site Location, even if nailed, screwed or otherwise fastened to the Remote Collocation Space but shall retain its status as personalty and may be removed by Sprint at any time. Any damage caused to the Remote Collocation Space by Sprint's employees, agents or representatives shall be promptly repaired by Sprint at its expense.
- 5.10 Alterations. In no case shall Sprint or any person acting on behalf of Sprint make any rearrangement, modification, improvement, addition, repair, or other alteration which could affect in any way space, power, HVAC, and/or safety considerations to the Remote Collocation Space or the BellSouth Remote Site Location without the written consent of BellSouth, which consent shall not be unreasonably withheld. The cost of any such specialized alterations shall be paid by Sprint. Any material rearrangement, modification, improvement, addition, repair, or other alteration shall require an application fee, pursuant to Section 6.
- 5.11 Upkeep of Remote Collocation Space. Sprint shall be responsible for the general upkeep and cleaning of the Remote Collocation Space. Sprint shall be responsible for removing any Sprint debris from the Remote Collocation Space and from in and around the Remote Collocation Site on each visit.
- 6. Ordering and Preparation of Remote Collocation Space**
- 6.1 Should any state or federal regulatory agency impose procedures or intervals different than procedures or intervals set forth in this section applicable to Sprint, whether now in effect or that become effective after execution of this Agreement, those procedures or intervals shall supersede the requirements set forth herein for all applications submitted for the first time after the effective date thereof for that jurisdiction.

- 6.2 Application for Space. Sprint shall submit a Remote Site Collocation Application when Sprint or Sprint's Guest(s), as defined in Section 3.3, desires to request or modify the use of the Remote Collocation Space.
- 6.2.1 Initial Application. For Sprint or Sprint's Guest(s) equipment placement, Sprint shall submit to BellSouth an Application. The Application is Bona Fide when it is complete and accurate, meaning that all required fields on the Application are completed with the appropriate type of information. The Bona Fide Application shall contain a detailed description and schematic drawing of the equipment to be placed in Sprint's Remote Collocation Space(s).
- 6.2.2 Application Fee. BellSouth will assess an Application Fee on a service order, which shall be issued at the time BellSouth responds that space is available pursuant to Section 2.1. Payment of the Application Fee is due within 30 calendar days of the actual billing date and is non-refundable.
- 6.3 Application Response.
- 6.3.1 In Georgia, Mississippi, and South Carolina, when space has been determined to be available, BellSouth will provide a comprehensive written response ("Application Response") within twenty (20) calendar days of receipt of a complete application. The Application Response will include, at a minimum, the estimated provisioning interval, any additional engineering charges, if applicable, and any other additional information that may extend the ordinary interval to extraordinary interval status, together with sufficient information to explain such extension.
- 6.3.2 In Alabama, when space has been determined to be available, BellSouth will provide a comprehensive written response ("Application Response") within thirty (30) calendar days of receipt of a complete application. The Application Response will include, at a minimum, the estimated provisioning interval, any additional engineering charges, if applicable, and any other additional information that may extend the ordinary interval to extraordinary interval status, together with sufficient information to explain such extension.
- 6.3.3 In Kentucky, and North Carolina, when space has been determined to be available, BellSouth will provide a written response ("Application Response") within twenty-three (23) business days of the receipt of a Bona Fide Application, which will include, at a minimum, the estimated provisioning interval, any additional engineering charges, if applicable, and any other additional information that may extend the ordinary interval to extraordinary interval status, together with sufficient information to explain such extension.
- 6.3.4 In Florida, within fifteen (15) calendar days of receipt of a Bona Fide Application, when space has been determined to be available or when a lesser amount of space than

that requested is available, then with respect to the space available, BellSouth will provide a written response (“Application Response”) including sufficient information to enable Sprint to place a Firm Order. The Application Response will include, at a minimum, the estimated provisioning interval, any additional engineering charges, if applicable, and any other additional information that may extend the ordinary interval to extraordinary interval status, together with sufficient information to explain such extension. When Sprint submits ten (10) or more Applications within ten (10) calendar days, the initial fifteen (15) day response period will increase by ten (10) days for every additional ten (10) Applications or fraction thereof.

6.3.5 In Louisiana, when space has been determined to be available, BellSouth will provide a written response (“Application Response”) within thirty (30) calendar days for one (1) to ten (10) Applications; thirty-five (35) calendar days for eleven (11) to twenty (20) Applications; and for requests of more than twenty (20) Applications it is increased by five (5) calendar days for every five (5) Applications received within five (5) business days. The response will include, at a minimum, the estimated provisioning interval, any additional engineering charges, if applicable, and any other additional information that may extend the ordinary interval to extraordinary interval status, together with sufficient information to explain such extension.

6.3.6 In Tennessee, when space has been determined to be available, BellSouth will provide a written response (“Application Response”) within thirty (30) calendar days of receipt of a Bona Fide Application. The response will include, at a minimum, the estimated provisioning interval, any additional engineering charges, if applicable, and any other additional information that may extend the ordinary interval to extraordinary interval status, together with sufficient information to explain such extension.

#### 6.4 Bona Fide Firm Order.

6.4.1 Except as otherwise provided, Sprint shall indicate its intent to proceed with equipment installation in a BellSouth Premises by submitting a Bona Fide Firm Order to BellSouth. A Bona Fide Firm Order requires Sprint to complete the Application/Inquiry process described in Subsection 6.2, preceding, and submit the Physical Expanded Interconnection Firm Order document (BSTEI-1P-F) indicating acceptance of the written application response provided by BellSouth (“Bona Fide Firm Order”) and all appropriate fees. The Bona Fide Firm Order must be received by BellSouth no later than thirty (30) calendar days after BellSouth’s response to Sprint’s Application/Inquiry.

6.4.2 In Kentucky and North Carolina, Sprint shall indicate its intent to proceed with equipment installation in a BellSouth Premises by submitting a Physical Expanded Interconnection Firm Order document (“Firm Order”) to the Company. A Firm Order shall be considered Bona Fide when Sprint has completed the Application/Inquiry process described in Section 6.2, preceding, and has submitted the Firm Order document indicating acceptance of the Application Response provided by the

Company. The Bona Fide Firm Order must be received by the Company no later than five (5) business days after the Company's Application Response to Sprint's Bona Fide Application.

- 6.4.3 If Sprint makes changes to its application in light of BellSouth's written Application Response, BellSouth will be required to re-evaluate and respond to the change(s). In this event, BellSouth's provisioning interval will not start until the re-evaluation and response to the change(s) is complete and the Bona Fide Firm Order is received by BellSouth. Such re-evaluation of an application shall be completed promptly by BellSouth but in no event shall exceed the Application Response intervals as set forth in Section 6.3. Where such changes requested do not require assessment for provisioning and construction work by BellSouth, no Application Fee will be required. Major changes such as requesting additional space or adding additional equipment may require Sprint to resubmit the application with an application fee.
- 6.4.4 BellSouth will establish a firm order date, per request, based upon the date BellSouth is in receipt of a Bona Fide Firm Order. BellSouth will acknowledge the receipt of Sprint's Bona Fide Firm Order with a Firm Order Confirmation containing the firm order date within seven (7) calendar days of receipt indicating that the Bona Fide Firm Order has been received.
- 6.4.5 BellSouth will permit one accompanied site visit to Sprint's designated collocation arrangement location after receipt of the Bona Fide Firm Order without charge to Sprint. Such accompanied site visits and associated charges will not apply subsequent to Sprint's completion of BellSouth Security Training requirements.
- 6.4.6 Sprint must submit to BellSouth the completed Access Control Request Form (RF-2906-C) for all employees or agents requiring access to the BellSouth Premises a minimum of 30 calendar days prior to the date Sprint desires access to the Collocation Space. In order to permit reasonable access during construction of the Collocation Space, Sprint may submit such a request at any time subsequent to BellSouth's receipt of the Bona Fide Firm Order. For access requests subsequent to the accompanied site visit permitted in 6.3.2 above but prior to approval of Sprint's Access Control Request Form, BellSouth shall permit Sprint to access the Collocation Space accompanied by a security escort at Sprint's expense. Sprint must request escorted access at least three (3) business days prior to the date such access is desired, unless otherwise agreed to by the Parties.
- 6.5 Construction and Provisioning Interval.
- 6.5.1 In Kentucky and North Carolina, BellSouth will complete construction of collocation arrangements within seventy-six (76) business days from receipt of an Application or as agreed to by the Parties. Under extraordinary conditions, BellSouth will complete construction for collocation arrangements within ninety-one (91) business days. Examples of extraordinary conditions include, but are not limited to; major BellSouth

equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. In the event Sprint submits a forecast as described in the following section three (3) months or more prior to the application date, the above intervals shall apply. In the event Sprint submits such a forecast between two (2) months and three (3) months prior to the application date, the above intervals may be extended by one (1) additional month. In the event Sprint submits such a forecast less than two (2) months prior to the application date, the above intervals may be extended by sixty (60) calendar days. BellSouth will attempt to meet standard intervals for unforecasted requests and any interval adjustments will be discussed with Sprint at the time the application is received. Raw space, which is space lacking the necessary infrastructure to provide collocation space including but not limited to HVAC, Power, etc., conversion time frames fall outside the normal intervals and are negotiated on an individual case basis. BellSouth will use its best efforts to minimize the additional time required to condition collocation space and will inform Sprint of the time estimates as soon as possible.

- 6.5.1.1 To be considered a timely and accurate forecast, Sprint must submit to the Company the CLEC Forecast Form, as set forth in Exhibit B attached hereto, containing the following information: Remote Terminal CLLI, number of rack/bays, number of DS0, DS1, DS3 frame terminations, number of fused amps and planned application date.
- 6.5.2 In Alabama, Georgia, Mississippi and South Carolina, BellSouth will complete construction for collocation arrangements under ordinary conditions as soon as possible and within a maximum of ninety (90) calendar days from receipt of a Bona Fide Firm Order or as agreed to by the Parties. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.
- 6.5.3 In Florida, BellSouth will complete construction for collocation arrangements as soon as possible and within a maximum of ninety (90) calendar days from receipt of a Bona Fide Firm Order or as agreed to by the Parties. If BellSouth does not believe that construction will be completed within the relevant time frame and BellSouth and Sprint cannot agree upon a completion date, within forty-five (45) calendar days of receipt of the Bona Fide Firm Order for an initial request, BellSouth may seek an extension from the Florida PSC.
- 6.5.4 In Louisiana, BellSouth will complete construction for collocation arrangements under ordinary conditions as soon as possible and within a maximum of ninety (90) calendar days from receipt of a Bona Fide Firm Order for an initial request, or as agreed to by the Parties. Ordinary conditions are defined as space available with only minor changes to support systems required, such as but not limited to, HVAC, cabling and the power plant(s). BellSouth will complete construction of all other Collocation Space ("extraordinary conditions") within one hundred twenty (120) calendar days of

the receipt of a Bona Fide Firm Order. Examples of extraordinary conditions include but are not limited to major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. The Parties may elect to renegotiate an alternative provisioning interval with Sprint or seek a waiver from this interval from the Commission.

- 6.5.5 In Tennessee, BellSouth will complete construction for collocation arrangements under Ordinary Conditions for cageless collocation arrangements, within 30 calendar days from receipt of a Bona Fide Firm Order when there is conditioned space and Sprint installs the bays/racks. In no event shall the provisioning interval for cageless collocation exceed 90 calendar days from the receipt of a Bona Fide Firm Order, or as agreed to by the Parties. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.

## 6.6 Augmentations.

- 6.6.1 In Florida, upon receipt of a Bona Fide Firm Order, BellSouth will complete Augments within forty-five (45) calendar days. If BellSouth does not believe that construction will be completed within the relevant time frame and BellSouth and Sprint cannot agree upon a completion date, BellSouth may seek an extension from the Florida PSC by giving written notice to the Florida PSC within thirty (30) calendar days from date BellSouth receives the Bona Fide Firm Order from Sprint.
- 6.6.2 In Georgia, BellSouth will complete simple augments, such as the placement of additional AC convenience outlets, or only a fuse change for additional DC power, within twenty (20) days from BellSouth's receipt of Sprint's Bona Fide Firm Order. For minor augments, such as interconnection cabling arrangements where the infrastructure exists, BellSouth will complete said augments within forty-five (45) days from the receipt of the application Sprint's Bona Fide Firm Order. The interval for intermediate augments, consisting of additional interconnect panels/blocks, cabling DC Power arrangements, where minor infrastructure work is required, shall be sixty (60) days from BellSouth's receipt of Sprint's Bona Fide Firm Order. Within sixty (60) days of the execution of this agreement, the Parties shall meet to determine the specific augmentations that shall be included in the augmentation provisioning categories noted above (i.e., simple augments, minor augments and intermediate augments). If the Parties are unable to reach agreement, the Parties shall utilize the Dispute Resolution procedures set forth in Section 14 of the General Terms and Conditions of this Agreement.
- 6.6.3 In Louisiana, BellSouth complete Augmentation requests within sixty (60) calendar days from the receipt of a Bona Fide Firm Order.

- 6.6.4 For North Carolina, the parties acknowledge that the issue as to whether BellSouth should be willing to commit to specific completion intervals for specific types of additions and augmentations to the collocation space is currently before the Commission and agree to modify this Agreement to conform to the orders of said Commission.**
- 6.6.5 In the event BellSouth does not have space immediately available at a Remote Site Location, BellSouth may elect to make additional space available by, for example but not limited to, rearranging BellSouth facilities or constructing additional capacity. BellSouth will provision the Remote Collocation Space in a nondiscriminatory manner and at parity with BellSouth and will provide Sprint with the estimated completion date in its Response.
- 6.6.5.1 If the BellSouth Remote Site Location does not have space immediately available or has space available but not enough to fulfill Sprint's request, BellSouth will permit Sprint to construct, at Sprint's own expense, a structure adjacent to BellSouth's remote terminal in accordance with the terms and conditions set forth in Section 3; provided, however, that Sprint's election to construct an adjacent arrangement shall not result in either of the above conditions being deemed to be a Denial of Application as set forth in Section 2.
- 6.7 Permits. Each Party or its agents will diligently pursue filing for the permits required for the scope of work to be performed by that Party or its agents within seven (7) business days of the completion of finalized construction designs and specifications.
- 6.8 Acceptance Walk Through. Sprint and BellSouth will complete an acceptance walk through of each Collocation Space requested from BellSouth by Sprint. BellSouth will correct any deviations to Sprint's original or jointly amended requirements within five (5) business days after the walk through, unless the Parties jointly agree upon a different time frame.
- 6.9 Use of BellSouth Certified Supplier. Sprint shall select a supplier that has been approved as a BellSouth Certified Supplier to perform all engineering and installation work required in the Remote Collocation Space per TR 73503 specifications. BellSouth shall provide Sprint with a list of BellSouth Certified Suppliers upon request. The BellSouth Certified Supplier(s) shall be responsible for installing Sprint's equipment and components, installing co-carrier cross connects, extending power cabling to the BellSouth power distribution frame, performing operational tests after installation is complete, and notifying BellSouth's Outside Plant engineers and Sprint upon successful completion of installation. The BellSouth Certified Supplier shall bill Sprint directly for all work performed for Sprint pursuant to this Attachment and BellSouth shall have no liability for nor responsibility to pay such charges imposed by the BellSouth Certified Supplier. BellSouth shall consider certifying Sprint or any supplier proposed by Sprint.

- 6.10 Alarm and Monitoring. BellSouth may place alarms in the Remote Site Location for the protection of BellSouth equipment and facilities. Sprint shall be responsible for placement, monitoring and removal of alarms used to service Sprint's Remote Collocation Space. Both Parties shall use best efforts to notify the other of any verified hazardous conditions known to that Party.
- 6.11 Basic Telephone Service. Upon request of Sprint, BellSouth will provide basic telephone service to the Remote Collocation Space under the rates, terms and conditions of the current tariff offering for the service requested.
- 6.12 Virtual Remote Site Collocation Transition. In the event physical collocation space was previously denied at a location due to technical reasons or space limitations, and that physical collocation space has subsequently become available, Sprint may transition its virtual collocation arrangements to physical collocation arrangements and pay the appropriate non-recurring fees for physical collocation and for the rearrangement or reconfiguration of services terminated in the virtual collocation arrangement. In the event that BellSouth knows when additional space for physical collocation may become available at the location requested by Sprint, such information will be provided to Sprint in BellSouth's written denial of physical collocation. To the extent that (i) physical collocation space becomes available to Sprint within 180 days of BellSouth's written denial of Sprint's request for physical collocation, and (ii) Sprint was not informed in the written denial that physical collocation space would become available within such 180 days, then Sprint may transition its virtual collocation arrangement to a physical collocation arrangement and will receive a credit for any nonrecurring charges previously paid for such virtual collocation. Sprint must arrange with a BellSouth certified vendor for the relocation of equipment if required from its virtual collocation space to its physical collocation space and will bear the cost of such relocation.
- 6.12.1 In the interim, BellSouth will authorize the conversion of virtual collocation arrangements to physical collocation arrangements without requiring the relocation of the virtual arrangement where the arrangement conforms with the terms and conditions of this Attachment and where (1) there is no change to the arrangement; and (2) the conversion of the virtual arrangement would not cause the arrangement to be located in the area of the Premises reserved for BellSouth's forecast of future growth. For conversions from virtual collocation arrangements to physical collocation arrangements that do not require relocation (In Place), BellSouth will bill Sprint an Administrative Only Application Fee as set forth in Exhibit C for these charges.
- 6.12.2 In Alabama and Tennessee, BellSouth will complete Virtual to Physical Conversions (In Place) within thirty (30) calendar days.
- 6.13 Cancellation. If, at anytime, Sprint cancels its order for the Collocation Space(s), Sprint will reimburse BellSouth for any reasonable and demonstrative expenses incurred up to the date that written notice of the cancellation is received. In no event

will the level of reimbursement under this paragraph exceed the maximum amount Sprint would have otherwise paid for work undertaken by BellSouth if no cancellation of the order had occurred.

6.14 Licenses. Sprint, at its own expense, will be solely responsible for obtaining from governmental authorities, and any other appropriate agency, entity, or person, all rights, privileges, and licenses necessary or required to operate as a provider of telecommunications services to the public or to occupy the Remote Collocation Space.

6.15 Environmental Hazard Guidelines. The Parties agree to utilize and adhere to the Environmental Hazard Guidelines identified as Exhibit A attached hereto.

## 7. Rates and Charges

7.1 Recurring Fees. Recurring fees for space occupancy shall be billed upon space completion or space acceptance, whichever occurs first. Other charges shall be billed upon request for the services. All charges shall be due within 30 days of the bill date.

7.2 Rack/Bay Space. The rack/bay space charge includes reasonable charges for air conditioning, ventilation and other allocated expenses associated with maintenance of the Remote Site Location, and includes amperage necessary to power Sprint's equipment. Sprint shall pay rack/bay space charges based upon the number of racks/bays requested. BellSouth will assign Remote Collocation Space in conventional remote site rack/bay lineups where feasible.

7.3 Power. BellSouth shall make available -48 Volt (-48V) DC power for Sprint's Remote Collocation Space at a BellSouth Power Board (Fuse and Alarm Panel) or BellSouth Battery Distribution Fuse Bay ("BDFB") at Sprint's option within the Remote Site Location. The charge for power shall be assessed as part of the recurring charge for rack/bay space and shall be based on the prorata share of the power required relative to the overall power requirements of the Premises. If the power requirements for Sprint's equipment exceeds the capacity for the rack/bay, then such power requirements shall be assessed on a recurring per amp basis for the individual case.

7.3.1 Charges for AC power will be assessed per breaker ampere per month. Rates include the provision of commercial and standby AC power. When obtaining power from a BellSouth service panel, protection devices and power cables must be engineered (sized), and installed by Sprint's BellSouth Certified Supplier except that BellSouth shall engineer and install protection devices and power cables for Adjacent Collocation. Sprint's BellSouth Certified Supplier must also provide a copy of the engineering power specification prior to the Commencement Date. AC power voltage and phase ratings shall be determined on a per location basis. At Sprint's option, Sprint may arrange for AC power in an Adjacent Collocation arrangement from a retail provider of electrical power.

- 7.4 Security Escort. A security escort will be required whenever Sprint or its approved agent desires access to the Remote Site Location after the one accompanied site visit allowed pursuant to Section 6.4.5 prior to completing BellSouth's Security Training requirements and/or prior to Space Acceptance. Rates for a security escort are assessed in one-half (1/2) hour increments according to the schedule appended hereto as Exhibit C.
- 7.5 Rate "True-Up". The Parties agree that the prices reflected as interim herein shall be true-up, either up or down, based on final prices determined either by further agreement between the Parties, or by an effective order of the Commission. The Parties shall implement the true-up by comparing the actual volumes and demand for each item, together with interim prices for each item, with the final prices determined for each item. Each Party shall keep its own records upon which the true-up can be based, and any final payment from one Party to the other shall be in an amount agreed upon by the Parties based on such records. In the event of any disagreement as between the records or the Parties regarding the amount of such true-up, the Parties agree that the body having jurisdiction over the matter shall be called upon to resolve such differences, or the Parties may mutually agree to submit the matter to the Dispute Resolution process in accordance with the provisions of Section 14 of the General Terms and Conditions.
- 7.5.1 The Parties may continue to negotiate toward final prices, but in the event that no such Agreement is reached within ninety (90) days, either Party may petition the Commission to resolve such disputes and to determine final prices for each item. Alternatively, upon mutual agreement, the Parties may submit the matter to the Dispute Resolution Process set forth in Section 14 of the General Terms and Conditions of the Agreement, so long as they file the resulting Agreement with the Commission as a "negotiated Agreement" under Section 252(e) of the Act.
- 7.5.2 An effective order of the Commission that forms the basis of a true-up shall be based upon cost studies submitted by either or both Parties to the Commission and shall be binding upon BellSouth and Sprint specifically or upon all carriers generally, such as a generic cost proceeding.
- 7.6 Other. If no rate is identified in the contract, the rate for the specific service or function will be negotiated by the Parties upon request by either Party. Payment of all other charges under this Attachment shall be due thirty (30) calendar days after receipt of the bill (payment due date). Sprint will pay the late payment charge permitted by law assessed monthly on any balance which remains unpaid after the payment due date.
- 8. Insurance**

- 8.1 Sprint shall, at its sole cost and expense, procure, maintain, and keep in force insurance as specified in this Section 8 and underwritten by insurance companies licensed to do business in the states applicable under this Attachment and having a BEST Insurance Rating of B ++ X (B ++ ten).
- 8.2 Sprint shall maintain the following specific coverage:
- 8.2.1 Commercial General Liability coverage in the amount of ten million dollars (\$10,000,000.00) or a combination of Commercial General Liability and Excess/Umbrella coverage totaling not less than ten million dollars (\$10,000,000.00). BellSouth shall be named as an ADDITIONAL INSURED on ALL applicable policies as specified herein.
- 8.2.2 Statutory Workers Compensation coverage and Employers Liability coverage in the amount of one hundred thousand dollars (\$100,000.00) each accident, one hundred thousand dollars (\$100,000.00) each employee by disease, and five hundred thousand dollars (\$500,000.00) policy limit by disease.
- 8.2.3 Sprint may elect to purchase business interruption and contingent business interruption insurance, having been advised that BellSouth assumes no liability for loss of profit or revenues should an interruption of service occur.
- 8.3 All policies purchased by Sprint shall be deemed to be primary and not contributing to or in excess of any similar coverage purchased by BellSouth. All insurance must be in effect on or before the date equipment is delivered to the Premises and shall remain in effect for the term of this Attachment or until all of Sprint's property has been removed from the Premises, whichever period is longer. If Sprint fails to maintain required coverage, BellSouth may pay the premiums thereon and seek reimbursement of same from Sprint.
- 8.4 Sprint shall submit certificates of insurance reflecting the coverage required pursuant to this Section a minimum of ten (10) days prior to the commencement of any work in the Collocation Space. Failure to meet this interval may result in construction and equipment installation delays. Sprint shall arrange for BellSouth to receive thirty (30) days advance notice of cancellation from Sprint's insurance company. Sprint shall forward a certificate of insurance and notice of cancellation to BellSouth at the following address:

BellSouth Telecommunications, Inc.  
Attn.: Risk Management Coordinator  
600 N. 19<sup>th</sup> Street, 18B3  
Birmingham, Alabama 35203

8.5 Sprint must conform to recommendations made by BellSouth's fire insurance company to the extent BellSouth has agreed to, or shall hereafter agree to, such recommendations.

8.6 Failure to comply with the provisions of this Section will be deemed a material breach of this Attachment.

## **9. Mechanics Liens**

9.1 Each Party must keep the property free from any liens arising from any work performed, materials furnished, or obligations incurred by or at the request of that Party. If any liens are filed against the property, or any improvements thereon, as a result of the acts or omissions of a Party, or that of the Party's employees, agents, or contractors, such Party must discharge the lien within thirty (30) days or furnish a bond in accordance with law within thirty (30) days of the date such Party receives written notice that the lien has been filed. If a Party fails to discharge the lien or provide a bond as required by this section, then, in addition to any other right or remedy, the other Party may, at such other Party's election, discharge the lien by:

- paying the amount claimed to be due; or
- obtaining the discharge by deposit with a court or a title company; or
- furnishing a bond conditioned upon the discharge of said lien.

Sprint will defend and indemnify BellSouth from and against any lien enforcement action, defend and indemnify BellSouth for direct costs, including payments to contractors, costs of deposits or bond costs, as well as any attorney's fees expended by BellSouth as a result of Sprint's failure to fulfill Sprint's obligations under this section.

BellSouth will defend and indemnify Sprint from and against any lien enforcement action, and defend and indemnify Sprint for direct costs, including payments to contractors, costs of deposits or bond costs, as well as any attorney's fees expended by Sprint as a result of BellSouth's failure to fulfill BellSouth's obligations under this section.

## **10. Inspections**

10.1 BellSouth shall conduct an inspection of Sprint's equipment and facilities in the Collocation Space(s) prior to the activation of facilities between Sprint's equipment and equipment of BellSouth. Such inspection shall not unreasonably delay the activation of facilities between Sprint's equipment and equipment of BellSouth. BellSouth may conduct an inspection if Sprint adds equipment and may otherwise conduct routine inspections at reasonable intervals mutually agreed upon by the Parties. BellSouth shall provide Sprint with a minimum of forty-eight (48) hours or

two (2) business days, whichever is greater, advance notice of all such inspections. All costs of such inspection shall be borne by BellSouth.

## **11. Security and Safety Requirements**

11.1 The security and safety requirements set forth in this section are as stringent as the security requirements BellSouth maintains at its own premises either for its own employees or for authorized contractors. Only BellSouth employees, BellSouth certified vendors and authorized employees, authorized Guests, pursuant to Section 3.3, preceding, or authorized agents of Sprint will be permitted in the BellSouth Premises. Sprint shall provide its employees and agents with picture identification which must be worn and visible at all times while in the Collocation Space or other areas in or around the Premises. The photo Identification card shall bear, at a minimum, the employee's name and photo, and the Sprint name. BellSouth reserves the right to remove from its premises any employee of Sprint not possessing identification issued by Sprint. Sprint shall hold BellSouth harmless for any damages resulting from such removal of its personnel from BellSouth premises. Sprint shall be solely responsible for ensuring that any Guest of Sprint is in compliance with all subsections of this Section 11.

11.1.1 Sprint will be required, at its own expense, to conduct a statewide investigation of criminal history records for each Sprint employee being considered for work on the BellSouth Premises, for the states/counties where the Sprint employee has worked and lived for the past five years. Where state law does not permit statewide collection or reporting, an investigation of the applicable counties is acceptable.

11.1.2 Sprint will be required to administer to its personnel assigned to the BellSouth Premises security training either provided by BellSouth, or meeting criteria defined by BellSouth.

11.1.3 Sprint shall not assign to the BellSouth Premises any personnel with records of felony criminal convictions. Sprint shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions, except for misdemeanor traffic violations, without advising BellSouth of the nature and gravity of the offense(s). BellSouth reserves the right to refuse building access to any Sprint personnel who have been identified to have misdemeanor criminal convictions, except for misdemeanor traffic violations. Notwithstanding the foregoing, in the event that Sprint chooses not to advise BellSouth of the nature and gravity of any misdemeanor conviction, Sprint may, in the alternative, certify to BellSouth that it shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions (other than misdemeanor traffic violations).

11.1.4 For each Sprint employee requiring access to a BellSouth Premises pursuant to this agreement, Sprint shall furnish BellSouth, prior to an employee gaining such access, a certification that the aforementioned background check and security training were

- completed. The certification will contain a statement that no felony convictions were found and certifying that the security training was completed by the employee. If the employee's criminal history includes misdemeanor convictions, Sprint will disclose the nature of the convictions to BellSouth at that time. In the alternative, Sprint may certify to BellSouth that it shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions other than misdemeanor traffic violations.
- 11.1.5 At BellSouth's request, Sprint shall promptly remove from the BellSouth Premises any employee of Sprint BellSouth does not wish to grant access to its premises pursuant to any investigation conducted by BellSouth, 1) if it is established and mutually agreed in good faith that Sprint's employees are responsible for the alleged act, or 2) prior to the initiation of an investigation in the event that an employee of Sprint is found interfering with the property or personnel of BellSouth or another CLEC, provided that an investigation shall promptly be commenced by BellSouth.
- 11.2 Notification to BellSouth. BST reserves the right to interview Sprint's employees, agents, or contractors in the event of wrongdoing in or around BellSouth's property or involving BellSouth's or another CLEC's property or personnel, provided that BellSouth shall provide reasonable notice to Sprint's Security contact of such interview. Sprint and its contractors shall reasonably cooperate with BellSouth's investigation into allegations of wrongdoing or criminal conduct committed by, witnessed by, or involving Sprint's employees, agents, or contractors. Additionally, BellSouth reserves the right to bill Sprint for all reasonable costs associated with investigations involving its employees, agents, or contractors if it is established and mutually agreed in good faith that Sprint's employees, agents, or contractors are responsible for the alleged act. BellSouth shall bill Sprint for BellSouth property which is stolen or damaged where an investigation determines the culpability of Sprint's employees, agents, or contractors and where Sprint agrees, in good faith, with the results of such investigation. Sprint shall notify BellSouth in writing immediately in the event that Sprint discovers one of its employees already working on the BellSouth premises is a possible security risk. Upon request of the other Party, the Party who is the employer shall discipline consistent with its employment practices, up to and including removal from the BellSouth Premises, any employee found to have violated the security and safety requirements of this section. Sprint shall hold BellSouth harmless for any damages resulting from such removal of its personnel from BellSouth premises.
- 11.3 Use of Supplies. Unauthorized use of telecommunications equipment or supplies by either Party, whether or not used routinely to provide telephone service (e.g. plug-in cards,) will be strictly prohibited and handled appropriately. Costs associated with such unauthorized use may be charged to the offending Party, as may be all associated investigative costs.
- 11.4 Use of Official Lines. Except for non-toll calls necessary in the performance of their work, neither party shall use the telephones of the other Party on the BellSouth

Premises. Charges for unauthorized telephone calls may be charged to the offending Party, as may be all associated investigative costs.

- 11.5 Full compliance with the Security requirements of this section shall in no way limit the liability of either Party to the other for the improper actions of its employees that would otherwise exist pursuant to this Agreement or applicable law.

## **12. Destruction of Collocation Space**

- 12.1 In the event a Collocation Space is wholly or partially damaged by fire, windstorm, tornado, flood or by similar causes to such an extent as to be rendered wholly unsuitable for Sprint's permitted use hereunder, then either party may elect within ten (10) days after such damage, to terminate this Attachment, and if either party shall so elect, by giving the other written notice of termination, both parties shall stand released of and from further liability under the terms hereof. If the Collocation Space shall suffer only minor damage and shall not be rendered wholly unsuitable for Sprint's permitted use, or is damaged and the option to terminate is not exercised by either party, BellSouth covenants and agrees to proceed promptly without expense to Sprint, except for improvements not the property of BellSouth, to repair the damage. BellSouth shall have a reasonable time within which to rebuild or make any repairs, and such rebuilding and repairing shall be subject to delays caused by storms, shortages of labor and materials, government regulations, strikes, walkouts, and causes beyond the control of BellSouth, which causes shall not be construed as limiting factors, but as exemplary only. Sprint may, at its own expense, accelerate the rebuild of its collocated space and equipment provided however that a certified vendor is used and the necessary space preparation has been completed. Rebuild of equipment must be performed by a BellSouth Certified Vendor. If Sprint's acceleration of the project increases the cost of the project, then those additional charges will be incurred by Sprint. Where allowed and where practical, Sprint may erect a temporary facility while BellSouth rebuilds or makes repairs. In all cases where the Collocation Space shall be rebuilt or repaired, Sprint shall be entitled to an equitable abatement of rent and other charges, depending upon the unsuitability of the Collocation Space for Sprint's permitted use, until such Collocation Space is fully repaired and restored and Sprint's equipment installed therein (but in no event later than thirty (30) days after the Collocation Space is fully repaired and restored). Where Sprint has placed an Adjacent Arrangement pursuant to section 3.3, Sprint shall have the sole responsibility to repair or replace said Adjacent Arrangement provided herein. Pursuant to this section, BellSouth will restore the associated services to the Adjacent Arrangement.

## **13. Eminent Domain**

- 13.1 If the whole of a Collocation Space or Adjacent Arrangement shall be taken by any public authority under the power of eminent domain, then this Attachment shall terminate as of the day possession shall be taken by such public authority and rent and

other charges for the Collocation Space or Adjacent Arrangement shall be paid up to that day with proportionate refund by BellSouth of such rent and charges as may have been paid in advance for a period subsequent to the date of the taking. If any part of the Collocation Space or Adjacent Arrangement shall be taken under eminent domain, BellSouth and Sprint shall each have the right to terminate this Attachment and declare the same null and void, by written notice of such intention to the other party within ten (10) days after such taking.

**14. Nonexclusivity**

- 14.1 Sprint understands that this Attachment is not exclusive and that BellSouth may enter into similar agreements with other parties. Assignment of space pursuant to all such agreements shall be determined by space availability and made on a first come, first served basis.

**MICROWAVE COLLOCATION**

Where technically feasible, BellSouth will provide for physical collocation of Sprint's microwave equipment on the roofs of BellSouth's Central Office Buildings. Such equipment will be limited to that necessary for interconnection of Sprint's network facilities to BellSouth's network or access to BellSouth's unbundled network elements.

Microwave Collocation includes placement of supporting masts, non-penetrating roof mounts ("NPRM"), penetrating pipe stands, parapet mounts, and microwave antenna (e) on the roof top or other suitable exterior spaces of BellSouth's Central Offices and does not include the construction of towers. Sprint may, upon request, place a Global Positioning System (GPS) antenna and cabling on the roof pursuant to Section 12 of this Attachment.

The Parties will work together to determine the preferable type of antenna mount reasonably considering such factors as permitting requirements, roof maintenance issues and any other relevant factors. If applicable, BellSouth will provide a copy of the original FAA air space studies on the requested building including the FAA license application. In the event an FAA air space study does not exist, Sprint may file an FAA air space study on the building where the microwave arrangement is being requested. BellSouth shall have final approval of the type of antenna mount. The Parties agree that the elements listed below reflect requirements for Microwave Collocation, which shall be provided in accordance with the rates, terms and conditions set forth below. The Parties acknowledge that Microwave Collocation requires unobstructed line-of-sight. Unobstructed line-of-sight will be provided by BellSouth where technically feasible but is not guaranteed to be available. Sprint accepts the responsibility of determining unobstructed line-of-sight at any location where Sprint applies for Microwave Collocation.

## **1. PROVISIONING PROCESS AND FEES**

### **A. Initial Site Visit**

Sprint will provide a Site Visit Request to BellSouth, in writing, setting forth the names of the BellSouth Central Office Buildings(s) Sprint wishes to visit for potential Microwave Collocation. Such site visit consists of Sprint representatives and appropriate BellSouth personnel visiting a BellSouth Central Office building for the purpose of determining whether an unobstructed line-of-sight is technically feasible. Sprint will be responsible for making an unobstructed line-of-sight determination. Such Site Visit does not obligate Sprint to request, or BellSouth to provide, Microwave Collocation on the site. The site visit will take place within fifteen (15) business days of receipt by BellSouth of Sprint's Site Visit Request or as soon thereafter as can be scheduled by the Parties.

Sprint will submit a Site Visit Request Fee as specified in Exhibit B, and will pay for the reasonable cost BellSouth incurs for travel, if necessary which BellSouth shall provide Sprint advance notice of, for each site requested with each Site Visit not to exceed two hours. Charges for site visits that take longer than two (2) hours will be charged by BellSouth to Sprint at BellSouth's loaded labor rates on a per hour basis in addition to the Site Visit Request Fee. BellSouth will make every effort possible to use resources near

the requested location to minimize travel required. If BellSouth determines that airline travel is required, BellSouth will contact Sprint in an effort to discuss possible alternatives.

## B. Microwave Collocation Application

This provision shall coincide with provisions under Section 6 and 7 of Attachment 4 of this Agreement.

BellSouth will respond to Microwave Collocation Application(s) pursuant to Section 6 of Attachment 4 of this Agreement.

Sprint shall submit the Application and Inquiry document and appropriate collocation application fee pursuant to BellSouth's FCC #1, Section 20 tariff (for virtual) or Section 7 of Attachment 4 of this Agreement, in addition to a Microwave Collocation Attachment for each central office building where Sprint seeks Microwave Collocation. This application and fees will apply both to space on the roof as well as space inside the BellSouth central office.

Sprint shall provide BellSouth with the following data on the application to the extent available recognizing that certain information may change depending on the final determination of the location providing line of sight:

- • Type of antenna mount (pipe, NPRM)
- • Type of equipment to be collocated within Sprint's case (vendor, capacity)
- • Line of sight requirements (Azimuth)
- • Relevant information includes: Station Name, Call Sign, Latitude and Longitude in NAD 83, Primary Antenna Type, Equipment Type, Equipment Emission, Power (dBm/Watts), Receive Level (dBm), EIRP (dBm/Watts), Transmit Frequency (MHz)
- • Weight and configuration
- • Other relevant information as identified at the initial site visit.

Roof Inspection: BellSouth may require a roof inspection at any site where Sprint requests Microwave Collocation. Sprint will bear the reasonable cost of the inspection including reasonable travel cost if any.

BellSouth intends to use an independent contractor which may be accompanied by BellSouth personnel. The roof inspection fee shall be assessed on an individual case basis unless negotiated as a flat rate by the Parties. Such Roof Inspection does not obligate BellSouth to provide Microwave Collocation on the site.

-

If BellSouth concludes that rooftop/exterior space which provides Sprint with unobstructed line-of-sight does not appear to be technically feasible, BellSouth will provide Sprint a written explanation of such technical infeasibility within thirty (30) business days of BellSouth's receipt of the collocation application including those cases where BellSouth's known business plans provide for or include an addition to the building which would impact the line of sight. This explanation will be included in the response to Sprint's application.

Escorted access to the roof will be provided as necessary by BellSouth pursuant to sub-Section 7.5 of Attachment 4 of this Agreement.

BellSouth or its designated subcontractors shall perform all necessary work associated with the Microwave Collocation arrangement involving power and building modifications unless otherwise agreed to by the Parties. All work performed shall be done by a BellSouth certified vendor as referenced in provision 6.8 of Attachment 4 of this Agreement unless the Parties agree that another certified vendor will be used. The Parties acknowledge that Sprint may become a certified vendor.

If rooftop/exterior space is available BellSouth shall provide Sprint an estimate for such microwave collocation as described more fully in provision 1.C at the same time BellSouth provides its interior collocation space quote.

**C. Preparation of Estimate / Application Response**

Within thirty (30) business days of receiving from Sprint a single complete and accurate Application and Inquiry document, BellSouth will provide, as more fully described below, an estimate including an estimate for the Monthly Recurring Charges pursuant to the rates and terms set forth in BellSouth's FCC #1, Section 20 tariff for virtual collocation, or in Exhibit 4C of this Agreement.

The estimate shall reflect the specifications submitted by Sprint and may change based on the actual field conditions encountered during construction.

- (a) The Estimate /Application Response shall set forth separate estimated charges for the following work related to the installation of the Microwave Antenna Arrangement.

- (i) **Architectural Plan and Structural Review:**

- This shall be the reasonable sum of hourly charges of BellSouth Architects or its contractors necessary to review the plans for the Microwave Collocation Arrangement. This will include applicable consulting charges and fees for reviewing permitting material

and/or assisting Sprint in the permitting process to the extent required.

(ii) **Permitting Review:**

This shall be the sum of the hourly charges of BellSouth Property and Services Management and/or Project Managers whose time was reasonably necessary and actually spent reviewing permitting material and/or assisting Sprint in the permitting process. BellSouth shall have final approval authority on all proposed conditions, (which shall not be unreasonably withheld) imposed by relevant jurisdictions and BellSouth shall have the right to be represented at all hearings in connection with governmental approvals.

(iii) **Exterior (and Related Interior) Building Modification Work:**

BellSouth will include a quote for BellSouth to perform coring within the Central Office, roof strengthening or any other exterior or related interior building modification that may be required.

(iv) **Supervision of General Contractor:**

This shall be the reasonable sum of the hourly charges, if necessary, of any BellSouth Property and Services Management personnel, Consultants, or Project Managers who monitor the Microwave Antenna Support Structure installation performed by Sprint's contractor. The level of BellSouth's personnel or consultants shall be commensurate with the requirements for supervising the project and monitoring construction.

(v) **Special Security Construction:**

If BellSouth demonstrates that new secure access to the Microwave Collocation location is reasonably necessary, the costs associated with the construction of such access shall be described on a separate schedule to be provided by BellSouth to Sprint.

(b) **Recurring Charges**

These consist of:

(i) **Monthly Recurring Roof-Top Space Rental Fee:**

The Monthly Recurring Roof-Top Space Rental Fee shall be on a per square foot basis with a minimum of 12 square feet per microwave arrangement as set forth in this Attachment in Exhibit B. Sprint is limited building and structural support constraints for determining the number of antenna (e) which can be placed on a roof mount, pipe stand, or parapet mount. The diameter of the microwave antenna (e) will be subject to a height limitation of twenty (20) feet above the building or point of attachment, subject to line-of-sight, safety, and structural engineering guidelines, (e.g., weight, wind load). Such equipment will be subject to a structural analysis to be performed by a BellSouth Certified Structural Engineer at Sprint's sole expense, to ensure that the equipment does not overload the building structure. If any structural reinforcement is required in order to accommodate the placement of the requested diameter and height of such microwave antennae, Sprint will not be allowed to place such microwave antenna (e). Sprint agrees that the height of the structure will be no greater than the minimum required to accommodate line of sight requirements. At no time shall an antenna (e) be directed across open roof space without approval of BellSouth which shall not be unreasonably withheld.

The billing for the Rooftop Space Rental Fee shall begin the date the interior and rooftop space preparation activities are complete and the space is made available to Sprint, or the date Sprint first begins the Rooftop microwave equipment installation, whichever is sooner. BellSouth will work with Sprint to avoid unreasonable time differences between the completion of rooftop space preparation and interior collocation space construction.

All estimates shall be valid for thirty (30) days from issuance, and Sprint shall accept, reject or request changes within such time period, unless an extension is requested in writing by Sprint and agreed to by BellSouth. Such extension will not exceed thirty (30) days unless otherwise agreed to by the parties. To accept an estimate, Sprint shall so state in writing and shall pay BellSouth 50% of the total estimated charges ("Initial Payment") with the balance of the actual charges due upon completion of the Microwave Collocation area and any necessary supporting electrical or building modification work. Payment requirements will be commensurate with Section 7.1 of Attachment 4 of this Agreement.

#### **D. Pre-Design Meeting**

Unless otherwise agreed to by the Parties, a joint planning meeting or other method of joint planning between BellSouth and Sprint will commence within a

maximum of 15 business days from BellSouth's receipt of a Bona Fide Firm Order and the payment of agreed upon fees. At such meeting, the Parties will agree to the preliminary design of the Microwave Collocation Space and the equipment configuration requirements as reflected in the Application and affirmed in the Bona Fide Firm Order. The Collocation Space Completion time period will be provided to Sprint during the joint planning meeting or as soon as possible thereafter. BellSouth will complete all design work following the joint planning meeting. This will be the same meeting that takes place for the interior collocation arrangement.

**E. Equipment and Testing:**

Sprint shall be responsible for providing, at its sole expense, the antenna (e), coaxial cable, brackets, connectors, support structure, grounding and bonding materials, and weather-proofing materials for such support structure or antenna (e) required for the Microwave Collocation. Sprint shall also be solely responsible for final adjustments (e.g., pointing) of the antenna (e).

**F. Use Permits:**

Sprint shall be responsible for obtaining all relevant Use Permits (Ups) and shall bear all costs and fees. Sprint shall regularly apprise BellSouth of the status of such permitting and consult with BellSouth as reasonably necessary.

**2. NO PROPERTY RIGHT CONFERRED**

Notwithstanding anything contained herein to the contrary, Microwave Collocation shall not confer or be deemed to confer any property interest or right in BellSouth's property, and Sprint hereby acknowledges that the rights conferred hereunder shall constitute merely a non-exclusive license to use a portion of BellSouth's property solely for the purposes set forth herein. A limit of two (2) Sprint Microwave Collocation arrangements per Central Office will be permitted unless otherwise agreed to by the Parties.

Title to Sprint's Microwave Collocation equipment shall remain in Sprint as the property of Sprint and shall not become fixtures to BellSouth's property.

**3. RESPONSIBILITY OF THE PARTIES**

- A. Sprint shall obtain and BellSouth will provide assistance as necessary to obtain any and all applicable and necessary permits, variances, licenses, approvals and authorizations from the governmental agencies with jurisdiction, including without limitation, use permits and buildings permits. FCC licenses and FAA approval, if required, to operate and maintain Sprint's facilities during the Term of this Agreement.

- B. Where BellSouth performs any of the work pursuant to the quotes set forth in 1.C.(2)(a), BellSouth shall select the architect, engineers, surveyors, contractors, suppliers, consultants and subcontractors which may be necessary to develop plans, furnish materials and equipment, and perform construction work. BellSouth shall manage all such work in accordance with the plans and specifications approved by the Parties, all applicable laws, codes and regulations, and shall require that all contractors perform their work in a good workmanlike manner. BellSouth shall require that all BellSouth Contractors include Sprint as an ADDITIONAL INSURED to any policies of insurance maintained by the Contractor for purposes of the work, and shall indemnify Sprint from losses, costs and expenses incurred as a result of contractor's work. Sprint hereby acknowledges and agrees that BellSouth shall not be liable for the work performed, material, supplies, or work products furnished by any contractor, and that Sprint shall look solely to the contractor and any warranties, indemnification or insurance furnished by such Contractor, waiving and releasing BellSouth from any claim or liability therefrom except to the extent of the negligence or willful misconduct of BellSouth in the performance of its project management activities.
- C. Notwithstanding any other provision of this Attachment, Sprint hereby acknowledges that BellSouth may have existing wireless communications facilities of its own or of other tenants or licensees on or at BellSouth's Central Office, and/or BellSouth may desire from time to time throughout the term of this Agreement to enter into agreements with other wireless communications providers for the installation, operation and maintenance of communications facilities on or at BellSouth's Property ("Other Wireless Carriers"). Sprint shall cooperate with BellSouth and all Other Wireless Carriers so as to reasonably accommodate the needs and requirements of such Other Wireless Carriers with respect to the installation, operation, use and maintenance of their equipment and facilities, and all necessary alterations, modifications and other improvements to BellSouth's property, including utility connections and access. Subject to ownership of any exclusive frequency rights, Sprint's facilities shall not physically, electronically, or inductively interfere with the existing BellSouth or other customers' or tenants' existing facilities. Each transmitter individually and all transmitters collectively at a given location shall comply with appropriate federal, state, and/or local regulations governing the safe levels of RF radiation. The foregoing obligations shall apply equally to all Other Wireless Carriers.
- D. In the event Sprint desires to relocate any of its then-existing Microwave Collocation facilities to a different place on the relevant BellSouth Central Office rooftop, Sprint shall submit a new application with fee to BellSouth specifying the new location Sprint proposes to occupy. If the relocation does not require BellSouth to expend capital, then a Subsequent Application fee will apply as covered in Exhibit A.

E. BellSouth shall, within thirty (30) business days of receipt of a complete application, approve such relocation or describe, in writing, why such relocation is not technically feasible.

F. Sprint's Insurance Obligations

Pursuant to Section 8 of Attachment 4 of this Agreement.

G. At its sole cost and expense, Sprint shall maintain Sprint's Microwave equipment, including without limitation, all necessary repairs, replacements and restorations. In addition, Sprint shall keep its Microwave Collocation space in a good, neat, sanitary and workmanlike condition. If Sprint shall fail to keep its Microwave Collocation space in such workmanlike condition after ten (10) days written notice from BellSouth, BellSouth shall have the right but not the obligation to clean up the space on Sprint's behalf. In such event, Sprint shall be liable to BellSouth for the reasonable and demonstrable cost of such work.

#### **4. SECURE ACCESS**

Pursuant to Section 11 of Attachment 4 of this Agreement.

#### **5 CABLE PROVISIONING**

Sprint is responsible for providing, running, and maintaining the cable from the radio frequency (RF) equipment to the collocation cage through the use of a BellSouth Certified Vendor. The Parties will discuss the proposed point of entrance in an attempt to mutually agree upon a point of entrance provided, however, that it will be in BellSouth's final discretion to designate the point of entrance of the cable from the roof into the BellSouth Central Office building. BellSouth will be responsible for providing any necessary cable support structure at a rate indicated in Exhibit B. A BellSouth consultant must approve how the cable will be run.

#### **6. LINE OF SIGHT**

BellSouth will manage roof space on a first-come /first-served basis. BellSouth will work cooperatively with Sprint in determining suitable space for Sprint equipment. Once the parties mutually determine an initial location which provides for line of sight pursuant to 1c) above, Sprint is guaranteed a clear line of sight from the antenna mount and the edge of BellSouth's roof line. If BellSouth requires a building enhancement modification or through the placement of additional equipment obstructs Sprint's existing line of sight, BellSouth will work with Sprint to move the antenna mount or raise the height of the antenna mount for a clear line of

sight prior to the obstruction occurring. The costs of this modification will be borne by BellSouth.

If a third party elects to place equipment on the roof that obstructs an existing line of sight, the third party application will be denied unless all three parties mutually agree to move an existing arrangement to allow for a clear line of sight. The costs of this application will be borne by the third party.

## **7. ANTENNA MODIFICATIONS**

Sprint is limited to building and structural support constraints for determining the number of antenna (e) which can be placed on a roof mount, pipe stand, or parapet mount. Sprint must submit an application with a fee before adding additional equipment to the microwave collocation space or to move equipment outside of designated space. Sprint may not construct improvements or make Major Alterations to its rooftop space or microwave transmission facilities without prior written approval from BellSouth, which will not be unreasonably withheld. BellSouth shall respond to any single request (application) within thirty (30) business days. "Major Alterations" shall include but not be limited to: (i) additional construction by Sprint of support equipment within its rooftop space, (ii) any modification to the rooftop space. "Major Alterations" shall not include (i) replacement of mounted equipment with like-sized and weight or smaller mounted equipment or similar functionality, (ii) routine repairs and maintenance to such microwave transmission facilities. Additional equipment or movement of existing equipment will require a new application and application fee. Anything outside of normal maintenance may require a subsequent application fee as indicated in Exhibit 4C of Attachment 4 of this Agreement.

## **8. USE OF ANTENNA SPACE ON OTHER BELL SOUTH TOWERS**

Requirements for antenna space on existing towers that are not part of a BellSouth central office will be handled through BellSouth's Master Licensing Process.

## **9. EQUIPMENT REMOVAL**

If, at any time, BellSouth reasonably determines that any of Sprint's facilities or equipment or the installation of Sprint's facilities or equipment does not meet the requirements outlined in this Agreement, Sprint will be responsible for the costs associated with the removal of such facilities or equipment or modification of the facilities or equipment or installation thereof to render it compliant. The removal of equipment must be done by a BellSouth Certified Vendor unless the Parties agree that another certified vendor can be used. If Sprint fails to correct any non-compliance with these standards or fails to demonstrate that the equipment is compliant within thirty (30) days' written notice to Sprint, BellSouth may have the facilities or equipment removed or the condition corrected at Sprint's expense.

Removal of Microwave Collocation equipment shall be pursuant to provision 4.3 in the Collocation Agreement.

## **10. NATURE OF USE**

Sprint equipment must comply with BellCore Network Equipment Building System (NEBS) Requirements, Electromagnetic Compatibility and Electrical Safety Generic Criteria for Network Telecommunication Equipment (TR-NWT-001089), and FCC OET Bulletin 65 dated 08/97. Requirements of provision 5.1 of the Collocation Agreement also apply. The operation of Sprint's microwave equipment shall comply with all applicable federal and state RF guidelines.

## **11. POWER REQUIREMENTS FOR MICROWAVE ARRANGEMENT**

BellSouth will not provide power or environmental support to the roof space. If BellSouth agrees in response to a specific request by Sprint to provide power or environmental support to the roof space, Sprint will bear all associated costs as specified by BellSouth to provide such services. In such case requirements set forth in provision 7.4 of Attachment 4 of this Agreement will apply.

## **12. GROUNDING AND BONDING**

Sprint at its expense will insure that any microwave equipment or Global Positioning System equipment placed on the rooftop collocation space or in the building shall be grounded and bonded according to BellSouth standards which shall be at a minimum consistent with industry standards. BellSouth agrees to provide its best efforts to approve the standard grounding runs placed in the building and that grounding and bonding requirements shall be applied at parity to itself and other interconnectors for similar types of equipment.

## **13. COLLOCATION AGREEMENT PROVISIONS**

Any provision provided specifically herein shall be in addition to applicable provisions in the Collocation Agreement.

### **MICROWAVE COLLOCATION RATE ELEMENT DEFINITIONS AND CONDITIONS**

#### **Non-recurring charges - Relating to Microwave Roof Equipment**

##### **1) Microwave Preparation Fees**

Architectural Plan and Structural Review

Permitting Review  
Exterior and Related Interior Building Modification Work  
General Contractor Supervision  
Special Security Construction

2) **Coring/Cable Support Structure**

Electrical and Building modification work for coring  
Weather Proofing  
Cable Support Structure

3) **Roof Preparation (if applicable)**

Engineering Study (To develop roof preparation alternatives/costs)

4) **Escort - charge for access to roof**

Charge for access to Roof

5) **Roof Penetration (if required)**

**Recurring charges - Relating to Microwave Roof Equipment**

1) **Roof Space Lease Charge**

Monthly rate for leasing rooftop or other suitable exterior space on BellSouth CO on a per square foot basis.

**MICROWAVE COLLOCATION RATES**

**Non-recurring charges\***

|                                                      |                                     |
|------------------------------------------------------|-------------------------------------|
| 1) Site Visit Request Fee (2 hours)                  | \$250.00 Per Site Visit for each CO |
| 2) Microwave Prep fee                                | [ICB FOR EACH CO]                   |
| 3) Coring/Cable Support Structure                    | [ICB FOR EACH CO]                   |
| 4) Roof Preparation/Exterior Cable Support Structure | [ICB FOR EACH CO]                   |
| 5) Microwave Installation                            | [ICB FOR EACH CO]                   |
| 6) Additional Charges**                              | [BASED ON ICB]                      |

\* With the exception of Additional Charges, all Non-recurring Charges shall be assessed on an interim basis subject to true up based on a BellSouth cost study to determine the appropriate cost for such activities.

\*\* Additional costs for environmental conditioning (if applicable) will be developed and charged as an ICB. These charges include but are not limited to (to the extent applicable): exterior cable support structure; coring; and roof reinforcement. These costs along with the building Modification costs will be pro-rated back to existing customers when new applicants are put into service.

**Monthly recurring rates\***

1) Roof space (per sq. ft.)\*\* \$ 5.50

\* All Recurring rates shall be assessed on an interim basis subject to true up based on a BellSouth cost study to determine the appropriate cost for such activities.

\*\* A minimum of 12 square feet is required per microwave arrangement.

## ENVIRONMENTAL AND SAFETY PRINCIPLES

The following principles provide basic guidance on environmental and safety issues when applying for and establishing Physical Collocation arrangements.

### 1. GENERAL PRINCIPLES

- 1.1 Compliance with Applicable Law. BellSouth and Sprint agree to comply with applicable federal, state, and local environmental and safety laws and regulations including U.S. Environmental Protection Agency (USEPA) regulations issued under the Clean Air Act (CAA), Clean Water Act (CWA), Resource Conservation and Recovery Act (RCRA), Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), Superfund Amendments and Reauthorization Act (SARA), the Toxic Substances Control Act (TSCA), and OSHA regulations issued under the Occupational Safety and Health Act of 1970, as amended and NFPA and National Electrical Codes (NEC) and the NESC ("Applicable Laws"). Each party shall notify the other if compliance inspections are conducted by regulatory agencies and/or citations are issued that relate to any aspect of this agreement.
- 1.2 Notice. BellSouth and Sprint shall provide notice to the other, including Material Safety Data Sheets (MSDSs), of known and recognized physical hazards or Hazardous Chemicals existing on site or brought on site. Each party is required to provide specific notice for known potential Imminent Danger conditions. Sprint should contact 1-800-743-6737 for BellSouth MSDS sheets.
- 1.3 Practices/Procedures. BellSouth may make available additional environmental control procedures for Sprint to follow when working at a BellSouth Premises (See Section 2, below). These practices/procedures will represent the regular work practices required to be followed by the employees and contractors of BellSouth for environmental protection. Sprint will require its contractors, agents and others accessing the BellSouth Premises to comply with these practices. Section 2 lists the Environmental categories where BST practices should be followed by CLEC when operating in the BellSouth Premises.
- 1.4 Environmental and Safety Inspections. BellSouth reserves the right to inspect the Sprint space with proper notification. BellSouth reserves the right to stop any Sprint work operation that imposes Imminent Danger to the environment, employees or other persons in the area or Facility.
- 1.5 Hazardous Materials Brought On Site. Any hazardous materials brought into, used,

**EXHIBIT A**

Page 2 of 5

- stored or abandoned at the BellSouth Premises by Sprint are owned by Sprint. Sprint will indemnify BellSouth for claims, lawsuits or damages to persons or property caused by these materials. Without prior written BellSouth approval, no substantial new safety or environmental hazards can be created by Sprint or different hazardous materials used by Sprint at BellSouth Facility. Sprint must demonstrate adequate emergency response capabilities for its materials used or remaining at the BellSouth Facility.
- 1.6 Spills and Releases. When contamination is discovered at a BellSouth Premises, the party discovering the condition must notify BellSouth. All Spills or Releases of regulated materials will immediately be reported by Sprint to BellSouth.
- 1.7 Coordinated Environmental Plans and Permits. BellSouth and Sprint will coordinate plans, permits or information required to be submitted to government agencies, such as emergency response plans, spill prevention control and countermeasures (SPCC) plans and community reporting. If fees are associated with filing, BellSouth and Sprint will develop a cost sharing procedure. If BellSouth's permit or EPA identification number must be used, Sprint must comply with all of BellSouth's permit conditions and environmental processes, including environmental "best management practices (BMP)" (see Section 2, below) and/or selection of BST disposition vendors and disposal sites.
2. **CATEGORIES FOR CONSIDERATION OF ENVIRONMENTAL ISSUES**

When performing functions that fall under the following Environmental categories on BellSouth's Premises, Sprint agrees to comply with the applicable sections of the current issue of BellSouth's Environmental and Safety Methods and Procedures (M&Ps), incorporated herein by this reference. Sprint further agrees to cooperate with BellSouth to ensure that Sprint's employees, agents, and/or subcontractors are knowledgeable of and satisfy those provisions of BellSouth's Environmental M&Ps which apply to the specific Environmental function being performed by Sprint, its employees, agents and/or subcontractors.

The most current version of reference documentation must be requested from BellSouth.

**EXHIBIT A**

**3. DEFINITIONS**

Generator. Under RCRA, the person whose act produces a Hazardous Waste, as defined in 40 CFR 261, or whose act first causes a Hazardous Waste to become subject to regulation. The Generator is legally responsible for the proper management and disposal of Hazardous Wastes in accordance with regulations.

Hazardous Chemical. As defined in the U.S. Occupational Safety and Health (OSHA) hazard communication standard (29 CFR 1910.1200), any chemical which is a health hazard or physical hazard.

Hazardous Waste. As defined in section 1004 of RCRA.

Imminent Danger. Any conditions or practices at a facility which are such that a danger exists which could reasonably be expected to cause immediate death or serious harm to people or immediate significant damage to the environment or natural resources.

Spill or Release. As defined in Section 101 of CERCLA.

**4. ACRONYMS**

DEC/LDEC - Department Environmental Coordinator/Local Department Environmental Coordinator

GU-BTEN-001BT - BellSouth Environmental Methods and Procedures

EVET - Environmental Vendor Evaluation Team

P&SM - Property & Services Management

Std. T&C - Standard Terms & Conditions

NESC - National Electrical Safety Codes

\*Standard bays are defined as racks, bays or cabinets, including equipment and cable, with measurements equal to or less than the following: Width - 26", Depth - 25". The standard height for all collocated equipment bays in BellSouth is 7' 0".

\*\* Any forecast for non-standard cageless bays must include an attachment describing the quantity and width and depth measurements.

Notes: Forecast information will be used for no other purpose than collocation planning.  
Forecast with application dates greater than 3 months from the date of submission will not guarantee the reservation of space in the office requested.

## ACCESS TO NUMBERS AND NUMBER PORTABILITY

### 1. Non-Discriminatory Access to Telephone Numbers

All the negotiated rates, terms and conditions set forth in this Attachment pertain to the provisioning of local number portability.

- 1.1 During the term of this Agreement, Sprint and BellSouth shall contact the North American Numbering Plan Administrator (NANPA) as designated by the FCC for the assignment of numbering resources in accordance with the then current Industry Numbering Committee's Central Office Code (NXX) Assignment Guidelines.
- 1.2 For the purposes of the resale of BellSouth's telecommunications services by Sprint, BellSouth will provide Sprint with on line access to telephone numbers for reservation on a first come, first served basis. BellSouth's reservation of telephone number practices shall be in accordance with the appropriate FCC rules and regulations. Sprint acknowledges that there may be instances where there is a shortage of telephone numbers in a particular CLLIC and in such instances BellSouth may request that Sprint cancel sufficient reservations of numbers to alleviate the shortage. Sprint shall make reasonable effort to comply with such request.
- 1.3 Further, upon Sprint request and for the purposes of the resale of BellSouth's telecommunications services by Sprint, BellSouth will reserve up to 100 telephone numbers per Common Language Location Identifier Code (CLLIC), for Sprint's sole use. Such telephone number reservations shall be transmitted to Sprint via electronic file transfer. BellSouth reservation of telephone number practices shall be in accordance with the appropriate FCC rules and regulations. Sprint acknowledges that there may be instances where there is a shortage of telephone numbers in a particular CLLIC and in such instances BellSouth shall use its best efforts to reserve for a ninety (90) day period a sufficient quantity for Sprint's reasonable need in that particular CLLIC.
- 1.4 BellSouth and Sprint shall offer number portability to customers for any portion of an existing block of DID numbers without being required to port the entire block of numbers. BellSouth and Sprint shall permit end users that port a portion of DID numbers to retain DID service on the remaining portion of numbers. Porting a portion of a range of DID numbers can be provided by BellSouth pursuant to its General Subscriber Services Tariff.
- 1.5 BellSouth will port numbers that are denied or are currently on suspend. BellSouth will not require payment of the account prior to porting. BellSouth will port reserved numbers that the end user is currently paying to reserve. Portable reserved numbers appear on the end user's customer service record.

### 2. Permanent Number Portability

- 2.1 The FCC, the Commissions, and industry forums have developed and BellSouth is implementing a permanent approach to providing service provider number portability. Both Parties will implement a permanent approach as developed and approved by the Commission, the FCC and industry forums. Consistent with the requirements to move to Permanent Number Portability (PNP) as set forth in Section 5 of this Attachment, Interim Number Portability (INP) may be available only until such permanent solution is implemented in an end office.
- 2.2 End User Line Charge. Recovery of charges associated with implementing PNP through a monthly charge assessed to end users has been authorized by the FCC. This end user line charge will be as filed in FCC No. 1 and will be billed to Sprint where Sprint is a subscriber to local switching or where Sprint is a reseller of BellSouth telecommunications services. This charge will not be discounted.
- 2.3 LERG Reassignment: Portability for an entire NXX code of numbers shall be provided, when mutually agreed, by utilizing reassignment of the entire NXX code to the porting Party through a reassignment in the Local Exchange Routing Guide ("LERG"). Updates to translations in the donor Party's switching offices from which the NNX code is reassigned will be made by the donor Party by the date on which national LERG changes become effective.
- 3. Interim Number Portability**
- 3.1 Definition. Until the industry-wide permanent solution is implemented in an end office, BellSouth shall provide Interim Number Portability ("INP"). INP is an interim service arrangement whereby an end user who switches subscription of his local exchange service from BellSouth to Sprint, or vice versa, is permitted to retain the use of his existing assigned telephone number, provided that the end user remains at the same location for his local exchange service or changes locations and service providers but stays within the same rate center of his existing number.
- 3.2 Methods of Providing Number Portability. INP is available through either remote call forwarding or direct inward dialing trunks, at the election of Sprint. Remote call forwarding (RCF) is an existing switch-based BellSouth service that redirects calls within the telephone network. Direct inward dialing trunks (DID) allow calls to be routed over a dedicated facility to the Sprint switch that serves the subscriber.
- 3.3 Signaling Requirements. SS7 Signaling is required for the provision of INP services. INP-DID is available from BellSouth on a per DS0, DS1, or DS3 basis. Where INP-DID is technically feasible and is provided on a DS1 or a DS3 basis, the applicable channelization rates are those specified in Section E6 in BellSouth's Intrastate Access Tariffs, incorporated herein by this reference. INP is available only for basic local exchange service.
- 3.4 Rates

Rates for INP are set out in Exhibit A to this Attachment. If no rate is identified in the contract, the rate for the specific service or function will be negotiated by the Parties upon request by either Party.

#### **4. INP Implementation**

- 4.1 INP is available only where a CLEC or BellSouth is currently providing, or will begin providing concurrent with provision of INP, basic local exchange service to the affected end user. INP for a particular telephone number is available only from the central office originally providing local exchange service to the end user. INP for a particular assigned telephone number will be disconnected when any end user, Commission, BellSouth, or Sprint initiated activity (*e.g.*, a change in exchange boundaries) would normally result in a telephone number change had the end user retained his local exchange service with the donor Party.
- 4.2 INP-RCF, as contemplated by this Agreement, is a telecommunications service whereby a call dialed to an INP-RCF equipped telephone number is automatically forwarded to an assigned seven- or ten- digit telephone number within the local calling area as defined in BellSouth's General Subscriber Services Tariff. The forwarded-to number shall be specified by Sprint or BellSouth, as appropriate. The forwarding Party will provide identification of the originating telephone number, via SS7 signaling, to the receiving Party. Identification of the originating telephone number to the INP-RCF end user cannot be guaranteed, however. INP-RCF provides a single call path for the forwarding of no more than one simultaneous call to the receiving Party's specified forwarded-to number. Each Party may order up to the maximum amount of additional paths capable on a particular switch type to handle multiple simultaneous calls to the same ported telephone number.
- 4.3 INP-DID service, as contemplated by this Agreement, provides trunk side access to end office switches for direct inward dialing to the other Party's premises equipment from the telecommunications network to lines associated with the other Party's switching equipment and must be provided on all trunks in a group arranged for inward service. A INP-DID trunk termination charge, provided with SS7 Signaling only, applies for each trunk voice grade equivalent. In addition, direct facilities are required from the end office where a ported number resides to the end office serving the ported end user customer. The rates for a switched local channel and switched dedicated transport apply as contained in BellSouth's Intrastate Access Services tariff, as said tariff is amended from time to time. Transport mileage will be calculated as the airline distance between the end office where the number is ported and the Point of Interface ("POI") using the V&H coordinate method. INP-DID must be established with a minimum configuration of two channels and one unassigned telephone number per switch, per arrangement for control purposes. Transport facilities arranged for INP-DID may not be mixed with any other type of trunk group, with no outgoing calls placed over said facilities. INP-DID will be provided only where such facilities are available and where the switching equipment of the ordering Party is properly equipped. Where INP-DID service is required from more than one wire center or

- from separate trunk groups within the same wire center, such service provided from each wire center or each trunk group within the same wire center shall be considered a separate service. Only customer-dialed sent-paid calls will be completed to the first number of a INP-DID number group ; however, there are no restrictions on calls completed to other numbers of a INP-DID number group. Interface group arrangements provided for terminating the switched transport at the Party's terminal location are as set forth in of BellSouth's Intrastate Access Services Tariff, § E6.1.3.A as amended from time to time.
- 4.4 The calling party shall be responsible for payment of the applicable charges for sent-paid calls to the INP number. For collect, third-party, or other operator-assisted non-sent paid calls to the ported telephone number, BellSouth or Sprint shall be responsible for the payment of charges under the same terms and conditions for which the end user would have been liable for those charges. Either Party may request that the other block collect and third party non-sent paid calls to the INP-assigned telephone number. If a Party does not request blocking, the other Party will provide itemized local usage detail for the billing of non-sent paid calls on the monthly bill of usage charges provided at the individual end user account level. The detail will include itemization of all billable usage. Each Party shall have the option of receiving this usage data on a daily basis via a data file transfer arrangement. This arrangement will utilize the existing industry uniform standard, known as EMR standards, for exchange of billing data. Files of usage data will be created daily for the optional service. Usage originated and recorded in the sending BellSouth RAO will be provided in unrated or rated format, depending on processing system. Sprint usage originated elsewhere and delivered via CMDS to the sending BellSouth RAO shall be provided in rated format.
- 4.5 Each Party shall be responsible for obtaining authorization from the end user for the handling of the disconnection of the end user's service, the provision of new local service and the provision of INP services. Each Party shall be responsible for coordinating the provision of service with the other to assure that its switch is capable of accepting INP ported traffic. Each Party shall be responsible for providing equipment and facilities that are compatible with the other's service parameters, interfaces, equipment and facilities and shall be required to provide sufficient terminating facilities and services at the terminating end of an INP call to adequately handle all traffic to that location and shall be solely responsible to ensure that its facilities, equipment and services do not interfere with or impair any facility, equipment, or service of the other Party or any of its end users. In the event that either Party determines in its reasonable judgment that the other Party will likely impair or is impairing, or interfering with any equipment, facility or service or any of its end users, that Party may either refuse to provide INP service or may terminate INP service to the other Party after providing appropriate notice.
- 4.6 Each Party shall permit the other Party to order all intercept announcements, and specify the particular announcement from the standard set of intercept announcement options. The intercept announcement shall be on a per telephone number basis for

telephone numbers which the porting Party has ported from the donor Party and for which INP measures have, at that porting Party's direction, been terminated.

- 4.7 Each Party shall be the other Party's single point of contact for all repair calls on behalf of each Party's end user. Each Party must obtain authorization from the other Party before contacting the other Party's customers for maintenance purposes.
- 4.8 Neither Party shall be responsible for adverse effects on any service, facility or equipment from the use of INP services. End-to-end transmission characteristics may vary depending on the distance and routing necessary to complete calls over INP facilities. Each Party shall meet or exceed the minimum transmission quality standards for its respective network as may be established by the Commission. Each Party shall promptly notify the other of any necessary change in protection criteria or in any of the facilities, operation, or procedures that could render any facilities provided by the other Party obsolete or cause necessary modification of the other Party's equipment.
- 4.9 For terminating IXC traffic ported to either Party which requires use of either Party's tandem switching, the tandem provider will bill the IXC tandem switching and a portion of the transport, and the other Party will bill the IXC local switching, the interconnection charge, the carrier common line and a portion of the transport. If the tandem provider is unable to provide the necessary access records to permit the other Party to bill the IXC directly for terminating access to ported numbers, then the tandem provider will bill the IXC full terminating switched access charges at the tandem provider's rate and will compensate the other Party at the tandem Party's tariff rates via a process mutually agreed to by the Parties. If an intraLATA toll call is delivered, the delivering Party will pay terminating access rates to the other Party. This subsection does not apply in cases where INP-DID is utilized for number portability.

## 5. **Conversion from INP to PNP**

Once a long-term database method of providing Local Number Portability (PNP) is implemented in an end office, with advance written notice, neither Party shall provide new number portability arrangements in that end office using interim number portability (INP). The official notice advising an end office is now PNP compatible will be as posted in the LERG 45 days in advance of the ready to port date of that office. Advance notice of PNP implementation for all BellSouth end offices is also posted on the Interconnection web site. The LERG posting for PNP eligibility date will begin the transition from INP to PNP for all INP services. The transition from existing INP arrangements to PNP shall occur within one hundred twenty (120) days from the date PNP is implemented in the end office or as mutually agreed to by both Parties during the transition period. BellSouth will provision Local Service Requests for INP with due dates contained prior to the end office implementation date. Requests for INP with due dates on or after the PNP implementation date will be returned to the requesting Party for subsequent submission as PNP. Neither Party shall charge the other Party for conversion from INP to PNP. The Parties shall comply with any INP/PNP transition processes established by the FCC and State Commissions and

appropriate industry number portability work groups. BellSouth and Sprint will work cooperatively in the submission of transition orders to ensure that end user outage during the conversion is minimal. Ordering guidelines for PNP can be found on the web at <http://www.interconnection.bellsouth.com/guides/guides.html>. and are contained in the BellSouth Business Rules for Local Ordering.

Notwithstanding the foregoing, the Parties acknowledge that the FCC has determined once PNP has been deployed pursuant to the FCC's orders, rules and regulations, that all local exchange carriers (LECs) have the duty to provide PNP. Therefore, either Party, at any time, may seek appropriate legal or regulatory relief concerning the transition from INP to PNP or other related issues.

## 5.1 Conversion Policy

### 5.1.1 BellSouth implemented the conversion of Interim Number Portability (INP) to Local Number Portability (PNP) as follows:

- The conversion of INP numbers to PNP is handled as a project and as such will be coordinated by a BellSouth project manager to ensure timely conversion of all INP to PNP accounts.
- All INP numbers in PNP capable switches will be converted to PNP within 120 days after the office is PNP capable.
- BellSouth will continue to offer INP until the completion date of PNP for the wire center.

## 5.2 Conversion Schedule

The schedule to implement PNP in the 21 MSAs in the BellSouth region is as mandated by the FCC may be viewed by accessing the Carrier Notification Web site. The notification also outlines the conversion schedule for all of BellSouth's switches.

## 5.3 Specific Conversion activities

When Sprint has INP accounts, the BellSouth Account Team will contact Sprint to negotiate a conversion schedule.

During the 120 day conversion period for each MSA, the Local Carrier Service Center (LCSC) will provide special handling for the requests to convert INP to PNP. These requests will be logged by a project manager and project managed to ensure end user service outage is minimal. Unless listing changes are requested, Sprint may use a specially designed form provided by the project manager or account team in lieu of the Local Service Request (LSR), End User (EU), and Number Portability (NP) forms.

If changes are to be made to the INP account, the LSR should follow the normal process flow for ordering instead of the INP to PNP conversion plan.

#### 5.4 FOC

During the conversion period, if Sprint uses the request form in lieu of the LSR, the form will include provisions for providing a manual FOC. If the request is submitted electronically, BellSouth shall send to Sprint an electronic FOC.

#### 5.5 Routing of Calls to the LRN

Trigger orders are not used for INP telephone numbers. Once the activate message is sent to the Number Portability Administration Center (NPAC) by the new service provider, (with exception of the end user's serving wire center) incoming calls are routed to the new provider. Calls from within the end user's servicing wire center will not route to the new Local Routing Number (LRN) until the porting D order processes. BellSouth's obligation in meeting timelines for processing the disconnect order will be as specified in Attachment 9, incorporated herein by this reference.

### 6. Permanent Number Solution

6.1 The FCC, the Commissions and industry forums have developed a permanent approach to providing service provider number portability and BellSouth is working to implement PNP. Both Parties agree to implement a permanent approach as developed and approved by the Commission, the FCC and industry forums. Consistent with the requirements to move to PNP, INP is available pursuant to this attachment.

6.2 BellSouth and Sprint will adhere to the process flows and cutover guidelines outlined in the "LNP Reference Guide", unless otherwise provided in this Agreement, which may be found on the web at <http://www.interconnection.bellsouth.com/guides/guides.html>.

6.2.1 BellSouth and Sprint will work cooperatively to implement changes to PNP process flows ordered by the FCC or as recommended by standard industry forums addressing PNP.

6.2.2 Both Parties shall cooperate in the process of porting numbers from one carrier to another so as to limit service outage for the ported subscriber. BellSouth will set LRN unconditional or 10-digit triggers where applicable, which should ensure no interruption to the end user. Where triggers are set, BellSouth removes the ported number at the same time the trigger is removed.

6.2.3 For porting of numbers where triggers are not set, the Parties shall coordinate the porting of the number between service providers so as to minimize service interruptions to the end user.

- 6.2.4 BellSouth will provide ordering support for Sprint's PNP requests Monday through Friday 8:00 AM until 8:00 PM EST. BellSouth normal hours of operation for provisioning support are defined in Attachment 6. Ordering and provisioning support required by Sprint outside of these hours will be considered outside of normal business hours and will be subject to overtime billing. For stand alone PNP where LRN unconditional or 10-digit triggers are set, Sprint may port numbers during times that are supported by the Number Portability Administration Center (NPAC) 24 hours a day 7 days a week. BellSouth will provide maintenance assistance to Sprint 24 hours a day 7 days a week to resolve issues arising from the porting of numbers for problems isolated to the BellSouth network. In the event of manual intervention, both Parties will work cooperatively to resolve issues within each Party's network. BellSouth shall provide as soon as possible, but not later than sixty (60) minutes from receipt of the report from Sprint, an estimated restoral time to correct problems isolated to BellSouth's network. BellSouth and Sprint will cooperate to provide periodic updates to each other with the status of events that might impact the estimated restoral time.
- 6.2.5 Performance Measurements for BellSouth providing PNP are located in Attachment 9 to this Agreement, incorporated herein by this reference.
- 6.3 BellSouth will use best efforts to update switch translations, where necessary, in time frames that are consistent with the time frames BellSouth's end users experience or as offered to other CLECs.
- 6.4 Sprint may request deployment of PNP according to and pursuant to the rules and regulations set forth in 47 CFR § 52.23.
- 7. Cut-Over Process**
- 7.1 BellSouth and Sprint shall cooperate in the process of porting numbers from one carrier to another so as to limit service outage for the ported subscriber.
- 7.1.1 For a coordinated conversion; i.e., stand alone INP, INP and PNP with loop and those services which require project coordination as defined in the BellSouth LNP procedures or as provided for in this agreement, BellSouth shall verbally coordinate the disconnect with Sprint and perform any switch translations so as to limit end user service outage. BellSouth and Sprint will mutually agree upon a cutover time prior to the actual conversion. Sprint may designate the conversion time when the conversion involves a loop with INP or LNP by ordering time specific conversion at rates designated in this agreement. Both parties will use best efforts to ensure mutually agreed to conversion times, as identified in this paragraph, will commence within 15 minutes of the agreed time.
- 7.2 Testing  
BellSouth and Sprint shall cooperate to ensure network reliability is maintained when porting numbers so as to limit service outage for their end users. BellSouth and Sprint will perform on a mutually agreeable basis any testing which may be required to isolate and repair service problems within their respective networks. Each party will notify the other of changes to the network or changes to processes which may impact end

user service at time frames which are consistent to BellSouth and Sprint's internal notification processes.

### 7.3 Installation Timeframes

- 7.3.1 Installation time frames for INP and LNP will be as outlined in the BellSouth Products and Services Interval guide located on the web at <http://www.interconnection.bellsouth.com/guides/guides.html> or as provided in Section 9, Performance Measurement.

### 7.4 Engineering and Maintenance

BellSouth and Sprint will cooperate to ensure that performance of trunking and signaling capacity is engineered and managed at levels which are in accordance with any FCC or State Commission requirement.

### 7.5 Operator Services and Directory Assistance

With respect to operator services and directory assistance associated with INP for Sprint subscribers, BellSouth shall provide the following:

- 7.5.1 While INP is deployed:
- 7.5.1.1 BellSouth shall allow Sprint to order provisioning of Telephone Line Number (TLN) calling cards and Billed Number Screening (BNS), in its LIDB, for ported numbers, as specified by Sprint. BellSouth shall continue to allow Sprint access to its LIDB. Other LIDB provisions are specified in this Agreement.
- 7.5.1.2 Where BellSouth has control of directory listings for NXX codes containing ported numbers, BellSouth shall maintain entries for ported numbers as specified by Sprint.
- 7.5.2 BellSouth shall provide a 10-Digit Global Title Translation (GTT) Node for routing queries for TCAP-based operator services (e.g., LIDB).
- 7.5.3 BellSouth OSS shall meet all requirements specified in "Generic Operator Services Switching Requirements for Number Portability," Issue 1.00, Final Draft, April 12, 1996. Editor - Nortel.

## 8. True-up

**This section applies only to BellSouth and Sprint CLEC for rates that are interim or expressly subject to true-up as marked by an I in Exhibit C of this Attachment.**

- 8.1 The interim prices for Number Portability shall be subject to true-up according to the following procedures:

- The interim prices shall be trued-up, either up or down, based on final prices determined either by further agreement between the Parties, or by a final order (including any appeals) of the Commission which final order meets the criteria of Section 8.3 below. The Parties shall implement the true-up by comparing the actual volumes and demand for each item, together with interim prices for each item, with the final prices determined for each item. Each Party shall keep its own records upon which the true-up can be based, and any final payment from one Party to the other shall be in an amount agreed upon by the Parties based on such records. In the event of any disagreement as between the records or the Parties regarding the amount of such true-up, the Parties agree that the body having jurisdiction over the matter shall be called upon to resolve such differences, or the Parties may mutually agree to submit the matter to the Dispute Resolution process in accordance with the provisions in the General Terms and Conditions of this Agreement.
- 8.2 The Parties may continue to negotiate toward final prices, but in the event that no such agreement is reached within nine (9) months, either Party may petition the Commission to resolve such disputes and to determine final prices for each item. Alternatively, upon mutual agreement, the Parties may submit the matter to the Dispute Resolution Process set forth in the General Terms and Conditions of the Agreement, so long as they file the resulting Agreement with the Commission as a “negotiated Agreement” under Section 252(e) of the Act.
- 8.3 An effective order of the Commission that forms the basis of a true-up shall be based upon cost studies submitted by either or both Parties to the Commission and shall be binding upon BellSouth and Sprint specifically or upon all carriers generally, such as a generic cost proceeding.

## 9. **Operational Support System (OSS) Rates**

BellSouth has developed and made available the following mechanized systems by which Sprint may submit LSRs electronically.

|      |                                  |
|------|----------------------------------|
| LENS | Local Exchange Navigation System |
| EDI  | Electronic Data Interface        |

|     |                                   |
|-----|-----------------------------------|
| TAG | Telecommunications Access Gateway |
|-----|-----------------------------------|

LSRs submitted by means of one of these interactive interfaces will incur an OSS electronic ordering charge as specified in Attachment 6 of this Agreement incorporated herein by this reference.

| INTERIM SERVICE PROVIDER NUMBER PORTABILITY - Alabama                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                           |         |      |     |       |           |              |       |                         |                                  |                                      |                                                                            |                                                             |                                                                              |                                                                  |

| Note: If no rate is identified in the contract, the rate for the specific service or function will be as set forth in applicable BellSouth tariff or as negotiated by the Parties upon request by either Party.                                                                                                                                                                                                                                                                                                                                     |                                                                           |         |      |     |       |           |              |       |                         |                                  |                                      |                                                                            |                                                             |                                                                              |                                                                  |
| NOTE: Any element that can be ordered electronically will be billed according to the SOMEc rate listed. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEc rate reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLEC's |                                                                           |         |      |     |       |           |              |       |                         |                                  |                                      |                                                                            |                                                             |                                                                              |                                                                  |

| Note: If no rate is identified in the contract, the rate for the specific service or function will be as set forth in applicable BellSouth tariff or as negotiated by the Parties upon request by either Party.                                                                                                                                                                                                                                                                                                                                     |               |  |  |  |  |  |         |      |     |      |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |
| NOTE: Any element that can be ordered electronically will be billed according to the SOMEc rate listed. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEc rate reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLEC's |               |  |  |  |  |  |         |      |     |      |           |              |       |                         |                                  |                                      |                                                           |                                                             |                                                                |                                                                  |       |

| Note: If no rate is identified in the contract, the rate for the specific service or function will be as set forth in applicable BellSouth tariff or as negotiated by the Parties upon request by either Party.                                                                                                                |       |                                                                           |                   |       |       |       |         |              |        |                         |       |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |
| 1) Until the FCC issues its order implementing a cost recovery mechanism for permanent number portability, the Company will track its costs of providing interim SPNP with sufficient detail to verify the costs. This will facilitate the Florida PSCs consideration of the recovery of these costs in Docket 950737-TP. (FL) |       |                                                                           |                   |       |       |       |         |              |        |                         |       |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |
| 2) BellSouth and CLEC will each bear their own costs of providing remote call forwarding as an interim number portability option. | Note: If no rate is identified in the contract, the rate for the specific service or function will be as set forth in applicable BellSouth tariff or as negotiated by the Parties upon request by either Party.                                                                                                                                                                                                                                                                                                                                     |                                                                           |         |      |     |       |           |              |        |                         |                                  |                                      |                                                                            |                                                             |                                                                              |                                                                  |       |
| NOTE: Any element that can be ordered electronically will be billed according to the SOMEc rate listed. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEc rate reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLEC's |                                                                           |         |      |     |       |           |              |        |                         |                                  |                                      |                                                                            |                                                             |                                                                              |                                                                  |       |

| NOTE: Any element that can be ordered electronically will be billed according to the SOMEc rate listed. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEc rate reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLEC's bill when it submits an LSR to BellSouth. |  |                                                                           |  |  |  |         |      |     |       |           |                    |       |                                     |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |

| NOTE: Any element that can be ordered electronically will be billed according to the SOMEc rate listed. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEc rate reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLEC's bill when it submits an LSR to BellSouth. |  |                                                                           |  |  |  |         |      |     |       |           |                    |       |                                     |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |
| Note: If no rate is identified in the contract, the rate for the specific service or function will be as set forth in applicable BellSouth tariff or as negotiated by the Parties upon request by either Party.                                                                                                                                                                                                                                                                                                                                                                               |  |                                                                           |  |  |  |         |      |     |       |           |                    |       |                                     |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |       |

## ORDERING AND PROVISIONING

This Attachment 6 is subject to the General Terms and Conditions of this Agreement.

### 1. Quality of Ordering and Provisioning

1.1 BellSouth shall provide ordering and provisioning services to Sprint that are equal to the ordering and provisioning services BellSouth provides to itself, its affiliates or any other CLEC. Detailed guidelines for ordering and provisioning are set forth in BellSouth's interconnection ordering guides available on the BellSouth interconnection web site, as appropriate, and as they are amended from time to time during this Agreement. BellSouth will provide notification to Sprint regarding amendments to the guidelines so that Sprint and BellSouth operations remain production ready.

1.2 BellSouth will perform provisioning services during the hours of operation that BellSouth uses for its affiliates or end users. Such hours are currently:

Monday - Friday: 8:00AM - 5:00PM location time (excluding holidays)  
(Resale/Network Element non coordinated, coordinated orders and order coordinated - Time Specific)

Saturday: 8:00 AM - 5:00 PM location time (excluding holidays)  
(Resale/Network Element non coordinated orders)

Times are either Eastern or Central time based on the location of the work being performed.

1.3 BellSouth will accept and process manual orders during the hours of operation that BellSouth uses for its affiliates or end users. Such hours are currently:

|                              |            |                                                                                |
|------------------------------|------------|--------------------------------------------------------------------------------|
| Consumer:                    | Atlanta    | 7:00AM – 10:00PM location time<br>Monday through Saturday (excluding holidays) |
|                              | Birmingham | 6:00AM – 9:00PM location time<br>Monday through Saturday (excluding holidays)  |
| UNE:                         | Atlanta    | 8:00AM – 8:00PM location time<br>Monday through Friday (excluding holidays)    |
|                              | Birmingham | 7:00AM – 7:00PM location time<br>Monday through Friday (excluding holidays)    |
| Business Resale/<br>Complex: | Atlanta    | 8:00AM – 8:00PM location time<br>Monday through Friday (excluding holidays)    |
|                              | Birmingham | 7:00AM – 7:00PM location time<br>Monday through Friday (excluding holidays)    |

Times are either Eastern or Central time based on the location of the work being performed.

- 1.4 BellSouth shall provide Sprint with the capability to have Sprint's customer orders input to and accepted by BellSouth's service order systems outside of normal business hours, twenty-four (24) hours a day, seven (7) days a week, except for scheduled maintenance, the same as BellSouth's customer orders received outside of normal business orders are input and accepted.
- 1.4.1 Downtime shall not be scheduled during normal business hours and shall occur during times where systems experience minimum usage.
- 1.5 BellSouth shall provide provisioning services to Sprint equal to the provisioning services BellSouth provides to itself during normal business hours. BellSouth shall make no differentiation between Sprint and BellSouth orders in terms of the priority and scheduling of such work. If Sprint requests that BellSouth perform provisioning services at times or on days other than as set forth in Section 1.2, BellSouth and Sprint shall mutually negotiate such provisioning including time interval and cost. All such Sprint requests for provisioning and installation services outside of the normal hours of operation may be subject to the application of overtime billing charges.

## **2. Access to Operational Support Systems**

- 2.1 BellSouth shall provide Sprint access to several operational support systems. Access to these support systems is available through a variety of means, including electronic interfaces. BellSouth also provides the option of placing orders manually (e.g., via facsimile) through the Local Carrier Service Center.
- 2.1.1 Sprint and BellSouth will establish interface contingency plans and disaster recovery plans for interface services. These plans will provide Sprint with, among other things, the ability to operate in a manual mode in instances of disaster, under-performance, or if the potential for non-performance is present. The operational support systems available are:
- 2.2 Pre-Ordering. BellSouth provides electronic access to the following pre-ordering functions including but not limited to: service address validation, telephone number selection, service and feature availability, due date information, and upon Commission approval of confidentiality protections, to customer record information. Access is provided through the Local Exchange Navigation System (LENS) and the Telecommunications Access Gateway (TAG) or other electronic interface as mutually agreed by the Parties. Customer record information includes but is not limited to, customer specific information in Customer Record Information System ("CRIS") and Regional Street Address Guide ("RSAG"). In addition, Sprint shall provide to BellSouth access to customer record information as authorized by the end-user including electronic access where available. Otherwise, Sprint shall use best efforts to

- provide paper copies of customer record information within 2 business days upon request by BellSouth. The parties agree not to view, copy, or otherwise obtain access to the customer record information of any customer without that customer's permission and further agree that Sprint and BellSouth will obtain access to customer record information only in strict compliance with applicable laws, rules, or regulations of the State in which the service is provided.
- 2.3 Service Ordering and Provisioning. BellSouth provides electronic options for the exchange of ordering and provisioning information. BellSouth provides an Electronic Data Interchange (EDI) arrangement for resale requests and certain network elements and other services. As an alternative to the EDI arrangement, BellSouth also provides ordering and provisioning capability through TAG or through other electronic interfaces as mutually agreed by the Parties. Also, as an alternative, BellSouth provides integrated pre-ordering, ordering and provisioning capabilities through the LENS interface.
- 2.4 Service Trouble Reporting and Repair. Service trouble reporting and repair allows Sprint to report and monitor service troubles and obtain repair services. BellSouth shall offer Sprint service trouble reporting in a non-discriminatory manner that provides Sprint the equivalent ability to report and monitor service troubles that BellSouth provides to itself and its affiliates. BellSouth also provides Sprint an estimated time to repair, an appointment time or a commitment time, as appropriate, on trouble reports. BellSouth provides two options for electronic trouble reporting. For exchange services, BellSouth offers Sprint access to the Trouble Analysis Facilitation Interface (TAFI) or to other electronic interfaces as mutually agreed by the Parties. For individually designed services, BellSouth provides electronic trouble reporting through an electronic communications gateway. If Sprint requests BellSouth to repair a trouble after normal working hours, Sprint will be billed the appropriate overtime charges associated with this request pursuant to BellSouth's tariffs.
- 2.5 Migration of Sprint to New BellSouth Software Releases for National Standard Machine-to-Machine Electronic Interfaces. BellSouth will issue new software releases to implement new national standards for its machine-to-machine electronic interfaces and as needed to improve operations and meet standards and regulatory requirements. New national standards are established by the Telecommunications Industry Forum which is a guideline setting organization serving the telecommunications industry. One of its goals is to facilitate the continued well being of the telecommunications industry by addressing the application of standards and the use of technology. When a new release of new national standards is implemented, BellSouth will continue to support both the new release (N) and the prior release (N-1). When BellSouth and Sprint determine via the BellSouth Change Management process the next release (N+1) and such next release is implemented, BellSouth will eliminate support for the (N-1) release and support the two newest releases (N and N+1). Thus, BellSouth will always support the two most current releases but may also support additional releases during transition periods as mutually agreed by the Parties. BellSouth will issue documents to Sprint with sufficient notice to allow Sprint to make the necessary

changes to its systems and operations to migrate to the newest release in a timely fashion.

- 2.6 Change Management. BellSouth provides a collaborative process for change management of the electronic interfaces through the Electronic Interface Change Control Process (EICCP). Guidelines for this process are set forth in the EICCP document, as amended from time to time during this agreement.
- 2.7 Testing.  
Detailed test plans and test scenarios will be jointly developed and agreed to by Sprint and BellSouth at the appropriate time. BellSouth acknowledges that a phased testing approach maybe applicable to ensure adequate testing of software.
- 2.7.1 The integrated approach for Sprint and BellSouth to perform Connectivity and End-to-End Testing for Pre-Order and Order processing will include the following conditions:
- 2.7.1.1 Subject matter experts from Sprint and BellSouth will be available for test planning, analysis, design, verification and approval.
- 2.7.1.2 Testing with BellSouth will be in a testing environment, which is a production test environment.
- 2.7.1.3 Sprint and BellSouth will provide a Single Point of Contact (SPOC) for Problem Management.
- 2.7.1.4 Testing dates may be modified as mutually agreed by the Parties to accommodate unforeseen circumstances.
- 2.8 OSS Documentation. BellSouth will accurately document and update all business rules when applicable in a timely manner. A business rule defines the process, internal and external Operational Support System, functional and Electronic requirements for completing a service order. Multiple layers of Business Rules exist within the Operating Support System, Order/Pre-Order, Trouble Operations and Electronic Interface (EI) platforms. Business Rules translate BellSouth's Procedures to Sprint's requirements based on industry guidelines. BellSouth will respond to Sprint's questions regarding business rules and other documentation using best efforts within 48 hours or as mutually agreed by the Parties.
- 2.9 BellSouth will provide OSS servers that have various levels of redundancy and failover capability to minimize downtime.
- 2.10 Rates. Charges for use of Operational Support Systems shall be as ordered by appropriate regulatory authorities or as mutually agreed by the Parties as set forth in Exhibit A of this Attachment.

### 3. **Miscellaneous Ordering and Provisioning Guidelines**

- 3.1 Pending Orders. To ensure the most efficient use of facilities and resources, orders placed in the hold or pending status by Sprint will be held for a maximum of thirty (30) days from the date the order is placed on hold. After such time, if Sprint wishes to reinstate an order, Sprint may be required to submit a new service order.
- 3.2 Single Point of Contact. Sprint will be the single point of contact with BellSouth for ordering activity for network elements and other services used by Sprint to provide services to its end users, except that BellSouth may accept an order directly from another CLEC, or BellSouth, acting with authorization of the affected end user. Sprint and BellSouth shall each execute a blanket letter of authorization with respect to customer orders. The Parties shall each be entitled to adopt their own internal processes for verification of customer authorization for orders, provided, however, that such processes shall comply with applicable state and federal law including, until superseded, the FCC guidelines and orders applicable to Presubscribed Interexchange Carrier (PIC) changes including Un-PIC. Pursuant to such an order, BellSouth may disconnect any network element associated with the service to be disconnected and being used by Sprint to provide service to that end user and reuse such network elements or facilities to enable such other LEC to provide service to the end user. BellSouth will notify Sprint that such an order has been processed, but will not be required to notify Sprint in advance of such processing. In the event a national standard is developed for electronic loss notification, BellSouth and Sprint will implement such change in accordance with the guidelines set forth in the BellSouth Electronic Change Control Process.
- 3.3 Use of Facilities. When a customer of Sprint elects to discontinue service and transfer service to another local exchange carrier, including BellSouth, BellSouth shall have the right to reuse the facilities provided to Sprint by BellSouth for retail or resale service, loop and/or port for that customer. In addition, BellSouth may disconnect and reuse facilities when the facility is in a denied state and BellSouth has received an order to establish new service or transfer of service from a customer or a customer's service provider at the same address served by the denied facility.
- 3.3.1 Upon receipt of a service order, BellSouth will do the following:
- 3.3.1.1 Process disconnect and reconnect orders to provision the service which shall be due dated using current BellSouth interval guidelines or other interval guidelines as established by State commissions.
- 3.3.1.2 Reuse the serving facility for the retail, resale service, or network element at the same location.
- 3.3.1.3 Notify Sprint subsequent to the disconnect order being completed.

- 3.4 Contact Numbers. The Parties agree to provide one another with toll-free contact numbers for the purpose of ordering, provisioning and maintenance of services.
- 3.5 Subscription Functions. In cases where BellSouth performs subscription functions for an inter-exchange carrier (i.e. PIC and LPIC changes via Customer Account Record Exchange (CARE)), BellSouth will provide the affected inter-exchange carriers with the Operating Company Number (OCN) of the local provider for the purpose of obtaining end user billing account and other end user information required under subscription requirements.
- 3.6 Cancellation Charges. If Sprint cancels an order for network elements or other services, any costs incurred by BellSouth in conjunction with the provisioning of that order will be recovered in accordance with the methodology described in FCC No. 1 Tariff, Section 5.4 and applied to the TELRIC based non-recurring charges in this agreement.
- 3.7 Acknowledgement. BellSouth will provide acknowledgement receipts when protocols and interfaces are used that provide an acknowledgement.
- 3.8 BellSouth will recognize Sprint as the customer of record of all Elements or Combinations ordered by Sprint and will send all notices, invoices and pertinent information directly to Sprint.
- 3.9 Upon request from Sprint, BellSouth will provide an intercept referral message in Tandem Switching Element that includes any new Sprint telephone number, for the same duration as is provided to BellSouth end-users. This message shall be similar in format to the intercept referral messages currently provided by BellSouth for its own end-users.
- 3.10 The Firm Order Confirmation will provide Sprint with the Sprint order number, BellSouth order number, the negotiated service due date, telephone/circuit numbers (as applicable to the service).
- 3.11 BellSouth will notify Sprint of completion activity using the same electronic interface used by Sprint to submit the service order request. In addition, when a BellSouth Technician is dispatched to complete the order, the service technician will contact Sprint at the time of completion.
- 3.12 BellSouth will turn up loops ordered by Sprint in accordance with TR 73600. BellSouth does not provide turn up results in writing or electronically. BellSouth will verbally advise Sprint, if requested, of any test and turn up results at the time of any applicable completion call.
- 3.13 As soon as identified, BellSouth shall notify Sprint via electronic interface, when available, of Rejections/Errors contained in any of the data element(s) fields contained on any Sprint Service Request. In the interim, BellSouth will notify Sprint by facsimile of such Rejections/Errors.

- 3.14 As soon as identified, BellSouth shall notify Sprint via electronic interface, when available (unless otherwise notified by Sprint) of any instances when BellSouth's Committed Due Dates are in jeopardy of not being met by BellSouth on any element or feature contained in any order for Network Elements or Combinations. BellSouth shall concurrently indicate its new committed due date. In the interim, BellSouth will notify Sprint by telephone, facsimile or via accessing the CSOTS report via the internet of such jeopardy, as mutually agreed to by the Parties.
- 3.15 Upon Sprint's request through a Suspend/Restore Order, BellSouth shall suspend or restore the functionality of any Network Element or Combination on a non-discriminatory basis as to other BellSouth customers.
- 3.16 BellSouth shall provide to Sprint the functionality of blocking calls (e.g., 700, 900, 976 international calls and any new services of this type individually or in any combination upon request, including bill to third Party and collect calls) on an individual switching element basis.
- 3.17 Unless otherwise directed by Sprint, when Sprint orders local switching as a Combination, individual element or through a resold service, all pre-assigned trunk or telephone numbers currently associated with that Network Element or Combination shall be retained without loss of feature capability and without loss of associated functions including, but not limited to, Directory Assistance and 911/E911 capability, capability where such features or functions exist and are offered for the element ordered.
- 3.18 Sprint will specify on each order its Desired Due Date (DDD) for completion of that particular order. BellSouth will not complete the order prior to DDD unless early turn-up is needed for testing purposes. BellSouth will notify Sprint if the DDD cannot be met. BellSouth will make best effort to meet the DDD for Network Element requests.
- 3.19 BellSouth and Sprint will perform co-operative testing where deemed necessary and by mutual consent (including trouble shooting to isolate problems) to test Services and Elements purchased by Sprint pursuant to this Agreement in order to identify any performance problems at turn-up of the Services and Elements.

**EXHIBIT A****Operational Support Systems (OSS)**

BellSouth has developed and made available the following electronic interfaces by which CLEC-1 may submit LSRs electronically.

|      |                                   |
|------|-----------------------------------|
| LENS | Local Exchange Navigation System  |
| EDI  | Electronic Data Interchange       |
| TAG  | Telecommunications Access Gateway |

LSRs submitted by means of one of these electronic interfaces will incur an OSS electronic ordering charge as specified in the table below. An individual LSR will be identified for billing purposes by its Purchase Order Number (PON). LSRs submitted by means other than one of these interactive interfaces (mail, fax, courier, etc.) will incur a manual order charge as specified in the table below:

| <b>OPERATIONAL SUPPORT SYSTEMS</b>                                                                          |                  |
|-------------------------------------------------------------------------------------------------------------|------------------|
| OSS LSR charge, per LSR received from the CLEC by one of the OSS interactive interfaces                     | \$3.50<br>SOMECH |
| Incremental charge per LSR received from the CLEC by means other than one of the OSS interactive interfaces | \$19.99<br>SOMAN |

**Denial/Restoral OSS Charge**

In the event Sprint provides a list of customers to be denied and restored, rather than an LSR, each location on the list will require a separate PON and, therefore will be billed as one LSR per location.

**Cancellation OSS Charge**

Sprint will incur an OSS charge for an accepted LSR that is later canceled by Sprint.

Note: Supplements or clarifications to a previously billed LSR will not incur another OSS charge.

**Network Elements and Other Services Manual Additive**

The Commissions in some states have ordered per-element manual additive non-recurring charges (NRC) for Network Elements and Other Services ordered by means other than one of the interactive interfaces. These ordered Network Elements and Other Services manual additive NRCs will apply in these states, rather than the charge per LSR. The per-element charges are listed on the Rate Tables in Exhibit C of Attachment 2.

## BILLING AND BILLING ACCURACY CERTIFICATION

This Attachment 7 is subject to the General Terms and Conditions of this Agreement.

### 1. CLEC Payment and Billing Arrangements

- 1.1 Billing. BellSouth agrees to provide billing through the Carrier Access Billing System (CABS) and through the Customer Records Information System (CRIS) depending on the particular service(s) that Sprint requests. BellSouth will bill and record in accordance with this Agreement those charges Sprint incurs as a result of Sprint purchasing from BellSouth Network Elements and Other Services as set forth in this Agreement. BellSouth will format all bills in CABS Billing Output Specifications (CBOS) Standards or Customized Large User Bill/Electronic Data Interchange (CLUB/EDI) format, depending on the type of service ordered. For those services where standards have not yet been developed, BellSouth's billing format will change as necessary when standards are finalized by the industry forum.
- 1.1.1 For any service(s) BellSouth orders from Sprint, Sprint shall bill BellSouth in CABS format.
- 1.1.2 If either Party requests multiple billing media or additional copies of bills, the Billing Party will provide these at its reasonable and demonstrable cost.
- 1.2 Master Account. After receiving certification as a local exchange company from the appropriate regulatory agency, Sprint will provide the appropriate BellSouth account manager the necessary documentation to enable BellSouth to establish a master account for Local Interconnection, Network Elements and Other Services, and/or resold services. Such documentation shall include the Application for Master Account, proof of authority to provide telecommunications services, an Operating Company Number ("OCN") assigned by the National Exchange Carriers Association ("NECA"), Carrier Identification Code (CIC), Group Access Code (GAC) if applicable, Access Customer Name and Address (ACNA) and a tax exemption certificate, if applicable. The Parties acknowledge that Sprint has already met these requirements.
- 1.3 BellSouth shall bill Sprint on a current basis all applicable charges and credits.
- 1.4 Payment Responsibility. Payment of all charges will be the responsibility of Sprint. Sprint shall make payment to BellSouth for all services billed. BellSouth is not responsible for payments not received by Sprint from Sprint's customer. In general, BellSouth will not become involved in disputes between Sprint and Sprint's end user customers. If a dispute does arise that cannot be settled without the involvement of BellSouth, Sprint shall contact the designated Service Center for resolution. BellSouth will make every effort to assist in the resolution of the dispute and will work with Sprint to resolve the matter in as timely a manner as possible. Sprint may be

- required to submit documentation to substantiate the claim. Payments made to BellSouth as payment on account will be credited to an accounts receivable master account and not to an end user's account.
- 1.5 BellSouth will render bills each month on established bill days for each of Sprint's accounts.
  - 1.6 BellSouth will bill Sprint in advance charges for all services to be provided during the ensuing billing period except charges associated with service usage, which will be billed in arrears. Charges will be calculated on an individual end user account level, including, if applicable, any charge for usage or usage allowances. BellSouth will also bill Sprint, and Sprint will be responsible for and remit to BellSouth, all charges applicable to resold services including but not limited to 911 and E911 charges, telecommunications relay charges (TRS), and franchise fees.
  - 1.7 With respect to services resold by Sprint, any switched access charges associated with interexchange carrier access to the resold local exchange lines will be billed by, and due to, BellSouth. No additional charges are to be assessed to Sprint.
  - 1.8 BellSouth will not perform billing and collection services for Sprint as a result of the execution of this Agreement. All requests for billing services should be referred to the appropriate entity or operational group within BellSouth.
  - 1.9 Pursuant to 47 CFR Section 51.617, for resold lines BellSouth will bill Sprint end user common line charges identical to the end user common line charges BellSouth bills its end users.
  - 1.10 Payment Due. The payment will be due by the next bill date (i.e., same date in the following month as the bill date) and is payable in immediately available funds. Payment is considered to have been made when received by BellSouth. In the event payment is not received by BellSouth by the due date and Sprint can demonstrate that payment was made in a timely manner, BellSouth will acknowledge such payment and waive all associated late payment charges.  
  
If the payment due date falls on a Sunday or on a Holiday which is observed on a Monday, the payment due date shall be the first non-Holiday day following such Sunday or Holiday. If the payment due date falls on a Saturday or on a Holiday which is observed on Tuesday, Wednesday, Thursday, or Friday, the payment due date shall be the last non-Holiday day preceding such Saturday or Holiday. If payment is not received by the payment due date, a late payment penalty, as set forth in Section 1.13, below, shall apply.
  - 1.11 If Sprint requests multiple billing media or additional copies of bills, BellSouth will provide these at an appropriate charge to Sprint not to exceed BellSouth's reasonable and demonstrable costs.

- 1.12 Tax Exemption. Upon proof of tax exempt certification from Sprint, the total amount billed to Sprint will not include those taxes or fees for which Sprint is exempt. Sprint will be solely responsible for the computation, tracking, reporting and payment of all taxes and like fees associated with the services provided to the end user of Sprint.
- 1.13 Late Payment. If any portion of the payment is received by BellSouth after the payment due date as set forth preceding, or if any portion of the payment is received by BellSouth in funds that are not immediately available to BellSouth, then a late payment penalty shall be due to BellSouth. The late payment penalty shall be the portion of the payment not received by the payment due date times a late factor and will be applied on a per bill basis. The late factor shall be as set forth in Section A2 of the General Subscriber Services Tariff, Section B2 of the Private Line Service Tariff or Section E2 of the Intrastate Access Tariff, whichever BellSouth determines is appropriate. Sprint will be charged a fee for all returned checks as set forth in Section A2 of the General Subscriber Services Tariff or in applicable state law.
- 1.14 Discontinuing Service to Sprint. The procedures for discontinuing service to Sprint are as follows:
- 1.14.1 BellSouth reserves the right to suspend or terminate service for nonpayment or in the event of prohibited, unlawful or improper use of BellSouth facilities or service or any other violation or noncompliance by Sprint of the rules and regulations contained in BellSouth's tariffs, provided that Sprint receives reasonable notice of such suspension or termination and has had reasonable opportunity to remedy such violation or non-compliance.
- 1.14.2 If payment of account, except a Bona Fide Billing Dispute amount as described in Section 3 of this Attachment, is not received by the bill day in the month after the original bill day, BellSouth may, upon written notice, refuse additional applications for service. In addition, any pending orders for service will not be completed if payment is not received by the fifteenth day following the date of the notice. BellSouth may, at the same time, give thirty days notice to Sprint at the billing address to discontinue the provision of existing services to Sprint at any time thereafter.
- 1.14.3 In the case of such discontinuance, all billed charges, as well as applicable termination charges, shall become due.
- 1.14.4 If BellSouth does not discontinue the provision of the services involved on the date specified in the thirty days notice and Sprint's noncompliance continues, nothing contained herein shall preclude BellSouth's right to discontinue the provision of the services to Sprint without further notice.
- 1.14.5 If payment is not received or satisfactory arrangements made for payment by the date given in the written notification, Sprint's services will be discontinued. Upon

- discontinuance of service on Sprint's account, service to the Sprint's end users will be denied. BellSouth will reestablish service at the request of the end user or Sprint upon payment of the appropriate connection fee and subject to BellSouth's normal application procedures. Sprint is responsible for notifying the end user of the proposed service disconnection.
- 1.15 Deposit Policy. BellSouth reserves the right to secure the account with a suitable form of security deposit, unless satisfactory credit has already been established.
- 1.15.1 Such security deposit shall take the form of an irrevocable Letter of Credit or other forms of security acceptable to BellSouth. Any such security deposit may be held during the continuance of the service as security for the payment of any and all amounts accruing for the service.
- 1.15.2 If a security deposit is required, such security deposit shall be made prior to the inauguration of service. Such security deposit may not exceed two months' estimated billing.
- 1.15.3 The fact that a security deposit has been made in no way relieves Sprint from complying with BellSouth's regulations as to advance payments and the prompt payment of bills on presentation nor does it constitute a waiver or modification of the regular practices of BellSouth providing for the discontinuance of service for non-payment of any sums due BellSouth.
- 1.15.4 BellSouth reserves the right to increase the security deposit requirements when, in its sole judgment, circumstances so warrant and/or gross monthly billing has increased beyond the level initially used to determine the security deposit. BellSouth shall provide reasonable advance notice prior to implementation of such increase in security deposit.
- 1.15.5 In the event that Sprint defaults on its account, service to Sprint may be terminated and any security deposits held will be applied to its account. BellSouth will promptly notify Sprint prior to any such treatment of Sprint's account such that Sprint has the opportunity to remedy such default prior to termination of service.
- 1.15.6 Interest on a security deposit, if provided in cash, shall accrue and be paid in accordance with the terms in the appropriate BellSouth tariff.
- 1.16 Rates. Rates for Optional Daily Usage File (ODUF), Enhanced Optional Daily Usage File (EODUF), and Access Daily Usage File (ADUF), are set out in Exhibit A to this Attachment. If no rate is identified in the contract, the rate for the specific service or function will be as ordered by the appropriate state regulatory authorities or as negotiated by the Parties upon request by either Party.

## 2. **Wireless Billing and Compensation**

- 2.1 The exchange of the parties' traffic on BellSouth's interLATA EAS routes shall be considered Local Traffic and compensation for the termination of such traffic shall be pursuant to the terms of this section. EAS routes are those exchanges within an exchange's Basic Local Calling Area, as defined in Section A3 of BellSouth's General Subscriber Services Tariff.
- 2.2 Any charges for terminating traffic will be in accumulated conversation minutes, whole and partial, measured from receipt of answer supervision to receipt of disconnect supervision and rounded up to the next whole minute at the close of the billing period. The charges for local interconnection are to be billed and paid monthly. Late payment fees, not to exceed 1 1/2% per month (or a lower percent as specified by an appropriate state regulatory agency) after the due date may be assessed, if undisputed interconnection charges are not paid, within thirty (30) days after the due date of the monthly bill. All charges under this agreement shall be billed within one year from the time the charge was incurred, previously unbilled charges more than one year old shall not be billed by either party.

### **3. Billing Accuracy Certification**

- 3.1 Upon mutual agreement, BellSouth and Sprint will implement a billing quality assurance program for all billing elements covered in this Agreement that may eliminate the need for post-billing reconciliation. Appropriate terms for access to any BellSouth documents, systems, records, and procedures for the recording and billing of charges will be part of that program.
- 3.2 As part of the billing quality assurance program, BellSouth and Sprint will develop standards, measurements, and performance requirements for a local billing measurements process. These standards, measurements, and performance requirements include but are not limited to the BellSouth Service Quality Measurements associated with billing in Attachment 9 of this Agreement and other measures as may be ordered by appropriate state regulatory authorities. On a regular basis BellSouth will provide Sprint with mutually agreed upon performance measurement data that substantiates the accuracy, reliability, and integrity of the billing process for local billing. In return, Sprint will pay all bills received from BellSouth in full by the payment due date.
- 3.3 Local billing discrepancies will be addressed in an orderly manner via a mutually agreed upon billing exemption process.
- 3.3.1 Each Party agrees to notify the other Party upon identifying a billing discrepancy. The Parties shall endeavor to resolve any billing discrepancy within sixty (60) calendar days of the notification date. A mutually agreed upon escalation process will be established for resolving local billing discrepancies as part of the billing quality assurance program.

- 3.3.2 Closure of a specific billing period will occur by joint agreement of the Parties whereby the Parties agree that such billing period is closed to any further analysis and financial transactions except those resulting from regulatory mandates. Closure will take place within a mutually agreed upon time interval from the Bill Date. The month being closed represents those charges that were billed or should have been billed by the designated Bill Date.

#### **4. Bona Fide Billing Disputes**

- 4.1 A Bona Fide Billing Dispute means a dispute of a specific amount of money actually billed by BellSouth. The dispute must be clearly explained by Sprint and supported by written documentation from Sprint, which clearly shows the basis for Sprint's dispute of the charges. The dispute must be itemized to show the account and end user identification number against which the disputed amount applies. By way of example and not by limitation, a Bona Fide Dispute will not include the refusal to pay all or part of a bill or bills when no written documentation is provided to support the dispute, nor shall a Bona Fide Dispute include the refusal to pay other amounts owed by Sprint until the dispute is resolved. Claims by Sprint for damages of any kind will not be considered a Bona Fide Dispute for purposes of this Section 4.1. Once the Bona Fide Dispute is resolved by BST, Sprint will make immediate payment on any of the disputed amount owed to BST or BST shall have the right to pursue normal treatment procedures. Any credits due to Sprint, pursuant to the Bona Fide Dispute, will be applied to Sprint's account by BST immediately upon resolution of the dispute.
- 4.2 Where the Parties have not agreed upon a billing quality assurance program, Bona Fide Billing Disputes shall be handled pursuant to the terms of this section.
- 4.2.1 Each Party agrees to notify the other Party in writing upon the discovery of a Bona Fide Billing Dispute. In the event of a Bona Fide Billing Dispute, the Parties will endeavor to resolve the dispute within sixty (60) calendar days of the notification date. If BellSouth rejects Sprint's Bona Fide Billing Dispute, BellSouth assumes the responsibility to provide Sprint with adequate justification for such rejection. Resolution of the Bona Fide Billing Dispute is expected to occur at the first level of management resulting in a recommendation for settlement of the dispute and closure of a specific billing period. If the issues are not resolved within the allotted time frame, the following resolution procedure will begin:
- 4.2.2 If the Bona Fide Billing Dispute is not resolved within sixty (60) days of the Bill Date, the dispute will be escalated to the second level of management for each of the respective Parties for resolution. If the Bona Fide Billing Dispute is not resolved within ninety (90) days of the Bill Date, the dispute will be escalated to the third level of management for each of the respective Parties for resolution.

- 4.2.3 If the Bona Fide Billing Dispute is not resolved within one hundred and twenty (120) days of the Bill Date, the dispute will be escalated to the fourth level of management for each of the respective Parties for resolution.
- 4.3 If a Party disputes charges and the Bona Fide Billing Dispute is resolved in favor of such Party, the other Party shall credit the bill of the disputing Party for the amount of the disputed charges. Accordingly, if a Party disputes charges and the Bona Fide Billing Dispute is resolved in favor of the other Party, the disputing Party shall pay the other Party the amount of the disputed charges and any associated late payment charges assessed no later than the second bill payment due date after the resolution of the dispute. BellSouth shall only assess interest on previously assessed late payment charges in a state where it has authority pursuant to its tariffs.
- 4.4 Late payment charges will be assessed and paid in accordance with section 1.13 of this Attachment.

**5. Audits and Examinations**

Audits and examinations related to billing will be conducted in accordance with Section 22 of the General Terms and Conditions of this Agreement.

**6. RAO Hosting**

- 6.1 RAO Hosting, Calling Card and Third Number Settlement System (CATS) and Non-Intercompany Settlement System (NICS) services provided to Sprint by BellSouth will be in accordance the Sprint / BellSouth Contract Provisions for RAO Hosting and ICS effective April 23, 1999, which is incorporated herein by reference, or as subsequently modified by the Parties.

## **7. Billing Performance Measurements**

In the event that the Parties do not agree upon a billing quality assurance program, billing standard measurement and performance requirements will be handled in accordance with Attachment 9 of this Agreement.

## **8. Recording Failures**

8.1 When BellSouth carries or switches calls and fails to record, when appropriate, regardless of whether Sprint or BellSouth are performing the billing function, BellSouth shall notify Sprint of the amount of estimated Sprint revenue in accordance with Section 8.3. BellSouth shall compensate Sprint for this lost revenue. Such compensation shall be net of revenue BellSouth demonstrates it would have received for services provided to Sprint, but for which BellSouth could not render bills as a result of any recording failure(s).

8.1.1 BellSouth shall include the amount of unbillable Sprint revenue that is attributable to failures to record, within three (3) bill periods.

### **8.2 Lost, Damaged, Destroyed Message Data**

8.2.1 When Sprint message data are lost, damaged, or destroyed as a result of BellSouth error or omission when BellSouth is performing the billing and/or recording function, and the data cannot be recovered or resupplied in time for the time period during which messages can be billed according to legal limitations, or such other time periods that may be agreed to by the Parties within the limitations of the law, BellSouth shall notify Sprint of the amount of estimated Sprint revenue in accordance with Section 8.3 and BellSouth shall compensate Sprint for this lost revenue.

8.2.2 When Sprint message data are lost, damaged, or destroyed as a result of BellSouth error or omission when Sprint is performing the billing and/or recording function, and the data cannot be recovered or resupplied in time for the time period during which messages can be billed according to legal limitations, or such other time periods that may be agreed to by the Parties within the limitations of the law, BellSouth shall notify Sprint of the amount of estimated Sprint revenue in accordance with Section 8.3 of this Attachment, and BellSouth shall compensate Sprint for the net loss to Sprint.

8.2.3 BellSouth shall notify Sprint in advance of the date of monthly billing statement that shall contain such adjustments. BellSouth shall provide sufficient information to allow Sprint to analyze the data.

### **8.3 Recording Quality**

#### **8.3.1 Material Loss**

BellSouth shall review its daily controls to determine if data has been lost. BellSouth shall use the same procedures to determine a Sprint material loss as it uses for itself. The message threshold used by BellSouth to determine a material loss of its own messages will also be used to determine a material loss of Sprint messages. When it is known that there has been a loss, actual message and minute volumes should be reported if possible. Where actual data are not available, a full day shall be estimated for the recording entity as outlined in the paragraph below titled Estimating Volumes. The loss is then determined by subtracting recorded data from the estimated total day business.

#### 8.3.2 Complete Loss

Estimated message and minute volumes for each loss consisting of an entire/tape or file lost in transit, lost after receipt, degaussed before processing, received blank or unreadable, etc. shall be reported. Also the loss of one or more boxes of operator tickets shall be estimated and reported if applicable.

#### 8.3.3 Estimated Volumes

From message and minute volume reports for the entity experiencing the loss, BellSouth shall secure message/minute counts for the corresponding day of the weeks for four (4) weeks preceding the week following that in which the loss occurred. BellSouth shall apply the appropriate Average Revenue Per Message (ARPM) to the estimated message volume to arrive at the estimated lost revenue.

##### Exceptions:

- A. If the day of loss is not a holiday but one (1) (or more) of the preceding corresponding days is a holiday, use an additional number of weeks in order to procure volumes for two (2) non-holidays.
- B. If the call or usage data lost represents calls or usage on a weekday which is a holiday (except Christmas and Mother's Day), use volumes from the preceding and following Sunday.
- C. If the call or usage data lost represents calls or usage on Mother's Day or Christmas, use volumes from that day in the preceding year (if available).
- D. In the selection of corresponding days for use in developing estimates, consideration shall be given to other conditions which may affect call volumes such as tariff changes, weather and local events (conventions, festivals, major sporting events, etc.) in which case the use of other days may be more appropriate.

#### 8.4 Unbillable Compensation

- 8.4.1 BellSouth liability for such unbillables shall be limited to instances of error or omission, including but not limited to, the acts or omissions of BellSouth employees, agents and contractors, and the failures of BellSouth hardware, software and other BellSouth equipment.
- 8.4.2 The term “unbillable” refers to a message or service that cannot be billed to the correct Sprint customer.
- 8.4.3 BellSouth shall include Unbillables as a result of Recording Failure, or Lost, Damaged, or Destroyed Data on the monthly billing statement.

## **9. Optional Daily Usage File**

- 9.1 The BellSouth Optional Daily Usage File (ODUF) provides electronic billing data for billable messages carried over the BellSouth network, processed in the BellSouth CRIS billing system and originated from a Sprint customer. ODUF contains messages alternately billed to a Sprint customer when using UNE, Resale and Interim Number Portability services. ODUF also includes electronic billing data for operator handled calls originating from Sprint’s subscriber lines if Sprint purchases Operator Services from BellSouth.
- 9.2 Upon written request from Sprint, BellSouth will provide the Optional Daily Usage File (ODUF) service to Sprint pursuant to the terms and conditions set forth in this section.
- 9.3 Sprint shall furnish all relevant information required by BellSouth for the provision of the Optional Daily Usage File.
- 9.4 Charges for delivery of the Optional Daily Usage File will appear on Sprints’ monthly bills. The charges are as set forth in Exhibit A to this Attachment.
- 9.5 The Optional Daily Usage Feed will contain both rated and unrated messages. All messages will be in the standard Alliance for Telecommunications Industry Solutions (ATIS) EMI record format.
- 9.6 EMI compliant messages that error in the billing system of Sprint will be the responsibility of the Sprint. Any messages that are duplicates, misdirected or are non-EMI compliant should be handled through the existing Bona Fide Billing Dispute process described in Section 3 of this Attachment. BellSouth will work with Sprint to determine the source of the errors and the appropriate resolution.
- 9.7 The following specifications shall apply to the Optional Daily Usage Feed.

### 9.7.1 Usage To Be Transmitted

9.7.1.1 The following messages recorded by BellSouth will be transmitted to Sprint:

- Message recording for per use/per activation type services (examples: Three Way Calling, Verify, Interrupt, Call Return, ETC.)
- Measured billable Local
- Directory Assistance messages
- IntraLATA Toll
- WATS & 800 Service
  
- N11
- Information Service Provider Messages
- Operator Services Messages
- Operator Services Message Attempted Calls (Network Element only)
- Credit/Cancel Records
- Usage for Voice Mail Message Service

9.7.1.2 Rated Incollects (originated in BellSouth and from other companies) can also be on Optional Daily Usage File. Rated Incollects will be intermingled with BellSouth recorded rated and unrated usage. Rated Incollects will not be packed separately.

9.7.1.3 BellSouth will perform duplicate record checks on records processed to Optional Daily Usage File. Any duplicate messages detected will be deleted and not sent to Sprint.

9.7.1.4 In the event that Sprint detects a duplicate on Optional Daily Usage File they receive from BellSouth, Sprint shall handle such duplicate message through the Bona Fide Billing Dispute process. Sprint shall not return the duplicate message to BellSouth.

### 9.7.2 Physical File Characteristics

9.7.2.1 The Optional Daily Usage File will be distributed to Sprint via an agreed medium with CONNECT:Direct being the preferred transport method. The Daily Usage Feed will be a variable block format (2476) with an LRECL of 2472. The data on the Daily Usage Feed will be in a non-compacted EMI format (175 byte format plus modules). It will be created on a daily basis (Monday through Friday except holidays). Details such as dataset name and delivery schedule will be addressed during negotiations of the distribution medium. There will be a maximum of one dataset per workday per OCN.

9.7.2.2 Data circuits (private line or dial-up) may be required between BellSouth and Sprint for the purpose of data transmission. Where a dedicated line is required, Sprint will be responsible for ordering the circuit, overseeing its installation and coordinating the installation with BellSouth. Sprint will also be responsible for any charges associated

with this line. Equipment required on the BellSouth end to attach the line to the mainframe computer and to transmit successfully ongoing will be negotiated on a case by case basis. Where a dial-up facility is required, dial circuits will be installed in the BellSouth data center by BellSouth and the associated charges assessed to Sprint. Additionally, all message toll charges associated with the use of the dial circuit by Sprint will be the responsibility of Sprint. Associated equipment on the BellSouth end, including a modem, will be negotiated on a case by case basis between the Parties. All equipment, including modems and software, that is required on Sprint end for the purpose of data transmission will be the responsibility of Sprint.

### 9.7.3 Packing Specifications

9.7.3.1 A pack will contain a minimum of one message record or a maximum of 99,999 message records plus a pack header record and a pack trailer record. One transmission can contain a maximum of 99 packs and a minimum of one pack.

9.7.3.2 The OCN, From RAO, and Invoice Number will control the invoice sequencing. The From RAO will be used to identify to Sprint which BellSouth RAO that is sending the message. BellSouth and Sprint will use the invoice sequencing to control data exchange. BellSouth will be notified of sequence failures identified by Sprint and resend the data as appropriate.

The data will be packed using ATIS EMI records.

### 9.7.4 Pack Rejection

9.7.4.1 Sprint will notify BellSouth within one business day of rejected packs (via the mutually agreed medium). Packs could be rejected because of pack sequencing discrepancies or a critical edit failure on the Pack Header or Pack Trailer records (i.e. out-of-balance condition on grand totals, invalid data populated). Standard ATIS EMI Error Codes will be used. Sprint will not be required to return the actual rejected data to BellSouth. Rejected packs will be corrected and retransmitted to Sprint by BellSouth.

### 9.7.5 Control Data

Sprint will send one confirmation record per pack that is received from BellSouth. This confirmation record will indicate Sprint received the pack and the acceptance or rejection of the pack. Pack Status Code(s) will be populated using standard ATIS EMI error codes for packs that were rejected by Sprint for reasons stated in the above section.

### 9.7.6 Testing

9.7.6.1 Upon request from Sprint, BellSouth shall send test files to Sprint for the Optional Daily Usage File. The Parties agree to review and discuss the file's content and/or

format. For testing of usage results, BellSouth shall request that Sprint set up a production (LIVE) file. The live test may consist of Sprint's employees making test calls for the types of services Sprint requests on the Optional Daily Usage File. These test calls are logged by Sprint, and the logs are provided to BellSouth. These logs will be used to verify the files. Testing will be completed within 30 calendar days from the date on which the initial test file was sent.

## **10. Access Daily Usage File**

10.1 Upon written request from Sprint, BellSouth will provide the Access Daily Usage File (ADUF) service to Sprint pursuant to the terms and conditions set forth in this section.

10.2 The Sprint shall furnish all relevant information required by BellSouth for the provision of the Access Daily Usage File.

10.3 The Access Daily Usage Feed will contain access messages associated with a port that Sprint has purchased from BellSouth

10.4 Charges for delivery of the Access Daily Usage File will appear on the Sprints' monthly bills. The charges are as set forth in Exhibit A to this Attachment. All messages will be in the standard Alliance for Telecommunications Industry Solutions (ATIS) EMI record format.

10.5 EMI compliant messages that error in the billing system of Sprint will be the responsibility of Sprint. Any messages that are duplicates, misdirected or are non-EMI compliant should be handled through the existing Bona Fide Billing Dispute process. BellSouth will work with Sprint to determine the source of the errors and the appropriate resolution.

### **10.6 Usage To Be Transmitted**

10.6.1 The following messages recorded by BellSouth will be transmitted to Sprint:

Interstate and intrastate access records associated with a port.

Undetermined jurisdiction access records associated with a port.

10.6.2 When Sprint purchases Network Element ports from BellSouth and calls are made using these ports, BellSouth will handle the calls as follows:

Originating from Network Element and carried by Interexchange Carrier:

BellSouth will bill network element to Sprint and send access record to Sprint via ADUF

Originating from network element and carried by BellSouth (Sprint is BellSouth's toll customer):

BellSouth will bill resale toll rates to Sprint and send toll record for the end user toll billing purposes via ODUF (Optional Daily Usage File).

Terminating on network element and carried by Interexchange Carrier:

BellSouth will bill network element to Sprint and send access record to Sprint.

Terminating on network element and carried by BellSouth:

BellSouth will bill network element to Sprint and send access record to Sprint.

- 10.6.3 BellSouth will perform duplicate record checks on records processed to the Access Daily Usage File. Any duplicate messages detected will be dropped and not sent to Sprint.
- 10.6.4 In the event that Sprint detects a duplicate on the Access Daily Usage File they receive from BellSouth, Sprint will handle such duplicate messages through the Bona Fide Billing Dispute process. Sprint shall not return the duplicate message to BellSouth.
- 10.6.5 Physical File Characteristics
- 10.6.5.1 The Access Daily Usage File will be distributed to Sprint via an agreed medium with CONNECT:Direct being the preferred transport method. The Daily Usage Feed will be a fixed block format (2476) with an LRECL of 2472. The data on the Daily Usage Feed will be in a non-compacted EMI format (210 byte format plus modules). It will be created on a daily basis (Monday through Friday except holidays). Details such as dataset name and delivery schedule will be addressed during negotiations of the distribution medium. There will be a maximum of one dataset per workday per OCN.
- 10.6.5.2 Data circuits (private line or dial-up) may be required between BellSouth and Sprint for the purpose of data transmission. Where a dedicated line is required, Sprint will be responsible for ordering the circuit, overseeing its installation and coordinating the installation with BellSouth. Sprint will also be responsible for any charges associated with this line. Equipment required on the BellSouth end to attach the line to the mainframe computer and to transmit successfully ongoing will be negotiated on a case by case basis. Where a dial-up facility is required, dial circuits will be installed in the BellSouth data center by BellSouth and the associated charges assessed to Sprint. Additionally, all message toll charges associated with the use of the dial circuit by Sprint will be the responsibility of Sprint. Associated equipment on the BellSouth end, including a modem, will be negotiated on a case by case basis between the Parties. All equipment, including modems and software, that is required on Sprint end for the purpose of data transmission will be the responsibility of Sprint.

#### 10.6.6 Packing Specifications

- 10.6.6.1 A pack will contain a minimum of one message record or a maximum of 99,999 message records plus a pack header record and a pack trailer record. One transmission can contain a maximum of 99 packs and a minimum of one pack.
- 10.6.6.2 The OCN, From RAO, and Invoice Number will control the invoice sequencing. The From RAO will be used to identify to Sprint which BellSouth RAO that is sending the message. BellSouth and Sprint will use the invoice sequencing to control data exchange. BellSouth will be notified of sequence failures identified by Sprint and resend the data as appropriate.

The data will be packed using ATIS EMI records.

#### 10.6.7 Pack Rejection

- 10.6.7.1 Sprint will notify BellSouth within one business day of rejected packs (via the mutually agreed medium). Packs could be rejected because of pack sequencing discrepancies or a critical edit failure on the Pack Header or Pack Trailer records (i.e. out-of-balance condition on grand totals, invalid data populated). Standard ATIS EMI Error Codes will be used. Sprint will not be required to return the actual rejected data to BellSouth. Rejected packs will be corrected and retransmitted to Sprint by BellSouth.

#### 10.6.8 Control Data

Sprint will send one confirmation record per pack that is received from BellSouth. This confirmation record will indicate Sprint received the pack and the acceptance or rejection of the pack. Pack Status Code(s) will be populated using standard ATIS EMI error codes for packs that were rejected by Sprint for reasons stated in the above section.

#### 10.6.9 Testing

- 10.6.9.1 Upon request from Sprint, BellSouth shall send test files to Sprint for the Access Daily Usage File. Testing shall consist of actual calls made from live accounts. A call log shall be supplied along with test request information. The Parties agree to review and discuss the file's content and/or format.

### **11. Enhanced Optional Daily Usage File**

- 11.1 Upon written request from Sprint, BellSouth will provide the Enhanced Optional Daily Usage File (EODUF) service to Sprint pursuant to the terms and conditions set forth in this section. EODUF will only be sent to existing ODUF subscribers who request the EODUF option.

11.2 Sprint shall furnish all relevant information required by BellSouth for the provision of the Enhanced Optional Daily Usage File.

11.3 The Enhanced Optional Daily Usage File (EODUF) will provide usage data for local calls originating from resold Flat Rate Business and Residential Lines.

Charges for delivery of the Enhanced Optional Daily Usage File will appear on the Sprint's monthly bills. The charges are as set forth in Exhibit A to this Attachment.

11.4 All messages will be in the standard Alliance for Telecommunications Industry Solutions (ATIS) EMI record format.

11.5 Messages that error in the billing system of Sprint will be the responsibility of Sprint. If, however, Sprint should encounter significant volumes of errored messages that prevent processing by Sprint within its systems, BellSouth will work with Sprint to determine the source of the errors and the appropriate resolution.

11.6 The following specifications shall apply to the Optional Daily Usage Feed.

11.6.1 Usage To Be Transmitted

11.6.1.1 The following messages recorded by BellSouth will be transmitted to Sprint:

Customer usage data for flat rated local call originating from Sprint end user lines (1FB or 1FR). The EODUF record for flat rate messages will include:

Date of Call  
From Number  
To Number  
Connect Time  
Conversation Time  
Method of Recording  
From RAO  
Rate Class  
Message Type  
Billing Indicators  
Bill to Number

11.6.1.2 BellSouth will perform duplicate record checks on EODUF records processed to Optional Daily Usage File. Any duplicate messages detected will be deleted and not sent to Sprint.

- 11.6.1.3 In the event that Sprint detects a duplicate on Enhanced Optional Daily Usage File they receive from BellSouth, Sprint will drop the duplicate message (Sprint will not return the duplicate to BellSouth).

11.6.2 Physical File Characteristics

- 11.6.2.1 The Enhanced Optional Daily Usage Feed will be distributed to Sprint over their existing Optional Daily Usage File (ODUF) feed. The EODUF messages will be intermingled among Sprint's Optional Daily Usage File (ODUF) messages. The EODUF will be a variable block format (2476) with an LRECL of 2472. The data on the EODUF will be in a non-compacted EMI format (175 byte format plus modules). It will be created on a daily basis (Monday through Friday except holidays).

- 11.6.2.2 Data circuits (private line or dial-up) may be required between BellSouth and Sprint for the purpose of data transmission. Where a dedicated line is required, Sprint will be responsible for ordering the circuit, overseeing its installation and coordinating the installation with BellSouth. Sprint will also be responsible for any charges associated with this line. Equipment required on the BellSouth end to attach the line to the mainframe computer and to transmit successfully ongoing will be negotiated on a case by case basis. Where a dial-up facility is required, dial circuits will be installed in the BellSouth data center by BellSouth and the associated charges assessed to Sprint. Additionally, all message toll charges associated with the use of the dial circuit by Sprint will be the responsibility of Sprint. Associated equipment on the BellSouth end, including a modem, will be negotiated on a case by case basis between the Parties. All equipment, including modems and software, that is required on Sprint end for the purpose of data transmission will be the responsibility of Sprint.

11.6.3 Packing Specifications

- 11.6.3.1 A pack will contain a minimum of one message record or a maximum of 99,999 message records plus a pack header record and a pack trailer record. One transmission can contain a maximum of 99 packs and a minimum of one pack.
- 11.6.3.2 The Operating Company Number (OCN), From Revenue Accounting Office (RAO), and Invoice Number will control the invoice sequencing. The From RAO will be used to identify to Sprint which BellSouth RAO that is sending the message. BellSouth and Sprint will use the invoice sequencing to control data exchange. BellSouth will be notified of sequence failures identified by Sprint and resend the data as appropriate.

The data will be packed using ATIS EMI records.

12 Rate True-up

**This section applies only to BellSouth and Sprint CLEC for rates that are interim or expressly subject to true-up as marked by an I in Exhibit C of this Attachment.**

- 12.1 The interim prices for Unbundled Network Elements and Other Services and Local Interconnection shall be subject to true-up according to the following procedures:
- 12.2 The interim prices shall be true-up, either up or down, based on final prices determined either by further agreement between the Parties, or by an effective order of the Commission. The Parties shall implement the true-up by comparing the actual volumes and demand for each item, together with interim prices for each item, with the final prices determined for each item. Each Party shall keep its own records upon which the true-up can be based, and any final payment from one Party to the other shall be in an amount agreed upon by the Parties based on such records. In the event of any disagreement as between the records or the Parties regarding the amount of such true-up, the Parties agree that the body having jurisdiction over the matter shall be called upon to resolve such differences, or the Parties may mutually agree to submit the matter to the Dispute Resolution process in accordance with the provisions of Section 14 of the General Terms and Conditions of this Agreement.
- 12.3 The Parties may continue to negotiate toward final prices, but in the event that no such agreement is reached within ninety (90) days or as mutually agreed to by the Parties, either Party may petition the Commission to resolve such disputes and to determine final prices for each item. Alternatively, upon mutual agreement, the Parties may submit the matter to the Dispute Resolution Process set forth in the General Terms and Conditions of the Agreement, so long as they file the resulting Agreement with the Commission as a “negotiated agreement” under Section 252(e) of the Act.
- 12.4 An effective order of the Commission that forms the basis of a true-up shall be based upon cost studies submitted by either or both Parties to the Commission and shall be binding upon BellSouth and Sprint specifically or upon all carriers generally, such as a generic cost proceeding.

## RIGHTS OF WAY (ROW), CONDUITS AND POLE ATTACHMENTS

This Attachment, together with the General Terms and Conditions Sections of this Agreement, sets forth the terms and conditions under which BellSouth shall afford to Sprint access to BellSouth's Poles, Ducts, Conduits and Rights-of-Way, pursuant to the Act

### 1. DEFINITIONS

Definitions in General. Except as the context otherwise requires, the terms defined in this Attachment shall, as used herein, have the meanings set forth in this Section 1.

- 1.1 Anchor. The term Anchor refers to a device, structure, or assembly which stabilizes a Pole and holds it in place. An Anchor assembly may consist of a rod and fixed object or plate, typically embedded in the ground, which is attached to a guy strand or guy wire, which, in turn, is attached to the Pole. The term Anchor does not include the guy strand which connects the Anchor to the Pole and includes only those Anchors which are owned by BellSouth, as distinguished from Anchors which are owned and controlled by other persons or entities.
- 1.2 Anchor/Guy Strand. The term Anchor/Guy Strand refers to supporting wires, typically stranded together, or other devices attached to a Pole and connecting that Pole to an Anchor or to another Pole for the purpose of increasing Pole stability. The term Anchor/Guy Strand includes, but is not limited to, strands sometimes referred to as Anchor strands, down guys, guy strands, and Pole-to-Pole guys.
- 1.3 Application. The process of requesting information related to records, Pole and/or Conduit availability, or make-ready requirements for BellSouth owned or controlled Facilities. Each Application is limited in size to a maximum of (1) 100 consecutive Poles or (2) 10 consecutive Manhole sections or 5000 feet, whichever is greater. The Application includes (but is not limited to) request for records, records investigation and/or a field investigation, and Make-Ready Work.
- 1.4 Communications Act of 1934. The terms Communications Act of 1934 and Communications Act refer to the Communications Act of June 19, 1934, 48 Stat. 1064, as amended, including the provisions codified as 47 U.S.C. Sections 151 et seq. The Communications Act includes the Pole Attachment Act of 1978, as defined in 1.23 following.

- 1.5 Assigned. The term Assigned, when used with respect to Conduit or Duct space or Poles, refers to any space in such Conduit or Duct or on such Pole that is occupied by a telecommunications service provider or a municipal or other governmental authority. To ensure the judicious use of Poles and Conduits, space Assigned to a telecommunications service provider must be physically occupied by the service provider, be it BellSouth or a new entrant, within twelve (12) months of the space being Assigned.
- 1.6 Available. The term Available, when used with respect to Conduit or Duct space or Poles, refers to any usable space in such Conduit or Duct or on such Pole not Assigned to a specific provider at the applicable time.
- 1.7 Conduit. The term Conduit means a structure containing one or more Ducts, usually placed in the ground, in which cables or wires may be installed.
- 1.8 Conduit Occupancy. The terms Conduit Occupancy and Occupancy refer to the presence of wire, cable, optical conductors, or other Facilities within any portion of BellSouth's Conduit System.
- 1.9 Conduit System. The term Conduit System refers to any combination of Ducts, Conduits, Manholes, and Handholes joined to form an integrated whole. In this Agreement, the term refers to Conduit Systems owned or controlled by BellSouth.
- 1.10 Cost. The term Cost as used herein refers to charges made by BellSouth to Sprint for specific work performed, and shall be (a) the actual charges made by subcontractors to BellSouth for work and/or, (b) if the work was performed by BellSouth employees, the rates set forth in the Price Schedule of the General Terms and Conditions of BellSouth.
- 1.11 Duct. The term Duct refers to a single enclosed tube, pipe, or channel for enclosing and carrying cables, wires, and other Facilities. As used in this Agreement, the term Duct includes Inner-ducts created by subdividing a Duct into smaller channels.
- 1.12 Facilities. The terms facility and Facilities refer to any property or equipment utilized in the provision of telecommunication services.
- 1.13 The acronym FCC refers to the Federal Communications Commission.
- 1.14 Handholes. The term Handhole refers to an enclosure, usually below ground level, used for the purpose of installing, operating, and maintaining Facilities in a Conduit. A Handhole is too small to permit personnel to physically enter.
- 1.15 Inner-Duct. The term Inner-duct refers to a pathway created by subdividing a Duct into smaller channels.
- 1.16 Joint User. The term Joint User refers to a utility which has entered into an agreement with BellSouth providing reciprocal rights of attachment of Facilities owned by each party to the Poles, Ducts, Conduits and Rights-of-Way owned by the other party.

- 1.17 Lashing. The term Lashing refers to the attachment of a Sprint Sheath or Inner-duct to a supporting strand.
- 1.18 License. The term License refers to any License issued pursuant to this Agreement and may, if the context requires, refer to Conduit Occupancy or Pole attachment Licenses issued by BellSouth prior to the date of this Agreement.
- 1.19 Licensee. The term Licensee refers to a third person or entity which has entered or may enter into an agreement or arrangement with BellSouth permitting such person or entity to place its Facilities in BellSouth's Conduit System or attach its Facilities to BellSouth's Poles or Anchors.
- 1.20 Make-Ready Work. The term Make-Ready Work refers to all work performed or to be performed to prepare BellSouth's Conduit Systems, Poles or Anchors and related Facilities for the requested Occupancy or attachment of Sprint's Facilities. Make-Ready Work includes, but is not limited to, clearing obstructions (e.g., by rodding Ducts to ensure clear passage), the rearrangement, transfer, replacement, and removal of existing Facilities on a Pole or in a Conduit System where such work is required solely to accommodate Sprint's Facilities and not to meet BellSouth's business needs or convenience. Make-Ready Work may require "dig-ups" of existing Facilities and may include the repair, enlargement or modification of BellSouth's Facilities (including, but not limited to, Conduits, Ducts, Handholes and Manholes) or the performance of other work required to make a Pole, Anchor, Conduit or Duct usable for the initial placement of Sprint's Facilities.
- 1.21 Manhole. The term Manhole refers to an enclosure, usually below ground level and entered through a hole on the surface covered with a cast iron or concrete Manhole cover, which personnel may enter and use for the purpose of installing, operating, and maintaining Facilities in a Conduit.
- 1.22 Occupancy. The term occupancy shall refer to the physical presence of telecommunication Facilities in a Duct, on a Pole, or within a Right-of-way.
- 1.23 Owner. The term Owner is defined as the person in whom is vested the ownership, or title of property; proprietor.
- 1.24 Person Acting on Sprint's Behalf. The terms Person Acting on Sprint's Behalf, personnel performing work on Sprint's behalf, and similar terms include both natural persons and firms and ventures of every type, including, but not limited to, corporations, partnerships, limited liability companies, sole proprietorships, and joint ventures. The terms Person Acting on Sprint's Behalf, personnel performing work on Sprint's behalf, and similar terms specifically include, but are not limited to, Sprint, its officers, directors, employees, agents, representatives, attorneys, contractors, subcontractors, and other persons or entities performing services at the request of or as directed by Sprint and their respective officers, directors, employees, agents, and representatives.

- 1.25 Person Acting on BellSouth's Behalf. The terms Person Acting on BellSouth's Behalf, personnel performing work on BellSouth's behalf, and similar terms include both natural persons and firms and ventures of every type, including but not limited to corporations, partnerships, limited liability companies, sole proprietorships, and joint ventures. The terms Person Acting on BellSouth's Behalf, personnel performing work on BellSouth's behalf, and similar terms specifically include, but are not limited to, BellSouth, its officers, directors, employees, agents, representatives, attorneys, contractors, subcontractors, and other persons or entities performing services at the request or on behalf of BellSouth and their respective officers, directors, employees, agents, and representatives.
- 1.26 Pole. The term Pole refers to both utility Poles and Anchors but only to those utility Poles and Anchors owned or controlled by BellSouth, and does not include utility Poles or Anchors with respect to which BellSouth has no legal authority to permit attachments by other persons or entities.
- 1.27 Pole Attachment Act. The terms Pole Attachment Act and Pole Attachment Act of 1978 refer to those provisions of the Communications Act of 1934, as amended, now codified as 47 U.S.C. § 224.
- 1.28 Pre-License Survey. The term Pre-License Survey refers to all work and activities performed or to be performed to determine whether there is adequate capacity on a Pole or in a Conduit or Conduit System (including Manholes and Handholes) to accommodate Sprint's Facilities and to determine what Make-Ready Work, if any, is required to prepare the Pole, Conduit or Conduit System to accommodate Sprint's Facilities.
- 1.29 Right-of-Way (ROW). The term Right-of-Way refers to the right to use the land or other property of another party to place Poles, Conduits, cables, other structures and equipment, or to provide passage to access such structures and equipment. A Right of Way may run under, on, or above public or private property (including air space above public or private property) and may include the right to use discrete space in buildings, building complexes, or other locations.
- 1.30 Sheath. The term Sheath refers to a single outer covering containing communications wires, fibers, or other communications media.
- 1.31 Spare Capacity. The term Spare Capacity refers to any Poles, Conduit, Duct or Inner-duct not currently Assigned or subject to a pending Application for attachment/Occupancy. Spare capacity does not include an Inner-duct (not to exceed one Inner-duct per party) reserved by BellSouth, Sprint, or a Third Party for maintenance, repair, or emergency restoration.
- 1.32 Intentionally left blank.

1.33 Third Party. The terms Third Party and third parties refer to persons and entities other than Sprint and BellSouth. Use of the term Third Party does not signify that any such person or entity is a party to this Agreement or has any contractual rights hereunder.

## 2. **SCOPE OF AGREEMENT**

2.1 Undertaking of BellSouth. BellSouth shall provide Sprint with equal and nondiscriminatory access to Poles, Conduits, Ducts, and Rights-of-Way on terms and conditions equal to those provided by BellSouth to itself or to any other telecommunications service provider. Further, BellSouth shall not withhold or delay assignment of such Facilities to Sprint because of the potential or forecasted needs of itself or other parties.

2.2 Attachments and Occupancies Authorized by this Agreement. BellSouth shall issue one or more Licenses to Sprint authorizing Sprint to attach Facilities to BellSouth's owned or controlled Poles and to place Facilities within BellSouth's owned or controlled Conduits, Ducts or Rights-of-Way under the terms and conditions set forth in this Section and the Telecommunications Act of 1996.

2.2.1 Unless otherwise provided herein, authority to attach Facilities to BellSouth's owned or controlled Poles, to place Facilities within BellSouth's owned or controlled Conduits, Ducts or Rights-of-Way shall be granted only in individual Licenses granted under this Agreement and the placement or use of such Facilities shall be determined in accordance with such Licenses and procedures established in this Agreement.

2.2.2 Sprint agrees that its attachment of Facilities to BellSouth's owned or controlled Poles, Occupancy of BellSouth's owned or controlled Conduits, Ducts or Rights-of-Way shall take place pursuant to the licensing procedures set forth herein, and BellSouth agrees that it shall not unreasonably withhold or delay issuance of such Licenses.

2.2.3 Sprint may not sublease or otherwise authorize any Third Party to use any part of the BellSouth Facilities licensed to Sprint under this Attachment, except that Sprint may lease its own Facilities to third parties. Notwithstanding the above, upon notice to BellSouth, Sprint may permit Third Parties who have an agreement with BellSouth to overlap to existing Sprint attachments in accordance with the terms and conditions of such Third Party's agreement with BellSouth, and Sprint may lease dark fiber to a Third Party.

- 2.3 Licenses. Subject to the terms and conditions set forth in this Agreement, BellSouth shall issue to Sprint one or more Licenses authorizing Sprint to place or attach Facilities in or to specified Poles, Conduits, Ducts or Rights-of-Way owned or controlled by BellSouth located within this state on a first come, first served basis. BellSouth may deny a License Application if BellSouth determines that the Pole, Conduit or Duct space specifically requested by Sprint is necessary to meet BellSouth's plans that are anticipated/projected for the next 1-year planning period, or is licensed by BellSouth to another Licensee, or is otherwise unavailable based on engineering concerns. BellSouth shall provide written notice to Sprint within a reasonable time specifying in detail the reasons for denying Sprint's request. BellSouth shall have the right to designate the particular Duct(s) to be occupied, the location and manner in which Sprint's Facilities will enter and exit BellSouth's Conduit System and the specific location and manner of installation for any associated equipment which is permitted by BellSouth to occupy the Conduit System.
- 2.4 Access and Use of Rights-of-Way. BellSouth acknowledges that it is required by the Telecommunications Act of 1996 to afford Sprint access to and use of all associated Rights-of-Way to any sites where BellSouth's owned or controlled Poles, Manholes, Conduits, Ducts or other parts of BellSouth's owned or controlled Conduit Systems are located.
- 2.4.1 BellSouth shall provide Sprint with access to and use of such Rights-of-Way to the same extent and for the same purposes that BellSouth may access or use such Rights-of-Way, including but not limited to access for ingress, egress or other access and to construct, utilize, maintain, modify, and remove Facilities for which Pole attachment, Conduit Occupancy, or ROW use Licenses have been issued, provided that any agreement with a Third Party under which BellSouth holds such rights expressly or impliedly grants BellSouth the right to provide such rights to others.
- 2.4.2 Where BellSouth notifies Sprint that BellSouth's agreement with a Third Party does not expressly or impliedly grant BellSouth the ability to provide such access and use rights to others, upon Sprint's request, BellSouth will use its best efforts to obtain the Owner's consent and to otherwise secure such rights for Sprint. Sprint agrees to reimburse BellSouth for the reasonable and demonstrable Costs incurred by BellSouth in obtaining such rights for Sprint.
- 2.4.3 In cases where a Third Party agreement does not grant BellSouth the right to provide access and use rights to others as contemplated in 2.4.1 and BellSouth, despite its best efforts, is unable to secure such access and use rights for Sprint in accordance with 2.4.2, or, in the case where Sprint elects not to invoke its rights under 2.4.1 or 2.4.2, Sprint shall be responsible for obtaining such permission to access and use such Rights-of-Way. BellSouth shall cooperate with Sprint in obtaining such permission and shall not prevent or delay any Third Party assignment of ROW's to Sprint.

- 2.4.4 Where BellSouth has any ownership or Rights-of-Way to buildings or building complexes, or within buildings or building complexes, BellSouth shall offer to Sprint through a License or other attachment:
- 2.4.4.1 The right to use any Available space owned or controlled by BellSouth in the building or building complex to install Sprint equipment and Facilities; and
- 2.4.4.2 Ingress and egress to such space.
- 2.4.5 Except to the extent necessary to meet the requirements of the Telecommunications Act of 1996, neither this Agreement nor any License granted hereunder shall constitute a conveyance or assignment of any of either party's rights to use any public or private Rights-of-Way, and nothing contained in this Agreement or in any License granted hereunder shall be construed as conferring on one party any right to interfere with the other party's access to any such public or private Rights-of-Way.
- 2.5 No Effect on BellSouth's Right to Convey Property. Nothing contained in this Agreement or in any License issued hereunder shall in any way affect the right of BellSouth to convey to any other person or entity any interest in real or personal property, including any Poles, Conduit or Ducts to or in which Sprint has attached or placed Facilities pursuant to Licenses issued under this Agreement provided however that BellSouth shall give Sprint reasonable advance written notice of such intent to convey.
- 2.6 No Effect on BellSouth's Rights to Manage its Own Facilities. This Agreement shall not be construed as limiting or interfering with BellSouth's rights set forth below, except to the extent expressly provided by the provisions of this Agreement or Licenses issued hereunder or by the Telecommunications Act of 1996 or other applicable laws, rules or regulations:
  - 2.6.1 To locate, relocate, move, replace, modify, maintain, and operate BellSouth's own Facilities within BellSouth's Conduits, Ducts or rights-of way or any of BellSouth's Facilities attached to BellSouth's Poles at any time and in any reasonable manner which BellSouth deems appropriate to serve its customers, avail itself of new business opportunities, or otherwise meet its business needs; or
  - 2.6.2 To enter into new agreements or arrangements with other persons or entities permitting them to attach or place their Facilities to or in BellSouth's Poles, Conduits or Ducts; provided, however, that such relocations, moves, replacements, modifications, maintenance and operations or new agreements or arrangements shall not substantially interfere with Sprint's Pole attachment, Conduit Occupancy or ROW use, rights provided by Licenses issued pursuant to this Agreement.

- 2.7 No Effect on Sprint's Rights to Manage its Own Facilities. This Agreement shall not be construed as limiting or interfering with Sprint's rights set forth below, except to the extent expressly provided by the provisions of this Agreement or Licenses issued hereunder or by the Telecommunications Act of 1996 or other applicable laws, rules or regulations:
  - 2.7.1 To locate, relocate, move, replace, modify, maintain, and operate its own Facilities within BellSouth's Conduits, Ducts or Rights-of-Way or its Facilities attached to BellSouth's Poles at any time and in any reasonable manner which Sprint deems appropriate to serve its customers, avail itself of new business opportunities, or otherwise meet its business needs; or
  - 2.7.2 To enter into new agreements or arrangements with other persons or entities permitting Sprint to attach or place its Facilities to or in such other persons' or entities' Poles, Conduits or Ducts, or Rights-of-Way; provided, however, that such relocations, moves, replacements, modifications, maintenance and operations or new agreements or arrangements shall not conflict with Sprint's obligations under Licenses issued pursuant to this Agreement.
- 2.8 No Right to Interfere with Facilities of Others. The provisions of this Agreement or any License issued hereunder shall not be construed as authorizing either party to this Agreement to rearrange or interfere in any way with any of the other party's Facilities, with the Facilities of other persons or entities, or with the use of or access to such Facilities by such other party or such other persons or entities, except to the extent expressly provided by the provisions of this Agreement or any License issued hereunder or by the Telecommunications Act of 1996 or other applicable laws, rules or regulations.
  - 2.8.1 Sprint acknowledges that the Facilities of persons or entities other than BellSouth and Sprint may be attached to or occupy BellSouth's Poles, Conduits, Ducts and Rights-of-Way.
  - 2.8.2 BellSouth shall not attach, or give permission to any third parties to attach Facilities to, existing Sprint Facilities without Sprint's prior written consent. If BellSouth becomes aware of any such unauthorized attachment to Sprint Facilities, BellSouth shall notify Sprint of any such unauthorized attachments. BellSouth shall coordinate with Sprint, and BellSouth shall use its best efforts to rectify the situation.

- 2.8.3 With respect to Facilities occupied by Sprint or the subject of an Application for attachment by Sprint, BellSouth will give to Sprint 60 calendar days' written notice for Conduit extensions or reinforcements, 60 calendar days' written notice for Pole line extensions, 60 calendar days' written notice for Pole replacements, and 60 calendar days' written notice of BellSouth's intention to construct, reconstruct, expand or place such Facilities or of BellSouth's intention not to maintain or use any existing facility. Where BellSouth elects to abandon or remove BellSouth Facilities, the Facilities will be offered to existing occupants on a first-in, first-right to maintain basis. The party first electing to exercise this option will be required to execute the appropriate agreement with BellSouth to transfer (purchase agreement) ownership from BellSouth to new party, subject to then-existing Licenses pertaining to such Facilities. If no party elects to maintain such Facilities, all parties will be required to remove their existing Facilities within ninety (90) calendar days of written notice from BellSouth. If an emergency or provisions of an applicable joint use agreement require BellSouth to construct, reconstruct, expand or replace Poles, Conduits or Ducts occupied by Sprint or the subject of an Application for attachment by Sprint, BellSouth will notify Sprint as soon as reasonably practicable of such proposed construction, reconstruction, expansion or replacement to enable Sprint, if it so desires, to request that a Pole, Conduit or Duct of greater height or capacity be utilized to accommodate an anticipated facility need of Sprint.
- 2.8.4 Upon Sprint's request and at its expense, BellSouth shall remove any retired cable from Conduit Systems to accommodate Sprint's Facilities and allow for the efficient use of Conduit space within a reasonable period of time. BellSouth retains salvage rights on any cable removed. In order to safeguard its structures and Facilities, BellSouth reserves the right to remove retired cables and is under no obligation to allow Licensee the right to remove such cables. Based on sound engineering judgement, there may be situations where it would neither be feasible nor practical to remove retired cables. If the parties are unable to agree, on such removal arrangements, the matter may be resolved pursuant to the Dispute Resolution procedure set forth in the General Terms and Conditions of this Agreement.
- 2.8.5 BellSouth shall allow Sprint to reserve spares and space for maintenance and emergency purposes as permitted by federal or state legal or regulatory authority.
- 2.9 Assignment of Space. Assignment of space on Poles, in Conduits or Ducts and within ROW's will be made pursuant to Licenses granted by BellSouth on an equal basis to BellSouth, Sprint and other telecommunication service providers.

### 3. REQUIREMENTS AND SPECIFICATIONS

- 3.1 Published Standards Incorporated in this Section by Reference. Sprint agrees that its Facilities shall be placed, constructed, maintained, repaired, and removed in accordance with current (as of the date when such work is performed) editions of the following publications, each of which is incorporated by reference as part of this Section :
- 3.1.1 The Blue Book Manual of Construction Procedures, Special Report SR-TAP-001421, published by Telcordia Technologies, f/k/a Bell Communications Research, Inc. ("BellCore"), and sometimes referred to as the "Blue Book";
- 3.1.2 The National Electrical Code (NEC); and
- 3.1.3 The National Electrical Safety Code (NESC).
- 3.2 Changes in Published Standards. Sprint agrees to rearrange its Facilities in accordance with changes in the standards published in the publications specified in Article 3.1 of this Agreement if required by law to do so or upon the mutual agreement of the parties.
- 3.3 Additional Electrical Design Specifications. Sprint agrees that, in addition to specifications and requirements referred to in Article 3.1 above, Sprint's Facilities placed in BellSouth's Conduit System shall meet all of the following electrical design specifications:
- 3.3.1 No facility shall be placed in BellSouth's Conduit System in violation of FCC regulations.
- 3.3.2 Sprint's Facilities placed in BellSouth's Conduit System shall not be designed to use the earth as the sole conductor for any part of Sprint's circuits.
- 3.3.3 Sprint's Facilities carrying more than 50 volts AC (rms) to ground or 135 volts DC to ground shall be enclosed in an effectively grounded Sheath or shield.
- 3.3.4 No coaxial cable of Sprint shall occupy a Conduit System containing BellSouth's cable unless such cable of Sprint meets the voltage limitations of Article 820 of the National Electrical Code.
- 3.3.5 Sprint's coaxial cable may carry continuous DC voltages up to 1800 volts to ground where the conductor current will not exceed one-half amperes and where such cable has two separate grounded metal sheaths or shields and a suitable insulating jacket over the outer Sheath or shield. The power supply shall be so designed and maintained that the total current carried over the outer Sheath shall not exceed 200 micro amperes under normal conditions. Conditions which would increase the current over this level shall be cleared promptly.

- 3.3.6 Neither party shall circumvent the other party's corrosion mitigation measures. Each party's new Facilities shall be compatible with the other party's Facilities so as not to damage any Facilities of the other party by corrosion or other chemical reaction.
- 3.4 Additional Physical Design Specifications. Sprint's Facilities placed in BellSouth's Conduit System must meet all of the following physical design specifications:
- 3.4.1 Cables bound or wrapped with cloth or having any kind of fibrous coverings or impregnated with an adhesive material shall not be placed in BellSouth's Conduit or Ducts.
- 3.4.2 The integrity of BellSouth's Conduit System and overall safety of BellSouth's personnel and other personnel working in BellSouth's Conduit System requires that "dielectric cable" be required when Sprint's cable facility utilizes an alternative Duct or route that is shared in the same trench by any current carrying facility of a power utility.
- 3.4.3 New construction splices in Sprint's fiber optic and twisted pair cables shall be located in Manholes, pull boxes or Handholes.
- 3.5 Additional Specifications Applicable to Connections. The following specifications apply to connections of Sprint's Conduit to BellSouth's Conduit System:
- 3.5.1 Sprint will be permitted to connect its Conduit or Duct only at the point of a BellSouth Manhole. No attachment will be made by entering or breaking into Conduit between Manholes. All necessary work to install Sprint Facilities will be performed by Sprint or its contractor at Sprint's expense. In no event shall Sprint or its contractor "core bore" or make any other modification to BellSouth Manhole(s) without the prior written approval of BellSouth, which approval will not be unreasonably delayed or withheld.
- 3.5.2 BellSouth may monitor, at Sprint's expense, the entrance and exit of Sprint's Facilities into BellSouth's Manholes and the placement of Sprint's Facilities in BellSouth's Manholes.
- 3.5.3 If Sprint constructs or utilizes a Duct connected to BellSouth's Manhole, the Duct and all connections between that Duct and BellSouth's Manhole shall be sealed, to the extent practicable, to prevent the entry of gases or liquids into BellSouth's Conduit System. If Sprint's Duct enters a building, it shall also be sealed where it enters the building and at all other locations necessary to prevent the entry of gases and liquids from the building into BellSouth's Conduit System.

- 3.6 Requirements Relating to Personnel, Equipment, Material, and Construction Procedures Generally. Duct clearing, rodding or modifications required to grant Sprint access to BellSouth's Conduit Systems may be performed by BellSouth at Sprint's expense at charges which represent BellSouth's actual Costs. Alternatively (at Sprint's option) such work may be performed by a contractor who demonstrates compliance with BellSouth certification requirements, which certification requirements shall be consistent with F.C.C. rules. The parties acknowledge that Sprint, its contractors, and other persons acting on Sprint's behalf will perform work for Sprint (e.g., splicing Sprint's Facilities) within BellSouth's Conduit System. Sprint represents and warrants that neither Sprint nor any Person Acting on Sprint's Behalf shall permit any person to climb or work on or in any of BellSouth's Poles or to enter BellSouth's Manholes or work within BellSouth's Conduit System unless such person has the training, skill, and experience required to recognize potentially dangerous conditions relating to Pole or the Conduit Systems and to perform the work safely.
- 3.6.1 Sprint's Facilities within BellSouth's Conduit System shall be constructed, placed, rearranged, modified, and removed upon receipt of License specified in 5.1. However, no such License will be required for the inspection, maintenance, repair or non-physical modifications of Sprint's Facilities.
- 3.6.2 "Rodding" or clearing of Ducts in BellSouth's Conduit System shall be done only when specific authorization for such work has been obtained in advance from BellSouth, which authorization shall not be unreasonably delayed or withheld by BellSouth. The parties agree that such rodding or clearing shall be performed according to existing industry standards and practices. Sprint may contract with BellSouth for performance of such work or (at Sprint's option) with a contractor who demonstrates compliance with BellSouth certification requirements.
- 3.6.3 Personnel performing work on BellSouth's or Sprint's behalf in BellSouth's Conduit System shall not climb on, step on, or otherwise disturb the other party's or any Third Party's cables, air pipes, equipment, or other Facilities located in any Manhole or other part of BellSouth's Conduit System.
- 3.6.4 Personnel performing work on BellSouth's or Sprint's behalf within BellSouth's Conduit System (including any Manhole) shall, upon completing their work, make reasonable efforts to remove all tools, unused materials, wire clippings, cable sheathing and other materials brought by them to the work site.
- 3.6.5 All of Sprint's Facilities shall be firmly secured and supported in accordance with Telcordia Technologies, f/k/a Bell Communications Research, Inc. (BellCore") and industry standards.
- 3.6.6 Identification of Facilities in Conduit/Manholes. Sprint's Facilities shall be plainly identified with Sprint's name in each Manhole with a firmly affixed permanent tag that meets standards set by BellSouth for its own Facilities.

- 3.6.6.1 Identification of Pole Attachments. Sprint's Facilities attached to BellSouth Poles shall be plainly identified with Sprint's name firmly affixed at each Pole by a permanent tag that meets industry standards.
- 3.6.7 Manhole pumping and purging required in order to allow Sprint's work operations to proceed shall be performed by a vendor approved by BellSouth in compliance with BellSouth Practice Sec. 620-145-011BT, "Manhole Contaminants, Water, Sediment or Debris Removal and Reporting Procedures," and any amendments, revisions or supplements thereto and in compliance with all regulations and standards established by the United States Environmental Protection Agency and by any applicable state or local environmental regulators.
- 3.6.8 Planks or other types of platforms shall not be installed using cables, pipes or other equipment as a means of support. Platforms shall be supported only by cable racks.
- 3.6.9 Any leak detection liquid or device used by Sprint or personnel performing work on Sprint's Facilities within BellSouth's Conduit System shall be of a type approved by BellSouth or Telcordia Technologies, f/k/a Bell Communications Research, Inc. (BellCore").
- 3.6.10 When Sprint or personnel performing work on Sprint's behalf are working within or in the vicinity of any part of BellSouth's Poles or Conduit System which is located within, under, over, or adjacent to streets, highways, alleys or other traveled Rights-of-Way, Sprint and all personnel performing work on Sprint's behalf shall follow procedures which Sprint deems appropriate for the protection of persons and property. Sprint shall be responsible, at all times, for determining and implementing the specific steps required to protect persons and property at the site. Sprint will provide all traffic control and warning devices required to protect pedestrian and vehicular traffic, workers and property from danger. BellSouth shall have no responsibility for the safety of personnel performing work on Sprint's behalf, or for the safety of bystanders. Sprint also has responsibility for insuring that all operations conform to current OSHA regulations and all other governmental rules, ordinances or statutes. BellSouth reserves the right to suspend Sprint's activities on, in or in the vicinity of BellSouth's Poles or Conduit System if, in BellSouth's reasonable judgment, any hazardous condition arises due to the activity (including both acts and omissions) of Sprint or any personnel performing work on Sprint's behalf, which suspension shall cease when the condition has been rectified.
- 3.6.11 Except for protective screens, no temporary cover shall be placed by Sprint or personnel performing work on Sprint's behalf over an open Manhole unless it is at least four feet above the surface level of the Manhole opening.
- 3.6.12 Smoking or the use of any open flame is prohibited in BellSouth's Manholes, in any other portion of BellSouth's Conduit System, or within 10 feet of any open Manhole entrance; provided that this provision will not prohibit the use of spark producing tools such as electric drills, fusion splicers, etc.

- 3.6.13 Artificial lighting, when required, will be provided by Sprint. Only explosion-proof lighting fixtures shall be used.
- 3.6.14 Neither Sprint nor personnel performing work on Sprint's behalf shall allow any combustible gas, vapor, liquid, or material to accumulate in BellSouth's Conduit System (including any Manhole) during work operations performed within or in the vicinity of BellSouth's Conduit System.
- 3.6.15 Sprint will abide by any laws, regulations or ordinances regarding the use of spark producing tools, equipment or devices in BellSouth's Manholes, in any other portions of BellSouth's Conduit System, or within 10 feet of any open Manhole opening. This includes, but is not limited to, such tools as electric drills and hammers, meggers, breakdown sets, induction sets, and the like.
- 3.7 Opening of Manholes. The following requirements apply to the opening of BellSouth's Manholes and the authority of BellSouth personnel present when work on Sprint's behalf is being performed within or in the vicinity of BellSouth's Conduit System.
  - 3.7.1 BellSouth's Manholes shall be opened only as permitted by BellSouth's authorized employees or agents, which permission shall not be unreasonably denied or delayed.
  - 3.7.2 Sprint shall notify BellSouth forty-eight (48) hours in advance of any routine work operation requiring entry into any of BellSouth's Manholes.
  - 3.7.3 Sprint shall be responsible for obtaining any necessary authorization from appropriate authorities to open Manholes for Conduit work operations therein.
  - 3.7.4 BellSouth's authorized employee or agent shall not direct or control the conduct of Sprint's work at the work site. The presence of BellSouth's authorized employee or agent at the work site shall not relieve Sprint or personnel performing work on Sprint's behalf of their responsibility to conduct all work operations within BellSouth's Conduit System in a safe and workmanlike manner.
  - 3.7.5 Although BellSouth's authorized employee or agent shall not direct or control the conduct of Sprint's work at the work site, BellSouth's employee or agent shall have the authority to suspend Sprint's work operations within BellSouth's Conduit System if, in the reasonable discretion of such BellSouth employee or agent, it appears that any hazardous conditions arise or any unsafe practices are being followed by Sprint or personnel performing work on Sprint's behalf.
- 3.8 OSHA Compliance: Notice to BellSouth of Unsafe Conditions. Sprint agrees that:
  - 3.8.1 Its Facilities shall be constructed, placed, maintained, repaired, and removed in accordance with the Occupational Safety and Health Act (OSHA) and all rules and regulations promulgated thereunder;

- 3.8.2 All persons acting on Sprint's behalf, including but not limited to Sprint's employees, agents, contractors, and subcontractors shall, when working on or within BellSouth's Poles or Conduit System, comply with OSHA and all rules and regulations thereunder;
- 3.8.3 Sprint shall establish appropriate procedures and controls to assure compliance with all requirements of this section; and
- 3.8.4 Sprint (and any Person Acting on Sprint's Behalf) may report unsafe conditions on, in or in the vicinity of BellSouth's Poles or Conduit System to BellSouth.
- 3.9 Compliance with Environmental Laws and Regulations. Sprint acknowledges that, from time to time, environmental contaminants may enter BellSouth's Conduit System and accumulate in Manholes or other Conduit Facilities and that certain Conduits (transite) are constructed with asbestos-containing materials. If BellSouth has knowledge of the presence of such contaminants in a Conduit for which Sprint has applied for or holds a License, BellSouth will promptly notify Sprint of such fact.

Notwithstanding any of BellSouth's notification requirements in this Attachment, Sprint acknowledges that some of BellSouth's Conduit is fabricated from asbestos-containing materials. Such Conduit is generally marked with a designation of "C Fiber Cement Conduit," "Transite," or "Johns-Manville." Until proven otherwise, Sprint will presume that all Conduit not fabricated of plastic, tile, or wood is asbestos-containing and will handle it pursuant to all applicable regulations relating to worker safety and protection of the environment. BellSouth makes no representations to Sprint or personnel performing work on Sprint's behalf that BellSouth's Conduit System or any specific portions thereof will be free from environmental contaminants at any particular time. The acknowledgments and representations set forth in the two preceding sentences are not intended to relieve BellSouth of any liability which it would otherwise have under applicable law for the presence of environmental contaminants in its Conduit Facilities. Sprint agrees to comply with the following provisions relating to compliance with environmental laws and regulations:

- 3.9.1 Sprint's Facilities shall be constructed, placed, maintained, repaired, and removed in accordance with all applicable federal, state, and local environmental statutes, ordinances, rules, regulations, and other laws, including but not limited to the Resource Conservation and Recovery Act (42 U.S.C. §§ 9601 et. seq.), the Toxic Substance Control Act (15 U.S.C. §§ 2601-2629), the Clean Water Act (33 U.S.C. §§ 1251 et. seq.), and the Safe Drinking Water Act (42 U.S.C. §§ 300f-300j).
- 3.9.2 All persons acting on Sprint's behalf, including but not limited to Sprint's employees, agents, contractors, and subcontractors, shall, when working on, within or in the vicinity of BellSouth's Poles or Conduit System, comply with all applicable federal, state, and local environmental laws, including but not limited to all environmental statutes, ordinances, rules, and regulations.

- 3.9.3 Sprint shall establish appropriate procedures and controls to assure compliance with all requirements of this section. BellSouth will be afforded a reasonable opportunity to review such procedures and controls and provide comments that will be reasonably considered in advance of their implementation. Review and comment by BellSouth pursuant to this section will be provided in a timely manner.
- 3.9.4 Sprint and all personnel performing work on Sprint's behalf shall comply with such standards and practices as BellSouth and Sprint may from time to time mutually agree to adopt to comply with environmental laws and regulations including, without limitation, BellSouth Practice Sec. 620-145-011BT, "Manhole Contaminants, Water, Sediment or Debris Removal and Reporting Procedures". Pursuant to this practice, neither Sprint nor BellSouth nor personnel performing work on either party's behalf shall discharge water or any other substance from any BellSouth Manhole or other Conduit facility onto public or private property, including any storm water drainage system, without first testing such water or substance for contaminants in accordance with mutually agreed standards and practices and determining that such discharge would not violate any environmental law, create any environmental risk or hazard, or damage the property of any person. No such waste material shall be deposited on BellSouth premises for storage or disposal.
- 3.10 Compliance with Other Governmental Requirements. Sprint agrees that its Facilities attached to BellSouth's Facilities shall be constructed, placed, maintained, and removed in accordance with the ordinances, rules, and regulations of any governing body having jurisdiction of the subject matter. Sprint shall comply with all statutes, ordinances, rules, regulations and other laws requiring the marking and lighting of aerial wires, cables and other structures to ensure that such wires, cables and structures are not a hazard to aeronautical navigation. Sprint shall establish appropriate controls to assure such compliance by all persons acting on Sprint's behalf, including but not limited to, Sprint's employees, agents, contractors, and subcontractors.
- 3.11 Differences in Standards or Specifications. To the extent that there may be differences in any applicable standards or specifications referred to in this Article 3, the most stringent standard or specification shall apply.

3.12 Sprint Solely Responsible for the Condition of Its Facilities. Sprint shall be responsible at all times for the condition of its Facilities and its compliance with the requirements, specifications, rules, regulations, ordinances, and laws specified above. In this regard, BellSouth shall have no duty to Sprint to inspect or monitor the condition of Sprint's Facilities (including but not limited to splices and other Facilities connections) located within BellSouth's Conduit and Ducts or any attachment of Sprint's Facilities to BellSouth's Poles, Anchors, Anchor/Guy Strands or other Pole Facilities. BellSouth may, however, conduct such inspections and audits of its Poles and Conduit System as BellSouth determines reasonable or necessary. Such inspection and audits shall be conducted at BellSouth's expense with the exception of (1) follow-up inspection to confirm remedial action after an observed Sprint violation of the requirements of this Agreement; and (2) inspection of Sprint Facilities in compliance with a specific mandate of appropriate governmental authority for which inspections the Cost shall be borne by Sprint. Either party may audit the other party's compliance with the terms of this Section. Observed safety hazards or imminent facility failure conditions of another party shall be reported to the affected party where such party can be readily identified or, where not readily identifiable, shall be reported to BellSouth.

3.13 Efficient use of Conduit. BellSouth will install Inner-ducts to increase Duct space in existing Conduit as Facilities permit. The full complement of Inner-ducts will be installed which can be accommodated under sound engineering principles. The number of Inner-ducts which can reasonably be installed will be determined by BellSouth.

#### **4. ADDITIONAL LEGAL REQUIREMENTS**

4.1 Third Party Property Owners. Licenses granted under this Attachment authorize Sprint to place Facilities in, or attach Facilities to, Poles, Conduits and Ducts owned or controlled by BellSouth but do not affect the rights of landowners to control terms and conditions of access to their property.

4.1.1 Sprint agrees that neither Sprint nor any persons acting on Sprint's behalf, including but not limited to Sprint's employees, agents, contractors, and subcontractors, shall engage in any conduct which damages public or private property in the vicinity of BellSouth's Poles or Conduit System, interferes in any way with the use or enjoyment of public or private property except as expressly permitted by the Owner of such property, or creates a hazard or nuisance on such property (including, but not limited to, a hazard or nuisance resulting from any abandonment or failure to remove Sprint's Facilities or any construction debris from the property, failure to erect warning signs or barricades as may be necessary to give notice to others of unsafe conditions on the premises while work performed on Sprint's behalf is in progress, or failure to restore the property to a safe condition after such work has been completed).

- 4.2 Required Permits, Certificates and Licenses. Sprint shall be responsible for obtaining any building permits or certificates from governmental authorities necessary to construct, operate, maintain and remove its Facilities on public or private property.
- 4.2.1 Sprint shall not attach or place its Facilities to or in BellSouth's Poles, Conduit or Duct located on any property for which it or BellSouth has not first obtained all required authorizations.
- 4.2.2 BellSouth shall have the right to request evidence that all appropriate authorizations have been obtained. However, such request shall not delay BellSouth's Pre-License Survey work.
- 4.3 Lawful Purposes. All Facilities placed by Sprint in BellSouth's Conduit and Ducts or on BellSouth's Poles, Anchors or Anchor/Guy Strands must serve a lawful purpose and the uses made of Sprint's Facilities must comply with all applicable federal, state, and local laws and with all federal, state, and local regulatory rules, regulations, and requirements. In this regard, Sprint shall not utilize any Facilities occupying or attached to BellSouth's Conduits, Ducts or Poles for the purpose of providing any services which it is not authorized by law to provide or for the purpose of enabling any other person or entity to provide any such services.
- 5. FACILITIES AND LICENSES**
- 5.1 Licenses Required. Before placing any Facilities in BellSouth's Conduits or Ducts or attaching any Facilities to BellSouth's Poles, Anchors or Anchor/Guy Strands, Sprint must first apply for and receive a written License from BellSouth.

- 5.2 Provision of Records and Information to Sprint. In order to obtain information regarding Facilities, Sprint shall make a written request to BellSouth, identifying with reasonable specificity the geographic area for which Facilities are required, the types and quantities of the required Facilities and the required in-service date. In response to such request, BellSouth shall provide Sprint with information regarding the types, quantity and location (which may be provided by provision of route maps) and availability of BellSouth Poles, Conduit and right-of-way located within the geographic area specified by Sprint. Provision of information under the terms of this section shall include the right of Sprint employees or agents to inspect and copy engineering records or drawings which pertain to those Facilities within the geographic area identified in Sprint's request. Such inspection and copying shall be done at a time and place listed in Appendix II of this agreement. The Costs of producing and mailing copies of records, which are to be paid by Licensee, are on an individual case basis. The components which make up the total Costs are actual:
- 1) BellSouth employee Costs based on the time spent researching, reviewing and copying records
  - 2) Copying Costs
  - 3) Shipping Costs
- 5.3 No Warranty of Record Information. Sprint acknowledges that records and information provided by BellSouth pursuant to paragraph 5.2 may not reflect field conditions and that physical inspection is necessary to verify presence and condition of outside plant Facilities and Right-of-Way. In providing such records and information, BellSouth assumes no liability to Sprint or any Third Party for errors/omissions contained therein.
- 5.4 Determination of Availability. BellSouth shall provide Pole, Conduit and right-of-way availability information in response to a request from Sprint which identifies with reasonable specificity the Facilities for which such information is desired. Sprint may elect to be present at any field based survey of Facilities identified pursuant to this paragraph and BellSouth shall provide Sprint at least forty-eight (48) hours notice prior to initiating such field survey. Sprint employees or agents shall be permitted to enter BellSouth Manholes and inspect such structures to confirm usability and/or evaluate condition of the structure(s) with at least forty-eight (48) hours notice to BellSouth, with a BellSouth representative present and at Sprint's expense.
- 5.5 Assignment of Conduit, Duct and Poles. BellSouth shall not unreasonably deny or delay issuance of any License and, in any event, BellSouth shall issue such License as follows: (a) after the determination has been made that Make-Ready Work is not required, or (b) completion of Make-Ready Work.

5.5.1 No Make-Ready Work Required. If BellSouth determines that no Make-Ready Work is required, BellSouth shall approve Applications for Pole attachment and Conduit Occupancy Licenses and issue such Licenses within twenty (20) business days after the determination has been made that no Make-Ready Work is required, but in no event later than 45 calendar days after BellSouth receives Sprint's Application, which period shall exclude any time BellSouth is awaiting a response from Licensee.

5.5.2 Make-Ready Work Required. If Make-Ready Work is to be performed by BellSouth, such Available space shall remain in effect until make-ready Costs are presented to Sprint and approval by Sprint pursuant to the time frames herein stated in 6.2. If Sprint approves BellSouth's make-ready Costs, Sprint shall have twelve (12) months from the date of issuance of License to install its Facilities.

If Sprint rejects BellSouth's Costs for Make-Ready Work, but then elects to perform the Make-Ready Work itself or through a contractor or if Sprint elects from the time of Application to perform the Make-Ready Work itself or through a contractor, Sprint shall install its Facilities within twelve (12) months from the date that Sprint informs BellSouth that Sprint will perform Make-Ready Work. In the event Sprint does not install its Facilities within the time frames set out in this Section 5.5, the assignment shall be void and such space shall become Available.

## **6. MAKE-READY WORK**

6.1 Work Performed by BellSouth. If performed by BellSouth, Make-Ready Work to accommodate Sprint's Facilities shall be included in the normal work load schedule of BellSouth with construction responsibilities in the geographic areas where the relevant Poles or Conduit Systems are located and shall not be entitled to priority, advancement, or preference over other work to be performed by BellSouth in the ordinary course of BellSouth's business.

6.1.1 If Sprint desires Make-Ready Work to be performed on an expedited basis and BellSouth agrees to perform the work on such a basis, BellSouth shall recalculate the estimated make-ready charges based upon the expedited timeframes requested. If Sprint accepts BellSouth's offer, Sprint shall pay such additional charges.

6.2 All charges for Make-Ready Work performed by BellSouth are payable in advance, with the amount of any such advance payment to be due within sixty (60) calendar days after receipt of an invoice from BellSouth. BellSouth will begin Make-Ready Work required to accommodate Sprint after receipt of Sprint's make-ready payment.

6.3 Work Performed by Certified Contractor. In lieu of obtaining performance of Make-Ready Work by BellSouth, Sprint at its option may arrange for the performance of such work by a contractor certified by BellSouth to work on or in its Facilities. Certification shall be granted based upon reasonable and customary criteria employed by BellSouth in the selection of its own contract labor. Notwithstanding any other provisions of this Section, Sprint may not employ a

contractor to accomplish Make-Ready Work if BellSouth is likewise precluded from contractor selection under the terms of an applicable joint use agreement. In accordance with section 3.6.7, all Manhole pumping and purging shall be performed by a vendor approved by BellSouth.

- 6.4 Completion of Make-Ready Work. BellSouth will issue a License to Sprint at the time all Make-Ready Work necessary to Sprint's attachment or Occupancy has been completed., but in no event shall the issuance exceed thirty (30) calendar days after completion of Make-Ready Work. BellSouth agrees to perform Make-Ready Work at parity with itself and in the same timeframe within which BellSouth would complete comparable work for its own, or its affiliates' own uses, and in a nondiscriminatory manner as among Licensees.

## 7. APPLICATION FORM AND FEES

Application Process. To apply for a License under this Attachment, Sprint shall submit the appropriate BellSouth administrative form(s), per Exhibit 2, (two (2) sets of each and either a route map specifically indicating Sprint desired route or engineered drawings are to be included). Sprint has the option of (1) requesting copies of BellSouth records only, (2) requesting a records and/or field survey to determine availability, and/or (3) requesting a make-ready estimate. Before the Application and Conduit Occupancy License or Application and Pole Attachment License form is approved for attachment, Make-Ready Work must be complete or a records or field survey has determined that Make-Ready Work is not required. Sprint shall submit with Sprint's License Application a proposed or estimated construction schedule as set forth below in Section 10. BellSouth will process License Applications in the order in which they are received; provided, however, that when Sprint has multiple Applications on file with BellSouth, Sprint may designate its desired priority of completion of Pre-License Surveys and Make-Ready Work with respect to all such Applications.

- 7.1.1 BellSouth will review a complete Application and in the event of denial, will advise Sprint of such within forty-five (45) calendar days. In the event no denial is made within such forty-five (45) calendar day period, the Application will be deemed accepted.
- 7.1.2 Each Application for a License under this Section shall specify the proposed route of Sprint's Facilities and identify the Conduits and Ducts or Poles and Pole Facilities along the proposed route in which Sprint desires to place or attach its Facilities, and describe the physical size, weight and jacket material of the cable which Sprint desires to place in each Conduit or Duct or the number and type of cables, apparatus enclosures and other Facilities which Sprint desires to attach to each Pole.
- 7.1.3 Each Application for a License under this Section shall be accompanied by a proposed (or estimated) construction schedule containing the information specified below in 10.1 of this Agreement, and an indication of whether Sprint will, at its option, perform its own Make-Ready Work. If on the Application Sprint indicates that BellSouth is to perform the Make-Ready Work, BellSouth will provide Sprint with the Make-Ready Work estimate for approval by Sprint at Sprint's option. Sprint may proceed in accordance with section 5.

## 7.2

Multiple Cables, Multiple Services, Lashing or Placing Additional Cables, and Replacement of Facilities. Sprint may include multiple cables in a single License Application and multiple services (e.g., CATV and non-CATV services) may be provided by Sprint in the same cable sheath. Sprint's Lashing additional cable to existing Facilities and placing additional cables in Conduits or Ducts already occupied by Sprint's Facilities shall be permitted, and no additional fees will be applied; provided, however, that if Sprint desires to lash additional cable to existing Facilities of a Third Party, Sprint shall provide BellSouth with reasonable notice, and shall obtain written permission from the Owner of the existing Facilities. If BellSouth determines that the requested Lashing would violate safety or engineering requirements, BellSouth shall provide written notice to Sprint within a reasonable time specifying in detail BellSouth's findings. If Sprint desires to place additional cables in Conduits or Ducts which are already occupied, or to replace existing Facilities with new Facilities substantially different from those described in Licenses in effect, Sprint must apply for and acquire a new License specifically describing the physical size, weight and jacket material of the cable to be placed in BellSouth's Conduits and Ducts or the physical size, weight, and jacket type of cables and the size and weight of apparatus enclosures and other Facilities to be attached to BellSouth Poles.

- 7.3 Each party hereby designates the employees named below as their single point of contact for any and all purposes of this Section, including, but not limited to, processing Licenses and Applications and providing records and information. Each party may at any time designate a new point of contact by giving written notice of such change.

|                                    |  | Notices                            | Billing Address                |

## **8. PROCESSING OF APPLICATIONS (INCLUDING PRELICENSE SURVEYS AND FIELD INSPECTIONS)**

8.1 Sprint's Priorities. When Sprint has multiple Applications on file with BellSouth, Sprint shall designate its desired priority of completion of Pre-License Surveys and Make-Ready Work with respect to all such Applications.

8.2 Pre-License Survey. After Sprint has submitted its written Application for a License, a Pre-License Survey (including a field inspection) will be performed by either party, in the company of a representative of the other party as mutually agreed, to determine whether BellSouth's Poles, Anchors and Anchor/Guy Strands, or Conduit System, in their present condition, can accommodate Sprint's Facilities, without substantially interfering with the ability of BellSouth or any other authorized person or entity to use or access the Pole, Anchor or Anchor/Guy Strand or any portion of BellSouth's Conduit System or Facilities attached to BellSouth's Pole or placed within or connected to BellSouth's Conduit System. If Pre-License Survey is to be conducted by BellSouth, BellSouth will provide Sprint a Cost, based on its review of Licensee's Application request, to perform the Pre-License Survey. BellSouth will submit to Sprint Costs to complete the Pre-License Survey; after receipt of Sprint's payment of Pre-License Survey Costs, BellSouth will schedule the survey. BellSouth agrees to perform Pre-License Survey Work at parity with itself and in the same timeframe within which BellSouth would complete comparable work for its own, or its affiliates' own uses, and in a nondiscriminatory manner as among Licensees. If Sprint gives its prior written consent in writing, the determination of Duct availability may include the "rodding" of Ducts at Sprint's expense.

8.2.1 The purpose of the Pre-License Survey is to determine whether Sprint's proposed attachments to BellSouth's Poles or Occupancy of BellSouth's Conduit and Ducts will substantially interfere with use of BellSouth's Facilities by BellSouth and others with Facilities occupying, connected or attached to BellSouth's Pole or Conduit System; and to provide information to Sprint for its determination of whether the Pole, Anchor, Anchor/Guy Strand, Conduit, Duct, or Right-of-Way is suitable for its use.

8.2.2 Based on information provided by BellSouth, Sprint shall determine whether BellSouth's Pole, Anchor, Anchor/Guy Strand, Conduit and Duct Facilities are suitable to meet Sprint's needs.

8.2.3 BellSouth may not unreasonably refuse to continue to process an Application based on BellSouth's determination that Sprint's proposed use of BellSouth's Facilities will not be in compliance with applicable requirements, specifications, rules, regulations, ordinances, and laws. In the case of a dispute, the parties shall submit the issue for resolution pursuant to the procedures set forth for Dispute Resolution General Terms and Conditions, of this Agreement. Sprint shall be responsible for making its own, independent determination that its use of such Facilities will be in compliance with such requirements, specifications, rules, regulations, ordinances and laws. Sprint acknowledges that BellSouth is not explicitly or implicitly warranting to Sprint that Sprint's proposed use of BellSouth's Facilities will be in compliance with applicable requirements, specifications, rules, regulations, ordinances, and laws.

8.3 Administrative Processing. The administrative processing portion of the Pre-License Survey (which includes without limitation processing the Application, preparing Make-Ready Work orders, notifying Joint Users and other persons and entities of work requirements and schedules, coordinating the relocation/rearrangement of BellSouth and/or other licensed Facilities) will be performed by BellSouth at Sprint's expense. Anything to the contrary herein notwithstanding, BellSouth shall bear no responsibility for the relocation, rearrangement or removal of Facilities used for the transmission or distribution of electric power.

## 9. ISSUANCE OF LICENSES

9.1 Obligation to Issue Licenses. BellSouth shall issue a License to Sprint pursuant to this 9.1. BellSouth and Sprint acknowledge that each Application for a License shall be evaluated on an individual basis. Nothing contained in this section shall be construed as abridging any independent Pole attachment rights or Conduit or Duct access rights which Sprint may have under the provisions of any applicable federal or state laws or regulations governing access to BellSouth's Poles, Conduits and Ducts, to the extent the same are not inconsistent with the Telecommunications Act of 1996. Each License issued hereunder shall be for an indefinite term, subject to Sprint's compliance with the provisions applicable to such License and further subject to Sprint's right to terminate such License at any time for any reason upon at least thirty (30) calendar days' prior written notice.

9.1.1 Intentionally left blank (BST standard moved to 5.1.1).

- 9.2 Multiple Applications. Sprint acknowledges that multiple parties including BellSouth may seek to place their Facilities in BellSouth's Conduit and Ducts or make attachments to Poles at or about the same time, that the Make-Ready Work required to prepare BellSouth's Facilities to accommodate multiple applicants may differ from the Make-Ready Work required to accommodate a single applicant, that issues relating to the proper apportionment of Costs arise in multi-applicant situations that do not arise in single-applicant situations, and that cooperation and negotiations between all applicants and BellSouth may be necessary to resolve disputes involving multiple Applications for permission to place Facilities in/on the same Pole, Conduit, Duct, or right-of-way.
- 9.2.1 All Applications will be processed on a first-come, first-served basis.
- 9.3 Agreement to Pay for All Make-Ready Work Completed. Sprint's submission of written authorization for Make-Ready Work shall also constitute Sprint's agreement to pay additional Cost-based charges, if any, for completed Make-Ready Work; provided, however, to the extent BellSouth is also utilizing the facility and to the extent any modification is used to bring the Facilities into compliance with any applicable safety or other governmental requirement or to perform any necessary repairs, BellSouth will be responsible for its share of the modification Cost.
- 9.4 Payments to Others for Expenses Incurred in Transferring or Arranging Their Facilities. Sprint shall make arrangements with the Owners of other Facilities located in or connected to BellSouth's Conduit System or attached to BellSouth's Poles, Anchors or Anchor/Guy Strands regarding reimbursement for any expenses incurred by them in transferring or rearranging their Facilities to accommodate the placement or attachment of Sprint's Facilities in or to BellSouth's structures.
- 9.5 Intentionally left blank (BST standard moved to 6.1.1).
- 9.6 License. When Sprint's Application for a Pole attachment or Conduit Occupancy License is approved, and all required Make-Ready Work completed, BellSouth will execute and return a signed authorization to Sprint, as appropriate, authorizing Sprint to attach or place the specified Facilities on BellSouth's Poles or in BellSouth's Conduit or Ducts.
- 9.6.1 Each License issued under this Section shall authorize Sprint to attach to BellSouth's Poles or place or maintain in BellSouth's Conduit or Ducts only those Facilities specifically described in the License, and no others.
- 9.6.2 Except as expressly stated to the contrary in individual Licenses issued hereunder, each License issued pursuant to this Section shall incorporate all terms and conditions of this Section whether or not such terms or conditions are expressly incorporated by reference on the face of the License itself.

## **10. CONSTRUCTION OF SPRINT'S FACILITIES**

- 10.1 Construction Schedule. Sprint shall submit with Sprint's License Application a proposed or estimated construction schedule. Promptly after the issuance of a License permitting Sprint to attach Facilities to BellSouth's Poles or place Facilities in BellSouth's Conduit or Ducts, Sprint shall provide BellSouth with an updated construction schedule and shall thereafter keep BellSouth informed of significant anticipated changes in the construction schedule. Construction schedules required by this Section shall include, at a minimum, the following information:
- 10.1.1 The name, title, business address, and business telephone number of the manager responsible for construction of the Facilities;
  - 10.1.2 The names of each contractor and subcontractor which will be involved in the construction activities;
  - 10.1.3 The estimated dates when construction will begin and end; and
  - 10.1.4 The approximate dates when Sprint or persons acting on Sprint's behalf will be performing construction work in connection with the placement of Sprint's Facilities in BellSouth's Conduit or Ducts.
- 10.2 Additional Pre-construction Procedures for Facilities Placed in Conduit System. The following procedures shall apply before Sprint places Facilities in BellSouth's Conduit System:
- 10.2.1 Sprint shall give written notice of the type of Facilities which are to be placed; and
  - 10.2.2 BellSouth shall designate the particular Duct or Ducts or Inner-ducts (if Available) to be occupied by Sprint's Facilities, the location and manner in which Sprint's Facilities will enter and exit BellSouth's Conduit System, and the specific location and manner of installation of any associated equipment which is permitted by BellSouth to occupy the Conduit System. Sprint may not occupy a Duct other than the specified Duct without the express written consent of BellSouth. BellSouth shall provide to Sprint space in Manholes for racking and storage of up to fifty (50) feet of cable, provided space is Available.
- 10.3 BellSouth Not Responsible for Constructing or Placing Facilities. BellSouth shall have no obligation to construct any Facilities for Sprint or to attach Sprint's Facilities to, or place Sprint's Facilities in, BellSouth's Poles or Conduit System, except as may be necessary to facilitate the interconnection of unbundled network elements or except to the extent expressly provided in this Section, any License issued hereunder, or by the Telecommunications Act of 1996 or any other applicable law.

- 10.4 Sprint Responsible for Constructing, Attaching and Placing Facilities. Except where otherwise mutually agreed by Sprint and BellSouth, Sprint shall be responsible for constructing its own Facilities and attaching those Facilities to, or placing them in BellSouth's Poles, Conduit or Ducts at Sprint's sole Cost and expense. Sprint shall be solely responsible for paying all persons and entities who provide materials, labor, access to real or personal property, or other goods or services in connection with the construction and placement of Sprint's Facilities and for directing the activities of all persons acting on Sprint's behalf while they are physically present on BellSouth's Pole, in any part of BellSouth's Conduit System or in the vicinity of BellSouth's Poles or Conduit System.
- 10.4.1 Intentionally left blank (BST standard moved to 3.6.6.1).
- 10.5 Compliance with Applicable Standards, Health and Safety Requirements, and Other Legal Requirements. Sprint shall construct its Facilities in accordance with the provisions of this Section and all Licenses issued hereunder.
- 10.5.1 Sprint shall construct, attach and place its Facilities in compliance with all Requirements and Specifications set forth above in this Agreement.
- 10.5.2 Sprint shall satisfy all legal requirements set forth above in this Agreement.
- 10.5.3 Sprint shall not permit any Person Acting on Sprint's Behalf to perform any work on BellSouth's Poles or within BellSouth's Conduit System without first verifying, to the extent practicable, on each date when such work is to be performed, that the condition of the Pole or Conduit System is suitable for the work to be performed. If Sprint or any person working on Sprint's behalf determines that the condition of the Pole or Conduit System is not suitable for the work to be performed, Sprint shall notify BellSouth of the condition of the Pole or Conduit System in question and shall not proceed with construction activities until Sprint is satisfied that the work can be safely performed.
- 10.6 Construction Notices. If requested to do so, Sprint shall provide BellSouth with information to reasonably assure BellSouth that construction has been performed in accordance with all applicable standards and requirements.
- 10.7 Points for Attachment. BellSouth shall specify, using the same selection criteria it uses for its own operating company, the point of attachment of each Pole or Anchor to be occupied by Sprint's Facilities. When the Facilities of more than one applicant are involved, BellSouth will attempt, to the extent practicable, to designate the same relative position on each Pole or Anchor for each applicant's Facilities.

10.8 Manhole and Conduit Break-Outs. Sprint shall be permitted to add Conduit ports to BellSouth Manholes when existing Conduits do not provide the pathway connectivity needed by Sprint; provided the structural integrity of the Manhole is maintained, and sound engineering judgment is employed.

10.9 Completion of Licensee Construction. For each Sprint attachment to or Occupancy within BellSouth Facilities, Sprint will provide to BellSouth's single-point of contact (within 60 calendar days of Sprint construction-complete date) a complete set of actual placement drawings for posting to BellSouth records.

## **11. USE AND ROUTINE MAINTENANCE OF SPRINT'S FACILITIES**

11.1 Use of Sprint's Facilities. Each License granted under this Section authorizes Sprint to have access to Sprint's Facilities on or in BellSouth's Poles, Conduits and Ducts as needed for the purpose of serving Sprint's customers, including, but not limited to, powering electronics, monitoring Facilities, or transporting signaling.

11.2 Routine Maintenance of Sprint's Facilities. Each License granted under this Section authorizes Sprint to engage in routine maintenance of Sprint's Facilities located on or in BellSouth's Poles, Conduits, Ducts and ROW pursuant to such License. Sprint shall give reasonable notice to the affected public authority or private landowner as appropriate before commencing the construction or installation of its attachments or making any material alterations thereto. Sprint shall give reasonable notice to BellSouth before performing any work, whether or not of a routine nature, in BellSouth's Conduit System.

11.3 Sprint Responsible for Maintenance of Sprint's Facilities. Sprint shall maintain its Facilities in accordance with the provisions of this Section (including but not limited to all requirements set forth above in this Agreement) and all Licenses issued hereunder. Sprint shall be solely responsible for paying all persons and entities who provide materials, labor, access to real or personal property, or other goods or services in connection with the maintenance of Sprint's Facilities and for directing the activities of all persons acting on Sprint's behalf while they are physically present on BellSouth's Poles, within BellSouth's Conduit System or in the immediate vicinity of such Poles or Conduit System.

11.4 BellSouth Not Responsible for Maintaining Sprint's Facilities. BellSouth shall have no obligation to maintain any Facilities which Sprint has attached or connected to, or placed in, BellSouth's Poles, Conduits, Ducts or any portion of BellSouth's Conduit System, except to the extent expressly provided by the provisions of this Section or any License issued hereunder, or by the Telecommunications Act of 1996 or other applicable laws, rules or regulations.

11.5 Information Concerning the Maintenance of Sprint's Facilities. Promptly after the issuance of a License permitting Sprint to attach Facilities to, or place Facilities in BellSouth's Poles, Conduits or Ducts, Sprint shall provide BellSouth with the name, title, business address, and business telephone number of the manager responsible for routine maintenance of Sprint's Facilities, and shall thereafter notify BellSouth of changes to such information. The manager responsible for routine maintenance of Sprint's Facilities shall, on BellSouth's request, identify any contractor, subcontractor, or other person performing maintenance activities on Sprint's behalf at a specified site and shall, on BellSouth's request, provide such additional documentation relating to the maintenance of Sprint's Facilities as reasonably necessary to demonstrate that Sprint and all persons acting on Sprint's behalf are complying with the requirements of this Section and Licenses issued hereunder.

11.6 Identification of Personnel Authorized to Have Access to Sprint's Facilities. All personnel authorized to have access to Sprint's Facilities shall, while working on BellSouth's Poles, in its Conduit System or Ducts or in the vicinity of such Poles, Ducts or Conduit Systems, carry with them suitable identification and shall, upon the request of any BellSouth employee, produce such identification.

## 12. **MODIFICATION AND REPLACEMENT OF SPRINT'S FACILITIES**

12.1 Notification of Planned Modification or Replacement of Facilities. Sprint shall, when practicable, notify BellSouth in writing at least 60 calendar days before adding to, relocating, replacing or otherwise modifying its Facilities attached to a BellSouth Pole, Anchor or Anchor/Guy Strand or located in any BellSouth Conduit or Duct. The notice shall contain sufficient information to enable BellSouth to determine whether the proposed addition, relocation, replacement, or modification is permitted under Sprint's present License or requires a new or amended License.

12.2 New or Amended License Required. A new or amended License will be required if the proposed addition, relocation, replacement, or modification:

12.2.1 Requires that Sprint use additional space on BellSouth's Poles or in its Conduits or Ducts (including but not limited to any additional Ducts, Inner-ducts, or substantial space in any handhole or Manhole) on either a temporary or permanent basis; or

12.2.2 Results in the size or location of Sprint's Facilities on BellSouth's Poles or in its Conduit or Ducts being appreciably different from those described and authorized in Sprint's present License (e.g. different Duct or size increase causing a need to re-calculate storm loadings, guying, or Pole class).

### **13. REARRANGEMENT OF FACILITIES AT THE REQUEST OF ANOTHER**

13.1 Make-Ready Work at the Request of Sprint. If, prior to the issuance of a License, Sprint determines that any Pole, Anchor, Anchor/Guy Strand, Conduit or Duct is inadequate to accommodate Sprint's proposed Pole attachment or Conduit Occupancy or that it will be necessary or desirable for BellSouth or any other person or entity to rearrange existing Facilities or structures to accommodate Sprint, Sprint shall promptly advise BellSouth of the Make-Ready Work it believes necessary to enable the accommodation of Sprint's Facilities.

13.1.1 BellSouth shall determine, in the exercise of sound engineering judgment, whether or what Make-Ready Work is necessary or possible. In determining whether Make-Ready Work is necessary or what Make-Ready Work is necessary, BellSouth shall endeavor to minimize its Costs to Sprint. If it is determined that such Make-Ready Work is required, BellSouth shall provide Sprint with the estimated Cost for Make-Ready Work within 30 calendar days of such determination.

13.1.2 Sprint shall be solely responsible for negotiating with persons or entities other than BellSouth for the rearrangement of such persons' or entities' Facilities or structures and, except where such rearrangement is for the benefit of BellSouth and/or other Licensees as well as Sprint, shall be solely responsible for paying all charges attributable to the rearrangement of such Facilities; provided, however, that if Facilities rearrangements require new Licenses from BellSouth, BellSouth shall issue such Licenses in conjunction with the issuance of the applied-for License to Sprint. In the event Sprint encounters problems with Licensees failing to rearrange said Facilities in a timely manner BellSouth will request that Licensee rearrange its Facilities at Sprint's expense.

- 13.2 Rearrangement of Sprint's Facilities at BellSouth's Request. Sprint acknowledges that, from time to time, it may be necessary or desirable for BellSouth to change out Poles, relocate, reconstruct, or modify portions of its Conduit System or rearrange Facilities contained therein or connected thereto and that such changes may be necessitated by BellSouth's business needs or authorized Application of another entity seeking access to BellSouth's Poles or Conduit Systems. Sprint agrees that Sprint will, upon BellSouth's request, and at BellSouth's expense, but at no Cost to Sprint, participate with BellSouth (and other Licensees) in the relocation, reconstruction, or modification of BellSouth's Conduit System or Facilities rearrangement. Sprint acknowledges that, from time to time, it may be necessary or desirable for BellSouth to change out Poles, relocate, reconstruct, or modify portions of its Conduit System or rearrange Facilities contained therein or connected thereto as a result of an order by a municipality or other governmental authority. Sprint shall, upon BellSouth's request, participate with BellSouth (and other Licensees) in the relocation, reconstruction, or modification of BellSouth's Conduit System or Facilities rearrangement and pay its proportionate share of any Costs of such relocation, reconstruction, or modification that are not reimbursed by such municipality or governmental authority.
- 13.2.1 Sprint shall make all rearrangements of its Facilities within such period of time as is jointly deemed reasonable by the parties based on the amount of rearrangements necessary and a desire to minimize chances for service interruption or facility-based service denial to a Sprint customer.
- 13.2.2 If Sprint fails to make the required rearrangements within the time prescribed or within such extended periods of time as may be granted by BellSouth in writing, BellSouth may perform such rearrangements with written notice to Sprint, and Sprint shall reimburse BellSouth for actual Costs and expenses incurred by BellSouth in connection with the rearrangement of Sprint's Facilities; provided, however, that nothing contained in this Section or any License issued hereunder shall be construed as requiring Sprint to bear any expenses which, under the Telecommunications Act of 1996 or other applicable federal or state laws or regulations, are to be allocated to persons or entities other than Sprint; and provided further, however, that Sprint shall have no responsibility for rearrangement costs and expenses relating to rearrangements performed for the purpose of meeting BellSouth's business needs.
- 14. EMERGENCY REPAIRS AND POLE REPLACEMENTS**
- 14.1 Sprint Responsible for Emergency Repairs to its Own Facilities. In general, Sprint shall be responsible for making emergency repairs to its own Facilities and for formulating appropriate plans and practices which will enable it to make such emergency repairs. BellSouth shall be under no obligation to perform any repair or service restoration work of any kind with respect to Sprint's Facilities.

## **15. INSPECTION BY BELL SOUTH OF SPRINT'S FACILITIES**

- 15.1 BellSouth's Right to Make Periodic or Spot Inspections. BellSouth shall have the right to make periodic or spot inspections at any time of any part of Sprint's Facilities attached to BellSouth's Poles, Anchors or Anchor/Guy Strands or occupying any BellSouth Conduit or Duct for the limited purpose of determining whether Sprint's Facilities are in compliance with the terms of this Section and Licenses hereunder; provided that such inspections must be non-invasive (e.g., no splice cases may be opened).
- 15.1.1 BellSouth will give Sprint advance written notice of such inspections, and Sprint shall have the right to have a representative attend such inspections, except in those instances where safety considerations justify the need for such inspection without the delay of waiting until written notice has been forwarded to Sprint.
- 15.1.2 Such inspections shall be conducted at BellSouth's expense; provided, however, that Sprint shall bear the Cost of inspections as delineated in 3.12.
- 15.2 No Duty to Sprint. Neither the act of inspection by BellSouth of Sprint's Facilities nor any failure to inspect such Facilities shall operate to impose on BellSouth any liability of any kind whatsoever or to relieve Sprint of any responsibility, obligations or liability under this Section or otherwise existing.

## **16. NOTICE OF NONCOMPLIANCE**

- 16.1 Notice of Noncompliance. If, at any time, BellSouth determines that Sprint's Facilities or any part thereof have not been placed or maintained or are not being used in accordance with the requirements of this Agreement, BellSouth may send written notice to Sprint specifying the alleged noncompliance. Sprint agrees to acknowledge receipt of the notice as soon as practicable. If Sprint does not dispute BellSouth's assertion that such Facilities are not in compliance, Sprint agrees to provide BellSouth with a schedule for bringing such Facilities into compliance, to bring the Facilities into compliance within a reasonable time, and to notify BellSouth in writing when the Facilities have been brought into compliance.
- 16.2 Disputes over Alleged Noncompliance. If Sprint disputes BellSouth's assertion that Sprint's Facilities are not in compliance, Sprint shall notify BellSouth in writing of the basis for Sprint's assertion that its Facilities are in compliance.

- 16.3 Failure to Bring Facilities into Compliance. If Sprint has not brought the Facilities into compliance within a reasonable time or provided BellSouth with proof sufficient to persuade BellSouth that BellSouth erred in asserting that the Facilities were not in compliance, and if BellSouth determines in good faith that the alleged noncompliance causes or is likely to cause material damage to BellSouth's Facilities or those of other users, BellSouth may, at its option and Sprint's expense, take such non-service affecting steps as may be required to bring Sprint's Facilities into compliance, including but not limited to correcting any conditions which do not meet the specifications of this Agreement.
- 16.4 Correction of Conditions by BellSouth. If BellSouth elects to bring Sprint's Facilities into compliance, the provisions of this Section shall apply.
- 16.4.1 BellSouth will, whenever practicable, notify Sprint in writing before performing such work. The written notice shall describe the nature of the work to be performed and BellSouth's schedule for performing the work.
- 16.4.2 If Sprint's Facilities have become detached or partially detached from supporting racks or wall supports located within a BellSouth Manhole, BellSouth may, at Sprint's expense, reattach them but shall not be obligated to do so. If BellSouth does not reattach Sprint's Facilities, BellSouth shall endeavor to arrange with Sprint for the reattachment of any Facilities affected.
- 16.4.3 BellSouth shall, as soon as practicable after performing the work, advise Sprint in writing of the work performed or action taken. Upon receiving such notice, Sprint shall inspect the Facilities and take such steps as Sprint may deem necessary to insure that the Facilities meet Sprint's performance requirements.
- 16.5 Sprint to Bear Expenses. Sprint shall bear all expenses arising out of or in connection with any work performed to bring Sprint's Facilities into compliance with this Section; provided, however that nothing contained in this Section or any License issued hereunder shall be construed as requiring Sprint to bear any expenses which, under applicable federal or state laws or regulations, must be borne by persons or entities other than Sprint. Disputes between the parties concerning charges by BellSouth to Sprint pursuant to Section 16.3 of this Attachment shall be resolved in accordance with the procedures set forth for Dispute Resolution in the General Terms and Conditions of this Agreement.

## 17. **UNAUTHORIZED OCCUPANCY OR UTILIZATION OF BELL SOUTH'S FACILITIES**

- 17.1 Licensing or Removal of Unauthorized Attachments. If any of Sprint's attachments shall be found attached to Pole(s) or occupying Conduit Systems for which no License is outstanding, BellSouth, without prejudice to its other rights or remedies under this Agreement, including termination of Licenses, may impose a charge and require Sprint to submit in writing, within thirty (30) calendar days after receipt of written notification from BellSouth of the unauthorized attachment or Conduit Occupancy, a Pole attachment or Conduit Occupancy License Application. If such Application is not received by BellSouth within the specified time period, Sprint may be required at BellSouth's option to remove its unauthorized attachment or Occupancy within sixty (60) calendar days of the final date for submitting the required Application, or BellSouth may at BellSouth's option remove Sprint's Facilities without liability, and the expense of such removal shall be borne by Sprint. Charges for any such unauthorized Occupancy shall be equal to the applicable License fees and charges which would have been payable from and after the date such Facilities were first placed on BellSouth's Poles or in BellSouth's Conduit System if Sprint provides reasonable documentation of such placement. If Sprint is unable to provide such reasonable documentation the matter may be submitted to the Dispute Resolution Procedures set forth in General Terms and Conditions of this Agreement.
- 17.1.1 Nothing contained in the Agreement or any License issued hereunder shall be construed as requiring Sprint to bear any expenses which, under applicable federal or state laws or regulations, must be borne by persons or entities other than Sprint.
- 17.2 Prompt Payment of Applicable Fees and Charges. Fees and charges for Pole attachments and Conduit System occupancies, as specified herein and as modified from time to time, shall be due and payable immediately for unauthorized Pole attachments or Conduit Occupancy, whether or not Sprint is permitted to continue such unauthorized Pole attachment or Conduit System Occupancy. See Appendix I for applicable annual rental fees.
- 17.3 No Implied Waiver or Ratification of Unauthorized Use. No act or failure to act by BellSouth with regard to said unlicensed use shall be deemed as a ratification of the unlicensed use; and if any License should be subsequently issued, said License shall not operate retroactively or constitute a waiver by BellSouth of any of its rights or privileges under this Agreement or otherwise; provided, however, that Sprint shall be subject to all liabilities, obligations and responsibilities of this attachment in regard to said unauthorized use from its inception.

## **18. REMOVAL OF SPRINT'S FACILITIES**

- 18.1 Pole Attachments. Sprint, at its expense, will remove its attachments from any of BellSouth's Poles within thirty (30) calendar days after termination of the License covering such attachments or as mutually agreed to between BellSouth and Sprint. If Sprint fails to remove its attachments within such thirty (30) calendar day period or as mutually agreed to between BellSouth and Sprint, BellSouth shall have the right to remove such attachments at Sprint's expense and without any liability on the part of BellSouth for damage or injury to Sprint's attachments unless caused by the negligence or intentional misconduct of BellSouth.
- 18.2 Conduit Occupancy. Sprint, at its expense, will remove its communications Facilities from a Conduit System within sixty (60) calendar days after:
- 18.2.1 Termination of the License covering such Conduit Occupancy; or
- 18.2.2 The date Sprint replaces its existing Facilities in one Duct with substitute Facilities in another Duct.
- 18.2.3 In the event that Sprint elected to have unused or abandoned Facilities removed pursuant to section 2.8.4 of this Attachment, Sprint shall not be required to remove its Facilities from such Conduit System as required by section 18.1 to the extent such Sprint Facilities are of a similar quantity and nature to the Facilities removed. In such event, Sprint will be required to tag or otherwise physically identify the Facilities as abandoned or having been removed from service by Sprint.
- 18.2.3 If Sprint fails to remove its Facilities within the specified period, BellSouth shall have the right to remove such Facilities at Sprint's expense and without any liability on the part of BellSouth for damage or injury to such Facilities unless caused by the negligence or intentional misconduct of BellSouth.
- 18.3 Continuing Responsibility for Fees and Charges. Sprint shall remain liable for and pay to BellSouth all fees and charges pursuant to provisions of this attachment until all of Sprint's Facilities are physically removed from BellSouth's Poles or Conduit System.

## **19. FEES, CHARGES, AND BILLING**

- 19.1 License Charges. Sprint agrees to pay charges in Appendix 1 of this Attachment. These rates will be recalculated during the term of this Agreement in accordance with the Telecommunications Act of 1996 and applicable FCC or state Commission rules and regulations. License charges commence on the first day of the calendar month following the date a License is issued. Such charges cease as of the final day of the calendar month preceding the month in which the attachment or Occupancy is physically removed or the utilization is discontinued. A one-month minimum charge is applicable to all Licenses. Such current-year charges are normally billed on or near July 1 of each year; annual billing is for the period January 1 through December 31 (six (6) months in arrears and six (6) months in advance) and to include true-up for actual billing for previous year's advance billing for period July 1 through December 31.
- 19.2 Notice of Rate and Computation of Charges. On or about November 1 of each year, BellSouth will notify Sprint by certified mail, return receipt requested, of the rental rate and Pole transfer rate to be applied in the subsequent calendar year. The letter of notification shall be incorporated in, and governed by, the terms and conditions of this Agreement. Attachment and Occupancy rates shall be applied to the number of Pole(s) and Duct feet of Conduit for which Licenses have been issued before December 1 of each calendar year. Charges for attachment(s) and Occupancy which commenced during the preceding twelve (12) month period will be prorated accordingly.

## **20. ADVANCE PAYMENT AND IMPUTATION**

- 20.1 Attachment and Occupancy Fees. Fees for Pole attachment and Conduit Occupancy shall be based on the Facilities for which Licenses have been issued as of the date of billing by BellSouth, shall be computed as set forth herein.
- 20.1.1 Charges associated with newly licensed attachments or occupancies and other attachments or occupancies of less than the entire annual billing period shall be prorated.
- 20.1.2 Charges shall be prorated retroactively in the event of the removal of Sprint's Facilities.
- 20.1.3 The amount of any advance payment required shall be due within sixty (60) calendar days after receipt of an invoice from BellSouth.
- 20.2 Imputation. BellSouth shall impute to its costs of providing telecommunications services (and charge any affiliate, subsidiary, or associate company engaged in the provision of such services) an equal amount to the charges set forth in this Section for all of the Conduits, Ducts, and Poles it occupies and uses.

## **21. ASSURANCE OF PAYMENT**

- 21.1 Necessity and Level of Security. In the event Sprint fails to timely satisfy its financial obligations under this Attachment, Sprint may be required to furnish a bond, letter of credit or other evidence of financial security having a minimum face amount of \$10,000.00 per state or \$50,000.00 per region. Such bond, letter of credit or other security shall be in a form satisfactory to BellSouth and may be increased from time to time as reasonably required by BellSouth to guarantee the performance of all obligations of Sprint hereunder. The amount of the bond, letter of credit or other security shall not operate as a limitation upon the obligations of Sprint hereunder.

## **22. INSURANCE**

- 22.1 Sprint shall obtain and maintain insurance, insuring the contractual liability and indemnification provisions of this Attachment, issued by an insurance carrier reasonably satisfactory to Licensor to protect the Licensor, other authorized Licensees, and Joint User(s) from and against claims, demands, causes of action, judgments, costs, including reasonable attorneys' fees, expenses and liabilities of which may arise or result, directly or indirectly from or by reason of such loss, injury or damage as covered in this Attachment.
- 22.2 Sprint shall maintain the following amounts of insurance:
- 22.2.1 Commercial General Liability Insurance with limits of not less than \$1,000,000 per occurrence and \$1,000,000 annual aggregate.
- 22.2.2 Umbrella or Excess Liability Insurance with limits of not less than \$10,000,000 per occurrence and in the aggregate.
- 22.2.3 Business auto coverage for all owned, non-owned, hired and leased vehicles with limits of not less than \$1,000,000 per occurrence and in the aggregate.
- 22.2.4 Sprint shall name BellSouth as an additional insured on the general liability policy with respect to the terms and conditions of this attachment.
- 22.3 Sprint shall submit to BellSouth certificates by each company insuring Sprint with respect to any insurance required hereunder, such certificate(s) to specify the coverage provided and that such company will not cancel or materially change any such policy of insurance issued to Sprint except after thirty (30) calendar days written notice to BellSouth.
- 22.4 Sprint shall also carry such insurance as will protect it from claims under any Worker's Compensation Law in effect that may be applicable to it as a result of work performed pursuant to this Attachment.

22.5 All insurance required in accordance with 22.2) and 22.3) preceding must be effective before BellSouth will authorize attachment to a Pole and/or Anchor, or Occupancy of a Conduit System and shall remain in force until such Sprint's Facilities have been removed from all such Pole(s), Anchor(s), Conduit System, or Right of Way. In the event that Sprint shall fail to maintain the required insurance coverage, BellSouth may pay any premium thereon falling due, and Sprint shall forthwith reimburse BellSouth for any such premium paid, but only for the pro-rata period of noncompliance.

22.6 Intentionally left blank

22.7 Intentionally left blank

### **23. DAMAGE TO FACILITIES**

23.1 Licensors shall exercise precaution to avoid damaging the communications Facilities of the Licensee and shall make an immediate report to the Licensee of the occurrence of any such damage caused by its employees, agents or contractors.

23.2 Licensee shall exercise precaution to avoid damaging the Facilities of Licensors and of others attached to Pole(s), Anchor(s), or occupying a Conduit System and shall make an immediate report to the Owner of the occurrence of any such damage caused by Licensee's employees, agents or contractors.

23.3 Intentionally left blank

23.4 Intentionally left blank

23.5 Intentionally left blank

23.6 Intentionally left blank

**24. AUTHORIZATION NOT EXCLUSIVE**

24.1 Nothing herein contained shall be construed as a grant of any exclusive authorization, right or privilege to Sprint. BellSouth shall have the right to grant, renew and extend rights and privileges to others not parties to this Agreement, by contract or otherwise, to use any Pole, Anchor, or Conduit System covered by this Attachment and Sprint's rights hereunder.

**25. ASSIGNMENT OF RIGHTS**

25.1 Intentionally left blank

25.2 Intentionally left blank

**26. FAILURE TO ENFORCE**

26.1 Intentionally left blank

**27. TERM OF AGREEMENT**

27.1 Intentionally left blank

27.2 Intentionally left blank

**28. SUPERSEDURE OF PREVIOUS AGREEMENT(S)**

28.1 All currently effective Licenses heretofore granted pursuant to such previous agreements shall be subject to the terms and conditions of this Agreement.

**APPENDIX I**

**2001 FCC Formula Supported Fees**  
**for attachments and/or occupancy effective 1/1/2001**  
**(Re-calculated annually)**

*Except as noted, these rates are interim rates and shall be “trued-up” (up or down) based on final rates if further determined by an effective order.*

*Licensee shall pay to Licensor the following fees:*

| State          | Poles<br>(ea. / yr.) | Anchors<br>(ea. / yr.) | Conduit |                  |
|----------------|----------------------|------------------------|---------|------------------|
|                |                      |                        |         | (\$ / ft. / yr.) |
| Alabama        | \$ 4.02              | \$ 4.89                |         | \$ 0.30          |
| Kentucky ①     |                      |                        |         | 0.70             |
| 2-user         | 9.45                 | \$ 12.90               |         |                  |
| 3-user         | 5.35                 | 8.60                   |         |                  |
| Louisiana      | 7.45                 |                        |         | 0.61             |
| Mississippi    | 5.14                 |                        |         | 2.50 ②           |
| Tennessee      | 6.19                 |                        |         | 0.36             |
| Florida        | 4.87                 |                        |         | 0.56             |
|                |                      | Miami River crossing   |         | 17.13            |
| Georgia ③      | 5.50                 |                        |         | 0.49             |
| North Carolina | 4.09                 |                        |         | 0.46             |
| South Carolina | 3.43                 |                        |         | 0.40             |

- ① All rates in Kentucky are by tariff; not interim.
- ② Tariff rate in Mississippi; not interim.
- ③ FCC formula calculated rates; differs from Docket 7061-U.

Conduit rates have been developed using the one-half (1/2) duct convention beginning in year 2000. This rate will apply to each passageway (innerduct).

- i) For the purpose of determining the Duct feet chargeable, the Duct considered occupied shall be measured from the center to center of adjacent Manhole(s), or from the center of a Manhole to the end of a Duct not terminated in a Manhole.
- ii) The above rates are not applicable for crossings of any navigable waterway. Rates for navigable waterway crossings will be calculated on an individual case basis.

**Pole Attachment Transfer Rate**

Per Pole (throughout BellSouth region)

**\$41.00**

## **Appendix II**

### **Records Maintenance Centers**

For **Alabama** plant and Right-of-Way records:

Records Maintenance Center  
S04  
1876 Data Drive  
Birmingham, AL 35244

For **Kentucky** plant and Right-of-Way records:

Records Maintenance Center  
Room 2-SW  
601 W. Chestnut Street  
Louisville, KY 40203

For **Louisiana** plant and Right-of-Way records:

Records Maintenance Center  
2nd Floor North  
6767 Bundy Road  
New Orleans, LA 70140

For **Mississippi** plant and Right-of-Way records:

Records Maintenance Center  
5723 Hwy. 18 S  
Jackson, MS 39209

For **Tennessee** plant and Right-of-Way records:

Records Maintenance Center  
Room 9 B 15  
333 Commerce Street  
Nashville, TN 37201

For **Georgia, Florida, North Carolina, and South Carolina:**

Plant Records

Records Maintenance Center  
5228 Central Avenue  
Charlotte, NC 28212

Right of Way Records

Regional Landbase Admin. Center  
Attn.: Right of Way Records  
16 GG 1 BST  
301 W. Bay Street  
Jacksonville, FL 32201

### **ADMINISTRATIVE FORMS AND NOTICES**

Administrative forms and notices can be obtained at BellSouth's web site located at <http://www.interconnection.bellsouth.com/>.

At the menu screen, select the following:

- 1) Guides
- 2) Poles, Ducts, Conduits & Rights of Way

## **Attachment 9**

### **Performance Measurements**

BellSouth will follow the rulings of the state regulatory commissions pertaining to performance measurements and enforcement mechanisms that are now in effect or that become effective after execution of this Agreement. In the interim, the regional BellSouth Service Quality Measurements (SQM) document as posted on the BellSouth website will be followed in all states except Tennessee. In Tennessee, the attached SQM will be followed until superceded by a Tennessee Regulatory Authority ordered Tennessee specific SQM that shall be implemented without amendment to this Agreement.

## 1.0 PURPOSE

In the unlikely event of a disaster occurring that affects BellSouth's long-term ability to deliver traffic to a Competitive Local Exchange Carrier (CLEC), general procedures have been developed to hasten the recovery process. Since each location is different and could be affected by an assortment of potential problems, a detailed recovery plan is impractical. However, in the process of reviewing recovery activities for specific locations, some basic procedures emerge that appear to be common in most cases.

These general procedures should apply to any disaster that affects the delivery of traffic for an extended time period. Each CLEC will be given the same consideration during an outage and service will be restored as quickly as possible.

This document will cover the basic recovery procedures that would apply to every CLEC.

## 2.0 SINGLE POINT OF CONTACT

When a problem is experienced, regardless of the severity, the BellSouth Network Management Center (NMC) will observe traffic anomalies and begin monitoring the situation. Controls will be appropriately applied to insure the sanity of BellSouth's network; and, in the event that a switch or facility node is lost, the NMC will attempt to circumvent the failure using available reroutes.

BellSouth's NMC will remain in control of the restoration efforts until the problem has been identified as being a long-term outage. At that time, the NMC will contact BellSouth's Emergency Control Center (ECC) and relinquish control of the recovery efforts. Even though the ECC may take charge of the situation, the NMC will continue to monitor the circumstances and restore traffic as soon as damaged network elements are revitalized.

**The telephone number for the BellSouth Network Management Center in Atlanta, as published in Telcordia's National Network Management Directory, is 404-321-2516.**

## 3.0 IDENTIFYING THE PROBLEM

During the early stages of problem detection, the NMC will be able to tell which CLECs are affected by the catastrophe. Further analysis and/or first hand observation will determine if the disaster has affected CLEC equipment only; BellSouth equipment only or a combination. The initial restoration activity will be largely determined by the equipment that is affected.

Once the nature of the disaster is determined and after verifying the cause of the problem, the NMC will initiate reroutes and/or transfers that are jointly agreed upon by the affected CLECs' Network Management Center and the BellSouth NMC. The type and percentage of controls used will depend upon available network capacity. Controls necessary to stabilize the situation will be invoked and the NMC will attempt to re-establish as much traffic as possible.

For long term outages, recovery efforts will be coordinated by the Emergency Control Center (ECC). Traffic controls will continue to be applied by the NMC until facilities are re-established. As equipment is made available for service, the ECC will instruct the NMC to begin removing the controls and allow traffic to resume.

### 3.1 SITE CONTROL

In the total loss of building use scenario, what likely exists will be a smoking pile of rubble. This rubble will contain many components that could be dangerous. It could also contain any personnel on the premises at the time of the disaster. For these reasons, the local fire marshal with the assistance of the police will control the site until the building is no longer a threat to surrounding properties and the companies have secured the site from the general public.

During this time, the majority owner of the building should be arranging for a demolition contractor to mobilize to the site with the primary objective of reaching the cable entrance facility for a damage assessment. The results of this assessment would then dictate immediate plans for restoration, both short term and permanent.

In a less catastrophic event, i.e., the building is still standing and the cable entrance facility is usable, the situation is more complex. The site will initially be controlled by local authorities until the threat to adjacent property has diminished. Once the site is returned to the control of the companies, the following events should occur.

An initial assessment of the main building infrastructure systems (mechanical, electrical, fire & life safety, elevators, and others) will establish building needs. Once these needs are determined, the majority owner should lead the building restoration efforts. There may be situations where the site will not be totally restored within the confines of the building. The companies must individually determine their needs and jointly assess the cost of permanent restoration to determine the overall plan of action.

Multiple restoration trailers from each company will result in the need for designated space and installation order. This layout and control is required to maximize the amount of restoration equipment that can be placed at the site, and the priority of placements.

Care must be taken in this planning to insure other restoration efforts have logistical access to the building. Major components of telephone and building equipment will need to be removed and replaced. A priority for this equipment must also be jointly established to facilitate overall site restoration. (Example: If the AC switchgear has sustained damage, this would be of the highest priority in order to regain power, lighting, and HVAC throughout the building.)

If the site will not accommodate the required restoration equipment, the companies would then need to quickly arrange with local authorities for street closures, rights of way or other possible options available.

### **3.2 ENVIRONMENTAL CONCERNS**

In the worse case scenario, many environmental concerns must be addressed. Along with the police and fire marshal, the state environmental protection department will be on site to monitor the situation.

Items to be concerned with in a large central office building could include:

1. Emergency engine fuel supply. Damage to the standby equipment and the fuel handling equipment could have created "spill" conditions that have to be handled within state and federal regulations.
2. Asbestos containing materials that may be spread throughout the wreckage. Asbestos could be in many components of building, electrical, mechanical, outside plant distribution, and telephone systems.
3. Lead and acid. These materials could be present in potentially large quantities depending upon the extent of damage to the power room.
4. Mercury and other regulated compounds resident in telephone equipment.
5. Other compounds produced by the fire or heat.

Once a total loss event occurs at a large site, local authorities will control immediate clean up (water placed on the wreckage by the fire department) and site access.

At some point, the companies will become involved with local authorities in the overall planning associated with site clean up and restoration. Depending on the clean up approach taken, delays in the restoration of several hours to several days may occur.

In a less severe disaster, items listed above are more defined and can be addressed individually depending on the damage.

In each case, the majority owner should coordinate building and environmental restoration as well as maintain proper planning and site control.

### **4.0 THE EMERGENCY CONTROL CENTER (ECC)**

The ECC is located in the Colonnade Building in Birmingham, Alabama. During an emergency, the ECC staff will convene a group of pre-selected experts to inventory the damage and initiate corrective actions. These experts have regional access to BellSouth's personnel and equipment and will assume control of the restoration activity anywhere in the nine-state area.

In the past, the ECC has been involve with restoration activities resulting from hurricanes, ice storms and floods. They have demonstrated their capabilities during these calamities as well as

during outages caused by human error or equipment failures. This group has an excellent record of restoring service as quickly as possible.

During a major disaster, the ECC may move emergency equipment to the affected location, direct recovery efforts of local personnel and coordinate service restoration activities with the CLECs. The ECC will attempt to restore service as quickly as possible using whatever means is available; leaving permanent solutions, such as the replacement of damaged buildings or equipment, for local personnel to administer.

Part of the ECC's responsibility, after temporary equipment is in place, is to support the NMC efforts to return service to the CLECs. Once service has been restored, the ECC will return control of the network to normal operational organizations. Any long-term changes required after service is restored will be made in an orderly fashion and will be conducted as normal activity.

## **5.0 RECOVERY PROCEDURES**

The nature and severity of any disaster will influence the recovery procedures. One crucial factor in determining how BellSouth will proceed with restoration is whether or not BellSouth's equipment is incapacitated. Regardless of who's equipment is out of service, BellSouth will move as quickly as possible to aid with service recovery; however, the approach that will be taken may differ depending upon the location of the problem.

### **5.1 CLEC OUTAGE**

For a problem limited to one CLEC (or a building with multiple CLECs), BellSouth has several options available for restoring service quickly. For those CLECs that have agreements with other CLECs, BellSouth can immediately start directing traffic to a provisional CLEC for completion. This alternative is dependent upon BellSouth having concurrence from the affected CLECs.

Whether or not the affected CLECs have requested a traffic transfer to another CLEC will not impact BellSouth's resolve to re-establish traffic to the original destination as quickly as possible.

### **5.2 BELL SOUTH OUTAGE**

Because BellSouth's equipment has varying degrees of impact on the service provided to the CLECs, restoring service from damaged BellSouth equipment is different. The outage will probably impact a number of Carriers simultaneously. However, the ECC will be able to initiate immediate actions to correct the problem.

A disaster involving any of BellSouth's equipment locations could impact the CLECs, some more than others. A disaster at a Central Office (CO) would only impact the delivery of traffic to and from that one location, but the incident could affect many Carriers. If the Central Office is a Serving Wire Center (SWC), then traffic from the entire area to those Carriers served from that switch would also be impacted. If the switch functions as an Access Tandem, or there is a tandem in the building, traffic from every CO to every CLEC could be interrupted. A disaster that destroys a facility hub could disrupt various traffic flows, even though the switching equipment may be unaffected.

The NMC would be the first group to observe a problem involving BellSouth's equipment. Shortly after a disaster, the NMC will begin applying controls and finding re-routes for the

completion of as much traffic as possible. These reroutes may involve delivering traffic to alternate Carriers upon receiving approval from the CLECs involved. In some cases, changes in translations will be required. If the outage is caused by the destruction of equipment, then the ECC will assume control of the restoration.

### **5.2.1 Loss of a Central Office**

When BellSouth loses a Central Office, the ECC will

- a) Place specialists and emergency equipment on notice;
- b) Inventory the damage to determine what equipment and/or functions are lost;
- c) Move containerized emergency equipment and facility equipment to the stricken area, if necessary;
- d) Begin reconnecting service for Hospitals, Police and other emergency agencies; and
- e) Begin restoring service to CLECs and other customers.

### **5.2.2 Loss of a Central Office with Serving Wire Center Functions**

The loss of a Central Office that also serves as a Serving Wire Center (SWC) will be restored as described in section 5.2.1.

### **5.2.3 Loss of a Central Office with Tandem Functions**

When BellSouth loses a Central Office building that serves as an Access Tandem and as a SWC, the ECC will

- a) Place specialists and emergency equipment on notice;
- b) Inventory the damage to determine what equipment and/or functions are lost;
- c) Move containerized emergency equipment and facility equipment to the stricken area, if necessary;
- d) Begin reconnecting service for Hospitals, Police and other emergency agencies;
- e) Re-direct as much traffic as possible to the alternate access tandem (if available) for delivery to those CLECs utilizing a different location as a SWC;
- f) Begin aggregating traffic to a location near the damaged building. From this location, begin re-establishing trunk groups to the CLECs for the delivery of traffic normally found on the direct trunk groups. (This aggregation point may be the alternate access tandem location or another CO on a primary facility route.)
- g) Begin restoring service to CLECs and other customers.

### **5.2.4 Loss of a Facility Hub**

In the event that BellSouth loses a facility hub, the recovery process is much the same as above. Once the NMC has observed the problem and administered the appropriate controls, the ECC will assume authority for the repairs. The recovery effort will include

- a) Placing specialists and emergency equipment on notice;
- b) Inventorying the damage to determine what equipment and/or functions are lost;
- c) Moving containerized emergency equipment to the stricken area, if necessary;
- d) Reconnecting service for Hospitals, Police and other emergency agencies; and
- e) Restoring service to CLECs and other customers. If necessary, BellSouth will aggregate the traffic at another location and build temporary facilities. This alternative would be viable for a location that is destroyed and building repairs are required.

### **5.3 COMBINED OUTAGE (CLEC AND BELL SOUTH EQUIPMENT)**

In some instances, a disaster may impact BellSouth's equipment as well as the CLECs'. This situation will be handled in much the same way as described in section 5.2.3. Since BellSouth and the CLECs will be utilizing temporary equipment, close coordination will be required.

### **6.0 T1 IDENTIFICATION PROCEDURES**

During the restoration of service after a disaster, BellSouth may be forced to aggregate traffic for delivery to a CLEC. During this process, T1 traffic may be consolidated onto DS3s and may become unidentifiable to the Carrier. Because resources will be limited, BellSouth may be forced to "package" this traffic entirely differently than normally received by the CLECs. Therefore, a method for identifying the T1 traffic on the DS3s and providing the information to the Carriers is required.

## 7.0 ACRONYMS

|      |   |                                             |
|------|---|---------------------------------------------|
| CO   | - | Central Office (BellSouth)                  |
| DS3  | - | Facility that carries 28 T1s (672 circuits) |
| ECC  | - | Emergency Control Center (BellSouth)        |
| CLEC | - | Competitive Local Exchange Carrier          |
| NMC  | - | Network Management Center                   |
| SWC  | - | Serving Wire Center (BellSouth switch)      |
| T1   | - | Facility that carries 24 circuits           |

**Hurricane Information**

During a hurricane, BellSouth will make every effort to keep CLECs updated on the status of our network. Information centers will be set up throughout BellSouth Telecommunications. These centers are not intended to be used for escalations, but rather to keep the CLEC informed of network related issues, area damages and dispatch conditions, etc.

Hurricane-related information can also be found on line at [http://www.interconnection.bellsouth.com/network/disaster/dis\\_resp.htm](http://www.interconnection.bellsouth.com/network/disaster/dis_resp.htm). Information concerning Mechanized Disaster Reports can also be found at this website by clicking on CURRENT MDR REPORTS or by going directly to <http://www.interconnection.bellsouth.com/network/disaster/mdrs.htm>.

**BST Disaster Management Plan**

BellSouth maintenance centers have geographical and redundant communication capabilities. In the event of a disaster removing any maintenance center from service another geographical center would assume maintenance responsibilities. The contact numbers will not change and the transfer will be transparent to the CLEC.

**AMENDMENT  
TO THE  
INTERCONNECTION and RESALE AGREEMENT BETWEEN  
  
SPRINT COMMUNICATIONS COMPANY LIMITED PARTNERSHIP  
SPRINT COMMUNICATIONS COMPANY L.P.  
SPRINT SPECTRUM L.P.**

**And**

**BELLSOUTH TELECOMMUNICATIONS, INC.**

**DATED January 1, 2001**

Pursuant to this Amendment (the "Amendment") Sprint Communications Company Limited Partnership and Sprint Communications Company L.P., (collectively referred to as "Sprint CLEC"), a Delaware Limited Partnership, and Sprint Spectrum L.P., a Delaware limited partnership, as agent and General Partner for WirelessCo. L.P., a Delaware limited partnership, and SprintCom, Inc., a Kansas corporation, all foregoing entities jointly d/b/a Sprint PCS ("Sprint PCS"), and BellSouth Telecommunications, Inc. ("BellSouth"), a Georgia corporation, hereinafter referred to collectively as the "Parties" hereby agree to amend that certain Interconnection Agreement ("the Agreement") between BellSouth and Sprint CLEC and Sprint PCS, (collectively referred to as "Sprint") dated January 1, 2001.

WHEREAS, BellSouth and Sprint entered into the Agreement on January 1, 2001, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties agree to insert a new Section 2.1.1 into Attachment 2 as follows:
  - 2.1.1 BellSouth will provide Sprint with new UNE loops without local usage restrictions provided that:
    - 2.1.1.1 One end of the UNE loop terminates in Sprint's collocation arrangement in the BellSouth wire center serving Sprint's end user;
    - 2.1.1.2 The transport services for the traffic utilizing said loop is provided by Sprint itself or by a third party provider; and
    - 2.1.1.3 The other end of said loop is not connected to or terminated into a wireless Mobile Switching Center ("MSC") or a cell site.
    - 2.1.1.4 This Section 2.1.1 was derived as a result of compromise between the Parties and not be precedent setting in any way with regard to the use of

UNEs for the provisioning of wireless services ("Wireless UNE"). Neither party waives any right it may have to seek appropriate relief on any existing claims or defenses associated with a Wireless UNE in any forum, under any theory, and at any time in any appropriate jurisdiction during the term of this Agreement or otherwise.

2. All of the other provisions of the Agreement, dated January 1, 2001, shall remain in full force and effect.
3. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

**Amendment to**  
**Interconnection Agreement**  
**between**  
**Sprint Communications Company Limited Partnership**  
**Sprint Communications Company L.P.**  
**Sprint Spectrum, L.P.**  
**and**  
**BellSouth Telecommunications, Inc.**  
**Dated January 1, 2001**

Pursuant to this Amendment (the "Amendment") Sprint Communications Company Limited Partnership and Sprint Communications Company L.P., (collectively referred to as "Sprint CLEC"), a Delaware Limited Partnership, and Sprint Spectrum L.P., a Delaware limited partnership, as agent and General Partner for WirelessCo. L.P., a Delaware limited partnership, and SprintCom, Inc., a Kansas corporation, all foregoing entities jointly d/b/a Sprint PCS (Sprint PCS), and BellSouth Telecommunications, Inc. (BellSouth), a Georgia corporation, hereinafter referred to collectively as the "Parties" hereby agree to amend that certain Interconnection Agreement (the Agreement) between BellSouth and Sprint CLEC and Sprint PCS, (collectively referred to as "Sprint") dated January 1, 2001.

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Sprint and BellSouth hereby covenant and agree as follows:

1. The Parties agree to delete Sections 2 and 3, General Terms and Conditions – Part A in their entirety and replace them with the following:

2. Term of the Agreement

2.1 The term of this Agreement shall be from the effective date as set forth above and shall expire as of June 30, 2004. Upon mutual agreement of the Parties, the term of this Agreement may be extended. If, as of the expiration of this Agreement, a Subsequent Agreement (as defined in Section 3.1 below) has not been executed by the Parties, this Agreement shall continue on a month-to-month basis.

3. Renewal

3.1 The Parties agree that by no later than one hundred and eighty (180) days prior to the expiration of this Agreement, they shall commence

negotiations for a new agreement to be effective beginning on the expiration date of this Agreement (Subsequent Agreement).

- 3.2 If, within one hundred and thirty-five (135) days of commencing the negotiation referred to in Section 3.1 above, the Parties are unable to negotiate new terms, conditions and prices for a Subsequent Agreement, either Party may petition the Commission to establish appropriate terms, conditions and prices for the Subsequent Agreement pursuant to 47 U.S.C. 252.
- 3.3 Notwithstanding the foregoing and except as set forth in Section 3.4 below, in the event that, as of the date of the expiration of this Agreement and conversion of this Agreement to a month-to-month term, the Parties have not entered into a Subsequent Agreement and no arbitration proceeding has been filed in accordance with Section 252 of the Act, or the Parties have not mutually agreed where permissible, to extend, then either Party may terminate this Agreement upon sixty (60) days notice to the other Party. In the event that BellSouth terminates this Agreement as provided above, BellSouth shall continue to offer services to Sprint pursuant to BellSouth's then current standard interconnection agreement or Sprint may exercise its rights under Section 252(i) of the Act. In the event that BellSouth's standard interconnection agreement becomes effective as between the Parties or Sprint adopts another agreement, the Parties may continue to negotiate a Subsequent Agreement, and the terms of such Subsequent Agreement shall be effective as of the effective date stated in the Subsequent Agreement.
- 3.4 If an arbitration proceeding has been filed in accordance with Section 252 of the Act and if the Commission does not issue its order prior to the expiration of this Agreement, this Agreement shall be deemed extended on a month-to-month basis until the Subsequent Agreement becomes effective. The terms of such Subsequent Agreement shall be effective as of the effective date stated in such Subsequent Agreement and shall not be applied retroactively to the expiration date of this Agreement unless the Parties agree otherwise. Neither Party shall refuse to provide services to the other Party during the negotiation of the Subsequent Agreement or the transition from this Agreement to the Subsequent Agreement.

2. The Parties agree to add Section 10.1.1, General Terms and Conditions – Part A as follows:

10.1.1 Dispute Resolution. Any claim arising under Section 10.1 shall be excluded from the dispute resolution procedures set forth in Section 14 and shall be brought in a court of competent jurisdiction.

3. The Parties agree to replace Sections 11.1 – 11.7, General Terms and Conditions – Part A with new Sections 11.1-11.7, as set forth in Exhibit 1 attached hereto and incorporated herein by this reference. The Parties also agree to replace Section 11.10 with the following:

11.10 Equitable Relief. Recipient acknowledges and agrees that any breach or threatened breach of this Section is likely to cause Discloser irreparable harm for which money damages may not be an appropriate or sufficient remedy. Recipient therefore agrees that Discloser or its Affiliates, as the case may be, are entitled to seek injunctive or other equitable relief to remedy or prevent any breach or threatened breach of this Agreement. Such remedy is not the exclusive remedy for any breach or threatened breach of this Agreement, but is in addition to all other rights and remedies pursuant to this Agreement.

4. The Parties further agree to delete Section 14, General Terms and Conditions – Part A and replace with the following:

#### **14. Resolution of Disputes**

14.1 Except as otherwise stated in this Agreement, if any dispute arises as to the interpretation of any provision of this Agreement or as to the proper implementation of this Agreement, then if the aggrieved Party elects to pursue such dispute, the aggrieved Party may petition the FCC or Commission for a resolution of the dispute. Until the dispute is finally resolved, each Party shall continue to perform its obligations under this Agreement and shall continue to provide all services and payments as prior to the dispute provided, however, that neither Party shall be required to act in any unlawful fashion. If the issue is as to how or whether to perform an obligation, the Parties shall continue to operate under the Agreement as they were at the time the dispute arose. This provision shall not preclude the Parties from seeking other legal remedies. Each Party reserves any rights it may have to seek judicial review of any ruling made by the Commission concerning this Agreement.

14.2 The foregoing Section 14.1 notwithstanding, except to the extent the Commission is authorized to grant temporary equitable relief with respect to a dispute arising as to the enforcement of terms and conditions of this Agreement, and/or as to the interpretation of any provision of this Agreement, this Section 14 shall not prevent either Party from seeking any temporary equitable relief, including a temporary restraining order, in a court of competent jurisdiction.

5. The Parties agree to delete Sections 18.4 and 18.5 in General Terms and Conditions – Part A and replace with the following:

- 18.4 In the event that any effective legislative, regulatory, judicial or other legal action materially affects any material terms of this Agreement, or the ability of Sprint or BellSouth to perform any material terms of this Agreement, Sprint or BellSouth may, on thirty (30) days' written notice, require that such terms be renegotiated, and the Parties shall renegotiate in good faith such mutually acceptable new terms as may be required. In the event that such new terms are not renegotiated within ninety (90) days after such notice, the Dispute shall be referred to the Dispute Resolution procedure set forth in this Agreement.
- 18.5 If any provision of this Agreement, or part thereof, shall be held invalid or unenforceable in any respect, the remainder of the Agreement or provision shall not be affected thereby, provided that the Parties shall negotiate in good faith to reformulate such invalid provision, or part thereof, or related provision, to as closely reflect the original intent of the Parties as possible, consistent with applicable law, and to effectuate such portions thereof as may be valid without defeating the intent of such provision. In the event the Parties are unable to mutually negotiate such replacement language, either Party may elect to pursue the dispute resolution process set forth in Section 14.

6. The Parties further agree to delete Section 29.3 in General Terms and Conditions – Part A and replace with the following:

- 29.3 Notwithstanding the foregoing, BellSouth may provide Sprint notice via Internet posting of price changes and changes to the terms and conditions of services available for resale. BellSouth shall provide notice of discontinuance of resold services and notice of rate increases on resold services ten (10) days prior to Sprint's obligation to provide advanced notice to its End Users pursuant to Commission order or Rule. BellSouth will post on its website changes to business processes and policies, notices of new service offerings, and changes to service offerings not requiring an amendment to this Agreement, notices required to be posted, and any other information of general applicability to CLECs.

The Parties also agree to delete "Telecommunications Service," from 29.4 and to replace 29.5 with the following:

- 29.5 Bellsouth shall provide notice of network changes and upgrades as required by Section 51.325 through 51.335 of Title 47 of the Code of Federal Regulations or other applicable FCC and/or Commission rules.

7. The Parties agree to add a new Section 37 to General Terms and Conditions – Part A as follows:

### 37. **Indivisibility**

The Parties acknowledge that they have assented to all of the covenants and promises in this Agreement as a single whole and that all of such covenants and promises, taken as a whole, constitute the essence of the contract. The Parties further acknowledge that this Agreement is intended to constitute a single transaction, that the obligations of the Parties under this Agreement are interdependent, and that payment obligations under this Agreement are intended to be recouped against other payment obligations under this Agreement.

8. The Parties further agree to add Section 4.4 to Attachment 1 – Resale as follows:

#### 4.4 Service Jointly Provisioned with an Independent Company or Competitive Local Exchange Company Areas

- 4.4.1 BellSouth will in some instances provision resold services in accordance with the GSST and PLST jointly with an Independent Company or other CLEC.
- 4.4.2 When Sprint assumes responsibility for such service, all terms and conditions defined in the Tariff will apply for services provided within the BellSouth service area only.
- 4.4.3 Service terminating in an Independent Company or other CLEC area will be provisioned and billed by the Independent Company or other CLEC directly to Sprint.
- 4.4.4 Sprint is responsible for establishing a billing arrangement with the Independent Company or other CLEC where such circumstances apply. In those instances where a billing arrangement with the Independent Company or other CLEC is not established, the End User may receive a bill from the Independent Company or other CLEC as applicable.
- 4.4.5 Specific guidelines regarding such services are available on BellSouth's website at [www.interconnection.bellsouth.com](http://www.interconnection.bellsouth.com).

9. The Parties agree to replace Exhibit C, Attachment 1 – Resale with a new Exhibit C, as set forth in Exhibit 2 attached hereto and incorporated herein by this reference.

10. The Parties agree to delete Sections 1.4.1 and 1.4.2 in Attachment 2.

11. The Parties agree to add Section 8.6 to Attachment 2 as shown in Exhibit 3 attached hereto and incorporated herein by this reference.

12. The Parties agree to delete Sections 13.2.1, 13.2.2, 13.2.4, and 13.2.5 Attachment 2 and replace with new sections as follows:

13.2.1 For purposes of this Section, references to “Currently Combined” network elements shall mean that the particular network elements requested by Sprint are in fact already combined by BellSouth in the BellSouth network. References to “Ordinarily Combined” network elements shall mean that the particular network elements requested by Sprint are not already combined by BellSouth in the location requested by Sprint but are elements that are typically combined in BellSouth’s network. References to “Not Typically Combined” network elements shall mean that the particular network elements requested by Sprint are not elements that BellSouth combines for its use in its network.

13.2.2 Left Blank Intentionally

13. The Parties further agree to delete Section 13.6, Attachment 2 and replace with a new section as follows:

13.6 Rates

13.6.1 Currently Combined EELs listed in Sections 13.3.1-13.3.14 shall be billed at the nonrecurring switch-as-is charge and recurring charges for that combination as set forth in Exhibit B of this Attachment. Currently Combined EELs not listed in Sections 13.3.1-13.3.14 shall be billed at the sum of the recurring charges for the individual network elements that comprise the combination as set forth in Exhibit B and a nonrecurring switch-as-is charge as set forth in Exhibit B.

13.6.2 Ordinarily Combined EELs listed in Sections 13.3.1-13.3.14 shall be billed the sum of the nonrecurring and recurring charges for that combination as set forth in Exhibit B of this Attachment. Ordinarily combined EELs not listed in Sections in Sections 13.3.1-13.3.14 shall be billed the sum of the nonrecurring charges and recurring charges for the individual network elements that comprise the combination as set forth in Exhibit B.

13.6.3 To the extent that Sprint requests an EEL combination Not Typically Combined in the BellSouth network, the rates, terms and conditions shall be determined pursuant to the BFR/NBR Process.

14. The Parties agree to add a new Section 13.7, Attachment 2 as follows:

13.7 Other UNE Combinations

13.7.1 BellSouth shall provide other Currently Combined and Ordinarily Combined and Not Typically Combined UNE Combinations to Sprint in

addition to those specifically referenced in this Section 13 above and in Section 14 below, where available. To the extent Sprint requests a combination for which BellSouth does not have methods and procedures in place to provide such combination, rates and/or methods and procedures for such combination will be developed pursuant to the BFR/NBR process.

- 13.7.2 The rates for Ordinarily Combined UNE Combinations provisioned pursuant to this Section 13.7 shall be the sum of the recurring rates and nonrecurring rates for the individual network elements as set forth in Exhibit B of this Attachment. The rates for Currently Combined UNE Combinations provisioned pursuant to this Section 13.7 shall be the sum of the recurring rates for the individual network elements as set forth in Exhibit B, in addition to a nonrecurring charge set forth in Exhibit B. To the extent Sprint requests a Not Typically Combined Combination pursuant to this Section 13.7, or to the extent Sprint requests any combination for which BellSouth has not developed methods and procedures to provide such combination, rates and/or methods and procedures for such combination shall be established pursuant to the BFR/NBR process.

15. The Parties further agree to delete Sections 14.1 and 14.2, Attachment 2 and replace with new Sections 14.1 and 14.2 as follows:

- 14.1 Combinations of port and Loop UNEs along with switching and transport UNEs provide local exchange service for the origination or termination of calls. Port/ Loop combinations support the same local calling and feature requirements as described in the Unbundled Local Switching or Port section of this Attachment 2 and the ability to presubscribe to a primary carrier for intraLATA toll service and/or to presubscribe to a primary carrier for interLATA toll service.
- 14.2 Except as set forth in Section 14.2.1 and 14.2.2 below, BellSouth shall provide UNE port/Loop combinations described in Section 14.3 below that are Currently Combined or Ordinarily Combined in BellSouth's network at the cost-based rates in Exhibit B. Except as set forth in Section 14.2.1 and 14.2.2 below, BellSouth shall provide UNE port/Loop combinations not described in Section 14.3 below or Not Typically Combined Combinations in accordance with the BFR/NBR process.
- 14.2.1 BellSouth is not required to provide combinations of port and Loop network elements on an unbundled basis in locations where, pursuant to FCC rules, BellSouth is not required to provide circuit switching as a UNE.
- 14.2.2 BellSouth shall not be required to provide local circuit switching as a UNE in density Zone 1, as defined in 47 CFR 69.123 as of January 1, 1999 of

the Atlanta, GA; Miami, FL; Orlando, FL; Ft. Lauderdale, FL; Charlotte-Gastonia-Rock Hill, NC; Greensboro-Winston Salem-High Point, NC; Nashville, TN; and New Orleans, LA, MSAs to Sprint if Sprint's customer has 4 or more DS0 equivalent lines.

14.2.3 Notwithstanding the foregoing, BellSouth shall provide combinations of port and Loop network elements on an unbundled basis where, pursuant to FCC rules, BellSouth is not required to provide local circuit switching as a UNE and shall do so at the market rates in Exhibit B. If a market rate is not set forth in Exhibit B for a UNE port/Loop combination, such rate shall be negotiated by the Parties.

14.2.4 BellSouth shall make 911 updates in the BellSouth 911 database for Sprint's UNE port/Loop combinations. BellSouth will not bill Sprint for 911 surcharges. Sprint is responsible for paying all 911 surcharges to the applicable governmental agency.

16. The Parties agree to replace Section 1.15, Attachment 7 with a new Section 1.15 as follows:

1.15 Deposit Policy. Sprint shall complete the BellSouth Credit Profile and provide information to BellSouth regarding credit worthiness. Based on the results of the credit analysis, BellSouth reserves the right to secure the accounts established under this Agreement with a suitable form of security deposit unless satisfactory credit has already been established. Such security deposit shall take the form of cash, an Irrevocable Letter of Credit (BellSouth form or another form substantially similar in its substantive provisions), Surety Bond (BellSouth form or another form substantially similar in its substantive provisions) or some other form of security as the Parties may mutually agree. Any such security deposit shall in no way release Sprint from its obligation to make complete and timely payments of its bill. Sprint shall pay any applicable deposits prior to the inauguration of service unless service has already been established pursuant to this Agreement. Interest on a security deposit, if provided in cash, shall accrue and be paid in accordance with the terms in the appropriate BellSouth tariff. Security deposits collected under this Section shall not exceed two months' estimated billing.

1.15.1 If, in the reasonable opinion of BellSouth, circumstances so warrant and/or gross monthly billing has increased beyond the level initially used to determine the level of security deposit, BellSouth reserves the right to request additional security. In determining whether an additional security deposit is required, BellSouth will review Sprint's Dun & Bradstreet rating and report details, Sprint's payment history with BellSouth and payment history with others as available; the number of years Sprint has been in business; Sprint's management history and managers' length of service with Sprint; liens, suits and judgments against Sprint; UCC-1 filings against Sprint's assets; and to the extent available, Sprint's

financial information. Upon the conclusion of this review, if BellSouth continues to insist on additional security, at Sprint's written request, BellSouth will provide an explanation in writing to Sprint justifying the decision for additional deposit.

1.15.2 Subject to Section 1.15.3 following, in the event Sprint fails to remit to BellSouth any deposit requested pursuant to this Section within thirty (30) days of Sprint's receipt of such request, service to Sprint may be terminated in accordance with the terms of Section 1.14 above, and any security deposits will be applied to Sprint's account.

1.15.3 The Parties will work together to determine the need for or amount of a reasonable initial or increase in deposit. If the Parties are unable to agree, then Sprint must file a petition for resolution of the dispute. Such petition shall be filed with the Commission in the state in which Sprint does the most business with BellSouth. The Parties agree that the decision ordered by such Commission will be binding for all states covered by this Agreement. In the event Sprint fails to file a petition with the Commission then BellSouth may terminate service to Sprint in accordance with the terms of Section 1.14 above, and any security deposits will be applied to Sprint's account.

17. All other provisions of the Agreement, dated January 1, 2001, shall remain in full force and effect.

18. Either or both of the Parties is authorized to submit this Amendment to the appropriate Commission for approval subject to section 252(e) of the Federal Telecommunications Act of 1996.

19. This Amendment shall be effective upon the date of the last signature of both Parties.

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year written below.

Term Amendment

## EXHIBIT 1

### 11. Proprietary and Confidential Information

- 11.1 Proprietary and Confidential Information. It may be necessary for BellSouth and Sprint, each as the “Discloser,” to provide to the other Party, as “Recipient,” certain proprietary and confidential information (including trade secret information) including but not limited to technical, financial, marketing, staffing and business plans and information, strategic information, proposals, request for proposals, specifications, drawings, maps, prices, costs, costing methodologies, procedures, processes, business systems, software programs, techniques, customer account data, call detail records and like information (collectively the “Information”). All such Information conveyed in writing or other tangible form shall be clearly marked with a confidential or proprietary legend. Information conveyed orally by the Discloser to Recipient shall be designated as proprietary and confidential at the time of such oral conveyance, shall be reduced to writing by the Discloser within forty-five (45) days thereafter, and shall be clearly marked with a confidential or proprietary legend.
- 11.2 Use and Protection of Information. Recipient agrees to protect such Information of the Discloser provided to Recipient from whatever source from distribution, disclosure or dissemination to anyone except employees of Recipient with a need to know such Information solely in conjunction with Recipient’s analysis of the Information and for no other purpose except as authorized herein or as otherwise authorized in writing by the Discloser. Recipient will not make any copies of the Information inspected by it.
- 11.3 Exceptions. Recipient will not have an obligation to protect any portion of the Information which:
- 11.3.1 (a) is made publicly available by the Discloser or lawfully by a nonparty to this Agreement; (b) is lawfully obtained by Recipient from any source other than Discloser; (c) is previously known to Recipient without an obligation to keep it confidential; or (d) is released from the terms of this Agreement by Discloser upon written notice to Recipient.
- 11.4 Recipient agrees to use the Information solely for the purposes of negotiations pursuant to 47 U.S.C. 251 or in performing its obligations under this Agreement and for no other entity or purpose, except as may be otherwise agreed to in writing by the Parties. Nothing herein shall prohibit Recipient from providing information requested by the FCC or a state regulatory agency with jurisdiction over this matter, or to support a request for arbitration or an allegation of failure to negotiate in good faith.

**EXHIBIT 1**

- 11.5 Recipient agrees not to publish or use the Information for any advertising, sales or marketing promotions, press releases, or publicity matters that refer either directly or indirectly to the Information or to the Discloser or any of its affiliated companies.
- 11.6 The disclosure of Information neither grants nor implies any license to the Recipient under any trademark, patent, copyright, application or other intellectual property right that is now or may hereafter be owned by the Discloser.
- 11.7 Survival of Confidentiality Obligations. The Parties' rights and obligations under this Section 11 shall survive and continue in effect until two (2) years after the expiration or termination date of this Agreement with regard to all Information exchanged during the term of this Agreement. Thereafter, the Parties' rights and obligations hereunder survive and continue in effect with respect to any Information that is a trade secret under applicable law.

**EXHIBIT 2**

**Attachment 1**  
**EXHIBIT C**

**LINE INFORMATION DATA BASE (LIDB)**  
**RESALE STORAGE AGREEMENT**

**I. Definitions (from Addendum)**

- A. Billing number - a number used by BellSouth for the purpose of identifying an account liable for charges. This number may be a line or a special billing number.
- B. Line number - a ten-digit number assigned by BellSouth that identifies a telephone line associated with a resold local exchange service.
- C. Special billing number - a ten-digit number that identifies a billing account established by BellSouth in connection with a resold local exchange service.
- D. Calling Card number - a billing number plus PIN number assigned by BellSouth.
- E. PIN number - a four-digit security code assigned by BellSouth that is added to a billing number to compose a fourteen-digit calling card number.
- F. Toll billing exception indicator - associated with a billing number to indicate that it is considered invalid for billing of collect calls or third number calls or both, by Sprint.
- G. Billed Number Screening - refers to the query service used to determine whether a toll billing exception indicator is present for a particular billing number.
- H. Calling Card Validation - refers to the query service used to determine whether a particular calling card number exists as stated or otherwise provided by a caller.
- I. Billing number information - information about billing number or Calling Card number as assigned by BellSouth and toll billing exception indicator provided to BellSouth by Sprint.
- J. Get-Data - refers to the query service used to determine, at a minimum, the Account Owner and/or Regional Accounting Office for a line number. This query service may be modified to provide additional information in the future.
- K. Originating Line Number Screening (OLNS) - refers to the query service used to determine the billing, screening and call handling indicators, station type and Account Owner provided to BellSouth by Sprint for originating line numbers.
- L. Account Owner - name of the local exchange telecommunications company that is providing dialtone on a subscriber line.

**EXHIBIT 2****Attachment 1  
EXHIBIT C****II. General**

- A. This Agreement sets forth the terms and conditions pursuant to which BellSouth agrees to store in its LIDB certain information at the request of Sprint and pursuant to which BellSouth, its LIDB customers and Sprint shall have access to such information. In addition, this Agreement sets forth the terms and conditions for Sprint's provision of billing number information to BellSouth for inclusion in BellSouth's LIDB. Sprint understands that BellSouth provides access to information in its LIDB to various telecommunications service providers pursuant to applicable tariffs and agrees that information stored at the request of Sprint, pursuant to this Agreement, shall be available to those telecommunications service providers. The terms and conditions contained herein shall hereby be made a part of this Agreement upon notice to Sprint's account team and/or Local Contract Manager to activate this LIDB Storage Agreement. The General Terms and Conditions of the Agreement shall govern this LIDB Storage Agreement. The terms and conditions contained in the attached Addendum are hereby made a part of this LIDB Storage Agreement as if fully incorporated herein.
- B. BellSouth will provide responses to on-line, call-by-call queries to billing number information for the following purposes:
1. Billed Number Screening. BellSouth is authorized to use the billing number information to determine whether Sprint has identified the billing number as one that should not be billed for collect or third number calls.
  2. Calling Card Validation. BellSouth is authorized to validate a 14-digit Calling Card number where the first 10 digits are a line number or special billing number assigned by BellSouth, and where the last four digits (PIN) are a security code assigned by BellSouth.
  3. OLNS. BellSouth is authorized to provide originating line screening information for billing services restrictions, station type, call handling indicators, presubscribed interLATA and local carrier and account owner on the lines of Sprint from which a call originates.
  4. GetData. BellSouth is authorized to provide, at a minimum, the account owner and/or Regional Accounting Office information on the lines of Sprint indicating the local service provider and where billing records are to be sent for settlement purposes. This query service may be modified to provide additional information in the future.
  5. Fraud Control. BellSouth will provide seven days per week, 24-hours per day, fraud monitoring on Calling Cards, bill-to-third and collect calls made to numbers in BellSouth's LIDB, provided that such information is included in the LIDB query. BellSouth will establish fraud alert thresholds and will notify Sprint of fraud alerts so that Sprint may take action it deems appropriate.

**III. Responsibilities of the Parties**

- A. BellSouth will administer all data stored in the LIDB, including the data provided by Sprint pursuant to this Agreement, in the same manner as BellSouth's data for BellSouth's End User customers. BellSouth shall not be responsible to Sprint for any lost revenue which may result from BellSouth's administration of the LIDB pursuant to its established practices and procedures as they exist and as they may be changed by BellSouth in its sole discretion from time to time.
- B. Billing and Collection Customers. BellSouth currently has in effect numerous billing and collection agreements with various interexchange carriers and billing clearing houses and as such these billing and collection customers (B&C Customers) query BellSouth's LIDB to determine whether to accept various billing options from End Users. Until such time as BellSouth implements in its LIDB and its supporting systems the means to differentiate Sprint's data from BellSouth's data, the following shall apply:
- (1) BellSouth will identify Sprint end user originated long distance charges and will return those charges to the interexchange carrier as not covered by the existing B&C agreement. Sprint is responsible for entering into the appropriate agreement with interexchange carriers for handling of long distance charges by their end users.
- (2) BellSouth shall have no obligation to become involved in any disputes between Sprint and B&C Customers. BellSouth will not issue adjustments for charges billed on behalf of any B&C Customer to Sprint. It shall be the responsibility of Sprint and the B&C Customers to negotiate and arrange for any appropriate adjustments.

**IV. Fees for Service and Taxes**

- A. Sprint will not be charged a fee for storage services provided by BellSouth to Sprint, as described in this LIDB Storage Agreement.
- B. Sales, use and all other taxes (excluding taxes on BellSouth's income) determined by BellSouth or any taxing authority to be due to any federal, state or local taxing jurisdiction with respect to the provision of the service set forth herein will be paid by Sprint in accordance with the tax provisions set forth in the General Terms and Conditions of this Agreement.

**EXHIBIT 3**

Attachment 2

**8.6 Line Splitting**

8.6.1 Line splitting allows a provider of data services (Data LEC) and a provider of voice services (Voice CLEC) to deliver voice and data service to End Users over the same Loop. The Voice CLEC and Data LEC may be the same or different carriers. Sprint shall provide BellSouth with a signed LOA between it and the Data LEC or Voice CLEC with which it desires to provision Line Splitting services, if Sprint will not provide voice and data services.

8.6.2 End Users currently receiving voice service from a Voice CLEC through a UNE platform (UNE-P) may be converted to Line Splitting arrangements by Sprint or its authorized agent ordering Line Splitting Service. If the CLEC wishes to provide the splitter, the UNE-P arrangement will be converted to a stand-alone UNE Loop, a UNE port, two collocation cross connects and the high frequency spectrum line activation. If BellSouth owns the splitter, the UNE-P arrangement will be converted to a stand-alone UNE Loop, port, and one collocation cross connection.

8.6.3 When end users on Loops using High Frequency Spectrum CO Based line sharing service are converted to Line Splitting, BellSouth will discontinue billing Sprint for the High Frequency Spectrum. BellSouth will continue to bill the Data LEC for all associated splitter charges if the Data LEC continues to use a BellSouth splitter. It is the responsibility of Sprint or its authorized agent to determine if the Loop is compatible for Line Splitting Service. Sprint or its authorized agent may use the existing Loop unless it is not compatible with the Data LEC's data service and Sprint or its authorized agent submits an LSR to BellSouth to change the Loop.

**8.6.4 Provisioning Line Splitting and Splitter Space**

8.6.4.1 The Data LEC, Voice CLEC or BellSouth may provide the splitter. When Sprint or its authorized agent owns the splitter, Line Splitting requires the following: a non-designed analog Loop from the serving wire center to the NID at the end user's location; a collocation cross connection connecting the Loop to the collocation space; a second collocation cross connection from the collocation space connected to a voice port; the high frequency spectrum line activation, and a splitter. The Loop and port cannot be a Loop and port combination (i.e. UNE-P), but must be individual stand-alone network elements. When BellSouth owns the splitter, Line Splitting requires the following: a non-designed analog Loop from the serving wire center to the NID at the end user's location with CFA and splitter port assignments, and a collocation cross connection from the collocation space connected to a voice port.

**EXHIBIT 3**

## Attachment 2

- 8.6.4.2 An unloaded 2-wire copper Loop must serve the end user. The meet point for the Voice CLEC and the Data LEC is the point of termination on the MDF for the Data LEC's cable and pairs.
- 8.6.4.3 The foregoing procedures are applicable to migration to Line Splitting Service from a UNE-P arrangement, BellSouth Retail Voice Service, BellSouth High Frequency Spectrum (CO Based) Line Sharing.
- 8.6.4.4 For other migration scenarios to line splitting, BellSouth will work cooperatively with CLECs to develop methods and procedures to develop a process whereby a Voice CLEC and a Data LEC may provide services over the same Loop.
- 8.6.5 **Ordering**
- 8.6.5.1 Sprint shall use BellSouth's LSOD to order splitters from BellSouth and to activate and deactivate DS0 Collocation CFAs for use with Line Splitting.
- 8.6.5.2 BellSouth shall provide Sprint the LSR format to be used when ordering Line Splitting service.
- 8.6.5.3 BellSouth will provision Line Splitting service in compliance with BellSouth's Products and Services Interval Guide available at the website at <http://www.interconnection.bellsouth.com>.
- 8.6.5.4 BellSouth will provide Sprint access to Preordering Loop Makeup (LMU) in accordance with the terms of this Agreement. BellSouth shall bill and Sprint shall pay the rates for such services as described in Exhibit B.
- 8.6.5.5 BellSouth will provide Loop modification to Sprint on an existing Loop in accordance with procedures developed in the Line Sharing Collaborative. High Frequency Spectrum (CO Based) Unbundled Loop Modification is a separate distinct service from ULM set forth in Section 2.5 of this Attachment. Procedures for High Frequency Spectrum (CO Based) Unbundled Loop Modification may be found on the web at: <HTTP://www.interconnection.bellsouth.com/html/unes.html>. Nonrecurring rates for this UNE offering are as set forth in Exhibit B.
- 8.6.6 **Maintenance**
- 8.6.6.1 BellSouth will be responsible for repairing voice services and the physical line between the NID at the customer's premise and the Termination Point. Sprint will be responsible for repairing data services. Each Party will be responsible for maintaining its own equipment.
- 8.6.6.2 Sprint shall inform its end users to direct data problems to Sprint, unless both voice and data services are impaired, in which event the end users should call BellSouth.

**EXHIBIT 3**

## Attachment 2

- 8.6.6.3 Once a Party has isolated a trouble to the other Party's portion of the Loop, the Party isolating the trouble shall notify the end user that the trouble is on the other Party's portion of the Loop.
- 8.6.6.4 When BellSouth receives a voice trouble and isolates the trouble to the physical collocation arrangement belonging to owner of the collocation space, BellSouth will notify the owner of the collocation space. The owner of the collocation space will provide at least one but no more than two (2) verbal CFA pair changes to BellSouth in an attempt to resolve the voice trouble. In the event the CFA pair is changed, the owner of the collocation space will provide BellSouth an LSR with the new CFA pair information within 24 hours. If the owner of the collocation space fails to resolve the trouble by providing BellSouth with the verbal CFA pair changes, BellSouth may discontinue the owner of the collocation space access to the High Frequency Spectrum on such Loop.
- 8.6.6.5 If Sprint is not the data provider, Sprint shall indemnify, defend and hold harmless BellSouth from and against any claims, losses, actions, causes of action, suits, demands, damages, injury, and costs including reasonable attorney fees, which arise out of actions related to the data provider.

**Amendment to  
Interconnection Agreement**

**between**

**Sprint Communications Company Limited Partnership  
Sprint Communications Company L.P.  
Sprint Spectrum, L.P.**

**and**

**BellSouth Telecommunications, Inc.**

**Dated January 1, 2001**

Pursuant to this Amendment (the "Amendment") Sprint Communications Company Limited Partnership and Sprint Communications Company L.P., (collectively referred to as "Sprint CLEC"), a Delaware Limited Partnership, and Sprint Spectrum L.P., a Delaware limited partnership, as agent and General Partner for WirelessCo. L.P., a Delaware limited partnership, and SprintCom, Inc., a Kansas corporation, all foregoing entities jointly d/b/a Sprint PCS (Sprint PCS), and BellSouth Telecommunications, Inc. (BellSouth), a Georgia corporation, hereinafter referred to collectively as the "Parties" hereby agree to amend that certain Interconnection Agreement (the Agreement) between BellSouth and Sprint CLEC and Sprint PCS, (collectively referred to as "Sprint") dated January 1, 2001.

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Sprint and BellSouth hereby covenant and agree as follows:

1. The Parties agree to delete Section 2.1, General Terms and Conditions – Part A in its entirety and replace it with the following:
  - 2.1 The term of this Agreement shall be from the effective date as set forth above and shall expire as of December 31, 2004. Upon mutual agreement of the Parties, the term of this Agreement may be extended. If, as of the expiration of this Agreement, a Subsequent Agreement (as defined in Section 3.1 below) has not been executed by the Parties, this Agreement shall continue on a month-to-month basis.
2. All other provisions of the Agreement, dated January 1, 2001, shall remain in full force and effect.
3. Either or both of the Parties is authorized to submit this Amendment to the appropriate Commission for approval subject to section 252(e) of the Federal Telecommunications Act of 1996.
4. This Amendment shall be effective upon the date of the last signature of both Parties.

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year written below.

Term Amendment

**Amendment  
To the  
Interconnection Agreement  
Between  
Sprint Communications Company Limited Partnership  
Sprint Communications Company L.P.  
Sprint Spectrum L. P.  
and  
BellSouth Telecommunications, Inc.  
Dated January 1, 2001**

Pursuant to this Amendment, (the "Amendment"), Sprint Communications Company Limited Partnership and Sprint Communications Company L.P., (collectively referred to as "Sprint CLEC"), a Delaware Limited Partnership, and Sprint Spectrum L.P., a Delaware limited partnership, as agent and General Partner for WirelessCo. L.P., a Delaware limited partnership, and SprintCom, Inc., a Kansas corporation, all foregoing entities jointly d/b/a Sprint PCS (Sprint PCS), (Sprint), and BellSouth Telecommunications, Inc. (BellSouth), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated January 1, 2001 (Agreement) to be effective upon the date of the last signature executing the Amendment.

WHEREAS, BellSouth and Sprint entered into the Agreement on January 1, 2001, and;

WHEREAS, BellSouth and Sprint are amending the Agreement to modify Local Number Portability (LNP) recovery charge pursuant to the Order in the matter of the Telephone Number Portability BellSouth Corporation Petition for Declaratory Ruling and/or Waiver, CC Docket No. 95-116, released April 13, 2004;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties agree to delete in their entirety all rate elements and USOCs identified as "Local Number Portability charges" in Exhibit A of Attachment 2, as specified by the following USOCs: LNPCX, LNPCP, LNPCN, and LNPCC.
2. The Parties agree to add the following language as Section 9.9 and as Section 14.4 of Attachment 2:
  - In addition to other charges specified in this Agreement for Local Number Portability Sprint shall pay to BellSouth the Local Number Portability charges as set forth in Section 13 of the BellSouth FCC No. 1 Tariff, as applicable.
3. All of the other provisions of the Agreement dated January 1, 2001 shall remain unchanged and in full force and effect.
4. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year written below.

**AMENDMENT  
TO THE  
AGREEMENT BETWEEN**

**SPRINT COMMUNICATIONS COMPANY LIMITED PARTNERSHIP  
SPRINT COMMUNICATIONS COMPANY L.P.  
SPRINT SPECTRUM, L.P.**

**AND**

**BELLSOUTH TELECOMMUNICATIONS, INC.**

**DATED JANUARY 01, 2001**

Pursuant to this Amendment, (the "Amendment"), Sprint Communications Company Limited Partnership and Sprint Communications Company L.P. (collectively referred to as "Sprint CLEC"), a Delaware Limited Partnership and Sprint Spectrum L.P., a Delaware limited partnership, as agent and General Partner for WirelessCo, L.P., a Delaware limited partnership, and SprintCom, Inc., a Kansas corporation, all foregoing entities jointly d/b/a Sprint PCS (collectively "Sprint PCS"), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties", hereby agree to amend that certain Interconnection Agreement between the Parties dated January 1, 2001 ("Agreement").

WHEREAS, BellSouth and Sprint PCS entered into the Agreement on January 1, 2001, and;

WHEREAS, the Parties desire to clarify certain provisions related to the network managers identified in this Agreement;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

The Parties agree to delete Section 4.8 in "Attachment 3 Network Interconnection" in its entirety, and replace it with a new Section 4.8 in Attachment 3 as follows:

- 4.8 Nothing in this Agreement shall prohibit Sprint PCS from enlarging its CMRS network through management contracts with third parties (hereinafter "Network Manager(s)") for the construction and operation of a CMRS system under the Sprint PCS license. Traffic traversing such extended networks shall be deemed to be and treated under this Agreement as Sprint PCS traffic when it originates on such extended network and either terminates upon or is transited by the BellSouth network, and as BellSouth traffic when it originates upon BellSouth's network and terminates upon such extended network. All billing for or related to such traffic and for the interconnection facilities provisioned under this Agreement by BellSouth to Sprint PCS for use by its Network Managers under the Sprint License will be in the name of Sprint PCS, and will identify the Network Manager as applicable, and shall be subject to

the terms and conditions of this Agreement and Sprint PCS will remain liable for all such billing hereunder. Absent written notice to the contrary from Sprint, BellSouth shall bill the Network Manager that orders interconnection facilities for all charges under this Agreement associated with both the interconnection facilities and the exchange of traffic over such facilities.

4.8.1 A Sprint PCS Network Manager may purchase, on behalf of Sprint PCS services offered to Sprint PCS in this Agreement at the same rates, terms and conditions that such services are offered to Sprint PCS provided that such services should only be purchased for the exclusive use of Sprint PCS and its Network Managers' to provide CMRS service under the Sprint PCS license. Notwithstanding that BellSouth agrees to bill a Network Manager directly for such services in order to expedite timely billing and payment from a Network Manager, Sprint PCS shall remain fully responsible under this Agreement for all services ordered by the Network Manager under this agreement regardless of whether the Network Managers are actually authorized to submit such orders or use such interconnection facilities on behalf of Sprint PCS.

4.8.2 Sprint PCS' Network Managers within the BellSouth region are:

AirGate PCS, Inc. f/k/a Airgate Wireless, LLC (AirGate)  
Enterprise Digital PCS, L.L.C., Enterprise Wireless, L.L.C. (Enterprise)  
Georgia PCS Management, LLC, US Unwired, LLC (Georgia PCS)  
Gulf Coast Wireless Limited Partnership f/k/a Meretel Communications, L.P. (Gulf Coast)  
Horizon Personal Communications, Inc. (Horizon)  
Louisiana Unwired, L.L.C. (Louisiana Unwired)  
Ubiquitel Operating Company / Ubiquitel, LLC (Ubiquitel)

1. All of the other provision of the Agreement, dated January 1, 2001, shall remain in full force and effect.
2. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.

**and**

**BellSouth Telecommunications, Inc.**

**Dated January 1, 2001**

Pursuant to this Amendment, (the "Amendment"), Sprint Communications Company Limited Partnership and Sprint Communications Company L.P., (collectively referred to as "Sprint CLEC"), a Delaware Limited Partnership, and Sprint Spectrum L.P., a Delaware limited partnership, as agent and General Partner for WirelessCo. L.P., a Delaware limited partnership, and SprintCom, Inc., a Kansas corporation, all foregoing entities jointly d/b/a Sprint PCS (Sprint PCS), (Sprint), and BellSouth Telecommunications, Inc. (BellSouth), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated January 1, 2001 (Agreement) to be effective on February 10, 2005.

WHEREAS, BellSouth and Sprint entered into the Agreement on January 1, 2001, and;

WHEREAS, both Parties agree that an initial New Installation of a 2-Wire Port/Loop Combination- Residence line provisioned at a Location where QuickServe is available on the line shall incur a QuickServe NonRecurring Charge (NRC) at the NRC Currently Combined Conversion Rate set forth in the Agreement and that any initial New Installation of a 2-Wire Port/Loop Combination - Residence line provisioned at a location where QuickServe is not available, shall incur the Not Currently Combined NRC, First and Additional rates set forth in the Agreement;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties agree to incorporate into Attachment 2 of the Agreement the rates and USOCs as set forth in Exhibit 1 of this Amendment attached hereto and incorporated herein by this reference.
2. All of the other provisions of the Agreement, dated January 1, 2001, shall remain in full force and effect.
3. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Amendment the day and year written below.

**Amendment to the  
Interconnection Agreement  
Between**

**Sprint Communications Company Limited Partnership  
Sprint Communications Company L.P.  
Sprint Spectrum L. P.**

**And**

**BellSouth Telecommunications, Inc.  
Dated January 1, 2001**

Pursuant to this Amendment, (Amendment), Sprint Communications Company Limited Partnership and Sprint Communications Company L.P., (collectively referred to as "Sprint CLEC"), a Delaware Limited Partnership, and Sprint Spectrum L.P., a Delaware limited partnership, as agent and General Partner for WirelessCo. L.P., a Delaware limited partnership, and SprintCom, Inc., a Kansas corporation, all foregoing entities jointly d/b/a Sprint PCS (Sprint PCS), (Sprint), and BellSouth Telecommunications, Inc. (BellSouth), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated January 1, 2001 (Agreement) to be effective thirty (30) calendar days after the date of the last signature executing the Amendment.

WHEREAS, BellSouth and Sprint entered into the Agreement on January 1, 2001, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties agree to add the following provision to Attachment 2, Section 11.1 and the associated rates as set forth in Exhibit 1 of this Amendment, attached hereto and incorporated herein by this reference.

11.1.1 Where Sprint utilizes portions of the BellSouth network in originating or terminating traffic, the Tandem Switching rates are applied in call scenarios where the Tandem Switching Network Element has been utilized. Because switch recordings cannot accurately indicate on a per call basis when the Tandem Switching Network Element has been utilized for an interoffice call originating from a UNE port and terminating to a BellSouth, Independent Company or Facility-Based CLEC office, BellSouth has developed, based upon call studies, a melded rate that takes into account the average percentage of calls that utilize Tandem Switching in these scenarios. BellSouth shall apply the melded Tandem Switching rate for every call in these scenarios. BellSouth shall utilize the melded Tandem Switching Rate until BellSouth has the capability to measure actual Tandem Switch usage in each call scenario specifically mentioned above, at which point the rate for the actual Tandem Switch usage shall apply. The UNE Call Flows set forth on BellSouth's website, as amended from time to time and incorporated herein by this reference, illustrate when the full or melded Tandem Switching rates apply for specific scenarios.

Melded Tandem Switching Amendment

2. All of the other provisions of the Agreement, dated January 1, 2001, shall remain in full force and effect.
3. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year written below.
