## NETWORK INTERCONNECTION

### 1 General

- 1.1 The Parties shall provide interconnection with each other's networks for the transmission and routing of telephone exchange service (Local Traffic), ISP-Bound Traffic, and exchange access (Switched Access Traffic) on the following terms:

### 2 Definitions: (For the purpose of this Attachment)

For purposes of this attachment only, the following terms shall have the definitions set forth below:

- 2.1 **Automatic Location Identification (ALI)** is a feature by which the address associated with the calling party's telephone number (ANI) is forwarded to the PSAP for display. Access to the ALI database is described in Attachment 2 to this Agreement.
- 2.2 **Automatic Number Identification (ANI)** corresponds to the seven-digit telephone number assigned by the serving local exchange carrier.
- 2.3 **BellSouth Trunk Group** is defined as a one-way trunk group carrying BellSouth originated traffic to be terminated by New Edge.
- 2.4 **911 Service** is as described in this Attachment.
- 2.5 **Call Termination** has the meaning set forth for "termination" in 47 C.F.R. § 51.701(d).
- 2.6 **Call Transport** has the meaning set forth for "transport" in 47 C.F.R. § 51.701(c).
- 2.7 **Call Transport and Termination** is used collectively to mean the switching and transport functions from the Interconnection Point to the last point of switching.
- 2.8 **Common (Shared) Transport** is defined as the transport of the originating Party's traffic by the terminating Party over the terminating Party's common (shared) facilities between (1) the terminating Party's tandem switch and end office switch, (2) between the terminating Party's tandem switches, and/or (3) between the terminating Party's host and remote end office switches. All switches referred herein must be entered into the The Telcordia® LERG™ Routing Guide (LERG).
- 2.9 **Dedicated Interoffice Facility** is defined as a switch transport facility between a Party's Serving Wire Center and the first point of switching within the LATA on the other Party's network.
- 2.10 **End Office Switching** is defined as the function that establishes a communications path between the trunk side and line side of the End Office switch.

- 2.11 **Fiber Meet** is an interconnection arrangement whereby the Parties physically interconnect their networks via an optical fiber interface at which one Party's facilities, provisioning, and maintenance responsibility begins and the other Party's responsibility ends.
- 2.12 **Final Trunk Group** is defined as the last choice trunk group between two (2) switches for which there is no alternate route.
- 2.13 **Integrated Services Digital Network User Part (ISUP)** is a message protocol to support call set-up and release for interoffice voice connections over SS7 signaling.
- 2.14 **Interconnection Point (IP)** is the physical telecommunications equipment interface that interconnects the networks of BellSouth and New Edge.
- 2.15 **IntraLATA Toll Traffic** is as defined in this Attachment.
- 2.16 **ISP-Bound Traffic** is as defined in this Attachment.
- 2.17 **Local Channel** is defined as a switched transport facility between a Party's Interconnection Point and the IP's Serving Wire Center.
- 2.18 **Local Traffic** is as defined in this Attachment.
- 2.19 **Public Safety Answering Point (PSAP)** is the answering location for 911 calls.
- 2.20 **Selective Routing (SR)** is a standard feature that routes an E911 call from the tandem to the designated PSAP based upon the address of the ANI of the calling party.
- 2.21 **Serving Wire Center (SWC)** is defined as the wire center owned by one Party from which the other Party would normally obtain dial tone for its IP.
- 2.22 **Signaling System 7 (SS7)/Common Channel Signaling 7 (CCS7)** is an out-of-band signaling system used to provide basic routing information, call set-up and other call termination functions. Signaling is removed from the voice channel and put on a separate data network.
- 2.23 **Tandem Switching** is defined as the function that establishes a communications path between two switching offices through a third switching office through the provision of trunk side to trunk side switching.
- 2.24 **Transit Traffic** is traffic originating on New Edge's network that is switched and/or transported by BellSouth and delivered to a third party's network, or traffic originating on a third party's network that is switched and/or transported by BellSouth and delivered to New Edge's network.

### 3 Network Interconnection

- 3.1 This Attachment pertains only to the provision of network interconnection where New Edge owns, leases from a third party or otherwise provides its own switch(es).
- 3.2 Network interconnection may be provided by the Parties at any technically feasible point within BellSouth's network. Requests to BellSouth for interconnection at points other than as set forth in this Attachment may be made through the Bona Fide Request/New Business Request (BFR/NBR) Process set forth in Attachment 11.
- 3.2.1 Each Party is responsible for providing, engineering and maintaining the network on its side of the IP. The IP must be located within BellSouth's serving territory in the LATA in which traffic is originating. The IP determines the point at which the originating Party shall pay the terminating Party for the Call Transport and Termination of Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic. In selecting the IP, both Parties will act in good faith and select the point that is most efficient for both Parties.
- 3.2.2 Pursuant to the provisions of this Attachment, the location of the initial IP in a given LATA shall be established by mutual agreement of the Parties. Subject to the requirements for installing additional IPs, as set forth below, any IPs existing prior to the Effective Date of the Agreement will be accepted as initial IPs and will not require re-grooming. When the Parties mutually agree to utilize two-way interconnection trunk groups for the exchange of Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic between each other, the Parties shall mutually agree to the location of IP(s). If the Parties are unable to agree to a mutual initial IP, each Party, as originating Party, shall establish a single IP in the LATA for the delivery of its originated Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic to the other Party for Call Transport and Termination by the terminating Party.
- 3.2.3 Additional IP(s) in a LATA may be established by mutual agreement of the Parties. Notwithstanding the foregoing, additional IP(s) in a particular LATA shall be established, at the request of either Party, when the Local Traffic and ISP-Bound Traffic exceeds eight point nine (8.9) million minutes per month for three (3) consecutive months at the proposed location of the additional IP. BellSouth will not request the establishment of an IP in a BellSouth Central Office where physical or virtual collocation space is not available or where BellSouth fiber connectivity is not available. When the Parties agree to utilize two-way interconnection trunk groups for the exchange of Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic the Parties must agree to the location of the IP(s).
- 3.3 Interconnection via Dedicated Facilities
- 3.3.1 Local Channel Facilities. As part of Call Transport and Termination, the originating Party may obtain Local Channel facilities from the terminating Party.

The percentage of Local Channel facilities utilized for Local Traffic and ISP-Bound Traffic shall be determined based upon the application of the Percent Local Facility (PLF) Factor as set forth in this Attachment. The charges applied to the percentage of Local Channel facilities used for Local Traffic and ISP-Bound Traffic as determined by the PLF factor are as set forth in Exhibit A. The remaining percentage of Local Channel facilities shall be billed at BellSouth's intrastate Access Services Tariff or BellSouth's FCC No. 1 Tariff rates.

- 3.3.2 Dedicated Interoffice Facilities. As a part of Call Transport and Termination, the originating Party may obtain Dedicated Interoffice Facilities from the terminating Party. The percentage of Dedicated Interoffice Facilities utilized for Local Traffic and ISP-Bound Traffic shall be determined based upon the application of the PLF factor as set forth in this Attachment. The charges applied to the percentage of the Dedicated Interoffice Facilities used for Local Traffic and ISP-Bound Traffic as determined by the PLF factor are as set forth in Exhibit A. The remaining percentage of the Dedicated Interoffice Facilities shall be billed at BellSouth's intrastate Access Services Tariff or BellSouth's FCC No. 1 Tariff rates.
- 3.4 Fiber Meet. Notwithstanding Sections 3.2.1, 3.2.2, and 3.2.3 above, if New Edge elects to establish interconnection with BellSouth pursuant to a Fiber Meet Local Channel, New Edge and BellSouth shall jointly engineer, operate and maintain a Synchronous Optical Network (SONET) transmission system by which they shall interconnect their transmission and routing of Local Traffic and ISP-Bound Traffic via a Local Channel at either the DS1 or DS3 level. The Parties shall work jointly to determine the specific transmission system. However, New Edge's SONET transmission system must be compatible with BellSouth's equipment, and the Data Communications Channel (DCC) must be turned off.
- 3.4.1 Each Party, at its own expense, shall procure, install and maintain the agreed upon SONET transmission system in its network.
- 3.4.2 The Parties shall agree to a Fiber Meet point between the BellSouth Serving Wire Center and the New Edge Serving Wire Center. The Parties shall deliver their fiber optic facilities to the Fiber Meet point with sufficient spare length to reach the fusion splice point for the Fiber Meet point. BellSouth shall, at its own expense, provide and maintain the fusion splice point for the Fiber Meet. A building type CLLI code will be established for each Fiber Meet point. All orders for interconnection facilities from the Fiber Meet point shall indicate the Fiber Meet point as the originating point for the facility.
- 3.4.3 Upon verbal request by New Edge, BellSouth shall allow New Edge access to the fusion splice point for the Fiber Meet point for maintenance purposes on New Edge's side of the Fiber Meet point.
- 3.4.4 Neither Party shall charge the other for its Local Channel portion of the Fiber Meet facility used exclusively for Local Traffic and ISP-Bound Traffic. The percentage of Local Channel facilities utilized for Local Traffic and ISP-Bound Traffic shall be

determined based upon the application of the PLF factor as set forth in this Attachment. The charges applied to the percentage of Local Channel facilities used for Local Traffic and ISP-Bound Traffic as determined by the PLF factor are as set forth in Exhibit A. The remaining percentage of Local Channel facilities shall be billed at BellSouth's applicable access tariff rates. Charges for switched and special access services shall be billed in accordance with the applicable BellSouth intrastate Access Services Tariff and or BellSouth's FCC No. 1 Tariff.

#### **4 Interconnection Trunk Group Architectures**

- 4.1 BellSouth and New Edge shall establish interconnecting trunk groups and trunk group configurations between networks, including the use of one-way or two-way trunks in accordance with the following provisions set forth in this Attachment. For trunking purposes, traffic will be routed based on the digits dialed by the originating end user and in accordance with the LERG.
- 4.2 New Edge shall establish an interconnection trunk group(s) to at least one (1) BellSouth access tandem within the LATA for the delivery of New Edge's originated Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic and for the receipt and delivery of Transit Traffic. To the extent New Edge desires to deliver Local Traffic, ISP-Bound Traffic, IntraLATA Toll Traffic and/or Transit Traffic to BellSouth access tandems within the LATA, other than the tandems(s) to which New Edge has established interconnection trunk groups, New Edge shall pay the appropriate rates for Multiple Tandem Access, as described in this Attachment.
- 4.2.1 Notwithstanding the forgoing, New Edge shall establish an interconnection trunk group(s) to all BellSouth access and local tandems in the LATA where New Edge has homed (i.e., assigned) its NPA/NXXs. New Edge shall home its NPA/NXXs on the BellSouth tandems that serve the exchange rate center areas to which the NPA/NXXs are assigned. The specified exchange rate center assigned to each BellSouth tandem is defined in the LERG. New Edge shall enter its NPA/NXX access and/or local tandem homing arrangements into the LERG.
- 4.3 Switched access traffic will be delivered to and from IXC's based on New Edge's NXX access tandem homing arrangement as specified by New Edge in the LERG.
- 4.4 Any New Edge interconnection request that (1) deviates from the interconnection trunk group architectures as described in this Agreement, (2) affects traffic delivered to New Edge from a BellSouth switch, and (3) requires special BellSouth switch translations and other network modifications will require New Edge to submit a BFR/NBR via the BFR/NBR Process as set forth in Attachment 11.
- 4.5 Recurring and nonrecurring rates associated with interconnecting trunk groups between BellSouth and New Edge are set forth in Exhibit A. To the extent a rate associated with the interconnecting trunk group is not set forth in Exhibit A, the

rate shall be as set forth in the appropriate BellSouth intrastate Access Services Tariff or BellSouth's FCC No. 1 Tariff.

- 4.6 For two-way trunk groups that carry only both Parties' Local Traffic, the Parties shall be compensated at fifty percent (50%) of the nonrecurring and recurring rates for dedicated trunks and DS1 facilities. New Edge shall be responsible for ordering and paying for any two-way trunks carrying Transit Traffic.
- 4.7 All trunk groups will be provisioned as SS7 capable where technically feasible. If SS7 is not technically feasible, multi-frequency (MF) protocol signaling shall be used.
- 4.8 In cases where New Edge is also an IXC, the IXC's Feature Group D (FG D) trunk group(s) must remain separate from the local interconnection trunk group(s).
- 4.9 Each Party shall order interconnection trunks and trunk group including trunk and trunk group augmentations via the Access Service Request (ASR) process. A Firm Order Confirmation (FOC) shall be returned to the ordering Party, after receipt of a valid, error free ASR, within the timeframes set forth in each state's applicable Performance Measures. Notwithstanding the foregoing, blocking situations and projects shall be managed through BellSouth's Carrier Interconnection Switching Center (CISC) Project Management Group and New Edge's equivalent trunking group, and FOCs for such orders shall be returned in the timeframes applicable to the project. A project is defined as (1) a new trunk group or (2) a request for more than one hundred ninety-two (192) trunks on a single or multiple group(s) in a given BellSouth local calling area.
- 4.10 Interconnection Trunk Groups for Exchange of Local Traffic and Transit Traffic
- 4.10.1 Upon mutual agreement of the Parties in a joint planning meeting, the Parties shall exchange Local Traffic on two-way interconnection trunk group(s) with the quantity of trunks being mutually determined and the provisioning being jointly coordinated. Furthermore, the Parties shall agree upon the IP(s) for two-way interconnection trunk groups transporting both Parties' Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic. New Edge shall order such two-way trunks via the ASR process. BellSouth will use the Trunk Group Service Request (TGSR) to request changes in trunking. Furthermore, the Parties shall jointly review trunk performance and forecasts in accordance with Section 6 below. The Parties' use of two-way interconnection trunk groups for the transport of Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic between the Parties does not preclude either Party from establishing additional one-way interconnection trunks for the delivery of its originated Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic to the other Party. Other trunk groups for operator services, directory assistance and intercept must be established pursuant to BellSouth's intrastate Access Services Tariff and/or BellSouth's FCC No. 1 Tariff.

- 4.10.2 BellSouth Access Tandem Interconnection. BellSouth Access Tandem interconnection at a single Access Tandem provides access to those End Offices subtending that access tandem (Intratandem Access). Access Tandem interconnection is available for any of the following access tandem architectures:
- 4.10.2.1 Basic Architecture. In the basic architecture, New Edge's originating Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic and originating and terminating Transit Traffic is transported on a single two-way trunk group between New Edge and BellSouth Access Tandem(s) within a LATA to provide Intratandem Access. This trunk group carries Transit Traffic between New Edge and ICOs, IXCs, other CLECs, CMRS providers that have a Meet Point Billing arrangement with BellSouth, and other network providers with which New Edge desires to exchange traffic. This trunk group also carries New Edge originated Transit Traffic transiting a single BellSouth Access Tandem destined to third party tandems such as an ICO tandem or other CLEC tandem. BellSouth originated Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic is transported on a separate single one-way trunk group terminating to New Edge. The LERG contains current routing and tandem serving arrangements. The basic Architecture is illustrated in Exhibit B.
- 4.10.2.2 One-Way Trunk Group Architecture. In one-way trunk group architecture, the Parties interconnect using three (3) separate trunk groups. A one-way trunk group provides Intratandem Access for New Edge-originated Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic destined for BellSouth end users. A second one-way trunk group carries BellSouth-originated Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic destined for New Edge end users. A two-way trunk group provides Intratandem Access for New Edge's originating and terminating Transit Traffic. This trunk group carries Transit Traffic between New Edge and ICOs, IXCs, other CLECs, CMRS providers that have a Meet Point Billing arrangement with BellSouth, and other network providers with which New Edge exchanges traffic. This trunk group also carries New Edge originated Transit Traffic transiting a single BellSouth Access Tandem destined to third party tandems such as an ICO tandem or other CLEC tandem. BellSouth originated Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic is transported on a separate single one-way trunk group terminating to New Edge. The LERG contains current routing and tandem serving arrangements. The one-way trunk group architecture is illustrated in Exhibit C.
- 4.10.2.3 Two-Way Trunk Group Architecture. The two-way trunk group Architecture establishes one (1) two-way trunk group to provide Intratandem Access for the exchange of Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic between New Edge and BellSouth. In addition, a separate two-way transit trunk group must be established for New Edge's originating and terminating Transit Traffic. This trunk group carries Transit Traffic between New Edge and ICOs, IXCs, other CLECs, CMRS providers that have a Meet Point Billing arrangement with BellSouth, and other network providers with which New Edge exchanges traffic.

This trunk group also carries New Edge originated Transit Traffic transiting a single BellSouth Access Tandem destined to third party tandems such as an ICO tandem or other CLEC tandem. BellSouth originated traffic may, in order to prevent or remedy traffic blocking situations, be transported on a separate single one-way trunk group terminating to New Edge. However, where New Edge is responsive in a timely manner to BellSouth's transport needs for its originated traffic, BellSouth originating traffic will be placed on the two-way Local Traffic trunk group carrying ISP-Bound Traffic and IntraLATA Toll Traffic. The LERG contains current routing and tandem serving arrangements. The two-way trunk group architecture is illustrated in Exhibit D.

4.10.2.4 Supergroup Architecture. In the supergroup architecture, the Parties' Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic and New Edge's Transit Traffic are exchanged on a single two-way trunk group between New Edge and BellSouth to provide Intratandem Access to New Edge. This trunk group carries Transit Traffic between New Edge and ICOs, IXCs, other CLECs, CMRS providers that have a Meet Point Billing arrangement with BellSouth, and other network providers with which New Edge desires to exchange traffic. This trunk group also carries New Edge originated Transit Traffic transiting a single BellSouth Access Tandem destined to third party tandems such as an ICO tandem or other CLEC tandem. BellSouth originated traffic may, in order to prevent or remedy traffic blocking situations, be transported on a separate single one-way trunk group terminating to New Edge. However, where New Edge is responsive in a timely manner to BellSouth's transport needs for its originated traffic, BellSouth originating traffic will be placed on the Supergroup. Other trunk groups for operator services, directory assistance, emergency services and intercept must be established pursuant to the applicable BellSouth tariff if service is requested. The LERG contains current routing and tandem serving arrangements. The supergroup architecture is illustrated in Exhibit E.

4.10.2.5 Multiple Tandem Access (MTA) Interconnection

4.10.2.5.1 Where New Edge does not choose access tandem interconnection at every BellSouth Access Tandem within a LATA, New Edge must utilize BellSouth's MTA interconnection. To utilize MTA New Edge must establish an interconnection trunk group(s) at a minimum of one (1) BellSouth Access Tandem within each LATA as required. BellSouth will route New Edge's originated Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic for LATA wide transport and termination. New Edge must also establish an interconnection trunk group(s) at all BellSouth Access Tandems where New Edge NXXs are homed as described in Section 4.2.1 above. If New Edge does not have NXXs homed at any particular BellSouth Access Tandem within a LATA and elects not to establish an interconnection trunk group(s) at such BellSouth Access Tandem, New Edge can order MTA in each BellSouth Access Tandem within the LATA where it does have an interconnection trunk group(s) and BellSouth will terminate New Edge's Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic to end users served

through those BellSouth Access Tandems where New Edge does not have an interconnection trunk group(s). MTA shall be provisioned in accordance with BellSouth's Ordering Guidelines.

- 4.10.2.5.2 New Edge may also utilize MTA to route its originated Transit Traffic; provided, however, that MTA may not be utilized to route switched access traffic that transits the BellSouth network to an IXC. Switched access traffic originated by or terminated to New Edge will be delivered to and from IXCs based on New Edge's NXX access tandem homing arrangement as specified by New Edge in the LERG.
- 4.10.2.5.3 Compensation for MTA shall be at the applicable tandem switching and transport charges specified in Exhibit A and shall be billed in addition to any Call Transport and Termination charges.
- 4.10.2.5.4 To the extent New Edge does not purchase MTA in a LATA served by multiple Access Tandems, New Edge must establish an interconnection trunk group(s) to every Access Tandem in the LATA to serve the entire LATA. To the extent New Edge routes its traffic in such a way that utilizes BellSouth's MTA service without properly ordering MTA, New Edge shall pay BellSouth the associated MTA charges.

#### 4.10.3 Local Tandem Interconnection

- 4.10.3.1 Local Tandem Interconnection arrangement allows New Edge to establish an interconnection trunk group(s) at BellSouth local tandems for: (1) the delivery of New Edge-originated Local Traffic and ISP-Bound Traffic transported and terminated by BellSouth to BellSouth End Offices served by those BellSouth local tandems, and (2) for local Transit Traffic transported by BellSouth for third party network providers who have also established an interconnection trunk group(s) at those BellSouth local tandems.
- 4.10.3.2 When a specified local calling area is served by more than one (1) BellSouth local tandem, New Edge must designate a "home" local tandem for each of its assigned NPA/NXXs and establish trunk connections to such local tandems. Additionally, New Edge may choose to establish an interconnection trunk group(s) at the BellSouth local tandems where it has no codes homing but is not required to do so. New Edge may deliver Local Traffic and ISP-Bound Traffic to a "home" BellSouth local tandem that is destined for other BellSouth or third party network provider end offices subtending other BellSouth local tandems in the same local calling area where New Edge does not choose to establish an interconnection trunk group(s). It is New Edge's responsibility to enter its own NPA/NXX local tandem homing arrangements into the LERG either directly or via a vendor in order for other third party network providers to determine appropriate traffic routing to New Edge's codes. Likewise, New Edge shall obtain its routing information from the LERG.

- 4.10.3.3 Notwithstanding establishing an interconnection trunk group(s) to BellSouth's local tandems, New Edge must also establish an interconnection trunk group(s) to BellSouth Access Tandems within the LATA on which New Edge has NPA/NXXs homed for the delivery of Interexchange Carrier Switched Access and toll traffic, and traffic to Type 2A CMRS connections located at the Access Tandems. BellSouth shall not switch SWA traffic through more than one BellSouth access tandem. SWA, Type 2A CMRS or toll traffic routed to the local tandem in error will not be backhauled to the BellSouth Access Tandem for completion. (Type 2A CMRS interconnection is defined in Section A35 of BellSouth's GSST).
- 4.10.3.4 BellSouth's provisioning of Local Tandem Interconnection assumes that New Edge has executed the necessary local interconnection agreements with the other third party network providers subtending those local tandems as required by the Act.
- 4.10.4 Direct End Office-to-End Office Interconnection
- 4.10.4.1 Direct End Office-to-End Office one-way or two-way interconnection trunk groups allow for the delivery of a Party's originating Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic to the terminating Party on a direct end office-to-end office basis.
- 4.10.4.2 The Parties shall utilize direct end office-to-end office trunk groups under any one (1) of the following conditions:
- 4.10.4.2.1 Tandem Exhaust. If a tandem through which the Parties are interconnected is unable to, or is forecasted to be unable to support additional traffic loads for any period of time, the Parties will mutually agree on an end office trunking plan that will alleviate the tandem capacity shortage and ensure completion of traffic between New Edge and BellSouth.
- 4.10.4.2.2 Traffic Volume. To the extent either Party has the capability to measure the amount of traffic between New Edge's switch and a BellSouth End Office and where such traffic exceeds or is forecasted to exceed a single DS1 of traffic per month, then the Parties shall install and retain direct end office trunking sufficient to handle such traffic volumes. Either Party will install additional capacity between such points when overflow traffic exceeds or is forecasted to exceed a single DS1 of traffic per month. In the case of one-way trunking, additional trunking shall only be required by the Party whose trunking has achieved the preceding usage threshold.
- 4.10.4.2.3 Mutual Agreement. The Parties may install direct end office trunking upon mutual agreement in the absence of conditions (1) or (2) above.
- 4.10.5 Transit Traffic Trunk Group

- 4.10.5.1 Transit Traffic trunks can either be two-way trunks or two (2) one-way trunks ordered by New Edge to deliver and receive Transit Traffic. Establishing Transit Traffic trunks at BellSouth Access and Local Tandems provides Intratandem Access to the third parties also interconnected at those tandems. New Edge shall be responsible for all recurring and nonrecurring charges associated with Transit Traffic trunks and facilities.
- 4.10.5.2 Toll Free Traffic
- 4.10.5.2.1 If New Edge chooses BellSouth to perform the Service Switching Point (SSP) Function (i.e., handle Toll Free database queries) from BellSouth's switches, all New Edge originating Toll Free traffic will be routed over the Transit Traffic Trunk Group and shall be delivered using GR-394 format. Carrier Code "0110" and Circuit Code (to be determined for each LATA) shall be used for all such calls.
- 4.10.5.2.2 New Edge may choose to perform its own Toll Free database queries from its switch. In such cases, New Edge will determine the nature (local/intraLATA/interLATA) of the Toll Free call (local/IntraLATA/InterLATA) based on the response from the database. If the call is a BellSouth local or intraLATA Toll Free call, New Edge will route the post-query local or IntraLATA converted ten (10)-digit local number to BellSouth over the local or intraLATA trunk group. If the call is a third party (ICO, IXC, CMRS or other CLEC) local or intraLATA Toll Free call, New Edge will route the post-query local or intraLATA converted ten (10)-digit local number to BellSouth over the Transit Traffic Trunk Group and New Edge shall provide to BellSouth a Toll Free billing record when appropriate. If the query reveals the call is an interLATA Toll Free call, New Edge will route the post-query interLATA Toll Free call (1) directly from its switch for carriers interconnected with its network or (2) over the Transit Traffic Trunk Group to carriers that are not directly connected to New Edge's network but that are connected to BellSouth's Access Tandem.
- 4.10.5.2.3 All post-query Toll Free calls for which New Edge performs the SSP function, if delivered to BellSouth, shall be delivered using GR-394 format for calls destined to IXCs, and GR-317 format for calls destined to end offices that directly subtend a BellSouth Access Tandem within the LATA.

## 5 **Network Design And Management For Interconnection**

- 5.1 Network Management and Changes. The Parties will exchange toll-free maintenance contact numbers and escalation procedures. The Parties will provide public notice of network changes in accordance with applicable federal and state rules and regulations.
- 5.2 Interconnection Technical Standards. The interconnection of all networks will be based upon accepted industry/national guidelines for transmission standards and traffic blocking criteria. Interconnecting facilities shall conform, at a minimum, to the telecommunications industry standard of DS1 pursuant to Telcordia Standard

No. GR-NWT-00499. Where New Edge chooses to utilize SS7 signaling, also known as CCS7, SS7 connectivity is required between the New Edge switch and the BellSouth STP. BellSouth will provide SS7 signaling using Common Channel Signaling Access Capability in accordance with the technical specifications set forth in the BellSouth Guidelines to Technical Publication, GR-905-Core. Facilities of each Party shall provide the necessary on-hook, off-hook answer and disconnect supervision and shall provide calling number ID (Calling Party Number) when technically feasible.

- 5.3 Network Management Controls. Both Parties will work cooperatively to apply sound network management principles by invoking appropriate network management controls (e.g., call gapping) to alleviate or prevent network congestion.

## **6 Forecasting for Trunk Provisioning**

- 6.1 Within six (6) months after execution of this Agreement, New Edge shall provide an initial interconnection trunk group forecast for each LATA in which it plans to provide service within BellSouth's region. Upon receipt of New Edge's forecast, the Parties shall conduct a joint planning meeting to develop a joint interconnection trunk group forecast. Each forecast provided under this Section shall be deemed Confidential Information under the General Terms and Conditions.
- 6.1.1 At a minimum, the forecast shall include the projected quantity of Transit Trunks, New Edge-to-BellSouth one-way trunks (New Edge Trunks), BellSouth-to-New Edge one-way trunks (BellSouth Trunk Groups) and/or two-way interconnection trunks, if the Parties have agreed to interconnect using two-way trunking to transport the Parties' Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic. The quantities shall be projected for a minimum of six (6) months and shall include an estimate of the current year plus the next two (2) years total forecasted quantities. The Parties shall mutually develop BellSouth Trunk Groups and/or two-way interconnection trunk forecast quantities.
- 6.1.2 All forecasts shall include, at a minimum, Access Carrier Terminal Location (ACTL), trunk group type (e.g., local/intraLATA toll, Transit, Operator Services, 911, etc.), A location/Z location (CLLI codes for New Edge location and BellSouth location where the trunks shall terminate), interface type (e.g., DS1), Direction of Signaling, Trunk Group Number, if known, (commonly referred to as the 2-6 code) and forecasted trunks in service each year (cumulative).
- 6.2 Once initial interconnection trunk forecasts have been developed, New Edge shall continue to provide interconnection trunk forecasts at mutually agreeable intervals. New Edge shall use its best efforts to make the forecasts as accurate as possible based on reasonable engineering criteria. The Parties shall continue to develop Reciprocal Trunk Group and/or two-way interconnection trunk forecasts as described in Section 6.1.1 above.

6.3 The submission and development of interconnection trunk forecasts shall not replace the ordering process for local interconnection trunks. Each Party shall exercise its best efforts to provide the quantity of interconnection trunks mutually forecasted. However, the provision of the forecasted quantity of interconnection trunks is subject to trunk terminations and facility capacity existing at the time the trunk order is submitted. Furthermore, the receipt and development of trunk forecasts does not imply any liability for failure to perform if capacity (trunk terminations or facilities) is not available for use at the forecasted time.

6.4 Trunk Utilization

6.4.1 For the BellSouth Trunk Groups that are Final Trunk Groups (BellSouth Final Trunk Groups), BellSouth and New Edge shall monitor traffic on each BellSouth Final Trunk Group that is ordered and installed. The Parties agree that the BellSouth Final Trunk Groups will be utilized at sixty percent (60%) of the time consistent busy hour utilization level within ninety (90) days of installation. The Parties agree that the BellSouth Final Trunk Groups will be utilized at eighty percent (80%) of the time consistent busy hour utilization level within one hundred eighty (180) days of installation. Any BellSouth Final Trunk Group not meeting the minimum thresholds set forth in this Section are defined as “under-utilized” trunks. Subject to Section 6.4.2 below, BellSouth may disconnect any under-utilized BellSouth Final Trunk Groups and New Edge shall refund to BellSouth the associated nonrecurring and recurring trunk and facility charges paid by BellSouth, if any.

6.4.2 BellSouth’s CISC will notify New Edge of any under-utilized BellSouth Trunk Groups and the number of such trunk groups that BellSouth wishes to disconnect. BellSouth will provide supporting information either by email or facsimile to the designated New Edge interface. New Edge will provide concurrence with the disconnection in seven (7) business days or will provide specific information supporting why the trunks should not be disconnected. Such supporting information should include expected traffic volumes (including traffic volumes generated due to Local Number Portability) and the timeframes within which New Edge expects to need such trunks. BellSouth’s CISC Project Manager and Circuit Capacity Manager (CCM) will discuss the information with New Edge to determine if agreement can be reached on the number of BellSouth Final Trunk Groups to be removed. If no agreement can be reached, BellSouth will issue disconnect orders to New Edge. The due date of these orders will be four (4) weeks after New Edge was first notified in writing of the underutilization of the trunk groups.

6.4.3 To the extent that any interconnection trunk group is utilized at a time-consistent busy hour of eighty percent (80%) or greater, the Parties may review the trunk groups and, if necessary, shall negotiate in good faith for the installation of augmented facilities.

- 6.4.4 For the two-way trunk groups, BellSouth and New Edge shall monitor traffic on each interconnection trunk group that is ordered and installed. The Parties agree that within ninety (90) days of the installation of the BellSouth two-way trunk or trunks, the trunks will be utilized at 60 percent (60%) of the time consistent busy hour utilization level. The Parties agree that within one hundred eighty (180) days of the installation of a trunk or trunks, the trunks will be utilized at eighty percent (80%) of the time consistent busy hour utilization level. Any trunk or trunks not meeting the minimum thresholds set forth in this Section are defined as “under-utilized” trunks. BellSouth will request the disconnection of any under-utilized two-way trunk(s) and New Edge shall refund to BellSouth the associated nonrecurring and recurring trunk and facility charges paid by BellSouth, if any.
- 6.4.4.1 BellSouth’s CISC will notify New Edge of any under-utilized two-way trunk groups and the number of trunks that BellSouth wishes to disconnect. BellSouth will provide supporting information either by email or facsimile to the designated New Edge interface. New Edge will provide concurrence with the disconnection in seven (7) business days or will provide specific information supporting why the two-way trunks should not be disconnected. Such supporting information should include expected traffic volumes (including traffic volumes generated due to Local Number Portability) and the timeframes within which New Edge expects to need such trunks. BellSouth’s CISC Project Manager and CCM will discuss the information with New Edge to determine if agreement can be reached on the number of trunks to be removed. If no agreement can be reached, New Edge will issue disconnect orders to BellSouth. The due date of these orders will be four (4) weeks after New Edge was first notified in writing of the under-utilization of the trunk groups.
- 6.4.4.2 To the extent that any interconnection trunk group is utilized at a time-consistent busy hour of eighty percent (80%) or greater, the Parties may review the trunk groups and, if necessary, shall negotiate in good faith for the installation of augmented facilities.

## **7 Local Dialing Parity**

- 7.1 BellSouth and New Edge shall provide local and toll dialing parity, as defined in FCC rules and regulations, with no unreasonable dialing delays. Dialing parity shall be provided for all originating Telecommunications Services that require dialing to route a call.

## **8 Interconnection Compensation**

- 8.1 Compensation for Call Transport and Termination for Local Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic
- 8.1.1 For the purposes of this Attachment and for intercarrier compensation for Local Traffic exchanged between the Parties pursuant to this Attachment, Local Traffic is defined as any telephone call that originates from one Party’s customer located

in one exchange and terminates to the other Party's customer in either the same exchange, or other local calling area associated with the originating calling party's exchange as defined and specified in Section A3 of BellSouth's GSST.

- 8.1.1.1 Additionally, Local Traffic includes any cross boundary, voice-to-voice intrastate, interLATA or interstate, interLATA calls established as a local call by the ruling regulatory body.
- 8.1.2 For purposes of this Attachment and for intercarrier compensation for ISP-Bound Traffic exchanged between the Parties, ISP-Bound Traffic is defined as calls to an information service provider or Internet Service Provider (ISP) that are dialed by using a local dialing pattern (seven (7) or ten (10) digits) by a calling party in one (1) exchange to an ISP server or modem in either the same exchange or other local calling area associated with the originating exchange as defined and specified in Section A3 of BellSouth's GSST. ISP-Bound Traffic is not Local Traffic subject to reciprocal compensation, but instead is information access traffic subject to the FCC's jurisdiction.
- 8.1.3 Neither Party shall pay compensation to the other Party for per minute of use rate elements as set forth in Exhibit A associated with the Call Transport and Termination of Local Traffic or ISP-Bound Traffic.
- 8.1.4 The appropriate elemental rates set forth in Exhibit A shall apply for Transit Traffic as described in this Attachment and for MTA as described in this Attachment.
- 8.1.5 Neither Party shall represent Switched Access Traffic as Local Traffic or ISP-Bound Traffic for purposes of determining compensation for the call.
- 8.1.6 IntraLATA Toll Traffic is defined as all traffic, regardless of transport protocol method, that originates and terminates within a single LATA that is not Local Traffic or ISP-Bound traffic under this Attachment.
- 8.1.6.1 For terminating its intraLATA toll traffic on the other Party's network, the originating Party will pay the terminating Party BellSouth's current intrastate or interstate, whichever is appropriate, terminating switched access tariff rates as set forth in BellSouth's intrastate Access Services Tariffs and/or BellSouth's FCC No. 1 Tariff as filed and in effect with the FCC or appropriate Commission. The appropriate charges will be determined by the routing of the call. Additionally, if one (1) Party is the other Party's customer's presubscribed interexchange carrier or if one (1) Party's customer uses the other Party as an interexchange carrier on a 101XXXX basis, the originating party will charge the other Party the appropriate BellSouth originating switched access tariff rates as set forth in BellSouth's intrastate Access Services Tariff and/or BellSouth's FCC No. 1 Tariff as filed and in effect with the FCC or appropriate Commission.

- 8.1.7 If New Edge assigns NPA/NXXs to specific BellSouth rate centers within the LATA and assigns numbers from those NPA/NXXs to New Edge customer physically located outside of that LATA, BellSouth traffic originating from within the LATA where the NPA/NXXs are assigned and delivered to a New Edge customer physically located outside of such LATA, shall not be deemed Local Traffic. Further, New Edge agrees to identify such interLATA traffic to BellSouth and to compensate BellSouth for originating and transporting such interLATA traffic to New Edge at BellSouth's FCC No. 1 Tariff rates.
- 8.2 If New Edge does not identify such interLATA traffic to BellSouth, BellSouth will determine which whole New Edge NPA/NXXs on which to charge the applicable rates for originating network access service as reflected in BellSouth's intrastate Access Services Tariff and/or BellSouth's FCC No. 1 Tariff.. BellSouth shall make appropriate billing adjustments if New Edge can provide sufficient information for BellSouth to determine whether or not said traffic is Local or ISP-Bound Traffic.
- 8.3 Jurisdictional Reporting
- 8.3.1 Percent Local Use (PLU). Each Party shall report to the other a PLU factor. The application of the PLU will determine the amount of local or ISP-Bound minutes to be billed to the other Party. Each Party shall update its PLU on the first of January, April, July and October of the year and shall send it to the other Party to be received no later than thirty (30) days after the first of each such month based on local and ISP-Bound usage for the past three (3) months ending the last day of December, March, June and September, respectively. Requirements associated with PLU calculation and reporting shall be as set forth in BellSouth's Jurisdictional Factors Reporting Guide.
- 8.3.2 Percent Local Facility (PLF). Each Party shall report to the other a PLF factor. The application of the PLF will determine the portion of switched dedicated transport to be billed per the local jurisdiction rates. The PLF shall be applied to Multiplexing, Local Channel and Interoffice Channel Switched Dedicated Transport utilized in the provision of local interconnection trunks. Each Party shall update its PLF on the first of January, April, July and October of the year and shall send it to the other Party to be received no later than thirty (30) days after the first of each such month to be effective the first bill period the following month, respectively. Requirements associated with PLF calculation and reporting shall be as set forth in BellSouth's Jurisdictional Factors Reporting Guide.
- 8.3.3 Percent Interstate Usage (PIU). Each Party shall report to the other the projected PIU factors, including but not limited to PIU associated with facilities (PIUE) and Terminating PIU (TPIU) factors. All jurisdictional report requirements, rules and regulations for Interexchange Carriers specified in BellSouth's intrastate Access Services Tariff will apply to New Edge. After interstate and intrastate traffic percentages have been determined by use of PIU procedures, the PLU and PLF

factors will be used for application and billing of local interconnection. Each Party shall update its PIUs on the first of January, April, July and October of the year and shall send it to the other Party to be received no later than thirty (30) days after the first of each such month, for all services showing the percentages of use for the past three (3) months ending the last day of December, March, June and September. Additional requirements associated with PIU calculations and reporting shall be as set forth in BellSouth's Jurisdictional Factors Reporting Guide.

- 8.3.4 Notwithstanding the provisions in Sections 8.3.1, 8.3.2, and 8.3.3 above, where BellSouth has message recording technology that identifies the jurisdiction of traffic terminated as defined in this Agreement, such information shall, at BellSouth's option, be utilized to determine the appropriate jurisdictional reporting factors (i.e., PLU, PIU, and/or PLF), in lieu of those provided by New Edge. In the event that BellSouth opts to utilize its own data to determine jurisdictional reporting factors, BellSouth shall notify New Edge at least fifteen (15) days prior to the beginning of the calendar quarter in which BellSouth will begin to utilize its own data.
- 8.3.5 New Edge agrees not to deliver switched access traffic to BellSouth for termination except over New Edge ordered switched access trunks and facilities. If New Edge delivers Switched Access Traffic to BellSouth for termination in violation of this Section, BellSouth shall charge New Edge terminating switched access charges as set forth in BellSouth's Intrastate Access Services Tariff and/or BellSouth's FCC No. 1 Tariff, as appropriate. Additionally, such delivery of traffic shall constitute improper use of BellSouth facilities as set forth in Section 1.5.2 of Attachment 7 of this Agreement.
- 8.3.6 Audits. On thirty (30) days written notice, New Edge must provide BellSouth the ability and opportunity to conduct an annual audit to ensure the proper billing of traffic. New Edge shall retain records of call detail for a minimum of nine (9) months from which the PLU, PLF and/or PIU can be ascertained. The audit shall be conducted during normal business hours at an office designated by New Edge. Audit requests shall not be submitted more frequently than one (1) time per calendar year. Audits shall be performed by an independent auditor chosen by BellSouth. The audited factor (PLF, PLU and/or PIU) shall be adjusted based upon the audit results and shall apply to the usage for the audited period through the time period when the audit is completed, to the usage for the quarter prior to the audit period, and to the usage for the two (2) quarters following the completion of the audit. If, as a result of an audit, New Edge is found to have overstated the PLF, PLU and/or PIU by twenty percentage points (20%) or more, New Edge shall reimburse BellSouth for the cost of the audit.
- 8.4 Compensation for IntraLATA 8XX Traffic. New Edge shall pay the appropriate switched access charges set forth in the BellSouth's intrastate Access Services tariff and/or BellSouth's FCC No. 1 Tariff. New Edge will pay BellSouth the

database query charge as set forth in the applicable BellSouth intrastate Access Services Tariff and/or BellSouth's FCC No. 1 Tariff. New Edge will be responsible for any applicable Common Channel Signaling (SS7) charges.

- 8.4.1 Records for 8XX Billing. Where technically feasible, each Party will provide to the other Party the appropriate records, in accordance with industry standards, necessary for billing intraLATA 8XX providers. The records provided will be in a standard EMI format.
- 8.4.2 8XX Toll Free Dialing Ten Digit Screening Service (8XX TFD). BellSouth's provision of 8XX TFD to New Edge requires interconnection from New Edge to BellSouth's 8XX Signal Channel Point. Such interconnections shall be established pursuant to BellSouth's Common Channel Signaling Interconnection Guidelines and Telcordia's CCS Network Interface Specification document, TR-TSV-000905. New Edge shall establish SS7 interconnection at the BellSouth LSTPs serving the BellSouth 8XX Signal Channel Points that New Edge desires to query. The terms and conditions for 8XX TFD are set out in the appropriate BellSouth Access Services Tariff.
- 8.5 Mutual Provision of Switched Access Service
- 8.5.1 Switched Access Traffic. Switched Access Traffic is described as telephone calls requiring local transmission or switching services for the purpose of the origination or termination of Telephone Toll Service. Switched Access Traffic includes, but is not limited to, the following types of traffic: Feature Group A, Feature Group B, Feature Group C, Feature Group D, toll free access (e.g., 8XX), 900 access and their successors. Additionally, any PSTN interexchange telecommunications traffic, regardless of transport protocol method, where the originating and terminating points, end-to-end points, are in different LATAs, or are in the same LATA and the Parties' Switched Access services are used for the origination or termination of the call, shall be considered Switched Access Traffic. Irrespective of transport protocol method or method of originating or terminating the call, a call that originates in one LATA and terminates in another LATA (i.e., the end-to-end points of the call) or a call in which the Parties' Switched Access Services are used for the origination or termination of the call, shall be considered Switched Access Traffic.
- 8.5.2 If a BellSouth end user chooses New Edge as their presubscribed interexchange carrier, or if a BellSouth end user uses New Edge as an interexchange carrier on a 101XXXX basis, BellSouth will charge New Edge the appropriate BellSouth tariff charges for originating switched access services.
- 8.5.3 Where the originating Party delivers a call to the terminating Party over switched access facilities, the originating Party will pay the terminating Party terminating, switched access charges as set forth in BellSouth's intrastate Access Services Tariff and/or BellSouth's FCC No. 1 Tariff, as appropriate.

- 8.5.4 When New Edge's end office switch provides an access service connection to or from an IXC by a direct trunk group to the IXC utilizing BellSouth facilities, each Party will provide its own access services to the IXC and bill on a multi-bill, multi-tariff meet-point basis. Each Party will bill its own access services rates to the IXC with the exception of the interconnection charge. The interconnection charge will be billed by New Edge as the Party providing the end office function. Each party will use the Multiple Exchange Carrier Access Billing (MECAB) guidelines to establish Meet Point Billing for all applicable traffic. The Parties shall utilize a thirty (30) day billing period.
- 8.5.4.1 In cases where New Edge has a unique hosted Revenue Accounting Office (RAO) code and New Edge's end office subtends the BellSouth Access Tandem switch for receipt or delivery of switched access traffic and provides an access service connection to or from an IXC via BellSouth's Access Tandem switch, BellSouth, as the tandem company agrees to provide to New Edge, as the End Office Company, as defined in MECAB, at no charge, all the switched access detail usage data, recorded at the access tandem, within no more than sixty (60) days after the recording date. Each Party will notify the other when it is not feasible to meet these requirements. As business requirements change, data reporting requirements may be modified as necessary.
- 8.5.5 BellSouth, as the tandem provider company, will retain for a minimum period of sixty (60) days, access message detail sufficient to recreate any data that is lost or damaged by the tandem provider company or any third party involved in processing or transporting data.
- 8.6 Transit Traffic
- 8.6.1 BellSouth shall provide tandem switching and transport services for New Edge's Transit Traffic. Rates for local Transit Traffic and ISP-Bound Transit Traffic shall be the applicable rate elements for Tandem Switching, Common Transport and Tandem Intermediary Charge as set forth in Exhibit A. Rates for Switched Access Transit Traffic shall be the applicable charges as set forth in BellSouth's intrastate Access Services Tariff and/or BellSouth's FCC No. 1 Tariff. Billing associated with all Transit Traffic shall be pursuant to MECAB guidelines. Traffic between New Edge and Wireless Type 1 third parties or Wireless Type 2A third parties that do not engage in Meet Point Billing with BellSouth shall not be treated as Transit Traffic from a routing or billing perspective until such time as such traffic is identifiable as Transit Traffic.
- 8.6.2 The delivery of traffic that transits the BellSouth network is excluded from any BellSouth billing guarantees. BellSouth agrees to deliver Transit Traffic to the terminating carrier; provided, however, that New Edge is solely responsible for negotiating and executing any appropriate contractual agreements with the terminating carrier for the exchange of Transit Traffic through the BellSouth network. BellSouth will not be liable for any compensation to the terminating

carrier or to New Edge. In the event that the terminating third party carrier imposes on BellSouth any charges or costs for the delivery of Transit Traffic, New Edge shall reimburse BellSouth for such charges or costs.

- 8.7 For purposes of intercarrier compensation, BellSouth will not be responsible for any compensation associated with the exchange of traffic between New Edge and a CLEC utilizing BellSouth switching. Where technically feasible, BellSouth will use commercially reasonable efforts to provide records to New Edge to identify those CLECs utilizing BellSouth switching with whom New Edge has exchanged traffic. Such traffic shall not be considered Transit Traffic from a routing or billing perspective, but instead will be considered as traffic exchanged solely between New Edge and the CLEC utilizing BellSouth switching.
- 8.7.1 New Edge is solely responsible for negotiating and executing any appropriate contractual agreements with the terminating carrier for the exchange of traffic with a CLEC utilizing BellSouth switching. BellSouth will not be liable for any compensation to the terminating carrier or to New Edge. In the event that the terminating third party carrier imposes on BellSouth any charges or costs for the delivery of such traffic, New Edge shall reimburse BellSouth for all such charges or costs.
- 8.8 New Edge shall send all IntraLATA toll traffic to be terminated by an independent telephone company to the End User's IntraLATA toll provider and shall not send such traffic to BellSouth as Transit Traffic. IntraLATA toll traffic shall be any traffic that originates outside of the terminating independent telephone company's local calling area.

## **9 Ordering Charges**

- 9.1 The facilities purchased pursuant to this Attachment shall be ordered via the ASR process.
- 9.2 The rates, terms and conditions associated with submission and processing of ASRs are as set forth in BellSouth's FCC No. 1 Tariff, Section 5.

## **10 Basic 911 and E911 Interconnection**

- 10.1 Basic 911 and E911 provides a caller access to the applicable emergency service bureau by dialing 911.
- 10.2 Basic 911 Interconnection. BellSouth will provide to New Edge a list consisting of each municipality that subscribes to Basic 911 service. The list will also provide, if known, the E911 conversion date for each municipality and, for network routing purposes, a ten (10) digit directory number representing the appropriate emergency answering position for each municipality subscribing to 911. New Edge will be required to arrange to accept 911 calls from its end users in municipalities that subscribe to Basic 911 service and translate the 911 call to

the appropriate ten (10) digit directory number as stated on the list provided by BellSouth. New Edge will be required to route that call to the appropriate PSAP. When a municipality converts to E911 service, New Edge will be required to begin using E911 procedures.

10.3 E911 Interconnection. New Edge shall install a minimum of two (2) dedicated trunks originating from its SWC and terminating to the appropriate E911 tandem. The SWC must be in the same LATA as the E911 tandem. The dedicated trunks shall be, at a minimum, DS0 level trunks configured as part of a digital (one point five forty-four (1.544) Mb/s) interface (DS1 facility). The configuration shall use CAMA-type signaling with MF pulsing or SS7/ISUP signaling either of which shall deliver ANI with the voice portion of the call. If SS7/ISUP connectivity is used, New Edge shall follow the procedures as set forth in Appendix A of the CLEC Users Guide to E911 for Facility Based Providers that is located on the BellSouth Interconnection Web site. If the user interface is digital, MF pulses as well as other AC signals shall be encoded per the u-255 Law convention. New Edge will be required to provide BellSouth daily updates to the E911 database. New Edge will be required to forward 911 calls to the appropriate E911 tandem along with ANI based upon the current E911 end office to tandem homing arrangement as provided by BellSouth. If the E911 tandem trunks are not available, New Edge will be required to route the call to a designated seven (7) digit or ten (10) digit local number residing in the appropriate PSAP. This call will be transported over BellSouth's interoffice network and will not carry the ANI of the calling party. New Edge shall be responsible for providing BellSouth with complete and accurate data for submission to the 911/E911 database for the purpose of providing 911/E911 to its end users.

10.4 Trunks and facilities for 911 Interconnection may be ordered by New Edge from BellSouth pursuant to the terms and conditions set forth in this Attachment.

10.5 The detailed practices and procedures for 911/E911 interconnection are contained in the E911 Local Exchange Carrier Guide For Facility-Based Providers that is located on the BellSouth Interconnection Services Web site.

## **11 SS7 Network Interconnection**

11.1 SS7 Signaling. Both Parties will utilize LEC-to-LEC SS7 Signaling, where available, in conjunction with all traffic in order to enable interoperability of CLASS features and functions except for call return. SS7 signaling parameters will be provided, including but not limited to ANI, originating line information (OLI) calling company category and charge number. Privacy indicators will be honored, and the Parties will exchange Transactional Capabilities Application Part (TCAP) messages to facilitate SS7 based features between the respective networks. Neither Party shall alter the SS7 parameters, or be a party to altering such parameters, or knowingly pass SS7 parameters that have been altered in order to circumvent appropriate interconnection charges. Nothing herein shall obligate

or otherwise require BellSouth to send SS7 messages or call-related database queries to New Edge's or any other third party's call-related database, unless otherwise agreed to by the Parties under a separate agreement.

- 11.2      Signaling Call Information. BellSouth and New Edge will send and receive ten (10) digits for Local Traffic. Additionally, BellSouth and New Edge will exchange the proper call information, (i.e., originated call company number and destination call company number, CIC, and OZZ) including all proper translations for routing between networks and any information necessary for billing.
- 11.3      SS7 Network Interconnection is the interconnection of New Edge LSTP switches or New Edge local or tandem switching systems with BellSouth STP switches. This interconnection provides connectivity that enables the exchange of SS7 messages among BellSouth switching systems and databases, New Edge local or tandem switching systems, and other third party switching systems directly connected to the BellSouth SS7 network.
- 11.3.1      The connectivity provided by SS7 Network Interconnection shall fully support the functions of BellSouth switching systems and databases and New Edge or other third party switching systems with A-link access to the BellSouth SS7 network.
- 11.3.2      If traffic is routed based on dialed or translated digits between a New Edge local switching system and a BellSouth or other third party local switching system, either directly or via a BellSouth tandem switching system, then it is a requirement that the BellSouth SS7 network convey via SS7 Network Interconnection the TCAP messages that are necessary to provide Call Management services (i.e., Automatic Callback, Automatic Recall, and Screening List Editing) between the New Edge LSTP switches and BellSouth or other third party local switch.
- 11.3.3      SS7 Network Interconnection shall provide:
- 11.3.3.1      Signaling Data Link functions, as specified in ANSI T1.111.2;
- 11.3.3.2      Signaling Link functions, as specified in ANSI T1.111.3; and
- 11.3.3.3      Signaling Network Management functions, as specified in ANSI T1.111.4.
- 11.3.4      SS7 Network Interconnection shall provide all functions of the SCCP necessary for Class 0 (basic connectionless) service as specified in ANSI T1.112. This includes GTT and SCCP Management procedures as specified in ANSI T1.112.4. Where the destination signaling point is a BellSouth switching system or DB, or is another third party local or tandem switching system directly connected to the BellSouth SS7 network, SS7 Network Interconnection shall include final GTT of messages to the destination and SCCP Subsystem Management of the destination. Where the destination signaling point is a New Edge local or tandem switching system, SS7 Network Interconnection shall include intermediate GTT of messages

to a gateway pair of New Edge LSTPs and shall not include SCCP Subsystem Management of the destination.

- 11.3.5 SS7 Network Interconnection shall provide all functions of the ISUP as specified in ANSI T1.113.
- 11.3.6 SS7 Network Interconnection shall provide all functions of the TCAP as specified in ANSI T1.114.
- 11.3.7 If Internetwork MRVT and SRVT become approved ANSI standards and available capabilities of BellSouth STPs, SS7 Network Interconnection may provide these functions of the OMAP.
- 11.4 Interface Requirements. The following SS7 Network Interconnection interface options are available to connect New Edge or New Edge-designated local or tandem switching systems or signaling transfer point switches to the BellSouth SS7 network:
  - 11.4.1 A-link interface from New Edge local or tandem switching systems; and
  - 11.4.2 B-link interface from New Edge STPs.
  - 11.4.3 The Signaling Point of Interconnection for each link shall be located at a cross-connect element in the central office where the BellSouth STP is located. There shall be a DS1 or higher rate transport interface at each of the signaling points of interconnection. Each signaling link shall appear as a DS0 channel within the DS1 or higher rate interface.
  - 11.4.4 BellSouth shall provide intraoffice diversity between the Signaling Point of Interconnection and the BellSouth STP, so that no single failure of intraoffice facilities or equipment shall cause the failure of both B-links in a layer connecting to a BellSouth STP.
  - 11.4.5 The protocol interface requirements for SS7 Network Interconnection include the MTP, ISUP, SCCP, and TCAP. These protocol interfaces shall conform to the applicable industry standard technical references.
  - 11.4.6 BellSouth shall set message screening parameters to accept messages from New Edge local or tandem switching systems destined to any signaling point in the BellSouth SS7 network with which the New Edge switching system has a valid signaling relationship.
- 11.5 Rates. The Parties shall institute a “bill and keep” compensation plan under which neither Party will charge the other Party recurring and nonrecurring charges as set forth in Exhibit A for CCS7 signaling messages associated with Local Traffic. The portion of CCS7 signaling messages utilized for Local Traffic, which are subject to bill and keep in accordance with this section, shall be determined based upon the

application of the applicable signaling factors set forth in BellSouth's Jurisdictional Factors Reporting Guide. The remaining portion of the CCS7 signaling messages, signaling ports, and signaling links, i.e. the portion associated with interstate calls and with intrastate non-local calls, shall be billed in accordance with the applicable BellSouth intrastate Access Services Tariff and BellSouth's FCC No. 1 Tariff for switched access services.

## BELLSOUTH COLLOCATION

### 1. Scope of Attachment

#### 1.1 BellSouth Premises

1.1.1 The rates, terms and conditions contained within this Attachment shall only apply when New Edge is physically collocated as a sole occupant or as a Host within a BellSouth Premises pursuant to this Attachment. BellSouth Premises, as defined in this Attachment includes BellSouth Central Offices, and Remote Terminals (hereinafter “BellSouth Premises”). This Attachment is applicable to BellSouth Premises owned or leased by BellSouth. Where not specified, the language in this Attachment applies to both Central Office and Remote Site Collocation.

1.1.2 Third Party Property. If the BellSouth Premises, or the property on which it is located, is leased by BellSouth from a third party or otherwise controlled by a third party, special considerations and intervals may apply in addition to the terms and conditions of this Attachment. Additionally, where BellSouth notifies New Edge that BellSouth’s agreement with a third party does not grant BellSouth the ability to provide access and use rights to others, upon New Edge’s request, BellSouth will use commercially reasonable efforts to obtain the owner’s consent and to otherwise secure such rights for New Edge. New Edge agrees to reimburse BellSouth for all costs incurred by BellSouth in obtaining such rights for New Edge. In cases where a third party agreement does not grant BellSouth the right to provide access and use rights to others as contemplated by this Attachment and BellSouth, is unable to secure such access and use rights for New Edge, New Edge shall be responsible for obtaining such permission to access and use such property. BellSouth shall cooperate with New Edge in obtaining such permission.

#### 1.2 Right to Occupy

1.2.1 BellSouth shall offer to New Edge collocation on rates, terms and conditions that are just, reasonable, nondiscriminatory and consistent with the rules of the FCC. Subject to the rates, terms and conditions of this Attachment, where space is available and it is technically feasible, BellSouth will allow New Edge to occupy a certain area designated by BellSouth within a BellSouth Premises, or on BellSouth property upon which the BellSouth Premises is located, of a size which is specified by New Edge and agreed to by BellSouth (hereinafter “Collocation Space”). Except as otherwise specified, any references to Collocation Space shall be for physical collocation. The necessary rates, terms and conditions for a premises as defined by the FCC, other than BellSouth Premises, shall be negotiated upon reasonable request for collocation at such premises.

1.2.2 Neither BellSouth nor any of BellSouth’s affiliates may reserve space for future use on more preferential terms than those set forth in this Attachment.

1.2.2.1 In all states other than Florida, the size specified by New Edge may contemplate a request for space sufficient to accommodate New Edge’s growth within a twenty-four (24) month period.

- 1.2.2.2 In the state of Florida, the size specified by New Edge may contemplate a request for space sufficient to accommodate New Edge's growth within an eighteen (18) month period.
- 1.3 Space Allocation. BellSouth shall assign New Edge Collocation Space that utilizes existing infrastructure (e.g., heating, ventilation, air conditioning (HVAC), lighting and available power), if such space is available for collocation. Otherwise, BellSouth shall attempt to accommodate New Edge's requested space preferences, if any, including the provision of contiguous space for any subsequent request for collocation. In allocating Collocation Space, BellSouth shall not materially increase New Edge's cost or materially delay New Edge's occupation and use of the Collocation Space, assign Collocation Space that will impair the quality of service or otherwise limit the service New Edge wishes to offer, reduce unreasonably the total space available for physical collocation or preclude reasonable physical collocation within the BellSouth Premises. Space shall not be available for collocation if it is: (a) physically occupied by non-obsolete equipment; (b) assigned to another collocated telecommunications carrier; (c) used to provide physical access to occupied space; (d) used to enable technicians to work on equipment located within occupied space; (e) properly reserved for future use, either by BellSouth or another collocated telecommunications carrier; or (f) essential for the administration and proper functioning of the BellSouth Premises. BellSouth may segregate Collocation Space and require separate entrances for collocated telecommunications carriers to access their Collocation Space, pursuant to FCC Rules.
- 1.4 Transfer of Collocation Space
- 1.4.1 New Edge shall be allowed to transfer Collocation Space to another CLEC under the following conditions: (1) the BellSouth Premises is not at or near space exhaustion; (2) the transfer of space shall be contingent upon BellSouth's approval, which will not be unreasonably withheld; (3) New Edge has no unpaid, undisputed collocation charges; and (4) the transfer of the Collocation Space is in conjunction with New Edge's sale of all or substantially all, of the in-place collocation equipment to the same CLEC.
- 1.4.2 The responsibilities of New Edge shall include: (1) submitting a letter of authorization to BellSouth for the transfer; (2) entering into a transfer agreement with BellSouth and the acquiring CLEC; and (3) returning all Security Access Devices to BellSouth. The responsibilities of the acquiring CLEC shall include: (1) submitting an application to BellSouth for the transfer of the Collocation Space; (2) satisfying all requirements of its interconnection agreement with BellSouth; (3) submitting a letter to BellSouth for the assumption of services; and (4) entering into a transfer agreement with BellSouth and New Edge.
- 1.4.3 In conjunction with a transfer of Collocation Space, any services associated with the Collocation Space shall be transferred pursuant to separately negotiated rates, terms and conditions.

1.5        Space Reclamation

- 1.5.1        In the event of space exhaust within a BellSouth Premises, BellSouth may include in its documentation for the Petition for Waiver filed with the Commission, any unutilized space in the BellSouth Premises. New Edge will be responsible for the justification of unutilized space within its Collocation Space, if the Commission requires such justification.
- 1.5.2        BellSouth may reclaim unused Collocation Space when a BellSouth Premises is at, or near, space exhaustion and New Edge cannot demonstrate that New Edge will utilize the Collocation Space in the time frames set forth below in Section 1.5.3. In the event of space exhaust or near exhaust within a BellSouth Premises, BellSouth will provide written notice to New Edge requesting that New Edge release non-utilized Collocation Space to BellSouth, when one hundred percent (100%) of the Collocation Space in New Edge's collocation arrangement is not being utilized.
- 1.5.3        Within twenty (20) days of receipt of written notification from BellSouth, New Edge shall either: (1) return the non-utilized Collocation Space to BellSouth in which case New Edge shall be relieved of all obligations for charges associated with that portion of the Collocation Space applicable from the date the Collocation Space is returned to BellSouth; or (2) for all states, with the exception of Florida, provide BellSouth with information demonstrating that the Collocation Space will be utilized within twenty-four (24) months from the date New Edge accepted the Collocation Space (Acceptance Date) from BellSouth. For Florida, New Edge shall provide information to BellSouth demonstrating that the Collocation Space will be utilized within eighteen (18) months from the Acceptance Date.
- 1.5.4        Disputes concerning BellSouth's claim of space exhaust, or near exhaust, or New Edge's refusal to return requested Collocation Space should be resolved by BellSouth and New Edge pursuant to the dispute resolution language contained in the General Terms and Conditions.
- 1.6        Use of Space. New Edge may only place in the Collocation Space equipment necessary for interconnection with BellSouth's services/facilities or for accessing BellSouth's unbundled network elements for the provision of Telecommunications Services, as specifically set forth in this Agreement. The Collocation Space assigned to New Edge may not be used for any purposes other than as specifically described herein, including, but not limited to office space or a place of reporting for New Edge's employees or certified suppliers.
- 1.7        Rates and Charges. New Edge agrees to pay the rates and charges identified in Exhibit B.
- 1.8        Due Dates. If any due date contained in this Attachment falls on a weekend or a national holiday, then the due date will be the next business day thereafter. For intervals of ten (10) days or less, national holidays will be excluded. For purposes

of this Attachment, national holidays include the following: New Year's Day, Martin Luther King, Jr. Day, President's Day (Washington's Birthday), Memorial Day, Independence Day, Labor Day, Columbus Day, Veteran's Day, Thanksgiving Day and Christmas Day.

- 1.9 Compliance. Subject to Section 24 of the General Terms and Conditions of this Agreement, the Parties agree to comply with all applicable federal, state, county, local and administrative laws, rules, ordinances, regulations and codes in the performance of their obligations hereunder.

## **2 Optional Reports**

- 2.1 Space Availability Report. Upon request from New Edge and at New Edge's expense, BellSouth will provide a written report (Space Availability Report) describing in detail the space that is currently available for collocation at a particular BellSouth Premises. This report will include the amount of Collocation Space available at the BellSouth Premises requested, the number of collocators present at the BellSouth Premises, any modifications in the use of the space since the last report on the BellSouth Premises requested and the measures BellSouth is taking to make additional space available for collocation arrangements. A Space Availability Report does not reserve space at the BellSouth Premises for which the Space Availability Report was requested by New Edge.
- 2.1.1 The request from New Edge for a Space Availability Report must be in writing and include the BellSouth Premises street address, as identified in the LERG, and the CLLI code for the BellSouth Premises requested. CLLI code information is located in the NECA Tariff FCC No. 4.
- 2.1.2 BellSouth will respond to a request for a Space Availability Report for a particular BellSouth Premises within ten (10) days of the receipt of such request.
- 2.1.3 BellSouth will use commercially reasonable efforts to respond in ten (10) days to a Space Availability Report request when the request includes from two (2) to five (5) BellSouth Premises within the same state. The response time for Space Availability Report requests of more than five (5) BellSouth Premises, whether the request is for the same state or for two (2) or more states within the BellSouth Region, shall be negotiated between the Parties.
- 2.2 Remote Terminal Information. Upon request, BellSouth will provide New Edge with the following information concerning BellSouth's remote terminals: (i) the address of the remote terminal; (ii) the CLLI code of the remote terminal; (iii) the carrier serving area of the remote terminal; (iv) the designation of which remote terminals subtend a particular central office; and (v) the number and address of customers that are served by a particular remote terminal.
- 2.2.1 BellSouth will provide this information within thirty (30) days of a New Edge request subject to the following conditions: (i) the information will only be provided on a CD in the same format in which it appears in BellSouth's systems; and (ii) the information will only be provided for each serving wire center designated by New Edge, up to a maximum of thirty (30) wire centers per New

Edge request per month per state. BellSouth will bill the nonrecurring charge pursuant to the rates in Exhibit B at the time BellSouth sends the CD.

### **3 Collocation Options**

3.1 Cageless Collocation. BellSouth shall allow New Edge to collocate New Edge's equipment and facilities without requiring the construction of a cage or similar structure. BellSouth shall allow New Edge to have direct access to New Edge's equipment and facilities in accordance with Section 5.1.2 below. BellSouth shall make cageless collocation available in single bay increments. Except where New Edge's equipment requires special technical considerations (e.g., special cable racking or isolated ground plane), BellSouth shall assign cageless Collocation Space in conventional equipment rack lineups where feasible. For equipment requiring special technical considerations, New Edge must provide the equipment layout, including spatial dimensions for such equipment pursuant to generic requirements contained in Telcordia GR-63-Core, and shall be responsible for compliance with all special technical requirements associated with such equipment.

### **3.2 Caged Collocation**

3.2.1 BellSouth will make caged Collocation Space in Central Offices available in fifty (50) square foot increments. At New Edge's option and expense, New Edge will arrange with a Supplier certified by BellSouth (BellSouth Certified Supplier) to construct a collocation arrangement enclosure in accordance with BellSouth's specifications for a wire mesh enclosure prior to starting equipment installation. Where local building codes require enclosure specifications more stringent than BellSouth's wire mesh enclosure specifications, New Edge and New Edge's BellSouth Certified Supplier must comply with the more stringent local building code requirements. New Edge's BellSouth Certified Supplier shall be responsible for filing and obtaining any and all necessary permits and/or licenses for such construction. BellSouth or BellSouth's designated agent or contractor shall provide, at New Edge's expense, documentation, which may include existing building architectural drawings, enclosure drawings, specifications, etc., necessary for New Edge's BellSouth Certified Supplier to obtain all necessary permits and/or other licenses. New Edge's BellSouth Certified Supplier shall bill New Edge directly for all work performed for New Edge. BellSouth shall have no liability for, nor responsibility to pay, such charges imposed by New Edge's BellSouth Certified Supplier. New Edge must provide the local BellSouth Central Office Building Contact with two (2) Access Keys that will allow entry into the locked enclosure. Except in the case of an emergency, BellSouth will not access New Edge's locked enclosure prior to notifying New Edge at least forty-eight (48) hours or two (2) business days, whichever is greater, before access to New Edge's Collocation Space is required. Upon request, BellSouth shall construct the enclosure for New Edge.

3.2.2 In the event New Edge's BellSouth Certified Supplier will construct the collocation arrangement enclosure, BellSouth may elect to review New Edge's

plans and specifications, prior to allowing the construction to start, to ensure compliance with BellSouth's wire mesh enclosure specifications. BellSouth will notify New Edge of its desire to conduct this review in BellSouth's Application Response, as defined herein, to New Edge's Initial Application. If New Edge's Initial Application does not indicate its desire to construct its own enclosure and New Edge subsequently decides to construct its own enclosure prior to BellSouth's Application Response, then New Edge will resubmit its Initial Application, indicating its desire to construct its own enclosure. If New Edge subsequently decides construct its own enclosure after the bona fide firm order (hereinafter "BFFO") has been accepted by BellSouth, New Edge will submit a Subsequent Application, as defined in Section 6.2 below. If BellSouth elects to review New Edge's plans and specifications, then BellSouth will provide notification to New Edge within ten (10) days after the Initial Application BFFO date or, if a Subsequent Application is submitted as set forth in the preceding sentence, then the Subsequent Application BFFO date. BellSouth shall complete its review within fifteen (15) days after BellSouth's receipt of New Edge's plans and specifications. Regardless of whether or not BellSouth elects to review New Edge's plans and specifications, BellSouth reserves the right to inspect the enclosure after construction has been completed to ensure that it is constructed according to New Edge's submitted plans and specifications and/or BellSouth's wire mesh enclosure specifications, as applicable. If BellSouth decides to inspect the constructed Collocation Space, BellSouth will complete its inspection within fifteen (15) days after receipt of New Edge's written notification that the enclosure has been completed. Within seven (7) days after BellSouth has completed its inspection of New Edge's caged Collocation Space, BellSouth shall require New Edge, at New Edge's expense, to remove or correct any structure that does not meet New Edge's plans and specifications or BellSouth's wire mesh enclosure specifications, as applicable.

### 3.3 Shared Caged Collocation

3.3.1 New Edge may allow other telecommunications carriers to share New Edge's caged Collocation Space, pursuant to the terms and conditions agreed to by New Edge (Host) and the other telecommunications carriers (Guests) contained in this Section, except where the BellSouth Premises is located within a leased space and BellSouth is prohibited by said lease from offering such an option to New Edge. BellSouth shall be notified in writing by New Edge upon the execution of any agreement between the Host and its Guest(s) prior to the submission of an application. Further, such notification shall include the name of the Guest(s), the term of the agreement, and a certification by New Edge that said agreement imposes upon the Guest(s) the same terms and conditions for Collocation Space as set forth in this Attachment between BellSouth and New Edge. The term of the agreement between the Host and its Guest(s) shall not exceed the term of this Agreement between BellSouth and New Edge.

3.3.2 New Edge, as the Host, shall be the sole interface and responsible Party to BellSouth for the assessment and billing of rates and charges contained within this

Attachment and for the purposes of ensuring that the safety and security requirements of this Attachment are fully complied with by the Guest(s), its employees and agents. BellSouth shall provide New Edge with a pro-ration of the costs of the Collocation Space based on the number of collocators and the space used by each. There will be a minimum charge of one (1) bay/rack per Host/Guest. In addition to the above, for all states other than Florida, New Edge shall be the responsible Party to BellSouth for the purpose of submitting applications for initial and additional equipment placement for the Guest(s). In Florida, the Guest(s) may submit its own Initial Application and Subsequent Applications for equipment placement using the Host's ACNA. A separate Guest application shall result in the assessment of an Initial Application Fee or a Subsequent Application Fee, as set forth in Exhibit B, which will be billed to the Host on the date that BellSouth provides its written Application Response to the Guest(s) Bona Fide application.

3.3.3 Notwithstanding the foregoing, the Guest(s) may submit service orders directly to BellSouth to request the provisioning of interconnecting facilities between BellSouth and the Guest(s), the provisioning of services, and/or access to Network Elements. The bill for these interconnecting facilities, services and Network Elements will be charged to the Guest(s) pursuant to the applicable BellSouth Tariff or the Guest's Interconnection Agreement with BellSouth.

3.3.4 New Edge shall indemnify and hold harmless BellSouth from any and all claims, actions, causes of action, of whatever kind or nature arising out of the presence of New Edge's Guest(s) in the Collocation Space, except to the extent caused by BellSouth's sole negligence, gross negligence, or willful misconduct.

### 3.4 Adjacent Collocation

3.4.1 Subject to technical feasibility and space availability, BellSouth will permit an adjacent collocation arrangement (Adjacent Arrangement) on BellSouth Premises' property only when space within the requested BellSouth Premises is legitimately exhausted and where the Adjacent Arrangement does not interfere with access to existing or planned structures or facilities on the BellSouth Premises' property. An Adjacent Arrangement shall be constructed or procured by New Edge or New Edge's BellSouth Certified Supplier and must be in conformance with the provisions of BellSouth's design and construction specifications. Further, New Edge shall construct, procure, maintain and operate said Adjacent Arrangement pursuant to all of the applicable rates, terms and conditions set forth in this Attachment.

3.4.2 If New Edge requests Adjacent Collocation, pursuant to the conditions stated in Section 3.4 above, New Edge must arrange with a BellSouth Certified Supplier to construct or procure the Adjacent Arrangement structure in accordance with BellSouth's specifications. BellSouth will provide the appropriate specifications upon request. Where local building codes require specifications more stringent than BellSouth's own specifications, New Edge and New Edge's BellSouth Certified Supplier shall comply with the more stringent local building code

requirements. New Edge's BellSouth Certified Supplier shall be responsible for filing and obtaining any and all necessary zoning, permits and/or licenses for such construction. New Edge's BellSouth Certified Supplier shall bill New Edge directly for all work performed for New Edge to comply with this Attachment. BellSouth shall have no liability for, nor responsibility to pay such charges imposed by New Edge's BellSouth Certified Supplier. New Edge must provide the local BellSouth contact with two (2) cards, keys or other access devices used to gain entry into the locked enclosure. Except in the case of an emergency, BellSouth will not access New Edge's locked enclosure prior to notifying New Edge at least forty-eight (48) hours or two (2) business days, whichever is greater, before access to the Collocation Space is required.

3.4.3 New Edge must submit its Adjacent Arrangement construction plans and specifications to BellSouth when it places its Firm Order. BellSouth shall review New Edge's plans and specifications prior to the construction of an Adjacent Arrangement to ensure New Edge's compliance with BellSouth's specifications. BellSouth shall complete its review within fifteen (15) days after receipt of the plans and specifications from New Edge for the Adjacent Arrangement. BellSouth may inspect the Adjacent Arrangement during and after construction is completed to ensure that it is constructed according to New Edge's submitted plans and specifications. If BellSouth decides to inspect the completed Adjacent Arrangement, BellSouth will complete its inspection within fifteen (15) days after receipt of New Edge's written notification that the Adjacent Arrangement has been completed. Within seven (7) days after BellSouth has completed its inspection of New Edge's Adjacent Arrangement, BellSouth shall require New Edge, at New Edge's expense, to remove or correct any structure that does not meet its submitted plans and specifications or BellSouth's specifications, as applicable.

3.4.4 New Edge shall provide a concrete pad, the structure housing the Adjacent Arrangement, HVAC, lighting and all of the facilities that are required to connect the structure (i.e., racking, conduits, etc.) to the BellSouth point of demarcation. At New Edge's option and where the local authority having jurisdiction permits, BellSouth shall provide an AC power source and access to physical Collocation services and facilities, subject to the same nondiscriminatory requirements as those applicable to any other physical Collocation arrangement. In Alabama and Louisiana, at New Edge's request and expense, BellSouth will provide Direct Current (DC) power to an Adjacent Collocation site where technically feasible, as that term has been defined by the FCC, and in accordance with applicable law. BellSouth will provide DC power in an Adjacent Arrangement provided that such provisioning can be done in compliance with the National Electric Code (NEC), all safety and building codes and any local codes, such as, but not limited to, local zoning codes, and upon completion of negotiations between the Parties on the applicable rates and provisioning intervals. New Edge will pay for any and all DC power construction and provisioning costs to an Adjacent Arrangement through individual case basis (ICB) pricing that must be paid as follows: fifty percent (50%) before the DC installation work begins and fifty percent (50%) at

completion of the DC installation work to the Adjacent Arrangement. New Edge's BellSouth Certified Supplier shall be responsible, at New Edge's sole expense, for filing the required documentation to obtain any and all necessary permits and/or licenses for an Adjacent Arrangement. BellSouth shall allow Shared Caged Collocation within an Adjacent Arrangement, pursuant to the terms and conditions set forth in Section 3.3 above.

### 3.5 Direct Connect

3.5.1 BellSouth will permit New Edge to directly interconnect between its own physical/virtual Collocation Spaces within the same BellSouth Premises (Direct Connect). New Edge shall contract with a BellSouth Certified Supplier to place the Direct Connect, which shall be provisioned using facilities owned by New Edge. A Direct Connect shall utilize BellSouth common cable support structure. There will be a recurring charge per linear foot, per cable, of the actual common cable support structure used by New Edge to provision the Direct Connect between its physical/virtual Collocation Spaces. In those instances where New Edge's physical/virtual Collocation Spaces are contiguous in the central office, New Edge will have the option of using New Edge's own technicians to deploy the Direct Connect using either electrical or optical facilities between its Collocation Spaces by constructing its own dedicated cable support structure. New Edge will deploy such electrical or optical connections directly between its own equipment without being routed through BellSouth's equipment or common cable support structure. New Edge may not self-provision a Direct Connect on any BellSouth distribution frame, Point of Termination (POT) Bay, Digital System Cross-Connect (DSX) panel or Light Guide Cross-Connect (LGX) panel. New Edge is solely responsible for ensuring the integrity of the signal.

3.5.2 To place an order for a Direct Connect, New Edge must submit an Initial Application or Subsequent Application to BellSouth. If no modification to the Collocation Space is requested other than the placement of a Direct Connect, the Co-Carrier Cross Connect/Direct Connect Application Fee for Direct Connect, as defined in Exhibit B, will apply. If other modifications are requested, in addition to the placement of a Direct Connect, either an Initial Application Fee or a Subsequent Application Fee will apply, pursuant to Section 6.2 below. BellSouth will bill this nonrecurring charge on the date that BellSouth provides an Application Response to New Edge.

### 3.6 Co-Carrier Cross Connect (CCXC)

3.6.1 A CCXC is a cross connection between New Edge and another collocated telecommunications carrier, other than BellSouth, in the same BellSouth Premises. Where technically feasible, BellSouth will permit New Edge to interconnect between its Collocation Space(s) and the physical/virtual collocation space(s) of another collocated telecommunications carrier(s) within the same BellSouth Premises via a CCXC, pursuant to the FCC's Rules. The other collocated telecommunications carrier's agreement must also contain CCXC rates, terms and conditions before BellSouth will permit the provisioning of a

CCXC between the two (2) collocated carriers. The applicable BellSouth charges will be assessed to New Edge upon New Edge's request for the CCXC. New Edge is prohibited from using the Collocation Space for the sole or primary purpose of cross-connecting to other collocated telecommunications carriers.

- 3.6.2 New Edge must contract with a BellSouth Certified Supplier to place the CCXC. The CCXC shall be provisioned using facilities owned by New Edge. Such cross-connections to other collocated telecommunications carriers may be made using either electrical or optical facilities. New Edge shall be responsible for providing a LOA, with the application, to BellSouth from the other collocated telecommunications carrier to which it will be cross-connecting. The CCXC shall utilize BellSouth common cable support structure. There will be a recurring charge per linear foot, per cable, of the common cable support structure used by New Edge to provision the CCXC to the other collocated telecommunications carrier. In those instances where New Edge's equipment and the equipment of the other collocated telecommunications carrier are located in contiguous caged Collocation Space, New Edge may use its own technicians to install the CCXC using either electrical or optical facilities between the equipment of both collocated telecommunications carriers by constructing a dedicated cable support structure between the two (2) contiguous cages. New Edge shall deploy such electrical or optical cross-connections directly between its own equipment and the equipment of the other collocated telecommunications carrier without being routed through BellSouth's equipment or, in the case of a CCXC provisioned between contiguous collocation spaces, common cable support structure. New Edge shall not provision CCXC on any BellSouth distribution frame, POT Bay, DSX panel or LGX panel. New Edge is solely responsible for ensuring the integrity of the signal.

- 3.6.3 To place an order for a CCXC, New Edge must submit an application to BellSouth. If no modification to the Collocation Space is requested other than the placement of a CCXC, the Co-Carrier Cross Connect/Direct Connect Application Fee for a CCXC, as defined in Exhibit B, will apply. If other modifications are requested, in addition to the placement of a CCXC, either an Initial Application or a Subsequent Application Fee will apply, pursuant to Section 6.2 below. BellSouth will bill this nonrecurring charge on the date that it provides an Application Response to New Edge.

#### **4 Occupancy**

- 4.1 Space Ready Notification. BellSouth will notify New Edge in writing when the Collocation Space is ready for occupancy (Space Ready Date).

- 4.2 Acceptance Walkthrough. New Edge will schedule and complete an acceptance walkthrough of new or additional provisioned Collocation Space with BellSouth within fifteen (15) days after the Space Ready Date. BellSouth will correct any identified deviations from New Edge's original or jointly amended application within seven (7) days after the walkthrough, unless the Parties mutually agree upon a different time frame. BellSouth will then establish a new Space Ready

Date. Another acceptance walkthrough will be scheduled and conducted within fifteen (15) days after the new Space Ready Date. This follow-up acceptance walkthrough will be limited to only those deviations identified in the initial walkthrough. If New Edge completes its acceptance walkthrough within the fifteen (15) day interval associated with the applicable Space Ready Date, billing will begin upon the date of New Edge's acceptance of the Collocation Space (Space Acceptance Date). In the event New Edge fails to complete an acceptance walkthrough within the fifteen (15) day interval associated with the applicable Space Ready Date, the Collocation Space shall be deemed accepted by New Edge on the Space Ready Date and billing will commence from that date.

4.3 Early Space Acceptance. If New Edge decides to occupy the Collocation Space prior to the Space Ready Date, the date New Edge executes the Agreement for Customer Access and Acceptance to Unfinished Collocation Space is the date that will be deemed the Space Acceptance Date and billing will begin from that date.

4.4 Equipment Installation. New Edge shall notify BellSouth in writing that its collocation equipment installation is complete. New Edge's collocation equipment installation is complete when New Edge's equipment is connected to BellSouth's network for the purpose of provisioning Telecommunication Services to New Edge's customers. BellSouth may refuse to accept any orders for cross-connects until it has received such notice from New Edge.

4.5 Termination of Occupancy.

4.5.1 In addition to any other provisions addressing termination of occupancy in this Agreement, New Edge may terminate its occupancy of a particular Collocation Space by submitting a Subsequent Application requesting termination of occupancy for such Collocation Space. Such termination shall be effective upon BellSouth's acceptance of the Space Relinquishment Form. Billing for monthly recurring charges will cease on the date that New Edge and BellSouth conduct an inspection of the terminated space and jointly sign off on the Space Relinquishment Form or on the date that New Edge signs off on the Space Relinquishment Form and sends this form to BellSouth, provided no discrepancies are found during BellSouth's subsequent inspection of the terminated space. If the subsequent inspection by BellSouth reveals any discrepancies, billing will cease on the date that BellSouth and New Edge jointly conduct an inspection, confirming that New Edge has corrected all of the noted discrepancies identified by BellSouth. A Subsequent Application Fee will not apply for the termination of occupancy; however, specific disconnect fees may apply to the services terminating to such Collocation Space. The particular disconnect fees that would apply in each state are contained in Exhibit B.

4.5.2 Upon termination of occupancy, New Edge, at its sole expense, shall remove its equipment and any other property owned, leased or controlled by New Edge from the Collocation Space. New Edge shall have thirty (30) days from the Bona Fide Firm Order (BFFO) date (Termination Date) to complete such removal, including the removal of all equipment and facilities of New Edge's Guest(s), unless New

Edge's Guest(s) has assumed responsibility for the Collocation Space housing the Guest(s)'s equipment and executed the appropriate documentation required by BellSouth to transfer the Collocation Space to the Guest(s) prior to New Edge's Termination Date.

4.5.3 New Edge shall continue the payment of all monthly recurring charges to BellSouth until the date New Edge, and if applicable New Edge's Guest(s), has fully vacated the Collocation Space and the Space Relinquishment Form has been accepted by BellSouth. If New Edge or New Edge's Guest(s) fails to vacate the Collocation Space within thirty (30) days from the Termination Date, BellSouth shall have the right to remove and dispose of the equipment and any other property of New Edge or New Edge's Guest(s), in any manner that BellSouth deems fit, at New Edge's expense and with no liability whatsoever for New Edge's property or New Edge's Guest(s) property.

4.5.4 Upon termination of New Edge's right to occupy specific Collocation Space, the Collocation Space will revert back to BellSouth's central office space inventory. New Edge shall surrender the Collocation Space to BellSouth in the same condition as when it was first occupied by New Edge, with the exception of ordinary wear and tear, unless otherwise agreed to by the Parties. New Edge's BellSouth Certified Supplier shall be responsible for updating and making any necessary changes to BellSouth's records as required by BellSouth specifications including, but not limited to, BellSouth's Central Office Record Drawings and ERMA Records. New Edge shall be responsible for the cost of removing any New Edge constructed enclosure, as well as any supporting structures (e.g., racking, conduits, power cables, etc.), by the Termination Date and restoring the grounds to their original condition.

## **5 Use of Collocation Space**

### **5.1 Equipment Type**

5.1.1 BellSouth shall permit the collocation and use of any equipment necessary for interconnection to BellSouth's network and/or access to BellSouth's unbundled network elements in the provision of Telecommunications Services, as the term "necessary" is defined by FCC 47 C.F.R. § 51.323 (b). The primary purpose and function of any equipment collocated in a BellSouth Premises must be for interconnection to BellSouth's network or access to BellSouth's unbundled network elements in the provision of Telecommunications Services. Equipment is necessary for interconnection if an inability to deploy that equipment would, as a practical, economical, or operational matter, preclude the requesting carrier from obtaining interconnection with BellSouth at a level equal in quality to that which BellSouth obtains within its own network or what BellSouth provides to any affiliate, subsidiary, or other party.

5.1.2 Examples of equipment that would not be considered necessary include, but are not limited to: traditional circuit switching equipment, equipment used exclusively for call-related databases, computer servers used exclusively for providing information services, OSS equipment used to support collocated

telecommunications carrier network operations, equipment that generates customer orders, manages trouble tickets or inventory, or stores customer records in centralized databases, etc. BellSouth will determine upon receipt of an application if the requested equipment is necessary based on the criteria established by the FCC. Multifunctional equipment placed on a BellSouth Premises must not place any greater relative burden on BellSouth's property than comparable single-function equipment. BellSouth reserves the right to allow the collocation of any equipment on a nondiscriminatory basis.

- 5.1.3 Such equipment must, at a minimum, meet the following Telcordia Network Equipment Building Systems (NEBS) General Equipment Requirements: for Central Offices Criteria Level 1 requirements as outlined in Telcordia Special Report SR-3580, Issue 1 and for Remote Sites Criteria Level 3 requirements as outlined in the Telcordia Special report SR-3580, Issue 1. Except where otherwise required by a Commission, BellSouth shall comply with the applicable FCC rules relating to denial of collocation equipment based on New Edge's failure to comply with this Section.
- 5.1.3.1 To the extent New Edge wishes to place equipment in its collocation that does not meet the standards set forth in 5.1.3, New Edge may request in writing, pursuant to the Notices section of the General Terms & Conditions, a waiver to such standards. BellSouth may provide a waiver in its sole discretion.
- 5.1.4 At a Remote Site, all New Edge equipment installation shall comply with BellSouth TR 73503-11h, "Grounding - Engineering Procedures". Metallic cable sheaths and metallic strength members of optical fiber cables as well as the metallic cable sheaths of all copper conductor cables shall be bonded to the designated grounding bus for the Remote Site Location. All copper conductor pairs, working and non-working, shall be equipped with a solid-state protector unit (over-voltage protection only), which has been listed by a nationally recognized testing laboratory.
- 5.2 Terminations. New Edge shall not request more DS0, DS1, DS3 and/or optical terminations for a collocation arrangement than the total port or termination capacity of the equipment physically installed in the Collocation Space. The total capacity of the equipment collocated in the Collocation Space will include equipment contained in an application, as well as any equipment already placed in the Collocation Space. If full network termination capacity of the equipment being installed is not requested in the application submitted by New Edge, additional network terminations for the installed equipment will require the submission of a Subsequent Application. In the event New Edge submits an application for terminations that will exceed the total capacity of the collocated equipment, New Edge will be informed of the discrepancy by BellSouth and required to submit a revision to the application.
- 5.3 Security Interest in Equipment. Commencing with the most current calendar quarter after the Effective Date of this Agreement, and thereafter with respect to each subsequent calendar quarter during the term of this Agreement, New Edge

will, no later than thirty (30) days after the close of such calendar quarter, provide a report to ICS Collocation Product Management, Room 34th Floor, 675 W. Peachtree Street, Atlanta, Georgia 30375, listing any equipment in the Collocation Space (i) that was added during the calendar quarter to which such report pertains, and (ii) for which there is a UCC-1 lien holder or to another entity that has a secured financial interest in such equipment (Secured Equipment). If no Secured Equipment has been installed within a given calendar quarter, no report shall be due hereunder in connection with such calendar quarter.

- 5.4 No Marketing. New Edge shall not use the Collocation Space for marketing purposes, nor shall it place any identifying signs or markings outside the Collocation Space or on the grounds of the BellSouth Premises.
- 5.5 Equipment Identification. New Edge shall place a plaque or affix other identification (e.g., stenciling or labeling) to each piece of New Edge's equipment, including the appropriate emergency contacts with their corresponding telephone numbers, in order for BellSouth to properly identify New Edge's equipment in the case of an emergency. For caged Collocation Space, such identification must be placed on a plaque affixed to the outside of the caged enclosure.
- 5.6 Entrance Facilities.
- 5.6.1 New Edge may elect to place New Edge-owned or New Edge leased fiber entrance facilities into its Collocation Space. BellSouth will designate the point of interconnection in close proximity to the BellSouth Premises housing the Collocation Space, such as at an entrance manhole or a cable vault for Central Offices, which is physically accessible by both Parties. For Central Offices, New Edge will provide and place fiber cable in the entrance manhole of sufficient length to be pulled through conduit and into the splice location. New Edge will provide and install a sufficient length of fire retardant riser cable, to which BellSouth will splice the entrance cable. The fire retardant riser cable will extend from the splice location to New Edge's equipment in New Edge's Collocation Space. In the event New Edge utilizes a non-metallic, riser-type entrance facility, a splice will not be required. For Remote Terminals New Edge will provide and place copper cable through conduit from the Remote Site Collocation Space to the feeder distribution interface. Such copper cable must be of sufficient length to reach the splice location for splicing by BellSouth. New Edge must contact BellSouth for authorization and instruction prior to placing any entrance facility cable in an entrance manhole or cable vault. New Edge is responsible for the maintenance of the entrance facilities. Nonrecurring charges for cable installation will be assessed on a per cable basis as set forth in Exhibit B upon receipt of New Edge's BFFO. Recurring charges for the cable support structure will be billed at the rates set forth in Exhibit B.
- 5.6.2 Central Office Microwave Transmission Facilities. At New Edge's request, BellSouth will accommodate, where technically feasible and space is available, a

microwave entrance facility, pursuant to separately negotiated rates, terms and conditions.

- 5.6.3 Central Office Copper and Coaxial Cable Entrance Facilities. In Florida and Georgia, BellSouth shall permit New Edge to use copper or coaxial cable entrance facilities, if approved by the Commission, but only in those rare instances where New Edge demonstrates a necessity and entrance capacity is not at or near exhaust in a particular BellSouth Premises in which New Edge's Collocation Space is located. In Florida, New Edge must have approval by the Commission before it submits a request for copper entrance facilities. Notwithstanding the foregoing, in the case of adjacent collocation, copper facilities may be used between the adjacent collocation arrangement and the central office demarcation point, unless BellSouth determines that limited space is available for the placement of these entrance facilities.
- 5.7 Dual Entrance Facilities at a Central Office. BellSouth will provide at least two (2) interconnection points at each Central Office where at least two (2) such interconnection points are available and capacity exists. Upon receipt of a request by New Edge for dual entrance facilities to its physical Collocation Space, BellSouth shall provide New Edge with information regarding BellSouth's capacity to accommodate the requested dual entrance facilities. If conduit in the serving manhole(s) is available and is not reserved for another purpose or for utilization within twelve (12) months of the receipt of an application for collocation, BellSouth will make the requested conduit space available for the installation of a second entrance facility to New Edge's Collocation Space. The location of the serving manhole(s) will be determined at the sole discretion of BellSouth. Where dual entrance facilities are not available due to a lack of capacity, BellSouth will provide this information to New Edge in the Application Response.
- 5.8 Shared Use
- 5.8.1 New Edge may utilize spare capacity on an existing telecommunications carrier's entrance facility for the purpose of obtaining an entrance facility to New Edge's Collocation Space within the same BellSouth Premises.
- 5.8.2 BellSouth shall allow the splice, as long as the fiber is non-working dark fiber. New Edge must arrange with BellSouth in accordance with BellSouth's Special Construction Procedures, RL93-11-030BT, and provide a LOA from the other telecommunications carrier authorizing BellSouth to perform the splice of the New Edge-provided riser cable to the spare capacity on the other telecommunications carrier's entrance facility. If New Edge desires to allow another telecommunications carrier to use its entrance facilities, the telecommunications carrier must arrange with BellSouth in accordance with BellSouth's Special Construction Procedures, RL93-11-030BT, and provide a LOA from New Edge authorizing BellSouth to perform the splice of the telecommunications carrier's provided riser cable to the spare capacity on New Edge's entrance facility.

## 5.9 Demarcation Point

5.9.1 In Tennessee, if New Edge elects the Tennessee Regulatory Authority (TRA) rates as set forth in Exhibit C, the additional language also set forth in Exhibit C for Demarcation Point, will be effective in conjunction with the remaining terms and conditions of this Attachment.

5.9.2 BellSouth will designate the point(s) of demarcation between New Edge's equipment and/or network facilities and BellSouth's network facilities. For 2-wire and 4-wire connections, the demarcation point shall be a common block on the BellSouth designated conventional distribution frame. New Edge shall be responsible for providing the common block and cabling and New Edge's BellSouth Certified Supplier shall be responsible for installing and properly labeling/stenciling the common block and any necessary cabling identified in Section 7 below. For DS1, DS3, STS1, and optical terminations, BellSouth shall designate, provide, and install demarcation point hardware on a per arrangement basis. New Edge shall be responsible for providing, and New Edge's BellSouth Certified Supplier shall be responsible for installing any necessary cabling and properly labeling/stenciling the demarcation point hardware for terminations identified in Section 7 below.

5.9.3 New Edge or its agent must install, maintain and operate the equipment/facilities on its side of the demarcation point, pursuant to Section 5.10 below and may self-provision cross-connects that may be required within its own Collocation Space to activate service requests.

5.10 Equipment and Facilities. New Edge, or if required by this Attachment, New Edge's BellSouth Certified Supplier, is solely responsible for the design, engineering, installation, testing, provisioning, performance, monitoring and maintenance/repair of the equipment and network facilities used by New Edge, which must be performed in compliance with all applicable BellSouth specifications. Such equipment and network facilities may include, but are not limited to, cable(s), equipment, and POT connections. New Edge and its designated BellSouth Certified Supplier must follow and comply with all BellSouth specifications outlined in the following BellSouth Technical Requirements: TR 73503, TR 73519, TR 73572 and TR 73564.

## 5.11 BellSouth's Access to Collocation Space

5.11.1 From time to time, BellSouth may require access to New Edge's Collocation Space. BellSouth retains the right to access New Edge's Collocation Space for the purpose of making BellSouth equipment and building modifications (e.g., installing, altering or removing racking, ducts, electrical wiring, HVAC, and cabling). In such cases, BellSouth will give notice to New Edge at least forty-eight (48) hours before access to New Edge's Collocation Space is required. New Edge may elect to be present whenever BellSouth performs work in the New Edge's Collocation Space. The Parties agree that New Edge will not bear any of the expense associated with this type of work.

5.11.2 In the case of an emergency, BellSouth will provide oral notice of entry as soon as

reasonably practicable after such entry.

- 5.11.3 New Edge must provide the local BellSouth Central Office Building Contact with two (2) Access Devices that will allow BellSouth entry into any enclosed and locked Collocation Space including, but not limited to, an Adjacent Arrangement, pursuant to the requirements contained in this Section.

5.12 New Edge's Access

- 5.12.1 Pursuant to Section 12 below, New Edge shall have access to its Collocation Space twenty-four (24) hours a day, seven (7) days a week. New Edge agrees to provide the name, date of birth and either the social security number or driver's license number of each employee, supplier or agent of New Edge or New Edge's Guest(s) with New Edge's written request for access keys or cards (Access Devices) for specific BellSouth Premises, prior to the issuance of said Access Devices, using Form RF-2906-C, the "CLEC and CLEC Certified Supplier Access Request and Acknowledgement" form. The appropriate key acknowledgement forms (the "Collocation Acknowledgement Sheet" for access cards and the "Key Acknowledgement Form" for keys) must be signed by New Edge and returned to BellSouth Access Management within fifteen (15) days of New Edge's receipt of these forms. Failure to return these properly acknowledged forms will result in the subsequent access key or card requests being held by BellSouth until the proper acknowledgement documents have been received by BellSouth and reflect current information. Charges for Security Access System and for Security Access Devices will be billed at the rates set forth in Exhibit B. Access Devices may not be duplicated under any circumstances. New Edge agrees to be responsible for all Access Devices and for the return of all Access Devices in the possession of New Edge's employees, suppliers, agents or Guests after termination of the employment relationship, the contractual obligation with New Edge ends, upon the termination of this Agreement, or upon the termination of occupancy of Collocation Space in a specific BellSouth Premises. New Edge shall pay all applicable charges associated with lost or stolen Access Devices.

- 5.12.2 New Edge must submit to BellSouth the completed Access Control Request Form for all employees, suppliers, agents or Guests requiring access to a BellSouth Premises at least thirty (30) days prior to the date New Edge desires to gain access to the Collocation Space. In order to permit reasonable access during construction of the Collocation Space, New Edge may submit a request for its one (1) free accompanied site visit to its designated Collocation Space at any time subsequent to BellSouth's receipt of the BFFO. In the event New Edge desires access to its designated Collocation Space after the first accompanied free visit and New Edge's access request form(s) has not been approved by BellSouth or New Edge has not yet submitted an access request form to BellSouth, New Edge shall be permitted to access the Collocation Space accompanied by a BellSouth security escort, at New Edge's expense, which will be assessed pursuant to the Security Escort fees contained in Exhibit B. New Edge must request that escorted access be provided by BellSouth to New Edge's designated Collocation Space at

least three (3) business days prior to the date such access is desired. A BellSouth security escort will be required whenever New Edge or its approved agent or supplier requires access to the entrance manhole.

- 5.13 Lost or Stolen Access Devices. New Edge shall immediately notify BellSouth in writing when any of its Access Devices have been lost or stolen. If it becomes necessary for BellSouth to re-key buildings or deactivate an Access Device as a result of a lost or stolen Access Device(s) or for failure of New Edge's employees, suppliers, agents or Guest(s) to return an Access Device(s), New Edge shall pay for the costs of re-keying the building or deactivating the Access Device(s).

5.14 Interference or Impairment

- 5.14.1 Notwithstanding any other provisions of this Attachment, New Edge shall not use any product or service provided under this Agreement, any other service related thereto or used in combination therewith, or place or use any equipment or facilities in any manner that (1) significantly degrades, interferes with or impairs service provided by BellSouth or any other entity or any person's use of its telecommunications services; (2) endangers or damages the equipment, facilities or any other property of BellSouth or any other entity or person; (3) compromises the privacy of any communications routed through the BellSouth Premises; or (4) creates an unreasonable risk of injury or death to any individual or to the public. If BellSouth reasonably determines that any equipment or facilities of New Edge violates the provisions of this paragraph, BellSouth shall provide written notice to New Edge, which shall direct New Edge to cure the violation within forty-eight (48) hours of New Edge's receipt of written notice or, if such cure is not feasible, at a minimum, to commence curative measures within twenty-four (24) hours and exercise reasonable diligence to complete such measures as soon as possible thereafter. After receipt of the notice, the Parties agree to consult immediately and, if necessary, to conduct an inspection of the Collocation Space.

- 5.14.2 Except in the case of the deployment of an advanced service which significantly degrades the performance of other advanced services or traditional voice band services, if New Edge fails to cure the violation within forty-eight (48) hours or, if such cure is not possible, to commence curative action within twenty-four (24) hours and exercise reasonable diligence to complete such action as soon as possible, or if the violation is of a character that poses an immediate and substantial threat of damage to property or injury or death to any person, or any other significant degradation, interference or impairment of BellSouth's or another entity's service, then and only in that event, BellSouth may take such action as it deems necessary to eliminate such threat including, without limitation, the interruption of electrical power to New Edge's equipment and/or facilities. BellSouth will endeavor, but is not required, to provide notice to New Edge prior to the taking of such action and BellSouth shall have no liability to New Edge for any damages arising from such action, except to the extent that such action by BellSouth constitutes willful misconduct.

- 5.14.3 For purposes of this Section, the term “significantly degrades” shall be defined as an action that noticeably impairs a service from a user’s perspective. In the case of the deployment of an advanced service which significantly degrades the performance of other advanced services or traditional voice band services and New Edge fails to cure the violation within forty-eight (48) hours, or if such cure is not possible, to commence curative action within twenty-four (24) hours and exercise reasonable diligence to complete such action as soon as possible, BellSouth will establish before the appropriate Commission that the technology deployed is causing the significant degradation. Any claims of network harm presented to New Edge or, if subsequently necessary, the Commission must be provided by BellSouth with specific and verifiable information. When BellSouth demonstrates that a certain technology deployed by New Edge is significantly degrading the performance of other advanced services or traditional voice band services, New Edge shall discontinue deployment of that technology and migrate its customers to other technologies that will not significantly degrade the performance of such services. Where the only degraded service itself is a known disturber, and the newly deployed technology satisfies at least one of the criteria for a presumption that it is acceptable for deployment, pursuant to 47 C.F.R. § 51.230, the degraded service shall not prevail against the newly-deployed technology.
- 5.15 Personalty and Its Removal. Facilities and equipment placed by New Edge in the Collocation Space shall not become a part of the Collocation Space, even if nailed, screwed or otherwise fastened to the Collocation Space, but shall retain their status as personal property and may be removed by New Edge at any time. Any damage caused to the Collocation Space by New Edge’s employees, suppliers, agents or Guests during the installation or removal of such property shall be promptly repaired by New Edge at its sole expense. If New Edge decides to remove equipment and/or facilities from its Collocation Space and the removal requires no physical work be performed by BellSouth and New Edge’s physical work includes, but is not limited to, power reduction, cross-connects, or tie pairs, BellSouth will bill New Edge the Administrative Only Application Fee associated with the type of removal activity performed by New Edge, as set forth in Exhibit B. This nonrecurring fee will be billed on the date that BellSouth provides an Application Response to New Edge.
- 5.16 Alterations. Under no condition shall New Edge or any person acting on behalf of New Edge make any rearrangement, modification, augment, improvement, addition, and/or other alteration which could affect in any way space, power, HVAC, and/or safety considerations to the Collocation Space or the BellSouth Premises, hereinafter referred to individually or collectively as “Alterations”, without the express written consent of BellSouth, which shall not be unreasonably withheld. The cost of any such Alteration shall be paid by New Edge. An Alteration shall require the submission of a Subsequent Application and will result in the assessment of the applicable application fee associated with the type of alteration requested, as set forth in Sections 6.2.1 and 7.1.4 below, which will

be billed by BellSouth on the date that BellSouth provides New Edge with an Application Response.

- 5.17 Central Office Janitorial Service. New Edge shall be responsible for the general upkeep of its Collocation Space. New Edge shall arrange directly with a BellSouth Certified Supplier for janitorial services applicable to caged Collocation Space. Upon request, BellSouth shall provide a list of such suppliers on a BellSouth Premises-specific basis.
- 5.18 Upkeep of Remote Collocation Space. New Edge shall be responsible for the general upkeep and cleaning of the Remote Collocation Space. New Edge shall be responsible for removing any of New Edge's debris from the Remote Collocation Space and from in and around the Remote Site Location on each visit.

## **6 Ordering and Preparation of Collocation Space**

- 6.1 Initial Application. For New Edge's or New Edge's Guest's(s') initial equipment placement, New Edge shall input a physical Expanded Interconnection Application Document (Initial Application) for physical Collocation Space directly into BellSouth's electronic application (e.App) system for processing. The Initial Application is considered Bona Fide when it is complete and accurate, meaning that all of the required fields on the Initial Application are completed with the appropriate type of information. An Initial Application Fee, as set forth in Exhibit B, will apply to each Initial Application submitted by New Edge for Central Office or Remote Site Collocation, as applicable, and will be billed by BellSouth on the date BellSouth provides New Edge with an Application Response.
- 6.1.1 For Remote Site Collocation, a request for additional space at a later date will require the submission of an Initial Application. The installation of additional shelves/equipment within an existing bay does not require an Initial Application.
- 6.2 Subsequent Application. In the event New Edge or New Edge's Guest(s) desires to modify its use of the Collocation Space in a Central Office after a BFFO, New Edge shall complete an application that contains all of the detailed information associated with a requested Alteration of the Collocation Space, as defined in Section 5.15 above (Subsequent Application). The Subsequent Application will be considered Bona Fide when it is complete and accurate, meaning that all of the required fields on the Subsequent Application have been completed with the appropriate type of information associated with the requested Alteration. BellSouth shall determine what modifications, if any, to the BellSouth Premises are required to accommodate the change(s) requested by New Edge in the Subsequent Application. Such modifications to the BellSouth Premises may include, but are not limited to, floor loading changes, changes necessary to meet HVAC requirements, changes to power plant requirements, equipment additions, etc.
- 6.2.1 Subsequent Application Fees. The application fee paid by New Edge for an

Alteration in a Central Office shall be dependent upon the level of assessment needed to provide a complete Application Response for the Alteration requested. Where the Subsequent Application does not require provisioning or construction work, but requires BellSouth to perform an administrative activity, an Administrative Only Application Fee shall apply as set forth in Exhibit B. The Administrative Only Application Fee will apply to Subsequent Applications associated with a transfer of ownership of the Collocation Space, the addition, exchange or removal of equipment from the Collocation Space (where the removal requires no physical work to be performed by BellSouth which require no additional space, power or terminations to be provided to New Edge's collocation arrangement), and a virtual-to-physical conversion (in place). The Co-Carrier Cross Connect/Direct Connect Application Fee will apply when New Edge submits a Subsequent Application for a direct connection between its own physical and virtual Collocation Space(s) in the same BellSouth Central Office or between its physical or virtual Collocation Space and that of another collocated telecommunications carrier within the same BellSouth Central Office. In Florida and Tennessee, the Power Reconfiguration Only Application Fee will apply when New Edge submits a Subsequent Application that reflects only an upgrade or reduction in the amount of power that BellSouth is currently providing to New Edge's physical Collocation Space in a Central Office. The fee for a Subsequent Application, for which the Alteration requested has limited effect (e.g., requires limited assessment and sufficient cable support structure, HVAC, power and terminations are available), shall be the Subsequent Application Fee, as set forth in Exhibit B. The appropriate nonrecurring application fee will be billed on the date that BellSouth provides New Edge with an Application Response.

- 6.3 Space Preferences. If New Edge has previously requested and received a Space Availability Report for the BellSouth Premises, New Edge may submit up to three (3) space preferences on its application by identifying the specific space identification numbers referenced on the Space Availability Report for the space it is requesting. In the event BellSouth cannot accommodate New Edge's space preference(s), New Edge may accept the space allocated by BellSouth or cancel its application and submit another application requesting additional space preferences for the same BellSouth Premises. This application will be treated as a new application and the appropriate application fee will apply. The application fee will be billed by BellSouth on the date that BellSouth provides New Edge with an Application Response.

6.4 Space Availability Notification

- 6.4.1 For all states except Florida and Tennessee, BellSouth will respond to an application within ten (10) days as to whether space is available or not available within the requested BellSouth Premises. In Florida and Tennessee, BellSouth will respond to an application within fifteen (15) days as to whether space is available or not available within a BellSouth Premises. BellSouth's e.App system will reflect when New Edge's application is Bona Fide. If the application cannot be Bona Fide, BellSouth will identify what revisions are necessary for the

application to become Bona Fide.

- 6.4.2 If the amount of space requested is not available, BellSouth will notify New Edge of the amount of space that is available and no application fee will apply. When BellSouth's response includes an amount of space less than that requested by New Edge or space that is configured differently, no application fee will apply. If New Edge decides to accept the available space, New Edge must resubmit its application to reflect the actual space available, including the configuration of the space, prior to submitting a BFFO. When New Edge resubmits its application to accept the available space, BellSouth will bill New Edge the appropriate application fee.
- 6.5 Denial of Application. If BellSouth notifies New Edge that no space is available (Denial of Application), BellSouth will not assess an application fee to New Edge. After notifying New Edge that BellSouth has no available space in the requested BellSouth Premises, BellSouth will allow New Edge, upon request, to tour the entire BellSouth Premises within ten (10) days of such Denial of Application. In order to schedule this tour, BellSouth must receive the request for the tour of the BellSouth Premises within five (5) days of the Denial of Application.
- 6.6 Petition for Waiver. Upon Denial of Application, BellSouth will timely file a petition with the appropriate Commission pursuant to 47 U.S.C. § 251(c)(6). BellSouth shall provide to the Commission any information requested by that Commission. Such information shall include which space, if any, BellSouth or any of BellSouth's affiliates have reserved for future use and a detailed description of the specific future uses for which the space has been reserved. Subject to an appropriate nondisclosure agreement or provision, BellSouth shall permit New Edge to inspect any floor plans or diagrams that BellSouth provides to the Commission.
- 6.7 Waiting List
- 6.7.1 On a first-come, first-serve basis, which is governed by the date of receipt of an application or Letter of Intent, BellSouth will maintain a waiting list of requesting telecommunications carriers that have either received a Denial of Application or, where it is publicly known that a BellSouth Premises is out of space, have submitted a Letter of Intent to collocate in that BellSouth Premises. BellSouth will notify each telecommunications carrier on the waiting list that can be accommodated by the amount of space that becomes available, according to the position of the telecommunications carrier on said waiting list.
- 6.7.2 In Florida, on a first-come, first-serve basis, which is governed by the date of receipt of an application or Letter of Intent, BellSouth will maintain a waiting list of requesting telecommunications carriers that have either received a Denial of Application or, where it is publicly known that a BellSouth Premises is out of space, have submitted a Letter of Intent to collocate in that BellSouth Premises. Sixty (60) days prior to space becoming available, if known, BellSouth will notify the Commission and the telecommunications carriers on the waiting list by mail when space will become available. If BellSouth does not know sixty (60) days in

advance of when space will become available, BellSouth will notify the Commission and the telecommunications carriers on the waiting list within two (2) business days of the determination that space will become available. A telecommunications carrier that, upon denial of physical Collocation Space, requests virtual Collocation Space shall automatically be placed on the waiting list for physical Collocation Space that may become available in the future.

6.7.3 When physical Collocation Space becomes available, New Edge must submit an updated, complete and accurate application to BellSouth within thirty (30) days of notification by BellSouth that physical Collocation Space will be available in the requested BellSouth Premises previously out of space. If New Edge has originally requested caged Collocation Space and cageless Collocation Space becomes available, New Edge may refuse such space and notify BellSouth in writing, within the thirty (30) day timeframe referenced above, that New Edge wishes to maintain its place on the waiting list for caged physical Collocation Space, without accepting the available cageless Collocation Space.

6.7.4 New Edge may accept an amount of space less than what it originally requested by submitting an application as set forth above, and upon request, may maintain its position on the waiting list for the remaining space that was initially requested. If New Edge does not submit an application or notify BellSouth in writing within the thirty (30) day timeframe as described in Section 6.7.2 above, BellSouth will offer the available space to the next telecommunications carrier on the waiting list and remove New Edge from the waiting list. Upon request, BellSouth will advise New Edge as to its position on the waiting list for a particular BellSouth Premises.

6.8 Public Notification. BellSouth will maintain on its Interconnection Web site, a notification document that will indicate all BellSouth Premises that are without available space. BellSouth shall update such document within ten (10) days of the date that BellSouth becomes aware that insufficient space is available to accommodate physical Collocation. BellSouth will also post a document on its Interconnection Web site that contains a general notice when space becomes available in a BellSouth Premises previously on the space exhaust list.

6.9 Application Response

6.9.1 In Alabama, Georgia, Kentucky, Louisiana, Mississippi, North Carolina and South Carolina, when space has been determined to be available for physical (caged or cageless) Collocation arrangements, BellSouth will provide an Application Response within twenty (20) days of receipt of a Bona Fide application. The Application Response will be a written response that includes sufficient information to enable New Edge to place a Firm Order, which, at a minimum, will include the configuration of the space, the Cable Installation Fee, the Cable Records Fee, and any other applicable space preparation fees, as described in Section 8 below.

6.9.2 In Florida and Tennessee, within fifteen (15) days of receipt of a Bona Fide application, when space has been determined to be available or when a lesser amount of space than that requested is available, then with respect to the space

available, BellSouth will provide an Application Response including sufficient information to enable New Edge to place a Firm Order. The Application Response will include, at a minimum, the configuration of the space, the Cable Installation Fee, the Cable Records Fee and any other applicable space preparation fees, as described in Section 8 below. When New Edge submits ten (10) or more applications within ten (10) days, the initial fifteen (15) day response interval will increase by ten (10) days for every additional ten (10) applications or fraction thereof.

6.10 Application Modifications. If a modification or revision is made to any information in the Bona Fide application after BellSouth has provided the Application Response and prior to a BFFO, with the exception of modifications to (1) Customer Information, (2) Contact Information or (3) Billing Contact Information, whether at the request of New Edge or as necessitated by technical considerations, the application shall be considered a new application and handled as a new application with respect to the response and provisioning intervals. BellSouth will charge New Edge the appropriate application fee associated with the level of assessment performed by BellSouth, pursuant to Sections 6.1 and 6.2 above.

6.11 Bona Fide Firm Order

6.11.1 New Edge shall indicate its intent to proceed with a Collocation Space request in a BellSouth Premises by submitting a BFFO to BellSouth. The BFFO must be received by BellSouth no later than thirty (30) days after BellSouth's Application Response to New Edge's Bona Fide application or New Edge's application will expire.

6.11.2 BellSouth will establish a Firm Order date based upon the date BellSouth is in receipt of New Edge's BFFO. BellSouth will acknowledge the receipt of New Edge's BFFO within seven (7) days of receipt, so that New Edge will have positive confirmation that its BFFO has been received. BellSouth's response to a BFFO will include a Firm Order Confirmation, which contains the firm order date. No revisions may be made to a BFFO.

## **7 Construction and Provisioning**

7.1 Construction and Provisioning Intervals

7.1.1 In Florida and Tennessee, BellSouth will complete construction of physical Collocation Space as soon as possible within a maximum of ninety (90) days from receipt of a BFFO or as agreed to by the Parties. For virtual Collocation Space, BellSouth will complete construction as soon as possible within a maximum of sixty (60) days from receipt of a BFFO or as agreed to by the Parties. For Alterations requested to Collocation Space after the initial space has been completed, BellSouth will complete construction for Collocation Space as soon as possible within a maximum of forty-five (45) days from receipt of a BFFO or as agreed to by the Parties, as long as no additional space has been requested by New Edge. If additional space has been requested by New Edge, BellSouth will complete construction for the requested Collocation Space as soon as possible

within a maximum of ninety (90) days from receipt of a BFFO for physical Collocation Space and forty five (45) days from receipt of a BFFO for virtual Collocation Space. If BellSouth does not believe that construction will be completed within the relevant provisioning interval and BellSouth and New Edge cannot agree upon a completion date, within forty-five (45) days of receipt of the BFFO for an initial request, or within thirty (30) days of receipt of the BFFO for an Alteration, BellSouth may seek an extension from the Commission.

- 7.1.2 In Alabama, Georgia, Kentucky, Louisiana, Mississippi, North Carolina and South Carolina, BellSouth will complete construction for caged physical Collocation Space under ordinary conditions as soon as possible within a maximum of ninety (90) days from receipt of a BFFO or as agreed to by the Parties. BellSouth will complete construction for cageless physical Collocation Space under ordinary conditions as soon as possible within a maximum of sixty (60) days from receipt of a BFFO and ninety (90) days from receipt of a BFFO for extraordinary conditions, or as agreed to by the Parties. Ordinary conditions are defined as space available with only minor changes required to BellSouth's support systems. (Examples include, but are not limited to: minor modifications to HVAC, cabling and BellSouth's power plant.) Extraordinary conditions include, but may not be limited to: major BellSouth equipment rearrangements or additions; power plant additions or upgrades; major mechanical additions or upgrades; major upgrades for ADA compliance; environmental hazards or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. The Parties may mutually agree to renegotiate an alternative provisioning interval for the Collocation Space requested or BellSouth may seek a waiver from the ordered interval, as set forth above, from the appropriate Commission, if BellSouth does not believe that construction will be completed within the relevant provisioning interval.
- 7.1.3 Records Only Change. When New Edge adds equipment, that was originally included on New Edge's Initial Application or a Subsequent Application, and the installation of this equipment requires no additional space preparation work or cable terminations on the part of BellSouth, then BellSouth will impose no additional charges or intervals.
- 7.1.4 For Central Offices in the states of Alabama, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, and South Carolina, BellSouth will provide the reduced intervals outlined below to New Edge, when New Edge requests an Alteration specifically identified in Sections 7.1.4.1 through 7.1.4.9 below as an "Augment". Except as otherwise set forth in Section 7.1.4.10 below, such Augment will require a Subsequent Application and will result in the assessment of the appropriate application fee associated with the type of Augment requested by New Edge. BellSouth will assess the appropriate nonrecurring application fee set forth in Exhibit B on the date that it provides an Application Response to New Edge.
- 7.1.4.1 Simple Augments will be completed within twenty (20) days after receipt of the

BFFO for an:

- Extension of Existing AC Circuit Capacity within Arrangement where Sufficient Circuit Capacity is Available
- Fuse Change and/or Increase or Decrease -48 Volt (-48V) DC Power

7.1.4.2 Minor Augments will be completed within forty-five (45) days after receipt of the BFFO for:

- 168 DS1 Terminations at the BellSouth Demarcation Frame (Databasing Only; Panels, Relay Racks and Overhead Racking Exist)
- 96 DS3 Terminations at the BellSouth Demarcation Frame (Databasing Only; Panels, Relay Racks and Overhead Racking Exist)
- 99 Fiber terminations at the BellSouth Demarcation Frame (Databasing Only; Panels, Relay Racks and Overhead Racking Exist)
- Maximum of 2000 Service Ready DS0 Terminations at the BellSouth Demarcation Frame (Databasing Only; Panels, Relay Racks and Overhead Racking Exist)

7.1.4.3 Intermediate Augments will be completed within sixty (60) days after receipt of the BFFO for:

- 168 DS1s (Databasing and Installation of Termination Panels, Relay Racks or Additional Structure, as Required)
- 96 DS3s (Databasing and Installation of Termination Panels, Relay Racks or Additional Structure, as Required)
- 99 Fiber Terminations (Databasing and Installation of Termination Panels, Relay Racks or Additional Structure, as Required)
- 2000 DS0s (Databasing and Installation of Termination Panels, Relay Racks or Additional Structure, as Required)
- Installation of Cable Racking or Other Support Structure, as Required, to Support CCXCs (Adequate Floor or Ceiling Structural Capacity Exists and Support/Protection structure for Fiber Patch Cord is Excluded)

7.1.4.4 Major Augments of physical Collocation Space will be completed within ninety (90) days after BFFO. All requests for additional Physical Collocation Space (caged or cageless) are included in this category.

7.1.4.5 Major Augments of virtual Collocation Space will be completed within seventy-five (75) days after BFFO. This category includes all requests for additional virtual Collocation Space.

7.1.4.6 If New Edge submits an Augment that includes two (2) Augment items from the same category in either Sections 7.1.4.1, 7.1.4.2 or 7.1.4.3 above, the provisioning interval associated with the next highest Augment category will apply (e.g., if two (2) items from the Minor Augment category are requested on the same request, then an interval of sixty (60) days from the receipt of the BFFO would apply, which is the interval associated with the Intermediate Augment category).

- 7.1.4.7 If New Edge submits an Augment that includes three (3) Augment items from the same category in either Sections 7.1.4.1, 7.1.4.2, or 7.1.4.3 above, the Major Augment interval of ninety (90) days from the receipt of the BFFO would apply (e.g., if three (3) items from the Simple Augment category are requested on the same request for a physical Collocation arrangement, then an interval of ninety (90) days from the receipt of the BFFO would apply, which is the Major physical Augment interval; likewise if three (3) items from the Simple Augment category are requested on the same request for a virtual Collocation arrangement, then an interval of seventy-five (75) days from the receipt of the BFFO would apply, which is the Major virtual Augment interval).
- 7.1.4.8 If New Edge submits an Augment that includes one (1) Augment item from two (2) separate categories in Sections 7.1.4.1, 7.1.4.2 and 7.1.4.3 above, the Augment interval associated with the highest Augment category will apply (e.g., if an item from the Minor Augment category and an item from the Intermediate Augment category are requested on the same request, then an interval of sixty (60) days from the receipt of the BFFO would apply, which is the interval associated with the Intermediate Augment category).
- 7.1.4.9 All Augments not expressly included in the Simple, Minor, Intermediate or Major Augment categories, as outlined above, will be placed into the appropriate category as negotiated by New Edge and BellSouth. If New Edge and BellSouth are unable to determine the appropriate category through negotiation, then the appropriate Major Augment category, identified in Sections 7.1.4.4 and Section 7.1.4.5 above, would apply based on whether the Augment is for New Edge's physical or virtual Collocation Space.
- 7.1.4.10 Individual application fees associated with Simple, Minor and Intermediate Augments are contained in Exhibit B. If New Edge requests multiple items from different Augment categories, BellSouth will bill New Edge the Augment application fee, as identified in Exhibit B, associated with the higher Augment category only. The appropriate application fee will be assessed to New Edge at the time BellSouth provides New Edge with the Application Response. New Edge will be assessed a Subsequent Application Fee for all Major Augments (Major Augments are defined above in Sections 7.1.4.4 and 7.1.4.5 above for physical and virtual Collocation Space, respectively). The Subsequent Application Fee is also reflected in Exhibit B.
- 7.2 Joint Planning. Unless otherwise agreed to by the Parties, a joint planning meeting or other method of joint planning between BellSouth and New Edge will commence within a maximum of twenty (20) days from BellSouth's receipt of a BFFO. At such meeting, the Parties will agree to the preliminary design of the Collocation Space and the equipment configuration requirements, as reflected in the application and affirmed in the BFFO.
- 7.3 Permits. Each Party, its agent(s) or BellSouth Certified Supplier(s) will diligently pursue filing for the permits required for the scope of work to be performed by

that Party, its agent(s) or BellSouth Certified Supplier(s) within ten (10) days of the completion of the finalized construction design and specifications.

7.4 Central Office Circuit Facility Assignments

7.4.1 Unless otherwise specified, BellSouth will provide Circuit Facility Assignments (CFAs) to New Edge prior to the applicable provisioning interval set forth herein (Provisioning Interval) for those BellSouth Premises in which New Edge has physical Collocation Space with no POT bay or with a grandfathered POT bay provided by BellSouth. BellSouth cannot provide CFAs to New Edge prior to the Provisioning Interval for those BellSouth Premises in which New Edge has physical Collocation Space with a POT bay provided by New Edge or virtual Collocation Space, until New Edge has provided BellSouth with the following information:

7.4.1.1 For physical Central Office Collocation Space with a New Edge-provided POT bay, New Edge shall provide BellSouth with a complete layout of the POT panels on an Equipment Inventory Update (EIU) form that shows the locations, speeds, etc.; or

7.4.1.2 For virtual Central Office Collocation Space, New Edge shall provide BellSouth with a complete layout of New Edge's equipment on an EIU form, that includes the locations of the low speed ports and the specific frame terminations to which the equipment will be wired by New Edge's BellSouth Certified Supplier.

7.4.2 BellSouth cannot begin work on the CFAs until the complete and accurate EIU form has been received from New Edge. If the EIU form is provided within ten (10) days prior to the ending date of the Provisioning Interval, then the CFAs will be made available by the ending date of the Provisioning Interval. If the EIU form is not received ten (10) days prior to the ending date of the Provisioning Interval, then the CFAs will be provided within ten (10) days of BellSouth's receipt of the EIU form.

7.4.3 BellSouth will bill New Edge a nonrecurring charge, as set forth in Exhibit B, each time New Edge requests a resend of its original CFA information for any reason other than a BellSouth error in the CFAs initially provided to New Edge.

7.5 Use of BellSouth Certified Supplier. New Edge shall select a supplier which has been approved as a BellSouth Certified Supplier to perform all engineering and installation work. New Edge, if a BellSouth Certified Supplier or New Edge's BellSouth Certified Supplier must follow and comply with all of BellSouth's specifications and the following BellSouth Technical Requirements: TR 73503, TR 73519, TR 73572 and TR 73564. Unless the BellSouth Certified Supplier has met the requirements for all of the required work activities, New Edge must use a different BellSouth Certified Supplier for the work activities associated with transmission equipment, switching equipment and power equipment. BellSouth shall provide New Edge with a list of BellSouth Certified Suppliers, upon request. New Edge, if a BellSouth Certified Supplier, or New Edge's BellSouth Certified Supplier(s) shall be responsible for installing New Edge's equipment and associated components, extending power cabling to the BellSouth power

distribution frame, performing operational tests after installation is complete, and notifying BellSouth's equipment engineers and New Edge upon successful completion of the installation and any associated work. When a BellSouth Certified Supplier is used by New Edge, the BellSouth Certified Supplier shall bill New Edge directly for all work performed for New Edge pursuant to this Attachment. BellSouth shall have no liability for nor responsibility to pay, such charges imposed by New Edge's BellSouth Certified Supplier. BellSouth shall make available its supplier certification program to New Edge or any supplier proposed by New Edge and will not unreasonably withhold certification. All work performed by or for New Edge shall conform to generally accepted industry standards.

- 7.6 Alarms and Monitoring. BellSouth shall place environmental alarms in the BellSouth Premises for the protection of BellSouth equipment and facilities. New Edge shall be responsible for the placement, monitoring and removal of environmental and equipment alarms used to service New Edge's Collocation Space. Upon request, BellSouth will provide New Edge with an applicable BellSouth tariffed service(s) to facilitate remote monitoring of collocated equipment by New Edge. Both Parties shall use best efforts to notify the other of any verified environmental condition (e.g., temperature extremes or excess humidity) known to that Party.
- 7.7 Virtual to Physical Relocation. In the event physical Collocation Space was previously denied at a BellSouth Central Office due to technical reasons or space limitations and physical Collocation Space has subsequently become available, New Edge may relocate its existing virtual Collocation arrangement(s) to a physical Collocation arrangement(s) and pay the appropriate fees associated with the rearrangement or reconfiguration of the services being terminated into the virtual Collocation arrangement, as set forth in Exhibit B. If BellSouth knows when additional physical Collocation Space may become available at the BellSouth Central Office requested by New Edge, such information will be provided to New Edge in BellSouth's written denial of physical Collocation Space. New Edge must arrange with a BellSouth Certified Supplier for the relocation of equipment from a virtual Collocation Space to a physical Collocation Space and will bear the cost of such relocation, including the costs associated with moving the services from the virtual Collocation Space to the new physical Collocation Space.
- 7.7.1 In Alabama, BellSouth will complete a relocation of a virtual collocation arrangement to a cageless physical collocation arrangement within sixty (60) days from BellSouth's receipt of a BFFO and from a virtual collocation arrangement to a caged physical collocation arrangement within ninety (90) days from BellSouth's receipt of a BFFO.
- 7.8 Virtual to Physical Conversion (In-Place)
- 7.8.1 Virtual collocation arrangements in Central Offices may be converted to "in-place" physical caged collocation arrangements if the potential conversion

meets all of the following criteria: (1) there is no change in the amount of equipment or the configuration of the equipment that was in the virtual Collocation Space; (2) the conversion of the virtual collocation arrangement will not cause the equipment or the results of that conversion to be located in a space that BellSouth has reserved for its own future needs; and (3) any changes to the arrangement can be accommodated by existing power, HVAC, and other requirements. Unless otherwise specified herein, BellSouth will complete virtual to physical Collocation Space conversions (in-place) within sixty (60) days from receipt of the BFFO. BellSouth will bill New Edge an Administrative Only Application Fee, as set forth in Exhibit B, on the date BellSouth provides an Application Response to New Edge.

7.8.2 In Alabama and Tennessee, BellSouth will complete virtual to physical conversions (in place) within thirty (30) days from receipt of the BFFO as long as the conversion meets all of the criteria specified in Section 7.8.1 above.

7.9 Cancellation. Unless otherwise specified in this Attachment, if at any time prior to Space Acceptance, New Edge cancels its order for Collocation Space (Cancellation), BellSouth will bill the applicable nonrecurring charge(s) for any and all work processes for which work has begun or been completed. In Florida, if New Edge cancels its order for Collocation Space at any time prior to the Space Ready Date, no cancellation fee shall be assessed by BellSouth; however, New Edge will be responsible for reimbursing BellSouth for any costs specifically incurred by BellSouth on behalf of New Edge up to the date that the written notice of cancellation was received by BellSouth. In Georgia, if New Edge cancels its order for Collocation Space at any time prior to space acceptance, BellSouth will bill New Edge for all costs incurred prior to the date of Cancellation and for any costs incurred as a direct result of the Cancellation, not to exceed the total amount that would have been due had the Firm Order not been canceled.

7.10 Licenses. New Edge, at its own expense, will be solely responsible for obtaining from governmental authorities, and any other appropriate agency, entity, or person, all rights, privileges, permits, licenses and certificates necessary or required to operate as a provider of telecommunications services to the public or to build-out, equip and/or occupy Collocation Space in a BellSouth Premises.

7.11 Environmental Compliance. The Parties agree to utilize and adhere to the Environmental Hazard Guidelines identified in Exhibit A attached hereto.

## **8 Rates and Charges**

8.1 Rates. New Edge agrees to pay the rates and charges identified in Exhibit B attached hereto.

8.1.1 In Tennessee, if New Edge elects the TRA rates as set forth in Exhibit C, the additional language also set forth in Exhibit C for Application Fee, Space Preparation, Floor Space and Caged Collocation Power Usage metering, will be effective in conjunction with the remaining terms and conditions of this Attachment.

- 8.1.2 Should New Edge elect to transition to the TRA Option after the execution of this Agreement, New Edge shall notify BellSouth in writing sixty (60) days prior to the implementation of this election.
- 8.2 Application Fees. BellSouth shall assess any nonrecurring application fees within thirty (30) days of the date that BellSouth provides an Application Response to New Edge or on New Edge's next scheduled monthly billing statement.
- 8.3 Recurring Charges
- 8.3.1 If New Edge has met the applicable fifteen (15) day acceptance walk through interval specified in Section 4.2 above, billing for recurring charges will begin upon the Space Acceptance Date. In the event New Edge fails to complete an acceptance walk through within the applicable fifteen (15) day interval, billing for recurring charges will commence on the Space Ready Date. If New Edge occupies the space prior to the Space Ready Date, the date New Edge occupies the space is deemed the Space Acceptance Date and billing for recurring charges will begin on that date. The billing for all applicable monthly recurring charges will begin in New Edge's next billing cycle and will include any prorated charges for the period from New Edge's Space Acceptance Date or Space Ready Date, whichever is appropriate pursuant to Section 4.2 above, to the date the bill is issued by BellSouth.
- 8.3.2 Unless otherwise stated in Section 8.6 below, monthly recurring charges for -48V DC power will be assessed per fused ampere (amp), per month, based upon the total number of fused amps of power capacity requested by New Edge on New Edge's Initial Collocation Application and all Subsequent Collocation Applications, which may either increase or decrease the originally requested, and any subsequently augmented, number of fused amps of power capacity requested, consistent with Commission orders.
- 8.3.3 BellSouth shall have the right to inspect and inventory any DC power fuse installations at a BellSouth BDFB or DC power circuit installations at BellSouth's main power board for any New Edge collocation arrangement, to verify that the total number of fused amps of power capacity installed by New Edge's BellSouth Certified Supplier matches the number of fused amps of DC power capacity requested by New Edge on New Edge's Initial Application and all Subsequent Applications. If BellSouth determines that New Edge's BellSouth Certified Supplier has installed more DC capacity than New Edge requested on its Initial Application and all Subsequent Applications, BellSouth shall notify New Edge in writing of such discrepancy and shall assess New Edge for the additional DC power fuse/circuit capacity from the Space Acceptance Date or Space Ready Date, whichever is applicable pursuant to Section 8.3.1 above, for the most recent Initial Application or Subsequent Application, submitted for such collocation arrangement. BellSouth shall also revise New Edge's recurring DC power charges, on a going-forward basis, to reflect the higher number of fused amps of power capacity available for the collocation arrangement.
- 8.4 Nonrecurring Charges. Unless specified otherwise herein, BellSouth shall assess

nonrecurring charges, including all application fees, within thirty (30) days of the date that BellSouth provides an Application Response to New Edge or on New Edge's next scheduled monthly billing statement, if New Edge's current month's billing cycle has already closed. Nonrecurring charges associated with the processing of the Firm Order for collocation space preparation (Firm Order Processing Fee) shall be billed by BellSouth within thirty (30) days of BellSouth's confirmation of New Edge's BFFO or on New Edge's next scheduled monthly billing statement.

- 8.5 In some cases, Commissions have ordered BellSouth to separate its disconnect costs and its installation costs into two separate nonrecurring charges. Accordingly, unless otherwise noted in this Agreement, the Commission ordered disconnect charges will be applied at the time the disconnect activity is performed by BellSouth, regardless of whether or not a disconnect order is issued by New Edge. Disconnect charges are set forth in Exhibit B of this Attachment.

- 8.6 Central Office Space Preparation. Space preparation fees consist of a nonrecurring charge for Firm Order Processing and monthly recurring charges for Central Office Modifications and Common Systems Modifications. For all states except Florida, New Edge shall remit the payment of the nonrecurring Firm Order Processing Fee coincident with the submission of New Edge's BFFO. In Florida, the nonrecurring Firm Order Processing Fee will be billed by BellSouth, pursuant to Section 8.4 above. The monthly recurring charge for Central Office Modifications will be assessed per arrangement, per square foot, for both caged and cageless physical Collocation Space. The monthly recurring charge for Common Systems Modifications will be assessed per arrangement, per square foot for cageless physical Collocation Space and on a per cage basis for caged physical Collocation Space. These charges recover the costs associated with preparing the Collocation Space, which includes, but is not limited to, the following items: a survey, engineering of the Collocation Space, and design and modification costs for network, building and support systems.

- 8.7 Central Office Floor Space. The Floor Space Charge includes reasonable charges for lighting, HVAC, and other allocated expenses associated with maintenance of the BellSouth Premises; however, this charge does not include any expenses associated with AC or DC power supplied to New Edge's Collocation Space for the operation of New Edge's equipment. For caged physical Collocation Space, New Edge shall pay floor space charges based upon the number of square feet enclosed. The minimum size for caged Collocation Space is fifty (50) square feet. Additional caged Collocation Space may be requested in increments of fifty (50) square feet. For cageless Collocation Space, New Edge shall pay floor space charges based upon the following floor space calculation: [(depth of the equipment lineup in which the rack is placed) + (0.5 x maintenance aisle depth) + (0.5 x wiring aisle depth)] x (width of rack and spacers). For purposes of this calculation, the depth of the equipment lineup shall consider the footprint of equipment racks plus any equipment overhang. BellSouth will assign cageless Collocation Space in conventional equipment rack lineups where feasible. In the

event New Edge's collocated equipment requires special cable racking, an isolated ground plane, or any other considerations and treatment which prevents placement within conventional equipment rack lineups, New Edge shall be required to request an amount of floor space sufficient to accommodate the total equipment arrangement.

8.8 Remote Site Bay Space. In a Remote Site, the bay space charge recovers the costs associated with air conditioning, ventilation and other allocated expenses for the maintenance of the Remote Site Location, and includes the amperage necessary to power New Edge's equipment. New Edge shall remit bay space charges based upon the number of bays requested. BellSouth will assign Remote Site Collocation Space in conventional Remote Site bay lineups where feasible.

8.9 Power

8.9.1 In a Central Office BellSouth shall make available -48V DC power for New Edge's Collocation Space at a BellSouth BDFB. When obtaining DC power from a BellSouth BDFB, New Edge's fuses and power cables (for the A & B feeds) must be engineered (sized), and installed by New Edge's BellSouth Certified Supplier, in accordance with the number of fused amps of DC power requested by New Edge on New Edge's Initial Application and any Subsequent Applications. New Edge is also responsible for contracting with a BellSouth Certified Supplier to run the power distribution feeder cable from the BellSouth BDFB to the equipment in New Edge's Collocation Space. The BellSouth Certified Supplier contracted by New Edge must provide BellSouth with a copy of the engineering power specifications prior to the day on which New Edge's equipment becomes operational (hereinafter "Commencement Date"). BellSouth will provide the common power feeder cable support structure between the BellSouth BDFB and New Edge's Collocation Space. New Edge shall contract with a BellSouth Certified Supplier who shall be responsible for performing those power provisioning activities required to enable New Edge's equipment to become operational, which may include, but are not limited to, the installation, removal or replacement of the following: dedicated power cable support structure within New Edge's Collocation Space, power cable feeds and terminations of the power cabling. New Edge and New Edge's BellSouth Certified Supplier shall comply with all applicable NEC, BellSouth TR 73503, Telcordia and ANSI Standards that address power cabling, installation and maintenance.

8.9.1.1 At a Remote Site, BellSouth shall make available -48V DC power for New Edge's Remote Collocation Space at a BDFB within the Remote Site Location. The charge for power shall be assessed as part of the recurring charge for bay space, as referenced in Section 8.7 above. If the power requirements for New Edge's equipment exceed the capacity available, then such additional power requirements shall be assessed on an individual case basis.

8.9.2 In Florida Central Offices only, subject to technical feasibility, commercial availability and safety limitations, BellSouth will permit New Edge to request DC power in five (5) amp increments from five (5) amps up to one hundred (100)

amps from the BellSouth BDFB. However, in accordance with industry standard fuse sizing, New Edge may request that BellSouth provision DC power of seventy (70) amps or greater directly from BellSouth's main power board. The industry standard fuse size (which is a circuit breaker on the main power board) available at a BellSouth main power board in all BellSouth Premises is a two hundred twenty-five (225) amp circuit breaker.

- 8.9.3 BellSouth will revise New Edge's Central Office recurring power charges, in accordance with Section 8.3 above, to reflect a power upgrade when New Edge submits a Subsequent Application requesting an increase in the number of fused amps it is currently receiving from BellSouth for its Collocation Space. If New Edge's existing fuses and power cables (for the A&B power feed) are not sufficient to support the additional number of fused amps requested, New Edge's BellSouth Certified Supplier shall perform whatever activities are necessary, which may include the installation of new/additional fuses or power cables, to comply with the appropriate NEC, BellSouth TR 73503, Telcordia and ANSI Standards, as well as the requirements noted in Sections 8.7 and 8.7.1 above. New Edge's BellSouth Certified Supplier shall provide notification to BellSouth when these activities have been completed.
- 8.9.4 BellSouth will revise New Edge's Central Office recurring power charges, in accordance with Section 8.3 above, to reflect a power reduction upon BellSouth's receipt of the Power Reduction Form from New Edge, certifying the completion of the power reduction work, including the removal of any associated power cabling by New Edge's BellSouth Certified Supplier. Notwithstanding the foregoing, if New Edge's BellSouth Certified Supplier has not removed or, at BellSouth's discretion, cut the power cabling within thirty (30) days, the power reduction will not become effective until the cabling is removed or, at BellSouth's discretion, cut by New Edge's BellSouth Certified Supplier and New Edge shall pay for the amount of power that had been requested prior to the power reduction request for the period up to the date the power cabling is actually removed.
- 8.9.5 If New Edge requests an increase or a reduction in the amount of power that BellSouth is currently providing in a Central Office, New Edge must submit a Subsequent Application. In all states other than Florida and Tennessee if no modification to the Collocation Space is requested other than the increase or reduction in power, the Simple Augment fee will apply. In Florida and Tennessee the Power Reconfiguration Only Application Fee as set forth in Exhibit B will apply. If modifications are requested in addition to the increase or reduction of power, the Subsequent Application Fee will apply. BellSouth will bill this nonrecurring fee on the date that BellSouth provides an Application Response to New Edge's Subsequent Application.
- 8.9.5.1 In Central Offices in Alabama and Louisiana, if New Edge has existing power configurations currently served from the BellSouth main power board and requests that its power be reconfigured to connect to a BellSouth BDFB, in a specific BellSouth Premises, New Edge must submit a Subsequent Application to BellSouth. BellSouth will provide a response to such application within seven (7)

days and no Simple Augment Application Fee will be assessed by BellSouth for this one time only power reconfiguration to a BellSouth BDFB. For any power reconfigurations thereafter, New Edge will submit a Subsequent Application and the appropriate Simple Augment Application Fee will apply.

8.9.6 If New Edge elects to install its own DC Power Plant, BellSouth shall provide AC power to feed New Edge's DC Power Plant. Charges for AC power will be assessed on a per breaker ampere, per month basis, pursuant to the rates specified in Exhibit B. The AC power rates include recovery for the provision of commercial and standby AC power. When obtaining power from a BellSouth service panel, protection devices and power cables must be engineered (sized) and installed by New Edge's BellSouth Certified Supplier, with the exception that BellSouth shall engineer and install protection devices and power cables for Adjacent Collocation. New Edge's BellSouth Certified Supplier must provide a copy of the engineering power specifications prior to the Commencement Date. AC power voltage and phase ratings shall be determined on a per location basis. At New Edge's option, New Edge may arrange for AC power in an adjacent collocation arrangement from a retail provider of electrical power.

8.9.7 New Edge shall contract with a BellSouth Certified Supplier to perform the installation and removal of dedicated power cable support structure within New Edge's arrangement and terminations of cable within the Collocation Space.

8.9.8 Fused Amp Power. In all states, except as otherwise set forth in this Agreement, BellSouth shall make available -48V DC power on a per fused amp, per month basis, pursuant to the following:

For power provisioned from a BDFB. The number of fused amps requested by New Edge on its collocation application for power that is being provisioned from a BellSouth BDFB will be multiplied by the DC power fused amp rate set forth in Exhibit B. A minimum of ten (10) fused amps is required.

For existing power configurations that are provisioned from BellSouth's main power board. The number of fused amps made available at the main power board, in increments of two hundred and twenty-five (225) amps/main power board circuit, will be multiplied by the DC power fused amp rate set forth in Exhibit B.

8.9.9 Florida Power Usage Option

8.9.9.1 In Central Offices in Florida only, New Edge may request that -48 DC power provisioned by BellSouth to New Edge's Collocation Space be assessed per amp, per month based upon amps used, pursuant to the rates set forth in Exhibit B. Monthly recurring power charges will be assessed on the Space Acceptance Date or Space Ready Date, whichever is appropriate, pursuant to Section 8.3 above. If New Edge desires to convert existing physical collocation arrangements to the Florida Power Usage Option (hereinafter "FL Option"), then the monthly recurring power charges that are applicable to the FL Option, contained in Exhibit B, will be assessed on the Space Ready Date associated with the Subsequent

Application submitted by New Edge to convert an existing collocation arrangement to the FL Option. The monthly recurring charges for DC power, under the FL Option, shall be calculated and applied based on the amount of power New Edge requests that it be allowed to draw at a given time to a specific physical collocation arrangement in a particular BellSouth Premises on New Edge's Initial Application or Subsequent Application. BellSouth shall allow New Edge at New Edge's option, to order a power feed that is capable of delivering a higher DC power level but to fuse this power feed so as to allow a power level less than the feed's maximum to be drawn by New Edge. BellSouth is not required to build its central office power infrastructure to meet New Edge's forecasted DC power demand. New Edge must specify on its Initial or Subsequent Application the power level it wishes to be able to draw from BellSouth's power plant for each existing collocation arrangement New Edge converts to the FL Option or for any new collocation arrangements New Edge establishes under the FL Option.

- 8.9.9.2 BellSouth, at any time and at its own expense, shall have the right to verify the accuracy of New Edge's power usage under the FL Option for a specific collocation arrangement in a particular BellSouth Premises, based on a meter reading(s) taken by BellSouth of the amount of power being consumed by New Edge's collocation arrangement. BellSouth may perform its own meter reading(s) via any method it chooses, such as, but not limited to, a clamp-on ammeter. If the meter reading(s) varies by more than ten percent (10%) or five (5) amps from the power usage that has been requested by New Edge for the collocation arrangement, under the FL Option, the Parties agree to work cooperatively to reconcile such discrepancy and establish the appropriate usage figure in a reasonable and expeditious manner. If the Parties substantiate BellSouth's reading, then BellSouth shall adjust New Edge's billing to reflect BellSouth's power reading beginning with the first day of the month immediately following the date of the last metered reading taken by BellSouth.
- 8.9.9.3 BellSouth shall assess New Edge a monthly recurring charge for DC power under the FL Option, as set forth in Exhibit B. New Edge shall notify BellSouth of any change in its DC power usage by submitting a Subsequent Application, which reflects the new DC power level desired by New Edge. The requested change in DC power usage will be reflected in New Edge's next scheduled monthly billing cycle.
- 8.9.10 Tennessee Caged Collocation Power Usage Metering Option. In Central Offices in Tennessee only, New Edge may request that DC power provisioned by BellSouth to New Edge's caged Collocation Space be assessed pursuant to the orders entered by the Tennessee Regulatory Authority in Dockets 97-01262, 99-00430, and 00-00544 for Collocation for Tennessee. By electing the TRA Option, <customer short name> accepts the TRA rates, terms and conditions of Exhibit C in their entirety in conjunction with the other terms and conditions of Attachment 4.
- 8.9.11 Georgia Caged Collocation Power Usage Metering Option. - In Georgia, New

Edge may request that DC power provisioned by BellSouth to New Edge's Collocation Space be assessed pursuant to Georgia Public Service Commission Order Docket No. 14361-U ("Order"). BellSouth will assess New Edge for -48V DC power using the actual number of load Amps measured. The power circuits may be fed from either a BellSouth BDFB or New Edge's BDFB. These recurring power charges will be assessed by BellSouth on the Space Acceptance Date or Space Ready Date, whichever is appropriate, pursuant to Section 8.3.

- 8.9.11.1 Upon New Edge's election of the power metering option New Edge will convert existing caged collocation arrangements to the power metering rate structure. The recurring power charges that are contained Exhibit B of this Attachment will be assessed on the Space Ready Date associated with the Subsequent Application submitted by New Edge to convert an existing caged collocation arrangement to the metered power rates.
- 8.9.11.2 Pursuant to the Order, New Edge shall provide a Fluke Model 189 AC/DC multimeter and Fluke Model i410 clamp-on ammeter probe for each central office where they have requested metered power. One copy of the FlukeView software must also be provided for each Fluke 189 multimeter, and each copy must comply with Fluke copyrights.
- 8.9.11.3 New Edge may, at its sole cost and expense, install its own meters on its BDFB(s) located in its own caged Collocation Space(s) and notify BellSouth of the option of using such meters for the purposes of measuring New Edge's actual power usage. In such case, BellSouth, or its BellSouth Certified Supplier, will have the option of reading and recording the actual power usage from either the meter installed on New Edge's own BDFB(s) or via the aforementioned Fluke 189 multimeter equipped with a Fluke i410 clamp-on ammeter probe.
- 8.9.11.4 BellSouth, at its sole option and at its own cost, may choose to purchase, install, and use its own ammeter measurement device. The usage reading for the option elected by BellSouth shall be used for purposes of calculating the DC power usage billing.
- 8.9.11.5 BellSouth, or its BellSouth Certified Supplier, will perform all metering activities, to measure the actual power usage being drawn by New Edge's collocation equipment on both the A and B power feeds. The charge will be the sum of both the A and B power feeds and will be based upon either an instantaneous reading or busy hour average current reading, depending on the capabilities of the ammeter measurement device.
- 8.9.11.6 If BellSouth, or its BellSouth Certified Supplier, requires access to New Edge's caged Collocation Space(s) for purposes of measuring the power usage, BellSouth or its BellSouth Certified Supplier shall provide New Edge with a minimum of forty-eight (48) hours (two business days) notice that access is required. New Edge shall respond to such request for access within twenty-four (24) hours for the purpose of establishing the date and time of access to New Edge's caged Collocation Space(s). Once the date and time of access to New Edge's caged Collocation Space(s) has been agreed upon, New Edge and BellSouth, or its

BellSouth Certified Supplier, shall adhere to the agreed upon date and time, or provide a minimum of three (3) hours notice to the other Party if the original appointment(s) will be missed or must be canceled and rescheduled. Once a mutually agreed upon date and time are established and New Edge does not provide minimum of three (3) hours notice, BellSouth's Certified Supplier will only remain at the site for thirty (30) minutes. After thirty (30) minutes the appointment will be considered missed by New Edge.

8.9.11.7 If New Edge fails to provide access to its caged Collocation Space(s) or fails to provide BellSouth, or its BellSouth Certified Supplier, with sufficient notification of the missed appointment(s), as noted above, then New Edge shall pay the nonrecurring "Additional Meter Reading Trip Charge", as set forth in Exhibit B of this Attachment, for each additional meter reading trip that must be rescheduled to measure New Edge's power usage for such caged Collocation Space(s). New Edge and the BellSouth Certified Supplier may jointly agree to less stringent notification requirements to address, for example, any service interruption or restoration of service situations, on a location-by-location basis.

8.9.11.8 For each new caged collocation arrangement, New Edge shall indicate on New Edge's Initial Application that they are electing to have metered power. For each location that New Edge wishes to convert to metered power New Edge will submit a Subsequent Application and agrees to include in the Comments section of the Subsequent Application the following comment:

This Subsequent Application is New Edge's certification that New Edge is opting to convert this caged collocation arrangement to metered power and will permit BellSouth, or the BellSouth Certified Supplier, to measure its actual power usage on all power feeds.

8.9.11.9 BellSouth will bill New Edge a Power Reconfiguration Only Application Fee, as set forth in Exhibit B of this Attachment, on the date that BellSouth provides an Application Response to each Subsequent Application submitted by New Edge converting its caged collocation arrangements to the metered power rates. BellSouth shall then arrange for the measurement of New Edge's actual power usage on each power feed (each A and B power feed) once each quarter at each of New Edge's caged collocation arrangements for which New Edge has submitted an Initial or Subsequent Application electing metered power.

8.9.11.10 Based upon the actual power usage measurement taken by BellSouth or the BellSouth Certified Supplier, BellSouth shall assess New Edge for power usage for the following quarter based upon New Edge's actual metered usage for each power feed (both the A and B power feeds) or a minimum of ten (10) amps of – 48V DC power usage for the sum of the A and B feeds for each power cable, whichever is greater. Such usage shall then be multiplied by the rate for Load Amps either with a BellSouth BDFB or with New Edge BDFB as set forth in Exhibit B of this Attachment, to determine the appropriate monthly recurring power usage charge that will be billed to New Edge for the following three (3)

months or until the next power usage measurement is taken, whichever is later.

- 8.9.11.11 Either Party, within fifteen (15) days of notice of the usage measurement established by the scheduled meter reading, may challenge the accuracy of that reading by requesting a new reading. If New Edge requests that an unscheduled (prior to the next scheduled quarterly power reading date) power usage reading be taken, then New Edge will be responsible for paying the “Additional Meter Reading Trip Charge” contained in Exhibit B of this Attachment. If BellSouth requests a power usage reading be taken in this instance, then New Edge will not be charged the “Additional Meter Reading Trip Charge” for the unscheduled meter reading. If the readings vary by more than ten (10) % or five (5) Amps, whichever is greater, the Parties shall work cooperatively to reconcile such discrepancies and establish the appropriate usage figure in a reasonable and expeditious manner. If the readings do not vary outside these ranges, the initial reading will be used to calculate New Edge’s AC usage charge for the next three (3) months.
- 8.9.11.12 BellSouth, at any time and at its own expense, shall have the right to verify the accuracy of New Edge’s BDFB meter by performing its own meter reading via an alternate method, such as, but not limited to, an ammeter. If the meter readings vary by more than ten (10) % or five (5) Amps, whichever is greater, the Parties agree to perform a joint investigation. If New Edge’s BDFB meter is found to be in error, then New Edge agrees to recalibrate, repair, or replace its meter as required. The Parties recognize that the meter readings discussed in this Attachment are instantaneous readings that can experience minor fluctuations due to usage traffic, voltage fluctuations, and calibration of the meters themselves. The readings must vary by more than ten (10) % or five (5) Amps, whichever is greater, before any recalibration, repair, or replacement will be required. If the BellSouth reading is substantiated, BellSouth shall adjust New Edge’s billing retroactive to the beginning of the quarter for which the last meter reading was taken.
- 8.9.11.13 When New Edge submits the appropriate Initial or Subsequent Application for a specific caged collocation arrangement in a particular BellSouth Premises, BellSouth will provide the associated Application Response pursuant to Section 6 above. It will then be the responsibility of New Edge to submit a BFFO. After BellSouth receives the BFFO from New Edge, the Initial or Subsequent Application will be completed by BellSouth within the provisioning intervals contained in Section 7 above and New Edge will be notified of the Space Ready Date or when the appropriate record and database changes have been made by BellSouth to reflect New Edge’s conversion to the metered power rates (which will be considered the “Space Ready Date” for purposes of a Subsequent Application submitted to convert a specific caged collocation arrangement in a particular BellSouth Premises to the metered power rates).
- 8.9.11.14 BellSouth will not permit New Edge to elect an earlier Space Acceptance Date than the Space Ready Date for any request submitted via a Subsequent Application for an existing caged collocation arrangement. When a Subsequent

Application is used to elect metered power and there are no other changes requested, billing for the recurring charges associated with metered power will begin upon the Space Ready Date. If New Edge occupies the space prior to the Space Ready Date, for Initial Application requests only, the date New Edge occupies the space will be deemed the new Space Acceptance Date and billing for metered power will begin on that date. When New Edge moves to metered power the number of fused amps of DC Power requested by New Edge on its Initial or Subsequent Application will be used for calculating the number of amps to be billed until such time as BellSouth or its BellSouth Certified Supplier can perform, under the currently existing quarterly meter reading schedule, a reading of New Edge's power usage for the requested caged Collocation Space. As soon as this reading has been taken, BellSouth will adjust New Edge's billing accordingly to reflect the actual metered usage back to the Space Acceptance Date. BellSouth will also use this reading for billing purposes until the next quarterly meter reading is performed by BellSouth or its BellSouth Certified Supplier.

- 8.9.11.15 New Edge agrees to submit a Subsequent Application to notify BellSouth when New Edge has removed or installed telecommunications equipment in New Edge's physical Collocation Space to ensure that New Edge's existing fused DC power capacity is sufficiently engineered to accommodate the power requirements associated with the installation of additional equipment in New Edge's Collocation Space. An associated change in power usage will be reflected in the next quarterly power measurement billing cycle.
- 8.9.11.16 BellSouth will bill New Edge a monthly recurring charge per caged Collocation Space for each arrangement that New Edge has converted to metered power or for new caged Collocation Spaces under the election of metered power. This "Meter Reading" monthly recurring rate element will be assessed per circuit for each circuit read by BellSouth or its BellSouth Certified Supplier, at the rates set forth in Exhibit B.
- 8.9.12 In Alabama and Louisiana, New Edge has the option to purchase power directly from an electric utility company. Under such option, New Edge is responsible for contracting with the electric utility company for its own power feed and meter and is financially responsible for purchasing all equipment necessary to accomplish the arrangement, including inverters, batteries, power boards, bus bars, BDFBs, backup power supplies and cabling. The actual work to install this arrangement must be performed by a BellSouth Certified Supplier hired by New Edge. New Edge's BellSouth Certified Supplier must comply with all applicable safety codes, including the NEC and National Electric Safety Code (NESC) standards, in the installation of this power arrangement. If New Edge currently has power supplied by BellSouth, New Edge may request to change its Collocation Space to obtain power from an electric utility company by submitting a Subsequent Application. BellSouth will waive the application fee for this Subsequent Application if no other changes are requested therein. Any floor space, cable racking, etc., utilized

by New Edge in provisioning said power will be billed by BellSouth on an ICB basis.

- 8.9.13 In South Carolina, New Edge has the option to purchase power directly from an electric utility company where technically feasible and where space is available in a requested BellSouth Premises. Under such option, New Edge is responsible for contracting with the electric utility company for its own power feed and meter, and is financially responsible for purchasing all equipment necessary to accomplish the conversion of the commercial AC power to DC power, including inverters, batteries, power boards, bus bars, BDFBs, backup power supplies and power cabling. The actual work to install this arrangement must be performed by a BellSouth Certified Supplier hired by New Edge. New Edge's BellSouth Certified Supplier must comply with all applicable national, regional, state and local safety, electrical, fire and building codes, including the NESC standards, in the installing of this power arrangement, just as BellSouth is required to comply with these codes. New Edge must submit an application to BellSouth for the appropriate amount of Collocation Space that New Edge requires in order to install this type of power arrangement. BellSouth will evaluate the request and determine if the appropriate amount of space is available within the BellSouth Premises for the installation of New Edge's power equipment and facilities. This type of power arrangement must be located in an appropriate area in the BellSouth Premises that has been properly conditioned for the installation of power equipment and conforms to the applicable national, regional, state and local safety, electrical, fire and building codes. BellSouth shall waive the application fee or any other nonrecurring charge that would otherwise be due from a CLEC that decides to reconfigure an existing collocation power arrangement so as to purchase power directly from an electric utility company as provided herein. New Edge shall be responsible for the recurring charges associated with the additional space needed in the BellSouth Premises for this type of power arrangement, including space required to place associated power-related equipment and facilities (i.e., batteries, generator, fuse panel, power meter, etc.). If there is no space available for this type of power arrangement in the requested BellSouth Premises, BellSouth may seek a waiver of these requirements from the Commission for the BellSouth Premises requested. New Edge would have the option to order its power needs directly from BellSouth.
- 8.10 Central Office Cable Installation. Cable Installation fees will be assessed on a per entrance cable basis. This nonrecurring charge will be billed by BellSouth upon receipt of New Edge's BFFO. Charges for cable racking, cable support structure and entrance fiber structure are recurring fees and will also be assessed according to the rates set forth in Exhibit B.
- 8.11 Central Office Cable Records. Cable Records charges apply for work activities required to build or remove existing cable records assigned to New Edge in BellSouth's database systems. The VG/DS0 per cable record charge is for a maximum of thirty-six hundred (3,600) records per request. The fiber cable record charge is for a maximum of ninety-nine (99) records per request. Cable

Record fees will be assessed as a nonrecurring charge, upon receipt of New Edge's BFFO, in all BellSouth states, except Louisiana. In Louisiana, Cable Record fees will be assessed on a monthly recurring charge basis, upon receipt of New Edge's BFFO. All charges will be assessed the rates set forth in Exhibit B.

- 8.12 Security Escort. After New Edge has used its one (1) accompanied site visit, pursuant to Section 5.12.1 above, and prior to New Edge's completion of the BellSouth Security Training requirements, contained in Section 12 below, a security escort will be required when New Edge's employees, approved agent, supplier, or Guest(s) desire access to the entrance manhole or a BellSouth Premises. The rates for security escort service are assessed pursuant to the fee schedule contained in Exhibit B, beginning with the scheduled escort time agreed to by the Parties. BellSouth will wait for one-half (1/2) hour after the scheduled escort time to provide such requested escort service and New Edge shall pay for such half-hour charges in the event New Edge's employees, approved agent, supplier or Guest(s) fails to show up for the scheduled escort appointment.
- 8.13 Other. If no collocation rate element and associated rate is identified in Exhibit B, the Parties, upon request by either Party, will negotiate the rate for the specific collocation service or function identified in this Attachment.

## **9 Insurance**

- 9.1 New Edge shall, at its sole cost and expense, procure, maintain, and keep in force insurance as specified in this Section and underwritten by insurance companies licensed to do business in the states applicable under this Agreement and having a Best's Insurance Rating of A.
- 9.2 New Edge shall maintain the following specific coverage:
- 9.2.1 Commercial General Liability coverage in the amount of ten million dollars (\$10,000,000) or a combination of Commercial General Liability and Excess/Umbrella coverage totaling not less than ten million dollars (\$10,000,000). BellSouth shall be named as an Additional Insured on the Commercial General Liability policy as specified herein.
- 9.2.2 Statutory Workers Compensation coverage and Employers Liability coverage in the amount of one hundred thousand dollars (\$100,000) each accident, one hundred thousand dollars (\$100,000) each employee by disease, and five hundred thousand dollars (\$500,000) policy limit by disease.
- 9.2.3 All Risk Property coverage on a full replacement cost basis insuring all of New Edge's real and personal property situated on or within a BellSouth Premises.
- 9.2.4 New Edge may elect to purchase business interruption and contingent business interruption insurance, having been advised that BellSouth assumes no liability for loss of profit or revenues should an interruption of service occur.
- 9.3 The limits set forth in Section 9.2 above may be increased by BellSouth from time to time during the term of this Agreement, upon thirty (30) days notice to New

Edge, to at least such minimum limits as shall then be customary with respect to comparable occupancy of BellSouth structures.

- 9.4 All policies purchased by New Edge shall be deemed to be primary and not contributing to or in excess of any similar coverage purchased by BellSouth. All insurance must be in effect on or before the date equipment is delivered to BellSouth's Premises and shall remain in effect for the term of this Agreement or until all of New Edge's property has been removed from BellSouth's Premises, whichever period is longer. If New Edge fails to maintain required coverage, BellSouth may pay the premiums thereon and seek reimbursement of same from New Edge.
- 9.5 New Edge shall submit certificates of insurance reflecting the coverage required pursuant to this Section within a minimum of ten (10) business days prior to the commencement of any work in the Collocation Space. Failure to meet this interval may result in construction and equipment installation delays. New Edge shall arrange for BellSouth to receive thirty (30) business days' advance notice of cancellation or non-renewal from New Edge's insurance company. New Edge shall forward a certificate of insurance and notice of cancellation/non-renewal to BellSouth at the following address:
- BellSouth Telecommunications, Inc.  
Attn: Risk Management Office – Finance  
17F54 BellSouth Center  
675 W. Peachtree Street  
Atlanta, GA 30375
- 9.6 New Edge must conform to recommendations made by BellSouth's fire insurance company to the extent BellSouth has agreed to, or shall hereafter agree to, such recommendations.
- 9.7 Self Insurance. If New Edge's net worth exceeds five hundred million dollars (\$500,000,000), New Edge may elect to request self-insurance status in lieu of obtaining any of the insurance required in Section 9.2 above. New Edge shall provide audited financial statements to BellSouth thirty (30) days prior to the commencement of any work in the Collocation Space. BellSouth shall then review such audited financial statements and respond in writing to New Edge in the event that self-insurance status is not granted to New Edge. If BellSouth approves New Edge for self-insurance, New Edge shall annually furnish to BellSouth, and keep current, evidence of such net worth that is attested to by one of New Edge's corporate officers. The ability to self-insure shall continue so long as New Edge meets all of the requirements of this Section. If New Edge subsequently no longer satisfies the requirements of this Section, New Edge is required to purchase insurance as indicated by Section 9.2 above.
- 9.8 The net worth requirements set forth in Section 9.7 above may be increased by BellSouth from time to time during the term of this Agreement upon thirty (30) days' notice to New Edge to at least such minimum limits as shall then be customary with respect to comparable occupancy of a BellSouth Premises.

9.9 Failure to comply with the provisions of this Section will be deemed a material breach of this Attachment.

## **10 Mechanics Lien**

10.1 If any mechanics lien or other liens are filed against property of either Party (BellSouth or New Edge), or any improvement thereon by reason of or arising out of any labor or materials furnished or alleged to have been furnished or to be furnished to or for the other Party or by reason of any changes, or additions to said property made at the request or under the direction of the other Party, the other Party directing or requesting those changes shall, within thirty (30) business days after receipt of written notice from the Party against whose property said lien has been filed, either pay such lien or cause the same to be bonded off the affected property in the manner provided by law. The Party causing said lien to be placed against the property of the other shall also defend at its sole cost and expense, on behalf of the other, any action, suit or proceeding which may be brought for the enforcement of such liens and shall pay any damage and discharge any judgment entered thereon.

## **11 Inspections**

11.1 BellSouth may conduct an inspection of New Edge's equipment and facilities in New Edge's Collocation Space(s) prior to the activation of facilities and/or services between New Edge's equipment and equipment of BellSouth. BellSouth may conduct an inspection if New Edge adds equipment and may otherwise conduct routine inspections at reasonable intervals mutually agreed upon by the Parties. BellSouth shall provide New Edge with a minimum of forty-eight (48) hours or two (2) business days, whichever is greater, advance notice of all such inspections. All costs of such inspections shall be borne by BellSouth.

## **12 Security and Safety Requirements**

12.1 Unless otherwise specified, New Edge will be required, at its own expense, to conduct a statewide investigation of criminal history records for each New Edge employee hired in the past five (5) years being considered for work on a BellSouth Premises, for the states/counties where the New Edge employee has worked and lived for the past five (5) years. Where state law does not permit statewide collection or reporting, an investigation of the applicable counties is acceptable. New Edge shall not be required to perform this investigation if an affiliated company of New Edge has performed an investigation of the New Edge employee seeking access, if such investigation meets the criteria set forth above. This requirement will not apply if New Edge has performed a pre-employment statewide investigation of criminal history records of the New Edge employee for the states/counties where the New Edge employee has worked and lived for the past five (5) years or, where state law does not permit a statewide investigation, an investigation of the applicable counties.

12.2 New Edge will be required to administer to its personnel assigned to the BellSouth Premises security training either provided by BellSouth, or meeting criteria defined by BellSouth at BellSouth's Interconnection Web site,

[www.interconnection.bellsouth.com/guides](http://www.interconnection.bellsouth.com/guides).

- 12.3 New Edge shall provide its employees and agents with picture identification, which must be worn and visible at all times while in New Edge's Collocation Space or other areas in or around the BellSouth Premises. The photo identification card shall bear, at a minimum, the employee's name and photo and New Edge's name. BellSouth reserves the right to remove from a BellSouth Premises any employee of New Edge not possessing identification issued by New Edge or who has violated any of BellSouth's policies as outlined in the CLEC Security Training documents. New Edge shall hold BellSouth harmless for any damages resulting from such removal of New Edge's personnel from a BellSouth Premises. New Edge shall be solely responsible for ensuring that any Guest(s) of New Edge is in compliance with all subsections of this Section.
- 12.4 New Edge shall not assign to the BellSouth Premises any personnel with records of felony criminal convictions. New Edge shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions, except for misdemeanor traffic violations, without advising BellSouth of the nature and gravity of the offense(s). BellSouth reserves the right to refuse building access to any of New Edge's personnel who have been identified to have misdemeanor criminal convictions. Notwithstanding the foregoing, in the event New Edge chooses not to advise BellSouth of the nature and gravity of any misdemeanor conviction, New Edge may, in the alternative, certify to BellSouth that it shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions (other than misdemeanor traffic violations).
- 12.4.1 New Edge shall not knowingly assign to the BellSouth Premises any individual who was a former employee of BellSouth and whose employment with BellSouth was terminated for a criminal offense, whether or not BellSouth sought prosecution of the individual for the criminal offense.
- 12.4.2 New Edge shall not knowingly assign to the BellSouth Premises any individual who was a former supplier of BellSouth and whose access to a BellSouth Premises was revoked due to the commission of a criminal offense, whether or not BellSouth sought prosecution of the individual for the criminal offense.
- 12.5 For each New Edge employee or agent hired by New Edge within the last five (5) years, who requires access to a BellSouth Premises to perform work in New Edge Collocation Space(s), New Edge shall furnish BellSouth certification that the aforementioned background check and security training were completed. This certification must be provided to and approved by BellSouth before an employee or agent will be granted such access to a BellSouth Premises. The certification will contain a statement that no felony convictions were found and certify that the employee completed the security training. If the employee's criminal history includes misdemeanor convictions, New Edge will disclose the nature of the convictions to BellSouth at that time. In the alternative, New Edge may certify to BellSouth that it shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions, other than misdemeanor traffic violations.

- 12.5.1 For all other New Edge employees requiring access to a BellSouth Premises pursuant to this Attachment, New Edge shall furnish BellSouth, prior to an employee gaining such access, a certification that the employee is not subject to the requirements of Section 12.5 above and that security training was completed by the employee.
- 12.6 At BellSouth's request, New Edge shall promptly remove from the BellSouth Premises any employee of New Edge that BellSouth does not wish to grant access to a BellSouth Premises: 1) pursuant to any investigation conducted by BellSouth, or 2) prior to the initiation of an investigation if an employee of New Edge is found interfering with the property or personnel of BellSouth or another collocated telecommunications carrier, provided that an investigation shall be promptly commenced by BellSouth.
- 12.7 Security Violations. BellSouth reserves the right to interview New Edge's employees, agents, suppliers, or Guests in the event of wrongdoing in or around a BellSouth Premises or involving BellSouth's or another collocated telecommunications carrier's property or personnel, provided that BellSouth shall provide reasonable notice to New Edge's Security representative of such interview. New Edge and its employees, agents, suppliers, or Guests shall reasonably cooperate with BellSouth's investigation into allegations of wrongdoing or criminal conduct committed by, witnessed by, or involving New Edge's employees, agents, suppliers, or Guests. Additionally, BellSouth reserves the right to bill New Edge for all reasonable costs associated with investigations involving its employees, agents, suppliers, or Guests if it is established and mutually agreed in good faith that New Edge's employees, agents, suppliers, or Guests are responsible for the alleged act(s). BellSouth shall bill New Edge for BellSouth property, which is stolen or damaged, where an investigation determines the culpability of New Edge's employees, agents, suppliers, or Guests and where New Edge agrees, in good faith, with the results of such investigation. New Edge shall notify BellSouth in writing immediately in the event that New Edge discovers one of its employees, agents, suppliers, or Guests already working on the BellSouth Premises is a possible security risk. Upon request of the other Party, the Party who is the employer shall discipline consistent with its employment practices, up to and including removal from BellSouth's Premises, any employee found to have violated the security and safety requirements of this Section. New Edge shall hold BellSouth harmless for any damages resulting from such removal of New Edge's personnel from a BellSouth Premises.
- 12.8 Use of Supplies. Unauthorized use of equipment, supplies or other property by either Party, whether or not used routinely to provide telephone service will be strictly prohibited and handled appropriately. Costs associated with such unauthorized use may be charged to the offending Party, as may be all associated investigative costs.
- 12.9 Use of Official Lines. Except for non-toll calls necessary in the performance of their work, neither Party shall use the telephone(s) of the other Party on

BellSouth's Premises. Charges for unauthorized telephone calls may be charged to the offending Party, as may be all associated investigative costs.

- 12.10 Accountability. Full compliance with the Security requirements of this Section shall in no way limit the accountability of either Party to the other for the improper actions of its employees, agents, suppliers, or Guests.

### **13 Destruction of Collocation Space**

- 13.1 In the event a Collocation Space is wholly or partially damaged by fire, windstorm, hurricane, tornado, flood or by similar force majeure circumstances to such an extent as to be rendered wholly unsuitable for New Edge's permitted use hereunder, then either Party may elect within ten (10) days after such damage, to terminate occupancy of the damaged Collocation Space, and if either Party shall so elect, by giving the other written notice of termination, both Parties shall stand released of and from further liability under the terms hereof. If the Collocation Space shall suffer only minor damage and shall not be rendered wholly unsuitable for New Edge's permitted use, or is damaged and the option to terminate is not exercised by either Party, BellSouth covenants and agrees to proceed promptly without expense to New Edge, except for improvements not to the property of BellSouth, to repair the damage. BellSouth shall have a reasonable time within which to rebuild or make any repairs, and such rebuilding and repairing shall be subject to delays caused by storms, shortages of labor and materials, government regulations, strikes, walkouts, and causes beyond the control of BellSouth, which causes shall not be construed as limiting factors, but as exemplary only. New Edge may, at its own expense, accelerate the rebuild of its Collocation Space and equipment provided, however, that a BellSouth Certified Supplier is used and the necessary space preparation has been completed. If New Edge's acceleration of the project increases the cost of the project, then those additional charges will be incurred at New Edge's expense. Where allowed and where practical, New Edge may erect a temporary facility while BellSouth rebuilds or makes repairs. In all cases where the Collocation Space shall be rebuilt or repaired, New Edge shall be entitled to an equitable abatement of rent and other charges, depending upon the unsuitability of the Collocation Space for New Edge's permitted use, until such Collocation Space is fully repaired and restored and New Edge's equipment installed therein (but in no event later than thirty (30) days after the Collocation Space is fully repaired and restored). Where New Edge has placed an Adjacent Arrangement pursuant to Section 3.4 above, New Edge shall have the sole responsibility to repair or replace said Adjacent Arrangement provided herein. Pursuant to this Section, BellSouth will restore the associated services to the Adjacent Arrangement.

### **14 Eminent Domain**

- 14.1 If the whole of a Collocation Space or Adjacent Arrangement shall be taken by any public authority under the power of eminent domain, then this Attachment shall terminate with respect to such Collocation Space or Adjacent Arrangement as of the date possession shall be taken by such public authority and rent and

other charges for the Collocation Space or Adjacent Arrangement shall be paid up to that day with a proportionate refund by BellSouth of such rent and charges as may have been paid in advance for a period subsequent to the date of the taking. If any part of the Collocation Space or Adjacent Arrangement shall be taken under eminent domain, BellSouth and New Edge shall each have the right to terminate this Attachment with respect to such Collocation Space or Adjacent Arrangement and declare the same null and void, by written notice of such intention to the other Party within ten (10) days after such taking.

**15 Nonexclusivity**

15.1 New Edge understands that this Attachment is not exclusive and that BellSouth may enter into similar agreements with other Parties. Assignment of Collocation Space pursuant to all such agreements shall be determined by space availability and made on a first come, first serve basis.

## ENVIRONMENTAL AND SAFETY PRINCIPLES

The following principles provide basic guidance on environmental and safety issues when applying for and establishing physical collocation arrangements.

### 1. General Principles

- 1.1 Compliance with Applicable Law. BellSouth and New Edge agree to comply with applicable federal, state, and local environmental and safety laws and regulations including U.S. Environmental Protection Agency (USEPA) regulations issued under the Clean Air Act (CAA), Clean Water Act (CWA), Resource Conservation and Recovery Act (RCRA), Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), Superfund Amendments and Reauthorization Act (SARA), the Toxic Substances Control Act (TSCA), and Occupational Safety and Healthy Act (OSHA) regulations issued under the OSHA of 1970, as amended and National Fire Protection Association (NFPA), NEC and NESC (Applicable Laws) requirements. Each Party shall notify the other if compliance inspections are conducted by regulatory agencies and/or citations are issued that relate to any aspect of this Attachment.
- 1.2 Notice. BellSouth and New Edge shall provide notice to the other, including any Material Safety Data Sheets (MSDSs), of known and recognized physical hazards or Hazardous Chemicals existing on site or brought on site. A Hazardous Chemical inventory list is posted on an OSHA Poster and updated annually at each Central Office. This Poster is normally located near the front entrance of the building or in the lounge area. Each Party is required to provide specific notice for known potential Imminent Danger conditions. New Edge should contact 1-800-743-6737 for any BellSouth MSDS required.
- 1.3 Practices/Procedures. BellSouth may make available additional environmental control procedures for New Edge to follow when working at a BellSouth Premises (See Section 2, below). These practices/procedures will represent the regular work practices required to be followed by the employees and suppliers of BellSouth for environmental protection. New Edge will require its suppliers, agents, Guests, and others accessing the BellSouth Premises to comply with these practices. Section 2 below lists the Environmental categories where BellSouth practices should be followed by New Edge when operating in the BellSouth Premises.
- 1.4 Environmental and Safety Inspections. BellSouth reserves the right to inspect the New Edge space with proper notification. BellSouth reserves the right to stop any New Edge work operation that imposes Imminent Danger to the environment, employees or other persons in or around a BellSouth Premises.
- 1.5 Hazardous Materials Brought On Site. Any hazardous materials brought into, used, stored or abandoned at a BellSouth Premises by New Edge are owned by and considered the property of New Edge. New Edge will indemnify BellSouth

for claims, lawsuits or damages to persons or property caused by these materials. Without prior written BellSouth approval, no substantial new safety or environmental hazards can be created by New Edge or different hazardous materials used by New Edge at a BellSouth Premises. New Edge must demonstrate adequate emergency response capabilities for the materials used by New Edge or remaining at a BellSouth Premises.

1.6 Spills and Releases. When contamination is discovered at a BellSouth Premises, either Party discovering the condition must notify the other Party. All Spills or Releases of regulated materials will immediately be reported by New Edge to BellSouth.

1.7 Coordinated Environmental Plans and Permits. BellSouth and New Edge will coordinate plans, permits or information required to be submitted to government agencies, such as emergency response plans, spill prevention control and countermeasures (SPCC) plans and community reporting. If fees are associated with filing, BellSouth and New Edge will develop a cost sharing procedure. If BellSouth's permit or EPA identification number must be used, New Edge must comply with all of BellSouth's permit conditions and environmental processes, including environmental "best management practices (BMP)" (see Section 2, below) and the selection of BST disposition vendors and disposal sites.

1.8 Environmental and Safety Indemnification. BellSouth and New Edge shall indemnify, defend and hold harmless the other Party from and against any claims (including, without limitation, third-party claims for personal injury or death or real or personal property damage), judgments, damages (including direct and indirect damages and punitive damages), penalties, fines, forfeitures, costs, liabilities, interest and losses arising in connection with the violation or alleged violation of any Applicable Law or contractual obligation or the presence or alleged presence of contamination arising out of the acts or omissions of the indemnifying Party, its employees, agents, suppliers, or Guests concerning its operations at a BellSouth Premises.

## 2. **Categories for Consideration of Environmental Issues**

2.1 When performing functions that fall under the following Environmental categories on BellSouth's Premises, New Edge agrees to comply with the applicable sections of the current issue of BellSouth's Environmental and Safety Methods and Procedures (M&Ps), incorporated herein by this reference. New Edge further agrees to cooperate with BellSouth to ensure that New Edge's employees, agents, suppliers and/or Guests are knowledgeable of and satisfy those provisions of BellSouth's Environmental M&Ps, which apply to the specific Environmental function being performed by New Edge, its employees, agents, suppliers, and/or Guests.

2.2 The most current version of the reference documentation must be requested from New Edge's BellSouth Regional Contract Manager (RCM).

| <b>Environmental Categories</b>                                                                                                                                                             | <b>Environmental Issues</b>                                                                                                                                              | <b>Addressed By The Following Documentation</b>                                                                                    |

### 3. Definitions

Generator. Under RCRA, the person whose act produces a Hazardous Waste, as defined in 40 C.F.R. § 261, or whose act first causes a Hazardous Waste to become subject to regulation. The Generator is legally responsible for the proper management and disposal of Hazardous Wastes in accordance with regulations.

Hazardous Chemical. As defined in the U.S. OSHA hazard communications standard (29 C.F.R. § 1910.1200), any chemical which is a health hazard or physical hazard.

Hazardous Waste. As defined in Section 1004 of RCRA.

Imminent Danger. Any conditions or practices at a BellSouth Premises which are such that a danger exists which could reasonably be expected to cause immediate death or serious harm to people or immediate significant damage to the environment or natural resources.

Spill or Release. As defined in Section 101 of CERCLA.

**4. Acronyms**

RCM – Regional Collocation Manager (f/k/a Account Team Collocation Coordinator)

BST – BellSouth Telecommunications

CRES – Corporate Real Estate and Services (formerly PS&M)

DEC/LDEC – Department Environmental Coordinator/Local Department Environmental Coordinator

## **ACCESS TO NUMBERS AND NUMBER PORTABILITY**

### **1. Non-Discriminatory Access to Telephone Numbers**

- 1.1 During the term of this Agreement, where New Edge is utilizing its own switch, New Edge shall contact the North American Numbering Plan Administrator (NANPA), or, where applicable, the relevant Number Pool Administrator for the assignment of numbering resources.
- 1.2 Where BellSouth provides resold services to New Edge, BellSouth will provide New Edge with online access to available telephone numbers as defined by applicable FCC rules and regulations on a first come first served basis. New Edge acknowledges that such access to numbers shall be in accordance with the appropriate FCC rules and regulations. New Edge may designate up to a forecasted six (6) months supply of available numbers as intermediate (an available number provided to New Edge) telephone numbers per rate center if the following conditions are met:
  - 1.2.1 New Edge must: (1) indicate that all of the intermediate numbers currently held by New Edge in each rate center where New Edge will be requesting intermediate telephone numbers have six (6) or less months to exhaust; (2) supply projected monthly telephone number demand on a rate center basis for the coming twelve (12) months for each rate center where New Edge will be requesting intermediate telephone numbers; and, (3) demonstrate that the utilization level on current intermediate numbers held by New Edge in the rate center where New Edge is requesting telephone numbers has reached at least seventy-five percent (75%).
  - 1.2.2 The above information will be provided by New Edge by submitting to BellSouth a fully completed "CO Code Assignments Months To Exhaust Certification Worksheet – TN Level" (MTE Worksheet), Appendix B to the Central Office Code (NXX) Assignments Guidelines, INC 95-0407-008 for each rate center where New Edge will be requesting intermediate telephone numbers. The utilization level is calculated by dividing all intermediate numbers currently assigned by New Edge to customers by the total number of intermediate numbers held by New Edge in the rate center and multiplying the result by one hundred (100).
  - 1.2.3 If fulfilling New Edge's request for intermediate numbers results in BellSouth having to submit a request for additional telephone numbers to a national numbering administrator (either NANPA CO Code Administration or NeuStar Pooling Administration or their successors), BellSouth will submit the required numbering request to the national numbering administrator to satisfy New Edge's

request for intermediate numbers. BellSouth will also pursue all appropriate steps (including submitting a safety valve request (petition) to the appropriate Commission if the numbering request is denied by the national administrator) to satisfy New Edge's request for intermediate numbers. In these cases, BellSouth is not obligated to fulfill the request by New Edge for intermediate numbers unless, and until, BellSouth's request for additional numbering resources is granted.

1.2.4 New Edge agrees to supply supporting information for any numbering request and/or safety valve request that BellSouth files pursuant to Section 1.2.3 above.

1.3 New Edge acknowledges that there may be instances where there is an industry shortage of available telephone numbers in a number plan area (NPA). These instances occur where a jeopardy status has been declared by NANPA and the industry has determined that limiting the assignment of new numbers is the appropriate method to employ until the jeopardy can be alleviated. In such NPA jeopardy situations where assignment of new numbers is restricted per the jeopardy guidelines developed by the industry, BellSouth may request that New Edge cancel all or a portion of its unassigned intermediate numbers. New Edge's consent to BellSouth's request shall not be unreasonably withheld.

## 2. **Local Number Portability**

2.1 The Parties will offer LNP in accordance with rules, regulations and guidelines adopted by the Commission, the FCC and industry fora.

2.2 Service Management System (SMS) Administration. The Parties will work cooperatively with other local service providers to establish and maintain contracts for the LNP SMS.

2.3 Network Architecture. The Parties agree to adhere to applicable FCC rules and orders governing LNP network architecture.

2.4 Signaling. In connection with LNP, each Party agrees to use SS7 signaling in accordance with applicable FCC rules and orders.

2.5 N-1 Query. The Parties agree to adhere to applicable FCC rules and orders governing LNP N-1 queries.

2.6 Porting of Reserved Numbers and Suspended Lines. Customers of each Party may port numbers, via LNP, that are in a denied state or that are on suspend status. In addition, customers of each Party may port reserved numbers that the customer has paid to reserve. Portable reserved numbers are identified on the Customer Service Record (CSR). In anticipation of porting from one Party to the other Party, a Party's customer may reserve additional telephone numbers and include them with the numbers that are subsequently ported to the other Party. It is not necessary to restore a denied number before it is ported.

- 2.7      Splitting of Number Groups. The Parties shall permit blocks of subscriber numbers (including, but not limited to, Direct Inward Dial (DID) numbers and MultiServ groups) to be split in connection with an LNP request. BellSouth and New Edge shall permit customers who port a portion of DID numbers to retain DID service on the remaining portion of numbers. If a Party requests porting a range of DID numbers smaller than a whole block, that Party shall pay the applicable charges for doing so as set forth in Attachment 2. In the event no rate is set forth in Attachment 2, then the Parties shall negotiate a rate for such services.
- 2.8      The Parties will set Location Routing Number (LRN) unconditional or ten (10) digit triggers where applicable. Where triggers are set, the porting Party will remove the ported number at the same time the trigger is removed.
- 2.9      A trigger order is a service order issued in advance of the porting of a number. A trigger order 1) initiates call queries to the AIN SS7 network in advance of the number being ported; and 2) provides for the new service provider to be in control of when a number ports.
- 2.10     Where triggers are not set, the Parties shall coordinate the porting of the number between service providers so as to minimize service interruptions to the customer.
- 2.11     BellSouth and New Edge will work cooperatively to implement changes to LNP process flows ordered by the FCC or as recommended by standard industry foras addressing LNP.
- 2.12     Where New Edge utilizes BellSouth's LNP Query Service, BellSouth shall bill and New Edge shall pay the query charge associated with LNP Query Service as set forth in Attachment 2. To receive the LNP Query Service charge set forth in Attachment 2, New Edge shall fill out and submit the Interconnection data sheet for BellSouth LNP Query Service. The form can be obtained on BellSouth's Interconnection Web site under BellSouth LNP Query Service and click on forms. Once the form has been filled out and submitted the LNP Query charge will take effect on the approved date. This charge is not subject to the resale discount set forth in Attachment 1.
- 3.      Service Order Charges**
- 3.1      The terms, conditions and rates for OSS utilized in connection with LNP are as set forth in Attachment 6 and Exhibit A of Attachment 2.

## **PRE-ORDERING, ORDERING, PROVISIONING, MAINTENANCE AND REPAIR**

### **1. Quality of Pre-Ordering, Ordering, Provisioning, Maintenance and Repair**

- 1.1 BellSouth shall provide to New Edge nondiscriminatory access to its OSS and the necessary information contained therein in order that New Edge can perform the functions of pre-ordering, ordering, provisioning, maintenance and repair, and billing. BellSouth shall provide New Edge with all relevant documentation (manuals, user guides, specifications, etc.) regarding business rules and other formatting information as well as practices and procedures necessary to ensure requests are efficiently processed. All documentation will be readily accessible at BellSouth's Interconnection Web site. BellSouth shall ensure that its OSS are designed to accommodate requests for both current and projected demands of New Edge and other CLECs in the aggregate.

### **2. Access to Operations Support Systems**

- 2.1 BellSouth shall provide to New Edge nondiscriminatory access to its OSS and the necessary information contained therein in order that New Edge can perform the functions of pre-ordering, ordering, provisioning, maintenance and repair, and billing. BellSouth shall provide nondiscriminatory access to the OSS through manual and/or electronic interfaces as described in this Attachment. It is the sole responsibility of New Edge to obtain the technical capability to access and utilize BellSouth's OSS interfaces. Specifications for New Edge's access and use of BellSouth's electronic interfaces are set forth at BellSouth's Interconnection Web site.

- 2.1.1 New Edge agrees to comply with the provisions of the OSS Interconnection Volume Guidelines as set forth at BellSouth's Interconnection Web site.

#### **2.2 Pre-Ordering**

- 2.2.1 BellSouth will provide electronic access to its OSS and the information contained therein in order that New Edge can perform the following pre-ordering functions: service address validation, telephone number selection, service and feature availability, due date information, customer record information and loop makeup information. Mechanized access is provided by electronic interfaces whose specifications for access and use are set forth at BellSouth's Interconnection Web site. The process by which the Parties will manage these electronic interfaces to include the development and introduction of new interfaces will be governed by the change management process as described in Section 2.7 below.

- 2.2.2 BellSouth shall provide to New Edge electronic access to customer service record information in accordance with the applicable performance intervals referenced in Attachment 9. If electronic access is not available, BellSouth shall provide to New Edge such information within twenty-four (24) hours. New Edge shall provide to BellSouth access to customer record information, including circuit numbers associated with each telephone number where applicable. New Edge shall provide such information within four (4) hours after request via electronic access where available. If electronic access is not available, New Edge shall provide to BellSouth paper copies of customer record information, including circuit numbers associated with each telephone number where applicable. New Edge shall provide to BellSouth such customer service records within twenty-four (24) hours of a valid request, exclusive of Saturdays, Sundays and holidays.
- 2.2.3 The Parties agree not to view, copy, or otherwise obtain access to the other Party's customer record information about any of the other Party's customers without that customer's permission. New Edge will obtain access to customer record information only in strict compliance with applicable laws, rules, or regulations of the state in which the service is provided. BellSouth reserves the right to audit New Edge's access to customer record information. If BellSouth has reason to believe, through its audit or by any other means, that New Edge is accessing customer record information without having obtained the proper customer authorization, BellSouth upon reasonable notice to New Edge may take corrective action, including but not limited to suspending or terminating New Edge's access to BellSouth's pre-ordering and ordering OSS, and the provisioning of pending and existing services.
- 2.3 Ordering
- 2.3.1 BellSouth will make available to New Edge electronic interfaces for the purpose of exchanging order information, including order status and completion notification, for non-complex and certain complex resale requests and certain network elements. Specifications for access and use of BellSouth's electronic interfaces are set forth at BellSouth's Interconnection Web site. The process by which the Parties will manage these electronic interfaces to include the development and introduction of new interfaces will be governed by the change management process as described in Section 2.7 below.
- 2.3.2 New Edge shall place orders for services by submitting a LSR to BellSouth. BellSouth shall bill New Edge an electronic service order charge at the rate set forth in the applicable Attachment to this Agreement for each LSR submitted by means of an electronic interface. BellSouth shall bill New Edge a manual service order charge at the rate set forth in the applicable Attachment to this Agreement for each LSR submitted by means other than the electronic Interfaces (e.g., mail, fax, courier, etc.). An individual LSR will be identified for billing purposes by its PON.

- 2.3.2.1 New Edge may submit an LSR to request that a customer's service be temporarily suspended, denied, or restored. Alternatively, New Edge may submit a list of such customers if New Edge provides a separate PON for each location on the list. BellSouth will bill an electronic or manual service order charge for each location.
- 2.3.2.2 BellSouth will bill the electronic or manual service order charge, as applicable, for an LSR, regardless of whether that LSR is later supplemented, clarified or cancelled.
- 2.3.2.3 Notwithstanding the foregoing, BellSouth will not bill an additional electronic or manual service order charge for supplements to any LSR submitted to clarify, correct, change or cancel a previously submitted LSR.
- 2.3.2.4 BellSouth shall return a Firm Order Confirmation (FOC) or LSR clarification in accordance with the applicable performance intervals referenced in Attachment 9. New Edge shall provide to BellSouth a FOC within twenty-four (24) hours of the receipt from BellSouth of a complete and accurate LSR, exclusive of Saturdays, Sundays and holidays. New Edge shall provide to BellSouth an LSR clarification within twenty-four (24) hours of the receipt from BellSouth of an incomplete and inaccurate LSR, exclusive of Saturdays, Sundays and holidays.
- 2.4 Provisioning
  - 2.4.1 BellSouth shall provision services during its regular working hours. To the extent New Edge requests provisioning of service to be performed outside BellSouth's regular working hours, or the work so requested requires BellSouth's technicians or project managers to work outside of regular working hours, overtime charges set forth in BellSouth's intrastate Access Services Tariff, Section E13.2, shall apply. Notwithstanding the foregoing, if such work is performed outside of regular working hours by a BellSouth technician or project manager during his or her scheduled shift and BellSouth does not incur any overtime charges in performing the work on behalf of New Edge, BellSouth will not assess New Edge additional charges beyond the rates and charges specified in this Agreement.
  - 2.4.2 In the event BellSouth must dispatch to the customer's location more than once due to incorrect or incomplete information provided by New Edge (e.g., incomplete address, incorrect contact name/number, etc.), BellSouth will bill New Edge for each additional dispatch required to provision the circuit due to the incorrect/incomplete information provided. BellSouth will assess the applicable Maintenance of Service rates from BellSouth's FCC No. 1 Tariff, Section 13.3.1.
  - 2.4.3 Cancellation Charges. If New Edge cancels an LSR for network elements or resold services subsequent to BellSouth's generation of a service order, any costs incurred by BellSouth in conjunction with provisioning of Services as requested on the cancelled LSR will be recovered in accordance with the cancellation methodology set forth in the Cancellation Charge Percentage Chart found on

BellSouth's Interconnection Web site. In addition, BellSouth reserves the right to assess cancellation charges if New Edge fails to respond within nine (9) business days to a Missed Appointment order notification.

- 2.4.3.1 Notwithstanding the foregoing, if New Edge places an LSR based upon BellSouth's loop makeup information, and such information is inaccurate resulting in the inability of BellSouth to provision the network elements requested and another spare compatible facility cannot be found with the transmission characteristics of the network elements originally requested, cancellation charges described in this Section shall not apply. Where New Edge places a single LSR for multiple network elements or services based upon loop makeup information, and information as to some, but not all, of the network elements or services is inaccurate, if BellSouth cannot provision the network elements or services that were the subject of the inaccurate loop makeup information, New Edge may cancel its request for those network elements or services without incurring cancellation charges as described in this Section. In such instance, should New Edge elect to cancel the entire LSR, cancellation charges as described in this Section shall apply to those elements and services that were not the subject of inaccurate loop makeup.
- 2.4.4 Service Date Advancement Charges (Expedites). For Service Date Advancement requests by New Edge, Service Date Advancement charges will apply for intervals less than the standard interval as outlined in the BellSouth Product and Services Interval Guide. The charges are as set forth in Exhibit A of Attachment 2.
- 2.4.5 Order Modification Charges. If New Edge modifies an order after being sent a FOC from BellSouth, the Order Modification Charge (OMC) or Order Modification Charge Additional Dispatch (OMCAD) will be paid by New Edge in accordance with Exhibit A of Attachment 2.
- 2.5 Maintenance and Repair
  - 2.5.1 BellSouth will make available to New Edge electronic interfaces for the purpose of reporting and monitoring service troubles. Specifications for access and use of BellSouth's maintenance and repair electronic interfaces are set forth at BellSouth's Interconnection Web site. The process by which the Parties will manage these electronic interfaces to include the development and introduction of new interfaces will be governed by the change management process as described in Section 2.7 below. Requests for trouble repair are billed in accordance with the provisions of this Agreement. BellSouth and New Edge agree to adhere to BellSouth's Operational Understanding. The Operational Understanding may be accessed via BellSouth's Interconnection Web site.
  - 2.5.2 If New Edge reports a trouble on a BellSouth Network Element and no trouble is found in BellSouth's network, BellSouth will charge New Edge a Maintenance of

Service Charge for any dispatching and testing (both inside and outside the CO) required by BellSouth in order to confirm the working status. BellSouth will assess the Maintenance of Service rates as set forth in BellSouth's FCC No. 1 Tariff, Section 13.3.1.

- 2.5.2.1 In the event BellSouth must dispatch to the customer's location more than once due to incorrect or incomplete information provided by New Edge (e.g., incomplete address, incorrect contact name/number, etc.), BellSouth will bill New Edge for each additional dispatch required to repair the circuit due to the incorrect/incomplete information provided. BellSouth will assess the Maintenance of Service rates as set forth in BellSouth's FCC No. 1 Tariff, Section 13.3.1.
- 2.5.3 If New Edge reports a trouble on a or a resold service and no trouble is found in BellSouth's network, BellSouth will charge New Edge a Trouble Determination Charge or a Trouble Location Charge for any dispatching and testing (both inside and outside the CO) required by BellSouth in order to confirm the working status. BellSouth will assess the Trouble Determination Charge or Trouble Location Charge from the applicable BellSouth tariff.
- 2.5.3.1 In the event BellSouth must dispatch to the customer's location more than once due to incorrect or incomplete information provided by New Edge (e.g., incomplete address, incorrect contact name/number, etc.), BellSouth will bill New Edge for each additional dispatch required to repair the circuit due to the incorrect/incomplete information provided. BellSouth will assess the Trouble Determination Charge or Trouble Location Charge from the applicable BellSouth tariff.
- 2.6 Billing. BellSouth will provide New Edge nondiscriminatory access to billing information as specified in Attachment 7.
- 2.7 Change Management. The Parties agree that the collaborative change management process known as the Change Control Process (CCP) will be used to manage changes to existing interfaces, introduction of new interfaces and retirement of interfaces. The Parties agree to comply with the provisions of the documented CCP as may be amended from time to time and incorporated herein by reference. The change management process will cover changes to BellSouth's electronic interfaces, BellSouth's testing environment, associated manual process improvements, and relevant documentation. The process will define a procedure for resolution of change management disputes. Documentation of the CCP as well as related information and processes will be clearly organized and readily accessible to New Edge at BellSouth's Interconnection Web site.
- 2.8 Rates. Unless otherwise specified herein, charges for the use of BellSouth's OSS, and other charges applicable to pre-ordering, ordering, provisioning and

maintenance and repair, shall be at the rates set forth in the applicable Attachment of this Agreement.

- 2.9 The Commissions in some states have ordered per element manual additive nonrecurring charges for Network Elements and Other Services ordered by means other than one of the interactive interfaces. These ordered Network Elements and Other Services manual additive nonrecurring charges will apply in these states, rather than the charge per LSR. The per element charges are listed in Exhibit A of Attachment 2.

### **3. Miscellaneous**

- 3.1 Pending Orders. To the extent that New Edge submits an LSR with incomplete, incorrect or conflicting information, BellSouth will return the LSR to New Edge for clarification. New Edge shall respond to the request for clarification within thirty (30) days by submitting a supplemental LSR. If New Edge does not submit a supplement LSR within thirty (30) days, BellSouth will cancel the original LSR and New Edge shall be required to submit a new LSR, with a new PON.
- 3.2 Single Point of Contact. New Edge will be the single point of contact with BellSouth for ordering activity for network elements and other services used by New Edge to provide services to its customers, except that BellSouth may accept a request directly from another CLEC, or BellSouth, acting with authorization of the affected customer. New Edge and BellSouth shall each execute a blanket LOA with respect to customer requests so that prior proof of customer authorization will not be necessary with every request (except in the case of a local service freeze). The Parties shall each be entitled to adopt their own internal processes for verification of customer authorization for requests, provided, however, that such processes shall comply with applicable state and federal law and industry and regulatory guidelines. Pursuant to a request from another carrier, BellSouth may disconnect any network element being used by New Edge to provide service to that customer and may reuse such network elements or facilities to enable such other carrier to provide service to the customer. BellSouth will notify New Edge that such a request has been processed but will not be required to notify New Edge in advance of such processing.
- 3.2.1 Neither Party shall prevent or delay a customer from migrating to another carrier because of unpaid bills, denied service, or contract terms.
- 3.2.2 Use of Facilities. When a customer of New Edge elects to discontinue service and to transfer service to another local exchange carrier, including BellSouth, BellSouth shall have the right to reuse the facilities provided to New Edge, regardless whether those facilities are provided as Network Elements or as part of a resold service, and regardless of whether the end user served with such facilities has paid all charges to New Edge or has been denied service for nonpayment or

otherwise. BellSouth will notify New Edge that such a request has been processed after the disconnect order has been completed.

- 3.3 Contact Numbers. The Parties agree to provide one another with toll-free nation-wide (50 states) contact numbers for the purpose of ordering, provisioning and maintenance of services. Contact numbers for maintenance/repair of services shall be staffed twenty-four (24) hours per day, seven (7) days per week. BellSouth will close trouble tickets after making a reasonable effort to contact New Edge for authorization to close a ticket. BellSouth will place trouble tickets in delayed maintenance status after making a reasonable effort to contact New Edge to request additional information or to request authorization for additional work deemed necessary by BellSouth.
- 3.4 Subscription Functions. In cases where BellSouth performs subscription functions for an IXC (i.e., PIC and LPIC changes via Customer Account Record Exchange (CARE)), BellSouth will in all possible instances provide the affected IXCs with the OCN of the local provider for the purpose of obtaining customer billing account and other customer information required under subscription requirements.
- 3.4.1 When New Edge's customer, served by resale or loop and port combinations, changes its PIC or LPIC, and per BellSouth's FCC or state tariff the interexchange carrier elects to charge the customer the PIC or LPIC change charge, BellSouth will bill the PIC or LPIC change charge to New Edge, which has the billing relationship with that customer, and New Edge may pass such charge to the customer.

### **Billing**

**TABLE OF CONTENTS**

**1. Payment and Billing Arrangements..... 3**

**2. Billing Disputes ..... 9**

**3. Non-Intercompany Settlements..... 10**

## BILLING

### 1. Payment and Billing Arrangements

The terms and conditions set forth in this Attachment shall apply to all services ordered and provisioned pursuant to this Agreement.

1.1 BellSouth will bill through the Carrier Access Billing System (CABS), Integrated Billing System (IBS) and/or the Customer Records Information Systems (CRIS) depending on the particular service(s) provided to New Edge under this Agreement. BellSouth will format all bills in CABS Billing Output Specification (CBOS) Standard or CLUB/EDI format, depending on the type of service provided. For those services where standards have not yet been developed, BellSouth's billing format may change in accordance with applicable industry standards.

1.1.1 For any service(s) BellSouth receives from New Edge, New Edge shall bill BellSouth in CBOS format.

1.1.2 Any switched access charges associated with interexchange carrier access to the resold local exchange lines will be billed by, and due to BellSouth.

1.1.3 BellSouth will render bills each month on established bill days for each of New Edge's accounts. If either Party requests multiple billing media or additional copies of the bills, the billing Party will provide these at the rates set forth in BellSouth's FCC No. 1 Tariff, Section 13.3.6.3, except for resold services which shall be at the rates set forth in BellSouth's Non-Regulated Services Pricing List N6.

1.1.4 BellSouth will bill New Edge in advance for all services to be provided during the ensuing billing period except charges associated with service usage and nonrecurring charges, which will be billed in arrears.

1.1.4.1 For resold services, charges for services will be calculated on an individual customer account level, including, if applicable, any charge for usage or usage allowances. BellSouth will also bill New Edge, and New Edge will be responsible for and remit to BellSouth, all charges applicable to said services including but not limited to 911 and E911 charges, EUCL charges, federal subscriber line charges, telecommunications relay charges, and franchise fees, unless otherwise ordered by a Commission.

1.1.5 BellSouth will not perform billing and collection services for New Edge as a result of the execution of this Agreement.

1.2 Establishing Accounts and Subsequent State Certifications. After submitting a credit profile and deposit, if required, and after receiving certification as a local exchange carrier from the appropriate Commission, New Edge will provide the appropriate BellSouth Local Contract Manager responsible for new CLEC

activation, the necessary documentation to enable BellSouth to establish accounts for Local Interconnection, Network Elements and Other Services and/or resold services. Such documentation shall include the Application for Master Account, if applicable, proof of authority to provide Telecommunications Services, the appropriate OCN for each state as assigned by the NECA, CIC, if applicable, ACNA, if applicable, BellSouth's blanket form LOA, Misdirected Number form, and a tax exemption certificate, if applicable. Notwithstanding anything to the contrary in this Agreement, New Edge may not order services under a new account and/or subsequent state certification, established in accordance with this Section until thirty (30) days after all information specified in this Section is received from New Edge.

- 1.2.1 ACNAs. New Edge shall provide BellSouth with documentation from Telcordia identifying the ACNA assigned to it by Telcordia (as applicable) in the same legal name as reflected in the preamble to this Agreement. Such ACNA will be used by New Edge to order services pursuant to this Agreement and will not be shared by New Edge with another entity.
- 1.2.2 Company Identifiers. If New Edge needs to change, add to, eliminate or convert its OCN(s), ACNAs and other identifying codes (collectively "Company Identifiers") under which it operates when New Edge has already been conducting business utilizing those Company Identifiers, New Edge shall follow the Mergers and Acquisitions Process as described on BellSouth's Interconnection Web site, and shall be subject to separately negotiated rates, terms and conditions.
- 1.2.3 Tax Exemption. It is the responsibility of New Edge to provide BellSouth with a properly completed tax exemption certificate in the current version of the form customarily used by BellSouth and at intervals required by the appropriate taxing authorities or reasonably requested by BellSouth. A tax exemption certificate must be supplied for each individual New Edge entity purchasing Services under this Agreement. Upon BellSouth's receipt of a properly completed tax exemption certificate, subsequent billings to New Edge will not include those taxes or fees from which New Edge is exempt. Prior to receipt of a properly completed exemption certificate, BellSouth shall bill, and New Edge shall pay all applicable taxes and fees. In the event that New Edge believes that it is entitled to an exemption from and refund of taxes with respect to the amount billed prior to BellSouth's receipt of a properly completed exemption certificate, BellSouth shall assign to New Edge its rights to claim a refund of such taxes. If applicable law prohibits the assignment of tax refund rights or requires the claim for refund of such taxes to be filed by BellSouth, BellSouth shall, after receiving a written request from New Edge and at New Edge's sole expense, pursue such refund claim on behalf of New Edge, provided that New Edge promptly reimburses BellSouth for any costs and expenses incurred by BellSouth in pursuing such refund claim; and, provided further, that BellSouth shall have the right to deduct any such outstanding costs and expenses from the amount of any refund obtained prior to remitting such refund to New Edge or to deduct any such outstanding

costs and expenses from any amounts owed by BellSouth to New Edge if no refund is obtained. New Edge shall be solely responsible for the computation, tracking, reporting and payment of all taxes and fees associated with the services provided by New Edge to its customers.

- 1.3 Deposit Policy. Prior to the inauguration of service or, thereafter, upon BellSouth's request, New Edge shall complete the BellSouth Credit Profile (BellSouth form) and provide information to BellSouth regarding New Edge's credit and financial condition. Based on BellSouth's analysis of the BellSouth Credit Profile and other relevant information regarding New Edge's credit and financial condition, BellSouth reserves the right to require New Edge to provide BellSouth with a suitable form of security deposit for New Edge's account(s). If, in BellSouth's sole discretion, circumstances so warrant and/or New Edge's gross monthly billing has increased, BellSouth reserves the right to request additional security (or to require a security deposit if none was previously requested) and/or file a Uniform Commercial Code (UCC-1) security interest in New Edge's "accounts receivables and proceeds".
- 1.3.1 Security deposit shall take the form of cash, an irrevocable letter of credit (BellSouth form), surety bond (BellSouth form) or, in BellSouth's sole discretion, some other form of security proposed by New Edge and accepted by BellSouth. Any such security deposit shall in no way release New Edge from its obligation to make complete and timely payments of its bill(s). If BellSouth requires New Edge to provide a security deposit, New Edge shall provide such security deposit prior to the inauguration of service or within fifteen (15) days of BellSouth's request, as applicable. Security deposit request notices will be sent to New Edge via certified mail or overnight delivery. Such notice period will start the day after the deposit request notice is rendered by certified mail or overnight delivery. Interest on a cash security deposit shall accrue and be applied or refunded in accordance with the terms in BellSouth's GSST.
- 1.3.2 Security deposits collected under this Section shall not exceed two (2) months' estimated billing for services pursuant to this Agreement. Estimated billings are calculated based upon the monthly average of the previous six (6) months current billings, if New Edge has received service from BellSouth during such period at a level comparable to that anticipated to occur over the next six (6) months. If either New Edge or BellSouth has reason to believe that the level of service to be received during the next six (6) months will be materially higher or lower than received in the previous six (6) months, New Edge and BellSouth shall agree on a level of estimated billings based on all relevant information.
- 1.3.3 In the event New Edge fails to provide BellSouth with a suitable form of security deposit or additional security deposit as required herein, defaults on its account(s), or otherwise fails to make any payment or payments required under this Agreement in the manner and within the time required, service to New Edge may be Suspended, Discontinued or Terminated in accordance with the terms of

Section 1.5 below. Upon Termination of services, BellSouth shall apply any security deposit to New Edge's final bill for its account(s). If no bill is rendered to New Edge, BellSouth shall, nevertheless, apply any security deposit to New Edge's outstanding balance.

- 1.3.3.1 At least seven (7) days prior to the expiration of any letter of credit provided by New Edge as security under this Agreement, New Edge shall renew such letter of credit or provide BellSouth with evidence that New Edge has obtained a suitable replacement for the letter of credit. If New Edge fails to comply with the foregoing, BellSouth shall thereafter be authorized, in its sole discretion, to draw down the full amount of such letter of credit and utilize the cash proceeds as security for New Edge accounts(s). If New Edge provides a security deposit or additional security deposit in the form of a surety bond as required herein, New Edge shall renew the surety bond or provide BellSouth with evidence that New Edge has obtained a suitable replacement for the surety bond at least seven (7) days prior to the cancellation date of the surety bond. If New Edge fails to comply with the foregoing, BellSouth shall thereafter be authorized, in its sole discretion, to take action on the surety bond and utilize the cash proceeds as security for New Edge's account(s). If the credit rating of any bonding company that has provided New Edge with a surety bond provided as security hereunder has fallen below B, BellSouth will provide written notice to New Edge that New Edge must provide a replacement bond or other suitable security within fifteen (15) days of BellSouth's written notice. If New Edge fails to comply with the foregoing, BellSouth shall thereafter be authorized, in its sole discretion, to take action on the surety bond and utilize the cash proceeds as security for New Edge's account(s). Notwithstanding anything contained in this Agreement to the contrary, BellSouth shall be authorized, in its sole discretion, to draw down the full amount of any letter of credit or take action on any surety bond provided by New Edge as security hereunder if New Edge defaults on its account(s) or otherwise fails to make any payment or payments required under this Agreement in the manner and within the time, as required herein and apply the cash proceeds to any outstanding balance on New Edge's accounts and utilize any remaining cash proceeds as security for New Edge's account(s).

- 1.4 Payment Responsibility. Payment of all charges will be the responsibility of New Edge. New Edge shall pay invoices by utilizing wire transfer services or automatic clearing house services. New Edge shall make payment to BellSouth for all services billed including disputed amounts. BellSouth will not become involved in billing disputes that may arise between New Edge and New Edge's customer.

- 1.4.1 Payment Due. Payment for services provided by BellSouth, including disputed charges, is due on or before the next bill date. Information required to apply payments must accompany the payment. The information must notify BellSouth of Billing Account Numbers (BAN) paid; invoices paid and the amount to be applied to each BAN and invoice (Remittance Information). Payment is considered to have been made when the payment and Remittance Information are received by

BellSouth. If the Remittance Information is not received with payment, BellSouth will be unable to apply amounts paid to New Edge's accounts. In such event, BellSouth shall hold such funds until the Remittance Information is received. If BellSouth does not receive the Remittance Information by the payment due date for any account(s), late payment charges shall apply.

- 1.4.1.1 Due Dates. If the payment due date falls on a Sunday or on a holiday that is observed on a Monday, the payment due date shall be the first non-holiday day following such Sunday or holiday. If the payment due date falls on a Saturday or on a holiday which is observed on Tuesday, Wednesday, Thursday, or Friday, the payment due date shall be the last non-holiday day preceding such Saturday or holiday. If payment is not received by the payment due date, a late payment charge, as set forth in Section 1.4.1.2, below, shall apply.
- 1.4.1.2 Late Payment. If any portion of the payment is not received by BellSouth on or before the payment due date as set forth above, or if any portion of the payment is received by BellSouth in funds that are not immediately available to BellSouth, then a late payment and/or interest charge shall be due to BellSouth. The late payment and/or interest charge shall apply to the portion of the payment not received and shall be assessed as set forth in Section A2 of BellSouth's GSST, Section B2 of the Private Line Service Tariff or Section E2 of the BellSouth intrastate Access Services Tariff, or pursuant to the applicable state law as determined by BellSouth. In addition to any applicable late payment and/or interest charges, New Edge may be charged a fee for all returned checks at the rate set forth in Section A2 of BellSouth's GSST or pursuant to the applicable state law.
- 1.5 Discontinuing Service to New Edge. The procedures for discontinuing service to New Edge are as follows:
  - 1.5.1 In order of severity, Suspend/Suspension, Discontinue/Discontinuance and Terminate/Termination are defined as follows for the purposes of this Attachment:
    - 1.5.1.1 Suspend/Suspension is the temporary restriction of the billed Party's access to the ordering systems and/or access to the billed Party's ability to initiate PIC-related changes. In addition, during Suspension, pending orders may not be completed and orders for new service or changes to existing services may not be accepted.
    - 1.5.1.2 Discontinue/Discontinuance is the denial of service by the billing Party to the billed Party that will result in the disruption and discontinuation of service to the billed Party's customers. Additionally, at the time of Discontinuance, BellSouth will remove any Local Service Freezes in place on the billed Party's customers.
    - 1.5.1.3 Terminate/Termination is the disconnection of service by the billing Party to the billed Party.
  - 1.5.2 BellSouth reserves the right to Suspend, Discontinue or Terminate service in the event of prohibited, unlawful or improper use of BellSouth facilities or service,

abuse of BellSouth facilities, or any other violation or noncompliance by New Edge of the rules and regulations of BellSouth's tariffs.

- 1.5.3 Suspension. If payment of amounts due as described herein is not received by the bill date in the month after the original bill date, or fifteen (15) days from the date of a deposit request in the case of security deposits, BellSouth will provide written notice to New Edge that services will be Suspended if payment of such amounts, and all other amounts that become past due before Suspension, is not received by wire transfer, automatic clearing house or cashier's check in the manner set forth in Section 1.4.1 above, or in the case of a security deposit request, in the manner set forth in Section 1.3.1 above: (1) within seven (7) days following such notice for CABS billed services; (2) within fifteen (15) days following such notice for CRIS and IBS billed services; and (3) within seven (7) days following such notice for security deposit requests.
- 1.5.3.1 The Suspension notice shall also provide that all past due charges for CRIS and IBS billed services, and all other amounts that become past due for such services before Discontinuance, must be paid within thirty (30) days from the date of the Suspension notice to avoid Discontinuance of CRIS and IBS billed services.
- 1.5.3.2 For CABS billed services, BellSouth will provide a Discontinuance notice that is separate from the Suspension notice, that all past due charges for CABS billed Services, and all other amounts that become past due for such services before Discontinuance, must be paid within thirty (30) days from the date of the Suspension notice to avoid Discontinuance of CABS billed services. This Discontinuance notice may be provided at the same time that BellSouth provides the Suspension notice.
- 1.5.4 Discontinuance. If payment of amounts due as described herein is not received by the bill date in the month after the original bill date, BellSouth will provide written notice that BellSouth may Discontinue the provision of existing services to New Edge if payment of such amounts, and all other amounts that become past due before Discontinuance, including requested security deposits, is not received by wire transfer, automatic clearing house or cashier's check in the manner set forth in Section 1.4.1 above or in the case of a deposit in accordance with Section 1.3.1 above, within thirty (30) days following such written notice; provided, however, that BellSouth may provide written notice that such existing services may be Discontinued within fifteen (15) days following such notice, subject to the criteria described in Section 1.5.4.1 below.
- 1.5.4.1 BellSouth may take the action to Discontinue the provision of existing service upon fifteen (15) days from the day after BellSouth provides written notice of such Discontinuance if (a) such notice is sent by certified mail or overnight delivery; (b) New Edge has not paid all amounts due pursuant to a subject bill(s), or has not provided adequate security pursuant to a deposit request; and (c) either:

(1) BellSouth has sent the subject bill(s) to New Edge within seven (7) business days of the bill date(s), verifiable by records maintained by BellSouth:

- i. in paper or CDROM form via the United States Postal Service (USPS), or
- ii. in magnetic tape form via overnight delivery, or
- iii. via electronic transmission; or

(2) BellSouth has sent the subject bill(s) to New Edge, using one of the media described in (1) above, more than thirty (30) days before notice to Discontinue service has been rendered.

1.5.4.2 In the case of Discontinuance of services, all billed charges, as well as applicable disconnect charges, shall become due.

1.5.4.3 New Edge is solely responsible for notifying the customer of the Discontinuance of service. If, within seven (7) days after New Edge's services have been Discontinued, New Edge pays, by wire transfer, automatic clearing house or cashier's check, all past due charges, including late payment charges, outstanding security deposit request amounts if applicable and any applicable restoral charges as set forth in Section A4 of BellSouth's GSST, then BellSouth will reestablish service for New Edge.

1.5.5 Termination. If within seven (7) days after New Edge's service has been Discontinued and New Edge has failed to pay all past due charges as described above, then New Edge's service will be Terminated.

## **2. Billing Disputes**

2.1 New Edge shall electronically submit all billing disputes to BellSouth using the form specified by BellSouth. In the event of a billing dispute, the Parties will endeavor to resolve the dispute within sixty (60) days of the notification date. Within five (5) business days of BellSouth's denial, or partial denial, of the billing dispute, if New Edge is not satisfied with BellSouth's resolution of the billing dispute or if no response to the billing dispute has been received by New Edge by such sixtieth (60<sup>th</sup>) day, New Edge must pursue the escalation process as outlined in the Billing Dispute Escalation Matrix, set forth on BellSouth's Interconnection Services Web site, or the billing dispute shall be considered denied and closed. If, after escalation, the Parties are unable to reach resolution, then the aggrieved Party, if it elects to pursue the dispute shall pursue dispute resolution in accordance with General Terms and Conditions.

2.2 For purposes of this Section 2, a billing dispute means a reported dispute submitted pursuant to Section 2.1 above of a specific amount of money actually billed by BellSouth within twelve (12) months of the submission of such dispute. New Edge agrees to not submit billing disputes for amounts billed more than

twelve (12) months prior to submission of a billing dispute filed for amounts billed. The billing dispute must be clearly explained by New Edge and supported by written documentation, which clearly shows the basis for disputing charges. The determination as to whether the billing dispute is clearly explained or clearly shows the basis for disputing charges shall be within BellSouth's sole reasonable discretion. Disputes that are not clearly explained or those that do not provide complete information may be rejected by BellSouth. Claims by New Edge for damages of any kind will not be considered a billing dispute for purposes of this Section. If BellSouth resolves the billing dispute, in whole or in part, in favor of New Edge, any credits and interest due to New Edge as a result thereof shall be applied to New Edge's account by BellSouth upon resolution of the billing dispute.

### **3. Non-InterCompany Settlements**

- 3.1 Direct Participants are Telecommunications carriers that exchange data directly with other Direct Participants via the Centralized Message Distribution System (CMDS) Data Center (Direct Participant) and may act as host companies (Host) for those Telecommunications carriers that do not exchange data directly via the CMDS Data Center.
- 3.2 The Non-InterCompany Settlements (NICS) is the national system administered by Telcordia that is used in the settlement of revenues for calls that are originated and billed by two (2) different local exchange carriers (LEC) within a single Direct Participant's territory to another for billing. NICS applies to calls involving another LEC where the Earning Company and the Billing Company are located within BellSouth's territory.
- 3.3 In association with message distribution service, BellSouth will provide New Edge with associated intercompany settlements reports as appropriate.
- 3.4 Notwithstanding anything in this Agreement to the contrary, in no case shall either Party be liable to the other for any direct or consequential damages incurred as a result of the obligations set out in this Section 3.
- 3.5 Intercompany Settlements Messages
  - 3.5.1 Intercompany Settlements Messages facilitate the settlement of revenues associated with traffic originated from or billed by New Edge as a facilities based provider of local exchange Telecommunications Services.
  - 3.5.2 BellSouth will receive the monthly NICS reports from Telcordia on behalf of New Edge and will distribute copies of these reports to New Edge on a monthly basis.
  - 3.5.3 Through NICS, BellSouth will collect the revenue earned by New Edge within the BellSouth territory from another LEC also within the BellSouth territory where the messages are billed, less a per message billing and collection fee of five cents (\$0.05), on behalf of New Edge. BellSouth will remit the revenue billed by New

Edge within the BellSouth region to the LEC also within the BellSouth region, where the messages originated, less a per message billing and collection fee of five cents (\$0.05). These two (2) amounts will be netted together by BellSouth and the resulting charge or credit issued to New Edge via a CABS miscellaneous bill on a monthly basis in arrears.

- 3.5.4 BellSouth and New Edge agree that monthly netted amounts of less than fifty dollars (\$50.00) will not be settled.

## **Attachment 8**

### **Rights-of-Way, Conduits and Pole Attachments**

## **Rights-of-Way, Conduits and Pole Attachments**

BellSouth will provide nondiscriminatory access to any pole, duct, conduit, or right-of-way owned or controlled by BellSouth pursuant to 47 U.S.C. § 224, as amended by the Act, pursuant to terms and conditions of a separate license agreement negotiated with BellSouth.

**Attachment 9**  
**Service Quality Measurements**

## **SERVICE QUALITY MEASUREMENTS**

Upon a particular Commission's issuance of an order pertaining to Service Quality Measurements in a proceeding expressly applicable to all CLECs generally, BellSouth shall implement in that state such Service Quality Measurements as of the date specified by the Commission. Service Quality Measurements that have been ordered in a particular state can currently be accessed via the internet at <http://pmap.bellsouth.com>.

## 1.0 PURPOSE

In the unlikely event of a disaster occurring that affects BellSouth's long-term ability to deliver traffic to a CLEC, general procedures have been developed by BellSouth to hasten the recovery process in accordance with the Telecommunications Service Priority (TSP) Program established by the FCC to identify and prioritize telecommunication services that support national security or emergency preparedness (NS/EP) missions. A description of the TSP Program as it may be amended from time to time is available on BellSouth's Interconnection Services Web site. Since each location is different and could be affected by an assortment of potential problems, a detailed recovery plan is impractical. However, in the process of reviewing recovery activities for specific locations, some basic procedures emerge that appear to be common in most cases.

These general procedures should apply to any disaster that affects the delivery of traffic for an extended time period. Each CLEC will be given the same consideration during an outage, and service will be restored as quickly as possible.

This document will cover the basic recovery procedures that would apply to every CLEC.

## 2.0 SINGLE POINT OF CONTACT

When a problem is experienced, regardless of the severity, the BellSouth Network Management Center (NMC) will observe traffic anomalies and begin monitoring the situation. Controls will be appropriately applied to insure the sanity of BellSouth's network; and, in the event that a switch or facility node is lost, the NMC will attempt to circumvent the failure using available reroutes.

BellSouth's NMC will remain in control of the restoration efforts until the problem has been identified as being a long-term outage. At that time, the NMC will contact BellSouth's ECC and relinquish control of the recovery efforts. Even though the ECC may take charge of the situation, the NMC will continue to monitor the circumstances and restore traffic as soon as damaged network elements are revitalized.

**The telephone number for the BellSouth Network Management Center in Atlanta, as published in Telcordia's National Network Management Directory, is 404-321-2516.**

## 3.0 IDENTIFYING THE PROBLEM

During the early stages of problem detection, the NMC will be able to tell which CLECs are affected by the catastrophe. Further analysis and/or first hand observation will determine if the disaster has affected CLEC equipment only, BellSouth equipment only or a combination. The initial restoration activity will be largely determined by the equipment that is affected.

Once the nature of the disaster is determined and after verifying the cause of the problem, the NMC will initiate reroutes and/or transfers that are jointly agreed upon by the affected CLECs' Network Management Center and the BellSouth NMC. The type and percentage of controls used will depend upon available network capacity. Controls necessary to stabilize the situation will be invoked and the NMC will attempt to re-establish as much traffic as possible.

For long-term outages, recovery efforts will be coordinated by the ECC. Traffic controls will continue to be applied by the NMC until facilities are re-established. As equipment is made available for service, the ECC will instruct the NMC to begin removing the controls and allow traffic to resume.

### **3.1 SITE CONTROL**

In the total loss of building use scenario, what likely exists will be a smoking pile of rubble. This rubble will contain many components that could be dangerous. It could also contain any personnel on the premises at the time of the disaster. For these reasons, the local fire marshal with the assistance of the police will control the site until the building is no longer a threat to surrounding properties and the companies have secured the site from the general public.

During this time, the majority owner of the building should be arranging for a demolition contractor to mobilize to the site with the primary objective of reaching the cable entrance facility for a damage assessment. The results of this assessment would then dictate immediate plans for restoration, both short term and permanent.

In a less catastrophic event, i.e., the building is still standing and the cable entrance facility is usable, the situation is more complex. The site will initially be controlled by local authorities until the threat to adjacent property has diminished. Once the site is returned to the control of the companies, the following events should occur.

An initial assessment of the main building infrastructure systems (mechanical, electrical, fire and life safety, elevators, and others) will establish building needs. Once these needs are determined, the majority owner should lead the building restoration efforts. There may be situations where the site will not be totally restored within the confines of the building. The companies must individually determine their needs and jointly assess the cost of permanent restoration to determine the overall plan of action.

Multiple restoration trailers from each company will result in the need for designated space and installation order. This layout and control is required to maximize the amount of restoration equipment that can be placed at the site, and the priority of placements.

Care must be taken in this planning to ensure other restoration efforts have logistical access to the building. Major components of telephone and building equipment will need to be removed and replaced. A priority for this equipment must also be jointly established to facilitate overall site restoration. (Example: If the AC switchgear has sustained damage, this would be of the highest priority in order to regain power, lighting, and HVAC throughout the building.)

If the site will not accommodate the required restoration equipment, the companies would then need to quickly arrange with local authorities for street closures, rights of way or other possible options available.

### 3.2 ENVIRONMENTAL CONCERNS

In the worse case scenario, many environmental concerns must be addressed. Along with the police and fire marshal, the state environmental protection department will be on site to monitor the situation.

Items to be concerned with in a large central office building could include:

1. Emergency engine fuel supply. Damage to the standby equipment and the fuel handling equipment could have created "spill" conditions that have to be handled within state and federal regulations.
2. Asbestos-containing materials that may be spread throughout the wreckage. Asbestos could be in many components of building, electrical, mechanical, outside plant distribution, and telephone systems.
3. Lead and acid. These materials could be present in potentially large quantities depending upon the extent of damage to the power room.
4. Mercury and other regulated compounds resident in telephone equipment.
5. Other compounds produced by the fire or heat.

Once a total loss event occurs at a large site, local authorities will control immediate clean up (water placed on the wreckage by the fire department) and site access.

At some point, the companies will become involved with local authorities in the overall planning associated with site clean up and restoration. Depending on the clean up approach taken, delays in the restoration of several hours to several days may occur.

In a less severe disaster, items listed above are more defined and can be addressed individually depending on the damage.

In each case, the majority owner should coordinate building and environmental restoration as well as maintain proper planning and site control.

### 4.0 THE ECC

The ECC is located in the Midtown 1 Building in Atlanta, Georgia. During an emergency, the ECC staff will convene a group of pre-selected experts to inventory the damage and initiate corrective actions. These experts have regional access to BellSouth's personnel and equipment and will assume control of the restoration activity anywhere in the nine-state area.

In the past, the ECC has been involved with restoration activities resulting from hurricanes, ice storms and floods. They have demonstrated their capabilities during these calamities as well as

during outages caused by human error or equipment failures. This group has an excellent record of restoring service as quickly as possible.

During a major disaster, the ECC may move emergency equipment to the affected location, direct recovery efforts of local personnel and coordinate service restoration activities with the CLECs. The ECC will attempt to restore service as quickly as possible using whatever means is available, leaving permanent solutions, such as the replacement of damaged buildings or equipment, for local personnel to administer.

Part of the ECC's responsibility, after temporary equipment is in place, is to support the NMC efforts to return service to the CLECs. Once service has been restored, the ECC will return control of the network to normal operational organizations. Any long-term changes required after service is restored will be made in an orderly fashion and will be conducted as normal activity.

## **5.0 RECOVERY PROCEDURES**

The nature and severity of any disaster will influence the recovery procedures. One crucial factor in determining how BellSouth will proceed with restoration is whether or not BellSouth's equipment is incapacitated. Regardless of whose equipment is out of service, BellSouth will move as quickly as possible to aid with service recovery; however, the approach that will be taken may differ depending upon the location of the problem.

### **5.1 CLEC OUTAGE**

For a problem limited to one CLEC (or a building with multiple CLECs), BellSouth has several options available for restoring service quickly. For those CLECs that have agreements with other CLECs, BellSouth can immediately start directing traffic to a provisional CLEC for completion. This alternative is dependent upon BellSouth having concurrence from the affected CLECs.

Whether or not the affected CLECs have requested a traffic transfer to another CLEC will not impact BellSouth's resolve to re-establish traffic to the original destination as quickly as possible.

### **5.2 BELL SOUTH OUTAGE**

Because BellSouth's equipment has varying degrees of impact on the service provided to the CLECs, restoring service from damaged BellSouth equipment is different. The outage will probably impact a number of Carriers simultaneously. However, the ECC will be able to initiate immediate actions to correct the problem.

A disaster involving any of BellSouth's equipment locations could impact the CLECs, some more than others. A disaster at a Central Office (CO) would only impact the delivery of traffic to and from that one location, but the incident could affect many Carriers. If the CO is a Serving Wire Center (SWC), then traffic from the entire area to those Carriers served from that switch would also be impacted. If the switch functions as an Access Tandem, or there is a tandem in the building, traffic from every CO to every CLEC could be interrupted. A disaster that destroys a facility hub could disrupt various traffic flows, even though the switching equipment may be unaffected.

The NMC would be the first group to observe a problem involving BellSouth's equipment. Shortly after a disaster, the NMC will begin applying controls and finding re-routes for the completion of as much traffic as possible. These reroutes may involve delivering traffic to alternate Carriers upon receiving approval from the CLECs involved. In some cases, changes in translations will be required. If the outage is caused by the destruction of equipment, then the ECC will assume control of the restoration.

### **5.2.1 Loss of a CO**

When BellSouth loses a CO, the ECC will

- a) Place specialists and emergency equipment on notice;
- b) Inventory the damage to determine what equipment and/or functions are lost;
- c) Move containerized emergency equipment and facility equipment to the stricken area, if necessary;
- d) Begin reconnecting service on a parity basis for Hospitals, Police and other emergency agencies or customers served by BellSouth or CLEC in accordance with the TSP priority restoration coding scheme entered in the BellSouth Maintenance database prior to the emergency.

### **5.2.2 Loss of a CO with SWC Functions**

The loss of a CO that also serves as a SWC will be restored as described in Section 5.2.1.

### **5.2.3 Loss of a CO with Tandem Functions**

When BellSouth loses a CO building that serves as an Access Tandem and as a SWC, the ECC will

- a) Place specialists and emergency equipment on notice;
- b) Inventory the damage to determine what equipment and/or functions are lost;
- c) Move containerized emergency equipment and facility equipment to the stricken area, if necessary;
- d) Begin reconnecting service on a parity basis for Hospitals, Police and other emergency agencies or customers served by BellSouth or CLEC in accordance with the TSP priority restoration coding scheme entered in the BellSouth Maintenance database prior to the emergency;
- e) Re-direct as much traffic as possible to the alternate access tandem (if available) for delivery to those CLECs utilizing a different location as a SWC;
- f) Begin aggregating traffic to a location near the damaged building. From this location, begin re-establishing trunk groups to the CLECs for the delivery of traffic normally

found on the direct trunk groups. (This aggregation point may be the alternate access tandem location or another CO on a primary facility route.)

#### **5.2.4 Loss of a Facility Hub**

In the event that BellSouth loses a facility hub, the recovery process is much the same as above. Once the NMC has observed the problem and administered the appropriate controls, the ECC will assume authority for the repairs. The recovery effort will include

- a) Placing specialists and emergency equipment on notice;
- b) Inventorying the damage to determine what equipment and/or functions are lost;
- c) Moving containerized emergency equipment to the stricken area, if necessary;
- d) Reconnecting service on a parity basis for Hospitals, Police and other emergency agencies or customers served by BellSouth or CLEC in accordance with the TSP priority restoration coding scheme entered in the BellSouth Maintenance database prior to the emergency; and
- e) If necessary, BellSouth will aggregate the traffic at another location and build temporary facilities. This alternative would be viable for a location that is destroyed and building repairs are required.

### **5.3 COMBINED OUTAGE (CLEC AND BELL SOUTH EQUIPMENT)**

In some instances, a disaster may impact BellSouth's equipment as well as the CLECs'. This situation will be handled in much the same way as described in Section 5.2.3. Since BellSouth and the CLECs will be utilizing temporary equipment, close coordination will be required.

### **6.0 T1 IDENTIFICATION PROCEDURES**

During the restoration of service after a disaster, BellSouth may be forced to aggregate traffic for delivery to a CLEC. During this process, T1 traffic may be consolidated onto DS3s and may become unidentifiable to the Carrier. Because resources will be limited, BellSouth may be forced to "package" this traffic entirely differently than normally received by the CLECs. Therefore, a method for identifying the T1 traffic on the DS3s and providing the information to the Carriers is required.

## 7.0 ACRONYMS

|      |   |                                             |
|------|---|---------------------------------------------|
| CLEC | - | Competitive Local Exchange Carrier          |
| CO   | - | Central Office (BellSouth)                  |
| DS3  | - | Facility that carries 28 T1s (672 circuits) |
| ECC  | - | Emergency Control Center (BellSouth)        |
| NMC  | - | Network Management Center                   |
| SWC  | - | Serving Wire Center (BellSouth switch)      |
| T1   | - | Facility that carries 24 circuits           |
| TSP  | - | Telecommunications Service Priority         |

**Hurricane Information**

During a hurricane, BellSouth will make every effort to keep CLECs updated on the status of our network. Information centers will be set up throughout BellSouth Telecommunications. These centers are not intended to be used for escalations, but rather to keep the CLEC informed of network related issues, area damages and dispatch conditions, etc.

Hurricane-related information can also be found on BellSouth's Interconnection Web site by clicking on the link "Relief Information" in the special alert box located on the Web page. Additionally, information concerning Mechanized Disaster Reports can also be found by clicking on the link "Click here for information concerning Disaster Recovery Reports" on the Hurricane Relief page.

**BST Disaster Management Plan**

BellSouth maintenance centers have geographical and redundant communication capabilities. In the event of a disaster removing any maintenance center from service another geographical center would assume maintenance responsibilities. The contact numbers will not change and the transfer will be transparent to the CLEC.

## **Attachment 11**

### **Bona Fide Request and New Business Request Process**

## **BONA FIDE REQUEST AND NEW BUSINESS REQUEST PROCESS**

### **1. Bona Fide Request**

- 1.1 The Parties agree that New Edge is entitled to order any Network Element, interconnection option or service option required to be made available by FCC or Commission requirements pursuant to the Act. A Bona Fide Request (BFR) is to be used when New Edge makes a request of BellSouth to provide a new or modified Network Element, interconnection option or other service option pursuant to the Act that was not previously provided for in this Agreement.
- 1.2 A BFR shall be submitted in writing by New Edge and shall specifically identify the requested service date, technical requirements, space requirements and/or such other specifications that clearly define the request such that BellSouth has sufficient information to analyze and prepare a response. Such a request shall also include New Edge's designation of the request as being pursuant to the Telecommunications Act of 1996 (i.e., a BFR). The request shall be sent to New Edge's designated BellSouth Sales contact or Local Contract Manager (LCM).
- 1.3 Within two (2) business days of receipt of a BFR, BellSouth shall acknowledge in writing its receipt and identify a single point of contact responsible for responding to the BFR and shall request any additional information needed to process the request to the extent known at that time. Notwithstanding the foregoing, BellSouth may reasonably request additional information from New Edge at any time during the processing of the BFR.
- 1.4 Within thirty (30) business days of BellSouth's receipt of the BFR, if the preliminary analysis of the requested BFR is not of such complexity that it will cause BellSouth to expend extraordinary resources to evaluate the BFR, BellSouth shall respond to New Edge by providing a preliminary analysis of the new or modified Network Element or interconnection option not ordered by the FCC or Commission that is the subject of the BFR. The preliminary analysis shall either confirm that BellSouth will offer access to the new or modified Network Element, interconnection option or service option or confirm that BellSouth will not offer the new or modified Network Element, interconnection option or service option.
- 1.5 For any new or modified Network Element, interconnection option or service option not ordered by the FCC or Commission, if the preliminary analysis states that BellSouth will offer the new or modified Network Element, interconnection option or service option, the preliminary analysis will include an estimate of the costs of utilizing existing resources, both personnel and systems, in the development including, but not limited to,

request parameters analysis, determination of impacted BellSouth departments, determination of required resources, project management resources, etc. (Development Rate) including a general breakdown of such costs associated with the Network Element, interconnection option or service option and the date the request can be met. If the preliminary analysis states that BellSouth will not offer the new or modified Network Element, interconnection option or service option, BellSouth will provide an explanation of why the request is not technically feasible, does not qualify as a BFR for the new or modified Network Element, interconnection option or service option, should actually be submitted as a New Business Request (NBR) or is otherwise not required to be provided under the Act. If BellSouth cannot provide the Network Element, interconnection option or service option by the requested date, BellSouth shall provide an alternative proposed date together with a detailed explanation as to why BellSouth is not able to meet New Edge's requested date.

- 1.6 For any new or modified Network Element, interconnection option or service option not ordered by the FCC or Commission, if BellSouth determines that the preliminary analysis of the requested BFR is of such complexity that it will cause BellSouth to expend extraordinary resources to evaluate the BFR, BellSouth shall notify New Edge within ten (10) business days of BellSouth's receipt of BFR that a fee will be required prior to the preliminary evaluation of the BFR. Such fee shall be limited to BellSouth's extraordinary expenses directly related to the complex request that require the allocation and engagement of additional resources above the existing allocated resources used on BFR cost development which include, but are not limited to, expenditure of funds to develop feasibility studies, specific resources that are required to determine request requirements (such as operation support system analysts, technical managers, software developers), software impact analysis by specific software developers; software architecture development, hardware impact analysis by specific system analysts, etc. and the request for such fee shall be accompanied with a general breakdown of such costs. If New Edge accepts the complex request evaluation fee proposed by BellSouth, New Edge shall submit such fee within thirty (30) business days of BellSouth's notice that a complex request evaluation fee is required. Within thirty (30) business days of BellSouth's receipt of the complex request evaluation fee, BellSouth shall respond to New Edge by providing a preliminary analysis, consistent with Section 1.4 above.
- 1.7 New Edge may cancel a BFR at any time up until thirty (30) business days after receiving BellSouth's preliminary analysis. If New Edge cancels the BFR within thirty (30) business days after receipt of BellSouth's preliminary analysis, BellSouth shall be entitled to keep any complex request evaluation fee submitted in accordance with Section 1.6 above,

minus those costs included in the fee that have not been incurred as of the date of cancellation.

- 1.8 New Edge will have thirty (30) business days from receipt of preliminary analysis to accept the preliminary analysis or cancel the BFR. If New Edge fails to respond within this thirty (30) business day period, the BFR will be deemed cancelled. Acceptance of the preliminary analysis must be in writing and accompanied by the estimated Development Rate for the new or modified Network Element, interconnection option or service option quoted in the preliminary analysis.
- 1.9 Notwithstanding any other provision of this Agreement, BellSouth shall propose a firm price quote, including the firm Development Rate, the firm nonrecurring rate and the firm recurring rate, and a detailed implementation plan within ten (10) business days of receipt of New Edge's accurate BFR application for a Network Element, interconnection option or service option that is operational at the time of the request; thirty (30) business days of receipt of New Edge's accurate BFR application for a new or modified Network Element, interconnection option or service option ordered by the FCC or Commission; and within sixty (60) business days of receipt of New Edge's accurate BFR application for a new or modified Network Element, interconnection option or service option not ordered by the FCC or Commission or not operational at the time of the request. The firm nonrecurring rate will not include any of the Development Rate or the complex request evaluation fee, if required, in the calculation of this rate. Such firm price quote shall not exceed the estimate provided with the preliminary analysis by more than twenty-five percent (25%).
- 1.10 New Edge shall have thirty (30) business days from receipt of firm price quote to accept or deny the firm price quote and submit any additional Development or nonrecurring rates quoted in the firm price quote.
- 1.11 Unless New Edge agrees otherwise, all prices shall be consistent with the applicable pricing principles and provisions of the Act.
- 1.12 If New Edge believes that BellSouth's firm price quote is not consistent with the requirements of the Act, either Party may seek dispute resolution in accordance with the dispute resolution provisions set forth in General Terms and Conditions.
- 1.13 Upon agreement to the rates, terms and conditions of a BFR, the Parties shall negotiate in good faith an amendment to this Agreement.

## **2 New Business Request**

- 2.1 New Edge also shall be permitted to request the development of new or modified facilities or service options which may not be required by the Act. Procedures applicable to requesting the addition of such elements, services and options are specified in this Attachment. A NBR is to be used by New Edge to make a request of BellSouth for a new or modified feature or capability of an existing product or service, a new product or service that is not deployed within the BellSouth network or operations and business support systems, or a new or modified service option that was not previously included in this Agreement (Requested NBR Services) and is not required by the Act.
- 2.2 An NBR shall be submitted in writing by New Edge and shall specifically identify the requested service date, technical requirements, space requirements and/or such specifications that clearly define the request such that BellSouth has sufficient information to analyze and prepare a response. The request shall be sent to New Edge's designated BellSouth Sales contact or LCM.
- 2.3 Within two (2) business days of receipt of an NBR, BellSouth shall acknowledge in writing its receipt and identify a single point of contact responsible for responding to the NBR and shall request any additional information needed to process the request to the extent known at that time. Notwithstanding the foregoing, BellSouth may reasonably request additional information from New Edge at any time during the processing of the NBR.
- 2.4 If the preliminary analysis of the requested NBR is not of such complexity that it will cause BellSouth to expend extraordinary resources to evaluate the NBR, within thirty (30) business days of its receipt of the NBR, BellSouth shall respond to New Edge by providing a preliminary analysis of such Requested NBR Services that are the subject of the NBR. The preliminary analysis shall either confirm that BellSouth will offer access to the Requested NBR Services or confirm that BellSouth will not offer the Requested NBR Services.
- 2.5 If the preliminary analysis states that BellSouth will offer the Requested NBR Services, the preliminary analysis will include an estimate of the Development Rate including a general breakdown of costs and the date the request can be met. If BellSouth cannot provide the Requested NBR Service by the requested date, it shall provide an alternative proposed date together with a detailed explanation as to why BellSouth is not able to meet New Edge's requested date.
- 2.6 If BellSouth determines that the preliminary analysis of the requested NBR is of such complexity that it will cause BellSouth to expend extraordinary resources to evaluate the NBR, BellSouth shall notify New

Edge within ten (10) business days of BellSouth's notice that a complex request evaluation fee is required prior to the evaluation of the NBR. Such fee shall be limited to BellSouth's extraordinary expenses directly related to the complex request. If New Edge accepts the complex request evaluation fee amount proposed by BellSouth, New Edge shall submit such complex request evaluation fee within thirty (30) business days of BellSouth's notice that a complex request evaluation fee is required.

- 2.7 Within thirty (30) business days of BellSouth's receipt of the complex request evaluation fee, BellSouth shall respond to New Edge by providing a preliminary analysis of such Requested NBR Services.
- 2.8 New Edge may cancel an NBR at any time. If New Edge cancels the request more than ten (10) business days after submitting it, New Edge shall pay BellSouth's reasonable and demonstrable costs of processing and/or implementing the NBR up to the date of cancellation in addition to any fee submitted in accordance with Section 1.6 above.
- 2.9 New Edge will have thirty (30) business days from receipt of the preliminary analysis to accept the preliminary analysis or cancel the NBR. If New Edge fails to respond within this thirty (30) business day period, the NBR will be deemed cancelled.
- 2.10 Acceptance of the preliminary analysis must be in writing and accompanied by the estimated Development Rate for the Requested NBR Services quoted in the preliminary analysis.
- 2.11 BellSouth shall propose a firm price quote including the firm Development Rate, the firm nonrecurring rate, and the firm recurring rate, and a detailed implementation plan within ten (10) business days of receipt of New Edge's accurate NBR application for a Requested NBR Service that is operational at the time of the request and within sixty (60) business days of receipt of New Edge's accurate NBR application for the Requested NBR Services not operational at the time of the request. The firm nonrecurring rate will not include any of the Development Rate or the complex request evaluation fee, if required, in the calculation of this rate. Such firm price quote shall not exceed the estimate provided with the preliminary analysis by more than twenty-five percent (25%).
- 2.12 New Edge shall have thirty (30) business days from receipt of the firm price quote to accept or deny the firm price quote and submit any additional nonrecurring, non-refundable fees quoted in the firm price quote. If the firm price quote is less than the preliminary analysis' estimate of the Development Rate, BellSouth will credit New Edge's account for the difference.

- 2.13        Upon agreement to the rates, terms and conditions of a NBR, an amendment to this Agreement, or a separate agreement, may be required and the Parties shall negotiate such agreement or amendment in good faith.

**Amendment to the Agreement  
Between  
New Edge Network, Inc. dba New Edge Networks  
and  
BellSouth Telecommunications, Inc. d/b/a AT&T Georgia  
Dated December 16, 2006**

Pursuant to this Amendment, (the "Amendment"), New Edge Network, Inc. dba New Edge Networks (New Edge), and BellSouth Telecommunications, Inc. d/b/a AT&T Georgia, hereinafter referred to collectively as the "Parties", hereby agree to amend that certain Interconnection Agreement between the Parties dated December 16, 2006 ("Agreement").

WHEREAS, on March 2, 2006, the Georgia Public Service Commission (Commission) issued its Order in Docket No. 19341-U (Change of Law Order), Proceeding to Consider Amendments to Interconnection Agreements Between AT&T Georgia and certified Competitive Local Exchange Carriers (CLECs) Due to Changes of Law; and

WHEREAS, on March 10, 2006, the Commission issued its Order Setting Rates Under Section 271 in Docket No. 19341-U (271 Order); and

WHEREAS, on March 24, 2006, the Commission issued its Order on Reconsideration of the March 10, 2006 Order Setting Rates Under Section 271 in Docket No. 19341-U (271 Reconsideration Order); and

WHEREAS, on January 3, 2008, the United States District Court for the Northern District of Georgia issued its Order in BellSouth Telecommunications, Inc., v. The Georgia Public Service Commission, No. 1:06-CV-00162-CC and Competitive Carriers of the South, Inc. v. The Georgia Public Service Commission, No. 1:06-CV-00972-CC (District Court Order), finding portions of the Change of Law Order, the 271 Order and the 271 Reconsideration Order unlawful in that the PSC lacks authority to implement Section 271 or to set rates for facilities and services required under Section 271 of the Act; and

WHEREAS, the Parties are obligated to amend the Agreement to bring it into compliance with the District Court Order; and

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties hereby agree to delete from the Agreement in its entirety Attachment 2, Exhibit 1 and any references to Attachment 2, Exhibit 1 in the Agreement (Georgia 271 Requirements and Line Sharing if applicable). The Parties further agree to delete any references in Attachment 2 to Section 271 elements or Line Sharing generally. Such contract provisions shall no longer apply to services provided in the State of Georgia.
2. The Parties hereby agree to delete the portion of Attachment 2, Exhibit A which includes rates for the Georgia 271 elements and Line Sharing, and to delete any references to

Georgia 271 rates or Line Sharing rates set forth in Attachment 2 or the Exhibits thereto. Such rates shall no longer apply to services provided in the State of Georgia.

3. Further, to the extent that defined terms in this Amendment differ from defined terms in the Agreement, such defined terms in the Agreement shall be deemed to have the same meaning as the alternative defined terms in this Amendment to the extent necessary to give full effect to this Amendment consistent with the District Court Order.
4. This Amendment shall be deemed effective on January 3, 2008 ("Effective Date").
5. As soon as practicable after January 3, 2008, AT&T Georgia will identify the Loop and Transport circuits no longer offered pursuant to this Agreement. New Edge, within thirty (30) days from receipt of the circuit list from AT&T Georgia, shall submit a Local Service Request (LSR) or spreadsheet(s) to convert such circuits to an equivalent AT&T tariffed service or to disconnect such circuits. For LSRs or spreadsheets submitted by New Edge within such thirty (30) day period, AT&T Georgia will charge the applicable switch-as-is charge set forth in Exhibit A. If New Edge fails to submit LSRs or spreadsheets to disconnect or convert such circuits within such thirty (30) day period, AT&T Georgia will transition such circuits to the equivalent tariffed AT&T service(s), and shall charge New Edge all applicable disconnect charges as set forth in this Agreement and the full nonrecurring charges for installation of the equivalent tariffed AT&T service as set forth in AT&T tariffs. For all transitions that require a physical rearrangement, AT&T Georgia shall charge any applicable nonrecurring installation charges. If no tariff equivalent service exists, AT&T Georgia shall disconnect such circuits, and New Edge shall pay applicable disconnect charges set forth in the Agreement.
6. AT&T Georgia shall not seek to bill applicable access charges for the converted or transitioned circuits for the period prior to January 3, 2008. For Embedded Base Loops or Embedded Base Transport circuits, to the extent the circuit converted/transitioned or disconnected is an Unbundled Network Element (UNE) pursuant to Section 251 of the Act at the time of conversion/transition, AT&T Georgia shall recover from New Edge (1) the difference between the rate previously billed for that circuit and the applicable 271 rate established by the Commission in the 271 Order for the period from March 11, 2006 through January 2, 2008; and (2) the difference between the rate previously billed for that circuit and the applicable tariffed service rate for the period from January 3, 2008, through the date of conversion/transition or disconnection of the circuit. For Loops and Transport circuits ordered and provisioned in an unimpaired wire center as described in Attachment 2, Section 1.8 on or after March 11, 2005, to the extent the circuit converted/transitioned or disconnected is an UNE pursuant to Section 251 of the Act at the time of conversion/transition, AT&T Georgia shall recover from New Edge (1) the difference between the rate previously billed for that circuit and the applicable 271 rate established by the Commission in the 271 Order for the period from date of installation of such circuit through January 2, 2008, and (2) the difference between the rate previously billed for that circuit and the applicable tariffed service rate for the period from January 3, 2008, through the date of conversion/transition or disconnection of the circuit. To the extent the circuit converted/transitioned is a 271 element at the time of conversion/transition, AT&T Georgia shall recover from New Edge the difference between the rate previously billed for

that circuit and the applicable tariffed service rate for the period from January 3, 2008, through the date of conversion/transition or disconnection of the circuit.

7. All of the other provisions of the Agreement shall remain in full force and effect.
8. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

# **AT&T Wholesale Amendment**

AMENDMENT TO THE INTERCONNECTION AGREEMENT  
BETWEEN  
NEW EDGE NETWORK, INC. D/B/A NEW EDGE NETWORKS  
AND  
BELLSOUTH TELECOMMUNICATIONS, INC. D/B/A AT&T KENTUCKY

This Amendment modifies the Interconnection Agreement by and between New Edge Network, Inc. d/b/a New Edge Networks, and BellSouth Telecommunications, Inc. d/b/a AT&T Kentucky ("AT&T"). AT&T and New Edge Network, Inc. d/b/a New Edge Networks are hereinafter referred to collectively as the "Parties" and individually as a "Party". This Amendment applies in AT&T's service territory in the Commonwealth of Kentucky.

WITNESSETH:

WHEREAS, AT&T and New Edge Network, Inc. d/b/a New Edge Networks are Parties to an Interconnection Agreement under Sections 251 and 252 of the Communications Act of 1934, as amended (the "Act"), approved 1/11/2007 (the "Agreement"); and

WHEREAS, on December 12, 2007, the Kentucky Public Service Commission ("KPSC") issued its Order in Case No. 2004-00427 (Change of Law) Proceeding to Consider Amendments to Interconnection Agreements Resulting from Changes of Law; and

WHEREAS, on February 22, 2010, the United States District Court for the Eastern District of Kentucky issued an order reversing, in part, the Kentucky Order; and

WHEREAS, the Parties are obligated to amend the Agreement to bring it in compliance with the Court's decision ("Order"); and

NOW, THEREFORE, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreement as follows:

1. The Interconnection Agreement is amended as follows:

- 1.1 Add the following sentence to the end of Section 2.1.3:

Further, AT&T Kentucky is not required to provide access to hybrid loops for broadband services but is required to provide access to the features, functions, and capabilities of hybrid loops.

2. Nothing in this Amendment shall be deemed to modify or extend the Effective Date or Term of the underlying Agreement, but rather shall be coterminous with such Agreement.
  3. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
  4. Reservation of Rights. In entering into the Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by

either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.

5. This Amendment shall become effective thirty (30) days following the date of the last signature executing the Agreement ("Effective Date").
6. The Parties agree that this Amendment will act to supersede, amend and modify the applicable provisions contained in the Agreement. To the extent there are any inconsistencies between the provisions of this Amendment and the Agreement, the provisions in this Amendment shall govern.

**AMENDMENT TO  
INTERCONNECTION AGREEMENT  
BY AND BETWEEN  
BELLSOUTH TELECOMMUNICATIONS, LLC D/B/A AT&T ALABAMA, AT&T FLORIDA, AT&T  
GEORGIA, AT&T KENTUCKY, AT&T LOUISIANA, AT&T MISSISSIPPI, AT&T NORTH CAROLINA,  
AT&T SOUTH CAROLINA AND AT&T TENNESSEE  
AND  
EARTHLINK BUSINESS, LLC**

The Interconnection Agreement by and between BellSouth Telecommunications, LLC d/b/a AT&T ALABAMA, AT&T FLORIDA, AT&T GEORGIA, AT&T KENTUCKY, AT&T LOUISIANA, AT&T MISSISSIPPI, AT&T NORTH CAROLINA, AT&T SOUTH CAROLINA and AT&T TENNESSEE ("AT&T ALABAMA, FLORIDA, GEORGIA, KENTUCKY, LOUISIANA, MISSISSIPPI, NORTH CAROLINA, SOUTH CAROLINA AND TENNESSEE") (previously referred to as BellSouth Telecommunications, Inc.) and Earthlink Business, LLC (f/k/a New Edge Network, Inc.), is hereby amended as follows.

WHEREAS, AT&T ALABAMA, FLORIDA, GEORGIA, KENTUCKY, LOUISIANA, MISSISSIPPI, NORTH CAROLINA, SOUTH CAROLINA AND TENNESSEE and New Edge Network, Inc. ("New Edge") are the parties to that certain "Interconnection Agreement" effective as of December 16, 2006 (the "Agreement"); and

WHEREAS, New Edge has changed its name to "Earthlink Business, LLC," and wishes to reflect that name change as set forth herein.

NOW, THEREFORE, in consideration of the mutual promises contained herein, AT&T ALABAMA, FLORIDA, GEORGIA, KENTUCKY, LOUISIANA, MISSISSIPPI, NORTH CAROLINA, SOUTH CAROLINA AND TENNESSEE and Earthlink Business hereby agree as follows:

1. The Agreement is hereby amended to reflect the name change from "New Edge Network, Inc." to "Earthlink Business, LLC."
2. AT&T ALABAMA, FLORIDA, GEORGIA, KENTUCKY, LOUISIANA, MISSISSIPPI, NORTH CAROLINA, SOUTH CAROLINA AND TENNESSEE shall reflect that name change from "New Edge Network, Inc." to "Earthlink Business, LLC" only for the main billing account (header card) for each of the accounts previously billed to New Edge. AT&T ALABAMA, FLORIDA, GEORGIA, KENTUCKY, LOUISIANA, MISSISSIPPI, NORTH CAROLINA, SOUTH CAROLINA AND TENNESSEE shall not be obligated, whether under this Amendment or otherwise, to make any other changes to AT&T ALABAMA, FLORIDA, GEORGIA, KENTUCKY, LOUISIANA, MISSISSIPPI, NORTH CAROLINA, SOUTH CAROLINA AND TENNESSEE's records with respect to those accounts, including to the services and items provided and/or billed thereunder or under the Agreement. Without limiting the foregoing, Earthlink Business affirms, represents, and warrants that the ACNA and OCN for those accounts shall not change from that previously used by New Edge with AT&T ALABAMA, FLORIDA, GEORGIA, KENTUCKY, LOUISIANA, MISSISSIPPI, NORTH CAROLINA, SOUTH CAROLINA AND TENNESSEE for those accounts and the services and items provided and/or billed thereunder or under the Agreement.
3. Once this Amendment is effective, Earthlink Business shall operate with AT&T ALABAMA, FLORIDA, GEORGIA, KENTUCKY, LOUISIANA, MISSISSIPPI, NORTH CAROLINA, SOUTH CAROLINA AND TENNESSEE under the "Earthlink Business, LLC" name for those accounts. Such operation shall include, by way of example only, submitting orders under Earthlink Business, and labeling (including re-labeling) equipment and facilities with Earthlink Business. Any change in Carrier's name including a change in the "d/b/a", or due to assignment or transfer of this Agreement wherein only Carrier's name is changing, and no Carrier Company Code(s) (ACNA/CIC/OCN) are changing, constitutes a Carrier Name Change under this Section. For any Carrier Name Change, Carrier is responsible for providing proof of compliance with industry standards related to any Company Code(s), including notification of the name change to the appropriate issuing authority of those Company Code(s) as required. Carrier must submit the appropriate service request to AT&T-22STATE to update Carrier's name on all applicable billing accounts (BANs), and Carrier is responsible for all applicable processing/administration and nonrecurring charges for each service request. Should Carrier desire to change its name on individual circuits and/or End User records, Carrier must submit the appropriate service request(s) to AT&T-22STATE

to update Carrier's name on individual circuits and/or End User records, and Carrier is responsible for all applicable processing/administration and nonrecurring charges for each of those service request(s).

4. The Parties agree to delete and replace in its entirety Section 19 of the General Terms and Conditions with the following:

19.0 Notices

19.1 Notices given by one Party to the other Party under this Agreement shall be in writing (unless specifically provided otherwise herein), and unless otherwise expressly required by this Agreement to be delivered to another representative or point of contact, shall be pursuant to at least one of the following methods:

19.1.1 delivered personally, delivered by express delivery service or mailed via certified mail or first class U.S. Postal Service, with postage prepaid and a return receipt requested.

19.1.2 delivered by facsimile provided CLEC and/or AT&T-22STATE has provided such information in Section 19.3 below.

19.1.3 delivered by electronic mail (email) provided CLEC and/or AT&T-22STATE has provided such information in section 19.3 below.

19.2 Notices will be deemed given as of the earliest of:

19.2.1 the date of actual receipt;

19.2.2 the next Business Day when sent via express delivery service;

19.2.3 five (5) calendar days after mailing in the case of first class or certified U.S. Postal Service; or

19.2.4 on the date set forth on the confirmation produced by the sending facsimile machine when delivered by facsimile prior to 5:00 p.m. in the recipient's time zone, but the next Business Day when delivered by facsimile at 5:00 p.m. or later in the recipient's time zone.

19.2.5 notice by email shall be effective on the date it is officially recorded as delivered by delivery receipt and in the absence of such record of delivery, it shall be presumed to have been delivered on the date sent to CLEC by AT&T-22STATE.

19.3 Notices will be addressed to the Parties as follows:

- 19.4 Either Party may unilaterally change its designated contact name, address, email address, and/or facsimile number for the receipt of Notices by giving written Notice to the other Party in compliance with this Section 19.0. Unless explicitly stated otherwise, any change to the designated contact name, address, email address, and/or facsimile number will replace such information currently on file. Any Notice to change the designated contact name, address, email address, and/or facsimile number for the receipt of Notices shall be deemed effective ten (10) calendar days following receipt by the other Party.
- 19.5 AT&T-22STATE communicates official information to CLECs via its Accessible Letter, or other applicable, notification processes. These processes involve electronic transmission and/or posting to the AT&T CLEC Online website, inclusive of a variety of subjects including declaration of a force majeure, changes on business processes and policies, and other product/service related notices not requiring an amendment to this Agreement.
5. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement.
6. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
7. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.
8. This Amendment shall be filed with and is subject to approval by the State Commission and shall become effective ten (10) days following approval by such Commission (the "Amendment Effective Date").

**AMENDMENT TO THE AGREEMENT  
BETWEEN  
EARTHLINK BUSINESS, LLC  
AND**

**BELLSOUTH TELECOMMUNICATIONS, LLC d/b/a AT&T ALABAMA, AT&T FLORIDA, AT&T  
GEORGIA, AT&T KENTUCKY, AT&T LOUISIANA, AT&T MISSISSIPPI, AT&T NORTH CAROLINA,  
AT&T SOUTH CAROLINA, AND AT&T TENNESSEE**

This Amendment (the "Amendment") amends the Interconnection Agreement by and between BellSouth Telecommunications, LLC d/b/a AT&T Alabama, AT&T Florida, AT&T Georgia, AT&T Kentucky, AT&T Louisiana, AT&T Mississippi, AT&T North Carolina, AT&T South Carolina and AT&T Tennessee ("AT&T") and EarthLink Business, LLC d/b/a New Edge Networks ("CLEC"). AT&T and CLEC are hereinafter referred to collectively as the "Parties" and individually as a "Party".

WHEREAS, AT&T and CLEC are parties to an Interconnection Agreement under Sections 251 and 252 of the Communications Act of 1934, as amended (the "Act"), dated November 16, 2006, and as subsequently amended (the "Agreement"); and

NOW, THEREFORE, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreement as follows:

1. The Amendment is composed of the foregoing recitals, the terms and conditions, contained within, and Exhibit A and Exhibit B Pricing Sheet immediately following, all of which are hereby incorporated in this Amendment by this reference and constitute a part of this Amendment.
2. The Parties agree to add the following definition to the General Terms and Conditions of the Agreement:  
"AT&T SOUTHEAST REGION 9-STATE" – means the AT&T owned ILEC doing business in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee.
3. The Parties agree to add Exhibit A Intercarrier Compensation for Wholesale Local Switching as Exhibit F to Attachment 3 of the Agreement.
4. The Parties agree to add the rates for Local Interconnection (Call Transport and Termination) for Wholesale Local Switching in AT&T SOUTHEAST REGION 9-STATE as set forth in Exhibit B, the AT&T Pricing Sheet(s) for the State(s) of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee.
5. The Parties agree to replace Section 19.0 of the Agreement with the following language:

19.0 Notices

- 19.1 Notices given by one Party to the other Party under this Agreement shall be in writing (unless specifically provided otherwise herein), and unless otherwise expressly required by this Agreement to be delivered to another representative or point of contact, shall be pursuant to at least one of the following methods:

- 19.1.1 delivered personally, delivered by express delivery service or mailed via certified mail or first class U.S. Postal Service, with postage prepaid and a return receipt requested.
- 19.1.2 delivered by facsimile provided CLEC and/or AT&T SOUTHEAST REGION 9-STATE has provided such information in Section 19.3 below.
- 19.1.3 delivered by electronic mail (email) provided CLEC and/or AT&T SOUTHEAST REGION 9-STATE has provided such information in Section 19.3 below.

- 19.2 Notices will be deemed given as of the earliest of:

- 19.2.1 the date of actual receipt;
- 19.2.2 the next Business Day when sent via express delivery service;

- 19.2.3 five (5) calendar days after mailing in the case of first class or certified U.S. Postal Service; or
- 19.2.4 on the date set forth on the confirmation produced by the sending facsimile machine when delivered by facsimile prior to 5:00 p.m. in the recipient's time zone, but the next Business Day when delivered by facsimile at 5:00 p.m. or later in the recipient's time zone.
- 19.2.5 notice by email shall be effective on the date it is officially recorded as delivered by delivery receipt and in the absence of such record of delivery, it shall be presumed to have been delivered on the date sent to CLEC by AT&T SOUTHEAST REGION 9-STATE.

19.3 Notices will be addressed to the Parties as follows:

| NOTICE CONTACT        | CARRIER CONTACT                                                        |

\*Informational only and not to be considered as an official notice vehicle under this Section.

- 19.4 Either Party may unilaterally change its designated contact name, address, email address, and/or facsimile number for the receipt of Notices by giving written Notice to the other Party in compliance with this Section 19.4. Unless explicitly stated otherwise, any change to the designated contact name, address, email address, and/or facsimile number will replace such information currently on file. Any Notice to change the designated contact name, address, email address, and/or facsimile number for the receipt of Notices shall be deemed effective ten (10) calendar days following receipt by the other Party.
- 19.5 AT&T SOUTHEAST REGION 9-STATE communicates official information to CARRIERS via its Accessible Letter, or other applicable, notification processes. These processes involve electronic transmission and/or posting to the AT&T CLEC Online website, inclusive of a variety of subjects including declaration of a force majeure, changes on business processes and policies, and other product/service related notices not requiring an amendment to this Agreement.

6. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.

7. Reservation of Rights. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.
8. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement.
9. This Amendment shall be filed with and is subject to approval by the state Commission and shall become effective ten (10) days following approval by such Commission.

## 1.0 Intercarrier Compensation for Wholesale Local Switching Traffic

- 1.1 Where CLEC purchases local switching from AT&T SOUTHEAST REGION 9-STATE either on a stand alone basis or in combination pursuant to the terms of a separately negotiated commercial agreement (herein after referred to as "Wholesale Local Switching" or "switching on a wholesale basis"), CLEC shall establish agreements with and will deal directly with Third Party carriers, such as independent companies, ILECs, CMRS or wireless carriers and other CLECs, for purposes of reciprocal compensation for calls originated by or terminated to the End Users served by such arrangements. AT&T SOUTHEAST REGION 9-STATE is required to provide CLEC with timely, complete and correct information to enable CLEC to meet the requirements of this Section.
- 1.2 The following intercarrier compensation terms shall apply to all traffic exchanged between AT&T SOUTHEAST REGION 9-STATE and CLEC when CLEC purchases Wholesale Local Switching.
  - 1.2.1 For calls terminating to third parties, such as other CLECs, wireless carriers and independent companies, CLEC shall establish agreements with and will deal directly with third party carriers for purposes of intercarrier compensation for calls originated by or terminated to the End Users served by such arrangements. If CLEC does not have such an agreement with a third party carrier and AT&T SOUTHEAST REGION 9-STATE is charged termination charges by a third party terminating a call originated by CLEC, or if such third party carrier bills AT&T SOUTHEAST REGION 9-STATE for terminating such calls, despite the existence of such an agreement, then AT&T SOUTHEAST REGION 9-STATE may, at its option:
    - 1.2.1.1 Pay such charges as billed by the third party carrier and charge End Office Switching or its equivalent to CLEC as set forth in the pricing schedule; or
    - 1.2.1.2 Pay such charges as billed by the third party carrier and CLEC will reimburse the full amount of such charges within thirty (30) days of AT&T SOUTHEAST REGION 9-STATE's request for reimbursement.
  - 1.2.2 The following reciprocal compensation terms shall apply to all traffic exchanged between AT&T SOUTHEAST REGION 9-STATE and CLEC when CLEC purchases local switching from AT&T SOUTHEAST REGION 9-STATE on a wholesale basis.
    - 1.2.2.1 For intra-switch Wholesale Local Switching Traffic exchanged between AT&T SOUTHEAST REGION 9-STATE and CLEC, the Parties agree to impose no call termination charges pertaining to reciprocal compensation on each other.
  - 1.2.3 For inter switch 7 or 10-digit dialed Wholesale Local Switching Traffic originated by CLEC, intercarrier compensation shall apply as follows:
    - 1.2.3.1 For inter switch Wholesale Local Switching Traffic exchanged between AT&T SOUTHEAST REGION 9-STATE and CLEC where CLEC's End User originates a call that is terminated to an AT&T SOUTHEAST REGION 9-STATE End User or to an End User served by AT&T SOUTHEAST REGION 9-STATE resold services in the AT&T SOUTHEAST REGION 9-STATE area, CLEC shall compensate AT&T for such traffic at the End Office Switching rate or its equivalent as set forth in the Pricing Schedule.
    - 1.2.3.2 For calls originated by a third party and terminating to CLEC where such CLEC purchases Wholesale Local Switching from AT&T SOUTHEAST REGION 9-STATE to provide service to its End User, AT&T SOUTHEAST REGION 9-STATE shall charge the originating third party for End Office Switching or its equivalent as set forth in the Pricing Schedule at the terminating end office. AT&T SOUTHEAST REGION 9-STATE shall not charge the terminating CLEC for End Office Switching or its equivalent at the terminating end office.
  - 1.2.4 For inter switch 7 or 10-digit dialed Wholesale Local Switching Traffic terminated by CLEC, intercarrier compensation shall apply as follows:
    - 1.2.4.1 For calls originated by an AT&T SOUTHEAST REGION 9-STATE End User or by an End User served by AT&T SOUTHEAST REGION 9-STATE resold services, AT&T SOUTHEAST REGION 9-STATE shall not charge CLEC for End Office Switching at the terminating end office

for use of the network component; therefore, CLEC may not charge AT&T SOUTHEAST REGION 9-STATE intercarrier compensation or any other charges for termination of such calls.

- 1.2.4.2 For calls originated by a third party CLEC where such CLEC purchases Wholesale Local Switching from AT&T SOUTHEAST REGION 9-STATE to provide service to its End User, AT&T SOUTHEAST REGION 9-STATE shall not charge CLEC for End Office Switching at the terminating end office for use of the network component; therefore, CLEC shall not charge the originating third party or AT&T SOUTHEAST REGION 9-STATE intercarrier compensation or any other charges for termination of such calls.
- 1.2.5 For intraLATA 1+ dialed Wholesale Local Switching Traffic terminating to CLEC where the originating carrier uses AT&T SOUTHEAST REGION 9-STATE's Carrier Identification Code (CIC) for its End User's LPIC, then intercarrier compensation shall apply as follows:
  - 1.2.5.1 For calls originated by an AT&T SOUTHEAST REGION 9-STATE End User or by an End User served by AT&T SOUTHEAST REGION 9-STATE resold services, AT&T SOUTHEAST REGION 9-STATE shall charge CLEC for End Office Switching or its equivalent as set forth in the Pricing Schedule at the terminating end office for use of the end office switching network components used in terminating such calls. CLEC may charge AT&T SOUTHEAST REGION 9-STATE for intercarrier compensation at the rate for End Office Switching or its equivalent as set forth in the Pricing Schedule. CLEC shall not charge originating or terminating switched access rates to AT&T SOUTHEAST REGION 9-STATE for termination of those calls.
- 1.2.6 For intraLATA 1+ dialed Wholesale Local Switching Traffic originated by CLEC where CLEC uses AT&T SOUTHEAST REGION 9-STATE Carrier Identification Code (CIC) for its End User's Local Preferred Interexchange Carrier (LPIC), intercarrier compensation shall apply as follows:
  - 1.2.6.1 For calls terminating to AT&T SOUTHEAST REGION 9-STATE or to an End User served by AT&T SOUTHEAST REGION 9-STATE resold services, AT&T SOUTHEAST REGION 9-STATE shall charge CLEC for End Office Switching or its equivalent as set forth in the Pricing Schedule.
  - 1.2.6.2 For calls terminating to a third party LEC where such LEC is utilizing AT&T SOUTHEAST REGION 9-STATE Wholesale Local Switching to provide service to its End User, AT&T SOUTHEAST REGION 9-STATE shall charge CLEC for End Office Switching or its equivalent as set forth in the Pricing Schedule. AT&T SOUTHEAST REGION 9-STATE will not charge the terminating LEC for End Office Switching at the terminating end office. In the event that AT&T SOUTHEAST REGION 9-STATE is charged terminating charges by the LEC, AT&T SOUTHEAST REGION 9-STATE may pay such charges and CLEC will reimburse AT&T SOUTHEAST REGION 9-STATE the full amount of such charges within thirty (30) days following AT&T SOUTHEAST REGION 9-STATE's request for reimbursement.
- 1.2.7 For calls originated by or terminating to interexchange carriers (IXCs) through a switched access service arrangement, CLEC may bill the IXC in accordance with the CLEC's tariff and will not bill AT&T SOUTHEAST REGION 9-STATE any charges for such calls. CLEC shall pay AT&T SOUTHEAST REGION 9-STATE applicable charges for the use of AT&T SOUTHEAST REGION 9-STATE's network in accordance with the rates set forth in the Pricing Schedule.

**AMENDMENT TO THE AGREEMENT  
BETWEEN  
EARTHLINK BUSINESS, LLC  
AND  
BELLSOUTH TELECOMMUNICATIONS, LLC D/B/A AT&T ALABAMA, AT&T FLORIDA, AT&T  
GEORGIA, AT&T KENTUCKY, AT&T LOUISIANA, AT&T MISSISSIPPI, AT&T NORTH CAROLINA,  
AT&T SOUTH CAROLINA AND AT&T TENNESSEE**

This amendment (the "Amendment") amends the Interconnection Agreement by and between BellSouth Telecommunications, LLC d/b/a AT&T ALABAMA, AT&T FLORIDA, AT&T GEORGIA, AT&T KENTUCKY, AT&T LOUISIANA, AT&T MISSISSIPPI, AT&T NORTH CAROLINA, AT&T SOUTH CAROLINA and AT&T TENNESSEE ("AT&T SOUTHEAST REGION 9-STATE") and Earthlink Business, LLC ("CLEC"). AT&T SOUTHEAST REGION 9-STATE and CLEC are hereinafter referred to collectively as the "Parties" and individually as a "Party."

WHEREAS, AT&T SOUTHEAST REGION 9-STATE and CLEC are Parties to an Interconnection Agreement under Sections 251 and 252 of the Communications Act of 1934, as amended (the "Act"), executed November 16, 2006 and as subsequently amended (the "Agreement"); and

WHEREAS, the Parties desire to amend the Agreement to implement the *Lifeline and Link Up Reform and Modernization et al.*, WC Docket No. 11-42 et al., Second Report and Order, FCC 15-71, Released June 22, 2015 ("FCC Order"), and modify certain provisions related to Customer Information Services.

NOW, THEREFORE, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreement as follows:

1. This Amendment is composed of the foregoing recitals, the terms and conditions, set forth below, and Exhibit A and Exhibit B Pricing Sheet immediately following, all of which are hereby incorporated in this Amendment by this reference and constitute a part of this Amendment.
2. **Lifeline and Link Up Services**
  - 2.1 Delete the rates, terms and conditions related to Lifeline and Link Up service offerings from the Agreement. Lifeline and Link Up service will no longer be available under the Agreement beginning 180 days after Federal Register publication of the Office of Management and Budget's (OMB) approval.
3. **Customer Information Services (CIS)**
  - 3.1 With the exception of 3.3 herein, delete all rates, terms and conditions pertaining to Customer Information Services, including but not limited to services related to Operator Services (OS), Directory Assistance (DA), Directory Assistance Listings (DAL), Inward Assistance Operator Services (INW) and White Pages (e.g., Busy Line Verification (BLV), Busy Line Verification/Interrupt (BLV/I), etc.) from the Agreement.
  - 3.2 Add Appendix – Customer Information Services (CIS), attached hereto as Exhibit A, and add the CIS Pricing Appendix Customer Information Services (CIS) rates reflected in the Pricing Sheet, attached hereto as Exhibit B, to the Agreement.
  - 3.3 **Add the following provisions to the Attachment or Appendix for Resale**
    - 3.3.1 For Resale service, AT&T SOUTHEAST REGION 9-STATE will provide Customer Information Services to CLEC's end users where technically feasible and/or available to AT&T SOUTHEAST REGION 9-STATE retail end users. Dialing, response, and sound quality will be provided in parity to AT&T SOUTHEAST REGION 9-STATE retail end users.
    - 3.3.2 CLEC is solely responsible for the payment of all charges for all services furnished under this Attachment, including but not limited to calls originated or accepted at CLEC's location and its end users' service locations.

- 3.3.3 Interexchange carrier traffic (e.g., sent-paid, information services and alternate operator services messages) received by AT&T SOUTHEAST REGION 9-STATE for billing to Resale end user accounts will be returned as unbillable and will not be passed to CLEC for billing. An unbillable code will be returned with those messages to the carrier indicating that the messages were generated by a Resale account and will not be billed by AT&T SOUTHEAST REGION 9-STATE.
- 3.3.4 AT&T SOUTHEAST REGION 9-STATE shall not be responsible for the manner in which utilization of Resale Services or the associated charges are allocated to end users or others by CLEC. Applicable rates and charges for services provided to CLEC under this Attachment will be billed directly to CLEC and shall be the responsibility of CLEC.
- 3.3.5 Charges billed to CLEC for all services provided under this Attachment shall be paid by CLEC regardless of CLEC's ability or inability to collect from its end users for such services.
- 3.3.6 If CLEC does not wish to be responsible for payment of charges for calling card, collect, or third number billed calls (Alternately Billed Traffic or "ABT") or toll and information services (for example, 900 calls), CLEC must order the appropriate available blocking for lines provided under this Attachment and pay any applicable charges. It is the responsibility of CLEC to order the appropriate toll restriction or blocking on lines resold to end users. CLEC acknowledges that blocking is not available for certain types of calls, including without limitation 800, 888, 411 and Directory Assistance Express Call Completion. Depending on the origination point, for example, calls originating from correctional facilities, some calls may bypass blocking systems. CLEC acknowledges all such limitations and accepts all responsibility for any charges associated with calls for which blocking is not available and any charges associated with calls that bypass blocking systems.

4. The Parties agree to replace Section 19 from the Agreement with the following language:

19 Notices

- 19.1 Notices given by CLEC to AT&T SOUTHEAST REGION 9-STATE under this Agreement shall be in writing (unless specifically provided otherwise herein), and unless otherwise expressly required by this Agreement to be delivered to another representative or point of contact, shall be pursuant to at least one of the following methods:
  - 19.1.1 delivered by electronic mail (email).
  - 19.1.2 delivered by facsimile.
- 19.2 Notices given by AT&T SOUTHEAST REGION 9-STATE to the CLEC under this Agreement shall be in writing (unless specifically provided otherwise herein), and unless otherwise expressly required by this Agreement to be delivered to another representative or point of contact, shall be pursuant to at least one of the following methods:
  - 19.2.1 delivered by electronic mail (email) provided CLEC has provided such information in Section 19.4 below.
  - 19.2.2 delivered by facsimile provided CLEC has provided such information in Section 19.4 below.
- 19.3 Notices will be deemed given as of the earliest of:
  - 19.3.1 the date of actual receipt.
  - 19.3.2 notice by email shall be effective on the date it is officially recorded as delivered by delivery receipt and in the absence of such record of delivery, it shall be presumed to have been delivered on the date sent.
  - 19.3.3 on the date set forth on the confirmation produced by the sending facsimile machine when delivered by facsimile prior to 5:00 p.m. in the recipient's time zone, but the next Business Day when delivered by facsimile at 5:00 p.m. or later in the recipient's time zone.

| EMAIL ADDRESS    | The current email address as provided on<br>AT&T's CLEC Online website |

\*Informational only and not to be considered as an official notice vehicle under this Section.

- 19.5 Either Party may unilaterally change its designated contact name, address, email address, and/or facsimile number for the receipt of Notices by giving written Notice to the other Party in compliance with this Section 19. Unless explicitly stated otherwise, any change to the designated contact name, address, email address, and/or facsimile number will replace such information currently on file. Any Notice to change the designated contact name, address, email address, and/or facsimile number for the receipt of Notices shall be deemed effective ten (10) calendar days following receipt by the other Party.
- 19.6 In addition, CLEC agrees that it is responsible for providing AT&T SOUTHEAST REGION 9-STATE with CLEC's OCN and ACNA numbers for the states in which CLEC is authorized to do business and in which CLEC is requesting that this Agreement apply. In the event that CLEC wants to change and/or add to the OCN and/or ACNA information in the CLEC Profile, CLEC shall send written notice to AT&T SOUTHEAST REGION 9-STATE to be received at least thirty (30) days prior to the change and/or addition in accordance with this Section 19 notice provision; CLEC shall also update its CLEC Profile through the applicable form and/or web-based interface.
- 19.6.1 CLEC may not order services under a new account and/or subsequent state certification, established in accordance with this Section until thirty (30) days after all information specified in this Section is received from CLEC.
- 19.6.2 CLEC may be able to place orders for certain services in AT&T SOUTHEAST REGION 9-STATE without having properly updated the CLEC Profile; however, at any time during the term of this Agreement without additional notice AT&T may at its discretion eliminate such functionality. At such time, if CLEC has not properly updated its CLEC Profile, ordering capabilities will cease, and CLEC will not be able to place orders until thirty (30) days after CLEC has properly updated its CLEC Profile.
- 19.7 AT&T SOUTHEAST REGION 9-STATE communicates official information to CLECs via its Accessible Letter, or other applicable, notification processes. These processes involve electronic transmission and/or posting to the AT&T CLEC Online website, inclusive of a variety of subjects including declaration of a force majeure, changes on business processes and policies, and other product/service related notices not requiring an amendment to this Agreement.
5. The Parties agree to add the following definitions to the General Terms and Conditions in the Interconnection Agreement:

"AT&T-21STATE" means the AT&T owned ILEC(s) doing business in Alabama, Arkansas, California, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Nevada, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas and Wisconsin.

"AT&T CALIFORNIA" means the AT&T owned ILEC doing business in California.

"AT&T MIDWEST REGION 5-STATE" means the AT&T owned ILEC(s) doing business in Illinois, Indiana, Michigan, Ohio and Wisconsin.

"AT&T SOUTHWEST REGION 5-STATE" means the AT&T owned ILEC(s) doing business in Arkansas, Kansas, Missouri, Oklahoma and Texas.

## 6. Conflict between this Amendment and the Agreement

6.1 This Amendment shall be deemed to revise the terms and provisions of the Agreement only to the extent necessary to give effect to the terms and provisions of this Amendment. In the event of a conflict between the terms and provisions of this Amendment and the terms and provisions of the Agreement (including all incorporated or accompanying Appendices, Addenda, and Exhibits to the Agreement), this Amendment shall govern, provided, however, that the fact that a term or provision appears in this Amendment but not in the Agreement, or in the Agreement but not in this Amendment, shall not be interpreted as, or deemed grounds for finding, a conflict for purposes of this Amendment.

7. There shall be no retroactive application of any provision of this Amendment prior to the Effective Date of an adopting CLEC's agreement.
8. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.
9. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement.
10. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
11. For Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee: This Amendment shall be filed with and is subject to approval by the State Commission and shall become effective ten (10) days following approval by such Commission.

## 1.0 Introduction

1.1 The following services are provided as Customer Information Services – Operator Services/Directory Assistance (OS/DA), Inward Assistance Operator Services (INW), Directory Assistance Listings (DAL) and White Pages.

### 1.2 OS/DA:

1.2.1 This Attachment sets forth the rates, terms and conditions under which the Parties shall jointly carry out OS/DA on a wholesale basis for CLEC End Users residing in AT&T-21STATE's local Exchange territory, regardless of whether CLEC is serving its End Users via:

1.2.1.1 CLEC's own physical Switches,

1.2.1.2 Resale of AT&T-21STATE Retail OS/DA service, or

1.2.1.3 Leased Local Circuit Switching from AT&T-21STATE.

1.2.2 CLEC shall be the retail OS/DA provider to its End Users, and AT&T-21STATE shall be the wholesale provider of OS/DA operations to CLEC. AT&T-21STATE shall answer CLEC's End User OS/DA calls on CLEC's behalf, as follows:

1.2.2.1 When the End User dials 0- or 0+ the telephone number, AT&T-21STATE shall provide the Operator Services described in Section 3.4 below. CLEC may set its own retail OS/DA rates, and CLEC therefore acknowledges its responsibility to obtain (a) End User agreement to the OS/DA retail rates (e.g., by tariff or contract), and (b) any necessary regulatory approvals for its OS/DA retail rates.

1.2.2.2 In response to CLEC End User inquiries about OS/DA rates, where technically feasible and available, AT&T-21STATE operators shall quote CLEC retail OS/DA rates, provided by CLEC (see Section 3.6 below). If further inquiries are made about rates, billing and/or other "business office" questions, AT&T-21STATE's OS/DA operators shall direct the calling party's inquiries to a CLEC-provided contact number (also see Section 3.6 below).

1.2.3 CLEC shall pay the applicable OS/DA rates found in the Pricing Sheet based upon CLEC's status as a Facilities-Based CLEC or a reseller. Provided however, CLEC may serve both as a reseller and as a facilities-based provider and CLEC may convert its facilities-based End Users to Resale service, or vice versa, as described below in Section 3.6.8 below.

1.2.3.1 CLEC acknowledges and understands that wholesale OS/DA rates differ between Resale and facilities-based service, and that both types of OS/DA wholesale rates are listed in the Pricing Sheet.

1.2.3.2 Billing and payment details, including the assessment of late payment charges for unpaid balances, are governed by the General Terms and Conditions in this Agreement.

### 1.3 INW:

1.3.1 This Attachment also sets forth terms and conditions for INW for Facilities-Based CLECs.

1.3.2 Where technically feasible and available, when an operator dials the appropriate Toll Center Code in addition to the inward code, the AT&T-21STATE INW operator will provide the Busy Line Verification (BLV) service and Busy Line Verification/Interrupt (BLV/I) service.

### 1.4 DAL:

1.4.1 This Attachment sets forth terms and conditions under which CLEC agrees to purchase DAL information from AT&T-21STATE.

## 1.5 White Pages:

- 1.5.1 This Attachment sets forth terms and conditions that apply to Facility-Based CLECs for subscriber listing information in white page directories provided by AT&T-21STATE.

## 2.0 Definitions

- 2.1 “Busy Line Verification (BLV)” means a service in which an End User asks an operator to verify a conversation in progress.
- 2.2 “Busy Line Verification/Interrupt (BLV/I)” means a service in which an End User asks an operator to verify and interrupt a conversation in progress, to determine if one of the parties is willing to speak to the caller requesting the interrupt.
- 2.3 “Consolidated Reference Rater (CRR)” provides reference information (business office and repair numbers) and rate quotes for CLEC End Users.
- 2.4 “Facilities-Based CLEC” means a CLEC that provides service through its own switch, a Third Party provider's switch or via local circuit switching leased from AT&T-21STATE via a stand-alone agreement.
- 2.5 “General Assistance” means a service in which an operator calls the INW operator seeking assistance in dialing a number. For example, the assistance could be required for attempting to dial a number where a ‘no ring’ condition has been encountered.
- 2.6 “Services” means Operator Services/Directory Assistance (OS/DA), Inward Assistance Operator Services (INW), Directory Assistance Listings (DAL) and White Pages.
- 2.7 “Toll Center Code” means the three digit access tandem code (ATC) code that uniquely identifies a tandem switch in the Local Exchange Routing Guide (LERG) designated as providing access to operator services functions. An operator dials the appropriate area code + ATC + OPR SVC CODE to obtain INW.

## 3.0 Operator Services (OS) / Directory Services (DA)

### 3.1 Dialing Parity:

- 3.1.1 AT&T-21STATE will provide OS/DA to CLEC's End Users with no unreasonable dialing delays and at dialing parity with AT&T-21STATE retail OS/DA services.

### 3.2 Response Parity:

- 3.2.1 Where technically feasible and/or available, CLEC's End Users shall be answered by AT&T-21STATE's OS and DA platforms with the same priority and using the same methods as for AT&T-21STATE's End Users.
- 3.2.2 Any technical difficulties in reaching the AT&T-21STATE OS/DA platform (e.g., cable cuts in the OS/DA trunks, unusual OS/DA call volumes, etc.) will be experienced at parity with AT&T-21STATE End Users served via that same AT&T-21STATE End Office Switch.

### 3.3 Requirements to Physically Interconnect:

- 3.3.1 This section describes the physical interconnection and trunking requirements for a Facilities-Based CLEC to interconnect with AT&T-21STATE's OS/DA switches.
- 3.3.2 The demarcation point for OS/DA traffic between the Parties' networks need not coincide with the point of interconnection for the physical interconnection of all other inter-carrier voice traffic, but at a minimum must be in the Local Access and Transport Area (LATA) within which the CLEC's OS/DA traffic originates.
- 3.3.2.1 Because CLEC's switch may serve End Users in more than one LATA, the Parties agree that CLEC's OS/DA traffic originates from the physical location of the End User dialing 0-, 0+, 411, 1411, or 555-1212 and not the physical location of CLEC's switch.
- 3.3.2.2 To the extent CLEC is serving via circuit-switched wireless technology, the physical location of the End User dialing 0-, 0+, 411, 1411, or 555-1212 shall be deemed the End User's physical

billing address, regardless of whether the End User may be roaming at the time of placing the OS/DA call.

- 3.3.3 The Parties will establish an OS/DA demarcation point at the AT&T-21STATE's OS/DA switch. By mutual agreement, an alternative OS/DA demarcation point may be determined based on the following factors:
  - 3.3.3.1 The size and type of facilities needed to carry CLEC's switch-based OS/DA traffic;
  - 3.3.3.2 Whether CLEC wishes to interconnect for OS or DA, or both;
  - 3.3.3.3 Whether CLEC or CLEC's Affiliate is collocated in an AT&T-21STATE local tandem office and wishes to use the collocation as the OS/DA demarcation point; and
  - 3.3.3.4 Whether CLEC or CLEC's Affiliate already has existing OS/DA facilities in place to the AT&T-21STATE's OS/DA platforms.
- 3.3.4 CLEC shall be financially responsible for the transport facilities to the AT&T-21STATE's switch (es). CLEC may self-provision these OS/DA facilities, lease them from Third Parties, or lease them from AT&T-21STATE's intrastate Special Access Tariff.
- 3.3.5 General OS/DA Trunking Requirements:
  - 3.3.5.1 CLEC will initiate an Access Service Request (ASR) for all OS/DA trunk groups from its switch to the appropriate AT&T-21STATE OS/DA switches as a segregated one-way trunk group utilizing Multi-Frequency (MF) signaling. Unless technically infeasible, AT&T-21STATE will provision all such one-way trunk groups in the same manner and at the same intervals as for all other interconnection trunks between the Parties.
  - 3.3.5.2 CLEC will employ Exchange Access Operator Services Signaling (EAOSS) from the AT&T-21STATE End Offices to the AT&T-21STATE OS/DA switches that are equipped to accept 10-Digit Signaling for Automatic Number Identification (ANI).
  - 3.3.5.3 Where EAOSS is not available, Modified Operator Services Signaling (MOSS) will be utilized, and a segregated one-way trunk group with MF signaling will be established from CLEC to each AT&T-21STATE OS/DA switch for each served Numbering Plan Area (NPA) in the LATA.
- 3.3.6 Specific OS/DA Trunk Groups and Their Requirements:
  - 3.3.6.1 OS Trunks:
    - 3.3.6.1.1 CLEC shall establish a one-way trunk group from CLEC's switch to the AT&T-21STATE OS switch serving OS End Users in that LATA. An OS only trunk group will be designated with the appropriate OS traffic use code and modifier. If the trunk group transports combined OS/DA/DACC over the same trunk group, then the group will be designated with a different traffic use code and modifier for combined services. CLEC will have administrative control for the purpose of issuing ASR's on this one-way trunk group.
  - 3.3.6.2 DA/ DA Call Completion (DACC) Trunks:
    - 3.3.6.2.1 Where permitted, CLEC shall establish a one-way trunk group from CLEC's switch to the AT&T-21STATE DA switch serving DA End Users in that LATA. If the trunk group transports DA/DACC only, but not OS, then the trunk group will be designated with the appropriate DA traffic use code and modifier.
    - 3.3.6.2.2 In AT&T-12STATE, if OS/DA/DACC is transported together on a combined trunk group, then the group will be designated with a different appropriate traffic use code and modifier from that used for a DA/DACC only trunk group. CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.
    - 3.3.6.2.3 In AT&T SOUTHEAST REGION 9-STATE, if OS/DA/DACC is transported together on a combined trunk group, then the group will be designated with an appropriate

traffic use code and modifier. CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.

### 3.3.6.3 Busy Line Verification/Emergency Interrupt (BLV/EI) Trunks:

3.3.6.3.1 Where available, when CLEC wishes for AT&T-21STATE to perform Busy Line Verification or Emergency Interrupt for CLEC End Users a segregated one-way BLV trunk group with MF signaling from AT&T-21STATE's OS switch to CLEC's switch serving End Users in that LATA will be required. CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group. The BLV trunk group will be designated with the appropriate traffic use code and modifier.

## 3.4 OS Offerings:

### 3.4.1 OS Rate Structure:

3.4.1.1 AT&T-21STATE will assess its OS charges based upon whether the CLEC End User is receiving (a) manual OS (i.e., provided via an operator), or (b) automated OS (i.e., an OS switch equipment voice recognition feature, functioning either fully or partially without operators where technically feasible and/or available). The Pricing Sheet contains the full set of OS recurring and nonrecurring rates.

### 3.4.2 OS Call Processing:

3.4.2.1 AT&T-21STATE will provide OS to CLEC End Users where technically feasible and/or available to AT&T-21STATE End Users served in accordance with OS methods and practices in effect at the time the CLEC End User makes an OS call. AT&T-21STATE will provide the following OS services to CLEC End User:

3.4.2.1.1 General Assistance - The End User dialing 0- or 0+, asks the OS operator to provide local and intraLATA dialing assistance for the purposes of completing calls, or requesting information on how to place calls (e.g., handling emergency calls, handling credits, etc.).

3.4.2.1.2 Calling Card - The End User dialing 0- or 0+, provides the OS operator with a Calling Card number for billing purposes, and seeks assistance in completing the call.

3.4.2.1.3 Collect - The End User dialing 0- or 0+, asks the OS operator to bill the charges associated with the call to the called number, provided such billing is accepted by the called number.

3.4.2.1.4 Third Number Billed - The End User dialing 0- or 0+, asks the OS operator to bill the call to a different number than the calling or called number.

3.4.2.1.5 Person-To-Person- The End User dialing 0- or 0+, asks the OS Operator for assistance in reaching a particular person or a particular PBX station, department or office to be reached through a PBX attendant. This service applies even if the caller agrees, after the connection is established, to speak to any party other than the party previously specified.

3.4.2.1.6 Busy Line Verification (BLV) - A service in which the End User asks an OS operator to verify a conversation in progress.

3.4.2.1.7 Busy Line Interrupt (BLV/I) - A service in which the End User asks an operator to verify and interrupt a conversation in progress, to determine if one of the parties is willing to speak to the caller requesting the interrupt.

## 3.5 DA Offerings:

## 3.5.1 DA Rate Structure:

3.5.1.1 AT&T-21STATE DA charges are assessed on a flat rate per call, regardless of call duration. The Pricing Sheet contains the recurring and nonrecurring rates.

## 3.5.2 DA Call Processing:

3.5.2.1 AT&T-21STATE will provide DA Services to CLEC End Users where technically feasible and available to AT&T-21STATE End Users served in accordance with DA Services methods and practices that are in effect at the time CLEC End User makes a DA call. AT&T-21STATE will provide the following DA services to a CLEC End User.

3.5.2.1.1 Local Directory Assistance - Consists of providing published name and telephone number.

3.5.2.1.2 Directory Assistance Call Completion (DACC) - A service in which a local or an intraLATA call to the requested number is completed.

3.5.2.1.3 National Directory Assistance (NDA) - A service whereby callers may request published name and telephone number outside their LATA or local calling area for any listed telephone number in the United States.

3.5.2.1.4 Reverse Directory Assistance (RDA) - Consists of providing listed local and national name and address information associated with a telephone number.

3.5.2.1.5 Business Category Search (BCS) - A service callers may request business telephone number listings for a specified category of business, when the name of the business is not known. Telephone numbers may be requested for local and national businesses.

## 3.6 OS/DA Non-recurring Charges for Loading Automated Call Greeting (i.e., Brand Announcement), Rates and Reference Information:

3.6.1 The incoming OS/DA call is automatically answered by a pre-recorded greeting loaded into the OS/DA switch itself. CLEC may custom brand or brand with silence.

3.6.1.1 CLEC will provide announcement phrase information, via Operator Services Translations Questionnaire (OSTQ), to AT&T-21STATE in conformity with the format, length, and other requirements specified for all CLECs on the AT&T CLEC Online website.

3.6.1.2 AT&T-21STATE will then perform all of the loading and testing of the announcement for each applicable OS/DA switch prior to live traffic. CLEC may also change its pre-recorded announcement at any time by providing a new announcement phrase in the same manner. CLEC will be responsible for paying subsequent loading and testing charges.

3.6.2 If CLEC does not wish to custom brand the OS/DA calls, CLEC End Users will hear silence upon connecting with the OS/DA switch by having AT&T-21STATE load a recording of silence into the automatic, pre-recorded announcement slot, set for the shortest possible duration allowed by the switch, to then be routed to OS/DA platform with all other OS/DA calls, for which brand loading charges will still apply.

3.6.2.1 CLEC understands that End Users may not perceive silent announcements as ordinary mechanical handling of OS/DA calls.

3.6.2.2 CLEC agrees that if it does not brand the call, CLEC shall indemnify and hold AT&T-21STATE harmless from any regulatory violation, consumer complaint, or other sanction for failing to identify the OS/DA provider to the dialing End User.

3.6.3 AT&T-21STATE will be responsible for loading the CLEC provided recording or the silent announcement into all applicable OS and/or DA switches prior to live traffic, testing the announcement for sound quality at parity with that provided to AT&T-21STATE End Users. CLEC will be responsible for paying the initial

recording or silent announcement loading charges, and thereafter, the per-call charge as well as any subsequent loading charges if new recordings or silent announcements are provided as specified above.

- 3.6.4 Branding/Silent Announcement load charges are assessed per loaded recording, per OCN, per switch. For example, a CLEC Reseller may choose to brand under a different name than its facilities-based operations, and therefore two separate recordings could be loaded into each switch, each incurring the Branding/Silent Announcement charge. These charges are mandatory, nonrecurring, and are found in the Pricing Sheet.
- 3.6.5 Where CRR is technically feasible and/or available, the applicable CLEC-charged retail OS/DA rates and a CLEC-provided contact number (e.g., reference to a CLEC business office or repair call center) are loaded into the system utilized by the OS operator.
- 3.6.6 Where CRR is available, AT&T-21STATE will be responsible for loading the CLEC-provided OS/DA retail rates and the CLEC provided contact number(s) into the OS/DA switches. CLEC will be responsible for paying the initial reference and rate loading charges.
- 3.6.7 CRR load charges are assessed per loaded set of rates/references, where Consolidated Reference Rater is available, per OCN, per state. For example, a CLEC reseller may choose to rate differently than its Facilities-Based CLEC operations, or may change its rates/references during the life of the contract, and therefore separate sets of rates/references could be loaded for each OCN, per state, with each loading incurring the rate/reference charge. These charges are mandatory, nonrecurring and are found in the Pricing Sheet.
- 3.6.8 Converting End Users from Prior Branded Service to CLEC or Silent-Branded Service, or between Resale and facilities-based service:
  - 3.6.8.1 To the extent that CLEC has already established the Branding/Silent Announcement recording in AT&T-21STATE OS/DA switches for both Resale and facilities-based service, then no non-recurring charges apply to the conversion of End Users from prior Resale OS/DA wholesale service to facilities-based OS/DA wholesale service, or vice versa.
  - 3.6.8.2 To the extent that CLEC has not established the Branding/Silent Announcement recording in AT&T-21STATE OS/DA switches for Resale and/or facilities-based service, then non-recurring charges apply to set up the OS/DA call for the new type of service, as is described in Section 3.6 above, and at the rates set forth in the Pricing Sheet.

#### 4.0 Inward Assistance Operator Services (INW)

##### 4.1 Responsibilities of the Parties:

- 4.1.1 To the extent that CLEC elects to interconnect with AT&T-21STATE's operator assistance switches, the CLEC's responsibilities are described below.
- 4.1.2 CLEC shall be financially responsible for the transport facilities to the AT&T-21STATE's switch(es). CLEC may self-provision these INW facilities, lease them from Third Parties, or lease them from AT&T-21STATE's intrastate Special Access Tariff.
- 4.1.3 The CLEC will initiate an ASR for a one-way trunk group from its designated operator assistance switch to the AT&T-21STATE operator assistance switch utilizing MF signaling.

##### 4.2 CLEC will request in writing, thirty calendar (30) days in advance of the date when the INW are to be provided, unless otherwise agreed to by AT&T-21STATE. CLEC or its designated OS providers shall submit an ASR to AT&T-21STATE to establish any new interconnection trunking arrangements.

- 4.2.1 CLEC must provide one (1) Carrier Identification Code (CIC) for its CLEC or Incumbent Exchange Carrier business operation and an additional CIC for its IXC business operation if the CLEC wishes to receive separate billing data for its CLEC and IXC operations.

#### 4.3 Specifics of INW Offering and Pricing:

4.3.1 Toll Center Codes will be used by the CLEC operators for routing and connecting to the AT&T-21STATE operator assistance switches. These codes are specific to the various AT&T-21STATE LATAs where AT&T-21STATE operator assistance switches are located.

4.3.2 AT&T-21STATE OS will require a Toll Center Code for the CLEC OS assistance switch. This code will be the routing code used for connecting the AT&T-21STATE operator to the CLEC operator on an inward basis.

4.3.3 If the CLEC requires establishment of a new Toll Center Code, CLEC shall do so by referencing the LERG.

4.3.4 AT&T-21STATE pricing for INW shall be based on the rates specified in the Pricing Sheet.

4.4 If the CLEC terminates INW or OS/DA service prior to the expiration of the term of this Agreement, CLEC shall pay AT&T-21STATE, within thirty (30) calendar days of the issuance of any bills by AT&T-21STATE, all amounts due for actual services provided under this Attachment, plus estimated monthly charges for the remainder of the term. Estimated charges will be based on an average of the actual monthly amounts billed by AT&T-21STATE pursuant to this Attachment prior to its termination.

4.5 The rates applicable for determining the amount(s) under the terms outlined in this Section are those specified in the Pricing Sheet.

#### 5.0 Directory Assistance Listings (DAL)

##### 5.1 Responsibilities of the Parties:

5.1.1 Where technically feasible and available, AT&T-21STATE will provide DAL information referred to as Directory Assistance Listing (DAL) in AT&T SOUTHWEST REGION 5-STATE, Directory Assistance Listing Information Service (DALIS) in AT&T CALIFORNIA, Dialing Parity Directory Listings (DPDL) in AT&T MIDWEST REGION 5-STATE, Directory Assistance List License (DALL) in AT&T NEVADA and Directory Assistance Database Services (DADS) in AT&T SOUTHEAST REGION 9-STATE (hereinafter collectively referred to as DAL).

5.1.2 AT&T-21STATE owns and maintains the database containing DAL information (name, address and published telephone number, or an indication of "non-published status") of telephone service subscribers.

5.1.3 AT&T-21STATE uses the DAL information in its database to provide directory assistance (DA) service to End Users who call AT&T-21STATE's DA to obtain such information.

5.1.4 Inasmuch as AT&T-21STATE provides DA service under contract for ILECs and CLECs, AT&T-21STATE's database also contains DAL information of other ILEC and CLEC telephone service subscribers.

5.1.5 CLEC, or its agent, who choose to provide DA service to CLEC's End Users located in the CLEC's service area may load its database with DAL contained in AT&T-21STATE's DA database.

5.1.6 AT&T-21STATE agrees to license requested DAL information contained in its database, under the following terms and conditions:

5.1.6.1 AT&T-21STATE shall provide DAL information in a mutually acceptable format.

5.1.6.2 AT&T-21STATE shall provide DAL information to CLEC via a mutually acceptable mode of transmission. Once the mode of transmission has been determined, AT&T-21STATE will provide to CLEC the initial load of DAL information in a mutually agreed upon timeframe.

## 5.2 Product Specific Service Delivery Provisions:

## 5.2.1 Use of DAL Information:

- 5.2.1.1 CLEC may use the DAL information licensed and provided pursuant to this Attachment in compliance with all applicable laws, regulations, and rules including any subsequent decision by the FCC or a court regarding the use of DAL.
- 5.2.1.2 In the event a telephone service subscriber has a “non-published” listing, a “non-published” classification will be identified in lieu of the telephone number information and will be considered part of the Listing Information. The last name, first name, street number, street name, community, and zip code will be provided as part of the Listing Information when available. The information provided for non-published telephone service subscribers can only be used for two (2) purposes. First, the non-published status may be added to the listing in CLEC’s database for the sole purpose of adding/correcting the non-published status of the listings in the database. Second, addresses for non-published telephone service subscribers may be used for verification of the non-published status of the listing. If a caller provides the address for a requested listing, CLEC may verify the non-published status of the requested listing by matching the caller-provided address with the address in CLEC’s database. CLEC however, may not provide the address information of a requested listing of a non-published telephone service subscriber to a caller under any circumstances, including when verifying the address. CLEC can notify the End User that the requested listing is non-published.

## 5.3 Other:

## 5.3.1 Pricing:

- 5.3.1.1 The prices at which AT&T-21STATE agrees to provide CLEC with DAL are provided for in the Pricing Sheet.

## 5.3.2 Breach of Contract:

- 5.3.2.1 In the event a Party is found to have materially breached the DAL provision of this Attachment, such breach shall be remedied immediately and the non-breaching Party shall have the right to terminate the breaching Party’s DAL license, without terminating its own rights hereunder, upon fourteen (14) calendar days Notice, until the other Party’s breach is remedied. Further should CLEC breach the DAL provisions of this Attachment, it shall immediately cease use of AT&T-21STATE’s DAL information.

## 5.3.3 Term of DAL Service:

- 5.3.3.1 After twelve (12) consecutive months of service, either Party may terminate the DAL services provided under this Attachment, without termination liability, upon one hundred-twenty (120) calendar days’ written Notice to the other Party.
- 5.3.3.2 If the CLEC terminates this service prior to the first twelve (12) consecutive months of the contract term, CLEC shall pay AT&T-21STATE, within thirty (30) calendar days of the issuance of any bills by AT&T-21STATE, all amounts due for actual services provided under this Attachment, plus the monthly or estimated charges for the remainder of the first twelve (12) months of the contract term, plus costs incurred by AT&T-21STATE associated with the provision of the DAL database.

## 5.3.4 Ordering:

- 5.3.4.1 To order DAL service, CLEC shall use a DAL Order Application form as provided by AT&T-21STATE.

## 6.0 White Pages

### 6.1 General Provisions:

- 6.1.1 AT&T-21STATE will make available to CLEC, for CLEC End Users, non-discriminatory access to white pages directory listings, as described herein.
- 6.1.2 AT&T-21STATE will meet state requirements through itself or a contracted vendor to publish alphabetical white pages directories in multiple formats, including printed directories, CD-ROM and other electronic formats for its ILEC Territory, as defined in the General Terms and Conditions of this Agreement. CLEC provides local exchange telephone service in the same area(s) and CLEC wishes to include listing information for its End Users located in AT&T-21STATE's ILEC Territory in the appropriate white pages directories.

### 6.2 Responsibilities of the Parties:

- 6.2.1 Subject to AT&T-21STATE's practices, as well as the rules and regulations applicable to the provision of white pages directories, AT&T-21STATE will include in appropriate white pages directories the primary alphabetical listings of CLEC End Users located within the ILEC Territory. The rules, regulations and AT&T-21STATE practices are subject to change from time to time. When CLEC provides its subscriber listing information to AT&T-21STATE listings database, CLEC will receive for its End User, one primary listing in AT&T-21STATE white pages directory and a listing in AT&T-21STATE's DA database at no charge, other than applicable service order charges as set forth in the Pricing Sheet.
- 6.2.1.1 Except in the case of a Local Service Request (LSR) submitted solely to port a number from AT&T SOUTHEAST REGION 9-STATE, if such listing is requested on the initial LSR associated with the request for services, a single manual service order charge or electronic service order charge, as appropriate, will apply to both the request for service and the request for the directory listing. Where a subsequent LSR is placed solely to request a directory listing, or is placed to port a number and request a directory listing, separate service order charges as set forth in AT&T-21STATE's tariffs shall apply, as well as the manual service order charge or the electronic service order charge, as appropriate.
- 6.2.1.2 Listing Information Confidentiality:
- 6.2.1.2.1 AT&T-21STATE will afford CLEC's directory listing information the same level of confidentiality that AT&T-21STATE affords its own directory listing information.
- 6.2.1.3 Unlisted/Non-Published End Users:
- 6.2.1.3.1 CLEC will provide to AT&T-21STATE the names, addresses and telephone numbers of all CLEC End Users who wish to be omitted from directories. Non-listed/Non-Published listings will be subject to the rates as set forth in the Pricing Sheet.
- 6.2.1.4 Additional, Designer and Other Listings:
- 6.2.1.4.1 Where a CLEC End User requires foreign, enhanced, designer or other listings in addition to the primary listing to appear in the white pages directory, AT&T-21STATE will offer such listings at rates as set forth in AT&T-21STATE's tariffs and/or service guidebooks.
- 6.2.2 CLEC shall furnish to AT&T-21STATE subscriber listing information pertaining to CLEC End Users located within the ILEC Territory, along with such additional information as AT&T-21STATE may be required to include in the alphabetical listings of said directory. CLEC shall refer to the AT&T CLEC Online website for methods, procedures and ordering information.
- 6.2.3 CLEC will provide accurate subscriber listing information of its subscribers to AT&T-21STATE via a mechanical or manual feed of the directory listing information to AT&T-21STATE's Directory Listing database. CLEC agrees to submit all listing information via a mechanized process within six (6) months of

the Effective Date of this Agreement, or upon CLEC reaching a volume of two hundred (200) listing updates per day, whichever comes first. CLEC's subscriber listings will be interfiled (interspersed) in the directory among AT&T-21STATE's subscriber listing information. CLEC will submit listing information within one (1) business day of installation, disconnection or other change in service (including change of non-listed or non-published status) affecting the DA database or the directory listing of a CLEC End User. CLEC must submit all listing information intended for publication by the directory close (a/k/a last listing activity) date.

#### 6.2.4 Distribution of Directories:

6.2.4.1 Each CLEC subscriber will receive one copy per primary End User listing, as provided by CLEC, of the appropriate AT&T-21STATE white pages directory in the same manner, format and at the same time that they are delivered to AT&T-21STATE's subscribers during the annual delivery of newly published directories.

6.2.4.2 AT&T-21STATE has no obligation to provide any additional white page directories above the directories provided to CLEC End Users as specified in Section 6.2.5.1 above.

6.2.4.3 CLEC subscribers may receive for additional directories in the same manner and format as they are made available to AT&T-21STATE's subscribers.

6.2.5 AT&T-21STATE shall direct its publishing vendor to offer CLEC the opportunity to include in the "Information Pages", or comparable section of its white pages directories (covering the territory where CLEC is certified to provide local service), information provided by CLEC for CLEC installation, repair, customer service and billing information.

#### 6.2.6 Use of Subscriber Listing Information:

6.2.6.1 AT&T-21STATE agrees to serve as the single point of contact for all independent and Third Party directory publishers who seek to include CLEC's subscriber (i.e., End User) listing information in an area directory, and to handle the CLEC's subscriber listing information in the same manner as AT&T-21STATE's subscriber listing information. In exchange for AT&T-21STATE serving as the single point of contact and handling all subscriber listing information equally, CLEC authorizes AT&T-21STATE to include and use the CLEC subscriber listing information provided to AT&T-21STATE DA databases, and to provide CLEC subscriber listing information to directory publishers. Included in this authorization is release of CLEC listings to requesting competing carriers as required by Section 271(c)(2)(B)(vii)(II) and Section 251(b)(3) and any applicable state regulations and orders. Also included in this authorization is AT&T-21STATE's use of CLEC's subscriber listing information in AT&T-21STATE's DA, DA related products and services, and directory publishing products and services.

6.2.6.2 AT&T-21STATE further agrees not to charge CLEC for serving as the single point of contact with independent and Third Party directory publishers, no matter what number or type of requests are fielded. In exchange for the handling of CLEC's subscriber list information to directory publishers, CLEC agrees that it will receive no compensation for AT&T-21STATE's receipt of the subscriber list information or for the subsequent release of this information to directory publishers. Such CLEC subscriber list information shall be intermingled with AT&T-21STATE's subscriber list information and the subscriber list information of other companies that have authorized a similar release of their subscriber list information by AT&T-21STATE.

6.2.7 CLEC further agrees to pay all costs incurred by AT&T-21STATE and/or its Affiliates as a result of CLEC not complying with the terms of this Attachment.

6.2.8 This Attachment shall not establish, be interpreted as establishing, or be used by either Party to establish or to represent their relationship as any form of agency, partnership or joint venture.

#### 6.2.9 Breach of Contract:

6.2.9.1 If either Party is found to have materially breached the white pages directory terms of this Attachment, the non-breaching Party may terminate the white pages directory terms of this

Attachment by providing written Notice to the breaching Party, whereupon this Attachment shall be null and void with respect to any issue of white pages directory published sixty (60) or more calendar days after the date of receipt of such written Notice. CLEC further agrees to pay all costs incurred by AT&T-21STATE and/or its Affiliates and vendor as a result of such CLEC breach.

7.0 General Conditions:

- 7.1 Notwithstanding the foregoing, AT&T-21STATE reserves the right to suspend, modify or terminate, without penalty, this Attachment in its entirety or any Service(s) or features of Service(s) offerings that are provided under this Attachment on ninety (90) days' written notice.

D/B/A AT&T WISCONSIN

This Amendment (the "Amendment") amends the Agreements by and between AT&T and CARRIER as shown in the attached Exhibit A. AT&T and CARRIER are hereinafter referred to collectively as the "Parties" and individually as a "Party."

WHEREAS, AT&T and CARRIER are Parties to the Agreements as shown in the attached Exhibit A; and

WHEREAS, pursuant to the Report and Order and Further Notice of Proposed Rulemaking issued by the Federal Communications Commission ("FCC") on November 18, 2011 (FCC 11-161), and as amended by the FCC on December 23, 2011 (FCC 11-189) ("the Order"), the Parties desire to amend the Agreement to implement the terms of the Order.

NOW, THEREFORE, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreement as follows:

1. The recitals are hereby incorporated in their entirety into this Amendment.
  - 1.1 The Parties hereby implement the intercarrier compensation rate schedules attached hereto as Exhibit B for the termination of all Section 251(b)(5) Traffic exchanged between the parties in the applicable state(s). The rates included in Exhibit B hereby supersede the existing rate elements included in the underlying Agreement for purposes of reciprocal compensation.
2. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
3. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law, or under the intervening law, or regulatory change provisions, in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.

4. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement.
5. The Parties agree to replace Section N from the Agreement with the following language:

**N. Notices**

- N.1 Notices given by CLEC to AT&T under this Agreement shall be in writing (unless specifically provided otherwise herein), and unless otherwise expressly required by this Agreement to be delivered to another representative or point of contact, shall be pursuant to at least one of the following methods:

N.1.1 delivered by electronic mail (email).

N.1.2 delivered by facsimile.

- N.2 Notices given by AT&T to the CLEC under this Agreement shall be in writing (unless specifically provided otherwise herein), and unless otherwise expressly required by this Agreement to be delivered to another representative or point of contact, shall be pursuant to at least one of the following methods:

N.2.1 delivered by electronic mail (email) provided CLEC has provided such information in Section N.4 below.

N.2.2 delivered by facsimile provided CLEC has provided such information in Section N.4 below.

- N.3 Notices will be deemed given as of the earliest of:

N.3.1 the date of actual receipt.

N.3.2 notice by email shall be effective on the date it is officially recorded as delivered by delivery receipt and in the absence of such record of delivery, it shall be presumed to have been delivered on the date sent.

N.3.3 on the date set forth on the confirmation produced by the sending facsimile machine when delivered by facsimile prior to 5:00 p.m. in the recipient's time zone, but the next Business Day when delivered by facsimile at 5:00 p.m. or later in the recipient's time zone.

- N.4 Notices will be addressed to the Parties as follows:

| NOTICE CONTACT        | CLEC CONTACT                                                           |

| EMAIL ADDRESS         | The current email address as provided on<br>AT&T's CLEC Online website |

\*Informational only and not to be considered as an official notice vehicle under this Section.

- N.5 Either Party may unilaterally change its designated contact name, address, email address, and/or facsimile number for the receipt of Notices by giving written Notice to the other Party in compliance with this Section N. Unless explicitly stated otherwise, any change to the designated contact name, address, email address,

and/or facsimile number will replace such information currently on file. Any Notice to change the designated contact name, address, email address, and/or facsimile number for the receipt of Notices shall be deemed effective ten (10) calendar days following receipt by the other Party.

N.6 In addition, CLEC agrees that it is responsible for providing AT&T with CLEC's OCN and ACNA numbers for the states in which CLEC is authorized to do business and in which CLEC is requesting that this Agreement apply. In the event that CLEC wants to change and/or add to the OCN and/or ACNA information in the CLEC Profile, CLEC shall send written notice to AT&T to be received at least thirty (30) days prior to the change and/or addition in accordance with this Section N. notice provision; CLEC shall also update its CLEC Profile through the applicable form and/or web-based interface.

N.6.1 CLEC may not order services under a new account and/or subsequent state certification, established in accordance with this Section until thirty (30) days after all information specified in this Section is received from CLEC.

N.6.2 CLEC may be able to place orders for certain services in AT&T without having properly updated the CLEC Profile; however, at any time during the term of this Agreement without additional notice AT&T may at its discretion eliminate such functionality. At such time, if CLEC has not properly updated its CLEC Profile, ordering capabilities will cease, and CLEC will not be able to place orders until thirty (30) days after CLEC has properly updated its CLEC Profile.

N.7 AT&T communicates official information to CLECs via its Accessible Letter, or other applicable, notification processes. These processes involve electronic transmission and/or posting to the AT&T CLEC Online website, inclusive of a variety of subjects including declaration of a force majeure, changes on business processes and policies, and other product/service related notices not requiring an amendment to this Agreement.

6. There shall be no retroactive application of any provision of this Amendment prior to the Effective Date of an adopting CLEC's agreement.
7. This Amendment shall be deemed to revise the terms and provisions of the Agreement only to the extent necessary to give effect to the terms and provisions of this Amendment. In the event of a conflict between the terms and provisions of this Amendment and the terms and provisions of the Agreement (including all incorporated or accompanying Appendices, Addenda, and Exhibits to the Agreement), this Amendment shall govern, provided, however, that the fact that a term or provision appears in this Amendment but not in the Agreement, or in the Agreement but not in this Amendment, shall not be interpreted as, or deemed grounds for finding, a conflict for purposes of this Amendment.
8. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.
9. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement.
10. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
11. Signatures by all Parties to this Amendment are required to effectuate this Amendment. This Amendment may be executed in counterparts. Each counterpart shall be considered an original and such counterparts shall together constitute one and the same instrument.
12. For Alabama, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Nevada, North Carolina, Oklahoma, South Carolina, Tennessee, Texas: This Amendment shall be filed with and is subject to approval by the applicable state Commission and shall become effective ten (10) days following approval by such Commission. For Arkansas: This Amendment shall be filed with the Arkansas Public Service Commission and shall become effective upon filing. For Ohio: Based on the Public Utilities Commission of Ohio Rules, the Amendment is effective upon filing and is deemed approved by operation of law on the 91<sup>st</sup> day after filing. For California: Pursuant to

Resolution ALJ 257, this filing will become effective, absent rejection of the Advice Letter by the Commission, upon thirty (30) days after the filing date of the Advice Letter to which this Amendment is appended. For Wisconsin: Pursuant to Wisconsin Statute § 196.40, this Amendment shall become effective ten (10) days after the mailing date of the final order approving this Amendment.

BELLSOUTH TELECOMMUNICATIONS, LLC D/B/A AT&T ALABAMA, AT&T FLORIDA, AT&T GEORGIA, AT&T KENTUCKY, AT&T LOUISIANA, AT&T MISSISSIPPI, AT&T NORTH CAROLINA, AT&T SOUTH CAROLINA AND AT&T TENNESSEE, ILLINOIS BELL TELEPHONE COMPANY D/B/A AT&T ILLINOIS, INDIANA BELL TELEPHONE COMPANY INCORPORATED D/B/A AT&T INDIANA, MICHIGAN BELL TELEPHONE COMPANY D/B/A AT&T MICHIGAN, NEVADA BELL TELEPHONE COMPANY D/B/A AT&T NEVADA AND AT&T WHOLESALE, THE OHIO BELL TELEPHONE COMPANY D/B/A AT&T OHIO, PACIFIC BELL TELEPHONE COMPANY D/B/A AT&T CALIFORNIA, SOUTHWESTERN BELL TELEPHONE COMPANY D/B/A AT&T ARKANSAS, AT&T KANSAS, AT&T MISSOURI, AT&T OKLAHOMA AND AT&T TEXAS, WISCONSIN BELL, INC. D/B/A AT&T WISCONSIN

This Amendment (the "Amendment") amends the Agreements by and between AT&T and CARRIER as shown in the attached Exhibit A. AT&T and CARRIER are hereinafter referred to collectively as the "Parties" and individually as a "Party."

WHEREAS, AT&T and CARRIER are Parties to the Agreements as shown in the attached Exhibit A; and

WHEREAS, the Parties desire to amend the Agreement to implement the *Petition of USTelecom for Forbearance Pursuant to 47 U.S.C. § 160(c)* from Enforcement of Obsolete ILEC Legacy Regulations That Inhibit Deployment of Next-Generation Networks, WC Docket No. 14-192, Released December 28, 2015 ("FCC US Telecom Forbearance Order"), and

WHEREAS, the Parties desire to add rates and provisions related to Transit Traffic Services, modify certain provisions related to Termination of Agreement After Initial Term Expiration and to modify certain provisions related to Customer Information Services.

NOW, THEREFORE, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreement as follows:

1. The Amendment is composed of the foregoing recitals, the terms and conditions, contained within, Exhibit A – Listing of Agreements, Exhibit B - AT&T Transit Traffic Service Attachment, Exhibit C – Customer Information Services, and Exhibit D - Pricing Sheet, all of which are hereby incorporated within this Amendment by this reference and constitute a part of this Amendment.
2. Forbearance
  - 2.1. Delete the rates, terms and conditions related to the unbundling of a 64 kbps voice-grade channel to provide narrowband services over fiber where an incumbent LEC retires a copper loop it has overbuilt with a fiber-to-the-home or fiber-to-the-curb loop.
3. Transit Traffic Services
  - 3.1. Add Attachment – Transit Traffic Service, attached hereto, as Exhibit B and rates reflected in the Pricing Sheet(s), attached hereto as Exhibit D to the Agreement. The rates and provisions of Exhibit B and D shall apply to Transit Traffic Service provided in the State(s) of Alabama, Arkansas, California, Florida, Georgia,

Illinois, Indiana, Kansas, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Nevada, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas and Wisconsin.

- 3.2. Delete the rates, terms and conditions related to the provisioning of transit traffic for the AT&T and Business Telecom, LLC d/b/a Earthlink Business, Business Telecom, LLC d/b/a Earthlink Business III, Deltacom, LLC d/b/a Earthlink Business, and Deltacom, LLC d/b/a Earthlink Business IV Agreements for the States of Alabama, Florida, Georgia, Louisiana, Mississippi, South Carolina and Tennessee.

#### 4. Termination of Agreement After Initial Term Expiration

- 4.1. For the AT&T and Business Telecom, LLC d/b/a Earthlink Business, Business Telecom, LLC d/b/a Earthlink Business III, Business Telecom, LLC d/b/a Earthlink Business IV, Deltacom, LLC d/b/a Earthlink Business, Deltacom, LLC d/b/a Earthlink Business III and Deltacom, LLC d/b/a Earthlink Business IV and Earthlink Business, LLC Agreements for the States of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee the Parties agree to replace Sections 2.2 through 2.5 of the General Terms and Conditions with the following:

##### 2.2 Termination for Nonperformance or Breach:

2.2.1 Notwithstanding any other provision of this Agreement, either Party may terminate this Agreement and the provision of any Interconnection Services provided pursuant to this Agreement, at the sole discretion of the terminating Party, in the event that the other Party fails to perform a material obligation or breaches a material term of this Agreement and the other Party fails to cure such nonperformance or breach within forty-five (45) calendar days after written Notice thereof. If the nonperforming Party fails to cure such nonperformance or breach within the forty-five (45) calendar day period provided for within the original Notice, then the terminating Party will provide a subsequent written Notice of the termination of this Agreement and such termination shall take effect immediately upon delivery of written Notice to the other Party.

2.2.2 If, at any time during the term of this Agreement, AT&T-21STATE is unable to contact CLEC pursuant to the Notices provision hereof or any other contact information provided by CLEC under this Agreement, and there are no active services being provisioned under this Agreement, then AT&T-21STATE may, at its discretion, terminate this Agreement, without any liability whatsoever, upon sending of notification to CLEC pursuant to the Notices Section hereof.

##### 2.3 Termination of Agreement after initial term expiration:

2.3.1 Where CLEC has no End Users or is no longer purchasing any services under this Agreement, CLEC may terminate the Agreement by providing "Notice of Termination" to AT&T-21STATE at any time after the initial term of this Agreement. After termination the Parties' liability for termination of this Agreement shall be limited to obligations under the Survival Section of this General Terms and Conditions.

2.3.2 Where CLEC has End Users and/or is purchasing Interconnection Services under this Agreement and either Party seeks to terminate this Agreement, CLEC shall cooperate in good faith to effect an orderly transition of service under this Agreement. CLEC shall be solely responsible (from a financial, operational and administrative standpoint) to ensure that its End Users are transitioned to a new LEC prior to the expiration or termination date of this Agreement.

2.3.3 If at any time within one hundred and eighty (180) days or any time thereafter of the expiration of the Term, if either Party serves "Notice of Expiration" or Notice of Termination (if served after Expiration), CLEC shall have ten (10) calendar days to provide AT&T-21STATE written confirmation to the Notice of Expiration indicating if CLEC wishes to pursue a successor agreement with AT&T-21STATE or terminate its Agreement. CLEC shall identify the action to be taken in each of the applicable state(s).

If CLEC wishes to pursue a successor agreement with AT&T-21STATE, CLEC shall attach to its written confirmation or Notice of Expiration, a written request to commence negotiations with AT&T-21STATE under Sections 251/252 of the Act and identify each of the state(s) to which the successor agreement will apply. Upon receipt of CLEC's Section 252(a)(1) request, the Parties shall commence good faith negotiations for a successor agreement.

- 2.3.4 If the Parties are in "Active Negotiations" (negotiations within the statutory clock established in the Act under Section 252(b)) or have filed for arbitration with the Commission upon expiration date of the Agreement AT&T-21STATE shall continue to offer services to CLEC pursuant to the rates, terms and conditions set forth in this Agreement until a successor agreement becomes effective between the Parties. AT&T-21STATE's obligation to provide services under this Agreement beyond the expiration date conditions upon the Parties adherence to the timeframes established within Section 252(b) of the Act. If CLEC does not adhere to said timeframes or CLEC withdraws its arbitration or seeks an extension of time or continuance of such arbitration without AT&T-21STATE's consent, AT&T-21STATE may provide Notice to CLEC that all services provided thereafter shall be pursuant to the rates, terms and conditions set forth in AT&T-21STATE's then current standard interconnection agreement ("Generic") as found on AT&T's CLEC Online website.
- 2.3.5 Either on or following the expiration date of this Agreement, if the Parties have not entered into a new agreement or are not in Active Negotiations as described in Section 2.3.4 above, the Agreement shall remain in full force and effect on a month to month basis unless both Parties mutually agree to terminate, or either Party provides "Notice of Termination" as provided for in Section 2.3.
- 2.3.6 AT&T-21STATE may reject a request under Section 252 for a new agreement if CLEC has an outstanding balance under this Agreement. CLEC may send a subsequent notice under Section 252 when the outstanding balance has been paid in full.

4.2. For the AT&T and EarthLink Business, LLC Agreements for the states of Arkansas, Kansas and Oklahoma the Parties agree to replace Sections 4.2 through 4.12 for Kansas, 4.2 through 4.13 for Oklahoma and Sections 4.2 through 4.14 for Arkansas of the General Terms and Conditions with the following:

- 4.2 The Agreement shall have a term ("Term") of three (3) years and 90 days commencing on the Effective Date.
- 4.3 Termination for Nonperformance or Breach:
- 4.3.1 Notwithstanding any other provision of this Agreement, either Party may terminate this Agreement and the provision of any Interconnection Services provided pursuant to this Agreement, at the sole discretion of the terminating Party, in the event that the other Party fails to perform a material obligation or breaches a material term of this Agreement and the other Party fails to cure such nonperformance or breach within forty-five (45) calendar days after written Notice thereof. If the nonperforming Party fails to cure such nonperformance or breach within the forty-five (45) calendar day period provided for within the original Notice, then the terminating Party will provide a subsequent written Notice of the termination of this Agreement and such termination shall take effect immediately upon delivery of written Notice to the other Party.
- 4.3.2 If, at any time during the term of this Agreement, AT&T-21STATE is unable to contact CLEC pursuant to the Notices provision hereof or any other contact information provided by CLEC under this Agreement, and there are no active services being provisioned under this Agreement, then AT&T-21STATE may, at its discretion, terminate this Agreement, without any liability whatsoever, upon sending of notification to CLEC pursuant to the Notices Section hereof.

- 4.4 Termination of Agreement after initial term expiration:
- 4.4.1 Where CLEC has no End Users or is no longer purchasing any services under this Agreement, CLEC may terminate the Agreement by providing "Notice of Termination" to AT&T-21STATE at any time after the initial term of this Agreement. After termination the Parties' liability for termination of this Agreement shall be limited to obligations under the Survival Section of this General Terms and Conditions.
  - 4.4.2 Where CLEC has End Users and/or is purchasing Interconnection Services under this Agreement and either Party seeks to terminate this Agreement, CLEC shall cooperate in good faith to effect an orderly transition of service under this Agreement. CLEC shall be solely responsible (from a financial, operational and administrative standpoint) to ensure that its End Users are transitioned to a new LEC prior to the expiration or termination date of this Agreement.
  - 4.4.3 If at any time within one hundred and eighty (180) days or any time thereafter of the expiration of the Term, if either Party serves "Notice of Expiration" or Notice of Termination (if served after Expiration), CLEC shall have ten (10) calendar days to provide AT&T-21STATE written confirmation to the Notice of Expiration indicating if CLEC wishes to pursue a successor agreement with AT&T-21STATE or terminate its Agreement. CLEC shall identify the action to be taken in each of the applicable state(s). If CLEC wishes to pursue a successor agreement with AT&T-21STATE, CLEC shall attach to its written confirmation or Notice of Expiration, a written request to commence negotiations with AT&T-21STATE under Sections 251/252 of the Act and identify each of the state(s) to which the successor agreement will apply. Upon receipt of CLEC's Section 252(a)(1) request, the Parties shall commence good faith negotiations for a successor agreement.
  - 4.4.4 If the Parties are in "Active Negotiations" (negotiations within the statutory clock established in the Act under Section 252(b)) or have filed for arbitration with the Commission upon expiration date of the Agreement AT&T-21STATE shall continue to offer services to CLEC pursuant to the rates, terms and conditions set forth in this Agreement until a successor agreement becomes effective between the Parties. AT&T-21STATE's obligation to provide services under this Agreement beyond the expiration date conditions upon the Parties adherence to the timeframes established within Section 252(b) of the Act. If CLEC does not adhere to said timeframes or CLEC withdraws its arbitration or seeks an extension of time or continuance of such arbitration without AT&T-21STATE's consent, AT&T-21STATE may provide Notice to CLEC that all services provided thereafter shall be pursuant to the rates, terms and conditions set forth in AT&T-21STATE's then current standard interconnection agreement ("Generic") as found on AT&T's CLEC Online website.
  - 4.4.5 Either on or following the expiration date of this Agreement, if the Parties have not entered into a new agreement or are not in Active Negotiations as described in Section 2.3.4 above, the Agreement shall remain in full force and effect on a month to month basis unless both Parties mutually agree to terminate, or either Party provides "Notice of Termination" as provided for in Section 2.3.
  - 4.4.6 AT&T-21STATE may reject a request under Section 252 for a new agreement if CLEC has an outstanding balance under this Agreement. CLEC may send a subsequent notice under Section 252 when the outstanding balance has been paid in full.
- 4.3. For the AT&T and EarthLink Business, LLC Agreements for the states of California, Illinois, Indiana, Michigan and Missouri the Parties agree to replace Sections 5.2 through 5.10 for Illinois, Indiana, Michigan and Nevada; Sections 5.2 through 5.11.6 for California and Sections 5.2 through 5.11 for Missouri of the General Terms and Conditions with the following:

5.2 Section 5.2 as follows:

5.2.1 For Illinois, Indiana, Michigan, Nevada, Ohio and Wisconsin:

5.2 The term of this Agreement shall commence upon the Effective Date of this Agreement and shall expire on May 30, 2001 (the “Term”).

5.2.1 Notwithstanding anything to the contrary in this Section 5, the original expiration date of this Agreement, as modified by this Amendment, will be extended for a period of three (3) years commencing January 14, 2008 until January 14, 2011 (the “Extended Expiration Date”).

5.2.2 For California:

5.2 The term of this Agreement shall commence upon the Effective Date of this Agreement and shall expire on May 30, 2003 (the “Term”)

5.2.3 For Missouri:

5.2 The term of this Agreement shall commence upon the Effective Date of this Agreement and shall expire on November 01, 2006

5.3 Termination for Nonperformance or Breach:

5.3.1 Notwithstanding any other provision of this Agreement, either Party may terminate this Agreement and the provision of any Interconnection Services provided pursuant to this Agreement, at the sole discretion of the terminating Party, in the event that the other Party fails to perform a material obligation or breaches a material term of this Agreement and the other Party fails to cure such nonperformance or breach within forty-five (45) calendar days after written Notice thereof. If the nonperforming Party fails to cure such nonperformance or breach within the forty-five (45) calendar day period provided for within the original Notice, then the terminating Party will provide a subsequent written Notice of the termination of this Agreement and such termination shall take effect immediately upon delivery of written Notice to the other Party.

5.3.2 If, at any time during the term of this Agreement, AT&T-21STATE is unable to contact CLEC pursuant to the Notices provision hereof or any other contact information provided by CLEC under this Agreement, and there are no active services being provisioned under this Agreement, then AT&T-21STATE may, at its discretion, terminate this Agreement, without any liability whatsoever, upon sending of notification to CLEC pursuant to the Notices Section hereof.

5.4 Termination of Agreement after initial term expiration:

5.4.1 Where CLEC has no End Users or is no longer purchasing any services under this Agreement, CLEC may terminate the Agreement by providing “Notice of Termination” to AT&T-21STATE at any time after the initial term of this Agreement. After termination the Parties’ liability for termination of this Agreement shall be limited to obligations under the Survival Section of this General Terms and Conditions.

5.4.2 Where CLEC has End Users and/or is purchasing Interconnection Services under this Agreement and either Party seeks to terminate this Agreement, CLEC shall cooperate in good faith to effect an orderly transition of service under this Agreement. CLEC shall be solely responsible (from a financial, operational and administrative standpoint) to ensure that its End Users are transitioned to a new LEC prior to the expiration or termination date of this Agreement.

5.4.3 If at any time within one hundred and eighty (180) days or any time thereafter of the expiration of the Term, if either Party serves “Notice of Expiration” or Notice of Termination (if served after Expiration), CLEC shall have ten (10) calendar days to

provide AT&T-21STATE written confirmation to the Notice of Expiration indicating if CLEC wishes to pursue a successor agreement with AT&T-21STATE or terminate its Agreement. CLEC shall identify the action to be taken in each of the applicable state(s). If CLEC wishes to pursue a successor agreement with AT&T-21STATE, CLEC shall attach to its written confirmation or Notice of Expiration, a written request to commence negotiations with AT&T-21STATE under Sections 251/252 of the Act and identify each of the state(s) to which the successor agreement will apply. Upon receipt of CLEC's Section 252(a)(1) request, the Parties shall commence good faith negotiations for a successor agreement.

- 5.4.4 If the Parties are in "Active Negotiations" (negotiations within the statutory clock established in the Act under Section 252(b)) or have filed for arbitration with the Commission upon expiration date of the Agreement AT&T-21STATE shall continue to offer services to CLEC pursuant to the rates, terms and conditions set forth in this Agreement until a successor agreement becomes effective between the Parties. AT&T-21STATE's obligation to provide services under this Agreement beyond the expiration date conditions upon the Parties adherence to the timeframes established within Section 252(b) of the Act. If CLEC does not adhere to said timeframes or CLEC withdraws its arbitration or seeks an extension of time or continuance of such arbitration without AT&T-21STATE's consent, AT&T-21STATE may provide Notice to CLEC that all services provided thereafter shall be pursuant to the rates, terms and conditions set forth in AT&T-21STATE's then current standard interconnection agreement ("Generic") as found on AT&T's CLEC Online website.
- 5.4.5 Either on or following the expiration date of this Agreement, if the Parties have not entered into a new agreement or are not in Active Negotiations as described in Section 5.3.4 above, the Agreement shall remain in full force and effect on a month to month basis unless both Parties mutually agree to terminate, or either Party provides "Notice of Termination" as provided for in Section 5.3.
- 5.4.6 AT&T-21STATE may reject a request under Section 252 for a new agreement if CLEC has an outstanding balance under this Agreement. CLEC may send a subsequent notice under Section 252 when the outstanding balance has been paid in full.

4.4. For the AT&T and EarthLink Business, LLC Agreements for the state of Texas the Parties agree to replace Sections 7.2 through 7.11 of the General Terms and Conditions with the following:

- 7.2 The term of this Agreement shall commence upon the Effective Date of this Agreement and will remain in effect for five (5) years after the Effective Date.
- 7.3 Termination for Nonperformance or Breach:
  - 7.3.1 Notwithstanding any other provision of this Agreement, either Party may terminate this Agreement and the provision of any Interconnection Services provided pursuant to this Agreement, at the sole discretion of the terminating Party, in the event that the other Party fails to perform a material obligation or breaches a material term of this Agreement and the other Party fails to cure such nonperformance or breach within forty-five (45) calendar days after written Notice thereof. If the nonperforming Party fails to cure such nonperformance or breach within the forty-five (45) calendar day period provided for within the original Notice, then the terminating Party will provide a subsequent written Notice of the termination of this Agreement and such termination shall take effect immediately upon delivery of written Notice to the other Party.
  - 7.3.2 If, at any time during the term of this Agreement, AT&T-21STATE is unable to contact CLEC pursuant to the Notices provision hereof or any other contact information provided by CLEC under this Agreement, and there are no active services being provisioned under this Agreement, then AT&T-21STATE may, at its discretion, terminate this Agreement,

without any liability whatsoever, upon sending of notification to CLEC pursuant to the Notices Section hereof.

7.4 Termination of Agreement after initial term expiration:

- 7.4.1 Where CLEC has no End Users or is no longer purchasing any services under this Agreement, CLEC may terminate the Agreement by providing "Notice of Termination" to AT&T-21STATE at any time after the initial term of this Agreement. After termination the Parties' liability for termination of this Agreement shall be limited to obligations under the Survival Section of this General Terms and Conditions.
- 7.4.2 Where CLEC has End Users and/or is purchasing Interconnection Services under this Agreement and either Party seeks to terminate this Agreement, CLEC shall cooperate in good faith to effect an orderly transition of service under this Agreement. CLEC shall be solely responsible (from a financial, operational and administrative standpoint) to ensure that its End Users are transitioned to a new LEC prior to the expiration or termination date of this Agreement.
- 7.4.3 If at any time within one hundred and eighty (180) days or any time thereafter of the expiration of the Term, if either Party serves "Notice of Expiration" or Notice of Termination (if served after Expiration), CLEC shall have ten (10) calendar days to provide AT&T-21STATE written confirmation to the Notice of Expiration indicating if CLEC wishes to pursue a successor agreement with AT&T-21STATE or terminate its Agreement. CLEC shall identify the action to be taken in each of the applicable state(s). If CLEC wishes to pursue a successor agreement with AT&T-21STATE, CLEC shall attach to its written confirmation or Notice of Expiration, a written request to commence negotiations with AT&T-21STATE under Sections 251/252 of the Act and identify each of the state(s) to which the successor agreement will apply. Upon receipt of CLEC's Section 252(a)(1) request, the Parties shall commence good faith negotiations for a successor agreement.
- 7.4.4 If the Parties are in "Active Negotiations" (negotiations within the statutory clock established in the Act under Section 252(b)) or have filed for arbitration with the Commission upon expiration date of the Agreement AT&T-21STATE shall continue to offer services to CLEC pursuant to the rates, terms and conditions set forth in this Agreement until a successor agreement becomes effective between the Parties. AT&T-21STATE's obligation to provide services under this Agreement beyond the expiration date conditions upon the Parties adherence to the timeframes established within Section 252(b) of the Act. If CLEC does not adhere to said timeframes or CLEC withdraws its arbitration or seeks an extension of time or continuance of such arbitration without AT&T-21STATE's consent, AT&T-21STATE may provide Notice to CLEC that all services provided thereafter shall be pursuant to the rates, terms and conditions set forth in AT&T-21STATE's then current standard interconnection agreement ("Generic") as found on AT&T's CLEC Online website.
- 7.4.5 Either on or following the expiration date of this Agreement, if the Parties have not entered into a new agreement or are not in Active Negotiations as described in Section 7.3.4 above, the Agreement shall remain in full force and effect on a month to month basis unless both Parties mutually agree to terminate, or either Party provides "Notice of Termination" as provided for in Section 7.3.
- 7.4.6 AT&T-21STATE may reject a request under Section 252 for a new agreement if CLEC has an outstanding balance under this Agreement. CLEC may send a subsequent notice under Section 252 when the outstanding balance has been paid in full.

- 4.5. For the AT&T and US XChange of Michigan, L.L.C. d/b/a EarthLink Business I for the state of Michigan Agreement Sections 8.4.3 and 8.4.5 of the General Terms and Conditions of the Agreement are hereby amended and restated as follows:
- 8.4.3 If at any time within one hundred and eighty (180) days or any time thereafter of the expiration of the Term, if either Party serves "Notice of Expiration" or Notice of Termination (if served after Expiration), CLEC shall have ten (10) calendar days to provide AT&T-21STATE written confirmation to the Notice of Expiration indicating if CLEC wishes to pursue a successor agreement with AT&T-21STATE or terminate its Agreement. CLEC shall identify the action to be taken in each of the applicable state(s). If CLEC wishes to pursue a successor agreement with AT&T-21STATE, CLEC shall attach to its written confirmation or Notice of Expiration, a written request to commence negotiations with AT&T-21STATE under Sections 251/252 of the Act and identify each of the state(s) to which the successor agreement will apply. Upon receipt of CLEC's Section 252(a)(1) request, the Parties shall commence good faith negotiations for a successor agreement.
- 8.4.5 Either on or following the expiration date of this Agreement, if the Parties have not entered into a new agreement or are not in Active Negotiations as described in Section 8.4.4 above, the Agreement shall remain in full force and effect on a month to month basis unless both Parties mutually agree to terminate, or either Party provides "Notice of Termination" as provided for in Section 8.4.
- 4.6. For the AT&T and US XChange of Wisconsin, L.L.C. d/b/a EarthLink Business for the state of Wisconsin Agreement the Parties agree to replace Sections 21.1 through 21.4.2 of the General Terms and Conditions with the following:
- 21.1 Term. The initial term of this Agreement shall be three (3) years (the "Initial Term") which shall commence on the Effective Date.
- 21.1.1 Notwithstanding anything to the contrary in this Section 21.1, the original expiration date of this Agreement, as modified by this Amendment, will be extended for a period of three (3) years commencing April 16, 2007 until April 16, 2010 (the "Extended Expiration Date").
- 21.2 Termination for Nonperformance or Breach:
- 21.2.1 Notwithstanding any other provision of this Agreement, either Party may terminate this Agreement and the provision of any Interconnection Services provided pursuant to this Agreement, at the sole discretion of the terminating Party, in the event that the other Party fails to perform a material obligation or breaches a material term of this Agreement and the other Party fails to cure such nonperformance or breach within forty-five (45) calendar days after written Notice thereof. If the nonperforming Party fails to cure such nonperformance or breach within the forty-five (45) calendar day period provided for within the original Notice, then the terminating Party will provide a subsequent written Notice of the termination of this Agreement and such termination shall take effect immediately upon delivery of written Notice to the other Party.
- 21.2.2 If, at any time during the term of this Agreement, AT&T-21STATE is unable to contact CLEC pursuant to the Notices provision hereof or any other contact information provided by CLEC under this Agreement, and there are no active services being provisioned under this Agreement, then AT&T-21STATE may, at its discretion, terminate this Agreement, without any liability whatsoever, upon sending of notification to CLEC pursuant to the Notices Section hereof.
- 21.3 Termination of Agreement after initial term expiration:
- 21.3.1 Where CLEC has no End Users or is no longer purchasing any services under this Agreement, CLEC may terminate the Agreement by providing "Notice of Termination" to AT&T-21STATE at any time after the initial term of this Agreement. After termination the

Parties' liability for termination of this Agreement shall be limited to obligations under the Survival Section of this General Terms and Conditions.

- 21.3.2 Where CLEC has End Users and/or is purchasing Interconnection Services under this Agreement and either Party seeks to terminate this Agreement, CLEC shall cooperate in good faith to effect an orderly transition of service under this Agreement. CLEC shall be solely responsible (from a financial, operational and administrative standpoint) to ensure that its End Users are transitioned to a new LEC prior to the expiration or termination date of this Agreement.
- 21.3.3 If at any time within one hundred and eighty (180) days or any time thereafter of the expiration of the Term, if either Party serves "Notice of Expiration" or Notice of Termination (if served after Expiration), CLEC shall have ten (10) calendar days to provide AT&T-21STATE written confirmation to the Notice of Expiration indicating if CLEC wishes to pursue a successor agreement with AT&T-21STATE or terminate its Agreement. CLEC shall identify the action to be taken in each of the applicable state(s). If CLEC wishes to pursue a successor agreement with AT&T-21STATE, CLEC shall attach to its written confirmation or Notice of Expiration, a written request to commence negotiations with AT&T-21STATE under Sections 251/252 of the Act and identify each of the state(s) to which the successor agreement will apply. Upon receipt of CLEC's Section 252(a)(1) request, the Parties shall commence good faith negotiations for a successor agreement.
- 21.3.4 If the Parties are in "Active Negotiations" (negotiations within the statutory clock established in the Act under Section 252(b)) or have filed for arbitration with the Commission upon expiration date of the Agreement AT&T-21STATE shall continue to offer services to CLEC pursuant to the rates, terms and conditions set forth in this Agreement until a successor agreement becomes effective between the Parties. AT&T-21STATE's obligation to provide services under this Agreement beyond the expiration date conditions upon the Parties adherence to the timeframes established within Section 252(b) of the Act. If CLEC does not adhere to said timeframes or CLEC withdraws its arbitration or seeks an extension of time or continuance of such arbitration without AT&T-21STATE's consent, AT&T-21STATE may provide Notice to CLEC that all services provided thereafter shall be pursuant to the rates, terms and conditions set forth in AT&T-21STATE's then current standard interconnection agreement ("Generic") as found on AT&T's CLEC Online website.
- 21.3.5 Either on or following the expiration date of this Agreement, if the Parties have not entered into a new agreement or are not in Active Negotiations as described in Section 21.3.4 above, the Agreement shall remain in full force and effect on a month to month basis unless both Parties mutually agree to terminate, or either Party provides "Notice of Termination" as provided for in Section 21.3.
- 21.3.6 AT&T-21STATE may reject a request under Section 252 for a new agreement if CLEC has an outstanding balance under this Agreement. CLEC may send a subsequent notice under Section 252 when the outstanding balance has been paid in full.

#### 21.4.1 Intentionally Left Blank

21.4.1 Intentionally Left Blank

21.4.2 Intentionally Left Blank

- 4.7. For the AT&T and Choice One Communications, Inc. Agreement for the state of Ohio the Parties agree to replace Sections XXI.1 through XXI.3 of the General Terms and Conditions and for the AT&T and US XChange of Illinois, L.L.C. d/b/a EarthLink Business I for the state of Illinois and the AT&T and US XChange of Indiana, L.L.C. d/b/a EarthLink Business for the state of Indiana Agreements the Parties agree to replace Sections XXI.1 through XXI.4 of the General Terms and Conditions with the following:

- XXI.1 Term. The initial term of this Agreement shall commence on the Effective Date and shall continue in full force and effect until May 13, 2001 (the “Initial Term”).
- XXI.1.1 Notwithstanding anything to the contrary in this Section XXI.1, the original expiration date of this Agreement, as modified by this Amendment, will be extended for a period of three (3) years commencing April 16, 2007 until April 16, 2010 (the “Extended Expiration Date”).
- XXI.2 Termination for Nonperformance or Breach:
- XXI.2.1 Notwithstanding any other provision of this Agreement, either Party may terminate this Agreement and the provision of any Interconnection Services provided pursuant to this Agreement, at the sole discretion of the terminating Party, in the event that the other Party fails to perform a material obligation or breaches a material term of this Agreement and the other Party fails to cure such nonperformance or breach within forty-five (45) calendar days after written Notice thereof. If the nonperforming Party fails to cure such nonperformance or breach within the forty-five (45) calendar day period provided for within the original Notice, then the terminating Party will provide a subsequent written Notice of the termination of this Agreement and such termination shall take effect immediately upon delivery of written Notice to the other Party.
- XXI.2.2 If, at any time during the term of this Agreement, AT&T-21STATE is unable to contact CLEC pursuant to the Notices provision hereof or any other contact information provided by CLEC under this Agreement, and there are no active services being provisioned under this Agreement, then AT&T-21STATE may, at its discretion, terminate this Agreement, without any liability whatsoever, upon sending of notification to CLEC pursuant to the Notices Section hereof.
- XXI.3 Termination of Agreement after initial term expiration:
- XXI.3.1 Where CLEC has no End Users or is no longer purchasing any services under this Agreement, CLEC may terminate the Agreement by providing “Notice of Termination” to AT&T-21STATE at any time after the initial term of this Agreement. After termination the Parties’ liability for termination of this Agreement shall be limited to obligations under the Survival Section of this General Terms and Conditions.
- XXI.3.2 Where CLEC has End Users and/or is purchasing Interconnection Services under this Agreement and either Party seeks to terminate this Agreement, CLEC shall cooperate in good faith to effect an orderly transition of service under this Agreement. CLEC shall be solely responsible (from a financial, operational and administrative standpoint) to ensure that its End Users are transitioned to a new LEC prior to the expiration or termination date of this Agreement.
- XXI.3.3 If at any time within one hundred and eighty (180) days or any time thereafter of the expiration of the Term, if either Party serves “Notice of Expiration” or Notice of Termination (if served after Expiration), CLEC shall have ten (10) calendar days to provide AT&T-21STATE written confirmation to the Notice of Expiration indicating if CLEC wishes to pursue a successor agreement with AT&T-21STATE or terminate its Agreement. CLEC shall identify the action to be taken in each of the applicable state(s). If CLEC wishes to pursue a successor agreement with AT&T-21STATE, CLEC shall attach to its written confirmation or Notice of Expiration, a written request to commence negotiations with AT&T-21STATE under Sections 251/252 of the Act and identify each of the state(s) to which the successor agreement will apply. Upon receipt of CLEC’s Section 252(a)(1) request, the Parties shall commence good faith negotiations for a successor agreement.
- XXI.3.4 If the Parties are in “Active Negotiations” (negotiations within the statutory clock established in the Act under Section 252(b)) or have filed for arbitration with the Commission upon expiration date of the Agreement AT&T-21STATE shall continue to

offer services to CLEC pursuant to the rates, terms and conditions set forth in this Agreement until a successor agreement becomes effective between the Parties. AT&T-21STATE's obligation to provide services under this Agreement beyond the expiration date conditions upon the Parties adherence to the timeframes established within Section 252(b) of the Act. If CLEC does not adhere to said timeframes or CLEC withdraws its arbitration or seeks an extension of time or continuance of such arbitration without AT&T-21STATE's consent, AT&T-21STATE may provide Notice to CLEC that all services provided thereafter shall be pursuant to the rates, terms and conditions set forth in AT&T-21STATE's then current standard interconnection agreement ("Generic") as found on AT&T's CLEC Online website.

XXI.3.5 Either on or following the expiration date of this Agreement, if the Parties have not entered into a new agreement or are not in Active Negotiations as described in Section XXI.3.4 above, the Agreement shall remain in full force and effect on a month to month basis unless both Parties mutually agree to terminate, or either Party provides "Notice of Termination" as provided for in Section XXI.3.

XXI.3.6 AT&T-21STATE may reject a request under Section 252 for a new agreement if CLEC has an outstanding balance under this Agreement. CLEC may send a subsequent notice under Section 252 when the outstanding balance has been paid in full.

## 5. Customer Information Services (CIS)

5.1. Add Attachment 06 - Operator Services and Directory Assistance (OS/DA), attached hereto as Exhibit C; and the Operator Services and Directory Assistance (OS/DA) rates reflected in the Pricing Sheet, attached hereto as Exhibit D, to the Agreement.

6. There shall be no retroactive application of any provision of this Amendment prior to the Effective Date of an adopting CLEC's agreement.
7. This Amendment shall be deemed to revise the terms and provisions of the Agreement only to the extent necessary to give effect to the terms and provisions of this Amendment. In the event of a conflict between the terms and provisions of this Amendment and the terms and provisions of the Agreement (including all incorporated or accompanying Appendices, Addenda, and Exhibits to the Agreement), this Amendment shall govern, provided, however, that the fact that a term or provision appears in this Amendment but not in the Agreement, or in the Agreement but not in this Amendment, shall not be interpreted as, or deemed grounds for finding, a conflict for purposes of this Amendment.
8. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.
9. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement.
10. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
11. Signatures by all Parties to this Amendment are required to effectuate this Amendment. This Amendment may be executed in counterparts. Each counterpart shall be considered an original and such counterparts shall together constitute one and the same instrument.
12. For Alabama, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Nevada, North Carolina, Oklahoma, South Carolina, Tennessee, Texas: This Amendment shall be filed with and is subject to approval by the applicable state Commission and shall become effective ten (10) days following approval

by such Commission. For Arkansas: This Amendment shall be filed with the Arkansas Public Service Commission and shall become effective upon filing. For Ohio: Based on the Public Utilities Commission of Ohio Rules, the Amendment is effective upon filing and is deemed approved by operation of law on the 91<sup>st</sup> day after filing. For California: Pursuant to Resolution ALJ 257, this filing will become effective, absent rejection of the Advice Letter by the Commission, upon thirty (30) days after the filing date of the Advice Letter to which this Amendment is appended. For Wisconsin: Pursuant to Wisconsin Statute § 196.40, this Amendment shall become effective ten (10) days after the mailing date of the final order approving this Amendment.

## 1.0 Introduction

- 1.1 This Exhibit A sets forth the rates, terms and conditions for Transit Traffic Service when AT&T ARKANSAS, AT&T CALIFORNIA, AT&T INDIANA, AT&T KANSAS, AT&T KENTUCKY, AT&T MISSOURI, AT&T NORTH CAROLINA, AT&T OHIO, AT&T OKLAHOMA, and/or AT&T TEXAS acts as a Transit Service Provider ("AT&T-TSP") for CLEC. Transit Traffic Service is provided to Telecommunications Carriers for Telecommunications Traffic that does not originate with, or terminate to, AT&T-TSP's End Users. Transit Traffic Service allows CLEC to exchange CLEC originated traffic with a Third Party Terminating Carrier, to which CLEC is not directly interconnected, and it allows CLEC to receive traffic originated by a Third Party Originating Carrier. AT&T-TSP offers Transit Traffic Services to interconnected CLECs or to interconnected Out of Exchange Local Exchange Carriers.

## 2.0 Definitions

The following definitions are only for the purpose of Transit Traffic Service as set forth in this Exhibit A. If a definition herein conflicts with any definition in the General Terms and Conditions of the Agreement or any other attachment or appendix of the Agreement, then the definition herein governs for the sole purpose of this Exhibit A. To the extent that defined terms in the Agreement are used in this Exhibit A, but for which no definition appears herein, then the definition in the Agreement controls.

- 2.1 "AT&T Transit Service Provider" or "AT&T-TSP" means as applicable, AT&T ARKANSAS, AT&T CALIFORNIA, AT&T INDIANA, AT&T KANSAS, AT&T KENTUCKY, AT&T MISSOURI, AT&T OHIO, AT&T OKLAHOMA, AT&T NORTH CAROLINA, and/or AT&T TEXAS as those entities provide Transit Traffic Services to CLEC and Third Parties.
- 2.2 "Local" means physically located in the same ILEC Local Exchange Area as defined by the ILEC Local (or "General") Exchange Tariff on file with the applicable state Commission or regulatory agency; or physically located within neighboring ILEC Local Exchange Areas that are within the same common mandatory local calling area. This includes but is not limited to, mandatory Extended Area Service (EAS), mandatory Extended Local Calling Service (ELCS), or other types of mandatory expanded local calling scopes.
- 2.3 "Loss" or "Losses" means any and all losses, costs (including court costs), claims, damages (including fines, penalties, or civil judgments and settlements), injuries, liabilities and expenses (including attorneys' fees).
- 2.4 "Third Party Originating Carrier" means a Telecommunications Carrier that originates Transit Traffic that transits AT&T-TSP's network and is delivered to CLEC.
- 2.5 "Third Party Terminating Carrier" means a Telecommunications Carrier to which traffic is terminated when CLEC originates traffic that is sent through AT&T-TSP's network using AT&T-TSP's Transit Traffic Service.
- 2.6 "Transit Traffic" means traffic originating on CLEC's network that is switched and transported by AT&T-TSP and delivered to a Third Party Terminating Carrier's network or traffic from a Third Party Originating Carrier's network and delivered to CLEC. A call that is originated or terminated by a CLEC purchasing local switching pursuant to a commercial agreement with AT&T-TSP is not considered Transit Traffic for the purposes of this Exhibit. Additionally Transit Traffic does not include traffic to/from IXCs.
- 2.7 "Transit Traffic MOUs" means all Transit Traffic minutes of use to be billed at the Transit Traffic rate by AT&T-TSP.
- 2.8 "Transit Traffic Service" is an optional switching and intermediate transport service provided by AT&T-TSP for Transit Traffic between CLEC and a Third Party Originating or Terminating Carrier, where CLEC is directly interconnected with an AT&T-TSP's Tandem.

## 3.0 Responsibilities of the Parties

- 3.1 AT&T-TSP will provide CLEC with Transit Traffic Service to all Third Party Terminating Carriers with which AT&T-TSP is interconnected, within the same LATA, or outside of that LATA to the extent a LATA boundary waiver exists.
- 3.2 Transit Traffic Service rates apply to all Transit Traffic that originates on CLEC's network. Transit Traffic Service rates are only applicable when calls do not originate with (or terminate to) an AT&T-TSP End User.

## 4.0 CLEC Originated Traffic

- 4.1 CLEC acknowledges and agrees that it is solely responsible for compensating Third Party Terminating Carriers for

Transit Traffic that CLEC originates. AT&T-TSP will directly bill CLEC for CLEC-originated Transit Traffic. AT&T-TSP will not act as a billing intermediary, i.e., clearinghouse, between CLEC and Third Party Terminating Carriers, nor will AT&T-TSP pay any termination charges to the Third Party Terminating Carriers on behalf of CLEC.

- 4.2 If CLEC originates Transit Traffic destined to a Third Party Terminating Carrier with which CLEC does not have a traffic compensation arrangement, then CLEC will indemnify, defend and hold harmless AT&T-TSP against any and all Losses, including, without limitation, charges levied by such Third Party Terminating Carrier against AT&T-TSP for such Transit Traffic. Furthermore, If CLEC originates Transit Traffic destined for a Third Party Terminating Carrier with which CLEC does not have a traffic compensation arrangement, and a regulatory agency or court orders AT&T-TSP to pay such Third Party Terminating Carrier for the Transit Traffic AT&T-TSP has delivered to the Third Party Terminating Carrier, then CLEC will indemnify AT&T-TSP for any and all Losses related to such regulatory agency or court order, including, but not limited to, Transit Traffic termination charges, interest on such Transit Traffic Termination charges, and any billing and collection costs that AT&T-TSP may incur to collect any of the foregoing charges, interest or costs from CLEC.
- 4.3 CLEC shall be responsible for sending CPN and other appropriate information, as applicable, for calls delivered to AT&T-TSP's network. CLEC shall not strip, alter, modify, add, delete, change, or incorrectly assign or re-assign any CPN. If AT&T-TSP identifies improper, incorrect, or fraudulent use of local exchange services, or identifies stripped, altered, modified, added, deleted, changed, and/or incorrectly assigned CPN, then CLEC agrees to cooperate to investigate and take corrective action. If CLEC is sending CPN to AT&T-TSP, but AT&T-TSP is not receiving proper CPN information, then CLEC will work cooperatively with AT&T-TSP to correct the problem. If AT&T-TSP does not receive CPN from CLEC, then AT&T-TSP cannot forward any CPN to the Third Party Terminating Carrier, and CLEC will indemnify, defend and hold harmless AT&T-TSP from any and all Losses arising from CLEC's failure to include CPN with Transit Traffic that AT&T-TSP delivers to a Third Party Terminating Carrier on behalf of CLEC.
- 4.4 CLEC, when acting as an originating carrier of Transit Traffic, has the sole responsibility for providing appropriate information to identify Transit Traffic to Third Party Terminating Carriers.

## 5.0 CLEC Terminated Traffic

- 5.1 CLEC shall not charge AT&T-TSP when AT&T-TSP provides Transit Traffic Service for calls terminated to CLEC.
- 5.2 Where AT&T-TSP is providing Transit Traffic Service to CLEC, AT&T-TSP will pass the CPN received from the Third Party Originating Carrier to CLEC. If AT&T-TSP does not receive CPN from the Third Party Originating Carrier, then AT&T-TSP cannot forward CPN to CLEC; therefore, CLEC will indemnify, defend and hold harmless AT&T-TSP from any and all Losses arising from or related to the lack of CPN in this situation. If AT&T-TSP or CLEC identifies stripped, altered, modified, added, deleted, changed, and/or incorrectly assigned CPN from a Third Party Originating Carrier, CLEC agrees to cooperate with AT&T-TSP and the Third Party Originating Carrier to investigate and take corrective action. If the Third Party Originating Carrier is sending CPN, but AT&T-TSP or CLEC is not properly receiving the information, then CLEC will work cooperatively with AT&T-TSP and the Third Party Originating Carrier to correct the problem.
- 5.3 CLEC agrees to seek terminating compensation for Transit Traffic directly from the Third Party Originating Carrier. AT&T-TSP is not obligated to pay CLEC for such Transit Traffic, and AT&T-TSP is not to be deemed or considered as the default originator of such Transit Traffic.

## 6.0 Transit Traffic Routing/Trunk Groups

- 6.1 When CLEC has one or more switches in a LATA and it desires to exchange Transit Traffic with Third Parties through AT&T-TSP, CLEC shall trunk to AT&T-TSP Tandems in such LATA pursuant to terms in the network interconnection/network trunking attachment or appendix to this Agreement. In the event CLEC has no switch in a LATA in which it desires to send Transit Traffic through AT&T-TSP, CLEC shall establish one or more POIs within such LATA and trunk from each POI to AT&T-TSP's Tandems in such LATA.
- 6.2 CLEC shall route Transit Traffic to the AT&T-TSP Tandem from which the Third Party Terminating Carrier switch subtends.
- 6.3 Transit Traffic not routed to the appropriate AT&T-TSP Tandem by CLEC shall be considered misrouted. Transit

Traffic routed by CLEC through AT&T-TSP's End Office shall be considered misrouted. Upon written notification from AT&T-TSP of misrouting of Transit Traffic, CLEC will correct such misrouting within sixty (60) days.

6.4 In AT&T ARKANSAS, AT&T CALIFORNIA, AT&T INDIANA, AT&T KANSAS, AT&T MISSOURI, AT&T OHIO, AT&T OKLAHOMA, and/or AT&T TEXAS, the same facilities and trunking (ordering, provisioning, servicing, etc.) used to route Section 251(b)(5) Traffic will be used by AT&T-TSP to route Transit Traffic.

6.5 In AT&T KENTUCKY and/or AT&T NORTH CAROLINA, the same facilities and trunking (ordering, provisioning, servicing, etc.) used for transit trunk groups will be utilized for the routing of Transit Traffic.

## 7.0 Direct Trunking Requirements.

7.1 When Transit Traffic originated by CLEC requires twenty-four (24) or more trunks, upon sixty (60) days written notice from AT&T-TSP, CLEC shall establish a direct trunk group or alternate transit arrangement between itself and the Third Party Terminating Carrier. Once a Trunk Group has been established, CLEC agrees to cease routing Transit Traffic through the AT&T-TSP Tandem to the Third Party Terminating Carrier (described above), unless AT&T-TSP and CLEC mutually agree otherwise.

## 8.0 Transit Traffic Rate Application

8.1 AT&T CALIFORNIA, AT&T INDIANA, and/or, AT&T OHIO only,

8.1.1 The applicable Transit Traffic Service rate applies to all Transit Traffic MOUs. For AT&T CALIFORNIA, AT&T INDIANA, and/or AT&T OHIO, Transit Traffic MOUs include Local and IntraLATA toll minutes of use. CLEC agrees to compensate AT&T CALIFORNIA, AT&T INDIANA and/or AT&T OHIO as a transit service provider for the rate elements at the rate set forth in the Transit Traffic Service Pricing Schedule, Exhibit B.

8.2 AT&T ARKANSAS, AT&T KANSAS, AT&T KENTUCKY, AT&T MISSOURI, AT&T OKLAHOMA, AT&T NORTH CAROLINA, and/or AT&T TEXAS only

8.2.1 The applicable Transit Traffic Service rate applies to all Transit Traffic MOUs. For AT&T ARKANSAS, AT&T KANSAS, AT&T KENTUCKY, AT&T MISSOURI, AT&T OKLAHOMA, AT&T NORTH CAROLINA and/or AT&T TEXAS, Transit Traffic MOUs include Local minutes of use only. CLEC agrees to compensate AT&T ARKANSAS, AT&T KANSAS, AT&T KENTUCKY, AT&T MISSOURI, AT&T OKLAHOMA, AT&T NORTH CAROLINA and/or AT&T TEXAS as a Transit Service Provider for the rate elements at the rate set forth in the Transit Traffic Service Pricing Schedule, Exhibit B.

8.3 AT&T MISSOURI only

8.3.1 Pursuant to the Missouri Public Service Commission Order in Case No. TO-99-483, the Transit Traffic rate elements shall not apply to MCA Traffic (i.e., no transiting charges shall be assessed for MCA Traffic) for AT&T MISSOURI.

8.4 AT&T KENTUCKY and/or AT&T NORTH CAROLINA only

8.4.1 Traffic between CLEC and Wireless Type 1 Third Parties or Wireless Type 2A Third Parties that do not engage in Meet Point Billing with AT&T KENTUCKY and/or AT&T NORTH CAROLINA shall not be treated as Transit Traffic from a routing or billing perspective until such time as such traffic is identifiable as Transit Traffic.

8.4.2 CLEC shall send all IntraLATA toll traffic to be terminated by an independent telephone company to the End User's IntraLATA toll provider and shall not send such traffic to AT&T KENTUCKY and/or AT&T NORTH CAROLINA as Transit Traffic. IntraLATA toll traffic shall be any traffic that originates outside of the terminating independent telephone company's local calling area.

## 1.0 INTRODUCTION

1.1 This Attachment sets forth the rates, terms and conditions under which AT&T-21STATE shall provide Operator Services/Directory Assistance (OS/DA) and Listings.

1.2 OS/DA:

1.2.1 This Attachment sets forth the rates, terms and conditions under which the Parties shall jointly carry out OS/DA on a wholesale basis for CLEC End Users residing in AT&T-21STATE's local Exchange territory, regardless of whether CLEC is serving its End Users via:

1.2.1.1 CLEC's own physical Switches; or

1.2.1.2 Resale of AT&T-21STATE Retail OS/DA service.

1.2.2 CLEC shall be the retail OS/DA provider to its End Users, and AT&T-21STATE shall be the wholesale provider of OS/DA operations to CLEC. AT&T-21STATE shall answer CLEC's End User OS/DA calls on CLEC's behalf, as follows:

1.2.2.1 When the End User dials 0- or 0+ the telephone number, AT&T-21STATE shall provide the Operator Services described in Section 3.4 below. CLEC may set its own retail OS/DA rates, and CLEC therefore acknowledges its responsibility to obtain (a) End User agreement to the OS/DA retail rates (e.g., by tariff or contract), and (b) any necessary regulatory approvals for its OS/DA retail rates.

1.2.2.2 In response to CLEC End User inquiries about OS/DA rates, where available and technically feasible, AT&T-21STATE operators shall quote CLEC retail OS/DA rates, provided by CLEC (see Section 3.6 below). If further inquiries are made about rates, billing and/or other "business office" questions, AT&T-21STATE's OS/DA operators shall direct the calling party's inquiries to a CLEC-provided contact number (also see Section 3.6 below).

1.2.3 CLEC shall pay the applicable OS/DA rates found in the Pricing Sheet based upon CLEC's status as a Facilities-Based CLEC or a reseller. Provided however, CLEC may serve both as a reseller and as a facilities-based provider and CLEC may convert its facilities-based End Users to Resale service, or vice versa, as described below in Section 3.6.7 below.

1.2.3.1 CLEC acknowledges and understands that wholesale OS/DA rates differ between Resale and facilities-based service, and that both types of OS/DA wholesale rates are listed in the Pricing Sheet.

1.2.3.2 Billing and payment details, including the assessment of late payment charges for unpaid balances, are governed by the General Terms and Conditions in this Agreement.

1.3 Listings:

1.3.1 This Attachment sets forth terms and conditions that apply to Resale and Facility-Based CLECs for subscriber listing information provided by AT&T-21STATE.

## 2.0 DEFINITIONS

2.1 "Consolidated Reference Rater (CRR)" provides reference information (business office and repair numbers) and rate quotes for CLEC End Users.

2.2 "Facilities-Based CLEC" means a CLEC that provides service through its own switch or a Third Party provider's switch.

2.3 "General Assistance" means a service in which the End User dialing - 0 asks the OS operator for assistance. The operator will respond in accordance with OS methods and practices that are in effect at the time the End User makes an OS call where available and technically feasible.

- 2.4 “Listings” means information identifying the listed names of subscribers of carriers and subscribers’ telephone numbers, addresses or primary advertising classification or any combination, and that carrier or affiliate has published, caused to be published or accepted for publication in any directory format.
- 2.5 “Services” means Operator Services/Directory Assistance (OS/DA) and Listings.
- 2.6 “Toll Center Code” means the three digit access tandem code (“ATC”) that uniquely identifies a tandem switch in the Local Exchange Routing Guide (LERG) designated as providing access to operator services functions.
- 3.0 **OPERATOR SERVICES (OS) / DIRECTORY ASSISTANCE (DA)**
- 3.1 Dialing Parity:
- 3.1.1 AT&T-21STATE will provide OS/DA to CLEC’s End Users with no unreasonable dialing delays and at dialing parity with AT&T-21STATE retail OS/DA services.
- 3.2 Response Parity:
- 3.2.1 Where available and technically feasible, CLEC’s End Users shall be answered by AT&T-21STATE’s OS and DA platforms with the same priority and using the same methods as for AT&T-21STATE’s End Users.
- 3.2.2 Any technical difficulties in reaching the AT&T-21STATE OS/DA platform (e.g., cable cuts in the OS/DA trunks, unusual OS/DA call volumes, etc.) will be experienced at parity with AT&T-21STATE End Users served via that same AT&T-21STATE End Office Switch.
- 3.3 Requirements to Physically Interconnect:
- 3.3.1 This section describes the physical interconnection and trunking requirements for a Facilities-Based CLEC to interconnect with AT&T-21STATE’s OS/DA switches.
- 3.3.2 The demarcation point for OS/DA traffic between the Parties’ networks need not coincide with the point of interconnection for the physical interconnection of all other inter-carrier voice traffic, but at a minimum must be in the Local Access and Transport Area (LATA) in which the CLEC’s OS/DA traffic originates.
- 3.3.2.1 Because CLEC’s switch may serve End Users in more than one LATA, the Parties agree that CLEC’s OS/DA traffic originates from the physical location of the End User dialing 0, 411, or 555-1212 and not the physical location of CLEC’s switch.
- 3.3.2.2 To the extent CLEC is serving via circuit-switched wireless technology, the physical location of the End User dialing 0, 411, or 555-1212 shall be deemed the End User’s physical billing address, regardless of whether the End User may be roaming at the time of placing the OS/DA call.
- 3.3.3 The Parties will establish an OS/DA demarcation point at the AT&T-21STATE’s OS/DA switch. By mutual agreement, an alternative OS/DA demarcation point may be determined based on the following factors:
- 3.3.3.1 The size and type of facilities needed to carry CLEC’s switch-based OS/DA traffic;
- 3.3.3.2 Whether CLEC wishes to interconnect for OS or DA, or both;
- 3.3.3.3 Whether CLEC or CLEC’s Affiliate is collocated in an AT&T-21STATE local tandem office and wishes to use the collocation as the OS/DA demarcation point; and
- 3.3.3.4 Whether CLEC or CLEC’s Affiliate already has existing OS/DA facilities in place to the AT&T-21STATE’s OS/DA platforms.
- 3.3.4 CLEC shall be financially responsible for the transport facilities to the AT&T-21STATE’s switch(es). CLEC may self-provision these OS/DA facilities, lease them from Third Parties, or lease them from AT&T-21STATE’s intrastate Special Access Tariff. CLEC shall remain financially responsible for the transport facilities to the AT&T-21STATE’s switch(es) and/or any one-way trunk groups from its designated operator assistance and directory assistance (or OA/DA) switch to the AT&T-21STATE operator assistance switch until CLEC initiates and successfully disconnects such transport facilities and/or trunk groups.
- 3.3.5 General OS/DA Trunking Requirements:

- 3.3.5.1 CLEC will initiate an Access Service Request (ASR) for all OS/DA trunk groups from its switch to the appropriate AT&T-21STATE OS/DA switches as a segregated one-way trunk group utilizing Multi-Frequency (MF) signaling. Unless technically infeasible, AT&T-21STATE will provision all such one-way trunk groups in the same manner and at the same intervals as for all other interconnection trunks between the Parties.
- 3.3.5.2 CLEC will employ Exchange Access Operator Services Signaling (EAOSS) from the AT&T-21STATE End Offices to the AT&T-21STATE OS/DA switches that are equipped to accept 10-Digit Signaling for Automatic Number Identification (ANI).
- 3.3.5.3 Where EAOSS is not available, Modified Operator Services Signaling (MOSS) will be utilized, and a segregated one-way trunk group with MF signaling will be established from CLEC to each AT&T-21STATE OS/DA switch for each served Numbering Plan Area (NPA) in the LATA.
- 3.3.6 Specific OS/DA Trunk Groups and Their Requirements
  - 3.3.6.1 Operator Service Trunks:
    - 3.3.6.1.1 CLEC shall establish a one-way trunk group from CLEC's switch to the AT&T-21STATE OS switch serving OS End Users in that LATA. An OS only trunk group will be designated with the appropriate OS traffic use code and modifier. If the trunk group transports combined OS/DA/DACC over the same trunk group, then the group will be designated with a different traffic use code and modifier for combined services. CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.
  - 3.3.6.2 DA/DA Call Completion (DACC) Trunks:
    - 3.3.6.2.1 Where permitted, CLEC shall establish a one-way trunk group from CLEC's switch to the AT&T-21STATE DA switch serving DA End Users in that LATA. If the trunk group transports DA/DACC only, but not OS, then the trunk group will be designated with the appropriate DA traffic use code and modifier.
    - 3.3.6.2.2 In AT&T-12STATE, if OS/DA/DACC is transported together on a combined trunk group, then the group will be designated with a different appropriate traffic use code and modifier from that used for a DA/DACC only trunk group. CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.
    - 3.3.6.2.3 In AT&T SOUTHEAST REGION 9-STATE, if OS/DA/DACC is transported together on a combined trunk group, then the group will be designated with an appropriate traffic use code and modifier. CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.
- 3.4 Operator Services Call Processing and Rates:
  - 3.4.1 AT&T-21STATE will assess its OS charges based upon whether the CLEC End User is receiving (a) manual OS (i.e., provided via an operator), or (b) automated OS (i.e., an OS switch equipment voice recognition feature, functioning either fully or partially without operators where available and technically feasible). The Pricing Sheet contains the full set of OS recurring and nonrecurring rates.
  - 3.4.2 AT&T-21STATE will provide OS to CLEC End Users where available and technically feasible to AT&T-21STATE End Users served in accordance with OS methods and practices in effect at the time the CLEC End User makes an OS call.
- 3.5 Directory Assistance Call Processing and Rates:
  - 3.5.1 AT&T-21STATE DA charges are assessed on a flat rate per call, regardless of call duration. The Pricing Sheet contains the recurring and nonrecurring rates.
  - 3.5.2 AT&T-21STATE will provide DA Services to CLEC End Users where available and technically feasible to AT&T-21STATE End Users served in accordance with DA Services methods and practices that are in effect

at the time CLEC End User makes a DA call. AT&T-21STATE will provide the following DA services to a CLEC End User:

- 3.5.2.1 Local Directory Assistance - Consists of providing published name and telephone number.
- 3.5.2.2 Directory Assistance Call Completion (DACC) - A service in which a local or an intraLATA call to the requested number is completed.
- 3.5.2.3 National Directory Assistance (NDA) - A service whereby callers may request published name and telephone number outside their LATA or local calling area for any listed telephone number in the United States.
- 3.5.2.4 Reverse Directory Assistance (RDA) - Consists of providing listed local and national name and address information associated with a telephone number.
- 3.5.2.5 Business Category Search (BCS) - A service whereby callers may request business telephone number listings for a specified category of business, when the name of the business is not known. Telephone numbers may be requested for local and national businesses.

### 3.6 OS/DA Non-recurring Charges for Loading Automated Call Greeting (i.e., Brand Announcement), Rates and Reference Information:

- 3.6.1 CLEC End Users will hear silence upon connecting with the OS/DA switch. As an alternative to silence, CLEC may custom brand for which custom brand charges will apply.
  - 3.6.1.1 CLEC will provide announcement phrase information, via Operator Services Translations Questionnaire (OSTQ), to AT&T-21STATE in conformity with the format, length, and other requirements specified for all CLECs on the AT&T CLEC Online website.
  - 3.6.1.2 AT&T-21STATE will then perform all of the loading and testing of the announcement for each applicable OS/DA switch prior to live traffic. CLEC may also change its pre-recorded announcement at any time by providing a new announcement phrase in the same manner. CLEC will be responsible for paying subsequent loading and testing charges.
  - 3.6.1.3 CLEC understands that End Users may not perceive silent announcements as ordinary mechanical handling of OS/DA calls.
  - 3.6.1.4 CLEC agrees that if it does not brand the call, CLEC shall indemnify and hold AT&T-21STATE harmless from any regulatory violation, consumer complaint, or other sanction for failing to identify the OS/DA provider to the dialing End User.
- 3.6.2 AT&T-21STATE will be responsible for loading the CLEC provided recording into all applicable OS and/or DA switches prior to live traffic, testing the announcement for sound quality at parity with that provided to AT&T-21STATE End Users. CLEC will be responsible for paying the initial recording announcement loading charges, and thereafter, the per-call charge as well as any subsequent loading charges if new recordings or silent announcements are provided as specified above.
- 3.6.3 Branding load charges are assessed per loaded recording, per OCN, per switch. For example, a CLEC Reseller may choose to brand under a different name than its facilities-based operations, and therefore two separate recordings could be loaded into each switch, each incurring the branding or silent load charge. These charges are mandatory, nonrecurring, and are found in the Pricing Sheet.
- 3.6.4 Where Consolidated Reference Rater ("CRR") is available and technically feasible, the applicable CLEC-charged retail OS/DA rates and a CLEC-provided contact number (e.g., reference to a CLEC business office or repair center) are loaded into the system utilized by the OS operator.
- 3.6.5 Where CRR is available and technically feasible, AT&T-21STATE will be responsible for loading the CLEC-provided OS/DA retail rates and the CLEC provided contact number(s) into the OS/DA switches. CLEC will be responsible for paying the initial reference and rate loading charges.

- 3.6.6 CRR load charges are assessed per loaded set of rates/references, where CRR is available and technically feasible, per OCN, per state. For example, a CLEC reseller may choose to rate differently than its Facilities-Based CLEC operations, or may change its rates/references during the life of the contract, and therefore separate sets of rates/references could be loaded for each OCN, per state, with each loading incurring the rate/reference charge. These charges are mandatory, nonrecurring and are found in the Pricing Sheet.
- 3.6.7 Converting End Users from prior branded service to CLEC or silent-branded service, or between Resale and facilities-based service:
- 3.6.7.1 To the extent that CLEC has already established the branding/silent announcement recording in AT&T-21STATE OS/DA switches for both Resale and facilities-based service, then no non-recurring charges apply to the conversion of End Users from prior Resale OS/DA wholesale service to facilities-based OS/DA wholesale service, or vice versa.
- 3.6.7.2 To the extent that CLEC has not established the branding announcement recording in AT&T-21STATE OS/DA switches for Resale and/or facilities-based service, then non-recurring charges apply to set up the OS/DA call for the new type of service, as is described in Section 3.6 above, and at the rates set forth in the Pricing Sheet.

## 4.0 LISTINGS

### 4.1 General Provisions:

- 4.1.1 Subject to AT&T-21STATE's practices, as well as the rules and regulations applicable to the provision of listings, AT&T-21STATE will make available to CLEC, for CLEC End Users, non-discriminatory access to listings, as described herein.
- 4.1.2 AT&T-21STATE will meet state requirements to make available listings through itself or a contracted vendor to provide listings for its ILEC Territory, as defined in the General Terms and Conditions of this Agreement.

### 4.2 Responsibilities of the Parties:

- 4.2.1 Subject to AT&T-21STATE's practices, as well as the rules and regulations applicable to the provision of white page directories, AT&T-21STATE will include in appropriate white pages directories the primary alphabetical listings of CLEC End Users located within the AT&T-21STATE ILEC Territory. When CLEC provides its subscriber listing information to AT&T-21STATE listings database, CLEC will receive for its End User, one primary listing in AT&T-21STATE white pages directory and a listing in AT&T-21STATE's DA database at no charge, other than applicable service order charges as set forth in the Pricing Sheet.
- 4.2.1.1 Except in the case of a Local Service Request (LSR) submitted solely to port a number from AT&T SOUTHEAST REGION 9-STATE, if such listing is requested on the initial LSR associated with the request for services, a single manual service order charge or electronic service order charge, as appropriate, will apply to both the request for service and the request for the directory listing. Where a subsequent LSR is placed solely to request a directory listing, or is placed to port a number and request a directory listing, separate service order charges as set forth in AT&T-21STATE's tariffs shall apply, as well as the manual service order charge or the electronic service order charge, as appropriate.
- 4.2.1.2 Listing Information Confidentiality:
- 4.2.1.2.1 AT&T-21STATE will afford CLEC's directory listing information the same level of confidentiality that AT&T-21STATE affords its own directory listing information.
- 4.2.1.3 Unlisted/Non-Published End Users:
- 4.2.1.3.1 CLEC will provide to AT&T-21STATE the names, addresses and telephone numbers of all CLEC End Users who wish to be omitted from directories. Non-listed/Non-Published listings will be subject to the rates as set forth in AT&T-21STATE's tariffs and/or service guidebooks. AT&T-21STATE does not provide a resale discount for any listings.

#### 4.2.1.4 Additional Listings:

4.2.1.4.1 Where a CLEC End User requires listings in addition to the primary listing to appear in the white pages directory, AT&T-21STATE will offer such listings at rates as set forth in AT&T-21STATE's tariffs and/or service guidebooks. AT&T-21STATE does not provide a resale discount for any listings. CLEC shall furnish to AT&T-21STATE subscriber listing information pertaining to CLEC End Users located within the AT&T-21STATE ILEC Territory, along with such additional information as AT&T-21STATE may be required to include in the alphabetical listings of said directory. CLEC shall refer to the AT&T CLEC Online website for methods, procedures and ordering information.

4.2.2 CLEC will provide accurate subscriber listing information of its subscribers to AT&T-21STATE via a mechanized feed of the directory listing information to AT&T-21STATE's Directory Listing database. CLEC agrees to submit all listing information via a mechanized process within six (6) months of the Effective Date of this Agreement, or upon CLEC reaching a volume of two hundred (200) listing updates per day, whichever comes first. CLEC's subscriber listings will be interfiled (interspersed) in the directory among AT&T-21STATE's subscriber listing information. CLEC will submit listing information within one (1) business day of installation, disconnection or other change in service (including change of non-listed or non-published status) affecting the DA database or the directory listing of a CLEC End User. CLEC must submit all listing information intended for publication by the directory close (a/k/a last listing activity) date.

#### 4.2.3 Distribution of Directories:

4.2.3.1 Subject to AT&T-21STATE's practices, as well as the rules and regulations applicable to the provision of white page directories, each CLEC subscriber may receive one copy per primary End User listing, as provided by CLEC, of the appropriate AT&T-21STATE white pages directory in the same manner, format and at the same time that they are delivered to AT&T-21STATE's subscribers.

4.2.4 AT&T-21STATE shall direct its publishing vendor to offer CLEC the opportunity to include in the "Information Pages", or comparable section of its white pages directories (covering the territory where CLEC is certified to provide local service), information provided by CLEC for CLEC installation, repair, customer service and billing information.

#### 4.2.5 Use of Subscriber Listing Information:

4.2.5.1 Subject to AT&T-21STATE's practices, as well as the rules and regulations applicable to the provision of white page directories, AT&T-21STATE agrees to serve as the single point of contact for all independent and Third Party directory publishers who seek to include CLEC's subscriber (i.e., End User) listing information in an area directory, and to handle the CLEC's subscriber listing information in the same manner as AT&T-21STATE's subscriber listing information. In exchange for AT&T-21STATE serving as the single point of contact and handling all subscriber listing information equally, CLEC authorizes AT&T-21STATE to include and use the CLEC subscriber listing information provided to AT&T-21STATE DA databases, and to provide CLEC subscriber listing information to directory publishers. Included in this authorization is release of CLEC listings to requesting competing carriers as required by Section 271(c)(2)(B)(vii)(II) and Section 251(b)(3) and any applicable state regulations and orders. Also included in this authorization is AT&T-21STATE's use of CLEC's subscriber listing information in AT&T-21STATE's DA, DA related products and services, and directory publishing products and services.

4.2.5.2 AT&T-21STATE further agrees not to charge CLEC for serving as the single point of contact with independent and Third Party directory publishers, no matter what number or type of requests are fielded. In exchange for the handling of CLEC's subscriber list information to directory publishers, CLEC agrees that it will receive no compensation for AT&T-21STATE's receipt of the subscriber list information or for the subsequent release of this information to directory publishers. Such CLEC subscriber list information shall be interfiled (interspersed) with AT&T-21STATE's subscriber

list information and the subscriber list information of other companies that have authorized a similar release of their subscriber list information by AT&T-21STATE.

- 4.2.6 CLEC further agrees to pay all costs incurred by AT&T-21STATE and/or its Affiliates as a result of CLEC not complying with the terms of this Attachment.
- 4.2.7 This Attachment shall not establish, be interpreted as establishing, or be used by either Party to establish or to represent their relationship as any form of agency, partnership or joint venture.
- 4.2.8 Breach of Contract:
  - 4.2.8.1 If either Party is found to have materially breached the Listings terms of this Attachment, the non-breaching Party may terminate the Listings terms of this Attachment by providing written Notice to the breaching Party, whereupon this Attachment shall be null and void with respect to any issue of white pages directory published sixty (60) or more calendar days after the date of receipt of such written Notice. CLEC further agrees to pay all costs incurred by AT&T-21STATE and/or its Affiliates and vendor as a result of such CLEC breach.
- 4.2.9 General Conditions for Listings:
  - 4.2.9.1 Notwithstanding the foregoing, AT&T-21STATE reserves the right to suspend, modify or terminate, without penalty, any Listings Service offerings that are provided under this Attachment on ninety (90) days' written notice in the form of an Accessible Letter.
  - 4.2.9.2 CLEC shall be solely responsible for any and all legal or regulatory requirements for the modification or discontinuance of Listings products and/or services to CLEC End Users under this Section.

## 5.0 GENERAL CONDITIONS FOR OPERATOR SERVICES (OS), DIRECTORY ASSISTANCE (DA)

- 5.1 Notwithstanding the foregoing, AT&T-21STATE reserves the right to suspend, modify or terminate, without penalty, any OS and/or DA feature of Service(s) offerings that are provided under this Attachment on one hundred eighty (180) days' written notice in the form of an Accessible Letter.
- 5.2 Termination:
  - 5.2.1 If the CLEC terminates OS and/or DA service prior to the expiration of the term of this Agreement, CLEC shall pay AT&T-21STATE, within thirty (30) calendar days of the issuance of any bills by AT&T-21STATE, all amounts due for actual services provided under this Attachment, plus estimated monthly charges for the remainder of the term. Estimated charges will be based on an average of the actual monthly amounts billed by AT&T-21STATE pursuant to this Attachment prior to its termination. The rates applicable for determining the amount(s) under the terms outlined in this Section are those specified in the Pricing Sheet.
- 5.3 CLEC shall be solely responsible for any and all legal or regulatory requirements for the modification or discontinuance of OS and/or DA products/services to CLEC End Users under this Attachment.

## 6.0 TERMINATION – ENTIRE ATTACHMENT 06 – OPERATOR ASSISTANCE AND DIRECTORY ASSISTANCE SERVICES

- 6.1 The Parties reserve the right to suspend or terminate, without penalty, this Attachment in its entirety on one hundred eighty (180) days' written notice. The Attachment will be coterminous with the ICA or will continue until the Party desiring to terminate this Attachment provides one hundred eighty (180) days' written Notice to the other Party of the date the Attachment will terminate ("Termination Date"), whichever date is earlier.

**AMENDMENT TO THE AGREEMENT  
BETWEEN  
EARTHLINK BUSINESS, LLC  
AND  
BELLSOUTH TELECOMMUNICATIONS, LLC D/B/A AT&T FLORIDA**

This Amendment (the "Amendment") amends the Interconnection Agreement by and between BellSouth Telecommunications, LLC d/b/a AT&T FLORIDA ("AT&T FLORIDA") and Earthlink Business, LLC ("CLEC"). AT&T FLORIDA and CLEC are hereinafter referred to collectively as the "Parties" and individually as a "Party".

WHEREAS, AT&T FLORIDA and CLEC are parties to an Interconnection Agreement under Sections 251 and 252 of the Communications Act of 1934, as amended (the "Act"), approved June 10, 2010 and as subsequently amended (the "Agreement"); and

WHEREAS, the Parties desire to add provisions related to Microwave Entrance Facility Collocation Service.

1. The Amendment is composed of the foregoing recitals, the terms and conditions, Exhibit A, contained within, all of which are hereby incorporated within this Amendment by this reference and constitute a part of this Amendment.
2. The Parties agree to add the Microwave Entrance Facilities-Collocation Attachment, attached hereto as Exhibit A, to the Agreement.
3. There shall be no retroactive application of any provision of this Amendment prior to the Effective Date of an adopting CLEC's agreement.
4. This Amendment shall be deemed to revise the terms and provisions of the Agreement only to the extent necessary to give effect to the terms and provisions of this Amendment. In the event of a conflict between the terms and provisions of this Amendment and the terms and provisions of the Agreement (including all incorporated or accompanying Appendices, Addenda, and Exhibits to the Agreement), this Amendment shall govern, provided, however, that the fact that a term or provision appears in this Amendment but not in the Agreement, or in the Agreement but not in this Amendment, shall not be interpreted as, or deemed grounds for finding, a conflict for purposes of this Amendment.
5. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.
6. Signatures by all Parties to this Amendment are required to effectuate this Amendment. This Amendment may be executed in counterparts. Each counterpart shall be considered an original and such counterparts shall together constitute one and the same instrument.
7. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement.
8. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
9. This Amendment shall be filed with and is subject to approval by the State Commission and shall become effective after both Parties' final authorizing signatures have been affixed to this Amendment (the "Effective Date"). AT&T FLORIDA and CLEC have agreed to make this amendment effective upon the signature of both parties as this is a result of a Force Majeure event due to the fact that the provisions being amended to the underlying ICA(s) are pre-requisites for the network restoration activities CLEC is undertaking in northwestern Florida to restore service to customers impacted by Hurricane Michael.

## 1.0 Introduction

- 1.1 This Attachment sets forth the terms and conditions applicable to AT&T-21STATE and CLEC for Microwave Entrance Facility collocation service (also referred to herein as "Microwave Entrance Facilities"). All requirements in the General Terms and Conditions and Attachment Collocation of this Interconnection Agreement also apply to Microwave Entrance Facility Collocation.
- 1.2 CLEC's Microwave Entrance Facilities. A description of CLEC's Microwave Entrance Facilities including all necessary specifications for the placement and operation of such Microwave Entrance Facilities, which may include radio frequency transmitting and receiving equipment, transmission lines, radio frequency transmitting and receiving antennae, supporting structures and other appurtenant and necessary equipment to be placed on the Premises is agreed to by the parties as described in 5.0 below of the Microwave Attachment. Entrance facilities are dedicated transmission facilities that connect ILEC and CLEC locations. Specifically, these locations must be either wire centers or switches.
- 1.3 As used herein, AT&T-21STATE ("AT&T-21STATE") means the applicable ILEC(s) from the following list: BellSouth Telecommunications, LLC, d/b/a AT&T Alabama, and/or AT&T Florida and/or, AT&T Georgia, and/or AT&T Kentucky, and/or AT&T Louisiana, and/or AT&T Mississippi and/or AT&T North Carolina and/or AT&T South Carolina and/or AT&T Tennessee; Illinois Bell Telephone Company, LLC d/b/a AT&T Illinois; Indiana Bell Telephone Company Incorporated d/b/a AT&T Indiana; Michigan Bell Telephone Company d/b/a AT&T Michigan; Nevada Bell Telephone Company d/b/a AT&T Nevada; The Ohio Bell Telephone Company d/b/a AT&T Ohio; Pacific Bell Telephone Company d/b/a AT&T California; Southwestern Bell Telephone Company d/b/a AT&T Arkansas, AT&T Kansas, AT&T Missouri, AT&T Oklahoma and/or AT&T Texas; and/or Wisconsin Bell, Inc. d/b/a AT&T Wisconsin.
- 1.4 As used herein, CLEC means a telecommunications carrier requesting collocation pursuant to section 251(c)(6) of the Telecommunications Act of 1996.
- 1.5 The prices at which AT&T-21STATE agrees to provide CLEC with Microwave Entrance Facility will be ICB or NSCR for Arkansas, California, Illinois, Indiana, Kansas, Michigan, Missouri, Nevada, Ohio, Oklahoma, Texas, Wisconsin, Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and/or Tennessee until such time as costs and permanent cost-based rates may be determined by AT&T-21STATE.

## 2.0 Description

- 2.1 AT&T will permit physical collocation of microwave transmission facilities, except where not practical for technical reasons or because of space limitations, in which case virtual collocation of such facilities is allowed where technically practical and there is sufficient available space. Use of such Microwave Entrance Facility equipment is only available for the purpose of accessing AT&T-21STATE's UNEs or interconnecting to AT&T-21STATE's network, pursuant to Sec. 251 of the Telecommunication Act of 1996, through use of CLEC's physical collocation arrangement in AT&T-21STATE's central office. AT&T-21STATE will permit the collocation and use of microwave equipment necessary for interconnection or access to UNEs.

## 3.0 Application Process

- 3.1 All requests for Microwave Entrance Facilities will be treated as an initial or new request. CLEC must submit an Initial Application along with the Initial Application fees, line of site survey and roof inspection when requesting the placement of Microwave Entrance Facilities equipment at an AT&T-21STATE premises. CLEC shall submit an initial physical collocation application requesting to use Microwave Entrance Facilities for each AT&T-21STATE premises that CLEC seeks to use Microwave Entrance Facilities in conjunction with its physical collocation arrangement located in the same AT&T-21STATE premises.
- 3.2 If AT&T-21STATE concludes that Microwave Entrance Facilities are not practical for technical reasons or because of lack of available space for a rooftop or other suitable exterior space at an AT&T-21STATE premises requested by CLEC, AT&T-21STATE will provide CLEC with a written explanation of such technical or space impracticability according to the Application response interval, or in accordance with an agreed upon interval negotiated by the Parties. AT&T-21STATE's explanation of technical impracticability may include, without limitation, AT&T-21STATE's known business

plans to construct an addition or modification to or on the building, which would impact the line of sight required for Microwave Entrance Facilities.

#### 4.0 Method of Provisioning

- 4.1 Except where not practical for technical reasons or because of space limitations at AT&T-21STATE's discretion, the following method for providing space for CLEC's microwave transmission entrance facilities will be made available to CLEC. CLEC now, or in the future may utilize other FCC licensed frequency bands it is authorized to use to provide the same services as herein described. Where a list of AT&T-21STATE's Tier 1 approved suppliers (Supplier) is available, CLEC must select the Supplier(s) to provide the necessary work for the Microwave Collocation arrangement. AT&T shall consider certifying any supplier proposed by CLEC if AT&T determines in its sole discretion that it does not already have all the Tier 1 approved suppliers that are needed. When CLEC is using an AT&T-21STATE Tier 1 approved vendor, such monitoring and/or supervising will be the minimal required to ensure that all work contracted by CLEC will comply with AT&T-21STATE's nondiscriminatory practices and procedures.
- 4.2 Pre-Construction Site Visit to Determine Line of Sight: CLEC will submit a Pre-Construction Site Visit Request Form and pay the associated fees that are outlined in the Pre-Construction Site Visit Request Form and Non Disclosure Agreement that goes along with the Pre-Construction Site Visit Request Form. These documents are located on the AT&T CLEC Online website. The purpose of this Pre-Construction Site Visit is for CLEC to determine Line of Sight prior to the submission of an application for the AT&T-21STATE premises for which CLEC intends to request Microwave Entrance Facility collocation service. The Pre Construction Site Visit Request Form will set forth the name(s) of the AT&T-21STATE premises that CLEC wishes to visit for the purpose of determining the potential for placing Microwave Entrance Facilities at this location. The Pre-Construction Site Visit will take place within ten (10) Calendar days of AT&T-21STATE's receipt of CLEC's Pre-Construction Site Visit Request Form to determine line of sight document or as soon thereafter as agreed to by the Parties. The Pre-Construction Site Visit will consist of CLEC's representative(s) and appropriate mutually agreed AT&T-21STATE personnel visiting an AT&T-21STATE premises for the purpose of CLEC determining whether an unobstructed line of sight is technically feasible from the rooftop or other suitable exterior space of the AT&T-21STATE premises. Such Pre-Construction Site Visit(s) will not obligate CLEC to request, or AT&T-21STATE to provide, Microwave Entrance Facilities at a particular AT&T-21STATE premises. When CLEC submits an application for physical collocation, which includes a request for Microwave Entrance Facilities, AT&T-21STATE will determine the feasibility and technical practicality of installing microwave equipment for the particular AT&T-21STATE premises requested based on the information provided by CLEC in the application submitted to AT&T-21STATE. If any travel expenses are incurred, CLEC will be charged for the time AT&T employees spend traveling and will be based on fifteen minute increments. CLEC will be charged for the reasonable costs incurred by AT&T-21STATE for travel, if required, to each Pre-Construction Site Visit requested by CLEC according to the terms and conditions on the Pre-Construction Site Visit Request Form. CLEC will be responsible for providing the bi-directional un-obstructive line of sight or any other industry standard method to determine the line of site.
- 4.3 Pre-Construction Permitting Review Charge: The Pre-Construction Permitting Review Charge shall equal the sum of the hourly charges for AT&T-21STATE's personnel and/or the AT&T-21STATE's Supplier(s) employed by AT&T-21STATE, whose time is spent reasonably reviewing any permitting materials that will be used by CLEC to obtain any necessary permits for the placement of the requested Microwave Entrance Facilities. AT&T-21STATE shall have final approval authority on all proposed conditions or those additional conditions imposed by relevant federal, state, or local jurisdictional authorities. AT&T-21STATE shall have the right to be represented at all hearings in connection with any governmental approvals sought by CLEC in regard to the placement of Microwave Entrance Facilities at AT&T-21STATE premises. The fee for AT&T-21STATE or AT&T-21STATE's Suppliers to reasonably review the permitting materials that will be used by CLEC to obtain the necessary permits for the placement of Microwave Entrance Facilities which includes without limitation all associated travel costs incurred by AT&T-21STATE, shall be assessed as an ICB charge that will be billed by AT&T-21STATE at the time CLEC submits its collocation application requesting Microwave Entrance Facilities.
- 4.4 Structural Analysis. After CLEC has completed its Pre-Construction Site Visit to requested AT&T-21STATE premises to determine line of sight, but prior to the submission of an application for physical collocation with Microwave Entrance Facilities, CLEC must, at its sole expense, provide a structural analysis to AT&T-21STATE. If CLEC, or CLEC's AT&T-

21STATE Tier 1 approved supplier, has determined that a Pre-Construction Site Visit is necessary to perform the structural analysis, CLEC will submit a Pre-Construction Site Visit Request Form to AT&T-21STATE prior to the submission of an application for physical collocation within the AT&T-21STATE premises, indicating the name(s) of the AT&T-21STATE premises that CLEC requests it be permitted to visit for the purpose of performing a structural analysis for the potential placement of Microwave Entrance Facilities. This Pre-Construction Site Visit will be scheduled and conducted in accordance with the same procedures that are contained above in Section 4.2 above, when CLEC requests a Pre-Construction Site Visit to determine line of sight.

4.4.1 If CLEC's AT&T-21STATE Tier 1 approved supplier is able to perform the structural analysis without visiting the requested AT&T-21STATE premises, no fee for the Pre-Construction Site Visit Request to perform structural analysis will be assessed to CLEC by AT&T-21STATE.

4.4.2 A copy of the structural analysis must be submitted with the application for physical collocation when Microwave Entrance Facilities are requested, before AT&T-21STATE will process the collocation application for Microwave Entrance Facilities.

4.5 Roof Inspection. AT&T-21STATE may require a roof inspection at any AT&T-21STATE Premises where CLEC requests Microwave Entrance Facilities in conjunction with a physical collocation arrangement within the same AT&T-21STATE premises. A roof inspection is inclusive of all aspects of the roof environment, including but not limited to the roof itself, walls, parapets, appurtenances, drainage, conduits, grounds, platforms, and other mechanical devices located thereon and will be conducted at the same time as the initial preconstruction site visit. CLEC will bear the cost of the inspection, including any travel costs incurred by AT&T-21STATE, as specified in 4.2 above. AT&T-21STATE will use an AT&T-21STATE approved supplier to perform this inspection. At AT&T-21STATE's discretion, AT&T-21STATE's personnel may accompany the AT&T-21STATE approved supplier. AT&T will limit the AT&T employees accompanying the AT&T-21STATE approved supplier to AT&T employees from the local area, unless otherwise mutually agreed upon in advance. The fees associated with the Pre-Construction Site Visit for the roof inspection, must be received by AT&T-21STATE prior to the time CLEC submits its Collocation Application for Microwave Entrance Facilities. Such roof inspection shall not obligate AT&T-21STATE to allow Microwave Entrance Facilities at a particular AT&T-21STATE's premises.

4.6 In addition, in each instance where a microwave entrance facility is requested by CLEC, a separate, Joint Implementation Agreement (JIA) specifying requirements for each request will be completed and executed by CLEC and AT&T-21STATE within thirty (30) days of receiving an application for Microwave Entrance Facilities. Such JIA will be completed using AT&T's template and will provide for specifics relating to, but not limited to, the responsibilities of AT&T-21STATE and CLEC for the specific microwave entrance facility request and the engineering and construction requirements specific to the placement of the selected microwave equipment and the cabling between such equipment and CLEC's existing collocation equipment in the Central Office, as well as any specific requirements needed by either Party as result of CLEC's election for a certain type and/or manufacturer of microwave equipment and the method selected as discussed below. Parties will mutually agree on the JIA before execution. If Parties cannot agree to the requirements specified in the JIA within ninety (90) days, disputes will be handled according to the dispute Resolution language in the underlying Interconnection Agreement ("Agreement"). The Microwave equipment selected by CLEC must be compliant with 5.0 below. CLEC must provide to AT&T-21STATE a copy of a Structural Analysis Report on an existing or proposed new antenna support structure (tower) which will be used to support CLEC's antenna(e) and waveguide attachments. The CLEC must provide to AT&T-21STATE for review and approval prior to installation of RF emission devices (antennas) documentation, including a copy of the RF Compliance study, that general population exposure limits met the RF Exposure Guidelines specified in OET Bulletin 65 for the location(s) of their proposed antenna installation.

4.7 The CLEC is responsible for compliance with all FCC and FAA rules applicable to the registration and maintenance of their antenna structures constructed on the ground or on the roof of an AT&T-21STATE building. The CLEC must file for an FAA determination, if required, and is responsible for registering the structure with the FCC if required. A valid FCC Tower Registration must be provided to AT&T-21STATE prior to the commencement of any antenna structure construction. The CLEC is responsible for any lighting and painting of the structure specified by the FCC and must comply with all applicable rules and regulations. The tower must be inspected and maintained in good condition by

CLEC. The CLEC is responsible for removing the antenna structure at the end of their contract and must file for a cancellation of the FCC Tower Registration.

- 4.8 CLEC is responsible for providing AT&T-21STATE with a copy of the FCC license for the designated spectrum with their physical collocation application(s). Once CLEC's microwave equipment has been placed, a copy of such license will be posted in an appropriate location. All AT&T-21STATE safety standards shall apply to the microwave entrance facility and associated antenna(e).

4.9 AT&T-21STATE Tower/Structure

- 4.9.1 Where space is available and where technically practical, AT&T-21STATE will provide CLEC with antenna mounting space on the AT&T-21STATE microwave tower or support structure where CLEC's physical collocation arrangement is located, if such tower or support structure exists and has sufficient space. A reasonable, cost-based monthly recurring charge will apply for use of this mounting space. If there is no existing support structure, and space is available and it is technically practical to construct such a structure, the structure shall be constructed at CLEC's expense.

- 4.9.1.1 Work performed on behalf of CLEC by an AT&T-21STATE Tier 1 approved supplier does not absolve CLEC from the overall responsibility for the installation, maintenance, repair and removal of all of its microwave equipment. CLEC is also responsible for the removal of its equipment and returning the property to its original condition within sixty (60) days of termination of use of the microwave entrance facility. If CLEC does not perform the removal and restoration by the end of sixty (60) days, AT&T-21STATE may remove the equipment and restore the property at CLEC's expense on a time and materials basis.

- 4.9.1.1.1 AT&T-21STATE reserves the right to control the roof penetration activity, on a case by case basis.

- 4.9.1.2 If CLEC chooses to personally secure its equipment, it must first submit a proposal and design for AT&T-21STATE's approval.

- 4.9.1.3 Where AT&T-21STATE has provided CLEC a physical collocation arrangement within the eligible structure, CLEC's radio equipment will be located in CLEC's dedicated physical collocation arrangement. AT&T-21STATE will allow physical collocation of CLEC's equipment associated with its Microwave Entrance Facility on an ICB basis until such time as costs and permanent rates based upon those costs may be determined by AT&T-21STATE.

- 4.9.1.4 CLEC is responsible for obtaining all permits and licenses required for the use of microwave equipment, and must furnish the documents to the Collocation Service Center (CSC) at the time they submit their collocation application. AT&T-21STATE must receive all copies of the required permits and license applications or grants pending before the applicable regulatory bodies, before AT&T-21STATE will allow CLEC to install their microwave equipment. In the event the required licenses, if applicable, are not obtained by CLEC, all work activity must be discontinued and CLEC's equipment must be removed from the AT&T-21STATE's property at CLEC's expense. Mitigating circumstances will be evaluated on a case by case basis.

5.0 Equipment

- 5.1 CLEC is responsible for providing a list of all microwave equipment to be installed to AT&T-21STATE with the application to use microwave as the transmission media to connect to a physical collocation arrangement. The microwave equipment selected by CLEC must meet NEBS Level 1 specifications and be installed in accordance with TP76300 and TP76400 guidelines. These documents are located on the AT&T CLEC Online website. Requests for subsequent microwave equipment installation must be provided by CLEC in the identical manner as all subsequent

requests for equipment to be placed in collocation arrangements. All requests for microwave equipment will follow existing Equipment Review process and CLEC will submit an Equipment Review Request Form (ERRF).

5.2 CLEC retains title to all microwave equipment installed pursuant to this Attachment Microwave.

## 6.0 Liability

6.1 To the extent not previously covered by the applicable interconnection agreements, each Party will be responsible for any and all direct damages resulting from any harm to AT&T-21STATE or other CLEC's rooftop equipment or roof environment (as described in section 4.4) which is the direct result of its own activity on the rooftop of the Premises, including CLEC's installation, operation, or maintenance or AT&T-21STATE's inspection of the microwave and related equipment on the rooftop of the premises and as set forth in 5.1 above ("Equipment") of this Attachment, or due to the actions or inaction, willful, or negligent, of the Party's own employees, suppliers, or contractors in connection with activity on the rooftop of the Premises.

## 7.0 Additional Terms and Conditions

7.1 In addition to other information required by this Attachment, CLEC requesting microwave collocation will provide upon request, the following information before AT&T-21STATE can consider CLEC's application for such collocation:

7.1.1 The specific types of equipment CLEC proposes to collocate in and on the CO, including but not limited to equipment discussed in 4.1 above and other sections of this Attachment.

7.1.2 A description and diagram of how CLEC proposes to use the microwave collocation arrangement, including the Z location(s) and the equipment proposed to be collocated in and for the provision of service. This information must include whether, and if so how, the arrangement, including the Z location(s) and equipment, will be used in and for interconnection of CLEC's network to the AT&T-21STATE ILEC's network for the transmission and routing of telephone exchange service or exchange access or in and for access to the AT&T-21STATE ILEC's Unbundled Network Elements (UNEs) for the provision of telecommunications service. See also Sections 2.1 above, 3.1 above, 4.1 above, and other sections of this Attachment.

7.1.3 Information that enables AT&T-21STATE to confirm that the Z location(s) are part of CLEC's network as opposed to customer location. CLEC may provide one of the following: the azimuth and antennae location information, a description of the actual Z location(s) itself, or other mutually agreed upon information.

## 8.0 Premises

8.1 Attachment and Premises. CLEC will be required to execute a separate Attachment in the form of Exhibit 1 that identifies the AT&T-21STATE Premises, which is attached hereto and incorporated hereby, and site drawings of the roof which reference the location of the antenna and conduit work associated with the placement of the Microwave Entrance Facility.

## 9.0 Use of Premises

9.1 Use. The Premises, as identified in Exhibit 1 to this Attachment, may be used by CLEC for installation, operation, maintenance, repair and removal of Microwave Entrance Facility communications equipment, including radio frequency transmitting and receiving equipment, transmission lines, radio frequency transmitting and receiving antennas and supporting structures and other appurtenant and necessary equipment placed by or on behalf of CLEC, and for no other purpose.

9.2 RF Compliance. CLEC agrees to comply with the Federal Communications ("FCC") radio frequency ("RF") exposure rules and requirements for RF exposure to humans (FCC OET 65 - current version). The CLEC must provide to AT&T-21STATE for review and approval prior to the installation of RF emission devices (antennas), a copy of a current RF Compliance Study showing the general population exposure limits specified in FCC OET Bulletin 65 for the location(s) of CLEC's proposed antenna installation(s) are in compliance with the RF exposure rules and requirements. Prior to installation, CLEC will be responsible CLECs Microwave Entrance Facilities, AT&T-21STATE and CLEC shall cooperate to determine whether such installation would cause the Property to exceed the FCC radiated power density maximum permissible exposure ("MPE") limits for workers and the general public. In the event excess radiated power densities occur with the additional use of AT&T-21STATE's Property by CLEC, then CLEC shall promptly correct the

MPE to appropriate levels and/or implement reasonable measures at the Property, including restricting public access and posting signage and markings, in order for CLEC to fulfill its RF exposure obligations, provided AT&T-21STATE agrees to such measures. If CLEC fails to comply with this Section AT&T-21STATE, at its sole discretion, may terminate the Attachment upon written notice.

- 9.3 Line of Sight: AT&T-21STATE will manage its rooftop space on a first-come, first-served basis. The Parties acknowledge that Microwave Entrance Facilities require an unobstructed line of sight and CLEC is responsible for making an unobstructed line of sight determination for each AT&T-21STATE premises that it requests to install Microwave Entrance Facilities. Unobstructed line of sight will be provided by AT&T-21STATE, where technically practical, but AT&T-21STATE offers no guarantee that unobstructed line of sight is available for the AT&T-21STATE premises requested by CLEC. AT&T-21STATE will work cooperatively with CLEC in determining a suitable space for CLEC's equipment on the rooftop or other suitable exterior space for the requested AT&T-21STATE premises. If AT&T-21STATE requires a building enhancement or modification that obstructs CLEC's existing line of sight or, placement of additional equipment that has no reasonable alternative placement available other than one that obstructs CLEC's existing line of sight, AT&T-21STATE will work cooperatively with CLEC to move the antenna mount or raise the height of the antenna mount.

9.3.1 If a third party requests to place Microwave Entrance Facilities equipment on the rooftop that obstructs CLEC's existing line of sight, the third party's application will be denied unless all three parties mutually agree to move CLEC's existing Microwave Entrance Facilities equipment to allow for a clear line of sight, not to exceed the 20 foot height (6.1 meters) limitation required pursuant to 9.3 above. The costs and expenses to move CLEC's existing Microwave Entrance Facilities equipment will be borne by the third party requesting permission to place its own Microwave Entrance Facilities equipment.

- 9.4 Structural Modifications: CLEC will be responsible for the costs associated with any necessary structural modifications or reinforcements necessary to accommodate CLECs microwave entrance facilities. CLEC will also be responsible for the costs associated with resultant lighting and/markings additions or modifications required to meet FAA rules, as defined in AC 70/7460-1K or AC 70/7460-2K, or successor documents. AT&T-21STATE will not be responsible for moving CLEC's antenna(e) mount(s), if AT&T-21STATE determines that a vertical building addition is needed due to space exhaust in particular AT&T-21STATE premises. AT&T-21STATE shall notify CLEC six (6) months prior to the start of an AT&T-21STATE premises building addition so that CLEC can arrange, at its sole expense, for CLEC's AT&T-21STATE Tier 1 approved supplier to remove its Microwave Entrance Facilities from the AT&T-21STATE premises. Such notification will include construction drawings of the proposed addition, where available. AT&T-21STATE shall notify CLEC six (6) months prior to the start of an AT&T-21STATE premises building addition during CLEC's application process.

## 10.0 Pre-design Meeting

- 10.1 Unless otherwise agreed to by the Parties, a pre-design meeting (which can be conducted by conference call if the Parties mutually agree) between AT&T-21STATE and CLEC will commence within a maximum of thirty (30) calendar days from AT&T-21STATE's receipt of CLEC's application for Microwave Entrance Facilities and CLEC's payment of the appropriate application fees and any other agreed upon fees. At the Pre-Design meeting, AT&T-21STATE and CLEC will agree to the preliminary design of the Microwave Entrance Facilities that will be used in conjunction with CLEC's physical collocation space and the equipment configuration requirements, as reflected in the application and affirmed in the collocation application for Microwave Entrance Facilities. After the Parties reach agreement on the preliminary design of the Microwave Entrance Facilities, this design will not be subject to unilateral changes. If subsequent site analysis demonstrates that the preliminary design must be altered, both Parties shall agree to any required changes. The provisioning intervals that will apply to AT&T-21STATE's provisioning of the requested roof space or suitable exterior space for CLEC's Microwave Entrance Facilities will be provided to CLEC during the pre-design meeting or as soon as possible thereafter. CLEC will submit for AT&T-21STATE's review and approval all design work information following the pre-design meeting. At this same pre-design meeting, the Parties will also

discuss and agree to the preliminary design of CLEC's associated physical collocation space and the equipment configuration requirements for this space, as reflected in the collocation application for Microwave Entrance Facilities.

## 11.0 Security Access

11.1 Where a secured common corridor exists, AT&T-21STATE shall provide CLEC access to the roof twenty four (24) hours, seven (7) days per week, subject to AT&T-21STATE's access and security regulations, rules or policies.

11.2 CLEC shall not access any portion of the building not designated for CLEC's use or access. CLEC further covenants to exercise all due care so as not to interfere with any operations of AT&T-21STATE or others.

11.3 Notwithstanding the above, AT&T-21STATE shall have the right to change the access and security regulations, rules or policies from time to time, as long as CLEC is not deprived of physical access. Such changes could include, but not be limited to changing access from being through the common corridor to being through the use of the established escort process.

11.3.1 If no common corridor exists to access CLEC's Microwave Entrance Facilities, CLEC may request escorted access by using the standard Security Escort process that is in the AT&T-21STATE Collocation Attachment.

## 12.0 Antenna Placement

12.1 CLEC and AT&T-21STATE will mutually agree to the placement of one (1) microwave antenna support structure with one (1) antenna within its designated rooftop space for it's A location, as set forth in the pre-approved drawings. Up to three (3) additional antennas may be installed on the existing microwave antenna support structure within its designated rooftop space, in conjunction with and consistent with all terms of this Attachment. Each antenna may be used for a single Z location. CLEC request to add such additional antennas to its existing microwave antenna support structure within its designated rooftop space will be treated as an augment request. All antennas placed under this agreement shall only be capable of point to point communication and shall not be capable of point to multi-point communication. In the future, CLEC may identify and request of AT&T consideration of new or more efficient antenna technologies for use in the microwave link. Such requests will not be unreasonably denied.

## 13.0 Antenna Support Structure Lighting and Marking

13.1 For lighting systems the annual charge will be determined by annualizing expected costs using a formula accounting for the mean time between failures of each lighting system component, costs of system component replacements - including a broad-gauge cost estimate for labor. The elements of cost determination will be updated every 3 years.

13.2 For marking and/or lighting systems, AT&T-21STATE will periodically assess the condition of marking and/or lighting to ensure that it meets FAA requirements. If AT&T-21STATE reasonably determines that such marking and/or lighting does not meet FAA requirements, it will immediately notify CLEC and AT&T-21STATE will restore marking and/or lighting to its required condition and charge CLEC for same.

13.3 CLEC will be responsible for all costs of supplying all power associated with the antenna lighting and marking. This includes infrastructure, and associated monthly charges.

## 14.0 Utility Connections

14.1 All Microwave Entrance Facility power requirements will be provided through CLEC's collocation arrangement.

## 15.0 Co-Development

15.1 Notwithstanding any other provision of this Attachment, CLEC hereby acknowledges that AT&T-21STATE may have existing Microwave Entrance Facilities of its own, or of other tenants or CLECs on or at AT&T-21STATE's Property, and/or AT&T-21STATE may from time to time throughout the Attachment term enter into agreements with other Microwave Entrance Facility providers for the installation, operation and maintenance of communications facilities on or at AT&T-21STATE's property. Providers of Microwave Entrance Facilities shall hereinafter be referred to as CLECs. Where applicable and to the extent possible, subject however to CLEC's rights of non-interference set forth hereunder, CLEC shall cooperate with AT&T-21STATE and all other CLECs so as to reasonably accommodate the needs and requirements of such CLECs with respect to the installation, operation, use and maintenance of their equipment and facilities, and all necessary alterations, modifications and other improvements to AT&T-21STATE's property including

utility connections and access. CLEC shall use its best efforts to coordinate with AT&T-21STATE and other CLECs when requested with respect to determining the location of CLEC's premises, plans and specifications for installation, seeking permits, utility connections and access and shall make or permit to be made all reasonable adjustments or alterations to its existing facilities or improvements to accommodate the needs of CLECs; provided that CLEC shall not incur costs and expenses which are not otherwise reimbursed or for which there is no consideration.

## 16.0 Equipment Removal

- 16.1 If, at any time, AT&T-21STATE determines that any of CLEC's Microwave Entrance Facilities or equipment; or the installation of CLEC's Microwave Entrance Facilities or equipment does not meet the requirements outlined in this Attachment, AT&T-21STATE will provide written notice of its determination and documentation supporting such determination to CLEC. If CLEC fails to correct any non-compliance with these standards, fails to demonstrate to AT&T-21STATE's reasonable satisfaction that the Microwave Entrance Facilities equipment is compliant or fails to file a dispute pursuant to the dispute resolution section of the underlying Agreement within thirty (30) calendar days written notice to AT&T-21STATE, AT&T-21STATE may have the Microwave Entrance Facilities or equipment removed or the condition corrected at CLEC's expense. The removal of CLEC's Microwave Entrance Facilities or equipment must be performed by an AT&T-21STATE Tier 1 approved supplier. If CLEC no longer needs, or vacates its Microwave Entrance Facilities, CLEC will be required to hire AT&T-21STATE's approved supplier to remove CLEC's Microwave Entrance Facilities and restore the roof of the AT&T-21STATE premises to its original condition, excluding normal wear and tear, pursuant to terms and conditions of 21.0 below.

## 17.0 Interference Communication

- 17.1 CLEC's Microwave Entrance Facilities shall not disturb or interfere with the communications configurations, equipment and frequency that exist on AT&T-21STATE's property on Commencement Date ("Pre-existing Communications") and CLEC's Microwave Entrance Facilities shall comply with all noninterference rules of the FCC. CLEC shall use best efforts to cause the immediate termination of any interference or disruption to AT&T-21STATE's Pre-existing Communications. If, despite CLEC's best efforts, the interference or disruption to AT&T-21STATE's Pre-existing Communications continues and can reasonably be attributed to CLEC's operations, then CLEC shall immediately cease any and all operations on the Premises until such time as the interference is corrected to AT&T-21STATE's reasonable satisfaction. If CLEC cannot permanently correct such interference to AT&T-21STATE's satisfaction within ten (10) calendar days following CLEC's receipt of the initial written notice of such interference (or if the cure shall reasonably require a longer period of time), then AT&T-21STATE may thereafter require CLEC to ease its microwave operations at the impacted location. If CLEC is required to cease its microwave operations at the impacted location, then upon CLEC's request, AT&T will provision, if technically practical, type 2 terrestrial facilities at CLEC's expense.
- 17.2 AT&T-21STATE shall not permit (and shall not permit any third party) the use of any portion of AT&T-21STATE's property in a way which materially or adversely interferes with the rights of CLEC hereunder, subject to AT&T-21STATE's superior right to use and operate AT&T-21STATE's property for its benefit. If any such interference occurs, CLEC shall notify AT&T-21STATE. Without limiting any of CLEC's rights or remedies under this Agreement or applicable Laws, upon receipt of such notice, AT&T-21STATE shall take such reasonable and appropriate action to cause such interference to cease, and if such interference is caused by a third party whose grant of rights is later in time than this Agreement, then AT&T-21STATE must take all necessary steps to remove the interference or terminate that third party grant of rights. AT&T-21STATE and CLEC agree to cooperate and use reasonable best efforts to minimize any interference or disruption of either party's operations on AT&T-21STATE's property.
- 17.3 The CLEC is responsible for coordinating the interference testing of the microwave antenna arrangement. The CLEC must hire at its sole expense a mutually agreeable communications engineering firm to perform the interference testing. In the event that CLEC's supplier determines that in its opinion AT&T-21STATE is responsible for the interference, CLEC shall contact their AT&T-21STATE representative who will determine the cause of the interference and who is responsible for it. Otherwise, all discrepancies are the sole responsibility of CLEC.

## 18.0 Taxes

- 18.1 CLEC shall pay prior to delinquency all taxes, charges or other governmental impositions assessed against or levied upon the Equipment, as set forth in 5.1 above of this Attachment. Whenever possible, CLEC shall cause all such items to be assessed and billed separately from the property of AT&T-21STATE. In the event any such items shall be

assessed and billed with the property of AT&T-21STATE, CLEC shall pay AT&T-21STATE its share of such taxes, charges or other governmental impositions within thirty (30) days after AT&T-21STATE delivers a statement and a copy of the assessment or other documentation showing the amount of such impositions applicable to CLEC's property.

## 19.0 Termination

19.1 By CLEC: This Attachment or any Appendix hereunder may be terminated by CLEC without further liability on thirty (30) calendar days prior written notice

- (i) upon a default of any covenant, condition, or term hereof by AT&T-21STATE, which default is not cured within sixty (60) calendar days of receipt of written notice of default;
- (ii) in the event CLEC is unable to maintain after making reasonable and diligent efforts, licenses, permits or other approvals necessary for the construction or operation of CLEC's Microwave Entrance Facilities;
- (iii) if CLEC is unable to occupy or utilize the Premises due to ruling or directive of the FCC or other governmental or regulatory agency, including, but not limited to, a take back of channels or change in frequencies.

19.2 By AT&T-21STATE: This Attachment may be terminated by AT&T-21STATE without further liability, and/or AT&T-21STATE may elect to deny approval to enter into any new Attachment on thirty (30) calendar days prior written notice:

- (i) upon a default of any covenant, condition, or term hereof (including the terms of this Attachment by CLEC, which default is not cured or is undergoing dispute resolution, under the ICA within sixty (60) calendar days of receipt of written notice of default;
- (ii) in the event CLEC is unable to maintain after making reasonable and diligent efforts, licenses, permits or other approvals necessary for the construction or operation of CLEC's Microwave Entrance Facilities;
- (iii) if CLEC is unable to occupy or utilize the Premises due to ruling or directive of the FCC or other governmental or regulatory agency, including, but not limited to, a take back of channels or change in frequencies;
- (iv) if CLEC shall fail to permanently terminate interference as required under 18.0 above.

## 20.0 Surrender

20.1 Upon the expiration or termination of the applicable Attachment, CLEC shall surrender the Premises to AT&T-21STATE in its original condition and in good order and repair, less ordinary wear and tear. CLEC shall repair at its expense any and all damages caused by removal of CLEC's Microwave Entrance Facilities, or by the use, operation or placement of its Microwave Entrance Facilities, including the antenna support structure on the Premises to AT&T-21STATE's reasonable satisfaction. In the event CLEC fails to remove its Microwave Entrance Facilities equipment, including the antenna support structure, AT&T-21STATE shall have the right to retain such Microwave Entrance Facilities equipment, including the antenna support structure and all rights of CLEC with respect to it shall cease. CLEC shall be liable to AT&T-21STATE for all costs of removal, restoration of the Premises, and the costs of storage, transportation, sale or other disposition of such Facilities incurred by AT&T-21STATE.

## 21.0 Destruction of Premises

21.1 If the Premises or AT&T-21STATE's Property is destroyed or damaged so as in CLEC's judgment to hinder its effective use of the Premises, CLEC may elect to terminate its microwave collocation at the impacted Property as of the date of the damage or destruction by so notifying AT&T-21STATE no more than thirty (30) calendar days following the date of damage or destruction. In such event, all rights and obligations of the parties which do not survive the termination of the applicable microwave collocation shall cease as of the date of the damage or destruction.

## 22.0 Condemnation

22.1 If a condemning authority takes all of AT&T-21STATE's Property, or a portion, which in CLEC's opinion is sufficient to render the Premises unsuitable for CLEC's use then the applicable microwave collocation shall terminate as of the date when possession is delivered to the condemning authority. In any condemnation proceeding, since CLEC has no property interest in AT&T-21STATE's Property, CLEC shall not be entitled to make a claim against the condemning authority or AT&T-21STATE for just compensation for any property interest or bonus value of this Attachment. However, CLEC may make a separate claim against the condemning authority for compensation of CLEC's Microwave

Entrance Facilities and relocation expenses. Sale of all or part of the Premises to a purchaser with the power of eminent domain in the face of the exercise of its power of eminent domain, shall be treated as a taking by a condemning author.

## 23.0 Miscellaneous

23.1 Severability. If any provision of this Attachment is invalid or unenforceable with respect to any party the remainder of this Attachment or the application of such provision to persons other than those as to whom it is held invalid or unenforceable, shall not be affected and each provision of this Attachment shall be valid and enforceable to the fullest extent permitted by law.

23.2 No Offer. Under no circumstances shall delivery of this Attachment be deemed to create an option or reservation for the benefit of CLEC unless and until this Attachment has been duly executed by AT&T-21STATE. This Attachment shall become effective and binding only upon full execution by both parties hereto and delivery of a signed copy to CLEC. AT&T-21STATE reserves the right to reject this Attachment any time prior to delivery of a fully executed copy of this Attachment to CLEC. No act or omission of any agent or employee of AT&T-21STATE or AT&T-21STATE's broker or managing agent shall alter, change or modify any of the provisions of this paragraph.

## 24.0 CLEC Contracts for Drawings Directly with the AT&T-21STATE Approved Supplier

24.1 CLEC shall provide AT&T-21STATE with CLEC's proposed design and construction Appendix and the AT&T-21STATE's Supplier they have agreed to use.

24.2 CLEC shall provide AT&T-21STATE the Site Plan prepared by an AT&T-21STATE's Supplier for AT&T-21STATE's approval, which will not be unreasonably withheld.

24.3 Upon AT&T-21STATE's approval of the Site Plan, CLEC shall have an AT&T-21STATE's Supplier prepare the construction drawings for AT&T-21STATE's approval, which will not be unreasonably withheld.

24.4 Upon approval by AT&T-21STATE, CLEC may commence construction of its Microwave Entrance Facilities, provided CLEC provides AT&T-21STATE with a copy of the building permit.

24.5 Change Orders. Any changes requested by AT&T-21STATE, CLEC, Contractor or Supplier shall be subject to the following provisions:

24.5.1 No material changes to the approved Construction Drawings, Estimate, or Work Appendix shall be made without the prior written approval of the AT&T-21STATE and CLEC, which approval shall not be unreasonably withheld, conditioned or delayed;

24.5.2 Any request for a material change shall be accompanied by AT&T-21STATE or CLEC's estimate of any increase or decrease to the approved Estimate, or changes to the approved Work Appendix;

24.5.3 Changes to any Construction Drawings shall be in writing and shall be signed by both the AT&T-21STATE and CLEC prior to implementation of the change;

24.5.4 As soon as reasonably possible after receipt of a written change request from either party, the AT&T-21STATE or CLEC who receives a request to make a change shall have up to five (5) Calendar days to approve or disapprove of the request. If such party fails to respond within the five (5) Calendar day period, the request and associated amended Estimate shall be deemed approved.

24.6 Reimbursement to AT&T-21STATE for AT&T-21STATE Employees and AT&T-21STATE Suppliers Time. CLEC shall pay AT&T-21STATE a reimbursement charge. This charge shall equal the sum of the hourly charges for the AT&T-21STATE Supplier(s) employed by AT&T-21STATE and AT&T-21STATE employees (a) to review CLEC's Site Plans and Construction Drawings for the Microwave Entrance Facilities, (b) to review CLEC's permitting materials to obtain the necessary permits for the operation of CLEC's Microwave Entrance Facilities and (c) if CLEC directs and performs the work, to supervise CLEC's approved suppliers and contractors during construction. These costs include, but are not limited to, reasonable associated travel costs incurred by AT&T-21STATE Suppliers and employed by AT&T-21STATE, employees.

24.7 The estimated amount shall be invoiced to CLEC at the time the Work Appendix is provided to CLEC and fifty percent (50%) payment by CLEC shall be due within thirty (30) days. The second fifty percent (50%) payment shall be due

prior to job construction. AT&T-21STATE shall seek pre-approval from CLEC via written notice for an increase in its good-faith estimate. CLEC shall have 30 days to either accept the new estimate or to inform AT&T-21STATE that it wishes to cancel its application. CLEC shall be responsible for payment of all pre-approved costs incurred by AT&T-21STATE up to the point when the cancellation is received.

- 24.8 Supervision of CLEC's Supplier. The charge for supervision of CLEC's supplier shall equal the sum of the hourly charges of any AT&T-21STATE employees or AT&T-21STATE Suppliers that are employed by AT&T-21STATE to reasonably monitor the microwave antenna support structure design and installation performed by CLEC's Supplier, if AT&T-21STATE, at AT&T-21STATE's discretion, determines that such supervision is necessary. The fee for supervision by an AT&T-21STATE employee or AT&T-21STATE Supplier employed by AT&T-21STATE shall be assessed as an ICB charge and billed by AT&T-21STATE as soon as reasonably possible following the charges being incurred.
- 24.9 Bonding and Grounding. CLEC's AT&T-21STATE Approved Supplier will be responsible for provisioning the grounding and bonding of CLEC's Microwave Entrance Facilities and any additional rooftop grounding necessary to protect AT&T-21STATE's equipment or other occupants' equipment located in the AT&T-21STATE premises. Collocated Microwave Entrance Facility equipment must comply with extraordinary bonding and grounding requirements, pursuant to AT&T-21STATE's technical publications, specifically TP76200 and TP76300. These documents are located on the AT&T CLEC Online website. These requirements may necessitate the utilization of additional interior central office floor space to accommodate the requested arrangement beyond what would normally be required to accommodate an equal quantity of telecommunications equipment racks that would not be subject to these bonding and grounding requirements. When bonding and grounding requirements necessitate the utilization of floor space in excess of the requested physical collocation space, floor space charges will be based upon the additional amount of floor space required to accommodate the requested collocated equipment arrangement.
- 24.10 Special Security Construction. If AT&T-21STATE reasonably determines that new secured access to the Microwave Entrance Facilities is necessary and CLEC prefers to obtain such secured access rather than use escorts, the costs associated with the construction of such access shall be assessed as an ICB charge with fifty percent (50%) of the estimated charges billed by AT&T-21STATE at the time CLEC submits its collocation application requesting Microwave Entrance Facilities, with the final 50% of the estimated charges paid prior to job completion.
- 25.0 **Title to Facilities and Improvements**
- 25.1 Title to CLEC's Microwave Entrance Facilities and outdoor and indoor radio units, cabling, grounding equipment, antennas, masts, sled mounts and conduit (with the exception of external grounding equipment) shall remain with CLEC as the property of CLEC and shall not become fixtures to AT&T-21STATE's Property.
- 25.2 Equipment Safety Requirements. CLEC's Microwave Entrance Facilities and outdoor and indoor radio units, cabling, grounding equipment, antennas, masts, sled mounts and conduit must comply with all industry safety codes and the following specific safety requirements as they are at the time of execution of this Attachment and as they may change from time-to-time:
- 25.2.1 Telcordia Network Equipment Building System (NEBS) Requirements, Criteria Level 1, as outlined in Telcordia Special Report SR-3580, Issue 1
- 25.2.2 FCC OET Bulletin 65, dated 08/97
- 25.2.3 AT&T-21STATE Engineering and Installation Standards
- 25.2.4 American National Standards Institute:
- 25.2.5 Telecommunications – Electrical Protection of Communications Towers and Associated Structures ANSI T1.334-2002
- 25.2.5.1 Telecommunications – Electrical Protection of Telecommunications Central Offices and similar Type Facilities, ANSI T1.313-2003
- 25.2.6 All federal, state, and local codes for the specific area. For example, national building codes such as the Uniform Building Code (UBC), Building Officials and Code Administration (BOCA), and the Southern Building

Code Congress International (SBCCI), when adopted by the local municipality as the code of record for that area.

## 26.0 Closeout

26.1 CLEC shall provide AT&T-21STATE, at no cost to AT&T-21STATE, with record drawings ("Record Drawings") ninety (90) calendar days after the substantial completion of the Work at the site. The Record Drawings shall be prepared based on as-built drawings provided to CLEC or its agents by the Supplier. CLEC shall provide AT&T-21STATE the Record Drawings in the following formats:

26.1.1 One set saved in AutoCAD 2000i on CD-ROM.

26.1.2 Three sets of full size blueprints or bond prints.

26.1.3 Two sets of half size bond prints.

26.1.4 **NOTE:** If CLEC fails to provide complete as built Record Drawings within the 90 calendar day interval, AT&T will provide CLEC fifteen (15) calendar days written notice that failure to provide such Record Drawings is grounds for termination pursuant to 19.0 above of this Appendix. Such failure shall be deemed a breach of the Appendix, and AT&T-21STATE will have the option of terminating the microwave collocation application. All costs incurred to be paid by CLEC or to enter a contract with an approved supplier to create the required drawings and all charges will be billed to CLEC. AT&T will contact CLEC before the application is terminated.

## 27.0 Cooperation

27.1 AT&T-21STATE and CLEC each shall cooperate with the Contractors and Suppliers in the completion and performance of the Work.

## 28.0 Walkthrough

28.1 Within five (5) Calendar days following substantial completion of the Work, AT&T-21STATE and CLEC shall conduct a walkthrough of the Premises, including testing of CLEC's Microwave Entrance Facilities, and shall jointly complete a list of outstanding items needing additional work, adjustment or correction. AT&T-21STATE or CLEC, depending on who contracts for the design and construction drawings and construction, shall cause the Contractors and Suppliers, as appropriate, to complete all outstanding items within ten (10) calendar days following the walkthrough, or agreed upon timeline by both parties. Once the Contractors and Suppliers, as the case may be, have given notice of the completion of the outstanding items, AT&T-21STATE and CLEC shall conduct another walkthrough and testing of CLEC's Microwave Entrance Facilities to determine if the list of outstanding items have been completed.

## 29.0 Subsequent Alterations

29.1 Any alterations, or modifications to the agreed upon Microwave Entrance Facilities arrangement shall be subject to the terms and conditions set forth in this Attachment.

## EXHIBIT I

### DESCRIPTION OF PREMISES

The Premises consist of those specific areas described/shown below where CLEC's Microwave Entrance Facilities communications antennae and equipment occupy AT&T-21STATE's property. The Premises and the associated utility connections and access, including rights of ingress, egress, dimensions, and locations as described/shown below, are approximate only and may be adjusted or changed by AT&T-21STATE, after consulting CLEC, at the time of construction to reasonably accommodate sound engineering criteria and the physical features of AT&T-21STATE's property.

A final drawing or copy of a property survey depicting the above will replace the description in this Exhibit I when initialed by AT&T-21STATE.

#### Notes:

1. The description in this Exhibit may be replaced by a land survey or Site Plan of the Premises once it is received by CLEC.
2. Setback of the Premises from the AT&T-21STATE's boundaries shall be the distance required by the applicable government authorities.
3. Width of access road shall be the width required by the applicable governmental authorities, including police and fire departments.
4. The type, number and mounting positions and locations of antennas and transmission lines are illustrative only. Actual types, numbers, and mounting positions may vary from what is shown above.
