INTERCONNECTION AGREEMENT UNDER SECTIONS 251 AND 252 OF THE COMMUNICATIONS ACT OF 1934, AS AMENDED

This Interconnection Agreement under Sections 251 and 252 of the Telecommunications Act of 1996 (the Agreement), is dated by and between Southwestern Bell Telephone d/b/a AT&T Missouri ("AT&T"), and, MCImetro Access Transmission Services LLC ("MCIm").

The Effective Date of this Agreement shall be ten (10) calendar days after the Commission approves this Agreement under Section 252(e) of the Act or, absent such Commission approval, the date this Agreement is deemed approved under Section 252(e)(4) of the Act.

WHEREAS, the Parties wish to interconnect their networks for Telephone Exchange Services, Exchange Access, ancillary services; and

WHEREAS, the Parties are entering into this Agreement to set forth the respective obligations of the Parties and the terms and conditions under which the Parties will Interconnect their networks and facilities and provide to each other services and perform their obligations as required by the Communications Act of 1934 as amended by the Telecommunications Act of 1996, the rules and regulations of the Federal Communications Commission ("FCC"), and the orders, rules and regulations of the Missouri Public Service Commission (the "Commission") and as specifically set forth herein; and

WHEREAS, as of the Effective Date, for purposes of this Agreement, MCIm operates where AT&T MISSOURI is the certified incumbent Local Exchange Carrier and MCIm is a certified competitive Local Exchange Carrier.

NOW, THEREFORE, the Parties hereby agree as follows:

This Agreement is composed of General Terms and Conditions, which are set forth below, together with certain Appendices, Schedules, Exhibits and Addenda which immediately follow this Agreement, all of which are hereby incorporated in this Agreement by this reference and constitute a part of this Agreement.

GENERAL TERMS AND CONDITIONS

1 SCOPE OF AGREEMENT

1.1 This Agreement consists of this set of General Terms and Conditions and the following appendices:

Appendix I: Definitions
Appendix II: Bona Fide Request
Appendix III: Intentionally Omitted
Appendix IV: Collocation (Physical & Virtual)
Appendix V: Directory Assistance Listing Information
Appendix VI: Directory Assistance Services
Appendix VII: Invoicing
Appendix VIII: INW
Appendix IX: Intentionally Omitted
Appendix X: Intentionally Omitted

Appendix XI: Network
Appendix XII: Number Portability
Appendix XIII: Numbering
Appendix XIV: Operations Support Systems
Appendix XV: Operator Services
Appendix XVI: Performance Measurements
Appendix XVII: Pricing (including Price List)
Appendix XVIII: Reciprocal Compensation
Appendix XIX: Recording
Appendix XX: Resale
Appendix XXI: ROW
Appendix XXII: Intentionally Omitted
Appendix XXIII: UNE
Appendix XXIV: xDSL
Technology Presumed Acceptable for Deployment:
Attachment Yellow Zone Process (YZP)
Attachment RABT YZP
Attachment RABT MMP
Appendix XXV: 800 Database
Appendix XXVI: 911
Appendix XXVII: Intentionally Omitted
Appendix XXVIII: Intentionally Omitted
Appendix XXIX: White Pages
Appendix XXX: Line Splitting
Appendix XXXI: Intentionally Omitted
Appendix XXXII: Coordinated Hot Cut
Amendment Superseding Certain Reciprocal Compensation, Interconnection and Trunking Terms

1.2 This Agreement is intended to describe and enable specific Interconnection and compensation arrangements between the Parties. This Agreement is the arrangement under which the Parties may purchase from each other the products and services described in Section 251 of the Act and obtain approval of such arrangement under Section 252 of the Act.

1.3 Except as specifically contained herein or provided by the FCC or any Commission within its lawful jurisdiction, nothing in this Agreement shall be deemed to affect any Special Access or Switched Access charge arrangement.

1.4 Each Party shall act in good faith in its performance under this Agreement and, in each case in which a Party's consent or agreement is required or requested hereunder, such Party shall not unreasonably withhold or delay such consent or agreement.

2 INTERPRETATION, CONSTRUCTION AND SEVERABILITY

2.1 Definitions

For purposes of this Agreement, certain terms have been defined in this Agreement to encompass meanings that may differ from, or be in addition to, the normal connotation of the defined word. Unless the context clearly indicates otherwise, any term defined or used in the singular will include

the plural. Whenever the context may require, any pronoun shall include the corresponding masculine, feminine and neuter forms. The words "will" and "shall" are used interchangeably throughout this Agreement and the use of either connotes a mandatory requirement. The use of one or the other will not mean a different degree of right or obligation for either Party. A defined word intended to convey its special meaning is capitalized when used. See Appendix Definitions.

2.2 Headings Not Controlling

2.2.1 The headings and numbering of Sections, Parts, Appendices Schedules and Exhibits to this Agreement are for convenience only and will not be construed to define or limit any of the terms herein or affect the meaning or interpretation of this Agreement.

2.2.2 This Agreement incorporates a number of Appendices which, together with their associated Attachments, Exhibits, Schedules and Addenda, constitute the entire Agreement between the Parties. In order to facilitate use and comprehension of the Agreement, the Appendices have been grouped under broad headings. It is understood that these groupings are for convenience of reference only.

2.3 Referenced Documents

Whenever any provision of this Agreement refers to any document specifically incorporated into the Agreement it will be deemed to be a reference to the then-current version or edition.

2.3.2 To the extent a tariff provision or rate is incorporated or otherwise applies between the Parties due to the provisions of this Agreement, it is understood that said tariff provision or rate applies only in the jurisdiction in which such tariff provision or rate is filed, and applies to MCIm only where AT&T MISSOURI operates within that jurisdiction. Except as may be specifically set forth elsewhere in the Agreement, it is understood that any changes to said tariff provision or rate are also automatically incorporated herein or otherwise hereunder, effective hereunder on the date any such change is effective.

2.4 Intentionally Omitted.

2.5 Intentionally Omitted.

2.6 Conflict in Provisions

2.6.1 In the event of a conflict between any provision in this General Terms and Conditions and a provision of any Appendix, Attachment, Exhibit, or Schedule of this Agreement, the terms and conditions contained in the Appendix, Attachment, Exhibit or Schedule will supersede those contained in this General Terms and Conditions, but only in regard to the services or activities listed in that particular Appendix, Attachment, Exhibit or Schedule.

2.6.2 Intentionally Omitted.

2.7 Joint Work Product

This Agreement is the joint work product of the Parties and has been negotiated by the Parties and their respective counsel and shall be fairly interpreted in accordance with its terms and, in the event of any ambiguities, no inferences shall be drawn against either Party.

2.8 Severability

If any provision of this Agreement is rejected by the Commission or held to be illegal or invalid or unenforceable, each Party agrees that such provision shall be enforced to the maximum extent permissible so as to effect the intent of the Parties, and the validity and legality and enforceability of the remaining provisions of this Agreement shall not in any way be affected or impaired thereby. If necessary to effect the intent of the Parties, the Parties shall negotiate in good faith to amend this Agreement to replace the unenforceable language with enforceable language that reflects such intent as closely as possible.

2.9 AT&T MISSOURI will make available interconnection, service and/or network element arrangement provided under an agreement approved by a regulatory commission under Section 252 of the Act to which it is a party to with any other requesting telecommunications carrier upon the same terms and conditions as those provided in the agreement in accordance with Section 252(i) of the Act, as that Section has been interpreted in Applicable Law.

2.10 Intentionally Omitted.

2.11 Intentionally Omitted.

2.12 Scope of Obligations

2.12.1 AT&T MISSOURI's obligations under this Agreement to provide Lawful unbundled Network Elements and Resale shall apply only to the portions of in which AT&T MISSOURI is deemed to be the ILEC under the Act.

2.12.2 Nothwithstanding anything to the contrary contained herein except for the Out of Exchange Appendix, AT&T MISSOURI's obligations under this Agreement shall apply only to the specific operating area(s) or portion thereof in which AT&T MISSOURI is then deemed to be the ILEC under the Act (the "ILEC Territory").

2.12.3 The Agreement sets forth the terms and conditions pursuant to which AT&T MISSOURI agrees to provide MCIm with access to Lawful unbundled Network Elements (UNEs), Collocation, Resale and Interconnection under Applicable Law in AT&T MISSOURI's incumbent local exchange areas for the provision of MCIm's Telecommunications Services.

3 NOTICE OF CHANGES -- SECTION 251(c)(5)

3.1 Nothing in this Agreement shall limit either Party's ability to upgrade its network through the incorporation of new equipment, new software or otherwise. Each Party agrees to comply with the Network Disclosure rules adopted by the FCC in CC Docket No. 96-98, Second Report and Order,

codified at 47 C.F.R. 51.325 through 51.335, as such rules may be amended from time to time (the "Network Disclosure Rules").

3.2 AT&T MISSOURI shall provide services pursuant to the provisions of this Agreement. Except as otherwise specifically provided for in this Agreement, AT&T MISSOURI shall not discontinue or refuse to provide any service provided or required under this Agreement without MCIm's prior written agreement. This is not intended to impair AT&T MISSOURI's ability to make changes in its network, provided that such changes are consistent with the Act and this Agreement and do not result in the discontinuance of the offering of network elements made by AT&T MISSOURI during the term of this Agreement.

4 GENERAL RESPONSIBILITIES OF THE PARTIES

4.1 Upon approval by the Commission, the Parties agree to begin providing the services referenced herein immediately or as otherwise established in the applicable Appendix.

4.2 The Parties shall each provide their portion of services timely to meet the Interconnection Activation Dates.

4.3 The Parties agree to comply with Telcordia BOC Notes on LEC Networks Practice No. SR-TSV-002275. Each Party is responsible to provide facilities within its network that are necessary for routing, transporting, measuring, and billing traffic from the other Party's network and for delivering such traffic to the other Party's network.

4.3.1 The Parties are each responsible for participation in and compliance with national network plans, including the National Network Security Plan and the Emergency Preparedness Plan.

5 INSURANCE

5.1 At all times during the term of this Agreement, each Party shall keep and maintain in force at its own expense the following minimum insurance coverage and limits and any additional insurance and/or bonds required by Applicable Law:

5.2 Workers' Compensation insurance with benefits afforded under the laws of each state covered by this Agreement and Employers Liability insurance with minimum limits of $1,000,000 for Bodily Injury-each accident, $500,000 for Bodily Injury by disease-policy limits and $1,000,000 for Bodily Injury by disease-each employee.

5.3 Commercial General Liability insurance with minimum limits of: $10,000,000 General Aggregate limit; $5,000,000 each occurrence sub-limit for all bodily injury or property damage incurred in any one occurrence; $1,000,000 each occurrence sub-limit for Personal Injury and Advertising; $10,000,000 Products/Completed Operations Aggregate limit, with a $5,000,000 each occurrence sub-limit for Products/Completed Operations. Fire Legal Liability sub-limits of $2,000,000 are also required if this Agreement involves collocation. The other Party must be named as an Additional Insured on the Commercial General Liability policy.

5.4 If use of an automobile is required, Automobile Liability insurance with minimum limits of $1,000,000 combined single limits per occurrence for bodily injury and property damage, which coverage shall extend to all owned, hired and non-owned vehicles.

5.5 Each Party shall require subcontractors providing services under this Agreement to maintain in force the insurance coverage and limits required in Sections 5.1 through 5.4 of this Agreement.

5.6 The Parties agree that companies affording the insurance coverage required under Section 5.1 shall have a rating of A- or better and a Financial Size Category rating of VIII or better, as rated in the A.M. Best Key Rating Guide for Property and Casualty Insurance Companies. Upon request from the other Party, each Party shall provide to the other Party evidence of such insurance coverage.

5.7 Each Party agrees to provide the other Party with at least thirty (30) calendar days advance written notice of cancellation, a reduction in limits, or non-renewal of any of the insurance policies required herein.

5.8 Each Party agrees to accept the other Party's program of self-insurance in lieu of insurance coverage if certain requirements are met. These requirements are as follows:

5.8.1 The Party desiring to satisfy its Workers' Compensation and Employers Liability obligations through self-insurance shall submit to the other Party a copy of its Certificate of Authority to Self-Insure its Workers' Compensation obligations issued by each state covered by this Agreement or the employer's state of hire; and

5.8.2 The Party desiring to satisfy its automobile liability obligations through self-insurance shall submit to the other Party a copy of the state-issued letter approving self-insurance for automobile liability issued by each state covered by this Agreement; and

5.8.3 The Party desiring to satisfy its general liability obligations through self-insurance must provide evidence acceptable to the other Party that it maintains at least an investment grade (e.g., B+ or higher) debt or credit rating as determined by a nationally recognized debt or credit rating agency such as Moody's, Standard and Poor's or Duff and Phelps.

5.8.4 This Section 5 is a general statement of insurance requirements and shall be in addition to any specific requirement of insurance referenced elsewhere in this Agreement or a Referenced Instrument.

6 OPERATING COMPANY NUMBER (OCN)

6.1 Upon the Effective Date, MCIm shall provide AT&T MISSOURI with MCIm's state-specific authorized and nationally recognized OCNs as applicable, for facilities-based (Interconnection and/or unbundled Network Elements) and a separate and distinct OCN for Resale Services as required by the North American Company Code Assignment Procedures. In addition, MCIm shall provide AT&T MISSOURI with MCIm's Access Carrier Name Abbreviations (ACNAs) as assigned by Telcordia Technologies.

6.2 Any assignment or transfer of an Agreement wherein only MCIm's name is changing, and which does not include a change to MCIm's OCN/ACNA, constitutes a MCIm Name Change. For a MCIm Name Change, MCIm will incur a record order charge for each MCIm CABS BAN. For resale or any other products not billed in CABS, a record order charge will apply per end user record. Rates for record orders are contained in Appendix Pricing.

6.3 When an end user customer changes its service provider from AT&T MISSOURI to MCIm or from MCIm to AT&T MISSOURI and does not retain its original telephone number, the Party formerly providing service to such end user customer shall furnish a referral announcement ("Referral Announcement") on the original telephone number that specifies the end user customer's new telephone number. These arrangements will be provided reciprocally for the same period of time and under the same terms and conditions as such Party provides such arrangements to its existing end user customers.

6.3.1 Intentionally Omitted.

6.3.2 Intentionally Omitted.

6.3.3 Intentionally Omitted.

6.3.4 The Parties shall provide each other with Referral Announcements for the period of time specified by MISSOURI law. However, if either Party provides Referral Announcements for a period longer than the above period(s) when its end user customers change their telephone numbers, such Party shall provide the same level of service to end user customers of the other Party.

6.4 Each Party shall be responsible for labor relations with its own employees.

6.5 Company Code Change

6.5.1 Any assignment or transfer of an Agreement associated with the transfer or acquisition of "assets" provisioned under that Agreement, where the OCN/ACNA formerly assigned to such "assets" is changing constitutes a MCIm Company Code Change. For the purposes of Section 6.5.1, "assets" means any Interconnection, Resale Service, Unbundled Network Element, function, facility, product or service provided under that Agreement. MCIm shall provide AT&T MISSOURI with ninety (90) calendar days advance written notice of any assignment associated with a MCIm Company Code Change and obtain AT&T MISSOURI's consent. AT&T MISSOURI shall not unreasonably withhold consent to a MCIm Company Code Change; provided, however, AT&T MISSOURI's consent to any MCIm Company Code Change is contingent upon cure of any outstanding charges owed under this Agreement and any outstanding charges associated with the "assets" subject to the MCIm Company Code Change. In addition, MCIm acknowledges that MCIm may be required to tender additional assurance of payment if requested under the terms of this Agreement.

6.5.2 For any MCIm Company Code Change, MCIm must submit a service order changing the OCN/ACNA for each end user record and/or a service order for each circuit ID number, as applicable. MCIm shall pay the appropriate charges for each service order submitted

to accomplish a MCIm Company Code Change; such charges are contained in Appendix Pricing. In addition, MCIm shall submit a new OSQ to update any OS/DA Rate Reference information and Branding pursuant to the rates terms and conditions of Appendices Resale and UNE, as applicable, at the rates specified in Appendix Pricing. In addition, MCIm shall pay any and all charges required for re-stenciling, re-engineering, changing locks and any other work necessary with respect to Collocation, as determined on an individual case basis.

6.6 Assignment of any Interconnection, Resale Service, Unbundled Network Element, function, facility, product or service.

6.6.1 Any assignment or transfer of any Interconnection, Resale Service, Unbundled Network Element, function, facility, product or service provisioned pursuant to this Agreement without the transfer or the assignment of this Agreement shall be deemed a CLEC to CLEC mass migration. MCIm shall provide AT&T MISSOURI with ninety (90) calendar days advance written notice of any CLEC to CLEC mass migration. MCIm's written notice shall include the anticipated effective date of the assignment or transfer. MCIm must cure any outstanding charges associated with any Interconnection, Resale Service, Unbundled Network Element, function, facility, product or service to be transferred. In addition, MCIm may be required to tender additional assurance of payment if requested under the terms of this agreement.

6.6.2 Both CLECs involved in any CLEC to CLEC mass migration shall comply with all Applicable Law relating thereto, including but not limited to all FCC and state Commission rules relating to notice(s) to end users. MCIm shall be responsible for issuing all service orders required to migrate any Interconnection, Resale Service, Unbundled Network Element, function, facility, product or service provided hereunder. The appropriate service order charge or administration fee (for interconnection) will apply as specified in Appendix Pricing. MCIm shall also submit a new OSQ to update any OS/DA Rate Reference information and Branding pursuant to the rates terms and conditions of Appendices Resale and UNE, as applicable, at the rates specified in Appendix Pricing. In addition, MCIm shall pay any and all charges required for re-stenciling, re-engineering, changing locks and any other work necessary with respect to Collocation, as determined on an individual case basis.

6.7 Project Coordination

6.7.1 AT&T MISSOURI will provide project management support to minimize any possible service outages during any CLEC to CLEC mass migration. Should AT&T MISSOURI's most current version of LSOR or ASOR guidelines not support the required order activity, AT&T MISSOURI will issue service orders at the manual rate, as specified in Appendix Pricing, based upon the type of service provided, and on the condition that MCIm provides to AT&T MISSOURI any and all information AT&T MISSOURI reasonably requests to effectuate such changes.

7 TERM AND TERMINATION

7.1 The Effective Date of this Agreement shall be ten (10) calendar days after the Commission approves this Agreement under Section 252(e) of the Act or, absent such Commission approval, the date this Agreement is deemed approved under Section 252(e)(4) of the Act.

7.2 The term of this Agreement shall commence upon the Effective Date of this Agreement and will remain in effect for three (3) years after the Effective Date and continue in full force and effect on a month to month basis, thereafter until (i) superseded in accordance with the requirements of this section or (ii) terminated pursuant to the requirements of this section. No earlier than one-hundred eighty (180) days before the expiration of the term, either Party may request that the Parties commence negotiations to replace this Agreement with a superseding agreement by providing the other Party with a written request to enter into negotiations. If this Agreement continues in full force and effect after the expiration of the Term, either Party may terminate this Agreement after delivering written notice to the other Party of its intention to terminate this Agreement, subject to the survivability causes contained herein.

7.3 Notwithstanding any other provision of this Agreement either Party may terminate this Agreement and the provision of any Interconnection, Resale Services, Network Elements, functions, facilities, products or services provided pursuant to this Agreement, at the sole discretion of the terminating Party, in the event that the other Party fails to perform a material obligation or materially breaches a material term of this Agreement and the other Party fails to cure such nonperformance or breach within forty-five (45) calendar days after written notice thereof. Any termination of this Agreement pursuant to this Section shall take effect immediately upon delivery of written notice to the Party that failed to cure such material nonperformance or material breach within forty-five (45) days after written notice thereof.

7.4 Intentionally Omitted.

7.5 Upon termination of this Agreement in accordance with this Section 7:

a. each Party shall continue to comply with its Confidential Information obligations,

b. each Party shall promptly pay all amounts (including any late payment charges) owed under this Agreement, and

c. each Party's indemnification obligations shall survive.

7.6 If, upon termination of this Agreement other than pursuant herein, the Parties are negotiating a successor agreement, during such period each Party shall continue to perform its obligations and provide the services described herein that are to be included in the successor agreement until such time as a successor agreement becomes effective; provided, however, that if the Parties are unable to reach agreement prior to the termination of this Agreement, either Party has the right to submit this matter to the Commission for resolution. Until a successor agreement is reached or the Commission resolves the matter, whichever is sooner, the terms, conditions, rates and charges stated herein will continue to apply, subject to a true-up based on the Commission action or the new agreement, if any.

7.7 If either Party serves notice of expiration herein, MCIm shall have ten (10) calendar days to provide AT&T MISSOURI written confirmation if MCIm wishes to pursue a successor agreement with AT&T MISSOURI MCIm shall identify the action to be taken. If MCIm wishes to pursue a successor agreement with AT&T, MISSOURI MCIm shall attach to its written confirmation or notice of expiration/termination, as applicable, a written request to commence negotiations with AT&T MISSOURI under Sections 251/252 of the Act. Upon receipt of MCI's Section 252(a)(1) request, the Parties shall commence good faith negotiations on a successor agreement.

7.8 If written notice is not issued herein, the rates, terms and conditions of this Agreement shall continue in full force and effect until the earlier of (i) the effective date of its successor agreement, whether such successor agreement is established via negotiation, arbitration or pursuant to Section 252(i) of the Act; or (ii) the date that is ten (10) months after the date on which AT&T MISSOURI received MCIm's Section 252(a)(1) request.

7.9 If at any time during the Section 252(a)(1) negotiation process (prior to or after the expiration date or termination date of this Agreement), MCIm withdraws its Section 252(a)(1) request, MCIm must include in its notice of withdrawal a request to adopt a successor agreement under Section 252(i) of the Act or affirmatively state that MCIm does not wish to pursue a successor agreement with AT&T MISSOURI for a given state. The rates, terms and conditions of this Agreement shall continue in full force and effect until the later of: 1) the expiration of the term of this Agreement, or 2) the expiration of ninety (90) calendar days after the date MCIm provides notice of withdrawal of its Section 252(a)(1) request.

7.9.1 If the Term of this Agreement has expired, on the earlier of (i) the ninety-first (91st) calendar day following AT&T MISSOURI's receipt of MCIm's notice of withdrawal of its Section 252(a)(1) request or (ii) the effective date of the agreement following approval by the Commission of the adoption of an agreement under 252(i), the Parties shall, have no further obligations under this Agreement except those set forth in this Agreement.

7.10 If MCIm does not affirmatively state that it wishes to pursue a successor agreement with AT&T MISSOURI in its, as applicable, notice of expiration or termination or the written confirmation required after receipt of the AT&T-owned ILEC's notice of expiration or termination, then the rates, terms and conditions of this Agreement shall continue in full force and effect until the later of 1) the expiration of the Term of this Agreement, or 2) the expiration of ninety (90) calendar days after the date MCIm provided or received notice of expiration or termination. If the Term of this Agreement has expired, on the ninety-first (91st) day following MCIm provided or received notice of expiration or termination, the Parties shall have no further obligations under this Agreement except those set forth in this Agreement.

7.11 In the event of termination of this Agreement herein, AT&T MISSOURI and MCIm shall cooperate in good faith to effect an orderly transition of service under this Agreement; provided that MCIm shall be solely responsible (from a financial, operational and administrative standpoint) to ensure that its End Users have been transitioned to a new LEC by the expiration date or termination date of this Agreement.

8 FRAUD

8.1 Except as provided herein, neither Party shall be liable to the other Party for any fraud associated with the other Party's end user customer's account.

8.2 Uncollectible or unbillable revenues resulting from the accidental or malicious alteration of software underlying Network Elements or their subtending OSS by unauthorized third parties is the responsibility of the Party which has administrative control of access to the Network Element or OSS software.

8.3 The Parties agree to cooperate with one another to investigate, minimize, and take corrective action in cases of fraud. The Parties agree to cooperate to minimize all costs. The Parties agree that fraud minimization procedures should be cost effective and implemented so as not to unduly burden or harm one Party as compared to the other.

8.4 In cases of suspected fraudulent activity by an end user customer, at a minimum, the cooperation referenced herein will include providing to the other Party, upon request, information concerning end user customers who are suspected of fraudulent activity. The Party seeking such information is responsible for securing the end user customer's permission to obtain such information.

8.5 AT&T MISSOURI will provide notification messages to MCIm on suspected occurrences of ABS-related fraud on MCIm accounts stored in the applicable LIDB. AT&T MISSOURI will provide via fax.

8.6 AT&T MISSOURI shall make available to MCIm all present and future fraud prevention or revenue protection features, at parity to what it provides itself, its affiliate or any third party including prevention, detection, or control functionality embedded within any of the Network Elements. AT&T MISSOURI will use a fraud monitoring system to determine suspected occurrences of ABS-related fraud for MCIm using the same criteria AT&T MISSOURI uses to monitor fraud on their respective accounts. These features include, but are not limited to, screening codes; information digits, such as information digits '29' and '70' which indicate prison and COCOT pay phone originating line types respectively; call blocking of domestic, international, 800, 888, 900, NPA-976, 700, 500 and specific line numbers; and the capability to require end-user entry of an authorization code for dial tone. AT&T MISSOURI shall, in addition, provide fraud alerts for fraud prevention, detection, and control functionality within pertinent operations support systems ("OSS"), including, but not limited to, Line Information Data Base Fraud monitoring systems, High Toll Notifiers, SS7 suspect traffic alerts, and AMA suspect traffic alerts.

8.7 Intentionally Omitted.

8.8 The Parties will provide contact names and numbers to each other for the exchange of Fraud Monitoring System alert notification information twenty-four (24) hours per day seven (7) days per week.

8.9 Intentionally Omitted.

8.10 Intentionally Omitted.

9 DEPOSITS

9.1 Upon request by the Billing Party, the Billed Party will provide the Billing party with adequate assurance of payment of amounts due (or to become due) to the Billing Party.

9.2 Neither Party shall be permitted to charge a security deposit unless (i) two (2) times during any Contract Year, the other Party has been more than thirty (30) days late in making timely payments of undisputed amounts due under this Agreement and (ii) the past due amount is more than two months of average monthly billing. For purposes of this Section 9, "Contract Year" means a twelve (12) month period during the term of the Agreement commencing on the Effective Date and each anniversary thereof.

9.3 Unless otherwise agreed by the Parties any assurance of payment required by the previous section shall consist of:

9.3.1 a cash security deposit ("Cash Deposit") held by the Billing Party or;

9.3.2 an unconditional, irrevocable standby bank Letter of Credit from a U.S. financial institution acceptable to both Parties naming the Billing Party as the beneficiary thereof and otherwise in form and substance satisfactory to both Parties("Letter of Credit").

9.3.3 The Cash Deposit or Letter of Credit must be in an amount equal to three (3) months anticipated charges (including, but not limited to, recurring, non-recurring and usage sensitive charges, termination charges and advance payments), for the Interconnection, Resale Services, Network Elements, Collocation or any other functions, facilities, products or services to be furnished by the Billing Party under this Agreement.

9.4 To the extent that the Billing Party elects to require a Cash Deposit, the Parties intend that the provision of such Cash Deposit shall constitute the grant of a security interest in the Cash Deposit pursuant to the Article 9 of the Uniform Commercial Code in effect in any relevant jurisdiction.

9.5 All cash deposits will accrue interest payable when the deposit is returned to the Billing Party. However, the Billing Party will not pay interest on a Letter of Credit.

9.6 If during the course of this Agreement the Billed Party paying the Deposit establishes a minimum of twelve (12) consecutive months good credit history with the Billing Party when doing business as a local service provider, the Billing Party holding the Deposit(s) shall return the initial deposits, with interest; provided, however, that the terms and conditions set forth herein shall continue to apply for the remainder of the Term. In determining whether a Billed Party has established a minimum of twelve (12) consecutive months good credit history, the Billed Party's payment record for the most recent twelve (12) monthly billings occurring within the prior twenty-four (24) months shall be considered.

9.7 Any cash deposit shall be held as a guarantee of payment of charges billed, provided, however, the Billing Party holding the Deposit may exercise its right to credit any cash deposit to the Billing Party's account upon the occurrence of any one of the following events:

9.7.1 the Billed Party owes the Billing Party undisputed charges under this Agreement that are more than thirty (30) calendar days past due or

9.7.2 Intentionally Omitted.

9.7.3 Intentionally Omitted.

9.7.4 during the month following the expiration of twelve (12) months after that cash deposit was remitted, the Billing Party holding the Deposit shall credit any cash deposit to the Billing Party's account so long as it has not been sent more than one delinquency notification letter for that state during the most recent twelve (12) months.

9.8 Intentionally Omitted.

9.9 If during the first six (6) months of operations in MISSOURI, the Billed Party has been sent one delinquency notification letter by the Billing Party holding the Deposit, the deposit amount for that state shall be re-evaluated based upon the actual billing totals and shall be increased if the Billing Party's actual billing average for the two (2) month period exceeds the deposit amount held.

9.9.1 Throughout the Term, any time the Billed Party has been sent two (2) delinquency notification letters for any one state by the Party holding the Deposit, the deposit amount shall be re-evaluated based upon actual billing totals and shall be increased if the Billed Party's actual billing average for the three (3) month period exceeds the deposit amount held.

9.10 Whenever a deposit is re-evaluated as specified herein, such deposit shall be calculated in an amount equal to the average billing for four (4) month period. The most recent four (4) months billing on all Billing Account Numbers (BAN)s for Resale Services, Network Elements, and Reciprocal Compensation shall be used to calculate the monthly average.

9.11 Intentionally Omitted.

9.12 Whenever a deposit is re-evaluated, the Billed Party shall remit the additional deposit amount to the Billing Party holding the Deposit within ten (10) calendar days of receipt of written notification requiring such deposit. If the Billed Party fails to furnish the required deposit, the Party holding the Deposit shall suspend the Billed Party's ability to process orders until the deposit is remitted.

9.13 Intentionally Omitted.

9.14 The fact that the Billing Party holding the Deposit holds either a cash deposit or irrevocable bank letter of credit does not relieve the Billed Party from timely compliance with its payment obligations under this Agreement (including, but not limited to, recurring, non-recurring and usage sensitive charges, termination charges and advance payments), nor does it constitute a waiver or modification of the terms of this Agreement pertaining to disconnection or re-entry for non-payment of any amounts required to be paid hereunder.

10 NONPAYMENT AND PROCEDURES FOR DISCONNECTION

10.1 Failure to pay all or any portion of any amount required to be paid may be grounds for suspension or disconnection of Resale Services, Network Elements and Collocation as provided for in this section. This section does not apply to disputed charges and/or nonpayments arising from Appendix Reciprocal Compensation or Appendix Network.

10.2 If a Party fails to pay any charges billed to it under this section, including but not limited to any Late Payment Charges or miscellaneous charges ("Unpaid Charges"), and any portion of such Unpaid Charges remain unpaid after the Bill Due Date, the Billing Party will notify the Non-Paying Party in writing that in order to avoid disruption or disconnection of the Resale Services, Network Elements and/or Collocations, the Non-Paying Party must remit all Unpaid Charges to the Billing Party within ten (10) Business Days following receipt of the Billing Party's notice of Unpaid Charges.

10.3 If the Non-Paying Party desires to dispute any portion of the Unpaid Charges, the Non-Paying Party must complete all of the following actions not later than ten (10) Business Days following receipt of the Billing Party's notice of Unpaid Charges:

10.3.1 notify the Billing Party in writing which portion(s) of the Unpaid Charges it disputes, including the total amount disputed ("Disputed Amounts") and the specific details listed in Section XX5.5 of Appendix Invoicing, together with the reasons for its dispute; and

10.3.2 pay all undisputed Unpaid Charges to the Billing Party; and

10.3.3 pay all Disputed Amounts into an interest bearing escrow account that is mutually agreed upon by the Parties.

10.4 Issues related to Disputed Amounts shall be resolved in accordance with the procedures identified in the Dispute Escalation and Resolution section set forth below.

10.5 After expiration of the written notice furnished pursuant to Section 10.2, if MCIm continues to fail to comply with Section 10.3.1 through 10.3.3, inclusive, or fails to make payment(s) in accordance with the terms of any mutually agreed payment arrangement, AT&T MISSOURI may, in addition to exercising any other rights or remedies it may have under Applicable Law, furnish a second written demand to MCIm for payment within five (5) Business Days of any of the obligations enumerated in Section 10.1. On the day that AT&T MISSOURI provides such written demand to MCIm, AT&T MISSOURI may also exercise any or all of the following options:

10.5.1 suspend acceptance of any application, request or order from the Non-Paying Party for new or additional Interconnection, Resale Services, Network Elements, Collocation, functions, facilities, products or services under this Agreement; and/or

10.5.2 suspend completion of any pending application, request or order from the Non-Paying Party for new or additional Interconnection, Resale Services, Network Elements, Collocation, functions, facilities, products or services under this Agreement.

10.6 Notwithstanding anything to the contrary in this Agreement, AT&T MISSOURI's exercise of any of its options under Section 10.5, 10.5.1 and 10.5.2:

10.6.1 will not delay or relieve MCIm's obligation to pay all charges on each and every invoice on or before the applicable Bill Due Date, and

10.6.2 will exclude any affected application, request, order or service from any otherwise applicable performance interval, Performance Benchmark or Performance Measure.

10.7 A copy of the demand provided to MCIm under Section 10.5 will be provided to the Commission.

10.8 If the Non-Paying Party fails to pay the Billing Party on or before the date specified in the demand letter provided under Section 10.5 of this Agreement, the Billing Party may, in addition to exercising any other rights or remedies it may have under Applicable Law:

10.8.1 cancel any pending application, request or order from the Non-Paying Party for new or additional Interconnection, Resale Services, Lawful Unbundled Network Elements, Collocation, functions, facilities, products or services under this Agreement; and

10.8.2 discontinue providing any Interconnection, Resale Services, Lawful Unbundled Network Elements Collocation, functions, facilities, products or services furnished under this Agreement.

10.9 AT&T MISSOURI will notify the Commission of the names of all Resale End User Customers whose local service was terminated pursuant to Section 10.

11 INTENTIONALLY OMITTED

12 DISPUTE ESCALATION AND RESOLUTION

12.1 Intentionally Omitted.

12.2 Alternative to Litigation

12.2.1 The Parties desire to resolve disputes arising out of this Agreement without litigation. Accordingly, the Parties agree to use the following Dispute Resolution procedures with respect to any controversy or claim arising out of or relating to this Agreement or its breach.

12.3 Commencing Dispute Resolution

Dispute Resolution shall commence upon one Party's receipt of written notice of a controversy or claim arising out of or relating to this Agreement or its breach. No Party may pursue any claim unless such written notice has first been given to the other Party in accordance with the Notice provisions herein. There are three (3) separate Dispute Resolution methods:

- LSC Billing Disputes / Billing Claims Process (see Appendix Invoicing)
- Informal Dispute Resolution; and

- Formal Dispute Resolution, each of which is described below.

12.3.1 Intentionally Omitted.

12.3.2 Informal Dispute Resolution

Upon receipt by one Party of notice of a dispute by the other Party pursuant herein, each Party will appoint a knowledgeable, responsible representative to meet and negotiate in good faith to resolve any dispute arising under this Agreement. The location, form, frequency, duration, and conclusion of these discussions will be left to the discretion of the representatives, provided, however, and notwithstanding anything to the contrary, either Party may commence Formal Dispute Resolution Procedures no sooner than forty-five (45) days after receipt of the notice of dispute. In addition to the dispute resolution procedures detailed herein, the Parties have the option to resolve any dispute arising out of this Agreement through a state-supervised mediation process. Further, upon mutual agreement of the Parties, the representatives may utilize other alternative dispute resolution procedures to assist in the negotiations. Discussions and the correspondence among the representatives for purposes of settlement are exempt from discovery and production and will not be admissible in the arbitration described below or in any lawsuit without the concurrence of both Parties. Documents identified in or provided with such communications that were not prepared for purposes of the negotiations are not so exempted, and, if otherwise admissible, may be admitted in evidence in the arbitration or lawsuit.

12.3.3 Formal Dispute Resolution Procedures

12.3.3.1 The Parties recognize and agree that the Commission has continuing jurisdiction to implement and enforce all terms and conditions of this Agreement. The Parties agree that any dispute arising out of or relating to this Agreement that the Parties themselves cannot resolve by Informal Dispute Resolution, may be submitted to the Commission for Formal Dispute Resolution, including arbitration or other procedures as appropriate, not earlier than forty-five (45) calendar days after receipt of the letter initiating Dispute Resolution, unless otherwise agreed by the Parties. The Parties may seek expedited resolution by the Commission, and if chosen, shall request that resolution occur in no event later than sixty (60) days from the date of submission of such dispute. If the Commission appoints an expert(s) or other facilitator(s) to assist in its decision making, and the Commission does not pay for such expert or other facilitator, each Party shall pay half of the fees and expenses so incurred. During the Commission proceeding each Party shall continue to perform its obligations under this Agreement; provided, however that neither Party shall be required to act in any unlawful fashion. This provision shall not preclude the Parties from seeking relief available in any other forum.

12.3.3.2 Claims will be subject to final and binding commercial arbitration pursuant to this Section if, and only if, the claim is not settled through Informal Dispute Resolution and both Parties agree to arbitration. If both Parties do not

agree to arbitration, then either Party may pursue a remedy for the Dispute with the Commission, a court, an agency or regulatory authority of competent jurisdiction. Disputes subject to arbitration under this section will be submitted to a single arbitrator pursuant to the rules of The American Arbitration Association or by a provider of arbitration services to which the Parties agree, pursuant to the United States Arbitration Act, 9 USC Sec. 1 et seq. The Parties agree that the arbitrator should be knowledgeable about telecommunications issues. Such arbitration will be held in a mutually agreeable location. The Parties agree to use commercially reasonable efforts to begin the arbitration process within sixty (60) calendar days of the written demand for arbitration with The American Arbitration Association, with a copy provided to the other Party. The arbitration will be conducted in accordance with the provisions of The American Arbitration Association's Comprehensive Arbitration Rules and Procedures or such other rules as the Parties may agree that are in effect at the time of the filing of the demand for arbitration. The Parties shall file the arbitrator's decision with the Commission. Each Party will bear its own costs of these procedures, including attorneys' fees. The arbitrator's award shall be final and binding and may be entered in any court having jurisdiction thereof. In an action to enforce a decision of the Arbitrator, the prevailing Party shall be entitled to its reasonable attorneys' fees, expert fees, costs, and expenses without regard to the local rules of the district in which the suit is brought. Judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction.

12.3.3.3 Notwithstanding any rule of the AAA Commercial Arbitration Rules to the contrary, the Parties agree that the arbitrator shall have no power or authority to make awards or issue orders of any kind except as expressly permitted by this Agreement, and in no event shall the arbitrator have the authority to make any award that provides for punitive, or exemplary damages, consequential damages multiple damages or any other damages not measured by the prevailing Party's actual damages and may not, in any event, make any ruling, finding or award that does not conform to the terms and conditions of this Agreement.

13 AUDITS

13.1 Subject to restrictions regarding Proprietary Information set forth in this Agreement, a Party (Auditing Party) may audit the other Party's (Audited Party) books, records, data and other documents, as provided herein, two (2) times each Contract Year for the purpose of evaluating the accuracy of Audited Party's billing and invoicing. For purposes of this Section 13.1, "Contract Year" means a twelve (12) month period during the term of the Agreement commencing on the Effective Date and each anniversary thereof.

13.2 The scope of any audit under this Section shall be limited to the services provided and purchased by the Parties and the associated charges, books, records, data and other documents relating thereto for the period which is the shorter of (i) the period subsequent to the last day of the period covered by the audit which was last performed (or if no audit has been performed, the Effective

Date) and (ii) the twelve (12) month period immediately preceding the date the Audited Party received notice of such requested audit. Any audit under this Section shall be for the purpose of evaluating (i) the accuracy of Audited Party's billing and invoicing of the services provided hereunder and (ii) verification of compliance with any provision of this Agreement that affects the accuracy of Auditing Party's billing and invoicing of the services provided to Audited Party hereunder. Except as otherwise agreed upon by the Parties, such audit shall begin no fewer than thirty (30) days after Audited Party receives a written notice requesting an audit and shall be completed no later than forty-five (45) calendar days after the start of such audit.

13.3 As mutually agreed upon by the Parties, such audit shall be conducted either by the Auditing Party's employee(s) or by one (1) or more independent auditor(s). If the Audited Party requests that an independent auditor be engaged and the Auditing Party agrees, the Audited Party shall pay one-quarter (1/4) of the independent auditor's fees and expenses. If an independent auditor is to be engaged the Parties shall select such auditor(s) by the thirtieth day following Audited Party's receipt of a written audit notice. The Auditing Party shall cause the independent auditor(s) to execute a nondisclosure agreement in a form consistent with the Confidentiality requirements set forth below. Notwithstanding the foregoing, an Auditing Party may audit as provided herein more than two (2) times during any Contract Year if (i) the previous audit found previously uncorrected net variances or errors in invoices in Audited Party's favor with an aggregate value of at least five percent (5%) of the amounts payable by Auditing Party for audited services provided during the period covered by the audit. or (ii) non-compliance by Audited Party with any provision of this Agreement affecting Auditing Party's billing and invoicing of the services provided to Audited Party with an aggregate value of at least five percent (5%) of the amounts payable by Audited Party for audited services provided during the period covered by the audit.

13.4 Each Party shall bear its own expenses in connection with the conduct of the audit. Each audit shall be conducted on the premises of Audited Party during normal business hours. Audited Party shall cooperate fully in any such audit, providing the auditor reasonable access to any and all appropriate Audited Party employees and books, records and other documents reasonably necessary to assess the accuracy of Audited Party's billing and invoicing and Audited Party's compliance with the provisions of this Agreement that affect the accuracy of Auditing Party's billing and invoicing of the services provided to Audited Party hereunder. No Party shall have access to the data of the other Party, but shall rely upon summary results provided by the auditor. Audited Party may redact from the books, records and other documents provided to the auditor any confidential Audited Party information that reveals the identity of other Customers of Audited Party. Each Party shall maintain reports, records and data relevant to the billing of any services that are the subject matter of this Agreement for a period of not less than twenty-four (24) months after creation thereof, unless a longer period is required by Applicable Law.

13.5 If any audit confirms any undercharge or overcharge, then Audited Party shall (i) for any overpayment promptly correct any billing error, including making refund of any overpayment by Auditing Party in the form of a credit on the invoice for the first full billing cycle after the Parties have agreed upon the accuracy of the audit results and (ii) for any undercharge caused by the actions of or failure to act by Audited Party, immediately compensate Auditing Party for such undercharge, in each case with interest at the lesser of (x) one and one-half (1 1/2%) percent per month and (y) the highest rate of interest (compounded daily) that may be charged under Applicable Law, for the number of days from the date on which such undercharge or overcharge originated until the date on which such credit is issued or payment is made and available, as the

case may be. Notwithstanding the foregoing, MCIm shall not be liable for any Underbilled Charges for which Customer Usage Data was not furnished by AT&T MISSOURI to MCIm within six (6) months of the date such usage was incurred.

13.6 Except as may be otherwise provided in this Agreement, audits shall be performed at Auditing Party's expense, subject to reimbursement by Audited Party of one-quarter (1/4) of any independent auditor's fees and expenses in the event that an audit finds, and the Parties subsequently verify, a net adjustment in the charges paid or payable by Auditing Party hereunder by an amount that is, on an annualized basis, greater than five percent (5%) of the aggregate charges for the audited services during the period covered by the audit.

13.7 Any Disputes concerning audit results shall be referred to the Parties' designated representative(s) who have authority to settle the Dispute. If these individuals cannot resolve the Dispute within thirty (30) days of the referral, either Party may request in writing that one additional audit shall be conducted by an auditor acceptable to both Parties, subject to the requirements set out in this Audit Section. Such additional audit shall be at the requesting Party's expense. If the second audit fails to resolve the Dispute, the matter shall be resolved in accordance with the procedures set forth herein regarding Dispute Resolution.

14 DISCLAIMER OF REPRESENTATIONS AND WARRANTIES

14.1 EXCEPT AS EXPRESSLY PROVIDED UNDER THIS AGREEMENT, NO PARTY MAKES OR RECEIVES ANY WARRANTY, EXPRESS, IMPLIED OR STATUTORY, WITH RESPECT TO THE SERVICES, FUNCTIONS AND PRODUCTS IT PROVIDES OR IS CONTEMPLATED TO PROVIDE UNDER THIS AGREEMENT AND EACH PARTY DISCLAIMS THE IMPLIED WARRANTIES OF MERCHANTABILITY AND/OR OF FITNESS FOR A PARTICULAR PURPOSE.

15 LIMITATION OF LIABILITY

15.1 Liabilities of MCIm – MCIm's liability to AT&T MISSOURI during any Contract Year resulting from any and all causes, other than as specified in Sections 27, 33, 15.3 and 16 of these general terms and conditions, shall not exceed the total of any amounts due and owing by MCIm to AT&T MISSOURI under this Agreement during the Contract Year during which such cause accrues or arises. For purposes of this Section 15, "Contract Year" means a twelve (12) month period during the term of the Agreement commencing on the Effective Date and each anniversary thereof.

15.2 Liabilities of AT&T MISSOURI – AT&T MISSOURI's liability to MCIm during any Contract Year resulting from any and all causes, other than as specified in Sections 27, 33, 15.3 and 16 of these general terms and conditions, shall not exceed Twenty Five Million Dollars ($25,000,000).

15.3 No Consequential Damages - Neither MCIm nor AT&T MISSOURI shall be liable to the other Party for any indirect, incidental, consequential, reliance, or special damages suffered by such other Party (including without limitation damages for harm to business, lost revenues, lost savings, or lost profits suffered by such other Party), regardless of the form of action, whether in contract, warranty, strict liability, or tort, including without limitation negligence of any kind whether active or passive, and regardless of whether the Parties knew of the possibility that such damages could result. Each Party hereby releases the other Party (and such other Party's subsidiaries and

affiliates, and their respective officers, directors, employees and agents) from any such claim. Nothing contained in this Section 15 shall limit AT&T MISSOURI's or MCIm's liability to the other for (i) willful or intentional misconduct (including gross negligence); (ii) bodily injury, death or damage to tangible real or tangible personal property proximately caused by AT&T MISSOURI's or MCIm's negligent act or omission or that of their respective agents, subcontractors or employees, nor shall anything contained in this Section 15 limit the Parties' indemnification obligations, as specified in Section 16 of these general terms and conditions. For purposes of this Section 15, amounts due and owing to either Party pursuant to Appendix Performance Measures shall not be considered to be indirect, incidental, consequential, reliance, or special damages.

16 INDEMNITY

16.1 General Indemnity Rights. Each Party (the "Indemnifying Party") shall defend and indemnify the other Party, its officers, directors, employees and permitted assignees (collectively, the "Indemnified Party") and hold such Indemnified Party harmless against:

(a) any loss to a third party arising out of the negligent acts or omissions, or willful misconduct ("Fault") by such Indemnifying Party or the Fault of its employees, agents and subcontractors in the performance of this Agreement or the failure of the Indemnifying Party to perform its obligations under this Agreement; provided, however, that: (1) with respect to employees or agents of the Indemnifying Party, such Fault occurs while performing within the scope of their employment, (2) with respect to subcontractors of the Indemnifying Party, such Fault occurs in the course of performing duties of the subcontractor under its subcontract with the Indemnifying Party, and (3) with respect to the Fault of employees or agents of such subcontractor, such Fault occurs while performing within the scope of their employment by the subcontractor with respect to such duties of the subcontractor under the subcontract;

(b) any loss to a third party arising from such Indemnified Party's use of Interconnection, Resale Services, Network Elements, functions, facilities, products and services offered under this Agreement, involving pending or threatened claims, actions, proceedings or suits , claims for libel, slander or invasion of privacy arising from the Indemnifying Party's own acts, omissions or communications.

The foregoing includes any losses arising from disclosure, by the Indemnifying Party, in violation of Applicable Law, of any end user customer-specific information associated with either the originating or terminating numbers used to provision Interconnection, resale services, Network Elements provided on an Lawful unbundled basis, functions, facilities, products or services provided under this Agreement or disclosure otherwise committed by the Indemnifying Party or at the Indemnifying Party's direction;

(c) any loss arising from claims for actual or alleged infringement of any Intellectual Property right of a third party to the extent that such Loss arises from an Indemnified Party's or an Indemnified Party's end user customer's use of a service provided under this Agreement; provided, however, that an Indemnifying Party's obligation to defend and indemnify the Indemnified Party shall not apply in the case of: (i) (A) any use by an Indemnified Party of a service (or element thereof) in combination with elements, services or systems supplied

by the Indemnified Party or persons other than the Indemnifying Party, or (B) where an Indemnified Party or its end user customer modifies or directs the Indemnifying Party to modify such service; and (ii) no infringement would have occurred without such combined use or modification;

(d) any and all penalties imposed upon the Indemnifying Party's failure to comply with the Communications Assistance to Law Enforcement Act of 1994 ("CALEA") and, at the sole cost and expense of the Indemnifying Party, any amounts necessary to modify or replace any equipment, facilities or services provided to the Indemnified Party under this Agreement to ensure that such equipment, facilities and services fully comply with CALEA; and

(e) any Loss arising from such Indemnifying Party's failure to comply with Applicable Law.

16.2 A Party (for purposes of this Section the "Reimbursing Party") shall reimburse the other Party (for purposes of this Section the "Reimbursed Party") for property damage to the Reimbursed Party's facilities to the extent such damage is caused by the acts or omissions of the Reimbursing Party, its agents, contractors or employees.

16.3 Indemnification Procedures. Whenever a claim, lawsuit or demand by a third party ("Claim") shall arise for indemnification, the relevant Indemnified Party, as appropriate, shall promptly notify the Indemnifying Party and request the Indemnifying Party to defend the same. Failure to so notify the Indemnifying Party shall not relieve the Indemnifying Party of any liability that the Indemnifying Party might have, except to the extent that such failure prejudices the Indemnifying Party's ability to defend such Claim. The Indemnifying Party shall have the right to defend against such liability or assertion in which event the Indemnifying Party shall give written notice to the Indemnified Party of acceptance of the defense of such Claim and the identity of counsel selected by the Indemnifying Party. Until such time as Indemnifying Party provides such written notice of acceptance of the defense of such Claim, the Indemnified Party shall defend such Claim, at the expense of the Indemnifying Party, subject to any right of the Indemnifying Party, to seek reimbursement for the costs of such defense in the event that it is determined that Indemnifying Party had no obligation to indemnify the Indemnified Party for such Claim. The Indemnifying Party shall have exclusive right to control and conduct the defense and settlement of any such Claims subject to consultation with the Indemnified Party. The Indemnifying Party shall not be liable for any settlement by the Indemnified Party unless such Indemnifying Party has approved such settlement in advance and agrees to be bound by the agreement incorporating such settlement. At any time, an Indemnified Party shall have the right to refuse a compromise or settlement and, at such refusing Party's cost, to take over such defense; provided that in such event the Indemnifying Party shall not be responsible for, nor shall it be obligated to indemnify the relevant Indemnified Party against, any cost or liability in excess of such refused compromise or settlement. With respect to any defense accepted by the Indemnifying Party, the relevant Indemnified Party shall be entitled to participate with the Indemnifying Party in such defense if the Claim requests equitable relief or other relief that could affect the rights of the Indemnified Party and also shall be entitled to employ separate counsel for such defense at such Indemnified Party's expense. If the Indemnifying Party does not accept the defense of any indemnified Claim as provided above, the relevant Indemnified Party shall have the right to employ counsel for such defense at the expense of the Indemnifying Party. Each Party agrees to cooperate and to cause its employees and agents to cooperate with the other Party in the defense of any such Claim and the relevant records of each Party shall be available to the other Party with respect to any

such defense, subject to the restrictions and limitations set forth in the provisions in this Agreement relating to confidential information.

17 REMEDIES

17.1 Intentionally Omitted.

17.2 Intentionally Omitted.

17.3 In addition to any other available rights or remedies, MCIm may sue in equity for specific performance. However, the Parties agree that AT&T MISSOURI reserves it right to argue in any given case that specific performance is not an appropriate remedy.

18 INTELLECTUAL PROPERTY

18.1 The Parties acknowledge that this Agreement to Interconnect with AT&T MISSOURI's network and to unbundle and/or combine AT&T MISSOURI's Network Elements (including combining with MCIm's Network Elements) may be subject to patent, copyright, trade secret, or other applicable rights (Intellectual Property Rights) of third party vendors/licensors (Vendor/Licensors). To the extent required by the Act, Commission decisions, and any applicable judicial decisions and consistent with the FCC Memorandum Opinion and Order dated April 27, 2000 (and any appeal there from) in CC Docket No. 96-98 (File No. CCBPol 97-4), In the Matter of Petition of MCI for Declaratory Ruling, AT&T MISSOURI will use its best efforts to provide MCIm with Intellectual Property Rights related to AT&T MISSOURI's Lawful unbundled Network Elements as necessary to permit MCIm to use such Lawful unbundled Network Elements in the same manner as AT&T MISSOURI.

18.2 AT&T MISSOURI agrees to use its best efforts to (i) obtain, under commercially reasonable terms, the necessary rights set forth in Section 18.1 and (ii) obtain permission, if required, under any applicable confidentiality agreements, to disclose to MCIm the names of Vendor/Licensors, the subject intellectual property, and the relevant contract provisions (excluding cost terms) which govern use of the intellectual property. AT&T MISSOURI will provide a list of all Vendor/Licensors applicable to the subject Lawful unbundled Network Element(s). AT&T MISSOURI shall promptly notify MCIm of any Vendor/Licensors from which AT&T MISSOURI is unable to obtain the necessary rights or contract information set forth in this Section 18.2. AT&T MISSOURI shall, at MCIm's request, contact the Vendor/Licensor to attempt to obtain permission to reveal additional contract details to MCIm.

18.3 Intentionally Omitted.

18.4 The reasonable costs, if any, associated with the extension of Intellectual Property Rights pursuant to Section 18.1 above, including the cost of the license extension itself and the costs associated with the effort to obtain the extension, shall be a part of the cost of providing the Lawful unbundled network element to which the Intellectual Property Rights relate and reasonably apportioned, as ordered by the Commission, among AT&T MISSOURI and requesting carriers using that Lawful unbundled network element.

18.5 AT&T MISSOURI will indemnify MCIm for any claims of infringement arising from MCIm's use within the scope of this Agreement of third party Intellectual Property Rights associated with Network Elements for which AT&T MISSOURI has obtained the necessary rights provided in Section 18.2(i).

18.6 Intentionally Omitted.

18.7 Except as set forth in Section 18.2, AT&T MISSOURI hereby conveys no licenses to use such Intellectual Property Rights and makes no warranties, express or implied, concerning MCIm's (or any Third Parties') rights with respect to such Intellectual Property Rights and contract rights, including whether such rights will be violated by such Interconnection or unbundling and/or combining of Network Elements (including combining with MCIm's Network Elements) in AT&T MISSOURI's network or MCIm's use of other functions, facilities, products or services furnished under this Agreement. Except as provided in this Section 18.7, any licenses or warranties for Intellectual Property Rights associated with Lawful unbundled network elements are vendor licenses and warranties and are a part of the Intellectual Property Rights AT&T MISSOURI agrees in Section 18.2 to use its best efforts to obtain.

18.8 Any intellectual property, which originates from or is developed by a Party, shall remain in the exclusive ownership of the Party.

19 NOTICES

19.1 Notices given by one Party to the other Party under this Agreement shall be in writing (unless specifically provided otherwise herein), and unless otherwise expressly required by this Agreement to be delivered to another representative or point of contact, shall be:

19.1.1 delivered personally;

19.1.2 delivered by express overnight delivery service;

19.1.3 mailed, via certified mail or first class U.S. Postal Service, with postage prepaid, and a return receipt requested; or

19.1.4 delivered by facsimile; provided that a paper copy is also sent by a method described above, and such method is noted on the facsimile.

19.2 Notices will be deemed given as of:

19.2.1 in the case of written notice, the date of actual receipt; or

19.2.2 in the case of facsimile, the date set forth on the confirmation produced by the receiving facsimile machine when received by facsimile prior to 5:00 p.m. in the recipient's time zone, but the next Business Day when received by facsimile at 5:00 p.m. or later in the recipient's time zone.

19.3 Notices will be addressed to the Parties as follows:

NOTICE CONTACT	MCIm CONTACT	AT&T MISSOURI CONTACT
NAME/TITLE	V.P. & Chief Technology Counsel	Contract Administration ATTN: Notices Manager
STREET ADDRESS	MCI, Inc. 1133 19th Street NW	311 S. Akard, 9th Floor Four Bell Plaza
CITY, STATE, ZIP CODE	Washington, DC 20036	Dallas, TX 75202-5398

19.4 Either Party may unilaterally change its designated contact, address, telephone number and/or facsimile number for the receipt of notices by giving written notice to the other Party in compliance with this Section.

19.5 Other than legal notice under this Agreement, which shall be provided in accordance with Sections 19.1 – 19.4, AT&T MISSOURI may also communicate official information to MCIm via its CLEC Online notification process. This process covers a variety of subjects, including updates on products/services promotions; deployment of new products/services; modifications and price changes to existing products/services; cancellation or retirement of existing products/services; and operational issues.

20 PUBLICITY AND USE OF TRADEMARKS OR SERVICE MARKS

20.1 Neither Party nor its subcontractors or agents shall use in any advertising or sales promotion, press releases, or other publicity matters any endorsements, direct or indirect quotes, or pictures that imply endorsement by the other Party or any of its employees without such first Party's prior written approval. The Parties will submit to each other for written approval, prior to publication, all publicity matters that mention or display one another's name and/or marks or contain language from which a connection to said name and/or marks may be inferred or implied; the Party to whom a request is directed shall respond promptly. Nothing herein, however, shall be construed as preventing either Party from publicly stating the fact that it has executed this Agreement with the other Party.

20.2 Nothing in this Agreement shall grant, suggest, or imply any authority for one Party to use the name, trademarks, service marks, logos, proprietary trade dress or trade names of the other Party in any advertising, press releases, publicity matters, marketing and/or promotional materials or for any other commercial purpose without prior written approval from such other Party.

21 INTENTIONALLY OMITTED

22 CONFIDENTIALITY

22.1 For the purposes of this Agreement, “Confidential Information” means confidential or proprietary technical or business Information given by one Party (the "Discloser") to the other Party (the "Recipient") that: 1) the Recipient either has reason to know based upon the facts surrounding the disclosure of the information and/or the nature of the information itself that the Discloser safeguards by exercising at least a reasonable standard of care to protect as confidential information, or that the Recipient is presumed to know that the Discloser believes is confidential because it falls within one or more types of information described herein. All information which is of the following types disclosed by one Party to the other in connection with this Agreement shall automatically be deemed Confidential Information subject to this Agreement. Confidential Information shall be of the following types: all information, including specifications, microfilm, photocopies, magnetic disks, magnetic tapes, audit information, models, system interfaces, forecasts, computer programs, software, documentation, drawings, sketches, models, samples, tools, technical information, data, employee records, maps, financial reports, and market data shall be deemed "Confidential" if :

22.1.1 Furnished or made available or otherwise disclosed by the Discloser or its agent, employee, representative or Affiliate to the Recipient or its agent, employee, representative or Affiliate dealing with End User-specific, facility-specific, or usage-specific information, other than End User information communicated for the purpose of publication, directory, or other database inclusion, 911, call processing, billing or settlement or for such other purposes as mutually agreed upon; all orders for Network Elements, Ancillary Functions, Combinations, Local Services or other services placed by MCIm or AT&T MISSOURI pursuant to this Agreement, and information that would constitute Customer Proprietary Network Information of MCIm or AT&T MISSOURI customers pursuant to the Act and the rules and regulations of the FCC, and recorded usage data, whether disclosed by MCIm to AT&T MISSOURI or AT&T MISSOURI to MCIm or otherwise acquired by AT&T MISSOURI or MCIm in the course of the performance of this Agreement, shall be deemed Confidential Information of MCIm or AT&T MISSOURI, as the case may be, for all purposes under this Agreement.

22.2 For a period of ten years from the receipt of Confidential Information from the Discloser, except as otherwise specified in this Agreement, the Recipient agrees

i. to use it only for the purpose of performing under this Agreement,

ii. to hold it in confidence and disclose it to no one other than its employees, contractors, agents or Affiliates having a need to know for the purpose of performing under this Agreement, and

iii. to safeguard it from unauthorized use or disclosure with at least the same degree of care with which the Recipient safeguards its own Confidential Information.

If the Recipient wishes to disclose the Discloser’s Confidential Information to a third party consultant, such disclosure must be mutually agreed to in advance and in writing by the Parties to this Agreement, and the consultant must have executed a written agreement of non-disclosure and non-use comparable in scope to the terms of this Section.

22.3 The Recipient may make copies of Confidential Information only as reasonably necessary to perform its obligations under this Agreement. All such copies shall bear the same copyright and Confidential rights notices as are contained on the original.

22.4 Return of Confidential Information

22.4.1 All Confidential Information shall remain the property of the Disclosing Party, and all documents or other tangible media delivered to the Receiving Party that conspicuously embody such Confidential Information shall be, at the option of the Disclosing Party, either promptly returned to Disclosing Party or destroyed, except as otherwise may be required from time to time by Applicable Law (in which case the use and disclosure of such Confidential Information will continue to be subject to this Agreement), upon the earlier of (i) the date on which the Receiving Party's need for it has expired and (ii) the expiration or termination of this Agreement.

22.5 Unless otherwise agreed, the obligations of confidentiality and non-use set forth in this Agreement do not apply to such Confidential Information that:

22.5.1 Was at the time of receipt, already known to the Receiving Party, free of any obligation to keep confidential and evidenced by written records prepared prior to delivery by the Disclosing Party; or

22.5.2 Is, or becomes publicly known through no wrongful act of the Receiving Party; or

22.5.3 Is rightfully received from a Third Party having no direct or indirect secrecy or confidentiality obligation to the Disclosing Party with respect to such information; provided that such Receiving Party has exercised commercially reasonable efforts to determine whether such Third Party has any such obligation; or

22.5.4 Is independently developed by an agent, employee representative or Affiliate of the Receiving Party and such Party is not involved in any manner with the provision of services pursuant to this Agreement and does not have any direct or indirect access to the Confidential Information; or

22.5.5 Is disclosed to a Third Party by the Disclosing Party without similar restrictions on such Third Party's rights; or

22.5.6 Is approved for release by written authorization of the Disclosing Party, but only to the extent of the authorization granted; or

22.5.7 Is required to be made public or disclosed by the Receiving Party pursuant to Applicable Law or regulation, provided that such production or disclosure shall have been made in accordance with the requirements of this Agreement.

22.6 Proposed Disclosure of Confidential Information to a Governmental Authority

22.6.1 If a Receiving Party desires to disclose or provide to the Commission, the FCC or any other governmental authority any Confidential Information of the Disclosing Party, such

Receiving Party shall, prior to and as a condition of such disclosure, (i) provide the Disclosing Party with written notice and the form of such proposed disclosure as soon as possible but in any event early enough to allow the Disclosing Party to protect its interests in the Confidential Information to be disclosed and (ii) attempt to obtain in accordance with the applicable procedures of the intended recipient of such Confidential Information an appropriate order for protective relief or other reliable assurance that confidential treatment shall be accorded to such Confidential Information.

22.6.2 If a Receiving Party is required by any Governmental Authority or by Applicable Law to disclose any Confidential Information, then such Receiving Party shall provide the Disclosing Party with written notice of such requirement as soon as possible, and in no event later than five (5) calendar days after receipt of such requirement, and prior to such disclosure. Upon receipt of written notice of the requirement to disclose Confidential Information, the Disclosing Party at its expense, may then either seek appropriate protective relief in advance of such requirement to prevent all or part of such disclosure or waive the Receiving Party's compliance with this Section 22 with respect to all or part of such requirement.

22.6.3 The Receiving Party shall use all commercially reasonable efforts to cooperate with the Disclosing Party in attempting to obtain any protective relief which such Disclosing Party chooses to seek pursuant to this Section 22. In the absence of such relief, if the Receiving Party is legally compelled to disclose any Confidential Information, then the Receiving Party shall exercise all commercially reasonable efforts to preserve the confidentiality of the Confidential information, including cooperating with the Disclosing Party, at the Disclosing Party's expense, to obtain an appropriate order for protective relief or other reliable assurance that confidential treatment will be accorded the Confidential Information.

22.6.4 Notwithstanding any of the foregoing, AT&T MISSOURI shall be entitled to disclose Confidential Information on a confidential basis to regulatory agencies upon request for information as to AT&T MISSOURI's activities under the Act and AT&T MISSOURI need not provide prior written notice of such disclosure to MCIm if AT&T MISSOURI has obtained an appropriate order for protective relief or other reliable assurance that confidential treatment shall be accorded to such Confidential Information.

22.7 Customer Proprietary Network Information ("CPNI")

22.7.1 CPNI related to MCIm's subscribers obtained by virtue of Interconnection or any other service provided under this Agreement shall be MCIm's proprietary information and may not be used by AT&T MISSOURI for any purpose except performance of its obligations under this Agreement or as otherwise permitted by law, and in connection with such performance, shall be disclosed only to AT&T MISSOURI's employees, contractors, agents or Affiliates with a need to know, unless the MCIm subscriber expressly directs MCIm to disclose, or approves the disclosure of, such information to AT&T MISSOURI pursuant to the requirements of Section 222(c)(1) or (2) of the Act. If AT&T MISSOURI seeks and obtains approval to use or disclose such CPNI from MCIm's subscribers, such approval shall be obtained only in compliance with Section 222(c)(1) or (2) and, in the event such authorization is obtained, AT&T MISSOURI may use or disclose only such information as MCIm provides pursuant to such authorization and may not use

information that AT&T MISSOURI has otherwise obtained, directly or indirectly, in connection with its performance under this Agreement except as permitted by law. CPNI related to AT&T MISSOURI's subscribers obtained by virtue of Interconnection or any other service provided under this Agreement shall be AT&T MISSOURI's proprietary information and may not be used by MCIm for any purpose except performance of its obligations under this Agreement or as otherwise permitted by law, and in connection with such performance shall be disclosed only to MCIm's employees, contractors, agents or Affiliates with a need to know, unless the AT&T MISSOURI subscriber expressly directs AT&T to disclose, or approves the disclosure of, such information to MCIm pursuant to the requirements of Section 222(c)(1) or (2). If MCIm seeks and obtains approval to use or disclose such CPNI from AT&T MISSOURI's subscribers, such approval shall be obtained only in compliance with Section 222(c)(1) or (2) and, in the event such authorization is obtained, MCIm may use or disclose only such information as AT&T MISSOURI provides pursuant to such authorization and may not use information that MCIm has otherwise obtained, directly or indirectly, in connection with its performance under this Agreement except as permitted by law.

22.8 Each Party's obligations to safeguard Confidential Information disclosed prior to expiration or termination of this Agreement shall survive such expiration or termination. It is the responsibility of each Party to ensure at no additional cost to the other Party that it has obtained any necessary licenses in relation to intellectual property of third parties used in its network that may be required to enable the other Party to use any facilities or equipment (including software), to receive any service, or to perform its respective obligations under this Agreement. Notwithstanding the immediately preceding sentence, neither Party's obligations under such sentence shall exceed those required by law, regulation or regulatory or judicial decision.

i. Any intellectual property, which originates from or is developed by a Party, shall remain in the exclusive ownership of that Party.

ii. Except as provided hereunder, or as otherwise expressly provided elsewhere in this Agreement, no license is hereby granted under any patent, trademark, or copyright, nor is any such license implied, solely by virtue of the disclosure of any Confidential Information. This provision shall not require either Party to grant a license in violation of any law. Nothing in this paragraph shall relieve the Parties of their obligations and responsibilities set forth in Section 18.

22.9 The Parties agree that an impending or existing violation of any provision of this Section 22 would cause the Disclosing Party irreparable injury for which it would have no adequate remedy at law, and agree that Disclosing Party shall be entitled to obtain immediate injunctive relief prohibiting such violation, in addition to any other rights and remedies available to it at law or in equity, including both specific performance and monetary damages.

22.10 Nothing in this Section 20 or anywhere else in this Agreement shall prevent AT&T MISSOURI from using recorded usage data for the limited purposes of designing and/or maintaining AT&T's MISSOURI telecommunications network and/or ensuring that AT&T MISSOURI's telecommunications network performs properly in providing its intended telecommunications

functions and services. AT&T MISSOURI shall not use recorded usage data for any other purpose except as mutually agreed upon.

23 INTERVENING LAW

23.1 This Agreement is the result of negotiations between the Parties and may incorporate certain provisions that resulted from arbitration by the appropriate state Commission(s). In entering into this Agreement and any Amendments to such Agreement and carrying out the provisions herein, neither Party waives, but instead expressly reserves, all of its rights, remedies and arguments with respect to any orders, decisions, legislation or proceedings and any remands thereof and any other federal or state regulatory, legislative or judicial action(s), including, without limitation, its intervening law rights relating to the following actions, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further government review: the United States Supreme Court's opinion in *Verizon v. FCC*, et al, 535 U.S. 467 (2002); the D.C. Circuit's decision in *United States Telecom Association, et al. v. FCC*, 290 F.3d 415 (D.C. Cir. 2002) and following remand and appeal, USTA v. FCC 359 F.3d 554 (D.C. Cir. 2004); the FCC's Triennial Review Order, CC Docket No. 01-338, ,CC Docket No. 96-98, CC Docket No. 98-147 (FCC 03-36) and the FCC's Biennial Review Proceeding which the FCC announced, in its Triennial Review Order, is scheduled to commence in 2004; the FCC's Supplemental Order Clarification (FCC 00-183) (rel. June 2, 2000), in CC Docket 96-98; and the FCC's Order on Remand and Report and Order in CC Dockets No. 96-98 and 99-68, 16 FCC Rcd 9151 (2001), (rel. April 27, 2001) ("ISP Compensation Order"), which was remanded in *WorldCom, Inc. v. FCC*, 288 F.3d 429 (D.C. Cir. 2002), and as to the FCC's Notice of Proposed Rulemaking on the topic of Intercarrier Compensation generally, issued In the Matter of Developing a Unified Intercarrier Compensation Regime, in CC Docket 01-92 (Order No. 01-132), on April 27, 2001 (collectively, Government Actions) Except to the extent that AT&T MISSOURI has adopted the FCC ISP terminating compensation plan ("FCC Plan") in ILLINOIS, and the Parties have incorporated rates, terms and conditions associated with the FCC Plan into this Agreement, these rights also include but are not limited to AT&T MISSOURI right to exercise its option at any time to adopt on a date specified by AT&T MISSOURI the FCC Plan, after which date ISP-bound traffic will be subject to the FCC Plan's prescribed terminating compensation rates, and other terms and conditions, and seek conforming modifications to this Agreement. If any action by any state or federal regulatory or legislative body or court of competent jurisdiction invalidates, modifies, or stays the enforcement of laws or regulations that were the basis or rationale for any rate(s), term(s) and/or condition(s) ("Provisions") of the Agreement and/or otherwise affects the rights or obligations of either Party that are addressed by this Agreement, specifically including but not limited to those arising with respect to the Government Actions, the affected Provision(s) shall be immediately invalidated, modified or stayed consistent with the action of the regulatory or legislative body or court of competent jurisdiction upon the written request of either Party ("Written Notice"). With respect to any Written Notices hereunder, the Parties shall have sixty (60) days from the Written Notice to attempt to negotiate and arrive at an agreement on the appropriate conforming modifications to the Agreement. If the Parties are unable to agree upon the conforming modifications required within sixty (60) days from the Written Notice, any disputes between the Parties concerning the interpretation of the actions required or the provisions affected by such order shall be resolved pursuant to the dispute resolution process provided for in this Agreement.

24 GOVERNING LAW

24.1 Unless otherwise provided by Applicable Law, This Agreement shall be governed by and construed in accordance with the Act and the FCC's Rules and Regulations, Commission Rules and Regulations, interpreting the Act and other applicable federal law. To the extent that federal law would apply state law in interpreting this Agreement, the domestic laws of the State of Missouri shall govern, without regard to its conflicts of laws principles.

25 REGULATORY APPROVAL

25.1 The Parties understand and agree that this Agreement and any amendment or modification hereto will be filed with the Commission for approval in accordance with Section 252 of the Act and may thereafter be filed with the FCC. If any governmental authority or agency rejects any provision of this Agreement, the Parties will negotiate promptly and in good faith, in accordance with the requirements of Section 23, the revisions which may reasonably be required to achieve approval. The Parties intend that any additional services requested by either Party relating to the subject matter of this Agreement will be incorporated into this Agreement by amendment. Each amendment will be effective between the Parties on the date specified in the amendment. Each Party covenants and agrees to fully support approval of this Agreement by the Commission or the FCC under Section 252 of the Act without modification.

26 CHANGES IN END USER LOCAL EXCHANGE SERVICE PROVIDER SELECTION

26.1 Each Party will abide by applicable federal and state laws and regulations in obtaining end user customer authorization prior to changing an end user customer's Local Exchange Carrier to itself and in assuming responsibility for any applicable charges as specified inApplicable Law, including but not limited to the FCC's rules regarding Subscriber Carrier Selection Changes (47 CFR 64.1100 et. seq.). Each Party shall deliver to the other Party a representation of authorization that applies to all orders submitted by a Party under this Agreement requiring a change in an end user customer's local service provider. A Party's representation of authorization shall be delivered to the other Party prior to the first order submitted to the other Party. In accordance with Applicable Law, each Party shall retain on file all applicable letters and other documentation of authorization relating to its end user customer's selection of such Party as its LEC.

26.2 Unless otherwise allowed by Applicable Law, only an end user customer can initiate a challenge to a change in its LEC. If an end user customer notifies one Party that the end user customer requests local exchange service, and the other Party is such end user customer's LEC, then the Party receiving such request shall be free to immediately access such end user customer's CPNI subject to the requirements of Appendix OSS of this Agreement restricting access to CPNI.

26.3 The terms and conditions for the release of end user specific facilities shall be set forth in Appendix Lawful UNE of this Agreement.

27 COMPLIANCE AND CERTIFICATION

27.1 Each Party shall comply at its own expense with all Applicable Laws that relate to that Party's obligations to the other Party under this Agreement. Nothing in this Agreement shall be construed

as requiring or permitting either Party to contravene any mandatory requirement of Applicable Law.

27.2 Each Party will be responsible for obtaining all necessary state certification.

27.3 Each Party shall be responsible for obtaining and keeping in effect all approvals necessary to perform its obligations under this Agreement

27.4 Each Party will be responsible for ensuring that any equipment, facilities or services provided to the other Party under this Agreement comply with CALEA.

28 LAW ENFORCEMENT

The Parties shall handle law enforcement requests in accordance with the requirements of this Section 28.

28.1 Intercept Devices:

Local and federal law enforcement agencies periodically request information or assistance from local telephone service providers. When either Party receives a request associated with an end user customer of the other Party, it shall refer such request to the Party that serves such end user customer, unless the request directs the receiving Party to attach a pen register, trap-and-trace or form of intercept on the Party's facilities, in which case that Party shall comply with any valid request.

28.2 Subpoenas:

If a Party receives a subpoena for information concerning an end user customer the Party knows to be an end user customer of the other Party, it shall refer the subpoena to the requesting party with an indication that the other Party is the responsible company, unless the subpoena requests records for a period of time during which the Party was the end user's service provider, in which case the Party will respond to any valid request.

28.3 Emergencies:

If a Party receives a request from a law enforcement agency for temporary number change, temporary disconnect, or one-way denial of outbound calls for an end user customer of the other Party by the receiving Party's switch, that Party will comply with a valid emergency request. However, neither Party shall be held liable for any claims or damages arising from compliance with such requests on behalf of the other Party's end user customer and the Party serving such end user customer agrees to indemnify and hold the other Party harmless against any and all such claims.

29 RELATIONSHIP OF THE PARTIES/INDEPENDENT CONTRACTOR

29.1 Each Party is an independent contractor and has and hereby retains the right, subject to Section 32 of these General Terms and Conditions (Delegation to Affiliate and Subcontracting), to exercise full control of and supervision over its own performance of its obligations under this Agreement and retains full control over the employment, direction, compensation and discharge of its

employees assisting in the performance of such obligations. Each Party and each Party's contractor(s) shall be solely responsible for all matters relating to payment of such employees, including the withholding or payment of all applicable federal, state and local income taxes, social security taxes and other payroll taxes with respect to its employees, as well as any taxes, contributions or other obligations imposed by applicable state unemployment or workers' compensation acts and all other regulations governing such matters. Each Party has sole authority and responsibility to hire, fire and otherwise control its employees.

29.2 Nothing contained herein shall constitute the Parties as joint ventures, partners, employees or agents of one another, and neither Party shall have the right or power to bind or obligate the other.

29.3 Nothing herein will be construed as making either Party responsible or liable for the obligations and undertakings of the other Party. Except for provisions herein expressly authorizing a Party to act for another, nothing in this Agreement shall constitute a Party as a legal representative or agent of the other Party, nor shall a Party have the right or authority to assume, create or incur any liability or any obligation of any kind, express or implied, against or in the name or on behalf of the other Party unless otherwise expressly permitted by such other Party. Except as otherwise expressly provided in this Agreement, no Party undertakes to perform any obligation of the other Party, whether regulatory or contractual, or to assume any responsibility for the management of the other Party's business.

30 NO THIRD PARTY BENEFICIARIES; DISCLAIMER OF AGENCY

This Agreement is for the sole benefit of the Parties and their permitted assigns, and nothing herein expressed or implied shall create or be construed to create any Third Party beneficiary rights hereunder. This Agreement shall not provide any Person not a party hereto with any remedy, claim, liability, reimbursement, cause of action, or other right in excess of those existing without reference hereto.

31 ASSIGNMENT

31.1 Any assignment or delegation by either Party to any non-Affiliate entity of any right, obligation or duty, or of any other interest under this Agreement, in whole or in part, without the prior written consent of the other Party will be void. A Party assigning or delegating this Agreement or any right, obligation, duty or other interest under this Agreement to an Affiliate shall provide sixty (60) calendar days' prior written notice to the other Party. All obligations and duties of any Party under this Agreement will be binding on all successors in interest and assigns of that Party. No assignment or delegation of this Agreement (in whole or part) will relieve the assignor of its obligations under this Agreement.

31.2 Intentionally Omitted.

31.3 If during the term, AT&T MISSOURI sells, assigns or otherwise transfers any ILEC Territory or ILEC Assets to a person other than an Affiliate or subsidiary, AT&T MISSOURI shall provide MCIm not less than one hundred eighty (180) calendar days prior written notice of such sale, assignment or transfer. Upon the consummation of such sale, assignment or transfer, MCIm acknowledges that AT&T MISSOURI shall have no further obligations under this Agreement with respect to the ILEC Territories and/or ILEC Assets subject to such sale, assignment or transfer, and that MCIm must establish its own Section 251 and 252 arrangement with the successor to such ILEC

Territory and/or ILEC Assets, provided, however, that insofar as such sale, assignment or transfer affects MCIm's interests pursuant to this Agreement AT&T MISSOURI shall (i) comply with the requirements of Applicable Law and (ii) work cooperatively with MCIm and the third party acquiring the ILEC Territory or ILEC Assets regarding the potential assignment of this Agreement (in whole or in part) to such third party. For purposes of this Section 31.3, "ILEC Territory" is defined as any specific operating areas, or portion thereof, in which AT&T MISSOURI is deemed to be the ILEC under the Act and "ILEC Assets" is defined as assets that AT&T MISSOURI owns or leases which are used in connection with AT&T MISSOURI's provision to MCIm of any Interconnection, resale services, unbundled Network Elements, functions, facilities, products or services provided or contemplated under this Agreement.

32 DELEGATION TO AFFILIATE AND SUBCONTRACTING

32.1 Each Party may without the consent of the other Party fulfill its obligations under this Agreement by itself or may cause its Affiliate(s) or a third party to take some or all of such actions to fulfill such obligations. In the event of any delegation to an Affiliate or a third party pursuant to this Section 32, the delegating Party shall remain fully liable for the performance of this Agreement in accordance with its terms. Any Party, which elects to perform its obligations through an Affiliate or third party, shall cause its Affiliate or any third party to take all action necessary for the performance of such Party's obligations hereunder. Each Party represents and warrants that if an obligation under this Agreement is to be performed by an Affiliate or third party, such Party has the authority to cause such Affiliate or third party to perform such obligation and such Affiliate or third party will have the resources required to accomplish the delegated performance. No contract, subcontract or other agreement entered into by either Party with any third party in connection with the provision of local services or Lawful unbundled Network Elements hereunder shall provide for any indemnity, guarantee, assumption of liability by, or other obligation of, the other Party to this Agreement with respect to such arrangement, except as consented to in writing by the other Party. No subcontractor shall be deemed a third party beneficiary for any purposes under this Agreement.

32.2 Any subcontractor that gains access to Customer Proprietary Network Information ("CPNI") or Proprietary Information covered by this Agreement shall be required by the subcontracting Party to protect such CPNI or Proprietary Information to the same extent the subcontracting Party is required to protect such CPNI or Proprietary Information under the terms of this Agreement.

33 RESPONSIBILITY FOR ENVIRONMENTAL CONTAMINATION

33.1 Each Party will be solely responsible at it own expense for the proper handling, storage, transport, treatment, transport disposal, or any other management by or any person acting on its behalf of all Hazardous Substances and Environmental Hazards introduced to the affected work location and will perform such activities in accordance with Applicable Law.

33.2 Notwithstanding anything to the contrary in this Agreement and to the fullest extent permitted by Applicable Law, AT&T MISSOURI shall, at MCIm's request, indemnify, defend, and hold harmless MCIm, each of its officers, directors and employees from and against any losses, damages, costs, fines, penalties and expenses (including reasonable attorneys and consultant's fees) of every kind and nature to the extent they are incurred by any of those parties in connection with a claim, demand, suit, or proceeding for damages, penalties, contribution, injunction, or any other kind of

relief that is based upon, arises out of, is caused by, or results from: (i) the removal or disposal from the work location of a Hazardous Substance by AT&T MISSOURI or any person acting on behalf of AT&T MISSOURI, or the subsequent storage, processing, or other handling of such Hazardous Substances after they have been removed from the work location, (ii) the Release of a Hazardous Substance, regardless of its source, by AT&T MISSOURI or any person acting on behalf of AT&T MISSOURI, or (iii) the presence at the work location of an Environmental Hazard for which AT&T MISSOURI is responsible under Applicable Law or a Hazardous Substance introduced into the work location by AT&T MISSOURI or any person acting on behalf of AT&T MISSOURI.

33.3 Notwithstanding anything to the contrary in this Agreement and to the fullest extent permitted by Applicable Law, MCIm shall, at MCIm's request, indemnify, defend, and hold harmless MCIm, each of its officers, directors and employees from and against any losses, damages, costs, fines, penalties and expenses (including reasonable attorneys and consultant's fees) of every kind and nature to the extent they are incurred by any of those parties in connection with a claim, demand, suit, or proceeding for damages, penalties, contribution, injunction, or any other kind of relief that is based upon, arises out of, is caused by, or results from: (i) the removal or disposal from the work location of a Hazardous Substance by AT&T MISSOURI or any person acting on behalf of AT&T MISSOURI, or the subsequent storage, processing, or other handling of such Hazardous Substances after they have been removed from the work location, (ii) the Release of a Hazardous Substance, regardless of its source, by AT&T MISSOURI or any person acting on behalf of AT&T MISSOURI, or (iii) the presence at the work location of an Environmental Hazard for which AT&T MISSOURI is responsible under Applicable Law or a Hazardous Substance introduced into the work location by AT&T MISSOURI or any person acting on behalf of AT&T MISSOURI.

33.4 For the purposes of this agreement, "Hazardous Substances" means i) any material or substance that is defined or classified as a hazardous substance, hazardous waste, hazardous material, hazardous chemical, pollutant, or contaminant under any federal, state, or local environmental statute, rule, regulation, ordinance or other Applicable Law dealing with the protection of human health or the environment, ii) petroleum, oil, gasoline, natural gas, fuel oil, motor oil, waste oil, diesel fuel, jet fuel, and other petroleum hydrocarbons, or iii) asbestos and asbestos containing material in any form, and iv) any soil, groundwater, air, or other media contaminated with any of the materials or substances described above.

33.5 For the purposes of this agreement, "Environmental Hazard" means i) the presence of petroleum vapors or other gases in hazardous concentrations in a manhole or other confined space, or conditions reasonably likely to give rise to such concentrations, ii) asbestos containing materials, or iii) any potential hazard that would not be obvious to an individual entering the work location or detectable using work practices standard in the industry.

33.6 For the purposes of this agreement, "Release" means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, disposal, or other movement into i) the work location, or ii) other environmental media, including but not limited to, the air, ground or surface water, or soil.

34 FORCE MAJEURE

Neither Party shall be responsible for delays or failures in performance of any part of this Agreement (other than an obligation to make money payments) resulting from acts or occurrences beyond the reasonable control of such Party, including acts of nature, acts of civil or military authority, any law, order, regulation, ordinance of any Governmental Authority, embargoes, epidemics, terrorist acts, riots, insurrections, fires, explosions, earthquakes, nuclear accidents, hurricanes, floods, work stoppages, equipment failures, cable cuts, power blackouts, volcanic action, other major environmental disturbances, unusually severe weather conditions, inability to secure products or services of other persons or transportation facilities or acts or omissions of transportation carriers (individually or collectively, a "Force Majeure Event") or any other circumstances beyond the Party's reasonable control. If a Force Majeure Event shall occur, the Party affected shall give prompt notice to the other Party of such Force Majeure Event specifying the nature, date of inception and expected duration of such Force Majeure Event, whereupon such obligation or performance shall be suspended to the extent such Party is affected by such Force Majeure Event during the continuance thereof or, if appropriate, be excused from performance depending on the nature, severity and duration of such Force Majeure Event (and the other Party shall likewise be excused from performance of its obligations to the extent such Party's obligations relate to the performance so interfered with). The affected Party shall use its reasonable efforts to avoid or remove the cause of nonperformance and the Parties shall give like notice and proceed to perform with dispatch once the causes are removed or cease.

35 TAXES

35.1 Each Party purchasing Interconnection, Resale Services, Lawful unbundled Network Elements, Functions, Facilities, products and services under this Agreement shall pay or otherwise be responsible for all applicable Federal, state or local sales, use, excise, gross receipts, municipal fees, transfer, transaction or similar taxes, fees or surcharges (hereinafter "Tax") imposed on or with respect to, the Interconnection, Resale Services, Lawful unbundled Network Elements, functions, facilities, products and services under this Agreement provided by or to such Party, except for (a) any Tax on either party's corporate existence, status, or income or (b) any corporate franchise Taxes. Whenever possible, Taxes shall be billed as a separate item on the invoice.

35.2 With respect to any purchase of Interconnection, Resale Services, Lawful Unbundled Network Elements, functions, facilities products or services under this Agreement if any Tax is required by Applicable Law to be collected from the purchasing Party by the providing Party, then (i) the providing Party shall bill the purchasing Party for such Tax (ii) the purchasing party shall be required to pay all such taxes to the providing Party and (iii) the providing Party shall remit such collected Tax to the applicable taxing authority. Failure to include Taxes on an invoice or to state a Tax separately shall not impair the obligation of the purchasing Party to pay any Tax. Nothing shall prevent the providing Party from paying any Tax to the appropriate taxing authority prior to the time: (i) it bills the purchasing Party for such Tax, or (ii) it collects the Tax from the purchasing Party. Notwithstanding anything in this Agreement to the contrary, the purchasing Party shall be liable for and the providing Party may collect Taxes which were assessed by or paid to an appropriate taxing authority within the statute of limitations period but not included on an invoice within four (4) years after the Tax otherwise was owed or due.

35.3 With respect to any purchase hereunder of Interconnection, Resale Services, Lawful Unbundled Network Elements, functions, facilities, products or services under this Agreement that are resold to a third party, if any Tax is imposed by Applicable Law on the End User in connection with any

such purchase, then: (i) the purchasing Party shall be required to impose and/or collect such Tax from the End User; and (ii) the purchasing Party shall remit such Tax to the applicable taxing authority. The purchasing Party agrees to indemnify and hold harmless the providing Party for any costs incurred by the providing Party as a result of actions taken by the applicable taxing authority to collect the Tax from the providing Party due to the failure of the purchasing Party to pay or collect and remit such tax to such authority.

35.4 Intentionally Omitted.

35.5 Intentionally Omitted.

35.6 If the providing Party fails to bill or to collect any Tax as required herein, then, as between the providing Party and the purchasing Party: (i) the purchasing Party shall remain liable for such uncollected Tax; and (ii) the providing Party shall be liable for any penalty and interest assessed with respect to such uncollected Tax by such authority. However, if the purchasing Party fails to pay any Taxes properly billed, then, as between the providing Party and the purchasing Party, the purchasing Party will be solely responsible for payment of the Taxes, penalty and interest.

35.7 If the purchasing Party fails to impose and/or collect any Tax from End Users as required herein, then, as between the providing Party and the purchasing Party, the purchasing Party shall remain liable for such uncollected Tax and any interest and penalty assessed thereon with respect to the uncollected Tax by the applicable taxing authority. With respect to any Tax that the purchasing Party has agreed to pay or impose on and/or collect from End Users, the purchasing Party agrees to indemnify and hold harmless the providing Party for any costs incurred by the providing Party as a result of actions taken by the applicable taxing authority to collect the Tax from the providing Party due to the failure of the purchasing Party to pay or collect and remit such Tax to such authority

35.8 If either Party is audited by a taxing authority or other Governmental Authority, the other Party agrees to reasonably cooperate with the Party being audited in order to respond to any audit inquiries in a proper and timely manner so that the audit and/or any resulting controversy may be resolved expeditiously.

35.9 To the extent a sale is claimed to be for resale and thus subject to tax exemption, the purchasing Party shall furnish the providing Party a proper resale tax exemption certificate as authorized or required by statute or regulation of the jurisdiction providing said resale tax exemption. Failure to timely provide said resale tax exemption certificate will result in no exemption being available to the purchasing Party for any period prior to the date that the purchasing Party presents a valid certificate. If Applicable Law excludes or exempts a purchase of Interconnection, Resale Services, Lawful Unbundled Network Elements, functions, facilities, products and services under this Agreement from a Tax, but does not also provide an exemption procedure, then the providing Party will not collect such Tax if the purchasing Party (a) furnishes the providing Party with a letter signed by an officer of the purchasing Party claiming an exemption and identifying the Applicable Law that both allows such exemption and does not require an exemption certificate; and (b) supplies the providing Party with an indemnification agreement, reasonably acceptable to the providing Party, which holds the providing Party harmless from any tax, interest, penalties, loss, cost or expense with respect to forbearing to collect such Tax.

35.10 With respect to any Tax or Tax controversy covered by this Section 35, either Party is entitled to contest with the imposing jurisdiction, pursuant to Applicable Law and at its own expense, any Tax that it is ultimately obligated to pay or collect, or to seek refund of Taxes that it has previously paid. The Parties will cooperate in any such contest. The Purchasing Party will ensure that no lien is attached to any asset of the other Party as a result of any contest. The purchasing Party shall be entitled to the benefit of any refund or recovery of amounts that it had previously paid resulting from such a contest. Amounts previously paid by the providing Party shall be refunded to the providing Party. The providing Party will cooperate in any such contest.

35.11 All notices, affidavits, exemption certificates or other communications required or permitted to be given by either Party to the other under this Section 35 shall be sent in accordance with Section 19, Notices, hereof.

36 NON-WAIVER

No waiver of any provision of this Agreement and no consent to any default under this Agreement shall be effective unless the same is in writing and properly executed by or on behalf of the Party against whom such waiver or consent is claimed. Waiver by either Party of any default by the other Party shall not be deemed a waiver of any other default. Failure of either Party to insist on performance of any term or condition of this Agreement or to exercise any right or privilege hereunder shall not be construed as a continuing or future waiver of such term, condition, right or privilege. No course of dealing or failure of any Party to strictly enforce any term, right, or condition of this Agreement in any instance shall be construed as a general waiver or relinquishment of such term, right or condition.

37 INTENTIONALLY OMITTED

38 INTENTIONALLY OMITTED

39 INTENTIONALLY OMITTED

40 CUSTOMER INQUIRIES

40.1 Each Party will refer all questions regarding the other Party's services or products directly to the other Party at a telephone number specified by that Party.

40.2 Each Party will ensure that all of its representatives who receive inquiries regarding the other Party's services:

40.2.1 Provide the number described in Section 40.1 to callers who inquire about the other Party's services or products; and

40.2.2 Do not in any way disparage or discriminate against the other Party or its products or services.

40.3 Except as otherwise provided in this Agreement, MCIm shall be the primary point of contact for MCIm's end user customers with respect to the services MCIm provides such end user customers.

40.4 Customer Contact. MCIm will provide the exclusive interface to MCIm end user customers concerning service provided by MCIm, except as MCIm may otherwise specify. When MCIm requires AT&T MISSOURI personnel or systems to interface with MCIm end user customers, the AT&T MISSOURI personnel shall identify themselves as representing MCIm, or any brand as MCIm may specify, and shall not identify themselves as representing AT&T MISSOURI or any other entity.

41 EXPENSES

41.1 Except as expressly set forth in this Agreement, each Party will be solely responsible for its own expenses involved in all activities related to the matters covered by this Agreement.

42 CONFLICT OF INTEREST

The Parties represent that no employee or agent of either Party has been paid a fee, or otherwise received any compensation or consideration from the other Party, in connection with the negotiation of this Agreement or any associated documents.

43 SURVIVAL

The Parties' obligations under this Agreement which by their nature are intended to continue beyond the termination or expiration of this Agreement (or to be performed after) shall survive the termination or expiration of this Agreement. Without limiting the general applicability of the foregoing, the following terms and conditions of the General Terms and Conditions are specifically agreed by the Parties to continue beyond the termination or expiration of this Agreement: Indemnification, Confidential Information, Limitation of Liability, Deposits, Non-payment and Disconnection, Dispute Resolution and any liability or obligations of a Party for acts or omissions prior to the expiration or termination of this Agreement.

44 INTENTIONALLY OMITTED

45 AMENDMENTS AND MODIFICATIONS

45.1 No provision of this Agreement shall be deemed amended or modified by either Party unless such an amendment or modification is in writing, dated, and signed by an authorized representative of both Parties. The rates, terms and conditions contained in the amendment shall become effective upon approval of such amendment by the Commission and such amendment will not require refunds, true-up or retroactive crediting or debiting prior to the approval of the Amendment unless agreed to by the Parties or specifically ordered by the Commission.

45.2 Neither Party shall be bound by any preprinted terms additional to or different from those in this Agreement that may appear subsequently in the other Party's form documents, purchase orders, quotations, acknowledgments, invoices or other communications.

46 INTENTIONALLY OMITTED

47 INTENTIONALLY OMITTED

48 AUTHORITY

48.1 AT&T MISSOURI represents and warrants that it is a Limited Partnership duly organized, validly existing and in good standing under the laws of the state of Missouri. AT&T MISSOURI represents and warrants that AT&T Operations, Inc. has full power and authority to execute and deliver this Agreement as agent for AT&T MISSOURI. AT&T MISSOURI represents and warrants that it has full power and authority to perform its obligations hereunder.

48.2 MCIm represents that it is a corporation duly organized, validly existing and in good standing under the laws of the State of Delaware and has full power and authority to execute and deliver this Agreement and to perform its obligations hereunder. MCIm represents that it is certified as a LEC by the Commission prior to submitting any orders hereunder and is authorized to provide the Telecommunications Services contemplated hereunder in the territory contemplated hereunder prior to submission of orders for such service.

49 COUNTERPARTS

This Agreement may be executed in counterparts. Each counterpart shall be considered an original and such counterparts shall together constitute one and the same instrument.

50 ENTIRE AGREEMENT

The terms contained in this Agreement and all Appendices, Attachments, Exhibits, Schedules, and Addenda constitute the entire agreement between the Parties with respect to the subject matter hereof, superseding all prior understandings, proposals and other communications, oral or written between the Parties during the negotiations of this Agreement and through the execution and/or Effective Date of this Agreement. This Agreement shall not operate as or constitute a novation of any agreement or contract between the Parties that predates the execution and/or Effective Date of this Agreement.

51 PURCHASING FROM TARIFFS

If AT&T MISSOURI has approved tariffs on file for interconnection or wholesale services, MCIm may purchase services from AT&T MISSOURI from this interconnection agreement, the approved tariffs or both in MCIm's sole discretion.

GENERAL DEFINITIONS

For purposes of this Agreement, certain terms have been defined in this Appendix and elsewhere in this Agreement to encompass meanings that may differ from, or be in addition to, the normal connotation of the defined word. Unless the context clearly indicates otherwise, any term defined or used in the singular shall include the plural. The words "shall" and "will" are used interchangeably throughout this Agreement and the use of either connotes a mandatory requirement. The use of one or the other shall not mean a different degree of right or obligation for either Party. A defined word intended to convey its special meaning is capitalized when used. Other terms that are capitalized, and not defined in this Agreement, shall have the meaning set forth in the Act, unless the context clearly indicates otherwise. The definitions contained in this Appendix are meant to accurately describe the meaning accorded the term as required by the Act and as used in this Agreement. In the event of any disagreement between a definition of the term in the Act, in this Appendix, or in any other part of the Agreement (including the Attachments), the definition in the Act shall supersede any definition in the Agreement or Appendices, and any specific definition in an Appendix other than this Appendix shall supersede the definition in this Appendix. Throughout this Agreement and its Appendices, various diagrams are used. The diagrams are illustrative only, and, in the event of any disagreement between the diagram and the words of this Agreement, the words of this Agreement shall control.

"Act" means the Communications Act of 1934 [47 U.S.C. 151 et seq.], as amended by the Telecommunications Act of 1996, codified throughout 47 U.S.C.

"Access Service Request" (ASR) is an industry standard form and supporting documentation used by the Parties to order Switched Access Service and/or to add, establish, change or disconnect Trunks for the purposes of Interconnection.

"ACNA" means Access Customer Name Abbreviation and is a three digit alpha code assigned to identify carriers (including both ILECs AND CLECs) for billing and other identification purposes.

"Advanced Intelligent Network" or "AIN" is a Telecommunications network architecture in which call processing, call routing and network management are provided by means of centralized databases.

"Affiliate" is as defined in the Act.

"Alliance for Telecommunications Industry Solutions" (ATIS) is a North American telecommunication industry standards forum which, through its committees and working groups, creates and publishes standards and guidelines designed to enable interoperability for telecommunications products and services. ATIS Standards and Guidelines, as well as the standards of other industry fora, are referenced herein as baseline requirements documentation.

"Alternate Billing Service" (ABS) means a service that allows end user customers to bill calls to accounts that may not be associated with the originating line. There are three types of ABS calls: calling card, collect and third number billed calls.

"Applicable Law" means all laws, statutes, common law, regulations, ordinances, codes, rules, guidelines, orders and permits, including those relating to the environment or health and safety, of any Governmental Authority that apply to the Parties or the subject matter of this Agreement.

"Automated Message Accounting" (AMA) is a structure inherent in switch technology that initially records Telecommunication message information. AMA format is contained in the Automated Message Accounting

document published by Telcordia (formerly known as Bellcore) as GR-1100-CORE, which defines and amends the industry standard for message recording.

"Automatic Number Identification" or (ANI) identifies the telephone number associated with the line from which a call originates. ANI usually identifies the same number as the Calling Party Number (CPN).

"Automatic Route Selection" (ARS) is a service feature that provides for automatic selection of the least expensive or most appropriate transmission facility for each call based on criteria programmed into a circuit switch routing table or system.

"Billing" involves the provision of appropriate usage data by one Telecommunications Carrier to another to facilitate end user customer Billing with attendant documentation. It also involves the exchange of information between Telecommunications Carriers to process claims and adjustments.

"Billed Number Screening" (BNS) means a validation of Toll Billing Exception (TBE) data and performance of public telephone checks; i.e., determining if a billed line is a public (including those classified as semi-public) telephone number.

"Business Day" means Monday through Friday, excluding holidays in which banks and government offices are closed.

"Calling Party Number" (CPN) means a Common Channel Signaling (CCS) parameter, as for example a Signaling System 7 (SS7) parameter, whereby the ten (10) digit number or other number of the calling Party is forwarded from the End Office through the network.

"Carrier" see Telecommunications Carrier.

"Carrier Access Billing System" (CABS) is defined in a document prepared under the direction of the Billing Committee of the Ordering and Billing Forum (OBF) of ATIS. The CABS document is published by Telcordia Technologies in Volumes 1, 1A, 2, 3, 3A, 4 and 5 as Special Reports SR-OPT-001868, SR-OPT-001869, SR-OPT-001871, SR-OPT-001872, SR-OPT-001873, SR-OPT-001874, and SR-OPT-001875, respectively, and contains the recommended guidelines for the Billing of switched access service and other connectivity issues.

"Central Office" means a building or space within a building where transmission facilities or circuits are connected or switched.

"Centrex" means a Telecommunications Service that uses Central Office switching equipment for call routing to handle direct dialing of calls, and to provide many private branch exchange-like, features.

"Collocation" is as described by Applicable Law.

"Commercial Mobile Radio Service" (CMRS) is as defined in the Act.

"Commingling" means the connecting, attaching, or otherwise linking of an unbundled Network Element, or Combination of unbundled Network Elements, to one or more facilities or services that MCIm has obtained at wholesale from AT&T MISSOURI, or the combining of an Unbundled Network Element, or a combination of Unbundled Network Elements, with one or more such facilities or services. "Commingle" means the act of commingling.

"Commission" means the Missouri Public Service Commission.

"Common Channel Signaling" (CCS) means a method of exchanging call set-up and network control data over a digital signaling network used to transport supervision signals, control signals and data messages. It is a special network, fully separate from the transmission path of the public switched network that carries the actual call. Unless otherwise agreed by the Parties, the preferred CCS protocol used by the Parties shall be SS7.

"Common Language Location Identifier" (CLLI) codes provide a unique 11-character representation of a network interconnection point. The first 8 characters identify the city, state and building location, while the last 3 characters identify the network component.

"Communications Assistance for Law Enforcement Act" (CALEA) refers to the duties and obligations of Carriers to assist law enforcement agencies by intercepting communications and records, and installing pen registers and trap and trace devices.

"Competitive Local Exchange Carrier" (CLEC) is any Local Exchange Carrier certified to provide Local Exchange Telecommunications Service in any area where it is not an Incumbent Local Exchange Carrier.

"Conduit" means a tube or other similar enclosure that may be used to house copper, fiber or coaxial communications cables or communications-related power cables. Conduits may be underground or above ground (for example, inside buildings) and may contain one or more inner ducts. An inner duct is a separate tube or enclosure within a Conduit.

"Control Office" is the operations center or office designated by either Party as its single point of contact for the provisioning and maintenance of its portion of this Agreement.

"Coordinated Cutover" means the coordination of all cutover activities that may be associated with porting of a telephone number from the old service provider to the new service provider, which coordination may include, but not limited to, notification of when the old service provider starts the cutover and finishes the cutover, coordination of testing, and working with the new service provider to ensure that the cutover is properly performed and completed.

"Cross Connection" means an intra-Wire Center channel of the appropriate bandwidth and media, connecting separate pieces of Telecommunications Equipment, including jumpers and intraoffice cables.

"Customer Usage Data" means the Telecommunications Services usage data of an end user customer measured in minutes, sub-minute increments, message units, or otherwise, that is recorded by one Party and forwarded to the other Party.

"Custom Local Area Signaling Service Features" (CLASS) means certain call-management service features available to end user customers within a Local Access and Transport Area ("LATA"), including but not limited to: Automatic Call Back; Automatic Recall; Call Trace; Calling Number Delivery; Customer Originated Trace; Distinctive Ringing/Call Waiting; Selective Call Forward; and Selective Call Rejection.

"Desired Due Date" means the desired service activation date as requested by MCIm on a service order.

"Dialing Parity" is as defined in the Act.

"Digital Signal Level" is one of several transmission rates in the time-division multiplex hierarchy.

"Digital Signal Level 0" (DS-0) is the 64 Kbps zero-level signal in the time-division multiplex hierarchy.

"Digital Signal Level 1" (DS-1) is the 1.544 Mbps first-level signal in the time-division multiplex hierarchy. In the time-division multiplexing hierarchy of the telephone network, DS-1 is the initial level of multiplexing.

"Digital Signal Level 3" (DS-3) is the 44.736 Mbps third-level signal in the time-division multiplex hierarchy. In the time-division multiplexing hierarchy of the telephone network, DS-3 is defined as the third level of multiplexing.

"End Office Switch" or "End Office" means a Switch that directly terminates traffic to and receives traffic from local exchange service customers. An End Office Switch does not include a PBX.

"Enhanced Extended Link" ("EEL") consists of a Combination of an unbundled Loop and unbundled Dedicated Transport, together with any facilities, equipment, or functions necessary to combine those unbundled Network Elements, with or without multiplexing capabilities.

"Enhanced Service Provider" (ESP) is a provider of enhanced services as those services are defined in the Act.

"Exchange Access" is as defined in the Act.

"Exchange Message Interface" (EMI) (formerly Exchange Message Record - EMR) is the standard used for exchange of Telecommunications message information among Telecommunications Carriers for billable, non-billable, sample, settlement and study data. EMI format is contained in Telcordia Practice BR-010-200-010, CRIS Exchange Message Record.

"Exchange Service" means Telephone Exchange Service, as defined in the Act.

"Feature Group D" or "FGD" is access available to all customers, providing Trunk side access to a Party's End Office Switches with an associated uniform 101XXXX access code for Customer use in originating and terminating communications.

"Governmental Authority" means any federal, state or local, court, government, department, commission, board, bureau, agency, official or other regulatory, administrative, legislative or judicial authority with jurisdiction over the subject matter at issue.

"Group Record" means information in LIDB and/or the LIDB administrative system that is common to all telephone numbers in an NPA-NXX or all special billing numbers in an NPA-0/1XX.

"Incumbent Local Exchange Carrier" (ILEC) is as defined in the Act.

"Information Service" means the offering of a capability for generating, acquiring, storing, transforming, processing, retrieving, utilizing, or making available information via telecommunications, and includes electronic publishing, but does not include any use of any such capability for the management, control, or operation of a telecommunications system or the management of a telecommunications service.

"Integrated Digital Loop Carrier" or "IDLC" means a subscriber loop carrier system that is twenty-four (24) local Loop transmission paths combined into a 1.544 Mbps digital signal which integrates within the switch at a DS1 level.

"Integrated Services Digital Network" (ISDN) means a digital circuit switched network service. Basic Rate Interface-ISDN (BRI-ISDN) provides for a digital channelized transmission of two 64 Kbps bearer channels and one 16 Kbps data channel (2B+D) end-to-end digital connectivity for the transmission of voice or data on either or both bearer channels and packet data on the data channel. Primary Rate ISDN provides for 23 bearer channels and 1 data

channel. For BRI, the bearer channels operate at 64 Kbps and the data channel at 16 Kbps. For PRI, all 24 channels operate at 64 Kbps or 1.5 Mbps.

“Interconnection" is the linking of two networks for the mutual exchange of traffic. This term does not include the transport and termination of traffic.

“Interexchange Carrier” (IXC) means a Telecommunication Carrier that provides interLATA or intraLATA Telephone Toll Services.

“InterLATA” is as defined in the Act.

“Interlata Traffic” describes Telecommunications between a point located in a Local Access and Transport Area (LATA) and a point located outside such area.

“Intralata Toll Traffic” describes IntraLATA Traffic between two locations within one LATA where one of the locations lies outside the local calling area defined by the tariff on file with the Commission.

“Local Access Transport Area” (LATA) is as defined in the Act.

“Local Exchange Carrier” (LEC) is as defined in the Act.

“Local Exchange Routing Guide” (LERG) is a Telcordia Reference document used by Telecommunications Carriers to identify NPA-NXX routing and homing information as well as network Element and equipment designations.

“Local Routing Number” (LRN) is a ten (10) digit number that is assigned to the network switching elements (Central Office – Host and Remotes as required) for the routing of calls in the network. The first six (6) digits of the LRN will be one of the assigned NPA NXX of the switching element. The purpose and functionality of the last four (4) digits of the LRN have not yet been defined but are passed across the network to the terminating switch.

“Local Service Ordering Guide” (LSOG) is a document developed by the OBF to establish industry-wide ordering and billing processes.

“Local Service Request” (LSR) means the industry standard forms and supporting documentation used for ordering local services.

“Main Distribution Frame” (MDF) means the distribution frame of the Party providing the loop used to Interconnect cable pairs and line and trunk equipment terminals.

"MECAB" refers to the Multiple Exchange Carrier Access Billing document developed by the Billing Committee of the Alliance for Telecommunications Industry Solutions' (ATIS) Ordering and Billing Forum (OBF). The MECAB document, published by ATIS as ATIS/OBF-MECAB- Issue 7, February 2001, contains the recommended guidelines for the billing of access and interconnection services provided to a customer by two or more providers or by one provider in two or more states within a single LATA.

"MECOD" refers to the Multiple Exchange Carriers Ordering and Design (MECOD) Guidelines for Access Services document developed by the Interconnection Services Ordering & Provisioning (ISOP) Committee of the Alliance for Telecommunications Industry Solutions' (ATIS) Ordering and Billing Forum (OBF). The MECOD document, published by ATIS as ATIS/OBF-MECOD-Issue 5, February 2002, establishes methods for processing orders for access service which is to be provided to an Interexchange Carrier (IC) by two or more Exchange Carriers (ECs).

"Meet Point" is a point of Interconnection between two networks, designated by two Telecommunications Carriers, at which one carrier's responsibility for service begins and the other carrier's responsibility ends.

"Meet-Point Billing" (MPB) refers to the billing arrangement whereby two or more Telecommunications Carriers jointly provide Switched Exchange Access Service to an IXC, with each LEC billing the IXC its tariffed rate for the portion of Switched Exchange Access Service it provided to the IXC.

"Network Data Mover" (NDM) is an industry standard protocol for the electronic transfer of information.

"Network Element" is as defined in the Act.

"Non-Qualifying Service" is a service that is not a Qualifying Service (defined below).

"North American Numbering Plan" (NANP) A numbering architecture employed in the United States, Canada and certain Caribbean countries in which every station in the NANP Area is identified by a unique ten-digit address consisting of a three-digit NPA code, a three digit central office code of the form NXX, and a four-digit line number of the form XXXX.

"Numbering Plan Area" (NPA) also called area code. An NPA is the 3-digit code that occupies the A, B, C positions in the 10-digit NANP format that applies throughout the NANP Area. NPAs are of the form NXX, where N represents the digits 2-9 and X represents any digit 0-9. In the NANP, NPAs are classified as either geographic or non-geographic. a) Geographic NPAs are NPAs which correspond to discrete geographic areas within the NANP Area. b) Non-geographic NPAs, also known as a "Service Access Codes" (SAC Codes) are NPAs that do not correspond to discrete geographic areas, but which are instead assigned for services with attributes, functionalities, or requirements that transcend specific geographic boundaries. The common examples of non-geographic NPAs in the N00 format include 500, Toll Free Service NPAs, 700, and 900.

"Number Portability Administration Center" (NPAC) means one of the seven regional number portability centers involved in the dissemination of data associated with ported numbers. The NPACs were established for each of the seven, original Bell Operating Company regions so as to cover the 50 states, the District of Columbia and the U.S. territories in the North American Numbering Plan area.

"NXX" or "Central Office Code" is the three-digit switch entity indicator that is defined by the fourth through sixth digits of a 10-digit telephone number within the NANP. Each NXX Code contains 10,000 station numbers.

"Originating Point Code" (OPC) means a code assigned to identify CLEC's system(s) that originate SS7 messages, including LIDB Service Queries.

"Parity" means the provision of a service or access to service that is at least equal in quality, timing, priority, functionality and capabilities to that which AT&T MISSOURI provides itself, its customers, subsidiaries, Affiliates or any third party.

"Party" means either AT&T MISSOURI or MCIm. "Parties" means both AT&T MISSOURI and MCIm.

"Plain Old Telephone Service" (POTS) means basic telephone service.

"Public Switched Network" or "Public Switched Telecommunications Network" (PSTN) includes all switches and transmission facilities, provided by any Telecommunications Carriers that use the NANP in connection with the provision of Telecommunications Services.

"Qualifying Service" is a telecommunications service that competes with a telecommunications service that has been traditionally the exclusive or primary domain of Incumbent LECs, including, but not limited to, local exchange service, such as plain old telephone service, and access services, such as digital subscriber line services and high-capacity circuits.

"Rate Center" means the specific geographic area that has been designated by a given LEC as being associated with a particular NPA-NXX code that has been assigned to the LEC for its provision of Telephone Exchange Service. The Rate Center is the finite geographic point identified by a specific V&H coordinate, which is used by that LEC to measure, for billing purposes, distance sensitive transmission services associated with the specific Rate Center.

"Rating Point" means the V&H coordinates associated with a particular telephone number for rating purposes.

"Remote Terminal" or "RT" means a controlled environmental vault, hut, or cabinet, which may or may not contain fiber fed digital loop carrier (DLC).

"Service Management System" (SMS) means an off-line system used to access, create, modify or update information in a database.

"Signaling System 7" (SS7) means a signaling protocol used by the CCS network.

"Switch" means a mechanical, electrical or electronic device which opens and closes circuits, completes or breaks an electrical path, or select paths or circuits.

"Switched Exchange Access Service" means the offering of transmission or switching services to Telecommunications Carriers for the purpose of the origination or termination of Telephone Toll Service. Switched Exchange Access Services include, but are not limited to, Feature Group A, Feature Group B, Feature Group D, 800/888 access, and 900 access and their successors and/or similar Switched Exchange Access Services.

"Synchronous Optical Network" (SONET) is an optical interface standard that allows inter-networking of transmission products from multiple vendors. The base rate is 51.84 Mbps ("OC-1/STS-1") and higher rates are direct multiples of the base rate, up to 13.22 Gbps.

"Tandem Office Switch" or "Tandem" means a Switch used to connect and switch Trunk circuits between and among other Central Office Switches. A Tandem Switch does not include a PBX.

"Technically Feasible", including burden of proof, is as defined in applicable FCC regulations and Applicable Law.

"Telecommunications" is as defined in the Act.

"Telecommunications Carrier" is as defined in the Act.

"Telecommunications Equipment" is as defined in the Act.

"Telecommunications Service" is as defined in the Act.

"Telephone Exchange Service" is as defined in the Act.

"Telephone Toll Service" is as defined in the Act.

"TELRIC" means Total Element Long-Run Incremental Cost.

"Third Party" means any person other than a Party.

"Toll Free Service" is service provided with any dialing sequence that invokes toll-free, 800-like, service processing (e.g., 800 or 800-like services). Toll Free Service includes, but is not limited to, calls placed to 800/888 NPA Service Access Codes (SAC).

"Trunk" means a communication line connecting two switching systems.

"Wire Center" means the physical structure where AT&T MISSOURI terminated subscriber outside cable plant (i.e. their local lines) with the necessary testing facilities to maintain them. This is usually the same location as a Class 5 central office. A Wire Center might have one or several Class 5 central offices, also called public exchanges or simply switches.

BONA FIDE REQUEST ("BFR") PROCESS

TABLE OF CONTENTS

1. GENERAL CONDITIONS 3
2. BFR APPLICATION FORM 3
3. RESPONSIBILITIES OF THE PARTIES 3
4. PRICES 5

1. GENERAL CONDITIONS

1.1 Unless another procedure or process is specifically prescribed elsewhere in this Agreement or by order of the Commission, this Appendix shall govern the submission of requests by MCIm to AT&T MISSOURI for methods of interconnection, access to Lawful unbundled Network Elements (including Combinations thereof), or customized services required to be provided by AT&T MISSOURI but are not available under this Agreement at the time of such request. This Bona Fide Request ("BFR") process applies to each Bona Fide Request submitted to AT&T MISSOURI.

1.2 If a Party to a Bona Fide Request believes that the other Party is not requesting, negotiating, or processing the Bona Fide Request in good faith, or disputes a determination, or price or cost quote, or is failing to act in accordance with the Act, such Party may exercise its rights under the Dispute Escalation and Resolution sections of this Agreement or may otherwise seek mediation by the Commission, including the use of any expedited procedures, pursuant to Section 252 of the Act, after giving the other Party written notice at least five (5) calendar days in advance of invoking the Dispute Escalation and Resolution .

2. BFR APPLICATION FORM

2.1 All Bona Fide Request must be submitted with a BFR Application Form as that form is set forth on https://clec.att.com//clec//. Included with the Application MCIm shall provide a technical description of each BFR Item, drawings when applicable, the location(s) where needed, the date required, and the projected quantity to be ordered with a non-binding three (3) year forecast.

3. RESPONSIBILITIES OF THE PARTIES

3.1 AT&T MISSOURI shall promptly consider and analyze the submission of a Bona Fide Request from MCIm for: (a) a method of Interconnection or access to a Lawful unbundled Network Element (including Combinations thereof) not otherwise provided hereunder at the time of such request; (b) a method of Interconnection or access to a Lawful unbundled Network Element (including Combinations thereof) that is different in quality to that which AT&T MISSOURI provides itself at the time of such request; (c) a customized service for features, capabilities, functionalities or a Lawful unbundled Network Element or Network Element Combination not otherwise provided hereunder at the time of such request. Items (a), (b) and (c) above may be referred to as a "BFR Item".

3.2 MCIm may cancel a Bona Fide Request at any time by written notice to AT&T MISSOURI, but will pay AT&T MISSOURI, as specified below, for reasonable costs incurred by AT&T in its preparation of the Preliminary Analysis or BFR Quote, up to and including the date of AT&T MISSOURI's receipt of the cancellation.

3.3 Analysis of the BFR

3.3.1 MCIm is responsible for the reasonable costs incurred by AT&T MISSOURI to prepare the Preliminary Analysis of MCIm's BFR. When submitting a BFR Application Form, MCIm has two options to compensate AT&T MISSOURI for its costs incurred to complete the Preliminary Analysis of the BFR:

3.3.1.1 Include with its BFR Application Form a Deposit, which Deposit will be in the amount of two thousand dollars ($2,000), unless a different BFR deposit amount applicable to this Agreement has been established by the Commission, to cover AT&T's MISSOURI's preliminary evaluation costs, in which case AT&T MISSOURI may not charge MCIm in excess of the Deposit to complete the Preliminary Analysis; or

3.3.1.2 Not make the Deposit in which case MCIm shall be responsible for all reasonable costs incurred by AT&T MISSOURI to complete the Preliminary Analysis (regardless of whether such costs are greater or less than the Deposit amount).

3.3.2 If MCIm submits a Deposit with its BFR, and AT&T MISSOURI is not able to process the BFR or determines that the BFR does not qualify for BFR treatment, then AT&T MISSOURI will return the Deposit to MCIm. Similarly, if the costs incurred to complete the Preliminary Analysis are less than the Deposit amount, the balance of the Deposit will, at the option of MCIm, either be refunded or credited toward additional developmental costs authorized by MCIm. If MCIm cancels the BFR prior to completion of the Preliminary Analysis and a Deposit has been made by MCIm, and the reasonable costs are less than the Deposit amount, the remaining balance of the Deposit will be returned to MCIm.

3.3.3 AT&T MISSOURI will promptly consider and analyze each BFR it receives. Within ten (10) Business Days of its receipt of a complete and accurate BFR, and if applicable a $2000 deposit, AT&T MISSOURI shall acknowledge in writing or by facsimile receipt of the Bona Fide Request and in such acknowledgement advise MCIm of the need for any further information needed to process the Request. If deemed necessary by either of the Parties, a meeting will be convened within five (5) Business Days, or as otherwise mutually agreed, of MCIm's receipt of the BFR acknowledgement at which the Parties will come to agreement on all additional information needed to process the BFR. MCIm will provide an updated BFR application to include the additional information. MCIm acknowledges that the time intervals set forth in this Appendix begin once AT&T MISSOURI has received a complete and accurate BFR Application Form and, if applicable, the Deposit amount.

3.3.4 Within thirty (30) calendar days of its receipt of a complete and accurate Bona Fide Request, AT&T MISSOURI shall provide to MCIm a Preliminary Analysis of the BFR Item (the "Preliminary Analysis"). The Preliminary Analysis shall respond in one of the following ways:

3.3.4.1 indicate that AT&T MISSOURI will offer the Request; or

3.3.4.2 advise MCIm that it will not offer the Request. If AT&T MISSOURI indicates it will not offer the Request, AT&T MISSOURI will provide a detailed explanation that access to such BFR Item is not technically feasible and/or that the request does not qualify as one that is required to be provided under the Act; or that the BFR is not the correct process for the request.

3.4 Bona Fide Request Quote

3.4.1 If the Preliminary Analysis indicates that AT&T MISSOURI will provide the BFR Item, MCIm may, at its discretion, provide written authorization for AT&T MISSOURI to prepare a "BFR Quote". The BFR Quote shall, as applicable, include: (i) the first date of availability, (ii) installation intervals, (iii) applicable rates (recurring, nonrecurring and other), (iv) BFR development and processing costs, (v) terms and conditions by which the Request shall be made available, and (vi) any other information AT&T MISSOURI deems relevant to MCIm's request for the BFR Item.

3.4.1.1 MCIm's written authorization to develop the BFR Quote must be received by AT&T MISSOURI within thirty (30) calendar days of MCIm's receipt of the Preliminary Analysis. If no authorization to proceed is received within such thirty (30) calendar day period, the BFR will be deemed canceled, subject to MCIm's obligation to pay AT&T MISSOURI's reasonable costs incurred for the Preliminary Analysis as set forth herein. Any request by MCIm for AT&T MISSOURI to proceed with the preparation of the BFR Quote received after the thirty (30) calendar day window will require MCIm to submit a new BFR.

3.4.1.2 As soon as feasible, but not more than ninety (90) (calendar) days after its receipt of authorization to prepare the BFR Quote, AT&T MISSOURI shall provide to MCIm a BFR Quote.

3.4.2 Within thirty (30) days of its receipt of the Bona Fide Request Quote, MCIm must either confirm its order for the BFR Item pursuant to the Bona Fide Request Quote or cancel the Bona Fide Request and reimburse AT&T MISSOURI for its reasonable costs incurred up to the date of cancellation, in the preparation of the BFR Quote. If MCIm believes AT&T MISSOURI's BFR Quote is inconsistent with the requirements of the Act, it may exercise its rights under the Dispute Escalation and Resolution sections of the Agreement. If, AT&T MISSOURI does not receive notice of confirmation or cancellation of the BFR within such thirty (30) calendar day period, the BFR shall be deemed canceled and MCIm will reimburse AT&T MISSOURI for its reasonable costs incurred up to the date of cancellation in preparing the BFR Quote.

4. PRICES

3.5 Unless MCIm agrees otherwise, all prices and costs quoted or invoiced herein shall be consistent with the pricing principles of the Act, the FCC and/or the Commission.

APPENDIX PHYSICAL COLLOCATION

TABLE OF CONTENTS

1. COLLOCATION TERMS 3
2. INTENTIONALLY OMITTED 3
3. METERED POWER 3

1. COLLOCATION TERMS

1.1 AT&T MISSOURI shall provide, and MCIm agrees to purchase, Collocation in accordance with the requirements of the version of AT&T MISSOURI's Local Access Tariff P.S.C. MO. No. 42, Section 2, Physical Collocation and AT&T MISSOURI's Local Access Tariff P.S.C. MO. No. 42, Section 3, Virtual Collocation.

1.2 Any changes to the Tariff made by AT&T MISSOURI and filed with the Commission shall affect the terms, conditions and prices of this Appendix Collocation at the same time Tariff changes are made effective for all CLECs operating from the tariff in MISSOURI, without the need of written Amendment.

2. INTENTIONALLY OMITTED

3. METERED POWER

3.1 Charges for power will be assessed per ampere per month, based upon the actual amperes used, at the rates set forth in Appendix Pricing. When obtaining power from an AT&T MISSOURI battery distribution fuse bay, fuses and power cables (A&B) must be engineered (sized), and installed by MCIm's certified vendor at MCIm's expense.

APPENDIX VIRTUAL COLLOCATION

2. GENERAL TERMS AND CONDITIONS 3
3. INTENTIONALLY OMITTED 4
4. USE OF DIRECTORY ASSISTANCE LISTING INFORMATION 4
5. EMERGENCY NOTIFICATION SERVICE FOR NON-PUBLISHED TELEPHONE NUMBERS 4
6. PRICING 5
7. INTENTIONALLY OMITTED 5
8. LIABILITY 5

1. INTRODUCTION

1.1 AT&T MISSOURI agrees to provide Directory Assistance Listing Information ("DALI") under the following terms and conditions: The prices at which AT&T MISSOURI agrees to provide MCIm with Directory Assistance Listing Information (DALI) are contained in the applicable Appendix Pricing.

2. GENERAL TERMS AND CONDITIONS

2.1 Directory Assistance Listing Information ("DALI") means the following: subscriber records used to populate and maintain AT&T MISSOURI's database used to provide directory assistance: the last name, first name, street number, street name, community, zip code and telephone number of AT&T MISSOURI's telephone exchange service subscribers located in the State of MISSOURI. DALI shall also include updates. AT&T MISSOURI shall use commercially reasonable efforts to provide MCIm with a complete copy of the DALI including all names, addresses, telephone number of listed residential and/or business and government telephone service subscribers located in the State of MISSOURI and of those telecommunications carriers including incumbent local exchange companies, competitive local exchange carriers and Independent Telephone Companies in MISSOURI who have not objected to disclosure of such information in accordance with Applicable Law.

2.2 AT&T MISSOURI will provide nondiscriminatory access to DALI in accordance with Applicable Law.

2.3 AT&T MISSOURI owns and maintains the database containing directory assistance listing information.

2.4 Inasmuch as AT&T MISSOURI provides DA service under contract for other Telecommunications Carriers, AT&T MISSOURI's database also contains directory assistance listing information for other Telecommunication Carriers' end user customers.

2.5 The data will be received from AT&T MISSOURI via Network Data Mover ("NDM") listed by NPA.

2.6 Upon MCIm's request, since an NDM link is already established (and providing modifications are not made to the existing link that would require testing) not later than sixty (60) days and after receipt of initial load request, AT&T MISSOURI shall provide DALI to MCIm in a mutually acceptable format and mode. Consent regarding format and mode shall not be unreasonably withheld. For all other CLECs, if an NDM link must be established or if modification to an existing link requires testing, then AT&T MISSOURI shall provide DALI to a CLEC in accordance with a date mutually agreed to by the Parties.

2.7 On a daily basis, AT&T MISSOURI shall provide updates. Updates shall be current as of the provision date.

2.8 Upon request, AT&T MISSOURI shall provide a complete refresh of DALI via electronic data transfer as soon as possible, but no later than forty-five (45) calendar days after the receipt of the request.

3. INTENTIONALLY OMITTED

4. USE OF DIRECTORY ASSISTANCE LISTING INFORMATION

4.1 MCIm may use the directory assistance listing information licensed and provided pursuant to this Appendix in compliance with Applicable Law.

4.2 If this Agreement is terminated by MCIm with the stated intention that no successor agreement will be entered into, MCIm shall, within a reasonable time after such termination, cease using the Directory Assistance Listing Information provided hereunder by AT&T MISSOURI, and shall extract and expunge all copies or any portions thereof from files and records and provide written notice from an authorized representative that such actions have been performed.

4.3 In the event a telephone service subscriber has a "non-published" listing, a "non-published" classification will be identified in lieu of the telephone number information and will be considered part of the Listing Information. The last name, first name, street number, street name, community, and zip code will be provided as part of the Listing Information. The information provided for non-published customers can only be used in accordance with Applicable Law. The information provided for non-published customers can only be use for two purposes. First, the non-published status may be added to the listing in MCIm's database for the sole purpose of adding/correcting the non-published status of the listings in the database. Second, addresses for non-published customers may be used for verification purposes. If a caller provides the address for a requested listing, MCIm may verify the listing by matching the caller-provided address with the address in MCIm's database. MCIm may not provide the address information of a requested listing of a non-published subscriber to a caller under any circumstances. MCIm can notify the customer that the requested listing is non-published.

5. EMERGENCY NOTIFICATION SERVICE FOR NON-PUBLISHED TELEPHONE NUMBERS

5.1 AT&T MISSOURI shall provide for Emergency Notification Service for Non-Published Telephone Numbers (hereinafter referred to as “Non-Pub ENS”). AT&T MISSOURI will provide to MCIm a telephone number that will permit MCIm to contact AT&T MISSOURI in the event a MCIm customer (“Calling Party”) indicates to MCIm that he/she must reach a AT&T MISSOURI customer that has a Non-Published listing (“Non-Published Customer”) to advise such Non-Published Customer of an emergency or life-threatening situation. If the Non-Published Customer's name is in the AT&T MISSOURI DALI database, AT&T MISSOURI will call the requested Non-Published Customer, and if such Non-Published Customer answers, will notify the Non-Published Customer that Calling Party is attempting to reach him/her to advise of an emergency situation, and will provide the Non-Published Customer the name and callback telephone number of the Calling Party provided to AT&T MISSOURI by MCIm or the contact telephone number of MCIm.

5.1.1 AT&T MISSOURI will only accept calls from employees of MCIm or its affiliates on behalf of MCIm’s end user customers. AT&T MISSOURI will not accept calls from MCIm’s end user customers.

5.2 MCIm shall only utilize the Non-Pub ENS in the event a Calling Party indicates to MCIm that the Calling Party must reach the Non-Published Customer to advise of an emergency situation. In no event shall MCIm use the Non-Pub ENS for non-emergency situations.

5.3 MCIm's representative shall provide to AT&T MISSOURI (i) his/her name, (ii) a contact telephone number, (iii) the name, city and state of the Non-Published Customer that Calling Party is attempting to contact, and (iv) the Calling Party's name and call back telephone number.

5.4 If the Non-Published Customer does not answer for any reason (including, but not limited to, no answer, busy, intercept recording, line not working, facsimile tones, etc.), AT&T MISSOURI will wait approximately thirty (30) minutes and make a second call attempt. If AT&T MISSOURI's second call attempt is unsuccessful, AT&T MISSOURI will promptly call MCIm and inform MCIm of its inability to reach the Non-Published Customer.

5.5 If the Non-Published Customer does not answer but AT&T MISSOURI reaches such Non-Published Customer's answering machine or voice mail service, AT&T MISSOURI will leave a message notifying the Non-Published Customer that Calling Party is attempting to reach him/her to advise of an emergency situation, will provide the Non-Published Customer either the name and callback telephone number of the Calling Party provided to AT&T MISSOURI by MCIm or the contact telephone number of MCIm. AT&T MISSOURI will promptly call MCIm and inform MCIm that AT&T MISSOURI left a message for the Non-Published Customer.

5.6 Under no circumstances will AT&T MISSOURI release Non-Published telephone numbers to a MCIm employee or end user customer.

5.7 Rates for Non-Pub Emergency Number Service (ENS) are contained in Appendix Pricing.

5.8 The Parties agree to meet to negotiate an amendment within 60 days, should this process change.

6. PRICING

6.1 Rates for DALI are contained in Appendix Pricing.

7. INTENTIONALLY OMITTED

8. LIABILITY

8.1 The provisions set forth in the General Terms and Conditions of this Agreement, including but not limited to those relating to limitation of liability and indemnification, shall govern the Parties' performance under this Appendix.

10. TERMINATION OF SERVICES 6

1. INTRODUCTION

1.1 This Appendix sets forth the terms and conditions for Directory Assistance (DA) Services for MCIm provided by AT&T MISSOURI.

1.2 AT&T MISSOURI shall provide to MCIm customers the capability to dial the same telephone numbers for access to AT&T MISSOURI's directory assistance as AT&T MISSOURI customers use to access AT&T MISSOURI directory assistance. Access numbers to AT&T MISSOURI's Local DA service may include but are not limited to: 411, 1/0+411, 555-1212.

2. DEFINITIONS

2.1 The following terms are defined as set forth below:

2.1.1 "Call Branding" – The procedure of identifying a provider's name audibly and distinctly to the end user customer at the beginning of each DA Services call.

2.1.2 Non-List Number - A telephone number that, at the request of the telephone subscriber, is not published in a telephone directory, but is available by calling a AT&T MISSOURI DA Operator.

2.1.3 IntraLATA Home NPA (HNPA) - Where a LATA is comprised of one area code or Numbering Plan Area (NPA).

2.1.4 Intentionally Omitted

3. SERVICES

3.1 All DA Services described herein shall be provided in accordance with Applicable Law.

3.2 AT&T MISSOURI shall provide Directory Assistance in accordance with the terms and conditions herein, unless AT&T MISSOURI provides MCIm with customized routing as defined in Appendix UNE.

3.2.1 Directory Assistance (DA)

3.2.1.1 Listing Information: AT&T MISSOURI shall provide to MCIm the same listing information that it provides to its own subscribers. DA information will include the telephone numbers for MCIm end user customers who opt for Non-List Number status in the White Pages Directories.

3.2.2 Directory Assistance Call Completion (DACC) or Express Call Completion (ECC): A service in which a local or an intraLATA call to the requested number is completed on behalf of MCIm's end user customer utilizing an automated voice system or with operator assistance.

3.2.3 National Directory Assistance (NDA): Consists of a service whereby end users may request directory assistance information outside their LATA or Home NPA for a listed

telephone number for residential, business and government accounts throughout the 50 states.

3.2.4 Intentionally Omitted

3.2.5 Reverse Directory Assistance (RDA): A nonregulated informational service. Consists of providing listed local and national name and address information associated with a telephone number that a MCIm end user provides.

3.2.6 BUSINESS CATEGORY SEARCH (BCS): AT&T MISSOURI - A service which will provide MCIm's End Users the ability to request business telephone number listings for a specified category of business, when the name of the business is not known. Telephone numbers may be requested for local and national businesses. A maximum of ten requested telephone numbers will be provided for each BCS call.

4. CALL BRANDING

4.1 Call Branding is the process by which an operator, either live or recorded, will identify the DA provider as being MCIm, audibly and distinctly to the MCIm end user at the beginning of each DA call. In all cases, AT&T MISSOURI will brand the DA call as directed by MCIm. MCIm will provide written specifications of its name or announcement to be used by AT&T MISSOURI to create the recorded branding announcement for its DA calls as outlined in the Operator Services/Directory Services Questionnaire.

4.2 Where not technically feasible or where MCIm does not request branding, AT&T will have the recorded announcement for such calls play silence instead of a recorded brand. Where technically feasible and/or available, AT&T MISSOURI will brand DA based upon the criteria outlined.

4.2.1 Where AT&T MISSOURI is only providing DA on behalf of MCIm, the calls will be branded. When the same trunk group is used to provide OS and DA services to MCIm, calls will be branded at MCIm's request with the same brand. There may be separate brands where separate trunk groups are utilized.

4.2.2 Branding Load Charges

4.2.2.1 Non-recurring load charges apply per brand, per Directory Assistance Switch (and per OCN, if multiple OCNs are used) for the establishment of MCIm specific branding. In addition, a per call "branding" (i.e. recorded announcement) charge applies for every DA call handled by the automated recording in the AT&T MISSOURI DA platform.

4.2.3 Branding charges are included in Appendix Pricing.

5. DIRECTORY ASSISTANCE (DA) RATE/REFERENCE INFORMATION

5.1 If MCIm elects to use DA Services where technically feasible and/or available, AT&T MISSOURI will provide MCIm DA Rate/Reference Information, based upon the criteria outlined below:

5.1.1 MCIm will furnish DA Rate and Reference Information in accordance with process outlined in Operator Services Questionaire or as mutually agreed to format or media thirty (30) calendar days in advance of the date when the DA Services are to be undertaken.

5.1.2 MCIm will inform AT&T MISSOURI, in writing, of any changes to be made to such Rate/Reference Information fourteen (14) calendar days prior to the effective Rate/Reference change date. MCIm acknowledges that it is responsible to provide AT&T MISSOURI updated Rate/Reference Information fourteen (14) calendar days in advance of when the updated Rate/Reference Information is to become effective.

5.1.3 An initial non-recurring charge will apply per state, per Operator assistance switch for loading of MCIm's DA Rate/Reference Information. An additional non-recurring charge will apply per state, per Operator assistance switch for each subsequent change to either MCIm's DA Services Rate or Reference Information subject to the requirements herein.

5.2 When an AT&T MISSOURI Operator receives a rate request from a MCIm end user customer, AT&T MISSOURI will quote the applicable DA rates as provided by MCIm.

6. RESPONSIBILITIES OF THE PARTIES

6.1 MCIm will provide AT&T MISSOURI at least thirty (30) days notice prior to any significant change in service levels for Directory Assistance under this Appendix.

6.2 MCIm will be responsible for providing the equipment and facilities necessary for signaling and routing calls with Automatic Number Identification (ANI) to each AT&T MISSOURI Operator assistance switch. Should MCIm seek to obtain interexchange DA Service from AT&T MISSOURI, MCIm is responsible for ordering the necessary facilities under the appropriate Interstate or Intrastate Access Service Tariffs. Nothing in this Agreement in any way changes the manner in which an Interexchange Carrier obtains access service for the purpose of originating or terminating interexchange traffic.

Facilities necessary for the provision of DA Services shall be provided by the Parties hereto, using standard trunk traffic engineering procedures to insure that the objective grade of service is met. Each Party shall bear the costs for its own facilities and equipment.

6.3 MCIm will furnish to AT&T MISSOURI a completed OSQ thirty (30) calendar days in advance of the date when the DA Services are to be undertaken.

6.4 MCIm will provide AT&T MISSOURI updates to the OSQ fourteen (14) calendar days in advance of the date when changes are to become effective.

6.5 MCIm will send the DA listing records to AT&T MISSOURI for inclusion in AT&T MISSOURI DA database via electronic gateway as described in Appendix WP.

6.6 MCIm agrees that AT&T MISSOURI may utilize MCIm's end user customer's listings contained in AT&T MISSOURI directory assistance database in providing AT&T MISSOURI Directory Assistance or DA related services.

6.7 MCIm further agrees that AT&T MISSOURI can release MCIm's directory assistance listings stored in AT&T MISSOURI Directory Assistance database to competing providers.

6.8. AT&T MISSOURI will provide IntraLATA HNPA DA Service and intrastate IntraLATA FNPA DA Service to Customers who dial 1+411 or 1+NPA+555+1212.

7. METHODS AND PRACTICES

7.1 AT&T MISSOURI will provide DA Services to MCIm's end user customers in accordance with AT&T MISSOURI DA methods and practices that are in effect at the time the DA call is made, unless otherwise agreed to in writing by both Parties.

8. PRICING

8.1 Pricing for DA Services shall be based on the rates specified in Appendix Pricing.

9. LIABILITY

9.1 The provisions set forth in the General Terms and Conditions of this Agreement, including but not limited to those relating to limitation of liability and indemnification, shall govern the Parties' performance under this Appendix including any claims arising from the disclosure of telephone numbers, addresses, or names associated with the telephone called or telephone used to call AT&T MISSOURI's DA operators.

10. TERMINATION OF SERVICES

10.1 MCIm may terminate use of AT&T MISSOURI's DA Services upon ninety (90) days advance written notice to AT&T MISSOURI.

1. INTRODUCTION

1.1 This Appendix sets forth the terms and conditions by which the Parties shall render and pay bills for all services provided pursuant to this Agreement, including but not limited to Resale, unbundled Network Elements, Reciprocal Compensation, Interconnection and Collocation.

1.2 The Parties agree to participate in and comply, whenever possible, with the Ordering and Billing Forum (OBF) and the Telecommunications Industry Forum (TCIF) guidelines. However, due to system limitations and/or new product developments AT&T MISSOURI may proceed ahead of industry guidelines as necessary or choose not to implement. Neither Party waives its rights as participants in such forums or in the implementation of the guidelines.

1.3 Intentionally Omitted.

1.4 To the extent that there are no OBF guidelines or CABS BOS outputs governing the formatting of certain data, such data will be issued in a format mutually agreed to by the Parties.

1.5 For purposes of this Appendix Invoicing, the Party rendering a bill shall be the "Billing Party" and the Party receiving the bill shall be the "Billed Party."

2. TRANSMISSION OF BILLS AND CREDITS

2.1 The Parties will meet during the implementation of this Agreement to negotiate the means of transmissions unless arrangements exist for transmission of billing information.

2.2 Where technically feasible, each Party will transmit billing information and data to the other in an electronic format. Upon transmission failure, the Billed Party will notify the Billing Party within 10 (ten) business days invoice date and the Billing Party will re-transmit the bill at its own cost, provided the transmission failure was caused by the Billing Party's systems or actions. In the event of such a transmission failure, the Bill Due Date shall be extended by the number of days elapsing between the transmission failure and the successful re-transmission. In emergency situations where transmissions have failed, when media transmittal has to be used to convey a bill, the Parties will generate media to be transported to each other via a courier. The Parties will have no responsibility to return media delivered to each other. The Parties shall use media packaging that is sufficient to ensure that the media is protected and useable when the other Party receives it.

2.3 For enhancements to transmissions of existing and new bills, the Parties shall use test and production data that will be developed between the Parties. The Parties will mutually agree upon the file (block size, record length, etc.).

2.4 The Parties will share contingency procedures and policies that will be used to manage billing disruptions.

2.5 The Parties shall provide each other a single point of contact ("SPOC"), for AT&T MISSOURI the SPOC will be MCIm's designated account manager for handling any questions or problems regarding bills that may arise during the implementation and performance of the obligations of this

Appendix Invoicing. The AT&T MISSOURI SPOC will be available via a single telephone number (not through an answering center).

2.6 Each Party will establish monthly billing dates ("Bill Date") for each bill type, which Bill Date will be the same day from month to month. Each Party will provide the other Party at least thirty (30) calendar days' written notice prior to changing, adding or deleting any bill type. All bills must be received by the recipient no later than ten (10) calendar days from the Bill Date or at least twenty (20) calendar days prior to the payment due date, whichever is earlier. Any bill received on a Saturday, Sunday or bank holiday will be deemed received the next business day. If either Party fails to receive billing data and information within the time period specified above, the payment due date will be extended by the number of days the bill is late.

2.7 The Parties will render and transmit to each other accurate and timely bills.

2.8 Credits. If the Billed Party disputes charges pursuant to Section 6.0 et seq., of this Appendix Invoicing and the dispute is resolved in favor of the Billed Party, the Billing Party shall credit the Billed Party for the amount of the dispute(s) ("Disputed Amounts"), along with interest charges as defined in the Late Payment Charges section 5.0 et seq., below, no later than the second Bill Due Date after the resolution of the dispute or as otherwise agreed by the Parties, The Billing Party shall limit any such credit(s) associated with the dispute consistent with the Stake Date limitations set forth below.

2.9 The Parties will reimburse or credit each other for incorrect charges including, but not limited to, overcharges, services ordered or requested but not delivered and service interruption which cause the purchased service to be unavailable. All requests for reimbursement or credit under this section shall be submitted by the Billed Party to the Billing Party through the claims process set forth in section 6.7 below.

2.10 The Billing Party making a credit may issue the credit in the "Other Charges and Credits" portion of the applicable Billing Account Number (BAN), unless the Parties agree to pay by electronic funds transfer via ACH network, wire transfer, check, or other mutually agreed means.

3. REMITTANCE AND PAYMENT OF BILLS OTHER THAN FOR RECIPROCAL COMPENSATION

3.1 Except for Reciprocal Compensation billing, which is set forth separately in Section 4 below, and unless otherwise stated, each Party will render monthly bill(s) to the other for Resale Services, unbundled Network Elements, and Collocation, and all functions, facilities, products and services provided in the Agreement at the rates set forth in the applicable Appendix Pricing, or as otherwise agreed to by the Parties.

3.2 Subject to the terms of this Appendix, each Party shall remit payment the other Party as set out below:

3.2.1 Remittance in full of all undisputed bills are due thirty (30) calendar days after each Bill Date (the "Bill Due Date") and shall be paid in accordance with the terms of this Appendix Invoicing. If the Bill Due Date is a Saturday, Sunday, or has been designated a bank holiday, payment will be due the next business day. Late payment charges, if any, will be assessed in accordance with the requirements in this Appendix.

3.2.2 The Billed Party shall make all payments to the Billing Party by electronic funds credit transfers through the Automated Clearing House ("ACH") network to the financial institution designated by the Billing Party. Remittance information will be communicated together with the funds transfer via the ACH network. Both Parties must use the CCD+ or the CTX transaction set. Both Parties will abide by National Automated Clearing House Association (NACHA) rules and regulations. Each ACH credit transfer must be received no later than the Bill Due Date, or any agreed-to extension thereof, of each bill or Late Payment Charges will apply. The Billing Party is not liable for any delays in receipt of funds or errors in entries caused by the Billed Party or third parties, including the Billed Party's financial institution. Each Party is responsible for its owns banking fees.

3.2.3 The Parties acknowledge that processing of payments not made via electronic funds credit transfers through the ACH network may be delayed. For those bills it receives electronically, the Billed Party shall be responsible for any Late Payment Charges resulting from failure to use electronic funds credit transfers through the ACH network. If the Billing Party makes a bill available electronically but the Billed Party chooses not to receive that particular bill electronically (i.e., requests that the bill be provided in hard copy only), the Billing Party shall not be excused from the requirement to make payment through the ACH network.

3.3 The Billed Party shall pay in full all undisputed billed charges. However, nothing in this Appendix Invoicing shall be construed to limit either Party's ability to file claims at the Local Service Center and/or seek Dispute Resolution in accordance with the terms of this Agreement.

3.4 Intentionally Omitted.

4. INTENTIONALLY OMITTED

5. LATE PAYMENT CHARGES

5.1 A late payment charge shall be applied, if: (i) no payment is received by the Billing Party by the Bill Due Date or any agreed-to extension thereof; (ii) a partial payment of the amount due is received by the Billing Party after the Bill Due Date; or (iii) payment or partial payment is received by the Billing Party in funds that are not immediately available to the Billing Party.

5.1.1 If any charge incurred under this Agreement billed out of CRIS or RBS is past due, the unpaid amounts shall accrue interest from the Bill Due Date at an amount equal to the intrastate retail tariff governing Late Payment Charges to AT&T MISSOURI's retail business end users customers in AT&T MISSOURI

5.1.2 If any charge incurred under this Agreement for Services billed out of CABS is past due, the unpaid amounts shall accrue interest from the Bill Due Date at an amount equal to the intrastate access tariff governing Late Payment Charges in

6. LIMITS ON BILLING DISPUTES

6.1 Stake Dates. In order to achieve greater certainty in the billing and bill auditing processes, the Parties have agreed to limit contractually how far back a claim of underbilling or overbilling can go, called setting "Stake Dates." To achieve this certainty, the Parties mutually agree that the Stake Dates shall apply regardless of whether the applicable billing before the Stake Date was in error or not, and regardless of whether statutory or common law limitations would permit a claim to go farther back in time. As used herein, therefore, "Stake Date" shall mean the point in time before which no adjustments, credits, refunds, reimbursements, or other billing true ups will apply, based on the filing of claims and Bill Dates (defined as the Invoice Date provided on the paper or electronic bill) set forth herein except as set forth in Section 6.2 below and Section 8.

6.2 Filing Claims. If any portion of an amount due to the Billing Party under this Agreement is subject to a bona fide dispute between the Parties, the Billed Party (Disputing Party) shall give written notice to the Billing Party of the amounts it disputes ("Disputed Amounts") and include in such written notice the specific details and reasons for disputing each item provided. The Billed Disputing Party should utilize any existing and preferred form provided by the Billing Party to communicate disputes to the Billing Party, as set forth in section 6.7 below. In the event that the Billed Party cannot reasonably identify the specific circuit or bill detail and the reason or nature of the dispute at the time it opens a dispute, the Billed Party may still open the dispute (with written notice that further documentation is forthcoming), but shall provide all specific circuit or bill detail and the reason or nature of the dispute within thirty (30) days of opening the dispute. The Billing Party shall apply any credit(s) associated with the dispute consistent with the Stake Date limitations set forth below for resolving such dispute.

6.3 Appendix Collocation. The Stake Date for Collocation billing shall be one hundred twenty (120) days from the date the dispute is filed.

6.4 Appendix Compensation. The Parties agree that, except as may be set forth by Applicable Law, there shall be no Stake Date for those charges billed pursuant to Appendix Reciprocal Compensation of this Agreement.

6.5 Other Services. The Stake Date for services other than those described in section 6.3 and 6.4 above shall be provided pursuant to this Agreement and shall be twelve (12) months from the date the dispute is filed.

6.6 Transmission Failure. Neither Party may dispute a charge that beyond the applicable Stake Date, unless there has been a transmission failure for a bill transmitted electronically. In the event of such a transmission failure, the Bill Due Date shall be extended by the number of days elapsing between the transmission failure and the successful re-transmission.

6.7 Claims Process for Billing Disputes.

6.7.1 Disputes Filed by MCIm. When submitting disputes, MCIm agrees to use the AT&T MISSOURI "13-State Billing Claims Dispute Form" or another mutually agreed-to format and shall submit the claims form to the appropriate AT&T MISSOURI local service center ("LSC") or MCIm account team, as agreed by the Parties. For each dispute, MCIm shall furnish AT&T MISSOURI with the information reasonably necessary to determine the

nature and scope of the dispute. Such information shall include, as applicable, (i) the date of the bill in question, (ii) Consolidated Billing Accounts (CBA), Enhance Summary Billing Accounts, BAN, or invoice number of the bill in question, (iii) telephone number, circuit ID number or trunk number in question, (iv) any USOC information relating to the item questioned, (v) amount billed, (vi) amount in question and (vii) the reason that MCIm disputes the billed amount. Where applicable (e.g., the dispute applies to specific rate element(s) impacting the entire BAN), MCIm may furnish summary information rather than circuit-level detail. Upon receipt of a claims form, AT&T MISSOURI may request additional information from MCIm that may reasonably be necessary to resolve the dispute but shall not deny MCIm's claim until MCIm has had the opportunity to provide the requested information. MCIm shall provide such additional information within thirty (30) days of receipt of AT&T MISSOURI's request, unless the Parties agree to a different period. Any denial by AT&T MISSOURI of a dispute submitted by MCIm shall be made in writing and directed to the attention of the MCIm contact who filed the dispute. Any proposed changes to the 13-State Billing Claims Dispute Form may be submitted to the 13-State CLEC User Forum for consideration; however, AT&T MISSOURI reserves the right to modify the 13-State Billing Claims Dispute Form as needed for internal process purposes.

6.7.2 Disputes Filed by AT&T MISSOURI. When submitting disputes, AT&T MISSOURI agrees to use MCIm's preferred claims dispute form or another mutually agreed-to format and shall submit the claims form to the appropriate MCIm billing contact listed on the invoice. For each dispute, AT&T MISSOURI shall furnish MCIm with the information reasonably necessary to determine the nature and scope of the dispute. Such information shall include, as applicable, (i) the date of the bill in question, (ii) CBA, ESBA, BAN, or invoice number of the bill in question, (iii) telephone number, circuit ID number or trunk number in question, (iv) any USOC information relating to the item questioned, (v) amount billed, (vi) amount in question and (vii) the reason that AT&T MISSOURI disputes the billed amount. Where applicable (e.g., the dispute applies to specific rate element(s) impacting the entire BAN), AT&T MISSOURI may furnish summary information rather than circuit-level detail. Upon receipt of a claims form, MCIm may request additional information from AT&T MISSOURI that may reasonably be necessary to resolve the dispute but shall not deny AT&T MISSOURI's claim until AT&T MISSOURI has had the opportunity to provide the requested information. AT&T MISSOURI shall provide such additional information within thirty (30) days of receipt of MCIm' request, unless the Parties agree to a different period. Any denial by MCIm of a dispute submitted by AT&T MISSOURI shall be made in writing and directed to the attention of the AT&T MISSOURI contact who filed the dispute.

7. LIMITS ON BACKBILLING

7.1 If charges for services provided pursuant to this Agreement are found to be unbilled or underbilled, or need to be revised, adjusted, or otherwise rebilled, these amended or new invoices shall be

7.2 collectively referred to as "backbilling." The Billing Party shall be limited to backbilling in accordance with the "Backbill Stake Dates" set forth below.

7.3 Appendix Collocation. The Backbill Stake Date for Collocation billing shall be one hundred twenty (120) days from the date the charges were incurred.

7.4 Appendix Compensation. The Parties agree that there shall be no Backbill Stake Date for those charges billed pursuant to Appendix Reciprocal Compensation of this Agreement.

7.5 The Backbill Stake Date for services other than those described in section 7.2 and 7.3 above shall be provided pursuant to this Agreement and shall be twelve (12) months from the date the charges were incurred.

7.6 Intentionally Omitted.

7.7 In the event that the Billing Party cannot reasonably identify the specific circuit or bill detail at the time it submits a backbill, the Billing Party may still submit the backbill (with written notice that further documentation is forthcoming), but shall provide all specific circuit or bill detail within thirty (30) days of submitting the backbill.

8. EXCEPTIONS

8.1 This section describes exceptions to the Stake Dates outlined in sections 6.0 and 7.0, and to the "Pay and Dispute" approach outlined in section 3.3. The Parties agree, however, that this section does not create exceptions to any other requirements of this Appendix, including the claims filing process outlined in section 6.2 and 6.7.

8.2 Regulatory Required True Up. Anything to the contrary in this Appendix Invoicing notwithstanding, both Parties shall be entitled to seek a billing true up based on an applicable and effective order of the FCC, the Commission, a legislative body or a judicial body of competent jurisdiction. Without limiting the applicability of the foregoing, an example of this Stake Date exception is where a rate increase or surcharge is ordered, approved or allowed on a retroactive basis by the Commission or the FCC or by a court of competent jurisdiction.

9. ADDITIONAL COPIES OF BILLS

9.1 Upon request of the Billed Party, the Billing Party shall provide the other with one (1) additional copy, per invoice cycle, of bills at no charge.

10. OSS BILLING

10.1 With respect to all current OSS billing interfaces covered by this Appendix, the Parties will comply with the final version of the AT&T MISSOURI Uniform and Enhanced OSS ("Uniform POR") once approved by the FCC.

10.2 AT&T MISSOURI shall provide proper notice of interface phase out as required by the Change Management process. The Parties acknowledge that Change Management processes may be affected by the final Uniform and Enhanced OSS Plan of Record (POR) once approved by FCC.

10.3 To achieve enhanced system functionality (e.g. Bill info, Daily Usage Extract as quickly as possible, the Parties acknowledge that they may deploy interfaces with requirements developed in advance of industry guidelines. Thus, subsequent modifications may be necessary to comply with emerging guidelines. The Parties are individually responsible for evaluating the risk of developing their respective systems in advance of guidelines and agree to support their own system modifications to comply with new requirements.

10.4 The IS Call Center for the AT&T MISSOURI region provides a technical support function for current OSS billing interfaces. MCIm will also provide a single point of contact for technical support issues related to the electronic OSS billing interfaces. The Parties are responsible for obtaining operating system software and hardware to access each other's current OSS billing interfaces.

10.5 AT&T MISSOURI shall continue to provide MCIm electronic billing for the products/services currently billed electronically in the AT&T MISSOURI region.

10.6 The Parties acknowledge that billing for everything in this Agreement from MCIm to AT&T MISSOURI, the volume of bills does not warrant nor do the Parties desire an Application-to-Application interface. Therefore, MCIm will provide AT&T MISSOURI with billing in paper format, unless otherwise mutually agreed.

10.7 The Parties will cooperatively test new BOS releases of CABs in line with normal industry practice. The Parties will also cooperatively test new releases, enhancements or other changes to the EDI billing system.

INWARD ASSISTANCE OPERATOR SERVICE (INW)

TABLE OF CONTENTS

1. INTRODUCTION 3
2. SERVICES 3
3. DEFINITIONS 3
4. RESPONSIBILITIES OF THE PARTIES 3
5. TOLL CENTER CODES 4
6. PRICING 4
7. MONTHLY BILLING 4
8. LIABILITY 4
9. TERM OF APPENDIX 5

1. INTRODUCTION

1.1 This Appendix sets forth terms and conditions for Inward Assistance Operator Services provided by AT&T MISSOURI to MCIm.

1.2 Intentionally Omitted.

1.3 Intentionally Omitted.

1.4 Intentionally Omitted.

1.5 Intentionally Omitted.

1.6 The prices at which AT&T MISSOURI agrees to provide MCIm Inward Assistance Operator Services are contained in Appendix Pricing

2. SERVICES

2.1 Where technically feasible and available, AT&T MISSOURI's Inward Assistance Operator will provide the following assistance or services when reached by an operator dialing the appropriate Toll Center Code in addition to the Inward Code:

2.1.1 General Assistance on calls where an attempt to connect the call is required by a local operator.

2.1.2 Busy Line Verification (BLV) service and Busy Line Verification/Interrupt (BLVI) service.

2.2 Inward Assistance Operator Service is an optional service and is applicable when MCIm is not purchasing AT&T MISSOURI's Operator Services.

3. DEFINITIONS

3.1 "General Assistance" - A service in which an operator calls the Inward Assistance operator seeking assistance in dialing a number. The assistance could be required, for example, for attempting to dial a number where a 'no ring' condition has been encountered.

4. RESPONSIBILITIES OF THE PARTIES

4.1 If MCIm decides to order this optional service, it is the responsibility of MCIm to order the necessary facilities to interconnect with AT&T MISSOURI's Operator assistance switches in the various locations throughout the AT&T MISSOURI territory.

4.2 Initial and/or additional interconnection trunking requirements for INW are described in Appendix NIM.

4.3 MCIm will furnish request for service in writing to AT&T MISSOURI, thirty (30) calendar days in advance of the date when the Inward Assistance Operator Services are to be undertaken, unless otherwise agreed to by AT&T MISSOURI.

4.3 The requester of this Inward Assistance Operator Services service agreement must provide one Carrier Identification Code (CIC) for its CLEC or Independent Exchange Carrier business operation and one for its InterExchange Carrier (IXC) business operation if the requesting company wishes to receive billing data in a format that separates the service provided to the two business operations.

4.4 AT&T MISSOURI - When utilizing the services of MCIm Inward Assistance, AT&T MISSOURI and MCIm agree that AT&T MISSOURI will pay MCIm at the same rate MCIm compensates AT&T MISSOURI pursuant to the terms of this Appendix.

4.5 Intentionally Omitted.

4.6 AT&T MISSOURI shall offer operator-to-operator BLV/BLVI to MCIm on a nondiscriminatory basis.

5. TOLL CENTER CODES

5.1 Toll Center Codes will be used by MCIm Operators for routing and connecting to the AT&T MISSOURI Operator assistance switches. These codes are listed in the LERG and are specific to the various AT&T MISSOURI LATA's where AT&T MISSOURI Operator assistance switches are located.

5.2 AT&T MISSOURI Operator Services will require a Toll Center Code for MCIm Operator Services assistance switches that are listed in the LERG. This code will be the routing code used for connecting the AT&T MISSOURI Operator to the MCIm Operator on an Inward basis.

5.3 If MCIm requires establishment of a new Toll Center Code, MCIm shall do so by referencing the Local Exchange Routing Guide (LERG).

6. PRICING

6.1 AT&T MISSOURI - Pricing for Inward Assistance Operator Services shall be based on the rates specified in Appendix Pricing.

7. MONTHLY BILLING

7.1 For information regarding billing, non-payment, disconnection, and dispute resolution, see the General Terms and Conditions and the Invoicing Appendix of this Agreement.

7.2 AT&T MISSOURI will accumulate and provide MCIm such data as necessary for MCIm to bill its end user customers.

8. LIABILITY

8.1 The provisions set forth in the General Terms and Conditions of this Agreement, including but not limited to those relating to limitation of liability and indemnification, shall govern the Parties' performance under this Appendix.

9. TERM OF APPENDIX

9.1 This Appendix will continue in force for the length of the Interconnection Agreement, but no less than twelve (12) months.

9.2 If MCIm terminates this Appendix prior to the expiration of the term of this Appendix, MCIm shall pay AT&T MISSOURI, within thirty (30) days of the issuance of any bills by AT&T MISSOURI, all amounts due (subject to Appendix Invoicing) for actual services provided under this Appendix.

9.3 The rates applicable for determining the amount(s) under the terms outlined in this Section are those specified in Appendix Pricing.

23 NETWORK MANAGEMENT.....21

This Appendix Network sets forth the terms and conditions for (1) Network Interconnection Methods (as set forth in sections 1 – 6) and (2) Interconnection Trunking Requirements (as set forth in sections 7 – 21) between the Parties' networks. For the purposes of this Appendix, "facilities" are the physical paths by which traffic is carried between the Parties' networks. "Trunking" requirements are the capacity needs related to the number of ports in a switch to support the amount of traffic being handed off between the networks.

The Parties acknowledge that they entered into an "Amendment Superseding Certain Reciprocal Compensation, Interconnection and Trunking Terms" dated April 1, 2005 (hereafter the "Reciprocal Compensation Amendment"). The Parties also acknowledge and agree that the Reciprocal Compensation Amendment is intended, during its term (April 1, 2005 through June 30, 2007 unless otherwise agreed to by the Parties), to supplement and supersede, as applicable, certain terms and conditions of this Appendix Reciprocal Compensation. The Parties agree that, during the term of the Reciprocal Compensation Amendment, any inconsistencies between the Reciprocal Compensation Amendment and this Appendix Network Interconnection will be governed by the provisions of the Reciprocal Compensation Amendment.

Upon expiration of the Reciprocal Compensation Amendment dated April 1, 2005, the Parties agree that the terms of the Appendix Reciprocal Compensation shall apply to determine the terms of the compensation to be paid between the Parties on a prospective basis.

1 DEFINITIONS

1.1 Intentionally Omitted.

1.2 Intentionally Omitted.

1.3 "End Office" or "End Office Switch" is as defined in Appendix Definitions.

1.4 Intentionally Omitted.

1.5 "IntraLATA Toll Traffic" describes IntraLATA Traffic between two locations within one LATA where one of the locations lies outside the local calling area defined by the AT&T MISSOURI tariff approved by the Commission.

1.6 "ISP-Bound Traffic" is as defined in Appendix Intercarrier Compensation.

1.7 Intentionally Omitted.

1.8 Intentionally Omitted.

1.9 Intentionally Omitted.

1.10 Intentionally Omitted

1.11 Intentionally Omitted.

1.12 Intentionally Omitted.

1.13 Intentionally Omitted.

1.14 "Points of Interconnection" or "POI": means a physical location on the AT&T MISSOURI network at which the Parties' networks meet for the purpose of establishing interconnection.

1.15 Intentionally Omitted.

1.16 Section 251(b)(5) Traffic is as defined in Appendix Intercarrier Compensation.

1.17 "Section 251(b)(5)/IntraLATA Toll Traffic" shall mean for purposes of this Appendix, (i) Section 251(b)(5) Traffic, (ii) ISP-Bound Traffic, (iii) IntraLATA Toll Traffic originating from an end user obtaining local dial tone from MCIm where MCIm is both the Section 251(b)(5) Traffic and IntraLATA toll provider, and/or (iv) IntraLATA Toll Traffic originating from an end user obtaining local dialtone from AT&T MISSOURI where AT&T MISSOURI is both the Section 251(b)(5) Traffic and IntraLATA toll provider.

1.18 "Trunk" or "Trunk Group" is as defined in Appendix Definitions.

2 NETWORK INTERCONNECTION METHODS

2.1 Upon request by MCIm, AT&T MISSOURI shall provide, interconnection for the facilities and equipment of MCIm with AT&T MISSOURI's network for the transmission and routing of Telephone Exchange Service and Exchange Access at any Technically Feasible POI inside the geographical areas in which AT&T MISSOURI is the Incumbent LEC and within AT&T MISSOURI's network. The interconnection must be at least equal in quality to that provided by AT&T MISSOURI to itself or to any subsidiary, Affiliate, or any Third Party to which AT&T MISSOURI provides Interconnection. AT&T MISSOURI shall provide Interconnection on rates, terms and conditions that are just, reasonable and nondiscriminatory in accordance with the terms and conditions of this Agreement and the requirements of the Act.

2.2 In accordance with the requirements of this Agreement, the Parties shall establish POI(s) at any Technically Feasible point inside the geographical areas in which AT&T MISSOURI is the Incumbent LEC and within AT&T MISSOURI's network by any Technically Feasible means, including, but not limited to, a Fiber Meet.

2.3 If MCIm determines to establish new or change existing Interconnection arrangements with AT&T MISSOURI, it will provide written notice of the need to establish or change such Interconnection to AT&T MISSOURI. Upon receipt of MCIm's notice to interconnect, the Parties shall within thirty (30) days or other mutually agreed to timeframe schedule a meeting to negotiate and mutually agree on the network architecture (including trunking). The Interconnection Activation date will be mutually agreed upon and will begin based on a reasonable schedule established at these meetings.

2.4 If either Party deploys additional Tandems and/or End Office switches the Parties will work cooperatively to determine whether new interconnections are required pursuant to the terms and conditions of this Appendix.

2.5 MCIm is solely responsible for the facilities that carry OS/DA, E911, mass calling and Meet-Point Trunk Groups.

2.6 The physical architecture plan will, at a minimum, include the location of MCIm's switch(es) and AT&T MISSOURI's End Office switch(es) and/or Tandem switch(es) to be interconnected, the facilities that will connect the two networks and which Party will provide (be financially responsible for) the Interconnection facilities.

2.7 The Parties will designate Points of Interconnection for demarcation of the Parties' networks for purposes of maintenance and provisioning. AT&T MISSOURI will be responsible for engineering

and maintaining its network on its side of the Points of Interconnection. MCIm will be responsible for engineering and maintaining its network on its side of the Points of Interconnection.

3 NETWORK ARCHITECTURE AND POINTS OF INTERCONNECTION

3.1 A "Tandem Serving Area" or "TSA" is comprised of an AT&T MISSOURI tandem for Section 251(b)(5)/IntraLATA Toll Traffic as defined by the LERG, and all of the AT&T MISSOURI End Offices which subtend that tandem.

3.2 The Parties will interconnect their network facilities at a minimum of one MCIm designated Point of Interconnection (POI) within AT&T MISSOURI's network in the LATA where MCIm Offers Service.

3.3 Intentionally Omitted.

3.4 Intentionally Omitted.

3.5 A "Single POI" is a single point of interconnection within a LATA on AT&T MISSOURI's network that is established to interconnect AT&T MISSOURI's network and MCIm's network for the exchange of Section 251 (b) (5)/IntraLATA Toll Traffic.

3.6 The Parties agree that MCIm has the right to choose a Single POI or multiple POIs.

3.7 MCIm agrees to establish an additional POI:

(i) in any AT&T MISSOURI TSA separate from any existing POI arrangement when traffic to/from that AT&T MISSOURI TSA exceeds twenty-four (24) DS1s at peak over three (3) consecutive months, or

(ii) at any AT&T MISSOURI End Office in a local calling area not serviced by an AT&T MISSOURI tandem for Section 251(b)(5)/IntraLATA Toll Traffic when traffic to/from that local calling area exceeds twenty-four (24) DS1s at peak over three (3) consecutive months.

3.8 Any additional POI(s) will be established within 90 days of notification that the threshold has been met.

3.9 The Parties agree to meet as often as necessary to negotiate the implementation of the new or changed POIs. The overall goal of POI selection will be to achieve a balance in the provision of facilities that is fair to both Parties. Criteria to be used in determining POIs for each LATA, include existing facility capacity, location of existing POIs, traffic volumes, relative costs, future capacity needs, etc. The POI will be documented and distributed to both Parties.

3.10 Each Party is financially responsible for providing all of the facilities and engineering on its respective side of the POI and may utilize any method of Interconnection described in this Appendix. Each Party is responsible for the appropriate sizing, operation, and maintenance of the transport facility to the POI. At least one POI must be established in the operating territory within the LATA where AT&T MISSOURI operates as an incumbent LEC and MCIm has a local switch and end user customers in that AT&T MISSOURI operating territory.

3.11 MCIm will designate the POI or POIs and determine the method or methods by which the Parties interconnect. MCIm may, at its discretion, establish a single POI in each LATA in which it originates local, IntraLATA toll or meet point switched access traffic. The Parties acknowledge

that, pursuant to the Reciprocal Compensation Amendment, MCIm agreed, in some instances, to establish more than one POI per LATA in which MCIm originates traffic, in exchange for AT&T MISSOURI'S agreement to certain reciprocal compensation terms and conditions. The Parties agree that MCIm may, at its discretion, continue to maintain these additional POIs after the expiration of the Reciprocal Compensation Amendment but shall be under no obligation to do so and may decide to maintain only a single POI per LATA.

3.11.1 Intentionally Omitted

3.11.2 Tandem Level Terminating Interconnection. MCIm may elect Tandem Level Terminating Interconnection with AT&T MISSOURI. Under such an arrangement, the Parties will establish Local Interconnection Trunk Groups to each AT&T MISSOURI Access Tandem in a LATA in which MCIm originates Local Interconnection Traffic and interconnects with AT&T MISSOURI.

4 METHODS OF INTERCONNECTION

4.1 Physical Collocation

4.1.1 When MCIm provides its own facilities or uses the facilities of a 3rd Party to an AT&T MISSOURI Tandem or End Office and wishes to place its own transport terminating equipment at that location, MCIm may interconnect using the provisions of Physical Collocation as set forth in Appendix Collocation.

4.2 Virtual Collocation

4.2.1 When MCIm provides its own facilities or uses the facilities of a 3rd Party to an AT&T MISSOURI Tandem or End Office and wishes for AT&T MISSOURI to place transport terminating equipment at that location on MCIm's behalf, they may interconnect using the provisions of Virtual Collocation as set forth in Appendix Collocation.

4.3 Methods of Interconnection Without Collocation

4.3.1 When MCIm does not wish to collocate transport terminating equipment at an AT&T MISSOURI Tandem or End Office, MCIm may:

(i) self provision, or

(ii) deploy third party interconnection facilities., or

(iii) lease transport facilities from AT&T MISSOURI. When MCIm leases such transport facilities from AT&T MISSOURI, it shall be at TELRIC rates.

4.4 Fiber Meet Interconnection

4.4.1 AT&T MISSOURI shall provide interconnection at any technically feasible point, by any technically feasible means, including but not limited to, a fiber meet at one or more locations at each LATA in which MCIm originates local, IntraLATA toll or meet point switched access traffic and interconnects with AT&T MISSOURI. The Parties agree that the target interconnection architecture is a Fiber Meet as defined in this Appendix. This architecture is to be negotiated for each switch in a LATA, with the goal between the Parties to have equal investment and to create a shared value facility. However, the Parties recognize that embedded interconnection facilities exist in many locations with

various architectures in various states of utilization. The Parties agree that on a going forward basis, the target architecture will be implemented to create shared value facilities that provide equal investment, unless otherwise agreed. These facilities are for the provisioning of local/IntraLATA and InterLATA interconnection trunks, as well as miscellaneous trunks such as 911, HVCI, and OS/DA trunks, where appropriate. In existing LATA that do not utilize a Fiber Meet, the Parties will negotiate in each LATA the most appropriate and efficient transition to the desired architecture, or alternate architecture that captures the concept of equal investment and shared value. Within thirty (30) days of a request by either Party, the Parties will meet to discuss the transition plan. As noted above, the Fiber Meet is the target architecture, except in scenarios where it is not feasible or agreed upon. Exceptions to the target architecture may include scenarios where embedded investment is sufficient to meet forecasted needs for a particular location. The Parties may mutually agree to other design options.

4.4.2 Where the Parties interconnect their networks pursuant to a Fiber Meet, the Parties shall jointly engineer and operate the Interconnection as described herein. Only Local Interconnection Trunk Groups shall be provisioned over this facility. Additional arrangements may be mutually developed and agreed to by the Parties pursuant to the requirements of this section.

4.4.3 Neither Party will be allowed to access the Data Communications Channel ("DCC") of the other Party's Fiber Optic Terminal (FOT). The Fiber Meet will be designed so that each Party may, as far as is technically feasible, independently select the transmission, multiplexing, and fiber terminating equipment to be used on its side of the POI(s). The Parties will work cooperatively to achieve equipment and vendor compatibility of the FOT equipment. Requirements for such Interconnection specifications will be defined in joint engineering planning sessions between the Parties. The Parties will use good faith efforts to develop and agree on these facility arrangements within ninety (90) days of the determination by the Parties that such specifications shall be implemented, and in any case, prior to the establishment of any Fiber Meet arrangements between them.

4.4.4 The Parties will mutually agree on the minimum data rate hand off of the SONET transmission system and it will be determined during implementation meetings. The Parties may agree to an initial minimum deployment of facilities at the OC48 level.

4.4.4.1 AT&T MISSOURI shall, wholly at its own expense, procure, install, and maintain the specified Fiber Optic Terminal ("FOT") equipment in each AT&T MISSOURI Wire Center where the Parties establish a Fiber Meet. The FOT must have capacity sufficient to provision and maintain all Local Interconnection Trunk Groups in accordance with the requirements of this Appendix.

4.4.4.2 MCIm shall, wholly at its own expense, procure, install and maintain the specified FOT equipment in each MCIm Wire Center where the Parties establish a Fiber Meet. The FOT must have capacity sufficient to provision and maintain all Local Interconnection Trunk Groups in accordance with the requirements of this Appendix.

4.4.4.3 When a DS3 handoff is agreed to by the Parties, AT&T MISSOURI will provide any multiplexing required for DS1 facilities or trunking at their end and MCIm will provide any DS1 multiplexing required for facilities or trunking at their end.

4.4.4.3 Intentionally Omitted

4.4.4.3.1 Intentionally Omitted.

4.4.4.3.2 Intentionally Omitted.

4.4.5 Each Party shall provide its own, unique source for the synchronized timing of its FOT equipment. Both Parties agree to establish separate and distinct timing sources, which are not derived from the other, and meet the criteria identified above.

4.5 Other Interconnection Methods

4.5.1 AT&T MISSOURI shall provide any other technically feasible Interconnection method requested by MCIm.

5 INTENTIONALLY OMITTED

6 SIZING AND STRUCTURE OF INTERCONNECTION FACILITIES

6.1 The Parties shall work cooperatively to install and maintain efficient and reliable Interconnection arrangements.

6.2 The capacity of Interconnection facilities provided by each Party will be based on mutual forecasts and sound engineering practice, as agreed by the Parties during planning and forecasting meetings. The Parties will mutually agree to determine the appropriate sizing for facilities based on these standards.

6.3 The Parties shall work cooperatively to ensure the adequacy of Interconnection facilities. The Parties shall begin discussion to plan facility relief when the overall system facility is at fifty percent (50%) of capacity, or as otherwise agreed. Facilities will be augmented to ensure adequate facility capacity for at least two years of forecasted traffic. Both Parties will negotiate a project service date and corresponding work schedule to construct relief facilities prior to facilities exhaust.

7 INTERCONNECTION TRUNKING ARRANGEMENTS

7.1 General

7.1.1 Intentionally Omitted.

7.1.1.1 Intentionally Omitted.

7.1.2 The Parties will establish other trunk groups as may be required for the exchange of other traffic, including but not limited to Meet Point trunk group, Mass Calling, E911, and Operator Services and Directory Assistance.

7.1.3 MCIm shall have administrative control over the ASR in the establishment of Local Interconnection Trunk Groups in addition to the initial combinations described above.

7.1.4 Unless otherwise agreed to, each Party shall deliver all traffic destined to terminate at either party's Switch in accordance with the serving arrangements defined in this Agreement and the LERG.

7.1.5 Where the Parties deliver miscellaneous calls (i.e., time, weather, etc.) destined for each other over the Local Interconnection Trunk Groups, the Parties shall deliver the traffic in accordance with the serving arrangements defined in the LERG.

7.2 Technical Interfaces

7.2.1 When interconnecting at AT&T MISSOURI's switches, the Parties have a preference for use of B8ZS ESF trunks for all traffic between their networks. Where available, each Party shall cooperate to ensure that its trunk groups are configured utilizing the B8ZS ESF protocol. Where AMI trunks are used, either Party may request upgrade to B8ZS ESF when such equipment is available and deployed.

7.2.2 The Parties agree to provide facility electrical handoffs of DS1 or DS3 and at optical handoffs of OCn levels where available and mutually agreed between the Parties.

8 TRUNKING

8.1 AT&T MISSOURI deploys in its network Tandems that switch Section 251 (b)(5) and ISP-Bound Traffic only, Tandems that switch IntraLATA and InterLATA traffic (Access Tandem), Tandems that switch Section 251(b)(5)/IntraLATA Toll Traffic only (AT&T MISSOURI), and Tandems that switch both Section 251 (b)(5) and ISP-Bound Traffic and IntraLATA/InterLATA traffic (Local/Access Tandem). In addition AT&T MISSOURI deploys Tandems that switch ancillary traffic such as E911 (E911 Tandem), Operator Services/ Directory Assistance (OS/DA Tandem), and mass calling (choke Tandem). Traffic on Tandem trunks does not terminate at the Tandem but is switched to other trunks that terminate the traffic in End Offices and ultimately to end user customers.

8.2 Two-way trunking shall be established for all Local Interconnection Trunk Groups established after the Effective Date of this Agreement. The Parties agree to exchange traffic data on two-way trunks and to implement such an exchange within three (3) months of the date that two-way trunking is established and the trunk groups begin passing live traffic, or another date as agreed to by the Parties. Exchange of traffic data will permit each company to have knowledge of the offered and overflow load at each end of the two-way trunk group, and thereby enable accurate and independent determination of performance levels and trunk requirements. The Parties agree to the electronic exchange of data as described in the Trunk Data Exchange section below.

8.3 End Office Trunk Groups

8.3.1 Direct End Office Trunk Groups (DEOTs) carry traffic between a MCIm switch and an AT&T MISSOURI End Office and are not switched at a Tandem location. MCIm shall establish a two-way Direct End Office Trunk Group when End Office traffic requires twenty-four (24) or more trunks. Overflow from either end of the Direct End Office trunk group will be alternate routed to the appropriate Local Tandem unless the End Office does not subtend any AT&T MISSOURI Local Tandem. All traffic received by AT&T MISSOURI on the Direct End Office trunk group from MCIm must terminate in the End Office, i.e. no Tandem switching will be performed in the End Office.

8.4 In addition to the Interconnection trunking arrangements described above, either party may establish End Office-to-End Office or End Office-to-Tandem or Tandem-to-Tandem trunk groups. In the case of host-remote End Offices, trunking arrangements may be established at the location of the host.

8.5 The Parties recognize that embedded one-way trunks exist for Local/IntraLATA toll traffic via end point meet facilities. The Parties agree the existing one-way trunking architecture may remain in place and be augmented for growth as needed. The Parties may agree to negotiate a transition plan to migrate any embedded one-way trunks to two-way trunks via a Fiber Meet architecture. The Parties will coordinate any such migration, trunk group prioritization, and implementation schedule. The Parties agree to develop a cutover plan and project manage the cutovers.

8.6 Traffic Direction

8.6.1 The financial responsibility described in this Appendix applies to the transport facility underlying the trunks to a MCIm designated POI, without regard to the direction of the traffic on the trunks.

8.6.2 Intentionally Omitted.

8.7 Intentionally Omitted.

9 MEET POINT TRUNKING ARRANGEMENTS

9.1 IXC-carried intraLATA and interLATA toll traffic shall be transported between MCIm's Central Office and AT&T MISSOURI's Access Tandem over a "Meet Point" Trunk Group separate from Section 251 (b)(5)/IntraLATA Toll Traffic. Except for any embedded based of one-way trunks existing as of the Effective Date, InterLATA trunk groups will be provisioned as two-way and will utilize SS7 signaling, except Multi-Frequency ("MF") signaling will be used on a separate "Meet Point" trunk group to complete originating calls to switched access customers that use MF FGD signaling protocol. The Parties will establish separate trunk groups to each AT&T MISSOURI Access Tandem under which MCIm's NXXs home.

9.2 Intentionally Omitted.

9.3 Intentionally Omitted.

9.4 Intentionally Omitted.

9.5 Intentionally Omitted.

9.6 Intentionally Omitted.

9.7 AT&T MISSOURI will not block switched access customer traffic delivered to the AT&T MISSOURI Tandem for completion on MCIm's network. In no event will AT&T MISSOURI be required to route such traffic through more than one Tandem for connection to/from switched access customers. AT&T MISSOURI shall have no responsibility to ensure that any switched access customer will accept traffic that MCIm directs to the switched access customer.

9.8 Toll Free Trunking Arrangements

9.8.1 If MCIm chooses AT&T MISSOURI to handle 800/(8YY) database queries from its switches, all MCIm originating 800/(8YY) traffic will be routed over the Meet Point trunk group. This traffic will include a combination of both Interexchange Carrier (IXC), 800/(8YY) service and MCIm 800/(8YY) service that will be identified and segregated by carrier through the database query handled through AT&T MISSOURI's Tandem switch.

9.8.2 MCIm may handle its own 800/8YY database queries from its switch. If so, MCIm will determine the nature (local/IntraLATA/InterLATA) of the 800/8YY call based on the response from the database. If the query determines that the call is a local or IntraLATA 800/8YY number, MCIm will route the post-query local or IntraLATA converted ten-digit local number to AT&T MISSOURI over the Local Interconnection Trunk Groups. In such case, MCIm is to provide an 800/8YY billing record when appropriate. If the query reveals the call is an InterLATA 800/8YY number, MCIm will route the post-query InterLATA call (800/8YY number) directly from its switch for carriers interconnected with its network or over the Meet Point trunk group to carriers not directly connected to its network but are connected to AT&T MISSOURI's Access Tandem. Calls will be routed to AT&T MISSOURI over the Local Interconnection Trunk Groups and Meet Point trunk groups within the LATA in which the calls originate.

9.8.3 Intentionally Omitted

9.8.4 All originating Toll Free Service (800/8YY) calls for which MCIm requests that AT&T MISSOURI perform the Service Switching Point ("SSP") function (e.g., perform the database query) shall be delivered using GR-394 format over the Meet Point trunk group. Carrier Code "0110" and Circuit Code (to be determined for each LATA) shall be used for all such calls.

9.8.5 All post-query Toll Free Service (800/8YY) calls for which MCIm performs the SSP function, if delivered to AT&T-13STATE, shall be delivered using GR-394 format over the Meet Point trunk group for calls destined to IXCs, or shall be delivered by MCIm using GR-317 format over the Local Interconnection Trunk Group for calls destined to End Offices that directly subtend the Tandem.

10 E911 TRUNKING ARRANGEMENTS

10.1 Upon request, AT&T MISSOURI will provide nondiscriminatory access to its E911 facilities and databases, equal in quality to that provided to itself, facilitating the provision of service to MCIm. The Parties agree to provide access to E911 in a manner that is transparent to the Customer. The Parties will work together to facilitate the prompt, reliable, and efficient Interconnection of MCIm's systems to AT&T MISSOURI's E911 platforms, with a level of performance that will provide at least the same grade of service as that which AT&T MISSOURI provides to itself, its Customers, subsidiaries, Affiliates or any third-party.

10.2 Subject to section 10.2.1 below (Trunking Exception), MCIm, with AT&T MISSOURI's cooperation shall establish dedicated trunks from MCIm's Central Office to each AT&T MISSOURI E911 Selective Router (i.e., E911 Tandem Office) for the provision of E911 services and for access to all subtending PSAPs ("E911 Interconnection Trunk Groups"). MCIm may establish such Interconnection by providing its own facilities/trunks, or by leasing such facilities/trunks from a third party.

10.2.1 TRUNKING EXCEPTION The Parties agree that MCIm shall not be required to establish E911 trunking or interconnection to AT&T MISSOURI E911 Selective Routers in rate centers where MCIm does not originate local (dial tone) traffic for its end user customers ("Non-Dial Tone Rate Centers"). MCIm shall identify such Non-Dial Tone Rate Centers when completing the "MCIm to AT&T Network Information Sheet" ("NIS") and AT&T MISSOURI specifically agrees that no other notification shall be required of MCIm. AT&T MISSOURI shall not be required to provide E911 services for those Non-Dial Tone Rate Centers designated by MCIm on a NIS. MCIm agrees that it will not originate dial tone service for its customers in such Non-Dial Tone Rate Centers until E911 connectivity has

been established pursuant to the requirements of this Agreement and Applicable Law. MCIm acknowledges that, if MCIm wishes to begin offering originating dial tone service in a Non-Dial Tone Rate Center, the establishment of E911 connectivity for these existing rate centers shall be subject to the same intervals for establishing E911 connectivity that are applicable to new rate centers. When MCIm designates a rate center as a Non-Dial Tone Rate Center, MCIm agrees to indemnify AT&T MISSOURI, in accordance with the requirements of the General terms, for any E911 claims made by MCIm's customers in that Non-Dial Tone Rate Center arising from MCIm's decision not to interconnect with AT&T MISSOURI's E911 Selective Routers in that Non-Dial Tone Rate Center.

10.3 AT&T MISSOURI shall assure sufficient capacity at the E911 Selective Router to meet MCIm's requests for Interconnection within twenty (20) business days after receipt of the request. When AT&T MISSOURI network force and load conditions require a longer implementation timeframe, AT&T MISSOURI will notify MCIm within five (5) business days after receipt of the request and the timeframe will be agreed upon. AT&T MISSOURI is not responsible to provide diversity for MCIm to the E911 Selective Router.

10.4 AT&T MISSOURI shall provide the following information to MCIm, and shall promptly notify MCIm of any changes:

10.4.1 AT&T MISSOURI processes and requirements for ordering trunks for E911 service and Interconnection to the E911 Selective Router.

10.4.2 Trunk group specifications.

10.4.3 E911 tandem CLLI codes, circuit IDs, point codes, LEC order number, and TS (Two Six) code and address.

10.4.4 Intentionally Omitted.

10.4.5 Maintenance procedures for E911 trunk groups, including, but not limited to, contact names and numbers, escalation lists, and the hours that maintenance is available.

10.4.6 Intentionally Omitted.

10.5 Intentionally Omitted.

10.6 Incoming trunks for E911 shall be engineered to assure minimum P.01 grade of service as measured using the "busy day/busy hour" criteria.

10.7 Interconnection for Primary and Diverse Routes. MCIm's Point of Interconnection (POI) for E911 Service shall be at the AT&T MISSOURI E911 Selective Router. These facilities are the financial responsibility of MCIm. MCIm shall pay tariff charges for diverse routes. MCIm will be responsible for determining and ordering the proper quantity of E911 trunks. These trunks shall be delivered by AT&T MISSOURI within twenty (20) business days after receipt of the order. If AT&T MISSOURI requires additional information, MCIm agrees to cooperate to provide such information in order to complete the order. When AT&T MISSOURI network force and load conditions require a longer implementation timeframe, AT&T MISSOURI will notify MCIm within five (5) business days after receipt of the request and the timeframe will be agreed upon. Following delivery, MCIm and AT&T MISSOURI will cooperate to promptly test all E911 trunks and transport facilities between MCIm's network and the AT&T MISSOURI Selective Router to assure proper functioning of the E911 service. MCIm will not turn-up live E911 traffic until successful call through testing is completed by both Parties.

10.8 Except as set forth in Section 10.2 of this Appendix Network, MCIm will be responsible for providing a separate E911 trunk group for each rate center, county or geographic area that MCIm serves, if such rate center, county or geographic area has a separate default routing condition. In addition, in the case of CAMA MF trunks, only one (1) NPA of traffic may be transmitted over a single E911 trunk group. When a unique default routing condition is present, MCIm shall provide sufficient trunking and facilities to accommodate those default PSAP requirements. MCIm is responsible for requesting and payment of facilities routed diversely for E911 interconnection.

10.9 MCIm will be responsible for determining the proper quantity of trunks and facilities from its switch(es) to the AT&T MISSOURI E911 selective router Office(s).

10.10 MCIm shall provide sufficient facilities/trunks to route MCIm originating 911 calls to the 911 Selective Router. MCIm is responsible to request and pay for facilities routed diversely for E911 interconnection.

10.11 Intentionally Omitted.

10.12 MCIm shall monitor the E911 trunks for the purpose of determining originating network traffic volumes. MCIm will notify AT&T MISSOURI if the traffic study information indicates that additional circuits are required to meet the current level of E911 call volumes. If the traffic study indicates that additional trunks are needed to meet the current level of E911 call volumes, MCIm shall request and pay for facilities carrying additional trunks from AT&T MISSOURI.

10.13 Where E911 interconnection is established, MCIm acknowledges that its End Users in a single local calling scope may be served by different selective routers and MCIm shall be responsible for providing facilities to route calls from its End Users to the proper E911 Selective Router.

11 HIGH VOLUME CALLING TRUNK GROUPS

11.1 The Parties will cooperate to establish separate trunk groups for the completion of calls to high volume customers, such as radio contest lines.

11.2 A dedicated trunk group shall be required to the designated Public Response HVCI/Mass Calling Network Access Tandem in each serving area. This trunk group shall be one-way outgoing only and shall utilize MF signaling. As the HVCI/Mass Calling trunk group is designed to block all excessive attempts toward HVCI/Mass Calling NXXs, it is necessarily exempt from the one percent blocking standard described elsewhere for other final Local Interconnection Trunk Groups. MCIm will have administrative control for the purpose of issuing ASRs on this one-way trunk group.

11.3 It is recommended that this group shall be sized as follows:

Number of Access Lines Served	Number of Mass Calling Trunks
0 – 10,000	2
10,001 – 20,000	3
20,001 – 30,000	4
30,001 – 40,000	5
40,001 – 50,000	6
50,001 – 60,000	7
60,001 – 75,000	8
75,000 +	9 maximum

11.4 If MCIm should acquire a HVCI/Mass Calling customer, i.e. a radio station, MCIm shall notify AT&T MISSOURI of the need to establish a one-way outgoing SS7 or MF trunk group from the AT&T MISSOURI HVCI/Mass Calling Serving Office to the MCIm customer's serving office and AT&T MISSOURI shall establish this trunk group.

11.5 If MCIm finds it necessary to issue a new choke telephone number to a new or existing HVCI/Mass Calling customer, MCIm may request a meeting to coordinate with AT&T MISSOURI the assignment of HVCI/Mass Calling telephone number from the existing choke NXX. In the event that MCIm establishes a new choke NXX, MCIm must notify AT&T MISSOURI a minimum of ninety (90) days prior to deployment of the new HVCI/Mass Calling NXX. AT&T MISSOURI will perform the necessary translations in its End Offices and Tandem(s) and issue ASR's to establish a one-way outgoing SS7 or MF trunk group from the AT&T MISSOURI Public Response HVCI/Mass Calling Network Access Tandem to MCIm's choke serving office.

12 OPERATOR SERVICES TRUNKING ARRANGEMENTS

12.1 If AT&T MISSOURI agrees through a separate appendix or contract to provide Operator Services for MCIm the following trunk groups are required:

12.1.1 Where MCIm purchases Operator Services from AT&T MISSOURI, the Parties will establish separate trunk groups from MCIm's Switch to AT&T MISSOURI operator switch ("Operator Services Trunk Groups").

12.1.2 When AT&T MISSOURI operator is under contract to provide Busy Line Verification/Emergency Interrupt service to MCIm's end user customer, AT&T MISSOURI will utilize a separate one-way trunk group using MF signaling, from AT&T MISSOURI's Operator Services Tandem to MCIm's Switch.

12.2 If MCIm does not purchase unbundled Operator Services from AT&T MISSOURI, the Parties may interconnect their respective OS platforms for the purposes of inward operator assistance, (see Appendix Inward), as follows:

12.2.1 The parties shall mutually agree on the physical interconnection necessary to route these call, subject to the Dispute Resolution section of the General Terms and Conditions of the Agreement.

12.2.2 Intentionally Omitted.

13 DIRECTORY ASSISTANCE TRUNKING ARRANGEMENTS

13.1 MCIm may contract for DA services only. A segregated trunk group for these services will be required to the appropriate AT&T MISSOURI Operator Services Tandem in the LATA for the NPA MCIm wishes to serve. This trunk group is setup as one way outgoing only and utilizes Modified Operator's Services Signaling (2 Digit Automatic Number Identification (ANI)). MCIm will have administrative control for the purpose of issuing ASR's on this one-way trunk group.

14 SIGNALING

14.1 Where Signaling System 7 (SS7) is deployed, the Parties will use SS7 signaling as defined in GR-317 and GR-394, including ISDN User Part ("ISUP") for trunk signaling and Transaction Capabilities Application Part ("TCAP") for SS7 based features. The Parties may interface with one another on an SS7 basis either directly or through a Third Party. The Parties will cooperate in the exchange of TCAP messages to facilitate full interoperability of SS7 based features between their

respective networks, including CLASS features and functions, to the extent each carrier offers these features and functions to its own end user customers. The Parties shall exchange unaltered SS7 signaling parameters, including, but not limited to, Automatic Number Identification (ANI), Calling Party Number (CPN), Calling Party Category, Charge Number, Originating Line Information (OLI), etc. Privacy indicators will be honored by the parties.

14.2 Where available, the Parties will provide network signaling information such as Transit Network Selection ("TNS") parameter, Carrier Identification Codes ("CIC"), Common Channel Signaling (CCS) Platform and CIC/OZZ information (non-CCS environment) at no charge wherever this information is needed for call routing or billing. The Parties will follow all industry standards pertaining to TNS and CIC/OZZ codes.

15 INTENTIONALLY OMITTED

16 TRUNK FORECASTING

16.1 MCIm agrees to provide an initial non-binding trunk forecast for establishing the initial Local Interconnection Trunk Groups. AT&T MISSOURI shall review this forecast and if it has any additional information that will change the forecast shall provide this information to MCIm. Subsequent forecasts shall be provided on a semi-annual basis, not later than January 1 and July 1 in order to be considered in the semi-annual publication of the AT&T MISSOURI General Trunk Forecast. These forecasts should include yearly forecasted trunk quantities for all appropriate trunk groups described in this Appendix for a minimum of three (3) years. Parties agree to the use of Common Language Location Identification (CLLI) coding.

16.2 AT&T MISSOURI shall accommodate all orders for trunks within forecast. Orders for trunks that exceed forecasted quantities for forecasted locations by more than 48 additional DS-0 trunks for each Local Interconnection Trunk Group will be accommodated as facilities or equipment becomes available. Parties shall make all reasonable efforts and cooperate in good faith to develop alternative solutions to accommodate orders when facilities are not available.

16.3 If forecast quantities are in dispute by more than 48 additional DS-0 trunks for each Local Interconnection Trunk Group, the Parties shall meet to reconcile the forecast to within 48 DS-0 trunks.

16.4 The semi-annual forecasts shall include:

16.4.1 Yearly forecasted trunk quantities for all trunking required in this Appendix) for a minimum of three (current and plus 1 and plus 2) years; and

16.4.2 A description of major network projects anticipated for the following six months. Major network projects include trunking or network rearrangements, shifts in anticipated traffic patterns, orders greater than four (4) DS1's, or other activities that are reflected by a significant increase or decrease in trunking demand for the following forecasting period.

16.5 Each Party shall provide a specified point of contact for planning, forecasting, and trunk servicing purposes.

16.6 MCIm and AT&T MISSOURI will review engineering requirements on a semi-annual basis and establish forecasts for facilities utilization provided under this Appendix.

17 TRUNK DESIGN BLOCKING CRITERIA

17.1 Trunk requirements for forecasting and servicing shall be based on the blocking objectives shown in Table 1. Trunk requirements shall be based upon time consistent average busy season busy hour twenty (20) day averaged loads applied to industry standard Neal-Wilkinson Trunk Group Capacity algorithms (use Medium day-to-day Variation and 1.0 Peakedness factor until actual traffic data is available).

TABLE 1

Trunk Group Type	Design Blocking Objective
Local Tandem	1%
Local Direct End Office (Primary High)	ECCS[1]
Local Direct End Office (Final)	1 %
IntraLATA	1%
Local/IntraLATA	1%
InterLATA (Meet Point) Tandem	0.5%
911	1%
Operator Services (DA/DACC)	1%
Operator Services (0+, 0-)	1%
Busy Line Verification-Inward Only	1%

18 TRUNK SERVICING

18.1 Trunk sizing responsibilities for Operator Services trunks used for stand-alone Operator Service are the sole responsibility of MCIm.

18.2 Utilization shall be defined as Trunks required as a percentage of Trunks In Service. Trunks required shall be determined using methods described in this Appendix using Design Blocking Objectives stated above.

18.3 Each Party agrees to service trunk groups to the foregoing blocking criteria in a timely manner when trunk groups exceed measured blocking thresholds.

18.4 Orders between the Parties to establish, add, change or disconnect trunks shall be processed by using an Access Service Request (ASR). MCIm will have administrative control for the purpose of issuing ASR's on one-way or two-way trunk groups. The Parties agree that neither party shall alter trunk sizing without first conferring with the other Party.

18.5 Both Parties may send an ASR or a Trunk Group Service Request (TGSR) to the other party to trigger changes to the Local Interconnection Trunk Groups based on capacity assessment. The TGSR is a standard industry support interface. MCIm's preference is to use the ASR process to trigger changes to Local Interconnection Trunk Groups. Upon receipt of a TGSR, the receiving Party will issue an ASR to the other Party within ten (10) business days. The intervals used for the provisioning process will be the same as those used for AT&T MISSOURI Switched Access service.

18.6 BLOCKING - In a blocking final situation, a TGSR will be issued by AT&T MISSOURI when additional capacity is required to reduce measured blocking to objective design blocking levels

[1] During implementation the Parties will mutually agree on an ECCS or some other means for the sizing of this trunk group.

based upon analysis of trunk group data. MCIm upon receipt of a TGSR, in a blocking situation, will issue an ASR to AT&T MISSOURI within three (3) business days after receipt of the TGSR or sooner as agreed to by the Parties, and upon review and in response to the TGSR received. MCIm will note "Service Affecting" on the ASR.

18.7 UNDER UTILIZATION - In an under utilization situation (where more capacity exists than actual usage requires) the Parties agree that if a trunk group is under 75 percent (75%) of CCS capacity on a monthly average basis, for each month of any three (3) consecutive months period, either Party may request the issuance an order to resize the trunk group, which must be left with not less than twenty-five percent (25%) excess capacity. In all cases grade of service objectives shall be maintained. AT&T MISSOURI may send a TGSR to MCIm to trigger changes to the Local Interconnection Trunk Groups based on capacity assessment. Upon receipt of a TGSR, MCIm will, within the ten (10) business days of such receipt, either (i) issue an ASR to AT&T MISSOURI or (ii) request that the Parties schedule a joint planning discussion for the TGSR.

18.8 If MCIm does not respond to the TGSR within the ten (10) business day period described above, AT&T MISSOURI will contact MCIm to schedule a joint planning discussion. If MCIm will not agree to meet within an additional ten (10) business days and present adequate reason for keeping trunks operational, AT&T MISSOURI reserves the right to issue an ASR to resize the Local Interconnection Trunk Groups and facilities.

19 PROVISIONING

19.1 AT&T MISSOURI shall provide a Firm Order Confirmation (FOC) within five business days for trunk augments, and within seven business days for new trunk groups, after receipt of a complete and accurate order.

19.1.1 In cases where AT&T MISSOURI has issued a FOC and, facilities are found not to be available, MCIm shall utilize AT&T MISSOURI's escalation process. For facility/switching equipment shortages, AT&T MISSOURI shall include relief date status and explanation for the shortage under the "REMARKS" field. If no relief date is available, "further status due date" shall be provided. On the date that status is due, AT&T MISSOURI shall re-FOC with updated status by close of business.

19.2 Orders that comprise a major project may be submitted over a period of several days, and their implementation will be jointly planned and coordinated. Major projects are unusual or extraordinary projects that require the coordination and execution of multiple orders, greater than 4 DS1s or related activities between and among AT&T MISSOURI and MCIm work groups, including, but not limited to, the initial establishment of Local Interconnection Trunk Groups or Meet Point Trunk Groups and service in an area, NXX code moves, re-homes, facility grooming, or network rearrangements.

19.3 The Parties shall cooperate with each other to test all trunks prior to turn up.

19.4 Due dates and intervals used for the provisioning process are provided in the CLEC Online handbook. The Parties shall notify each other if there is any change affecting the service requested, including, but not limited to, the due date. If either Party is unable to or not ready to perform Acceptance Tests, or is unable to accept the Local Interconnection Trunk Groups by the due date, the other Party will provide with a requested revised service due date that is no more than thirty (30) calendar days beyond the original service due date. If either Party requests a service due date change which exceeds the allowable service due date change period, the ASR must be canceled by the issuing Party. Should the issuing Party fail to cancel such ASR, the other Party shall treat that ASR as though it had been canceled.

19.5 The Parties shall share responsibility for their respective Control Office functions for Local Interconnection Trunk Groups and both Parties shall share the overall coordination, installation, testing, and maintenance responsibilities for such trunks and trunk groups.

19.6 Intentionally Omitted

19.7 MCIm and AT&T MISSOURI shall:

19.7.1 Provide trained personnel with adequate and compatible test equipment to work with each other's technicians.

19.7.2 Notify each other when there is any change affecting the service requested, including the due date.

20 TRUNK DATA EXCHANGE

20.1 MCIm has requested and AT&T MISSOURI shall provide Data Interexchange Carrier (DIXC) traffic data for all trunk groups terminating in MCIm's network. A trunk group utilization report (TIKI) is also available, upon request. The TIKI report is provided in a MS-Excel format.

20.2 The Parties agree to exchange traffic data on trunks and to implement such an exchange within three (3) months of the date that trunking is established and the trunk groups begin passing live traffic, or another date as agreed to by the Parties. Exchange of traffic data will permit each company to have knowledge of the offered and overflow load at each end of the two-way trunk group, and thereby enable accurate and independent determination of performance levels and trunk requirements. The Parties agree to the electronic exchange of data. Parties agree to establish a timeline for implementing an exchange of traffic data utilizing the DIXC process via network data mover (NDM)/FTP computer to computer File Transfer Process (FTP).

20.3 DIXC traffic data will include, but not be limited to, the following:
20.3.1 Usage (total usage measured in centum call seconds)
20.3.2 Peg Count (Peg count of originating call attempts including overflow)
20.3.3 Overflow (Peg count of originating call attempts failing to find an idle trunk)
20.3.4 Maintenance Usage (total maintenance usage measured in centum call seconds)
20.3.5 Maintenance Busy Counts (total count of trunks made maintenance busy)

20.4 DIXC traffic data shall be collected as follows:
20.4.1 Hourly on the clock hour
20.4.2 Twenty-four (24) hours per day (0000-2400)
20.4.3 Seven (7) days per week (including holidays)
20.4.4 Fifty-two (52) weeks per year

21 MAINTENANCE TESTING AND REPAIR

21.1 MCIm and AT&T MISSOURI shall work cooperatively to install and maintain a reliable network. MCIm and AT&T MISSOURI shall exchange appropriate information (e.g., maintenance contact numbers, network information, information required to comply with law enforcement and other security agencies of the Government and such other information as the Parties shall mutually agree) to achieve this desired reliability. In addition, the Parties agree to:

21.1.1 Coordinate and schedule testing activities of their own personnel, and others as applicable, to ensure its Interconnection trunks/trunk groups are installed per the

Interconnection order, meet industry standard acceptance test requirements, and are placed in service by the due date. Either Party may initiate the joint activities.

21.1.2 Perform trouble sectionalization to determine if a trouble is located in its facility or its portion of the Interconnection trunks prior to referring the trouble to each other.

21.1.3 Advise each other's Control Office if there is an equipment failure that will affect the Interconnection trunks.

21.1.4 Provide each other with a trouble reporting number that is readily accessible and available twenty-four (24) hours per day / seven (7) days a week.

21.1.5 Provide to each other test line numbers and access to test lines, including a test line number that returns answer supervision in each NPA-NXX opened by a Party.

22 THIRD PARTY TRANSIT TRAFFIC

22.1 Transit Service is defined as service which allows MCIm to send Local, Optional, intraLATA Toll Traffic, and 800 intraLATA Toll Traffic to a third-party's network through AT&T MISSOURI's tandem.

22.2 For the purposes of this Agreement, Transit Traffic is defined as traffic between MCIm's end user customer that is routed utilizing AT&T MISSOURI's tandem switch where AT&T MISSOURI's end user customer is neither the originating nor the terminating party.

22.3 At no time shall either Party provide Transit Service to an Inter-exchange Carrier (IXC) or any other third party carrier for the purposes of avoiding paying appropriate access charges.

22.4 With exception of UNE-P Transit Traffic, neither local Transit Traffic nor IntraLATA Toll Transit Traffic originated by MCIm shall be routed at or through any AT&T MISSOURI end office switch. For calls originated by MCIm that are routed over a direct end office connection between MCIm's switch and the AT&T MISSOURI's end office switch and have not received an LNP query when delivered to AT&T MISSOURI's end office, AT&T MISSOURI will query such calls. If based upon the query, the call must be transported to another carrier's switch for termination, transit rates as set forth in Appendix Pricing shall apply. Additionally, queries for such calls will be billed at rates in accordance with Appendix Pricing.

22.5 Where AT&T MISSOURI has a local tandem switch separate from an access tandem switch in the local exchange area, MCIm-originated local Transit Traffic will be routed via AT&T MISSOURI's local tandem switches, but not at or through any AT&T MISSOURI access tandem switches. Where AT&T MISSOURI has a local/IntraLATA tandem switch or local/access tandem switch in the local exchange area, MCIm originated local transit Traffic will be routed via the appropriate AT&T MISSOURI local/IntraLATA tandem switch or local/access tandem switch.

22.6 When transiting traffic, the Parties agree to pass the originating CPN information when the third party carrier provides such information.

22.7 Transit Signaling. Any signaling information which is received by AT&T MISSOURI from transiting traffic shall be forwarded to MCIm.

22.8 The Transit Service rates are as set forth in Appendix Pricing.

23 NETWORK MANAGEMENT

23.1 Protective Controls. Either Party may use protective network traffic management controls such as 7 and 10 digit code gaps set at appropriate levels on traffic toward each other's network, when required to protect the public switched network from congestion due to facility failures, switch congestion or failure or focused overload. MCIm and AT&T MISSOURI shall immediately notify each other of any protective control action planned or executed.

23.2 Expansive Controls. Where the capability exists, originating or terminating traffic re-routes may be implemented by either Party to temporarily relieve network congestion due to facility failures or abnormal calling patterns. Reroutes will not be used to circumvent normal trunk servicing. Expansive controls will only be used when mutually agreed to by the Parties.

23.3 Mass Calling. MCIm and AT&T MISSOURI shall cooperate and share pre-planning information regarding cross-network call-ins expected to generate large or focused temporary increases in call volumes, to prevent or mitigate the impact of these events on the public switched network.

24 OUT OF EXCHANGE TRAFFIC

24.1 Out of Exchange Traffic is available in accordance with the Appendix Out of Exchange Traffic attached to this Agreement.

25 SWITCHED ACCESS TRAFFIC

25.1 Anything to the contrary notwithstanding, this Section 25 shall not apply to IP-PSTN Traffic (as defined in Section 16 of Appendix Reciprocal Compensation of this Agreement) or its compensation. In the event of any conflict between this Section and Section 16 of Appendix Reciprocal Compensation, Section 16 shall control. For purposes of this Agreement only, Switched Access Traffic shall mean all traffic that originates from an end user physically located in one local exchange and delivered for termination to an end user physically located in a different local exchange (excluding traffic from exchanges sharing a common mandatory local calling area as defined in AT&T MISSOURI's local exchange tariffs on file with the applicable state commission) including, without limitation, any traffic that (i) terminates over a Party's circuit switch, including traffic from a service that originates over a circuit switch and uses Internet Protocol (IP) transport technology (regardless of whether only one provider uses IP transport or multiple providers are involved in providing IP transport) and/or (ii) originates from the end user's premises in IP format and is transmitted to the switch of a provider of voice communication applications or services when such switch utilizes IP technology and terminates over a Party's circuit switch. Notwithstanding anything to the contrary in this Agreement, all Switched Access Traffic shall be delivered to the terminating Party over feature group access trunks per the terminating Party's access tariff(s) and shall be subject to applicable intrastate and interstate switched access charges; provided, however, the following categories of Switched Access Traffic are not subject to the above stated requirement relating to routing over feature group access trunks:

(i) IntraLATA toll Traffic or Optional EAS Traffic from a MCIm end user that obtains local dial tone from MCIm where MCIm is both the Section 251(b)(5) Traffic provider and the intraLATA toll provider, or

(ii) Switched Access Traffic delivered to AT&T from an Interexchange Carrier (IXC) where the terminating number is ported to another CLEC and the IXC fails to perform the Local Number Portability (LNP) query.

Notwithstanding anything to the contrary in this Agreement, each Party reserves it rights, remedies, and arguments relating to the application of switched access charges for traffic exchanged by the Parties prior to the Effective Date of this Agreement and described in the FCC's Order issued in the Petition for Declaratory Ruling that AT&T's Phone-to-Phone IP Telephony Services Exempt from Access Charges, WC Docket No. 01-361(Released April 21, 2004).

25.2 In the limited circumstances in which a third party competitive local exchange carrier delivers Switched Access Traffic as described in Section 25.1 (iv) above to either Party over Local Interconnection Trunk Groups, such Party may deliver such Switched Access Traffic to the terminating Party over Local Interconnection Trunk Groups. If it is determined that such traffic has been delivered over Local Interconnection Trunk Groups, the terminating Party may object to the delivery of such traffic by providing written notice to the delivering Party pursuant to the notice provisions set forth in the General Terms and Conditions and request removal of such traffic. The Parties will work cooperatively to identify the traffic with the goal of removing such traffic from the Local Interconnection Trunk Groups. If the delivering Party has not removed or is unable to remove such Switched Access Traffic as described in Section 25.1 iv) above from the Local Interconnection Trunk Groups within sixty (60) days of receipt of notice from the other party, the Parties agree to jointly file a complaint or any other appropriate action with the applicable Commission to seek any necessary permission to remove the traffic from such interconnection trunks up to and including the right to block such traffic and to obtain compensation, if appropriate, from the third party competitive local exchange carrier delivering such traffic to the extent it is not blocked.

NUMBER PORTABILITY

TABLE OF CONTENTS

1. GENERAL 3
2. LOCAL NUMBER PORTABILITY DESCRIPTION 3
3. REGULATIONS 3
4. LIMITATIONS 5
5. HOT CUT PROCESS 5
6. MASS CALLING 5

1. GENERAL

1.1 Permanent Number Portability (PNP) is an arrangement whereby an End User that switches local exchange service subscription from one LEC to another LEC is permitted to retain the existing LEC telephone number assigned to the end user for its use. For the porting of a number, the End User's location must remain within the rate center associated with the NPA-NXX of the End User's telephone number.

1.2 The Parties agree that the industry has established Local Routing Number (LRN) technology as the method by which Permanent Number Portability (PNP, also referred to as Long-Term Number Portability, or LNP) will be provided in response to applicable FCC Orders. As such, the parties agree to provide PNP via LRN to each other as required by such applicable FCC Orders or applicable national standards such as ATIS (Alliance for Telecommunications Industry Solutions) NANC (North American Numbering Council), and NENA (National Emergency Number Association).

2. LOCAL NUMBER PORTABILITY DESCRIPTION

2.1 The switch's LRN software determines if the called Party is in a portable NXX. If the called Party is in a portable NXX, a query is launched to the PNP database to determine whether or not the called number is ported.

2.2 When the called number with a portable NXX is ported, a LRN is returned to the switch that launched the query. Per industry interoffice signaling standards, the LRN appears in the CPN (Calling Party Number) field of the SS7 message and the called number then appears in the GAP (Generic Address Parameter) field. In addition, the Jurisdictional Identification Parameter (JIP) should be populated with an NPA-NXX that is assigned in the LERG to the originating switching.

2.3 When the called number with a portable NXX is not ported, the call is completed as in the pre-PNP environment.

2.4 The FCI (Forward Call Identifier) field's entry is changed from 0 to 1 by the switch triggering the query when a query is made, regardless of whether the called number is ported or not.

3. REGULATIONS

3.1 Each Party shall become responsible for End User's telecommunication related items, e.g., E911, Directory Listings, Operator Services, Line Information Data Base (LIDB), when they port the End User's telephone number to their switch. Each Party agrees to follow the industry standards for National Emergency Numbering Association (NENA) and industry agreements for migration of E911 record data.

3.1.1 The Parties do not offer PNP in conjunction with service codes (e.g., 411) or Service Access codes (e.g., 500, 700, 800, 900), or codes assigned to each Party for their own use, e.g. an NXX assigned for the Party's official service.

3.1.2 The porting Party is responsible for advising the Number Portability Administration Center (NPAC) of telephone numbers that they import and the associated data as identified in industry forums as being required for PNP.

3.1.3 When either Party makes a switch LNP capable, all applicable NXXs in that switch will be shown as portable in the LERG.

3.1.4 Both Parties will work cooperatively to implement appropriate OBF LSR guidelines and NANC due date intervals through the Change Management Process. These LSR formats may differ between companies by geography and where it is necessary to change format, the Parties making the change agree to inform the other company and work cooperatively to implement the change.

3.1.5 The Parties agree to port reserved numbers if the reserved numbers are associated with working numbers for the end-user customer, and the reservation period for the reserved numbers has not expired. The applicable 'reservation period' established by the losing Party may not be extended to support porting.

3.1.6 Unless pooling of numbers is required, when a ported telephone number becomes vacant (e.g. the telephone number is no longer in service by the original End User) the ported telephone number will be released back to the carrier owning the switch in which the telephone number's NXX is native. If number pooling is required, the Parties agree to abide by such requirements in regard to now vacant, previously ported numbers.

3.1.7 Industry guidelines shall be followed regarding all aspects of porting numbers from one network to another.

3.1.8 Each Party shall abide by NANC provisioning and implementation process.

3.1.9 AT&T will test internally prior to the scheduling of testing with MCIm.

3.1.10 Each Party will designate a single point of contact (SPOC) to schedule and perform required testing. These tests will be performed during a mutually agreed time frame and must meet the criteria set forth by the Inter-Industry LNP National Operations Team for porting.

3.1.11 Each Party has the right to block default routed call entering a network in order to protect the public switched network from overload, congestion, or failure propagation.

3.1.12 When the called number with a portable NXX is ported, an LRN is returned to the switch that launched the query. Per industry standards, the LRN appears in the CdPN (Called Party Number) field of the SS7 message and the called number then appears in the GAP (Generic Address Parameter) field.

3.1.13 To the extent technically feasible, each Party agrees to provide the appropriate JIP String, as specified in GR-2936-CORE (Local Number Portability (LNP) capability specifications: Service Provider Portability).

3.2 SPNP Query Service

3.2.1 The N-1 carrier (N carrier is the responsible Party for terminating call to the End User) has the responsibility to determine if a query is required, to launch the query, and to route the call to the switch or network in which the telephone number resides.

3.2.2 If MCIm chooses not to fulfill its N-1 carrier responsibility, AT&T MISSOURI will perform default queries on calls to telephone numbers with portable NXXs received from the N-1 carrier and route the call to the switch or network in which the telephone number resides. In such event, AT&T will charge and MCIm agrees to pay the default queries charges set forth in FCC No. 73 Access Services Tariff Section 34. AT&T provides MCIm the optional use of the AT&T's LNP database via the SPNP Query Service.

3.2.3 AT&T provides MCIm the optional use of the AT&T LNP Database. When MCIm orders SPNP Query Service-Database, AT&T shall charge and MCIm agrees to pay the SPNP Query Service-Database service charges set forth in Appendix Pricing. The MCIm's Signal Transfer Point (STP), tandem, and/or end office's LRN software will determine the need for, and triggers, the query. AT&T's LNP database will determine if a number has, or has not, been ported and will provide LRN if a number is ported.

3.2.4 When purchasing the SPNP Query Service - Database, MCIm will access AT&T's facilities via an SS7 link to the AT&T STP.

3.2.5 When purchasing the SLNP Query Service - Database, MCIm will advise AT&T of the entry point(s) of queries to the AT&T network and provide a query forecast for each entry point.

4. LIMITATIONS

4.1. For PNP, MCIm shall submit a separate DSR for the listing of MCIm's End User in White Pages and Directory Assistance.

5. HOT CUT PROCESS

5.1. MCIm agrees to follow the hot cut processes as defined in the AT&T Change Management or as ordered by the appropriate State Commission. These processes include Frame Due Time, Coordinated Hot Cut, and the Project Managed Hot Cut process.

6. MASS CALLING

6.1 General Terms and Conditions

6.1.1 Mass calling codes, i.e., choke/HVCI NXXs, are used in a network serving arrangement provided by AT&T in special circumstances where large numbers of incoming calls are solicited by an end user and the number of calls far exceeds the switching capacity of the terminating office, the number of lines available for terminating those calls, and/or the STP's query capacity to the PNP database. The following two different sets of End User objectives usually create this condition: (a) low call completion; and (b) high call completion.

6.1.2 Given the potentially hazardous effect calling conditions of this nature could have on the network, AT&T will provide mass calling code portability using a non-LRN solution.

6.2 Service Provided

6.2.1 AT&T will offer the ability to port telephone numbers with mass calling NXX codes via the use of pseudo codes or route index numbers. In this non-LRN scenario, calls to the AT&T mass calling NXX code will leave the originating end office over dedicated MF (multi-frequency) trunk groups to the AT&T mass calling tandem. The mass calling tandem will then route the calls over dedicated MF trunks to the AT&T's choke serving central office (CSO). The CSO will translate the dialed mass calling number to a non-dialable pseudo code or a route index number that routes the call to the mass calling customer.

6.2.2 When MCIm requests that a AT&T number with a mass calling NXX code be ported to its network, AT&T will build translations at the CSO to route the incoming calls to a MCIm provided dedicated Direct Inward Dial (DID) MF trunk group from the CSO to MCIm's central office.

NUMBERING

TABLE OF CONTENTS

1. INTRODUCTION 3
2. GENERAL TERMS AND CONDITIONS 3

1. INTRODUCTION

1.1 This Appendix sets forth the terms and conditions under which AT&T MISSOURI will coordinate with MCIm with respect to NXX assignments.

2. GENERAL TERMS AND CONDITIONS

2.1 Nothing in this Agreement shall be construed to limit or otherwise adversely impact in any manner either Party's right to employ or to request and be assigned any North American Numbering Plan (NANP) number resources from the numbering administrator including, but not limited to, central office (NXX) codes pursuant to the Central Office Code Assignment Guidelines, or to establish, by tariff or otherwise, Exchanges and Rating Points corresponding to such NXX codes. Each Party is responsible for administering the NXX codes it is assigned.

2.2 At a minimum, in those Metropolitan Exchange Areas where MCIm is properly certified by the appropriate regulatory body and intends to provide local exchange service, MCIm shall obtain a separate NXX code for each AT&T MISSOURI Rate Center or Rate District (which ever is smaller) which is required to ensure compliance with the industry-approved Central Office Code (NXX) Assignment Guidelines (most current version) or other industry approved numbering guidelines and the FCC's Second Report & Order in CC Docket 95-116, released August 18, 1997 (Local Number Portability). Where pooling is done, MCIm will obtain blocks of numbers in thousand increments rather than a full NXX for rate areas served by MCIm.

2.3 Pursuant to Section 7.3 of the North American Numbering Council Local Number Portability Architecture and Administrative Plan report, which was adopted by the FCC, Second Report and Order, CC Docket 95-116, released August 18, 1997, portability is limited to Rate Center/Rate District boundaries of the incumbent LEC due to rating and routing concerns.

2.4 Each Party is responsible to test, load, program and update its own switches and network systems to recognize and route traffic to the other Party's assigned NXX codes at all times. Neither Party shall impose fees or charges on the other Party for such required programming and updating activities.

2.5 Each Party is responsible to input required data into the Business Integrated Rating and Routing Database System (BIRRDS) or other appropriate system(s) necessary to update the Local Exchange Routing Guide (LERG), unless negotiated otherwise.

2.6 Neither Party is responsible for notifying the other Parties' end user customers of any changes in dialing arrangements, including those due to NPA exhaust.

2.7 NXX Migration

2.7.1 NXX reassignment/migration is permissible upon agreement of the Parties. Upon request by either Party to migrate an NXX, the Parties will determine the reassignment/migration process and any applicable charges per Appendix

Pricing. The Parties agree to follow established industry practice for code transfer and LERG reassignment.

12. OSS CHARGES FOR SYSTEM ACCESS AND CONNECTIVITY 17

1. INTRODUCTION

1.1 This Appendix sets forth the terms and conditions under which AT&T MISSOURI provides access to AT&T's Operations Support System (OSS) "functions" to MCIm for pre-ordering, ordering, provisioning, and maintenance/repair, and billing as provided by AT&T.

1.2 With respect to all matters covered by this Appendix, the Parties will comply with the AT&T-13STATE Competitive Local Exchange Carrier (CLEC) OSS Interface Change Management Process "CMP" Document, subject to applicable state law or Commission orders. If specific performance under this Appendix is not detailed in the CMP, it will then be governed by the terms and conditions of this Appendix.

1.3 Definitions

1.3.1 "LSC" means the Local Service Center for AT&T.

1.3.2 "LOC" means the Local Operations Center for AT&T.

2. GENERAL CONDITIONS

2.1 Performance Standards. AT&T MISSOURI shall comply with the service guarantees and Performance Standards, measurements, and reporting regarding OSS Functions, set forth in Appendix Performance Measurements. Further, AT&T MISSOURI will compensate MCIm in accordance with Appendix Performance Measurements for any OSS Function-related Performance Standards AT&T MISSOURI fails to meet.

2.2 MCIm agrees to utilize AT&T MISSOURI electronic interfaces, as described herein, for the purposes of establishing and maintaining Resale Services, UNEs, local number portability, or local Interconnection trunking through AT&T MISSOURI. In addition, MCIm agrees that for AT&T MISSOURI such use will comply with AT&T's Security Policies and Guidelines incorporated in Section 8. Notwithstanding anything in this Appendix to the contrary, failure to comply with such security guidelines may result in forfeiture of electronic access to OSS functionality. In addition, MCIm agrees to indemnify and hold AT&T MISSOURI harmless against any claim made by an end user customer of MCIm or other third party against AT&T MISSOURI caused by or related to MCIm's use of any AT&T MISSOURI OSS. AT&T MISSOURI shall be permitted to audit all activities by MCIm using any AT&T MISSOURI OSS not more than once annually, upon written notice to MCIm. Such written notice shall specify the type of information AT&T MISSOURI is seeking and shall also specify the reason AT&T MISSOURI is seeking the audit, including any alleged "misuse" of the OSS by MCIm. MCIm shall provide the requested information within fourteen (14) days of receiving notice from AT&T MISSOURI. All such information obtained through an audit shall be deemed proprietary and shall be covered by the General Terms and Conditions.

2.3 The Dispute Resolution (DR) process set forth in the ICA shall apply to any issues, which arise under this Appendix, including any alleged non-compliance with these security guidelines.

2.4 To the extent Resale, Unbundled Network Elements (UNE), local number portability and interconnection trunking, pre-ordering, ordering, provisioning and maintenance/repair, and billing functions as provided herein are available electronically, they will be accessible via OSS interfaces

as described herein. Manual access remains available via the Local Service Center (LSC) and the Local Operations Center (LOC) to the extent described below. Should AT&T MISSOURI develop electronic interfaces for these functions for itself, its affiliates and/or other CLECs, AT&T MISSOURI will offer electronic access to these functions to MCIm at parity. The Parties agree that electronic order processing is more efficient than manual order processing. During implementation or upon AT&T MISSOURI's request, the Parties will negotiate a threshold volume of orders after which electronic ordering is required. Once MCIm is submitting more than the agreed to threshold amount, but not later than twelve (12) months from the Effective Date of this Agreement, MCIm will no longer submit orders manually. Provided, however, when the electronic order processing is unavailable for a substantial period of time, or where a given order cannot be processed electronically, AT&T MISSOURI shall accept manual orders.

2.5 Within AT&T MISSOURI, and other AT&T MISSOURI regions, MCIm's access to pre-order functions described in Section 3.2.2.1 will only be utilized to view Customer Proprietary Network Information (CPNI) of MCIm's end user customer accounts and any other end user customer accounts where MCIm has obtained an authorization for release of CPNI from the end user. The authorization for release of CPNI shall comply with state and federal rules or guidelines concerning access to such information. MCIm's obligation to obtain authority prior to accessing CPNI electronically, as set forth in the preceding provisions, is subject to modification in accordance with any governing regulatory decisions expressly addressing this subject matter.

2.6 MCIm will obtain authorization for change in local exchange service and release of CPNI that adheres to all requirements of state and federal law, as applicable CPNI, includes customer name, billing and service address, billing telephone number(s), any and all exemption status or current status of eligibility for reduced charges, and identification of features and services subscribed to by customer.

2.7 Intentionally Omitted.

2.8 Intentionally Omitted.

2.9 Intentionally Omitted

2.10 MCIm agrees to use reasonable business efforts to submit orders that are correct and complete. AT&T MISSOURI will use reasonable business efforts to process MCIm's orders before rejecting MCIm orders for accuracy and completeness. The Parties agree to conduct internal and independent reviews for accuracy. MCIm is also responsible for all actions of its employees using any of AT&T's OSS systems.

2.11 Work Center for OSS Single Point of Contact. AT&T MISSOURI has a single help desk, called the Information Services Call Center (ISCC), which provides technical support as MCIm's single point of contact (SPOC) for all of AT&T MISSOURI electronic OSS interfaces involved in the pre-ordering, ordering, provisioning, and maintenance/repair and billing of Network Elements and Local Resale services. MCIm will also provide a single point of contact for technical support issues related to the electronic interfaces.

2.12 Within a commercially reasonable time, if such does not already exist between the Parties, AT&T MISSOURI and MCIm will establish interface contingency plans and disaster recovery plans for

the pre-order, ordering and provisioning and maintenance/repair, and billing for Resale services, UNEs, local number portability, or interconnection trunking.

2.13 The Parties will follow the final adopted guidelines of AT&T 13-State Competitive Local Exchange Carrier (CLEC) OSS Interface Change Management Process as may be modified from time to time in accordance with the Change Management principles. Certain OSS interfaces described in this Appendix may be modified, temporarily unavailable or may be phased out after execution of this Appendix. AT&T MISSOURI shall provide proper notice of interface phase out as required by the Change Management process.

2.14 AT&T MISSOURI and MCIm agree to participate in and abide by resolutions of the Order and Billing Forum (OBF) and the Telecommunications Industry Forum (TCIF) to establish and conform to uniform industry guidelines for electronic interfaces for pre-order, ordering, and provisioning. Neither Party waives its rights as participants in such forums or in the implementation of the guidelines. To achieve system functionality as quickly as possible, the Parties acknowledge that AT&T MISSOURI may deploy these interfaces with requirements developed in advance of industry guidelines. Thus, subsequent modifications may be necessary to comply with emerging guidelines consistent with requirements of this Appendix.

2.15 MCIm and AT&T MISSOURI are individually responsible for evaluating the risk of developing their respective systems in advance of guidelines and agree to support their own system modifications to comply with new requirements. In addition, AT&T MISSOURI has the right to define Local Service Request (LSR) Usage requirements according to the practices in the OBF Local Service Ordering Guidelines (LSOG) and to make those changes following Change Management Guidelines.

2.16 MCIm is responsible for obtaining operating system software and hardware to access AT&T MISSOURI OSS functions as specified in the document "Competitive Local Exchange Carrier (CLEC) Operations Support System Interconnection Procedures", or any other documents or interface requirements subsequently generated by AT&T MISSOURI for any of its regions.

3. PRE-ORDER

3.1 AT&T MISSOURI will provide access to pre-order functions at parity with what it provides to itself, its affiliate(s) and/or any other CLEC, to support MCIm pre-ordering and ordering of services via electronic interfaces. Real time access to pre-order functions that may be developed in the future will be offered to MCIm to the extent and on the same basis as AT&T MISSOURI provides to itself or its affiliates and/or any other CLEC. The Parties acknowledge that ordering requirements necessitate the use of current, real time pre-order information to accurately build service orders, to permit MCIm to serve its End Users. The following lists represent pre-order functions that are available to MCIm so that MCIm order requests may be created to comply with AT&T MISSOURI's region-specific ordering requirements.

3.2 Pre-ordering information either manually or electronically for Resale and UNEs includes but is not limited to:

3.2.1 Feature/Service Availability

3.2.1.1 Feature Inquiry provides AT&T MISSOURI with feature and service availability by WTN, NPA/NXX, and CLLI Code (as applicable).

3.2.1.2 PIC/LPIC Inquiry provides AT&T MISSOURI Primary Interexchange Carrier (PIC) options for intraLATA toll and interLATA toll.

3.2.2 Customer Service Information - CSI Inquiry

3.2.2.1 Access to AT&T MISSOURI retail or resold CPNI and account information for pre-ordering will include: billing name, service address, billing address, service and feature subscription, directory listing information, long distance carrier identity, and pending service order activity. CLEC agrees that CLEC's representatives will not access the information specified in this subsection until after the End User authorizes the release of CPNI in compliance with the conditions as described in sections 2.5 and 2.6 of this Appendix.

3.2.3 Telephone Number Inquiry

3.2.3.1 AT&T MISSOURI provides a Telephone Number Reservation Inquiry and a Cancel Reservation function.

3.2.4 Scheduling Inquiry/Availability

3.2.4.1 Due Date Inquiry provides next available dates for the End User (where available).

3.2.4.2 Dispatch Inquiry provides information to indicate whether dispatch is required.

3.2.5 Address Validation Inquiry

3.2.5.1 AT&T MISSOURI provides address validation function.

3.3 The following are Pre-Order functions specific to UNEs

3.3.1 Loop Pre-Qualification and Loop Qualification Inquiry

3.3.1.1 AT&T MISSOURI provides pre-order loop qualification information specific to DSL capable and Line Shared UNE loops consistent with the XDSL and Advanced Services OSS Plan of Record filed 4/3/00 and approved by FCC on 12/22/00.

3.3.2 Common Language Location Indicator (CLLI) Inquiry

3.3.2.1 AT&T MISSOURI provides CLLI code inquiry function.

3.3.3 Connecting Facility Assignment (CFA) Inquiry

3.3.3.1 AT&T MISSOURI provides a CFA inquiry function.

3.3.4 Network Channel/Network Channel Interface (NC/NCI) Inquiry

3.3.4.1 AT&T MISSOURI provides a NC/NCI inquiry function.

3.4 Electronic Access to Pre-Order Functions

3.4.1 Resale and UNE Pre-order Interface Availability

3.4.1.1 Enhanced Verigate is the 13-state uniform pre-order GUI interface available in AT&T MISSOURI to provide the pre-ordering functions listed in sections 3.2 and 3.3. Enhanced Verigate is accessible via a web-based Toolbar.

3.4.1.2 An industry standard EDI/CORBA Pre-ordering Gateway is provided by AT&T MISSOURI. This pre-ordering gateway supports two structural protocols, EDI and CORBA, as recommended by the technical industry committees. EDI/CORBA, is the 13-state uniform pre-order application-to-application interface that can be integrated with the CLEC's own negotiation system and that supports both Resale services and UNEs.

3.5 Other Pre-order Function Availability

3.5.1 Where pre-ordering functions are not available electronically, CLEC will manually request this information from the LSC, dependent on operating region, for inclusion on the service order request.

3.5.2 Data Validation Files are available for the purpose of providing requesting CLECs with an alternate method of acquiring pre-ordering information that is considered relatively static. Upon request, AT&T MISSOURI will provide CLECs with any of the following Data Validation Files via Connect: Direct, CD-ROM, or downloadable via the pre-order GUI – Enhanced Verigate. Due to its size, the Street Address Guide (SAG) will be available only via Connect:Direct, and CD-ROM.

3.5.2.1 Data Validation Files:

3.5.2.1.1 SAG (Street Address Guide)
3.5.2.1.2 Feature/Service Availability by Switch
3.5.2.1.3 Directory Names
3.5.2.1.4 Class of Service Codes
3.5.2.1.5 USOC (Universal Service Order Codes)
3.5.2.1.6 Community Names
3.5.2.1.7 Yellow Page Headings
3.5.2.1.8 PIC/LPIC (InterLATA/IntraLATA).

4. ORDERING/PROVISIONING

4.1 AT&T MISSOURI shall provide, through electronic interfaces, provisioning and premises visit installation support for coordinated scheduling, status, and dispatch.

4.2 AT&T MISSOURI will provide electronic access to ordering functions to support MCIm provisioning of services provided herein as described below. Real time access to ordering functions will be made available to MCIm at parity with what AT&T MISSOURI provides to itself or its affiliate(s) and/or any other CLEC. Intervals for Performance Measurements will be as defined in Appendix Performance Measurements. To order Resale services and UNEs, MCIm will format the service request to identify what features, services, or elements it wishes AT&T MISSOURI to provision in accordance with AT&T MISSOURI ordering requirements.

4.3 Resale and UNE Service Order Request Ordering System:

4.3.1 AT&T MISSOURI makes available to MCIm an Electronic Data Interchange (EDI) application-to-application interface for transmission of MCIm Local Service Requests (LSR) formats as defined in the AT&T 13-STATE Local Service Order Requirements (LSOR). In ordering and provisioning of Resale Services or UNEs, MCIm and AT&T MISSOURI will utilize industry guidelines developed by OBF and TCIF to transmit data based upon AT&T MISSOURI Resale and unbundled Network Elements ordering requirements in accordance with Uniform POR. In addition, Local Number Portability (LNP) will be ordered consistent with the OBF LSR and EDI process.

4.3.2 For AT&T MISSOURI, web-based LEX is the 13-state uniform ordering GUI interface that provides access to the uniform ordering functions for Resale Services and UNEs. Web-based LEX is accessible via a web-based Toolbar.

4.3.3 In ordering and provisioning Unbundled Dedicated Transport and local interconnection trunks, MCIm and AT&T MISSOURI will utilize industry ASR guidelines developed by OBF based upon AT&T MISSOURI ordering requirements.

4.4 Provisioning for Resale Services and UNEs in AT&T MISSOURI: AT&TMISSOURI will provision Resale services and l UNEs as detailed in MCIm order requests. Electronic access to status on such orders will be provided via the following electronic interfaces:

4.4.1 For EDI ordering, AT&T MISSOURI provides MCIm, and MCIm uses, an EDI interface for transferring and receiving orders, Firm Order Confirmation (FOC), Service Order Completion (SOC), and, as available, other provisioning data and information (e.g., jeopardies and rejects).

4.4.2 For AT&T MISSOURI, Order Status and Provisioning Order Status functionality is provided through the Enhanced Verigate interface which will allow CLEC to check service order status.

4.5 “As is migrations” (meaning, a Local Service Request that seeks to convert the End User Customer with whatever array of services he or she currently has) shall only be permitted for Resale.

5. MAINTENANCE/REPAIR

5.1 Real time electronic interfaces are accessible in AT&T MISSOURI to place and check the status of trouble reports for both Resale and UNE. Upon request, MCIm may access these functions via the following methods:

5.1.1 In AT&T MISSOURI, Electronic Bonding Trouble Administration-GUI (EBTA-GUI) allows MCIm to issue trouble tickets, view status, and view trouble history on-line. AT&T MISSOURI shall provide an Estimated Time To Repair (ETTR) on all trouble reports at parity with what it provides its affiliates, its retail customers and other CLECs.

5.1.2 In AT&T MISSOURI, Electronic Bonding Trouble Administration (EBTA) is an application-to-application interface that is available for trouble report submission and status updates. This EBTA conforms to ANSI guidelines T1:227:1995 and T1.228:1995, Electronic Communications Implementation Committee (ECIC) Trouble Report Format Definition (TFRD) Number 1 as defined in ECIC document ECIC/TRA/95-003, and all guidelines referenced within those documents, as mutually agreed upon by MCIm and in AT&T MISSOURI. Functions currently implemented will include Enter Trouble, Request Trouble Report Status, Add Trouble Information, Modify Trouble Report Attributes, Trouble Report Attribute Value Change Notification, and Cancel Trouble Report, as explained in 6 and 9 of ANSI T1.228:1995. MCIm and AT&T MISSOURI will exchange requests over a mutually agreeable X.25-based network.

6. BILLING

6.1 For Resale Services in AT&T MISSOURI, MCIm may elect to receive Bill Plus™, an electronic version of its bill, as described in, and in accordance with AT&T MISSOURI's Local Exchange Tariff. For Resale Services in AT&T CALIFORNIA, MCIm may elect to receive Custom Billing Disk/CD Bill. Custom Billing Disk/CD Bill provides an electronic bill with the same information as a paper bill along with various reporting options. Electronic access to billing information for Resale Services will also be available via the following interfaces:

6.1.1 MCIm may receive a Usage Extract Feed electronically in AT&T MISSOURI. On a daily basis, this feed provides information on the usage billed to its accounts for resale services in the industry standardized Exchange Message Interface (EMI) format.

6.1.2 AT&T MISSOURI shall provide local disconnect report records via the EDI 836 transaction set.

6.1.3 In AT&T MISSOURI, MCIm may also view billing information through the Bill Information interface. Bill Information will be accessible via AT&T MISSOURI's Classic Toolbar. The billing for UNE will be in standard CABS/BOS format. .

6.2 Electronic access to billing information for UNEs will also be available via the following interfaces:

6.2.1 AT&T MISSOURI makes available to MCIm a local bill data tape to receive data in an electronic format from its CABS database. The local bill data tape contains the same information that would appear on MCIm's paper bill.

6.2.2 MCIm may receive a Usage Extract Feed electronically in AT&T MISSOURI. On a daily basis, this feed provides information on the usage billed to its accounts for UNE in the industry standardized Exchange Message Interface (EMI) format.

6.2.3 In AT&T MISSOURI (only), MCIm may also view billing information through the Bill Information interface. Bill information will be accessible via AT&T MISSOURI's Classic Toolbar.

6.2.4 MCIm may receive a uniform loss notification via EDI 836 transaction or via the uniform GUI interface, WebLEX. For UNEs this loss notification indicates when MCIm's End Users, utilizing AT&T MISSOURI ports, change their Competitive Local Exchange Carrier.

6.3 AT&T MISSOURI shall provide timely notice of customer migrations of MCIm to AT&T MISSOURI or from MCIm to another carrier via an electronic line loss report where available, or a manual report when an electronic report is not available.

7. REMOTE ACCESS FACILITY

7.1 MCIm must access OSS interfaces via a MCIm Remote Access Facility. For AT&T MISSOURI, MCIm may use the applicable RAF to access AT&T OSS interfaces. Connection to these remote access facilities will be established via a "port" either through dial-up or direct connection as described in Section 7.2. MCIm may utilize a port to access AT&T MISSOURI's OSS interfaces to perform the supported functions in any AT&T states where MCIm has executed an Appendix OSS. OSS applications that are accessible through the Internet will also go through a secured Remote Access Facility.

7.2 For AT&T MISSOURI, MCIm may use three types of access: Switched, Private Line, and Frame Relay. For Private Line and Frame Relay "Direct Connections," MCIm shall provide its own router, circuit, and two Channel Service Units/Data Service Units (CSU/DSU). The demarcation point shall be the router interface at the LRAF, SRAF, ARAF, and/or PRAF. Switched Access "Dial-up Connections" require MCIm to provide its own modems and connection to the LRAF, PRAF, SRAF and ARAF. MCIm shall pay the cost of the call if Switched Access is used. Connections via the Public Internet require CLEC to connect to an ISP of their choice and use one of the HTTPS URLs associated with access to AT&T MISSOURI OSS via the public internet.

7.3 For AT&T MISSOURI, MCIm shall use TCP/IP to access AT&T MISSOURI OSS via the LRAF, ARAF, SRAF, and the PRAF. In addition, MCIm shall have at a minimum of one valid Internet Protocol (IP) network address per region. MCIm shall maintain user-ids/passwords for accessing an AT&T MISSOURI OSS on MCIm's behalf under the AT&T block ID program.

7.4 For AT&T MISSOURI, MCIm shall attend and participate in implementation meetings to discuss MCIm LRAF/PRAF/ARAF/SRAF access plans in detail and schedule testing of such connections.

8. DATA CONNECTION SECURITY REQUIREMENTS

8.1 MCIm agrees that interconnection of MCIm data facilities with AT&T MISSOURI data facilities for access to OSS will be in compliance with AT&T's Competitive Local Exchange Carrier (CLEC) Operations Support System Interconnection Procedures document current at the time of initial

connection to a RAF. The following additional terms in this Section govern direct and dial up connections between MCIm and the PRAF, LRAF, ARAF and SRAF for access to OSS Interfaces.

8.2 Joint Security Requirements

8.2.1 Both Parties will maintain accurate and auditable records that monitor user authentication and machine integrity and confidentiality (e.g., password assignment and aging, chronological logs configured, system accounting data, etc.)

8.2.2 Both Parties shall maintain accurate and complete records detailing the individual data connections and systems to which they have granted the other Party access or interface privileges. These records will include, but are not limited to, user ID assignment, user request records, system configuration, time limits of user access or system interfaces. These records should be kept until the termination of this Agreement or the termination of the requested access by the identified individual. Either Party may initiate a compliance review of the connection records to verify that only the agreed to connections are in place and that the connection records are accurate.

8.2.3 Each Party shall notify the other party immediately, whenever its current user id or system access request is no longer approved or considered authorized for access.

8.2.4 Both Parties shall use an industry standard virus detection software program at all times. The Parties shall immediately advise each other by telephone upon actual knowledge that a virus or other malicious code has been transmitted to the other Party.

8.2.5 All physical access to equipment and services required to transmit data will be in secured locations. Verification of authorization will be required for access to all such secured locations. A secured location is where walls and doors are constructed and arranged to serve as barriers and to provide uniform protection for all equipment used in the data connections which are made as a result of the user's access to either the MCIm or AT&T MISSOURI network. At a minimum, this shall include: access doors equipped with card reader control or an equivalent authentication procedure and/or device, and egress doors which generate a real-time alarm when opened and which are equipped with tamper resistant and panic hardware as required to meet building and safety standards.

8.2.6 Both Parties shall maintain accurate and complete records on the card access system or lock and key administration to the rooms housing the equipment utilized to make the connection(s) to the other Party's network. These records will include management of card or key issue, activation or distribution and deactivation.

8.3 Additional Responsibilities of Both Parties

8.3.1 Modem/DSU Maintenance And Use Policy: To the extent the access provided hereunder involves the support and maintenance of MCIm equipment on AT&T MISSOURI' premises, such maintenance will be provided under the terms of the Competitive Local Exchange Carrier (CLEC) Operations Support System Interconnection Procedures document cited above.

8.3.2 Monitoring: Each Party will monitor its own network relating to any user's access to the Party's networks, processing systems, and applications. This information may be collected, retained, and analyzed to identify potential security risks without notice. This information may include, but is not limited to, trace files, statistics, network addresses, and the actual data or screens accessed or transferred.

8.3.3 Each Party shall notify the other Party's security organization immediately upon initial discovery of actual or suspected unauthorized access to, misuse of, or other "at risk" conditions regarding the identified data facilities or information. Each Party shall provide a specified point of contact. If either Party suspects unauthorized or inappropriate access, the Parties shall work together to isolate and resolve the problem.

8.3.4 In the event that one Party identifies inconsistencies or lapses in the other Party's adherence to the security provisions described herein, or a discrepancy is found, documented, and delivered to the non-complying Party, a corrective action plan to address the identified vulnerabilities must be provided by the non-complying Party within thirty (30) calendar days of the date of the identified inconsistency. The corrective action plan must identify what will be done, the Party accountable/responsible, and the proposed compliance date. The non-complying Party must provide periodic status reports (minimally monthly) to the other Party's security organization on the implementation of the corrective action plan in order to track the work to completion.

8.3.5 In the event there are technological constraints or situations where either Party's corporate security requirements cannot be met, the Parties will institute mutually agreed upon alternative security controls and safeguards to mitigate risks.

8.3.6 All network-related problems will be managed to resolution by the respective organizations, MCIm or AT&T MISSOURI, as appropriate to the ownership of a failed component. As necessary, MCIm and AT&T MISSOURI will work together to resolve problems where the responsibility of either Party is not easily identified.

8.4 Information Security Policies And Guidelines For Access To Computers, Networks and Information By Non-Employee Personnel:

8.4.1 Information security policies and guidelines are designed to protect the integrity, confidentiality and availability of computers, networks and information resources. This Section summarizes the general policies and principles for individuals who are not employees of the Party that provides the computer, network or information, but have authorized access to that Party's systems, networks or information. Questions should be referred to MCIm or AT&T MISSOURI, respectively, as the providers of the computer, network or information in question.

8.4.2 It is each Party's responsibility to notify its employees, contractors and vendors who will have access to the other Party's network, on the proper security responsibilities identified within this Attachment. Adherence to these policies is a requirement for continued access to the other Party's systems, networks or information. Exceptions to the policies must be requested in writing and approved by the other Party's information security organization.

8.5 General Policies

8.5.1 Each Party's resources are for approved business purposes only.

8.5.2 Both Parties will monitor access to OSS systems and will promptly notify the other Party's designated personnel if it discovers any unauthorized access for security breach to the OSS systems. In the event of such unauthorized access or breach the Parties will work cooperatively to investigate, minimize and take corrective actions. Each Party will be responsible for paying its own cost of investigation. Each Party may exercise at any time its right to take appropriate action should unauthorized or improper usage be discovered.

8.5.3 Individuals will only be given access to resources that they are authorized to receive and which they need to perform their job duties. Users must not attempt to access resources for which they are not authorized.

8.5.4 Authorized users must not develop, copy or use any program or code which circumvents or bypasses system security or privilege mechanism or distorts accountability or audit mechanisms.

8.5.5 Actual or suspected unauthorized access events must be reported immediately to each Party's security organization or to an alternate contact identified by that Party. Each Party shall provide its respective security contact information to the other.

8.6 User Identification

8.6.1 AT&T MISSOURI will utilize a process whereby blocks of user-ids will be established by AT&T MISSOURI and then self-administered by MCI. MCI will follow the user id processes and guidelines as outlined in the Competitive Local Exchange Carrier (CLEC) Operations Support System Interconnection Procedures.

8.6.2 Intentionally Omitted.

8.6.3 User ids will be revalidated on a periodic basis, as required. Revalidation will also be necessary as business needs change.

8.7 User Authentication

8.7.1 Users will usually be authenticated by use of a password. Strong authentication methods (e.g. one-time passwords, digital signatures, etc.) may be required in the future.

8.7.2 Passwords must not be stored in script files.

8.7.3 Passwords must be entered by the user in real time.

8.7.4 Passwords must be at least 6-8 characters in length, not blank or a repeat of the user id; contain at least one letter, and at least one number or special character must be in a position other than the first or last one. This format will ensure that the password is hard to guess. Most systems are capable of being configured to automatically enforce these

requirements. Where a system does not mechanically require this format, the users must manually follow the format.

8.7.5 Systems will require users to change their passwords regularly (usually every 31 days).

8.7.6 Systems are to be configured to prevent users from reusing the same password for 6 changes/months.

8.7.7 Personal passwords must not be shared. A user who has shared his password is responsible for any use made of the password.

8.8 Access and Session Control

8.8.1 Destination restrictions will be enforced at remote access facilities used for access to OSS Interfaces. These connections must be approved by each Party's corporate security organization.

8.8.2 Terminals or other input devices must not be left unattended while they may be used for system access. Upon completion of each work session, terminals or workstations must be properly logged off.

8.9 User Authorization

8.9.1 On the destination system, users are granted access to specific resources (e.g. databases, files, transactions, etc.). These permissions will usually be defined for an individual user (or user group) when a user id is approved for access to the system.

8.10 Software And Data Integrity

8.10.1 Each Party shall use a comparable degree of care to protect the other Party's software and data from unauthorized access, additions, changes and deletions as it uses to protect its own similar software and data. This may be accomplished by physical security at the work location and by access control software on the workstation.

8.10.2 Unauthorized use of copyrighted software is prohibited on each Party's corporate systems that can be access through the direct connection or dial up access to OSS Interfaces.

8.10.3 Proprietary software or information (whether electronic or paper) of a Party shall not be given by the other Party to unauthorized individuals. When it is no longer needed, each Party's proprietary software or information shall be returned by the other Party or disposed of securely. Paper copies shall be shredded. Electronic copies shall be overwritten or degaussed.

8.11 Monitoring And Audit

8.11.1 To deter unauthorized access events, a warning or no trespassing message will be displayed at the point of initial entry (i.e., network entry or applications with direct entry points). One example of this end user customer warning banner message may be:

"This is a (AT&T MISSOURI or MCIm) system restricted to Company official business and subject to being monitored at any time. Anyone using this system expressly consents to such monitoring and to any evidence of unauthorized access, use, or modification being used for criminal prosecution."

8.11.2 After successful authentication, each Party will track the last logon date/time and the number of unsuccessful logon attempts. The user is responsible for reporting discrepancies.

9. OPERATIONAL READINESS TESTING (ORT) FOR ORDERING/PROVISIONING AND REPAIR/ MAINTENANCE INTERFACES

9.1 At either Party's request and prior to live access to interface functionality, the Parties must conduct Operational Readiness Testing (ORT), which will allow for the testing of the systems, interfaces, and processes for the OSS functions. ORT will be completed in conformance with agreed upon processes and implementation dates.

10. TRAINING

10.1 AT&T MISSOURI shall train MCIm's trainers in the use of AT&T MISSOURI's OSS systems and processes. Training will be provided for all preordering, ordering and provisioning, maintenance and repair, billing, miscellaneous services, and any other area, function or support system as provided for elsewhere in this Appendix, as requested by MCIm. Charges as specified below will apply for each class. Information and materials provided to MCIm must include, at a minimum, operational and procedural information, and AT&T MISSOURI specific system access/interface instruction. Classes are train-the-trainer format to enable MCIm to devise its own course work for its own employees. Course descriptions for all available classes by region are posted on the CLEC web site (http://clec.att.com) in the Customer Education section. CLEC Training schedules by region are also available on the CLEC web site and are subject to change, with class lengths varying. Prior to live GUI or other system usage by MCIm, MCIm must complete user education classes for any AT&T MISSOURI provided interfaces that affect the AT&T MISSOURI network.

Training Rates	5 day class	4.5 day class	4 day class	3.5 day class	3 day class	2.5 day class	2 day class	1.5 day class	1 day class	1/2 day class
1 to 5 students	$4,050	$3,650	$3,240	$2,835	$2,430	$2,025	$1,620	$1,215	$810	$405
6 students	$4,860	$4,380	$3,890	$3,402	$2,915	$2,430	$1,945	$1,455	$970	$490
7 students	$5,670	$5,100	$4,535	$3,969	$3,400	$2,835	$2,270	$1,705	$1,135	$570
8 students	$6,480	$5,830	$5,185	$4,536	$3,890	$3,240	$2,590	$1,950	$1,300	$650
9 students	$7,290	$6,570	$5,830	$5,103	$4,375	$3,645	$2,915	$2,190	$1,460	$730
10 students	$8,100	$7,300	$6,480	$5,670	$4,860	$4,050	$3,240	$2,430	$1,620	$810
11 students	$8,910	$8,030	$7,130	$6,237	$5,345	$4,455	$3,565	$2,670	$1,780	$890
12 students	$9,720	$8,760	$7,780	$6,804	$5,830	$4,860	$3,890	$2,920	$1,945	$970

10.2 A separate agreement will be required as a commitment to pay for a specific number of MCIm students in each class. MCIm agrees that charges will be billed by AT&T MISSOURI and MCIm payment is due in accordance with the billing provisions in the General Terms and Conditions. MCIm agrees that personnel from other competitive Local Service Providers may be scheduled into

any AT&T MISSOURI offered-class, to fill any additional seats for which any CLEC has not contracted. Class availability is first-come, first served with priority given to CLECs who have not yet attended the specific class.

10.3 Class dates will be based upon MCIm requests and AT&T MISSOURI availability.

10.4 If MCIm cancels a scheduled class less than two weeks' prior to the scheduled start date, MCIm shall pay a cancellation fee consisting of the cost of the class less the cost of teaching materials. Should AT&T MISSOURI cancel a class for which MCIm is registered less than one week prior to the schedule start date of that class, AT&T MISSOURI will waive the charges for the rescheduled class for the registered students. MCIm agrees to provide to AT&T MISSOURI completed registration forms for each student no later than one week prior to the scheduled training class.

10.5 MCIm agrees that MCIm personnel attending classes are only to utilize training databases presented to them in class. Attempts to access any other AT&T MISSOURI or AT&T system are strictly prohibited.

10.6 MCIm further agrees that training material, manuals and instructor guides can be duplicated only for internal use for the purpose of training employees to utilize the capabilities of AT&T MISSOURI's OSS in accordance with this Appendix and are "Confidential Information" subject to the terms, conditions and limitations of General Terms and Conditions.

11. SERVICE BUREAU PROVIDER ARRANGEMENTS FOR SHARED ACCESS TO OSS

11.1 The Parties agree that MCIm's use of a Service Bureau Provider to access AT&T MISSOURI' OSS shall be subject to the requirements of this Section. For purposes of this Section, Service Bureau Provider means a third party that has been engaged by MCIm to act on MCIm's behalf for purposes of providing a means of access to AT&T MISSOURI's OSS application-to-application interfaces via a dedicated connection over which multiple CLECs' local service transactions are transported.

11.2 AT&T MISSOURI shall allow MCIm to access its OSS via a Service Bureau Provider under the following terms and conditions.

11.3 Notwithstanding any language in this Agreement regarding access to OSS to the contrary, MCIm shall be permitted to access AT&T MISSOURI OSS via a Service Bureau Provider as follows:

11.3.1 MCIm shall be permitted to access AT&T MISSOURI application-to-application OSS interfaces, via a Service Bureau Provider where MCIm has entered into a relationship with such Service Bureau Provider and the Service Bureau Provider has entered into an appropriate arrangement acceptable to AT&T MISSOURI to allow Service Bureau Provider to establish access to and use of AT&T MISSOURI's OSS.

11.3.2 MCIm's use of a Service Bureau Provider shall not relieve MCIm of the obligation to abide by all terms and conditions of this Agreement. MCIm must ensure that its Service Bureau Provider properly performs all OSS obligations of MCIm under this Agreement which MCIm delegates to Service Bureau Provider.

11.3.3 MCIm shall provide notice in accordance with the notice provisions of the general terms and conditions of this Agreement whenever it intends to use a Service Bureau Provider to access AT&T MISSOURI's application-to-application OSS interfaces or when MCIm intends to cease using a Service Bureau Provider to access AT&T MISSOURI' application-to-application OSS interfaces. Provided that AT&T MISSOURI has not previously established a connection with a particular Service Bureau Provider, AT&T MISSOURI shall have a reasonable transition time, not to exceed sixty (60) days to establish a connection to a Service Bureau Provider once MCIm provides notice.

11.4 When MCIm accesses AT&T MISSOURI's OSS using a Service Bureau Provider, the measurement of AT&T MISSOURI's performance shall not include Service Bureau Provider's processing, availability or response time.

12. OSS CHARGES FOR SYSTEM ACCESS AND CONNECTIVITY

12.1 To the extent AT&T MISSOURI seeks to recover applicable costs, if any, associated with OSS System Access and Connectivity, AT&T MISSOURI shall not be foreclosed from seeking recovery of such costs via negotiation, arbitration, or generic proceeding during the term of this agreement. Any Commission approved rates to recover costs associated with OSS system access and connectivity shall be incorporated in this Agreement in accordance with the process established in Section 1.5 of Appendix Pricing.

1. INTRODUCTION

1.1 This Appendix sets forth the terms and conditions for Operator Services (OS) provided by AT&T MISSOURI to MCIm. The terms and conditions for Operator Services being provided for MCIm's resale end user customers are set forth in Appendix Resale.

2. SERVICES

2.1 General

2.1.1 AT&T MISSOURI shall ensure that MCIm end user customers have the capability to dial the same telephone numbers to access AT&T MISSOURI Operator Service that AT&T MISSOURI end user customers dial to access AT&T MISSOURI Operator Service.

2.1.2 AT&T MISSOURI shall provide Operator Services in accordance with the terms and conditions herein, unless AT&T MISSOURI provides MCIm with customized routing as defined in Appendix UNE

2.2 Operator Services

2.2.1 If Customized Routing is not provided and MCIm requests unbundled Operator Services, AT&T MISSOURI shall provide nondiscriminatory access to all of its Operator Services, including, but not limited to, the following Operator Service capabilities:

2.2.1.1 AT&T MISSOURI shall complete 0+ and 0- dialed local calls.

2.2.1.2 AT&T MISSOURI shall complete 0+ intraLATA toll calls.

2.2.1.3 AT&T MISSOURI shall complete calls that are billed to a calling card and MCIm shall designate the acceptable types of special billing.

2.2.1.4 AT&T MISSOURI shall complete person-to-person calls.

2.2.1.5 AT&T MISSOURI shall complete collect calls.

2.2.1.6 AT&T MISSOURI shall provide the capability for callers to bill to a third party and shall complete such calls.

2.2.1.7 AT&T MISSOURI shall complete station-to-station calls.

2.2.1.8 AT&T MISSOURI shall process BLV/BLVI requests.

2.2.1.9 AT&T MISSOURI shall refer emergency call trace requests to the appropriate call center or agency.

2.2.1.10 AT&T MISSOURI shall process 0-dialed operator-assisted Directory Assistance calls.

2.2.1.11 AT&T MISSOURI shall route 0-local traffic directly to a "live" operator team.

2.2.1.12 AT&T MISSOURI shall provide caller assistance services to MCIm's disabled end user customers in the same manner that AT&T MISSOURI provides caller assistance services to its disabled end user customer.

2.2.1.13 AT&T MISSOURI shall also provide general assistance such as information about rates, area codes, references to conference call services, and answering other miscellaneous inquiries, to the same extent provided to AT&T MISSOURI end user customers.

2.2.1.14 When requested by MCIm's end user customer, AT&T MISSOURI shall provide corrected billing information to MCIm on Operator Services calls (e.g., without limitation, misdialed or misdirected calls) in the same manner as provided to AT&T MISSOURI customers.

2.2.1.15 All Operator Services shall, at a minimum, comply with industry standards.

2.2.2 AT&T MISSOURI shall direct customer inquiries to the customer service center designated by MCIm.

2.3 Where technically feasible, AT&T MISSOURI will provide the following OS:

2.3.1 Fully Automated Call Processing

Allows the caller to complete a call utilizing equipment without the assistance of an AT&T MISSOURI operator, hereafter called "Operator."

2.3.1.1 AT&T MISSOURI - This allows the caller the option of completing calls through an Automated Alternate Billing System (AABS). Automated functions can only be activated from a touch-tone telephone. Use of a rotary telephone or failure or slow response by the caller to the audio prompts will bridge the caller to an Operator for assistance.

2.3.1.2 Intentionally Omitted.

2.3.2 Operator-Assisted Call Processing

2.3.2.1 Allows the caller to complete a call by receiving assistance from an Operator.

2.4 Operator Assisted Calls to Directory Assistance ("OADA")

2.4.1 OADA refers to the situation in which a calling party dials "0" and asks the operator for Directory Assistance and is automatically transferred to a Directory Assistance operator. AT&T MISSOURI will offer OADA to calling parties on a nondiscriminatory basis.

3. SERVICES

3.1 Fully Automated Call Processing - Where technically feasible, AT&T MISSOURI can support the following fully automated call types as outlined below:

3.1.1 Fully Automated Calling Card Service

3.1.1.1 This service is provided when the caller dials zero ("0"), plus the desired telephone number and the calling card number to which the call is to be charged. The call is completed without the assistance of an Operator. An authorized calling card for the purpose of this Appendix, is one for which billing validation can be performed.

3.1.2 Fully Automated Collect and Bill to Third Number Services or Mechanized Calling Card System

3.1.2.1 The caller dials zero (0) plus the telephone number desired, and selects the Collect or Bill To Third Number billing option as instructed by the automated equipment. The call is completed without the assistance of an Operator.

3.2 Operator-Assisted Call Processing - Where technically feasible, AT&T MISSOURI will support the following Operator-assisted call types for MCIm:

3.2.1 Semi-Automated Calling Card Service. A service provided when the caller dials zero (0) plus the telephone number desired and the calling card number to which the call is to be charged. The call is completed with the assistance of an Operator. An authorized calling card for the purpose of this Appendix, is one for which AT&T MISSOURI can perform billing validation.

3.2.2 Semi-Automated Collect and Bill to Third Number Services. The caller dials zero (0) plus the telephone number desired, and selects the Collect or Bill To Third Number billing option as instructed by the automated equipment. The call is completed with the assistance of an Operator.

3.2.3 Semi-Automated Person-To-Person Service. A service in which the caller dials zero (0) plus the telephone number desired and asks the Operator for assistance in reaching a particular person, or a particular PBX station, department or office to be reached through a PBX attendant. This service applies even if the caller agrees, after the connection is established, to speak to any party other than the Party previously specified.

3.2.4 Operator Handled Services. Services provided when the caller dials zero (0) for Operator assistance in placing a sent paid, calling card, collect, third number or person to person call.

3.2.5 Busy Line Verification. A service in which the Operator, upon request, will check the requested line for conversation in progress and advise the caller.

3.2.6 Busy Line Interrupt. A service in which the caller asks the Operator to interrupt a conversation in progress, to determine if one of the Parties is willing to speak to the caller requesting the interrupt. A Busy Line Interrupt charge applies even if no conversation is

in progress at the time of the interrupt attempt, or when the Parties interrupted refuse to terminate the conversation in progress.

3.2.7 Operator Transfer Service. A service in which the local caller requires Operator Assistance for completion of a call terminating outside the originating LATA.

3.2.8. General Assistance is used to describe those general types of assistance the operator bureaus of each Party typically provide to each other. General Assistance includes, but is not limited to, circumstances in which an operator seeks assistance in dialing a number (e.g., for attempting to dial a number where a 'no ring' condition has been encountered) and emergency assistance.

4. CALL BRANDING

4.1 Call Branding is the process by which an Operator, either live or recorded, will identify the OS provider as being MCIm, audibly and distinctly to the MCIm end user at the beginning of each OS call. In all cases, AT&T MISSOURI will brand the OS call as directed by MCIm. MCIm will provide written specifications of its name or announcement to be used by AT&T MISSOURI to create the recorded branding announcement for its OS calls as outlined in the Operator Services Questionnaire.

4.2 Where not technically feasible or where MCIm does not request branding, AT&T will have the recorded announcement for such calls play silence instead of a recorded brand. Where technically feasible and/or available, AT&T MISSOURI will brand OS based upon the criteria outlined.

4.2.1 Where AT&T MISSOURI is only providing OS on behalf of MCIm, the calls will be branded. When the same trunk group is used to provide OS and DA services to MCIm, calls will be branded at MCIm's request with the same brand. There may be separate brands where separate trunk groups are utilized.

4.2.2 Branding Load Charges

4.2.2.1 Non-recurring load charges apply per brand, per Operator Assistance Switch (and per OCN, if multiple OCNs are used) for the establishment of MCIm specific branding. In addition, a per call "branding" (i.e. recorded announcement) charge applies for every OS call handled by the automated recording in the AT&T MISSOURI OS platform.

4.2.3 Branding charges are included in Appendix Pricing.

5. OPERATOR SERVICES (OS) RATE/REFERENCE INFORMATION

5.1 If MCIm elects to use OS services where technically feasible and/or available, AT&T MISSOURI will provide MCIm OS Rate/Reference Information, based upon the criteria outlined below:

5.1.1 MCIm will furnish OS Rate and Reference Information in accordance with process outlined in Operator Services Questionaire (OSQ) posted on AT&T's CLEC online website thirty (30) calendar days in advance of the date when the OS Services are to be undertaken.

5.1.2 MCIm will inform AT&T MISSOURI in writing, of any changes to be made to such Rate/Reference Information fourteen (14) calendar days prior to the effective Rate/Reference change date. MCIm acknowledges that it is responsible to provide AT&T MISSOURI updated Rate/Reference Information fourteen (14) calendar days in advance of when the updated Rate/Reference Information is to become effective.

5.1.3 An initial non-recurring charge will apply per state, per Operator assistance switch for loading of MCIm's OS Rate/Reference Information. An additional non-recurring charge will apply per state, per Operator assistance switch for each subsequent change to either MCIm's OS Services Rate or Reference Information subject to the requirements herein.

5.2 When an AT&T MISSOURI Operator receives a rate request from an MCIm end user customer, AT&T MISSOURI will quote the applicable OS rates as provided by MCIm.

6. INTENTIONALLY OMITTED

6.1 Intentionally Omitted

7. HANDLING OF EMERGENCY CALLS TO OPERATOR

7.1 To the extent MCIm's NXX encompasses multiple emergency agencies, AT&T MISSOURI agrees to ask the caller for the name of his/her community and to transfer the caller to the appropriate emergency agency for the caller's area. MCIm must provide AT&T MISSOURI with the correct information to enable the transfer as required by the OSQ. MCIm will also provide default emergency agency numbers to use when the customer is unable to provide the name of his/her community. When the assistance of another Carrier's operator is required, AT&T MISSOURI will attempt to reach the appropriate operator if the network facilities for Inward Assistance exist.

8. RESPONSIBILITIES OF THE PARTIES

8.1 MCIm will provide AT&T MISSOURI at least thirty (30) days notice prior to any significant change in service levels for Operator Services under this Appendix.

8.2 MCIm will be responsible for providing the equipment and facilities necessary for signaling and routing calls with Automatic Number Identification (ANI) to each AT&T MISSOURI Operator assistance switch. Should MCIm seek to obtain Interexchange OS from AT&T MISSOURI, MCIm is responsible for ordering the necessary facilities under the appropriate Interstate or Intrastate Access Service Tariffs. Nothing in this Agreement in any way changes the manner in which an Interexchange Carrier obtains access service for the purpose of originating or terminating Interexchange traffic.

8.2.1 Facilities necessary for the provision of OS shall be provided by the Parties hereto, using standard trunk traffic engineering procedures to insure that the objective grade of service is met. Each Party shall bear the costs for its own facilities and equipment.

8.3 MCIm understands and acknowledges that before live traffic can be passed, MCIm is responsible for obtaining and providing to AT&T MISSOURI, default emergency agency numbers.

8.4 AT&T MISSOURI shall make available service enhancements on a nondiscriminatory basis as soon as such enhancements are available to AT&T MISSOURI, its affiliate and all other CLECs. AT&T MISSOURI shall communicate official information to MCIm via its accessible letter notification process. This process covers a variety of subjects, including updates on products/services promotions, deployment of new products/services, modification and price changes to existing products/services, cancellation or retirement of existing products/services and operational issues.

8.5 AT&T MISSOURI shall provide MCIm with Operator Services equal in quality to those which provides to other CLECs and itself. Service quality must comply with all federal, state and local requirements, and must be at Parity.

8.6 MCIm will furnish to AT&T MISSOURI a completed OSQ, thirty (30) calendar days in advance of the date when the OS are to be undertaken. MCIm will provide AT&T MISSOURI updates to the OSQ fourteen (14) calendar days in advance of the date when changes are to become effective. AT&T MISSOURI shall adequately staff its operator work force.

9. METHODS AND PRACTICES

9.1 AT&T MISSOURI will provide OS to MCIm's end user customers in accordance with AT&T MISSOURI OS methods and practices that are in effect at the time the OS call is made, unless otherwise agreed in writing by both Parties.

10. PRICING

10.1 The prices at which AT&T MISSOURI agrees to provide MCIm with OS are contained in the applicable Appendix Pricing.

11. MONTHLY BILLING

11.1 AT&T MISSOURI will accumulate and provide MCIm such data as necessary for MCIm to bill its end user customers.

12. INDEMNIFICATION

12.1 The provisions set forth in the General Terms and Conditions of this Agreement, including but not limited to those relating to limitation of liability and indemnification, shall govern the Parties' performance under this Appendix including arising from the disclosure of telephone numbers, addresses, or names associated with the telephone called or telephone used to call AT&T MISSOURI's Operator Services.

13. TERMINATION OF SERVICE

13.1 MCIm may terminate use of AT&T MISSOURI's Operator Services any time after MCIm has used such Operator Services for the twelve (12) month minimum period upon ninety (90) days advance written notice to AT&T MISSOURI, inclusive of the notice period.

6 BUSINESS RULES....4

ATTACHMENT 16: Performance Measurements

This Attachment 16: Performance Measurements sets forth the terms and conditions under which AT&T Missouri will report performance to MCIm and compare that performance to AT&T Missouri' own performance or benchmark criteria, whichever is applicable. Enforcement measures through liquidated damages for failure to meet certain performance measures, set forth in this Attachment, are agreed upon in the Performance Remedy Plan included in a separate agreement of the Parties (Performance Remedy Plan Agreement).

1 Performance Data

1.1 AT&T Missouri agrees to provide MCIm a monthly report of performance for the performance measures listed in Appendix Performance Measurements Business Rules. AT&T Missouri will collect, analyze, and report performance data for these measures in accordance with AT&T Missouri' Performance Measurement Business Rules, as approved by the Missouri Public Service Commission (the "Commission" or "PSC"). Both the performance measures and the business rules are subject to modification in accordance with Section 3.0.

2 Compliance

2.1 For purposes of this Attachment, performance results (whether in the form of means, percentages, or rates) will be measured in a single month for the same measurement at equivalent levels of disaggregation, for both AT&T Missouri (or its affiliate purchasing the same service from AT&T under an ICA) and MCIm. Compliance will be determined separately for each MCIm and disaggregation level, based on statistical tests or by direct comparison with an established standard (benchmark), as defined in the Performance Remedy Plan Agreement.

3 Evaluation

3.1 A workshop and/or conference shall be organized and held annually for the purpose of evaluating the existing performance measures and determining whether any measures should be deleted, modified or any new measures added. Provided however, no new measures shall be added which measures activities already governed by existing measures. MCIm may actively participate in this annual workshop with AT&T Missouri, other MCIm's, and Commission representatives.

3.2 As provided in the Performance Remedy Plan Agreement, no changes to remedies/liquidated damages (remedies) or any other term or condition of this Attachment affecting remedies, including but not limited to the level of remedies to be paid by AT&T Missouri and the application of a benchmark, shall be made except by the consent of the Parties only and shall not be effective until and memorialized in an amendment to the Performance Remedy Plan Agreement. Except as otherwise provided in the Performance Remedy Plan Agreement, neither Party shall have a right to seek Missouri Public Service Commission jurisdiction or intervention to address any issues affecting remedies. Any dispute concerning remedies or modification to the current remedy plan shall be resolved pursuant to the dispute resolution provisions of that separate agreement.

3.3 MCIm and AT&T Missouri will consult with one another and attempt in good faith to resolve any issues regarding the accuracy or integrity of data collected, generated, and reported pursuant to this Attachment. In the event that MCIm requests such consultation and the issues raised by MCIm have not been resolved within 45 days after MCIm's request for consultation, then AT&T Missouri will allow MCIm to have an independent audit conducted, at MCIm's expense, of AT&T Missouri' performance measurement data collection, computing, and reporting processes. In the event the subsequent audit reinforces the problem identified during the 45 day consultation period

or if any new problem is identified, AT&T Missouri shall reimburse the MCIm any expense incurred for such audit. MCIm may not request more than one audit per twelve calendar months under this section.

4 General Assessments Payable to the Missouri State Treasury:

4.1 If AT&T Missouri fails to submit performance reports by the last business day of the month, the following assessments apply unless excused for good cause by the Commission:

If no reports are filed, $5,000 per day past the last business day of the month;

If incomplete reports are filed, $1,000 per day for each measurement affected by missing performance results, subject to a maximum of $5,000.

4.2 If AT&T Missouri alters previously reported data to a MCIm, and after discussions with AT&T Missouri the MCIm disputes such alterations, then the MCIm can request that the Commission review the submissions and the Commission may take appropriate action. This does not apply to the limitation stated under the section entitled "Exclusions Limited."

4.3 Assessments under this section will not be included in determining the applicability of the cap in the Performance Remedy Plan.

5 Reports

5.1 MCIm will have access to monthly reports on aggregate MCIm liquidated damages paid (credits issued), performance measures and business rules through an Internet website. The website will includes individual MCIm data, aggregate MCIm data, and AT&T Missouri' state aggregate data.

5.2 In the event AT&T Missouri misses any measurement for two consecutive months, for each succeeding violation of that measurement, upon request from a MCIm, AT&T Missouri shall conduct a joint investigation with the requesting MCIm to identify and resolve the problem in a cooperative manner. Such corrective action may include additional training, allocation of additional resources, or modification of AT&T Missouri processes, to the extent appropriate.

5.3 AT&T Missouri will not levy a separate charge for provision of the data to MCIm called for under this Attachment. AT&T Missouri will make raw data available to MCIm via the CRDWS - MCIm Raw Data Web Site. Raw data for the current period will be posted in detail files for downloading by the last business day of each month. These files will be available for download for 60 days from the date of posting, after which the earliest monthly file will be replaced with the raw data file for the current month. Notwithstanding any other provisions of this Agreement, the Parties agree that such records will be deemed Proprietary Information.

6 Business Rules

6.1 Attached hereto, and incorporated herein by reference, are the following Appendices:

Appendix 1: Performance Measurement Business Rules (Version 4.0)

TABLE OF CONTENTS
PERFORMANCE MEASURES

A. Pre-Ordering/Ordering 3

1.1 Average Response Time for Manual Loop Make-Up Information 3
2 Percent Responses Received within "X" seconds – OSS Interfaces 4
4 OSS Defects Per Million Opportunities (DPMO) 6
5 Percent Firm Order Confirmations (FOCs) Returned on time for LSR requests and returned within X days on ASR requests 7
7.1 Percent Mechanized Completion Notifications Available Within one Day of Work Completion 12
10 Percent Mechanized/Manual Rejects Returned Within one "X" hours of receipt of LSR 13
10.2 Percentage of Orders that receive AT&T-caused Jeopardy Notifications 15
11.2 Average AT&T-caused Jeopardy Notification Interval 16
12.1 Percent Provisioning Accuracy 18
12.2 Percent Mechanized Line Loss Notifications Returned Within One Day of Work Completion 19
13 Order Process Percent Flow Through 20
13.1 Overall Percent LSR Process Flow Through 21

B. Billing 22

17.2 Billing Completion Notices 22

C. Miscellaneous Administrative 23

22 Local Service Center (LSC) Grade of Service (GOS) 23
22.1 Mechanized Customer Production Support Center (MCPSC) Average Speed of Answer 24
25 Local Operations Center (LOC) Grade of Service (GOS) 25

D. Provisioning 26

28 Percent POTS/UNE-P/Specials/UNES/LNP Loop/LNP Standalone/Interconnection Trunks Installations Completed Within the customer requested due date. 26
30 Percent AT&T Missed Due Dates Due To Lack Of Facilities 30
32 Average Delay Days For AT&T Caused Missed Due Dates 32
35 Percent Trouble Report Within X Days (I10/I30) of Installation 34
101 Percent Out of Service < 60 minutes 37

E. Maintenance 38

37.1 Trouble Report Rate net of installation and repeat reports 38
38 Percent Missed Repair Commitments 40
39 Mean time to restore/Average Trunk Restoration Interval 41
40 Percent Out Of Service (OOS) < 24 Hours 44
41 Percent Repeat Reports 45

F. Interconnection Trunks 47

70 Percentage of Trunk Blockage 47
71 Common Transport Trunk Blockage 49
73.1 Percentage Held Interconnection Trunks 50

G. 911 51

104 Average Time Required to Update 911 Database (Facility Based Providers) 51

H. Collocation 52

107 Percentage Missed Collocation Due Dates 52

I. Coordinated Conversion 54

115.2 Combined Outage Percentage of CHC/FDT LNP with Loop Line Conversions 54

J. NXX 55

117 Percent NXXs loaded and tested prior to the LERG effective date 55

K. BONA FIDE/SPECIAL REQUEST PROCESS (BFRs) 56

120 Percentage of Requests Processed Within 30 Business Days 56
124 Timely resolution of significant Software Failures related with Releases 57

Due Date Interval Matrix 58

PERFORMANCE MEASUREMENTS BUSINESS RULES

A. Pre-Ordering/Ordering

1.1. Measurement	
Average Response Time for Manual Loop Make-Up Information	
Definition:	
The average time required to provide manual loop qualification for xDSL capable loops measured in business days.	
Exclusions:	
Manual requests for Loop Makeup Information not initiated by the CLEC; however, manual requests initiated by the LSC as part of the ordering process when no mechanized loop qualification data is available will be included.	
Business Rules:	
For a DataGate/EDI/CORBA or EnhancedVerigate initiated request, the start date and time is when the request is received in the Loop Qual System. The end date and time for the DataGate/EDI/CORBA or EnhancedVerigate request is when the loop makeup information has either has been e-mailed back to the CLEC or, if the CLEC does not want email, is available in the Loop Qual System. For manual requests for Loop Makeup Information initiated by the LSC as part of the ordering process, the start date and time is the receipt date and time of the good LSR. The end date and time is when the loop makeup information is available in the Loop Qual System. AT&T will provide raw data to CLECS in an agreed to format, on a monthly basis, without the need for a request from a CLEC, until such time as both parties agree it is no longer necessary.	
Calculation:	Report Structure:
∑(Date and Time the Loop Qualification is made available to CLEC – Date and Time the CLEC request is received)/Total number of loop qualifications	By CLEC, All CLECs and AT&T or its affiliates (or AT&T acting on behalf of its affiliate).by state.
Disaggregations and Benchmarks:	
None	3 business days (Critical Z does not apply)

2. Measurement	
Percent Responses Received within "X" seconds – OSS Interfaces	
Definition:	
The percent of responses completed in "x" seconds for pre-order interfaces (EnhancedVerigate, EDI and CORBA) by function.	
Exclusions:	
None	
Business Rules:	
Timestamps for the uniform interfaces (EnhancedVerigate, EDI and CORBA) are taken at the AT&T Pre-Order Adapter and do not include transmission time through the xRAF or protocol translation times. The clock starts on the date/time when the query is received by the AT&T Pre-Order Adapter and stops at the date/time the AT&T Pre-Order Adapter passes the response back to the interfacing application (EnhancedVerigate, EDI pre-order or CORBA). The response time is measured only within the published hours of interface availability as posted on the CLEC on-line website. For the protocol translation response times, interface input times start at the time the interface receives the pre-order query request from the CLEC and the end time is when the connection is made to the AT&T Pre-Order Adapter for processing. Interface output times start when the interface receives the response message back from AT&T Pre-Order Adapter and the end time is when the message is sent to the CLEC. If the CLEC accesses AT&T systems using a Service Bureau Provider, the measurement of AT&T's performance does not include Service Bureau Provider processing, availability or response time.	
Calculation:	Report Structure:
(# of responses within each time interval ÷ total responses) * 100	Reported on a CLEC, all CLECs, and AT&T affiliate where applicable (or AT&T acting on behalf of its affiliate), by interface, by state.
Disaggregations and Benchmark:	
Overall transactions returned within required interval. Benchmark 95% Does not include Protocol Translation times as noted below. No damages will apply to the Protocol Translation Times for EDI and EnhancedVerigate. (Note – Nonuniform DataGate/EDI/CORBA have been eliminated from PM #2 due to the elimination of this interface.) (Critical Z does not apply) All measurements below will be reported on a diagnostic basis.	

Measurement	EnhancedVerigate, EDI and CORBA
Address Verification	95% in <= 10 seconds
Telephone Number Assignment (includes random inquiry, reservation, confirmation and cancellation transactions) Telephone Number Assignment – Specific Inquiry	95% in <= 10 seconds 95% in <= 20 seconds
Customer Service Summary (non-uniform) /Customer Service Inquiry (Uniform) < = 30 WTNs (Also broken down for Lines as required for DIDs).	95% in <=15 seconds
Service/Feature Availability	95% in <=13 seconds
Service Appointment Scheduling (Due Date)	95% in <=5 seconds

Dispatch Required	95% in <=19 seconds
PIC / LPIC	95% in <=25 seconds
Actual Loop Makeup Information requested	95% in <= 60 seconds
Design Loop Makeup Information requested(includes Pre-Qual transactions)	95% in <=15 seconds
Protocol Translation Time – EDI(input and output)	95% in <= 4 seconds
Protocol Translation Time – CORBA (input and output)	95% in <=1 seconds
Protocol Translation Time – EnhancedVerigate (input and output)	95% in <= 1 seconds Diagnostic

4 Measurement	
OSS Defects Per Million Opportunities (DPMO)	
Definition:	
OSS Interface Defects per Million Minutes Opportunities of Scheduled Availability	
Exclusions:	
• Scheduled interface outages for major system releases or system maintenance where CLECs were provided with advanced notification of the downtime in compliance with AT&T Southwest's change management process • Undetected Interface outages reported by a CLEC that were not reported to AT&T Southwest's designated trouble reporting center within 5 business days	
Business Rules:	
The "Minutes of Scheduled Availability" are the cumulative number of Minutes over which AT&T Southwest plans to offer and support CLEC access to AT&T Southwest's operational support systems (OSS) functionality during the reporting period. "OSS Defects" are the actual number of minutes, during the scheduled available time, that the AT&T Southwest interface is incapable of accepting, receiving and/or responding to CLEC transactions or data files. An "OSS Defect" for pre-order includes all minutes of unavailability by the pre-order disaggregations listed below. Under this measure there is no consideration of "partial availability" (i.e. degraded service conditions). AT&T will not schedule normal maintenance during OSS Hours of availability as posted on the CLEC web site unless otherwise notified via an accessible letter. AT&T Southwest will not schedule normal maintenance during business hours (8:00 a.m. to 5:30 p.m. central time Monday through Friday).	
Calculation:	Report Structure:
Minutes of outage / Minutes of scheduled availability * 1,000,000	CLECs in the aggregate (except for RAF which is reported by CLEC)
Disaggregations and Benchmarks:	
• Verigate (interface only) = 5000 DPMO • EDI Pre-Order (interface only) = 3000 DPMO • CORBA Pre-Order (interface only) = 3000 DPMO • Total of all 5 Pre-Order function disaggregations = 5,000 DPMO • LEX = 5000 DPMO • EDI Ordering = 3000 DPMO • EBTA GUI = 5000 DPMO • EBTA App-to-App = 5000 DPMO • AT&T Southwest RAF (by CLEC) = 5000 DPMO • AT&T Toolbar = 5000 DPMO • EASE reported for Consumer and Business = Diagnostic (Critical Z does not apply)	

5. Measurement: (PM 5 combined with PM 5.2)
Percent Firm Order Confirmations (FOCs) Returned on time for LSR requests and returned within X days on ASR requests.
Definition:
Percent of FOCs returned to the CLEC within a specified time frame from receipt of a complete and accurate service request to return of confirmation to CLEC.
Exclusions:

For LSRs

- Rejected (manual and electronic) LSRs.
- AT&T only Disconnect orders.
- Services ordered out of the Access Tariff
- Interconnection Orders
- Unbundled Dedicated Transport Orders

For ASRs

- All LSRs
- Access Orders purchased from AT&T tariffs
- Rejected (manual and electronic) ASRs
- AT&T Only disconnect Orders

Business Rules:

FOC business rules are established to reflect the Local Service Center (LSC) normal hours of operation, which include Monday through Friday, 8:00 a.m. to 5:30 p.m, excluding holidays and weekends. If the start time is outside of normal business hours, then the start date/time is set to 8:00 a.m. on the next business day. Example: If the request is received Monday through Friday between 8:00 a.m. to 5:30 p.m.; the valid start time will be Monday through Friday between 8:00 a.m. to 5:30 p.m. If the actual request is received Monday through Thursday after 5:30 p.m. and before 8:00 a.m. the next day; the valid start time will be the next business day at 8:00 a.m. If the actual request is received Friday after 5:30 p.m. and before 8:00 a.m. Monday; the valid start time will be at 8:00 a.m. Monday. If the request is received on a holiday (anytime); the valid start time will be the next business day at 8:00 a.m. For LSRs received electronically requiring no manual intervention by the LSC, the OSS hours of operation will be used in lieu of the LSC hours of operation (i.e., actual OSS processing time outside of LSC hours will not be excluded in calculating the interval). The returned confirmation to the CLEC will establish the actual end date/time. For UNE Loop and Port combinations, orders requiring N, C, and D orders; the FOC is sent back at the time the last order that establishes service is distributed.
All UNE P orders are categorized as Simple or Complex in the same manner as Retail or Resale orders are categorized. All orders that flow through EASE are categorized as Simple and all orders that do not flow through EASE are categorized as Complex.

A Mechanized Business Ordering system (MBOS) document is required for engineering of trunks that must take place prior to the request being worked.
The MBOS form must be initiated by the LSC service representative with information from the LSR for services such as Centrex, DIDs, Plexar I, Package II, Plexar II Basic, Plexar Custom Basic, and PRI services such as Smart Trunks, Select Video, etc. Once the MBOS form is completed, the LSC service representative must release it to the other involved departments for review and determination of the design information and to determine the necessary steps to provide the services. This may involve review of TN number availability, design circuit provisioning, translations requirements, etc. to determine the service availability and due date. Depending on the service and complexity of the request, the return of the MBOS could be 3-5 days. Therefore, the FOC is to be negotiated for any services that require an MBOS.

If the CLEC accesses AT&T systems using a Service Bureau Provider, the measurement of AT&T's performance does not include Service Bureau Provider processing, availability or response time.

ENHANCEDLEX/EDI

For ENHANCEDLEX and EDI originated LSRs, the start date and time is the receive date and time that is automatically recorded by the interface (EDI or ENHANCEDLEX) with the system date and time. The end date and time is recorded by the interface (EDI or ENHANCEDLEX) and reflects the actual date and time the FOC is available to the CLEC. For LSRs where FOC times are negotiated with the CLEC, the ITRAK entry on the SORD service order is used in the calculation.

MANUAL REQUESTS

Manual service order requests are those initiated by the CLEC by fax. The fax receipt date and time is recorded and input into WFM. The end time is the actual date and time that a successful attempt to send a paper fax is made back to the CLEC or in cases where fax receipt is prevented at CLEC's facility, the end date and time will be the 2nd attempt to send fax to the CLEC. If a CLEC does not require a paper fax, the FOC information is provided via the FOC/SOC Website, and the end time is the date and time the FOC is loaded to the Website. The ITRAK-FID is used when FOC times are negotiated with the CLEC. The LSC populates the ITRAK-FID with certain pre-established data entries that are used in the FOC calculation.

FOR ASRs:

FOC business rules are established to reflect the Local Service Center (LSC) normal hours of operation, which include Monday through Friday, 8:00 a.m.-5:30 p.m., excluding holidays and weekends. If the start time is outside of normal business hours, then the start date/time is set to 8:00 a.m. on the next business day. Example: If the request is received Monday through Friday between 8:00 a.m. to 5:30 p.m.; the valid start time will be Monday through Friday between 8:00 a.m. to 5:30 p.m. If the actual request is received Monday through Thursday after 5:30 p.m. and before 8:00 a.m. the next day; the valid start time will be the next business day at 8:00 a.m. If the actual request is received Friday after 5:30 p.m. and before 8:00 a.m. Monday; the valid start time will be at 8:00 a.m. Monday. If the request is received on a holiday (anytime); the valid start time will be the next business day at 8:00 a.m. The returned confirmation to the CLEC will establish the actual end date/time. The ITRAK-FID is used when FOC times are negotiated with the CLEC. The LSC populates the ITRAK-FID with certain pre-established data entries that are used in the FOC calculation.

In the event that the Access Service Order Guidelines/Access Service Request (ASOG/ASR) Bi-Annual Release occurs during LSC hours of operation, that time will be excluded from the determination of timely FOCs.

Calculation:	Report Structure:
(# FOCs returned within "x" hours ÷ total FOCs sent) * 100	Reported by CLEC, all CLECs, and AT&T affiliate where applicable (or AT&T acting on behalf of its affiliate). This includes mechanized from EDI and ENHANCEDLEX and manual (e.g. FAX or phone orders). By State.
Disaggregations and Benchmarks:	

1. Electronic/Electronic LSRs	1. Electronic – Electronic 95% within 45 minutes
2. Manual Intervention LSRs	2. 95% within
A. Mechanized Simple Res/Bus/UNE-P/Mechanized UNE Loop (1-49)/Mechanized Switch Ports/ Mechanized LNP with Loop (1-19)/ EELS	A. 5 Hours
B. Mechanized UNE xDSL Capable Loop (1-20)	B. 6 Hours
C. Mechanized UNE xDSL Capable Loop (>20)	C. 14 Hours
D. Manual and Mechanized Complex Bus (1-200)/ Manual and Mechanized LNP Complex Business (1-19)/Manual Simple Res./Bus/UNE-P/Manual UNE Loop(1-49)/ Manual LNP with Loop (1-19)/ Manual LNP Complex Business (1-19)/Manual UNE xDSL Capable Loop (1-49)	D. 24 Hours
E. Manual and Mechanized Complex Bus (>200)/Manual and Mechanized UNE Loop (>50)/ Manual and Mechanized LNP Complex Business (20-50 Lines)/ Complex UNE-P/ Manual and Mechanized LNP with Loop (>20)/Manual UNE xDSL Capable Loop (> 49)	E. 48 Hours
F. Manually and Mechanized LNP Complex Business (>50)/ MBOS related services (Centrex, Plexar I Pkg II, Plexar II, Plexar Custom Basic) < Negotiated with Notification of Timeframe within 24 Clock Hours/ Projects	F. Negotiated interval
3. ASRs A. Interconnection Facilities and Trunks B. Unbundled Dedicated Transport DS3s C. Unbundled Dedicated Transport DS1s D. Projects	3. 95% within A. 7 business days B. 5 business days C. 1 business days D. Negotiated Interval (Critical Z does not apply)

7.1 Measurement	
Percent Mechanized Completion Notifications Available Within one Business Day of Work Completion	
Definition:	
Percent Mechanized Completion Notifications Available Within one Business Day	
Exclusions:	
Exclude Weekends And Holidays	
Business Rules:	
Days are calculated by subtracting the date the SOC was available to the CLEC via EDI/LEX minus the order completion date. If the CLEC accesses AT&T systems using a Service Bureau Provider, the measurement of AT&T's performance does not include Service Bureau Provider processing, availability or response time.	
Calculation:	Report Structure:
(# mechanized completions notifications returned to the CLEC within 1 business day of work completion ÷ total mechanized completions notifications) * 100	Reported by CLEC and all CLECs and AT&T Affiliate, by state.
Disaggregations and Benchmark:	
None	97% (Critical Z does not apply)

10. Measurement (PM 10 combined with PM 10.1)	
Percent Mechanized/Manual Rejects Returned Within "X" hours of receipt of LSR	
Definition:	
Percent mechanized rejects returned within one hour of the receipt of the LSR	
Exclusions:	
For manual rejects received electronically only, rejects of LSRs received through manual process.	
Business Rules:	
Mechanized Rejects The start time used is the date and time the LSR is recorded by the interface (EDI/Enhanced LEX) if it falls during normal system processing hours of operation, as defined in the published hours of operation document on the CLEC online website. If the interface start time is outside of normal processing hours, then the start date/time is set to the next closest posted processing start time. The end time is the date and time the reject notice is available to the CLEC via EDI or Enhanced LEX. A mechanized reject is any reject made available to the CLEC electronically without manual intervention. If the CLEC accesses AT&T systems using a Service Bureau Provider, the measurement of AT&T's performance does not include Service Bureau Provider processing, availability or response time. Manual Rejects Received Electronically The start time is the time the LSR is received electronically via EDI or Enhanced LEX if it falls during normal business hours of operation. Reject business rules are established to reflect the Local Service Center (LSC) normal hours of operation, which include Monday through Friday, 8:00 a.m. to 5:30 p.m., excluding holidays and weekends. If the start time is outside of normal business hours, then the start date/time is set to 8:00 a.m. on the next business day. Example: If the request is received Monday through Friday between 8:00 a.m. to 5:30 p.m.; the valid start time will be Monday through Friday between 8:00 a.m. to 5:30 p.m. If the actual request is received Monday through Thursday after 5:30 p.m. and before 8:00 a.m. the next day; the valid start time will be the next business day at 8:00 a.m. If the actual request is received Friday after 5:30 p.m. and before 8:00 a.m. Monday; the valid start time will be at 8:00 a.m. Monday. If the request is received on a holiday (anytime), the valid start time will be the next business day at 8:00 a.m. The end time is the date and time the reject notice is available to the CLEC via EDI/ Enhanced LEX. A manual reject is a reject of an electronically received LSR that requires manual intervention. If the CLEC accesses AT&T systems using a Service Bureau Provider, the measurement of AT&T's performance does not include Service Bureau Provider processing, availability or response time.	
Calculation:	Report Structure:
(# mechanized rejects returned within 1 hour ÷ total rejects) * 100 (# electronic manual rejects returned within 6 hours of receipt of LSR÷ total electronic manual rejects) * 100	Reported for CLEC and all CLECs and AT&T affiliate, by state.
Disaggregations and Benchmark:	
1 Mechanized 2. Manual rejects received electronically	1. 97% within 1 hour 2. 97% within 6 hours (Critical Z does not apply)

10.2 Measurement:	
Percentage of Orders that receive AT&T-caused Jeopardy Notifications	
Definition:	
Percentage of total orders received electronically via LEX/EDI and processed for which AT&T notifies the CLEC that an order is in jeopardy of meeting the due date, due to AT&T cause.	
Exclusions:	
N and D service orders	
Business Rules:	
Percentage of Orders Given Jeopardy Notices measures the number of jeopardy notices sent to customers as a percentage of the total number of orders completed in the period. A jeopardy is a notification provided to the CLECs where AT&T identifies the potential for not meeting the scheduled due date (LOF or additional information). Jeopardy Code changes, additions or deletions are part of the LSOR change management process. Updates will be provided to the CLECs in advance as outlined in the OSS release Accessible Letters. In the event a new code is established, changed or deleted between LSOR releases, AT&T will notify the CLECs via an Accessible Letter. These Accessible Letters will be listed/posted on AT&T's CLEC website with the applicable LSOR, until the LSOR online documentation has been updated with the modification.	
Calculation:	Report Structure:
(Number of orders jeopardized ÷ Number of orders confirmed) * 100	Reported by CLEC and all CLECs, by state.
Disaggregations and Benchmarks:	
• Jeopardies previously referred to as Rejects (See Accessible Letter CLECSS99-175 dated December 30, 1999) • Facilities Jeopardies • Other AT&T caused Jeopardies • CLEC/EU caused Jeopardies A list of current Jeopardy codes may be found in CLEC Online in the CLEC Handbook User Guides/Tech Pubs section. Choose Ordering, LSOR 6+ (13 State) Local Service Ordering Requirements, LSOR 6+ (13 State Documentation, Volume II, AT&T Local Responses, Local Response Jeopardy, RCODE – Reason Code..	Diagnostic

11.2 Measurement:
Average AT&T-caused Jeopardy Notification Interval
Definition:
Measures the average remaining time between the pre-existing committed order completion date and time (communicated via the FOC) and the date and time AT&T issues a notice to the CLEC indicating an order received electronically via LEX/EDI is in jeopardy of missing the due date (or the due date/time has been missed). Jeopardy Code changes, additions or deletions are part of the LSOR change management process. Updates will be provided to the CLECs in advance as outlined in the OSS release Accessible Letters. In the event a new code is established, changed or deleted between LSOR releases, AT&T will notify the CLECs via an Accessible Letter. These Accessible Letters will be listed/posted on AT&T's CLEC website with the applicable LSOR, until the LSOR online documentation has been updated with the modification.
Exclusions:
• N and D Service orders
Business Rules:
With respect to this interval, it is assumed that the order due date time is 5:00 PM for uncoordinated orders, and the Jeopardy date and time will be the actual date and time that AT&T issues a notice and is available to the CLEC indicating an order is in jeopardy of missing the due date. With regards to coordinated orders (CHC/FDT) the scheduled due date and time will be used. If the CLEC accesses AT&T systems using a Service Bureau Provider, the measurement of AT&T's performance does not include Service Bureau Provider processing, availability or response time. Business Hours are 8:00 AM-5:30 PM, M-F.
Levels of Disaggregation:

- Jeopardies previously referred to as Rejects (See Accessible Letter CLECSS99-175 dated December 30, 1999)
- Facilities Jeopardies

POTS (includes the following):

- 8.0 dB Loop with Test Access and 8.0 dB Loop without Test Access (FW)
- 8.0 dB Loop with Test Access and 8.0 dB Loop without Test Access (NFW)
- 5.0 dB Loop with Test Access and 5.0 dB Loop without Test Access
- UNE Platform – POTS

UNE SPECIALS or Designed Services (includes the following):

- BRI Loop with Test Access
- ISDN BRI Port
- DS1 Loop with Test Access
- DS1 Dedicated Transport
- Subtending Channel (23B)
- Subtending Channel (1D)
- Analog Trunk Port
- Subtending Digital Direct Combination Trunks
- DS3 Dedicated Transport
- Dark Fiber
- DSL Loops – Line Sharing
- DSL Loops – Non-Line Sharing
- DSL Loops - Line Splitting
- UNE-Platform-Specials

Other AT&T Caused

- Other AT&T caused Jeopardies
- CLEC/EU caused Jeopardies

Calculation:	Report Structure:
Sum ((Committed Due Date /Time for the order) – (Date/Time of Jeopardy notice))/ (number of Jeopardy Orders)	Reported by CLEC and all CLECs and AT&T affiliate by state.
Benchmark:	
Facilities Jeopardies: POTS – 1 hour UNE Specials – 4 hours Other AT&T caused – 1 day Diagnostic only

.

12.2 Measurement	
Percent Mechanized Line Loss Notifications Returned Within One Day Of Work Completion	
Definition:	
Percent mechanized line loss notifications returned within one business day of the completion of work.	
Exclusions:	
• Where CLEC accesses AT&T's systems using a Service Bureau Provider, the measurement of AT&T's performance shall not include Service Bureau Provider processing, availability or response time. • CLEC-caused misses and delays	
Business Rules:	
Days are calculated by subtracting the date the line loss notification was made available to the CLEC from the work completion date. The date that the last service order associated with the LSR is provisioned is the work completion date. The calculation is based on business days, using a full 24 hour day. This includes all products for which loss notifications are sent.	
Calculation:	Report Structure:
(# of mechanized line loss notifications returned to the CLEC within 1 day of work completion ÷ total line loss notifications) * 100	Reported for CLEC all CLECs, and AT&T Affiliates, by state.
Disaggregations and Benchmarks:	
None	95% within one business day

13. Measurement	
Order Process Percent Flow Through	
Definition:	
Percent of orders from entry to distribution that progress through AT&T ordering systems without manual intervention.	
Exclusions:	
• Excludes rejected orders • Manually received orders	
Business Rules:	
The number of eligible orders that flow through AT&T's ordering systems and are distributed in SORD without manual intervention, divided by the total number of Eligible electronically generated orders within the reporting period. Orders that fall out for manual handling, that are worked by AT&T and not rejected back to CLEC due to CLEC caused errors, will be included as failed pass-through occurrences. This measure is based on orders designed to flow through.	
Calculation:	Report Structure:
(# of orders that flow through ÷ total eligible electronic orders) * 100	Reported by CLEC, all CLECs and AT&T and AT&T affiliate, by state.
Disaggregations and Benchmarks:	
AT&T will report its performance separately by order type (Resale POTS, UNE combinations POTS, Specials (resale and UNE combinations), UNE loops, DSL-capable loops, and other).	95%

13. 1 Measurement	
Overall Percent LSR Process Flow Through	
Definition:	
Percent of LSRs that progress through AT&T's ordering, provisioning, and billing systems without manual intervention.	
Exclusions:	
• LSRs rejected electronically at LASR or MOG due to a CLEC-caused entry error	
Business Rules:	
The number of LSRs that are completely processed, through posting and through all relevant systems and databases, without manual intervention, divided by the total number of LSRs that are not rejected electronically at LASR or MOG due to a CLEC-caused entry error within the reporting period. LSRs for which AT&T returns an erroneous electronic reject are counted in the denominator and as a failed pass through occurrence in the numerator. Other examples of LSRs that would be counted as failed pass-through occurrences in the numerator would include: • LSRs for which AT&T returns a manually generated reject, order confirmation, or jeopardy notification, • LSRs for which AT&T internal service orders are not electronically generated or as to which any manual entry is made on associated AT&T internal service orders, • LSRs with any associated service orders that do not distribute out of AT&T's SORD system without fall out or manual processing, • LSRs with any associated service orders that do not update databases without fall out or manual processing, • LSRs which result in any manual AIN trigger setting or manual switch translation work, • LSRs with any associated service orders that do not successfully post to each AT&T back end billing systems without fall out or manual processing including error resolution.	
Calculation:	Report Structure:
(# of LSRs completely processed without manual intervention ÷ total # of LSRs not rejects at LASR or MOG due to CLEC-caused entry error) * 100	Reported by CLEC, all CLECs, AT&T and AT&T Affiliates by state.
Disaggregations and Benchmarks:	
AT&T will report its performance separately by order type (Resale POTS, UNE combinations POTS, Specials (resale and UNE combinations), UNE loops, DSL-capable loops, and other).	Diagnostic

B. Billing

17.2New Measurement	
Billing Completion Notices	
Definition:	
Percentage of Billing Completion Notices sent within five business days after service order posting in SORD. For purposes of this measurement, service order posting in SORD occurs before service orders are sent to the respective billing system for billing completion.	
Exclusions:	
• Access Service Orders billed through CABS • Interconnection Trunk Orders • T-Orders when dual service is involved • Weekends and Holidays	
Business Rules:	
This measurement will determine percentage of Billing Completion notices sent to CLEC within 5 business days after service order posting in SORD. This measurement would include all SORD orders produced as a result of an LSR request (i.e., C, N, and D wholesale orders). For purposes of this measurement, service order posting in SORD occurs before service orders are sent to the respective billing system for billing completion. If multiple orders exist on a single LSR, the last order must post in SORD prior to triggering the five business day window. Billing Completion notices are not sent to CLEC until all related SORD orders have posted in the billing systems.	
Calculation:	Report Structure:
Sum (Number of Billing Completion Notices sent within 5 Business Days) / (Number of Billing Completion Notices sent) x 100	Reported by State
Disaggregations and Benchmarks:	
None	95% Billing Completion Notices within 5 business days of service order posting in SORD.

C. Miscellaneous Administrative

22. Measurement	
Local Service Center (LSC) Grade Of Service (GOS)	
Definition:	
Percent of calls answered by the Local Service Center (LSC) within 20 seconds.	
Exclusions:	
Excludes Weekends and Holidays.	
Business Rules:	
The clock starts when the customer enters the queue and the clock stops when a AT&T representative answers the call. The speed of answer is determined by measuring and accumulating the elapsed time from the entry of a CLEC customer call into the AT&T call management system queue until the CLEC customer call is transferred to AT&T personnel assigned to handling CLEC calls for assistance. Data is accumulated from 12:00 a.m. on the first calendar day to 11:59 p.m. on the last calendar day of the month for the reporting period. Hours of operation are 8:00 a.m. to 5:30 p.m. Monday through Friday.	
Calculation:	Report Structure:
Total number of calls answered by the LSC within a specified period of time ÷ Total number of calls answered by the LSC	Reported for all calls to the LSC by operational separation
Disaggregations and Benchmarks:	
By AT&T LSC	Parity with AT&T RSC / BSC

<table>
<tr><td colspan="2">22.1 Measurement:</td></tr>
<tr><td colspan="2">Mechanized Customer Production Support Center (MCPSC) Average Speed of Answer</td></tr>
<tr><td colspan="2">Definition:</td></tr>
<tr><td colspan="2">Average speed of answer for calls answered by the Mechanized Customer Production Support Center (MCPSC) for the AT&T region.</td></tr>
<tr><td colspan="2">Exclusions:</td></tr>
<tr><td colspan="2">• Weekends
• Holidays
• Outside normal business hours</td></tr>
<tr><td colspan="2">Business Rules:</td></tr>
<tr><td colspan="2">The clock starts when a call enters the queue and the clock stops when a AT&T representative answers the call. The speed of answer is determined by measuring and accumulating the elapsed time from the entry of a CLEC call into the MCPSC call management system queue until the CLEC call is transferred to a AT&T personnel assigned to handling CLEC calls for assistance. Data is accumulated from 12:00 a.m. on the first calendar day to 11:59 p.m. on the last calendar day of the month for the reporting period. Normal business hours of operation are 7:00 a.m. to 7:00 p.m. CST. Monday through Friday.</td></tr>
<tr><td>Calculation:</td><td>Report Structure:</td></tr>
<tr><td>Total amount of time between the receipt of a call to the selected regional option for the MCPSC until the call is answered by the AT&T representative / Total number of calls answered by the MCPSC.</td><td>Reported for all calls to the MCPSC.</td></tr>
<tr><td colspan="2">Disaggregations and Benchmarks:</td></tr>
<tr><td>None</td><td>Less than 120 seconds. Critical-Z does not apply.</td></tr>
</table>

25. Measurement	
Local Operations Center (LOC) Grade Of Service (GOS)	
Definition:	
Percent of calls answered by the Local Operations Center (LOC) within 20 seconds	
Exclusions:	
None	
Business Rules:	
The clock starts when the customer enters the queue and the clock stops when the AT&T representative answers the call. The speed of answer is determined by measuring and accumulating the elapsed time from the entry of a CLEC customer call into the AT&T call management system queue until the CLEC customer call is transferred to AT&T personnel assigned to handling CLEC calls for assistance. Data is accumulated from 12:00 a.m. on the first calendar day to 11:59 p.m. on the last calendar day of the month for the reporting period. The Measure includes calls to the LOC related to provisioning activities, e.g., coordinated conversions, as well as maintenance activities.	
Calculation:	Report Structure:
Total number of calls answered by the LOC 20 seconds ÷ total number of calls answered by the LOC	Reported for all calls to the LOC by operational separation and AT&T Retail Repair Bureau (CSB) for maintenance calls by state.
Disaggregations and Benchmarks:	
• Maintenance Calls (i.e., calls to 1-800-220-4818) • Provisioning Calls – DSL (i.e., calls to 1-817-212-5900) • Provisioning Calls – All other (i.e., calls to Resale:1-817-212-5598; calls to Interconnection: 1-817-212-5588) (The telephone numbers above are subject to change, but notification will be made via an Accessible Letter.)	• Parity with AT&T CSB • 90% within 20 seconds (Critical Z does not Apply) • 90% within 20 seconds (Critical Z does not Apply)

D. Provisioning

28. Measurement (PM 28 combined with PM 56, PM 56.1, PM 73, and PM 91)
Percent POTS/UNE-P/Specials/UNES/LNP Loop/LNP Standalone/Interconnection Trunks Installations Completed Within the customer requested due date.
Definition:
POTS/UNE-P/Specials/UNEs/LNP Loops/LNP Standalone Measure of orders (circuits for specials) completed within the customer requested due date when that date is greater than or equal to the standard offered interval, (see Due Date Interval Matrix at the end of this document.), or if expedited the date agreed to by AT&T. Interconnection Trunks Percentage of interconnection trunks completed within the customer requested due date, where the requested customer requested due date is greater than or equal to 20 days or if expedited (accepted or not accepted) the date agreed to by AT&T.
Exclusions:
• Excludes customer caused misses (e.g., customer not ready, construction not complete). • Excludes all orders except N, T, and C orders. • Excludes Weekends and Holidays. • Excludes circuits requested for less than the standard offered interval unless agreed to by AT&T • NPAC caused delays unless caused by AT&T (LNP only)
Business Rules:
POTS/UNE-P The clock starts on the Application Date, which is the day that AT&T receives a correct Service Order (EASE) / LSR (LEX or EDI). The clock stops on the Completion Date which is the day that AT&T personnel complete the service order activity. Orders are included in the month they are completed. There are 2 types of orders in the measurement. Same Day Due orders (defined as distribution time EQUAL or BEFORE 3:00 p.m. and Application Date = Distribution Date = Due Date. Next Day Due orders (defined as distribution time AFTER 3:00 p.m. and Application Date = Distribution Date and Due Date is one business day after Application Date. If the order is Same Day Due, then (Completion – Application Date), if the order is Next Day Due, then [(Completion – Next Business Day) + 1]. UNE Combinations, are reported at order level. Due dates for Field Work orders are determined by the offered interval on the due date board at the time that the order is distributed, unless an expedite has been accepted by AT&T. If the CLEC submits an expedite which is not accepted or the LSR contains an invalid due date, the AT&T agreed to due date will be substituted for the customer requested due date and included in this measure. Due dates for No Field Work Orders will be the due date requested on the LSR, except that, for a No Field Work Order submitted after 3:00 p.m. and the due date requested is the same business day, the due date will be the next business day, unless an expedite has been accepted by AT&T. AT&T will provide a diagnostic measure as to how often due date on FOC changes from requested. This will be in the form of a monthly report of the percentage of CLEC requested due dates which are confirmed by FOC, reported separately for resale and for UNE-P if technically feasible. (including/disaggregated by both Field Work and No Field Work orders). Specials The Application Date is the day that the customer initiated the service request. The Completion Date is the day that AT&T personnel complete the service order activity by circuit. For orders requiring negotiated due dates, the negotiated due date will be considered the customer requested due date.

This measure is reported at a circuit level.

UNEs/EELS

The Application Date is the day that the customer initiated the service request. The Completion Date is the day that AT&T personnel complete the service order activity by circuit. For orders requiring negotiated due dates, the negotiated due date will be considered the customer requested due date. This measure includes expedites agreed to by AT&T. This measure is reported at a circuit level.

LNP Loops

The start time is the date of the receipt of an accurate LSR. The Completion Date is the day that AT&T personnel complete the service order activity. If the CLEC submits the LSR prior to 3:00 p.m. the CLEC may request a 3 day interval. If the LSR is submitted after 3:00 p.m. the CLEC can request a 4 day interval. The base of items is out of WFA (Work Force Administration) and it is reported at an order level to account for different measurement standards based on the number of circuits per order.

LNP Standalone

Industry guidelines for due dates for LNP are as follows:

- For Offices in which NXXs are previously opened – 3 Business Days.
- New NXX – 5 Business days on LNP capable NXX.

The above-noted due dates are from the date of the FOC receipt.

For partial LNP conversions that require restructuring of customer account:

- 1-30 TNs: Add one additional day to the FOC interval. The LNP due date intervals will continue to be three business days and five business days from the receipt of the FOC depending on whether the NXX has been previously opened or is new.

>30 TNs, including entire NXX: The due dates are negotiated.

Interconnection Trunks

AT&T will compare the completion date to the customer desired due date, where the requested customer requested due date is greater than or equal to 20 days or if expedited (accepted or not accepted) the date agreed to by AT&T to determine the count of missed installations. The completion date is the date the work is completed and accepted by the CLEC. The measurement is taken for all circuits that complete in the reporting period. Interconnection trunks are selected based on a specific service code off of the circuit ID. Unsolicited FOCs will not be acknowledged in calculating due dates. (i.e., if an unsolicited FOC is received by CLEC, the due date on the first FOC will still be used as the due date.

Calculation:	Report Structure:
POTS/UNE-P/Specials/UNEs - (Count of orders/circuits installed within the requested interval ÷ total number of orders/circuits not subject to exclusions) * 100 LNP Loops/LNP Standalone - Count of N, T, C orders installed within customer requested due date ÷ total N, T, C orders excluding those requested earlier than the standard offered interval) * 100 Interconnection Trunks - (Count trunk circuits completed within the customer requested due date, where the	Reported for CLEC, all CLECs and AT&T by state.

requested customer requested due date is greater than or equal to 20 days or if expedited (accepted or not accepted) the date agreed to by AT&T ÷ total trunk circuits completed) * 100	
Disaggregations and Benchmarks:	
POTS 1. Field Work (FW) - Bus Class of Svc - Res Class of Svc 2. No Field Work (NFW) - Bus Class of Svc - Res Class of Svc 3. UNE-P -Field Work (FW) 4. UNE -P - No Field Work (NFW) 5. 8.0dB Loops (standalone and loop with LNP) Resale Specials/UNE 6. DS0 (DDS, VGPL, 5 db loops, switch ports) 7. (N, T, C order types). 5. 95% Resale Specials and UNEs 6. 95% 7. 95% in five days (Critical Z does not apply) 8. 95% 9. 95% 10. 95% 11. 90%(5 days), 92% in 6 months, 95% in a year 12. 90%(5 days), 92% in 6 months, 95% in a year (Critical Z does not apply) 13. 95% 14. 96.5%

30. Measurement (PM 30 Combined with PM 60)	
Percent AT&T Missed Due Dates Due To Lack of Facilities	
Definition:	
POTS/UNE-P/Specials/8.0 dB Loops Percent N, T, and C orders with missed committed due dates due to lack of facilities. UNEs Percentage of UNEs circuits with missed committed due dates due to lack of facilities.	
Exclusions:	
• Excludes orders that are not N, T, or C. • Interconnection Trunks.	
Business Rules:	
POTS/UNE-P – The Due Date is the customer requested due date when that date is greater than or equal to the offered interval, or if expedited (accepted or not accepted), the date agreed to by AT&T which is the due date reflected on the FOC. The Completion Date is the day that AT&T personnel complete the service order activity. UNE-P- are reported at order level. The lack of facilities is selected based on the missed reason code. Specials – The Due Date starts the clock. The Completion Date is the day that AT&T personnel complete the service order activity, which stops the clock. The source is WFA (Work Force Administration) and is at an item or circuit level. Specials are selected based on a specific service code off of the circuit ID and by selected center names that indicate resale. The lack of facilities is selected based on the missed reason code. UNEs/EELS – Any completion date that is greater than the due date with a AT&T lack of facilities missed reason code. This measurement is reported at a circuit level for all UNEs with the exception of 8db loops, which are reported at an order level to facilitate comparison with POTS retail.	
Calculation:	Report Structure:
(Count of orders / circuits with missed due dates due to lack of facilities ÷ total field work orders / circuits completed) * 100 (Calculated monthly based on posted orders)	Reported for CLEC, all CLECs and AT&T Retail for POTS. By state.
Disaggregations and Benchmarks:	

1. POTS- Field Work (FW) - Bus Class of Svc - Res Class of Svc	1. Resale POTS parity between Field Work compared to AT&T Field Work (N, T, C order types)
2. UNE-P - Field Work (FW)	2. UNE-P Parity between Field Work compared to AT&T Field Work (N, T, C order types)
3. 8.0dB Loops	3. Compared to Business Retail POTS and Residence Retail POTS Combined
Resale Specials/UNEs: 4. DS0 (DDS, VGPL, switch ports)	4. 5%
5. DS1 and above (DS1, OCn and Dark Fiber) Loops and Transport	5. 4% (Critical Z does not apply) 6. 5%
6. ISDN & BRI (resale, loops, and ports)	7. 5%
7. DSL and Line Splitting	8. 5%
8. Line Sharing and IDSL	9. 5%
9. EELS – DS0 10. EELS – DS1	10. 8%, 4% in 6 months (Critical Z does not apply)
	Note: Comparisons are used for Diagnostic purposes only.

32. Measurement (PM 32 Combined with PM 62 and PM 74)	
Average Delay Days For AT&T Caused Missed Due Dates.	
Definition:	
POTS/UNE-P/Specials Average calendar days from due date to completion date on company missed orders /circuit. UNEs/EELS Average calendar days from the customer requested due date when that date is greater than or equal to the offered interval, or if expedited (accepted or not accepted), the date agreed to by AT&T which is the due date reflected on the FOC, to completion date on company missed UNEs (8.0 dB loops are measured at an order level). Interconnection Trunks Average calendar days from customer requested due date where the date is greater than or equal to 20 days or if expedited (accepted or not) the date agreed to by AT&T to completion date on company missed interconnection trunk orders.	
Exclusions:	
• Excludes orders that are not N, T, or C. For Specials/UNEs/Interconnection Trunks Only: • Excludes any incremental days attributable to the CLEC after the initial AT&T caused delay. Does not exclude No Access attributable to the end user after the initial due date has been missed by AT&T.	
Business Rules:	
Resale POTS and UNE-P - The Due Date is the customer requested due date when that date is greater than or equal to the offered interval, or if expedited (accepted or not accepted), the date agreed to by AT&T which is the due date reflected on the FOC. The Completion Date is the day that AT&T personnel complete the service order activity. UNE-Ps are reported by the order that completes the service activity POTS and UNE-Ps are reported at an order level. Specials - The calculation is the difference in calendar days between the completion date and the due date. The source is WFA (Work Force Administration) and is reported at a circuit level. Specials are selected based on a specific service code off of the circuit ID. UNEs/EELS - The calculation is the difference in calendar days between the completion date and the FOC due date. The Due Date is the customer requested due date when that date is greater than or equal to the offered interval. If expedited (accepted or not accepted), the Due Date is the date agreed to by AT&T, which is the due date reflected on the FOC. The data is reported at a circuit level. UNEs are selected based on a specific service code off of the circuit ID. This measurement is reported at a circuit level for all UNEs with the exception of 8.0 dB loops, which are reported at an order level to facilitate comparison with POTS retail. Interconnection Trunking - The calculation is the difference in calendar days between the completion date (the date the CLEC accepts the circuit) and the customer requested due date where the date is greater than or equal to 20 days or if expedited (accepted or not) the date agreed to by AT&T. The data is reported at a circuit level. Interconnection Trunks are selected based on a specific service code off of the circuit ID.	
Calculation:	Report Structure:
Σ(Completion date – orders/committed circuits due date) ÷ (total # of completed orders/posted circuits with a AT&T caused missed due date)	Reported for CLEC, all CLECs and AT&T, by state.
Disaggregations and Benchmarks:	

POTS 1. Field Work (FW) - Bus Class of Svc - Res Class of Svc No Field Work (NFW) - Bus Class of Svc - Res Class of Svc	1. Resale POTS parity between Field Work compared to AT&T Field Work (N, T, C order types) and No Field Work compared to AT&T Retail No Field Work (N, T, C order types).
2. UNE-P Field Work (FW) No Field Work (NFW)	2. UNE-P Parity between Field Work compared to AT&T Field Work (N, T, C order types) and No Field Work compared to AT&T Retail No Field Work. (N, T, C order types).
	3. Compared to Business Retail POTS and Residence Retail POTS Combined – FW and NFW
3. 8.0dB Loops – FW 8.0dB Loops - NFW	4. 6 days
<u>Resale Specials/UNEs:</u>	5. 6 days (Critical Z does not apply)

11. Interconnection Trunks	

35. Measurement (PM 35 Combined with PM 59 and PM 98)
Percent Trouble Report Within X Days (I-10 / I-30) of Installation
Definition:
Percent of N, T, C orders, (by circuit for specials), that receive an electronic or manual trouble report on or within10 calendar days for POTS/UNE-P, or 30 calendar days for specials), of service order completion. Percentage of UNEs that receive a customer trouble report within X" calendar days, where "x" is 10 calendar days for 8db loops and 30 calendar days for all other UNEs, of service order completion.
Exclusions:
• Excludes subsequent reports. A subsequent report is a repair report that is received while an existing repair report is open on the same number. • CLEC excludable reports. POTS reports taken on the completion date after the completion of the service order are not excluded unless another exclusion already applies. • Excludes reports caused by customer provided equipment (CPE) or wiring, Interexchange Carrier/Competitive Access Provider, and Informational. • Excludes trouble report received on the due date before service order completion. • Interconnection Trunks • Loops without test access - BRI • Orders that are not N, T, or C. • DSL loops > 12Kf with load coils, repeaters, and/or excessive bridged tap (as indicated on the Loop Qual) for which the CLEC has not authorized conditioning and those load coils, repeaters, and bridged taps that are determined to be the cause of trouble. • Trouble reports caused by lack of digital test capabilities on 2-wire BRI and IDSL capable loops where acceptance testing is available and not selected by the CLEC. • UNE DS1 Loop trouble reports where CLEC chooses not to do cooperative testing or acceptance testing between CLEC and AT&T due to CLEC reasons on the due date. • Trouble reports for DSL stand alone loops caused by the lack of loop acceptance testing between CLEC and AT&T due to CLEC reasons on the due date. • CLEC-caused errors. • NPAC-caused errors unless caused by AT&T. • Stand Alone LNP Orders with more than 500 number activations.
Business Rules:
POTS/UNE-P Includes reports received the day after AT&T personnel complete the service order through 10 calendar days after completion. The denominator for this measure is the total count of orders posted within the reporting month. (However, the denominator will at a minimum equal the numerator). The numerator is the number of trouble reports received within 10 days of service order completion. These will be reported the month that they are closed. This will include troubles taken on the day of completion found to be as a result of a UNE-P conversion. Resale specials A trouble report is counted if it is flagged on WFA (Work Force Administration) as a trouble report that had a service order completion within 30 days. It cannot be a repeat report. The order flagged against must be an addition in order for the trouble report to be counted. Specials are selected based on a specific service code off of the circuit ID. . The denominator for this measure is the total count of orders posted within the reporting month. (However, the denominator will at a minimum equal the numerator). The numerator is the number of trouble reports received within 30 days of service order completion and closed within the

reporting month.

UNES/EELS

A trouble report is counted if it is received within "X" calendar days, where "X" is 10 calendar days for 8db loops and 30 calendar days for all other UNEs, calendar days of a service order completion. UNEs are selected based on a specific service code off of the circuit ID. This measurement is reported at a circuit level. The denominator for this measure is the total count of circuits posted within the reporting month. (However, the denominator will at a minimum equal the numerator). The numerator is the number of trouble reports received within "X" calendar days where "X" is 10 calendar days for 8db and 5dB loops and 30 calendar days for all other UNEs, calendar days of service order completion that were closed during the reporting month.

Calculation:	Report Structure:
(Count of initial, electronic or manual trouble reports on or within X (where X is 10 days for POTS/UNE-P and 8dB loops, UNE-P, and 30 days for Resale Specials) calendar days of service order completion ÷ total # of orders/total circuits) * 100	Reported for POTS Resale by CLEC, total CLECs and AT&T, by state.
Disaggregations and Benchmarks:	
1. POTS N& T orders C Orders Field Work (FW) No Field Work (NFW) Business class of service Residence class of service	1. Resale POTS parity between Field Work compared to AT&T Field Work (N, T, and C order types) and No Field Work compared to AT&T Retail No Field Work (N, T, and C order types).
2. UNE-P New/Move Orders Change/conversion Orders Field Work (FW) No Field Work (NFW)	2. UNE-P Parity between Field Work New and Move orders compared to AT&T Field Work New and Move orders. Parity between Field Work Change and Conversion orders compared to AT&T Field Work Change orders. 	3. Compared to Retail POTS Business and Retail POTS Residence combined
3. 8.0dB Loop	4. 5%
Specials Resale/UNE	5. 4% (Critical Z does not apply)
4. DS0 (DDS, VGPL, 5 db Loops, & switch ports) 5. DS1 and above (DS1,DS3, OCn and Dark Fiber) Loops and Transport	6. 5% 7. 5%

6. ISDN & BRI (resale, loops and ports) 7. DSL and Line Splitting 8. Line Sharing and IDSL 9. EELS – DS0 10. EELS – DS1	8. 5% 9. 8%, 5% in 6 months 10. 8%, 5% in 6 months (Critical Z does not apply)

101. Measurement:	
Percent Out of Service < 60 minutes	
Definition:	
The Number of LNP related conversions where the time required to facilitate the activation of the port in AT&T's network is less than 60, expressed as a percentage of total number of activations that took place.	
Exclusions:	
• CLEC-caused errors. • NPAC-caused errors unless caused by AT&T. • Stand Alone LNP Orders with more than 500 number activations.	
Business Rules:	
The Start time is the receipt of the NPAC broadcast activation message in AT&T's LSMS. The End time is when the Provisioning event is successfully completed in AT&T's network as reflected in AT&T's LSMS. Count the number of activations that took place in less than 60 minutes.	
Levels of Disaggregation:	
• None	
Calculation:	Report Structure:
(Number of activations provisioned in less than 60minutes) ÷ (total LNP activations)* 100.	Reported by CLEC and all CLECs by state.
Disaggregations and Benchmarks:	
None	96.5% Critical z-value does not apply

E. Maintenance

37.1 Measurement (PM 37.1 Combined with PM 65.1)	
Trouble Report Rate net of installation and repeat reports	
Definition:	
The number of electronic or manual customer trouble reports exclusive of installation and repeat reports within a calendar month, per 100 lines/circuits/UNEs.	
Exclusions:	
• Excludes reports caused by customer provided equipment (CPE), Interexchange Carrier/Competitive Access Provider, and Informational or wiring. • CLEC Excludable reports POTS reports taken on the completion date after the completion of the service order are not excluded unless another exclusion already applies. • Excludes installation reports. An installation report is defined as any report that comes in within "X" calendar days of service order completion, where "X" is 10 for POTS and 8db loops and "X" is 30 for special services. • Excludes repeat reports. A repeat report is defined as a trouble report received within X calendar days of a previous customer report, where X is 10 days for POTS, 8.0dB loops, UNE-P and 30 days for resale specials and all other UNEs. • Excludes BRI loops without test access • Excludes DSL loops > 12Kf with load coils, repeaters, and/or excessive bridged tap (as indicated on the Loop Qual) for which the CLEC has not authorized conditioning and those load coils, repeaters, and bridged taps are determined to be the cause of trouble. • Excludes trouble reports caused by lack of digital test capabilities on 2-wire and IDSL capable loops where acceptance testing is available and not selected by the CLEC. • UNE DS1 Loop trouble reports where CLEC chooses not to do cooperative testing or acceptance testing between CLEC and AT&T due to CLEC reasons on the due date •	
Business Rules:	
POTS/UNE-P CLEC and AT&T repair reports are entered and tracked. They are downloaded nightly. Reports are counted in the month they post. UNEs/EELS Repair reports are entered and tracked by trouble ticket type. Reports are counted in the month they post.	
Calculation:	Report Structure:
[Total number of customer trouble reports less installation and repeat reports ÷ (total lines or circuits) ÷100)]	Reported for POTS Resale trouble reports by CLEC, all CLECs and AT&T, by state.
Disaggregations and Benchmarks:	

1. POTS Business class of service Residence class of service	1. POTS- Parity with AT&T retail
2. UNE – P	2. UNE-P – Parity with Retail POTS Business and Retail POTS Residence combined.
3. 8.0dB Loops	3. Parity with Retail POTS Business and Retail POTS Residence combined.
Specials Resale/UNE	4. 5%
4. DS0 (DDS, VGPL, 5 db Loops, switch ports)	
5. DS1 and above (DS1, OCn and Dark Fiber) Loops and Transport	5. 4% (Critical Z does not apply)
6. ISDN & BRI (resale, loops and ports)	6. 5%
7. DSL and Line Splitting	7. 3%
8. Line Sharing and IDSL	8. 3%
9. EELS – DS0	9. 5%
10. EELS – DS1	10. 4% (Critical Z does not apply)

38. Measurement (PM 38 Combined With PM 66)	
Percent Missed Repair Commitments	
Definition:	
Percent of trouble reports not cleared by the commitment time.	
Exclusions:	
• CLEC excludable reports. POTS reports taken on the completion date after the completion of the service order are not excluded unless another exclusion already applies. • No Access and delayed maintenance for UNE loops. • Specials and Interconnection Trunks • Excludes trouble tickets that are coded to Customer Premise Equipment, Interexchange Carrier/Competitive Access Provider, and Informational (UNE Only)	
Business Rules:	
POTS/UNE-P The commitment date and time is established when the repair report is received. The cleared time is the date and time that AT&T personnel clear the repair activity and complete the trouble report. If this is after the commitment time, the report is flagged as a "Missed Commitment." UNE Loops The commitment time is currently defined as 24 hours for 8.0dB loops. If the cleared date and time minus the receive date and time > 24 hours, it counts as a trouble report that missed the repair commitment. UNEs are selected based on a specific service code off of the circuit ID.	
Calculation:	Report Structure:
(Count of trouble reports not cleared by the commitment time ÷ total trouble reports) * 100	Reported for CLEC, all CLECs and AT&T, by state.
Disaggregations and Benchmark:	
1. POTS - Residence • Dispatch • No Dispatch POTS - Business • Dispatch • No Dispatch 2. UNE-P • Dispatch • No Dispatch 3. 8.0dB Loops	1. POTS - Parity with AT&T Retail 2. UNE-P – Parity with AT&T Retail POTS Business and Residence combined 3. Compared to AT&T Retail POTS business and residence combined

39. Measurement (PM 39 Combines with PM 67 and PM 76)	
Mean time to restore / Average Trunk Restoration Interval	
Definition:	
POTS/UNE-P Average duration in calendar days / clock hours of customer trouble reports from the receipt of the customer trouble report to the time the trouble report is cleared. UNES/EELS and Specials Average duration of network customer trouble reports from the receipt of the customer trouble report to the time the trouble report is cleared excluding no access and delayed maintenance. Interconnection Trunks Average time to repair interconnection trunks. This measure is based on calendar days.	
Exclusions:	
• Subsequent reports. A subsequent report is one that is received while an existing repair report is open. • CLEC excludable reports POTS reports taken on the completion date after the completion of the service order are not excluded unless another exclusion already applies. • Exclude Tickets where the CLEC did not take the first available commitment time until AT&T has the ability to exclude no access and delayed maintenance for POTS (WFA Conversion is expected to take place by the end of 2005). • Exclude Vendor meets • No Access Time • Delayed Maintenance Time • Trouble tickets that are coded to Customer Premise Equipment, Interexchange Carrier/Competitive Access Provider, and Informational (does not apply to POTS) • Exclude Loops without test access – BRI • DSL loops > 12Kf with load coils, repeaters, and/or excessive bridged tap (as identified on the Loop Qual) for which the CLEC has not authorized conditioning and those load coils, repeaters and bridged taps are determined to be the cause of trouble. • Trouble reports caused by lack of digital test capabilities on 2-wire and IDSL capable loops where acceptance testing is available and not selected by the CLEC	
Business Rules:	
POTS and UNE-Ps The clock starts on the date and time AT&T receives a trouble report. The clock stops on the date and time that AT&T personnel clear the repair activity and complete the trouble report. Specials The start time is when the customer report is received and the stop time is when the report is closed. Specials are selected based on a specific service code off of the circuit ID. UNEs/EELS The start time is when the report is received. The stop time is when the report is cleared in the appropriate system. Interconnection Trunks The data is reported at a circuit level. Interconnection Trunks are selected based on the circuit being identified as a message type circuit. Start time is when the CLEC reports trouble and stop time is when AT&T notifies the CLEC of service restoral.	
Calculation:	Report Structure:
Σ[(Date and time AT&T clears ticket with the	Reported by CLEC, all CLECs and AT&T, by

CLEC) - (Date and time ticket or trouble report is received)] ÷ Total network customer trouble reports Total trunk outage duration ÷ total trunk trouble reports	market area for parity measures and by state for benchmark measures.
Disaggregations and Benchmarks:	
1. POTS - Affecting Service - Out of Service - Dispatch - No Dispatch - Residence - Business	1. POTS – Parity with AT&T Retail
2. UNE-P - Affecting Service - Out of Service - Dispatch - No Dispatch - Residence UNE-P - Business UNE-P	2. UNE-P residence – Parity with AT&T Retail Residence UNE-P Business – Parity with AT&T Retail Business
3. 8.0dB Loops - Dispatch - No Dispatch	3. Compared to business and residence combined

</table>

41. Measurement (PM 41 Combined with PM 69)	
Percent Repeat Reports	
Definition:	
Percent of customer trouble reports received within X calendar days of a previous customer report. where X is 10 Days for POTS, UNE-P and 30 Days for Resale Specials and UNEs.	
Exclusions:	
• Excludes subsequent reports. A subsequent report is one that is received while an existing repair report is open. • CLEC excludable reports. POTS reports taken on the completion date after the completion of the service order are not excluded unless another exclusion already applies. • • Interconnection Trunks • Trouble tickets that are coded to Customer Premise Equipment, Interexchange Carrier/Competitive Access Provider, and Informational • Loops without test access – BRI • DSL loops > 12Kf with load coils, repeaters, and/or excessive bridged tap (as indicated on the Loop Qual) for which the CLEC has not authorized conditioning and those load coils, repeaters and bridged taps are determined to be the cause of trouble. • Trouble reports caused by lack of digital test capabilities on 2-wire and IDSL capable loops where acceptance testing is available and not selected by the CLEC.	
Business Rules:	
Includes customer trouble reports received within X calendar days of an original customer report, where X is 10 days for POTS and UNE-P and 30 days for Resale Specials and UNEs. When the second report is received in X days, the original report is marked as an Original of a Repeat, and the second report is marked as a Repeat. If a third report is received within X days, the second report is marked as an Original of a Repeat as well as being a Repeat, and the third report is marked as a Repeat. In this case there would be two repeat reports. If either the original or the second report within 30 days is a measured report, then the second report counts as a Repeat report.	
Calculation:	Report Structure:
Count of customer trouble reports, not caused by CPE or wiring and excluding subsequent reports, received within X calendar days of a previous customer report where X is 10 days for POTS and UNE-P and 30 days for Resale Specials and UNEs ÷ total customer trouble reports not caused by CPE or wiring and excluding subsequent reports) * 100	Reported by CLEC, all CLECs and AT&T, by market area for parity measures and by state for benchmark measures.
Disaggregations and Benchmarks:	
1. POTS - Residence - Business	1. Parity With AT&T Retail POTS
2. UNE-P	2. Parity with AT&T Retail Pots Business and Residence Combined
3. 8.0dB Loop	3. Compared to AT&T Retail POTS business and residence combined

7. DSL and Line Splitting 8. Line Sharing and IDSL 9. EELS – DS0 10. EELS – DS1	6. 10% 7. 7.5% 8. 7.5% 9. 10% 10. 15%, 10%in 6 months (Critical Z does not apply)

F. Interconnection Trunks

70. Measurement:	
Percentage of Trunk Blockage	
Definition:	
Percentage of calls blocked on outgoing traffic for alternate final (AF) and direct final (DF) trunk groups from AT&T end office to CLEC end office and from AT&T tandem to CLEC end office.	
Exclusions:	
• Excludes Weekends and Holidays • CLECs have trunks busied-out for maintenance at their end, or have other network problems that are under their control. • Blocking caused by unplanned load on a CLECs network • AT&T is ready for turn-up on Due Date and CLEC is not ready or not available for turn-up of trunks, e.g. not ready to accept traffic from AT&T on the due date or CLEC has no facilities or equipment at CLEC end. • CLEC does not take action upon receipt of Trunk Group Service Request (TGSR) or ASR within 3 business days (day 0 is the business day the TGSR is emailed/faxed to the CLEC) when a Call Blocking situation is identified by AT&T or in the timeframe specified in the InterConnection Agreement (ICA). • If CLEC does not take action upon receipt of TGSR within 10 business days (day 0 as described above) when a pre-service of 75% or greater occupancy situation is identified by AT&T or in the time frame specified in the ICA. • If CLEC fails to provide a forecast within the last six months unless a different timeframe is specified in an interconnection agreement. • If a CLEC's actual trunk usage as shown be AT&T from traffic usage studies is more than 25% above the CLEC's most recent forecast which must have been provided within the last six months. • New trunk groups that have not been in service for three months may be excluded from calculations for that 3 month period. Nevertheless, utilization data will be gathered upon the turn-up of the TG. The exclusions do not apply if AT&T fails to timely provide CLEC with traffic utilization data reasonably required for CLEC to develop its forecast or if AT&T refuses to accept CLEC trunk orders (ASRs or TGSRs) that are within the CLEC's reasonable forecast regardless of what the current usage data is.	
Business Rules:	
Twenty days of data consisting of blocked calls and total calls are collected, aggregated and reported.	
Calculation:	Report Structure:
({Count of blocked calls – excluded blocked calls} ÷ total calls offered – {excluded blocked calls}) * 100	Reported for CLEC and all CLECs by state.
Disaggregations and Benchmarks:	
• AT&T end office to CLEC end office • AT&T tandem to end office trunk	Blocked Calls on Dedicated Trunk Groups not to exceed blocking standard of B.01. [B.01 standard is 1%]

71. Measurement:	
Common Transport Trunk Blockage	
Definition:	
Percentage of local common transport trunk groups exceeding 2%, 1% blockage.	
Exclusions:	
No data is collected on weekends or holidays	
Business Rules:	
Common transport trunk groups that reflect blocking in excess of 2% and 1% (if a separate common transport trunk group is established to carry CLEC traffic only) using a time consistent busy hour from the four most recent weeks of data.	
Calculation:	Report Structure:
(Number of common transport trunk groups exceeding 2%, 1% blocking ÷ total common transport trunk groups) * 100.	Reported on local common transport trunk groups by state.
Disaggregations and Benchmarks:	
• Common trunk groups where CLECs share ILEC trunks • Common trunk groups for CLECs not shared by ILEC	• 3% of AT&T common transport trunk groups not to exceed 2% blocking • 3% of AT&T common transport trunk groups not to exceed 1% blockage (if a separate common transport trunk group is established to carry CLEC traffic only).

73.1 Measurement	
Percentage Held Interconnection Trunks	
Definition:	
Percentage of interconnection trunk circuits held greater than 30, 60 or 90 calendar days.	
Exclusions:	
• Customer Caused Misses • Excludes any incremental days attributable to the CLEC after the initial AT&T caused delay.	
Business Rules:	
The Customer Desired Due Date or the 21st business day after the interconnection trunk order is received by AT&T, whichever is greater, starts the clock. The Completion Date is the day that AT&T personnel complete the service order activity and it is accepted by the CLEC, which stops the clock. The data is collected at a circuit level. Interconnection trunks are selected based on a specific service code off of the circuit ID. The number of Held circuits is to be calculated by counting the number of circuits that are in held status as of the end of the reporting month. A circuit is no longer in held status once it is completed. This measure captures circuits that are currently in held status as of month-end, not circuits that were completed during the month that may have been in held status prior to completion (data related to missed due dates and delay days is captured separately in PMs 73 and 74). The Denominator will be completed orders plus held circuits.	
Calculation:	Report Structure:
(Count of trunk circuits held for greater than 30, 60 or 90 calendar days ÷ total trunk circuits) * 100,	Reported by CLEC, all CLECs and AT&T by state.
Disaggregations and Benchmarks:	
• Interconnection Trunks by 30, 60 and 90 days	Parity with AT&T interconnection trunks. (For purposes of damages, only applicable to trunk circuits held greater than 30 days.)

G. 911

104. Measurement	
Average Time Required to Update 911 Database (Facility Based Providers)	
Definition:	
The average time it takes to update the 911 database file.	
Exclusions:	
None	
Business Rules:	
The clock starts on the date/time when the data processing starts and the clock stops on the date/time when the data processing is complete.	
Calculation:	Report Structure:
Σ(Date and time data processing begins – date and time data processing ends) ÷ total number of files	Reported for individual CLEC, all CLECs and AT&T, by state.
Disaggregations and Benchmarks:	
☐one	Parity

H. Collocation

107. Measurement	
Percentage Missed Collocation Due Dates	
Definition:	
The percentage of AT&T caused missed due dates for collocation projects.	
Exclusions:	
• Exclude any applications rejected for non-payment within the times requested under tariff • Exclude if the CLEC has not submitted their second fifty percent (50%) payment prior to the due date, AT&T- will exclude the job from reporting.	
Business Rules:	
The clock starts when AT&T receives, in compliance with the approved tariff, return of proposed layout for space as specified in the application form from the CLEC. However, for purposes of the measure, once AT&T provides a quote to a CLEC, the application is deemed to be in compliance with the approved Tariff. The clock stops when the CLEC receives notice in writing or other method agreed to by the parties that the collocation arrangement is complete and ready for CLEC occupancy, and CLEC receives CFA/APOT information. . If the CLEC does not accept the collocation space because the space is not complete and ready for occupancy as specified, and notifies AT&T of such within 5 business days, the collocation will be considered not complete and the time frame required for the CLEC to reject the collocation space (up to 5 business days) and any additional time required for AT&T to complete the space per the specifications will be counted as part of the interval. Any time exceeding the 5 business days will not be counted as part of the interval. Due Date Extensions will be extended when mutually agreed to by AT&T and the CLEC, or when a CLEC fails to complete work items for which they are responsible in the allotted time frame. However, a due date extension resulting from AT&T notification that it will not meet the required interval, will not be considered a change in the due date for purpose of this measure. Moreover, any change in due date requested by AT&T for whatever reason will not be considered to be a change in due date for purpose of this measure. A CLEC-requested extended due date will be calculated by adding to the original due date the number of calendar days that the CLEC was late in performing said work items. Work items include but are not limited to: • CLEC return to AT&T corrected and complete floor plan drawings. • CLEC placement of required component(s). If the business rules and tariff are inconsistent, the terms of the tariff will apply. If inconsistencies are identified, AT&T will bring these forward for discussion at the next 6-month review.	
Calculation:	Report Structure:
(count of number of AT&T caused missed due dates for collocation facilities ÷ total number of collocation projects) * 100	Reported for individual CLEC and all CLECs and AT&T affiliate, by state
Disaggregations and Benchmarks:	
• New • Augments Note: All approved types, e.g. Cages, Cageless, etc. are now included in these)	95% within the due date in the approved Tariff or if the CLEC requests a longer interval, the interval agreed to by the parties. Damages and Assessments will be calculated based on the number of days late. (Critical Z does not apply)

I. Coordinated Conversions

115.2. Measurement	
Combined Outage Percentage of CHC/FDT LNP with Loop Lines Conversions	
Definition:	
Percentage of CHC/FDT LNP with Loop Lines where an outage occurs.	
Exclusions:	
• CLEC caused delays (e.g., no dial tone from CLEC: CLEC translations) that do not allow AT&T the opportunity to complete CHC/FDT LNP with Loop within the designated interval. • Change of the Due Date by the CLEC less than four business hours prior to the scheduled Date/Time. • CHC/FDT LNP with Loop Lines where the CLEC requests that the cut-over begin prior to the scheduled time. • Excludes Non-Measured reports (CPE, Interexchange, and Informational). • Reports for which the trouble is attributable to the AT&T network (unless AT&T had knowledge of the trouble prior to the due date). • Excludes no access to the end user's location.	
Business Rules:	
An outage is defined as (1) a premature disconnect for both CHC and FDT, which occurs any time AT&T begins the cut-over more than 10 minutes prior to the scheduled start time, and (2) an excessive duration for CHC or FDT (where the CHC or FDT LNP with Loop Lines are not completed by AT&T within the established provisioning intervals, and (3) a CHC or FDT PTR (where the CLEC submits a trouble report on the day of conversion, or before noon on the next business day).	
Calculation:	Report Structure:
(Count of outages ÷ total coordinated conversions) * 100	Reported by CLEC and all CLECs by state.
Disaggregations and Benchmarks:	
• Enhanced Daily Process (Includes original CHC.FDT for LNP with DSL compatible loop) • Defined Batch Process • Bulk Batch Process	2% 2% 2%

J. NXX

117. Measurement	
Percent NXXs loaded and tested by the LERG effective date	
Definition:	
Measures the percent of NXX(s) loaded and tested in the end office and/or tandem switches by the LERG effective date	
Exclusions:	
• Requests from CLECs where no signed Interconnection Agreement exists • Requests from CLECs where their Infrastructure is not complete preventing us from performing the appropriate testing to establish the NXX • Requests by CLECs where an appropriate test number has not been provided to perform required testing to establish the NXX	
Business Rules:	
Data for the initial NXX(s) in a local calling area will be based on the LERG effective date or completion of the initial interconnection trunk group(s) where an appropriate point of interconnection was not established prior to the LERG effective date. Data for additional NXXs in the local calling area will be based on the LERG effective date.	
Calculation:	Report Structure:
(Total count of NXXs loaded and tested by LERG date, or interconnection date ÷ total NXXs loaded and tested) * 100	Reported by CLEC, all CLECs and AT&T, by state.
Disaggregations and Benchmarks:	
• None	Parity

K. Bona Fide/Special Request Process (BFRs)

120. Measurement	
Percentage of Requests Processed Within 30 Business Days	
Definition:	
Percentage of Bona fide/Special requests processed and preliminary analysis or denial notices provided to the customer within 30 business days of receipt of BFR.	
Exclusions:	
Excludes weekends and holidays.	
Business Rules:	
The clock starts when AT&T receives the application. The clock stops when AT&T responds with the preliminary analysis or denial notification.	
Calculation:	Report Structure:
(Count of number of requests processed within 30 days ÷ total number of requests) * 100	Reported by CLEC, all CLECs, and AT&T affiliate, by state.
Disaggregations and Benchmarks:	
None	90% within 30 business days. (Critical Z does not apply) Note: Benchmark is provided for Diagnostic purposes only

124. Measurement	
Timely Resolution of Significant Software Failures Related to Releases	
Definition:	
Measures timely resolution of software errors after a Release that is having a significant impact on CLEC business activity.	
Exclusions:	
Errors where a workaround, transparent to the CLEC, is available (workaround in this sense does not include manual faxing to the LSC or any other action required by the CLEC)	
Business Rules:	
Software errors identified in production within two weeks of the release with no work-arounds that have a disabling affect on CLECs ability to conduct business. Significant or disabling effect on the CLEC is defined as an inability to pass to AT&T or receive back from AT&T order activity on more than 10% of the CLEC LSRs relative to normal work volumes. This impact will be viewed on a per CLEC basis, upon notification by the CLEC to the OSS Help Desk that they are impacted. Problem resolution time will start being measured from the time the problem is reported to the help desk to the time the software fix is implemented or a workaround is in place. For Tier 1 damages, the CLEC is responsible for reporting the problem to the OSS Help Desk in order for this measure to apply to the individual CLECs and will be paid to those identified with an impact of 10% or more as outlined above. AT&T cannot reasonably determine how a given software release issue impacts all CLECs. Therefore, self-reporting by the CLEC is necessary. AT&T will proactively determine and report impacted CLECs if the software problem impacts all LSRs in the major categories of RESALE: UNE-P UNE Loop DSL Capable Loops DSL with Line Sharing LNP only In this case, AT&T will determine if these major categories represent 10% or more of the CLEC's LSRs based on PM5 results for the prior month.	
Calculation:	Report Structure:
(# Significant Software Failures resolved within 48 hours ÷ Total Significant Software Failures)*100	By CLEC
Disaggregations and Benchmarks:	
• None	95% completed within 48 hours or 2 days. (Critical Z does not apply)

PRICING

TABLE OF CONTENTS

1. INTRODUCTION 3

2. RECURRING CHARGES 4

3. NON-RECURRING CHARGES 5

1. INTRODUCTION

1.1 This Appendix sets forth the pricing rates, terms and conditions for Interconnection, unbundled access to Network Elements, Resale, Collocation and for any other services provided pursuant to this Agreement. All such rates shall be just, reasonable and nondiscriminatory in accordance with Applicable law.

1.2 All of the rates set forth in this Agreement are inclusive. If the Parties have inadvertently omitted an appropriate Commission-approved rate for any unbundled Network Element, service, feature or function contemplated under this Agreement ("Contemplated Services"), the Parties shall amend the Agreement to include such rate. In the event that there is no appropriate Commission-approved rate for a Contemplated Service and AT&T MISSOURI has a reasonable basis to believe it can charge MCIm for the Contemplated Service, the Parties agree to negotiate in good faith to amend the Agreement to include an interim rate. Such interim rates shall remain in effect, subject to true-up, until the Commission determines a permanent rate or decides that no rate is appropriate. The Parties further agree that during any negotiations pursuant to this Section 1.2, AT&T MISSOURI shall provide MCIm with the Contemplated Service in question and MCIm shall be responsible for paying for such Contemplated Service retroactive to the date it was first delivered. For any rates set pursuant to this Section 1.2, the Parties agree to use the appropriate AT&T MISSOURI tariff rate, if such a rate exists. All of the rates set forth in this Agreement shall remain in effect for the term of this Agreement unless they are changed in accordance with the provisions of this Agreement. For the purposes of this Appendix, "rates" may refer to either or both recurring and nonrecurring prices.

1.3 Each rate set forth in this Appendix is the total rate applicable for the respective service, save for taxes and late payment charges, if any. Where required by Applicable Law, rates contained in this Appendix Pricing are based upon FCC and state Commission approved pricing methodologies. If a rate element and/or charge for a product or service contained in, referenced to or otherwise provided by AT&T MISSOURI under this Agreement (including any attached or referenced Appendices) is not listed in this Appendix Pricing, including any rates and/or charges developed in response to a Bona Fide Request (BFR), such rates and charges shall be determined in accordance with the pricing principles set forth in the Act; provided however, if AT&T MISSOURI provides a product or service that is not subject to the pricing principles of the Act, such rate(s) and/or charges shall be as negotiated by AT&T MISSOURI and MCIm.

1.4 Intentionally Omitted.

1.5 Except as otherwise noted, all rates set forth in this Agreement are permanent rates, unless changed by order of the Commission or other administrative or judicial body of competent jurisdiction, or by mutual agreement of the Parties. The rates set forth in the Pricing Schedule to this Agreement are subject to change based upon the outcome of Illinois Commerce Commission proceedings affecting wholesale prices which are given general applicability by the Commerce Commission, including carrier-specific dockets that are given general applicability, where the outcome produces rates different than the rates set forth in the Pricing Schedule. Absent a stay of such an outcome, the affected rate(s) shall be modified consistent with the outcome via written amendment to the Agreement and/or its Pricing Schedule, as appropriate, within thirty (30) days after receipt of written notice by one Party from the other Party. Where such rate differences are accompanied by or are the result of changes to terms and conditions that are legitimately related

to the item(s) associated with the affected rates, then the Parties shall include in their amendment conforming modifications to such terms and conditions. If the Parties disagree as to the appropriate terms and conditions requiring modification due to a price change requested pursuant to this Section, either Party may seek resolution of the dispute in accordance with the provisions of Section 12 of the General Terms and Conditions of this Agreement. The modified rates and any associated modified terms and conditions shall take effect upon the effective date set forth in the Commission order that approves the rate. If the order approving the rate is silent as to the effective date, then the rate would become effective upon the approval of the amendment by the Commission or within sixty (60) days after receipt of the written notice described above, whichever is sooner, unless otherwise agreed to by the parties. Nothing in this paragraph is intended to limit either Party's right to obtain modification of any rates in this Pricing Schedule or any associated terms and conditions in accordance with other terms of this Agreement, including but not limited to the Agreement's "Intervening Law" provision Section 23 of the General Terms and Conditions.

1.6 If a rate is identified as interim, upon adoption of a final rate by the Commission, either Party may elect to change the interim rate to conform to the permanent rate upon written notice to other Party. If either Party elects to change an interim rate to conform to a permanent rate, the permanent rate will be substituted for the interim rate and will remain in effect for the remainder of this Agreement unless otherwise changed in accordance with the terms of this Agreement. Unless otherwise agreed by the Parties, an interim rate will be replaced by the permanent rate retroactive to the Effective Date of this Agreement, and will be trued up within ninety (90) days after the Effective Date of the amendment adopting the permanent rate.

1.7 Intentionally Omitted.

1.8 AT&T MISSOURI shall not charge MCIm different rates for unbundled Network Elements based on the class of end user customers served by MCIm, or on the type of services provided by MCIm using those unbundled Network Elements, unless otherwise ordered by the Commission. This paragraph does not apply to Resale.

2. RECURRING CHARGES

2.1 Unless otherwise identified in the pricing tables, where rates are shown as monthly, a month will be defined as thirty (30) days. Billing will be on the basis of whole or fractional months used. The rates for non-monthly rated UNEs will be billed as specified in Appendix Pricing. Billing will be on the basis of whole or fractional periods used. Fractional billing will be adjusted on a pro-rata basis to reflect actual usage during any particular month or period.

2.2 Unless otherwise identified in the pricing tables, where rates are usage sensitive, measurement of usage-based charges shall be in actual conversation seconds, or fraction thereof, measured in one tenth (1/10) of one second increments. For purposes of billing charges, total conversation seconds, or fractions thereof, per chargeable traffic types will be totaled for the entire monthly bill cycle and then rounded up to the next whole minute. There shall be no usage-based charges for incomplete calls or call attempts, including "busy" or "don't answer" status calls.

2.3 Intentionally Omitted.

2.4 Unless otherwise identified in the pricing tables, where rates are distance sensitive, the mileage will be calculated on the airline distance involved between the locations. To determine the rate to

be billed, AT&T MISSOURI will first compute the mileage using the V&H coordinates method, as set forth in the National Exchange Carrier Association, Inc. Tariff FCC No 4. When the calculation results in a fraction of a mile, AT&T MISSOURI will round up to the next whole mile before determining the mileage and applying rates.

3. NON-RECURRING CHARGES

3.1 Some items which must be individually charged (e.g., extraordinary charges, CLEC Changes and etc.), are billed as nonrecurring charges.

1 INTRODUCTION

This Appendix sets forth terms and conditions for Intercarrier Compensation between AT&T MISSOURI and MCIm.

1.1 The Parties acknowledge that they entered into an "Amendment Superseding Certain Reciprocal Compensation, Interconnection and Trunking Terms" dated April 1, 2005 (hereafter the "Reciprocal Compensation Amendment"). The Parties also acknowledge and agree that the Reciprocal Compensation Amendment is intended, during its term (April 1, 2005 through July 31, 2011) unless otherwise agreed to by the Parties), to supplement and supersede, as applicable, certain terms and conditions of this Appendix Reciprocal Compensation. The Parties agree that, during the term of the Reciprocal Compensation Amendment, any inconsistencies between the Reciprocal Compensation Amendment and this Appendix Reciprocal Compensation will be governed by the provisions of the Reciprocal Compensation Amendment.

1.2 Upon expiration of the Reciprocal Compensation Amendment dated April 1, 2005, the Parties agree that the terms of the Appendix Reciprocal Compensation shall apply to determine the terms of the compensation to be paid between the Parties on a prospective basis.

2 TRANSMISSION AND ROUTING OF TELEPHONE EXCHANGE SERVICE TRAFFIC RELEVANT TO COMPENSATION

2.1 The Telecommunications traffic exchanged between MCIm and AT&T MISSOURI will be classified as either Section 251(b)(5) Traffic, ISP-Bound Traffic, intraLATA Toll Traffic, interLATA Toll Traffic, or Transit Traffic. The Parties agree that, notwithstanding the classification of traffic under this Appendix, either Party is free to define its own local service areas for the purpose of providing telecommunications services to its own customers. The provisions of this Appendix apply to calls originated over the originating carrier's facilities or a carrier providing telecommunications services utilizing wholesale Local Switching, to the extent that MCIm's End Users are served by such wholesale Local Switching purchased from AT&T MISSOURI; they do not apply to traffic originated over facilities provided under local Resale arrangements.

2.2 Rates for transport and termination of Local Traffic must be symmetrical. For purposes of this section, symmetrical means that the amount charged for each rate element MCIm may assess AT&T MISSOURI for the transport and termination of Local Traffic will be the same as the amount charged for each rate element which AT&T MISSOURI may assess MCIm for the transport and termination of Local Traffic.

2.3 Reciprocal compensation applies for transport and termination of Section 251(b)(5) Traffic. When an end user customer originates Section 251(b)(5) Traffic, the originating Party shall compensate the terminating Party for the transport and termination of such Section 251(b)(5) Traffic at the rate(s) provided in Appendix Pricing. "Section 251(b)(5) Traffic" shall mean telecommunications traffic in which the originating End User Customer of one Party and the Terminating End User Customer of the other Party are:

(i) both physically located in the same AT&T MISSOURI Local Exchange Area as defined in the AT&T MISSOURI Local (or "General") Exchange Tariff on file with the applicable state commission or regulatory agency; or

(ii) both physically located within neighboring AT&T MISSOURI Local Exchange Areas that are within the same common mandatory local calling area. This includes, but is not limited to, mandatory Extended Area Service (EAS) or other mandatory extended local calling.

2.3.1 In accordance with the FCC's Order on Remand Report and Order, In the Matter of Implementation of the Local Compensation Provisions in the Telecommunications Act of 1996, Intercarrier Compensation for ISP-Bound Traffic, FCC 01-131, CC Docket Nos. 96-98, 99-68 (rel. April, 27, 2001) ("FCC ISP Compensation Order"), "ISP-Bound Traffic" shall mean telecommunications traffic exchanged between MCIm and AT&T MISSOURI in which the originating End User of one Party and the terminating ISP of the other Party are:

(i) both physically located in the same AT&T MISSOURI Local Exchange Area as defined by AT&T MISSOURI Local (or "General") Exchange Tariff on file with the applicable state commission or regulatory agency; or

(ii) both physically located within neighboring AT&T MISSOURI Local Exchange Areas that are within the same common mandatory local calling area. This includes, but it is not limited to, mandatory Extended Area Service (EAS), mandatory Extended Local Calling Service (ELCS) or other types of mandatory expanded local calling scopes.

2.3.2 AT&T MISSOURI has offered to exchange Section 251(b)(5) Traffic and ISP-Bound traffic pursuant to the FCC's interim ISP terminating compensation plan set forth in the FCC ISP Compensation Order and such traffic is presumed to be ISP-Bound Traffic in accordance with the rebuttable presumption set forth in Section 4.8 of this Appendix.

2.4 When traffic is either originated by or terminated to an End User served by a Telecommunications Carrier utilizing wholesale Local Switching, to the extent that MCIm's End Users are served by such wholesale ocal Switching purchased from AT&T MISSOURI the requirements to record usage and to compensate the terminating Party shall remain the same as for switch-based service.

2.5 To the extent that the Parties are not exchanging traffic in a given Local Calling Area as of the Effective Date, the Parties' obligation to pay reciprocal compensation to each other for that Local Calling Area only shall commence on the date the Parties agree (which agreement shall not be unreasonably withheld) that the network is complete for that Local Calling Area (i.e., each Party has established its originating trunks as well as any ancillary functions (e.g., 9-1-1)) and is capable of fully supporting originating and terminating End Users' traffic. In addition, the Parties agree that test traffic is not subject to compensation pursuant to this Appendix Reciprocal Compensation.

2.6 The Reciprocal Compensation arrangements set forth in this Appendix are not applicable to Exchange Access traffic. All Exchange Access traffic shall continue to be governed by the terms and conditions of applicable federal and state tariffs. The compensation arrangements for Section 251(b)(5), as defined in 47 C.F.R. § 51.701(b)(1) and subject to change in accordance therewith,

are not applicable to (i) Exchange Access traffic, Information Access traffic, or Exchange Services for such access (ISP-bound Traffic shall be compensated and billed in accordance with Section 4.2 as agreed to by the parties) (ii) traffic originated by one Party on a number ported to its own network that terminates to another number ported on that same Party's network or (iii) any other type of traffic found to be exempt from reciprocal compensation by the FCC or the Commission and subject to the Change in Law provisions of this agreement. All Exchange Access traffic shall continue to be governed by the terms and conditions of applicable state, federal and NECA tariffs. The treatment of Voice over Internet Protocol (VOIP) traffic is set forth in Section 16.

2.7 For purposes of this Appendix, FX Traffic shall be defined as traffic for which the dialed NPX/NXX is rated in a different mandatory local calling area than the actual location of the End User.

2.8 Foreign Exchange (FX) Traffic (ISP-bound and non-ISP bound) shall be subject to bill and keep.

2.9 Segregating And Tracking FX Traffic

2.9.1 For AT&T MISSOURI, the terminating carrier is responsible for separately identifying FX Traffic from other types of Intercarrier traffic for compensation purposes. The terminating carrier will be responsible for providing the originating carrier with an FX Usage Summary which includes a ten (10) digit telephone number level detail of the minutes of use terminated to FX Telephone Numbers on its network each month (or in each applicable billing period, if not billed monthly), or by any means mutually agreed by the Parties.

2.9.2 Terminating carrier will not assess compensation charges to the Voice FX MOU and ISP FX MOU in AT&T MISSOURI where such traffic is subject to a Bill and Keep arrangement.

2.10 To the extent minutes of use are nevertheless billed and paid by the originating carrier, but later found to be FX Traffic that should have been subject to Bill and Keep, the terminating carrier will be responsible for reimbursing the originating carrier the amount of compensation paid, plus interest at the interest rate defined in the originating carrier's Switched Access Tariff.

2.11 The Parties recognize and agree that ISP and Internet traffic (excluding ISP-Bound Traffic as defined above in Section 2.2) could also be traded outside of the applicable local calling scope, or routed in ways that could make the rates and rate structures for Section 251(b)(5) Traffic and the FCC's ISP Terminating Compensation Plan above does not apply including, but not limited, to ISP calls that fit the definitions of the following traffic:

- FX Traffic
- IntraLATA Toll Traffic
- 800, 888, 877, ("8YY") Traffic

2.11.1 The Parties agree that, for the purposes of this Appendix, either Parties' End Users remain free to place calls to an ISP under any of the above classifications. Notwithstanding anything to the contrary herein, to the extent such calls to an ISP are placed, the Parties agree that Section 4 does not apply. The applicable rates, terms and conditions for FX Traffic, 8YY and IntraLATA Toll Traffic are set forth in this Appendix.

2.12 Intentionally Omitted.

2.13 Private Line Services include private line-like and special access services and are not subject to local reciprocal compensation. Private Line Services are defined as dedicated Telecommunications channels provided between two points or switched among multiple points and are used for voice, data, audio or video transmission. Private Line services include, but are not limited to, WATS access lines.

2.14 Exchange Access traffic is the offering by an incumbent or competitive Local Exchange Company of services or facilities to an Inter-exchange Carrier for the purpose of the origination or termination of telephone Toll Service. Such traffic includes inter-LATA and intra-LATA toll calls and is not subject to reciprocal compensation.

3 RESPONSIBILITIES OF THE PARTIES

3.1 The Parties will be responsible for the accuracy and quality of the data as submitted to the respective parties involved.

3.2 For all traffic exchange pursuant to this Agreement including, without limitation, Switched Access Traffic, each Party shall provide Calling Party Number as defined in 47 C.F.R. § 64.1600(c) ("CPN") in accordance with Section 3.3 and shall not strip, alter, modify, add, delete, change, or incorrectly assign any CPN. If either Party identifies improper incorrect or fraudulent use of local exchange services (including, but not limited to PRI, ISDN and/or Smart Trunks) or identifies stripped, altered, modified, added, deleted, changed and/or incorrectly assigned CPN, the Parties agree to cooperate with one another to investigate and take corrective action.

3.3 For traffic which is delivered by one party to be terminated on the other Party's network in AT&T MISSOURI, if the percentage of calls passed with CPN is greater than ninety percent (90%), all calls exchanged without CPN will be billed as either Section 251(b)(5) Traffic or IntraLATA Toll Traffic in direct proportion to the minutes of use (MOU) of calls exchanged with CPN. If the percentage of calls passed with CPN is less than 90%, all calls passed without CPN will be billed as Intrastate IntraLATA Toll Traffic.

3.4 Both Parties will be responsible for passing on any CPN it receives from a third party for traffic delivered to the other Party.

3.5 If one Party is passing CPN but the other Party is not properly receiving information, the Parties will work cooperatively to correct the problem.

3.6 Loss of Data. In the event of a loss of data, both Parties shall cooperate to reconstruct the lost data within sixty (60) days of notification and if such reconstruction is not possible, shall accept a reasonable estimate of the lost data. This estimate may be based on several methodologies involving at least three (3), but no more than twelve (12) consecutive months of prior usage data, if available.

4 COMPENSATION

4.1 Intentionally Omitted.

4.2 Exchange Only ISP-bound Traffic at the FCC's Interim ISP Terminating Compensation Plan Rate

4.2.1 The ISP-Bound Traffic rates, terms, conditions in this Sections 4.2 apply only to the termination of ISP-bound Traffic as defined in herein, with the remainder of Section 251(b)(5) Traffic to be compensated at the rates in the Appendix Price Schedule. Only ISP-Bound Traffic is subject to the rebuttable presumption stated below.

4.2.2 The Parties agree to compensate each other for the transport and termination of ISP-bound Traffic on a minute of use basis, at the rate set forth in Appendix Pricing.

4.2.3 Payment of Intercarrier Compensation on ISP-bound Traffic will not vary according to whether the traffic is routed through a tandem switch or directly to an end office switch.

4.2.4 Compensation for In-Balance Section 251(b)(5) Traffic.

4.2.4.1 The compensation set forth below in Sections 4.2.5 and 4.4 will apply to Section 251(b)(5) Traffic as defined in Section 2.3 of this Appendix.

4.2.5 Applicability of Rates:

4.2.5.1 The Parties agree to compensate each other for the transport and termination of Section 251(b)(5) Traffic as set forth below. The following rate elements apply, but the corresponding rates are shown in Appendix Pricing.

4.2.5.2 Tandem Serving Rate Elements:

4.2.5.2.1 Tandem Switching - compensation for the use of tandem switching only.

4.2.5.2.2 Tandem Transport – (also known as Common Transport) compensation for the transmission of traffic between the local tandem and the end offices subtending that tandem consisting of a transport termination (per minute) rate element and transport facility mileage (per minute, per mile) rate element.

4.2.5.2.3 MCIm shall assume an average 15 miles of transport when accessing this element.

4.2.5.2.4 End Office Switching in a Tandem Serving Arrangement - compensation for the local end office switching and line termination necessary to complete the transmission in a tandem-served arrangement.

4.2.5.3 End Office Serving Rate Elements:

4.2.5.3.3 End Office Switching - compensation for the local end office switching and line termination necessary to complete the transmission in an end office serving arrangement.

4.3 Intentionally Omitted.

4.4 Tandem Interconnection Rate Application

4.4.1 For MCIm traffic that terminates to AT&T MISSOURI, transport and termination rates will vary according to whether the traffic is routed through a tandem switch or directly to an end office switch. For AT&T MISSOURI traffic that terminates to MCIm, the tandem interconnection rate shall apply only when MCIm's switch is serving a specific LATA that has been determined to have the same or greater geographic scope as a similarly-situated AT&T Tandem Switch serving the same LATA. Where MCIm has not affirmatively demonstrated that its switch serves a geographic area comparable to the area served by AT&T MISSOURI's tandem switch pursuant to 47 C.F.R. §51.711 (a)(3), MCIm shall be entitled to receive the End Office Switching rate set forth in Appendix Pricing and as specified in Section 4.2.5.3 above.

4.4.2 For purposes of this Section 4.4, a switch actually serves a geographic area comparable to the area served by AT&T MISSOURI's tandem when:

(i) a CLEC deploys a switch to serve [this] area;

(ii) a CLEC has obtained NPA and NXXs to serve the exchanges within this area; and

(iii) a CLEC can show that it is serving this area either through its own facilities or a combination of its own facilities and leased facilities connected to its collocation arrangements in ILEC central offices.

4.4.3 If a CLEC has more than one switch per LATA, each switch must qualify for the tandem interconnection rate as set forth above on a switch-by-switch basis.

4.4.4 Based on the specific architecture of the MCIm network and the geographic area served by the MCIm network, the Parties agree that MCIm's switch meets the criteria set forth in 4.4.2 and will be compensated for Section 251(b)(5) Traffic and mandatory EAS traffic that originates from an MCIm End User that terminates to an AT&T MISSOURI End User as follows:

(i) Seventy percent (70%) of AT&T MISSOURI's Section 251(b)(5) Traffic and Mandatory EAS traffic that is terminated to MCIm's End Users shall be compensated at the end office switching rate as set forth in Appendix Pricing.

(ii) Thirty percent (30%) of AT&T MISSOURI's Section 251(b)(5) Traffic and Mandatory EAS traffic that is terminated to MCIm's End Users shall be compensated at a tandem blended rate calculated as follows:

[End Office Switching + Tandem Switching + Transport Termination + (15 x Tandem Transport Facility Mileage)]

4.4.4.1 For purposes of this tandem blended rate, the end office rate, the tandem switching rate, and the tandem transport rates are the rates defined in Section 4.2.5.2 above.

4.4.5 Should disputes arise regarding whether a CLEC's switch has affirmatively demonstrated that its switch actually serves a geographic area comparable to the area served by an AT&T MISSOURI tandem switch, as described above, the Parties shall utilize the Dispute Resolution procedures in this Agreement to resolve the dispute. At the conclusion of dispute resolution, if a CLEC demonstrates that its switch is actually serving a geographic area comparable to the AT&T MISSOURI's tandem switch in a LATA, the tandem switching and transport rates shall be applied on a going forward basis only.

4.5 Intentionally Omitted.

4.6 Intentionally Omitted

4.7 Intentionally Omitted.

4.8 Intentionally Omitted.

4.9 ISP-bound Traffic Rebuttable Presumption

4.9.1 In accordance with Paragraph 79 of the FCC's ISP Compensation Order, MCIm and AT&T MISSOURI agree that there is a rebuttable presumption that any of the combined Section 251(b)(5) Traffic and ISP-bound traffic exchanged between MCIm and AT&T MISSOURI exceeding a 3:1 terminating to originating ratio is presumed to be ISP-bound Traffic subject to the compensation terms in this Section 4.0. Either party has the right to rebut the 3:1 ISP presumption by identifying the actual ISP-bound Traffic by any means mutually agreed by the Parties, or by any method approved by the Commission. If a Party seeking to rebut the presumption takes appropriate action at the Commission pursuant to Section 252 of the Act and the Commission agrees that such Party has rebutted the presumption, the methodology and/or means approved by the Commission for use in determining the ratio shall be utilized by the Parties as of the date of the Commission approval and, in addition, shall be utilized to determine the appropriate true-up as described below. During the pendency of any such proceedings to rebut the presumption, MCIm and AT&T MISSOURI will remain obligated to pay the reciprocal compensation rates set forth in Section 4.2.5 for Section 251(b)(5) Traffic and the rates set forth in Section 4.2.2 for ISP-Bound Traffic. ISP-Bound Traffic is subject to a true-up upon the conclusion of such proceedings. Such true-up shall be retroactive back to the date a Party first sought appropriate relief from the Commission.

4.10 Calculation of the 3:1 Ratio

4.10.1 For purposes of this Section, all Section 251(b)(5) traffic and all ISP-bound Traffic shall be referred to as "Billable Traffic" and will be billed in accordance with Section 13.0 below. For such Billable Traffic exchanged between the Parties which do not exceed a 3:1 terminating to originating ratio as set forth in Section 4.8 above, such traffic shall be defined as "In-Balance" traffic. Each Party will invoice the other Party on a monthly basis for such "In-Balance" traffic at the reciprocal compensation rates set forth in Section 4.2.5

for Section 251(b)(5) Traffic. For such Billable Traffic exchanged between the Parties exceeding a 3:1 terminating to originating ratio as set forth in Section 4.8 above, such traffic shall be defined as "Out-of-Balance" traffic. The Party whose traffic is "Out-of-Balance" will, on a monthly basis, calculate (i) the amount of such traffic to be compensated at the Section 251(b)(5) reciprocal compensation rates set forth in Appendix Pricing; and (ii) the amount of such traffic to be compensated at the FCC interim ISP terminating compensation rate set forth in Appendix Pricing.

4.11 Intercarrier Compensation for Wholesale Local Switching Traffic

4.11.1 When MCIm terminates traffic to an End User of a third party carrier served via AT&T MISSOURI's wholesale Local Switching, MCIm agrees to bill that third party carrier directly for any applicable intercarrier compensation; provided, however, that AT&T MISSOURI shall still be obligated to provide MCIm with all call records necessary to bill such calls as described herein and in Appendix Recording. AT&T MISSOURI shall assist MCIm in good faith where possible in identifying the originating carrier.

4.11.2 For Intra-Switch Section 251(b)(5) Traffic and ISP Bound Traffic exchanged between AT&T MISSOURI and MCIm when MCIm purchases wholesale local switching from AT&T MISSOURI on a wholesale basis such traffic is not subject to terminating compensation.

4.11.3 For Inter-Switch Section 251(b)(5) Traffic and ISP Bound Traffic exchanged between AT&T MISSOURI and MCIm when MCIm purchases wholesale local switching from AT&T MISSOURI on a wholesale basis such traffic is subject to the end office switching rate element set forth in Appendix Pricing and as specified in Section 4.2.5.3.3 for Section 251 (b)(5) Traffic, excluding ISP Bound Traffic and ISP Bound Traffic on a minute of use basis at the rate set forth in Appendix Pricing as specified in Section 4.2.2.

4.11.4 Intentionally Omitted.

5 INTENTIONALLY OMITTED

6 MCA TRAFFIC

6.1 For compensation purposes in the state of Missouri, Section 251(b)(5) Traffic and ISP-Bound Traffic shall be further defined as "Metropolitan Calling Area (MCA) Traffic" and "Non-MCA Traffic." MCA Traffic is traffic originated by a party providing a local calling scope plan pursuant to the Missouri Public Service Commission Orders in Case No. TO-92-306 and Case No. TO-99-483 (MCA Orders) and the call is a Section 251(b)(5) Traffic based on the calling scope of the originating party pursuant to the MCA Orders. Non-MCA Traffic is all Section 251(b)(5) Traffic and ISP-Bound Traffic that is not defined as MCA Traffic.

6.1.1 Either party providing Metropolitan Calling Area (MCA) service shall offer the full calling scope prescribed in Case No. TO-92-306, without regard to the identity of the called Party's local service provider. The Parties may offer additional toll-free outbound calling or other services in conjunction with MCA service, but in any such offering the Party shall not identify any calling scope other than that prescribed in Case No. TO-92-306 as "MCA" service.

6.1.2 Pursuant to the Missouri Public Service Commission Order in Case No. TO-99-483, MCA Traffic shall be exchanged on a bill-and-keep intercompany compensation basis meaning that the Party originating a call defined as MCA Traffic shall not compensate the terminating party for terminating the call.

6.2 The Parties agree to use the Local Exchange Routing Guide (LERG) to provision the appropriate MCA NXXs in their networks. The LERG should be updated at least forty-five (45) days in advance of opening a new code to allow the other party the ability to make the necessary network modifications. If the Commission orders the Parties to use an alternative other than the LERG, the Parties will comply with the Commission's final order.

6.3 If CLEC provides service via resale or in conjunction with ported numbers in the MCA, the appropriate MCA NXXs will be updated by AT&T SOUTHWEST REGION 5-STATE.

7 TRANSIT TRAFFIC COMPENSATION

7.1 The originating Party is responsible for payment of the appropriate rates unless otherwise specified. The rates that the parties shall charge for transiting traffic are outlined in Appendix Pricing.

8 INTENTIONALLY OMITTED

9 COMPENSATION FOR TERMINATION OF INTRALATA TOLL TRAFFIC

9.1 For intrastate, IntraLATA toll traffic, not considered EAS traffic, compensation for termination of such traffic will be at terminating access rates for Message Telephone Service (MTS) and originating access rates for 800 Service, including the Carrier Common Line (CCL) charge where applicable, as set forth in each Party's Intrastate Access Service Tariff, but such compensation shall not exceed the compensation contained in an AT&T MISSOURI's tariff in whose exchange area the End User is located.

9.2 For interstate IntraLATA service, compensation for terminating of intercompany traffic will be at terminating access rates for Message Telephone Service (MTS) and originating access rates for 800 Service, including the Carrier Common Line (CCL) charge, as set forth in each Party's interstate access service tariff, but such compensation shall not exceed the compensation contained in AT&T MISSOURI's tariff in whose exchange area the End User is located. Tandem switching rates apply only in those cases where a Party's tandem is used to terminate traffic.

10 INTRALATA 800 TRAFFIC

10.1 The 800 Trunking arrangements are covered in NIM appendix. If the Local/intraLATA Trunks are used and requesting carrier performs the 800 query function, the intraLATA 800 Traffic will be recorded as toll calls. If the Access Toll Connecting Trunks are used, AT&T MISSOURI will not record the intraLATA 800 Traffic.

10.2 The Parties shall provide to each other intraLATA 800 Access Detail Usage Data for Customer billing and intraLATA 800 Copy Detail Usage Data for access billing in Exchange Message Interface (EMI) format. The Parties agree to provide this data to each other at no charge. In the event of errors, omissions, or inaccuracies in data received from either Party, the liability of the Party providing such data shall be limited to the provision of corrected data only. If the originating

Party does not send an end user customer billable record to the terminating Party, the originating Party will not bill the terminating Party any interconnection charges for this traffic.

10.3 For intraLATA Toll Free Service calls where such service is provided by one of the Parties, the compensation set forth in each Party's respective Switched Access tariff will be charged by the Party originating the call, rather than the Party terminating the call. Billing shall be based on originating and terminating NPA NXX.

11 MEET POINT BILLING (MPB) SPECIAL and SWITCHED ACCESS TRAFFIC COMPENSATION

11.1 Intentionally Omitted.

11.2 Intercarrier compensation for Switched Access Traffic shall be on a MPB basis as described below.

11.3 The Parties will establish MPB arrangements in order to provide Switched Access Traffic via the respective carrier's Tandem Office Switch in accordance with the MPB guidelines contained in, or upon approval to be added in future to the Ordering and Billing Forum's MECOD and MECAB documents.

11.4 Billing for the Switched Access Traffic jointly provided by the Parties via MPB arrangements shall be according to the multiple bill/single tariff method. As described in the MECAB document, each Party will render a bill in accordance with its own tariff for that portion of the service it provides. Each Party will bill its own network access service rates. The residual interconnect charge (RIC), if any, will be billed by the Party providing the end office function.

11.5 The Parties will maintain provisions in their respective federal and state access tariffs, or provisions within the National Exchange Carrier Association (NECA) Tariff No. 4, or any successor tariff, sufficient to reflect this MPB arrangement, including MPB percentages.

11.6 As detailed in the MECAB document, the Parties will, exchange all information necessary to accurately, reliably and promptly bill third parties for Switched Access Traffic jointly handled by the Parties via the Meet Point arrangement. Information shall be exchanged in a mutually acceptable electronic file transfer method. Where the EMI records cannot be transferred due to a transmission failure, records can be provided via a mutually acceptable medium. The exchange of EMI Category 110XXX records to accommodate MPB will be on a reciprocal, no charge basis. Each Party agrees to provide the other Party with EMI Category 110XXX records based upon mutually agreed upon intervals.

11.7 MPB shall also apply to all jointly provided Switched Access MOU traffic bearing the 900, or toll free service NPAs (e.g., 800, 877, 866, 888 NPAs, or any other non-geographic NPAs). The Party that performs the SSP function (launches the query to the 800 database) will be the 800 Service Provider for this function.

11.8 Each Party will act as the Official Recording Company for switched access usage when it is jointly provided between the Parties. As described in the MECAB document, the Official Recording Company for tandem routed traffic is: (1) the end office company for originating traffic, (2) the tandem company for terminating traffic and (3) the SSP company for originating 800 traffic. Each Party shall coordinate and exchange the billing account reference (BAR) and billing account cross

reference (BACR) numbers for the Meet Point Billing service. Each Party shall notify the other if the level of billing or other BAR/BACR elements change, resulting in a new BAR/BACR number.

11.9 Intentionally Omitted.

11.10 AT&T MISSOURI and MCIm agree to provide the other Party with notification of any discovered errors within ten (10) business days of the discovery.

11.11 Intentionally Omitted.

11.12 Intentionally Omitted.

12 INTENTIONALLY OMITTED

13 BILLING ARRANGEMENTS FOR COMPENSATION OF SECTION 251(b)(5) TRAFFIC

13.1 In MISSOURI, the Billing Party will calculate terminating interconnection minutes of use based on standard Automatic Message Accounting (AMA) recordings made within each Party's network for Section 251(b)(5) Traffic, ISP-Bound Traffic and IntraLATA Toll Traffic. These recordings are the basis for each Party to generate bills to the other Party. ISP-Bound Traffic will be calculated using the 3:1 ratio as outlined in Section 4 above. The measurement of minutes of use over Local Interconnection Trunk Groups shall be in actual conversation seconds. The total conversation seconds over each individual Local Interconnection Trunk Group will be totaled for the entire monthly bill and then rounded to the next whole minute.

13.2 Where CLEC is using terminating recordings to bill intercarrier compensation, AT&T MISSOURI will provide the terminating Category 11-01-XX records by means of the Daily Usage File (DUF) to identify traffic that originates from an end user being served by a third party telecommunications carrier using an AT&T MISSOURI non-resale offering whereby AT&T MISSOURI provides the end office switching on wholesale basis. Such records will contain the Operating Company Number (OCN) of the responsible LEC that originated the calls which CLEC may use to bill such originating carrier for MOUS terminated on CLEC's network.

13.3 In AT&T MISSOURI where it has offered to exchange Section 251(b)(5) Traffic and ISP-Bound traffic pursuant to the FCC's interim ISP terminating compensation plan set forth in the FCC ISP Compensation Order, ISP-Bound Traffic will be calculated using the 3:1 Presumption as set forth in Section 4.8 of this Appendix.

13.4 All ISP-Bound Traffic for a given usage month shall have the same billing cycle as Section 251(b)(5) under this Appendix. The Parties agree that all terms and conditions regarding disputed minutes of use, nonpayment, partial payment, late payment, interest on outstanding balances, or other billing and payment terms shall apply to ISP-Bound Traffic the same as for Section 251(b)(5) Traffic under this Appendix.

13.5 If either Party pursues dispute resolution under the applicable provisions set forth in the General Terms and Conditions of this Agreement, on any portion of an amount due to a Party (the "Billing Party") arising from Intercarrier Compensation charges, such disputed amounts will remain unpaid by the Party billed (the "Non-Paying Party") and are not subject to interest during the pendency of such Intercarrier Compensation dispute.

13.6 For lost data see section 3.6 above.

14 BILLING ARRANGEMENTS FOR LEC CARRIED INTRALATA TOLL

14.1 Since AT&T MISSOURI in not the primary toll carrier in AT&T MISSOURI, for AT&T MISSOURI carried IntraLATA toll traffic, the Parties will bill each other pursuant to their intrastate access tariff or interstate access tariff as appropriate using their terminating AMA records.

15 INTENTIONALLY OMITTED

16 IP-PSTN TRAFFIC

16.1 Anything to the contrary in this Agreement notwithstanding, any traffic originated by an end user of either Party in Internet Protocol format that subsequently undergoes a net protocol change, as defined by the FCC, prior to its termination to an end user of another Party ("IP-PSTN Traffic") shall be treated as 251(b)(5)/ISP-bound local traffic for compensation purposes and shall be compensated at the rates for such 251(b)(5)/ISP-bound local traffic set forth in this Agreement or any amendment to this Agreement.

17 SPECIFIC CHANGE OF LAW

17.1 In the event the pricing scheme in the FCC's Interim ISP Compensation Order (defined in Section 2.3 of this Attachment) is modified, eliminated or replaced, then the Parties agree to negotiate an appropriate amendment to conform to such change in accordance with the Intervening Law provisions of this Agreement.

18. VOICE OVER INTERNET PROTOCOL (VOIP)

18.1 Notwithstanding anything to the contrary in this Agreement, the Parties agree that the contractual limitations and stake dates set forth in Appendix Invoicing shall only apply to those services expressly identified in the Invoicing Appendix and in no event shall such limits and stake dates apply to any and all Losses incurred by either Party arising out or related directly or indirectly to (i) any and all interexchange traffic that terminates on a Party's circuit switch including, without limitation, traffic routed or transported in whole or in part using Internet Protocol that is not delivered to the terminating Party over feature group D access trunks (ii) any and all information services traffic or traffic either Party claims is Voice over Internet Protocol ("VoIP"), (iii) any and all traffic delivered to the terminating Party in which the CPN has been stripped, altered, modified, added, deleted, changed, or incorrectly assigned, and (iv) any and all third party claims, (v) claims for fraud and/or misrepresentation, and (vi) (v) any claims for indemnification related to the traffic described in subsections (i) through (v). For purposes of this Appendix Invoicing, CPN, at a minimum, shall include information that accurately reflects the physical location of the end user that originated and/or dialed the call.

RECORDING

TABLE OF CONTENTS

1. INTRODUCTION 3
2. DEFINITIONS 3
3. RESPONSIBILITIES OF THE PARTIES FOR IXC TRANSPORTED CALLS 4
4. DAILY USAGE FILE ("DUF") / CUSTOMER USAGE DATA 6

1. INTRODUCTION

1.1 This Appendix sets forth the terms and conditions under which AT&T MISSOURI will provide recording, message processing and message detail services for (1) IXC transported calls for UNE and facility-base providers and (2) local calls associated with MCIm's end user customer use of resale or Lawful UNE.

2. DEFINITIONS

2.1 Exchange Message Interface (EMI) Category 110XXX - a message record which contains the usage measurement reflecting the service feature group, duration and time of day for a message and is subsequently used to bill access to Interexchange Carriers (IXCs).

2.2 "Assembly and Editing" - the aggregation of recorded end user customer message details to create individual message records and the verification that all necessary information required ensuring all individual message records meet industry specifications is present.

2.3 "Billing Company" - the company that bills for charges incurred.

2.4 "Billable Message" - a message record containing details of a completed call which is used for billing.

2.5 "Centralized Message Distribution System (CMDS)" - the national network of private line facilities used to exchange Exchange Message Interface (EMI) formatted billing data between AT&T MISSOURI and the Billing Company.

2.6 "Data Transmission" - the forwarding by AT&T MISSOURI of message detail and/or access usage record detail in EMI format over data lines or a mutually agreed-upon medium to the CLEC. Consistent with current practice, Category 01 records must be transmitted via the CMDS host.

2.7 Intentionally Omitted.

2.8 "Interexchange Carrier (IXC)" - A third party transmission provider that carries long distance voice and non-voice traffic between user locations. IXCs provide service interstate and intrastate. In some states IXCs are permitted to operate within a LATA.

2.9 "Interexchange Carrier (IXC) Transported" - telecommunications services provided by an IXC or traffic transported by facilities belonging to an IXC.

2.10 Intentionally Omitted.

2.11 "Message Processing" - the creation of individual EMI formatted billable message detail records from individual recordings that reflect specific billing detail for use in billing the end user customer and/or access usage records from individual recordings that reflect the service feature group, duration and time of day for a message, Carrier Identification Code, among other fields, for use in billing access to the Interexchange Carriers. Message Processing includes performing CMDS online edits required to ensure message detail and access usage records are consistent with CMDS specifications.

2.12 Intentionally Omitted

2.13 "Provision of Message Detail" - the sorting of all billable message detail and access usage record detail by Revenue Accounting Office, Operating Company Number or Service Bureau, splitting of data into packs for invoicing, and loading of data into files for data transmission to MCIm for those records created internally or received from other Local Exchange Carrier Companies or Interexchange Carriers through AT&T MISSOURI's internal network or national CMDS.

2.14 "Record" - a logical grouping of information as described in the programs that process information and create the magnetic tapes or data files.

2.15 "Recording" - the creation and storage a mutually agreed upon medium of the basic billing details of a message in Automatic Message Accounting (AMA) format.

2.16 "Recording Company" - the company that performs the functions of recording and message processing of Interexchange Carrier (IXC) transported messages and the provision of message detail.

2.17 "800 Switching Control Point (SCP) Carrier Access Usage Summary Record (SCP Record)" - a summary record which contains information concerning the quantity and types of queries launched to an AT&T MISSOURI SCP.

3. RESPONSIBILITIES OF THE PARTIES FOR IXC TRANSPORTED CALLS

3.1 AT&T MISSOURI will record all IXC transported messages for MCIm carried over all Feature Group Switched Access Services that are available to AT&T MISSOURI provided recording equipment or operators. Unavailable messages (i.e., certain operator messages that are not accessible by AT&T MISSOURI-provided equipment or operators) will not be recorded. The recording equipment will be provided at locations selected by AT&T MISSOURI.

3.2 Standard Category 11 EMI record formats (210 bytes) for the provision of access usage record detail will be established by AT&T MISSOURI and provided to MCIm. AT&T MISSOURI shall include the "From Number" of the call originator on each EMI call record. Customer usage records and station level detail records shall be in packs in accordance with EMI standards. AT&T MISSOURI will provide access usage data within a timely manner and within the MECAB guidelines, but no later then ten (10) business days.

3.3 Recorded billable message detail and access usage detail will not be sorted to furnish detail by specific end user customers, by specific groups of end user customers, by office, by feature group or by location.

3.4 AT&T MISSOURI will provide message detail to MCIm in data files, via data lines (normally a File Transfer Protocol), to receive and deliver messages or a network data mover facility, using software and hardware acceptable to both Parties.

3.5 For AT&T MISSOURI, MCIm will identify separately the location where the data transmissions should be sent (as applicable) and the number of times each month the information should be provided. AT&T MISSOURI reserves the right to limit the frequency of transmission to existing

AT&T MISSOURI processing and work schedules, holidays, etc. For AT&T MISSOURI, data transmissions are performed on a daily basis, Monday – Friday.

3.6 AT&T MISSOURI will determine the number data files required to provide the access usage detail to MCIm.

3.7 The Parties shall retain copies of the message detail records provided to each other for ninety (90) days. MCIm may request that data, which has previously been successfully provided to MCIm by AT&T MISSOURI, be re-provided by AT&T MISSOURI, at no additional charge if the record detail is within the last ninety (90) days. If the request is for detail records transmitted more than ninety (90) days prior to the request date, such recorded billable message detail and/or access usage record detail previously provided and lost or destroyed through no fault of AT&T MISSOURI will only be made available to MCIm on an individual case basis at a cost determined by AT&T MISSOURI.

3.8 Intentionally Omitted.

3.9 AT&T MISSOURI will record the applicable detail necessary to generate access usage records and forward them to MCIm for its use in billing access to the IXC.

3.10 The Parties shall notify each other of resend requirements if a pack or entire dataset must be replaced. Notification of pack rejection shall be made within one (1) business day of processing and corrections. The Parties shall make commercially reasonable efforts to provide correction and retransmission of corrupted data within one (1) business day or within an alternate timeframe negotiated by the Parties. A pack shall conform to industry guidelines EMI standards.

3.11 When either Party is notified that, due to error or omission, incomplete data has been provided to non-Recording Company, each Party will make reasonable efforts to locate and/or recover the data and provide it to the non-Recording Company at no additional charge. Such requests to recover the data must be made within sixty (60) calendar days from the date the details initially were made available to the non-Recording Company. If written notification is not received within sixty (60) calendar days, the Recording Company shall have no further obligation to recover the data and shall have no further liability to the non-Recording Company.

3.12 If, despite timely notification by the non-Recording Company, message detail is lost and unrecoverable as a direct result of the Recording Company having lost or damaged tapes or incurred system outages while performing recording, assembly and editing, rating, message processing, and/or transmission of message detail, both Parties will estimate the volume of lost messages and associated revenue based on information available to the Parties and utilizing a method or methods mutually agreed to by the Parties. In such events, the Recording Company's liability shall be limited to the granting of a credit adjusting amounts otherwise due from it equal to the estimated net lost revenue associated with the lost message detail.

3.13 Intentionally Omitted.

3.14 Intentionally Omitted.

3.15 Intentionally Omitted.

3.16 Intentionally Omitted.

3.17 AT&T MISSOURI as the Recording Company, agrees to provide recording, assembly and editing, message processing and provision of message detail for EMI Category 110XXX ordered/required by MCIm in accordance with this agreement on a reciprocal, no-charge basis. MCIm agrees to provide any and all EMI Category 110XXX required by AT&T MISSOURI on a reciprocal, no-charge basis. The Parties agree that this mutual exchange of records at no charge to either Party shall otherwise be conducted according to the guidelines and specifications contained in the Multiple Exchange Carrier Access Billing (MECAB) document.

3.18 When MCIm is the Recording Company, MCIm agrees to provide its recorded billable messages detail and access usage detail data to AT&T MISSOURI under the same terms and conditions of this Appendix.

4. DAILY USAGE FILE ("DUF") / CUSTOMER USAGE DATA

4.1 AT&T MISSOURI will provide MCIm a specific Daily Usage File ("DUF" or "Usage Extract") for Resale Services and Network Element usage sensitive services provided hereunder ("Customer Usage Data"). AT&T MISSOURI will provide MCIm with all originating and terminating call records for all UNE-P on end user customer numbers and originating call records for Resale end user customer numbers. Such Customer Usage Data shall be provided by AT&T MISSOURI in accordance with Exchange Message Interface (EMI) guidelines supported by OBF. Any exceptions to the supported formats will be noted in the DUF implementation requirements documentation for each ILEC. The DUF shall include (i) specific daily usage, including both Local Traffic (if and where applicable) and LEC-carried IntraLATA Toll Traffic, in EMI format for usage sensitive services furnished in connection with each Resale Service and Network Element to the extent that similar usage sensitive information is provided to retail end user customers of AT&T MISSOURI within that state, (ii) with sufficient detail to enable MCIm to bill its end user customers for usage sensitive services furnished by AT&T MISSOURI in connection with Resale Services and Network Elements provided by AT&T MISSOURI, (iii) with sufficient detail to enable MCIm to bill AT&T MISSOURI the appropriate access charges for the termination of AT&T MISSOURI end user toll traffic to MCIm's UNE-P end user customer. DUF records shall be based on call completion and not call attempts. Procedures and processes for implementing the interfaces with AT&T MISSOURI will be included in implementation requirements documentation.

4.2 To establish file transmission for the Daily Usage File, MCIm must provide a written request to AT&T MISSOURI, no less than sixty (60) calendar days prior to the desired first transmission date for each file.

4.3 Call detail for AT&T MISSOURI-carried calls that are alternately billed to MCIm end user customers lines provided by AT&T MISSOURI through Resale or Network Elements will be forwarded to MCIm as rated call detail on the DUF.

4.4 AT&T MISSOURI shall bill MCIm for Usage Extract furnished by AT&T MISSOURI in accordance with the price(s) provided in the applicable Appendix Pricing under "Electronic Billing Information." Pricing for Resale is listed as "Electronic Bill Information" in Appendix Pricing. Pricing for UNE DUF Exchange is listed as "Unbundled Local Switch Daily Usage Fee (DUF) in Appendix Pricing.

4.5 Interexchange call detail on Resale Services or Network Elements (ports) that is forwarded to AT&T MISSOURI for billing, which would otherwise be processed by AT&T MISSOURI for its retail end user customers, will be returned to the IXC and will not be passed through to MCIm. This call detail will be returned to the IXC with a transaction code indicating that the returned call originated from a resold account. Billing for Information Services and other ancillary services traffic on Resale Services and Network Elements (ports) will be passed through when AT&T MISSOURI records the message.

4.6 Intentionally Omitted.

4.7 Intentionally Omitted.

4.8 When AT&T MISSOURI is notified that, due to error or omission, incomplete data has been provided to MCIm, AT&T MISSOURI will make reasonable efforts to locate and/or recover the data and provide it to MCIm at no additional charge. Such requests to recover the data must be made within sixty (60) calendar days from the date the details initially were made available to MCIm. If written notification is not received within sixty (60) calendar days, AT&T MISSOURI shall have no further obligation to recover the data and shall have no further liability to MCIm.

4.8.1 If, despite timely notification by MCIm, message detail is lost and unrecoverable as a direct result of AT&T MISSOURI having lost or damaged tapes or incurred system outages while performing recording, assembly and editing, rating, message processing, and/or transmission of message detail, AT&T MISSOURI will estimate the volume of lost messages and associated revenue, with assistance from MCIm, based on information available to the Parties and utilizing a method or methods mutually agreed to by the Parties.

4.9 Intentionally Omitted.

4.10 Intentionally Omitted.

4.11 Intentionally Omitted.

4.12 Intentionally Omitted.

4.13 AT&T MISSOURI shall provide call records to support usage sensitive vertical features if these features are part of AT&T MISSOURI's resale or Lawful unbundled switching offerings in accordance to OBF guidelines.

4.14 The Parties shall notify each other of resend requirements if a pack or entire dataset must be replaced. Notification of pack rejection shall be made within one (1) business day of processing and corrections. The Parties shall make commercially reasonable efforts to provide correction and retransmission of corrupted data within one (1) business day or within an alternate timeframe negotiated by the Parties.

4.15 A pack shall conform to industry guidelines EMI standards.

1. TELECOMMUNICATIONS SERVICES PROVIDED FOR RESALE

1.1 This Appendix describes several services that AT&T MISSOURI shall make available to MCIm for resale pursuant to this Agreement. All services or offerings of AT&T MISSOURI, which are to be offered for resale pursuant to the Act, are subject to the terms herein. AT&T MISSOURI shall make Telecommunications Services that AT&T MISSOURI provides at retail to subscribers who are not Telecommunications Carriers available for resale consistent with the obligation under Section 251 (c) (4) (A) of the Act and other applicable limitations or restrictions.

1.1.1 The Parties acknowledge that MCIm has a duty pursuant to Section 251 (b)(1) of the Act not to prohibit, and not to impose unreasonable or discriminatory conditions or limitations on, the resale of MCIm's telecommunications services.

1.2 At the request of MCIm, and pursuant to the requirements of the Act, AT&T MISSOURI will make available to MCIm on non-discriminatory terms and conditions, any Telecommunications Service required by the Act and implementing regulations to be offered for resale that AT&T MISSOURI currently provides or may offer hereafter. AT&T MISSOURI shall also provide support functions and service functions, as set forth in this Appendix and Appendix OSS. The Telecommunications Services provided by AT&T MISSOURI for resale, and the service functions and support functions provided by AT&T MISSOURI to MCIm pursuant to this Appendix are collectively referred to as "Resale Service."

1.3 MCIm may resell, to other Telecommunications carriers, services purchased under this Appendix.

2. GENERAL TERMS AND CONDITIONS FOR RESALE

2.1 Primary Local Exchange Carrier Selection. Both Parties shall apply the principles set forth in Federal Communications Commission Rules, 47 C.F.R. Section 64.1100 et seq., to process end-user selection of primary local exchange carriers. Neither Party shall require a written letter of authorization in order to process the required service orders to effectuate the migration. The ordering requirements for such migrations are subject to the LSOG requirements as set forth in the P.U.C. Substantive Rule § 26.131.

2.2 Prior to submitting an order under this Appendix, MCIm shall obtain authorization as required by applicable federal and state laws and regulations, and assumes responsibility for its applicable charges as specified in Applicable Law. AT&T MISSOURI shall abide by the same applicable laws and regulations.

2.3 The Parties shall comply with all applicable Commission rules regarding switching end user customers from one telecommunications provider to another, including those rules governing those initiating a challenge to a change in an end user customer's local service provider.

2.4 When an end user customer changes or withdraws authorization, each Party shall release customer-specific facilities in accordance with the end user customer's direction or the direction of the end user customer's authorized agent. Further, when an end user customer abandons its premises, AT&T MISSOURI is free to reclaim the facilities for use by another end user customer and is free to issue service orders required to reclaim such facilities. AT&T MISSOURI shall notify MCIm of such abandonment in advance of removing the facilities. Such notification shall follow the email process currently in place between the Parties.

2.5 AT&T MISSOURI shall provide line loss notification to MCIm's as required by the Competitive Local Exchange Carrier (CLEC) OSS Interface Change Management Process.

2.6 MCIm is solely responsible for the payment of all charges for all services furnished under this Appendix ordered by MCIm or its authorized agent.

2.7 AT&T MISSOURI shall not be responsible for the manner in which MCIm bills its customers. All applicable rates and charges for services provided to MCIm under this Appendix will be billed directly to MCIm and shall be the responsibility of MCIm regardless of MCIm's ability to collect. MCIm shall not be responsible for payment of charges for any retail services furnished and billed by AT&T MISSOURI directly to end user customers.

3. PRICING

3.1 The wholesale discount for resale services shall be the appropriate commission ordered discount. In addition to the discounted rates set forth in Appendix Pricing, MCIm shall pay AT&T MISSOURI for any applicable charges or fees, if any, incident to the establishment or provision of resale services requested by MCIm, including initial non-recurring charges.

3.2 Telecommunications Services, including promotions (greater than 90 days), shall be available to MCIm at wholesale rates as specified in Appendix Pricing.

3.3 Intentionally Omitted.

4. RESALE RESTRICTIONS

4.1 To the extent consistent with applicable federal and state rules and regulations, MCIm may resell local services to provide Telecommunications Services. AT&T MISSOURI will not prohibit, nor impose unreasonable or discriminatory conditions or limitations on the resale of its Telecommunications Services. Services that AT&T MISSOURI has identified in AT&T MISSOURI's retail tariffs as grandfathered or grandfathers in the future may only be resold to the same End User at the existing End User's location to which AT&T MISSOURI provides the service, either at retail or through resale.

4.2 AT&T MISSOURI shall not use promotional offerings to avoid the wholesale rate obligation, for example, by consecutively offering a series of ninety (90) day promotions. Promotions are available for the telecommunications services outlined in accordance with state specific commission requirements. AT&T MISSOURI retail promotions of ninety (90) days or less are not available to MCIm for resale.

4.3 MCIm shall only resell services to the same category of subscriber to whom AT&T MISSOURI offers such services (for example, residential service shall not be resold to business subscribers).

4.4 Intentionally Omitted

4.5 MCIm shall not use resold local Telecommunications Services to provide access or interconnection services to itself, Interexchange carriers (IXCs), wireless carriers, competitive access providers (CAPs), or other telecommunications providers; provided, however, that MCIm

may permit its subscribers to use resold local exchange telephone service to access IXCs, wireless carriers, CAPs, or other retail telecommunications providers.

4.6 A Federal End User Common Line charge and any other appropriate Commission-approved charges, as set forth in the appropriate AT&T MISSOURI federal and state tariff(s), that the Commission has approved for inclusion in the charges that CLECs will pay AT&T MISSOURI for services for resale will apply to each local exchange line furnished to MCIm under this Appendix for resale. AT&T MISSOURI will not charge MCIm any federal, state or local taxes that MCIm remits directly to the appropriate government agency. The 911 surcharge is not governed by this provision, but is addressed in Section 8.6. In this context, "commission approval" shall not include orders approving negotiated agreements pursuant to 252 of the Act other than this Agreement.

4.7 To the extent allowable by law, MCIm shall be responsible for Primary Interexchange Carrier (PIC) and Local Primary Interexchange Carrier (LPIC) change charges associated with each local exchange line furnished to MCIm for resale. MCIm shall pay all charges for PIC and LPIC changes at the price listed in the Appendix Pricing.

4.8 When an End User converts existing service to CLEC resold service of the same type without any additions or changes, charges for such conversion will apply as set forth in Appendix Pricing in the "OTHER (Resale)" category, listed as "conversion charges," and are applied per billable telephone number as set forth in P.U.C. Substantive Rule § 26.131.

4.9 AT&T MISSOURI shall provide on a nondiscriminatory basis, the services covered by this Appendix subject to the availability of existing facilities. MCIm shall resell the services provided herein only in those service areas in which such resale services are offered to End Users at retail by AT&T MISSOURI as the incumbent local exchange carrier.

4.10 AT&T MISSOURI services are not available at wholesale rates to MCIm for its own use or for the use of any of MCIm's affiliates and/or subsidiaries or the use of MCIm's parent or any affiliate and/or subsidiary of MCIm's parent company, if any.

4.11 Unless permitted by tariff, MCIm shall not permit the sharing of a service by multiple end user customer(s) or the aggregation of traffic from multiple end user customers onto a single service.

4.12 To the extent AT&T MISSOURI makes available to its End Users, any volume or term discounts, AT&T MISSOURI shall make such volume and term discounts available to MCIm at the same rates, terms and conditions.

4.13 If MCIm is in violation of any provision of this Appendix Resale, AT&T MISSOURI will notify MCIm of the violation in writing. Such notice shall refer to the specific provision being violated. MCIm will have thirty (30) calendar days to correct the violation and notify AT&T MISSOURI in writing that the violation has been corrected. Should MCIm dispute the stated violation, MCIm must notify AT&T MISSOURI in writing of the specific details and reasons for its dispute within fourteen (14) calendar days of receipt of the notice from AT&T MISSOURI and comply with the Dispute Resolution provision of the Agreement to which this Appendix is attached. Resolution of any dispute by MCIm of the stated violation shall be conducted in compliance with the Dispute Resolution provisions set forth in the General Terms and Conditions of the Agreement to which this Appendix Resale is attached.

5. INTENTIONALLY OMITTED

6. DIALING AND SERVICE PARITY, NUMBER RETENTION

6.1 Unless technically infeasible, for resold service AT&T MISSOURI shall ensure that all MCIm End Users experience the same dialing parity as comparable AT&T MISSOURI End Users, such that, for all call types: (i) an MCIm End User is not required to dial any greater number of digits than a comparable AT&T MISSOURI End User; (ii) the MCIm End User may retain its local telephone number provided the customer remains within the same wire center; and (iii) the post-dial delay (time elapsed between the last digit dialed and the first network response), call completion rate and transmission quality experienced by an MCIm End User is at least equal in quality to that experienced by a comparable AT&T MISSOURI End User.

6.2 For resold services, AT&T MISSOURI shall ensure that all MCIm End Users experience the same service levels as comparable AT&T MISSOURI End Users.

7. CHANGES IN RETAIL SERVICE

7.1 AT&T MISSOURI will notify MCIm at least forty-five (45) days in advance of any changes in the terms (not pricing) and conditions under which it offers telecommunications services, including, but not limited to, the introduction of any new or discontinuance of any services or promotions or the discontinuance of current services, in accordance with state commission guidelines.

7.2 The rights, obligations, and duties set forth in this Appendix are subject to Section 222 of the Act, regulations thereunder, and relevant FCC and Commission decisions, and state law.

8. REQUIREMENTS FOR SPECIFIC SERVICES

8.1 Centrex Requirements. CENTREX is a Grandfathered Service and MCIm may only offer it to customers that are eligible to receive CENTREX from AT&T MISSOURI. MCIm shall only sell Plexar ™, Centrex and Centrex-like services to a single End User or multiple end user customer(s) in accordance with the terms and conditions set forth in the corresponding AT&T MISSOURI retail tariff(s). Grandfathered services are available per appropriate state specific tariff to MCIm for resale at the applicable discount only to the same End User, at the existing End User's location, to which AT&T MISSOURI provides the service, either at retail or through resale.

8.2 MCIm may purchase the entire set of PLEXAR families of services at Parity with what AT&T MISSOURI provides to its retail End Users. The PLEXAR families of services provided for resale will meet the following requirements:

8.2.1 Intentionally Omitted

8.2.2 All features and functions of CENTREX Service, PLEXAR families of services, whether offered under tariff or otherwise, shall be available to MCIm for resale.

8.2.3 MCIm may purchase any and all levels of PLEXAR families of services (e.g., PLEXAR I, PLEXAR II, or PLEXAR Custom) for resale.

8.2.4 MCIm may be required to pay a charge, for the cost of suppressing the need for MCIm customers to dial “9" when placing calls outside the PLEXAR families of services.

8.2.5 AT&T MISSOURI will furnish PLEXAR Custom services to MCIm for resale subject to this section of this Resale Appendix. AT&T MISSOURI's provision of PLEXAR Custom will be as specified in this paragraph. AT&T MISSOURI will offer MCIm the same price AT&T MISSOURI provides to its Customers less costs that will be avoided.

8.2.6 Intentionally Omitted.

8.2.7 Intentionally Omitted.

8.3 MCIm may only resell special needs services as identified in associated state specific tariffs to persons who are eligible for each such service. As used herein, the term "special needs services" means services for the physically disabled where the disability is related to vision, speech, hearing or motion. Further, to the extent MCIm resells services that require certification on the part of the end user customer, MCIm shall ensure that the end user customer has obtained proper certification, continues to be eligible for the programs, and complies with all rules and regulations as established by the appropriate Commission and in the AT&T MISSOURI tariffs.

8.3.1 Intentionally Omitted.

8.3.2 Telephone Assistance Programs

8.3.2.1 MCIm is exclusively responsible for all aspects of any similar MCIm offered program, including ensuring that any similar MCIm offered program(s) complies with all applicable federal and state requirements, obtaining all necessary End User certifications and re-certifications, submitting written designation that any of MCIm's End User or applicants are eligible to participate in such programs, submitting MCIm's claims for reimbursement to any applicable governmental authority and any other activities required by any applicable governmental authority.

8.4 Intercept and Transfer Services. AT&T MISSOURI shall provide intercept and transfer services to MCIm for MCIm end user customers on the same basis as such services are available to comparable AT&T MISSOURI end user customers.

8.5 E911/911 Services. AT&T MISSOURI shall provide to MCIm, for MCIm end user customers, E911/911 call routing to the appropriate Public Safety Answering Point ("PSAP") at parity with that provided to AT&T MISSOURI's end user customers. AT&T MISSOURI shall use its service order process to update and maintain on the same schedule that it uses for its retail customers, the MCIm customer service information in the ALI/DMS used to support 911 services. AT&T MISSOURI shall provide MCIm end user customer information to the PSAP. MCIm shall update its End User's 911 information through the LSR process.

8.5.1 The Parties' liability with respect to 911/E911 services shall be governed by the provisions of the General Terms and Conditions of this Agreement.

8.5.1.1 Intentionally Omitted.

8.5.1.2 Intentionally Omitted.

8.5.1.3 Intentionally Omitted.

8.5.1.4 Intentionally Omitted.

8.6 MCIm shall be responsible for collecting and remitting all applicable 911 fees and surcharges, on a per line basis, to the appropriate Public Safety Answering Point (PSAP) or other Governmental Authority responsible for collection of such fees and surcharges subject to applicable State Commission Rules.

8.7 Intentionally Omitted

8.8 Customer Specific Pricing Agreements. MCIm may purchase AT&T MISSOURI customer-specific service offerings for resale to any customer who would have been eligible to take such offering directly from AT&T MISSOURI. Where MCIm and AT&T MISSOURI are competing at retail for the same customer, both retail price and associated wholesale discount shall be calculated by AT&T MISSOURI without unreasonable delay. AT&T MISSOURI shall take all steps necessary to prevent its retail sales and marketing personnel from obtaining information regarding MCIm's request or other competitively sensitive information.

8.9 Inside Wire Maintenance Service. Where offered by AT&T MISSOURI and upon mutual agreement of the parties,the parties may enter into a separate agreement for the purchase of AT&T MISSOURI inside wire maintenance service for use with MCIm customers.

8.10 Suspension of Service

8.10.1 MCIm may offer to resell end user customer Initiated Suspension and Restoral Service to its end user customers if and to the extent offered by AT&T MISSOURI to its retail end users.

8.10.2 MCIm may also provide AT&T MISSOURI Initiated Suspension service for its own purposes, where available. Service specifics may be obtained in state specific CLEC Handbooks.

8.10.2.1 MCIm shall be responsible for placing valid orders for the suspension and the subsequent disconnection or restoral of service to each of its End Users.

8.10.2.2 Should MCIm suspend service for one of its end user customers and fail to submit a subsequent disconnection order within the maximum number of calendar days permitted for a company initiated suspension pursuant to the state specific retail tariff, MCIm shall be charged and shall be responsible all appropriate monthly services charges for the end users service from the suspension date through the disconnection date pursuant to the state specific retail tariff subject to the Commission approved wholesale discount.

8.10.3 Should MCIm restore its end user, restoral charges will apply and MCIm will be billed for the appropriate service from the time of suspension.

8.11 CLASS and Custom Features Requirements. Where deployed, and at MCIm's option, MCIm may purchase the entire set of CLASS and Custom Features and functions, or a subset of any one or any combination of such features that are actually deployed on an end user customer-specific

basis, without restriction on the minimum or maximum number of lines or features that may be purchased for any one level of service.

8.12 Intentionally Omitted

8.13 Intentionally Omitted

9. SUPPORT FUNCTIONS FOR RESOLD SERVICES

9.1 The following support functions are offered in conjunction with a resold service: Operator Services, Directory Assistance (OS/DA) and Repair Services.

9.2 AT&T MISSOURI shall make customized routing of OS/DA traffic available to MCIm upon request. For issues involving Customized Routing of OS/DA traffic, see Appendix OS and Appendix DA.

9.3 Intentionally Omitted.

9.4 Branding

9.4.1 Except where otherwise required by law, MCIm shall not, without AT&T MISSOURI's prior written authorization, offer the services covered by this Appendix using the trademarks, service marks, trade names, brand names, logos, insignia, symbols or decorative designs of AT&T MISSOURI or its Affiliates, nor shall MCIm state or imply that there is any joint business association or similar arrangement with AT&T MISSOURI in the provision of Telecommunications Services to MCIm's end user customers.

9.4.2 AT&T MISSOURI will brand Operator Services (OS) and/or Directory Assistance (DA) as outlined below:

9.4.2.1 MCIm will provide AT&T MISSOURI recorded announcements and written specifications to be used to brand MCIm's OS/DA calls in accordance with the process outlined in the Operator Services OS/DA Questionaire..

9.4.2.2 A brand shall be announced at the beginning of each telephone call and before the consumer incurs any charge for the call.

9.4.2.3 Where AT&T MISSOURI provides MCIm OS and DA services via the same trunk, both OS and DA calls will be branded with the same brand. Where separate trunk groups are utilized, different brands may be used on each trunk group.

9.4.2.4 Charges for branding are set forth in Appendix Pricing.

9.4.2.5 Until MCIm's resold OS/DA traffic is customized routed off of the AT&T MISSOURI OS/DA platform, AT&T MISSOURI will continue to provide OS/DA branding on AT&T MISSOURI own platform using the service provided ID solution currently in effect.

9.5 Intentionally Omitted.

9.6 Directory Assistance (DA) Listings

9.6.1 AT&T MISSOURI will include the MCIm end user customer listing in its Directory Assistance database as part of the service order process. AT&T MISSOURI will honor MCIm end user customer's preferences for listing status, including non-published and unlisted, as noted on the service order request or similar form and will ensure that the listing appears as MCIm requested in the AT&T MISSOURI database which is used to perform Directory Assistance functions. AT&T MISSOURI shall permit MCIm end user customers the option of having a non-listed telephone number; this option will be provided at the same price AT&T MISSOURI charges its end user customers for the same option. Performance Measurements associated with this service are set forth in Appendix Performance Measurements and are incorporated by this reference. AT&T MISSOURI will provide Directory Assistance service to MCIm that equals the Directory Assistance Service AT&T MISSOURI provides to itself and its own end user customers.

9.6.2 Intentionally Omitted.

9.7 The terms and conditions for OS/DA Rates and References are found in Appendices OS and DA, which are incorporated herein by reference.

9.8 OS/DA calls which, at MCIm's option, are routed to AT&T MISSOURI, will meet or exceed the Performance Measurements which AT&T MISSOURI provides to itself and its own end user customers. AT&T MISSOURI will provide the full range of Operator Services at the rates set forth in Appendix Pricing, including, but not limited to, collect, person-to-person, station to station, bill to third-party, busy line verification and busy line interrupt, handicapped caller assistance, and emergency call assist.

9.9 Repair Calls. The Parties shall refer repair calls (e.g., 611) dialed by the other Party's end user customer to the repair number supplied by the appropriate Party.

9.10 The terms and conditions for Operator to Operator (i.e., custom routing) Busy Line Verification and Busy Line Interrupt are found in Appendix Inward Assistance Operator Services which are incorporated herein by reference.

9.11 Access to the Line Information Database. MCIm's service order shall update and maintain MCIm end user customer information, in the Line Information Database ("LIDB") in the same manner and on the same schedule that it processes service orders for AT&T MISSOURI' end user customers.

9.12 Telephone Line Number Calling Cards. AT&T MISSOURI's assigned telephone line calling card account ceases to exist once MCIm becomes the account owner in LIDB. MCIm may choose to enable a MCIm calling card account based upon the telephone number of a resold line. To enable such a calling card account, MCIm shall provide (on the order for the resale line), a four-digit numerical pin number which will be used by the end user customer in the use of the MCIm calling card. AT&T MISSOURI will provide billing usage data via the established mechanisms.

9.13 Intentionally Omitted

9.14 Call Blocking. Upon MCIm's request, AT&T MISSOURI will provide blocking on a line by line basis of an MCIm end user customer's access to any or all of the following call types for which blocking is offered by AT&T MISSOURI, which may include: 700, 900, 976, bill to third and collect, and

such other call types for which AT&T MISSOURI provides blocking to comparable end user customers. If MCIm does not wish to be responsible for payment of charges for collect, third number billed, toll and information services (for example, 900) calls, it must order the appropriate blocking for lines provided under this Agreement and pay any applicable charges. It is the responsibility of MCIm to order the appropriate toll restriction or blocking on lines resold to end user customers. MCIm acknowledges that blocking is not available for certain types of calls, including 800, 888, 411 and Directory Assistance Express Call Completion. Depending on the origination point, for example, calls originating from correctional facilities, some calls may bypass blocking systems. MCIm acknowledges all such limitations and accepts all responsibility MCIm acknowledges all such limitations and accepts all responsibility for any charges for calls for which blocking is not available or calls which bypass the blocking systems. If MCIm fails to accept liability for calls that may bypass blocking systems, MCIm agrees to provide its end user customer information to AT&TMISSOURI so that AT&T MISSOURI may bill MCIm's end user customer for the services they benefited from and the charges the end user customers rightfully owe.

9.15 The terms and conditions for customized routing OS/DA calls are found in Appendix UNE, which are incorporated herein by reference.

10. SERVICE FUNCTIONS

AT&T MISSOURI shall allow MCIm to place service orders and receive phone number assignments (for new lines). These activities shall be accomplished by electronic interface. AT&T MISSOURI shall provide interface specifications for electronic access for these functions pursuant to other Appendices within this Agreement.

10.1 Work Order Processes. AT&T MISSOURI shall ensure that all work order processes used to provision local service to MCIm for resale meet the service parity requirements set forth in other Appendices within this Agreement.

10.1.1 Additional Service Ordering, Provisioning, Maintenance, Billing and Customer Usage Data requirements and procedures are set forth in other Appendices within this Agreement.

10.2 Point of Contact for the MCIm end user customer. Except as otherwise provided in this Agreement, MCIm shall be the single and sole point of contact for all MCIm end user customers.

10.3 The Parties shall refer all questions regarding each other's services or products directly to the other at a telephone number specified by the appropriate Party.

10.4 The Parties will ensure that all representatives who receive inquiries regarding the other Party's services shall (1) provide such numbers if available to callers who inquire about that Party's services or products, (2) do not in any way disparage or discriminate against each other or that Party's products and services, and (3) not solicit each others' services during such inquiries.

10.5 Points of Contact. Each Party shall provide the other Party with a contact for all inquiries regarding the implementation of this Appendix. Each Party shall accept all inquiries from the other Party and provide timely responses.

10.6 Maintenance. Maintenance will be provided by AT&T MISSOURI in accordance with the service parity requirements and measurements as set forth in other Appendices within this Agreement

10.7 Except as specifically provided in this Agreement or pursuant to an order of a court or commission of competent jurisdiction, AT&T MISSOURI may not initiate any disconnect, suspension or termination of an MCIm customer's resale services unless directed to do so by MCIm by transmission of a service order or AT&T MISSOURI's receipt of proper authorization to change such customer's primary local exchange carrier to a carrier other than MCIm. AT&T MISSOURI will provide MCIm with an electronic notice of customers who change their local carrier.

10.8 The Exchange of Billing Message Information shall be in accordance with Appendix Recording.

10.9 "As Is" Transfers of End User Customer Accounts. AT&T MISSOURI shall allow MCIm to initiate "As Is" transfers of local exchange telecommunications services in accordance with LSOR guidelines. For purposes of this Appendix, an "As Is" transfer is the transfer of all the telecommunications services and features available for resale that are currently being provided to a specific end user customer account.

11. WHITE PAGES DIRECTORIES

11.1 The terms and conditions for White Pages Directories are found in Appendix White Pages Directory, which are incorporated herein by reference.

12. CALL TRACE

12.1 MCIm end user's activation of Call Trace shall be handled by the AT&T MISSOURI Call Trace Center (CTC). AT&T MISSOURI shall notify MCIm of requests by its end user customers to provide the call records to the proper authorities. Subsequent communications and resolution of the case with MCIm's end user customers (whether that end user is the victim or the suspect) will be coordinated through MCIm.

12.2 MCIm understands that for services where reports are provided to law enforcement agencies (e.g., Call Trace) only billing number and address information will be provided. It will be MCIm's responsibility to provide additional information necessary for any police investigation. MCIm will indemnify AT&T MISSOURI against any claims that insufficient information led to inadequate prosecution.

13. MUTUAL RESPONSIBILITIES OF THE PARTIES

13.1 AT&T MISSOURI will provide Pre-order, Ordering and Provisioning requests for Resale Services to MCIm, where an electronic OSS interface is not being utilized, and will be transmitted via facsimile to AT&T MISSOURI's Local Service Center (LSC). AT&T MISSOURI's LSC will respond to MCIm's calls with the same level of service which AT&T MISSOURI provides to its local exchange end users customers.

13.2 Each Party will provide a Single Point of Contact (SPOC) for all ordering, status inquiries or escalation contacts (via an 800# to the LSC) between 8 a.m. to 5:00 p.m. Monday through Friday (except holidays).

13.3 Each Party will respond to emergency requests for after hours provisioning via the respective LOC, SPOC, or other designee as agreed upon by the Parties, 24 hrs/day, 7 days a week. Each Party will provide ordering and provisioning coordination for Resale services Monday through

Friday from 8 a.m. to 5:00 p.m. through the respective LSC or the LOC, SPOC, or contact as agreed upon by the Parties as applicable. Each Party may request, at least two business days prior to the requested availability or as otherwise mutually agreed, that the Party provide Saturday, Sunday, holiday, and/or additional out-of-hours (other than Monday through Friday from 8 a.m. to 5:00 p.m.) ordering and provisioning coordination.

13.4 AT&T MISSOURI will provide provisioning intervals and procedures for design and complex services on a nondiscriminatory basis.

13.5 Each Party will work together via the CLEC User Forum guidelines to share issues and address concerns regarding processes which impact the Parties.

13.6 All misdirected calls from either Party's end user customers will be given a recording (or a live statement) directing them to call their local provider. To the extent procedures change such that the end user customers become identifiable, such end users will be directed to call the respective Party at a designated 800 number. The Parties will agree on the scripts to be used for this purpose.

13.7 Where technically feasible, AT&T MISSOURI's LSC will provide coordination support for all designed and/or complex Resale services provided to MCIm. Services for which such support is to be provided include, without limitation, Data Services, Voice Grade Private Line, and ISDN PRI and BRI.

13.8 Simple and Complex Service Orders: If AT&T MISSOURI on an electronic flow-through basis can handle an order with no manual intervention, the order is simple. All other orders are complex.

13.9 Intentionally Omitted

13.10 AT&T MISSOURI will provide the functionality of blocking calls (e.g., 900, 976, international calls, and third party or collect calls) by line or trunk on an individual switching element basis, to the extent that AT&T MISSOURI provides such blocking capabilities to its end user customers, to other CLECs and to the extent required by law.

13.11 When ordering a Resale service via a service order, MCIm may order separate interLATA and intraLATA service providers (i.e., two PICs, when available) on a line or trunk basis and agrees to pay the applicable charges associated with such order. AT&T MISSOURI will accept PIC change orders for intraLATA toll and long distance services through the service provisioning process.

13.12 Unless otherwise directed, when MCIm orders a Resale service all pre-assigned trunk or telephone numbers currently associated with that service will be retained without loss of feature capability and without loss of associated Ancillary Functions, including, but not limited to, Directory Assistance and E911 capability. To the extent such losses occur, the Parties will work cooperatively to resolve such occurrence(s).

13.13 AT&T MISSOURI will provide standard provisioning intervals for all Resale services at parity with what it provides its retail end users, its affiliates and CLECs other than MCIm.

14. PROVISIONING REQUIREMENTS

14.1 Where available, AT&T MISSOURI will perform pre-testing and will provide electronically all test and turn up results in support of Complex Resale services ordered.

14.2 When an AT&T MISSOURI employee visits the premises of an MCIm end user customer, AT&T MISSOURI's employee must inform the end user customer that he or she is acting on behalf of MCIm. Materials left at the end user customer premises (e.g., a door hanger notifying the end user customer of the service visit) must also inform the end user customer that AT&T MISSOURI was acting on behalf of MCIm.

14.3 AT&T MISSOURI's technicians will direct MCIm's end user customers to contact MCIm if MCIm's end user customer requests a change in service at the time of installation.

14.4 AT&T MISSOURI will provide telephone and/or facsimile notification of any charges associated with required construction for a given service, and obtain MCIm's approval prior to commencing construction under an order for such service.

15. ORDER DUE DATE

15.1 When a MCIm submits an LSR, MCIm will specify a desired Due Date (DDD) and AT&T MISSOURI will specify a due date (DD) based on the available intervals. In the event a desired DD is less than the standard interval, the service order will be assigned a DD using the applicable interval.

15.2 If expedited service is requested, MCIm will populate Expedite and Expedite Reason on the request. The Parties will jointly negotiate an expedited DD. This situation will be considered an expedited order and applicable service order charges will apply. AT&T MISSOURI will not complete the order prior to the DD or later than the DD unless authorized by MCIm.

15.3 MCIm will follow the escalation process documented on AT&T MISSOURI's web sites (AT&T MISSOURI's web site is CLEC Online) and contacts reflected on the escalation web site for resolving questions and disputes relating to ordering and provisioning procedures or to the process of individual orders, subject ultimately to the dispute resolution provisions of this Agreement. AT&T MISSOURI will notify MCIm of any modifications to these contacts one (1) week in advance of such modifications.

16. MAINTENANCE REQUIREMENTS

16.1 AT&T MISSOURI will provide repair, maintenance, and testing, for all Resale services in accordance with the terms and conditions of this Appendix Resale.

16.2 AT&T MISSOURI will provide maintenance for all Resale services on a nondiscriminatory basis.

17. INTENTIONALLY OMITTED

18. INTERCOMPANY COMMUNICATIONS

18.1 The Parties will establish an Event Notification Process. A network Event is any condition that occurs in the network that causes blocked calls associated with inter-office message traffic, managed by AT&T MISSOURI's Network Management Service Center ("NMSC"), and will utilize MCIm's Network Management Center ("NMC") or other identified contacts listed in the Profile (for AT&T MISSOURI the document used is the "AT&T MISSOURI 13-STATE CLEC Profile" (Section 7, Contact Names)) as the Single Point of Contact to notify the other Party of the existence, location, and source of all emergency network outages affecting MCIm's end user customer. Notification will be sent via facsimile and/or e-mail, as designated in the Profile. A Party's End user Network Service Center ("CNSC") or NMC may call the other Party's Local Operation Center (LOC) in order to discuss scheduled activities that may impact MCIm's end user customers. For purposes of this subsection, an emergency network outage is defined as 5,000 or more blocked call attempts in a ten (10) minute period, in a single exchange.

19. EMERGENCY RESTORATION

19.1 AT&T MISSOURI's NMSC will notify the other Party via the Event Notification Process of activities involving the central office and inter-office network. Additionally, as cable cuts or failures are identified when MCIm reports trouble to the LOC, the LOC will notify MCIm of:

19.1.1 establishment of AT&T MISSOURI's LOC as the single point of contact to provide MCIm with information relating to the status of restoration efforts and problem resolution during the Resale services restoration process; and

19.1.2 methods and procedures for reprovisioning of all Resale services after initial restoration. Each Party agrees that Telecommunications Service Priority ("TSP") services for the other Party carry equal priority with each Party's TSP services for restoration. Each Party will follow the guidelines established under the National Security Emergency Procedures (NSEP) plan and will follow TSP guidelines for restoration of emergency services.

20. INTENTIONALLY OMITTED

21. INTENTIONALLY OMITTED

22. ESCALATION PROCEDURES

22.1 The Parties will agree on written escalation procedures for maintenance resolution to be followed if, in MCIm's judgment, any individual trouble ticket or tickets are not resolved in a timely manner. The escalation procedures to be provided hereunder shall include names and telephone numbers of each Party's management personnel who are responsible for maintenance issues. For AT&T MISSOURI, MCIm acknowledges that the LOC escalation contact list found on CLEC On Line meets the requirements of this Section to provide a contact for maintenance issues.

23. PREMISES VISIT PROCEDURES

23.1 AT&T MISSOURI's Maintenance of Service Charges, when applicable, will be billed by AT&T MISSOURI to the MCIm, and not to MCIm's end user customers.

23.1.1 Dispatch of AT&T MISSOURI's technicians to MCIm's end user customer premises shall be accomplished pursuant to a request received from MCIm. Additional dispatching of AT&T MISSOURI' technicians may occur when AT&T MISSOURI detects network trouble during routine maintenance.

23.1.2 Intentionally Omitted

23.1.3 If a trouble cannot be cleared without access to MCIm's end user customer's premises and the end user customer is not at home, the technician will leave a non-branded "no access" card requesting that the end user customer call MCIm for rescheduling of repair.

24. DESIGNED AND/OR COMPLEX NEW CIRCUIT TESTING

24.1 AT&T MISSOURI will perform testing (including trouble shooting to isolate any problems) of Resale services purchased by MCIm in order to identify any new circuit failure performance problems. Each Party will utilize routine maintenance procedures for reporting troubles.

25. REPAIR SERVICE RESPONSE

25.1 AT&T MISSOURI's technicians will provide repair service on a nondiscriminatory basis.

APPENDIX POLES, CONDUITS, AND RIGHTS-OF-WAY

This Appendix is made by and between Southwestern Bell Telephone Company d/b/a AT&T MISSOURI and MCImetro Access Transmission Services LLC ("CLEC"). As provided in this Appendix, AT&T MISSOURI will provide CLEC nondiscriminatory access, in accordance with the Pole Attachment Act, the Telecommunications Act of 1996, Applicable Law and applicable rules, regulations, and commission orders, to poles, ducts, conduits, and rights-of-way owned or controlled by AT&T MISSOURI and located in this state.

ARTICLE 1: PARTIES

1.01 Southwestern Bell Telephone Company d/b/a AT&T MISSOURI. Southwestern Bell Telephone Company d/b/a AT&T MISSOURI is a Texas corporation. AT&T's principal office is located at 350 McCullough, San Antonio, Texas 78215.

1.02 MCImetro Access Transmission Services LLC. MCImetro Access Transmission Services LLC ("CLEC") is a corporation chartered in the State of Delaware. CLEC is more fully described in EXHIBIT II ("Identification of CLEC").

ARTICLE 2: PURPOSE OF APPENDIX

The Communications Act of 1934, as amended by the Telecommunications Act of 1996, states that each local exchange carrier has the duty to afford access to the poles, ducts, conduits, and rights-of-way of such carrier on rates, terms, and conditions that are consistent with the Pole Attachment Act, 47 U.S.C. § 224, as amended by the Telecommunications Act of 1996. The primary purpose of this Appendix is to set forth the basic rates, terms, conditions, and procedures under which CLEC shall have access to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way. AT&T MISSOURI shall provide CLEC with nondiscriminatory access to poles, ducts, conduits, or rights-of-way owned solely or in part by it, or controlled by it, as the term "nondiscriminatory access" is defined in the Telecommunications Act of 1996. This Appendix is intended by the parties to implement, rather than abridge, their respective rights and remedies under federal and state law.

2.01 Access Ancillary to Arrangements for Interconnection, Collocation, and Access to Unbundled Network Elements. Nothing contained in this Appendix shall be construed as precluding CLEC from having such additional access to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way as may be necessary to effectuate the terms of other arrangements between CLEC and AT&T MISSOURI relating to interconnection, collocation, and access to unbundled network elements. To the extent that this Appendix does not provide the access required, additional terms of access may be included in any tariff or agreement between the parties establishing arrangements for interconnection, collocation, or access to unbundled network elements.

ARTICLE 3: DEFINITIONS

3.01 Definitions In General. As used in this Appendix, the terms defined in this article shall have the meanings set forth below in Sections 3.02 to 3.48 except as the context otherwise requires.

3.02 Anchor. The term "anchor" refers to a device, structure, or assembly which stabilizes a pole and holds it in place. An anchor assembly may consist of a rod and fixed object or plate, typically embedded in the ground, which is attached to a guy strand or guy wire which, in turn, is attached to the pole. The term "anchor" does not include the guy stand which connects the anchor to the pole.

3.03 Appendix. When capitalized, the term "Appendix" refers to this Master Agreement for Access to Poles, Ducts, Conduits, and Rights-of-Way. The term "Appendix" includes all appendices, attachments, and addenda to this Appendix.

3.04 Assigned. When used with respect to pole, duct, conduit, or right-of-way space, the term "assigned" refers to space that is occupied by, or has been designated for occupancy by, either party or by another telecommunications carrier, cable television system, provider of telecommunications services, governmental entity, or other person or entity having occupancy rights. Except as otherwise specifically provided in this Appendix, no person or entity shall have the right to occupy space assigned to another person or entity (other than on a temporary basis in the event of emergency) until the assignment has been released or lapsed. Assignment is further described in Article 8 of this Appendix.

3.05 Authorized contractor. "Authorized contractors" are contractors selected by CLEC who may, subject to CLEC's direction and control, perform facilities modification or make-ready work which would ordinarily be performed by AT&T MISSOURI or persons acting on AT&T MISSOURI's behalf. As used in this Appendix, the term "authorized contractor" does not refer to contractors performing routine installation, maintenance, or repair work on CLEC's behalf or other contractors who may be selected by CLEC to perform work on CLEC's behalf without AT&T MISSOURI's approval. More specifically, the term "authorized contractor" refers only to those contractors included on a list of contractors mutually approved by CLEC and AT&T MISSOURI to perform one or more of the following tasks within a specified AT&T MISSOURI construction district: (a) installation of those sections of CLEC's ducts or facilities which connect to AT&T MISSOURI's conduit system as provided in Section 6.08(c); (b) installation of inner duct as provided in Section 10.02(b); (c) excavation work in connection with the removal of retired or inactive (dead) cables as provided in Section 10.02(c); or (d) make-ready work as provided in Sections 10.04 and 10.05. A person or entity approved as an authorized contractor is only an authorized contractor with respect to those tasks for which such person or entity has been approved by both parties and is an authorized contractor only in those AT&T MISSOURI construction districts agreed to by both parties. Designation of an authorized contractor for a specific category of tasks shall not be deemed to be the designation of such person or entity as an authorized contractor for other purposes, nor shall approval of an authorized contractor by one AT&T MISSOURI construction district constitute approval of such authorized contractor for the area served by a different AT&T MISSOURI construction district; provided, however, that if a specific construction job extends beyond the boundaries of a single construction district, an authorized contractor shall, for the purposes of that job, be deemed to have been approved by all AT&T MISSOURI construction districts in which the work is to be performed.

3.06 Available. When used with respect to pole, duct, conduit, and right-of-way space, the term "available" refers to space that is not occupied or assigned. In conduit systems owned or controlled by AT&T MISSOURI, maintenance ducts shall not be considered "available" for assignment. All other unassigned ducts, inner ducts, sub-ducts, and partitioned conduits in a conduit system owned or controlled by AT&T MISSOURI shall be deemed available for assignment.

3.07 Cables. The term "cable" includes but is not limited to twisted-pair copper, coaxial, and fiber optic cables. Cables are transmissions media which may be attached to or placed in poles, ducts, conduits, and rights-of-way but are not themselves poles, ducts, conduits, or rights-of-way. Nothing contained in this Appendix shall be construed as a grant of access to cables attached to AT&T MISSOURI's poles or placed in AT&T MISSOURI's ducts, conduits, or rights-of-way.

3.08 Conduit. The term "conduit" refers to all AT&T MISSOURI conduits subject to the Pole Attachment Act and the provisions of the Telecommunications Act of 1996 codified as 47 U.S.C. §§ 251(b)(4) and 271(c)(2)(B)(iii). In general, conduits are tubes or structures, usually underground or on bridges, containing one or more ducts used to enclose cables, wires, and associated transmission equipment. Except as the context otherwise requires, the term "conduit" refers only to conduit owned or controlled by AT&T MISSOURI, including the re-enterable manholes and handholes used to connect ducts and provide access to the cables, wires, and facilities within the ducts. As used in this Appendix, the term "conduit" refers only to conduit structures (including ducts, manholes, and handholes) and space within those structures and does not include (a) cables and other telecommunications equipment located within conduit

structures or (b) central office vaults, controlled environment vaults, or other AT&T MISSOURI structures (such as huts and cabinets) which branch off from AT&T MISSOURI's conduit.

3.09 Conduit occupancy. The term "conduit occupancy" refers to the presence of wire, cable, optical conductors, or other within any part of AT&T MISSOURI's conduit system.

3.10 Conduit system. The term "conduit system" refers to any combination of ducts, conduits, manholes, and handholes joined to form an integrated whole. As used in this Appendix, the term "conduit system" refers only to conduit systems owned, or controlled by AT&T MISSOURI and does not include (a) cables and other telecommunications equipment located within conduit structures, (b) central office vaults, controlled environment vaults, or other AT&T MISSOURI structures (such as huts and cabinets) which branch off from AT&T MISSOURI's conduit or (c) isolated pipe and ducts not connected to the conduit system.

3.11 Construction District. The term "construction district" refers to the AT&T MISSOURI organization responsible for outside plant construction in a specified geographic area. The term "construction district" connotes responsibility for handling a function and not to the official name of the organization responsible for outside plant construction matters.

3.12 Cost/Cost-based. The terms "cost" and "costs" refer to costs determined in a manner consistent with the Pole Attachment Act and applicable rules, regulations, and commission orders. The term "cost-based" refers to rates, fees, and other charges which are based on costs and determined in a manner consistent with the Pole Attachment Act and applicable rules, regulations, and commission orders.

3.13 Duct. The term "duct" refers to all AT&T MISSOURI ducts subject to the Pole Attachment Act and the provisions of the Telecommunications Act of 1996 codified as 47 U.S.C. §§ 251(b)(4) and 271(c)(2)(B)(iii). In general, a duct is a single enclosed tube, pipe, or channel for enclosing and carrying cables, wires, and other facilities. As used in this Appendix, the term "duct" includes "inner ducts" created by subdividing a duct into smaller channels. Except as the context otherwise requires, the term "duct" refers only to ducts owned or controlled by AT&T MISSOURI and space within those ducts and does not include cables and other telecommunications equipment located within such ducts.

3.14 Exhibit. The capitalized term "EXHIBIT" refers to one of the following exhibits to this Appendix.

EXHIBIT I:	Pole and Conduit Attachment Rates
EXHIBIT II:	Identification of CLEC
EXHIBIT III:	Administrative Forms and Notices
SW-9433:	Pole Attachments
SW-9434:	Access Application and Make-Ready Authorization Work
SW-9435:	Conduit Occupancy
SW-9436A:	Notification of Surrender or Modification of Pole Attachment License by Licensee
SW-9436B:	Notification of Surrender or Modification of Conduit Occupancy License by CLEC

SW-9436C: Notification of Unauthorized Attachments by CLEC

EXHIBIT IV: Insurance Requirements

EXHIBIT V: Nondisclosure Agreement

EXHIBIT VII: Notices to AT&T MISSOURI

EXHIBIT VIII: Identification of Utility Liaison Supervisor (ULS)

3.15 Facilities. The terms "facility" and "facilities" refer to any property, equipment, or items owned or controlled by any person or entity.

3.16 FCC. The acronym "FCC" refers to the Federal Communications Commission.

3.17 First Interconnection Order. The term "First Interconnection Order" refers to the First Report and Order adopted by the FCC on September 1, 1996, and released on September 8, 1996, in CC Docket No. 96-98, In the Matter of Implementation of the Local Competition Provisions in the Telecommunications Act of 1996 and CC Docket No. 95-185, In the Matter of Interconnection between Local Exchange Carriers and Commercial Mobile Radio Service Providers. Access to poles, ducts, conduits, and rights-of-way is addressed in the First Interconnection Order in Paragraphs 1119-1240.

3.18 Handhole. The term "handhole" refers to a structure similar in function to a manhole, but which is too small for personnel to enter. As used in this Appendix, the term "handhole" refers only to handholes which are part of AT&T MISSOURI's conduit system and does not refer to handholes which provide access to buried cables not housed within AT&T MISSOURI ducts or conduits. As used in this Appendix, the term "handhole" refers only to handhole structures owned or controlled by AT&T MISSOURI and does not include cables and other telecommunications equipment located within handhole structures.

3.19 This Section Intentionally Left Blank

3.20 Interconnection agreement. The term "interconnection agreement" refers to the interconnection agreement, if any, to which this Appendix has been made an appendix, attachment, or exhibit, or, as the context may require, any other interconnection agreement between the parties.

3.21 Jacket. The term "jacket" refers to a single enclosed outer covering containing communications wires, fibers, or other communications media. As used in this Appendix, the term "jacket" refers to the outermost sheath or jacket of a cable.

3.22 Joint user. The term "joint user" refers to any person or entity which has entered or may enter into an agreement or arrangement with AT&T MISSOURI permitting it to attach its facilities to AT&T MISSOURI's poles or anchors or place its facilities in AT&T MISSOURI's conduit system.

3.23 License. The term "license" refers to a written instrument confirming that AT&T MISSOURI has afforded CLEC or another joint user access to specific space on or within a pole, duct, conduit, or right-of-way owned or controlled by AT&T MISSOURI in accordance with applicable federal and state laws and regulations. The term "license" includes licenses issued by AT&T MISSOURI pursuant to this Appendix and may, if the context requires, refer to licenses issued by AT&T MISSOURI prior to the date of this Appendix.

3.24 Local service provider ("LSP"). The terms "local service provider" and "LSP" refer to telecommunications carriers authorized by applicable federal and state laws and regulations to provide local exchange service. As used in this Appendix, these terms include AT&T MISSOURI.

3.25 Maintenance duct. The term "maintenance duct" generally refers to a full-sized duct (typically three inches in diameter or larger) which may be used by AT&T MISSOURI and joint users (including CLEC) on a short-term basis for maintenance, repair, or emergency restoration activities. Maintenance ducts will be available, on a nondiscriminatory basis, to all persons and entities (including AT&T MISSOURI, CLEC, other local service providers, and other joint users) with facilities in the conduit section in which the maintenance duct is located for (a) short-term emergency repairs as provided in Article 15 of this Appendix and (b) short-term non-emergency maintenance or repair activities as provided in Articles 12 and 13 of this Appendix. No more than one full-sized duct within any given conduit system cross-section shall be designated by AT&T MISSOURI as the maintenance duct. In those locations where, on the effective date of this Appendix, there is not a full-sized duct available to be used as a maintenance duct, AT&T MISSOURI will designate an inner duct, if one is available, as the maintenance duct although such inner duct may be too small to accommodate some of the cables occupying the conduit section in which such inner duct is located. The term "maintenance duct" does not include ducts and conduits extending from a AT&T MISSOURI manhole to customer premises. Maintenance ducts shall not be considered "available" (as defined in Section 3.06) for assignment to AT&T MISSOURI, CLEC, or joint users for purposes other than short-term use as contemplated in this section; provided, however, that AT&T MISSOURI may assign the duct currently designated as a maintenance duct if another suitable full-sized duct will be made available to serve as a replacement maintenance duct and may assign an inner duct currently designated as a maintenance duct if another inner duct will be made available to serve as a replacement maintenance duct. Maintenance duct designations may change from time to time and may or may not be reflected in AT&T MISSOURI's outside plant records. When only one usable full-sized duct remains in a conduit section, that duct shall be deemed to be the maintenance duct.

3.26 Make-ready work. The term "make-ready work" refers to all work performed or to be performed to prepare AT&T MISSOURI's poles, ducts, conduits, and rights-of-way and related facilities for the requested occupancy or attachment of CLEC's facilities. Make-ready work does not include the actual installation of CLEC's facilities. "Make-ready work" includes, but is not limited to, clearing obstructions (e.g., by "rodding" ducts to ensure clear passage), the rearrangement, transfer, replacement, and removal of existing facilities on a pole or in a conduit system where such work is required to accommodate CLEC's facilities (as contrasted from work performed on AT&T MISSOURI's behalf in furtherance of AT&T MISSOURI's own business needs, or convenience). "Make-ready work" may require "dig-ups" of existing facilities and may include the repair, enlargement or modification of AT&T MISSOURI's facilities (including, but not limited to, conduits, ducts, handholes and manholes), consolidating services into fewer cables, or the performance of other work required to make a pole, anchor, duct, conduit, manhole, handhole or right-of-way usable for the initial placement of CLEC's facilities. All splicing and associated wire work related to any make ready request will be completed by the owner of the facilities involved. The cost for performing this work will be paid for by the party requiring the make ready.

3.27 Manhole. The term "manhole" refers to an enclosure, usually below ground level and entered through a hole on the surface covered with a cast iron, cast aluminum, steel, or concrete manhole cover, which personnel may enter and use for the purpose of installing, operating, and maintaining facilities in a conduit. The term "handhole" refers to a structure similar in function to a manhole, but which is usually too small for personnel to enter. As used in this Appendix, the term "manhole" refers only to manhole structures owned or controlled by AT&T MISSOURI and does not include cables and other telecommunications equipment located within manhole structures.

3.28 Occupancy. The term "occupancy" refers to the physical presence of facilities on a pole, in a conduit or duct, or within a right-of-way.

3.29 Overlashing. The term "overlashing" refers to the practice of placing an additional cable or inner duct by lashing spinning wire over both existing cables and existing strands supporting those cables or inner ducts.

3.30 Person acting on CLEC's behalf. The terms "person acting on CLEC's behalf," "personnel performing work on CLEC's behalf," and similar terms include both natural persons and firms and ventures of every type, including, but not limited to, corporations, partnerships, limited liability companies, sole proprietorships, and joint ventures. The terms "person acting on CLEC's behalf," "personnel performing work on CLEC's behalf," and similar terms specifically include, but are not limited to, CLEC, its officers, directors, employees, agents, representatives, attorneys, contractors, subcontractors, and other persons or entities performing services at the request of or as directed by CLEC and its respective officers, directors, employees, agents, and representatives. An authorized contractor selected by CLEC to perform make-ready work shall be deemed to be a person acting on CLEC's behalf while performing such work at CLEC's request.

3.31 Person acting on AT&T MISSOURI's behalf. The terms "person acting on AT&T MISSOURI's behalf," "personnel performing work on AT&T MISSOURI's behalf," and similar terms include both natural persons and firms and ventures of every type, including but not limited to corporations, partnerships, limited liability companies, sole proprietorships, and joint ventures. The terms "person acting on AT&T MISSOURI's behalf," "personnel performing work on AT&T MISSOURI's behalf," and similar terms specifically include, but are not limited to, AT&T MISSOURI, its officers, directors, employees, agents, representatives, attorneys, contractors, subcontractors, and other persons or entities performing services at the request or on behalf of AT&T MISSOURI and its respective officers, directors, employees, agents, and representatives. An authorized contractor selected by AT&T MISSOURI to perform make-ready work shall be deemed to be a person acting on AT&T MISSOURI's behalf while performing such work at AT&T MISSOURI's request.

3.32 Pole. The term "pole" refers to all AT&T MISSOURI poles subject to the Pole Attachment Act and the provisions of the Telecommunications Act of 1996 codified as 47 U.S.C. §§ 251(b)(4) and 271(c)(2)(B)(iii). Except as the context otherwise requires, the term "pole" refers only to utility poles and anchors which are either owned or controlled by AT&T MISSOURI and does not include cables and other telecommunications equipment attached to pole structures.

3.33 Pole Attachment. As defined in the Pole Attachment Act, 47 U.S.C. § 224(a)(4), the term "pole attachment" refers to "any attachment by a cable television system or provider of telecommunications service to a pole, duct, conduit, or right-of-way owned or controlled by a utility." In this Appendix, except as the context otherwise requires, the term "pole attachment" refers to any attachment by a cable television system or provider of telecommunications service to a pole (and associated anchors) owned or controlled by AT&T MISSOURI. The term "pole attachment" includes all such facilities attached to or supported by a AT&T MISSOURI pole, including but not limited to cables, risers and U-guards, equipment boxes, drop wires, anchors, bolts, clamps, drive rings, guys, hooks, strands, and other hardware affixed to the pole. Groupings of associated pole attachments for billing purposes shall be consistent with the Pole Attachment Act and applicable rules, regulations, and commission orders. Except as otherwise authorized by applicable FCC rules, regulations, or orders, CLEC's pole attachments occupying the same usable space (or otherwise associated with facilities occupying the same usable space on a pole) shall be treated as a single attachment for billing purposes.

3.34 Pole Attachment Act. The term "Pole Attachment Act" refers to those provisions of the Communications Act of 1934, as amended by the Telecommunications Act of 1996, now codified as 47 U.S.C. § 224, as those provisions may be amended from time to time.

3.35 Pre-license survey. The term "pre-license survey" refers to work and activities performed or to be performed by AT&T MISSOURI or by persons acting on AT&T MISSOURI's behalf for the primary purpose of:

(a) confirming or determining the existing availability and capacity of a pole duct, conduit, or right-of-way and identifying capacity, safety, reliability, or engineering concerns, if any, relating to CLEC's application;

(b) confirming or determining the extent, if any, to which modifications to AT&T MISSOURI's poles, ducts, conduits, or rights-of-way are required to accommodate CLEC's facilities;

(c) confirming or determining what make-ready work, if any, will be required to prepare AT&T MISSOURI's poles, ducts, conduits, or rights-of-way to accommodate CLEC's facilities; and

(d) estimating the costs, if any, that CLEC will be required to pay for any such make-ready work or facilities modifications.

3.36 Pre-occupancy survey. The term "pre-occupancy survey" refers to work and activities performed or to be performed by CLEC or persons acting on behalf of CLEC for the primary purpose of enabling CLEC to determine:

(a) whether AT&T MISSOURI's poles, ducts, conduits, or rights-of-way, in their existing condition, are suitable for CLEC's intended use;

(b) the extent, if any, to which modifications of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way will be proposed by CLEC to expand the capacity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way to accommodate CLEC's facilities; and

(c) what make-ready work, if any, is required to prepare the poles, conduits, or conduit system to accommodate CLEC's facilities.

3.37 Primary point of contact. The term "primary point of contact" refers to the persons designated by CLEC and AT&T MISSOURI, respectively, to coordinate arrangements for CLEC's access to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way and records relating to such poles, ducts, conduits, and rights-of-way. AT&T MISSOURI's designated primary point of contact shall be the Utility Liaison Supervisor unless the parties have arranged for that function to be performed by a designated account representative who will serve as an intermediary between CLEC and the Utility Liaison Supervisor.

3.38 Rights-of-way. As used in this Appendix, the term "rights-of-way" refers generally to legal rights to pass over or use the land of another for limited purposes as defined in a statute, ordinance, easement, grant or other conveyance. Rights-of-way include, but are not limited to public rights-of-way authorizing AT&T MISSOURI to locate facilities on, under, or over public lands and roadways, servitudes created by private easements or obtained through the exercise of eminent domain authority enabling AT&T MISSOURI to pass over, place facilities on, and have rights of ingress and egress to the and of another. Rights-of-way also include easements which, at the time of land development or subdivision, were dedicated for use by public or private utilities and are being occupied, in whole or in part, by AT&T MISSOURI's facilities.

3.39 Sheath. The term "sheath" refers to an enclosed covering containing communications wires, fibers, or other communications media. A cable may include both inner and outer sheaths.

3.40 Spinning. The term "spinning" refers to a method of attaching a cable or inner-duct to a supporting strand. "Spinning" is sometimes referred to as "lashing."

3.41 State. When capitalized, the term "State" (as used in terms such as "this State") refers to the State of Missouri.

3.42 State Commission. The term "State Commission" refers to the Missouri Public Service Commission.

3.43 Strand. The term "strand" refers to support wires, typically stranded together, or other devices attached to a pole and connecting that pole to an anchor or to another pole for the purpose of increasing pole stability or supporting wires, cables, and associated facilities. The term "strand" includes, but is not limited to, strands sometimes referred to as "anchor strands," "anchor/guy strands," "down guys," "guy strands," "pole-to-pole guys," and "messengers."

3.44 Telecommunications Act of 1996. The term "Telecommunications Act of 1996" refers to the Telecommunications Act of 1996, Pub. L. No. 104-104, 110 Stat. 56, enacted February 8, 1996.

3.45 Third party. The terms "third party" and "third parties" refer to persons and entities other than the parties to this Appendix (that is, persons and entities other than CLEC and AT&T MISSOURI).

3.46 Utility Liaison Supervisor ("ULS"). The terms "Utility Liaison Supervisor" and "ULS" refer to the person or persons designated by AT&T MISSOURI to be responsible for handling and processing requests for access to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way in this State. The term "ULS" connotes responsibility for handling a function and is not a job title. Except as otherwise specifically provided in this Appendix or in the parties' interconnection agreement, if any, the ULS shall serve as CLEC's single point of contact for arranging access to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way and access to AT&T MISSOURI's records relating to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way. The Utility Liaison Supervisor for this State is identified in EXHIBIT VIII.

3.47 Vault. The term "vault" includes central office vaults and controlled environment vaults ("CEVs"). Vaults may be connected to, but are not considered part of, AT&T MISSOURI's conduit system. Access, if any, to vaults (and to ducts, conduits, and risers which serve no purpose other than to provide a means of entry to and exit from such vaults) shall be governed by the tariffs, agreements, or commission orders, if any, establishing arrangements for interconnection, collocation, and access to unbundled network elements, and not by this Appendix.

3.48 "Vicinity of ...." When used in terms such as "vicinity of AT&T MISSOURI's conduit system," "vicinity of AT&T MISSOURI's poles," "vicinity of AT&T MISSOURI's rights-of-way," or "vicinity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way," the term "vicinity of ..." includes sites on, within, near to, surrounding, or adjoining AT&T MISSOURI's poles, ducts, conduits, and rights-of-way. These sites include, but are not limited to, all sites within a distance of 10 feet of any AT&T MISSOURI pole, duct, conduit, or right-of-way.

ARTICLE 4: NATURE AND SCOPE OF AGREEMENT

4.01 Scope of Agreement. This Appendix establishes procedures for grants of non-discriminatory access to AT&T MISSOURI poles, ducts, conduits, and rights-of-way located within this State, without regard to whether the site is located on public or private property.

4.02 No Transfer of Property Rights. Nothing contained in this Appendix or any license issued hereunder shall create or vest (or be construed as creating or vesting) in either party any right, title, or interest in or to any real or personal property owned by the other. The payment of fees and charges as provided by this Appendix and licenses issued hereunder shall not create or vest (or be construed as creating or vesting) in either party any right, title, or interest in or to any real or personal property owned by the other. No use, however extended, of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way shall create or vest (or be construed as creating or vesting) in CLEC any right, title, or interest in or to any real or personal property owned by AT&T MISSOURI, and the placement of CLEC's facilities on or in AT&T MISSOURI's poles, ducts, conduits and rights-of-way shall not create or vest in AT&T MISSOURI any right, title, or interest in such facilities.

4.03 No Effect on AT&T MISSOURI's Right to Abandon, Convey or Transfer Poles, Ducts, Conduits, or Rights-of-Way. Except as provided in subsections (a)-(b) of this section, nothing contained in this Appendix or any license subject to this Appendix shall in any way affect AT&T MISSOURI's right to abandon, convey, or transfer to any other person or entity AT&T MISSOURI's interest in any of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way.

(a) AT&T MISSOURI shall give CLEC no less than 60 days written notice prior to abandoning, conveying, or transferring any pole, duct, conduit, or right-of-way (1) to or in which CLEC has attached or placed facilities pursuant to this Appendix or (2) with respect to which CLEC has been assigned pole attachment or conduit occupancy space. The notice shall identify the transferee, if any, to whom any such pole, duct, conduit, or right-of-way is to be conveyed or transferred.

(b) Transfers or conveyances of poles, ducts, conduits, or rights-of-way to any entity controlling, controlled by, or under common control with AT&T MISSOURI or to any entity which acquires or succeeds to ownership of substantially all of AT&T MISSOURI's assets shall be subject to CLEC's rights under this Appendix and licenses subject to this Appendix.

4.04 No Effect on AT&T MISSOURI's Rights to Manage its Facilities. Except to the extent expressly provided by the provisions of this Appendix and subject to the provisions of the Telecommunications Act of 1996 and other applicable laws, rules, and regulations, nothing contained in this Appendix shall be construed as limiting or interfering with AT&T MISSOURI's rights to:

(a) locate, relocate, move, replace, modify, maintain, and operate its own facilities (including but not limited to AT&T MISSOURI's poles, ducts, conduits and rights-of-way, and any of AT&T MISSOURI's facilities attached thereto or located therein) at any time and in any manner which AT&T MISSOURI deems appropriate to serve its own customers, avail itself of new business opportunities, or otherwise meet its own business needs; or

(b) enter into new agreements or arrangements with other persons or entities permitting them to attach or place their facilities on or in AT&T MISSOURI's poles, ducts, conduits, or rights-of-way,

provided, however, that such relocations, moves, replacements, modifications, maintenance, and operations or new agreements or arrangements shall not interfere with CLEC's pole attachment, right-of-way, or conduit occupancy use rights provided pursuant to this Appendix.

4.05 No Effect on CLEC's Rights to Manage its Own Facilities. This Appendix shall not be construed as limiting or interfering with CLEC's right to conduct its normal business operations in serving its customers or to avail itself of new business opportunities except to the extent expressly provided by the provisions of this Appendix or by the Telecommunications Act of 1996 or other applicable laws, rules or regulations.

4.06 No Right to Interfere with Facilities of Others. Except to the extent expressly provided by the provisions of this Appendix or by the Telecommunications Act of 1996 or other applicable laws, rules, or regulations, the provisions of this Appendix shall not be construed as authorizing either party to this Appendix, or persons acting on their behalf, to rearrange or interfere in any way with the facilities of the other party or joint users or with the use of or access to such facilities by the other party or joint users.

ARTICLE 5: ACCESS TO RIGHTS-OF-WAY

5.01 Public Rights-of-Way. AT&T MISSOURI and CLEC agree that neither party has the right to restrict or interfere with the other party's access to public rights-of-way. AT&T MISSOURI and CLEC shall each be responsible for

obtaining their own rights-of-way and permission to use real or personal property owned or controlled by any governmental body, subject to the procedures set forth in Section 5.03 below.

5.02 Private Rights-of-Way Not Owned or Controlled by AT&T MISSOURI. AT&T MISSOURI and CLEC agree that neither party has the right to restrict or interfere with the other party's access to private rights-of-way not owned or controlled by AT&T MISSOURI. Each party shall make its own, independent legal assessment of its right to enter upon or use the land or property of third-party property owners and shall bear all expenses, including legal expenses, involved in making such determinations, subject to the procedures set forth in Section 5.03 below.

5.03 Access to Associated Rights-of-Way. Each pole attachment and conduit occupancy license made under this Appendix shall include access to and use of all associated rights-of-way, including, but not limited to, rights-of-way required by CLEC for ingress, egress, or other access to any sites where AT&T MISSOURI's solely or partly owned or controlled poles, manholes, conduit, ducts, or other parts of AT&T MISSOURI's solely or partly owned or controlled conduit system are located, but only to the extent, if any, that AT&T MISSOURI has the legal authority to grant such access and use. AT&T MISSOURI also agrees to provide nondiscriminatory access to rights-of-way containing Controlled Environment Vaults (CEVs), huts, cabinets, and other similar structures to the extent that collocation to such facilities is agreed or required by order of any court or governmental agency having jurisdiction over the subject matter. AT&T MISSOURI agrees that it shall place no restrictions on CLEC's ability to construct, maintain, and monitor its facilities at these sites that are more restrictive than those AT&T MISSOURI places on itself.

(a) Although AT&T MISSOURI shall afford access to rights-of-way owned or controlled by it and permit CLEC to utilize AT&T MISSOURI's rights-of-way to the extent that AT&T MISSOURI has legal authority to do so, CLEC acknowledges that AT&T MISSOURI may not own or control certain rights-of-way to the extent necessary to permit CLEC full access to such rights-of-way. The following general principles shall be applied with respect to access to rights-of-way on third-party real estate:

(1) CLEC shall first attempt to obtain right-of-way directly from the property owner.

(2) If AT&T MISSOURI has legal authority to permit access by CLEC to a right-of-way on third-party property, AT&T MISSOURI will not restrict CLEC's use of the right-of-way.

(3) If CLEC has the right of eminent domain under state law, CLEC shall independently attempt to obtain the right-of-way it seeks through the exercise of that right.

(b) AT&T MISSOURI and CLEC agree that dark fiber and unused four-wire copper cable are not considered "poles, conduits, and rights-of-way".

5.04 Access to Rights-of-Way Incident to the Use of CEVs and Similar Structures. AT&T MISSOURI will provide CLEC nondiscriminatory access, consistent with the requirements of the Pole Attachment Act and Telecommunications Act of 1996, and as provided in Sections 5.03 above, to rights-of-way containing Controlled Environment Vaults (CEVs), huts, cabinets, and other similar structures. AT&T MISSOURI will place no restrictions on access to such rights-of-way that are more restrictive than those AT&T MISSOURI places on itself; provided, however, that neither party shall conduct activities on such rights-of-way which interfere with the facilities of the other party, with the privacy of communications carried over the other party's network, or with the other party's access to and use of its own facilities. This section relates only to access to rights-of-way and shall not be construed as granting access to the CEVs, huts, cabinets, and similar structures located on such rights-of-way. Access, if any, to CEVs, huts, cabinets, and similar structures, and to ducts, conduits, and risers which serve no purpose other than to provide a means of entering or exiting such structures, shall be governed by the tariff, agreement, or order, if any, granting CLEC access to such structures.

ARTICLE 6: SPECIFICATIONS

6.01 Compliance with Requirements, Specifications, and Standards. CLEC agrees that CLEC's facilities attached to AT&T MISSOURI's poles or occupying space in its ducts, conduits, and rights-of-way shall be attached, placed, constructed, maintained, repaired, and removed in full compliance with the requirements, specifications, and standards specified in this Appendix.

6.02 Design to Minimize the Need for Access to AT&T MISSOURI's Poles, Ducts, and Conduits. The parties shall each design their facilities to minimize the need for the parties to access AT&T MISSOURI's poles, ducts, and conduits.

6.03 Infrequent Construction Techniques and Connectivity Solutions. Unless precluded by documented engineering criteria or written guidelines AT&T MISSOURI applied to itself as of January 1, 1996, consistent with considerations of safety, reliability, and or engineering practices, AT&T MISSOURI agrees to permit CLEC at its own expense to utilize the following techniques to avoid high or unusual expenditures: (a) placement of pole attachments on both the "field" side and "road" side of a pole; (b) placement of extension arms or stand-off brackets on poles; and (c) building conduit branches into AT&T MISSOURI's conduit systems. CLEC acknowledges that use of the above techniques will be rare, and will be permitted only on a case-by-case basis.

6.04 Published Standards. AT&T MISSOURI and CLEC agree that the following standards equally apply to either party with respect to facilities attached to or placed in AT&T MISSOURI's poles, ducts, conduits, and rights-of-way and further agree that facilities shall be placed, constructed, maintained, repaired, and removed in accordance with, current (as of the date when such work is performed) editions of the following publications:

(a) the Blue Book Manual of Construction Procedures, Special Report SR-TAP-001421, published by Bell Communications Research, Inc. ("Bellcore"), and sometimes referred to as the "Blue Book";

(b) the National Electrical Safety Code ("NESC"), published by the Institute of Electrical and Electronic Engineers, Inc. ("IEEE"); and

(c) the National Electrical Code ("NEC"), published by the National Fire Protection Association ("NFPA").

6.05 Additional Electrical Design Specifications: Conduit. The parties agree that, in addition to the specifications and requirements referred to in Sections 6.01-6.04 above, facilities placed in AT&T MISSOURI's conduit system after the effective date of this Appendix shall meet all of the electrical design specifications set forth in this section.

(a) No facilities shall be placed in AT&T MISSOURI's conduit system in violation of FCC regulations, including regulations relating to electrical interference. In addition, neither party shall place any facility in AT&T MISSOURI's conduit system which causes or may cause electrical interference with the facilities of the other party or joint users sufficient to jeopardize network integrity or degrade the quality of any communications services offered by either party or a joint user. If either party is notified by the other party or a joint user that its facilities are causing, or have the potential to cause, unacceptable levels of electrical interference, the party notified shall either correct the problem, remove the facility, or initiate good faith negotiations with the complaining party or joint user to resolve the issue.

(b) Facilities placed in AT&T MISSOURI's conduit system shall not be designed to use the earth as the sole conductor for any part of the circuits.

(c) Facilities placed in AT&T MISSOURI's conduit system and carrying more than 50 volts AC (rms) to ground or 135 volts DC to ground shall be enclosed in an effectively grounded sheath or shield.

(d) No coaxial cable shall be placed in AT&T MISSOURI's conduit system unless such cable meets the voltage limitations of Article 820 of the National Electrical Code.

(e) Coaxial cable placed in AT&T MISSOURI's conduit system may carry continuous DC voltages up to 1800 volts to ground where the conductor current will not exceed one-half ampere and where such cable has two separate grounded metal sheaths or shields and a suitable insulating jacket over the outer sheath or shield. The power supply shall be so designed and maintained that the total current carried over the outer sheath shall not exceed 200 microamperes under normal conditions. Conditions which would increase the current over this level shall be cleared promptly.

(f) CLEC shall not circumvent the corrosion mitigation measures of AT&T MISSOURI or joint users.

6.06 Additional Physical Design Specifications: Conduit. Facilities placed in AT&T MISSOURI's conduit system following the effective date of this Appendix shall meet all of the following physical design specifications:

(a) Except as otherwise specifically agreed in this Appendix or licenses issued hereunder CLEC's facilities shall enter AT&T MISSOURI's conduit system at locations consistent with the physical design specifications that AT&T MISSOURI applies to itself (typically through a manhole) or at such other designated locations agreed upon in writing (e.g., through the licensing process) by the parties in accordance with Section 6.03 (infrequent construction techniques and connectivity solutions).

(b) Cables bound or wrapped with cloth or having any kind of fibrous coverings or impregnated with an adhesive material shall not be placed in AT&T MISSOURI's conduit or ducts.

(c) The integrity of AT&T MISSOURI's conduit system and overall safety of personnel require that "dielectric cable" be used within AT&T MISSOURI's conduit system when a cable facility utilizes a duct or route shared in the same trench by any electric transmissions facility such as the facilities of a power utility.

(d) New construction splices in cables (including but not limited to fiber optic and twisted pair cables) shall be located in manholes, pull boxes or handholes.

6.07 Efficient Use of Conduit. To ensure efficient use of conduits, AT&T MISSOURI will, when cable diameters permit, install inner ducts in multiples that fully utilize duct space (typically three or four inner ducts in a full four-inch duct) as needed for AT&T MISSOURI's own business purposes and to accommodate CLEC and other joint users; provided, however, that AT&T MISSOURI shall not be required to install inner duct in anticipation of potential future requests for access by CLEC and other joint users.

6.08 Specifications Applicable to Connections: Conduit. Except as otherwise specifically agreed in this Appendix or licenses issued hereunder, or as mutually agreed upon by the parties in writing, the following specifications apply to connections of CLEC's conduit to AT&T MISSOURI's conduit system:

(a) CLEC shall not bore, make, or enlarge any hole in, or otherwise structurally modify or alter any manhole, handhole, duct, conduit, or other facility which is part of AT&T MISSOURI's conduit system except as provided in this Appendix or licenses issued hereunder, or as mutually agreed upon by the parties in writing.

(b) Nothing contained in subsection (a) shall be construed as precluding CLEC or qualified personnel acting on CLEC's behalf from reattaching cable racks or performing similar routine work which is minor in nature and associated with the placing and splicing of cable.

(c) Where CLEC's duct or facility physically connects with AT&T MISSOURI's manhole the section of CLEC's facility which connects to AT&T MISSOURI's manhole shall be installed by AT&T MISSOURI or its contractor at CLEC's expense (which shall be AT&T MISSOURI's actual costs or the price charged AT&T MISSOURI by the contractor). AT&T MISSOURI will perform this work in an interval consistent with the intervals AT&T MISSOURI performs work for itself. If AT&T MISSOURI's interval for beginning or completing this work does not meet CLEC's needs, CLEC as an authorized contractor may perform the work itself or use subcontractor(s) selected by CLEC from a list of mutually agreeable qualified "bidders" developed by AT&T MISSOURI and CLEC.

(d) AT&T MISSOURI will have the option to monitor the entrance and exit of CLEC's facilities into AT&T MISSOURI's conduit system and the physical placement of CLEC's facilities in AT&T MISSOURI's conduit system. Notice requirements for, and expenses associated with, this monitoring are addressed in Section 6.11 of this Appendix.

(e) If CLEC constructs or utilizes a duct connected to AT&T MISSOURI's conduit system, the duct and all connections between that duct and AT&T MISSOURI's conduit system shall be sealed to prevent the entry of gases or liquids into AT&T MISSOURI's conduit system. If CLEC's duct enters a building, it shall also be sealed where it enters the building and at all other locations necessary to prevent the entry of gases and liquids from the building into AT&T MISSOURI's conduit system.

6.09 General Requirements Relating to Personnel, Equipment, Materials, and Public Safety. The parties contemplate that CLEC, its contractors, and other persons acting on its behalf will perform work for CLEC on, within, and in the vicinity of AT&T MISSOURI's poles, ducts, conduits, and rights-of-way. The provisions of this section are intended to protect the integrity of the networks, facilities and operations of AT&T MISSOURI, CLEC and joint users, to protect the health and safety of persons working on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, conduits, and rights-of-way, and to protect the public at large.

(a) Neither party nor any person acting on such party's behalf shall permit any person to climb on or work on AT&T MISSOURI's poles or in the vicinity of AT&T MISSOURI's poles, or enter AT&T MISSOURI's manholes or work within or in the vicinity of AT&T MISSOURI's conduit system, unless such person has the training, skill, and experience required to recognize potentially dangerous conditions relating to the pole or conduit system and to perform the work safely.

(b) Neither party nor any person acting on such party's behalf shall permit any person acting on its behalf to perform any work on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way without first verifying, to the extent practicable, on each date when such work is to be performed, that conditions at the work site (including but not limited to the physical condition of the pole or any part of AT&T MISSOURI's conduit system) are sufficiently safe for the work to be performed. If CLEC or any person acting on CLEC's behalf determines that the condition of the pole, duct, conduit, conduit system, or rights-of-way is not safe enough for the work to be performed, CLEC shall notify AT&T MISSOURI of the condition of the pole or conduit system in question and shall not proceed with the work until CLEC is satisfied that the work can be safely performed.

(c) Neither party nor any person acting on such party's behalf shall knowingly permit defective equipment or materials to be used on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way.

(d) When CLEC or personnel performing work on its behalf are working on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way located within, under, over, adjacent to, or in the vicinity of streets, highways, alleys or other traveled rights-of-way, CLEC and all personnel performing work on CLEC's behalf shall follow procedures which CLEC deems appropriate for the protection of persons and property. CLEC and its contractors shall be responsible, at all times, for determining and implementing the specific steps required to protect persons and property at the site. CLEC or its designated contractor will provide all traffic control and warning devices required to protect pedestrian and vehicular traffic, workers, and property from danger. CLEC and its contractors shall have sole responsibility for the safety of all personnel performing work on CLEC's behalf, for the safety of bystanders, and for insuring that all operations conform to current OSHA regulations and all other governmental rules, ordinances or statutes.

(e) Neither party nor any persons acting on such party's behalf shall engage in any conduct which damages public or private property in the vicinity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way or creates a hazard or nuisance on such property (including but not limited to a hazard or nuisance resulting from any abandonment of or failure to remove its facilities or any construction debris from the property, failure to erect warning signs or barricades as may be necessary to give notice to others of unsafe conditions on the premises while work performed on its behalf is in progress, or failure to restore the property to a safe condition after such work has been completed).

(f) CLEC shall promptly suspend activities on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, or conduits, if notified by AT&T MISSOURI that such activities create an unreasonable risk of injury to persons or property (including unreasonable risks of service interruptions). CLEC shall not resume such activities on or in the vicinity of CLEC's poles until CLEC is satisfied that the work may safely proceed and that any hazardous conditions at the site have been rectified and shall not resume such activities within or in the vicinity of AT&T MISSOURI's conduit system until both CLEC and AT&T MISSOURI are satisfied that the work may safely proceed and that any hazardous conditions at the site have been rectified. In the event that AT&T MISSOURI requires CLEC to suspend work activities and it is later determined that the there was no reasonable basis for the work suspension, AT&T MISSOURI agrees to compensate CLEC for the cost resulting from the delay.

(g) All personnel acting on CLEC's behalf shall, while working on or in AT&T MISSOURI's poles, ducts, conduits, or rights-of-way, carry with them suitable identification and shall, upon the request of any AT&T MISSOURI employee or representative, produce such identification.

(h) CLEC (and any person acting on CLEC's behalf) may report unsafe conditions on, within, or in the vicinity of AT&T MISSOURI's poles or conduit system to AT&T MISSOURI.

6.10 Specific Requirements Relating to Personnel, Equipment, Materials, and Construction Practices Within or in the Vicinity of AT&T MISSOURI's Conduit Systems. When AT&T MISSOURI or CLEC, their contractors, and other persons acting on their behalf perform work on, within, or in the vicinity of AT&T MISSOURI's ducts, conduits, and rights-of-way where such ducts or conduits are located, they will be guided by the following:

(a) Except as may be mutually agreed upon by the parties in writing, CLEC shall not "rod" or clear any duct or inner duct in AT&T MISSOURI's conduit system other than a duct or inner duct assigned to CLEC. Following the assignment of a specific duct or inner duct to CLEC, CLEC may request that AT&T MISSOURI rod or clear the duct or inner duct. If the duct or inner duct cannot be cleared, AT&T MISSOURI shall assign to CLEC the next available duct or inner duct. CLEC's request for assignment of the next available duct shall be in writing, may be transmitted to AT&T MISSOURI via fax or other

transmission media mutually agreed upon by the parties, and shall be processed within the same intervals applicable to the processing of similar requests by AT&T MISSOURI's own personnel.

(b) Personnel performing work within AT&T MISSOURI's conduit system on either party's behalf shall not climb on, step on, or otherwise disturb the cables, air pipes, equipment, or other facilities located in any manhole or other part of AT&T MISSOURI's conduit system.

(c) Personnel performing work within or in the vicinity of AT&T MISSOURI's conduit system (including any manhole) on either party's behalf shall, upon completing their work, make reasonable efforts to remove all tools, unused materials, wire clippings, cable sheathing and other materials brought by them to the work site.

(d) All of CLEC's facilities shall be firmly secured and supported in accordance with Bellcore and industry standards and any applicable construction standards adopted by AT&T MISSOURI and applicable to AT&T MISSOURI's own facilities.

(e) CLEC's facilities shall be plainly identified with CLEC's name in each manhole with a firmly affixed permanent tag that meets the identification standards set by AT&T MISSOURI for its own facilities.

(f) Manhole pumping and purging required in order to allow work operations to proceed shall be performed in accordance with the requirements of Sections 6.14 and 6.15.

(g) Planks or other types of platforms shall be supported only by cable racks.

(h) Any leak detection liquid or device used by CLEC or personnel performing work on CLEC's behalf within or in the vicinity of AT&T MISSOURI's conduit system shall be of a type approved by AT&T MISSOURI and included on AT&T MISSOURI's then-current list of approved types of leak-detection liquids and devices; provided, however, that CLEC may use any type of leak detection liquid or device which meets Bellcore's published standards if AT&T MISSOURI has not provided CLEC AT&T MISSOURI's list of approved types of leak detection liquids or devices at least 60 days in advance of CLEC's work.

(i) CLEC and its contractors shall be responsible for providing proper ventilation while work is being performed in AT&T MISSOURI's conduit system on CLEC's behalf. Except for protective screens, no temporary cover shall be placed over an open manhole unless it is at least four feet above the surface level of the manhole opening.

(j) Smoking or the use of any open flame is prohibited in manholes, in any other portion of the conduit system, or within 10 feet of any open manhole entrance.

(k) Artificial lighting, when required by CLEC, will be provided by CLEC. Only explosion-proof lighting fixtures shall be used.

(l) Neither AT&T MISSOURI nor CLEC nor personnel performing work on its behalf shall allow any combustible gas, vapor, liquid, or material to accumulate in AT&T MISSOURI's conduit system (including any manhole) during work operations performed within or in the vicinity of AT&T MISSOURI's conduit system.

(m) All parties shall abide by any laws, regulations, and ordinances regarding the use of spark producing tools, equipment, or devices (including but not limited to such tools as electric drills and hammers,

meggers, breakdown sets, induction sets, and the like) in manholes or in any other portions of the conduit system.

(n) Cable lubricants used in conduit systems shall be of a type or types approved by AT&T MISSOURI and included on AT&T MISSOURI's then-current list of approved types of cable lubricants; provided, however, that CLEC may use any type of cable lubricant which meets Bellcore's published standards if AT&T MISSOURI has not provided CLEC AT&T MISSOURI's list of approved types of cable lubricants at least 60 days in advance of CLEC's work.

6.11 Opening of Manholes and Access to Conduit. The following requirements apply to the opening of AT&T MISSOURI's manholes and access to AT&T MISSOURI's conduit system.

(a) CLEC will notify AT&T MISSOURI not less than 48 hours in advance before entering AT&T MISSOURI's conduit system to perform non-emergency work operations. Such operations shall be conducted during normal business hours except as otherwise agreed by the parties. The notice shall state the general nature of the work to be performed. As a courtesy, CLEC shall, when feasible, provide AT&T MISSOURI with 10 working days advance notice before entering AT&T MISSOURI's conduit system.

(b) The parties contemplate that CLEC may need to perform operations in AT&T MISSOURI's conduit system other than during normal business hours and may occasionally require access to manholes on shorter notice than contemplated in subsection (a) above. Under these circumstances, CLEC shall notify AT&T MISSOURI as soon as is reasonably possible of its intent to enter and perform work in the conduit system and AT&T MISSOURI shall not, without due cause and justification, insist on literal compliance with the scheduling requirements of subsection (a) in such circumstances. AT&T MISSOURI will establish procedures enabling AT&T MISSOURI to receive notices from CLEC under this subsection 24 hours a day, seven days a week.

(c) Each party must obtain any necessary authorization from appropriate authorities to open manholes for such party's own conduit work and operations therein.

(d) A single authorized employee or representative of AT&T MISSOURI may be present any time when CLEC or personnel acting on CLEC's behalf enter or perform work within AT&T MISSOURI's conduit system. CLEC shall reimburse AT&T MISSOURI for costs associated with the presence of AT&T MISSOURI's authorized employee or representative. Each party must obtain any necessary authorization from appropriate authorities to open manholes.

(e) Intentionally Omitted.

6.12 OSHA Compliance. Each party agrees:

(a) its facilities attached to AT&T MISSOURI's poles or placed in AT&T MISSOURI's ducts, conduits, and rights-of-way shall be constructed, placed, maintained, repaired, and removed in accordance with the Occupational Safety and Health Act (OSHA) and all rules and regulations promulgated thereunder and

(b) all persons shall, when working on, within, or in the vicinity of AT&T MISSOURI's poles or conduit system, comply with OSHA and all rules and regulations thereunder.

6.13 Environmental Contaminants in AT&T MISSOURI's Conduit System. CLEC acknowledges that, from time to time, environmental contaminants may enter AT&T MISSOURI's conduit system and accumulate in manholes or other conduit facilities.

(a) CLEC may, at its expense, perform such inspections and tests at the site of any pole, duct, conduit, or right-of-way occupied by or assigned to CLEC as CLEC may deem necessary to determine the presence at such sites of environmental contaminants. AT&T MISSOURI will assist CLEC, at CLEC's request and expense, in the performance of such inspections and tests.

(b) AT&T MISSOURI makes no representations to CLEC or personnel performing work on CLEC's behalf that AT&T MISSOURI's poles, ducts, conduits, or rights-of-way will be free from environmental contaminants at any particular time. Before entering a manhole or performing any work within or in the vicinity of AT&T MISSOURI's conduit system or any other site subject to access under this Appendix, CLEC or personnel acting on CLEC's behalf shall independently determine, to their satisfaction, whether such contaminants are present and conduct their work operations accordingly.

(c) Each party shall promptly notify the other of environmental contaminants known by such party to be present on, within or in the vicinity of poles, ducts, conduits, or rights-of-way occupied by or assigned to CLEC if, in the sole judgment of such party, such environmental contaminants create a serious danger to (1) the health or safety of personnel working within or in the vicinity of the conduit or (2) the physical condition of the other party's facilities placed or to be placed within the conduit.

(d) Nothing contained in this Appendix (including but not limited to the acknowledgments and representations set forth in this section) shall relieve either party from its responsibility to comply with all applicable environmental laws or its responsibility for any liability arising out of such party's failure to comply with such laws.

6.14 Compliance with Environmental Laws and Regulations. CLEC and AT&T MISSOURI agree to comply with the following provisions relating to compliance with environmental laws and regulations.

(a) All persons acting on CLEC's or AT&T MISSOURI's behalf, including but not limited to CLEC's or AT&T MISSOURI's employees, agents, contractors, and subcontractors, shall, when working on, within or in the vicinity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way, comply with all applicable federal, state, and local environmental laws, including but not limited to all environmental statutes, ordinances, rules, and regulations.

6.15 Compliance with Other Governmental Requirements (Including Aeronautical Navigation Safeguards). CLEC and AT&T MISSOURI agree that their facilities attached to AT&T MISSOURI's poles or placed in AT&T MISSOURI's ducts, conduits, and rights-of-way shall be constructed, placed, maintained, repaired, and removed in accordance with the ordinances, rules, and regulations of any governing body having jurisdiction of the subject matter (including but not limited to any valid ordinances, rules, and regulations requiring permits, certificates, licenses or the like). CLEC and AT&T MISSOURI shall comply with all statutes, ordinances, rules, regulations, and other laws requiring the marking and lighting of aerial wires, cables, and other structures to ensure that such wires, cables, and structures are not a hazard to aeronautical navigation.

6.16 Responsibility for Condition of Facilities. Each party will be responsible at all times for the condition of its facilities (including but not limited to those extending from AT&T MISSOURI's poles, ducts, conduits, or rights-of-way directly to any other location) and for its compliance with the requirements and specifications of this article and all applicable laws, rules, regulations, and ordinances.

ARTICLE 7: PRIMARY POINTS OF CONTACT, ACCESS TO RECORDS, AND PRE-OCCUPANCY INSPECTIONS

7.01 Designation of Primary Points of Contact. Each party will, at the request of the other party, designate a primary point of contact to facilitate communications between the parties and the timely processing of CLEC's applications for access to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way located within this State. Designations of primary points of contact will be made by written notices including the name, title, address, phone number, and fax number of the person designated as the primary point of contact; provided, however, that unless and until a different designation is made, AT&T MISSOURI's primary point of contact shall be the Utility Liaison Supervisor identified in EXHIBIT VIII. Designation of primary points of contact pursuant to this section shall not affect notice requirements or other legal requirements set forth in other provisions of this Appendix or the parties' interconnection agreement.

7.02 Determinations by CLEC of Suitability and Availability. CLEC shall make its own, independent assessment of the suitability of AT&T MISSOURI's poles, ducts, conduits, and rights-of-way for CLEC's intended purposes.

7.03 Access to Records Relating to AT&T MISSOURI's Poles, Ducts, Conduits, and Rights-of-Way. This section establishes procedures through which certain records and information relating to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way will be made available to CLEC. Access to such records and information shall be conditioned on CLEC's execution of a nondisclosure agreement equivalent in substance to the Nondisclosure Agreement (AT&T MISSOURI Pole, Duct, Conduit, and Rights-of-Way) attached to this Appendix as Exhibit V or such other nondisclosure agreement as shall be mutually acceptable to the parties, and no person acting on CLEC's behalf shall be granted access to such records and information without first signing such a nondisclosure agreement. CLEC shall reimburse AT&T MISSOURI for all reasonable costs incurred by AT&T MISSOURI in granting CLEC's requests for access to records and information under this section.

(a) CLEC shall, after the effective date of this Appendix, have reasonable access to AT&T MISSOURI's pole and conduit maps and records. CLEC shall be permitted to examine these records during regular business hours at a location where copies of such records are maintained or at such other location as may be mutually agreed upon by the parties. Access to such maps and records shall be by appointment only, and AT&T MISSOURI shall make such maps and records available for inspection by CLEC on two business days notice.

(b) The access described in subsection (a) shall include the right to make copies, at CLEC's expense. In all instances, such access shall include the ability to take notes and make drawings with references to those maps and records. No references to cable counts or circuit information may be included in any such copies, notes, or drawings. With respect to customer-specific information, CLEC copies, notes, or drawings may include only such information as needed for bona fide engineering and construction purposes. CLEC's copies, notes, and drawings may include estimates regarding the physical characteristics (such as size and weight) of cables when necessary to make engineering determinations regarding the capacity, safety, reliability, or suitability of AT&T MISSOURI's poles, ducts, conduits, and rights-of-way for CLEC's intended uses.

AT&T MISSOURI shall provide CLEC the best information available from AT&T MISSOURI's current pole and conduit maps and records. AT&T MISSOURI represents that such records reflect approximate geographical locations of the facilities depicted and may not accurately reflect information such as:

(1) the exact location of the facilities depicted;

(2) the physical size, characteristics, or condition of the facilities depicted;

(3) the ducts or inner ducts presently occupied, assigned, or available within any particular conduit segment or manhole;

(4) the arrangement of facilities attached to a pole, the position of facilities suspended between poles or their relationship to each other and to the ground, or the positioning of cables and other facilities housed within ducts, conduits, manholes or other portions of AT&T MISSOURI's conduit system; and

(5) other information which must be assessed before it can be determined that space is available on or in a pole, duct, or conduit for the attachment or occupancy of CLEC's facilities or that the pole, duct, or conduit depicted is suitable for CLEC's intended use.

7.04 Pre-Occupancy Inspection of Poles, Ducts, Conduits, and Rights-of-Way. CLEC shall be permitted to view and inspect specified poles, ducts, conduits, and rights-of-way on a pre-occupancy basis as provided in this section.

(a) After the effective date of this Agreement, AT&T MISSOURI shall permit CLEC to view specified poles, ducts, conduits, and rights-of-way on a pre-occupancy basis. Nothing contained in this section shall preclude CLEC from visually inspecting AT&T MISSOURI's poles, ducts, conduits, or rights-of-way from any vantage point lawfully accessible to CLEC without AT&T MISSOURI's permission.

(b) CLEC shall not enter any AT&T MISSOURI manhole for the purpose of performing a pre-occupancy inspection without complying with all applicable requirements set forth in Article 6 of this Appendix, including but not limited to the provisions of Section 6.11 relating to the opening of manholes.

ARTICLE 8: POLE, DUCT, AND CONDUIT SPACE ASSIGNMENTS

8.01 Selection of Space. AT&T MISSOURI will select or approve the CLEC's selection of the space CLEC will occupy on poles or in conduit systems based upon the same criteria AT&T MISSOURI applies to itself. In conduit systems owned or controlled by AT&T MISSOURI, maintenance ducts (as defined in Section 3.25) shall not be considered available for CLEC's use except as specifically provided elsewhere in this Appendix. All ducts associated with the conduit system which are not assigned or occupied shall be deemed available for use by AT&T MISSOURI, CLEC, and third parties entitled to access under the Pole Attachment Act.

8.02 Pole, Duct, and Conduit Space Assignments. Pole, duct, and conduit space in the conduit system will be assigned to CLEC as provided in this section. Information received by AT&T MISSOURI in connection with this section shall be subject to the provisions of Article 27 of this Appendix (Confidentiality of Information).

(a) On receipt of CLEC's application for a pole attachment or conduit occupancy license, the associated pole, duct, and conduit space shall be assigned to CLEC for a pre-occupancy period not to exceed 12 months, beginning with the date of such assignment. The assignment (and date and time) of assignment shall be logged and recorded in the appropriate AT&T MISSOURI records.

(b) CLEC's obligation to pay semi-annual pole attachment or conduit occupancy fees shall commence from the date the assignment or provisional assignment is logged and recorded in the appropriate AT&T MISSOURI records.

(c) During the 12-month assignment period following the date space is assigned to CLEC and entered into the appropriate AT&T MISSOURI record, AT&T MISSOURI shall not occupy or use such space without CLEC's permission, shall not assign such space to any party other than CLEC, and shall not knowingly permit any party other than CLEC to occupy or use such space without CLEC's permission except as otherwise specifically provided in this Appendix. The assignment to CLEC shall automatically lapse 12 months after the date the assignment has been entered into the appropriate AT&T MISSOURI record if CLEC has not occupied such assigned space within such 12-month period; provided, however, that if CLEC's failure to occupy the space within such 12-month period results from AT&T MISSOURI's failure to perform make-ready work on schedule, the parties shall negotiate a single extension of the assignment period, which extension shall not extend the assignment period beyond three months from the date of completion of AT&T MISSOURI's make-ready work; and, provided further, that if CLEC can demonstrate that its failure to occupy the space within such 12-month period results from the actions of AT&T MISSOURI or third parties other than persons acting on CLEC's behalf, or from acts of God, the assignment may be extended for a period no longer than three months from the date CLEC is first able to commence construction activities at the site involved. Assignments to third parties shall be subject to the same rules applicable to CLEC under this subsection. Extensions permitted under this subsection must be requested in writing before expiration of the original 12-month period and shall be recorded on the appropriate AT&T MISSOURI records available for inspection under Section 7.03.

(d) AT&T MISSOURI may assign space to itself by making appropriate entries in the same records used to log assignments to CLEC and third parties. If AT&T MISSOURI assigns pole, duct, or conduit space to itself, such assignment shall automatically lapse 12 months after the date the assignment has been entered into the appropriate AT&T MISSOURI record if AT&T MISSOURI has not occupied such assigned space within such 12-month period; provided, however, that if AT&T MISSOURI's failure to occupy the space within such 12-month period results from the actions of CLEC or third parties other than persons acting on AT&T MISSOURI's behalf, or from acts of God, AT&T MISSOURI's assignment may be extended for a period no longer than three months from the date AT&T MISSOURI is able to commence construction at the site involved. Extensions permitted under this subsection must be recorded before expiration of the original 12-month period on the appropriate AT&T MISSOURI records available for inspection under Section 7.03.

(e) If facilities modifications, capacity expansions, or other make-ready work are required due to the assignment of space to CLEC or AT&T MISSOURI under this section, the party to whom such space has been assigned shall reimburse the person or entity incurring the costs for such facilities modifications, capacity expansions, or make-ready work, if the party to whom such space has been assigned fails to occupy the assigned space within the 12-month assignment period or any extension thereof.

(f) Except as provided in subsections (e)-(f) above, assignments shall not be extended, renewed, or sequentially repeated in any manner (other than by actual occupancy) that enables CLEC, AT&T MISSOURI, or any joint user to preclude access by others to unused pole attachment or conduit occupancy space for any period greater than 12 months after the date of initial assignment.

ARTICLE 9: APPLICATIONS AND PRE-LICENSE SURVEYS

9.01 Licenses Required. CLEC shall apply in writing for and receive a license before attaching facilities to specified AT&T MISSOURI poles or placing facilities within specified AT&T MISSOURI ducts or conduits, manholes, or handholes. License applications and information received by AT&T MISSOURI in connection with such applications shall be subject to the provisions of Article 27 of this Appendix (Confidentiality of Information).

9.02 Application Form. To apply for a pole attachment or conduit occupancy license under this Appendix, CLEC shall submit to AT&T MISSOURI two signed copies of the appropriate application forms. AT&T MISSOURI represents that the forms specified in subsections (a) and (b) are forms in use prior to the effective date of this Appendix and that AT&T MISSOURI plans to revise such forms to conform to the provisions of this Appendix and to streamline the application process. The parties therefore agree that the forms specified in subsections (a) and (b) shall be interim forms only. AT&T MISSOURI reserves the right to change the format and content of these forms upon 60 days written notice to CLEC.

(a) To apply for a pole attachment license, CLEC shall submit to AT&T MISSOURI two signed copies of AT&T MISSOURI's Form SW-9434 ("Access Application and Make-Ready Authorization") together with completed Form SW-9433. An application for a pole attachment license shall not be complete or subject to processing by AT&T MISSOURI until these forms have been submitted to AT&T MISSOURI; provided, however, that such forms shall be deemed to be substantially complete if they contain the information specified in subsections (c)-(g) below, as applicable. Copies of Forms SW-9433 and SW-9434, are attached to this Appendix as parts of Exhibit III.

(b) To apply for a conduit occupancy license, CLEC shall submit to AT&T MISSOURI two signed copies of AT&T MISSOURI's Form SW-9434 ("Access Application and Make-Ready Authorization") together with completed Form SW-9435 ("Conduit Occupancy"). An application for a conduit occupancy license shall not be complete or subject to processing by AT&T MISSOURI until these forms have been submitted to AT&T MISSOURI; provided, however, that such forms shall be deemed to be substantially complete if they contain the information specified in subsections (c)-(g) below, as applicable. Copies of Forms SW-9434 and SW-9435, are attached to this Appendix as parts of Exhibit III.

(c) Each application for a license under this Appendix shall include the following information, at a minimum:

(1) the poles, ducts, and conduits (including all manholes) along CLEC's proposed route to or within which CLEC desires to attach or place its facilities, as well as associated maps and manhole detailed butterfly drawings, windloading, bending moment, vertical loading and associated strand maps;

(2) a description of the facilities to be attached to AT&T MISSOURI's poles and a description of the facilities to be placed within each component of AT&T MISSOURI's conduit system (including but not limited to ducts, conduits, manholes, and handholes) along the proposed route; and

(3) for poles, the proposed points of attachment.

(d) Facilities descriptions which apply to multiple pole attachments or conduit occupancies need only be described once on any form. Facilities descriptions shall include, at a minimum, the following information:

(1) the number and types of cables, including the physical size (diameter) and weight (weight per foot);

(2) the number and types of strands, if any, which will be used to support the cables, including the rated holding capacity expressed in thousand pound increments (e.g., 2.2M) of such strands; and,

(3) sufficient information to identify and describe the physical characteristics (size, dimensions, and weight) of apparatus enclosures and other facilities to be attached to AT&T MISSOURI's poles or placed in AT&T MISSOURI's conduit system.

(e) When it appears to CLEC that facilities modification, capacity expansion, or make-ready work, may be required to accommodate CLEC's access requests, CLEC shall describe the facilities modification, capacity expansion or make-ready work which CLEC proposes. CLEC shall also describe its intent to use any infrequent construction techniques or connectivity solutions under Section 6.03 to avoid high or unusual expenditures and its reasons for the utilization of such techniques or solutions.

(f) CLEC acknowledges that the poles along a particular pole line or route may include poles owned by firms (such as electric utilities) other than AT&T MISSOURI, that it may be necessary for AT&T MISSOURI to rearrange its facilities or perform other make-ready work on poles other than poles it owns or controls in order to accommodate CLEC's request for access to AT&T MISSOURI's poles and that, at the time an application is submitted. CLEC shall identify the owner of all poles on the application along the proposed route. If CLEC does not identify all poles, CLEC may contract with AT&T MISSOURI to do so, at CLEC's expense.

(g) Each application for a license under this Appendix shall be accompanied by a construction schedule showing CLEC's projected dates for beginning and completing construction at the sites specified in the application. Information on this schedule may be used by AT&T MISSOURI's engineering and outside plant construction personnel in scheduling work required to process CLEC's applications and scheduling such capacity expansions, make-ready work, and facilities modifications, if any, as may be necessary to accommodate CLEC's facilities.

9.03 Cooperation in the Application Process. The orderly processing of applications submitted by CLEC and other parties seeking access to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way requires good faith cooperation and coordination between AT&T MISSOURI's personnel and personnel acting on behalf of CLEC and other firms seeking access. The parties therefore agree to the following transitional procedures which shall remain in effect during the term of this Appendix unless earlier modified by mutual agreement of the parties.

(a) Before submitting a formal written application for access to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way, CLEC shall make a good faith determination that it actually plans to attach facilities to or place facilities within the poles, ducts, conduits, or rights-of-way specified in the application. Applications shall not be submitted for the purpose of holding or reserving space which CLEC does not plan to use or for the purpose of precluding AT&T MISSOURI or any other provider of telecommunications services from using such poles, ducts, conduits, or rights-of-way.

(b) CLEC shall only submit applications for access to poles, ducts, conduits, and rights-of-way which it plans to use within one year following the date access is granted and will use its best efforts to submit applications in an orderly manner in accordance with CLEC's needs. If CLEC contemplates the need to submit more than 10 applications within any 45-day period with respect to poles, ducts, conduits, and rights-of-way within the territory of any single AT&T MISSOURI construction district, CLEC shall give AT&T MISSOURI 30 days notice with a priority list as noted in 9.04.

(c) No more than 300 poles (and their associated anchors and anchor/guy strands) shall be the subject of any single pole attachment license application.

(d) No more than 20 manholes shall be the subject of any single conduit occupancy license application.

9.04 CLEC's Priorities. When CLEC has multiple applications on file within a single AT&T MISSOURI construction district, CLEC shall, at AT&T MISSOURI's request, designate its desired priority of completion of pre-license surveys, capacity expansions, make-ready work, and facilities modifications with respect to all such applications.

9.05 Pre-license Survey. A pre-license survey (including a review of records and field inspection, if necessary) will be completed by AT&T MISSOURI after CLEC has submitted its written license application as specified in Section 9.02 of this Appendix. AT&T MISSOURI will not, without due cause and justification, repeat pre-occupancy survey work performed by CLEC.

(a) The field inspection portion of the pre-license survey, which includes the visual inspection of existing pole and conduit facilities, shall be performed by AT&T MISSOURI or its authorized representative. Primary purposes of the field inspection will be to enable AT&T MISSOURI to (1) confirm or determine the facilities modification, capacity expansion, and make-ready work, if any, necessary to accommodate CLEC's facilities; (2) plan and engineer the facilities modification, capacity expansion, and make-ready work, if any, required to prepare AT&T MISSOURI's poles, ducts, conduits, rights-of-way, and associated facilities for CLEC's proposed attachments or occupancy; and (3) estimate the costs associated with such facilities modification, capacity expansion, or make-ready work.

(b) The administrative processing portion of the pre-license survey (which includes processing the application and reviewing records) will be performed by AT&T MISSOURI.

(c) Before performing any portion of the pre-license survey, AT&T MISSOURI shall obtain CLEC's written authorization to perform such work. Authorization may be given, when possible, when the application is submitted.

ARTICLE 10: ISSUANCE AND DENIAL OF LICENSES (INCLUDING FACILITIES MODIFICATIONS, CAPACITY EXPANSIONS, AND MAKE-READY WORK)

10.01 Response Within 45 Days. Within 45 days of CLEC's submission of a license application pursuant to Section 9.02 of this Appendix, or within such other period of time as may be mutually agreed upon in writing by the parties, AT&T MISSOURI shall respond to the application. The response shall state whether the application is being granted or denied. If denial is anticipated, or if AT&T MISSOURI personnel involved in the processing of CLEC's request for access become aware of hazardous substances at the site requested by CLEC, AT&T MISSOURI shall promptly advise CLEC and shall, at CLEC's request, discuss alternatives to denial and issues associated with the presence of such hazardous substances.

(a) If access is granted, AT&T MISSOURI shall, no later than 45 days after CLEC's submission of the license application, further advise CLEC in writing (1) what facilities modifications, capacity expansions, or make-ready work, if any, will be required to prepare AT&T MISSOURI's pole or conduit facilities (2) provide CLEC an estimate of charges for such facilities modifications, capacity expansions, or make-ready work, (3) disclose to CLEC any hazardous substances known by AT&T MISSOURI to be present at the site.

(b) If access is denied, AT&T MISSOURI will confirm the denial in writing by the 45th day after the receipt by AT&T MISSOURI of CLEC's completed application. The denial of access shall be specific, shall include all relevant evidence and information supporting the denial, and shall explain how such evidence and information relates to a denial of access for reasons of lack of capacity, safety, reliability, or generally applicable engineering purposes. If CLEC in its completed application sets forth in writing

specific proposals for expanding capacity, the denial statement shall specifically address such proposals.

(c) CLEC agrees that if, at any time prior to the 45th day, it has determined that it no longer seeks access to specific poles, ducts, or conduit facilities, CLEC shall promptly withdraw or amend its application, thereby minimizing the administrative burdens on AT&T MISSOURI of processing and responding to the application.

10.02 Obligation to Construct or Modify Facilities; Capacity Expansions. The parties agree that AT&T MISSOURI may grant access subject to CLEC's approval of such make-ready work or facilities modifications as may be required to expand capacity to accommodate CLEC's request, in which event CLEC shall either accept such conditions, initiate good faith negotiations to explore other potential accommodations, or withdraw its request for access. If AT&T MISSOURI does not offer to expand capacity and denies CLEC's request for access, AT&T MISSOURI shall promptly notify CLEC of such determination. AT&T MISSOURI shall not deny CLEC's request for access on lack of capacity grounds when capacity can be expanded as provided in this section and in Section 6.03 of this Appendix dealing with infrequent construction techniques and connectivity solutions:

(a) AT&T MISSOURI agrees to modify its outside plant facilities to the extent that CLEC agrees to pay for the modification at cost, such as but not limited to cable consolidations, as long as such modifications are consistent with capacity, safety, reliability, and engineering considerations which AT&T MISSOURI would apply to AT&T MISSOURI if the work were performed for its own benefit. AT&T MISSOURI may recover from CLEC the costs of modifying its outside plant facilities for CLEC's space. AT&T MISSOURI will require payment of the full amount in advance subject to the true-up of the estimated costs with the actual costs.

(b) AT&T MISSOURI agrees to install inner duct in a timely manner to accommodate CLEC's space needs in accordance with the same time interval AT&T MISSOURI provides to itself. If AT&T MISSOURI's interval for beginning or completing make-ready work does not meet CLEC's needs, CLEC, as a qualified contractor, may perform the inner-duct installation itself or utilize subcontractor(s) selected by CLEC from a list of mutually agreeable qualified "bidders" developed by AT&T MISSOURI and CLEC. When inner duct is installed by CLEC or an authorized contractor in AT&T MISSOURI's conduit system, CLEC shall bear all other installation expenses. Inner duct installed by CLEC or an authorized contractor shall be installed in accordance with the same standards and practices which would be followed if the inner duct were being installed by AT&T MISSOURI or AT&T MISSOURI's contractors. CLEC will indemnify AT&T MISSOURI for damages, resulting from CLEC's self-provisioning of the inner-duct.

(c) AT&T MISSOURI agrees to, remove cables that are retired or inactive (dead) to free-up requested duct and pole space, provided that such removal is reasonably feasible (i.e. cable pulls easily without incident). If a section of cable is "frozen" in a duct and would require excavation to remove, CLEC, at its option, may excavate the obstruction or request that AT&T MISSOURI excavate the obstruction. The excavation would be at CLEC's expense

10.04 Performance of Make-ready Work. Except as otherwise specifically provided in Section 10.02 and in this section, make-ready work shall be performed by AT&T MISSOURI or by authorized contractors or other persons acting on AT&T MISSOURI's behalf and shall be performed by AT&T MISSOURI in accordance with the same time intervals which would be applicable if AT&T MISSOURI were performing the work for itself.

(a) CLEC and AT&T MISSOURI will mutually establish and maintain a list of authorized contractors who may be selected by CLEC to perform make-ready work when AT&T MISSOURI's interval for beginning or completing such make ready work does not meet CLEC's needs.

(b) If AT&T MISSOURI's interval for beginning or completing make-ready work does not meet CLEC's needs, CLEC may, as an authorized contractor, perform the make-ready work itself or arrange for the work to be performed by an authorized contractor selected by CLEC from the applicable list of authorized contractors. Subject to the availability of personnel, CLEC may also request that AT&T MISSOURI perform the work on an expedited basis; provided, however, that make-ready work will not be performed on an expedited basis unless CLEC first approves any overtime or premium rates or charges associated with performance of the work on an expedited basis.

(c) From time to time, additional contractors or other vendors may be approved by CLEC and AT&T MISSOURI to perform make-ready work in the event that the workload exceeds the capacity of the authorized contractors on the approved list to perform the make-ready work in a timely manner.

(d) Nothing contained in this section authorizes CLEC, any authorized contractor selected by CLEC, or any other person acting on CLEC's behalf to consolidate AT&T MISSOURI's cables, remove slack, or perform any splicing (wire work) on AT&T MISSOURI's cables.

10.05 Make-ready Work. If AT&T MISSOURI determines that make-ready work will be necessary to accommodate CLEC's facilities, AT&T MISSOURI shall promptly notify CLEC of the make-ready work proposed to enable the accommodation of CLEC's facilities.

(a) The notice shall be given in writing no later than 45 days after the receipt by AT&T MISSOURI of CLEC's completed application pursuant to Section 9.02 of this Appendix or within such other period of time as may be mutually agreed upon in writing by the parties.

(b) The notice will include AT&T MISSOURI's estimate of make-ready charges, which estimate shall be stated on AT&T MISSOURI Form SW-9434 ("Access Application and Make-Ready Authorization"), a copy of which is attached hereto as part of EXHIBIT III.

(c) CLEC shall have 20 days (the "acceptance period") after receiving AT&T MISSOURI's estimate of make-ready charges to authorize completion of the make-ready work proposed by AT&T MISSOURI or to advise AT&T MISSOURI of its willingness to perform the proposed make-ready work itself. If CLEC advises AT&T MISSOURI that it is willing to perform the make-ready work proposed by AT&T MISSOURI in accordance with a design approved by AT&T MISSOURI, and AT&T MISSOURI's specifications, AT&T MISSOURI will not, without due cause and justification, refuse to accept CLEC's offer to perform the work. Authorization shall be accomplished by CLEC's signing the estimate and returning it to AT&T MISSOURI within the 20-day acceptance period.

(d) Within the 20-day acceptance period, the parties may negotiate modifications of the make-ready work to be performed. If the parties reach agreement through negotiation, a new estimate shall be prepared and authorization shall be accomplished by CLEC's signing the revised estimate and returning it to AT&T MISSOURI within the original 20-day acceptance period, or within such period of time as may be mutually agreed upon by the parties.

(e) If CLEC does not sign and return the estimate within the 20-day acceptance period, or within such other period of time as may be mutually agreed upon in writing by the parties, CLEC shall notify AT&T MISSOURI in writing by the 20th day whether CLEC is withdrawing its application, electing to perform

the make-ready work itself as provided in subsection (c) or electing to treat AT&T MISSOURI's make-ready requirements as a denial of access.

(1) If no such notice is given by the 20th day, or such later date as may be mutually agreed upon by the parties, AT&T MISSOURI shall contact CLEC to determine whether CLEC intends to withdraw its application. CLEC shall be deemed to have withdrawn its application if, in response to AT&T MISSOURI's inquiry, CLEC does not immediately sign and return the estimate to AT&T MISSOURI.

(2) If CLEC timely notifies AT&T MISSOURI that it is electing to treat AT&T MISSOURI's make-ready requirements as a denial of access, AT&T MISSOURI shall, within 20 days after receiving the notice, provide CLEC with a written statement explaining its decision to grant access only if the specified make-ready work is performed. The statement shall be specific, shall include all relevant evidence and information supporting AT&T MISSOURI's decision to grant access only if the specified make-ready work is performed, and shall explain how such evidence and information relates to AT&T MISSOURI's decision for reasons of lack of capacity, safety, reliability, or generally applicable engineering purposes. The statement shall also set forth the basis for AT&T MISSOURI's make-ready proposals and specifically address AT&T MISSOURI's rationale for rejecting CLEC's alternative written proposals, if any.

10.06 Multiple Applications. Applications shall be processed on a first-come, first-served basis. Applications filed on the same date shall be treated as having been filed simultaneously and shall be processed accordingly.

10.07 Payments to Others for Expenses Incurred in Transferring or Arranging Their Facilities. CLEC shall make arrangements with the owners of other facilities attached to AT&T MISSOURI's poles or occupying space in AT&T MISSOURI's conduit system regarding reimbursement for any expenses incurred by them in transferring or rearranging their facilities to accommodate the attachment or placement of CLEC's facilities to or in AT&T MISSOURI's poles, ducts, and conduits.

10.08 Reimbursement for the Creation or Use of Additional Capacity. CLEC acknowledges that if any additional capacity is created as a result of make-ready work performed to accommodate CLEC's facilities, CLEC shall not have any preferential right to utilize such additional capacity in the future and shall not be entitled to any fees subsequently paid to AT&T MISSOURI for the use of such additional capacity If AT&T MISSOURI utilizes additional space or capacity created at CLEC's expense, AT&T Missouri will reimburse CLEC on a pro-rata basis for AT&T MISSOURI' share, if any, of CLEC's capacity expansion costs, to the extent reimbursement is required by applicable rules, regulations, and commission orders. AT&T MISSOURI will notify the CLEC if any entity, including AT&T MISSOURI, attaches facilities to additional capacity on AT&T MISSOURI Structure created at CLEC's expense. AT&T MISSOURI shall not be required to collect or remit any such amounts to CLEC, to resolve or adjudicate disputes over reimbursement between CLEC and Other Users

.

10.09 License and Attachment. After all required make-ready work is completed, AT&T MISSOURI will issue a license confirming that CLEC may attach specified facilities to AT&T MISSOURI's poles or place specified facilities in AT&T MISSOURI's conduit system. CLEC shall have access to attach or place only those facilities specifically described in licenses subject to this Appendix, and no others.

ARTICLE 11: CONSTRUCTION OF CLEC'S FACILITIES

11.01 Responsibility for Attaching and Placing Facilities. Each party shall be responsible for the actual attachment of its facilities to AT&T MISSOURI's poles and the actual placement of its facilities in AT&T MISSOURI's ducts, conduits, and rights-of-way and shall be solely responsible for all costs and expenses incurred by it or on its behalf

in connection with such activities. In this regard, each party shall be solely responsible for (a) paying all persons and entities who provide materials, labor, access to real or personal property, or other goods or services in connection with the construction and attachment of its facilities and (b) directing the activities of all such personnel while they are physically present on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, conduits, and rights-of-way.

11.02 Construction Schedule. After the issuance of a license, CLEC shall provide AT&T MISSOURI with an updated construction schedule and shall thereafter keep AT&T MISSOURI informed of anticipated changes in the construction schedule. Construction schedules received by AT&T MISSOURI shall be subject to the provisions of Article 27 of this Appendix (Confidentiality of Information). Construction schedules required by this section shall include, at a minimum, the following information:

(a) the name, title, business address, and business telephone number of the manager responsible for construction of the facilities;

(b) the names of each contractor and subcontractor that will be involved in the construction activities;

(c) the estimated dates when construction will begin and end; and

(d) the approximate dates when CLEC or personnel working on CLEC's behalf will be performing construction work in connection with the attachment of CLEC's facilities to AT&T MISSOURI's poles or the placement of CLEC's facilities in any part of AT&T MISSOURI's conduit system.

ARTICLE 12: USE AND ROUTINE MAINTENANCE OF CLEC'S FACILITIES

12.01 Use of CLEC's Facilities. Each license granted under this Appendix authorizes CLEC to have access to CLEC's facilities on or within AT&T MISSOURI's poles, ducts, and conduits as needed for the purpose of serving CLEC's customers.

12.02 Routine Maintenance of CLEC's Facilities. Each license granted under this Appendix authorizes CLEC to engage in routine maintenance of facilities located on or within AT&T MISSOURI's poles, ducts, and conduits pursuant to such license. Routine maintenance does not include the replacement or modification of CLEC's facilities in any manner which results in CLEC's attachments differing substantially in size, weight, or physical characteristics from the attachments described in CLEC's license.

12.03 Installation of Drive Rings and J-Hooks. CLEC may install drive rings and J-hooks on AT&T MISSOURI's poles for the attachment of drop wires as specified in this section.

(a) Drive rings and J-hooks may be installed as specified in pole attachment licenses issued to CLEC.

(b) If attachment space has already been licensed to CLEC on a given AT&T MISSOURI pole, CLEC may install drive rings and J-hooks within the space assigned to CLEC (e.g., typically six inches above and six inches below CLEC's point of attachment on the pole if the point of attachment is in the center of the space assigned to CLEC) without applying for or obtaining a new or amended license. No additional attachment charges shall apply with respect to drive rings and J-hooks installed in CLEC's licensed attachment space.

12.04 Short-term Use of Maintenance Ducts for Repair and Maintenance Activities. Maintenance ducts shall be available, on a nondiscriminatory basis, for short-term (not to exceed 30 days) non-emergency maintenance or repair activities by any person or entity (including but not limited to AT&T MISSOURI, CLEC, other local service providers, and

other joint users) with facilities in the conduit section in which the maintenance duct is located; provided, however, that use of the maintenance duct for non-emergency maintenance and repair activities must be scheduled by AT&T MISSOURI. A person or entity using the maintenance duct for non-emergency maintenance or repair activities shall immediately notify AT&T MISSOURI of such use and must either vacate the maintenance duct within 30 days or, with AT&T MISSOURI's consent, which consent shall not be unreasonably withheld, rearrange its facilities to ensure that at least one full-sized replacement maintenance duct (or, if a designated maintenance duct was an inner duct, a suitable replacement inner duct) is available for use by all occupants in the conduit section within 30 days after such party occupies the maintenance duct. Cables temporarily placed in the maintenance duct on a non-emergency basis shall be subject to such accommodations as may be necessary to rectify emergencies which may occur while the maintenance duct is occupied.

12.05 Responsibility for Maintenance of Facilities. Each party shall be solely responsible for maintaining its own facilities and (a) paying all persons and entities who provide materials, labor, access to real or personal property, or other goods or services in connection with the maintenance of such party's facilities and (b) directing the activities of all such personnel while they are physically present on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, conduits, and rights-of-way.

12.06 Information Concerning the Maintenance of CLEC's Facilities. Promptly after the issuance of a license, CLEC shall provide AT&T MISSOURI with the name, title, business address, and business telephone number of the manager responsible for routine maintenance of CLEC's facilities and shall thereafter notify AT&T MISSOURI of changes to such information. The manager responsible for routine maintenance of CLEC's facilities shall, on AT&T MISSOURI's request, identify any authorized contractor or other person performing maintenance activities on CLEC's behalf at a specified site.

ARTICLE 13: MODIFICATION OF CLEC'S FACILITIES

13.01 Notification of Planned Modifications. CLEC shall notify AT&T MISSOURI in writing at least 30 days before adding to, relocating, replacing or otherwise modifying its facilities attached to a pole, or located in any AT&T MISSOURI duct or conduit. The notice shall contain sufficient information to enable AT&T MISSOURI to determine whether the proposed addition, relocation, replacement, or modification is permitted under CLEC's present license or requires a new or amended license. No notice shall be required for such routine modifications as the installation or placement of drive rings or J-hooks, terminals, and other ancillary apparatus routinely used in providing service to customers, having no effect on the structural integrity of AT&T MISSOURI's poles, ducts, or conduits, and having no effect on the ability of AT&T MISSOURI or joint users to use or have access to AT&T MISSOURI's poles, ducts, conduits, or rights-of-way.

13.02 New or Amended License Required. A new or amended license will be required if the proposed addition, relocation, replacement, or modification:

(a) requires that CLEC occupy additional space on AT&T MISSOURI's poles (except on a temporary basis in the event of an emergency);

(b) requires that CLEC occupy additional space (other than space in the maintenance duct in accordance with Sections 12.04, 13.03, and 15.02 of this Appendix) in any AT&T MISSOURI duct or conduit except on a temporary basis in the event of an emergency;

(c) results in the facilities attached being different from those described as authorized attachments in CLEC's present application, current license, notice of intent to occupy, or license application and supplemental documentation (e.g., different duct or size increase causing a need to re-calculate storm loadings, guying, or pole class);

(d) requires additional holding or loading capacity on a permanent basis.

13.03 Use of Maintenance Duct in Connection with Facility Modifications and Replacements. Non-emergency access to the maintenance duct in connection with facilities modifications and replacements shall be subject to the provisions of Section 12.04 of this Appendix.

13.04 Replacement of Facilities and Spinning/Overlashing Additional Cables. CLEC may replace existing facilities with new facilities occupying the same pole, duct, or conduit space, and may spin or overlash additional cables to its own existing facilities; provided, however, that such activities shall not be considered to be routine maintenance and shall be subject to the requirements of this article. CLEC will be required to ensure pole loadings are not exceeded.

13.05 Streamlined Procedures for the Issuance of Amended Licenses. AT&T MISSOURI may streamline procedures for the issuance of amended licenses with respect to proposed additions, relocations, replacements, or modifications of CLEC's facilities when it appears to AT&T MISSOURI that the proposed additions, relocations, replacements, or modifications will not require make-ready work by AT&T MISSOURI, will not interfere with AT&T MISSOURI's use of its poles, conduit systems, or facilities attached or connected thereto or contained therein, and will not interfere with the use of existing facilities attached or connected thereto or contained therein by joint users.

ARTICLE 14: REARRANGEMENT OF CLEC'S FACILITIES

14.01 Notice of Planned Modifications. The parties acknowledge that the Pole Attachment Act recites in part that "Whenever the owner of a pole, duct, conduit, or right-of-way intends to modify or alter such pole, duct, conduit, or right-of-way, the owner shall provide written notification of such action to any entity that has obtained an attachment to such conduit or right-of-way so that such entity may have a reasonable opportunity to add to or modify its existing attachment." The parties further acknowledge that the FCC, in its First Report and Order in CC Docket No. 96-98, recites that "... absent a private agreement establishing notification procedures, written notification of a modification must be provided to parties holding attachments on the facility to be modified at least 60 days prior to the commencement of the physical modification itself." This article is intended by the parties to alter the above-described notification requirements only as provided in Section 14.02(b) below.

14.02 Rearrangement of CLEC's Facilities at AT&T MISSOURI's Request. CLEC acknowledges that, from time to time, it may be necessary or desirable for AT&T MISSOURI to rearrange facilities on or within its poles or conduit systems, change out poles, add poles to a pole line, relocate or reconstruct poles, pole lines, conduit segments, or conduit runs, enlarge manholes, reinforce conduit, or otherwise modify poles, pole lines, or portions of its conduit system and that such changes may be necessitated by AT&T MISSOURI's own business needs or by factors outside of AT&T MISSOURI's control, such as the decision by a municipality to widen streets or the decision by another person or entity to seek access to AT&T MISSOURI's poles, ducts, conduits, or rights-of-way.

(a) CLEC agrees that CLEC will cooperate with AT&T MISSOURI and joint users in making such rearrangements as may be necessary to enable such changes to be made and that costs incurred by CLEC in making such rearrangements shall, in the absence of a specific agreement to the contrary, be borne by the parties in accordance with then-applicable statutes, rules, regulations, and commission orders, including the Pole Attachment Act and rules, regulations and commission orders thereunder.

(b) CLEC shall make all rearrangements of its facilities within 60 days after receiving written notification by AT&T MISSOURI of the required rearrangements. AT&T MISSOURI may request that such modification be made within a shorter period of time, in which event CLEC shall not refuse to comply such request without due cause and justification. In determining due cause and justification, the following factors, among others, may be considered:

(1) the circumstances under which the rearrangements are sought (e.g., street-widening project, request by a competing provider for access);

(2) the timeliness of AT&T MISSOURI's request to CLEC;

(3) the nature and number of rearrangements sought;

(4) the impact on the ability of the parties and joint users to meet customer service needs; and

(5) risks of service interruption to customers of the parties and joint users.

(c) Nothing contained in this article shall preclude CLEC from advising AT&T MISSOURI, within 60 days from the date of the notice, of its desire to add to or modify its existing attachments.

ARTICLE 15: EMERGENCY REPAIRS AND POLE REPLACEMENTS

15.01 Applicability. The parties acknowledge that in the event of an emergency, services provided by the parties and joint users to their respective customers may be interrupted, that it may not be possible for all service providers with facilities attached to AT&T MISSOURI's poles to restore service to all customers at the same time, that disputes may arise between the parties concerning the manner in which emergency repairs shall be made, that it is essential that decisions be made quickly and that it is highly desirable that all service providers utilizing AT&T MISSOURI's poles, ducts, and conduits enter into appropriate arrangements relating to emergency repairs and service restoration. In the absence of prearranged agreements it is expected that disputes will be immediately resolved at the site among the affected parties based upon the criteria set forth in Section 15.05 of this Appendix. The parties further agree that the provisions of this article shall apply in the absence of more comprehensive agreements relating to emergency repairs.

15.02 Responsibility for Emergency Repairs; Access to Maintenance Duct. In general, each party plans and practices which will enable it to make such emergency repairs.

(a) Nothing contained in this Appendix shall be construed as requiring either party to perform any repair or service restoration work of any kind with respect to the other party's facilities or the facilities of joint users.

(b) Maintenance ducts shall be available, on a nondiscriminatory basis, for emergency repair activities by any person or entity (including but not limited to AT&T MISSOURI, CLEC, other local service providers, and other joint users) with facilities in the conduit section in which the maintenance duct is located; provided, however, that a party using the maintenance duct for emergency repair activities shall immediately notify AT&T MISSOURI of such use and must either vacate the maintenance duct within 30 days or, with AT&T MISSOURI's consent, which consent shall not be unreasonably withheld, rearrange its facilities to ensure that at least one full-sized replacement maintenance duct (or, if a designated maintenance duct was an inner duct, a suitable replacement inner duct) is available for use by all occupants in the conduit section within 30 days after such party occupies the maintenance duct. The parties agree not to exceed 30 days' use except in unusual emergencies that may require longer than 30 days to rectify.

(c) If necessary, other unoccupied ducts may be used on a short-term basis when the maintenance duct is unavailable. Any such use shall be subject to the same rules applicable to the maintenance duct and shall be subject to the rights of any party or joint user to whom such duct has been assigned.

15.03 Designation of Emergency Repair Coordinators and Other Information. For each AT&T MISSOURI construction district, CLEC shall provide AT&T MISSOURI with the emergency contact number of CLEC's designated point of contact for coordinating the handling of emergency repairs of CLEC's facilities and shall thereafter notify AT&T MISSOURI of changes to such information.

15.04 Reporting of Conditions Requiring Emergency Repairs. CLEC shall notify AT&T MISSOURI at the earliest practicable opportunity after discovering any condition on or in any of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way requiring emergency repairs to AT&T MISSOURI's facilities and AT&T MISSOURI shall notify CLEC at the earliest practicable opportunity after discovering any condition on or in any of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way requiring emergency repairs to CLEC's facilities.

15.05 Order of Precedence of Work Operations; Access to Maintenance Duct and Other Unoccupied Ducts in Emergency Situations. When notice and coordination are practicable, AT&T MISSOURI, CLEC, and other affected parties shall coordinate repair and other work operations in emergency situations involving service disruptions. Disputes will be immediately resolved at the site by the affected parties in accordance with the following principles:

(a) Emergency service restoration work requirements shall take precedence over other work operations.

(b) Except as otherwise agreed upon by the parties, restoration of lines for emergency services providers (e.g., 911, fire, police, and hospital lines) shall be given the highest priority and temporary occupancy of the maintenance duct (and, if necessary, other unoccupied ducts) shall be assigned in a manner consistent with this priority. Secondary priority shall be given to restoring services to the local service providers with the greatest numbers of local lines out of service due to the emergency being rectified. The parties shall exercise good faith in assigning priorities and shall base their decisions on the best information then available to them at the site in question, and may, by mutual agreement at the site, take other factors into consideration in assigning priorities and sequencing service restoration activities.

(c) AT&T MISSOURI shall determine the order of precedence of work operations and assignment of duct space in the maintenance duct (and other unoccupied ducts) only if the affected parties are unable to reach prompt agreement; provided, however, that these decisions shall be made by AT&T MISSOURI on a nondiscriminatory basis in accordance with the principles set forth in this section.

15.06 Unilateral Corrective Action. When AT&T MISSOURI or CLEC reasonably believes that, due to the condition of either party's facilities placed on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way, there is an immediate or imminent threat to the safety or health of employees or any other person, to the physical integrity or functioning of AT&T MISSOURI's or CLEC's facilities, or AT&T MISSOURI's or CLEC's ability to meet its service obligations, AT&T MISSOURI or CLEC may unilaterally perform such limited corrective work as may be necessary to prevent or mitigate against the injury threatened. For example, if facilities have become detached or partially detached from a pole, or detached or partially detached from supporting racks or wall supports within a manhole, AT&T MISSOURI or CLEC may reattach them as provided in this section but shall not be obligated to do so.

(a) Before performing any corrective work involving facilities, AT&T MISSOURI or CLEC shall attempt to notify the other party. After such notice has been given, the parties shall coordinate corrective work.

(b) When an emergency situation exists such that advance notice and coordination are not practicable, AT&T MISSOURI or CLEC may perform corrective work without first giving notice to the other, and shall promptly notify the other of the corrective work performed and the reason why notice was not given.

15.07 Emergency Pole Replacements. CLEC agrees to cooperate fully with AT&T MISSOURI when emergency pole replacements are required.

(a) When emergency pole replacements are required, AT&T MISSOURI shall promptly make a good faith effort to contact CLEC to notify CLEC of the emergency and to determine whether CLEC will respond to the emergency in a timely manner.

(b) If notified by AT&T MISSOURI that an emergency exists which will require the replacement of a pole, CLEC shall transfer its facilities immediately, provided such transfer is necessary to rectify the emergency. If the transfer is to a AT&T MISSOURI replacement pole, the transfer shall be in accordance with AT&T MISSOURI's placement instructions.

(c) If CLEC is unable to respond to the emergency situation immediately, CLEC shall so advise AT&T MISSOURI and thereby authorize AT&T MISSOURI (or any joint user sharing the pole with AT&T MISSOURI) to perform such emergency-necessitated transfers (and associated facilities rearrangements) on CLEC's behalf.

15.08 Expenses Associated with Emergency Repairs. Each party shall bear all reasonable expenses arising out of or in connection with any emergency repairs of its facilities and transfers or rearrangements of its facilities associated with emergency pole replacements made in accordance with the provisions of this article.

(a) Each party shall be solely responsible for paying all persons and entities who provide materials, labor, access to real or personal property, or other goods or services in connection with any such repair, transfer, or rearrangement of such party's facilities.

(b) CLEC agrees to reimburse AT&T MISSOURI for the costs incurred by AT&T MISSOURI for work performed by AT&T MISSOURI on CLEC's behalf in accordance with the provisions of this article; provided, however, that when the costs incurred by AT&T MISSOURI are for work performed in part for CLEC and in part for AT&T MISSOURI and third parties, CLEC shall only reimburse AT&T MISSOURI for CLEC's share of the costs.

ARTICLE 16: INSPECTION BY AT&T MISSOURI OF CLEC'S FACILITIES

16.01 AT&T MISSOURI's Right to Make Periodic or Spot Inspections. AT&T MISSOURI shall have the right, but not the duty, to make periodic or spot inspections at any time of CLEC's facilities attached to AT&T MISSOURI's poles or placed within AT&T MISSOURI's ducts, conduits, or rights-of-way. Such inspection may be conducted for the purpose of determining whether facilities attached to AT&T MISSOURI's poles or placed in AT&T MISSOURI's conduit system are in compliance with the terms of this Appendix and licenses hereunder, AT&T MISSOURI may charge CLEC for inspection expenses only if the inspection reflects that CLEC is in substantial noncompliance with the terms of this Appendix. If the inspection reflects that CLEC's facilities are not in compliance with the terms of this Appendix, CLEC shall bring its facilities into compliance promptly after being notified of such noncompliance and shall notify AT&T MISSOURI in writing when the facilities have been brought into compliance.

16.02 Report of Inspection Results. AT&T MISSOURI will provide CLEC the results of any inspection of CLEC's facilities performed under Section 16.01 of this Appendix.

16.03 Post-Construction Inspections. AT&T TEXAS, at CLEC's expense, may conduct a post-construction inspection of CLEC's attachment to AT&T TEXAS' poles, conduits or rights-of-way for the purpose of determining the conformance of the attachments to the occupancy permit. AT&T TEXAS will provide CLEC advance written notice of

proposed date and time of the post-construction inspection. CLEC may accompany AT&T TEXAS on the post-construction inspection.

ARTICLE 17: TAGGING OF FACILITIES AND UNAUTHORIZED ATTACHMENTS

17.01 Facilities to Be Marked. CLEC shall tag or otherwise mark all of CLEC's facilities placed on or in AT&T MISSOURI's poles, ducts, conduits, and rights-of-way in a manner sufficient to identify the facilities as CLEC's facilities.

17.02 Removal of Untagged or Unauthorized Facilities. Subject to the provisions of subsections (a)-(c) of this section, AT&T MISSOURI may, without notice to any person or entity, remove from AT&T MISSOURI's poles or any part of AT&T MISSOURI's conduit system any untagged or unmarked facilities, including any such facilities owned or used by CLEC, if AT&T MISSOURI determines that such facilities are not the subject of any current license authorizing their continued attachment to AT&T MISSOURI's poles or occupancy of AT&T MISSOURI's conduit system and are not otherwise lawfully present on AT&T MISSOURI's poles or in AT&T MISSOURI's conduit system.

(a) Before removing any such untagged or unmarked facilities, AT&T MISSOURI shall first attempt to determine whether the facilities are being used by CLEC or any other firm, are authorized by any license subject to this Appendix, or are otherwise lawfully present on AT&T MISSOURI's poles or in AT&T MISSOURI's conduit system.

(b) AT&T MISSOURI shall not remove untagged or unmarked facilities which are thought to be operational without first making reasonable efforts to (1) determine the identity of the owner or other person or entity thought to be responsible for the facilities and (2) give advance written notice to such person or entity.

(c) If the facilities appear to be facilities which are subject to a current license granted to CLEC under this Appendix, or if the facilities are otherwise lawfully present on AT&T MISSOURI's poles or in AT&T MISSOURI's conduit system, AT&T MISSOURI shall give written notice to CLEC requesting CLEC to tag or mark the facilities within 60 days and CLEC shall either tag the facilities within 60-day period, advise AT&T MISSOURI in writing of its schedule for tagging the facilities, or notify AT&T MISSOURI in writing that it disclaims ownership of or responsibility for the facilities. If CLEC disclaims ownership of or responsibility for the facilities, CLEC shall disclose to AT&T MISSOURI the identity of the owner or other party thought by CLEC to be responsible for the facilities.

(d) If any of CLEC's facilities for which no license is presently in effect are found attached to AT&T MISSOURI's poles or within any part of AT&T MISSOURI's conduit system or rights-of-way, AT&T MISSOURI shall send a written notice to CLEC advising CLEC that no license is presently in effect with respect to the facilities. Within 30 days of receiving such notice, CLEC shall acknowledge receipt of the notice and submit to AT&T MISSOURI, in writing, an application for a new or amended license with respect to such facilities. CLEC shall be liable to AT&T MISSOURI for all fees and charges associated with the unauthorized attachments. Such fees and charges shall continue to accrue until the unauthorized attachments are removed from AT&T MISSOURI's poles, conduits or rights-of-way or until a new or amended occupancy permit is issued and shall include, but not be limited to, all fees and charges which would have been due and payable if CLEC and its predecessors had continuously complied with all applicable AT&T MISSOURI licensing requirements. In addition, CLEC shall be liable for an unauthorized attachment and/or occupancy fee in the amount of five hundred dollars ($500.00) per unauthorized pole attachment and five hundred dollars ($500.00) per unauthorized conduit foot. CLEC shall also rearrange or remove its unauthorized facilities at AT&T MISSOURI's request to comply with applicable placement standards and shall remove its facilities from any space occupied by

or assigned to AT&T MISSOURI or another entity within 30 days of receiving notice to do so. CLEC shall pay AT&T MISSOURI for all costs incurred by AT&T MISSOURI in connection with any rearrangements, modifications or replacements necessitated as a result of the presence of CLEC's unauthorized facilities. All fees and charges associated with the unauthorized attachments shall be due and payable 30 days after the date of the bill or invoice stating such fees and charges. If CLEC does not obtain a new or amended license with respect to unauthorized facilities within the specified period of time, AT&T MISSOURI shall by written notice advise CLEC to remove its unauthorized facilities within 60 days from the date of notice and CLEC shall remove the facilities within the time specified in the notice. If the facilities have not been removed within the time specified in the notice, AT&T MISSOURI may, at AT&T MISSOURI's option, remove CLEC's facilities at CLEC's expense.

17.03 Updating of Plant Location Records. CLEC shall furnish AT&T MISSOURI, upon request, with such information as may from time to time be necessary for AT&T MISSOURI to correct and update AT&T MISSOURI's pole and conduit maps and records, cable plat maps, and other plant location records, if any, recording or logging assignments of pole, duct, and conduit space.

ARTICLE 18: REMOVAL OF CLEC'S FACILITIES

18.01 Responsibility for Removing Facilities. CLEC shall be responsible for and shall bear all expenses arising out of in connection with the removal of its facilities from AT&T MISSOURI's poles, ducts, conduits, and rights-of-way. Such removals shall be performed in accordance with the provisions of this article.

(a) CLEC shall give AT&T MISSOURI, when practicable, at least 30 days' advance notice in writing of its intent to remove facilities from any part of AT&T MISSOURI's conduit system and the proposed method of removal. The notice shall include the locations of the facilities to be removed, the name, telephone number of the manager responsible for the removal of the facilities, and the estimated dates when the removal of the facilities will begin and end.

(b) CLEC shall, if requested by AT&T MISSOURI to do so, place a pull mandrel (slug) through all or any specified part of the duct which was occupied by CLEC.

(c) Except as otherwise agreed upon in writing by the parties, CLEC must, after removing its facilities, plug all previously occupied ducts at the entrances to AT&T MISSOURI's manholes (if AT&T MISSOURI would itself plug the ducts under the same circumstances) in accordance with the standards set by AT&T MISSOURI for its operations, provided that such standards have been communicated in writing to CLEC at least 10 days in advance of the removal of CLEC's facilities.

(d) CLEC shall be solely responsible for the removal of its own facilities and for (1) paying all persons and entities which provide materials, labor, access to real or personal property, or other goods or services in connection with the removal of CLEC's facilities from AT&T MISSOURI's poles, ducts, conduits, or rights-of-way and (2) directing the activities of all such personnel while they are physically present on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way.

(e) When CLEC no longer intends to occupy space on a pole or in a conduit CLEC will provide written notification to AT&T MISSOURI that it wishes to terminate the license with respect to such space and will remove its facilities from the space described in the notice. Upon removal of CLEC's facilities, the license shall terminate and the space shall be available for reassignment.

18.02 Removal of Facilities Not in Active Use. At AT&T MISSOURI's request, CLEC shall remove from AT&T MISSOURI's poles, ducts, conduits, and rights-of-way any of CLEC's facilities which are no longer in active use; provided,

however, that CLEC shall not be required to remove such facilities when due cause and justification exists for allowing them to remain in place. CLEC shall not be required to remove retired or inactive (dead) cables that have been overlashed by other facilities which remain in active use unless removal expenses are paid by the person or entity requesting removal of such facilities. CLEC shall not be required to remove cables that would require excavation to remove unless the person or entity requesting removal of such cables bears the expenses of such excavation in a manner analogous to the provisions of Section 10.02(c) of this Appendix. CLEC shall not abandon any of its facilities by leaving them on AT&T MISSOURI's poles, in AT&T MISSOURI's ducts, conduits, or rights-of-way, at any location where they may block or obstruct access to AT&T MISSOURI's poles or any part of AT&T MISSOURI's conduit system, or on any public or private property (other than property owned or controlled by CLEC) in the vicinity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way.

18.03 Removal Following Termination of License. CLEC shall remove its facilities from AT&T MISSOURI's poles, ducts, conduits, or rights-of-way within 60 days, or within such other period of time as shall be mutually agreeable to the parties, after termination of the license authorizing the attachment of such facilities to AT&T MISSOURI's poles or the placement of such facilities in AT&T MISSOURI's ducts, conduits, or rights-of-way.

18.04 Removal Following Replacement of Facilities. Except as provided in Section 18.02, CLEC shall remove facilities no longer in service from AT&T MISSOURI's poles or conduit system within 60 days, or within such other period of time as shall be mutually agreeable to the parties, after the date CLEC replaces existing facilities on a pole or in a conduit with substitute facilities on the same pole or in the same conduit; provided, however, that removal of facilities from the maintenance duct shall be governed by Sections 12.04, 13.03, and 15.02 of this Appendix and not by this subsection.

18.05 Notice of Completion of Removal Activities. CLEC shall give written notice to AT&T MISSOURI stating the date on which the removal of its facilities from AT&T MISSOURI's poles, ducts, conduits, and rights-of-way has been completed. Charges shall continue to accrue with respect to such facilities until CLEC's facilities have been removed, pull mandrels (slugs) have been pulled if required by Section 18.01(b) of this Appendix, CLEC has plugged all previously occupied ducts at the entrances to AT&T MISSOURI's manholes as required by Section 18.01(c) of this Appendix, and the notice required by this section has been given.

18.06 Notice of AT&T MISSOURI's Intent to Remove Facilities. If CLEC fails to remove its facilities from AT&T MISSOURI's poles or conduit system, in accordance with the provisions of Sections 18.01 and 18.05 of this Appendix, AT&T MISSOURI may remove such facilities 60 days after giving CLEC written notice of its intent to do so. The notice shall state:

(a) the date when AT&T MISSOURI plans to commence removal of CLEC's facilities, and that CLEC may remove the facilities at CLEC's sole cost and expense at any time before the date specified;

(b) AT&T MISSOURI's plans with respect to disposition of the facilities removed; and

(c) that CLEC's failure to remove the facilities or make alternative arrangements with AT&T MISSOURI for removal and disposition of the facilities shall constitute an abandonment of the facilities and of any interest therein.

18.07 Removal of Facilities by AT&T MISSOURI. If AT&T MISSOURI removes any of CLEC's facilities pursuant to this article, CLEC shall reimburse AT&T MISSOURI for AT&T MISSOURI's costs in connection with the removal, storage, delivery, or other disposition of the removed facilities.

18.08 Reattachment or Subsequent Attachment Following Removal. After CLEC's facilities have been properly removed pursuant to the provisions of this article, neither the removed facilities nor replacement facilities shall be

attached to AT&T MISSOURI's poles or placed in AT&T MISSOURI's conduit system until CLEC has first submitted new applications for the facilities and complied with the provisions of this Appendix.

18.09 Termination of Licenses After Removal of Facilities. CLEC agrees to provide written notice to AT&T MISSOURI when it ceases to use facilities attached to AT&T MISSOURI's poles or placed in any part of AT&T MISSOURI's conduit system. Upon the giving of such notice and the removal of such facilities, CLEC's license with respect to such facilities and the space occupied by those facilities shall terminate.

ARTICLE 19: RATES, FEES, CHARGES, AND BILLING

19.01 Rates and Administrative Fees. The following rates and administrative fees shall apply during the terms of the parties' Interconnection Agreement and shall not be increased or decreased except as provided herein or by Commission order.

(a) Rates for Pole Attachments and Conduit Occupancy. In accordance with the Missouri Public Service Commission's arbitration order in Case No. TO-97-40, CLEC shall pay AT&T MISSOURI rates of $2.35 per year per pole attachment and $0.40 per duct foot per year for conduit occupancy, until such time as the Federal Communications Commission promulgates amended rules governing pole attachment and conduit occupancy rates. Conduit occupancy rates apply to manhole occupancy, calculated to the center point of the manhole. Pole attachment and conduit occupancy rates charged by AT&T MISSOURI to CLEC under this Appendix will then be adjusted in accordance with the FCC's rules on a going-forward basis.

(b) Administrative Fees. As provided by the Missouri Public Service Commission's arbitration order in Case No. TO-97-40, AT&T MISSOURI shall be allowed to charge administrative fees to CLEC. The amount charged by AT&T MISSOURI to CLEC for administrative fees shall be identical to the amount charged by AT&T MISSOURI to CATV providers. Further, in accordance with the Missouri Public Service Commission's arbitration order in Case No. TO-97-40, if the FCC promulgates rules governing the assessment of administrative fees, those rules shall apply to administrative fees charged by AT&T MISSOURI to CLEC on a going-forward basis.

(c) Partial Duct and Inner Duct Occupancy Rates. AT&T MISSOURI's rates for partial duct and inner duct occupancy shall be determined in accordance with the Pole Attachment Act and applicable rules, regulations, and Commission orders thereunder. Partial duct and inner duct rates shall be standardized rather than determined on a case-by-case basis which requires individual analysis of conduit sections occupied. If two or more cable facilities occupy a duct that has not been subdivided by inner duct, a half-duct occupancy rate will apply for each cable facility placed in the duct. A half-duct occupancy rate will apply to the first facility placed by CLEC in a previously unoccupied duct that has not been subdivided by inner duct if the presence of CLEC's cable facility does not render the other half of the duct unusable by others. A half-duct rate shall apply to each inner duct occupied. If the FCC promulgates rules governing rates for partial duct and inner duct occupancy, those rules shall apply, on a going forward basis, to partial duct and inner duct occupancy rates charged to CLEC by AT&T MISSOURI under this Appendix.

19.02 This section intentionally left blank.

19.03 Semiannual Attachment and Occupancy Fees. AT&T MISSOURI's semiannual fees for attachments to AT&T MISSOURI's poles and occupancy of AT&T MISSOURI's ducts and conduits are specified in Exhibit I. For all

attachments to AT&T MISSOURI's poles and occupancy of AT&T MISSOURI's ducts and conduits, CLEC agrees to pay AT&T MISSOURI's semiannual charges as specified in Exhibit I.

19.04 Billing for Attachment and Occupancy Fees. Semiannual attachment and occupancy fees under this Appendix and licenses issued hereunder shall be payable in advance. Fees for pole attachments shall be based on the number of pole attachments for which licenses have been issued as of the date of billing by AT&T MISSOURI, shall be determined in accordance with the schedule of charges set forth in Exhibit I, and shall be payable semiannually in advance. Fees for conduit occupancy shall be based on the number of duct feet subject to occupancy by CLEC under licenses issued as of the date of billing by AT&T MISSOURI, shall be determined in accordance with the schedule of charges set forth in Exhibit I, and shall be payable semiannually in advance. Pole attachment and conduit occupancy space assigned to CLEC prior to the issuance of a license shall be billed in the same manner as if a license had been issued.

(a) Bills shall be submitted to CLEC for two semiannual billing periods, the first period including charges for the months of January through June and the second including charges for the months of July through December.

(b) Charges associated with newly licensed pole attachments and conduit occupancy shall be prorated on a daily basis and billed with the next semiannual bill.

(c) Charges shall be adjusted and retroactively prorated on a daily basis following the removal of CLEC's facilities (in accordance with Article 18) and shall be retroactively adjusted as a credit on the next semiannual bill.

19.05 Pre-license Survey Fees. With respect to pre-license surveys conducted by AT&T MISSOURI pursuant to Section 9.05 of this Appendix, AT&T MISSOURI may charge CLEC cost-based pre-license survey fees pursuant to such methodologies as shall be approved by the Missouri Public Service Commission following the filing by AT&T MISSOURI of any required study providing cost justification for the imposition of pre-license survey fees.

19.06 Make-Ready Charges. CLEC agrees to pay make-ready charges, if any, as specified in this section. AT&T MISSOURI may recover from CLEC the costs of make-ready work performed by AT&T MISSOURI or persons acting on AT&T MISSOURI's behalf. AT&T MISSOURI may not require payment of the full amount in advance. CLEC will pay half of AT&T MISSOURI's make-ready charges after 50% completion of work, and the remainder at completion. Bills and invoices submitted by AT&T MISSOURI to CLEC for make ready charges shall be due and payable 30 days after the date of the bill or invoice.

19.06A Charges for Work Performed by AT&T MISSOURI Employees. Except as otherwise specifically required by applicable commission orders, AT&T MISSOURI's charges to CLEC for worked performed by AT&T MISSOURI employees pursuant to this Appendix shall be computed by multiplying the fully loaded hourly rates for such employees times the number of hours required to perform the work. Disputes over AT&T MISSOURI's charges for work performed by AT&T MISSOURI employees, including disputes between the parties concerning the number of hours required to perform the work, shall be subject to the dispute resolution procedures of Article 30. Notwithstanding the execution of this Appendix, CLEC shall have the right to challenge the methodology utilized by AT&T MISSOURI to determine hourly rates for AT&T MISSOURI employees at any time in any forum having jurisdiction over the subject matter.

19.07 Due Date for Payment. For all fees and charges other than make ready charges, each bill or invoice submitted by AT&T MISSOURI to CLEC for any fees or charges under this Appendix shall state the date that payment is due, which date shall be not less than 60 days after the date of the bill or invoice. CLEC agrees to pay each such bill or invoice on or before the stated due date.

ARTICLE 20: PERFORMANCE AND PAYMENT BONDS

20.01 Bond May Be Required. AT&T MISSOURI may require CLEC, authorized contractors, and other persons acting on CLEC's behalf to execute performance and payment bonds (or provide other forms of security) in amounts and on terms sufficient to guarantee the performance of their respective obligations arising out of or in connection with this Appendix only as provided in subsections (a)-(b) of this section. Bonds shall not be required for entities meeting all self-insurance requirements of Section 22.02 of this Appendix.

(a) If CLEC elects to perform facilities modification, capacity expansion, or make-ready work under Section 6.08(c) or Sections 10.02-10.05 of this Appendix, AT&T MISSOURI may require CLEC, authorized contractors, and other persons acting on CLEC's behalf to execute bonds equivalent to those which would be required by AT&T MISSOURI if the work had been performed by contractors, subcontractors, or other persons selected directly by AT&T MISSOURI. No bonds shall be required of CLEC, authorized contractors, or other persons acting on CLEC's behalf except in those situations where a bond would be required if the work were being performed on AT&T MISSOURI's behalf.

(b) No other bond shall be required of CLEC to secure obligations arising under this Appendix in the absence of due cause and justification.

(c) If a bond or similar form of assurance is required of CLEC, an authorized contractor, or other person acting on CLEC's behalf, CLEC shall promptly submit to AT&T MISSOURI, upon request, adequate proof that the bond remains in full force and effect and provide certification from the company issuing the bond that the bond will not be canceled, changed or materially altered without first providing AT&T MISSOURI 60 days written notice.

(d) AT&T MISSOURI may communicate directly with the issuer of any bond issued pursuant to this section to verify the terms of the bond, to confirm that the bond remains in force, and to make demand on the issuer for payment or performance of any obligations secured by the bond.

ARTICLE 21

(RESERVED)

ARTICLE 22: INSURANCE

22.01 Insurance Required. CLEC shall comply with the insurance requirements specified in this section.

(a) Unless CLEC has provided proof of self-insurance as permitted in Section 22.02 below, CLEC shall obtain and maintain in full force and effect, for so long as this Appendix remains in effect, insurance policies specified in Exhibit IV of this Appendix. Each policy shall name AT&T MISSOURI as an additional insured and shall include provisions requiring the insurer to give AT&T MISSOURI notice of any lapse, cancellation, or termination of the policy or any modification to the policy affecting AT&T MISSOURI's rights under the policy, including but not limited to any decrease in coverage or increase in deductibles.

(b) Exclusions from coverage or deductibles, other than those expressly permitted in EXHIBIT IV, must be approved in writing by AT&T MISSOURI.

(c) Authorized contractors and other contractors performing work on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way on CLEC's behalf shall be required to meet the same insurance requirements applicable to contractors performing similar work on AT&T MISSOURI's behalf. CLEC shall be responsible for securing compliance by its contractors with this requirement and shall be liable to AT&T MISSOURI for any damages resulting from its failure to do so.

(d) Self-insurance shall be permitted for persons and entities (including but not limited to CLEC and authorized contractors) meeting the self-insurance requirements set forth in Section 22.02 of this Appendix.

22.02 Proof of Insurance or Self-insurance. Proof of insurance or self-insurance shall be made pursuant to the provisions of this section.

(a) CLEC shall submit to AT&T MISSOURI adequate proof (as determined by AT&T MISSOURI) that the companies insuring CLEC are providing all coverages required by this Appendix. CLEC's insurers shall provide AT&T MISSOURI with certifications that the required coverages will not be canceled, changed, or materially altered (e.g., by increasing deductibles or altering exclusions from coverages) except after 30 days written notice to AT&T MISSOURI.

(b) AT&T MISSOURI will accept certified proof of a person or entity's qualification as a self-insurer for Workers' Compensation and Employers Liability, where self-insurance is permitted, upon receipt of a current copy of a Certificate of Authority to Self-insure issued by the Workers' Compensation Commission of this State. AT&T MISSOURI will accept self-insurance by a person or entity in lieu of other Commercial General Liability and Automobile Liability Coverage if such person or entity warrants that its net worth, as shown by its most recent audited financial statement with no negative notes, is a least 10 times the minimum liability limits set forth in Exhibit IV and AT&T MISSOURI is satisfied that such person or entity will be able to meet its liability obligations under this Appendix.

22.03 Licensing Contingent on Proof of Insurance. All insurance required in accordance with Exhibit IV, or self-insurance as permitted in Section 22.02, must be in effect before AT&T MISSOURI will issue pole attachment or conduit occupancy licenses under this Appendix and shall remain in force until all of CLEC's facilities have been removed from AT&T MISSOURI's poles, ducts, conduits, and rights-of-way.

22.04 Failure to Obtain or Maintain Coverage. CLEC's failure to obtain and maintain the required levels and types of insurance coverage required under this Appendix may be grounds for termination of this Appendix and licenses subject to policies of insurance required under this Appendix will be canceled or changed in any manner which will result in CLEC's failure to meet the requirements of this Appendix, AT&T MISSOURI may terminate this Appendix and all licenses subject to this Appendix not less than 60 days after giving CLEC written notice of its intention to do so, and such termination shall be effective on the termination date specified in the notice unless CLEC has obtained (or made arrangements satisfactory to AT&T MISSOURI to obtain) the required coverage from another source. In the alternative, AT&T MISSOURI may, in its sole discretion, elect to take such action as may be necessary to keep the policy in effect with the required coverages.

ARTICLE 23

(RESERVED)

ARTICLE 24: TERMINATION OF AGREEMENT OR LICENSES; REMEDIES FOR BREACHES

24.01 Termination of Appendix Due to Non-Use of Facilities. CLEC shall, by written notice to AT&T MISSOURI, terminate this Appendix if CLEC ceases to do business in this State, or ceases to make active use of AT&T MISSOURI's poles, ducts, conduits, and rights-of-way in this State.

24.02 Limitation, Termination, or Refusal of Access Due to Certain Material Breaches. CLEC's access to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way will not materially interfere with or impair service over any facilities of AT&T MISSOURI or any joint user, cause material damage to AT&T MISSOURI's plant or the plant of any joint user, impair the privacy of communications carried over the facilities of AT&T MISSOURI or any joint user, or create serious hazards to health or safety of any persons working on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, rights-of-way or to the public. Upon reasonable notice and opportunity to cure, AT&T MISSOURI may limit, terminate or refuse access if CLEC violates this provision; provided, however, that such limitation, termination or refusal will be limited to CLEC's access to poles, ducts, conduits, and rights-of-way located in the AT&T MISSOURI construction district in which the violation occurs, shall be as narrowly limited in time and geographic scope as may be necessary to enable CLEC to adopt suitable controls to prevent further violations, and shall be subject to review, at CLEC's request, pursuant to the dispute resolution procedures set forth in this Appendix (or, if applicable, the parties' Interconnection Agreement) or, as permitted by law, before any court, agency, or other tribunal having jurisdiction over the subject matter. In the event CLEC invokes dispute resolution procedures or seeks review before a court, agency, or other tribunal having jurisdiction over the subject matter, the limitation, termination, or refusal of access may be stayed or suspended by agreement of the parties or by order of the tribunal having jurisdiction over the parties' dispute.

24.03 Notice and Opportunity to Cure Breach. In the event of any claimed breach of this Appendix by either party, the aggrieved party may give written notice of such claimed breach as provided in this section.

(a) The notice shall set forth in reasonable detail:

(1) the conduct or circumstances complained of, together with the complaining party's legal basis for asserting that a breach has occurred;

(2) the action believed necessary to cure the alleged breach; and

(3) any other matter the complaining party desires to include in the notice.

(b) Except as provided in Section 24.02 and subsection (c) of this section, the complaining party shall not be entitled to pursue any remedies available under this Appendix or relevant law unless such notice is given and (1) the breaching party fails to cure the breach within 30 days of such notice, if the breach is one which can be cured within 30 days, or (2) the breaching party fails to commence promptly and pursue diligently a cure of the breach, if the required cure is such that more than 30 days will be required to effect such cure; provided, however, that nothing contained in this section shall preclude either party from invoking the dispute resolution procedures set forth in Article 30 of this Appendix, or any complaint or dispute resolution procedures offered by the FCC or State Commission, at any time.

(c) Nothing contained in this section shall preclude either party from filing a complaint or bringing suit in any court, agency, or other tribunal of competent jurisdiction to restrain or enjoin any conduct of the

other party which threatens the complaining party with irreparable injury, loss or damage without first giving the notice otherwise required by subsection (b).

ARTICLE 25

(RESERVED)

ARTICLE 26

(RESERVED)

ARTICLE 27: CONFIDENTIALITY OF INFORMATION

27.01 Information Provided by CLEC to AT&T MISSOURI. Except as otherwise specifically provided in this Appendix, all company-specific and customer-specific information submitted by CLEC to AT&T MISSOURI in connection with this Appendix (including but not limited to information submitted in connection with CLEC's applications for the assignment of pole attachment and occupancy space and for pole attachment and conduit occupancy licenses) shall be deemed to be "Confidential" or "Proprietary" information of CLEC and shall be subject to the terms set forth in this article. Confidential or Proprietary information specifically includes information or knowledge related to CLEC's review of records regarding a particular market area, or relating to assignment of space to CLEC in a particular market area, and further includes knowledge or information about the timing of CLEC's request for or review of records or its inquiry about AT&T MISSOURI facilities. This article does not limit the use by AT&T MISSOURI of aggregate information relating to the occupancy and use of AT&T MISSOURI's poles, ducts, conduits, and rights-of-way by firms other than AT&T MISSOURI (that is, information submitted by CLEC and aggregated by AT&T MISSOURI in a manner that does not directly or indirectly identify CLEC).

27.02 Access Limited to Persons with a Need to Know. Confidential or Proprietary information provided by CLEC to AT&T MISSOURI in connection with this Appendix shall not be disclosed to, shared with, or accessed by any person or persons (including but not limited to personnel involved in sales, marketing, competitive intelligence, competitive analysis, strategic planning, and similar activities) other than those who have a need to know such information for the limited purposes set forth in Sections 28.03 to 28.06.

27.03 Permitted Uses of CLEC's Confidential or Proprietary Information. AT&T MISSOURI and persons acting on AT&T MISSOURI's behalf, except for personnel involved in sales, marketing, competitive intelligence, competitive analysis, strategic planning, and similar activities, may utilize CLEC's Confidential or Proprietary information for the following purposes (a) posting information, as necessary, to AT&T MISSOURI's outside plant records; (b) placing, constructing, installing, operating, utilizing, maintaining, monitoring, inspecting, repairing, relocating, transferring, conveying, removing, or managing AT&T MISSOURI's poles, ducts, conduits, and rights-of-way and any AT&T MISSOURI facilities located on, within, or in the vicinity of such poles, ducts, conduits, and rights-of-way; (c) performing AT&T MISSOURI's obligations under this Appendix and similar agreements with third parties; (d) performing AT&T MISSOURI's general obligations to afford nondiscriminatory access to telecommunications carriers and cable television systems under the Pole Attachment Act; (e) determining which of AT&T MISSOURI's poles, ducts, conduits, and rights-of-way are (or may in the future be) available for AT&T MISSOURI's own use, and making planning, engineering, construction, and budgeting decisions relating to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way; (f) preparing cost studies; (g) responding to regulatory requests for information; (h) maintaining AT&T MISSOURI's financial accounting records; and (i) complying with other legal requirements relating to poles, ducts, conduits, and rights-of-way.

27.04 Access by Third Parties. Information reflecting the assignment of pole attachment and conduit occupancy space to CLEC may be made available to personnel of third parties seeking access to AT&T MISSOURI's

records under provisions, and subject to protections, equivalent to those contained in and required by Section 7.03 of this Appendix.

27.05 Defense of Claims. In the event of a dispute between AT&T MISSOURI and any person or entity, including CLEC, concerning AT&T MISSOURI's performance of this Appendix, satisfaction of obligations under similar agreements with third parties, compliance with the Pole Attachment Act, compliance with the Telecommunications Act of 1996, or compliance with other federal, state, or local laws, regulations, commission orders, and the like, AT&T MISSOURI may utilize Confidential or Proprietary information submitted by CLEC in connection with this Appendix as may be reasonable or necessary to demonstrate compliance, protect itself from allegations of wrongdoing, or comply with subpoenas, court orders, or reasonable discovery requests; provided, however, that AT&T MISSOURI shall not disclose CLEC's Proprietary or Confidential Information without first, at AT&T MISSOURI's option, (a) obtaining an agreed protective order or nondisclosure agreement that preserves the confidential and proprietary nature of the information; (b) seeking such a protective order as provided by law if no agreed protective order or nondisclosure agreement can be obtained; or (c) providing CLEC notice of the subpoena or order and the opportunity to protect the Proprietary or Confidential Information.

27.06 Response to Subpoenas, Court Orders, and Agency Orders. Nothing contained in this article shall be construed as precluding AT&T MISSOURI from complying with any subpoena, civil or criminal investigative demand, or other order issued or entered by a court or agency of competent jurisdiction; provided, however, that AT&T MISSOURI shall not disclose CLEC's proprietary or confidential information without first, at AT&T MISSOURI's option: (a) obtaining an agreed protective order or nondisclosure agreement that preserves the confidential and proprietary nature of CLEC's information; (b) seeking such a protective order as provided by law if no agreed protective order or nondisclosure agreement can be obtained; or (c) providing CLEC notice of the subpoena, demand, or order and an opportunity to take affirmative steps of its own to protect such proprietary or confidential information.

27.07 Other Uses of Confidential Information. No other uses of Confidential or Proprietary information received from CLEC pursuant to this Appendix are authorized or permitted without CLEC's express written consent.

EXHIBIT I

POLE AND CONDUIT ATTACHMENT RATES

AT&T MISSOURI may charge reasonable, cost based ancillary fees to recover administrative costs incurred in processing MCIm's request for pole attachments and conduit space pursuant to SEC. 224 of the Telecommunications Act of 1996. The pole and conduit rates will be calculated using the FCC Rate formula on an annual basis as described in *47 C.F.R. 1.14.* These rates will be communicated to MCIm no later than November 1st for the succeeding year.

EXHIBIT II

IDENTIFICATION OF APPLICANT (MISSOURI)

This Exhibit is an integral part of the Master Agreement for Access to Poles, Ducts, Conduits, and Rights-of-Way to which it is attached.

Applicant's legal name is: MCImetro Access Transmission Services LLC.

Applicant's principal place of business is located in the State of Virginia.

Applicant does business under the following assumed names:

_____.

Applicant is:

[x] a corporation organized under the laws of the State of Delaware, charter no. _____;

[ ] a partnership organized under the laws of the State of _____; or

[ ] another entity, as follows: _____.

Applicant represents that Applicant is:

[ ] (1) a cable system (as defined in 47 U.S.C. §§ 153(37) and 522(7)) seeking a pole attachment or conduit occupancy license solely to provide cable service (as defined in 47 U.S.C. § 522(6));

[ ] (2) a telecommunications carrier, as defined in 47 U.S.C. § 153(49), as modified by 47 U.S.C. § 224; or

[ ] (3) a person or entity which is neither (1) nor (2) above, as follows:

EXHIBIT III

ADMINISTRATIVE FORMS AND NOTICES (MISSOURI)

This Exhibit is an integral part of the Master Agreement for Access to Poles, Ducts, Conduits, and Rights-of-Way to which it is attached and contains administrative forms referred to in the Master Agreement or used in connection with the provision of access to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way. The forms are forms presently in use and have not been fully conformed to the Master Agreement. The forms may be further revised by AT&T MISSOURI to conform to the Master Agreement and revised from time to time to reflect changes in the applicable law, changes in the Master Agreement, and changes in the procedures through which access to poles, ducts, conduits, and rights-of-way is afforded by AT&T MISSOURI to CLEC and others.

SW-9433: Pole Attachments

SW-9434: Access Application and Make-Ready Authorization

SW-9435: Conduit Occupancy

SW-9436A: Notification of Surrender or Modification of Pole Attachment License by Licensee

SW-9436B: Notification of Surrender or Modification of Conduit Occupancy License by Applicant

SW-9436C: Notification of Unauthorized Attachments by Applicant

EXHIBIT IV

INSURANCE REQUIREMENTS (MISSOURI)

This Exhibit is an integral part of the Master Agreement for Access to Poles, Ducts, Conduits, and Rights-of-Way to which it is attached.

1) Premises. As used in this Exhibit, the term "premises" refers to any site located on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way and any location where CLEC or any person acting on CLEC's behalf may be physically present while traveling to or departing from any such site.

2) Requirements Applicable to CLEC and All Persons and Entities Acting on CLEC's Behalf. CLEC shall maintain, at all times during the term of this Agreement, all insurance and coverages set forth below. Such insurance and coverages shall not only cover CLEC but all contractors, subcontractors, and other persons or entities acting on CLEC's behalf at the premises described in 1) above. CLEC should require that all contractors, subcontractors, and other persons or entities acting on CLEC's behalf at premises described in 1) above obtain the same insurance and coverages.

3) Workers' Compensation Insurance. CLEC shall maintain, at all times during the term of the Agreement, Workers' Compensation Insurance and Employer's Liability Insurance with minimum limits of $100,000 for bodily injury-each accident, $100,000 for bodily injury by disease-each employee, and $500,000 for bodily injury by disease-policy limits, for all employees performing work or otherwise present on the premises described in 1) above. Such insurance must comply with the Workers' Compensation laws of this State and shall provide coverage, at a minimum, for all benefits required by such Worker's Compensation laws. CLEC shall require any contractor, subcontractor, or other person or entity acting on CLEC's behalf to provide Workers' Compensation Insurance and Employer's Liability Insurance for their respective employees unless such employees are covered by the protection afforded by CLEC.

4) General Liability Insurance. To protect AT&T MISSOURI from any liability for bodily injury or property damage, CLEC shall maintain, at all times during the term of the Master Agreement, General Liability insurance satisfactory to AT&T MISSOURI. AT&T MISSOURI shall be added as an additional insured in the standard policy or an endorsement thereto. CLEC shall also require any contractor, subcontractor, or other person or entity acting on CLEC's behalf to provide General Liability coverage with the same limits and with AT&T MISSOURI added as an additional insured unless such contractor, subcontractor, or other person or entity is covered by the General Liability protection afforded by CLEC.

a) The following coverages must be included in (and may not be excluded from) the policy or policies obtained to satisfy the General Liability insurance requirements of CLEC and any contractor, subcontractor, or other person or entity acting on CLEC's behalf. The coverages may be provided by the standard policy or endorsements thereto. Exclusion endorsements deleting these coverages will not be accepted.

   1) Personal Injury and Advertising Injury coverage.

   2) Premises/Operations coverage, including also coverage for any newly acquired ownership or controlled premises or operations.

   3) Independent Contractors coverage to provide protection for CLEC's contractors, subcontractors, and other persons or entities acting on CLEC's behalf.

   4) Explosion, Collapse, and Underground Hazard (XCU) coverage.

5) Completed Operations coverage providing for bodily injury and property damage liabilities which may occur once the operations have been completed or abandoned.

6) Contractual Liability coverage to provide financial responsibility for CLEC to meet its indemnification obligations.

7) Broad Form Property Damage (BFPD) coverage for damage to property in the care or custody of CLEC and damage to work performed by or on behalf of CLEC.

b) Minimum policy limits shall be as follows:

General Aggregate Limit: $1,000,000.

Sublimit for all bodily injury, property damages, or medical expenses incurred in any one occurrence: $1,000,000.

Sublimit for personal injury and advertising: $1,000,000.

Products/Operations Aggregate Limit: $1,000,000.

Each occurrence sublimit for Products/Operations: $1,000,000.

c) No coverage shall be deleted from the standard policy without notification of individual exclusions being attached for review and acceptance.

d) Policy language or endorsements adding AT&T MISSOURI as an additional insured shall not include exclusions or exceptions which defeat the purpose of protecting AT&T MISSOURI from any liability for bodily injury or property damage arising out of CLEC's operations.

5) Automobile Liability Insurance. The parties contemplate that CLEC and personnel acting on CLEC's behalf will utilize automobiles, trucks, and other motor vehicles on public and private property, including public rights-of-way, in the vicinity of AT&T MISSOURI's poles, ducts, conduits, and rights-of-way. Accordingly, CLEC shall maintain, at all times during the term of the Agreement, Automobile Liability insurance with minimum limits of $1,000,000 combined single limits per occurrence for bodily injury and property damage which may arise out of the operation or use of motor vehicles of any type. Coverage shall extend to "any auto" -- that is, coverage shall be extended to all owned, non-owned, and hired vehicles used by CLEC or by any person or entity acting on CLEC's behalf in connection with any work performed, or to be performed, on, within, or in the vicinity of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way.

6) Layering of General Liability and Automobile Liability coverages. CLEC's insurance may be written via a primary policy with either an excess or umbrella form over the primary policy. If coverage is written in this manner, the total of the combined policy limits must meet or exceed the minimum limits specified in the Agreement.

7) Deductibles. No deductibles shall be allowed without the express written consent of AT&T MISSOURI.

8) Claims Made Policies. Claims Made Policies will not be accepted.

9) Proof of Insurance. Certificates of Insurance stating the types of insurance and policy limits provided the insured, or other proof of insurance satisfactory to AT&T MISSOURI, must be received by AT&T MISSOURI prior to the issuance of any licenses pursuant to the Agreement and before CLEC or any person acting on CLEC's behalf performs any work on the premises described in 1) above.

a) Certificates of Insurance using the insurance industry standard ACORD form are preferred.

b) Certificates provided with respect to General Liability policies and certificates provided with respect to Automobile Liability policies shall indicate AT&T MISSOURI as an Additional Insured.

c) Deductibles, if permitted, shall be listed on the Certificate of Insurance.

d) The cancellation clause on the certificate of insurance shall be amended to read as follows:

"SHOULD ANY OF THE ABOVE DESCRIBED POLICIES BE CANCELLED OR MATERIALLY CHANGED BEFORE THE EXPIRATION DATE, THE ISSUING COMPANY WILL MAIL 30 DAYS WRITTEN NOTICE TO THE CERTIFICATE HOLDER NAMED TO THE LEFT."

A certificate which does not include the phrase "or materially changed" does not meet AT&T MISSOURI's requirements. A certificate reciting that the issuing company will "endeavor to" mail 30 days written notice to the certificate holder does not meet AT&T MISSOURI's requirements. The language "but failure to mail such notice shall impose no obligation or liability of any kind upon the company, its agents, or representatives" or similar language must be deleted from the certificate.

e) The certificate holder shall be:

Southwestern Bell Telephone Company
12930 Olive Street Road, Floor 2
Creve Couer, Missouri 63141
ATTENTION: Utility Liaison Supervisor

f) Failure to object to any coverage described in a certificate shall not constitute written permission from AT&T MISSOURI to any variance from or alteration of any requirement set forth in this Exhibit and shall not be construed as a waiver by AT&T MISSOURI of any rights under the Agreement.

10) Rating of Insurers. AT&T MISSOURI requires that companies affording insurance coverage have a B+VII or better rating, as rated in the current A.M. Best Key Rating Guide for Property and Casualty Insurance Companies.

11) Self-insurance. If authorized in the Master Agreement, self-insurance shall be allowed in lieu of the above requirements upon CLEC's submission of proof that it has met the self-insurance requirements stated in the Master Agreement.

EXHIBIT V

NONDISCLOSURE AGREEMENT (MISSOURI)

Nondisclosure Agreement (AT&T MISSOURI Pole, Duct, Conduit, and Right-of-Way)

This Nondisclosure Agreement, effective as of the ___ day of _____, 20__, has been entered into by and between Southwestern Bell Telephone Company d/b/a ("AT&T MISSOURI"), a Texas Limited Partnership, and the undersigned person or firm ("Recipient") as a condition of access to certain records and information maintained by AT&T MISSOURI. The parties stipulate and agree as follows:

1) AT&T MISSOURI maintains records and information, including but not limited to outside plant engineering and construction records, which relate to poles, ducts, conduits, and rights-of-way which AT&T MISSOURI owns or controls. AT&T MISSOURI represents that such records and information are not made generally available for inspection or copying by the public and include business, economic, and engineering information (including but not limited to plans, designs, maps, diagrams, cable counts and cable-specific information, circuit records, and other competitively sensitive information) which AT&T MISSOURI intends to keep secret and which has economic value by virtue of not being generally known to or readily ascertainable by the public, including AT&T MISSOURI's competitors.

2) AT&T MISSOURI has agreed to make certain of its records and information relating to poles, ducts, conduits, and rights-of-way available to cable television systems and telecommunications carriers who are presently entitled under federal law to have access to the poles, ducts, conduits, and rights-of-way owned or controlled by AT&T MISSOURI.

3) Recipient represents that Recipient is a cable television system or telecommunications carrier entitled under federal law to access to poles, ducts, conduits, and rights-of-way owned or controlled by AT&T MISSOURI, or, if an individual, that he or she is acting on behalf of _____, which is such a cable television system or telecommunications carrier. Recipient further represents that Recipient is seeking access to AT&T MISSOURI's records and information relating to poles, ducts, conduits, and rights-of-way for the limited purpose of enabling engineering and construction personnel employed by or acting on behalf of such cable television system or telecommunications carrier to make engineering and construction decisions necessary to utilize AT&T MISSOURI's poles, ducts, conduits, and rights-of-way.

4) AT&T MISSOURI agrees that permitted uses of records and information concerning AT&T MISSOURI's poles, ducts, conduits, and rights-of-way are (a) determining which poles, ducts, conduits, and rights-of-way owned or controlled by AT&T MISSOURI are available for use by such cable television systems or telecommunications carriers as permitted by federal law, (b) designing, engineering, constructing, installing, maintaining, and removing equipment which is to be attached to or placed within such poles, ducts, conduits, and rights-of-way, and (c) contesting decisions, if any, by AT&T MISSOURI not to provide access to such poles, ducts, conduits, and rights-of-way as requested. No other uses of such records or information are authorized or permitted under this Agreement.

5) Recipient agrees that Recipient will not use, or permit any other person or entity to use or have access to AT&T MISSOURI's records and information relating to poles, ducts, conduits, or rights-of-way or information for any purpose other than the limited purposes stated in 4) above and that such records and information shall not be disclosed or shared with any person or persons other than those who have a need to know such information for such limited purposes. Recipient specifically agrees that such records and information shall not be used or accessed by any person involved in sales, marketing, competitive intelligence, competitive analysis, strategic planning, and similar activities. Recipient further agrees that Recipient shall not furnish copies of such records or disclose information contained in such

records to any person or entity which has not executed and delivered to AT&T MISSOURI a counterpart of this Agreement prior to receipt of such copies or information.

6) Recipient agrees that Recipient will not without AT&T MISSOURI's express written authorization copy, duplicate, sketch, draw, photograph, download, photocopy, scan, replicate, transmit, deliver, send, mail, communicate, or convey any of AT&T MISSOURI's records relating to poles, ducts, conduits, or rights-of-way. Recipient further agrees that Recipient will not conceal, alter, or destroy any AT&T MISSOURI records furnished to Recipient pursuant to this Agreement.

7) Notwithstanding the provisions of 6) above, and except as provided in 8) below, Recipient may copy, take notes from, make, and use (for the limited purposes specified herein) drawings with reference to the following records provided by AT&T MISSOURI to Recipient for inspection: pole and conduit route maps, cable plat maps, and plant location records reflecting approximate locations of AT&T MISSOURI's existing poles, ducts, conduits, and rights-of-way. All such copies, notes, and drawings (whether in hardcopy or electronic form) shall be marked with the legend: "PROPRIETARY INFORMATION: NOT FOR USE BY OR DISCLOSURE TO ANY PERSON WHO HAS NOT EXECUTED A NONDISCLOSURE AGREEMENT (AT&T MISSOURI POLE, DUCT, CONDUIT, AND RIGHT-OF-WAY)."

8) No references to cable counts, cable designations or cable-specific information, circuit information, or customer-specific information of any kind may be included in any copies, notes, or drawings made pursuant to 7) above; provided, however, that Recipient may make estimates regarding the physical characteristics (such as size and weight) of the cables being surveyed when necessary to make engineering determinations regarding the capacity, safety, reliability, or suitability of AT&T MISSOURI's poles, ducts, conduits, or rights-of-way for Recipient/Applicant's intended uses.

9) All records and information relating to poles, ducts, conduits, and rights-of-way provided to Recipient/Applicant by AT&T MISSOURI (whether in writing, orally, or in electronic or other formats) shall be deemed to be proprietary information subject to this Agreement without regard to whether such information, at the time of disclosure, has been marked with restrictive notations such as "Proprietary," "Restricted Proprietary," "Confidential," "Not to Be Copied or Reproduced," or the like.

10) This Agreement applies only to records and information provided to Recipient by AT&T MISSOURI and does not apply to records and information obtained by Recipient from other lawful sources.

11) This Agreement does not prohibit the disclosure of records or information in response to subpoenas and/or orders of a governmental agency or court of competent jurisdiction. In the event Recipient receives an agency or court subpoena requiring such disclosure, Recipient shall immediately, and in no event later than five calendar days after receipt, notify AT&T MISSOURI in writing.

12) The Parties agree that, in the event of a breach or threatened breach of this Agreement, AT&T MISSOURI may seek any and all relief available in law or in equity as a remedy for such breach, including but not limited to monetary damages, specific performance, and injunctive relief. The Parties acknowledge that AT&T MISSOURI's records and information relating to poles, ducts, conduits, and rights-of-way include valuable and unique information and that disclosure of such information (including circuit information) will result in irreparable injury to AT&T MISSOURI. In the event of any breach of this Agreement for which legal or equitable relief is sought, AT&T MISSOURI shall be entitled to recover from Recipient all reasonable attorney's fees and other reasonable costs (including but not limited to fees of expert witnesses) incurred by AT&T MISSOURI in connection with the prosecution of its claims against Recipient.

13) This Agreement shall be effective on the effective date shown above and shall remain in full force and effect until terminated by either party as provided herein. Either party may, at any time, with or without cause, terminate this Agreement by giving the other party 60 days' advance written notice of its decision to terminate. The parties further agree

that termination of this Agreement shall have no effect on the duty of any person or entity, including Recipient, to abide by all terms of this Agreement with respect to records and information received by Recipient while this Agreement is in effect.

14) This Agreement shall benefit and be binding on the parties below and their respective heirs, successors, and assigns.

15) This Agreement will be governed by the laws of the State of Missouri.

16) This Agreement sets forth the entire agreement and understanding between the parties with respect to the subject matter hereof, and none of the terms of this Agreement may be amended or modified except by written instrument signed by both parties.

EXHIBIT VI

NOTICES TO CLEC

(MISSOURI)

EXHIBIT VII

NOTICES TO AT&T MISSOURI

(MISSOURI)

This Exhibit is an integral part of the Master Agreement for Access to Poles, Ducts, Conduits, and Rights-of-Way to which it is attached.

Utility Liaison Supervisor (ULS). Except as otherwise stated in this Exhibit, all notices to AT&T MISSOURI shall be given to the Utility Liaison Supervisor (ULS) designated in EXHIBIT VIII of the Master Agreement. The Utility Liaison Supervisor is generally responsible for coordinating applications for access to AT&T MISSOURI's poles, ducts, conduits, and rights-of-way and serving as CLEC's initial point of contact for matters arising out of or in connection with the administration of the Master Agreement. Notices to the ULS shall be given in writing in the manner prescribed in Section 29.02. Notices to be sent to the ULS include, but are not limited to, notices under the following provisions of the Master Agreement.

7.01 Notification of Designation of Primary Point of Contact

7.03(a) Notification of intent to review records

8.XX All Notifications in Article 8

9.XX All Notifications in Article 9

10.05(e) Notification Regarding Make-Ready Work

12.03(d) Notification of placing J-hook on non-licensed pole

12.04 Notification of occupation of maintenance duct for short-term use

12.06 Notification of CLEC's maintenance contact

13.01 Notification of planned modifications

14.02(c) Notification of CLEC's desire to add to or modify its existing attachment

15.02(b) Notification of occupation of maintenance duct for short-term emergency use

15.03 Notification of emergency repair coordinators

16.01 Notification that facilities have been brought into compliance

17.02(c) Disclaimer of ownership or responsibility for untagged facilities

18.01(a) Notice of intent to remove facilities

18.01(e) Notice of intent to terminate license

18.06 Notification of AT&T MISSOURI's intent to remove CLEC's facilities

20.01(c) Notification of change of bond

24.01 Notification of termination

24.03 Notification of cure of breach

Other notices. The following notices may be given orally or in writing (including fax) and shall be given to AT&T MISSOURI's Local Service Provider Center (LSPC) at 1-800-486-5598 instead of the ULS.

6.05(a) Notifications relating to electrical interference

6.09(h) Notifications of unsafe conditions

6.11(a) Notification of manhole entry

6.13(c) Notification of environmental contaminants

10.02(b) Notification of materials required for self-provisioning of inner duct

15.04 Notification of conditions requiring emergency repair

15.06(a) Notification of performing corrective work on emergency repair. (advanced notice)

15.06(b) Notification of performing corrective work on emergency repair. (no advanced notice)

Additional information and questions concerning notice requirements. The ULS, as CLEC's initial point of contact, will provide additional information to CLEC concerning notification procedures for notices to be given to LSPC. Questions to AT&T MISSOURI concerning notice requirements should be directed to the ULS. The ULS is not authorized to provide CLEC legal advice with respect to notice requirements. Questions by CLEC's personnel and other persons acting on CLEC's behalf concerning CLEC's legal obligations should be directed to CLEC's legal counsel or such other personnel as CLEC may direct.

Changes in notice requirements. Changes in the notice requirements set forth in this Exhibit may be made by AT&T MISSOURI from time to time in accordance with the provisions of Section 29.03 of the Master Agreement.

1 INTRODUCTION

1.1 This Appendix Unbundled Network Elements (UNE) sets forth the terms and conditions pursuant to which AT&T MISSOURI agrees to furnish MCIm with access to unbundled Network Elements under Section 251(c)(3) of the Act in AT&T MISSOURI's incumbent local exchange areas for the provision of Telecommunications Services by MCIm (hereafter, "sec. 251(c)(3) UNEs") and access to other Network Elements and services, including 271 Elements as defined in Section 7.7 of this Appendix UNE. At MCIm's request, AT&T MISSOURI shall provide nondiscriminatory access to sec. 251(c)(3) UNEs at any technically feasible point on rates, terms and conditions that are just, reasonable and nondiscriminatory in accordance with the terms of this Appendix. AT&T MISSOURI shall provide such sec. 251(c)(3) UNEs in a manner that allows MCIm to combine such elements in order to provide a Telecommunications Service.

1.1.1 Sec. 251(c)(3) UNEs and Declassification. Anything to the contrary in this Appendix UNE notwithstanding, in the event any legislative or administrative body of competent jurisdiction (including the FCC and the Commission) or any court of competent jurisdiction promulgates legally effective statutes, rules, regulations or orders which materially affect any provision of this Appendix UNE or either Party's obligations under Applicable Law, then the Parties shall continue to comply with all obligations set forth in this Appendix UNE until the Agreement is amended in accordance with the requirements of Section 23 (Intervening Law) of the general terms and conditions.

1.1.2 Intentionally Omitted.

1.1.3 Intentionally Omitted.

1.1.4 Intentionally Omitted.

1.2 Intentionally Omitted.

1.3 MCIm may request new, undefined sec. 251(c)(3) UNEs in accordance with the Bona Fide Request Process.

1.4 The prices at which AT&T MISSOURI agrees to provide MCIm with sec. 251(c)(3) UNEs are contained in the applicable Appendix Pricing.

1.5 Intentionally Omitted.

2 GENERAL TERMS AND CONDITIONS

2.1 AT&T MISSOURI and MCIm agree that MCIm may connect its facilities or facilities provided to MCIm by third-parties with AT&T MISSOURI's network at any point designated by MCIm, provided such point is technically feasible, for access to sec. 251(c)(3) UNEs for the provision by MCIm of a Telecommunications Service.

2.2 AT&T MISSOURI will provide MCIm nondiscriminatory access to sec. 251(c)(3) UNEs :

2.2.1 at any technically feasible point;

2.2.2 at the rates, terms, and conditions which are just, reasonable, and nondiscriminatory;

2.2.3 in a manner that allows MCIm to provide a Telecommunications Service that may be offered by means of that sec. 251(c)(3) UNEs ;

2.2.4 in a manner that allows access to all features, functions and capabilities of a requested sec. 251(c)(3) UNEs to be provided separately from access to other elements, and for a separate charge;

2.2.5 with technical information about AT&T MISSOURI's network facilities sufficient to allow MCIm to achieve access to sec. 251(c)(3) UNEs consistent with the requirements of this Appendix;

2.2.6 without limitations, restrictions, or requirements on requests that would impair MCIm's ability to provide a Telecommunications Service in a manner it intends;

2.2.7 in a manner that allows MCIm purchasing access to sec. 251(c)(3) UNEs to use such sec. 251(c)(3) UNEs to provide exchange access service to itself in order to provide inter-exchange services to subscribers;

2.2.8 where applicable, terms and conditions of access to sec. 251(c)(3) UNEs shall be no less favorable than terms and conditions under which AT&T MISSOURI provides such elements to itself;

2.2.9 Intentionally Omitted.

2.2.10 Except upon request of MCIm, AT&T MISSOURI shall not separate MCIm-requested sec. 251(c)(3) UNEs that are currently combined. (47 CFR § 51.315(b)). AT&T MISSOURI is not prohibited from or otherwise limited in separating any sec. 251(c)(3) UNEs not requested by MCIm or a Telecommunications Carrier, including without limitation in order to provide a sec. 251(c)(3) UNEs or other AT&T MISSOURI offering(s). At MCIm's request, AT&T MISSOURI shall provide combinations of unbundled Network Elements in accordance with the requirements of this Section, other applicable requirements of this Agreement and Applicable Law, including 47 CFR Section 315. AT&T MISSOURI may not require MCIm to own or control any local exchange facilities as a condition of offering to MCIm any Network Element or combination. AT&T MISSOURI may not require MCIm to combine Network Elements. AT&T MISSOURI shall not separate Network Elements that are already combined on AT&T MISSOURI's Network unless requested by MCIm.

2.3 MCIm may use a Network Element or a combination of Network Elements (including, without limitation, all network elements referred to as a sec. 251(c)(3) UNE under this Agreement) for the provision of any Telecommunications Services; provided, however, that MCIm may not use a Network Element or combination (including, without limitation, all network elements referred to as a sec. 251(c)(3) UNE under this Agreement) to provide exclusively mobile wireless telecommunications service or interexchange service (i.e., telecommunications service between stations in different exchange areas).

2.4 When MCIm is purchasing a sec. 251(c)(3) UNE, AT&T MISSOURI will permit MCIm exclusive use of that facility for a period of time, and when MCIm is purchasing access to a feature, function, or capability of a facility, AT&T MISSOURI will provide use of that feature, function, or capability for a period of time.

2.5 AT&T MISSOURI will maintain, repair, or replace sec. 251(c)(3) UNEs as provided for in this Agreement.

2.6 Where technically feasible, the quality of the sec. 251(c)(3) UNE and access to such sec. 251(c)(3) UNE shall be at least equal to what AT&T MISSOURI provides itself or any subsidiary, affiliate, or other Party.

2.7 Each Party shall be solely responsible for the services it provides.

2.8 Sec. 251(c)(3) UNEs provided to MCIm under the provisions of this Appendix shall remain the property of AT&T MISSOURI.

2.9 Intentionally Omitted.

2.10 Intentionally Omitted.

2.11 Performance of sec. 251(c)(3) UNEs

2.11.1 Each sec. 251(c)(3) UNE will be provided in accordance with industry standards, if applicable.

2.11.2 Nothing in this Appendix will limit either Party's ability to modify its network through the incorporation of new equipment, new software or otherwise. Each Party will provide the other Party written notice of any upgrades in its network that will materially impact the other Party's service in accordance with Applicable Law.

2.11.3 AT&T MISSOURI may elect to conduct Central Office switch conversions for the improvement of its network. During such conversions, MCIm orders for sec. 251(c)(3) UNEs from, and AT&T MISSOURI's retail service orders for, that switch shall be suspended for a period of three days prior and one day after the conversion date, consistent with the suspension AT&T MISSOURI places on itself for orders from its End Users.

2.12 AT&T MISSOURI shall offer each sec. 251(c)(3) UNE individually or in combination as set forth in this Appendix UNE. AT&T MISSOURI may not require MCIm to own or control any local exchange facilities as a condition of offering to MCIm any sec. 251(c)(3) UNE or sec. 251(c)(3) UNE combination. AT&T MISSOURI shall not separate sec. 251(c)(3) UNEs that are already combined on AT&T MISSOURI's network unless requested by MCIm.

2.13 For each sec. 251(c)(3) UNE, AT&T MISSOURI shall provide (i) a demarcation point (e.g., at a Digital Signal Cross Connect, a 90/10 Splitter, a Main Distribution Frame, or other appropriate demarcation locations) and (ii) if necessary, access to the demarcation point; such demarcation point being mutually agreeable to the Parties. However, where AT&T MISSOURI provides contiguous sec. 251(c)(3) UNEs to MCIm, AT&T MISSOURI will provide the existing interconnections and no demarcation point shall exist between such contiguous sec. 251(c)(3) UNEs.

2.14 MCIm will be responsible for the overall design of the Telecommunications Services it offers to its customers and for any redesigning or rearrangement of such Telecommunications Services;

provided, however, that AT&T MISSOURI fully complies with Section 251(c)(5) of the Act, including any required notification, and the FCC's implementing regulations thereunder, which may be required because of changes in facilities, operations, or minimum network protection criteria, or operating or maintenance characteristics of the facilities.

2.15 Intentionally Omitted.

3 INTENTIONALLY OMITTED

4 ACCESS TO LAWFUL UNE CONNECTION METHODS

4.1 This Section describes the optional connection methods under which AT&T MISSOURI agrees to provide MCIm with access on an unbundled basis to loops, and dedicated transport and the conditions under which AT&T MISSOURI makes these methods available. These methods provide MCIm access to multiple AT&T MISSOURI sec. 251(c)(3) UNEs which MCIm may then combine. The methods listed below provide MCIm with access to sec. 251(c)(3) UNEs without compromising the security, integrity, and reliability of the public switched network, as well as to minimize potential service disruptions.

4.1.1 Subject to availability of space and equipment, MCIm may use the methods listed below to access and combine unbundled Local Loops, and unbundled Dedicated Transport within a requested AT&T MISSOURI Central Office.

4.1.1.1 (Method 1)

4.1.1.1.1 AT&T MISSOURI will extend AT&T MISSOURI sec. 251(c)(3) UNEs requiring cross connection to MCIm's Physical or Virtual Collocation Point of Termination (POT) when MCIm is Physically Collocated, in a caged or shared cage arrangement or Virtually Collocated, within the same Central Office where the sec. 251(c)(3) UNEs which are to be combined are located. For Collocation terms and conditions refer to the Collocation Appendix.

4.1.1.2 (Method 2)

4.1.1.2.1 AT&T MISSOURI will extend AT&T MISSOURI sec. 251(c)(3) UNEs that require cross connection to MCIm's sec. 251(c)(3) UNE frame located in the common room space, other than the Collocation common area, within the same Central Office where the sec. 251(c)(3) UNEs which are to be combined are located.

4.1.1.3 (Method 3)

4.1.1.3.1 AT&T MISSOURI will extend AT&T MISSOURI sec. 251(c)(3) UNEs to MCIm's sec. 251(c)(3) UNE frame that is located outside the AT&T MISSOURI Central Office where the sec. 251(c)(3) UNEs are to be combined in a closure such as a cabinet provided by AT&T MISSOURI on AT&T MISSOURI property.

4.2 The following terms and conditions apply to all methods when AT&T MISSOURI provides access to Combinations:

4.2.1 Within ten (10) business days of receipt of a written request for access to sec. 251(c)(3) UNEs involving three (3) or fewer Central Offices, AT&T MISSOURI will provide a written reply notifying the requesting CLEC of the method(s) of access available in the requested Central Offices. For requests impacting four (4) or more Central Offices the Parties will agree to an implementation schedule for access to sec. 251(c)(3) UNEs.

4.2.2 Access to sec. 251(c)(3) UNEs via Method 1 is only available to Physically Collocated CLECs. Access to sec. 251(c)(3) UNEs via Method 2 and Method 3 is available to both Collocated and Non-Collocated CLECs. Method 2 and Method 3 are subject to availability of AT&T MISSOURI Central Office space and equipment.

4.2.3 The CLEC may cancel the request at any time, but will pay AT&T MISSOURI's reasonable and demonstrable costs for modifying AT&T MISSOURI's Central Office up to the date of cancellation.

4.2.4 MCIm may elect to access AT&T MISSOURI's sec. 251(c)(3) UNEs through Physical Collocation arrangements.

4.2.5 MCIm shall be responsible for initial testing and trouble sectionalization of facilities containing MCIm installed cross connects.

4.2.6 MCIm shall refer trouble it has sectionalized in the AT&T MISSOURI sec. 251(c)(3) UNE to AT&T MISSOURI.

4.2.7 MCIm shall provide all tools and materials required to place and remove the cross connects necessary to combine and disconnect sec. 251(c)(3) UNEs.

4.2.8 All tools, procedures, and equipment used by MCIm to connect to AT&T MISSOURI's network shall comply with technical standards set out in AT&T Local Exchange Carrier Technical Document TP76300MP, to reduce the risk of damage to the network and end user customer disruption.

4.2.9 MCIm shall designate each sec. 251(c)(3) UNE being ordered from AT&T MISSOURI. MCIm shall provide an interface to receive assignment information from AT&T MISSOURI regarding location of the sec. 251(c)(3) UNEs. This interface may be manual or mechanized.

4.2.10 AT&T MISSOURI will provide MCIm with contact numbers as necessary to resolve assignment conflicts encountered. All contact with AT&T MISSOURI shall be referred to such contact numbers.

4.2.11 The use of cellular telephones or two-way pagers is not permitted in AT&T MISSOURI equipment areas.

5 TRANSITION PROCEDURE FOR ELEMENTS THAT ARE DECLASSIFIED DURING THE TERM OF THE AGREEMENT

5.1 AT&T MISSOURI agrees to continue providing the Transition Elements that are the subject of the transition periods set forth in Sections 9.3.2, 9.4.2, 12.11, and 15.3.3, during the applicable transition period (and thereafter to the extent specified for a given alternative service arrangement) as set forth in this Appendix. No later than thirty (30) days prior to the end of the applicable transition period specified in Sections 9.3.2, 9.4.2, 12.11, and 15.3.3, MCIm shall designate one of the following alternative service arrangements for each Network Element subject to one of the transition periods described in this Appendix ("Transition Element").

5.1.1 Conversion to Access Service. Until March 11, 2006, MCIm may elect to convert a Transition Element to the analogous access service, if available. Where the Transition Elements are converted to an analogous access service, from and after the date on which AT&T MISSOURI processes MCIm's order, AT&T MISSOURI shall provide such access services at the rates applicable under the term plan selected by MCIm, and in accordance with the terms and conditions, of AT&T MISSOURI's applicable access tariff, with the effective bill date being the first day following the date on which AT&T MISSOURI processes MCIm's order. Conversion to an analogous access service shall be accomplished via the applicable LSR or ASR process, or with respect to a significant number of Transition Elements, via letter and spreadsheet, which will be coordinated by the Parties on a project basis. Subject to the provisions of Section 7 AT&T MISSOURI will commingle the converted Transition Element(s) under this Section 5.1.1 with other MCIm or MCIm-purchased services or facilities (including, but not limited to, other Network Elements purchased by MCIm from AT&T MISSOURI).

5.1.2 Conversion to Resale Arrangement. Until March 11, 2006, MCIm may elect to convert a Transition Element to a resale arrangement (either under this Agreement or otherwise). Where the Transition Elements are converted to a resale arrangement, from and after the date on which AT&T MISSOURI processes MCIm's order, AT&T MISSOURI shall provide such resale arrangements under the rates, terms, and conditions applicable under this Agreement (or if applicable, the relevant AT&T MISSOURI tariff subject to the Commission-approved wholesale discount), with the effective bill date being the first day following the date on which AT&T MISSOURI processes MCIm's order. Conversion to a resale arrangement shall be accomplished via the applicable LSR or ASR process, or with respect to a significant number of Transition Elements, via letter and spreadsheet, which will be coordinated by the Parties on a project basis.

5.1.3 Conversion to Alternative AT&T MISSOURI Service Arrangement. Until March 11, 2006, MCIm and AT&T MISSOURI may mutually agree to convert a Transition Element to some other service arrangement (e.g., a separate agreement at market-based or other rates). Conversion to some other service arrangement shall be accomplished via a process to be mutually agreed-upon by the Parties.

5.1.4 Conversion to Section 271 Element. Until March 11, 2006, MCIm may elect to convert a Transition Element to the analogous Section 271 element or service, where applicable. Where the Transition Elements are converted to an analogous Section 271 element or service, from and after the date on which AT&T MISSOURI processes MCIm's order, and unless previously determined by a governmental body or by mutual agreement of the Parties, AT&T MISSOURI shall provide such elements or services at the rates in effect under

Section 251(d) of the Act on the date AT&T MISSOURI's Section 271 application for the State was approved by the FCC (the effective bill date being the first day following the date on which AT&T MISSOURI processes MCIm's order). Conversion to an analogous Section 271 element or service shall be accomplished via the applicable LSR or ASR process, or with respect to a significant number of Transition Elements, via letter and spreadsheet, which will be coordinated by the Parties on a project basis. Subject to the provisions of Section 7, AT&T MISSOURI will commingle the converted Transition Element(s) under this Section [5.1.4] with other MCIm or MCIm-purchased services or facilities (including, but not limited to, other Network Elements purchased by MCIm from AT&T MISSOURI).

5.1.5 Intentionally Omitted.

5.1.6 Intentionally Omitted.

5.1.7 Intentionally Omitted.

5.2 At the end of the applicable transition period, if MCIm has not designated an Alternative Service Arrangement for a Transition Element, AT&T MISSOURI may convert such Transition Elements to an analogous access service, if available, and provide such access services at the month-to-month rates, and in accordance with the terms and conditions, of AT&T MISSOURI's applicable access tariff, with the effective bill date being the first day following the applicable transition period; provided that if no analogous access service is available, AT&T MISSOURI may disconnect such Transition Elements.

6 CONVERSION OF WHOLESALE SERVICES TO SEC. 251(c)(3) UNEs

6.1 Upon MCIm's request, AT&T MISSOURI shall convert a wholesale service, or group of wholesale services, to the equivalent sec. 251(c)(3) UNE, or Combination of sec. 251(c)(3) UNEs, that is available to MCIm under this Appendix UNE..

6.2 Unless otherwise agreed to in writing by the Parties, such conversion shall be completed in a manner so that the correct charge is reflected on the next billing cycle after MCIm's request. For purposes of this Agreement, the Parties acknowledge that MCIm has purchased a number of "special access" circuits from AT&T MISSOURI that terminate to an MCIm collocation cage. AT&T MISSOURI agrees that MCIm may request the conversion of such special access circuits on a "project" basis by submitting a spreadsheet to AT&T MISSOURI describing the circuits. In accordance with the requirements of Section 6.4 below, AT&T MISSOURI shall process such conversions within thirty (30) days of MCIm's request and shall reflect billing changes as described above. For other types of conversions, until such time as the Parties have agreed upon processes for such conversions, AT&T MISSOURI agrees to process MCIm's conversion requests on a case-by-case basis and without delay.

6.3 AT&T MISSOURI shall perform any conversion from a wholesale service or group of wholesale services to a sec. 251(c)(3) UNE or Combination of sec. 251(c)(3) UNEs, provided that any service interruption will not be discernable to the end user customers.

6.4 Except as otherwise agreed to by the Parties, AT&T MISSOURI shall not impose any untariffed termination charges, or any disconnect fees, re-connect fees, or charges associated with establishing a service for the first time, in connection with any conversion between a wholesale

service or group of wholesale services and a sec. 251(c)(3) UNE or Combination of sec. 251(c)(3) UNEs.

6.4.1 Intentionally Omitted.

6.5 Intentionally Omitted.

6.6 Intentionally Omitted.

6.7 Nothing contained in this Appendix UNE or Agreement shall supersede or dissolve the terms or conditions of any other contract between the Parties.

6.8 To the extent a conversion of wholesale services creates an "Enhanced Extended Link" or "EEL," see also Section 7.0 and Section 22 below.

7 COMMINGLING

7.1 Subject to the provisions of this Agreement (including Sections 21 (Lawful UNE Combinations) and 22 (Enhanced Extended Loops) of this Appendix), AT&T MISSOURI shall permit MCIm to Commingle a sec. 251(c)(3) UNE or a combination of sec. 251(c)(3) UNEs with facilities or services obtained at wholesale from AT&T MISSOURI.

7.2 Definitions

7.2.1 "Commingling" means the connecting, attaching, or otherwise linking of a sec. 251(c)(3) UNE, or a combination of sec. 251(c)(3) UNEs, to one or more facilities or services that MCIm has obtained at wholesale from AT&T MISSOURI pursuant to any method other than unbundling under Section 251(c)(3) of the Act, or the combining of a sec. 251(c)(3) UNE, or a combination of sec. 251(c)(3) UNEs, with one or more such facilities or services. "Commingle" means the act of commingling.

7.2.2 "Commingled Arrangement" means the arrangement created by Commingling.

7.3 Commingling Requirements

7.3.1 Upon MCIm's request, AT&T MISSOURI shall perform the functions necessary to Commingle a sec. 251(c)(3) UNE or a Combination of sec. 251(c)(3) UNEs with one or more facilities or services that MCIm has obtained at wholesale from AT&T MISSOURI.

7.3.2 AT&T MISSOURI is developing a list of Commingled Arrangements that will be available for ordering, which list will be made available in the CLEC Handbook and posted on the AT&T website "CLEC Online." Once that list is included in the CLEC Handbook or posted on the website, whichever is earlier, MCIm will be able to submit orders for any Commingled Arrangement on that list. The list may be modified, from time to time.

7.3.3 Any MCIm request for a Commingled Arrangement not found on the then-existing list of orderable Commingled Arrangements must be submitted via the Bona Fide Request (BFR) process set forth elsewhere in this Agreement.

7.3.3.1 In any such BFR, MCIm must designate among other things the sec. 251(c)(3) UNE(s), combination of sec. 251(c)(3) UNEs, and the facilities or services that MCIm has obtained at wholesale from AT&T MISSOURI sought to be Commingled and the needed location(s), the order in which such UNEs, such combinations of UNEs, and such facilities and services are to be Commingled, and how each connection (e.g., cross-connected) is to be made between them.

7.4 Intentionally Omitted.

7.5 Ratcheting

7.5.1 Nothing in this Agreement shall affect any "ratcheting" or "ratchet rate" available as set forth in any AT&T Missouri tariff, including without limitation SWBT Tariff F.C.C. No. 73 (with "ratcheting" and "ratcheted rate" in this sentence having the meaning(s) as those or similar terms have within the relevant tariff and not in this Agreement). There shall be no blending of the rates of any sec. 251(c)(3) UNE component(s) of the commingled arrangement with any special access component(s), i.e., no ratcheting of the commingled arrangement.

7.6 Tariffs

7.6.1 See FCC Tariff No. 2, Section 5.2.1.

7.7 AT&T MISSOURI agrees that MCIm may Commingle any elements that it is required to provide pursuant to Section 271 of the Act ("271 Elements") or Applicable Law, including but not limited to: (i) Local Loop transmission from the central office to the End Users' premises (unbundled from local switching or other services), and (ii) Local transport from the trunk side of a wireline Local Exchange Carrier switch (unbundled from switching or other services). AT&T MISSOURI shall provide MCIm with access to these 271 Elements on a non-discriminatory basis in accordance with the terms and conditions of this Agreement for the corresponding sec. 251(c)(3) UNE and at just, reasonable and non-discriminatory prices

7.8 Where processes for any Commingling requested pursuant to this Agreement (including, by way of example, for existing services sought to be converted to a Commingled Arrangement) are not already in place, AT&T MISSOURI will develop and implement processes, subject to any associated rates, terms and conditions. The Parties will comply with any applicable Change Management guidelines.

7.9 Unless expressly prohibited by the terms of this Appendix UNE, AT&T MISSOURI shall permit MCIm to Commingle a sec. 251(c)(3) UNE or a Combination of sec. 251(c)(3) UNEs with wholesale (i) services obtained from AT&T MISSOURI, (ii) services obtained from third parties or (ii) facilities provided by MCIm. For purposes of example only, MCIm may Commingle sec. 251(c)(3) UNEs or Combinations of sec. 251(c)(3) UNEs with other services and facilities including, but not limited to, switched and special access services, and services purchased under resale arrangements with AT&T MISSOURI.

8 NETWORK INTERFACE DEVICE

8.1 The sec. 251(c)(3) unbundled Network Interface Device (NID) is defined as any means of interconnection of end user customer premises wiring to AT&T MISSOURI's distribution plant, such as a cross connect device used for that purpose. Fundamentally, the NID establishes the final (and official) network demarcation point between the loop and the end user customer's inside wire. Maintenance and control of the end user customer's inside wiring (on the end user customer's side of the NID) is under the control of the end user customer. Conflicts between telephone service providers for access to the end user customer's inside wire must be resolved by the end user customer. Pursuant to applicable FCC rules, AT&T MISSOURI offers nondiscriminatory access to the NID on an unbundled basis to any requesting Telecommunications Carrier for the provision of a Telecommunications Service. MCIm's access to the NID is offered as specified below.

8.2 AT&T MISSOURI shall permit MCIm to connect MCIm's loop facilities to on-premises wiring of an end user customer through AT&T MISSOURI's NID, or at any other technically feasible point, in the manner set forth in this section or in any other technically feasible manner.

8.3 Access to Network Interface Device

8.3.1 Due to the wide variety of NIDs utilized by AT&T MISSOURI (based on end user customer size and environmental considerations), MCIm may access the end user customer's inside wire by any of the following means:

8.3.1.1 Where an adequate length of inside wire is present and environmental conditions permit, and with the subscriber authorization required by this Agreement and Applicable Law, either Party may remove the inside wire from the other Party's NID and connect that wire to that Party's own NID; or

8.3.1.2 Enter the subscriber access chamber or "side" of "dual chamber" NID enclosures for the purpose of extending a connected or spliced jumper wire from the inside wire through a suitable "punch-out" hole of such NID enclosures; or

8.3.1.3 Request AT&T MISSOURI to make other rearrangements to the inside wire terminations or terminal enclosure on a time and materials cost basis to be charged to the requesting Party (*i.e.*, MCIm, its agent, the building owner or the subscriber). Such charges will be billed to the requesting Party.

8.3.1.4 Due to the wide variety of NID enclosures and outside plant environments, AT&T MISSOURI will work with MCIm to develop specific procedures to establish the most effective means of implementing this Section.

8.3.1.5 With respect to multiple dwelling units or multiple-unit business premises, MCIm will connect directly with the End User's premises wire, or may connect with the End User's premises wire via AT&T MISSOURI's NID where necessary.

8.3.1.6 AT&T MISSOURI, at the request of MCIm who has constructed its own NID at a premises and needs only to make contact with AT&T MISSOURI's NID, will disconnect the customer's wiring from AT&T MISSOURI's NID and reconnect it to MCIm's NID at no extra charge for this reconnection.

8.3.1.7 If MCIm requests any additional type of access to the NID not specifically referenced above, MCIm and AT&T MISSOURI will agree to a mutually feasible method of providing the requested type of access, to be facilitated via the Bona Fide Request (BFR) Process.

8.4 Technical Requirements

8.4.1 The NID shall provide an accessible point of connection for the subscriber-owned inside wiring, for AT&T MISSOURI's facilities, for the distribution media and/or cross connect to MCIm's NID, and shall maintain a connection to ground.

8.4.2 The NID shall be capable of transferring electrical analog or digital signals between the subscriber's inside wiring and the distribution media and/or cross connect to MCIm's NID, consistent with the NID's function at the Effective Date of this Agreement.

8.4.3 Where an AT&T MISSOURI NID exists, it is provided in its "as is" condition. MCIm may request AT&T MISSOURI do additional work to the NID in accordance with other provisions herein.

8.4.4 The AT&T MISSOURI NIDs that MCIm uses under this Appendix will be existing NIDs installed by AT&T MISSOURI to serve its end user customers.

8.4.5 Upon request, AT&T MISSOURI will dispatch a technician to tag an existing end user customer's inside wire facilities on the end user customer's side of the NID. In such cases, a NID "Premises Visit" charge (Time and Material) shall apply at charges reflected in Appendix Pricing, except the Premises Visit charge shall not apply if the NID location information provided to MCIm prior to the dispatch request was inaccurate. AT&T MISSOURI shall apply Time and Material charges for Premises Visits at parity with what AT&T MISSOURI charges its retail end users customers.

8.4.6 MCIm shall not attach to or disconnect AT&T MISSOURI's ground. MCIm shall not cut or disconnect AT&T MISSOURI's loop from the NID and/or its protector. MCIm shall not cut any other leads in the NID.

9 SECTION 251(c)(3) LOCAL LOOP

9.1 Definitions:

9.1.1 A sec.251(c)(3) Local Loop (hereafter, "Loop") means a transmission facility between a distribution frame (or its equivalent) in AT&T MISSOURI's Central Office and the loop demarcation point (marking the end of AT&T MISSOURI's control of the Loop) at a end user customer premises, including inside wire owned by AT&T MISSOURI. The Loop includes all features, functions, and capabilities of such transmission facility. Those features, functions, and capabilities include, but are not limited to, Dark Fiber, all electronics (except those electronics used for the provision of advanced services, such as Digital Subscriber Line Access Multiplexers), optronics, and intermediate devices (including repeaters and load coils) used to establish the transmission path to the end-user customer premises. The term Loop includes, but is not limited to, DS1, DS3, and Dark Fiber Loops.

9.1.2 A "Hybrid Loop" is a Loop composed of both fiber optic cable, usually in the feeder plant, and copper wire or cable, usually in the distribution plant.

9.1.3 A "Fiber-to-the-Home Loop" is a Loop consisting entirely of fiber optic cable, whether dark or lit, and serving an End User premises.

9.1.3.1 A "Fiber-to-the-Curb Loop" is a Loop consisting of a fiber optic cable connecting to copper distribution plant that is not more than 500 feet from the End User premises.

9.1.4 A "DS1 Loop" is a digital Loop having a total digital signal speed of 1.544 megabytes per second.

9.1.5 A 2-Wire analog Loop is a transmission path which supports analog voice frequency, voice band services with loop start signaling within the frequency spectrum of approximately 300 Hz and 3000 Hz.

9.1.6 A 4-Wire analog Loop is a transmission path that provides a non-signaling voice band frequency spectrum of approximately 300 Hz to 3000 Hz. The 4-Wire analog Loop provides separate transmit and receive paths.

9.1.7 A 2-Wire 160 Kbps digital Loop is a transmission path which supports Basic Rate ISDN (BRI) digital exchange services. The 2-Wire digital Loop 160 Kbps supports usable bandwidth up to 160 Kbps.

9.1.8 A 4-Wire 1.544 Mbps digital Loop is a transmission path that will support DS1 service including Primary Rate ISDN (PRI). The 4-wire digital Loop 1.544 Mbps supports usable bandwidth up to 1.544 Mbps.

9.1.9 The DS3 Loop provides a digital, 44.736 Mbps transmission facility from AT&T MISSOURI's Central Office to the End User premises.

9.1.10 xDSL-Capable Loop: See Appendix xDSL.

9.2 Copper Loops. AT&T MISSOURI shall provide to MCIm, upon MCIm's request, copper Loops on an unbundled basis. A copper Loop is a stand-alone Local Loop comprised entirely of copper wire or cable. Copper Loops include two-wire and four-wire analog voice-grade copper Loops, digital copper Loops (e.g., DS0s and integrated services digital network lines), as well as two-wire and four-wire copper Loops conditioned at CLEC request and subject to charges as set forth in Appendix XDSL, to transmit the digital signals needed to provide digital subscriber line ("DSL") services, regardless of whether the copper Loops are in service, or held as spares, or newly deployed. Copper Loops include attached electronics using time division multiplexing technology, but does not include packet switching capabilities.

9.2.1 Retirement of Copper Loops. Prior to retiring any copper Loop that has been replaced with a Fiber-to-the-Home Loop, AT&T MISSOURI shall comply with (i) the network disclosure requirements set forth in Section 251(c)(5) of the Act and in Sections 51.325 through 51.335 of the FCC's Rules and (ii) any applicable requirements of state law.

9.3 DS1 Loops. Subject to the cap set forth in Section 9.3.1, AT&T shall provide MCIm, upon MCIm's request, with nondiscriminatory access to DS1 Loops on an unbundled basis to any building not served by (a) a Wire Center with at least 60,000 business lines and (b) at least four fiber-based collocators. Once a Wire Center exceeds both of these thresholds, no future DS1 Loop unbundling will be required from AT&T MISSOURI in that Wire Center, except as otherwise set forth in this Appendix.

9.3.1 Cap on unbundled DS1 Loop circuits. MCIm may obtain a maximum of ten unbundled DS1 Loops to any single building in which DS1 Loops are available as unbundled Loops.

9.3.2 Transition period for DS1 Loops.

9.3.2.1 For a 12-month period beginning on March 11, 2005, any DS1 Loop that MCIm leases from AT&T MISSOURI as of that date, but which AT&T is not obligated to unbundled pursuant to Sections 51.319(a)(4)(i) or 51.319(a)(4)(ii) of the FCC's rules as of that date, shall be available for lease from AT&T MISSOURI at a rate equal to the higher of: (a) 115 percent (115%) of the rate MCIm paid for the DS1 Loop on June 15, 2004; or (b) 115 percent (115%) of the rate the Commission has established or establishes, if any, between June 16, 2004 and March 11, 2005, for that DS1 Loop. Where AT&T MISSOURI is not required on March 11, 2005 to provide unbundled DS1 Loops pursuant to Sections 51.319(a)(4)(i) or 51.319(a)(4)(ii) of the FCC's rules, MCIm may not obtain new DS1 Loops as a sec. 251(c)(3) UNE , except as otherwise set forth in this Appendix.

9.3.2.2 For a 12-month period beginning on the Determination Date (as defined below), any DS1 Loop that MCIm leases from AT&T MISSOURI as of that date, but which AT&T MISSOURI is not obligated to unbundle pursuant to Sections 51.319(a)(4)(i) or 51.319(a)(4)(ii) of the FCC's rules as of that date, shall be available for lease from AT&T MISSOURI at a rate equal to 115 percent (115%) of the rate MCIm paid for the DS1 Loop on the Determination Date.

9.4 DS3 Loops. Subject to the cap described in Section 9.2.1, AT&T shall provide MCIm, upon MCIm's request, with nondiscriminatory access to DS3 Loops on an unbundled basis to any building not served by (a) a Wire Center with at least 38,000 business lines and (b) at least four fiber-based collocators. Subject to Section 9.3, once a Wire Center exceeds both of these thresholds, no future DS3 Loop unbundling will be required of AT&T MISSOURI in that Wire Center, except as otherwise set forth in this Appendix. DS3 Loops are digital local Loops having a total digital signal speed of 44.736 megabytes per second.

9.4.1 Cap on unbundled DS3 Loops. MCIm may obtain a maximum of a single unbundled DS3 Loop to any single building in which DS3 Loops are available as unbundled Loops.

9.4.2 Transition period for DS3 Loops.

9.4.2.1 For a 12-month period beginning on March 11, 2005, any DS3 Loop that MCIm leases from AT&T MISSOURI as of that date, but which AT&T is not obligated to unbundle pursuant to Sections 51.319(a)(5)(i) or 51.319(a)(5)(ii) of the FCC's rules as of that date, shall be available for lease from AT&T MISSOURI at a rate equal to the higher of: (a) 115 percent (115%) of the rate MCIm paid for the DS3 Loop on June 15, 2004; or (b) 115 percent (115%) of

the rate the Commission has established or establishes, if any, between June 16, 2004 and March 11, 2005, for that DS3 Loop. Where AT&T MISSOURI is not required to provide unbundled DS3 Loops pursuant to Sections 51.319(a)(5)(i) or 51.319(a)(5)(ii) of the FCC's rules on March 11, 2005, MCIm may not obtain new DS3 Loops as sec. 251(c)(3) UNEs, except as otherwise set forth in this Appendix.

9.4.2.2 For a 12-month period beginning on the Determination Date, any DS3 Loop that MCIm leases from AT&T MISSOURI as of that date, but which AT&T MISSOURI is not obligated to unbundle pursuant to Sections 51.319(a)(5)(i) or 51.319(a)(5)(ii) of the FCC's rules as of that date, shall be available for lease from AT&T at a rate equal to 115 percent (115%) of the rate MCIm paid for the DS3 Loop on the Determination Date.

9.5 Intentionally Omitted.

9.6 Hybrid Loops. AT&T MISSOURI is not required to provide to MCIm unbundled access to the packet switched features, functions and capabilities of its Hybrid Loops.

9.6.1 Notwithstanding Section 9.3 above, When MCIm seeks access to a Hybrid Loop for the provision of broadband services, AT&T MISSOURI shall provide MCIm with nondiscriminatory access to the time division multiplexing features, functions, and capabilities of that Hybrid Loop, including, DS1 or DS3 capacity, on an unbundled basis to establish a complete transmission path between AT&T MISSOURI's Central Office and an end user customer premises. This access shall include access to all features, functions, and capabilities of the Hybrid Loop that are not used to transmit packetized information. Terms and conditions for xDSL, Line Sharing and Line Splitting are found in their respective Appendices.

9.6.2 Notwithstanding Section 9.3, when MCIm seeks access to a Hybrid Loop for the provision of narrowband services, AT&T MISSOURI may either:

9.6.2.1 Provide nondiscriminatory access, on an unbundled basis, to an entire Hybrid Loop capable of voice-grade service (i.e., equivalent to DS0 capacity), using time division multiplexing technology; or

9.6.2.2 Provide nondiscriminatory access to a spare home-run copper Loop serving that customer on an unbundled basis.

9.7 Fiber-to-the-Home Loops.

9.7.1 New builds. AT&T MISSOURI shall not provide nondiscriminatory access to a Fiber-to-the-Home Loop or a Fiber-to-the-Curb Loop on an unbundled basis when AT&T MISSOURI deploys such a Loop to an end user customer premises that previously has not been served by any Loop facility.

9.7.2 Overbuilds. AT&T MISSOURI shall not provide nondiscriminatory access to a Fiber-to-the-Home Loop or a Fiber-to-the-Curb Loop on an unbundled basis when AT&T MISSOURI has deployed such a Loop parallel to, or in replacement of, an existing copper Loop facility, except that:

9.7.2.1 AT&T MISSOURI must (i) maintain the existing copper Loop connected to the particular customer premises after deploying the Fiber-to-the-Home Loop and (ii) provide MCIm nondiscriminatory access to that copper Loop on an unbundled basis, upon MCIm's request unless AT&T MISSOURI retires the copper Loop.

9.7.2.2 If AT&T MISSOURI maintains the existing Lawful UNE Copper Loop, AT&T MISSOURI need not incur any expenses to ensure that the existing copper Loop remains capable of transmitting signals prior to receiving a request for access, in which case AT&T MISSOURI shall restore the Lawful UNE copper Loop to serviceable condition upon MCIm's request.

9.7.2.3 If AT&T MISSOURI retires the copper Loop, AT&T MISSOURI shall provide MCIm, upon MCIm's request, with nondiscriminatory access to a 64 kilo-bits per second transmission path capable of voice grade service over the Fiber-to-the-Home Loop on an unbundled basis.

9.8 Intentionally Omitted.

9.9 Routine Network Modifications – Loops:

9.9.1 AT&T MISSOURI shall make routine network modifications to Loop facilities used by MCIm where the requested Loop facility has already been constructed. AT&T MISSOURI shall perform routine network modifications to Loop facilities in a nondiscriminatory fashion, without regard to whether the Loop facility being accessed was constructed on behalf, or in accordance with the specifications, of any carrier.

9.9.2 A routine network modification is an activity that AT&T MISSOURI regularly undertakes for its own end user customers. Routine network modifications include, but are not limited to, rearranging or splicing of cable; adding an equipment case; adding a doubler or repeater; adding a smart jack; installing a repeater shelf; adding a line card; deploying a new multiplexer or reconfiguring an existing multiplexer; and attaching electronic and other equipment that AT&T MISSOURI ordinarily attaches to a DS1 Loop to activate such loop for its own End Users. For routine network modification for sec. 251(c)(3) Dark Fiber Loops, see section 12.11 of this Appendix. Routine network modifications may entail activities such as accessing manholes, deploying bucket trucks to reach aerial cable, and installing equipment casings. Routine network modifications do not include constructing new loops, installing new cable, securing permits or rights-of-way, or; constructing new manholes, or conduits, or installing new terminals for MCIm, and AT&T MISSOURI is not obligated to perform those activities for MCIm.

9.9.2.1 AT&T MISSOURI shall determine whether and how to perform routine network modifications using the same network or outside plant engineering principles that would be applied in providing service to AT&T MISSOURI's retail customers.

9.9.2.2 Intentionally Omitted.

9.9.3 AT&T MISSOURI shall provide routine network modifications at the rates, terms and conditions set out in Appendix Pricing.

9.10 AT&T MISSOURI will provide MCIm with access to Loops regardless of whether AT&T MISSOURI uses Integrated Digital Loop Carrier (IDLC) technology, or similar remote concentration devices, for the particular Loop sought by MCIm. Where available, AT&T MISSOURI will move the requested Loop(s) to spare copper, or to Universal Digital Loop Carrier (UDLC) Loop(s) at no additional charge. If, however, no such facilities are available, AT&T MISSOURI will notify MCIm of the lack of available facilities within two (2) business days.

9.10.1 If MCIm requests one or more Loops serviced by Integrated Digital Loop Carrier (IDLC), AT&T MISSOURI will, where available, provide on the requested Loop(s) to a spare, existing Physical loop, or a Universal Digital Loop Carrier (UDLC) Loop at no additional charge to MCIm. If, however, no spare Loop is available, AT&T MISSOURI will within two (2) Business Days, excluding weekends and holidays, of MCIm's request, notify MCIm of the lack of available facilities.

9.11 Additional TELRIC costs per unit for access to IDLC-delivered Loops requested by MCIm pursuant to Section 9.10 not otherwise recovered through existing nonrecurring or recurring rates for Loops may be recovered from requesting carriers on rates, terms and conditions that are just, reasonable and nondiscriminatory.

9.12 When a Loop is ordered to a high voltage area, the Parties understand and agree that the Loop will require a High Voltage Protective Equipment (HVPE) (e.g., a positron), to ensure the safety and integrity of the network, the Parties' employees and/or representatives, and MCIm's end user customer. Therefore, any request by MCIm for a Loop to a high voltage area will be submitted by MCIm to AT&T MISSOURI via the BFR process set forth in Appendix BFR and MCIm shall be required to pay AT&T MISSOURI for any HVPE that is provisioned by AT&T MISSOURI to MCIm in connection with MCIm's Loop order to the high voltage area.

9.13 The Parties acknowledge and agree that AT&T MISSOURI shall not be obligated to provision any of the Loops provided for herein to cellular cites or to any other location that does not constitute an End User Customer premises.

9.14 MCIm agrees to operate each Loop type within the technical descriptions and parameters accepted within the industry.

10 SEC. 251(c)(3) SUBLOOP

10.1. A "sec. 251(c)(3) subloop (hereafter, "Subloop") is a portion of a copper Loop, or Hybrid Loop, comprised entirely of copper wire or copper cable that acts as a transmission facility between any point of Technically Feasible access in AT&T MISSOURI's outside plant, including inside wire owned or controlled by AT&T MISSOURI, and the customer premises. A Subloop includes all intermediate devices (including repeaters and load coils) used to establish a transmission path between a point of Technically Feasible access and the demarcation point at the customer premises, and includes the features, functions, and capabilities of the Subloop. Subloops include two-wire and four-wire analog voice-grade Subloops as well as two-wire and four-wire Subloops conditioned to transmit the digital signals needed to provide DSL services, regardless of whether the Subloops are in service or held as spares.

10.1.1. A point of technically feasible access is any point in AT&T MISSOURI's outside plant where a technician can access the copper wire within a cable without removing a splice

case. Such points include, but are not limited to, a pole or pedestal, the serving area interface, the network interface device, the minimum point of entry, any remote terminal, and the feeder/distribution interface.

10.2 Definitions pertaining to the Subloop:

10.2.1 Accessible terminals contain cables and their respective wire pairs that terminate on screw posts. This allows technicians to affix cross connects between binding posts of terminals collocated at the same point. Terminals differ from splice cases, which are inaccessible because the case must be breached to reach the wires within.

10.2.2 "Dead Count" refers to those binding posts which have cable spliced to them but which cable is not currently terminated to any terminal to provide service.

10.2.3 "Demarcation Point" is defined as the point on the loop where the ILEC's control of the wire ceases and the end user customer's control (or on the case of some multiunit premises, the landlord's control) of the wire begins.

10.2.4 "Digital Subloop" may be deployed on on-loaded copper cable pairs, channels of a digital loop carrier system, channels of a fiber optic transport system or other technologies suitable for the purpose of providing 160 Kbps and 1.544 Mbps Subloop transport.

10.2.5 "Distribution Cable" is defined as the cable from the SAI/FDI to the terminals from which an end user customer can be connected to the ILEC's network.

10.2.6 "SAI/FDI-to-Term" is that portion of the loop from the SAI/FDI to an accessible terminal.

10.2.7 "SAI/FDI-to-NID" is that portion of the loop from the SAI/FDI to the Network Interface Device (NID), which is located at an end user customer's premise.

10.2.8 "SPOI" is defined as a Single Point of Interconnection.

10.2.9 "SAI/FDI" is defined as the point in the ILEC's network where feeder cable is cross-connected to the distribution cable. "SAI" is Serving Area Interface. "FDI" is Feeder Distribution Interface. The terms are interchangeable.

10.2.10 "Term-to-NID Subloop" is that portion of the loop from an accessible terminal to the NID, which is located at an end user customer's premise. Term-to-NID Subloop includes use of the Network Terminating Wire (NTW).

10.3 Subloops.

10.3.1 AT&T MISSOURI shall provide MCIm, upon MCIm's request, with nondiscriminatory access to Subloops on an unbundled basis, including but not limited to:

10.3.1.1 2-Wire Analog Subloop provides a 2-wire loop (one twisted pair cable or equivalent) capable of transporting analog signals in the frequency range of approximately 300 to 3000 hertz (voiceband).

10.3.1.2 4-Wire Analog Subloop provides a 4-wire loop (two twisted pair cables or equivalent, with separate transmit and receive paths) capable of transporting analog signals in the frequency range of approximately 300 to 3000 hertz (voiceband).

10.3.1.3 4-Wire DS1 Subloop provides a transmission path capable of supporting a 1.544 Mbps service that utilizes AMI or B8ZS line code modulation.

10.3.1.4 ISDN Subloop is a 2-Wire digital offering which provides a transmission path capable of supporting a 160 Kbps, Basic Rate ISDN (BRI) service that utilizes 2B1Q line code modulation with end user customer capacity up to 144 Kbps.

10.3.1.5 xDSL Subloop is as defined in the xDSL Appendix and will be available to MCIm in AT&T MISSOURI in those instances where MCIm has an approved and effective xDSL Appendix as a part of this Agreement. In addition to the provisions set forth in the xDSL Appendix, the xDSL Subloop is subject to the Subloop terms and conditions set forth in this Section 10, the collocation provisions set forth elsewhere in this Agreement, and the rates set forth in the Appendix Pricing. If there is any conflict between the provisions set forth in the xDSL Appendix as to the xDSL Subloop and the Subloop provisions set forth in this Section 10, the Subloop provisions set forth in this Section 10 shall control.

10.3.2 Subloops for Multiunit Premises Access and NIDs

10.3.2.1 Subloops for access to multiunit premises wiring. AT&T MISSOURI shall provide MCIm, upon MCIm's request, with nondiscriminatory access to the Subloop for access to multiunit premises wiring on an unbundled basis regardless of the capacity level or type of Loop that MCIm seeks to provision for its customer. The "Subloop for access to multiunit premises wiring" is defined as any portion of the Loop that it is Technically Feasible to access at a terminal in AT&T MISSOURI's outside plant at or near a multiunit premises. One category of this Subloop is inside wire, which is defined as all loop plant owned or controlled by AT&T MISSOURI at a multiunit customer premises between the minimum point of entry as defined in Section 68.105 of the FCC's Rules and the point of demarcation of AT&T MISSOURI's network as defined in Section 68.3 of the FCC's Rules.

10.3.2.2 AT&T MISSOURI will construct a SPOI only to those Multi-Unit premises where AT&T MISSOURI has distribution facilities to the premises and AT&T MISSOURI either owns controls or leases the inside wire, if any at such premises. If AT&T MISSOURI has no facilities which it owns, controls or leases at a multi-unit premises through which it serves or can serve customers at such premises, it is not obligated to construct a SPOI. AT&T MISSOURI's obligation to build a SPOI for multi-unit premises only arises when MCIm indicates that it will place an order for a Subloop network element via a SPOI. This obligation is in addition to AT&T MISSOURI's obligation to provide nondiscriminatory access to Subloops at any technically feasible point. If the Parties are unable to negotiate terms and conditions regarding a SPOI, issues in dispute, including compensation of AT&T MISSOURI under forward-looking

pricing principles, shall be resolved under the dispute resolution processes in this Agreement.

10.4 Subloop conditioning where applicable, is covered in Appendix DSL.

10.5 Access to Subloops

10.5.1 Access to terminals for Subloops is defined to include:

10.5.1.1 any technically feasible point, near the end user customer's premises accessible by a cross-connect (such as the pole or pedestal, the NID, or the minimum point of entry (MPOE) to the end user customer premises),

10.5.1.2 the Feeder Distribution Interface (FDI) or Serving Area Interface (SAI), where the trunk line, or "feeder", leading back to the central office and the "distribution" plant, branching out to the subscribers, meet, and "interface".

10.5.1.3 Intentionally Omitted

10.5.1.4 the Terminal or Remote Terminal (underground or aerial),

10.5.1.5 Intentionally Omitted

10.6 MCIm may request access to the following Subloop segments:

FROM	TO
1. Intentionally Omitted	Intentionally Omitted
2. Intentionally Omitted	Intentionally Omitted
3. Serving Area Interface or Feeder Distribution Interface	Terminal
4. Serving Area Interface or Feeder Distribution Interface	Network Interface Device
5. Terminal	Network Interface Device
6. Network Interface Device	Stand Alone
7. SPOI (Single Point of Interface) [1]	Network Interface Device
8. Intentionally Omitted	Intentionally Omitted
9. Intentionally Omitted	Intentionally Omitted
10. Intentionally Omitted	Intentionally Omitted

10.7 Provisioning:

10.7.1 Connecting Facility Arrangement (CFA) assignments must be in-place prior to ordering and assigning specific Subloop circuit(s).

[1] Provided using the BFR Process. In addition, if MCIm requests an Interconnection Point which has not been identified, MCIm will need to submit a BFR.

10.7.2 Spare Subloop(s) will be assigned to MCIm only when an LSR/ASR is processed. LSR/ASRs will be processed on a "first come first serve" basis.

10.7.3 Provisioning intervals for Subloops shall be governed by MCIm's state-specific contract interval for the stand-alone, full sec. 251(c)(3) UNE. For example, the provisioning interval for DSL-capable Subloop shall be determined based upon the interval negotiated for the stand-alone DSL-capable Loop.

10.8 Maintenance:

10.8.1 The Parties acknowledge that by separating switching, feeder plant and distribution plant, the ability to perform mechanized testing and monitoring of the Subloop from the AT&T MISSOURI switch/testing equipment will be lost.

10.8.2 Once Subloop Access Arrangements have been completed and balance of payment due AT&T MISSOURI is received, MCIm may place LSRs for Subloops at this location. Prices at which AT&T MISSOURI agrees to provide MCIm with sec. 251(c)(3) UNEs are contained in Appendix Pricing.

10.8.3 In the event of catastrophic damage to the RT, SAI/FDI, Terminal, or NID where MCIm has a Subloop Access Arrangement, AT&T MISSOURI's repair forces will restore service in a non-discriminatory manner which will allow the greatest number of all end user customers to be restored in the least amount of time. Should MCIm's cabling require replacement, AT&T MISSOURI will provide prompt notification to MCIm for MCIm to provide the replacement cable to be terminated as necessary.

10.8.4 AT&T MISSOURI shall charge MCIm a Maintenance of Service Charge (MSC) when MCIm reports a suspected failure of a Subloop and AT&T MISSOURI dispatches personnel to the End User Customer's premises or an AT&T MISSOURI Central Office and trouble was not caused by AT&T MISSOURI's facilities or equipment. Time and materials will include all technicians dispatched, including technicians dispatched to other locations for purposes of testing. Such charges may be found in Appendix Pricing or tariffs.

10.9 Subloop Access Arrangements:

10.9.1 Whenever MCIm wants to combine Subloops with other MCIm elements, MCIm will, prior to ordering Subloop facilities, establish Collocation using the Collocation process as set forth in the Collocation Appendix, or will establish a Subloop Access Arrangement utilizing the Special Construction Arrangement (SCA), either of which are necessary to interconnect to the AT&T MISSOURI Subloop network.

10.9.2 The space available for combining, collocating or obtaining various Subloop Access Arrangements will vary depending on the existing plant at a particular location. MCIm will initiate a Special Construction Arrangement (SCA) by submitting a Lawful UNE Subloop Access Arrangement Application.

10.9.3 Upon receipt of a complete and correct application, AT&T MISSOURI will provide to MCIm within thirty (30) days, a written estimate for the actual construction, labor, materials, and related provisioning costs incurred to fulfill the SCA on a time and materials

basis. When MCIm submits a request to provide a written estimate for Subloop(s) access, appropriate rates for the engineering and other associated costs performed will be charged.

10.9.4 The assignment of Subloop facilities will incorporate reasonable practices used to administer outside plant loop facilities. For example, where SAI/FDI interfaces are currently administered in 25 pair cable complements, this will continue to be the practice in assigning and administering Subloop facilities.

10.9.5 Subloop inquiries do not serve to reserve Subloop(s).

10.9.6 Several options exist for Collocation or Subloop Access Arrangements at technically feasible points. Sound engineering judgment will be utilized to ensure network security and integrity. Each situation will be analyzed on a case-by-case basis.

10.9.7 MCIm will be responsible for obtaining rights of way from owners of property where AT&T MISSOURI has placed the equipment necessary for the Lawful UNE Subloop Access Arrangement, if necessary, prior to submitting the request for a SCA.

10.9.8 Prior to submitting the Lawful UNE Sub-Loop Access Arrangement Application for SCA, MCIm shall have the "Collocation" and "Poles, Conduit, and ROW" Appendices in the Agreement to provide the guidelines for both MCIm and AT&T MISSOURI to successfully implement Subloops, should collocation, access to poles/conduits or rights of way be required.

10.9.9 Construction of the Subloop Access Arrangement shall be completed within ninety (90) days of MCIm submitting to AT&T MISSOURI written approval and payment of not less than 50% of the total estimated construction costs and related provisioning costs after an estimate has been accepted by the carrier and before construction begins, with the balance payable upon completion. AT&T MISSOURI will not begin any construction under the SCA until MCIm has provided proof that it has obtained necessary rights of way as defined herein. In the event MCIm disputes the estimate for an Subloop Access Arrangement in accordance with the dispute resolution procedures set forth in the General Terms and Conditions of this Agreement, AT&T MISSOURI will proceed with construction of the Subloop Access Arrangement upon receipt from MCIm of notice of the dispute and not less than fifty percent (50%) of the total estimated costs, with the balance payable by MCIm upon completion of the Subloop Access Arrangement. Such payments may be subject to any “true-up”, if applicable, upon resolution of the dispute in accordance with the Dispute Resolution procedures.

10.9.10 Upon completion of the construction activity, MCIm will be allowed to test the installation with an AT&T MISSOURI technician. If MCIm desires test access to the Subloop Access Arrangement, MCIm should place its own test point in its cable prior to cable entry into AT&T MISSOURI's interconnection point.

10.9.11 A non-binding MCIm forecast shall be required as a part of the request for a Subloop Access Arrangement, identifying the Subloops required for line-shared and non line-shared arrangements to each subtending SAI. This will allow AT&T MISSOURI to properly engineer access to each SAI and to ensure AT&T MISSOURI does not provide more available terminations than MCIm expects to use.

10.9.12 In order to maximize the availability of terminations for all CLECs, MCIm shall provide CFAs for their subloop pairs utilizing the same 25-pair binder group. MCIm would begin utilizing the second 25-pair binder group once the first 25-pair binder group reached its capacity.

10.9.13 Unused MCIm terminations (in normal splicing increments such as 25-pair at a SAI/FDI) which remain unused for a period of one year after the completion of construction shall be subject to removal at MCIm expense.

10.9.14 In the event MCIm elects to discontinue use of an existing Subloop Access Arrangement, or abandons such arrangement, MCIm shall pay AT&T MISSOURI for removal of their facilities from such arrangement.

10.10 Subloop Access Arrangement (SAA) Access Points:

10.10.1 SAI/FDI or Terminal

10.10.1.1 MCIm cable to be terminated in an AT&T MISSOURI SAI/FDI, or Terminal, shall consist of 22 or 24-guage copper twisted pair cable bonded and grounded to the power company Multi Grounded Neutral (MGN). Cable may be filled if buried or buried to aerial riser cable. MCIm's aerial cables should be aircore.

10.10.1.2 MCIm may elect to place their cable to within 3 feet of the Subloop Access Arrangement site and coil up an amount of cable, defined by the engineer in the design phase, that AT&T MISSOURI will terminate on available binding posts in the SAI/FDI or Terminal.

10.10.1.3 MCIm may "stub" up a cable at a prearranged meet point, defined during the engineering site visit, and AT&T MISSOURI will stub out a cable from the SAI/FDI or Terminal, which AT&T MISSOURI will splice to MCIm’s cable at the meet point.

10.10.1.4 Dead counts will be offered as long as they have not been placed for expansion purposes planned within the twelve (12) month period beginning on the date of the inquiry LSR.

10.10.1.5 Exhausted termination points in a SAI/FDI - When a SAI/FDI's termination points are all terminated to assignable cable pairs, if MCIm and AT&T MISSOURI are mutually agreeable, AT&T MISSOURI may increase capacity of the SAI/FDI by the method of it's choice, for which MCIm will be charged a portion of the expense to be determined by duly authorized MCIm and AT&T MISSOURI engineers for the purpose of allowing MCIm to terminate it's cable at the SAI/FDI.

10.10.1.6 Exhausted termination points in a terminal - When a terminal's termination points are all terminated to assignable cable pairs, AT&T MISSOURI may choose to increase the capacity of the terminal or, upon MCIm’s request, to

construct an adjacent termination facility to accommodate the MCIm facilities for which MCIm will be charged.

10.11 Relocation of Existing ILEC/CLEC Facilities involved in a Subloop Access Arrangement at a RT, SAI/FDI, Terminal or NID:

10.11.1 AT&T MISSOURI shall notify MCIm of pending relocation as soon as AT&T MISSOURI receives such notice.

10.11.2 MCIm shall notify AT&T MISSOURI of its intentions to remain, or not, in the Subloop Access Arrangement by way of a new Subloop Access Arrangement Application for a new SCA.

10.11.3 AT&T MISSOURI shall then provide MCIm an estimate to terminate their facilities as part of the relocation of the site including the applicable Subloop Access Arrangement. This process may require a site visit by MCIm and AT&T MISSOURI engineers.

10.11.4 MCIm shall notify AT&T MISSOURI of acceptance or rejection of the new SCA within ten (10) business days of its receipt of AT&T MISSOURI estimate.

10.11.5 Upon acceptance of the AT&T MISSOURI estimate, MCIm shall pay at least 50% of the relocation costs at the same time as they notify AT&T MISSOURI of their acceptance of estimate costs.

10.11.6 Should MCIm decide not to continue the Subloop Access Arrangement, MCIm will notify AT&T MISSOURI as to the date that AT&T MISSOURI may remove MCIm's facilities from that Subloop Access Arrangement. MCIm will pay AT&T MISSOURI for all costs associated with the removal of MCIm's Subloop Access Arrangement.

10.11.7 In the event that MCIm does not respond to AT&T MISSOURI in time to have their facilities relocated, AT&T MISSOURI shall move MCIm facilities and submit a bill for payment to MCIm for the costs associated with the relocation. Should MCIm elect not to pay this bill, MCIm's facilities will be removed from the site upon thirty (30) days notice to MCIm.

10.12 Retirement of Copper Subloops. Prior to retiring any copper Subloop that has been replaced with a Fiber-to-the-Home Loop, AT&T MISSOURI shall comply with (i) the network disclosure requirements set forth in Section 251(c)(5) of the Act and in Sections 51.325 through 51.335 of the FCC's Rules and (ii) any applicable requirements of state law.

11 ENGINEERING CONTROLLED SPLICE (ECS)

11.1 AT&T MISSOURI will make available an Engineering Controlled Splice (ECS), which will be owned by AT&T MISSOURI, for MCIm to gain access to Subloops at or near remote terminals.

11.2 The ECS shall be made available for Subloop Access Arrangements utilizing the SCA.

11.2.1 MCIm requesting such a SCA shall pay all of the actual construction, labor, materials and related provisioning costs incurred to fulfill its SCA on a time and materials basis, provided that AT&T MICHIAN will construct any Subloop Access Arrangement

requested by a telecommunications carrier in a cost-effective and efficient manner. If AT&T MISSOURI elects to incur additional costs for its own operating efficiencies and that are not necessary to satisfy an SCA in a cost-effective and efficient manner, the requesting telecommunications carrier will not be liable for such extra costs.

11.2.2 MCIm shall be liable only for costs associated with cable pairs that it orders to be presented at an engineering controlled splice (regardless of whether the requesting carrier actually utilizes all such pairs), even if AT&T MISSOURI places more pairs at the splice.

11.2.3 AT&T MISSOURI will either use existing copper or construct new copper facilities between the SAI(s) and the ECS, located in or at the remote terminal site. Although AT&T MISSOURI will construct the engineering controlled splice, the ECS maybe owned by AT&T MISSOURI or the MCIm (depending on the specific arrangement) at the option of AT&T MISSOURI.

11.2.4 If more than one CLEC obtains space in expanded remote terminals or adjacent structures and obtains an Subloop Access Arrangement with the new copper interface point at the ECS, the initial telecommunications carrier which incurred the costs of construction of the engineering controlled splice and/or additional copper/fiber shall be reimbursed those costs in equal proportion to the space or lines used by the requesting carriers.

11.2.5 AT&T MISSOURI may require a separate SCA for each remote terminal site.

11.2.6 Written acceptance and at least 50% of payment for the SCA must be submitted at least 90 days before access to the copper Subloop or dark fiber is to be provisioned. If an augment of cabling is required between the ECS and the SAI, the interval for completion of the SCA will be determined on an individual case basis.

11.3 MCIm will have two (2) options for implementing the ECS: a "Dedicated Facility Option" (DFO) and a "Cross-connected Facility Option" (CFO).

11.3.1 Dedicated Facility Option (DFO)

11.3.1.1 MCIm may request AT&T MISSOURI splice the existing cabling between the ECS and the SAI to MCIm's Subloop Access Arrangement facility. This facility will be "dedicated" to MCIm for subsequent Subloop orders.

11.3.1.2 MCIm must designate the quantity of Subloops they desire to access via this spliced, dedicated facility, specified by subtending SAI.

11.3.1.3 MCIm will compensate AT&T MISSOURI for each of the dedicated subloop facilities, based on recurring Subloop charges for the quantity of Subloops dedicated to MCIm between the ECS and the SAI.

11.3.2 Cross-connected Facility Option (CFO)

11.3.2.1 MCIm may request AT&T MISSOURI build an ECS cross-connect junction on which to terminate MCIm's Subloop Access Arrangement facility.

11.3.2.2 The SCA associated with this option will include the charges associated with constructing the cross-connect device, including the termination of AT&T MISSOURI cabling between the ECS and the RT and/or SAI, and the inventorying of that AT&T MISSOURI cabling.

11.3.2.3 MCIm must designate the quantity of Subloops they desire to access via this cross-connectable, dedicated facility, specified by subtending SAI.

11.3.2.4 MCIm will compensate AT&T MISSOURI for the charges incurred by AT&T MISSOURI derived from MCIm's request for the SCA.

12 LAWFUL UNE DARK FIBER

12.1 Subject to Sections 2 and 3 of this Appendix UNE, AT&T MISSOURI shall provide sec.251(c)(3) Dedicated Transport Dark Fiber (hereafter, "Dedicated Transport Dark Fiber").

12.2 In AT&T MISSOURI, Dedicated Transport Dark Fiber is deployed unlit optical fiber within AT&T MISSOURI's network.

12.2.1 Sec. 251(c)(3) Dark Fiber (hereafter, "Dark Fiber") is fiber that is spliced in all segments from end to end and would provide continuity or "light" end to end. MCIm may only subscribe to dark fiber that is considered "spare," as defined herein. Dark Fiber is deployed unlit fiber optic cable that connects two points within the AT&T MISSOURI's network. Dark fiber is fiber that has not been activated through connection to the electronics that "light it", and thereby render it capable of carrying communications services.

12.2.2 Intentionally Omitted.

12.2.3 Dedicated Transport Dark Fiber is defined as AT&T MISSOURI Dark Fiber interoffice transmission facilities dedicated to MCIm that are within AT&T MISSOURI's switches or wire centers within a LATA. AT&T MISSOURI is not obligated to provide MCIm with unbundled access to Dedicated Transport that does not connect a pair of AT&T wire centers. AT&T MISSOURI will offer Dedicated Transport Dark Fiber to MCIm when MCIm has collocation space in each AT&T MISSOURI Central Office where the requested Dedicated Transport Dark Fiber(s) terminate.

12.2.4 A "route" is defined as a transmission path between one of AT&T MISSOURI's wire centers or switches and another of AT&T MISSOURI's wire centers or switches. A route between two points (e.g., wire center of switch "A" and wire center or switch "Z") may pass through one or more intermediate wire centers or switches (e.g. wire center or switch "X"). Transmission paths between identical end points (e.g., wire center or switch "A" and wire center or switch "Z") are the same "route," irrespective of whether they pass through the same intermediate wire centers or switches, if any.

12.3 Loop Dark Fiber

12.3.1 AT&T MISSOURI is not required to provide Loop Dark Fiber on an unbundled basis.

12.3.1.1 As to each dark fiber Loop, after March 11, 2005, pursuant to Rules 51.319(a) and (e), as set forth in the TRO Remand Order, AT&T MISSOURI shall continue to provide access to MCIm's embedded base of dark fiber Loops (i.e. only dark fiber Loop ordered by MCIm *before* March 11, 2005), in accordance with and only to the extent permitted by the terms and conditions set forth in the Attachment 6: Unbundled Network Elements of the MCImetro Access Transmission Services LLC MISSOURI Interconnection Agreement for a transitional period of time, ending upon the earlier of:

(a) MCIm's disconnection or other discontinuance of use of one or more of the dark fiber Loop;

(b) MCIm's transition of an dark fiber Loop to an alternative arrangement; or

(c) September 11, 2006.

12.3.1.1.1 Except to the extent of the very limited purposes and time periods set forth herein, this section does not, in any way, extend the rates, terms or conditions of the Attachment 6: Unbundled Network Elements of the MCImetro Access Transmission Services LLC MISSOURI Interconnection Agreement beyond its term.

12.4 Dedicated Transport Dark Fiber

12.4.1 Subject to Section 5 and this Section 12.4 of this Appendix UNE, AT&T MISSOURI shall provide MCIm, upon MCIm's request, with nondiscriminatory access to Dedicated Transport Dark Fiber on an unbundled basis; provided, however, that AT&T MISSOURI need not provide MCIm with Lawful UNE Dedicated Transport of OCn levels or higher.

12.4.2 Intentionally Omitted.

12.4.2.1 AT&T MISSOURI shall provide MCIm with access to Dedicated Transport Dark Fiber, except on routes where both wire centers defining the route are either Tier 1 or Tier 2 Wire Centers. As such, AT&T MISSOURI must provide Dedicated Transport Dark Fiber under this Agreement only if a wire center on either end of the requested route is a Tier 3 Wire Center. If both wire centers defining a requested route are either Tier 1 or Tier 2 Wire Centers, then Dedicated Transport Dark Fiber circuits on such routes are Declassified and no longer available under this Agreement. Accordingly, MCIm may not order or otherwise obtain, and MCIm will cease ordering Dedicated Transport Dark Fiber on such route(s). Products provided by AT&T MISSOURI in conjunction with Dedicated Transport Dark Fiber, if any, shall also be subject to termination under this Section 12.4 where such fiber is Declassified. The Parties agree that activity by AT&T MISSOURI under this Section 12.4 shall not be subject to the Network Disclosure Rules.

12.4.2.2 As to each Dedicated Transport Dark Fiber , after March 11, 2005, pursuant to Rules 51.319(a) and (e), as set forth in the TRO Remand Order, AT&T

MISSOURI shall continue to provide access to MCIm's embedded base of Dedicated Transport Dark Fiber (i.e. only Dedicated Transport Dark Fiber ordered by MCIm *before* March 11, 2005), in accordance with and only to the extent permitted by the terms and conditions set forth in the Attachment 6: Unbundled Network Elements of the MCImetro Access Transmission Services LLC MISSOURI Interconnection Agreement for a transitional period of time, ending upon the earlier of:

(a) MCIm's disconnection or other discontinuance of use of one or more of the Dedicated Transport Dark Fiber;

(b) MCIm's transition of the Dedicated Transport Dark Fiber to an alternative arrangement; or

(c) September 11, 2006.

Except to the extent of the very limited purposes and time periods set forth herein, this section does not, in any way, extend the rates, terms or conditions of the Attachment 6: Unbundled Network Elements of the MCImetro Access Transmission Services LLC MISSOURI Interconnection Agreement beyond its term.

12.4.3 Intentionally Omitted.

12.4.4 Wire Center "Tiers" -- For purposes of this Section 12 (and Section 15 related to Dark Fiber), wire centers are classified into three "tiers," as follows:

12.4.4.1 Tier 1 Wire Centers are those ILEC wire centers that contain at least four fiber-based collocators, at least 38,000 business lines, or both. Tier 1 Wire Centers also are those ILEC tandem switching locations that have no line-side switching facilities, but nevertheless serve as a point of traffic aggregation accessible by CLECs. Once a wire center is determined to be a Tier 1 Wire Center, that wire center is not subject to later reclassification as a Tier 2 or Tier 3 Wire Center.

12.4.4.2 Tier 2 Wire Centers are those ILEC wire centers that are not Tier 1 Wire Centers, but contain at least 3 fiber-based collocators, at least 24,000 business lines, or both. Once a wire center is determined to be a Tier 2 Wire Center, that Wire Center is not subject to later reclassification as a Tier 3 Wire Center.

12.4.4.3 Tier 3 Wire Centers are those ILEC wire centers that do not meet the criteria for Tier 1 or Tier 2 Wire Centers.

12.4.5 Intentionally Omitted.

12.5 Spare Fiber Inventory Availability and Condition

12.5.1 All available spare Dedicated Transport Dark Fiber will be provided as is. No conditioning will be offered. Spare Dedicated Transport Dark Fiber is fiber that can be spliced in all

segments, point to point but not assigned, and spare Dedicated Transport Dark Fiber does not include maintenance spares, fibers set aside and documented for AT&T MISSOURI's forecasted growth, defective fibers, or fibers subscribed to by other Telecommunications Carriers.

12.6 Determining Spare Fibers:

12.6.1 AT&T MISSOURI will inventory spare Dedicated Transport Dark Fiber. Spare Dedicated Transport Dark Fiber do not include the following:

12.6.1.1 Maintenance spares. Maintenance spares shall be kept in inventory like a working fiber. Spare maintenance fibers are assigned as follows:

12.6.1.1.1 Cables with 24 fibers and less: 2 maintenance spare fibers
12.6.1.1.2 Cables with 36 and 48 fibers: 4 maintenance spare fibers
12.6.1.1.3 Cables with 72 and 96 fibers: 8 maintenance spare fibers
12.6.1.1.4 Cables with 144 fibers: 12 maintenance spare fibers
12.6.1.1.5 Cables with 216 fibers: 18 maintenance spare fibers
12.6.1.1.6 Cables with 288 fibers: 24 maintenance spare fibers
12.6.1.1.7 Cables with 432 fibers: 36 maintenance spare fibers
12.6.1.1.8 Cables with 864 fibers: 72 maintenance spare fibers

12.6.1.2 Defective fibers - Defective fibers, if any, will be deducted from the total number of spare fibers that would otherwise be available to MCIm for use under this Agreement.

12.6.1.3 AT&T MISSOURI growth fibers. Fibers documented as reserved by AT&T MISSOURI for utilization for growth within the 12 month-period following the carrier's request.

12.6.2 The appropriate AT&T MISSOURI engineering organization will maintain records on each fiber optic cable for which MCIm requests Dedicated Transport Dark Fiber.

12.7 Quantities and Time Frames for ordering Dedicated Transport Dark Fiber

12.7.1 MCIm may order Dedicated Transport Dark Fiber on a strand-by-strand basis. Should spare Dedicated Transport Dark Fiber fall below 8 strands in a given location, AT&T MISSOURI will provide the remaining spares one strand at a time and no more than a quantity of 2 strands.

12.7.2 If MCIm wishes to request Dedicated Transport Dark Fiber, it must submit a Dedicated Transport Dark Fiber facility inquiry, providing MCIm's specific point-to-point (A to Z) Dedicated Transport Dark Fiber requirements. For such inquiries, AT&T MISSOURI shall provide to MCIm information regarding the location and availability. When MCIm submits a Dedicated Transport Dark Fiber facility inquiry, appropriate rates for the inquiry will be charged as outlined in state specific Appendix Pricing.

12.7.2.1 If spare Dedicated Transport Dark Fiber is available, as determined under this Agreement, AT&T MISSOURI will notify MCIm and MCIm may place an Access Service Request (ASR) for the Dedicated Transport Dark Fiber.

12.7.3 Dedicated Transport Dark Fiber will be assigned to MCIm only when an ASR is processed. ASRs will be processed on a first-come-first-served basis. Inquiry facility checks do not serve to reserve Dedicated Transport Dark Fiber. When MCIm submits the ASR, the ASR will be processed and the Dedicated Transport Dark Fiber facilities assigned for use by MCIm within thirty (30) business days and charges will apply as outlined in Appendix Pricing.

12.7.3.1 Prior to completing any order for dark fiber submitted by MCIm, AT&T MISSOURI shall conduct an Actual Measured Loss (AML) readings on the Dedicated Transport Dark Fiber ordered on the plant test date, and shall provide the results of such reading to MCIm. If, in MCIm's sole discretion, such AML reading indicates that the Dedicated Transport Dark Fiber does not meet MCIm's usability and performance requirements, MCIm may, at any time up to the close of business on the due date for the Dedicated Transport Dark Fiber order, cancel its order and shall not be responsible for any charges, other than applicable Dedicated Transport Dark Fiber Inquiry charges associated with that order.

12.8 Right of Revocation of Access to Dedicated Transport Dark Fiber

12.8.1 Right of revocation of access to Dedicated Transport Dark Fiber is distinguishable from Declassification as defined in the Section 5 of this Appendix UNE. For clarification purposes, AT&T MISSOURI's right of revocation of access under this section applies even when the affected Dedicated Transport Dark Fiber remain subject to unbundling obligations under Section 251(c)(3) of the Act, in which case MCIm's rights to the affected network element may be revoked as provided in this section.

12.8.1.1 AT&T MISSOURI may reclaim Dedicated Transport Dark Fiber from MCIm upon at least twelve (12) months written notice only if:

12.8.1.2 AT&T MISSOURI negotiates with MCIm in good faith to address MCIm's concerns related to AT&T MISSOURI's proposed reclamation, including issues related to coordination and timing for the purpose of minimizing service disruption;

12.8.1.3 AT&T MISSOURI demonstrates to the Commission that AT&T MISSOURI reasonably needs the Dedicated Transport Dark Fiber to meet its carrier-of-last-resort responsibilities within twelve (12) months following the reclamation; and

12.8.1.4 AT&T MISSOURI provides MCIm with an alternative facility with the same bandwidth MCIm was using or had committed to use prior to AT&T MISSOURI reclaiming the facility, provided that AT&T MISSOURI shall use commercially reasonable efforts to ensure that the alternative facility does not result in any additional costs or charges to MCIm or reduce the quality of MCIm's services.

12.8.2 Should MCIm not utilize the fiber strand(s) subscribed to within the twelve (12) month period following the date AT&T MISSOURI provided the fiber(s), AT&T MISSOURI may revoke MCIm's access to the Dedicated Transport Dark Fiber and Loop Dark Fiber and

recover those fiber facilities and return them to AT&T MISSOURI inventory. AT&T MISSOURI may reclaim from MCIm the right to use Dedicated Transport Dark Fiber and Loop Dark Fiber, whether or not the Dedicated Transport Dark Fiber and Loop Dark Fiber is being utilized by MCIm, upon twelve (12) months' written notice to MCIm. AT&T MISSOURI will provide an alternative facility for MCIm with the same bandwidth MCIm was using prior to reclaiming the facility. AT&T MISSOURI must also demonstrate to MCIm that the Dedicated Transport Dark Fiber and Loop Dark Fiber will be needed to meet AT&T MISSOURI's bandwidth requirements within the twelve (12) months following the revocation.

12.9 Access Methods specific to Dark Fiber

12.9.1 The demarcation point for Dedicated Transport Dark Fiber and Loop Dark Fiber at Central Offices, Remote Terminals and End User premises will be in an AT&T MISSOURI approved splitter shelf. This arrangement allows for non-intrusive testing.

12.9.2 At AT&T MISSOURI Central Offices, Dedicated Transport Dark Fiber and Loop Dark Fiber terminates on a fiber distribution frame, or equivalent in the Central Office. MCIm access is provided pursuant to Method 1 (Section 4 of this Appendix UNE), which is the only method of access for Dark Fiber.

12.10 Installation and Maintenance for Dark Fiber

12.10.1 AT&T MISSOURI will install demarcations and place the fiber jumpers from the fiber optic terminals to the demarcation point. MCIm will run its fiber jumpers from the demarcation point (1x2, 90-10 optical splitter) to MCIm's equipment.

12.11 Dedicated Transport Dark Fiber Declassification

12.11.1 Intentionally Omitted.

12.11.2 Effect on Embedded Base. Upon Declassification of Dedicated Transport Dark Fiber already purchased by MCIm under this Agreement, AT&T MISSOURI will provide written notice to MCIm of such Declassification, and proceed in accordance with Section 5, and at the end of the 30-day notice period under that Section, provision of the affected Dedicated Transport Dark Fiber to MCIm will be terminated without further obligation of AT&T MISSOURI.

12.12 Routine Network Modifications -

12.12.1 AT&T MISSOURI shall make routine network maintenance modifications to Dedicated Transport Dark Fiber and Loop Dark Fiber facilities used by MCIm in accordance with routine network modification requirements, dedicated transport, and local loops as set forth in this Appendix UNE.

12.12.1.1 Intentionally Omitted

12.12.1.2 Intentionally Omitted

12.12.2 Intentionally Omitted.

12.12.2.1 AT&T MISSOURI shall provide routine network modifications at the rates, terms and conditions set out in this Appendix UNE and in the Appendix Pricing.

13 TRO REMAND-DECLASSIFIED SWITCHING AND UNE-P

13.1 The Parties acknowledge that if MCIm does not have an Embedded Base of ULS/UNE-P end user customers served through this Agreement then the terms and conditions of this Section 13 as to the continued provision of the Embedded Base of ULS/UNE-P shall not apply and MCIm reserves its rights as to whether the requirements of this Section 13 as to the continued provision of the Embedded Base of ULS or UNE-P are in accordance with Applicable Law. Notwithstanding anything in the Agreement, pursuant to Rule 51.319(d) as set forth in the TRO Remand Order, effective March 11, 2005, MCIm is not permitted to obtain new Mass Market ULS, whether alone, in combination (as in with "UNE-P"), or otherwise. For purposes of this Section, "Mass Market" shall mean 1 – 23 lines, inclusive (i.e. less than a DS1 or "Enterprise" level.)

13.2 Transitional Provision of Embedded Base of ULS and UNE-P.

13.2.1 As to each Mass Market ULS or Mass Market UNE-P, after March 11, 2005, pursuant to Rules 51.319(d), as set forth in the TRO Remand Order, AT&T MISSOURI shall continue to provide access to MCIm's embedded base of Mass Market ULS Element or Mass Market UNE-P (i.e. only Mass Market ULS Elements or Mass Market UNE-P ordered by MCIm before March 11, 2005), in accordance with and only to the extent permitted by the terms and conditions set forth in the Attachment 6: Unbundled Network Elements of the MCImetro Access Transmission Services LLC MISSOURI Interconnection Agreement for a transitional period of time, ending upon the earlier of:

13.2.1.1 MCIm's disconnection or other discontinuance [except Suspend/Restore] of use of one or more of the Mass Market ULS Element(s) or Mass Market UNE-P;

13.2.1.2 MCIm's transition of a Mass Market ULS Element(s) or Mass Market UNE-P to an alternative arrangement; or

13.2.1.3 March 11, 2006.

13.2.1.4 Except to the extent of the very limited purposes and time periods set forth herein, this section does not, in any way, extend the rates, terms or conditions of the Attachment 6: Unbundled Network Elements of the MCImetro Access Transmission Services LLC MISSOURI Interconnection Agreement beyond its term.

13.2.2 AT&T MISSOURI's transitional provision of embedded base Mass Market ULS or Mass Market UNE-P under this section shall be on an "as is" basis, except that MCIm may continue to submit orders to add, change or delete features on the embedded base Mass Market ULS or Mass Market UNE-P, or may re-configure to permit or eliminate line splitting. Upon the earlier of the above three events occurring, as applicable, AT&T MISSOURI may, without further notice or liability, cease providing the Mass Market ULS Element(s) or Mass Market UNE-P.

13.2.3 Concurrently with its provision of embedded base Mass Market ULS or Mass Market UNE-P pursuant to this Embedded Base Rider, and subject to this section, and subject to the conditions set forth below, AT&T MISSOURI shall also continue to provide access to call-related databases, SS7 call setup, ULS shared transport and other switch-based features in accordance with and only to the extent permitted by the terms and conditions set forth in the Attachment 6: Unbundled Network Elements of the MCImetro Access Transmission Services LLC MISSOURI Interconnection Agreement and only to the extent such items were already being provided before March 11, 2005, in conjunction with the embedded base Mass Market ULS or Mass Market UNE-P.

13.2.3.1 The Attachment 6: Unbundled Network Elements of the MCImetro Access Transmission Services LLC MISSOURI Interconnection Agreement must contain the appropriate related terms and conditions, including pricing; and the features must be "loaded" and "activated" in the switch.

13.3 Transitional Pricing for Embedded Base of ULS and UNE-P.

13.3.1 Notwithstanding anything in the Attachment 6: Unbundled Network Elements of the MCImetro Access Transmission Services LLC MISSOURI Interconnection Agreement during the applicable transitional period of time, the price for the embedded base Mass Market ULS or Mass Market UNE-P shall be the higher of:

13.3.1.1 the rate at which MCIm obtained such Mass Market ULS/UNE-P on June 15, 2004 plus one dollar, or

13.3.1.2 the rate the applicable state commission established(s), if any, between June 16, 2004, and March 11, 2005, for such Mass Market ULS/UNE-P, plus one dollar.

13.3.2 Regardless of the execution or effective date of this Embedded Base Rider or the underlying Agreement, MCIm will be liable to pay the transitional pricing for Mass Market ULS Element(s) and Mass Market UNE-P, beginning March 11, 2005.

13.3.3 MCIm shall be fully liable to AT&T MISSOURI to pay such transitional pricing under the Agreement, effective as of March 11, 2005, including applicable terms and conditions setting forth interest and/or late payment charges for failure to comply with payment terms.

13.4 End of Transitional Period for ULS and UNE-P.

13.4.1 MCIm will complete the transition of embedded base Mass Market ULS and Mass Market UNE-P to an alternative arrangement by the end of the transitional period of time defined in the TRO Remand Order (March 11, 2006).

13.4.1.1 To the extent that there are MCIm embedded base Mass Market ULS or UNE-P (and related items, such as those referenced above) in place on March 11, 2006, AT&T MISSOURI, without further notice or liability, will re-price such arrangements to a market-based rate.

14 INTENTIONALLY OMITTED

15 SEC. 251(c)(3) DEDICATED TRANSPORT

15.1 Definitions

15.1.1 “Sec. 251(c)(3) Dedicated Transport” (DS1, DS3 or Dark Fiber)(hereafter, "Dedicated Transport") is an interoffice transmission path, to which MCIm is granted exclusive use, between an MCIm-designated location in one of AT&T MISSOURI's wire centers or switches within a LATA and an MCIm-designated location in another of AT&T MISSOURI's wire centers or switches within a LATA. Such MCIm-designated locations may include MCIm network components as located within connecting AT&T MISSOURI’s wire centers or switches within a LATA. Such MCIm-designated locations may also include other carriers’ network components located within AT&T MISSOURI’s wire centers or switches, as permitted by other carriers via a letter of authorization.

15.2 Subject to the limitations set forth in Section 5 (“Transition”) of this Appendix UNE, AT&T MISSOURI shall provide MCIm with nondiscriminatory access to DS1 and DS3 Dedicated Transport on an unbundled basis in accordance with the requirements of this Agreement only where such facilities exist at the time of MCIm’s request and only over routes that have not been Declassified.

15.2.1 AT&T MISSOURI will be responsible for the engineering, provisioning, maintenance of the underlying equipment and facilities that are used to provide Dedicated Transport.

15.2.2 AT&T MISSOURI will provide Dedicated Transport to MCIm only at the following speeds: DS1 (1.544 Mbps) and DS3 (44.736 Mbps).

15.2.3 Dedicated Transport includes the following elements:

15.2.3.1 a circuit between two AT&T MISSOURI switches or Wire Centers within AT&T MISSOURI’s network within the LATA.

15.2.3.2 Multiplexing – an option ordered in conjunction with Dedicated Transport which converts a circuit from higher to lower bandwidth, or from digital to voice grade. Multiplexing is only available when ordered at the same time as Dedicated Transport.

15.2.3.3 Other optional features are outlined in Appendix Pricing.

15.3 Dedicated DS1 Transport.

15.3.1 AT&T MISSOURI shall make available to MCIm, upon MCIm’s request, Dedicated DS1 Transport on an unbundled basis as set forth in this Section 15.3. Dedicated DS1 Transport consists of AT&T MISSOURI interoffice transmission facilities that have a total digital signal speed of 1.544 megabytes per second and are dedicated to a particular customer or carrier. AT&T MISSOURI shall provide MCIm, upon MCIm’s request, Dedicated DS1 Transport between any pair of AT&T Wire Centers, except where, through application of tier classifications set forth below, both Wire Centers defining the Route are Tier 1 Wire Centers. As such, AT&T MISSOURI must provide Dedicated DS1 Transport if

a Wire Center at either end of a requested Route is not a Tier 1 Wire Center, or if neither is a Tier 1 Wire Center.

15.3.2 Cap on DS1 Dedicated Transport. MCIm may obtain a maximum of ten unbundled Dedicated DS1 Transport circuits on each Route where Dedicated DS1 Transport is available on an unbundled basis.

15.3.3 Transition period for Dedicated DS1 Transport.

15.3.3.1 For a 12-month period beginning on March 11, 2005, any Dedicated DS1 Transport that MCIm leases from AT&T MISSOURI as of that date, but which AT&T MISSOURI is not obligated to unbundle pursuant to Sections 51.319(e)(2)(ii)(A) or 51.319(e)(2)(ii)(B) of the FCC's rules as of that date, shall be available for lease from AT&T MISSOURI at a rate equal to the higher of: (a) 115 percent (115%) of the rate MCIm paid for the Dedicated DS1 Transport on June 15, 2004; or (b) 115 percent (115%) of the rate the Commission has established or establishes, if any, between June 16, 2004 and March 11, 2005, for that Dedicated DS1 Transport circuit. Where AT&T MISSOURI is not required to provide Dedicated DS1 Transport pursuant to Sections 51.319(e)(2)(ii)(A) or 51.319(e)(2)(ii)(B) of the FCC's rules, MCIm may not obtain new Dedicated DS1 Transport as an unbundled Network Element, except as otherwise set forth in this Appendix.

15.3.3.2 Intentionally Omitted.

15.4 Dedicated DS3 Transport. AT&T shall make available Dedicated DS3 Transport to MCIm on an unbundled basis as set forth in this Section 15.4. Dedicated DS3 Transport consists of AT&T interoffice transmission facilities that have a total digital signal speed of 44.736 megabytes per second and are dedicated to a particular customer or carrier.

15.4.1 General availability of Dedicated DS3 Transport. AT&T shall provide MCIm, upon MCIm's request, Dedicated DS3 Transport between any pair of AT&T Wire Centers except where, through application of tier classifications described herein, both Wire Centers defining the Route are either Tier 1 or Tier 2 Wire Centers. As such, AT&T must provide Dedicated DS3 Transport if a Wire Center on either end of a requested Route is a Tier 3 Wire Center.

15.4.2 Cap on Dedicated DS3 Transport. MCIm may obtain a maximum of twelve (12) unbundled Dedicated DS3 Transport circuits on each Route where Dedicated DS3 Transport is available on an unbundled basis.

15.4.3 Transition period for Dedicated DS3 Transport.

15.4.3.1 For a 12-month period beginning on March 11, 2005, any Dedicated DS3 Transport that MCIm leases from AT&T as of that date, but which AT&T is not obligated to unbundle pursuant to Sections 51.319(e)(2)(iii)(A) or 51.319(e)(2)(iii)(B) of the FCC's rules on that date, shall be available for lease from AT&T at a rate equal to the higher of: (a) 115 percent (115%) of the rate the requesting carrier paid for the dedicated transport element on June 15, 2004, or (b) 115 percent (115%) of the rate the state commission has

established or establishes, if any, between June 16, 2004 and March 11, 2005, for that Dedicated DS3 Transport. Where AT&T is not required to provide Dedicated DS3 Transport pursuant to Sections 51.319(e)(2)(iii)(A) or 51.319(e)(2)(iii)(B) of the FCC's rules, MCIm may not obtain new Dedicated DS3 Transport as unbundled Network Elements, except as otherwise set forth in this Appendix.

15.4.3.2 Intentionally Omitted.

15.4.3.3 Intentionally Omitted.

15.5 Intentionally Omitted.

15.6 Wire Center "Tiers" -- For purposes of this Section 15.5 (and Section 12 related to Dark Fiber), wire centers are classified into three "tiers," as follows:

15.6.1 Tier 1 Wire Centers are those ILEC wire centers that contain at least four fiber-based collocators, at least 38,000 business lines, or both. Tier 1 Wire Centers also are those ILEC tandem switching locations that have no line-side switching facilities, but nevertheless serve as a point of traffic aggregation accessible by CLECs. Once a wire center is determined to be a Tier 1 Wire Center, that wire center is not subject to later reclassification as a Tier 2 or Tier 3 Wire Center.

15.6.2 Tier 2 Wire Centers are those ILEC wire centers that are not Tier 1 Wire Centers, but contain at least 3 fiber-based collocators, at least 24,000 business lines, or both. Once a wire center is determined to be a Tier 2 Wire Center, that Wire Center is not subject to later reclassification as a Tier 3 Wire Center.

15.6.3 Tier 3 Wire Centers are those ILEC wire centers that do not meet the criteria for Tier 1 or Tier 2 Wire Centers.

15.7 Intentionally Omitted.

15.8 Diversity

15.8.1 When requested by MCIm, physical diversity shall be provided for Dedicated Transport. When MCIm requests physical diversity and facilities do not exist at the time of MCIm's request, AT&T MISSOURI shall provide such facilities in accordance with the requirements of section 2.10.19. Physical diversity means that two circuits are provisioned in such a way that no single failure of facilities or equipment will cause a failure on both circuits.

15.8.2 AT&T MISSOURI shall provide the physical separation between intra-office and inter-office transmission paths when technically and economically feasible. When additional costs are incurred by AT&T MISSOURI for MCIm specific diversity, AT&T MISSOURI will advise MCIm of the applicable additional charges. AT&T MISSOURI will not process the request for diversity until MCIm accepts such charges. Any applicable performance measures will be abated from the time diversity is requested until MCIm accepts the additional charges.

15.9 Digital Cross-Connect System (DCS)

15.9.1 AT&T MISSOURI will offer Digital Cross-Connect System (DCS) as part of the Dedicated Transport element with the same functionality that is offered to inter-exchange carriers. DCS requested by MCIm shall be subject to additional charges as outlined in Appendix Pricing.

15.10 Network Reconfiguration Service (NRS)

15.10.1 AT&T MISSOURI will offer reconfiguration service as part of the Dedicated Transport element with the same functionality that is offered to inter-exchange carriers. Charges for reconfiguration service are pursuant to Access Tariff FCC No. 73; provided, however, the tariffed rates referenced below shall be deemed to be automatically revised and updated in the event that the referenced tariffed rates are modified during the term of this Agreement.

15.11 Intentionally Omitted.

15.12 Routine network modifications.

15.12.1 AT&T MISSOURI shall make all routine network modifications to Dedicated Transport facilities used by MCIm where the requested Dedicated Transport facilities have already been constructed. In addition, AT&T MISSOURI shall perform all routine network modifications to Dedicated Transport facilities in a nondiscriminatory fashion, without regard to whether the facility being accessed was constructed on behalf, or in accordance with the specifications, of any carrier. A routine network modification is an activity that AT&T MISSOURI regularly undertakes for its own customers or affiliates. Routine network modifications include, but are not limited to, rearranging or splicing of cable; adding an equipment case; adding a doubler or repeater; installing a repeater shelf; and deploying a new multiplexer or reconfiguring an existing multiplexer. They also include activities needed to enable a requesting telecommunications carrier to light a dark fiber transport facility. Routine network modifications may entail activities such as accessing manholes, deploying bucket_trucks to reach aerial cable, and installing equipment casings. Routine network modifications do not include the installation of new aerial or buried cable for a requesting telecommunications carrier.

16 911 or E911 DATABASE

16.1 Access to the AT&T MISSOURI 911 or E911 call related databases will be provided as described in the 911 and E911 Appendix.

17 INTENTIONALLY OMITTED

18 OPERATIONS SUPPORT SYSTEMS FUNCTIONS

18.1 AT&T MISSOURI shall provide nondiscriminatory access in accordance with Section 47CFR 51.311 and Section 251(c)(3) of the Act to Operations Support Systems (OSS) on an unbundled basis to MCIm for the provision of a Telecommunications Service. OSS functions consist of pre-ordering, ordering, provisioning, maintenance and repair, and billing functions supported by AT&T MISSOURI's databases and information. AT&T MISSOURI, as part of its duty to provide access to

the pre-ordering function, must provide MCIm with nondiscriminatory access to the same detailed information about the Loop that is available to AT&T MISSOURI. Access to OSS is available as described in Appendix OSS.

19 CROSS CONNECTS

19.1 MCIm shall pay AT&T MISSOURI for cross connects at the rates set forth in Appendix Pricing of this Agreement.

20 PROVISIONING AND MAINTENANCE OF LAWFUL UNBUNDLED NETWORK ELEMENTS

20.1 Provisioning/Maintenance of Unbundled Network Elements

20.1.1 MCIm may order from AT&T MISSOURI multiple individual sec. 251(c)(3) UNEs on a single order subject to OSS specifications without the need to have MCIm send an order for each such sec. 251(c)(3) UNE if such sec. 251(c)(3) UNEs are: (i) for a single type of service, (ii) for a single location, and (iii) for the same account.

20.1.2 AT&T MISSOURI shall provide all provisioning services to MCIm during the same business hours AT&T MISSOURI provisions similar services for its end user customers or other CLECs.

20.1.3 AT&T MISSOURI shall provide a Single Point of Contact (SPOC) within the LSC for ordering and provisioning contacts and order flow involved in the purchase and provisioning of AT&T MISSOURI's sec. 251(c)(3) UNEs or combinations. The SPOC shall provide an electronic interface twenty-four (24) hours a day, seven (7) days a week for all ordering and provisioning order flows. The SPOC shall also provide to MCIm a toll-free nationwide telephone number (operational from 8:00 a.m. to 5:00 p.m., Monday through Friday) which will be answered by capable staff trained to answer questions and resolve problems in connection with the provisioning of sec. 251(c)(3) UNEs or combinations.

20.1.4 AT&T MISSOURI shall provide to MCIm a Single Point of Contact (Local Service Center or LSC) for ordering sec. 251(c)(3) UNEs . A national toll-free number will be provided. This LSC is responsible for order acceptance, order issuance, and return of the FOC to MCIm as specified in Performance Measurements Appendix. In addition, AT&T MISSOURI shall provide to MCIm a Single Point of Contact (Local Operations Center or LOC) for all provisioning, maintenance, repair, and cut-over coordination. A national toll-free number will be provided twenty-four (24) hours a day, seven (7) days a week.

20.1.5 AT&T MISSOURI will recognize MCIm as the customer of record of all sec. 251(c)(3) UNEs on an unbundled basis and Combinations ordered by MCIm and will send all notices, invoices and pertinent customer information directly to MCIm.

20.1.6 AT&T MISSOURI may not initiate any disconnection or rearrangement of any MCIm ordered sec. 251(c)(3) UNE on an unbundled basis or Combination, except as directed by MCIm or as otherwise provided in this Agreement.

20.1.7 AT&T MISSOURI will provide MCIm with a Firm Order Confirmation (FOC) for each order for all sec. 251(c)(3) UNEs on an unbundled basis. The FOC shall contain an

enumeration of MCIm's ordered sec. 251(c)(3) UNEs, services or combination features, options, physical Interconnection, quantity and a due date for the order. AT&T MISSOURI must return the FOC for sec. 251(c)(3) UNEs and combinations within five (5) hours of AT&T MISSOURI's receipt of any electronically submitted order and within twenty-four (24) hours of AT&T MISSOURI's receipt of any manually submitted (faxed) order.

20.1.8 AT&T MISSOURI shall provision sec. 251(c)(3) UNEs in accordance with the time frames set forth in Performance Measurements Appendix.

20.1.9 AT&T MISSOURI agrees to negotiate with MCIm prior to the due date a scheduled conversion date and time.

20.1.10 Not less than one (1) hour prior to the scheduled conversion time, either Party may contact the other Party and unilaterally designate a new scheduled conversion time. If the new conversion time is within the conversion window, no charges shall be assessed on or waived by either Party. If, however, the new conversion time is outside of the conversion window, the Party requesting such new conversion time shall be subject to the following:

20.1.10.1 If AT&T MISSOURI requests the new conversion time, the applicable line connection charge shall be waived; and

20.1.10.2 If MCIm requests the new conversion time, MCIm shall be assessed a line connection charge in addition to the line connection charge that will be incurred for the new conversion time.

20.1.11 The Parties agree that they will negotiate terms and conditions relative to coordinated cutovers (hot cuts) upon completion of state commission collaboratives in which hot cuts procedures are being addressed.

20.1.12 Except as otherwise agreed by the Parties for a specific conversion, the Parties agree that the time interval expected from disconnection of "live" telephone exchange service to the connection of a sec. 251(c)(3) UNE at the MCIm collocation interface point will be sixty (60) minutes or less. For purposes of this section, Delaying Event means (a) any failure of AT&T MISSOURI to perform any of its obligations set forth in this Agreement, caused in whole or in part by (i) the failure of MCIm to perform any of its obligations set forth in this Agreement, or (ii) any delay, act or failure to act by MCIm or its end user customer, agent or subcontractor or (b) any Force Majeure Event. AT&T MISSOURI shall waive the applicable line connection charge for such element.

20.1.13 Upon work completion, AT&T MISSOURI will provide MCIm electronically (unless otherwise notified by MCIm) with an order completion per order that states when that order was completed. AT&T MISSOURI shall respond with specific order detail as enumerated on the FOC and shall state any additional charges (e.g., time and materials charges) up to a previously agreed upon limit associated with that order.

20.1.14 As soon as identified, AT&T MISSOURI shall provide notification electronically of MCIm orders that are incomplete or incorrect and therefore cannot be processed.

20.1.15 As soon as identified, AT&T MISSOURI shall provide notification electronically of any instances when AT&T MISSOURI's due dates are in jeopardy of not being met by AT&T

MISSOURI on any element or feature contained in any order for sec. 251(c)(3) UNEs. AT&T MISSOURI shall indicate its new due date as soon as such date is available.

20.1.16 AT&T MISSOURI shall provide to MCIm upon request:

20.1.16.1 A list of all services and features technically available from each switch that AT&T MISSOURI may use to provide Local Switching, by switch CLLI.

20.1.16.2 A listing of street address detail for the service coverage area of each switch CLLI.

20.1.16.3 When available, all engineering design and layout information for each sec. 251(c)(3) UNE and Combination; provided that MCIm shall pay AT&T MISSOURI the costs incurred by AT&T MISSOURI to provide MCIm with copies of such information.

20.1.16.4 A listing of all technically available functionalities for each sec. 251(c)(3) UNE or Combination. If MCIm orders a technical publication, MCIm shall pay AT&T MISSOURI for the technical publications.

20.1.17 Within twenty-four (24) hours of MCIm's request, AT&T MISSOURI will perform cooperative testing with MCIm (including trouble shooting to isolate any problems) to test sec. 251(c)(3) UNEs or Combinations purchased by MCIm in order to identify any performance problems.

20.1.18 For orders of sec. 251(c)(3) UNEs (and LNP with the installation of a Loop) that require coordination among AT&T MISSOURI, MCIm and MCIm's customer, MCIm shall be responsible for any necessary coordination with its customer.

20.1.19 Access to sec. 251(c)(3) UNEs is provided under this Agreement over such routes, technologies, and facilities as AT&T MISSOURI may elect at its own discretion, but also at parity and on a nondiscriminatory basis. AT&T MISSOURI will provide access to sec. 251(c)(3) UNEs where technically feasible. Where facilities and equipment are not available AT&T MISSOURI shall not be required to provide sec. 251(c)(3) UNEs. However MCIm may request and to the extend required by law, AT&T MISSOURI may agree to provide sec. 251(c)(3) UNEs, through the Bona Fide Request (BFR) process outlined in Appendix BFR.

20.1.20 Subject to the terms herein, AT&T MISSOURI is responsible only for the provisioning, installation, operation and maintenance of the sec. 251(c)(3) UNEs it provides. AT&T MISSOURI is not otherwise responsible for the Telecommunications Services, including the design thereof, provided by MCIm through the use of those sec. 251(c)(3) UNEs, provided that both AT&T MISSOURI and MCIm meet their obligation under this Appendix UNE and the Agreement. MCIm will be responsible for the product of services it provides its End Users.

20.1.21 Where sec. 251(c)(3) UNEs provided to MCIm are dedicated to a single end user customer, if such sec. 251(c)(3) UNEs are for any reason disconnected they shall be made available to AT&T MISSOURI for future provisioning needs, on the same basis AT&T MISSOURI holds or reassigns such facilities for its own end user customers, unless

such sec. 251(c)(3) UNE is disconnected in error. MCIm agrees to relinquish control of any such sec. 251(c)(3) UNE concurrent with the disconnection of MCIm's end user customer service.

20.1.22 MCIm shall make available at mutually agreeable times the sec. 251(c)(3) UNEs provided pursuant to this Appendix in order to permit AT&T MISSOURI to test and make adjustments appropriate for maintaining the sec. 251(c)(3) UNEs in satisfactory operating condition. No credit will be allowed for any interruptions involved during such testing and adjustments. But in no case will AT&T MISSOURI perform scheduled maintenance on any MCIm sec. 251(c)(3) UNE prior to providing reasonable notice to MCIm in advance of performing such maintenance. AT&T MISSOURI shall provide emergency maintenance as promptly as possible to maintain or restore service and shall advise MCIm promptly of any emergency maintenance actions it takes effecting MCIm.

20.1.23 MCIm shall connect equipment and facilities that are compatible with AT&T MISSOURI's sec. 251(c)(3) UNEs and shall use sec. 251(c)(3) UNEs in accordance with all applicable regulatory standards and the requirements of this Agreement. MCIm's use of any AT&T MISSOURI sec. 251(c)(3) UNE, or of its own equipment or facilities in conjunction with any AT&T MISSOURI sec. 251(c)(3) UNE, will not materially interfere with or impair service over any facilities of AT&T MISSOURI, its affiliated companies or its connecting and concurring carriers involved in its services, cause damage to their plant, impair the privacy of any communications carried over their facilities or create hazards to the employees of any of them or the public. Upon reasonable written notice and opportunity to cure, AT&T MISSOURI may discontinue or refuse service if MCIm violates this provision, provided that such termination of service will be limited to MCIm's use of the sec. 251(c)(3) UNE(s) causing the violation.

20.1.24 When an existing end user customer served by AT&T MISSOURI or another CLEC changes service to MCIm using any AT&T MISSOURI provided unbundled Network Element(s), MCIm shall issue appropriate service requests to connect new service to MCIm's end user customer. MCIm's service requests will be processed by AT&T MISSOURI, and MCIm will be charged the existing unbundled Network Element service order charge(s) as set forth in the Pricing Appendix.

20.1.24.1 When end user customers already being provided service by AT&T MISSOURI migrate to MCIm, services will not be modified unless requested by MCIm and any service interruptions will not be discernable to the End User.

20.1.24.2 For "As is migrations" see Appendix OSS section 4.5.

20.2 If trouble occurs with sec. 251(c)(3) UNEs provided by AT&T MISSOURI, MCIm will first determine whether the trouble is in MCIm's own equipment and/or facilities or those of the end user customer. If MCIm determines the trouble is in AT&T MISSOURI's equipment and/or facilities, MCIm will issue a trouble report to AT&T MISSOURI.

20.2.1 A Party shall pay Time and Material Charges (maintenance of service charges/additional labor charges) when it reports a suspected failure of a sec. 251(c)(3) UNE and the other Party dispatches personnel to the end user customer's premises or a Central Office and to the extent that the trouble was not caused by the other Party's facilities or equipment.

Time and Material Charges will include all technicians dispatched, including technicians dispatched to other locations for purposes of testing. Rates of Time and Material charges will be billed at amounts equal to those contained in Appendix Pricing. AT&T MISSOURI shall apply Time and Material charges for Premises Visits at parity with what AT&T MISSOURI charges its retail end users customers.

20.3 Intentionally Omitted.

20.4 MCIm shall pay Time and Material charges when AT&T MISSOURI dispatches personnel and the trouble is in equipment or communications systems provided an entity by other than AT&T MISSOURI or in detariffed CPE provided by AT&T MISSOURI, unless covered under a separate maintenance agreement. Anything to the contrary in this Agreement notwithstanding, AT&T MISSOURI shall not proceed with any repairs pursuant to this section without the consent of MCIm's end user customer, which consent shall be obtained in accordance with the requirements of this Agreement, including providing MCIm with documentation of the end user customer's request.

20.5 MCIm shall pay Maintenance of Service charges when the trouble clearance did not otherwise require dispatch, but dispatch was requested for repair verification or cooperative testing, and the circuit did not exceed maintenance limits.

20.6 If MCIm issues a trouble report allowing AT&T MISSOURI access to the end user customer's premises and AT&T MISSOURI personnel are dispatched but denied access to the premises, provided AT&T MISSOURI makes a reasonable effort to enter the premises, then Time and Material charges will apply for the period of time that AT&T MISSOURI personnel are dispatched. Subsequently, if AT&T MISSOURI personnel are allowed access to the premises, these charges will still apply.

20.7 If MCIm requests or approves a AT&T MISSOURI technician to perform services in excess of or not otherwise contemplated by the nonrecurring charges herein, MCIm will pay Time and Material Charges for any additional work to perform such services only in circumstances in which AT&T MISSOURI would have charged its own customer such charges for work performed outside of normal scheduled working hours.

20.8 Time and Material Charges apply on a first and additional basis for each half-hour or fraction thereof. If more than one technician is dispatched in conjunction with the same trouble report, the total time for all technicians dispatched will be aggregated prior to the distribution of time between the "First Half Hour or Fraction Thereof" and "Each Additional Half Hour or Fraction Thereof" rate categories. Basic Time is work-related efforts performed during normally scheduled working hours on a normally scheduled workday. Overtime is work-related efforts performed on a normally scheduled workday, but outside of normally scheduled working hours. Premium Time is work-related efforts performed other than on a normally scheduled workday.

21 INTENTIONALLY OMITTED

22 ENHANCED EXTENDED LOOPS (EELs)

22.1 Definitions

22.1.1 A sec. 251(c)(3) "Enhanced Extended Link" or "EEL" means a combination consisting of a Loop(s) and Dedicated Transport, together with any facilities, equipment, or functions necessary to combine those sec. 251(c)(3) UNEs (including, for example, multiplexing capabilities). An EEL is required to terminate in a collocation arrangement that meets the requirements of Section 22.3.1.2.8 of this Appendix (e.g., the end of the Dedicated Transport that is opposite the end connected to the Loop must be accessed by MCIm at such a collocation arrangement via a cross connect).

22.1.2 Intentionally Omitted.

22.1.3 High-Capacity EELs means either: (i) an unbundled DS1 Loop in combination, or commingled, with a DS1 Dedicated Transport or DS3 Dedicated Transport facility or service, or to an unbundled DS3 loop in combination, or commingled, with a DS3 Dedicated Transport facility or service, or (ii) an unbundled DS1 Dedicated Transport facility in combination, or commingled, with an unbundled DS1 Loop or a DS1 channel termination service, or to an unbundled DS3 Dedicated Transport facility in combination, or commingled, with an unbundled DS1 Loop or a DS1 channel termination service, or to an unbundled DS3 Loop or a DS3 channel termination service.

22.2 General Requirements

22.2.1 AT&T MISSOURI shall provide access to sec. 251(c)(3) UNEs and combinations of sec. 251(c)(3) UNEs without regard to whether MCIm seeks access to the sec. 251(c)(3) UNEs to establish a new circuit or to convert an existing circuit from a service to sec. 251(c)(3) UNEs. AT&T MISSOURI shall provide EELs to MCIm as set forth in this Section.

22.2.2 Apart from the service eligibility criteria for High-Capacity EELs as set forth herein, AT&T MISSOURI shall not impose conditions or limitations upon obtaining access to EELs or other Combinations, such as requiring MCIm to purchase special access and then convert such facilities to UNEs.

22.3 Eligibility

22.3.1 AT&T MISSOURI shall provide MCIm with access to High-Capacity EELs that meet service eligibility criteria set forth in this section 22.3.1. AT&T MISSOURI is not obligated, and shall not, provide access to for example (1) a unbundled DS1 loop in combination, or Commingled, with a Dedicated DS1 Transport facility or service or a Dedicated DS3 (or higher) transport facility or service, or a (2) a Dedicated DS1 transport facility or service in combination, or Commingled, with a DS1 Loop or a DS1 channel termination service, or a dedicated DS3 (or higher) transport facility or service in combination, or Commingled, with a DS1 Loop or a DS1 channel termination service (collectively the "Included Arrangements"), or a DS3 Loop or a DS3 (or higher) channel termination service, unless MCIm certifies that all of the following conditions are met with respect to the arrangement being sought:

22.3.1.1 MCIm (directly and not via an Affiliate) has received state certification to provide local voice service in the area being served or, in the absence of a state certification requirement, has complied with registration, tariffing, filing fee, or other regulatory requirements applicable to the provision of local voice

service in that area. AT&T MISSOURI hereby acknowledges that MCIm has received state certification sufficient to satisfy these criteria.

22.3.1.2 The following criteria are satisfied for each Included Arrangement, including each DS1 circuit, each DS3 circuit, each DS1 EEL, and each DS1-equivalent circuit on a DS3 EEL:

22.3.1.2.1 each circuit to be provided to each End User will be assigned a local telephone number (NPA-NXX-XXXX) that is associated with local service provided within an AT&T MISSOURI local service area and within the LATA where the circuit is located ("Local Telephone Number") prior to the provision of service over that circuit; (and for each circuit, MCIm will provide the corresponding Local Telephone Number(s) as part of the required certification); and

22.3.1.2.2 each DS1-equivalent circuit on a DS3 EEL or any other Included Arrangement must have its own Local Telephone Number assignment, so that each DS3 must have at least 28 Local voice Telephone Numbers assigned to it; and

22.3.1.2.3 each circuit to be provided to each End User will have 911 or E911 capability prior to the provision of service over that circuit; and

22.3.1.2.4 each circuit to be provided to each customer will terminate in a collocation arrangement that meets the requirements of section 22.3.1.2.8; and

22.3.1.2.5 each circuit to be provided to each customer will be served by an interconnection trunk that meets the requirements of section 22.3.1.2.9; and

22.3.1.2.6 for each 24 DS1 EELs or other facilities having equivalent capacity, MCIm will have at least one active DS1 local service interconnection trunk that meets the requirements of section 22.3.1.2.9; and

22.3.1.2.7 each circuit to be provided to each End User will be served by a switch capable of switching local voice traffic.

22.3.1.2.8 A collocation arrangement meets the requirements of this section if it is:

22.3.1.2.8.1 established pursuant to section 251(c)(6) of the Act and located at an AT&T MISSOURI premises within the same LATA as MCIm's end user customer's premises, when AT&T MISSOURI is not the collocator; or

22.3.1.2.8.2 located at a third party's premises within the same LATA as MCIm's End User premises, when AT&T MISSOURI is the collocator.

22.3.1.2.9 An interconnection trunk meets the requirements of this section if MCIm will transmit the calling party's Local Telephone Number in connection with calls exchanged over the trunk, and the trunk is located in the same LATA as the End User premises served by the Included Arrangement.

22.3.1.2.10 By way of example only, the application of the foregoing conditions means that a wholesale or retail DS1 or higher service/circuit (whether intrastate or interstate in nature or jurisdiction) comprised, in whole or in part, of a Loop-to-Dedicated Transport(s)-if any to Loop (with or without multiplexing) cannot qualify for at least the reason that the Loop-to Dedicated Transport combination included within that service/circuit does not terminate to a collocation arrangement. Accordingly, AT&T MISSOURI shall not be required to provide, and shall not provide, any combination of a Loop and Dedicated Transport (whether as a combination by themselves, with a Network Element possessed by MCIm or pursuant to Commingling) that does not terminate to a collocation arrangement that meets the requirements of Section 22.3.1.2.8 of this Appendix.

22.3.1.2.11 Other than the service eligibility criteria set forth in this Section, AT&T MISSOURI shall not impose limitation, restrictions, or requirements on requests for the use of UNEs and shall not require terms and conditions, including without limitation pre-audits and requirements to purchase special access and then convert to EELs, on MCIm's purchase of High-Capacity EELs.

22.3.1.2.12 MCIm must provide the certification required by this section on a form provided by AT&T MISSOURI on a circuit-by-circuit basis. MCIm will maintain the appropriate documentation to support its eligibility certifications, including without limitation call detail records, local telephone number assignment documentation, and switch assignment documentation. If the information previously provided in a certification is inaccurate (or ceases to be accurate) MCIm shall update such certification promptly with AT&T MISSOURI.

22.4 Commingling EELs

22.4.1 The terms and condition for the Commingling of EELs are set forth in Section 7 of this Appendix UNE.

22.5 Audits

22.5.1 In addition to any other audit rights provided for hereunder and those allowed by law, AT&T MISSOURI may obtain and pay for an independent auditor to audit MCIm, on an annual basis, applied on a State-by-State basis, for compliance with this Section. For purposes of calculating and applying an "annual basis," it means for a State a consecutive 12-month period, beginning upon AT&T MISSOURI's written notice that an audit will be performed for that State, subject to Section 22.5.5.

22.5.2 Unless otherwise agreed by the Parties (including at the time of the audit), the independent auditor shall perform its evaluation in accordance with the standards established by the American Institute for Certified Public Accountants (AICPA), which will require the auditor to perform an "examination engagement" and issue an opinion regarding MCIm's compliance with the qualifying services and the mandatory service eligibility criteria.

22.5.3 The independent auditor's report will conclude whether MCIm complied in all material respects with this Section.

22.5.4 Consistent with standard auditing practices, such audits require compliance testing designed by the independent auditor, which typically include an examination of a sample selected in accordance with the independent auditor's judgment.

22.5.5 To the extent the independent auditor's report concludes that MCIm failed to comply with this Section 22, MCIm must true-up any difference in payments beginning from the date that the non-compliant circuit was established as a sec. 251(c)(3) UNE or sec. 251(c)(3) UNE combination, in whole or in part (notwithstanding any other provision hereof), MCIm must convert the sec. 251(c)(3) UNE or sec. 251(c)(3) UNE combination, or Commingled Arrangement, to an equivalent or substantially similar wholesale service, or group of wholesale services, (and AT&T MISSOURI may initiate and affect such a conversion on its own without any further consent by MCIm) and MCIm shall timely make the correct payments on a going-forward basis, and all applicable remedies for failure to make such payments shall be available to AT&T MISSOURI. In no event shall rates set under Section 252(d)(1) apply for the use of any sec. 251(c)(3) UNE for any period in which MCIm does not meet the conditions set forth in this Section 22.5 for that sec. 251(c)(3) UNE, arrangement, or circuit, as the case may be. Also, the "annual basis" calculation and application shall be immediately reset, e.g., AT&T MISSOURI shall not have to wait the remaining part of the consecutive 12-month period before it is permitted to audit again in that State.

22.5.5.1 To the extent that the independent auditor's report concludes that MCIm failed to comply in all material respects with this Section 22.5, MCIm must reimburse AT&T MISSOURI for the cost of the independent auditor and for AT&T MISSOURI's costs in the same manner and using the same methodology and rates that AT&T MISSOURI is required to pay MCIm's costs under this Section.

22.5.5.2 To the extent the independent auditor's report concludes that the MCIm complied in all material respects with this Section 22.5, AT&T MISSOURI must reimburse MCIm for its reasonable staff time and other reasonable costs associated in responding to the audit (*e.g.*, collecting data in response to the auditor's inquiries, meeting for interviews, etc).

22.6 Without affecting the application or interpretation of any other provisions regarding waiver, estoppel, laches, or similar concepts in other situations, MCIm shall fully comply with this Section 22 in all cases and, further, the failure of AT&T MISSOURI to require such compliance, including if AT&T MISSOURI provides an EEL(s) or a Commingled EEL(s) that does not meet any eligibility criteria including those in this Section 22, shall not act as a waiver of any part of this Section, and estoppel, laches, or other similar concepts shall not act to affect any rights or requirements hereunder.

22.7 Provisioning for EELs

22.7.1 With respect to an EEL, MCIm will be responsible for all Channel Facility Assignment (CFA). The CFA are the assignments MCIm provides to AT&T MISSOURI from MCIm's collocation arrangement.

22.7.2 AT&T MISSOURI will perform all maintenance functions on EELs during a mutually agreeable timeframe to test and make adjustments appropriate for maintaining the sec. 251(c)(3) UNEs in satisfactory operating condition. No credit will be allowed for any interruptions involved during such testing and adjustments.

22.7.3 EELs may utilize multiplexing capabilities. The high capacity EEL (DS1 unbundled loop combined with a DS1 or DS3 Dedicated Transport; or DS3 Loop combined with DS3 Dedicated Transport) may be obtained by MCIm if available and if MCIm meets all services eligibility requirements set forth in this Agreement including collocating at at least one AT&T MISSOURI central office that is in the same LATA as the end user customer premises served by the EEL. Additional service eligibility requirements for high capacity EELs that must be met can be found in this Appendix UNE. Low capacity EELs (DS0 unbundled loop combined with a DS1 Dedicated Transport) are not required to meet the service eligibility requirements and will be provided to MCIm upon request where available.

1. INTRODUCTION

1.1 This Appendix xDSL sets forth the terms and conditions that AT&T MISSOURI will offer xDSL Loops and xDSL Subloops to MCIm for MCIm to use in conjunction with its desired xDSL technologies and equipment to provision xDSL services to its end user customers. The associated rates are set forth in Appendix Pricing of this Agreement.

1.2 Nothing in this Appendix xDSL shall constitute a waiver by either Party of any positions it may have taken or will take in any pending regulatory or judicial proceeding or any subsequent interconnection agreement negotiations. This Appendix xDSL also shall not constitute a concession or admission by either Party and shall not foreclose either Party from taking any position in the future in any forum addressing any of the matters set forth herein.

1.3 The recognized standards shall include but not be limited to American National Standards Institute (ANSI) standards and those developed within the International Telecommunications Union (ITU).

1.4 AT&T MISSOURI shall provide MCIm with the UNEs and reporting associated with UNEs, described in this Appendix xDSL in compliance with the performance standards set forth in Appendix Performance Measures of this Agreement and those set forth in CC Docket No. 96-98, *Third Report and Order and Fourth Further Notice of Proposed Rulemaking,* FCC 99-238, (released November 5, 1999), Plan of Record for Pre-Ordering and Ordering of xDSL and other Advanced Services (Plan of Record or POR), the Uniform and Enhanced OSS POR (OSS POR) and any specific state commission or FCC rule, order, or mandated industry standard proceeding.

2. DEFINITIONS

2.1 "Actual Loop Length" for purposes of this Appendix refers to the total physical length of a copper loop as between the AT&T MISSOURI Main Distribution Frame (MDF) and the terminal location serving the end-user customer, reported at parity with AT&T's advanced services affiliate and other CLECs. Any additional length attributed to central office wiring, drop wiring, bridge tap, and inside wiring ("wiring") at the end-user customer's location is not included in the calculation of Actual Loop Length.

2.2 "Conditioning" as used herein shall refer to the removal by AT&T MISSOURI of load coils, Excessive Bridged Tap, and/or repeaters on an xDSL Loop or Subloop.

2.3 "Continuity" shall be defined as a single, uninterrupted path along a circuit, from the Minimum Point of Entry (MPOE) or other demarcation point to the Point of Interface (POI) located on the horizontal side of the Main Distribution Frame (MDF) or its equivalent, which may include the Intermediate Distribution Frame (IDF).

2.4 "Excessive Bridged Tap" as used herein shall refer to bridged tap in excess of 2,500 feet in total length.

2.5 Intentionally Omitted.

2.6 "Non-standard xDSL-based Technology" is a loop technology that is not Presumed Acceptable for Deployment. Deployment of Non-standard xDSL-based Technologies are allowed as provided in this Appendix xDSL.

2.7 "Plan of Record" as used herein refers to AT&T MISSOURI's December 7, 1999 filing with the FCC, including any subsequent modifications or additions.

2.8 "Presumed Acceptable for Deployment" as used herein means an xDSL technology that complies with existing industry standards, has been successfully deployed by any carrier in any state without significantly degrading the performance of other services, or has been approved by the FCC, any state commission, or an industry standard body. Loop technologies Presumed Acceptable for Deployment include, but are not limited to those referenced in Attachment A.

2.9 * "Proof of Continuity" performed during Acceptance Testing shall be determined by performing a physical fault test, from the MPOE or other demarcation point to the POI located on the horizontal side of the MDF by providing a short across the circuit on the tip and ring, and registering whether it can be received at the far end. The loop will be tested to meet basic metallic loop parameters, pair balance, and electrical characteristics such as electrical conductivity and capacitive and resistive balance. This test will be referred to as "Proof of Continuity" or "Continuity Test."

2.10 "xDSL Loop" means a Local Loop transmission facility between a distribution frame (or its equivalent) in AT&T MISSOURI's Central Office and the loop demarcation point at an end user customer premise. "xDSL Loop" includes two-wire and four-wire copper loops conditioned to transmit the digital signals needed to provide DSL services, regardless of whether the copper loops are in service or held as spares. The 'x' in xDSL is a placeholder for the various types of DSL services, including, but not limited to ADSL (Asymmetric Digital Subscriber Line), HDSL (High-bit rate Digital Subscriber Line), HDSL2 (high bit rate digital subscriber line 2-wire), IDSL (ISDN Digital Subscriber Line), SDSL (Symmetrical Digital Subscriber Line), UDSL (Universal Digital Subscriber Line), VDSL (Very High-Speed Digital Subscriber Line), RADSL (Rate-Adaptive Digital Subscriber Line), MVL (multiple virtual lines), and G.Lite.

2.11 "xDSL Subloop" is defined as any distribution portion of a copper xDSL Loop that is comprised entirely of copper wire or copper cable, that acts as a transmission facility between any distribution point of technically feasible access in AT&T MISSOURI's outside plant and the demarcation point at an end user customer's premises, as more specifically addressed in the subloop provisions set forth elsewhere in this Agreement and subject to the collocation provisions applicable to this Agreement. A technically feasible point of access for purposes of an xDSL subloop is a point in the distribution portion of an xDSL Loop where an AT&T MISSOURI technician can access the copper at a terminal in AT&T CALIFORNIA's/MISOURI's outside plant.

3. GENERAL TERMS AND CONDITIONS RELATING TO XDSL LOOPS

3.1 AT&T MISSOURI agrees to provide xDSL Loops and Subloops for MCIm to deploy xDSL technologies Presumed Acceptable for Deployment or Non-standard xDSL Technology as defined in this Appendix xDSL. AT&T MISSOURI will provision xDSL Loops and Subloops on a non-discriminatory basis and at a level at least equal in performance and quality with what it provides to itself, or to any of its affiliates in MISSOURI providing advanced services. AT&T MISSOURI will not impose limitations on the transmission speeds of xDSL services; provided, however, AT&T MISSOURI does not guarantee transmission speeds, available bandwidth nor imply any service level.

3.2 MCIm's use of any AT&T MISSOURI network element, or of its own equipment or facilities in conjunction with any AT&T MISSOURI network element, will not materially interfere with or impair service over any facilities of AT&T MISSOURI, or any of its affiliates in MISSOURI providing advanced services or connecting carriers involved in AT&T MISSOURI services, cause damage to AT&T MISSOURI's plant, impair the privacy of any communications carried over AT&T

MISSOURI's facilities or create hazards to employees or the public. Upon reasonable written notice and after a reasonable opportunity to cure, AT&T MISSOURI may discontinue or refuse service if MCIm violates this provision, provided that such termination of service will be limited to MCIm's use of the element(s) causing the violation. AT&T MISSOURI will not disconnect the elements causing the violation if, after receipt of written notice and opportunity to cure, MCIm demonstrates that its use of the network element is not the cause of the network harm. If AT&T MISSOURI does not believe MCIm has made the sufficient showing of harm, or if MCIm contests the basis for the disconnection, either Party must first submit the matter to dispute resolution as described in the General Terms and Conditions of this Agreement. Any claims of network harm by AT&T MISSOURI must be supported with specific and verifiable supporting information.

3.3 AT&T MISSOURI shall not impose its own standards for provisioning xDSL services, through Technical Publications or otherwise, until and unless approved by the Commission or the FCC prior to use. However, AT&T MISSOURI will publish non-binding Technical Publications to communicate current standards and their application where required by Applicable Law.

3.4 Intentionally Omitted

3.5 The provision of xDSL services is subject to a variety of technical constraints, including loop length and the current design of the loop, which must be free of Excessive Bridged Taps, and loading coils. In addition, clear spectral compatibility standards and spectrum management rules and practices are necessary to ensure the quality, integrity, and reliability of AT&T MISSOURI's network and its existing services.

3.6 To ensure spectral compatibility, industry standards bodies such as American National Standards Institute (ANSI) have developed or are in the process of developing Power Spectrum Density (PSD) mask standards to enable multiple technologies to coexist within binder groups. The Parties shall abide by the FCC and/or T1E1.4 spectral management rules and guidelines pertinent for the designated PSD mask type at all times.

3.7 Intentionally Omitted

3.8 Intentionally Omitted

4. XDSL LOOP OFFERINGS

4.1 xDSL Loops should be provisioned to meet basic electrical standards such as metallic conductivity and capacitive and resistance balance. Use of shielded cross connect cable for ADSL will be at the option of MCIm.

4.2 For each xDSL Loop described below, MCIm will at the time of ordering, notify AT&T MISSOURI as to the Power Spectrum Density (PSD) mask of the technology that MCIm will deploy. If and when a change in PSD mask is made, MCIm will immediately notify AT&T MISSOURI. Likewise, AT&T MISSOURI will disclose to MCIm, upon request, information with respect to the number of xDSL Loops using advanced service technology within the binder and the type of technology employed on those loops. AT&T MISSOURI will use the PSD provided by MCIm for the sole purpose of maintaining an inventory of advanced services present in the cable sheath. If the technology does not fit within a national standard PSD mask, MCIm shall provide AT&T MISSOURI with a technical description of the technology including power masks for inventory purposes.

4.3 2-Wire xDSL Loop: A 2-wire xDSL Loop for purposes of this Appendix shall be defined as a copper loop over which MCIm may provision various DSL technologies. A copper loop used for such

purposes will meet basic electrical standards such as metallic connectivity and capacitive and resistive balance, and based upon industry standards, should not include load coils, mid-span repeaters or Excessive Bridged Tap. However, Conditioning on loops that are 12,000 feet in Actual Length or greater is optional, subject to Conditioning charges, and will be performed by AT&T MISSOURI at MCIm's request as more specifically provided herein below. The rates set forth in the Appendix Pricing shall apply to this 2-Wire xDSL Loop.

4.4 A 2-Wire Digital Loop for purposes of this section is 160Kbps and supports Basic Rate ISDN (BRI) digital exchange services. The terms and conditions for the 2-Wire Digital Loop are set forth in the Appendix UNE and the rates in the Appendix Pricing.

4.5 4-Wire xDSL Loop: A 4-wire xDSL Loop for purposes of this Appendix shall be defined as a copper loop over which MCIm may provision various DSL technologies. A copper loop used for such purposes will meet basic electrical standards such as metallic connectivity and capacitive and resistive balance, and based upon industry standards, should not include load coils, mid-span repeaters or Excessive Bridged Tap. However, Conditioning on loops that are 12,000 feet in Actual Loop Length or greater is optional, subject to Conditioning charges, and will be performed by AT&T MISSOURI at MCIm's request as more specifically provided herein below. The rates set forth in the Appendix Pricing shall apply to this 4-Wire xDSL Loop.

4.6 IDSL Loop: An IDSL Loop for purposes of this Section is a 2-Wire Digital loop transmission facility which supports IDSL-based services. The terms and conditions for the 2-Wire Digital Loop are set forth in the Attachment UNE to this Agreement. This loop also includes additional acceptance testing to insure the IDSL technology is compatible with the underlying Digital Loop Carrier system if present. IDSL is not compatible with all Digital Loop Carrier Systems and therefore this offering may not be available in all areas. AT&T MISSOURI has advised MCIm, through the Accessible Letter or alternate process, which AT&T MISSOURI central offices are IDSL-capable. The rates set forth in the Pricing Schedule shall apply to this IDSL Loop. MCIm may order 2-Wire Digital ISDN Loops if available elsewhere in this Agreement.

4.7 xDSL Subloop: An xDSL Subloop for purposes of this Appendix is the distribution portion of an xDSL Loop, that is comprised entirely of copper wire or copper cable, that acts as a transmission facility between any distribution point of technically feasible access in AT&T MISSOURI outside plant and the demarcation point at an end user customer premises, as more specifically defined above, over which MCIm may provision DSL technologies. An xDSL Subloop will meet basic electrical standards such as metallic connectivity and capacitive and resistive balance, and based upon industry standards, should not include load coil(s), mid-span repeater(s) or Excessive Bridged Tap(s). However, Conditioning on an existing xDSL Subloop is optional and will be performed by AT&T MISSOURI at MCIm's request as more specifically provided herein below. The rates set forth in the Appendix Pricing shall apply to this xDSL Subloop.

4.7.1 The subloop and collocation provisions set forth elsewhere in this Agreement (e.g., the Appendix UNE and Appendix Collocation) will also apply to the xDSL Subloop. If there is any conflict between the provisions set forth in this Appendix as to the xDSL Subloop and the provisions set forth elsewhere in this Agreement specific to subloops, the subloop-specific language set forth elsewhere in this Agreement (e.g., the Appendix UNE), shall control.

5. LOOP TECHNOLOGY PRESUMED ACCEPTABLE FOR DEPLOYMENT

AT&T MISSOURI shall not deny MCIm's request to deploy any DSL technology that is Presumed Acceptable for Deployment by MCIm, unless it has been demonstrated by AT&T MISSOURI to the

Commission in accordance with FCC orders that MCIm's deployment of the specific DSL technology will significantly degrade the performance of other advanced services or traditional voice band services. For the purpose of this section, "significantly degrade" means to noticeably impair a service form a user's perspective as caused by technology. In the event that MCIm wishes to introduce a new technology that does not conform to existing industry standards, and has not been approved by an industry standards body, the FCC, or a state commission, MCIm shall provide documentation that demonstrates that its proposed deployment meets the threshold for presumption of acceptability. The documentation should include the date of approval or deployment, any limitations included in its deployment, and a sworn attestation that the deployment did not significantly degrade the performance of other services. In the event that MCIm wishes to introduce a technology that has been approved by another state commission or the FCC, or successfully deployed elsewhere, MCIm will provide documentation describing that action to AT&T MISSOURI and the Commission before or at the time of its request to deploy such technology within AT&T MISSOURI. The documentation should include the date of approval or deployment, any limitations included in its deployment, and a sworn attestation that the deployment did not significantly degrade the performance of other services. In the event that AT&T MISSOURI rejects a request by MCIm for provisioning of advanced services, AT&T MISSOURI will disclose to MCIm information with respect to the number of loops using advanced services technology within the binder and type of technology deployed on those loops, including the specific reason for the denial, within three to five (3-5) days of the denial.

5.1 If an xDSL Loop technology is successfully deployed without significant degradation for twelve (12) months, or industry standards for the technology are established, whichever occurs first, the Parties will consider the technology to be Presumed Acceptable for Deployment and treated accordingly. If there is dispute as to the successful deployment of the technology, either Party may submit the dispute for resolution under the Dispute Resolution procedures set forth in this Agreement.

5.1.1 Intentionally Omitted.

5.1.2 If MCIm can demonstrate to the Commission that the loop technology will not significantly degrade the performance of other advanced services or traditional voice band services, AT&T MISSOURI will not deny MCIm's right to deploy new loop technologies that do not conform to the industry standards and have not yet been approved by a standards body (or otherwise authorized by the FCC, any state Commission or which have not been successfully deployed by any carrier without significantly degrading the performance of other services).

5.2 If it is demonstrated that the new xDSL technology will not significantly degrade the other advanced services or traditional voice based services, AT&T MISSOURI will provide a loop to support the new technology for MCIm as follows:

5.2.1 If the technology requires the use of a 2-Wire or 4-Wire xDSL Loop that meets the engineering design criteria of a 2-Wire or 4-Wire xDSL Loop already provisioned by AT&T MISSOURI, then AT&T MISSOURI will provide MCIm an xDSL Loop capable of supporting the new xDSL technology at the same rates listed for the appropriate 2-Wire and 4-Wire xDSL Loops and associated Loop Conditioning as needed.

5.2.2 In the event that an xDSL technology requires a loop type that differs from the engineering design criteria of a 2-Wire or 4-Wire xDSL Loop already provisioned by AT&T MISSOURI, the Parties shall expend diligent efforts to arrive at an agreement as to the rates, terms and conditions for an unbundled loop capable of supporting the proposed xDSL technology and infrastructure. If negotiations fail, any dispute between the Parties concerning the rates, terms and conditions for an unbundled loop capable of supporting

the proposed xDSL technology shall be resolved pursuant to the dispute resolution process.

5.3 If a Party claims that a service is significantly degrading the performance of other advanced services or traditional voice band services, then that Party must notify the other Party and allow the other Party a reasonable opportunity to correct the problem. Any claims of network harm must be supported with specific and verifiable supporting information. In the event that a Party demonstrates to the Commission that a deployed technology is significantly degrading the performance of other advanced services or traditional voice band services, the other Party shall discontinue deployment of that technology and migrate its customers to technologies that will not significantly degrade the performance of other such services.

6. PROVISIONING

6.1 AT&T MISSOURI will not guarantee that the xDSL loop(s) ordered will perform as desired by MCIm for xDSL-based services, but will guarantee, at the time of installation, basic metallic loop parameters, including continuity and pair balance. For loops under 12,000 feet in Actual Loop Length, AT&T MISSOURI will remove load coils, repeaters, and/or Excessive Bridged Taps at no charge to MCIm. Provisioning shall include Conditioning for xDSL loops less than 12,000 feet in Actual Loop Length and any Conditioning requested by MCIm for loops 12,000 feet in Actual Loop Length or greater.

6.2 *AT&T MISSOURI shall provide Acceptance and Cooperative Testing as outlined in Section 9 of this Appendix xDSL.

6.3 MCIm shall designate, at MCIm's sole option, what Conditioning AT&T MISSOURI is to perform in provisioning the xDSL loop(s) and subloop(s) on the loop order. Conditioning may be ordered on loop(s) and subloop(s) of any length at the Conditioning rates set forth in the Appendix Pricing. The loop and subloop will be provisioned to meet the basic metallic and electrical characteristics such as electrical conductivity and capacitate and resistive balance. The provisioning intervals are applicable to every xDSL loop regardless of the loop length. The Parties will meet to negotiate and agree upon subloop provisioning intervals.

6.4 The provisioning and installation interval for xDSL-capable loops where no Conditioning is requested (including outside plant rearrangements that involve moving a working service to an alternate pair as the only possible solution to provide a DSL Loop) on orders for 1-20 loops per order or per end user customer location, will be three to five (3-5) business days, or the provisioning and installation interval applicable to AT&T MISSOURI's tariffed xDSL-based services, or any of its affiliates in MISSOURI providing advanced services, whichever is shorter.

6.5 The provisioning and installation intervals for xDSL Loops, where Conditioning is requested or outside plant rearrangements are necessary, as defined above, on orders for 1-20 loops per order or per end user customer location, will be ten (10) business days, or the provisioning and installation interval applicable to (i) AT&T MISSOURI's tariffed xDSL-based services or; (ii) any of its affiliates in MISSOURI providing advanced services xDSL-based services where Conditioning is required, whichever is shorter.

6.6 Orders for more than 20 xDSL Loops per order or per end user customer location, where no Conditioning is requested will have a provisioning and installation interval of ten (10) business days, or as agreed upon by the Parties. In the event MCIm's end user customer require Conditioning during non-working hours, the due date may be adjusted consistent with end user

customer release of circuit and out-of-hours charges may apply at the rates referenced in Section 9.4.2 below.

6.7 Orders for more than 20 xDSL Loops per order which require Conditioning will have a provisioning and installation interval agreed by the Parties in each instance.

6.8 Subsequent to the initial order for an xDSL Loop or xDSL Subloop, additional Conditioning may be requested on such loop(s) at the rates set forth in the Appendix Pricing and the applicable service order charges will apply; provided, however, when requests to add or modify Conditioning are received for a pending xDSL Loop(s) order, no additional service order charges shall be assessed, but the due date may be adjusted if necessary to meet standard offered provisioning intervals. The provisioning interval for additional requests for Conditioning pursuant to this subsection will be the same as set forth above.

6.9 MCIm, at its sole option, may request shielded cabling between network elements and frames within the central office for use with 2-wire xDSL Loop when used to provision ADSL over a DSL Loop provided for herein at the rates set forth in the Appendix Pricing. Tight Twist cross-connect wire will be used on all identified DSL services on all central office frames.

7. MAINTENANCE

7.1 On xDSL Loops where MCIm has requested that no Conditioning be performed, AT&T MISSOURI's maintenance will be limited to verifying loop suitability based on POTS design criteria. For xDSL Loops having had partial or extensive Conditioning performed at MCIm's request, AT&T MISSOURI will verify continuity, the completion of all requested Conditioning, and will repair at no charge to MCIm any gross defects which would be unacceptable based on current POTS design criteria and which do not result from the loop's modified design. For xDSL Loops under 12,000 feet in Actual Loop Length, AT&T MISSOURI will remove load coils, repeaters, and Excessive Bridged Taps at no charge to MCIm.

7.2 AT&T MISSOURI shall provide, on a nondiscriminatory basis, physical loop test access points to MCIm through a cross-connection to MCIm's collocation space, for the purpose of testing, maintaining, and repairing copper xDSL Loops and copper xDSL Subloops.

7.3 AT&T MISSOURI and MCIm agree to coordinate in good faith any testing, repair and maintenance that will significantly impact service provided by the other Party. If trouble occurs with unbundled Network Elements provided by AT&T MISSOURI, MCIm will first determine whether the trouble is in MCIm's own equipment and/or facilities or those of the end user customer. If MCIm determines the trouble is in AT&T MISSOURI's equipment and/or facilities, MCIm will issue a trouble ticket to AT&T MISSOURI.

7.4 A Party shall pay Time and Material Charges (maintenance of service charges/additional labor charges) when it reports a failure of an unbundled Network Element and the other Party dispatches personnel to the end user customer's premises or a Central Office and to the extent that the trouble was not caused by the other Party's facilities or equipment. *Time and Material Charges will include all technicians dispatched, including technicians dispatched to other locations for purposes of testing. Rates of Time and Material charges will be billed at amounts equal to those referenced in FCC No. 73, Section 13.4.4.

7.5 Intentionally Omitted.

7.6 Repair Intervals: AT&T MISSOURI will provide resolution of MCIm-referred trouble tickets for xDSL Loops at parity with the interval AT&T MISSOURI provides itself, other CLECs or any of its affiliates in MISSOURI providing advanced services, and pursuant to the terms and conditions set forth below.

7.7 Line and Station Transfer or "LST": For an xDSL Loop currently in service where trouble ticket resolution has identified that excessive bridged tap(s), load coil(s) and/or repeater(s) are on the loop and transferring to a new loop is a solution identified by AT&T MISSOURI to resolve a MCIm-initiated xDSL Loop trouble ticket or a trouble identified by AT&T MISSOURI, AT&T MISSOURI, at its sole option, may perform an LST to resolve and close out the identified trouble. In the event that a request for Conditioning is received from the MCIm on an xDSL Loop currently in service and AT&T MISSOURI determines that an LST can be performed, AT&T MISSOURI will contact MCIm to inform that a LST will be performed in lieu of MCIm's requested Conditioning. In such cases that AT&T MISSOURI elects to perform an LST to resolve the identified trouble, MCIm will be billed and shall pay for such LST at the rates set forth in Appendix Pricing. If, however, the LST does not resolve the reported trouble and the trouble is determined to be an AT&T MISSOURI network-related problem, then MCIm will not be charged the LST rate or for AT&T MISSOURI' resolution of the trouble. If, however, the trouble is found to be a customer premises equipment ("CPE") or MCIm network or data equipment, or otherwise is found not to be an AT&T MISSOURI network-related problem, then MCIm shall pay Maintenance of Service charges at the rates set forth in Appendix Pricing, in addition to the LST charge in the Appendix Pricing.

8. SPECTRUM MANAGEMENT

8.1 AT&T MISSOURI agrees that MCIm's order for xDSL-capable Loops will not be delayed by any lack of availability of a specific binder group or "spectrum exhaust." If AT&T MISSOURI initiates a reconfiguration of loops into a different binder group, it shall do so in a competitively neutral manner consistent with all relevant industry standards and at no cost to MCIm.

8.2 AT&T MISSOURI agrees that as a part of spectrum management, it will maintain an inventory of the existing services provisioned on the cable. AT&T MISSOURI will use commercially reasonable efforts to assign loops so as to minimize interference between and among advanced services, including xDSL-based services, and other services. AT&T MISSOURI will not use Selective Feeder Separation (SFS). AT&T MISSOURI has opened binder groups to all xDSL services and all xDSL providers, and will not deny any loops on the basis of binder group management designations or business rules, or limit the deployment of xDSL services to certain pair ranges (with the exception of binder groups containing AMI T1 services). AT&T MISSOURI may not segregate xDSL technologies into designated binder groups without specific Commission or FCC review and approval, or approved industry standard. AT&T MISSOURI shall not deny MCIm a loop based upon spectrum management issues in the absence of review and approval from the Commission(s). In all cases, AT&T MISSOURI will manage the spectrum in a competitively neutral manner consistent with all relevant industry standards regardless of whether the service is provided by MCIm or by AT&T MISSOURI as well as competitively neutral as between different xDSL services. Where disputes arise, AT&T MISSOURI and MCIm will put forth a good faith effort to resolve such disputes in a timely manner. As a part of spectrum management, AT&T MISSOURI will maintain an inventory with respect to the number of loops using advanced services technology within a binder group and the type of technology deployed on those loops, using the PSD mask information provided by MCIm to AT&T MISSOURI. Upon request from MCIm, AT&T MISSOURI will disclose within 3-5 business days spectrum management information with respect to the number of loops using advanced services technology within the binder group and the type of technology deployed on those loops so that the involved Parties may examine the deployment of

services within the affected loop plant. If there is any dispute between the Parties with respect to this Section, AT&T MISSOURI will not deny the loop(s), but will continue to provision the loop(s) until the dispute is resolved in accordance with the dispute resolution procedures set forth in this Agreement.

8.3 In the event that a loop technology without industry standards for spectrum management is deployed, AT&T MISSOURI, MCIm and the specific state commission shall jointly establish long-term competitively neutral spectral compatibility standards and spectrum management rules and practices so that all carriers know the rules for loop technology deployment. The standards, rules and practices shall be developed to maximize the deployment of new technologies within binder groups while minimizing interference, and shall be forward-looking and able to evolve over time to encourage innovation and deployment of advanced services based on the FCC, T1E1.4, and ITU spectral management rules and guidelines. These standards are to be used until such time as industry standards exist. When MCIm offers xDSL-based service consistent with mutually agreed-upon standards developed by the industry in conjunction with the specific state commission, or by the specific state commission in the absence of industry agreement, it may order local loops based on agreed-to performance characteristics. AT&T MISSOURI will assign the local loop consistent with the agreed-to spectrum management standards.

8.3.1 In the event that a relevant Commission, the FCC or the industry establishes long-term standards and practices and policies relating to spectrum compatibility and spectrum management that differ from those established in this Appendix, AT&T MISSOURI and MCIm shall comply with the FCC and/or industry standards, practices and policies and will establish a mutually agreeable transition plan and timeframe for achieving and implementing such industry standards, practices and policies and shall negotiate any conforming modifications which may be needed to this Appendix.

8.3.2 Within thirty (30) days after general availability of equipment conforming to applicable industry standards or the mutually agreed upon standards developed by the industry in conjunction with the applicable Commission(s) or FCC, then AT&T MISSOURI and/or MCIm, must begin the process of bringing its deployed xDSL technologies and equipment into compliance with such standards at its own expense.

9. * ACCEPTANCE TESTING

9.1 Intentionally Omitted

9.2 * Should MCIm desire Acceptance Testing, it shall request such testing on a per xDSL loop basis upon issuance of the Local Service Request (LSR). Acceptance Testing will be conducted at the time of installation of the service request.

9.2.1 * If the LSR was placed without a request for Acceptance Testing, and MCIm should determine that it is desired or needed during any subsequent phase of provisioning, the request may be added at any time; however, this may cause a new standard due date to be calculated for the service order.

9.3 * Acceptance Testing Procedure:

9.3.1 * Upon delivery of a loop to/for MCIm, AT&T MISSOURI's field technician will call the LOC and the LOC tester will call a toll free number provided by MCIm so MCIm can initiate performance of a series of Acceptance Tests.

9.3.1.1 * For IDSL or 2-wire digital loops that are not provisioned through repeaters or digital loop carriers, the AT&T MISSOURI field technician will provide a solid short across the tip and ring of the circuit and then open the loop circuit.

9.3.1.2 * For IDSL or 2-wire digital loops that are provisioned through repeaters or Digital Loop Carrier, the AT&T MISSOURI field technician will not perform a short or open circuit due to technical limitations.

9.3.2 * If the loop passes the "Proof of Continuity" parameters, as defined by this Appendix for DSL loops, MCIm will provide AT&T MISSOURI with a confirmation number and AT&T MISSOURI will complete the order. MCIm will be billed and shall pay for the Acceptance Test at the applicable rates as referenced in section 9.4.2 below.

9.3.2.1 * AT&T MISSOURI will be relieved of the obligation to perform Acceptance Testing on a particular loop and will assume acceptance of the loop by MCIm when MCIm cannot provide a "live" representative (through no answer or placement on hold) for over ten (10) minutes. AT&T MISSOURI may then close the order utilizing existing procedures, document the time and reason, and may bill MCIm and MCIm shall pay the minimum charges as if the Acceptance Test had been completed and the loop accepted, as referenced in section 9.4.2 below.

9.3.3 * If the Acceptance Test fails loop Continuity test parameters, as defined by this Appendix for DSL loops, the LOC technician will take any or all reasonable steps to immediately resolve the problem with MCIm on the line including, but not limited to, calling the central office to perform work or troubleshooting for physical faults. If the problem cannot be resolved in an expedient manner, the technician will release the MCIm representative, and perform the work necessary to correct the situation. Once the loop is correctly provisioned, AT&T MISSOURI will re-contact the MCIm representative to repeat the Acceptance Test. When the aforementioned test parameters are met, MCIm will provide AT&T CALIFORNIA with a confirmation number and AT&T MISSOURI will complete the order. If MCIm xDSL service does not function as desired, yet test parameters are met, AT&T MISSOURI will still close the order. AT&T MISSOURI will not complete an order that fails Acceptance Testing.

9.3.4 * Until such time as MCIm and AT&T MISSOURI agree, or industry standards establish, that their test equipment can accurately and consistently send signals through repeaters or Digital Loop Carriers, MCIm agrees to accept IDSL or 2-wire digital loops, designed with such reach extenders, without testing the complete circuit. Consequently, AT&T MISSOURI agrees that should MCIm open a trouble ticket and an AT&T MISSOURI network fault be found by standard testing procedures on such a loop within ten (10) business days (in which it is determined by standard testing to be an AT&T MISSOURI fault), AT&T MISSOURI, upon MCIm request, will adjust MCIm's bill to refund the recurring charge of such a loop until the fault has been resolved and the trouble ticket is closed.

9.3.5 Intentionally Omitted.

9.3.6 * If, however, a trouble ticket is opened on the loop within twenty-four (24) hours and the trouble resulted from AT&T MISSOURI error as determined through standard testing procedures, MCIm will be credited for the cost of the Acceptance Test. Additionally,

MCIm may request AT&T MISSOURI to re-perform the Acceptance Test at the conclusion of the repair phase again at no charge

9.3.7 * Both Parties declare they will work together, in good faith, to implement Acceptance Testing procedures that are efficient and effective. If the Parties mutually agree to additional testing, procedures and/or standards not covered by this Appendix or any Public Utilities Commission or FCC ordered tariff, the Parties will negotiate terms and conditions to implement such additional testing, procedures and/or standards. Additional charges may apply if any accepted changes in Acceptance Testing procedures require additional time and/or expense.

9.4 * Acceptance Testing Billing

MCIm will be billed for Acceptance Testing of this Appendix for xDSL Loops that are installed correctly by the committed interval without the benefit of corrective action due to Acceptance Testing.

9.4.1 Intentionally Omitted.

9.4.2 MCIm shall pay Maintenance of Service charges on a time and material basis, in 30-minute increments, for the AT&T MISSOURI technician time involved, pursuant to the applicable, regional FCC tariffed rates set forth in Sections 13.3.4 (c)(1)(a) of FCC No. 2; provided, however, the tariffed rates shall be deemed to be automatically revised and updated in the event that the referenced tariffed rates are modified during the term of this Agreement. If requested by MCIm, Overtime or Premium time charges will apply for requests in off-hours at overtime time charges calculated at one and one half times the standard price and premium time being calculated at two times the standard price.

10. *COOPERATIVE TESTING

10.1 Intentionally Omitted.

10.2 * Should MCIm desire Cooperative Testing it shall request such testing on a trouble ticket on each xDSL capable loop upon issuance of the trouble ticket.

10.3 * If the trouble ticket was opened without a request for Cooperative Testing, and MCIm should determine that it is desired or needed during any subsequent phase of maintenance and repair, the request may be added; however, a new due date will be calculated to account for the additional work.

10.4 * Cooperative Testing Procedure

10.4.1 * The AT&T MISSOURI field technician will call the LOC and the LOC will contact MCIm for test and resolution of the trouble ticket and to verify basic metallic loop parameters including proof of continuity and pair balance.

10.4.2 * If the loop passes the “Proof of Continuity” parameters, as defined by this Appendix for DSL capable loops, the technician will close out the trouble report and the LOC will bill and MCI will pay for the cooperative testing as referenced in section 9.4.2 above.

10.4.3 * If the Cooperative testing fails “Proof of Continuity” parameters, as defined by this Appendix for DSL capable loops, the LOC technician will take any reasonable steps to

immediately resolve the problem with MCIm on the line including, but not limited to, calling the central office to perform work or troubleshooting for physical faults. If the problem cannot be resolved in an expedient manner, the technician will release the MCIm representative, and perform the work reasonably necessary to bring the loop to standard continuity parameters as defined by this Appendix for xDSL capable loops. When the aforementioned test parameters are met, the LOC will contact MCIm for another cooperative testing.

10.4.4 * AT&T MISSOURI will be relieved of the obligation to perform Cooperative Testing on a particular loop and will assume acceptance of the loop by MCIm when MCIm cannot provide a "live" representative (through no answer or placement on hold) for over ten (10) minutes. AT&T MISSOURI may then close the order utilizing existing procedures, document the time and reason, and may bill MCIm and MCIm shall pay the minimum charges as if the Cooperative Test had been completed and the loop accepted, as referenced in section 9.4.2.

11. RATES

11.1 See Appendix Pricing. Conditioning for xDSL loops less than 12,000 feet in Actual Loop Length are at no charge.

12. INTENTIONALLY OMITTED

13. OPERATIONAL SUPPORT SYSTEMS: LOOP MAKEUP INFORMATION AND ORDERING

13.1 General: AT&T MISSOURI will provide MCIm with nondiscriminatory access by electronic or manual means, to its loop makeup information set forth in its Plan of Record. Loop makeup data will be provided as set forth below. MCIm will be given nondiscriminatory access to the same loop makeup information that AT&T MISSOURI is providing any other CLEC and/or AT&T MISSOURI's retail operations or its advanced services affiliate in MISSOURI.

13.2 Intentionally Omitted.

13.3 Loop Qualification: Subject to Section 13.1 above, AT&T MISSOURI's uniform GUI (e.g., Verigate and DataGate in regions where Verigate/DataGate are generally available for use with xDSL-based or other advanced services) and application to application OSS interfaces allow MCIm, as well as AT&T MISSOURI's retail operations or its advanced services affiliate(s), to have near real time electronic access to the loop makeup information. As more particularly described below, this loop makeup information will be categorized by two separate pricing elements: mechanized and manual. AT&T MISSOURI shall also provide MCIm with access to electronic loop qualification information during the preorder process, at no charge. However, if MCIm submits a service order the appropriate loop qualification charges set forth in the Appendix Pricing shall apply.

13.4 Mechanized Loop Qualification: Mechanized loop qualification includes data that is available electronically and provided via an electronic system. Electronic access to loop makeup data through the OSS enhancements described above will return information in all fields described in AT&T's Plan of Record when such information is contained in AT&T MISSOURI's electronic databases. MCIm will be billed and shall pay a mechanized loop qualification charge for each xDSL capable loop order submitted at the rates set forth in Appendix Pricing.

13.5 Manual Loop Qualification: Manual loop qualification includes all fields as described in AT&T MISSOURI's Plan of Record, when available. MCIm will be billed a manual loop qualification charge for each manual loop qualification requested at the rates set forth in the Pricing Schedule.

13.6 Both categories of Loop qualification (mechanized and manual) are subject to the following:

13.6.1 Loops Less Than 12,000 Feet in Actual Loop Length: If load coils, repeaters or excessive bridged tap are present on a loop less than 12,000 feet in Actual Loop Length, Conditioning to remove these elements will be performed without request and at no charge to MCIm.

13.6.2 If MCIm elects to have AT&T MISSOURI provide loop makeup through a manual process for information not available electronically, then the loop qualification interval will be not more than three (3) business days, or the interval provided to any of its affiliates in AT&T MISSOURI providing advance services, whichever is less.

13.6.3 Loops 12,000 Feet or Greater in Actual Loop Length: If the results of the loop qualification indicate that Conditioning is available on a loop that is 12,000 feet in actual loop length or greater, MCIm may request that none of the recommended loop Conditioning be performed or that AT&T MISSOURI perform some or all of the recommended loop Conditioning to remove Excessive Bridged Tap(s), load coil(s) and/or repeater(s) at the rates set forth in the Pricing Schedule.

13.7 Where actual loop make-up information is not available, AT&T MISSOURI will provide designed loop provisioning information via Verigate, DataGate, EDI and CORBA.

13.8 The Parties agree that in accordance with FCC requirements and Advanced Services POR collaboratives, AT&T MISSOURI will provide MCIm with non-discriminatory access to AT&T MISSOURI's loop make-up information as set forth in this section 13.8. The loop qualification data elements provided by AT&T MISSOURI shall be provided at parity with what AT&T MISSOURI provides itself, any of its affiliates in MISSOURI providing advanced services and other CLECs and shall include but not limited to the following fields:

13.8.1 Loop length
13.8.2 Loop length by segment
13.8.3 Length by gauge
13.8.4 26 gauge equivalent loop length (calculated)
13.8.5 Presence of load coils
13.8.6 Quality of load coils (if applicable)
13.8.7 Presence of bridged taps
13.8.8 Length of bridged taps (if applicable)
13.8.9 Presence of pair gain devices, DLC, and/or DAML
13.8.10 Qualification status of the loop based on specified PSD, if no PSD class is specified, the default PSD is class 5 (ADSL)
13.8.11 Presence of repeaters
13.8.12 Location of repeaters
13.8.13 Type of repeaters
13.8.14 Quantity of repeaters
13.8.15 Type of Plant (aerial or buried)
13.8.16 Type of Loop (copper or fiber)
13.8.17 Portion that is copper or fiber
13.8.18 Length that is copper or fiber

13.8.19 Availability of spare facilities
13.8.20 Quantity of bridged tap by occurrence
13.8.21 Location of bridged tap by occurrence
13.8.22 Quantity of Low pass filters
13.8.23 Location of Low pass filters
13.8.24 Quantity of Range extenders
13.8.25 Location of Range extenders
13.8.26 Number of gauge changes
13.8.27 Location of pair gain devices
13.8.28 Location of DLC
13.8.29 Quantity of DLCs
13.8.30 Location of RSU (Remote Switching Unit)
13.8.31 Type of RSU (Remote Switching Unit)
13.8.32 Resistance Zone

14. RESERVATION OF RIGHTS/INTERVENING

14.1 The Parties acknowledge and agree that the intervening law language set forth in Section 23 of the General Terms and Conditions of this Agreement shall apply to all the rates, terms and conditions set forth in this Appendix.

* AT&T MISSOURI's Position: It is AT&T MISSOURI's position that the provisions noted above with asterices are voluntary, non-251(b) or (c) provisions/offerings that were not subject to the Parties' negotiations under Sections 251 and 252 of the Act and are not subject to arbitration under Section 252 of the Act. AT&T MISSOURI disputes MCI'm's submission of the issues for arbitration under Section 252 of the Act. Without waiving said objection, AT&T MISSOURI has shown in this section the language it can agree to and the substantive disputes between the Parties as to the language itself in the event that the Commission does not exclude the issues associated with AT&T MISSOURI non-251(b) and (c) offerings from this Section 252 arbitration proceeding. AT&T CALIFORNIA does not waive, but instead reserves all of its rights, arguments and positions that the provisions noted with asterices (including disputed and non-disputed provisions) are not subject to Sections 251 and 252 of the Act, including without limitation, negotiations under Sections 251/252 of the Act and Section 252 arbitration. Nothing herein shall constitute a concession by AT&T MISSOURI that the provisions are subject to negotiation and arbitration under Sections 251/252 of the Act.

Attachment A

xDSL Technologies Presumed Acceptable for Deployment

The technologies listed in this Attachment A are Presumed Acceptable for Deployment. This list should be expanded as additional services are deployed, or industry standards developed. As standards are developed or updated, these standards shall automatically be incorporated by a reference as if fully set forth herein.

The following technologies currently have a national standard in place:

Technology	Standard
ADSL	ATIS T1.413 1998 (Issue 2), T1.423, ITU 992.1
SHDSL	ATIS T1.422, ITU G.991.2
SDSL	(2B1Q) ITU 991.1
IDSL	ATIS T1.601
HDSL	ATIS TR28/ITU 991.1
HDSL2	ATIS T1.418
VDSL	ATIS T1.424
RADSL	no national standard
MVL	no national standard
G.Lite	ATIS T1.419/ITU G.991.2

The following technologies have been successfully deployed with no apparent degradation of the performance of other services although speeds are not guaranteed by AT&T MISSOURI.

SDSL	160 kb/s - 784 kb/s
SDSL	1.0 – 1.5 Mb/s

* ATTACHMENT YELLOW ZONE ORDERING PROCESS (YZP)

1. * INTRODUCTION

1.1 * This Attachment YZP sets forth terms and conditions for the Yellow Zone Process ("YZP"), an ordering process which, at MCIm's option, applies to xDSL Loops, with an Actual Loop Length of 17,500 feet or less, as provided in more detail below. YZP is not available for facilities that are provisioned via a Remote Terminal (RT) in conjunction with AT&T MISSOURI's hybrid copper/fiber architecture (e.g., AT&T's Broadband Service offering(s) or any successor offering(s)). This process is being made available to MCIm by AT&T MISSOURI as a voluntary offer alternative to AT&T MISSOURI's existing ordering processes.

1.2 * Intentionally Omitted.

1.3 * MCIm may use AT&T MISSOURI's Removal of All and Non-Excessive Bridged Tap ("RABT") set forth in Attachment RABT YZP of this Appendix xDSL in conjunction with the Yellow Zone Process ("YZP").

1.4 * AT&T MISSOURI shall provide MCIm with access to the YZP ordering process on a non-discriminatory basis and at parity with the YZP ordering process it provides to itself, or any of its affiliates in MISSOURI providing advanced services and other CLECs.

2. * DEFINITIONS

In addition to the definitions in Appendix xDSL, and Definitions, the following definitions shall apply to this Attachment YZP.

2.1 * "Non-excessive bridged tap" as used herein shall refer to bridged taps less than 2,500 feet in total length.

2.2 * "Sync Test" as used herein shall refer to the procedures used by MCIm, when MCIm's provided test equipment, verifies there is communication, or "sync", from MCIm's collocated DSLAM to the last cable pair leaving the AT&T MISSOURI Central Office to the End-User premise.

3. * YZP OFFERING

3.1 * Provisioning Process:

3.1.1 * MCIm will provide AT&T MISSOURI with the type of technology it seeks to deploy at the time of ordering, including the PSD of the xDSL technology MCIm intends to deploy. If the technology does not fall within an existing PSD mask, then the YZP process set forth in this Attachment shall not apply.

3.1.2 * MCIm will order eligible xDSL Loops, using the Loop Specification Code (SPEC code) or Loop Modification Type (LMT) designated for the YZP process.

3.1.3 * MCIm may choose to do a mechanized loop qualification prior to placing an initial order via the YZP process, but no manual loop qualification requests shall be submitted when MCIm is utilizing the YZP process.

3.1.4 * AT&T MISSOURI shall provision orders submitted using the YZP process within five (5) business days for xDSL Loops.

3.2 * Maintenance Process

3.2.1 * The initial YZP service order must have completed and closed prior to the opening of a YZP trouble ticket as a result of MCIm experiencing a situation in which its DSLAM will not communicate with the end user customer premises. In such event, MCIm shall choose one of the two options set forth below:

3.2.1.1 * OPTION 1: Trouble Ticket

3.2.1.1.1* MCIm may generate a trouble ticket with AT&T MISSOURI's Local Operations Center (LOC) identifying the reason why MCIm is experiencing a situation in which its DSLAM will not communicate with the end user customer premises based on maintenance assurance procedures set forth elsewhere in this Agreement, and subject to the terms and conditions set forth herein. Based on MCIm's own testing, the YZP trouble ticket may be conditioning related. The AT&T MISSOURI LOC will analyze MCIm provided test results and try to determine why MCIm's DSLAM is not communicating with the end user customer premises and will attempt to resolve the trouble by addressing any non-conditioning related reason (to the extent one exists) on AT&T MISSOURI's side of the network, and/or by conditioning the facility as needed. On YZP-related trouble tickets, AT&T MISSOURI will offer a five (5) business day interval from the time MCIm submits the trouble ticket.

3.2.1.1.2* AT&T MISSOURI's LOC may elect to perform Line Station Transfers ("LSTs") in lieu of conditioning when conditioning is not available. The rates for LSTs are set forth in Appendix Pricing of this Agreement.

3.2.1.1.3* On loops with Actual Loop Lengths between 12,000 and 17,500 feet, if the xDSL Loop, has been ordered using the YZP process, AT&T MISSOURI will use that YZP designation and MCIm's opening of a trouble ticket as authorization from MCIm for AT&T MISSOURI to perform the requested conditioning on the xDSL Loop, including whatever work AT&T MISSOURI believes is necessary to make the loop work utilizing applicable industry standards, including ANSI T1.417. No separate, loop specific authorization to condition a loop will be required by AT&T MISSOURI from MCIm, after the initial YZP trouble ticket is opened. MCI will then be billed and shall pay the applicable conditioning charges pursuant to the rates, terms and conditions set forth elsewhere in this Agreement.

3.2.1.2 * OPTION 2: Disconnect

3.2.1.2.1* MCIm may cancel an order by issuing an LSR requesting a disconnect prior to submitting any trouble ticket (i.e., when MCIm is utilizing the YZP process and wishes to avail itself of this Option 2, MCIm shall request a disconnect at the time it determines its DSLAM will not communicate with the end user customer premises on a completed service order). In the event that MCIm submits an Option 1 trouble ticket but subsequently decides to request an Option 2 disconnect, MCIm shall pay applicable charges for work actually performed by AT&T MISSOURI, (including without limitation, the loop conditioning charges set forth elsewhere in this Agreement to the extent that AT&T MISSOURI has

performed any preparatory work for the loop conditioning and/or has performed any loop conditioning work in response to MCIm's trouble ticket) prior to the issuance of the disconnect order.

3.3 * Maintenance /Service Assurance

3.3.1 * AT&T MISSOURI will provide resolution of MCIm-referred YZP trouble tickets for xDSL Loops, in parity with the repair intervals AT&T MISSOURI provides to itself, any of its affiliates in texas providing advanced services affiliates and other CLECs.

3.3.2 * Prior to opening a YZP trouble ticket, MCIm shall verify the DSLAM is built properly, check the logical translations, perform a loop back test from its DSLAM, ensure proper routing, profile, and modem settings and shall confirm that the problem is not MCIm-related.

3.3.3 * MCIm shall pay Maintenance of Service charges on a time and material basis, in 30-minute increments, associated with any YZP-related trouble ticket dispatch pursuant to the FCC tariffed rates set forth in Section 5 below, if:

3.3.3.1 the YZP trouble ticket is opened, and it is later determined by AT&T MISSOURI to be a 'No Trouble Found' (NTF) in AT&T MISSOURI's portion of the network; or

3.3.3.2 the loop specific inhibitor information provided by MCIm to AT&T MISSOURI requires a dispatch by AT&T MISSOURI but is found to be incorrect upon subsequent investigation by AT&T MISSOURI during the trouble ticket resolution process; or

3.3.3.3 a retrip is involved with a YZP trouble ticket (when MCIm notifies AT&T MISSOURI that the loop is not working properly after initial trouble resolution), and there is NTF by AT&T MISSOURI in AT&T MISSOURI's portion of the network; or

3.3.3.4 the need for a vendor meet is agreed upon by AT&T MISSOURI and the MCIm technician is not equipped properly at the vendor meet site or MCIm's Technician is not at the site at the scheduled time or within ten (10) minutes thereafter.

3.4 * MCIm can open a YZP-related Trouble Ticket by one of the following methods:

3.4.1 * Via Live Call: MCIm can call AT&T MISSOURI's LOC and open a manual ticket through the call center and in such case, shall identify that the original order was YZP related and whether the trouble ticket is a conditioning related trouble ticket or not; or

3.4.2 * Via an Electronic Bonding Ticket: MCIm can open an electronic bonding ticket and in opening such a ticket, shall note in the 'Remarks' field that the ticket is an YZP-related trouble ticket.

3.5 * Trouble Tickets where MCIm Identifies Possible Conditioning-Related Trouble:

3.5.1 * In those instances where MCIm's test results indicate (which, in accordance with Section 4.5 below, should include the quantity and location of the number of load coils, repeaters and excessive bridged tap), that the cause of a trouble ticket may be conditioning related, irrespective of whether MCIm submits its YZP trouble ticket to AT&T MISSOURI via live call or an electronic bonding ticket, then MCIm shall note on its trouble ticket that the cause of the trouble is possibly conditioning related. The identification by the MCIm of a possible conditioning-related trouble on its trouble ticket will allow the AT&T MISSOURI LOC or to convert it to a YZP conditioning type ticket immediately after checking for potential non-conditioning causes of physical fault on the xDSL Loop, and for AT&T MISSOURI to perform

loop conditioning which may be needed to resolve the reported trouble. Ticket conversions to YZP type may include opening a new ticket if AT&T MISSOURI physical faults were found and cleared on the original trouble report, and MCIm testing indicates conditioning is still required.

3.5.2 * Loops less than 12,000 feet in Actual Loop Length: Irrespective of whether the trouble ticket is opened via live call or an electronic bonding ticket, if MCIm opens the trouble ticket as a possible conditioning related trouble ticket associated with an xDSL Loop, that was ordered via the YZP process with an Actual Loop Length less than 12,000 feet, AT&T MISSOURI will contact and provide MCIm with status after any necessary loop conditioning has been performed by AT&T MISSOURI. AT&T MISSOURI shall not charge MCIm for conditioning loops with an actual loop length of less than 12,000 feet.

3.5.3 * Conditioning. If MCIm issues a YZP trouble ticket for an xDSL Loop between 12,000 and 17,500 feet, AT&T MISSOURI will use that YZP designation and the initiation of the trouble ticket by MCIm as authorization to perform any Loop conditioning for that Loop. MCIm will then be billed and shall pay the applicable conditioning charges pursuant to the rates, terms and conditions set forth in Appendix Pricing of this Agreement.

* If MCIm requests removal of all or non-excessive bridged taps, such request shall be made pursuant to the terms and conditions of the Removal of All or Non-Excessive Bridged Tap ("RABT") Attachment of this Agreement.

3.5.4 * If MCIm requests that AT&T MISSOURI perform any loop Conditioning beyond that which is covered under this Attachment or elsewhere in the Agreement, the Parties shall meet to negotiate rates, terms and conditions for any such Conditioning. If there are any disputes between the parties as to the provisions for any additional type(s) of Conditioning after negotiations, then any outstanding disputes will be resolved in accordance with the Dispute Resolution Procedures set forth elsewhere in this Agreement.

3.6 * Trouble Tickets where MCIm Does Not Identify Conditioning as a Possible Source of the Trouble:

3.6.1 * If MCIm opens a YZP trouble ticket that does not identify conditioning as the source of the trouble, the AT&T MISSOURI LOC will handle the ticket pursuant to the method applicable to other repair tickets and will look for physical faults. If no fault is found, the LOC will contact MCIm so that MCIm can conduct its own Sync test. If MCIm's DSLAM does not communicate with the end user customer premises, MCIm shall open another trouble ticket to address any conditioning that MCIm believes may be required on the xDSL Loop subject to the provisions set forth herein.

3.6.2 * If MCIm opens a YZP trouble ticket that does not identify conditioning on the xDSL Loop as the source of the trouble but AT&T MISSOURI later determines that there is a conditioning-related problem, AT&T MISSOURI shall convert the ticket to a YZP conditioning ticket and the process set forth in Section 3.5 above shall apply, depending upon the actual loop length. A five (5) business day interval will apply to complete the conditioning on the loop, which shall begin the day after it is determined to be a conditioning related problem by AT&T MISSOURI.

3.7 * If a physical fault is found and resolved in response to the initial YZP trouble ticket, the trouble ticket will be closed and MCIm notified, unless the ticket was initially classified as a conditioning related YZP ticket.

3.8 * Trouble ticket status will be provided to MCIm by AT&T MISSOURI as follows:

3.8.1 * Trouble Tickets Opened via Live Call: If the YZP trouble ticket is opened with a live call (as provided for in Section 3.4.1 above) by MCIm to AT&T MISSOURI. AT&T MISSOURI will not provide ticket status until the trouble has been resolved.

3.8.2 * Trouble Tickets Opened Via an Electronic Bonding Ticket: If the YZP trouble ticket is opened via an electronic bonding ticket (as provided for in Section 3.4.2 above) where MCIm's DSLAM does not communicate with the end user customer premises, an electronic status/acknowledgement will be provided by AT&T MISSOURI to MCIm within eight (8) business hours from receipt of the trouble ticket. If AT&T MISSOURI determines that the trouble is conditioning related, AT&T MISSOURI shall convert the straight xDSL Loop, YZP trouble ticket to a YZP conditioning-related trouble ticket.

3.8.3 * In all cases, the AT&T MISSOURI LOC will notify MCIm as soon as the trouble is isolated, resolved and closed, whether conditioning has been performed or not.

3.9 * Post Trouble Resolution Sync Testing By MCIm:

3.9.1 * After MCIm is notified that the trouble has been resolved, with or without loop conditioning, MCIm shall repeat its Sync Test between its DSLAM and the end user customer premises. If the Loop does not sync, due to undetermined reasons, a second trouble ticket shall be opened by MCIm which will be governed by the same provisions set forth above.

3.10 * When MCIm escalates a YZP trouble ticket, the Parties shall follow existing repair escalation procedures set forth elsewhere in this Agreement and to the extent not outlined in this Agreement, the standard escalation processes outlined on AT&T MISSOURI's CLEC online website shall apply.

4. * TESTING

4.1 Intentionally Omitted.

4.2 * MCIm may not request, and AT&T MISSOURI will not perform, Acceptance Testing in association with any xDSL Loops which are ordered by MCIm via the YZP process.

4.3 * For xDSL Loops only, MCIm has the option of requesting Cooperative Testing pursuant to the rates, terms and conditions set forth in Appendix xDSL of this Agreement, at the time it opens the YZP trouble ticket.

4.4 * MCIm shall assist in trouble isolation on trouble tickets for the YZP by obtaining and providing to AT&T MISSOURI disturber information on the Loop at the time of opening the trouble ticket. For best results, MCIm is encouraged to provide its field technician with appropriate test sets that can detect and detail the presence of the following: the number and location of load coil(s), repeater(s) and of sections of bridged tap (including the lengths of such section(s).

4.5 * AT&T MISSOURI will not specify to MCIm the type of test equipment or the specific tests to use for determining the presence of inhibitors. MCIm will determine its own test requirements and capabilities.

5. * PRICING

5.1 * MCIm shall pay Maintenance of Service charges on a time and material basis, in 30-minute increments, associated with any YZP-related trouble ticket dispatch pursuant to Section 13.2.6 of the FCC No. 2 tariff;

provided, however, the referenced tariff rates shall be deemed to be automatically revised and updated in the event that the referenced tariffed rates are modified during the term of this Agreement.

6. * TERM AND TERMINATION

6.1 * Either Party may terminate this Attachment upon 180 days advance written notice to the other Party.

7. * RESERVATION OF RIGHTS/INTERVENING LAW

7.1 The intervening law provisions set forth in Section 23 of the general terms and conditions of the Agreement shall apply and are incorporated herein by this reference.

* AT&T MISSOURI Position: It is AT&T MISSOURI's position that the provisions noted above with asterices are voluntary, non-251(b) or (c) provisions/offerings that were not subject to the Parties' negotiations under Sections 251 and 252 of the Act and are not subject to arbitration under Section 252 of the Act. AT&T MISSOURI disputes MCI'm's submission of the issues, relating to this voluntary, non-251(b) or (c) offering, for arbitration under Section 252 of the Act, as set forth in more detail in AT&T MISSOURI's position statements in the Voluntary Services YZP/RABT-YZP DPL. Without waiving said objection, AT&T MISSOURI has shown in this section the language it can agree to and the substantive disputes between the Parties as to the language itself in the event that the Commission does not appropriately dismiss these issues as to a non-251(b) or (c) offering from this Section 252 arbitration proceeding. In addition, AT&T MISSOURI does not waive, but instead fully reserves all of its rights, arguments and positions that the provisions noted with asterices (including disputed and non-disputed provisions) are not subject to Sections 251 and 252 of the Act, including without limitation, negotiations under Sections 251/252 of the Act and Section 252 arbitration and nothing herein shall constitute a concession or admission by AT&T MISSOURI that the provisions are subject to negotiation and arbitration under Sections 251/252 of the Act.

*ATTACHMENT FOR THE REMOVAL OF ALL OR NON-EXCESSIVE BRIDGED TAP USING THE YELLOW ZONE PROCESS ("RABT YZP")

1. INTRODUCTION

1.1 * This Attachment RABT YZP sets forth the rates, terms and conditions for the Removal of All or Non-Excessive Bridged Tap ("RABT") using a modified version of the Yellow Zone Process ("YZP"), for xDSL Loops.

1.2 * Intentionally Omitted.

1.3 * AT&T MISSOURI shall provide MCIm with access to the RABT YZP process on a non-discriminatory basis and at parity with the RABT YZP process it provides to itself, or any of its affiliates in MISSOURI providing advanced services and other CLECs.

2. *DEFINITIONS

In addition to the definitions in Appendix xDSL, Line Sharing, and Definitions, the following definitions shall apply to this Attachment RABT YZP.

2.1 * "Minimum Qualifications" as used herein means a loop that has no load coil(s), repeater(s), or bridged tap(s) in excess of 2,500 feet in total length.

2.2 * "Non-excessive bridged tap" as used herein shall refer to bridged taps less than 2,500 feet in total length.

2.3 * "No Sync situation" as used herein means that after the completion of a YZP service order, MCIm is experiencing a situation in which its DSLAM will not communicate (sync) with the End-User premises.

2.4 * "Removal of All or Non-Excessive Bridged Tap" ("RABT") as used herein means the removal of all bridged tap (i.e., both excessive and non-excessive) or the removal of Non-Excessive Bridged Tap as defined herein, in response to a request by MCIm.

2.5 * "Sync Test" as used herein shall refer to the procedures used by MCIm, when MCIm's provided test equipment, verifies there is communication, or "sync", from MCIm's collocated DSLAM to the last cable pair leaving the AT&T MISSOURI Central Office to the End-User premise.

3. *RABT YZP OFFERING

3.1 * To be eligible for the RABT YZP, MCIm shall have ordered an xDSL Loop on its original service order, using a generic loop 'As Is' specification code to identify the Loop that may require conditioning. All Local Service Requests ("LSRs") for an xDSL Loop shall be submitted with the Loop Specification Code or Loop Modification Type ("LMT") designated for the YZP process.

3.2 * MCIm shall not issue a RABT YZP trouble ticket for any particular Loop prior to the closing of the original service order for that same Loop.

3.3 * Except as provided below, AT&T MISSOURI will respond to RABT YZP trouble tickets within five (5) business days or at parity with what it provides itself, or any of its affiliates in MISSOURI providing advanced services, or any third party.

3.3.1 * In those instances where AT&T MISSOURI determines that it can Remove All or Non-Excessive Bridged Tap under this Attachment, but cannot meet the five (5) business day interval e.g., in those situations:(i) involving municipalities which may affect access to certain areas; or (ii) in which there are other issues associated with a access to the subject facilities; or (iii) in which events, actions or circumstances exist or arise that are outside the sole control of AT&T MISSOURI, the Parties understand and agree that five (5) business day interval set forth above shall not apply, but instead, in such situations, AT&T MISSOURI will respond to MCIm-referred RABT trouble tickets for xDSL Loops in parity with the repair intervals AT&T MISSOURI provides to its advanced services affiliate in California or Missouri. AT&T MISSOURI will advise MCIm as soon as possible when AT&T MISSOURI is unable to Remove All or Non-Excessive Bridged Tap under this Attachment or is unable to meet the five (5) business day interval.

3.4 * MCIm shall pay AT&T MISSOURI for any Conditioning requested on a trouble ticket at the rates set forth in Appendix Pricing of this Agreement.

4. *TESTING

4.1 Intentionally Omitted.

4.2 * Any testing requests after the completion of the service order will follow the testing guidelines and procedures set forth elsewhere in the Agreement.

4.3 * MCIm shall assist in trouble isolation on trouble tickets for the RABT YZP by obtaining and providing to AT&T MISSOURI disturber information on the Loop at the time of opening the trouble ticket. For best results, MCIm is encouraged to provide its field technician with appropriate test sets that can detect and detail the presence of the following: the number and location of load coil(s), repeater(s) and of sections of bridged tap (including the lengths of such section(s).

5. *MAINTENANCE /SERVICE ASSURANCE

5.1 * Prior to the opening of a trouble ticket for the RABT, MCIm must verify that the problem is not MCIm-related. If an RABT trouble ticket is opened, and it is later determined by AT&T MISSOURI that the requested conditioning is not available because no such bridged tap was on the loop, the trouble ticket will be closed in AT&T MISSOURI as a 'No Trouble Found' (NTF) and MCIm shall pay a Maintenance Service Charge on a Time and Material basis, in 30-minute increments, pursuant to Section 13.2.6 of the FCC No. 2 tariff; provided, however, the referenced tariff rates shall be deemed to be automatically revised and updated in the event that the referenced tariffed rates are modified during the term of this Agreement.

5.2 * MCIm may open a YZP-related trouble ticket for the RABT via the following two methods:

5.2.1 * By calling the Local Operations Center. In such case, MCIm shall specify that it is a YZP trouble ticket and shall request the specific type of bridged tap conditioning needed, "Found Bridged Tap (BT) on loop, request Removal of Non-Excessive BT."

5.2.2 * By opening an electronic bonding ticket. In such case, MCIm shall specify that it is a YZP trouble ticket and shall request specific conditioning in the remarks field e.g., "Found Bridged Tap (BT) on loop, request Removal of All BT."

Both methods require the following:

1. * When Excessive Bridged Tap(s) is present on the loop: MCIm may request:

    a. the removal of Excessive Bridged Tap(s); or
    b. the Removal of All Bridged Tap(s).

2. * When Excessive Bridged Tap is not present on the loop, the removal of Non-Excessive Bridged Tap (the remaining Bridged Tap left on the loop after Excessive Bridged Tap has been removed).

3. * Once All Bridged Tap has been removed, any future trouble tickets concerning bridged tap will require a vendor meet with the AT&T MISSOURI LOC. Vendor meet procedures can be found in AT&T MISSOURI's CLEC On-Line Handbook.

4. * It is the MCIm's obligation to document on the trouble ticket the type of conditioning it is requesting be performed by AT&T MISSOURI i.e., RABT. If the bridged tap conditioning request does not specify the RABT conditioning on the YZP trouble ticket, only Excessive Bridged tap conditioning will be performed pursuant to the YZP Attachment.

5. * Any conditioning requests for the removal of Excessive Bridged Tap or for the removal of load coil(s) or repeater(s), will be performed pursuant to the existing terms and conditions set forth elsewhere in this Agreement.

5.3 * Except as otherwise provided for herein, when a YZP trouble ticket is opened by MCIm for the RABT conditioning, a five (5) business day interval will be given. Trouble ticket authorization and billing for conditioning will be provided as follows:

5.3.1 * Except as otherwise provided for herein, if the trouble ticket is opened as a ticket for the RABT conditioning for a loop that is 12,000 feet or greater in Actual Loop Length, and the loop has been ordered as YZP, AT&T MISSOURI will use that YZP designation and the initiation of the trouble ticket by MCIm as approval for loop conditioning and the loop will be conditioned by AT&T MISSOURI. MCIm will then be billed and shall pay the appropriate RABT conditioning charges set forth on the attached, AT&T MISSOURI RABT Pricing Schedule, in addition to any other applicable conditioning charges set forth elsewhere in this Agreement, upon the completion of the requested conditioning by AT&T MISSOURI.

5.3.2 * Except as otherwise provided for herein, if MCIm's trouble ticket is opened for the RABT conditioning for a loop that is less than 12,000 feet in Actual Loop Length, and the loop is conditioned to remove bridged tap beyond that required to meet Minimum Qualifications, AT&T MISSOURI will bill and MCIm shall pay the appropriate RABT conditioning charges set forth on the attached, AT&T MISSOURI RABT Pricing Schedule, for all conditioning performed by AT&T MISSOURI via the RABT trouble ticket process.

5.3.3 * In the scenarios addressed in Subsections 5.3.1 and 5.3.2 above, the AT&T MISSOURI LOC will notify MCIm as soon as the trouble is closed, whether conditioning has been performed or not.

5.4 * Escalations for YZP trouble tickets will follow the existing procedures listed in the CLEC On-Line Handbook.

6. *PRICING

6.1 * The rates that AT&T MISSOURI will charge and that MCIm shall pay for the RABT are set forth in Appendix Pricing of this Agreement.

7. *RESERVATION OF RIGHTS /INTERVENING LAW

7.1 The intervening law provisions set forth in Section 23 of the general terms and conditions of the Agreement shall apply and are incorporated herein by this reference.

* AT&T MISSOURI Position: It is AT&T MISSOURI's position that the provisions noted above with asterices are voluntary, non-251(b) or (c) provisions/offerings that were not subject to the Parties' negotiations under Sections 251 and 252 of the Act and are not subject to arbitration under Section 252 of the Act. AT&T MISSOURI disputes MCI'm's submission of this issue, relating to a voluntary, non-251(b) or (c) offering, for arbitration under Section 252 of the Act, as set forth in more detail in AT&T MISSOURI's position statements in the Voluntary Services – YZP/RABT-YZP DPL. Without waiving said objection, AT&T MISSOURI has shown in this section the language it can agree to and the substantive disputes between the Parties as to the language itself in the event that the Commission does not appropriately dismiss the issues as to this non-251(b) or (c) offering from this Section 252 arbitration proceeding. In addition, AT&T MISSOURI does not waive, but instead fully reserves all of its rights, arguments and positions that the provisions noted with asterices (including disputed and non-disputed provisions) are not subject to Sections 251 and 252 of the Act, including without limitation, negotiations under Sections 251/252 of the Act and Section 252 arbitration and nothing herein shall constitute a concession or admission by AT&T MISSOURI that the provisions are subject to negotiation and arbitration under Sections 251/252 of the Act.

ATTACHMENT FOR THE REMOVAL OF ALL OR NON-EXCESSIVE BRIDGED TAP USING A MODIFIED MAINTENANCE PROCESS ("RABT MMP")

1. INTRODUCTION

1.1 This Attachment RABT MMP sets forth the rates, terms and conditions for the Removal of All or Non-Excessive Bridged Tap ("RABT") using a modified version of the standard maintenance process ("MMP") for xDSL Loops. This process is available to MCIm as an alternative to AT&T MISSOURI's existing ordering processes but applies only to completed loops.

1.2 Intentionally omitted.

1.3 AT&T MISSOURI shall provide MCIm with access to the RABT MMP process on a non-discriminatory basis and at parity with the RABT MMP process it provides to itself, or any of its affiliates in MISSOURI providing advanced services and other CLECs.

2. INTENTIONALLY OMITTED

3. REMOVAL OF ALL OR NON-EXCESSIVE BRIDGED TAP MMP OFFERING

3.1 To be eligible for RABT MMP, MCIm shall have ordered an xDSL Loop on its original service order. After the service order has completed, MCIm shall generate a trouble ticket pursuant to Section 5 of this Attachment with the Local Operations Center ("LOC") specifying the type of bridged tap Conditioning requested. Upon MCIm's request, the LOC will investigate and will address any AT&T MISSOURI non-conditioning related reasons for any No Sync situation, or ensure MCIm's bridged tap removal request is appropriate by verifying the subject bridged tap is located on the Loop, provided, however, AT&T MISSOURI does not guarantee the synchronization of any loop.

3.2 Except as provided below, AT&T MISSOURI shall respond to RABT MMP trouble tickets within five (5) business days or at parity with what it provides itself, or any of its affiliates in MISSOURI providing advanced services or any third party.

3.2.1 In those instances where AT&T MISSOURI determines that it can Remove All or Non-Excessive Bridged Tap under this Attachment, but cannot meet the five ((5) business day interval e.g., in those situations (i) involving municipalities which may affect access to certain areas; or (ii) there are other issues associated with access to the subject facilities; or (iii) events, actions or circumstances exist or arise that are outside the sole control of AT&T MISSOURI, the Parties understand and agree that the five (5) business day interval set forth above shall not apply, but instead, in such situations, AT&T MISSOURI will respond to MCIm-referred Removal of All or Non-Excessive Bridged Tap trouble tickets for xDSL Loops in parity with the repair intervals AT&T MISSOURI provides to its advanced services affiliate(s) in that same AT&T MISSOURI state. AT&T MISSOURI will advise MCIm as soon as possible when AT&T MISSOURI is unable to Remove All or Non-Excessive Bridged Tap under this Attachment or is unable to meet the five (5) business day interval.

3.3 MCIm shall pay AT&T MISSOURI for any Conditioning requested on a trouble ticket at the rates set forth in Appendix Pricing of this Agreement.

4. TESTING

4.1 Any testing requests after the completion of the service order will follow the testing procedures outlined for xDSL Loops elsewhere in this Agreement.

4.2 MCIm shall assist in trouble isolation on trouble tickets for the Removal of All or Non-Excessive Bridged Tap by obtaining and providing to AT&T MISSOURI disturber information on the Loop at the time of opening the trouble ticket. For best results, MCIm is encouraged to provide appropriate testing equipment for its technician to determine the presence and location of section(s) of bridged tap, including the length of individual section(s).

5. MAINTENANCE /SERVICE ASSURANCE

5.1 Prior to the opening of a trouble ticket for the RABT, MCIm must verify that the problem is not MCIm-related. If an RABT trouble ticket is opened, and it is later determined by AT&T MISSOURI that the requested Conditioning is not available because no such bridged tap was on the loop, the trouble ticket will be closed by AT&T MISSOURI as a 'No Trouble Found' (NTF) and MCIm shall pay a Maintenance Service Charge on a Time and Material basis, in 30-minute increments, pursuant to Section 13.4.4 of FCC No. 73; provided, however, the tariffed rates referenced below shall be deemed to be automatically revised and updated in the event that the referenced tariffed rates are modified during the term of this Agreement.

5.2 MCIm may open a trouble ticket for the RABT via the following two methods:

5.2.1 By calling the Local Operations Center and opening a manual ticket with its specific Conditioning request, e.g., "Found Bridged Tap (BT) on loop, request Removal of Non-Excessive BT."

5.2.2 By opening an electronic bonding ticket. In such case, MCIm shall request specific Conditioning in the remarks field e.g., "Found Bridged Tap (BT) on loop, request Removal of Non-Excessive BT."

Both methods require the following:

1. When Excessive Bridged Tap is present on the loop, the removal of All bridged tap.

2. When Excessive Bridged Tap is not present on the loop, the removal of Non-Excessive Bridged Tap.

3. Once All Bridged Tap has been removed, any future trouble tickets concerning bridged tap will require a vendor meet with the AT&T MISSOURI LOC. Vendor meet procedures can be found in AT&T MISSOURI's CLEC On-Line Handbook.

4. It is MCIm's obligation to document on the trouble ticket the type of Conditioning it is requesting be performed by AT&T MISSOURI i.e., the Removal of All or Non-Excessive Bridged Tap. If the specific RABT Conditioning request is not documented on MCIm's trouble ticket, the trouble ticket will be returned to MCIm for specific information.

5. Any Conditioning requests for the removal of Excessive Bridged Tap or for the removal of load coil(s) or repeater(s), will be performed pursuant to the existing rates, terms and conditions for xDSL Loops provided for elsewhere in this Agreement.

5.3 Except as otherwise provided for herein, when a trouble ticket is opened by MCIm for the RABT Conditioning, a five (5) business day interval will be given. Trouble ticket authorization for Conditioning and billing will be provided as follows:

5.3.1 Except as otherwise provided for herein, if the trouble ticket is opened as a ticket for the RABT Conditioning, for a loop that is over 12,000 feet or greater in Actual Loop Length, AT&T MISSOURI will use that designation and the initiation of the trouble ticket by MCIm as approval for loop Conditioning and the loop will be conditioned by AT&T MISSOURI. MCIm will then be billed and shall pay the Conditioning charges set forth on the attached AT&T MISSOURI RABT Pricing Schedule, in addition to any other applicable Conditioning charges set forth elsewhere in this Agreement upon the completion of the requested Conditioning by AT&T MISSOURI.

5.3.2 Except as otherwise provided for herein, if MCIm's trouble ticket is opened for the RABT Conditioning for a loop that is less than12, 000 feet in length in Actual Loop Length, and the loop is conditioned to remove bridged tap beyond that required to meet Minimum Qualifications, AT&T MISSOURI will bill and MCIm shall pay the Conditioning charges set forth on the attached, AT&T MISSOURI RABT Pricing Schedule, in addition to any other applicable Conditioning charges set forth elsewhere in this Agreement, for any Conditioning performed by AT&T MISSOURI at MCIm's request.

5.3.3 In the scenarios addressed in Subsections 5.3.1 and 5.3.2 above, the AT&T MISSOURI LOC will notify MCIm as soon as the trouble is closed, whether Conditioning has been performed or not.

5.4 Escalations for trouble tickets will follow the existing procedures listed in the CLEC On-Line Handbook.

6. PRICING

6.1 The rates that AT&T MISSOURI shall charge and MCIm shall pay for the RABT are set forth in Appendix Pricing of this Agreement.

7. RESERVATION OF RIGHTS/INTERVENING LAW

7.1 The reservation of rights/intervening law provisions set forth in Section 23 of the general terms and conditions of the Agreement shall apply and are incorporated herein by this reference.

ACCESS TO 800 DATABASE SERVICE

1. INTRODUCTION

1.1 MCIm agrees that it does not wish to obtain AT&T MISSOURI's 800 Database Access.

1. INTRODUCTION

1.1 This Appendix sets forth terms and conditions for 911 and E911 Service provided by AT&T MISSOURI to MCIm.

2. DEFINITIONS

2.1 ”911 or E911 Service Provider” means the entity that provides one or more of the following 911 elements; network, database or CPE.

2.2 “Automatic Location Identification” or “ALI” means the automatic display at the Public Safety Answering Point or “PSAP” of the caller’s telephone number, the address/location of the telephone and, in some cases, supplementary emergency services information.

2.3 “Automatic Number Identification” or “ANI” means the telephone number associated with the access line from which a call to 911 originates.

2.4 “Company Identifier” or “Company ID” means a three to five (3 to 5) character identifier chosen by the Local Exchange Carrier that distinguishes the entity providing dial tone to the End User. The Company Identifier is maintained by the National Emergency Number Association or “NENA” in a nationally accessible database.

2.5 “Database Management System” or “DBMS” means a system of manual procedures and computer programs used to create, store and update the data required to provide Selective Routing and/or Automatic Location Identification for 911 and E911 systems.

2.6 “911 or E911 Customer” means a municipality or other state or local government unit, or an authorized agent of one or more municipalities or other state or local government units to whom authority has been lawfully delegated to respond to public emergency telephone calls, at a minimum, for emergency police and fire services, through the use of one telephone number -- 911.

2.7 “911 Gateway” A secure information management system that provides MCIm or its third party representative the ability to send and receive 911 data files through peer-to-peer connectivity. The gateway acts as the interface between a MCIm's Data Management System and AT&T's E911 Database Management system.

2.8 “911 or E911 Universal Emergency Number Service” (also referred to as “Expanded 911 Service” or “Enhanced 911 Service”) or “911 or E911 Service” means a telephone exchange communications service whereby a Public Safety Answering Point (PSAP) answers telephone calls placed by dialing the number 911. 911 and E911 includes the service provided by the lines and equipment associated with the service arrangement for the answering, transferring, and dispatching of public emergency telephone calls dialed to 911. E911 provides completion of a call to 911 via dedicated trunks and includes Automatic Number Identification (ANI), Automatic Location Identification (ALI), and/or Selective Routing (SR).

2.9 “Emergency Services” means police, fire, ambulance, rescue, and medical services.

2.10 “Emergency Service Number” or “ESN” means a three to five digit number representing a unique combination of emergency service agencies (Law Enforcement, Fire, and Emergency Medical Service) designated to serve a specific range of addresses within a particular geographical area.

The ESN facilitates selective routing and selective transfer, if required, to the appropriate PSAP and the dispatching of the proper service agency(ies).

2.11 "Master Street Address Guide" or "MSAG" contains street names and house number ranges within their associated communities defining particular geographic areas and their associated ESNs to enable proper routing of 911 and E911calls.

2.12 "National Emergency Number Association" or "NENA" is a not-for-profit corporation established in 1982 to educate, set standards and provide certification programs, legislative representation and technical assistance for implementing and managing 911 and E911 systems.

2.13 "Public Safety Answering Point" or "PSAP" means an answering location for 911 and E911calls originating in a given area. The 911 or E911 Customer may designate a PSAP as primary or secondary, which refers to the order in which calls are directed for answering. Primary PSAPs answer calls; secondary PSAPs receive calls on a transfer basis. PSAPs are public safety agencies such as police, fire, emergency medical, etc., or a common bureau serving a group of such entities.

2.14 "Selective Routing" and "Selective Router" or "SR" means the routing and equipment used to route a call to 911 to the proper PSAP based upon the number and location of the caller. Selective routing is controlled by an ESN, which is derived from the location of the access line from which the 911 call was placed.

3. BASIC 911 AND E911 GENERAL REQUIREMENTS

3.1 When AT&T MISSOURI is the 911 or E911 Service Provider, AT&T MISSOURI shall provide MCIm with access to and service for 911 and E911.

3.2 911 and E911 provides a caller who dials a 3-digit universal telephone number (911) access to the appropriate Public Safety Answering Point (PSAP).

3.3 E911 provides additional routing flexibility for 911 calls. E911 uses Customer data derived from the ALI/DMS to determine to which PSAP to route the call. AT&T MISSOURI shall provide ALI interface information and access to the DMS sufficient to allow MCIm to provide services to its own End Users equivalent to the ALI services provided by AT&T MISSOURI for its End Users.

3.4 911 and E911 database service provided to MCIm will be at Parity with the 911 and E911 service that AT&T MISSOURI provides to itself and others.

3.5 Upon written request, AT&T MISSOURI shall provide to MCIm, within thirty (30) days, a description of the geographic area (or Rate Center) and PSAPs served by a 911 or E911 SR based upon the principles expressed in the May 1997 NENA Recommended Standards for Local Service Provider Interconnection Information Sharing, or any subsequent revision(s) thereto.

3.6 AT&T MISSOURI and MCIm shall comply with all Applicable Laws concerning 911 and E911 services.

3.7 AT&T MISSOURI shall provide and maintain such equipment at the SR and the DBMS as is necessary to perform the 911 and E911 services set forth herein when AT&T MISSOURI is the 911 or E911 Service provider. AT&T MISSOURI shall provide 911 or E911 Service to MCIm as

described this section in a particular Rate Center in which MCIm is authorized to provide local telephone exchange service and AT&T MISSOURI is the 911 or E911 Service Provider.

3.8 Intentionally Omitted.

3.9 Intentionally Omitted.

3.10 AT&T MISSOURI will forward the ANI it receives from MCIm and the associated 911 Address Location Identification (ALI) to the PSAP for display. If no ANI is forwarded by MCIm, AT&T MISSOURI will forward an Emergency Service Central Office (ESCO) identification code for display at the PSAP. If ANI is forwarded by MCIm, but no ALI record is found in the DBMS, AT&T MISSOURI will report this "No Record Found" condition to MCIm in accordance with NENA standards.

3.11 Call Routing

3.11.1 Where AT&T MISSOURI is the 911 or E911 Service Provider, MCIm will transport 911 and/or E911 calls from each MCIm point of interconnection (POI) to the AT&T MISSOURI 911 Tandem or SR.

3.11.2 AT&T MISSOURI will switch 911 and E911 calls through the 911 Tandem or SR to the designated primary PSAP or to the designated alternate locations, according to routing criteria specified by the PSAP.

3.11.3 AT&T MISSOURI will forward MCIm customer information for 911 and E911 calls to the PSAP upon a PSAP ALI query.

4. BASIC 911 AND E911 ADDITIONAL REQUIREMENTS

4.1 Where AT&T MISSOURI is the 911 or E911 Service Provider, AT&T MISSOURI shall cooperate with MCIm to ensure that 911/E911 Service is fully available to all MCIm End User Customers whose telephone numbers have been ported from AT&T MISSOURI. AT&T MISSOURI shall provide the necessary functionality for MCIm to update the 911/E911 database with customer information for lines that have been ported.

4.2 AT&T MISSOURI shall notify MCIm 48 hours in advance of any scheduled testing or maintenance affecting MCIm 911 or E911 Service. AT&T MISSOURI shall provide notification as soon as possible of any unscheduled outage affecting MCIm 911/E911 Service. AT&T MISSOURI shall notify MCIm of major network changes impacting MCIm as soon as AT&T MISSOURI is aware of such changes.

4.3 AT&T MISSOURI shall provide MCIm with the point of contact for reporting errors, defects, and malfunctions in the 911/E911 Service and shall also provide escalation contacts.

4.4 AT&T MISSOURI shall provide to MCIm sufficient planning information regarding anticipated moves to SS7 signaling at a minimum of ninety (90) days before each such anticipated move to SS7 signaling.

4.5 Where AT&T MISSOURI manages the 911/E911 database, AT&T MISSOURI shall provide MCIm with notification of any pending SR moves at least thirty (30) days in advance of the start date of the project or ninety (90) days from the projected cut-over date of the new SR.

4.6 AT&T MISSOURI shall establish within ten (10) days of the Effective Date any special operator-assisted calling requirements needed to support 911/E911.

4.7 Where AT&T MISSOURI is the 911 or E911 Service Provider, AT&T MISSOURI shall populate the ALI database with the appropriate new NPA codes for NPA splits, or other NPA changes.

5. BASIC 911 AND E911 DATABASE REQUIRMENTS

5.1 When AT&T MISSOURI is the 911 or E911 Service Provider, and AT&T MISSOURI manages the DBMS. The interface to the DBMS must meet all applicable standards.

5.1.1 Where AT&T MISSOURI is the 911 or E911 Service Provider and manages the DBMS, AT&T MISSOURI shall store MCIm's End User Customer 911 Records [that is, the name, address, and associated telephone number(s) for each of MCIm's End User Customers served by MCIm's exchange(s)] in the electronic data processing database for the DBMS. AT&T MISSOURI shall provide an electronic interface through which MCIm or its representative(s) may provide and update such information.

5.1.2 MCIm shall adopt use of Company ID on all MCIm End User 911/E911 Records in accordance with NENA standards. The Company ID will identify the carrier of record for facility configurations.

5.1.3 MCIm or its representatives shall be responsible for providing MCIm's End User 911 Records to AT&T MISSOURI for inclusion in AT&T MISSOURI's DBMS on a timely basis. AT&T MISSOURI and MCIm shall arrange for the automated input and periodic updating of MCIm's End User 911 Records.

5.2 AT&T MISSOURI shall coordinate access to the DBMS for the initial loading and updating of MCIm End User Customer 911/E911 Records. Access coordination will include:

5.2.1 AT&T MISSOURI provided format requirements and a delivery address for MCIm to supply an electronic version of Customer telephone numbers, addresses and other information both for the initial load and, where applicable, daily updates. AT&T MISSOURI shall confirm receipt of this data by the next business day by providing MCIm with a report of the number of items sent, the number of items entered correctly, and the number of errors;

5.2.2 Coordination of error resolution involving entry and update activity;

5.2.3 Provisioning of specific 911 routing information on each access line;

5.3 AT&T MISSOURI shall provide an electronic interface to the ALI/DMS database (or permit MCIm to provide its own data link to the ALI Gateway that interfaces to the ALI/DMS database), through which MCIm or its agent may provide a daily update of MCIm Customer Information. AT&T MISSOURI shall provide MCIm with the record input format, consistent with NENA-02-001 and subsequent NENA formats (NENA Recommended Formats for Data Exchange). AT&T MISSOURI shall provide error reports from the ALI/DMS database to MCIm within one (1) business day after MCIm or its agent enters information into the ALI/DMS database.

5.3.1 AT&T MISSOURI's ALI database shall accept electronically transmitted files that are based upon NENA standards. Manual entry shall be allowed only in the event that DBMS is not functioning properly.

5.4 AT&T MISSOURI shall provide MCIm query access to the ALI database, to verify the accuracy of MCIm Customer information, provided that MCIm has access to the 911 Gateway.

5.5 AT&T MISSOURI will process MCIm's End User Customer 911/E911 Records in the DBMS. AT&T MISSOURI will then provide MCIm an error and status report. AT&T MISSOURI and MCIm shall arrange for the automated input and periodic updating of 911/E911 database information related to MCIm's Customers.

5.6 AT&T MISSOURI shall update the ALI/DMS database within two (2) business days after receiving the data from MCIm.

5.7 If AT&T MISSOURI detects an error in the MCIm-provided data, the data shall be returned to MCIm within two (2) business days after it was provided to AT&T MISSOURI. MCIm shall respond to requests from AT&T MISSOURI to make corrections to database record errors by uploading corrected records within two (2) business days.

5.8 Manual entry shall not be allowed.

5.9 MCIm's end user customer records will be processed in the DBMS via the DBMS electronic interface. The ALI and SR databases will be subsequently updated via the DBMS once MCIm's end user customer records are updated in the DBMS. AT&T MISSOURI will provide notification when MCIm's records have been entered into the ALI DBMS.

5.10 ALI DBMS discrepancy reports shall be jointly researched by AT&T MISSOURI and MCIm. The responsible Party shall take immediate corrective action. AT&T MISSOURI agrees to work expeditiously to correct any internal processing errors between the DBMS, SR and ALI databases.

5.11 AT&T MISSOURI agrees to treat all data on MCIm's Customers provided under this Appendix as strictly confidential and to use data on MCIm's Customers only for the purpose of providing 911 or E911 Services, unless expressly requested by the Public Service Commission (PSC) of Missouri or the Federal Communications Commission (FCC).

5.12 Where MCIm is authorized to provide local telephone exchange service, AT&T MISSOURI shall identify which ALI databases cover which counties, or parts thereof on the CLEC 911 Exhibit, and identify and communicate a point of contact for AT&T MISSOURI.

5.13 AT&T MISSOURI will provide to MCIm a complete copy of the Master Street Address Guide ("MSAG") that will specify valid address ranges for Customers within the Exchange Areas served by MCIm. AT&T MISSOURI shall provide electronic updates monthly. AT&T MISSOURI shall cooperate with MCIm to ensure the accuracy of information about MCIm Customers in the ALI database and shall assist in resolving any errors. AT&T MISSOURI shall notify the E911 Customer of any errors in the MSAG concerning MCIm Customers. The MSAG will be provided by exchange rate center or community upon request.

6. MCIM RESPONSIBILITIES

6.1 Database

6.1.1 MCIm is responsible for providing AT&T MISSOURI updates to the ALI database; in addition, MCIm is responsible for maintaining the accuracy and content of that data as delivered.

6.1.2 MCIm is responsible for providing test records and conducting call-through testing on all new exchanges. However, if error resolution requires AT&T MISSOURI's participation, MCIm will coordinate with AT&T MISSOURI.

6.2 Other

6.2.1 AT&T MISSOURI will not be responsible for submitting any applicable 911 surcharges to be assessed to the appropriate municipality where MCIm provides facility-based local exchange service.

6.2.2 MCIm is responsible for collecting from its End Users and remitting to the appropriate municipality or other governmental entity any applicable 911 surcharges assessed on the local service provider and/or End Users by any municipality or other governmental entity within whose boundaries the MCIm provides facilities-based local exchange service.

7. METHODS AND PRACTICES

7.1 With respect to all matters covered by this Appendix, each Party will comply with all of the following to the extent that they apply to 911 and E911 Service: (i) all applicable FCC and state Commission rules and regulations; (ii) any applicable requirements imposed by any governmental authority other than a commission, and (iii) the principles expressed in the recommended standards published by NENA.

7.2 MCIm will establish a minimum of two (2) dedicated trunks from MCIm's Switch to each AT&T MISSOURI E911 Selective Router (i.e., E911 Tandem Office). MCIm may, at its option, provide its own transport facilities, acquire such transport facilities from AT&T MISSOURI through the applicable State Tariff, or obtain them from third parties. 911 Interconnection Trunk Groups must be, at a minimum, DS-0 level trunks configured as a 2-wire analog interface or as part of a digital (1.544 Mbps) interface at rates set forth in Appendix Pricing. Either configuration must use Centralized Automatic Message Accounting "CAMA" type signaling with MF tones that will deliver Automatic Number Identification "ANI" with the voice portion of the call, unless the 911/E911 selective router is SS7 capable, in which case MCIm may require SS7 signaling. All 911 Interconnection trunk groups must be capable of transmitting and receiving Baudot code necessary to support the use of Telecommunications Devices for the Deaf ("TTY/TDD"s).

7.2.1 To ensure proper operation of an E911 system where SS7 signaling is used for 911 trunking, the parties agree to follow technical publication Southwestern Bell Telephone, Land Line E911, CCS Network Interface Specifications Issue 1, December 1999 or any revisions thereto. AT&T MISSOURI shall provide MCIm a minimum of ninety (90) days notice of any changes to this document.

7.3 AT&T MISSOURI shall assure sufficient capacity at the 911 tandem or SR to meet MCIm's requests for interconnection within twenty (20) business days after receipt of the request. When

AT&T MISSOURI network force and load conditions require a longer implementation timeframe, AT&T MISSOURI will notify MCIm within five (5) business days after receipt of the request and the timeframe will be agreed upon. Interconnection to the 911 tandem or SR shall be established to provide path and route diversity when technically feasible.

7.4 AT&T MISSOURI will adhere to the principles expressed March 1997 NENA recommended Standards for Local Service Providers relating to provision of dedicated trunks from an End Office Switch to AT&T MISSOURI's SR. AT&T MISSOURI will only exceed the NENA recommended Minimum Trunking Requirements for such trunks under extenuating circumstances and with the prior written approval of the 911 or E911 Customer.

7.5 AT&T MISSOURI will provide the order number and circuit identification code in advance of the service due date.

7.6 In the event of an AT&T MISSOURI or MCIm 911 or E911 trunk group failure, the Party that owns the trunk group will notify, on a priority basis, the other Party of such failure, which notification shall occur within two (2) hours of the occurrence or sooner if required under Applicable Law. The Parties will exchange a list containing the names and telephone numbers of the support center personnel responsible for maintaining 911/E911 Service between the Parties.

7.7 MCIm will be responsible for the isolation, coordination and restoration of all 911 network maintenance problems to MCIm's demarcation (e.g. collocation). AT&T MISSOURI will be responsible for the coordination and restoration of all 911 network maintenance problems beyond the demarcation (e.g. collocation). MCIm is responsible for advising AT&T MISSOURI of the circuit identification when notifying AT&T MISSOURI of a failure or outage. The Parties agree to work cooperatively and expeditiously to resolve any 911 outage. AT&T MISSOURI will refer network trouble to MCIm if no defect is found in AT&T MISSOURI's network. The Parties agree that 911-network problem resolution will be managed in an expeditious manner at all times.

8. CONTINGENCY

8.1 The terms and conditions of this section represent a negotiated plan for CLECs not currently providing 911 or E911 Service.

8.2 The Parties agree that 911 and E911 Service is provided for the use of the 911 or E911 Customer, and recognize the authority of that customer to establish service specifications and grant final approval (or denial) of service configurations offered by AT&T MISSOURI and MCIm. These specifications (if any) shall be documented in Exhibit I, CLEC Serving Area Description and E911 Interconnection Details. MCIm shall complete its portion of Exhibit I and submit it to AT&T MISSOURI not later than forty-five (45) days prior to the date MCIm intends on passing live traffic. AT&T MISSOURI shall complete its portion of Exhibit I and return Exhibit I to MCIm no later than fifteen (15) days from the date Exhibit I is received from MCIm.

8.3 MCIm must obtain documentation of approval of the completed Exhibit I from the appropriate E911 Customer(s) that have jurisdiction in the area(s) in which MCIm's end user customers are located. MCIm shall provide documentation of all requisite approval(s) to AT&T MISSOURI prior to use of MCIm's E911 connection for actual emergency calls.

8.4 The Parties designate the following representatives who shall have the authority to execute additional Addenda I to this Appendix when necessary to accommodate expansion of MCIm's

geographic area into the jurisdiction of additional PSAPs or to increase the number of CAMA trunks:

AT&T representative:

Account Manager
4 Bell Plaza, 21st Flr
311 S. Akard St.
Dallas, TX 75202-5398

MCIm representative:

Kathy Jespersen
205 N. Michigan Avenue
Chicago, Illinois 60601
312-260-3294

8.5 Either Party may unilaterally change its designated representative and/or address, telephone contact number or facsimile number for the receipt of notices by giving seven (7) days prior written notice to the other Party in compliance with this Section. Any notice or other communication will be deemed given when received.

9. BASIS OF COMPENSATION

9.1 Rates for access to 911 and E911 Services are set forth in Appendix Pricing.

9.2 Charges shall begin on the date that 911 or E911 Service is turned on for live traffic.

10. LIABILITY

10.1 In addition to the requirements of this Appendix 911, the Parties agree 911 and E911 Services will be provided in accordance with Applicable Law.

10.2 The Parties' liability with respect to 911/E911 services shall be governed by the provisions of the General Terms and Conditions of this agreement.

11. 911 TRUNKING ARRANGEMENTS

11.1 The Parties shall comply with 911 trunking arrangements including any applicable exceptions/waivers set forth in Appendix Network of this Agreement

APPENDIX WHITE PAGES (WP)

4. PRICING 5

APPENDIX WP
(WHITE PAGES DIRECTORY)

1. INTRODUCTION

1.1 This Appendix sets forth the terms and conditions for White Pages Directory Services provided by AT&T MISSOURI to MCIm. The terms and conditions for White Pages Directory Services being provided for MCIm's resale end user customers are set forth in Appendix Resale.

2. SERVICE PROVIDED

2.1 AT&T MISSOURI publishes alphabetical White Pages (WP) directories for its geographic local service areas. MCIm provides local exchange telephone service and wishes to include listing information for its end users in the appropriate AT&T MISSOURI WP directories.

2.2 MCIm also desires distribution to its end users of the WP directories that include listings of MCIm's end users.

2.3 AT&T MISSOURI will include in appropriate WP directories the primary alphabetical listings of all MCIm end users located within the local directory scope.

2.4 When MCIm provides its subscriber listing information to AT&T MISSOURI listings database, MCIm will receive for its end user, one primary listing in AT&T MISSOURI WP directory and a listing in AT&T MISSOURI's directory assistance database.

2.5 MCIm shall furnish to AT&T MISSOURI, in a form acceptable to both Parties, subscriber-listing information pertaining to MCIm end users located within the local directory scope, along with such additional information as AT&T MISSOURI may require to prepare and print the alphabetical listings of said directory. MCIm will submit listing information within one (1) business day of installation, disconnection or other change in service (including change of non-listed or non-published status) affecting the directory assistance database or the directory listing of an MCIm end user. MCIm must submit all listing information intended for publication by the directory close date. Both parties will use commercially reasonable efforts to ensure the accuracy of the submission and processing of the listing updates.

2.6 MCIm may provide its subscriber listing information to AT&T MISSOURI for inclusion in the WP directory via either a mechanical or manual feed of the listing information to AT&T MISSOURI's directory listing database. MCIm agrees to submit all listing information via readily accessible, electronic, or other mutually agreed format. Notwithstanding the foregoing, MCIm may continue to manually submit directory listing information for complex caption sets with two (2) or greater degrees of indent.

2.6.1 At least sixty (60) calendar days prior to the directory close date for a particular directory, AT&T MISSOURI will provide MCIm upon request an electronic verification report, in directory appearance format, of all its subscriber listings as such listings are to appear in the directory. MCIm will make its request for this report at least eighty (80) days prior to the directory close date for a particular directory. MCIm shall review this electronic verification list and shall submit to AT&T MISSOURI any necessary additions, deletions or modifications via the appropriate directory listing correction process no less than thirty (30) days prior to the directory close date for that directory, provided that AT&T made the electronic verification list available to MCIm in a timely manner as specified above.

2.7 DIRECTORIES

2.7.1 AT&T MISSOURI shall direct its directory publishing affiliate to offer delivery of newly published White Pages directories to MCIm's end user customers pursuant to terms and conditions agreed to by the publishing affiliate and MCIm.

2.7.2 Intentionally Omitted

2.7.3 AT&T MISSOURI has no obligation to warehouse WP directories for MCIm or provide WP directories to MCIm's end users subsequent to the annual distribution of newly published directories.

2.7.4 MCIm may arrange for additional directory distribution and other services with AT&T MISSOURI's directory publishing affiliate.

2.8 AT&T MISSOURI will include MCIm's specific information, i.e installation, repair, customer service and local sales office information and, where required by regulatory bodies, payment address in the White Pages directory on an "index-type" information page, in alphabetical order along with other local service providers, at no charge. Such information shall appear in the same manner as such information appears for other CLECs. In order to have such information published, MCIm will provide AT&T MISSOURI the information sixty (60) calendar days prior to the directory close date and in accordance with the instructions provided on AT&T's CLEC Online Website.

3. USE OF SUBSCRIBER LISTING INFORMATION

3.1 AT&T MISSOURI agrees to serve as the single point of contact for all independent and third party directory publishers who seek to include MCIm's subscriber listing information in an area directory, and to handle MCIm's subscriber listing information in the same manner as AT&T MISSOURI's subscriber listing information. In exchange for AT&T MISSOURI serving as the single point of contact and handling all subscriber listing information equally, MCIm authorizes AT&T MISSOURI to include and use MCIm subscriber listing information provided to AT&T MISSOURI pursuant to this Appendix in AT&T MISSOURI's WP directory, AT&T MISSOURI's directory assistance databases, and to provide MCIm subscriber listing information to directory publishers. Included in this authorization is release of MCIm listings to requesting competing carriers as required by Section 271(c)(2)(B)(vii)(II) and Section 251(b)(3). Also included in this authorization is AT&T MISSOURI's use of MCIm's subscriber listing information in AT&T MISSOURI's directory assistance, directory assistance related products and services, and directory publishing products and services.

3.2 AT&T MISSOURI further agrees not to charge MCIm for serving as the single point of contact with independent and third party directory publishers, no matter what number or type of requests are fielded. In exchange for the handling of MCIm's subscriber list information to directory publishers, MCIm agrees that it will receive no compensation for AT&T MISSOURI's receipt of the subscriber list information or for the subsequent release of this information to directory publishers. Such MCIm subscriber list information shall be intermingled with AT&T MISSOURI's subscriber list information and the subscriber list information of other companies that have authorized a similar release of their subscriber list information by AT&T MISSOURI.

3.3 Each time a third party publisher requests MCIm's listings, MCIm shall not be required to submit a letter of authorization.

4. PRICING

4.1 Intentionally Omitted.

4.2 Where a MCIm end user requires foreign, enhanced or other listings in addition to the primary listing to appear in the WP directory, AT&T MISSOURI will assess MCIm a charge for such listings in accordance with Appendix Pricing. An additional charge applies when MCIm wishes to list an End User in AT&T MISSOURI directory assistance database but does not wish to have its End User listed in AT&T MISSOURI's WP directory. In addition, MCIm may elect to have its End Users unlisted and the listing not published in AT&T MISSOURI's WP directory for those nonpublished, nonlisted services in accordance with Appendix Pricing.

1. INTRODUCTION

1.1 This Appendix Line Splitting sets forth the terms and conditions under which AT&T MISSOURI will provide MCIm with the ability to engage in Line Splitting (as defined in Section 2.8 below) in accordance with the FCC's Triennial Review Order and associated Lawful and effective implementing rules, 47 C.F.R. §51.319(a)(1)(ii), as such rules may be modified from time to time, as described herein. The Parties acknowledge that MCIm does not have an embedded base of either unbundled Local Circuit Switching or UNE-P End Users served through this Agreement and that, because there is no such embedded base served by this Agreement, no terms for Line Splitting with unbundled Local Circuit Switching are included in this Agreement. In addition to the terms and conditions of this Appendix Line Splitting, this Appendix is also subject to the applicable terms and conditions of Appendix UNE and Appendix xDSL. In the event of a conflict between the terms of this Appendix Line Splitting and Appendix xDSL, or between this Appendix Line Splitting and Appendix UNE, the Parties agree that the terms of this Appendix Line Splitting shall control. AT&T MISSOURI shall support MCIm's ability to provide combinations of voice services, data services, or voice and data services over a single xDSL Loop.

1.2 The Parties agree that in the event that additions or modifications to AT&T MISSOURI Line Splitting processes and procedures result from final outcomes of the AT&T 13-State Line Splitting Collaborative or any applicable state commission collaborative or the Change Management Process, AT&T MISSOURI and MCIm will use such modified or additional processes or procedures thereafter under this Agreement, and the Parties will negotiate in good faith to arrive at an agreement on conforming modifications to this Appendix Line Splitting, if necessary.

1.3 AT&T MISSOURI shall make all necessary network modifications, including providing nondiscriminatory access to operations support systems (consistent with Appendix OSS) necessary for pre-ordering, ordering, provisioning, maintenance and repair, and billing for xDSL Loops used in Line Splitting.

2. DEFINITIONS

2.1 Terms not defined herein shall have the meaning set forth in Appendix xDSL, Appendix UNE, or Appendix Definitions. In addition to the definitions in Appendix xDSL and Appendix Definitions, the following definitions shall apply to this Appendix Line Splitting.

2.2 Intentionally Omitted.

2.3 Intentionally Omitted.

2.4 Intentionally Omitted.

2.5 Intentionally Omitted.

2.6 Intentionally Omitted.

2.7 Intentionally Omitted.

2.8 "Line Splitting" is the process in which one CLEC (which may include MCIm or its Advanced Services Providers) provides narrowband voice service over the low frequency portion of a Loop and a second CLEC (which may include MCIm or its Advanced Services Providers) provides digital subscriber line service over the high frequency portion of that same Loop.

2.9 "Splitter" is a device that divides the data and voice signals concurrently moving across a Loop, directing the voice traffic through copper tie cables to the switch and the data traffic through another pair of copper tie cables to multiplexing equipment for delivery to a packet-switched network.

3. GENERAL TERMS AND CONDITIONS

3.1 Intentionally Omitted.

3.2 AT&T MISSOURI will provide MCIm with access to UNE to provide Line Splitting to deploy xDSL technologies. AT&T MISSOURI will not impose limitations on the transmission speeds of xDSL services; provided, however, that AT&T MISSOURI does not guarantee transmission speeds, available bandwidth nor imply any service level.

3.3 Intentionally Omitted.

3.4 Intentionally Omitted.

3.5 Intentionally Omitted

3.6 Whenever MCIm purchases an xDSL Loop, MCIm shall control the entire loop spectrum.

3.7 Intentionally Omitted.

3.8 Intentionally Omitted.

3.9 Intentionally Omitted.

3.10 Intentionally Omitted.

3.11 Intentionally Omitted.

3.12 Intentionally Omitted

3.13 AT&T MISSOURI may not require MCIm to collocate in order to provide voice service when Line Splitting, provided the data carrier shall be collocated to provision this arrangement.

4. AUTHORIZED ADVANCED SERVICES PROVIDER

4.1 MCIm may identify to AT&T MISSOURI one or more CLECs as an authorized advanced services provider which is authorized by MCIm to add, change or delete advanced services capabilities as to UNEs employed or ordered by MCIm ("Advanced Services

Provider") for purposes of line splitting. By utilizing the LSPAUTH field of the LSR, MCIm acknowledges that the AASP is placing the order on MCIm's behalf. Such an Advanced Services Provider shall submit orders on MCIm's behalf using MCIm's ACNA OCN and circuit facilities assignment ("CFA") information.

4.2 Intentionally Omitted.

4.3 MCIm is responsible for developing any necessary interfaces between itself and any Advanced Services Providers.

4.4 Liability and Indemnification for unauthorized use of AT&T MISSOURI's OSS is addressed in Appendix OSS.

5. LOOP OFFERING

5.1 Retirement of Copper Loops. Prior to retiring any copper Loop (that has been replaced with a Fiber-to-the-Home Loop) used by MCIm for Line Splitting, AT&T MISSOURI shall comply with the requirements for retirement of copper set forth in Appendix UNE of this Agreement.

6. INTENTIONALLY OMITTED

7. PROVISIONING

7.1 Intentionally Omitted.

7.2 Provisioning intervals for xDSL Loops utilized by MCIm for Line Splitting are the same as those set forth in Appendix xDSL.

7.3 Line Splitting with a CLEC-Owned Switch. For Line Splitting with a CLEC-Owned Switch, AT&T will abide by the provisions outlined pursuant to Appendix xDSL of this Agreement, subject to the outcome of any statewide collaboratives agreed upon changes in the AT&T 13-State Line Splitting Collaborative or any applicable state commission collaborative or the Change Management Process, as set forth in sec. 1.2 above.

7.4 Intentionally Omitted.

7.5 Intentionally Omitted.

7.6 Intentionally Omitted.

7.7 Intentionally Omitted.

7.8 The provisioning intervals for UNEs provided for purposes of line splitting are the standard provisioning intervals for the underlying UNE.

7.9 Intentionally Omitted.

7.10 Intentionally Omitted.

7.11 If connections to a collocation arrangement must be established or modified, then MCIm (or its Advanced Services Provider) will provide the CFA information appropriate to making such connections or modifications.

8. SERVICE QUALITY AND MAINTENANCE

8.1 Intentionally Omitted.

8.2 AT&T MISSOURI will provide maintenance and repair (including any applicable testing necessary for trouble isolation) for each of the UNEs in a Line Splitting arrangement in accordance with the Appendix UNE and Appendix xDSL for that UNE or UNEs.

8.3 AT&T MISSOURI is responsible for all testing, repair and maintenance of its facilities which includes all cross connects and AT&T MISSOURI provided equipment. Except as provided herein, MCIm is responsible for all testing, maintenance, and repair of its physically and virtually collocated facilities and equipment according to the terms and conditions of the Appendix Collocation.

8.4 AT&T MISSOURI and MCIm agree to coordinate in good faith any virtually collocated Splitter testing, repair and maintenance that will significantly impact the service provided by the other Party. In no event will AT&T MISSOURI perform any virtually collocated Splitter testing, repair or maintenance that interrupts the flow of data to a MCIm customer without first coordinating with MCIm to reach a mutually acceptable time for the necessary testing, repair or maintenance work to occur. In no event will AT&T MISSOURI have any obligation to test, maintain, or repair an MCIm owned, physically collocated Splitter.

8.5 Procedures and Access. AT&T MISSOURI will provide resolution of MCIm-referred trouble tickets for Line Splitting at parity with the repair intervals AT&T MISSOURI provides to other CLECs or any of its affiliates in MISSOURI providing advanced services. When resolving such trouble tickets, AT&T MISSOURI shall not rearrange or modify the Loop beyond the original service without prior notification to MCIm.

8.6 AT&T MISSOURI will visually inspect all Central Office cross connects placed in association with Line Splitting orders.

9. SPLITTER OWNERSHIP AND RESPONSIBILITIES

9.1 The Parties agree that AT&T MISSOURI shall have no obligation to provide MCIm with Splitters.

9.2 When MCIm is physically collocating, Splitters shall be installed in MCIm's collocation arrangement area (whether caged or cageless) consistent with the collocation provisions set forth in Appendix Collocation of this Agreement.

9.3 When MCIm is virtually collocated, the Parties will follow the terms of Appendix Collocation or the Collocation tariff to install, provision, and maintain splitters.

9.4 AT&T MISSOURI shall provide cross-connect (tie) cables from the collocation cage to the Carrier Facility Assignment (CFA) for splitter arrangement as provided in Appendix Collocation of this Agreement.

10. SPECTRUM MANAGEMENT

10.1 The Parties shall use spectrum management to manage the deployment in accordance with the standards set forth in Appendix xDSL of this Agreement.

11. PRICING

11.1 The applicable rates are as set forth in Appendix Pricing.

12. RESERVATION OF RIGHTS

12.1 The intervening law provisions set forth in Section 23 of the general terms and conditions of the Agreement shall apply and are incorporated herein by this reference.

APPENDIX COORDINATED HOT CUT (CHC)

TABLE OF CONTENTS

1. INTRODUCTION 3
2. CHC SERVICE DESCRIPTION 3
3. CHC PRICING 3

1. INTRODUCTION

This Appendix sets forth terms and conditions for Coordinated Hot Cut (CHC) provided by AT&T MISSOURI and MCIm.

1.1 "Conversion of Service" is defined as the matching of the disconnect of one telecommunications product or service with the installation of another telecommunications product or service.

1.2 "Designated Installation" is defined as an installation of service occurring at a specific time of day as specified by MCIm.

2. CHC SERVICE DESCRIPTION

2.1 Coordinated Hot Cut (CHC) Service is an optional manual service offering that permits MCIm to request a designated installation and/or conversion of service during, or after, normal business hours.

2.2 MCIm will initiate the beginning of a CHC by contacting the appropriate coordination center. This special request enables MCIm to schedule and coordinate particular provisioning requirements with AT&T MISSOURI.

2.3 AT&T MISSOURI may limit the number of service orders that can be coordinated based on workload and resources available. AT&T shall approve CHC requests on a non-discriminatory basis, by requesting carrier, and on a first come, first served basis.

2.4 AT&T MISSOURI reserves the right to suspend the availability of CHC Service during unanticipated heavy workload/activity periods. Heavy workload includes any unanticipated volume of work that impacts AT&T MISSOURI's ability to provide its baseline service. Where time permits, AT&T will make every effort to notify MCIm when such unanticipated activities occur.

3. CHC PRICING

3.1 CHC is a time sensitive labor operation. Total charges are determined by a number of factors including the volume of lines, day of the week, and the time of day requested for the cut over.

3.2 The charges for Coordinated Hot Cuts are set forth in Appendix Pricing.

3.3 In the event the AT&T MISSOURI fails to meet a CHC Service commitment for reasons within the control of AT&T MISSOURI, AT&T will not charge MCIm a CHC Service charge. However, in the event AT&T misses a CHC Service commitment due to MCIm, its agent or end user reasons, the Coordinated Hot Cut (CHC) Service charge will still apply. For example, if MCIm requests any change to an order with CHC Service including, but not limited to, AT&T MISSOURI's inability to gain access to MCIm's end user's premises, or MCIm's end user is not ready to proceed with the order, the CHC charge will apply and AT&T MISSOURI is no longer obligated to ensure a CHC is on that order.

Appendix Out of Exchange Traffic

8. MEET-POINT-BILLING (MPB) and SWITCHED ACCESS TRAFFIC COMPENSATION 5
9. INTERLATA SECTION 251(B)(5) TRAFFIC 5

APPENDIX OUT OF EXCHANGE TRAFFIC

1. DEFINITIONS

1.1 This Appendix sets forth the terms and conditions necessary for the exchange of Out of Exchange Traffic (as defined in Section 1.4).

1.2 AT&T Operations Inc. (AT&T-13STATE) means the holding company which directly or indirectly owns the following ILECs: Illinois Bell Telephone Company d/b/a AT&T Illinois, Indiana Bell Telephone Company Incorporated d/b/a AT&T Indiana, Michigan Bell Telephone Company d/b/a AT&T Michigan, Nevada Bell Telephone Company d/b/a AT&T Nevada, The Ohio Bell Telephone Company d/b/a AT&T Ohio, Pacific Bell Telephone Company d/b/a AT&T California, The Southern New England Telephone Company d/b/a AT&T Connecticut, Southwestern Bell Telephone Company d/b/a AT&T Arkansas, AT&T Kansas, AT&T Missouri, AT&T Oklahoma and/or AT&T Texas and/or Wisconsin Bell, Inc. d/b/a AT&T Wisconsin.

1.3 Intentionally Omitted.

1.4 For purposes of this Appendix only, "Out of Exchange Traffic" shall be defined as those categories of traffic subject to compensation pursuant to Appendix Reciprocal Compensation and includes only such interLATA traffic as is exchanged pursuant to an FCC approved or court ordered InterLATA boundary waiver that:

(i) Originates from an MCIm end user located in another ILEC's incumbent local exchange area and terminates to an AT&T-13STATE end user customer located in an AT&T-13STATE local exchange area or;

(ii) Originates from an AT&T-13STATE end user located in an AT&T-13STATE local exchange area and terminates to an MCIm end user customer located in another ILEC's incumbent local exchange area.

2 INTRODUCTION

2.1 For purposes of this Appendix, MCIm intends to operate and/or provide telecommunications services outside of AT&T-13STATE incumbent local exchange areas and desires to interconnect MCIm's network with AT&T-13STATE's network(s).

2.2 Intentionally Omitted.

2.3 Other than as set forth in this Appendix, AT&T-13STATE's obligations under this Agreement shall apply only to the specific operating area(s) or portion thereof in which AT&T-13STATE is the ILEC under the Act.

3. NETWORK MANAGEMENT

3.1 The terms and conditions for network management, including CPN requirements, service levels, traffic management controls, reroutes, mass calling, quality of network connections and joint planning are set forth in Appendix NIM of this Agreement.

4. NETWORK CONNECTIONS FOR OUT OF EXCHANGE TRAFFIC

4.1 The Parties agree that AT&T-13STATE's originating traffic destined for MCIm end user customers in another ILEC's exchange will be delivered to MCIm's POI arrangements in an AT&T local exchange area in the LATA where the traffic originates in accordance with the POI requirements set forth in the Appendix NIM of this Agreement. The Parties agree that MCIm's traffic originating from another ILEC's exchange and destined for AT&T-13STATE end users will be delivered to MCIm's POI arrangements in the AT&T exchange area in the LATA where the traffic originates in accordance with the POI requirements set forth in Appendix NIM of this Agreement. When Out of Exchange Traffic exchanged between the end user customers of MCIm and AT&T-13STATE exceeds one DS1 (24 DS0s) to or from an AT&T-13STATE End Office, the Parties agree to establish a direct end office trunk group.

4.2 If MCIm is required to establish new interconnection trunks for the routing of Out of Exchange Traffic, AT&T-13STATE agrees to route its originating Out of Exchange Traffic over existing trunks until such time as the new trunks are operational for a timeframe not to exceed 90 days. MCIm will submit all necessary ASRs for the establishment of such new interconnection trunks. If, however, MCIm's failure to submit an ASR is due to a "facilities-not-available" situation, AT&T-13STATE will continue to route the traffic on existing trunks during the period in which the "facilities-not available" situation is being resolved. At such time that MCIm's trunks are operational, AT&T-13STATE's originating Out of Exchange traffic will be rerouted to MCIm's POI according to Section 4.1 above.

4.3 If MCIm is required to establish new interconnection trunks for the routing of Out of Exchange Traffic, MCIm may route its originating Out of Exchange Traffic to AT&T-13STATE's End Office via a Third Party ILEC's Tandem until such time as the new trunks are operational, for a timeframe not to exceed 90 days. MCIm will submit all necessary ASRs for the establishment of such new interconnection trunks. If, however, MCIm's failure to submit an ASR is due to a "facilities-not-available" situation, MCIm will continue to route the traffic via a Third Party ILEC's Tandem during the period in which the "facilities-not available" situation is being resolved. At such time that MCIm's trunks are operational, MCIm's originating Out of Exchange traffic will be rerouted to MCIm's POI according to Section 4.1 above.

4.4 MCIm shall route originating Out of Exchange Traffic to the serving tandem as defined by the LERG.

4.5 Intentionally Omitted.

4.6 If any Out of Exchange Traffic is not properly routed in accordance with this Appendix, the Parties will work cooperatively to correct the problem. This also includes traffic that is destined to End Offices that do not subtend AT&T-13STATE tandem. The Parties shall provide notice to each other pursuant to the Notices provisions of this Agreement that such misrouting has occurred. In the notice, the Party shall be given thirty (30) calendar days to cure such misrouting.

4.7 Intentionally Omitted.

4.8 Except as set forth in Section 4.3, MCIm may deliver traffic destined to terminate at AT&T-13STATE's End Office via a Third Party ILEC's Tandem solely as an overflow remedy. In no instance shall this arrangement be used to circumvent over utilization augments according to Appendix NIM. Nothing in this section shall require AT&T-13STATE to deliver traffic destined to terminate at MCIm's switch via a Third Party ILEC's Tandem.

4.9 Connection of a trunk group from MCIm to AT&T-13STATE's tandem(s) will provide MCIm accessibility to End Offices, IXCs, LECs, WSPs and NXXs which subtend that tandem(s). Connection of a trunk group from one Party to the other Party's End Office(s) will provide the connecting Party accessibility

only to the NXXs served by that individual End Office(s) to which the connecting Party interconnects. Direct End Office Trunk groups that connect the Parties End Office(s) shall provide the Parties accessibility only to the NXXs that are served by that End Office(s).

4.10 AT&T-13STATE will open MCIm NPA-NXX codes, rated to or identified to reside in non-AT&T-13STATE exchange areas, in AT&T-13STATE Tandems and End Offices using standard industry practice and intervals.

5. INTERCARRIER COMPENSATION

5.1 Nothing in this Appendix is intended to affect compensation arrangements set forth in Appendix Reciprocal Compensation of this Agreement. Such compensation arrangements shall apply for OE-LEC traffic as defined in Section 1.4.

6. INTENTIONALLY LEFT BLANK

7. INTENTIONALLY LEFT BLANK

8. INTENTIONALLY LEFT BLANK

9. INTERLATA SECTION 251(B)(5) TRAFFIC

9.1 The Parties will exchange InterLATA Section 251(b)(5) Traffic that is covered by an FCC approved or court ordered InterLATA boundary waiver. AT&T-13STATE will exchange such traffic using two-way direct final trunk groups (i) via a facility to MCIm's POI in the originating LATA, or (ii) via a facility meet point arrangement at or near the exchange area boundary ("EAB"), or (iii) via a mutually agreed to meet point facility within the AT&T-13STATE exchange area covered under such InterLATA waiver, or (iv) any other mutually agreed upon method. If the exchange where the traffic is terminating is not an AT&T-13STATE exchange, AT&T-13STATE shall exchange such traffic using a two-way DF trunk group (i) via a facility to MCIm's POI within the originating LATA or (ii) via a mutually agreed to facility meet point arrangement at or near the EAB, or (iii) any other mutually agreed upon method. AT&T-13STATE will not provision or be responsible for facilities located outside of AT&T-13STATE exchange areas.

9.2 The Parties agree that the associated traffic from each AT&T-13STATE End Office will not alternate route.

9.3 Intentionally Omitted

9.4 Except as otherwise provided in this Appendix, for MCIm originated/AT&T-13STATE terminated traffic or AT&T-13STATE originated/ MCIm terminated traffic, if any such traffic is improperly routed by one Party over any trunk groups to other party and/or not routed in accordance with this Appendix, the Parties will work cooperatively to correct the problem.

AMENDMENT
SUPERSEDING CERTAIN RECIPROCAL COMPENSATION, INTERCONNECTION AND TRUNKING TERMS

This Amendment Superseding Certain Reciprocal Compensation, Interconnection and Trunking Terms ("Amendment") is applicable to this and any future Interconnection Agreement between Illinois Bell Telephone Company d/b/a AT&T Illinois, Indiana Bell Telephone Company Incorporated d/b/a AT&T Indiana, Michigan Bell Telephone Company d/b/a AT&T Michigan, The Ohio Bell Telephone Company d/b/a AT&T Ohio, Wisconsin Bell Inc. d/b/a AT&T Wisconsin, Nevada Bell Telephone Company d/b/a AT&T Nevada, Pacific Bell Telephone Company d/b/a AT&T California, The Southern New England Telephone Company d/b/a AT&T Connecticut, and Southwestern Bell Telephone Company d/b/a AT&T Arkansas, AT&T Kansas, AT&T Missouri, AT&T Oklahoma and/or AT&T Texas in the states of Arkansas, California, Connecticut, Illinois, Indiana, Kansas, Michigan, Missouri, Nevada, Ohio, Oklahoma, Texas or Wisconsin and any of its future affiliates or subsidiaries which are the Incumbent Local Exchange Carrier (hereinafter "ILEC") in the above listed states and MCImetro Access Transmission Services LLC (including those Agreements held by MCIm as successor in interest to Brooks Fiber Communications of Arkansas, Inc., Brooks Fiber Communications of Bakersfield, Inc., Brooks Fiber Communications of Connecticut, Inc., Brooks Fiber Communications of Fresno, Inc., Brooks Fiber Communications of Michigan, Inc., Brooks Fiber Communications of Missouri, Inc., Brooks Fiber Communications of Nevada, Inc., Brooks Fiber Communications of Ohio, Inc., Brooks Fiber Communications of Oklahoma, Inc., Brooks Fiber Communications of Sacramento, Inc., Brooks Fiber Communications of San Jose, Inc., Brooks Fiber Communications of Stockton, Inc., Brooks Fiber Communications of Texas, Inc., Brooks Fiber Communications of Tulsa, Inc.; MCI WORLDCOM Communications, Inc., f/k/a MFS Communications Company, Inc. or MFS Intelenet of Connecticut, Inc. or WorldCom Technologies, Inc. or MCI WorldCom Technologies, Inc., Intermedia Communications LLC) and any of its future affiliates or subsidiaries which are a competitive Local Exchange Carrier (hereinafter "CLEC") in: California, Nevada, Texas, Missouri, Oklahoma, Kansas, Arkansas, Illinois, Wisconsin, Michigan, Indiana, Ohio, or Connecticut ("13-State Region") through the Termination Date, whether negotiated, arbitrated, or arrived at through the exercise of Section 252 (i) "Most Favored Nation" ("MFN") rights; but only to the extent that any such future CLEC affiliate or subsidiary (i) is operating as a competitive Local Exchange Carrier in ILEC's territory in the 13-State Region and (ii) is interconnected and exchanging traffic with ILEC as a competitive Local Exchange Carrier. The Parties acknowledge and agree that CLEC has competitive Local Exchange Carrier affiliates that, in addition to operating as a competitive Local Exchange Carrier, operate as an incumbent Local Exchange Carrier or in some other Non-CLEC capacity ("Non-CLEC Operations"). The Parties agree that nothing in this Amendment is intended to bind CLECs future competitive Local Exchange Carrier affiliates or subsidiaries in any manner for such Non-CLEC Operations. ILEC and CLEC may be referred to individually as "Party" or collectively as the "Parties".

WHEREAS, ILEC and CLEC entered into an interconnection agreement pursuant to Sections 251 and 252 of the Communications Act of 1934, as amended (the "Act") that was approved by the state commission (the "ICA"); and

WHEREAS, for the states of California, Nevada, Texas, Missouri, Oklahoma, Kansas, Arkansas, Illinois, Wisconsin, Michigan, Indiana, Ohio or Connecticut the Parties wish to amend, modify and supersede certain compensation, interconnection and trunking provisions of the ICA that are addressed in this Amendment and also incorporate the terms of this Amendment in future interconnection agreements between the Parties in such states through the Termination Date; and

WHEREAS, the Parties wish to establish rates, terms and conditions for the exchange of ISP-bound, Section 251(b)(5) and other compensable traffic including, but not limited to, compensable traffic that originates from or terminates to an MCI end user which is provided local telephone service (dialtone) via an ILEC end office switching provided to MCI by ILEC on a non-resale, wholesale basis (e.g., UNE-P/unbundled local switching if and to the extent available, a Local Wholesale Complete product, 271 local switching); and

WHEREAS, the Parties agree that they can identify ISP-bound traffic through the use of billing and other technical information rather than by means of the ratio set forth in the FCC's ISP Remand Order.

NOW, THEREFORE, for and in consideration of the premises, mutual promises and covenants contained in this Amendment, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. The term of this Amendment shall commence on August 1, 2007[1] ("Effective Date") and shall continue until July 31, 2009. Thereafter, this Amendment will remain in full force and effect unless terminated by either Party by providing at least thirty (30) days' written notice to the other Party (collectively, the "Termination Date"). As of the Effective Date, this Amendment terminates and supersedes in its entirety a certain "Amendment Superseding Certain Reciprocal Compensation, Interconnection and Trunking Terms" and a certain Implementation Letter both entered into by the Parties on May 1, 2007.

   1.1 The Parties agree that this Amendment will act to supersede, amend and modify the applicable provisions currently contained in the ICA. This

[1] Notwithstanding anything to the contrary in the Agreement (including, as applicable, this Amendment and any other Amendments to the Agreement ("Agreement"), in the event that any other telecommunications carrier should adopt the Parties' ICA and this Amendment pursuant to Section 252(i) of the Act ("Adopting CLEC") after August 1, 2007, it is AT&T's position that such adopting CLEC shall only be entitled to receive the rates, terms and conditions as set forth in this amendment prospectively beginning from the date that the MFN provisions become effective between ILEC and the Adopting CLEC, following the date the applicable public utilities commission approves or is deemed to have approved the Adopting CLEC's Section 252(i) adoption ("Section 252(i) Effective Date"). It is further AT&T's position that an Adopting CLEC is not entitled to the application of the rates, terms and conditions under its MFN Provisions to a date prior to its Section 252(i) Effective Date.

Amendment shall also be incorporated into and become a part of, by exhibit, attachment or otherwise, any future interconnection agreement between the Parties through the Termination Date whether negotiated, arbitrated, or arrived at through the exercise of Section 252(i) "Most Favored Nation" ("MFN") rights. Any inconsistencies between the provisions of this Amendment and other provisions of the current ICA or future interconnection agreements described above, through the Termination Date, will be governed by the provisions of this Amendment, unless this Amendment is specifically and expressly superseded by a future amendment between the Parties. However, if the underlying ICA or interconnection agreement expires sooner than the Termination Date, the Parties agree that the Amendment shall not extend or otherwise alter the term and termination rights of the underlying ICA or interconnection agreement, but instead, the Amendment will be incorporated into any successor interconnection agreement between the Parties through the Termination Date.

2. Except as provided in Section 3 below, during the term of this Amendment period, August 1, 2007 through the Termination Date, the Parties agree that neither of the Parties will seek, directly or indirectly, to obtain alternate terms and conditions to those stated in this Amendment. If, during the term of this Amendment, CLEC adopts another agreement pursuant to Section 252(i), it must amend the adopted interconnection agreement with this Amendment. Such Amendment shall be filed with the state Commission at the same time that the MFN agreement is filed so that this Amendment will apply uninterrupted from August 1, 2007 through the Termination Date. If the ILECs have voluntarily entered into an interconnection agreement which is applicable to the thirteen-state region as a whole, CLEC or its Affiliate(s) may exercise its rights under section 252(i) of the Act to obtain the rates, terms, and conditions of such agreement in its entirety provided that the agreement is otherwise available for adoption. This waiver includes, but is not limited to, any material sale of CLEC's assets, in which case CLEC shall obtain the purchaser's consent to be bound by the reciprocal compensation terms and conditions set forth herein.

3. Notwithstanding the provisions of Sections 2 or 18 or anything else herein, during the period from August 1, 2007 through the Termination Date, the Parties waive any rights they may have under the Intervening/Change of Law provisions, of the Parties' ICAs in effect during the term of this Amendment with respect to any intercarrier compensation, POIs or trunking requirements that are subject to this Amendment; provided, however, that if an FCC order related to intercarrier compensation becomes effective after the Effective Date of this Amendment, including, without limitation, orders issued in CC Docket 96-98, the FCC's rulemaking in *In the Matter of Developing a Unified Intercarrier Compensation Regime*, CC Docket 0192, established in Notice of Proposed Rulemaking Order No. 01-132 (April 27, 2001) and/or *In the Matter of IP Enabled Services,* WC Docket 04-36 ("FCC Order"), the affected provisions of this Amendment relating

to reciprocal compensation, Total Compensable Traffic (as defined herein), POIs or trunking requirements shall be invalidated, modified, or stayed, consistent with such FCC Order, with such invalidation, modification, or stay becoming effective only upon the date of the written request of either Party once the FCC Order has become effective (the "Written Request"). In such event, upon receipt of the Written Request, the Parties shall expend diligent efforts to arrive at an agreement regarding the appropriate conforming modifications to the ICAs, future interconnection agreement(s) and Amendment (including any separate amendments to such agreements). If negotiations fail, disputes between the Parties concerning the interpretation of the actions required or provisions affected by such FCC Order shall be resolved pursuant to the dispute resolution process provided for in the ICAs or future interconnection agreement(s), provided, however, that the rates, terms and conditions ultimately ordered by a state commission in the complaint proceeding or negotiated by the Parties during the dispute resolution process shall be retroactive to the effective date of the Written Request following such FCC Order. Except as set forth in this Section 3 with respect to reciprocal compensation, Total Compensable Traffic (as defined herein), POIs and trunking requirements provisions, during the time period from Effective Date through and including the Termination Date, each Party shall have full intervening law rights under this Amendment (as set forth in Section 17.5 below) and any intervening law rights in the underlying Agreement, and may invoke such intervening law/change in law rights as to any provisions in the ICA or future interconnections agreement(s) (including any separate amendments) impacted by any regulatory, legislative or judicial action as well as the intervening law rights relating to an FCC Order set forth in this Section 3.

4. **POI Requirements**

4.1 In order to qualify for receipt of compensation for Virtual FX traffic as defined in Section 14.4.1 of this Amendment at the rates provided in the Rate Schedule, attached hereto and made a part hereof as Exhibit B, CLEC must achieve and maintain the minimum points of interconnection and trunk engineering guidelines set forth in Sections 4 through 6 of this Amendment.

4.2 Compliance with the provisions of this Amendment shall be on a local calling area by local calling area basis, which means that CLEC's eligibility to receive reciprocal compensation for Virtual FX traffic as defined in Section 14.4.1 of this Amendment shall not be restricted except for the particular local calling area for the same period during which it is not in compliance with Sections 4 through 6 of this Amendment.

4.3 CLEC will exert commercially reasonable efforts in each ILEC state to establish a physical POI in each mandatory local calling area in which it has listed telephone numbers (NPA/NXXs) in the Local Exchange Routing

Guide (LERG) or from where CLEC ports telephone numbers listed in the LERG by other local exchange carriers (including ILEC companies).

4.3.1 In California, Nevada, Connecticut, Michigan, Ohio, Indiana, Illinois and Wisconsin, the Parties agree that Section 4 is satisfied, as to all sub-tending end offices and rate centers in which CLEC has established a dialable telephone number local to the rate center or ports any number established by other local exchange carriers (including ILEC companies), if a physical POI is established at the appropriate local or access tandem serving, or at any mutually agreed end office within the rate center.

4.3.2 In Arkansas, Missouri, Kansas, Oklahoma and Texas, the Parties agree that Section 4 is satisfied, as to all sub-tending end offices and rate centers where CLEC has established a dialable telephone number local to the rate center or ports any number established by other local exchange carriers (including ILEC companies), if a physical POI is established at the appropriate tandem, if applicable, or any mutually agreed end office within the local exchange area.

4.4 When establishing a POI required under Section 4 of this Amendment, the Parties agree:

4.4.1 CLEC may utilize existing interconnection arrangements at existing POIs, including the mid-span fiber meet architecture in service or being currently jointly planned; or

4.4.2 CLEC may utilize its collocation facilities in end offices or local tandems within the local calling area or tandem serving area, including, but not limited to fiber cable handoffs. Where CLEC has spare fiber cable in an existing collocation space, CLEC may establish interconnection by terminating such fiber cable to an ILEC fiber optic terminal (FOT). This fiber cable handoff from CLEC's collocation facility to an ILEC FOT shall be in accordance with the applicable collocation provisions in the ICA, interconnection agreement or state tariff. If there are no provisions in the ICA, interconnection agreement or state tariff, then the fiber cable hand-off will be as mutually agreed upon by the Parties; or

4.4.3 CLEC may utilize new, mutually agreed upon, mid-span fiber meets, where CLEC will connect to the ILEC FOT by providing fiber cable at the last entrance (or agreed upon) manhole outside of the tandem, or at the last entrance (or agreed upon) manhole outside of an end office in the rate center where the Parties agree to interconnection at an end office; or

4.4.4 CLEC may utilize its existing facilities or the existing facilities of CLEC's interexchange carrier affiliate(s) (IXC), at the AT&T serving wire center locations where CLEC or its IXC have a facilities presence for switched and/or dedicated access traffic; or

4.4.5 CLEC may purchase Special Access or switched dedicated access transport facilities and services from ILEC as provided for in Section 4.8; or

4.4.6 CLEC may utilize the transport facilities from a third party; or

4.4.7 CLEC may utilize any other arrangement that the Parties may agree meets the requirements of Section 4.

4.5 The Parties acknowledge that CLEC is currently operating under multiple ICAs in certain states in the AT&T-13-state region. Therefore, when establishing a POI required by Section 4, ILEC will allow CLEC to establish local interconnection trunk groups to transport 251(b)(5) Traffic, ISP-bound Traffic and/or intraLATA traffic utilizing any of CLEC's facilities; provided, however, that CLEC must utilize a separate trunk group on the facility for traffic exchanged under each separate ICA in a state and may not combine traffic from more than one ICA on any trunk group. If CLEC has multiple switches in a LATA operating under a single ICA, CLEC may establish local interconnection trunk groups to transport local and/or intraLATA traffic utilizing the facilities of any CLEC's multiple switches in a LATA; provided, however, that traffic from each CLEC switch will be routed over a separate trunk group on the facility. ILEC will also allow CLEC to establish local interconnection trunk groups to transport local and/or intraLATA traffic utilizing the access facilities of CLEC's IXC affiliate(s); provided, however, that CLEC must utilize a separate trunk group on the facility for traffic exchanged under each separate ICA in a state and may not combine traffic from more than one ICA on any trunk group. CLEC may not combine local interconnection and inter-exchange access traffic over the same trunk group.

4.6 Where CLEC and ILEC have an existing interconnection architecture that meets the POI requirements described above, this existing interconnection architecture cannot be changed (including without limitation the elimination or decommissioning of a POI) without the mutual agreement of both Parties. However, subject to Sections 4.2 and 4.3 above, the Parties agree that CLEC may decommission a POI in the event that traffic exchanged through that POI is less than a T1 for three consecutive months, provided, however, CLEC must maintain a POI in each LATA in which it has listed telephone numbers (NPA/NXXs) in the Local Exchange Routing Guide (LERG) or from where CLEC ports telephone numbers listed in the LERG by other local exchange carriers (including ILEC

companies). CLEC must provide ILEC thirty (30) days prior written notice before decommissioning any POI.

4.7 When a new POI is established under Section 4, ILEC shall be responsible for the provisioning of facilities on its side of the POI and CLEC shall be responsible for the provisioning of facilities from its side of the POI back to the CLEC facilities and network.

4.8 When CLEC establishes a POI by purchasing Special Access facilities and services or switched dedicated access transport facilities and services from ILEC, these facilities shall be considered available for local interconnection trunks; provided, however, that CLEC shall be responsible for the ordering and cost. CLEC may purchase these facilities and services out of the ILEC's intrastate access tariffs or interstate access tariffs, access contracts or other access pricing plans as authorized by the FCC. Except as provided in Section 4.8.1 below, CLEC will submit orders to the applicable ILEC Access Service Center (ASC) and the orders will be governed by the ordering and provisioning terms of the applicable FCC Access tariff.

4.8.1 Where CLEC establishes a new POI by purchasing Special Access facilities from ILEC, the Parties agree that where facilities exist between the new POI to be established and an existing CLEC POI, the new POI may be established as a "Billing POI" by utilizing existing facilities without physically moving trunks onto a newly established dedicated facility. When establishing such a "Billing POI", the CLEC will issue an order to the applicable ILEC ASC for its use of bandwidth on the existing facility, if the facilities were to be installed. In this manner, the Parties agree that new facilities need not be physically established and any ordering and installation and engineering charges shall not apply.

4.8.2 The Parties reserve their rights to challenge in any manner the rates, terms and conditions upon which the dedicated services or facilities referred to in this Section 4.8 are provided by ILEC, including but not limited to challenges pursuant to the dispute resolution provisions of the applicable ICA or interconnection agreement, regardless of the time limits contained therein.

5. During the term of this Amendment, CLEC may order and ILEC will provide, where facilities are available, sufficient dedicated services or facilities as referenced in Section 4.8 to the nearest existing CLEC POI in the Local Access and Transport Area (LATA). ILEC will choose the most efficient facility route to deliver these dedicated services or facilities to the CLEC POI. These dedicated services and facilities will be provided for the purpose of establishing trunking consistent with the traffic engineering guidelines contained in the existing ICA or

interconnection agreement. Trunking services or facilities will be established prior to exchanging live traffic and the Parties agree to abide by the trunk engineering/administration guidelines as stated in the ICA or interconnection agreement.

6. When interconnecting at ILEC's digital End Offices, the Parties have a preference for use of B8ZS ESF two-way trunks for all traffic between their networks. Where available, such trunk equipment will be used for these Local Interconnection Trunk Groups. Where AMI trunks are used, either Party may request upgrade to B8ZS ESF when such equipment is available.

7. The Parties shall establish direct End Office primary high usage Local Interconnection trunk groups when end office traffic (actual or forecasted) requires twenty-four (24) or more trunks for the exchange of IntraLATA Toll and Local traffic. These trunk groups will be two-way and will utilize Signaling System 7 ("SS7") signaling or MF protocol where required.

   7.1 The Parties will exert commercially reasonable efforts to achieve and maintain a network architecture within a tandem serving area such that the DEOT does not fall below 70% of the total number of trunks the CLEC has in service in the tandem serving areas for two consecutive months. To determine the 70% threshold, the total number of DEOTs will be divided by the total number of trunks CLEC has in use in the tandem serving area that CLEC has interconnection into. ILEC will be responsible for the provisioning of the DEOTs to the POI and CLEC shall be responsible for making facility assignments at the POI for the DEOTs to be connected to CLEC's transport facilities from the POI back to CLEC's network. If, upon request by ILEC, CLEC does not make the appropriate facility assignments which causes the DEOT to fall below 70% of the total number of trunks the CLEC has in service in the tandem serving areas, ILEC shall be entitled to withhold reciprocal compensation from the particular local calling area. Where the traffic in the tandem serving area does not exceed 144 trunks to justify DEOT at the 70% level, this paragraph shall not apply in such tandem serving area. Where the traffic does exceed 144 trunks to justify DEOT at the 70% level, this paragraph applies to all trunks in that tandem serving area.

8. Under no circumstances will CLEC be penalized for non-compliance with the POI and DEOT requirements if such non-compliance results from ILEC's failure to perform required network administration activities (including provisioning, activation, and translations).

9. The Parties recognize that embedded one-way trunks exist for Local/IntraLATA toll traffic via end point meet facilities. The Parties agree the existing architecture may remain in place and be augmented for growth as needed. The Parties may subsequently agree to negotiate a transition plan to migrate the embedded one-

way trunks to two-way trunks via a mid-span fiber meet architecture as described in Appendix NIM or Network of the applicable ICA or interconnection agreement or, the AT&T-13 STATE Generic Agreement if an Appendix NIM or Network, or a similarly named network appendix, is not contained in said ICA or interconnection agreement. The Parties will coordinate any such migration, trunk group prioritization, and implementation schedule. ILEC agrees to develop a cutover plan and project manage the cutovers with CLEC participation and agreement.

10. When establishing a new POI in an Existing Local Calling Area, CLEC will notify its ILEC Account Manager of its intention to establish a new POI in an existing local calling area 90 days prior to the end of the six month transition period by letter to the ILEC Account Manager for CLEC. This 90 day notice is intended to give both Parties adequate time to plan, issue orders, and implement the orders in the 6 month transition period.

11. When establishing a POI in a New Local Calling Area, CLEC will notify its ILEC Account Manager 90 days prior to the LERG effective date for the new NPA-NXXs it wishes to activate. Joint planning meetings for the new POI will be held within 10 days of ILEC's receipt of such notification. The outcome of the joint planning meeting will be orders for facilities and trunks for the new POI.

12. Upon expiration of this Amendment, CLEC and ILEC agree to evaluate whether to add or eliminate POIs to create an effective post-Amendment architecture. Both Parties will cooperate in adding or eliminating POIs so long as they are consistent with the then effective ICA or interconnection agreement concerning interconnection between the Parties.

13. **Classifications of Traffic**

13.1 Definitions.

"Section 251(b)(5) Traffic" shall mean the traffic that is lawfully compensable under Section 251(b)(5) of the Act as of the Effective Date of this Amendment. For purposes of this Amendment Section 251(b)(5) Traffic shall include mandatory extended area service calls and metropolitan calling area calls (as approved by the applicable Commission as of the Effective Date).

"ISP-Bound Traffic" shall mean any ISP traffic that, as of the Effective Date of this Amendment, is lawfully compensable under the FCC's Order on Remand Report and Order, In the Matter of Implementation of the Local Compensation Provisions in the Telecommunications Act of 1996, Intercarrier Compensation for ISP-Bound Traffic, FCC 01-131, CC Docket Nos. 96-98, 99-68 (released April 27, 2001) ("ISP Remand Order") and the subsequent FCC CoreCom order, FCC 04-241,WC Docket No. 03-171 (released October 18, 2004) granting forbearance from enforcing certain provisions of the ISP Remand Order related to growth caps and the new markets rule.

"Total Compensable Traffic" shall mean the combination of Section 251(b)(5) and ISP-Bound Traffic exchanged by the Parties pursuant to the ICA and the combination of Section 251(b)(5) and ISP-Bound Traffic that originates from or terminates to a CLEC end user which is provided local telephone service (dialtone) via ILEC end office switching provided to CLEC by ILEC on a non-resale, wholesale basis pursuant to the Local Wholesale Complete ("LWC") agreement between the Parties (effective March 11, 2005) and the 271 Local Switching agreement between the Parties (except for AT&T Connecticut) (effective March 11, 2005) or any successor agreements to the Local Wholesale Complete and 271 Local Switching agreements that may be entered into by the Parties prior to the Termination Date.

"Intercarrier Traffic" includes Section 251(b)(5) Traffic, ISP-Bound Traffic, transited traffic, intraLATA toll, mandatory EAS, optional Extended Area Service (EAS) and Metropolitan Calling Area (MCA) traffic exchanged by the Parties pursuant to the ICAs and both the Local Wholesale Complete agreement between the Parties (effective March 11, 2005) and the 271 Local Switching agreement between the Parties (except for AT&T Connecticut) (effective March 11, 2005) or any successor agreements to the Local Wholesale Complete and 271 Local Switching agreements that may be entered into by the Parties prior to the Termination Date. The terms "transited traffic," "intraLATA toll," "mandatory EAS" "optional EAS traffic" and "Metropolitan Calling Area" will have the meaning ascribed to them in the underlying ICAs and future interconnection agreements. InterLATA toll and IXC carried intraLATA toll are subject to Meet Point Billing as outlined in the ICA or interconnection agreement and applicable tariffs.

14. Compensation

14.1 The Parties shall compensate each other for all Total Compensable Traffic in accordance with the terms of this Section 14.

14.2 Intentionally Omitted.

14.3 CLEC-Originated Traffic. ILEC shall bill CLEC, for all CLEC-originated Total Compensable Traffic at the state-specific rates set forth in Exhibit A of this Amendment.

14.4 ILEC-Originated Traffic. CLEC shall bill ILEC for all ILEC-originated Total Compensable Traffic at the state-specific rates set forth in Exhibit B of this Amendment. The Parties agree that the Exhibit B rates were calculated based on a CLEC-specific traffic study conducted by ILEC to determine the proportion of ISP-Bound Traffic and 251(b)(5) Traffic originated by ILEC and terminated by CLEC.[2]

[2] In the event that any telecommunications carrier should adopt this ICA, which includes this Amendment, pursuant to Section 252(i) of the Act ("Adopting CLEC"), it is ILEC's position that the Adopting CLEC shall bill ILEC for all ILEC-originated Section 251(b)(5)

14.4.1 If CLEC designates different points for rating and routing such that traffic that originates in one rate center is carried by ILEC to a routing point designated by CLEC in a rate center that is not local to the calling party even though the called NXX is local to the calling party, such traffic, referred to as Virtual Foreign Exchange (Virtual FX) traffic, shall be rated in reference to the rate centers associated with the NXX prefixes of the calling and called parties' numbers, and treated as Total Compensable Traffic for purposes of compensation provided however, that such end users must both be located within the same LATA.

14.5 Intrastate Access Rates. For intrastate intraLATA toll traffic, exchanged pursuant to the ICAs, and both the Local Wholesale Complete agreement between the Parties (effective March 11, 2005) and the 271 Local Switching agreement between the Parties (except for AT&T Connecticut) (effective March 11, 2005) or any successor agreements to the Local Wholesale Complete and 271 Local Switching agreements that may be entered into by the Parties prior to the Termination Date compensation for termination of intercompany traffic will be at terminating access rates for Message Telephone Service (MTS) and originating access rates for 800 Service, including the Carrier Common Line (CCL) charge where applicable, as set forth in each Party's Intrastate Access Service Tariff, but such compensation shall not exceed the compensation contained in an ILEC's tariff in whose exchange area the End User is located. For interstate intraLATA intercompany service traffic, compensation for termination of intercompany traffic will be at terminating access rates for MTS and originating access rates for 800 Service including the CCL charge, as set forth in each Party's interstate Access Service Tariff, but such compensation shall not exceed the compensation contained in the ILEC's tariff in whose exchange area the End User is located.

Traffic at the state specific rates in Exhibit A, and for ISP-Bound Traffic at the ISP rate of $.0007 unless and until ILEC conducts a traffic study to determine the percentage of ILEC originated ISP Bound/251(b)(5) Traffic transported and terminated by Adopting CLEC and the ILEC and Adopting CLEC reach agreement on single state-specific rates and amend this Amendment in accordance with procedures set forth in Section 14.7 and Exhibit C. It is ILEC's position that for ISP-Bound Traffic ILEC and Adopting C LEC will use the FCC's rebuttable presumption as described in the underlying ICA. If the underlying ICA does not have rebuttable presumption language, it is ILEC's position that the following language shall apply to Adopting CLEC: (a) The parties agree that the FCC established a rebuttable presumption that all minutes of use exceeding a 3:1 Terminating to Originating Ratio are ISP-bound Traffic subject to the compensation. Specifically, all 251(b)(5) Traffic (which includes traffic exchanged where Adopting CLEC is using end office switching provided to Adopting CLEC by ILEC on a non-resale, wholesale basis pursuant to a Local Wholesale Complete agreement) and ISP-bound Traffic that is terminated by one party for the other party pursuant to the ICA between ILEC and Adopting CLEC within any month in excess of an amount (measured by total minutes of use) that is three times the traffic that is terminated by the other party pursuant to the ICA between ILEC and Adopting CLEC within that month shall be presumed to be ISP-bound Traffic. (b) Both ILEC and Adopting CLEC have the right to rebut the 3:1 ISP presumption and determine actual ISP-bound traffic by any means mutually agreed by the parties, or by any method approved by the applicable regulatory agency, including the Commission. If a party seeking to rebut the presumption and the Commission approves such rebuttal, then that rebuttal shall be applied on a prospective basis as of the date of the Commission approval. For avoidance of doubt, ILEC and CLEC agree that this Footnote 2 has no force or effect between ILEC and CLEC and is intended by ILEC to apply only to Adopting CLECs.

14.6 Intercarrier Traffic. The Parties agree that the rates, terms and conditions for Intercarrier Traffic other than Total Compensable Traffic are as set forth in the applicable ICA, agreements, and/or tariff.

14.7 Notwithstanding anything to the contrary in this Amendment, either Party may, after this Amendment has been in effect for six (6) months, request that the Parties conduct traffic studies to determine the proportions of ISP-Bound Traffic and Section 251(b)(5) Traffic terminated by each Party. Upon such request, the Parties shall conduct and exchange traffic studies in accordance with the methodology set forth in Exhibit C of this Amendment. Upon completion of such studies, the Parties shall execute an amendment to this Amendment to reflect their agreement to use the resulting proportions of ISP-Bound Traffic and Section 251(b)(5) Traffic from the new studies (and the corresponding state-specific single rates) to compensate each other prospectively for Total Compensable Traffic for the remainder of the term of this Amendment. If the Parties cannot agree upon the appropriate proportion of ISP-Bound Traffic and Section 251(b)(5) Traffic, either Party may take appropriate action at the state Commission pursuant to section 252 of the Act to seek appropriate compensation on ISP-Bound Traffic and Section 251(b)(5) Traffic. If a Party takes such action at the applicable state Commission, the Parties agree to use such proportion and/or methodology approved by the state Commission as of the date of the Commission approval and, in addition, the Commission-ordered proportion/methodology shall be utilized to determine the true-up as described below. During the pendency of any such proceedings to alter the proportion of ISP-Bound Traffic and Section 251(b)(5) Traffic, CLEC and ILEC will remain obligated to pay based on the current proportion of ISP-Bound Traffic and Section 251(b)(5) Traffic, subject to a true-up. Upon conclusion of a state Commission proceeding to determine the appropriate proportion/methodology, the Parties shall use the results of the state Commission proceeding and true-up of any amounts paid on ISP-Bound Traffic and Section 251(b)(5) Traffic retroactive back to the date a Party first sought appropriate relief from the Commission to reflect the revised proportion of ISP-Bound Traffic and Section 251(b)(5) Traffic as ordered by the state Commission.

15. Intentionally Omitted.

16. Intentionally Omitted.

17. Intentionally Omitted.

18. Reservation of Rights

18.1 Intentionally Omitted.

18.2 The Parties continue to disagree as to whether ISP calls are subject to reciprocal compensation obligations under their ICAs and interconnection agreements and Section 251(b)(5) of the Act. By entering into this Amendment neither Party waives its right to advocate its view with respect to these issues, however neither Party will attempt in any way to overturn the provisions of this Amendment during its term. Similarly, the Parties agree that nothing in this Amendment shall be construed as an admission that ISP traffic is, or is not, subject to reciprocal compensation obligations under their ICAs and interconnection agreements or Section 251(b)(5). Therefore, ILEC payments to CLEC under the Agreement shall not be construed as agreement by ILEC that calls to ISPs constitute local traffic subject to reciprocal compensation obligations, provided, however, notwithstanding anything to the contrary, the Parties agree that for purposes of this Amendment compensation is payable as set forth in this Amendment.

18.3 The Parties continue to disagree as whether CLEC is required to establish a physical POI in each local calling area. By entering into this Amendment, neither Party waives its right to advocate its view with respect to this issue. Similarly, the Parties agree that nothing in this Amendment shall be construed as an admission that CLEC must or must not establish a POI in each local calling area. Therefore, CLEC's establishment of a physical POI in each local calling area under the Amendment shall not be construed as agreement by CLEC that physical POIs are required to be established in each local calling area, provided, however, notwithstanding anything to the contrary, the Parties agree that for purposes of this Amendment physical POIs will be established as set forth in this Amendment.

18.4 Except as specifically modified by this Amendment with respect to their mutual obligations herein, neither Party relinquishes, and each Party instead fully reserves, any and all legal rights that it had, has and may have to assert any position with respect to any of the matters set forth herein before any state or federal administrative, legislative, judicial or other legal body.

18.5 In entering into this Amendment and carrying out the provisions herein, neither Party waives, but instead expressly reserves, all of its rights, remedies and arguments with respect to any orders, decisions, legislation or proceedings and any remands thereof and any other federal or state regulatory, legislative or judicial action(s), including, without limitation, its intervening law rights (including intervening law rights asserted by either Party via written notice predating this Amendment) relating to the following actions, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further government review: *Verizon v. FCC, et. al*, 535 U.S. 467 (2002); *USTA v. FCC*, 290 F.3d 415

(D.C. Cir. 2002) and following remand and appeal, *USTA v. FCC*, 359 F.3d 554 (D.C. Cir. 2004); the FCC's Triennial Review Order, CC Docket Nos. 01-338, 96-98, and 98-147 (FCC 03-36), and the FCC's Biennial Review Proceeding; the FCC's Supplemental Order Clarification (FCC 00-183) (rel. June 2, 2000), in CC Docket 96-98; and the FCC's Order on Remand and Report and Order in CC Dockets No. 96-98 and 99-68, 16 FCC Rcd 9151 (2001), (rel. April 27, 2001) ("ISP Compensation Order"), which was remanded in *WorldCom, Inc. v. FCC*, 288 F.3d 429 (D.C. Cir. 2002), and as to the FCC's Notice of Proposed Rulemaking as to Intercarrier Compensation, CC Docket 01-92 (Order No. 01-132) (rel. April 27, 2001) (collectively "Government Actions").

19. **Additional Terms and Conditions**

19.1 This Amendment contains provisions that have been negotiated as part of an entire amendment and integrated with each other in such a manner that each provision is material to every other provision. The Parties stipulate that they would not have mutually agreed to this entire Amendment if a third party carrier could later opt into this Amendment under section 252 (i) of the Act and enjoy higher rates than are in effect at that point in the rate schedule. By entering into this Amendment, ILEC neither agrees that is obligated to permit, nor waives its rights to contend that it is not obligated to permit, its tandem switching and common transport facilities to be used without compensation for the carriage of Virtual FX traffic.

19.2 The Parties agree that each and every rate, term and condition of this Amendment is legitimately related to, and conditioned on, and in consideration for, every other rate, term and condition in the underlying ICA or interconnection agreement. The Parties agree that they would not have agreed to this Amendment except for the fact that it was entered into on a 13-State basis and included the totality of rates, terms and conditions listed herein.

19.3 This Amendment is the joint work product of the Parties and has been negotiated by the Parties and their respective counsel and shall be fairly interpreted in accordance with its terms and, in the event of any ambiguities, no inferences shall be drawn against either Party.

19.4 The terms contained in this Amendment and its Exhibits A, B and C constitute the entire agreement with regard to the modification and amendment of the ICAs and incorporation into future interconnection agreements through the Termination Date, and shall be interpreted solely in accordance with its own terms.

19.5 The headings of the Sections of this Amendment are strictly for convenience and shall not in any way be construed to define, modify or restrict the meaning or interpretation of the terms, provisions or conditions of this Amendment.

19.6 This Amendment may be executed in any number of counterparts, each of which shall be deemed an original; but such counterparts shall together constitute one and the same instrument.

19.7 This Amendment shall be filed by the Parties with the PUCs in each state listed in the introductory paragraph above. Neither Party may seek a stay of the PUCs' approval of this Amendment or in any way seek to delay, postpone or interfere with the PUCs' approval of this Amendment.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed on the dates shown below by their respective duly authorized representatives and hereby agree that this Amendment shall be effective between the Parties on August 1, 2007 (the Effective Date).

MCImetro Access Transmission Services LLC	AT&T Operations, Inc. as authorized agent for Southwestern Bell Telephone Company d/b/a AT&T Oklahoma, AT&T Missouri, AT&T Kansas, AT&T Arkansas and AT&T Texas, The Southern New England Telephone Company d/b/a AT&T Connecticut, Nevada Bell Telephone Company d/b/a AT&T Nevada, Pacific Bell Telephone Company d/b/a AT&T California, Illinois Bell Telephone Company d/b/a AT&T Illinois, Indiana Bell Telephone Company Incorporated d/b/a AT&T Indiana, Michigan Bell Telephone Company d/b/a AT&T Michigan, The Ohio Bell Telephone Company d/b/a AT&T Ohio and Wisconsin Bell, Inc. d/b/a AT&T Wisconsin.

[3] The Parties agree that in accordance with Missouri Public Service Commission Case No. TO-92-306, the intercompany compensation for MCA traffic shall be bill and keep. Therefore, the Parties agree that ILEC shall not bill CLEC for any CLEC originated MCA traffic.

EXHIBIT B

State	Rate [4]
Arkansas	$0.000881
California	
Set Up	$0.000229
Duration	$0.000877
Connecticut	$0.001186
Illinois	$0.001188
Indiana	$0.001196
Kansas	$0.000880
Michigan	
Set Up	$0.000104
Duration	$0.000693
Missouri (70% MCA)[5]	$0.000282
Nevada	
Set Up	$0.000547
Duration	$0.001031
Ohio	$ 0.001142
Oklahoma	$ 0.001037
Texas	
Set Up	$0.000152
Duration	$0.000748
Wisconsin	$0.001242

[4] The Parties agree that the Exhibit B rates are based on the following:

- Eighty-six percent (86%) ISP-Bound traffic and fourteen percent (14%) 251 (b)(5) Traffic.
- A rate of $0.0007 was used for ISP-Bound Traffic and the state-specific rates set forth in Exhibit A were used for 251(b)(5) Traffic (70% at the state-specific end office rate and 30% at the state-specific tandem rates).
- Where zone measurement is applicable, the Zone 2 rates set forth in Exhibit A were used.
- Where a common transport mileage charge is applicable, a common transport mileage charge of 15 miles was used.

[5] The Parties agree that in accordance with Missouri Public Service Commission Case No. TO-92-306, the intercompany compensation for MCA traffic shall be bill and keep. Therefore, the rate contained in the matrix reflects, based on a traffic study exchanged by the Parties, that 70% of the traffic sent by ILEC to CLEC was MCA traffic and subject to bill and keep.

EXHIBIT C

TRAFFIC STUDY METHODOLOGY

1. Each Party shall conduct a study of its originating traffic terminated to the other Party's end users in order to identify the amount of ISP-Bound Traffic and Section 251(b)(5) Traffic.

2. The study shall cover a one-month period to be agreed upon by the Parties.

3. The studies shall cover each of the 13 states in the legacy SBC operating territory. The Parties shall compile the data on a state-by-state basis and shall exchange data when study for any given state is complete.

4a. CLEC shall use: (i) originating switch recordings for CLEC's originating facilities-based traffic and (ii) EMI Category 10 local originating records for CLEC's traffic originated from CLEC's Local Wholesale Complete end users.

4b. ILEC shall use its originating switch records.

5. To identify ISP-Bound Traffic, the Parties shall use the following criteria: (i) called telephone numbers with average "hold times" of 20 or more minutes (determined by adding minutes/seconds/tenths-of-seconds for all calls to a particular number and dividing by total number of calls to that number and rounding up to the nearest full minute); and (ii) individual telephone numbers must be called a minimum of 200 times during the study period (calls need not originate from the same number).

6. Calls not meeting the criteria set forth in Section 5 shall be presumed to be Section 251(b)(5) Traffic.

7. For those calls that do meet the criteria in Section 5, each Party shall further validate that the calls are ISP-bound by dialing the numbers individually to determine if answered by an ISP modem. Calls that do not reach an ISP modem shall be presumed to be Section 251(b)(5) Traffic.

8. Intentionally Omitted.

9. In providing the results of its study to other Party, each Party shall provide the following detail:

- State
- Traffic Month reported on
- Total Terminating Minutes for study period
- Total Number of Terminating Minutes and Calls meeting criteria for being classified as ISP-Bound Traffic for study period
- Calling and Called Telephone Numbers for calls classified as ISP-Bound Traffic

10. If either Party desires to rebut the results of the other Party's study, it shall provide its own analysis and the Parties shall reconcile any differences in the studies.

FURTHER AMENDMENT TO AMENDMENT SUPERSEDING CERTAIN RECIPROCAL COMPENSATION, INTERCONNECTION AND TRUNKING TERMS BETWEEN ILLINOIS BELL TELEPHONE COMPANY D/B/A AT&T ILLINOIS, INDIANA BELL TELEPHONE COMPANY INCORPORATED D/B/A AT&T INDIANA, MICHIGAN BELL TELEPHONE COMPANY D/B/A AT&T MICHIGAN, THE OHIO BELL TELEPHONE COMPANY D/B/A AT&T OHIO, WISCONSIN BELL, INC. The Amendment Superseding Certain Reciprocal Compensation Interconnection and Trunking Terms effective August 1, 2007 by and between Illinois Bell Telephone Company d/b/a AT&T Illinois, Indiana Bell Telephone Company Incorporated d/b/a AT&T Indiana, Michigan Bell Telephone Company d/b/a AT&T Michigan, The Ohio Bell Telephone Company d/b/a AT&T Ohio, Wisconsin Bell, Inc. d/b/a AT&T Wisconsin, Nevada Bell Telephone Company d/b/a AT&T Nevada and AT&T Wholesale, Pacific Bell Telephone Company d/b/a AT&T California, The Southern New England Telephone Company d/b/a AT&T Connecticut and Southwestern Bell Telephone Company d/b/a AT&T Arkansas, AT&T Kansas, AT&T Missouri, AT&T Oklahoma and AT&T Texas ("AT&T") and MCImetro Access Transmission Services LLC ("MCIm") (including those Agreements held by MCIm as successor in interest to Brooks Fiber Communications of Arkansas, Inc., Brooks Fiber Communications of Bakersfield, Inc., Brooks Fiber Communications of Connecticut, Inc., Brooks Fiber Communications of Fresno, Inc., Brooks Fiber Communications of Michigan, Inc., Brooks Fiber Communications of Missouri, Inc., Brooks Fiber Communications of Nevada, Inc., Brooks Fiber Communications of Ohio, Inc., Brooks Fiber Communications of Oklahoma, Inc., Brooks Fiber Communications of Sacramento, Inc., Brooks Fiber Communications of San Jose, Inc., Brooks Fiber Communications of Stockton, Inc., Brooks Fiber Communications of Texas, Inc., Brooks Fiber Communications of Tulsa, Inc.; MCI WORLDCOM Communications, Inc., f/k/a MFS Communications Company, Inc. or MFS Intelenet of Connecticut, Inc. or WorldCom Technologies, Inc. or MCI WorldCom Technologies, Inc., Intermedia Communications LLC) (such Amendment, the "Original Amendment") is hereby amended as follows:

1. Notwithstanding anything to the contrary in Section 1 of the Amendment Superseding Certain Reciprocal Compensation Interconnection and Trunking Terms, the term of the Original Amendment will be extended and shall remain in effect through July 31, 2011. Thereafter, the Original Amendment will remain in full force and effect unless terminated in accordance with the terms thereof.
2. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT (INCLUDING ANY AMENDMENTS THERETO) SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
3. This Amendment shall be filed with and is subject to approval by the applicable state Commissions.

Date: 1-26-10

AMENDMENT TO INTERCONNECTION AGREEMENT UNDER SECTIONS 251 AND 252 OF THE TELECOMMUNICATIONS ACT OF 1996 BETWEEN SOUTHWESTERN BELL TELEPHONE COMPANY d/b/a AT&T MISSOURI AND MCIMETRO ACCESS TRANSMISSION SERVICES LLC

The Interconnection Agreement dated August 10, 2005 by and between Southwestern Bell Telephone Company d/b/a AT&T Missouri[1] ("AT&T Missouri") and MCImetro Access Transmission Services LLC ("CLEC") as previously amended as of the date hereof ("Agreement") effective in the State of Missouri is hereby amended as follows:

WHEREAS, the Parties filed for arbitration under Section 251 and 252 of the Act and the Missouri Public Service Commission ("Commission") issued an Arbitration Order dated July 11, 2005 ("July 11, 2005 Arbitration Order");

WHEREAS, the Parties conformed the Agreement to the July 11, 2005 Arbitration Order and the Commission approved the Agreement;

WHEREAS, AT&T MISSOURI filed an action seeking declaratory and injunctive relief claiming that the July 11, 2005 Arbitration Order was, among other things, contrary to federal law;

WHEREAS, AT&T MISSOURI's request for a Preliminary Injunction in Case No. 4:05-cv-01264-CAS was granted on September 1, 2005, enjoining the July 11, 2005 Arbitration Order and related orders approving the Agreement to the extent they required AT&T MISSOURI to fill new orders for unbundled local switching or UNE-P pursuant to the Federal Telecommunications Act of 1996;

WHEREAS, the Eastern Division of the United States District Court for the Eastern District of Missouri, Case Number 4:05-CV-1264 CAS, issued its Memorandum and Order and its Declaratory Judgment and Permanent Injunction on September 14, 2006, granting in part and denying in part the relief sought by AT&T MISSOURI;

WHEREAS, the United States Court of Appeals for the Eighth Circuit, Case Numbers 06-3701, 06-3726 and 06-3727 issued its Order on June 20, 2008, affirming the District Court's judgment;

WHEREAS, the Parties wish to amend the Agreement to reflect the District Court's and Eighth Circuit Court's orders; and

WHEREAS, the Parties wish to amend the Agreement to reflect the Missouri legislation in House Bill 1779 related to the appropriate compensation for voice over internet protocol (VoIP) service effective August 28, 2008.

NOW, THEREFORE, in consideration of the foregoing, and the promises and mutual agreements set forth in the Agreement and in this Amendment, the Agreement is hereby amended:

1. Recitals. The above recitals are hereby incorporated in their entirety into this Amendment.

2. Declassified Switching and UNE-P. In accordance with the Agreement, AT&T MISSOURI has no obligation under this Agreement to provide CLEC with ULS, whether alone, in combination (as with "UNE-P"), or otherwise. As of the Amendment Effective Date, AT&T MISSOURI may disconnect such elements at its sole discretion.

3. Section 271 Elements. AT&T MISSOURI has no obligation under this Agreement to provide CLEC with any Section 271 unbundling and/or Section 271 competitive checklist items (including, without limitation, the following

[1] On December 30, 2001, Southwestern Bell Telephone Company (a Missouri corporation) was merged with and into Southwestern Bell Texas, Inc. (a Texas corporation) and, pursuant to Texas law, was converted to Southwestern Bell Telephone, L.P., a Texas limited partnership. On June 29, 2007, Southwestern Bell Telephone, L.P., a Texas limited partnership, was merged with and into SWBT Inc., a Missouri corporation, with SWBT Inc. as the survivor entity. Simultaneous with the merger, SWBT Inc. changed its name to Southwestern Bell Telephone Company. Southwestern Bell Telephone Company is doing business in Missouri as "AT&T Missouri".

Section 271 elements required to be provided pursuant to the July 11, 2005 Arbitration Order: switching, UNE-P, high capacity loops, dedicated transport, OCn level dedicated transport, OCn level loops, dark fiber loops, dark fiber dedicated transport and feeder subloops)[2], either alone or in combination (whether new, existing, or pre-existing) ("Section 271 Elements") with any other element, service or functionality. CLEC shall be prohibited from submitting any orders for any Section 271 Elements under this Agreement. The parties hereby acknowledge that CLEC is no longer entitled to order any switching and UNE-Platform under Section 251 or 271 of the Act under this Agreement. As of the Amendment Effective Date, AT&T MISSOURI may convert, re-price, or disconnect such elements at its sole discretion.

4. Entrance Facilities.

   4.1 AT&T MISSOURI shall provide CLEC access to Entrance Facilities at TELRIC rates solely for interconnection purposes within the meaning of Section 251(c)(2) of the Act for the transmission and routing of telephone exchange service and exchange access service. Entrance Facilities are transmission facilities that connect CLEC networks with ILEC networks. CLEC is not entitled to Entrance Facilities at TELRIC rates for any other purpose, including, without limitation (i) as unbundled network elements under Section 251(c)(3) of the Act, or (ii) for backhauling (e.g., to provide a final link in the dedicated transmission path between a CLEC's customer and the CLEC's switch, or to carry traffic between its own end users) ("Declassified Entrance Facilities").

   4.2 CLEC shall not submit any orders for Declassified Entrance Facilities. As of the Amendment Effective Date, AT&T MISSOURI may disconnect, convert or reprice such elements at its sole discretion.

5. Pricing Schedules. The Parties agree that the reference to the header "Dedicated Transport Entrance Facilities" in the "M2A Final Price List" is deemed to be replaced with the header "Interconnection Facility (CLEC to AT&T Missouri)" for all Interconnection Facilities.

6. House Bill 1779, Section 392.550. The Parties shall exchange "Interconnected voice over Internet protocol service," as defined in Mo. Rev. Stat. § 386.202(23) ("IS Traffic") subject to the appropriate exchange access charges to the same extent that telecommunications services are subject to such charges in accordance with the Agreement (as amended by this Amendment) and the Parties' applicable tariffs; provided, however, to the extent that as of August 28, 2008, the Agreement contained intercarrier compensation provisions specifically applicable to IS Traffic, those provisions shall remain in effect through December 31, 2009, and the intercarrier compensation arrangement described in this Section shall not become effective until January 1, 2010.

7. Nothing in this Amendment shall affect the general application and effectiveness of the Agreement's "change of law," "intervening law", "successor rates" and/or any similarly purposed provisions. The rights and obligations set forth in this Amendment apply in addition to any other rights and obligations that may be created by such intervening law, change in law or other substantively similar provision.

8. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.

9. The Parties agree that this Amendment will act to supersede, amend and modify the applicable provisions contained in the Agreement. To the extent there are any inconsistencies between the provisions of this Amendment and the Agreement, the provisions in this Amendment shall govern.

10. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.

11. This Amendment shall be filed with and is subject to approval by the Missouri Public Service Commission and shall become effective ten (10) days following approval by such Commission ("Amendment Effective Date").

[2] The Parties disagree as to whether any or all of these elements are § 271 competitive checklist items or required to be offered under §271 of the Act.

AT&T Wholesale Amendment

Contract Number: 18400

FURTHER AMENDMENT TO
AMENDMENT SUPERSEDING CERTAIN RECIPROCAL COMPENSATION, INTERCONNECTION AND TRUNKING TERMS
BETWEEN
SOUTHWESTERN BELL TELEPHONE COMPANY D/B/A AT&T MISSOURI
AND
MCIMETRO ACCESS TRANSMISSION SERVICES LLC

The Amendment Superseding Certain Reciprocal Compensation Interconnection and Trunking Terms effective August 1, 2007 by and between Southwestern Bell Telephone Company d/b/a AT&T MISSOURI ("AT&T") and MCImetro Access Transmission Services LLC ("MCIm") (such Amendment, the "Superseding Amendment") is as applicable to AT&T and MCIm amended as follows:

WHEREAS, AT&T and MCIm entered into an interconnection agreement pursuant to Sections 251 and 252 of the Communications Act of 1934, as amended (the "Act") that was approved by the state Commission and effective on October 30, 2010 (the "ICA"); and

WHEREAS, the Parties have amended, modified and superseded certain compensation, interconnection and trunking provisions of the ICA by the Superseding Amendment and also incorporated the terms of the Superseding Amendment in future interconnection agreements between the Parties through a certain Termination Date; and

WHEREAS, the Parties have extended the Termination Date of the Superseding Amendment in 2009 and thereafter, in 2011; and

WHEREAS, the Parties desire to extend the Termination Date of the Superseding Amendment again.

NOW, THEREFORE, for and in consideration of the premises, mutual promises and covenants contained in this Amendment, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. Notwithstanding anything to the contrary in Section 1 of the Superseding Amendment, the term of the Superseding Amendment will be extended and shall remain in effect through June 30, 2014. Thereafter, the Superseding Amendment will remain in full force and effect unless terminated in accordance with the terms thereof.
2. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT (INCLUDING, BUT NOT LIMITED TO, ANY AMENDMENTS THERETO) SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
3. This Amendment shall be filed with and is subject to approval by the applicable state Commission.

FURTHER AMENDMENT TO

AMENDMENT SUPERSEDING CERTAIN RECIPROCAL COMPENSATION, INTERCONNECTION AND TRUNKING TERMS

BETWEEN

SOUTHWESTERN BELL TELEPHONE COMPANY D/B/A AT&T MISSOURI

AND

MCIMETRO ACCESS TRANSMISSION SERVICES LLC

The Amendment Superseding Certain Reciprocal Compensation Interconnection and Trunking Terms effective August 1, 2007 by and between Southwestern Bell Telephone Company d/b/a AT&T Missouri ("AT&T MISSOURI") and MCImetro Access Transmission Services LLC ("MCIm") (such Amendment, the "Superseding Amendment") is as applicable to AT&T MISSOURI and MCIm amended as follows:

WHEREAS, AT&T MISSOURI and MCIm entered into an interconnection agreement pursuant to Sections 251 and 252 of the Communications Act of 1934, as amended (the "Act") that was approved by the state Commission on October 20, 2010 (the "ICA"); and

WHEREAS, the Parties have amended, modified and superseded certain compensation, interconnection and trunking provisions of the ICA by the Superseding Amendment and also incorporated the terms of the Superseding Amendment in future interconnection agreements between the Parties through a certain Termination Date; and

WHEREAS, the Parties have extended the Termination Date of the Superseding Amendment in 2009 and thereafter, in 2011 and 2013; and

WHEREAS, the Parties desire to extend the Termination Date of the Superseding Amendment again.

NOW, THEREFORE, for and in consideration of the premises, mutual promises and covenants contained in this Amendment, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

1. This Amendment is composed of the foregoing recitals, the terms and conditions, set forth below; all of which are hereby incorporated in this Amendment by this reference and constitute a part of this Amendment.

2. Notwithstanding anything to the contrary in Section 1 of the Superseding Amendment, the term of the Superseding Amendment will be extended and shall remain in effect through June 30, 2015. Thereafter, the Superseding Amendment will remain in full force and effect unless terminated in accordance with the terms thereof.

3. The Parties also agree to replace Sections 19 – 19.5 in their entirety of the General Terms and Conditions from the Agreement with the following language for the State of Missouri:

19 Notice

19.1 Notices given by one Party to the other Party under this Agreement shall be in writing (unless specifically provided otherwise herein), and unless otherwise expressly required by this Agreement to be delivered to another representative or point of contact, shall be pursuant to at least one of the following methods:

19.1.1 delivered personally, delivered by express delivery service or mailed via certified mail or first class U.S. Postal Service, with postage prepaid and a return receipt requested.

19.2 Notices will be deemed given as of the earliest of:

19.2.1 the date of actual receipt;

19.2.2 the next Business Day when sent via express delivery service; or

19.2.3 five (5) calendar days after mailing in the case of first class or certified U.S. Postal

19.3 Notices will be addressed to the Parties as follows:

* Informational only and not to be considered as an official notice vehicle under this Section.

19.4 Either Party may unilaterally change its designated contact name and address for the receipt of Notices by giving written Notice to the other Party in compliance with this Section 19. Unless explicitly stated otherwise, any change to the designated contact name and address will replace such information currently on file. Any Notice to change the designated contact name and address for the receipt of Notices shall be deemed effective ten (10) calendar days following receipt by the other Party.

19.5 AT&T MISSOURI communicates official information to CLECs via its Accessible Letter, or other applicable, notification processes. These processes involve electronic transmission and/or posting to the AT&T CLEC Online website, inclusive of a variety of subjects including declaration of a force majeure, changes on business processes and policies, and other product/service related notices not requiring an amendment to this Agreement.

4. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT (INCLUDING, BUT NOT LIMITED TO, ANY AMENDMENTS THERETO) SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.

5. This Amendment shall be filed with and is subject to approval by the applicable state Commission and shall become effective ten (10) days following approval by such Commission.

AMENDMENT TO THE AGREEMENT BETWEEN MCIMETRO ACCESS TRANSMISSION SERVICES LLC AND SOUTHWESTERN BELL TELEPHONE COMPANY D/B/A AT&T MISSOURI

This Amendment (the "Amendment") amends the Interconnection Agreement by and between Southwestern Bell Telephone Company d/b/a AT&T MISSOURI ("AT&T MISSOURI") and MCImetro Access Transmission Services LLC ("CLEC"). AT&T MISSOURI and CLEC are hereinafter referred to collectively as the "Parties" and individually as a "Party".

WHEREAS, AT&T MISSOURI and CLEC are parties to an Interconnection Agreement under Sections 251 and 252 of the Communications Act of 1934, as amended (the "Act"), approved October 20, 2010 and as subsequently amended (the "Agreement"); and

WHEREAS, pursuant to the Report and Order and Further Notice of Proposed Rulemaking issued by the Federal Communications Commission ("FCC") on November 18, 2011 (FCC 11-161), and as amended by the FCC on December 23, 2011 (FCC 11-189) ("the Order"), the Parties desire to amend the Agreement to implement the terms of the Order.

NOW, THEREFORE, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreement as follows:

1. This Amendment is composed of the foregoing recitals, the terms and conditions, set forth below; all of which are hereby incorporated in this Amendment by this reference and constitute a part of this Amendment.

   1.1 The Parties hereby implement the intercarrier compensation rate schedules attached hereto as Exhibit 1 for the termination of all Section 251(b)(5) Traffic exchanged between the parties in the applicable state(s). The rates included in Exhibit 1 hereby supersede the existing rate elements included in the underlying Agreement for purposes of reciprocal compensation.

2. The Parties agree to replace Section 19 from the Agreement with the following language:

   19. Notices

   19.1 Notices given by CLEC to AT&T MISSOURI under this Agreement shall be in writing (unless specifically provided otherwise herein), and unless otherwise expressly required by this Agreement to be delivered to another representative or point of contact, shall be pursuant to at least one of the following methods:

      19.1.1 delivered by electronic mail (email);

      19.1.2 delivered by facsimile.

   19.2 Notices given by AT&T MISSOURI to the CLEC under this Agreement shall be in writing (unless specifically provided otherwise herein), and unless otherwise expressly required by this Agreement to be delivered to another representative or point of contact, shall be pursuant to at least one of the following methods:

      19.2.1 delivered by express delivery service with next Business Day delivery;

      19.2.2 delivered by first class, certified or registered U.S. mail, postage prepaid.

   19.3 Notices will be deemed given as of the earliest of:

      19.3.1 the date of actual receipt;

      19.3.2 where the notice is sent via express delivery service for next Business Day delivery, the next Business Day after the notice is sent;

      19.3.3 where the notice is sent via First Class U.S. Mail, three (3) Business Days after mailing;

      19.3.4 where notice is sent via certified or registered U.S. mail, the date of receipt shown on the U.S. Postal Service receipt.

19.4 Notices will be addressed to the Parties as follows:

EMAIL ADDRESS	The current email address as provided on AT&T's CLEC Online website

*Informational only and not to be considered as an official notice vehicle under this Section.

19.5 Either Party may unilaterally change its designated contact name, address, email address (if applicable), and/or facsimile number (if applicable) for the receipt of Notices by giving written Notice to the other Party in compliance with this Section 19.0. Unless explicitly stated otherwise, any change to the designated contact name, address, email address (if applicable), and/or facsimile number (if applicable) will replace such information currently on file. Any Notice to change the designated contact name, address, email address (if applicable), and/or facsimile number (if applicable) for the receipt of Notices shall be deemed effective ten (10) calendar days following receipt by the other Party.

19.6 n addition, CLEC agrees that it is responsible for providing AT&T MISSOURI with CLEC's OCN and ACNA numbers for the states in which CLEC is authorized to do business and in which CLEC is requesting that this Agreement apply. In the event that CLEC wants to change and/or add to the OCN and/or ACNA information in the CLEC Profile, CLEC shall send written notice to AT&T MISSOURI to be received at least thirty (30) days prior to the change and/or addition in accordance with this Section 19.0 notice provision; CLEC shall also update its CLEC Profile through the applicable form and/or web-based interface.

19.6.1 [CLEC may not order services under a new account and/or subsequent state certification, established in accordance with this Section until thirty (30) days after all information specified in this Section is received from CLEC.

19.6.2 CLEC may be able to place orders for certain services in AT&T MISSOURI without having properly updated the CLEC Profile; however, at any time during the term of this Agreement without additional notice AT&T may at its discretion eliminate such functionality. At such time, if CLEC has not properly updated its CLEC Profile, ordering capabilities will cease, and CLEC will not be able to place orders until thirty (30) days after CLEC has properly updated its CLEC Profile.

19.7 AT&T MISSOURI communicates official information to CLECs via its Accessible Letter, or other applicable, notification processes. These processes involve electronic transmission and/or posting to the AT&T CLEC Online website, inclusive of a variety of subjects including declaration of a force majeure, changes on business processes and policies, and other product/service related notices not requiring an amendment to this Agreement.

3. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement

(including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.

4. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement.

5. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.

6. This Amendment shall be filed with and is subject to approval by the State Commission and shall become effective ten (10) days following approval by such Commission.

AMENDMENT TO THE AGREEMENT BETWEEN MCIMETRO ACCESS TRANSMISSION SERVICES LLC AND SOUTHWESTERN BELL TELEPHONE COMPANY D/B/A AT&T MISSOURI

This amendment ("Amendment") amends the Interconnection Agreement by and between Southwestern Bell Telephone Company d/b/a AT&T Missouri ("AT&T") and MCImetro Access Transmission Services LLC ("CLEC"). AT&T and CLEC are hereinafter referred to collectively as the "Parties" and individually as a "Party."

WHEREAS, AT&T and CLEC are parties to an Interconnection Agreement under Sections 251 and 252 of the Communications Act of 1934, as amended (the "Act"), approved October 20, 2010 and as subsequently amended ("Agreement"); and

WHEREAS, the Parties desire to amend the Agreement to implement the *Lifeline and Link Up Reform and Modernization et al*., WC Docket No. 11-42 et al., Second Report and Order, FCC 15-71, Released June 22, 2015 ("FCC Order"), and modify certain provisions related to Customer Information Services.

NOW, THEREFORE, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreement as follows:

1. The Amendment is composed of the foregoing recitals, the terms and conditions, contained within, and Exhibit A and Exhibit B Pricing Sheet immediately following, all of which are hereby incorporated in this Amendment by this reference and constitute a part of this Amendment.

2. Lifeline and Link Up Services

   2.1. Delete the rates, terms and conditions related to Lifeline and Link Up service offerings from the Agreement. Lifeline and Link Up service will no longer be available under the Agreement beginning 180 days after Federal Register publication of the Office of Management and Budget's (OMB) approval.

3. Customer Information Services (CIS)

   3.1. With the exception of 3.3 herein, delete all rates, terms and conditions pertaining to Customer Information Services, including but not limited to services related to Operator Services (OS), Directory Assistance (DA), Directory Assistance Listings (DAL), Inward Assistance Operator Services (INW) and White Pages (e.g., Busy Line Verification (BLV), Busy Line Verification/Interrupt (BLV/I), etc.) from the Agreement.

   3.2. Add Appendix – Customer Information Services (CIS), attached hereto as Exhibit A, and add the CIS Pricing Appendix Customer Information Services (CIS) rates reflected in the Pricing Sheet, attached hereto as Exhibit B, to the Agreement.

   3.3. Add the following provisions to the Attachment or Appendix for Resale

      3.3.1. For Resale service, AT&T will provide Customer Information Services to CLEC's End Users where technically feasible and/or available to AT&T retail End Users. Dialing, response, and sound quality will be provided in parity to AT&T retail End Users.

      3.3.2. CLEC is solely responsible for the payment of all charges for all services furnished under this Attachment, including but not limited to calls originated or accepted at CLEC's location and its End Users' service locations.

      3.3.3. Interexchange carrier traffic (e.g., sent-paid, information services and alternate operator services messages) received by AT&T for billing to Resale End User accounts will be returned as unbillable and will not be passed to CLEC for billing. An unbillable code will be returned with those messages to the carrier indicating that the messages were generated by a Resale account and will not be billed by AT&T.

      3.3.4. AT&T shall not be responsible for the manner in which utilization of Resale Services or the associated charges are allocated to End Users or others by CLEC. Applicable rates and charges

for services provided to CLEC under this Attachment will be billed directly to CLEC and shall be the responsibility of CLEC.

3.3.5. Charges billed to CLEC for all services provided under this Attachment shall be paid by CLEC regardless of CLEC's ability or inability to collect from its End Users for such services.

3.3.6. If CLEC does not wish to be responsible for payment of charges for calling card, collect, or third number billed calls (Alternately Billed Traffic or "ABT") or toll and information services (for example, 900 calls), CLEC must order the appropriate available blocking for lines provided under this Attachment and pay any applicable charges. It is the responsibility of CLEC to order the appropriate toll restriction or blocking on lines resold to End Users. CLEC acknowledges that blocking is not available for certain types of calls, including without limitation 800, 888, 411 and Directory Assistance Express Call Completion. Depending on the origination point, for example, calls originating from correctional facilities, some calls may bypass blocking systems. CLEC acknowledges all such limitations and accepts all responsibility for any charges associated with calls for which blocking is not available and any charges associated with calls that bypass blocking systems.

4. Conflict between this Amendment and the Agreement

4.1. This Amendment shall be deemed to revise the terms and provisions of the Agreement only to the extent necessary to give effect to the terms and provisions of this Amendment. In the event of a conflict between the terms and provisions of this Amendment and the terms and provisions of the Agreement (including all incorporated or accompanying Appendices, Addenda, and Exhibits to the Agreement), this Amendment shall govern, provided, however, that the fact that a term or provision appears in this Amendment but not in the Agreement, or in the Agreement but not in this Amendment, shall not be interpreted as, or deemed grounds for finding, a conflict for purposes of this Amendment.

5. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.

6. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement.

7. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.

8. This Amendment shall be filed with and is subject to approval by the State Commission and shall become effective ten (10) days following approval by such Commission.

APPENDIX – CUSTOMER INFORMATION SERVICES

4.0 Inward Assistance Operator Services (INW) 8
5.0 Directory Assistance Listings (DAL) 9
6.0 White Pages 10
7.0 General Conditions: 12

1.0 Introduction

1.1 The following services are provided as Customer Information Services – Operator Services/Directory Assistance (OS/DA), Inward Assistance Operator Services (INW), Directory Assistance Listings (DAL) and White Pages.

1.2 OS/DA:

1.2.1 This Appendix sets forth the rates, terms and conditions under which the Parties shall jointly carry out OS/DA on a wholesale basis for CLEC end users residing in AT&T local exchange territory, regardless of whether CLEC is serving its end users via:

1.2.1.1 CLEC's own physical switches,

1.2.1.2 Resale of AT&T Retail OS/DA service, or

1.2.1.3 Leased local circuit switching from AT&T.

1.2.2 CLEC shall be the retail OS/DA provider to its end users, and AT&T shall be the wholesale provider of OS/DA operations to CLEC. AT&T shall answer CLEC's end user OS/DA calls on CLEC's behalf, as follows:

1.2.2.1 When the end user dials 0- or 0+ the telephone number, AT&T shall provide the Operator Services described in Section 3.4 below. CLEC may set its own retail OS/DA rates, and CLEC therefore acknowledges its responsibility to obtain (a) end user agreement to the OS/DA retail rates (e.g., by tariff or contract), and (b) any necessary regulatory approvals for its OS/DA retail rates.

1.2.2.2 In response to CLEC end user inquiries about OS/DA rates, where technically feasible and available, AT&T operators shall quote CLEC retail OS/DA rates, provided by CLEC (see Section 3.6 below). If further inquiries are made about rates, billing and/or other "business office" questions, AT&T's OS/DA operators shall direct the calling party's inquiries to a CLEC-provided contact number (also see Section 3.6 below).

1.2.3 CLEC shall pay the applicable OS/DA rates found in the pricing sheet based upon CLEC's status as a Facilities-Based CLEC or a reseller. Provided however, CLEC may serve both as a reseller and as a facilities-based provider and CLEC may convert its facilities-based end users to Resale service, or vice versa, as described below in Section 3.6.8 below.

1.2.3.1 CLEC acknowledges and understands that wholesale OS/DA rates differ between Resale and facilities-based service, and that both types of OS/DA wholesale rates are listed in the pricing sheet.

1.2.3.2 Billing and payment details, including the assessment of late payment charges for unpaid balances, are governed by the General Terms and Conditions in this Agreement.

1.3 INW:

1.3.1 This Appendix also sets forth terms and conditions for INW for Facilities-Based CLECs.

1.3.2 Where technically feasible and available, when an operator dials the appropriate Toll Center Code in addition to the inward code, the AT&T INW operator will provide the Busy Line Verification (BLV) service and Busy Line Verification/Interrupt (BLV/I) service.

1.4 DAL:

1.4.1 This Appendix sets forth terms and conditions under which CLEC agrees to purchase DAL information from AT&T.

1.5 White Pages:

1.5.1 This Appendix sets forth terms and conditions that apply to Facility-Based CLECs for subscriber listing information in white page directories provided by AT&T.

2.0 Definitions

2.1 "Busy Line Verification (BLV)" means a service in which an end user asks an operator to verify a conversation in progress.

2.2 "Busy Line Verification/Interrupt (BLV/I)" means a service in which an end user asks an operator to verify and interrupt a conversation in progress, to determine if one of the parties is willing to speak to the caller requesting the interrupt.

2.3 "Consolidated Reference Rater (CRR)" provides reference information (business office and repair numbers) and rate quotes for CLEC end users.

2.4 "Facilities-Based CLEC" means a CLEC that provides service through its own switch, a Third Party provider's switch or via local circuit switching leased from AT&T via a stand-alone agreement.

2.5 "General Assistance" means a service in which an operator calls the INW operator seeking assistance in dialing a number. For example, the assistance could be required for attempting to dial a number where a 'no ring' condition has been encountered.

2.6 "Services" means Operator Services/Directory Assistance (OS/DA), Inward Assistance Operator Services (INW), Directory Assistance Listings (DAL) and White Pages.

2.7 "Toll Center Code" means the three digit access tandem code (ATC) code that uniquely identifies a tandem switch in the Local Exchange Routing Guide (LERG) designated as providing access to operator services functions. An operator dials the appropriate area code + ATC + OPR SVC CODE to obtain INW.

3.0 Operator Services (OS) / Directory Services (DA)

3.1 Dialing Parity:

3.1.1 AT&T will provide OS/DA to CLEC's end users with no unreasonable dialing delays and at dialing parity with AT&T retail OS/DA services.

3.2 Response Parity:

3.2.1 Where technically feasible and/or available, CLEC's end users shall be answered by AT&T's OS and DA platforms with the same priority and using the same methods as for AT&T's end users.

3.2.2 Any technical difficulties in reaching the AT&T OS/DA platform (e.g., cable cuts in the OS/DA trunks, unusual OS/DA call volumes, etc.) will be experienced at parity with AT&T end users served via that same AT&T End Office Switch.

3.3 Requirements to Physically Interconnect:

3.3.1 This section describes the physical interconnection and trunking requirements for a Facilities-Based CLEC to interconnect with AT&T's OS/DA switches.

3.3.2 The demarcation point for OS/DA traffic between the Parties' networks need not coincide with the point of interconnection for the physical interconnection of all other inter-carrier voice traffic, but at a minimum must be in the Local Access and Transport Area (LATA) within which the CLEC's OS/DA traffic originates.

3.3.2.1 Because CLEC's switch may serve end users in more than one LATA, the Parties agree that CLEC's OS/DA traffic originates from the physical location of the end user dialing 0-, 0+, 411, 1411, or 555-1212 and not the physical location of CLEC's switch.

3.3.2.2 To the extent CLEC is serving via circuit-switched wireless technology, the physical location of the end user dialing 0-, 0+, 411, 1411, or 555-1212 shall be deemed the end user's physical

billing address, regardless of whether the end user may be roaming at the time of placing the OS/DA call.

3.3.3 The Parties will establish an OS/DA demarcation point at the AT&T's OS/DA switch. By mutual agreement, an alternative OS/DA demarcation point may be determined based on the following factors:

3.3.3.1 The size and type of facilities needed to carry CLEC's switch-based OS/DA traffic;

3.3.3.2 Whether CLEC wishes to interconnect for OS or DA, or both;

3.3.3.3 Whether CLEC or CLEC's Affiliate is collocated in an AT&T local tandem office and wishes to use the collocation as the OS/DA demarcation point; and

3.3.3.4 Whether CLEC or CLEC's Affiliate already has existing OS/DA facilities in place to the AT&T's OS/DA platforms.

3.3.4 CLEC shall be financially responsible for the transport facilities to the AT&T's switch (es). CLEC may self-provision these OS/DA facilities, lease them from Third Parties, or lease them from AT&T's intrastate Special Access Tariff.

3.3.5 General OS/DA Trunking Requirements:

3.3.5.1 CLEC will initiate an Access Service Request (ASR) for all OS/DA trunk groups from its switch to the appropriate AT&T OS/DA switches as a segregated one-way trunk group utilizing Multi-Frequency (MF) signaling. Unless technically infeasible, AT&T will provision all such one-way trunk groups in the same manner and at the same intervals as for all other interconnection trunks between the Parties.

3.3.5.2 CLEC will employ Exchange Access Operator Services Signaling (EAOSS) from the AT&T End Offices to the AT&T OS/DA switches that are equipped to accept 10-Digit signaling for Automatic Number Identification (ANI).

3.3.5.3 Where EAOSS is not available, Modified Operator Services Signaling (MOSS) will be utilized, and a segregated one-way trunk group with MF signaling will be established from CLEC to each AT&T OS/DA switch for each served Numbering Plan Area (NPA) in the LATA.

3.3.6 Specific OS/DA Trunk Groups and Their Requirements:

3.3.6.1 OS Trunks:

3.3.6.1.1 CLEC shall establish a one-way trunk group from CLEC's switch to the AT&T OS switch serving OS end users in that LATA. An OS only trunk group will be designated with the appropriate OS traffic use code and modifier. If the trunk group transports combined OS/DA/DACC over the same trunk group, then the group will be designated with a different traffic use code and modifier for combined services. CLEC will have administrative control for the purpose of issuing ASR's on this one-way trunk group.

3.3.6.2 DA/ DA Call Completion (DACC) Trunks:

3.3.6.2.1 Where permitted, CLEC shall establish a one-way trunk group from CLEC's switch to the AT&T DA switch serving DA end users in that LATA. If the trunk group transports DA/DACC only, but not OS, then the trunk group will be designated with the appropriate DA traffic use code and modifier.

3.3.6.2.2 In AT&T, if OS/DA/DACC is transported together on a combined trunk group, then the group will be designated with a different appropriate traffic use code and modifier from that used for a DA/DACC only trunk group. CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.

3.3.6.2.3 In AT&T Florida, if OS/DA/DACC is transported together on a combined trunk group, then the group will be designated with an appropriate traffic use code and

modifier. CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.

3.3.6.3 Busy Line Verification/Emergency Interrupt (BLV/EI) Trunks:

3.3.6.3.1 Where available, when CLEC wishes for AT&T to perform Busy Line Verification or Emergency Interrupt for CLEC end users a segregated one-way BLV trunk group with MF signaling from AT&T's OS switch to CLEC's switch serving end users in that LATA will be required. CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group. The BLV trunk group will be designated with the appropriate traffic use code and modifier.

3.4 OS Offerings:

3.4.1 OS Rate Structure:

3.4.1.1 AT&T will assess its OS charges based upon whether the CLEC end user is receiving (a) manual OS (i.e., provided via an operator), or (b) automated OS (i.e., an OS switch equipment voice recognition feature, functioning either fully or partially without operators where technically feasible and/or available). The pricing sheet contains the full set of OS recurring and nonrecurring rates.

3.4.2 OS Call Processing:

3.4.2.1 AT&T will provide OS to CLEC end users where technically feasible and/or available to AT&T end users served in accordance with OS methods and practices in effect at the time the CLEC end user makes an OS call. AT&T will provide the following OS services to CLEC end user:

3.4.2.1.1 General Assistance - The end user dialing 0- or 0+, asks the OS operator to provide local and intraLATA dialing assistance for the purposes of completing calls, or requesting information on how to place calls (e.g., handling emergency calls, handling credits, etc.).

3.4.2.1.2 Calling Card - The end user dialing 0- or 0+, provides the OS operator with a Calling Card number for billing purposes, and seeks assistance in completing the call.

3.4.2.1.3 Collect - The end user dialing 0- or 0+, asks the OS operator to bill the charges associated with the call to the called number, provided such billing is accepted by the called number.

3.4.2.1.4 Third Number Billed - The end user dialing 0- or 0+, asks the OS operator to bill the call to a different number than the calling or called number.

3.4.2.1.5 Person-To-Person- The end user dialing 0- or 0+, asks the OS Operator for assistance in reaching a particular person or a particular PBX station, department or office to be reached through a PBX attendant. This service applies even if the caller agrees, after the connection is established, to speak to any party other than the party previously specified.

3.4.2.1.6 Busy Line Verification (BLV) - A service in which the end user asks an OS operator to verify a conversation in progress.

3.4.2.1.7 Busy Line Interrupt (BLV/I) - A service in which the end user asks an operator to verify and interrupt a conversation in progress, to determine if one of the parties is willing to speak to the caller requesting the interrupt.

3.5 DA Offerings:

3.5.1 DA Rate Structure:

3.5.1.1 AT&T DA charges are assessed on a flat rate per call, regardless of call duration. The pricing sheet contains the recurring and nonrecurring rates.

3.5.2 DA Call Processing:

3.5.2.1 AT&T will provide DA Services to CLEC end users where technically feasible and available to AT&T end users served in accordance with DA Services methods and practices that are in effect at the time CLEC end user makes a DA call. AT&T will provide the following DA services to a CLEC end user.

3.5.2.1.1 Local Directory Assistance - Consists of providing published name and telephone number.

3.5.2.1.2 Directory Assistance Call Completion (DACC) - A service in which a local or an intraLATA call to the requested number is completed.

3.5.2.1.3 National Directory Assistance (NDA) - A service whereby callers may request published name and telephone number outside their LATA or local calling area for any listed telephone number in the United States.

3.5.2.1.4 Reverse Directory Assistance (RDA) - Consists of providing listed local and national name and address information associated with a telephone number.

3.5.2.1.5 Business Category Search (BCS) - A service callers may request business telephone number listings for a specified category of business, when the name of the business is not known. Telephone numbers may be requested for local and national businesses.

3.6 OS/DA Non-recurring Charges for Loading Automated Call Greeting (i.e., Brand Announcement), Rates and Reference Information:

3.6.1 The incoming OS/DA call is automatically answered by a pre-recorded greeting loaded into the OS/DA switch itself. CLEC may custom brand or brand with silence.

3.6.1.1 CLEC will provide announcement phrase information, via Operator Services Translations Questionnaire (OSTQ), to AT&T in conformity with the format, length, and other requirements specified for all CLECs on the AT&T CLEC Online website.

3.6.1.2 AT&T will then perform all of the loading and testing of the announcement for each applicable OS/DA switch prior to live traffic. CLEC may also change its pre-recorded announcement at any time by providing a new announcement phrase in the same manner. CLEC will be responsible for paying subsequent loading and testing charges.

3.6.2 If CLEC does not wish to custom brand the OS/DA calls, CLEC end users will hear silence upon connecting with the OS/DA switch by having AT&T load a recording of silence into the automatic, pre-recorded announcement slot, set for the shortest possible duration allowed by the switch, to then be routed to OS/DA platform with all other OS/DA calls, for which brand loading charges will still apply.

3.6.2.1 CLEC understands that end users may not perceive silent announcements as ordinary mechanical handling of OS/DA calls.

3.6.2.2 CLEC agrees that if it does not brand the call, CLEC shall indemnify and hold AT&T harmless from any regulatory violation, consumer complaint, or other sanction for failing to identify the OS/DA provider to the dialing end user.

3.6.3 AT&T will be responsible for loading the CLEC provided recording or the silent announcement into all applicable OS and/or DA switches prior to live traffic, testing the announcement for sound quality at parity with that provided to AT&T end users. CLEC will be responsible for paying the initial recording or silent announcement loading charges, and thereafter, the per-call charge as well as any subsequent loading charges if new recordings or silent announcements are provided as specified above.

3.6.4 Branding/Silent Announcement load charges are assessed per loaded recording, per OCN, per switch. For example, a CLEC Reseller may choose to brand under a different name than its facilities-based operations, and therefore two separate recordings could be loaded into each switch, each incurring the Branding/Silent Announcement charge. These charges are mandatory, nonrecurring, and are found in the pricing sheet.

3.6.5 Where CRR is technically feasible and/or available, the applicable CLEC-charged retail OS/DA rates and a CLEC-provided contact number (e.g., reference to a CLEC business office or repair call center) are loaded into the system utilized by the OS operator.

3.6.6 Where CRR is available, AT&T will be responsible for loading the CLEC-provided OS/DA retail rates and the CLEC provided contact number(s) into the OS/DA switches. CLEC will be responsible for paying the initial reference and rate loading charges.

3.6.7 CRR load charges are assessed per loaded set of rates/references, where Consolidated Reference Rater is available, per OCN, per state. For example, a CLEC reseller may choose to rate differently than its Facilities-Based CLEC operations, or may change its rates/references during the life of the contract, and therefore separate sets of rates/references could be loaded for each OCN, per state, with each loading incurring the rate/reference charge. These charges are mandatory, nonrecurring and are found in the pricing sheet.

3.6.8 Converting end users from Prior Branded Service to CLEC or Silent-Branded Service, or between Resale and facilities-based service:

3.6.8.1 To the extent that CLEC has already established the Branding/Silent Announcement recording in AT&T OS/DA switches for both Resale and facilities-based service, then no non-recurring charges apply to the conversion of end users from prior Resale OS/DA wholesale service to facilities-based OS/DA wholesale service, or vice versa.

3.6.8.2 To the extent that CLEC has not established the Branding/Silent Announcement recording in AT&T OS/DA switches for Resale and/or facilities-based service, then non-recurring charges apply to set up the OS/DA call for the new type of service, as is described in Section 3.6 above, and at the rates set forth in the pricing sheet.

4.0 Inward Assistance Operator Services (INW)

4.1 Responsibilities of the Parties:

4.1.1 To the extent that CLEC elects to interconnect with AT&T's operator assistance switches, the CLEC's responsibilities are described below.

4.1.2 CLEC shall be financially responsible for the transport facilities to the AT&T's switch(es). CLEC may self-provision these INW facilities, lease them from Third Parties, or lease them from AT&T's intrastate special access tariff.

4.1.3 The CLEC will initiate an ASR for a one-way trunk group from its designated operator assistance switch to the AT&T operator assistance switch utilizing MF signaling.

4.2 CLEC will request in writing, thirty calendar (30) days in advance of the date when the INW are to be provided, unless otherwise agreed to by AT&T. CLEC or its designated OS providers shall submit an ASR to AT&T to establish any new interconnection trunking arrangements.

4.2.1 CLEC must provide one (1) Carrier Identification Code (CIC) for its CLEC or Incumbent Exchange Carrier business operation and an additional CIC for its IXC business operation if the CLEC wishes to receive separate billing data for its CLEC and IXC operations.

4.3 Specifics of INW Offering and Pricing:

4.3.1 Toll Center Codes will be used by the CLEC operators for routing and connecting to the AT&T operator assistance switches. These codes are specific to the various AT&T LATAs where AT&T operator assistance switches are located.

4.3.2 AT&T OS will require a Toll Center Code for the CLEC OS assistance switch. This code will be the routing code used for connecting the AT&T operator to the CLEC operator on an inward basis.

4.3.3 If the CLEC requires establishment of a new Toll Center Code, CLEC shall do so by referencing the LERG.

4.3.4 AT&T pricing for INW shall be based on the rates specified in the pricing sheet.

4.4 If the CLEC terminates INW or OS/DA service prior to the expiration of the term of this Agreement, CLEC shall pay AT&T, within thirty (30) calendar days of the issuance of any bills by AT&T, all amounts due for actual services provided under this Appendix, plus estimated monthly charges for the remainder of the term. Estimated charges will be based on an average of the actual monthly amounts billed by AT&T pursuant to this Appendix prior to its termination.

4.5 The rates applicable for determining the amount(s) under the terms outlined in this Section are those specified in the pricing sheet.

5.0 Directory Assistance Listings (DAL)

5.1 Responsibilities of the Parties:

5.1.1 Where technically feasible and available, AT&T will provide DAL information referred to as Directory Assistance Listing (DAL) in AT&T Florida, Directory Assistance Database Services (DADS) in AT&T Florida (hereinafter collectively referred to as DAL).

5.1.2 AT&T owns and maintains the database containing DAL information (name, address and published telephone number, or an indication of "non-published status") of telephone service subscribers.

5.1.3 AT&T uses the DAL information in its database to provide directory assistance (DA) service to end users who call AT&T's DA to obtain such information.

5.1.4 Inasmuch as AT&T provides DA service under contract for ILECs and CLECs, AT&T's database also contains DAL information of other ILEC and CLEC telephone service subscribers.

5.1.5 CLEC, or its agent, who choose to provide DA service to CLEC's end users located in the CLEC's service area may load its database with DAL contained in AT&T's DA database.

5.1.6 AT&T agrees to license requested DAL information contained in its database, under the following terms and conditions:

5.1.6.1 AT&T shall provide DAL information in a mutually acceptable format.

5.1.6.2 AT&T shall provide DAL information to CLEC via a mutually acceptable mode of transmission. Once the mode of transmission has been determined, AT&T will provide to CLEC the initial load of DAL information in a mutually agreed upon timeframe.

5.2 Product Specific Service Delivery Provisions:

5.2.1 Use of DAL Information:

5.2.1.1 CLEC may use the DAL information licensed and provided pursuant to this Appendix in compliance with all applicable laws, regulations, and rules including any subsequent decision by the FCC or a court regarding the use of DAL.

5.2.1.2 In the event a telephone service subscriber has a "non-published" listing, a "non-published" classification will be identified in lieu of the telephone number information and will be considered part of the listing information. The last name, first name, street number, street name, community, and zip code will be provided as part of the listing information when available. The information provided for non-published telephone service subscribers can only be used for two (2) purposes. First, the non-published status may be added to the listing in CLEC's database for

the sole purpose of adding/correcting the non-published status of the listings in the database. Second, addresses for non-published telephone service subscribers may be used for verification of the non-published status of the listing. If a caller provides the address for a requested listing, CLEC may verify the non-published status of the requested listing by matching the caller-provided address with the address in CLEC's database. CLEC however, may not provide the address information of a requested listing of a non-published telephone service subscriber to a caller under any circumstances, including when verifying the address. CLEC can notify the end user that the requested listing is non-published.

5.3 Other:

5.3.1 Pricing:

5.3.1.1 The prices at which AT&T agrees to provide CLEC with DAL are provided for in the pricing sheet.

5.3.2 Breach of Contract:

5.3.2.1 In the event a Party is found to have materially breached the DAL provision of this Appendix, such breach shall be remedied immediately and the non-breaching Party shall have the right to terminate the breaching Party's DAL license, without terminating its own rights hereunder, upon fourteen (14) calendar days Notice, until the other Party's breach is remedied. Further should CLEC breach the DAL provisions of this Appendix, it shall immediately cease use of AT&T's DAL information.

5.3.3 Term of DAL Service:

5.3.3.1 After twelve (12) consecutive months of service, either Party may terminate the DAL services provided under this Appendix, without termination liability, upon one hundred-twenty (120) calendar days' written Notice to the other Party.

5.3.3.2 If the CLEC terminates this service prior to the first twelve (12) consecutive months of the contract term, CLEC shall pay AT&T, within thirty (30) calendar days of the issuance of any bills by AT&T, all amounts due for actual services provided under this Appendix, plus the monthly or estimated charges for the remainder of the first twelve (12) months of the contract term, plus costs incurred by AT&T associated with the provision of the DAL database.

5.3.4 Ordering:

5.3.4.1 To order DAL service, CLEC shall use a DAL Order Application form as provided by AT&T.

6.0 White Pages

6.1 General Provisions:

6.1.1 AT&T will make available to CLEC, for CLEC end users, non-discriminatory access to white pages directory listings, as described herein.

6.1.2 AT&T will meet state requirements through itself or a contracted vendor to publish alphabetical white pages directories in multiple formats, including printed directories, CD-ROM and other electronic formats for its ILEC territory, as defined in the General Terms and Conditions of this Agreement. CLEC provides local exchange telephone service in the same area(s) and CLEC wishes to include listing information for its end users located in AT&T's ILEC territory in the appropriate white pages directories.

6.2 Responsibilities of the Parties:

6.2.1 Subject to AT&T's practices, as well as the rules and regulations applicable to the provision of white pages directories, AT&T will include in appropriate white pages directories the primary alphabetical listings of CLEC end users located within the ILEC territory. The rules, regulations and AT&T practices are subject to change from time to time. When CLEC provides its subscriber listing information to AT&T listings database,

CLEC will receive for its end user, one primary listing in AT&T white pages directory and a listing in AT&T's DA database at no charge, other than applicable service order charges as set forth in the pricing sheet.

6.2.1.1 Except in the case of a Local Service Request (LSR) submitted solely to port a number from AT&T Florida, if such listing is requested on the initial LSR associated with the request for services, a single manual service order charge or electronic service order charge, as appropriate, will apply to both the request for service and the request for the directory listing. Where a subsequent LSR is placed solely to request a directory listing, or is placed to port a number and request a directory listing, separate service order charges as set forth in AT&T's tariffs shall apply, as well as the manual service order charge or the electronic service order charge, as appropriate.

6.2.1.2 Listing Information Confidentiality:

6.2.1.2.1 AT&T will afford CLEC's directory listing information the same level of confidentiality that AT&T affords its own directory listing information.

6.2.1.3 Unlisted/Non-Published end users:

6.2.1.3.1 CLEC will provide to AT&T the names, addresses and telephone numbers of all CLEC end users who wish to be omitted from directories. Non-listed/Non-Published listings will be subject to the rates as set forth in the pricing sheet.

6.2.1.4 Additional, Designer and Other Listings:

6.2.1.4.1 Where a CLEC end user requires foreign, enhanced, designer or other listings in addition to the primary listing to appear in the white pages directory, AT&T will offer such listings at rates as set forth in AT&T's tariffs and/or service guidebooks.

6.2.2 CLEC shall furnish to AT&T subscriber listing information pertaining to CLEC end users located within the ILEC Territory, along with such additional information as AT&T may be required to include in the alphabetical listings of said directory. CLEC shall refer to the AT&T CLEC Online website for methods, procedures and ordering information.

6.2.3 CLEC will provide accurate subscriber listing information of its subscribers to AT&T via a mechanical or manual feed of the directory listing information to AT&T's Directory Listing database. CLEC agrees to submit all listing information via a mechanized process within six (6) months of the Effective Date of this Agreement, or upon CLEC reaching a volume of two hundred (200) listing updates per day, whichever comes first. CLEC's subscriber listings will be interfiled (interspersed) in the directory among AT&T's subscriber listing information. CLEC will submit listing information within one (1) business day of installation, disconnection or other change in service (including change of non-listed or non-published status) affecting the DA database or the directory listing of a CLEC end user. CLEC must submit all listing information intended for publication by the directory close (a/k/a last listing activity) date.

6.2.4 Distribution of Directories:

6.2.4.1 Each CLEC subscriber will receive one copy per primary end user listing, as provided by CLEC, of the appropriate AT&T white pages directory in the same manner, format and at the same time that they are delivered to AT&T's subscribers during the annual delivery of newly published directories.

6.2.4.2 AT&T has no obligation to provide any additional white page directories above the directories provided to CLEC end users as specified in Section 6.2.5.1 above.

6.2.4.3 CLEC subscribers may receive for additional directories in the same manner and format as they are made available to AT&T's subscribers.

6.2.5 AT&T shall direct its publishing vendor to offer CLEC the opportunity to include in the "information pages", or comparable section of its white pages directories (covering the territory where CLEC is certified to provide

local service), information provided by CLEC for CLEC installation, repair, customer service and billing information.

6.2.6 Use of Subscriber Listing Information:

6.2.6.1 AT&T agrees to serve as the single point of contact for all independent and Third Party directory publishers who seek to include CLEC's subscriber (i.e., end user) listing information in an area directory, and to handle the CLEC's subscriber listing information in the same manner as AT&T's subscriber listing information. In exchange for AT&T serving as the single point of contact and handling all subscriber listing information equally, CLEC authorizes AT&T to include and use the CLEC subscriber listing information provided to AT&T DA databases, and to provide CLEC subscriber listing information to directory publishers. Included in this authorization is release of CLEC listings to requesting competing carriers as required by Section 271(c)(2)(B)(vii)(II) and Section 251(b)(3) and any applicable state regulations and orders. Also included in this authorization is AT&T's use of CLEC's subscriber listing information in AT&T's DA, DA related products and services, and directory publishing products and services.

6.2.6.2 AT&T further agrees not to charge CLEC for serving as the single point of contact with independent and Third Party directory publishers, no matter what number or type of requests are fielded. In exchange for the handling of CLEC's subscriber list information to directory publishers, CLEC agrees that it will receive no compensation for AT&T's receipt of the subscriber list information or for the subsequent release of this information to directory publishers. Such CLEC subscriber list information shall be intermingled with AT&T's subscriber list information and the subscriber list information of other companies that have authorized a similar release of their subscriber list information by AT&T.

6.2.7 CLEC further agrees to pay all costs incurred by AT&T and/or its Affiliates as a result of CLEC not complying with the terms of this Appendix.

6.2.8 This Appendix shall not establish, be interpreted as establishing, or be used by either Party to establish or to represent their relationship as any form of agency, partnership or joint venture.

6.2.9 Breach of Contract:

6.2.9.1 If either Party is found to have materially breached the white pages directory terms of this Appendix, the non-breaching Party may terminate the white pages directory terms of this Appendix by providing written Notice to the breaching Party, whereupon this Appendix shall be null and void with respect to any issue of white pages directory published sixty (60) or more calendar days after the date of receipt of such written Notice. CLEC further agrees to pay all costs incurred by AT&T and/or its Affiliates and vendor as a result of such CLEC breach.

7.0 General Conditions:

7.1 Notwithstanding the foregoing, AT&T reserves the right to suspend, modify or terminate, without penalty, this Appendix in its entirety or any Service(s) or features of Service(s) offerings that are provided under this Appendix on ninety (90) days' written notice.

This Amendment (the "Amendment") amends the Agreements by and between AT&T and MCImetro Access Transmission Services LLC or MCImetro Access Transmission Services, L.L.C. (collectively "MCImetro") as shown in the attached Exhibit A. AT&T and MCImetro are hereinafter referred to collectively as the "Parties" and individually as a "Party."

WHEREAS, AT&T and MCImetro are Parties to the Agreements as shown in the attached Exhibit A; and

WHEREAS, MCImetro Access Transmission Services LLC and MCImetro Access Transmission Services, L.L.C. have changed their names to "MCImetro Access Transmission Services Corp." in the states of Alabama, California, Florida, Georgia, Indiana, Kansas, Louisiana, Missouri, Mississippi, Nevada, North Carolina, Oklahoma, South Carolina, Texas and Wisconsin and to "MCImetro Access Transmission Services Corp. d/b/a Verizon Access Transmission Services" in the states of Arkansas, Illinois, Kentucky, Michigan, Ohio and Tennessee and wish to reflect these name changes as set forth herein

WHEREAS, the Parties desire to amend the Agreement to implement to the *Connect America Fund et al.,* WC Docket No. 10-90 et al, Report and Order issued by the Federal Communications Commission ("FCC") on November 18, 2011 (FCC 11-161), and as amended by the FCC on December 23, 2011 (FCC 11-189) ("FCC ICC Reform Order"), and

WHEREAS, the Parties desire to amend the Agreement to implement the *Petition of USTelecom for Forbearance Pursuant to* 47 U.S.C. § 160(c) from Enforcement of Obsolete ILEC Legacy Regulations That Inhibit Deployment of Next-Generation Networks, WC Docket No. 14-192, Released December 28, 2015 ("FCC US Telecom Forbearance Order"), and

WHEREAS, the Parties desire to modify certain provisions related to Customer Information Services pursuant to WC Docket No. 16-13, approved March 15, 2016.

NOW, THEREFORE, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreement as follows:

1. The Amendment is composed of the foregoing recitals, the terms and conditions, contained within, Exhibit A - AT&T Listing of Interconnection Agreements, Exhibit B – Customer Information Services, and Exhibit C - Pricing Sheet, all of which are hereby incorporated within this Amendment by this reference and constitute a part of this Amendment.

2. Intercarrier Compensation

   2.1. The Parties hereby implement the intercarrier compensation rates reflected in the Pricing Sheet attached hereto as Exhibit C, for the termination of all Section 251(b)(5) Traffic exchanged between the Parties in the applicable state(s). The intercarrier compensation rates included in Exhibit C hereby supersede the existing rate elements included in the Agreement for purposes of reciprocal compensation and apply regardless of whether Section 251(b)(5) Traffic is routed through a Party's Tandem Switch or End Office.

3. Forbearance

3.1. Delete the rates, terms and conditions related to the unbundling of a 64 kbps voice-grade channel to provide narrowband services over fiber where an incumbent LEC retires a copper loop it has overbuilt with a fiber-to-the-home or fiber-to-the-curb loop.

4. Customer Information Services (CIS)

4.1. With the exception of 4.3 herein, delete all rates, terms and conditions pertaining to Customer Information Services, including but not limited to services related to Operator Services (OS), Directory Assistance (DA), Directory Assistance Listings (DAL), Inward Assistance Operator Services (INW) and White Pages (e.g., Busy Line Verification (BLV), Busy Line Verification/Interrupt (BLV/I), etc.) from the Agreement.

4.2. Add Attachment 06 - Operator Services and Directory Assistance (OS/DA), attached hereto as Exhibit B; and the Operator Services and Directory Assistance (OS/DA) rates reflected in the Pricing Sheet, attached hereto as Exhibit C, to the Agreement.

4.3. Add the following provisions to the Attachment or Appendix for Resale

CIS.1 For Resale service, AT&T will provide Customer Information Services to CLEC's End Users where technically feasible and/or available to AT&T retail End Users. Dialing, response, and sound quality will be provided in parity to AT&T retail End Users.

CIS.2 CLEC is solely responsible for the payment of all charges for all services furnished under this Attachment, including but not limited to calls originated or accepted at CLEC's location and its End Users' service locations.

CIS.3 Interexchange carrier traffic (e.g., sent-paid, information services and alternate operator services messages) received by AT&T for billing to Resale End User accounts will be returned as unbillable and will not be passed to CLEC for billing. An unbillable code will be returned with those messages to the carrier indicating that the messages were generated by a Resale account and will not be billed by AT&T.

CIS.4 AT&T shall not be responsible for the manner in which utilization of Resale Services or the associated charges are allocated to End Users or others by CLEC. Applicable rates and charges for services provided to CLEC under this Attachment will be billed directly to CLEC and shall be the responsibility of CLEC.

CIS.5 Charges billed to CLEC for all services provided under this Attachment shall be paid by CLEC regardless of CLEC's ability or inability to collect from its End Users for such services.

CIS.6 If CLEC does not wish to be responsible for payment of charges for calling card, collect, or third number billed calls (Alternately Billed Traffic or "ABT") or toll and information services (for example, 900 calls), CLEC must order the appropriate available blocking for lines provided under this Attachment and pay any applicable charges. It is the responsibility of CLEC to order the appropriate toll restriction or blocking on lines resold to End Users. CLEC acknowledges that blocking is not available for certain types of calls, including without limitation 800, 888, 411 and Directory Assistance Express Call Completion. Depending on the origination point, for example, calls originating from correctional facilities, some calls may bypass blocking systems. CLEC acknowledges all such limitations and accepts all responsibility for any charges associated with calls for which blocking is not available and any charges associated with calls that bypass blocking systems.

5. Name Change

5.1 The Agreement is hereby amended to reflect the name change from "MCImetro Access Transmission Services LLC" or "MCImetro Access Transmission Services, L.L.C." to "MCImetro Access Transmission Services Corp." in the states of Alabama, California, Florida, Georgia, Indiana, Kansas, Louisiana, Missouri, Mississippi, Nevada, North Carolina, Oklahoma, South Carolina, Texas and Wisconsin and to "MCImetro Access Transmission Services Corp. d/b/a Verizon Access Transmission Services" in the states of Arkansas, Illinois, Kentucky, Michigan, Ohio and Tennessee.

5.2 AT&T shall reflect that name change from "MCImetro Access Transmission Services LLC" or "MCImetro Access Transmission Services, L.L.C." to "MCImetro Access Transmission Services Corp." in the states of Alabama, California, Florida, Georgia, Indiana, Kansas, Louisiana, Missouri, Mississippi, Nevada, North Carolina, Oklahoma, South Carolina, Texas and Wisconsin and to "MCImetro Access Transmission Services Corp. d/b/a Verizon Access Transmission Services" in the states of Arkansas, Illinois, Kentucky, Michigan, Ohio and Tennessee only for the main billing account (header card) for each of the accounts previously billed to MCImetro Access Transmission Services LLC or MCImetro Access Transmission Services, L.L.C. AT&T shall not be obligated, whether under this Amendment or otherwise, to make any other changes to AT&T's records with respect to those accounts, including to the services and items provided and/or billed thereunder or under the Agreement. Without limiting the foregoing, MCImetro affirms, represents, and warrants that the ACNA and OCN for those accounts shall not change from that previously used by MCImetro Access Transmission Services LLC or MCImetro Access Transmission Services, L.L.C. with AT&T for those accounts and the services and items provided and/or billed thereunder or under the Agreement.

5.3 Once this Amendment is effective, MCImetro shall operate with AT&T under the "MCImetro Access Transmission Services Corp." name in the states of Alabama, California, Florida, Georgia, Indiana, Kansas, Louisiana, Missouri, Mississippi, Nevada, North Carolina, Oklahoma, South Carolina, Texas and Wisconsin and under the "MCImetro Access Transmission Services Corp. d/b/a Verizon Access Transmission Services" name in the states of Arkansas, Illinois, Kentucky, Michigan, Ohio and Tennessee for those accounts. Such operation shall include, by way of example only, submitting orders under MCImetro, and labeling (including re-labeling) equipment and facilities with MCImetro. Any change in MCImetro's name including a change in the "d/b/a", or due to assignment or transfer of this Agreement wherein only MCImetro's name is changing, and no Carrier Company Code(s) (ACNA/CIC/OCN) are changing, constitutes a Carrier Name Change under this Section. For any Carrier Name Change, MCImetro is responsible for providing proof of compliance with industry standards related to any Company Code(s), including notification of the name change to the appropriate issuing authority of those Company Code(s) as required. MCImetro must submit the appropriate service request to AT&T to update MCImetro's name on all applicable billing accounts (BANs), and MCImetro is responsible for all applicable processing/administration and nonrecurring charges for each service request. Should MCImetro desire to change its name on individual circuits and/or End User records, MCImetro must submit the appropriate service request(s) to AT&T to update MCImetro's name on individual circuits and/or End User records, and MCImetro is responsible for all applicable processing/administration and nonrecurring charges for each of those service request(s).

6. The Parties agree to replace Section N (Section 15. In Arkansas and Oklahoma, Section 15.0 in Kansas, Section 18 in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee, Section 19 in Michigan, Missouri, Ohio and Texas, Section 19. In California, Illinois, Indiana and Wisconsin and Section 47. In Nevada) from the Agreement with the following language:

N. Notices

N.1 Notices given by CLEC to AT&T under this Agreement shall be in writing (unless specifically provided otherwise herein), and unless otherwise expressly required by this Agreement to be delivered to another representative or point of contact, shall be pursuant to at least one of the following methods:

N.1.1 delivered by electronic mail (email).

N.1.2 delivered by facsimile.

N.2 Notices given by AT&T to the CLEC under this Agreement shall be in writing (unless specifically provided otherwise herein), and unless otherwise expressly required by this Agreement to be delivered to another representative or point of contact, shall be pursuant to at least one of the following methods:

N.2.1 delivered by electronic mail (email) provided CLEC has provided such information in Section N.4 below.

N.2.2 delivered by facsimile provided CLEC has provided such information in Section N.4 below.

N.3 Notices will be deemed given as of the earliest of:

N.3.1 the date of actual receipt.

N.3.2 notice by email shall be effective on the date it is officially recorded as delivered by delivery receipt and in the absence of such record of delivery, it shall be presumed to have been delivered on the date sent.

N.3.3 on the date set forth on the confirmation produced by the sending facsimile machine when delivered by facsimile prior to 5:00 p.m. in the recipient's time zone, but the next Business Day when delivered by facsimile at 5:00 p.m. or later in the recipient's time zone.

N.4 Notices will be addressed to the Parties as follows:

NOTICE CONTACT	CLEC CONTACT

FACSIMILE NUMBER	(214) 712-5792
EMAIL ADDRESS	The current email address as provided on AT&T's CLEC Online website

*Informational only and not to be considered as an official notice vehicle under this Section.

N.5 Either Party may unilaterally change its designated contact name, address, email address, and/or facsimile number for the receipt of Notices by giving written Notice to the other Party in compliance with this Section N. Unless explicitly stated otherwise, any change to the designated contact name, address, email address, and/or facsimile number will replace such information currently on file. Any Notice to change the designated contact name, address, email address, and/or facsimile number for the receipt of Notices shall be deemed effective ten (10) calendar days following receipt by the other Party.

N.6 In addition, CLEC agrees that it is responsible for providing AT&T with CLEC's OCN and ACNA numbers for the states in which CLEC is authorized to do business and in which CLEC is requesting that this Agreement apply. In the event that CLEC wants to change and/or add to the OCN and/or ACNA information in the CLEC Profile, CLEC shall send written notice to AT&T to be received at least thirty (30) days prior to the

change and/or addition in accordance with this Section N. notice provision; CLEC shall also update its CLEC Profile through the applicable form and/or web-based interface.

N.6.1 CLEC may not order services under a new account and/or subsequent state certification, established in accordance with this Section until thirty (30) days after all information specified in this Section is received from CLEC.

N.6.2 CLEC may be able to place orders for certain services in AT&T without having properly updated the CLEC Profile; however, at any time during the term of this Agreement without additional notice AT&T may at its discretion eliminate such functionality. At such time, if CLEC has not properly updated its CLEC Profile, ordering capabilities will cease, and CLEC will not be able to place orders until thirty (30) days after CLEC has properly updated its CLEC Profile.

N.7 AT&T communicates official information to CLECs via its Accessible Letter, or other applicable, notification processes. These processes involve electronic transmission and/or posting to the AT&T CLEC Online website, inclusive of a variety of subjects including declaration of a force majeure, changes on business processes and policies, and other product/service related notices not requiring an amendment to this Agreement.

7. There shall be no retroactive application of any provision of this Amendment prior to the Effective Date of an adopting CLEC's agreement.

8. This Amendment shall be deemed to revise the terms and provisions of the Agreement only to the extent necessary to give effect to the terms and provisions of this Amendment. In the event of a conflict between the terms and provisions of this Amendment and the terms and provisions of the Agreement (including all incorporated or accompanying Appendices, Addenda, and Exhibits to the Agreement), this Amendment shall govern, provided, however, that the fact that a term or provision appears in this Amendment but not in the Agreement, or in the Agreement but not in this Amendment, shall not be interpreted as, or deemed grounds for finding, a conflict for purposes of this Amendment.

9. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.

10. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement.

11. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.

12. Signatures by all Parties to this Amendment are required to effectuate this Amendment. This Amendment may be executed in counterparts. Each counterpart shall be considered an original and such counterparts shall together constitute one and the same instrument.

13. For Alabama, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Nevada, North Carolina, Oklahoma, South Carolina, Tennessee, Texas: This Amendment shall be filed with and is subject to approval by the applicable state Commission and shall become effective ten (10) days following approval by such Commission. For Arkansas: This Amendment shall be filed with the Arkansas Public Service Commission and shall become effective upon filing. For Ohio: Based on the Public Utilities Commission of Ohio Rules, the Amendment is effective upon filing and is deemed approved by operation of law on the 91st day after filing. For California: Pursuant to Resolution ALJ 257, this filing will become effective, absent rejection of the Advice Letter by the Commission, upon thirty (30) days after the filing date of the Advice Letter to which this Amendment is appended. For Wisconsin: Pursuant to Wisconsin Statute § 196.40, this Amendment shall become effective ten (10) days after the mailing date of the final order approving this Amendment.

ATTACHMENT 06 – OPERATOR SERVICES AND DIRECTORY ASSISTANCE

(f/k/a CUSTOMER INFORMATION SERVICES)

TABLE OF CONTENTS

Section		Page Number
1.0	Introduction	3
2.0	Definitions	3
3.0	Operator Services (OS) / Directory Assistance (DA)	4
4.0	Listings	7
5.0	General Conditions for Operator Services (OS), Directory Assistance (DA)	9
6.0	Termination – Entire Attachment 06 – Operator Assistance and Directory Assistance Services	9

1.0 INTRODUCTION

1.1 This Attachment sets forth the rates, terms and conditions under which AT&T-21STATE shall provide Operator Services/Directory Assistance (OS/DA) and Listings.

1.2 OS/DA:

1.2.1 This Attachment sets forth the rates, terms and conditions under which the Parties shall jointly carry out OS/DA on a wholesale basis for CLEC End Users residing in AT&T-21STATE's local Exchange territory, regardless of whether CLEC is serving its End Users via:

1.2.1.1 CLEC's own physical Switches; or

1.2.1.2 Resale of AT&T-21STATE Retail OS/DA service.

1.2.2 CLEC shall be the retail OS/DA provider to its End Users, and AT&T-21STATE shall be the wholesale provider of OS/DA operations to CLEC. AT&T-21STATE shall answer CLEC's End User OS/DA calls on CLEC's behalf, as follows:

1.2.2.1 When the End User dials 0- or 0+ the telephone number, AT&T-21STATE shall provide the Operator Services described in Section 3.4 below. CLEC may set its own retail OS/DA rates, and CLEC therefore acknowledges its responsibility to obtain (a) End User agreement to the OS/DA retail rates (e.g., by tariff or contract), and (b) any necessary regulatory approvals for its OS/DA retail rates.

1.2.2.2 In response to CLEC End User inquiries about OS/DA rates, where available and technically feasible, AT&T-21STATE operators shall quote CLEC retail OS/DA rates, provided by CLEC (see Section 3.6 below). If further inquiries are made about rates, billing and/or other "business office" questions, AT&T-21STATE's OS/DA operators shall direct the calling party's inquiries to a CLEC-provided contact number (also see Section 3.6 below).

1.2.3 CLEC shall pay the applicable OS/DA rates found in the Pricing Sheet based upon CLEC's status as a Facilities-Based CLEC or a reseller. Provided however, CLEC may serve both as a reseller and as a facilities-based provider and CLEC may convert its facilities-based End Users to Resale service, or vice versa, as described below in Section 3.6.7 below.

1.2.3.1 CLEC acknowledges and understands that wholesale OS/DA rates differ between Resale and facilities-based service, and that both types of OS/DA wholesale rates are listed in the Pricing Sheet.

1.2.3.2 Billing and payment details, including the assessment of late payment charges for unpaid balances, are governed by the General Terms and Conditions in this Agreement.

1.3 Listings:

1.3.1 This Attachment sets forth terms and conditions that apply to Resale and Facility-Based CLECs for subscriber listing information provided by AT&T-21STATE.

2.0 DEFINITIONS

2.1 "Consolidated Reference Rater (CRR)" provides reference information (business office and repair numbers) and rate quotes for CLEC End Users.

2.2 "Facilities-Based CLEC" means a CLEC that provides service through its own switch or a Third Party provider's switch.

2.3 "General Assistance" means a service in which the End User dialing - 0 asks the OS operator for assistance. The operator will respond in accordance with OS methods and practices that are in effect at the time the End User makes an OS call where available and technically feasible.

2.4 "Listings" means information identifying the listed names of subscribers of carriers and subscribers' telephone numbers, addresses or primary advertising classification or any combination, and that carrier or affiliate has published, caused to be published or accepted for publication in any directory format.

2.5 "Services" means Operator Services/Directory Assistance (OS/DA) and Listings.

2.6 "Toll Center Code" means the three digit access tandem code ("ATC") that uniquely identifies a tandem switch in the Local Exchange Routing Guide (LERG) designated as providing access to operator services functions.

3.0 OPERATOR SERVICES (OS) / DIRECTORY ASSISTANCE (DA)

3.1 Dialing Parity:

3.1.1 AT&T-21STATE will provide OS/DA to CLEC's End Users with no unreasonable dialing delays and at dialing parity with AT&T-21STATE retail OS/DA services.

3.2 Response Parity:

3.2.1 Where available and technically feasible, CLEC's End Users shall be answered by AT&T-21STATE's OS and DA platforms with the same priority and using the same methods as for AT&T-21STATE's End Users.

3.2.2 Any technical difficulties in reaching the AT&T-21STATE OS/DA platform (e.g., cable cuts in the OS/DA trunks, unusual OS/DA call volumes, etc.) will be experienced at parity with AT&T-21STATE End Users served via that same AT&T-21STATE End Office Switch.

3.3 Requirements to Physically Interconnect:

3.3.1 This section describes the physical interconnection and trunking requirements for a Facilities-Based CLEC to interconnect with AT&T-21STATE's OS/DA switches.

3.3.2 The demarcation point for OS/DA traffic between the Parties' networks need not coincide with the point of interconnection for the physical interconnection of all other inter-carrier voice traffic, but at a minimum must be in the Local Access and Transport Area (LATA) in which the CLEC's OS/DA traffic originates.

3.3.2.1 Because CLEC's switch may serve End Users in more than one LATA, the Parties agree that CLEC's OS/DA traffic originates from the physical location of the End User dialing 0, 411, or 555-1212 and not the physical location of CLEC's switch.

3.3.2.2 To the extent CLEC is serving via circuit-switched wireless technology, the physical location of the End User dialing 0, 411, or 555-1212 shall be deemed the End User's physical billing address, regardless of whether the End User may be roaming at the time of placing the OS/DA call.

3.3.3 The Parties will establish an OS/DA demarcation point at the AT&T-21STATE's OS/DA switch. By mutual agreement, an alternative OS/DA demarcation point may be determined based on the following factors:

3.3.3.1 The size and type of facilities needed to carry CLEC's switch-based OS/DA traffic;

3.3.3.2 Whether CLEC wishes to interconnect for OS or DA, or both;

3.3.3.3 Whether CLEC or CLEC's Affiliate is collocated in an AT&T-21STATE local tandem office and wishes to use the collocation as the OS/DA demarcation point; and

3.3.3.4 Whether CLEC or CLEC's Affiliate already has existing OS/DA facilities in place to the AT&T-21STATE's OS/DA platforms.

3.3.4 CLEC shall be financially responsible for the transport facilities to the AT&T-21STATE's switch(es). CLEC may self-provision these OS/DA facilities, lease them from Third Parties, or lease them from AT&T-21STATE's intrastate Special Access Tariff. CLEC shall remain financially responsible for the transport facilities to the AT&T-21STATE's switch(es) and/or any one-way trunk groups from its designated operator assistance and directory assistance (or OA/DA) switch to the AT&T-21STATE operator assistance switch until CLEC initiates and successfully disconnects such transport facilities and/or trunk groups.

3.3.5 General OS/DA Trunking Requirements:

3.3.5.1 CLEC will initiate an Access Service Request (ASR) for all OS/DA trunk groups from its switch to the appropriate AT&T-21STATE OS/DA switches as a segregated one-way trunk group utilizing Multi-Frequency (MF) signaling. Unless technically infeasible, AT&T-21STATE will provision all such one-way trunk groups in the same manner and at the same intervals as for all other interconnection trunks between the Parties.

3.3.5.2 CLEC will employ Exchange Access Operator Services Signaling (EAOSS) from the AT&T-21STATE End Offices to the AT&T-21STATE OS/DA switches that are equipped to accept 10-Digit Signaling for Automatic Number Identification (ANI).

3.3.5.3 Where EAOSS is not available, Modified Operator Services Signaling (MOSS) will be utilized, and a segregated one-way trunk group with MF signaling will be established from CLEC to each AT&T-21STATE OS/DA switch for each served Numbering Plan Area (NPA) in the LATA.

3.3.6 Specific OS/DA Trunk Groups and Their Requirements

3.3.6.1 Operator Service Trunks:

3.3.6.1.1 CLEC shall establish a one-way trunk group from CLEC's switch to the AT&T-21STATE OS switch serving OS End Users in that LATA. An OS only trunk group will be designated with the appropriate OS traffic use code and modifier. If the trunk group transports combined OS/DA/DACC over the same trunk group, then the group will be designated with a different traffic use code and modifier for combined services. CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.

3.3.6.2 DA/DA Call Completion (DACC) Trunks:

3.3.6.2.1 Where permitted, CLEC shall establish a one-way trunk group from CLEC's switch to the AT&T-21STATE DA switch serving DA End Users in that LATA. If the trunk group transports DA/DACC only, but not OS, then the trunk group will be designated with the appropriate DA traffic use code and modifier.

3.3.6.2.2 In AT&T-12STATE, if OS/DA/DACC is transported together on a combined trunk group, then the group will be designated with a different appropriate traffic use code and modifier from that used for a DA/DACC only trunk group. CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.

3.3.6.2.3 In AT&T SOUTHEAST REGION 9-STATE, if OS/DA/DACC is transported together on a combined trunk group, then the group will be designated with an appropriate traffic use code and modifier. CLEC will have administrative control for the purpose of issuing ASRs on this one-way trunk group.

3.4 Operator Services Call Processing and Rates:

3.4.1 AT&T-21STATE will assess its OS charges based upon whether the CLEC End User is receiving (a) manual OS (i.e., provided via an operator), or (b) automated OS (i.e., an OS switch equipment voice recognition feature, functioning either fully or partially without operators where available and technically feasible). The Pricing Sheet contains the full set of OS recurring and nonrecurring rates.

3.4.2 AT&T-21STATE will provide OS to CLEC End Users where available and technically feasible to AT&T-21STATE End Users served in accordance with OS methods and practices in effect at the time the CLEC End User makes an OS call.

3.5 Directory Assistance Call Processing and Rates:

3.5.1 AT&T-21STATE DA charges are assessed on a flat rate per call, regardless of call duration. The Pricing Sheet contains the recurring and nonrecurring rates.

3.5.2 AT&T-21STATE will provide DA Services to CLEC End Users where available and technically feasible to AT&T-21STATE End Users served in accordance with DA Services methods and practices that are in effect

at the time CLEC End User makes a DA call. AT&T-21STATE will provide the following DA services to a CLEC End User:

3.5.2.1 Local Directory Assistance - Consists of providing published name and telephone number.

3.5.2.2 Directory Assistance Call Completion (DACC) - A service in which a local or an intraLATA call to the requested number is completed.

3.5.2.3 National Directory Assistance (NDA) - A service whereby callers may request published name and telephone number outside their LATA or local calling area for any listed telephone number in the United States.

3.5.2.4 Reverse Directory Assistance (RDA) - Consists of providing listed local and national name and address information associated with a telephone number.

3.5.2.5 Business Category Search (BCS) - A service whereby callers may request business telephone number listings for a specified category of business, when the name of the business is not known. Telephone numbers may be requested for local and national businesses.

3.6 OS/DA Non-recurring Charges for Loading Automated Call Greeting (i.e., Brand Announcement), Rates and Reference Information:

3.6.1 CLEC End Users will hear silence upon connecting with the OS/DA switch. As an alternative to silence, CLEC may custom brand for which custom brand charges will apply.

3.6.1.1 CLEC will provide announcement phrase information, via Operator Services Translations Questionnaire (OSTQ), to AT&T-21STATE in conformity with the format, length, and other requirements specified for all CLECs on the AT&T CLEC Online website.

3.6.1.2 AT&T-21STATE will then perform all of the loading and testing of the announcement for each applicable OS/DA switch prior to live traffic. CLEC may also change its pre-recorded announcement at any time by providing a new announcement phrase in the same manner. CLEC will be responsible for paying subsequent loading and testing charges.

3.6.1.3 CLEC understands that End Users may not perceive silent announcements as ordinary mechanical handling of OS/DA calls.

3.6.1.4 CLEC agrees that if it does not brand the call, CLEC shall indemnify and hold AT&T-21STATE harmless from any regulatory violation, consumer complaint, or other sanction for failing to identify the OS/DA provider to the dialing End User.

3.6.2 AT&T-21STATE will be responsible for loading the CLEC provided recording into all applicable OS and/or DA switches prior to live traffic, testing the announcement for sound quality at parity with that provided to AT&T-21STATE End Users. CLEC will be responsible for paying the initial recording announcement loading charges, and thereafter, the per-call charge as well as any subsequent loading charges if new recordings or silent announcements are provided as specified above.

3.6.3 Branding load charges are assessed per loaded recording, per OCN, per switch. For example, a CLEC Reseller may choose to brand under a different name than its facilities-based operations, and therefore two separate recordings could be loaded into each switch, each incurring the branding or silent load charge. These charges are mandatory, nonrecurring, and are found in the Pricing Sheet.

3.6.4 Where Consolidated Reference Rater ("CRR") is available and technically feasible, the applicable CLEC-charged retail OS/DA rates and a CLEC-provided contact number (e.g., reference to a CLEC business office or repair center) are loaded into the system utilized by the OS operator.

3.6.5 Where CRR is available and technically feasible, AT&T-21STATE will be responsible for loading the CLEC-provided OS/DA retail rates and the CLEC provided contact number(s) into the OS/DA switches. CLEC will be responsible for paying the initial reference and rate loading charges.

3.6.6 CRR load charges are assessed per loaded set of rates/references, where CRR is available and technically feasible, per OCN, per state. For example, a CLEC reseller may choose to rate differently than its Facilities-Based CLEC operations, or may change its rates/references during the life of the contract, and therefore separate sets of rates/references could be loaded for each OCN, per state, with each loading incurring the rate/reference charge. These charges are mandatory, nonrecurring and are found in the Pricing Sheet.

3.6.7 Converting End Users from prior branded service to CLEC or silent-branded service, or between Resale and facilities-based service:

3.6.7.1 To the extent that CLEC has already established the branding/silent announcement recording in AT&T-21STATE OS/DA switches for both Resale and facilities-based service, then no non-recurring charges apply to the conversion of End Users from prior Resale OS/DA wholesale service to facilities-based OS/DA wholesale service, or vice versa.

3.6.7.2 To the extent that CLEC has not established the branding announcement recording in AT&T-21STATE OS/DA switches for Resale and/or facilities-based service, then non-recurring charges apply to set up the OS/DA call for the new type of service, as is described in Section 3.6 above, and at the rates set forth in the Pricing Sheet.

4.0 LISTINGS

4.1 General Provisions:

4.1.1 Subject to state requirements and AT&T-21STATE's practices, as well as the rules and regulations applicable to the provision of listings, AT&T-21STATE will make available to CLEC, for CLEC End Users, non-discriminatory access to listings in the same manner as AT&T-21STATE makes listings available to AT&T-21STATE retail End Users.

.

4.2 Responsibilities of the Parties:

4.2.1 Subject to AT&T-21STATE's practices, as well as the rules and regulations applicable to the provision of white page directories, AT&T-21STATE will include in appropriate white pages directories the primary alphabetical listings of CLEC End Users located within the AT&T-21STATE ILEC Territory. When CLEC provides its subscriber listing information to AT&T-21STATE listings database, CLEC will receive for its End User, one primary listing in AT&T-21STATE white pages directory and a listing in AT&T-21STATE's DA database at no charge, other than applicable service order charges as set forth in the Pricing Sheet.

4.2.1.1 Except in the case of a Local Service Request (LSR) submitted solely to port a number from AT&T SOUTHEAST REGION 9-STATE, if such listing is requested on the initial LSR associated with the request for services, a single manual service order charge or electronic service order charge, as appropriate, will apply to both the request for service and the request for the directory listing. Where a subsequent LSR is placed solely to request a directory listing, or is placed to port a number and request a directory listing, separate service order charges as set forth in AT&T-21STATE's tariffs shall apply, as well as the manual service order charge or the electronic service order charge, as appropriate.

4.2.1.2 Listing Information Confidentiality:

4.2.1.2.1 AT&T-21STATE will afford CLEC's directory listing information the same level of confidentiality that AT&T-21STATE affords its own directory listing information.

4.2.1.3 Unlisted/Non-Published End Users:

4.2.1.3.1 CLEC will provide to AT&T-21STATE the names, addresses and telephone numbers of all CLEC End Users who wish to be omitted from directories. Non-listed/Non-Published listings will be subject to the rates as set forth in AT&T-21STATE's tariffs and/or service guidebooks. AT&T-21STATE does not provide a resale discount for any listings.

4.2.1.4 Additional Listings:

4.2.1.4.1 Where a CLEC End User requires listings in addition to the primary listing to appear in the white pages directory, AT&T-21STATE will offer such listings at rates as set forth in AT&T-21STATE's tariffs and/or service guidebooks. AT&T-21STATE does not provide a resale discount for any listings. CLEC shall furnish to AT&T-21STATE subscriber listing information pertaining to CLEC End Users located within the AT&T-21STATE ILEC Territory, along with such additional information as AT&T-21STATE may be required to include in the alphabetical listings of said directory. CLEC shall refer to the AT&T CLEC Online website for methods, procedures and ordering information.

4.2.2 CLEC will provide accurate subscriber listing information of its subscribers to AT&T-21STATE via a mechanized feed of the directory listing information to AT&T-21STATE's Directory Listing database. CLEC agrees to submit all listing information via a mechanized process within six (6) months of the Effective Date of this Agreement, or upon CLEC reaching a volume of two hundred (200) listing updates per day, whichever comes first. CLEC's subscriber listings will be interfiled (interspersed) in the directory among AT&T-21STATE's subscriber listing information. CLEC will submit listing information within one (1) business day of installation, disconnection or other change in service (including change of non-listed or non-published status) affecting the DA database or the directory listing of a CLEC End User. CLEC must submit all listing information intended for publication by the directory close (a/k/a last listing activity) date.

4.2.3 White Page Directories:

4.2.3.1 Subject to state requirements and AT&T-21STATE's practices, as well as the rules and regulations applicable to the provision of white page directories, each CLEC subscriber may receive one copy per primary End User listing, as provided by CLEC, of the appropriate AT&T-21STATE white pages directory in the same manner, format and at the same time that they are delivered to AT&T-21STATE's retail End Users.

4.2.4 Use of Subscriber Listing Information:

4.2.4.1 Subject to AT&T-21STATE's practices, as well as the rules and regulations applicable to the provision of white page directories, AT&T-21STATE agrees to serve as the single point of contact for all independent and Third Party directory publishers who seek to include CLEC's subscriber (i.e., End User) listing information in an area directory, and to handle the CLEC's subscriber listing information in the same manner as AT&T-21STATE's subscriber listing information. In exchange for AT&T-21STATE serving as the single point of contact and handling all subscriber listing information equally, CLEC authorizes AT&T-21STATE to include and use the CLEC subscriber listing information provided to AT&T-21STATE DA databases, and to provide CLEC subscriber listing information to directory publishers. Included in this authorization is release of CLEC listings to requesting competing carriers as required by Section 271(c)(2)(B)(vii)(II) and Section 251(b)(3) and any applicable state regulations and orders. Also included in this authorization is AT&T-21STATE's use of CLEC's subscriber listing information in AT&T-21STATE's DA, DA related products and services, and directory products and services.

4.2.4.2 AT&T-21STATE further agrees not to charge CLEC for serving as the single point of contact with independent and Third Party directory publishers, no matter what number or type of requests are fielded. In exchange for the handling of CLEC's subscriber list information to directory publishers, CLEC agrees that it will receive no compensation for AT&T-21STATE's receipt of the subscriber list information or for the subsequent release of this information to directory publishers. Such CLEC subscriber list information shall be interfiled (interspersed) with AT&T-21STATE's subscriber list information and the subscriber list information of other companies that have authorized a similar release of their subscriber list information by AT&T-21STATE.

4.2.5 Upon identification and notice of non-compliance by AT&T-21STATE, CLEC agrees to pay all direct costs incurred by AT&T-21STATE as a result of CLEC not complying with the terms of this Attachment and in accordance with the Limitations of Liability section in the General Terms and Conditions Attachment of this Agreement.

4.2.6 This Attachment shall not establish, be interpreted as establishing, or be used by either Party to establish or to represent their relationship as any form of agency, partnership or joint venture.

4.2.7 Breach of Contract:

4.2.7.1 If either Party is found to have materially breached the Listings terms of this Attachment, the non-breaching Party may terminate the Listings terms of this Attachment by providing written Notice to the breaching Party, whereupon this Attachment shall be null and void with respect to any issue of white pages directory published sixty (60) or more calendar days after the date of receipt of such written Notice. CLEC further agrees to pay all costs incurred by AT&T-21STATE and/or its Affiliates and vendor as a result of such CLEC breach.

4.2.8 General Conditions for Listings:

4.2.8.1 Notwithstanding the foregoing, AT&T-21STATE reserves the right to suspend, modify or terminate, without penalty, any Listings Service offerings that are provided under this Attachment on ninety (90) days' written notice in the form of an Accessible Letter.

4.2.8.2 CLEC shall be solely responsible for any and all legal or regulatory requirements for the modification or discontinuance of Listings products and/or services to CLEC End Users under this Section.

5.0 GENERAL CONDITIONS FOR OPERATOR SERVICES (OS), DIRECTORY ASSISTANCE (DA)

5.1 Notwithstanding the foregoing, AT&T-21STATE reserves the right to suspend, modify or terminate, without penalty, any OS and/or DA feature of Service(s) offerings that are provided under this Attachment on one hundred eighty (180) days' written notice in the form of an Accessible Letter.

5.2 Termination:

5.2.1 If the CLEC terminates OS and/or DA service prior to the expiration of the term of this Agreement, CLEC shall pay AT&T-21STATE, within thirty (30) calendar days of the issuance of any bills by AT&T-21STATE, all amounts due for actual services provided under this Attachment, plus estimated monthly charges for the remainder of the term. Estimated charges will be based on an average of the actual monthly amounts billed by AT&T-21STATE pursuant to this Attachment prior to its termination. The rates applicable for determining the amount(s) under the terms outlined in this Section are those specified in the Pricing Sheet.

5.3 CLEC shall be solely responsible for any and all legal or regulatory requirements for the modification or discontinuance of OS and/or DA products/services to CLEC End Users under this Attachment.

6.0 TERMINATION – ENTIRE ATTACHMENT 06 – OPERATOR ASSISTANCE AND DIRECTORY ASSISTANCE SERVICES

6.1 The Parties reserve the right to suspend or terminate, without penalty, this Attachment in its entirety on one hundred eighty (180) days' written notice. The Attachment will be coterminous with the ICA or will continue until the Party desiring to terminate this Attachment provides one hundred eighty (180) days' written Notice to the other Party of the date the Attachment will terminate ("Termination Date"), whichever date is earlier.

AMENDMENT TO THE AGREEMENTS BETWEEN MCIMETRO ACCESS TRANSMISSION SERVICES CORP. MCIMETRO ACCESS TRANSMISSION SERVICES CORP. D/B/A VERIZON ACCESS TRANSMISSION SERVICES AND SOUTHWESTERN BELL TELEPHONE COMPANY, D//B/A AT&T KANSAS, D/B/A AT&T MISSOURI, D/B/A AT&T OKLAHOMA, D/B/A AT&T TEXAS; INDIANA BELL TELEPHONE COMPANY, INCORPORATED, D/B/A AT&T INDIANA; WISCONSIN BELL, INC., D/B/A AT&T WISCONSIN; AND NEVADA BELL TELEPHONE COMPANY, D/B/A AT&T NEVADA AND AT&T WHOLESALE

This Amendment amends seven Interconnection Agreements between MCImetro Access Transmission Services Corp. and MCImetro Access Transmission Services Corp. d/b/a Verizon Access Transmission Services (hereinafter referred to as "CLEC") and Southwestern Bell Telephone Company, d//b/a AT&T Kansas, AT&T Missouri, AT&T Oklahoma, AT&T Texas, Indiana Bell Telephone Company, Incorporated, d/b/a AT&T Indiana, Wisconsin Bell, Inc. d/b/a AT&T Wisconsin and Nevada Bell Telephone Company d/b/a AT&T Nevada and AT&T Wholesale (hereinafter collectively referred to as "AT&T"), as are more fully described in the attached Exhibit A. CLEC and AT&T are hereafter collectively referred to as the "Parties" and individually as "Party."

WHEREAS, CLEC and AT&T are Parties to the Agreements shown in the attached Exhibit A.

NOW, **THEREFORE**, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreements as follows:

1. This Amendment is composed of the foregoing recitals, the terms and conditions contained within, and Exhibit A – Listing of Agreements, immediately following, all of which are hereby incorporated into this Amendment by this reference as if fully set forth herein and constitute a part of this Amendment.
2. The Parties agree to remove all rates, terms, conditions, and appendices/attachments related to Structure Access from the Agreements listed in Exhibit A. Structure Access is covered by a separate Stand-Alone Structure Access Agreement for Poles, Ducts, Conduits, and Rights-of-Way – FCC States.
3. This Amendment shall be deemed to revise the terms and provisions of each Agreement only to the extent necessary to give effect to the terms and provisions of this Amendment. In the event of a conflict between the terms and provisions of this Amendment and the terms and provisions of each Agreement (including all incorporated or accompanying Appendices, Addenda, and Exhibits to the Agreement), this Amendment shall govern, provided, however, that the fact that a term or provision appears in this Amendment but not in any Agreement, or in any Agreement but not in this Amendment, shall not be interpreted as, or deemed grounds for finding, a conflict for purposes of this Amendment.
4. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies, or arguments it may have at law or under the intervening law or regulatory change provisions in each underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation, or proceedings and any remands thereof, which the Parties have not yet fully incorporated into each underlying Agreement or which may be the subject of further review.
5. This Amendment shall not modify or extend the Effective Date or Term of any underlying Agreement, but rather, shall be coterminous with such Agreement.
6. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF EACH UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
7. Signatures by all Parties to this Amendment are required to effectuate this Amendment. This Amendment may be executed in counterparts. Each counterpart shall be considered an original and such counterparts shall together constitute one and the same instrument.
8. For Indiana, Kansas, Missouri, Nevada, Oklahoma, and Texas: This Amendment shall be filed with, and is subject to, approval by the applicable state Commission and shall become effective ten (10) days following approval by such

Commission. For Wisconsin: Pursuant to Wisconsin Statute § 196.40, this Amendment shall become effective ten (10) days after the mailing date of the final order approving this Amendment.

AMENDMENT TO THE AGREEMENT BETWEEN MCIMETRO ACCESS TRANSMISSION SERVICES, CORP., MCIMETRO ACCESS TRANSMISSION SERVICES LLC, MCIMETRO ACCESS TRANSMISSION SERVICES LLC D/B/A VERIZON ACCESS TRANSMISSION SERVICES AND BELLSOUTH TELECOMMUNICATIONS, LLC D/B/A AT&T ALABAMA, AT&T FLORIDA, AT&T GEORGIA, AT&T KENTUCKY, AT&T LOUISIANA, AT&T MISSISSIPPI, AT&T NORTH CAROLINA, AT&T SOUTH CAROLINA AND AT&T TENNESSEE, ILLINOIS BELL TELEPHONE COMPANY, LLC D/B/A AT&T ILLINOIS, INDIANA BELL TELEPHONE COMPANY INCORPORATED D/B/A AT&T INDIANA, MICHIGAN BELL TELEPHONE COMPANY D/B/A AT&T MICHIGAN, NEVADA BELL TELEPHONE COMPANY D/B/A AT&T NEVADA AND AT&T WHOLESALE, THE OHIO BELL TELEPHONE COMPANY D/B/A AT&T OHIO, PACIFIC BELL TELEPHONE COMPANY D/B/A AT&T CALIFORNIA, SOUTHWESTERN BELL TELEPHONE COMPANY D/B/A AT&T ARKANSAS, AT&T KANSAS, AT&T MISSOURI, AT&T OKLAHOMA AND AT&T TEXAS, WISCONSIN BELL, INC. D/B/A AT&T WISCONSIN

This Amendment (the "Amendment") amends the Agreement(s) by and between AT&T and CLEC as shown in the attached Exhibit B. AT&T and CLEC are hereinafter referred to collectively as the "Parties" and individually as a "Party".

WHEREAS, AT&T and CLEC are Parties to the Agreement(s) as shown in the attached Exhibit B; and as subsequently amended (the "Agreement"); and

WHEREAS, MCImetro Access Transmission Services Corp. has changed its form of organization from a Corporation to a Limited Liability Company and wishes to reflect that change as set forth herein; and

WHEREAS, the Parties desire to amend the Agreement to implement the FCC Orders FCC-19-66 and FCC-19-72 in WC Dkt. No. 18-141; Petition of USTelecom for Forbearance Pursuant to 47 U.S.C. § 160(c) to Accelerate Investment in Broadband and Next-Generation Networks which was filed with the FCC on May 4, 2018 (FCC Order 19-72, the "FCC UNE and Resale Forbearance Order"); and

WHEREAS, the Parties desire to amend the Agreement to implement the FCC Order FCC-20-152 in WC Dkt. No. 19-308; Modernizing Unbundling and Resale Requirements in an Era of Next-Generation Networks and Services which became effective on February 8, 2021 ("FCC UNE Relief Order"); and

NOW, **THEREFORE**, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreement as follows:

1. The Amendment is composed of the foregoing recitals and the terms and conditions contained herein, all of which are hereby incorporated by this reference and constitute a part of this Amendment.

2. As of February 2, 2020, except for resale services that are grandfathered pursuant to subsection 2.a below, CLEC's purchase of retail services for resale under the Agreement shall be deemed to be purchased for resale pursuant to Section 251(b)(1) of the Act, and the wholesale discount previously available under Section 251(c)(4) of the Act as of February 2, 2020 ("Wholesale Discount"), shall no longer be mandatory. Any changes to the discount will be made with 180 days notice, and in any case shall not result in CLEC being charged more than the amount permitted under Section 251(b)(1) of the Act and, for the Resale Embedded Base, shall take effect no earlier than the date specified in Section 2.a below.

   a. Resale services ordered on or before February 1, 2020 ("Resale Embedded Base") are grandfathered at the Wholesale Discount until August 2, 2022, after which 180 days notice will be provided before a change can be made (which change in any case shall not result in CLEC being charged more than the amount permitted under Section 251(b)(1) of the Act) and available only:

i. to the same End User; and

ii. at that same End User's existing location;

iii. both as of February 2, 2020.

3. Intentionally Left Blank.

4. As of February 2, 2020, CLEC may no longer order 2-Wire Analog UNE Loops or 4-Wire Analog UNE Loops ("Analog Loops") pursuant to this Agreement. Any existing Analog Loops ordered on or before February 1, 2020 ("Analog Loop Embedded Base") are grandfathered until August 2, 2022. CLEC shall convert the Analog Loop Embedded Base to a commercial offering, or other comparable service, or disconnect such Analog Loop on, or before, August 1, 2022. Exhibit A to this Amendment contains Analog Loop element descriptions and USOCs that are subject to the FCC UNE and Resale Forbearance Order, however this Agreement may also contain additional and/or older element descriptions and USOCs that are also Analog Loops subject to the FCC UNE and Resale Forbearance Order. Also, to the extent Exhibit A contains UNE descriptions or USOCs that are not affected by the FCC UNE and Resale Forbearance Order, such UNEs and USOCs are listed solely for the convenience of the Parties and this Section 4 shall not alter the Parties' rights and obligations with respect to such UNEs and USOCs.

   a. To the extent CLEC fails to adhere to the above AT&T, at AT&T's sole discretion, may take one or more of the following actions for any remaining Analog Loops and CLEC will be responsible for all recurring and non-recurring charges:

      i. convert to an analogous arrangement available under a separate commercial agreement executed by the Parties, or

      ii. convert to AT&T tariff or guidebook services (in which case month-to-month rates, terms and conditions shall apply), or

      iii. reprice by application of a new rate (or by application of a surcharge to an existing rate) that applies under (i) or (ii) above, or

      iv. disconnect.

   b. AT&T reserves the right, subject to any backbilling limitation period set forth in the Agreement, to backbill CLEC for the difference between an Analog Loop rate and the non-UNE rate that applies under this Section 4 for any new Analog Loops inadvertently ordered on or after February 2, 2020, and any Analog Loop Embedded Base remaining as of August 1, 2022.

   c. AT&T's election to reprice the Analog Loop shall not preclude AT&T from later converting the Analog Loop to an analogous arrangement available under a separate commercial agreement or an AT&T tariff or guidebook service.

5. As of January 12, 2020, CLEC may no longer order DS1/DS3 Unbundled Dedicated Transport ("DS1/DS3 UDT"), whether stand-alone or part of a combination (e.g., Enhanced Extended Link), pursuant to this Agreement between Tier 1 wire centers and/or wire centers subject to UDT forbearance under Public Notice DA 19-733, dated August 1, 2019. Any such existing DS1/DS3 UDT ordered on or before January 11, 2020, is grandfathered until July 12, 2022 ("UDT Embedded Base").

   i. CLEC must disconnect or convert any grandfathered DS1/DS3 UDT to another product/service offering on or before July 12, 2022, pursuant to the Conversion of 251(c)(3) UNE/UNE Combinations to Wholesale Services provisions of this Agreement or other similar provision.

   ii. If CLEC fails to convert grandfathered DS1/DS3 UDT before July 12, 2022, at AT&T's sole discretion, AT&T may convert any, or all, of the remaining DS1/DS3 UDT to the equivalent Special Access service at month-to-month rates, terms and conditions. CLEC shall be responsible for all associated recurring and non-recurring charges.

   iii. AT&T reserves the right, to backbill CLEC for the difference between a DS1/DS3 UDT rate and the non-UNE rate that applies under this Section 5 for any new circuits inadvertently ordered on or after January 12, 2020 and any UDT Embedded Base remaining as of July 12, 2022. , AT&T may back bill CLEC for the 12 months prior to the month in which it provides notice to CLEC that it identified a non-compliant circuit and for any additional months the circuit remains non-compliant until AT&T and or CLEC correct the non-compliance.

iv. If the FCC determines that additional wire centers are subject to forbearance, CLEC shall cease ordering DS1/DS3 UDT as of the date specified by the FCC and adhere to any FCC-specified transition timelines.

6. As of February 8, 2023, CLEC may no longer order new 2-Wire Digital UNE Loops ("Digital Loops") pursuant to this Agreement in Wire Centers where at least 50% of the census blocks served are designated as urbanized areas by the United States Census Bureau. Any existing Digital Loops ordered on or before February 8, 2023 ("Digital Loop Embedded Base") are grandfathered until February 8, 2025. CLEC shall convert the Digital Loop Embedded Base to a commercial offering, or an alternate arrangement, or disconnect such Digital Loop on or before February 8, 2025. Exhibit A to this Amendment contains Digital Loop element descriptions and USOCs that are subject to the FCC UNE Relief Order; however, this Agreement may also contain additional and/or older element descriptions and USOCs that are also Digital Loops subject to the FCC UNE Relief Order. Also, to the extent Exhibit A contains UNE descriptions or USOCs that are not affected by the FCC UNE Relief Order, such UNEs and USOCs are listed solely for the convenience of the Parties and this Section 6 shall not alter the Parties' rights and obligations with respect to such UNEs and USOCs.

   a. To the extent CLEC fails to adhere to the above, at AT&T's sole discretion, AT&T may take one or more of the following actions for any remaining Digital Loops and CLEC will be responsible for all recurring and non-recurring charges:

      i. convert to a digital arrangement available under a separate commercial agreement executed by the Parties, or

      ii. convert to AT&T tariff or guidebook services (in which case month-to-month rates, terms and conditions shall apply), or

      iii. reprice by application of a new rate (or by application of a surcharge to an existing rate) that applies under (i) or (ii) above, or

      iv. disconnect.

   b. AT&T reserves the right, to backbill CLEC for the difference between the Digital Loop rate and the non-UNE rate that applies under this Section 6 for any new noncompliant Digital Loops inadvertently ordered on or after February 8, 2023, and any Digital Loop Embedded Base remaining as of February 8, 2025. For any new noncompliant Digital Loops inadvertently ordered on or after February 8, 2023, AT&T may back bill CLEC for the 12 months prior to the month in which it provides notice to CLEC that it identified a non-compliant circuit and for any additional months the circuit remains non-compliant until AT&T and or CLEC correct the non-compliance.

   c. AT&T's election to reprice the Digital Loop shall not preclude AT&T from later converting the Digital Loop to a Digital arrangement available under a separate commercial agreement or an AT&T tariff or guidebook service.

   d. AT&T reserves the right to raise its rates by up to 25% for the period from February 08, 2024 through February 7, 2025 by providing at least thirty (30) days' advance written notice of any such increase. and may elect to increase rates to market rates after February 08, 2025, when the grandfathering period expires. AT&T shall provide Notice to CLEC of how the Parties will implement the subsequent rate changes.

7. As of February 8, 2023, CLEC may no longer order new DS1 UNE Loops ("DS1 Loops") pursuant to this Agreement in Wire Centers in counties deemed by the FCC to be competitive in the BDS proceeding as listed in the AT&T Guidebook in accordance with the FCC's determinations, which may change from time to time. Any existing DS1 Loops ordered on or before February 8, 2023 ("DS1 Loop Embedded Base") are grandfathered until August 8, 2024. CLEC shall convert the DS1 Loop Embedded Base to an alternate arrangement, or disconnect such DS1 Loop on or before August 8, 2024. Exhibit A to this Amendment contains DS1 Loop element descriptions and USOCs that are subject to the FCC UNE Relief Order; however, this Agreement may also contain additional and/or older element descriptions and USOCs that are also DS1 Loops subject to the FCC UNE Relief Order. Also, to the extent Exhibit A contains UNE descriptions or USOCs that are not affected by the FCC UNE Relief Order, such UNEs and USOCs are listed solely for the convenience of the Parties and this Section 7 shall not alter the Parties' rights and obligations with respect to such UNEs and USOCs.

   a. To the extent CLEC fails to adhere to the above, AT&T, at AT&T's sole discretion, may take one or more of the following actions for any remaining DS1 Loops and CLEC will be responsible for all recurring and non-recurring charges:

      i. convert to AT&T tariff or guidebook services (in which case month-to-month rates, terms and conditions shall apply), or

ii. reprice by application of a new rate (or by application of a surcharge to an existing rate) that applies under (i) above, or

iii. disconnect.

b. AT&T reserves the right to backbill CLEC for the difference between the DS1 Loop rate and the non-UNE rate that applies under this Section 7 for any new noncompliant DS1 Loops inadvertently ordered on or after February 8, 2023, and any DS1 Loop Embedded Base remaining as of August 8, 2024. For any new noncompliant DS1 Loops inadvertently ordered on or after February 8, 2023, AT&T may back bill CLEC for the 12 months prior to the month in which it provides notice to CLEC that it identified a non-compliant circuit and for any additional months the circuit remains non-compliant until AT&T and or CLEC correct the non-compliance.

c. AT&T's election to reprice the DS1 Loop shall not preclude AT&T from later converting the DS1 Loop to a DS1 arrangement available under a separate AT&T tariff or guidebook service.

8. As of February 8, 2021, CLEC may no longer order new DS3 UNE Loops ("DS3 Loops") pursuant to this Agreement in Wire Centers in counties deemed by the FCC to be competitive in the BDS proceeding as listed in the AT&T Guidebook in accordance with the FCC's determinations, which may change from time to time.. Any existing DS3 Loops described in the preceding sentence that CLEC ordered on or before February 8, 2021 ("DS3 Loop Embedded Base") are grandfathered until February 8, 2024. CLEC shall convert the DS3 Loop Embedded Base to an alternate arrangement, or disconnect such DS3 Loop on or before February 8, 2024. Exhibit A to this Amendment contains DS3 Loop element descriptions and USOCs that are subject to the FCC UNE Relief Order, however this Agreement may also contain additional and/or older element descriptions and USOCs that are also DS3 Loops subject to the FCC UNE Relief Order. Also, to the extent Exhibit A contains UNE descriptions or USOCs that are not affected by the FCC UNE Relief Order, such UNEs and USOCs are listed solely for the convenience of the Parties and this Section 8 shall not alter the Parties' rights and obligations with respect to such UNEs and USOCs.

a. To the extent CLEC fails to adhere to the above, at AT&T's sole discretion, AT&T may take one or more of the following actions for any remaining DS3 Loops and CLEC will be responsible for all recurring and non-recurring charges:

i. convert to AT&T tariff or guidebook services (in which case month-to-month rates, terms and conditions shall apply), or

ii. reprice by application of a new rate (or by application of a surcharge to an existing rate) that applies under (i) above, or

iii. disconnect.

b. AT&T reserves the right, to backbill CLEC for the difference between the DS3 Loop rate and the non-UNE rate that applies under this Section 8 for any new noncompliant DS3 Loops inadvertently ordered on or after February 8, 2021, and any DS3 Loop Embedded Base remaining as of February 8, 2024. For any new noncompliant DS3 Loops inadvertently ordered on or after February 8, 2021, AT&T may back bill CLEC for the 12 months prior to the month in which it provides notice to CLEC that it identified a non-compliant circuit and for any additional months the circuit remains non-compliant until AT&T and or CLEC correct the non-compliance.

c. AT&T's election to reprice the DS3 Loop shall not preclude AT&T from later converting the DS3 Loop to a DS3 arrangement available under a separate AT&T tariff or guidebook service.

9. As of February 8, 2021, CLEC may no longer order new UNE Dark Fiber Transport ("DFT") pursuant to this Agreement where the dark fiber transport is connected, at both ends of the transport route, to a Tier 3 wire center located within ½ mile of competitive fiber as described in the FCC UNE Relief Order and designated by the FCC. Any existing UNE Dark Fiber Transport facility described in the preceding sentence that CLEC ordered before February 8, 2021 ("Dark Fiber Transport Embedded Base") is grandfathered until February 8, 2029. CLEC shall convert the UNE Dark Fiber Transport Embedded Base to an alternate arrangement, or disconnect such UNE Dark Fiber Transport on or before February 8, 2029. Exhibit A to this Amendment contains UNE Dark Fiber Transport element descriptions and USOCs that are subject to the FCC UNE Relief Order; however, this Agreement may also contain additional and/or older element descriptions and USOCs that are also UNE Dark Fiber Transport subject to the FCC UNE Relief Order. Also, to the extent Exhibit A contains UNE descriptions or USOCs that are not affected by the FCC UNE Relief Order, such UNEs and USOCs are listed solely for the convenience of the Parties and this Section 9 shall not alter the Parties' rights and obligations with respect to such UNEs and USOCs. If the FCC determines that additional wire centers are subject to forbearance, CLEC shall cease

ordering DFT as of the date specified by the FCC and adhere to any FCC-specified transition timelines.

a. To the extent CLEC fails to adhere to the above, AT&T, at AT&T's sole discretion, may take one or more of the following actions for any remaining UNE Dark Fiber Transport and CLEC will be responsible for all recurring and non-recurring charges:
   i. convert to AT&T tariff or guidebook services (in which case month-to-month rates, terms and conditions shall apply), or
   ii. reprice by application of a new rate (or by application of a surcharge to an existing rate) that applies under (i) above, or
   iii. disconnect.

b. AT&T reserves the right, subject to any backbilling limitation period set forth in the Agreement, to backbill CLEC for the difference between an UNE Dark Fiber Transport rate and the non-UNE rate that applies under this Section 9 for any new UNE Dark Fiber Transport inadvertently ordered on or after February 8, 2021, and any UNE Dark Fiber Transport Embedded Base remaining as of February 8, 2029.

c. AT&T's election to reprice the UNE Dark Fiber Transport shall not preclude AT&T from later converting the UNE Dark Fiber Transport to a DFT arrangement available under a separate AT&T tariff or guidebook service.

10. As of February 8, 2021, CLEC may no longer order new UNE Subloops or UNE Network Interface Devices (NIDs) pursuant to this Agreement.

11. As of February 8, 2021, CLEC may no longer covert existing Special Access circuits (as defined, ordered, and provisioned in AT&T ILEC's interstate and/or intrastate tariffs) to UNEs.

12. To facilitate mutual planning by the Parties, CLEC shall endeavor to provide a non-binding forecast of the total number of Unbundled Loops in its embedded customer base that it plans to migrate to an alternate product or service. CLEC shall work with AT&T to establish mutually agreed to daily order volume parameters and make a reasonable effort to affect a timely and orderly migration by the end of the transition period.

13. Any future forbearance from or rule changes for Section 251(c)(3) UNEs offered pursuant to this Agreement shall be incorporated by reference as of the effective date of the FCC order and shall not require a written amendment. AT&T shall provide Notice to CLEC of how the Parties will implement the subsequent UNE forbearance or rule change in accordance with the applicable FCC order. Notice will include applicable transition periods and any changes to rate(s), term(s) and/or condition(s) to the underlying Agreement.

14. The Agreement is hereby amended to reflect the organizational change as shown in Exhibit B.

15. This Amendment shall be deemed to revise the terms and provisions of the Agreement only to the extent necessary to give effect to the terms and provisions of this Amendment. In the event of a conflict between the terms and provisions of this Amendment and the terms and provisions of the Agreement (including all incorporated or accompanying Appendices, Addenda, and Exhibits to the Agreement), this Amendment shall govern, provided, however, that the fact that a term or provision appears in this Amendment but not in the Agreement, or in the Agreement but not in this Amendment, shall not be interpreted as, or deemed grounds for finding, a conflict for purposes of this Amendment.

16. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.

17. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement.

18. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.

19. Signatures by all Parties to this Amendment are required to effectuate this Amendment. This Amendment may be executed in counterparts. Each counterpart shall be considered an original and such counterparts shall together constitute one and the same instrument.

AMENDMENT TO THE AGREEMENT BETWEEN MCIMETRO ACCESS TRANSMISSION SERVICES CORP., MCIMETRO ACCESS TRANSMISSION SERVICES LLC, MCIMETRO ACCESS TRANSMISSION SERVICES LLC D/B/A VERIZON ACCESS TRANSMISSION SERVICES AND BELLSOUTH TELECOMMUNICATIONS, LLC D/B/A AT&T ALABAMA, AT&T FLORIDA, AT&T GEORGIA, AT&T KENTUCKY, AT&T LOUISIANA, AT&T MISSISSIPPI, AT&T NORTH CAROLINA, AT&T SOUTH CAROLINA AND AT&T TENNESSEE, ILLINOIS BELL TELEPHONE COMPANY, LLC D/B/A AT&T ILLINOIS, INDIANA BELL TELEPHONE COMPANY INCORPORATED D/B/A AT&T INDIANA, MICHIGAN BELL TELEPHONE COMPANY D/B/A AT&T MICHIGAN, NEVADA BELL TELEPHONE COMPANY D/B/A AT&T NEVADA AND AT&T WHOLESALE, THE OHIO BELL TELEPHONE COMPANY D/B/A AT&T OHIO, PACIFIC BELL TELEPHONE COMPANY D/B/A AT&T CALIFORNIA, SOUTHWESTERN BELL TELEPHONE COMPANY D/B/A AT&T ARKANSAS, AT&T KANSAS, AT&T MISSOURI, AT&T OKLAHOMA AND AT&T TEXAS, WISCONSIN BELL, INC. D/B/A AT&T WISCONSIN

This Amendment (the "Amendment") amends the Agreement(s) by and between AT&T and CLEC as shown in the attached Exhibit C. AT&T and CLEC are hereinafter referred to collectively as the "Parties" and individually as a "Party".

WHEREAS, AT&T and CLEC are Parties to the Agreement(s) as shown in the attached Exhibit C; and

WHEREAS, The Parties desire to amend the Interconnection Agreement to modify certain rates; and

NOW, **THEREFORE**, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreement as follows:

1. The Amendment is composed of the foregoing recitals and the terms and conditions contained herein, and Pricing Sheets (Exhibit A and Exhibit B), all of which are hereby incorporated by this reference and constitute a part of this Amendment.
2. Add the Pricing Sheet in Exhibit A. The rates in Exhibit A supersede the rates for the corresponding elements in the Pricing Sheet in the Agreement.
3. To the extent CLEC is no longer purchasing commercial local transport pursuant to a separate agreement using the USOCs and Basic Classes of Services set forth on the Pricing Sheet in Exhibit A, CLEC shall provide Notice to AT&T to implement the rates set forth in Exhibit B. Upon verification that CLEC is no longer purchasing commercial local transport, AT&T will implement the rates in Exhibit B. Depending on CLEC's bill period and AT&T billing system processes, the rate change may take up to two billing cycles to go into effect.
4. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
5. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement
6. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law, or under the intervening law, or regulatory change provisions, in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.
7. This Amendment shall be filed with the applicable State Commission(s) and will become effective July 12, 2022.

D/B/A AT&T WISCONSIN

This Amendment (the "Amendment") amends the Agreement(s) by and between AT&T and CLEC as shown in the attached Exhibit B. AT&T and CLEC are hereinafter referred to collectively as the "Parties" and individually as a "Party".

WHEREAS, AT&T and CLEC are Parties to the Agreement(s) as shown in the attached Exhibit B; and as subsequently amended (the "Agreement"); and

WHEREAS, MCImetro Access Transmission Services Corp. has changed its form of organization from a Corporation to a Limited Liability Company and wishes to reflect that change as set forth herein; and

WHEREAS, the Parties desire to amend the Agreement to implement the FCC Orders FCC-19-66 and FCC-19-72 in WC Dkt. No. 18-141; Petition of USTelecom for Forbearance Pursuant to 47 U.S.C. § 160(c) to Accelerate Investment in Broadband and Next-Generation Networks which was filed with the FCC on May 4, 2018 (FCC Order 19-72, the "FCC UNE and Resale Forbearance Order"); and

WHEREAS, the Parties desire to amend the Agreement to implement the FCC Order FCC-20-152 in WC Dkt. No. 19-308; Modernizing Unbundling and Resale Requirements in an Era of Next-Generation Networks and Services which became effective on February 8, 2021 ("FCC UNE Relief Order"); and

NOW, **THEREFORE**, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreement as follows:

1. The Amendment is composed of the foregoing recitals and the terms and conditions contained herein, all of which are hereby incorporated by this reference and constitute a part of this Amendment.

2. As of February 2, 2020, except for resale services that are grandfathered pursuant to subsection 2.a below, CLEC's purchase of retail services for resale under the Agreement shall be deemed to be purchased for resale pursuant to Section 251(b)(1) of the Act, and the wholesale discount previously available under Section 251(c)(4) of the Act as of February 2, 2020 ("Wholesale Discount"), shall no longer be mandatory. Any changes to the discount will be made with 180 days notice, and in any case shall not result in CLEC being charged more than the amount permitted under Section 251(b)(1) of the Act and, for the Resale Embedded Base, shall take effect no earlier than the date specified in Section 2.a below.

   a. Resale services ordered on or before February 1, 2020 ("Resale Embedded Base") are grandfathered at the Wholesale Discount until August 2, 2022, after which 180 days notice will be provided before a change can be made (which change in any case shall not result in CLEC being charged more than the amount permitted under Section 251(b)(1) of the Act) and available only:

i. to the same End User; and

ii. at that same End User's existing location;

iii. both as of February 2, 2020.

3. Intentionally Left Blank.

4. As of February 2, 2020, CLEC may no longer order 2-Wire Analog UNE Loops or 4-Wire Analog UNE Loops ("Analog Loops") pursuant to this Agreement. Any existing Analog Loops ordered on or before February 1, 2020 ("Analog Loop Embedded Base") are grandfathered until August 2, 2022. CLEC shall convert the Analog Loop Embedded Base to a commercial offering, or other comparable service, or disconnect such Analog Loop on, or before, August 1, 2022. Exhibit A to this Amendment contains Analog Loop element descriptions and USOCs that are subject to the FCC UNE and Resale Forbearance Order, however this Agreement may also contain additional and/or older element descriptions and USOCs that are also Analog Loops subject to the FCC UNE and Resale Forbearance Order. Also, to the extent Exhibit A contains UNE descriptions or USOCs that are not affected by the FCC UNE and Resale Forbearance Order, such UNEs and USOCs are listed solely for the convenience of the Parties and this Section 4 shall not alter the Parties' rights and obligations with respect to such UNEs and USOCs.

   a. To the extent CLEC fails to adhere to the above AT&T, at AT&T's sole discretion, may take one or more of the following actions for any remaining Analog Loops and CLEC will be responsible for all recurring and non-recurring charges:

      i. convert to an analogous arrangement available under a separate commercial agreement executed by the Parties, or

      ii. convert to AT&T tariff or guidebook services (in which case month-to-month rates, terms and conditions shall apply), or

      iii. reprice by application of a new rate (or by application of a surcharge to an existing rate) that applies under (i) or (ii) above, or

      iv. disconnect.

   b. AT&T reserves the right, subject to any backbilling limitation period set forth in the Agreement, to backbill CLEC for the difference between an Analog Loop rate and the non-UNE rate that applies under this Section 4 for any new Analog Loops inadvertently ordered on or after February 2, 2020, and any Analog Loop Embedded Base remaining as of August 1, 2022.

   c. AT&T's election to reprice the Analog Loop shall not preclude AT&T from later converting the Analog Loop to an analogous arrangement available under a separate commercial agreement or an AT&T tariff or guidebook service.

5. As of January 12, 2020, CLEC may no longer order DS1/DS3 Unbundled Dedicated Transport ("DS1/DS3 UDT"), whether stand-alone or part of a combination (e.g., Enhanced Extended Link), pursuant to this Agreement between Tier 1 wire centers and/or wire centers subject to UDT forbearance under Public Notice DA 19-733, dated August 1, 2019. Any such existing DS1/DS3 UDT ordered on or before January 11, 2020, is grandfathered until July 12, 2022 ("UDT Embedded Base").

   i. CLEC must disconnect or convert any grandfathered DS1/DS3 UDT to another product/service offering on or before July 12, 2022, pursuant to the Conversion of 251(c)(3) UNE/UNE Combinations to Wholesale Services provisions of this Agreement or other similar provision.

   ii. If CLEC fails to convert grandfathered DS1/DS3 UDT before July 12, 2022, at AT&T's sole discretion, AT&T may convert any, or all, of the remaining DS1/DS3 UDT to the equivalent Special Access service at month-to-month rates, terms and conditions. CLEC shall be responsible for all associated recurring and non-recurring charges.

   iii. AT&T reserves the right, to backbill CLEC for the difference between a DS1/DS3 UDT rate and the non-UNE rate that applies under this Section 5 for any new circuits inadvertently ordered on or after January 12, 2020 and any UDT Embedded Base remaining as of July 12, 2022. , AT&T may back bill CLEC for the 12 months prior to the month in which it provides notice to CLEC that it identified a non-compliant circuit and for any additional months the circuit remains non-compliant until AT&T and or CLEC correct the non-compliance.

iv. If the FCC determines that additional wire centers are subject to forbearance, CLEC shall cease ordering DS1/DS3 UDT as of the date specified by the FCC and adhere to any FCC-specified transition timelines.

6. As of February 8, 2023, CLEC may no longer order new 2-Wire Digital UNE Loops ("Digital Loops") pursuant to this Agreement in Wire Centers where at least 50% of the census blocks served are designated as urbanized areas by the United States Census Bureau. Any existing Digital Loops ordered on or before February 8, 2023 ("Digital Loop Embedded Base") are grandfathered until February 8, 2025. CLEC shall convert the Digital Loop Embedded Base to a commercial offering, or an alternate arrangement, or disconnect such Digital Loop on or before February 8, 2025. Exhibit A to this Amendment contains Digital Loop element descriptions and USOCs that are subject to the FCC UNE Relief Order; however, this Agreement may also contain additional and/or older element descriptions and USOCs that are also Digital Loops subject to the FCC UNE Relief Order. Also, to the extent Exhibit A contains UNE descriptions or USOCs that are not affected by the FCC UNE Relief Order, such UNEs and USOCs are listed solely for the convenience of the Parties and this Section 6 shall not alter the Parties' rights and obligations with respect to such UNEs and USOCs.

   a. To the extent CLEC fails to adhere to the above, at AT&T's sole discretion, AT&T may take one or more of the following actions for any remaining Digital Loops and CLEC will be responsible for all recurring and non-recurring charges:

      i. convert to a digital arrangement available under a separate commercial agreement executed by the Parties, or

      ii. convert to AT&T tariff or guidebook services (in which case month-to-month rates, terms and conditions shall apply), or

      iii. reprice by application of a new rate (or by application of a surcharge to an existing rate) that applies under (i) or (ii) above, or

      iv. disconnect.

   b. AT&T reserves the right, to backbill CLEC for the difference between the Digital Loop rate and the non-UNE rate that applies under this Section 6 for any new noncompliant Digital Loops inadvertently ordered on or after February 8, 2023, and any Digital Loop Embedded Base remaining as of February 8, 2025. For any new noncompliant Digital Loops inadvertently ordered on or after February 8, 2023, AT&T may back bill CLEC for the 12 months prior to the month in which it provides notice to CLEC that it identified a non-compliant circuit and for any additional months the circuit remains non-compliant until AT&T and or CLEC correct the non-compliance.

   c. AT&T's election to reprice the Digital Loop shall not preclude AT&T from later converting the Digital Loop to a Digital arrangement available under a separate commercial agreement or an AT&T tariff or guidebook service.

   d. AT&T reserves the right to raise its rates by up to 25% for the period from February 08, 2024 through February 7, 2025 by providing at least thirty (30) days' advance written notice of any such increase. and may elect to increase rates to market rates after February 08, 2025, when the grandfathering period expires. AT&T shall provide Notice to CLEC of how the Parties will implement the subsequent rate changes.

7. As of February 8, 2023, CLEC may no longer order new DS1 UNE Loops ("DS1 Loops") pursuant to this Agreement in Wire Centers in counties deemed by the FCC to be competitive in the BDS proceeding as listed in the AT&T Guidebook in accordance with the FCC's determinations, which may change from time to time. Any existing DS1 Loops ordered on or before February 8, 2023 ("DS1 Loop Embedded Base") are grandfathered until August 8, 2024. CLEC shall convert the DS1 Loop Embedded Base to an alternate arrangement, or disconnect such DS1 Loop on or before August 8, 2024. Exhibit A to this Amendment contains DS1 Loop element descriptions and USOCs that are subject to the FCC UNE Relief Order; however, this Agreement may also contain additional and/or older element descriptions and USOCs that are also DS1 Loops subject to the FCC UNE Relief Order. Also, to the extent Exhibit A contains UNE descriptions or USOCs that are not affected by the FCC UNE Relief Order, such UNEs and USOCs are listed solely for the convenience of the Parties and this Section 7 shall not alter the Parties' rights and obligations with respect to such UNEs and USOCs.

   a. To the extent CLEC fails to adhere to the above, AT&T, at AT&T's sole discretion, may take one or more of the following actions for any remaining DS1 Loops and CLEC will be responsible for all recurring and non-recurring charges:

      i. convert to AT&T tariff or guidebook services (in which case month-to-month rates, terms and conditions shall apply), or

ii. reprice by application of a new rate (or by application of a surcharge to an existing rate) that applies under (i) above, or

iii. disconnect.

b. AT&T reserves the right to backbill CLEC for the difference between the DS1 Loop rate and the non-UNE rate that applies under this Section 7 for any new noncompliant DS1 Loops inadvertently ordered on or after February 8, 2023, and any DS1 Loop Embedded Base remaining as of August 8, 2024. For any new noncompliant DS1 Loops inadvertently ordered on or after February 8, 2023, AT&T may back bill CLEC for the 12 months prior to the month in which it provides notice to CLEC that it identified a non-compliant circuit and for any additional months the circuit remains non-compliant until AT&T and or CLEC correct the non-compliance.

c. AT&T's election to reprice the DS1 Loop shall not preclude AT&T from later converting the DS1 Loop to a DS1 arrangement available under a separate AT&T tariff or guidebook service.

8. As of February 8, 2021, CLEC may no longer order new DS3 UNE Loops ("DS3 Loops") pursuant to this Agreement in Wire Centers in counties deemed by the FCC to be competitive in the BDS proceeding as listed in the AT&T Guidebook in accordance with the FCC's determinations, which may change from time to time.. Any existing DS3 Loops described in the preceding sentence that CLEC ordered on or before February 8, 2021 ("DS3 Loop Embedded Base") are grandfathered until February 8, 2024. CLEC shall convert the DS3 Loop Embedded Base to an alternate arrangement, or disconnect such DS3 Loop on or before February 8, 2024. Exhibit A to this Amendment contains DS3 Loop element descriptions and USOCs that are subject to the FCC UNE Relief Order, however this Agreement may also contain additional and/or older element descriptions and USOCs that are also DS3 Loops subject to the FCC UNE Relief Order. Also, to the extent Exhibit A contains UNE descriptions or USOCs that are not affected by the FCC UNE Relief Order, such UNEs and USOCs are listed solely for the convenience of the Parties and this Section 8 shall not alter the Parties' rights and obligations with respect to such UNEs and USOCs.

a. To the extent CLEC fails to adhere to the above, at AT&T's sole discretion, AT&T may take one or more of the following actions for any remaining DS3 Loops and CLEC will be responsible for all recurring and non-recurring charges:

i. convert to AT&T tariff or guidebook services (in which case month-to-month rates, terms and conditions shall apply), or

ii. reprice by application of a new rate (or by application of a surcharge to an existing rate) that applies under (i) above, or

iii. disconnect.

b. AT&T reserves the right, to backbill CLEC for the difference between the DS3 Loop rate and the non-UNE rate that applies under this Section 8 for any new noncompliant DS3 Loops inadvertently ordered on or after February 8, 2021, and any DS3 Loop Embedded Base remaining as of February 8, 2024. For any new noncompliant DS3 Loops inadvertently ordered on or after February 8, 2021, AT&T may back bill CLEC for the 12 months prior to the month in which it provides notice to CLEC that it identified a non-compliant circuit and for any additional months the circuit remains non-compliant until AT&T and or CLEC correct the non-compliance.

c. AT&T's election to reprice the DS3 Loop shall not preclude AT&T from later converting the DS3 Loop to a DS3 arrangement available under a separate AT&T tariff or guidebook service.

9. As of February 8, 2021, CLEC may no longer order new UNE Dark Fiber Transport ("DFT") pursuant to this Agreement where the dark fiber transport is connected, at both ends of the transport route, to a Tier 3 wire center located within ½ mile of competitive fiber as described in the FCC UNE Relief Order and designated by the FCC. Any existing UNE Dark Fiber Transport facility described in the preceding sentence that CLEC ordered before February 8, 2021 ("Dark Fiber Transport Embedded Base") is grandfathered until February 8, 2029. CLEC shall convert the UNE Dark Fiber Transport Embedded Base to an alternate arrangement, or disconnect such UNE Dark Fiber Transport on or before February 8, 2029. Exhibit A to this Amendment contains UNE Dark Fiber Transport element descriptions and USOCs that are subject to the FCC UNE Relief Order; however, this Agreement may also contain additional and/or older element descriptions and USOCs that are also UNE Dark Fiber Transport subject to the FCC UNE Relief Order. Also, to the extent Exhibit A contains UNE descriptions or USOCs that are not affected by the FCC UNE Relief Order, such UNEs and USOCs are listed solely for the convenience of the Parties and this Section 9 shall not alter the Parties' rights and obligations with respect to such UNEs and USOCs. If the FCC determines that additional wire centers are subject to forbearance, CLEC shall cease

ordering DFT as of the date specified by the FCC and adhere to any FCC-specified transition timelines.

a. To the extent CLEC fails to adhere to the above, AT&T, at AT&T's sole discretion, may take one or more of the following actions for any remaining UNE Dark Fiber Transport and CLEC will be responsible for all recurring and non-recurring charges:
   i. convert to AT&T tariff or guidebook services (in which case month-to-month rates, terms and conditions shall apply), or
   ii. reprice by application of a new rate (or by application of a surcharge to an existing rate) that applies under (i) above, or
   iii. disconnect.

b. AT&T reserves the right, subject to any backbilling limitation period set forth in the Agreement, to backbill CLEC for the difference between an UNE Dark Fiber Transport rate and the non-UNE rate that applies under this Section 9 for any new UNE Dark Fiber Transport inadvertently ordered on or after February 8, 2021, and any UNE Dark Fiber Transport Embedded Base remaining as of February 8, 2029.

c. AT&T's election to reprice the UNE Dark Fiber Transport shall not preclude AT&T from later converting the UNE Dark Fiber Transport to a DFT arrangement available under a separate AT&T tariff or guidebook service.

10. As of February 8, 2021, CLEC may no longer order new UNE Subloops or UNE Network Interface Devices (NIDs) pursuant to this Agreement.

11. As of February 8, 2021, CLEC may no longer covert existing Special Access circuits (as defined, ordered, and provisioned in AT&T ILEC's interstate and/or intrastate tariffs) to UNEs.

12. To facilitate mutual planning by the Parties, CLEC shall endeavor to provide a non-binding forecast of the total number of Unbundled Loops in its embedded customer base that it plans to migrate to an alternate product or service. CLEC shall work with AT&T to establish mutually agreed to daily order volume parameters and make a reasonable effort to affect a timely and orderly migration by the end of the transition period.

13. Any future forbearance from or rule changes for Section 251(c)(3) UNEs offered pursuant to this Agreement shall be incorporated by reference as of the effective date of the FCC order and shall not require a written amendment. AT&T shall provide Notice to CLEC of how the Parties will implement the subsequent UNE forbearance or rule change in accordance with the applicable FCC order. Notice will include applicable transition periods and any changes to rate(s), term(s) and/or condition(s) to the underlying Agreement.

14. The Agreement is hereby amended to reflect the organizational change as shown in Exhibit B.

15. This Amendment shall be deemed to revise the terms and provisions of the Agreement only to the extent necessary to give effect to the terms and provisions of this Amendment. In the event of a conflict between the terms and provisions of this Amendment and the terms and provisions of the Agreement (including all incorporated or accompanying Appendices, Addenda, and Exhibits to the Agreement), this Amendment shall govern, provided, however, that the fact that a term or provision appears in this Amendment but not in the Agreement, or in the Agreement but not in this Amendment, shall not be interpreted as, or deemed grounds for finding, a conflict for purposes of this Amendment.

16. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.

17. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement.

18. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.

19. Signatures by all Parties to this Amendment are required to effectuate this Amendment. This Amendment may be executed in counterparts. Each counterpart shall be considered an original and such counterparts shall together constitute one and the same instrument.

AMENDMENT TO THE AGREEMENT BETWEEN MCIMETRO ACCESS TRANSMISSION SERVICES CORP., MCIMETRO ACCESS TRANSMISSION SERVICES LLC, MCIMETRO ACCESS TRANSMISSION SERVICES LLC D/B/A VERIZON ACCESS TRANSMISSION SERVICES AND BELLSOUTH TELECOMMUNICATIONS, LLC D/B/A AT&T ALABAMA, AT&T FLORIDA, AT&T GEORGIA, AT&T KENTUCKY, AT&T LOUISIANA, AT&T MISSISSIPPI, AT&T NORTH CAROLINA, AT&T SOUTH CAROLINA AND AT&T TENNESSEE, ILLINOIS BELL TELEPHONE COMPANY, LLC D/B/A AT&T ILLINOIS, INDIANA BELL TELEPHONE COMPANY INCORPORATED D/B/A AT&T INDIANA, MICHIGAN BELL TELEPHONE COMPANY D/B/A AT&T MICHIGAN, NEVADA BELL TELEPHONE COMPANY D/B/A AT&T NEVADA AND AT&T WHOLESALE, THE OHIO BELL TELEPHONE COMPANY D/B/A AT&T OHIO, PACIFIC BELL TELEPHONE COMPANY D/B/A AT&T CALIFORNIA, SOUTHWESTERN BELL TELEPHONE COMPANY D/B/A AT&T ARKANSAS, AT&T KANSAS, AT&T MISSOURI, AT&T OKLAHOMA AND AT&T TEXAS, WISCONSIN BELL, INC. D/B/A AT&T WISCONSIN

This Amendment (the "Amendment") amends the Agreement(s) by and between AT&T and CLEC as shown in the attached Exhibit C. AT&T and CLEC are hereinafter referred to collectively as the "Parties" and individually as a "Party".

WHEREAS, AT&T and CLEC are Parties to the Agreement(s) as shown in the attached Exhibit C; and

WHEREAS, The Parties desire to amend the Interconnection Agreement to modify certain rates; and

NOW, **THEREFORE**, in consideration of the promises and mutual agreements set forth herein, the Parties agree to amend the Agreement as follows:

1. The Amendment is composed of the foregoing recitals and the terms and conditions contained herein, and Pricing Sheets (Exhibit A and Exhibit B), all of which are hereby incorporated by this reference and constitute a part of this Amendment.
2. Add the Pricing Sheet in Exhibit A. The rates in Exhibit A supersede the rates for the corresponding elements in the Pricing Sheet in the Agreement.
3. To the extent CLEC is no longer purchasing commercial local transport pursuant to a separate agreement using the USOCs and Basic Classes of Services set forth on the Pricing Sheet in Exhibit A, CLEC shall provide Notice to AT&T to implement the rates set forth in Exhibit B. Upon verification that CLEC is no longer purchasing commercial local transport, AT&T will implement the rates in Exhibit B. Depending on CLEC's bill period and AT&T billing system processes, the rate change may take up to two billing cycles to go into effect.
4. EXCEPT AS MODIFIED HEREIN, ALL OTHER TERMS AND CONDITIONS OF THE UNDERLYING AGREEMENT SHALL REMAIN UNCHANGED AND IN FULL FORCE AND EFFECT.
5. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement, but rather, shall be coterminous with such Agreement
6. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law, or under the intervening law, or regulatory change provisions, in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review.
7. This Amendment shall be filed with the applicable State Commission(s) and will become effective July 12, 2022.
