REQTYP A - Unbundled (CO Based) Line Share BST-Owned Splitter

Description

Unbundled Network Elements (UNE) CO Based Line Share is a UNE offering intended to allow DLEC/CLECs access to the upper spectrum or the high frequency portion of a 2-wire copper loop for xDSL services, a.k.a. data. BellSouth® will continue to be the provider of the lower spectrum or low frequency portion of the loop for analog services, a.k.a. voice.
Line Share is a UNE offering that enables the DLEC/CLEC to provide xDSL-based services for the end user customer over the same copper loop that BellSouth® provides the end user's voice service.

Completing the LSR and EU Forms/Screens

The Required, Conditional and Optional (R/C/O) fields on the LSR and EU forms will be given for every valid REQTYP/ACT combination in the **REQTYP / ACT Combination** Section. The following chart shows all of the valid account level activities for this requisition type.

REQTYP	ACTIVITY TYPE (ACCOUNT LEVEL)													
	N	C	D	T	R	V	S	B	W	L	Y	P	Q
A - Line Share (BST-Owned Splitter)	X	X	X			X						X	X

Note: " X " denotes valid account level activities. A blank entry indicates a non-valid account level activity.

Account level activities (ACT) apply to the entire account. The ACTs are defined below:
   N * = New installation and/or account
   C * = Change an existing account (e.g., Rearrangement, Partial disconnect, or addition)
   D = Disconnection
   T = Outside move of end user location
   R = Record activity is for ordering administrative changes

**NOTE: * = First appearance of Line Sharing (per account) will be ACT = N;
additional Line Sharing on the *same* account will be ACT = C.**

**NOTE: ** =ACT of D is the *removal of Line Splitting* from the account, NOT the
actual line.**

REQTYP / ACT Combinations REQTYP A:
Unbundled (CO Based) -- [BST-Owned Splitter]

The following charts show the Required, Conditional and Optional (R/C/O) fields on the LSR
and EU forms for the valid REQTY /ACT combinations. LSR and EU forms for a valid
REQTYP/ACT combination are paired together. Furthermore, the charts are organized by ACT
and then Designed vs. Non-Designed within the ACT. Each chart will have a heading describing
the REQTYP/ACT combination and Designed / NON-Designed status to which that chart is
applicable.
All unmentioned fields are either invalid, not applicable, prohibited or not supported. When
fields are populated which are not supported by BellSouth, these not supported fields will be
ignored. Populating any other fields may result in a fatal reject or a clarification of the service
request.
Please note the following codes:
- Mandatory entries are indicated by quotation marks ("xxx").
- Optional fields marked with an asterisk (*) force at least one of the conditional fields to
  become required when populated.
- Fields used only for manual orders are followed by (m).
- Fields used only for electronic orders are followed by (e).
See the **Data Element Dictionary** Section for additional information on each of the fields listed
below.
