Date: November 8, 2002

To: Competitive Local Exchange Carriers (CLECs)

Subject: CLECs – Update to the BellSouth Business Rules for Local Ordering (BBR-LO) -
              REQTYP A (Loops) with ACTIVITY (ACT) of T

BellSouth has identified a documentation defect in the BBR-LO for loops with ACT of T.
This letter is to advise CLECs that effective immediately, when submitting a Local Service
Request (LSR) for REQTYP A with an ACT of T, the serving wire center (Central Office) cannot
be changed.

These changes will be reflected in the next update to the BBR-LO, Release 11.0, scheduled for
December 29, 2002.

The updates will be posted to the BellSouth Interconnection Services' Web site at:

                    http://www.interconnection.bellsouth.com/guides/html/leo.html

Attached is a copy of the supporting BBR-LO documentation, which will be reflective in the
December 29, 2002 release of the BBR-LO, Release 11.0.

If you have any questions, please contact your BellSouth Local Support Manager.

Sincerely,
