Date: May 30, 2003

To: Competitive Local Exchange Carriers (CLECs)

Subject: CLECs – Update to the Local Ordering Handbook (LOH)

This is to advise that BellSouth has identified the following documentation defects in the LOH Version 13.0b

Change Request Number	CCP Number	Description Of The Change
3718	1198	Correct examples in the LOH, version 13.0, Pre-Order Section, Page 546, Appendix C for "Location Fields in Address Validation Requests". Under the "Usage Example Column" >> Remove the "SPACE" between the "Required Prefix" and the "Designation'. See examples for "Bldg, Pier, Wing, Slip, Suit and UNIT.
3719	1213	This request is being made, because the standard interval for converting to UNE-P Res Bus is 0 -1 days, however, when converting from some Complex Services to UNE-P business 0-1 days cannot be met.
3722*	1214	DACT was removed from the LACT = N RCO table per CRB issue 3689, which was the only RCO table where it appeared. However, the use of the DACT field is referenced in business rules for DDALOC, DDASN, DDAST, DDAZC, and the NAME fields.
3724	1215	Correcting business rules for TNS field on Resale Form

* These issues do not have attachments.

Please refer to the attachments for specific details of the changes listed above.

These changes will be reflected in the LOH with the implementation of ENCORE Release 13.0 scheduled for June 22 and 23, 2003.

A summary of all changes within this document will be listed in the **Summary of changes Section**. This update can be found on the BellSouth Interconnection Services' Web site in the Customer Guides Section at:
