BellSouth Interconnection Services
675 West Peachtree Street
Atlanta, Georgia 30375

Carrier Notification
SN91083784

Date: August 11, 2003

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – Update to the BellSouth Local Ordering Handbook (LOH)

This is to advise that BellSouth has identified the following documentation defects in the LOH.

Change Request Number	CCP Number	Description Of The Change
3782	1304	Parsed CSR general statement correction. On page 312, in the Parsed Customer Record Query section, please delete the following sentence: The Parse transaction supports POTS accounts and currently doesn't support complex accounts
3786	1307	Updated the BellSouth SMARTRING CLEC Ordering Document and the Line-by-Line for REQTYP E
3787	1298	REQTYP J (LACT) Please add the (m) indicator on the AN and ATN fields for the LACT tables. LACT=D AN (M) ATN (M) LACT=N AN (M) ATN (M) LACT=I AN (M) ATN (M) LACT=O AN (M) ATN (M)
3789	1305	Delete all R/C/O Columns from the "RESPONSE" Sections of the 13.0 Pre-order LOH

Please refer to the attachments for specific details of the changes listed above.

These changes will be reflected in the LOH Telecommunications Industry Forum 9 (TCIF9) with the implementation of ENCORE Release 13.0 C scheduled for September 26, 2003.

A summary of all changes within this document will be listed in the Summary of changes Section. This update can be found at the BellSouth Interconnection Services' Web site in the Customer Guides Section at:

http://www.interconnection.bellsouth.com/guides/html/leo.html

Please contact your BellSouth Local Support Manager with any questions.

Sincerely,

ORIGINAL SIGNED BY PAM TIPTON FOR JERRY HENDRIXA

Jerry Hendrix – Assistant Vice President
BellSouth Interconnection Services

Parsed Customer Record Query (PCSRQ)

This query is used to request customer record information in a parsed format via an account telephone number (ATN), or an account number (AN) with a working telephone number (WTN). Additionally this query can request an itemized list of local services using a telephone number.

The Bellsouth Parsed CSR transaction is intended for noncomplex accounts, PBX and DID. ~~The Parse transaction supports POTS accounts and currently doesn't support complex accounts.~~

BellSouth® SMARTRing Form Instructions Field
(SMARTRing Channel Interface)

FIELD	FIELD DEFINITIONS
1. Complete Local Service Request Form (LSR)	**1. This information is provided by the CLEC. See CLEC Local Service Request document.**
2. Complete End User Information Form (EU)	**2. This information is provided by the CLEC. See CLEC Local Service Request document.**
3. End User name	**3. Identifies the name of the customer (company Name) for services.**
4. PON (Purchase Order Number)	**4. Identifies the CLEC unique order or requisition number that authorizes the issuance of this request.**
5. Activity	**5. Identifies the activity type for request. Note: If activity is an add/change or disconnect, existing circuit ID and miscellaneous # is required.**
6. SMARTRing Service Type Channel Interface	**6. Indicates type of SMARTRing Service requested DS1 and/or DS3**
7. SMARTRing Level Type	**7. Check appropriate type of SMARTRing Level the Channel Interface is riding on.**
7a SMARTRing Directional	**7a. Check appropriate direction of the SMARTRing for OC48+ and OC192+ Only.**
8. Payment Type Requested	**8. Check appropriate type of payment plan and effective contract date. Note: As indicated, some payment plans require a signed Service Agreement document. See your BellSouth Account Team Representative for forms.**
9. SMARTRing Level Miscellaneous Account Number, SNID and CFA information	**9. Enter the Miscellaneous Account Number (MISC), SONET Network Identifier (SNID), and Circuit Facility Assignment (CFA). (if applicable)**
10. Service Location Address (CKL 1)	**10. 1. Enter Service Location Address (CKL 1) , 2. Check Node Type, 3. Check Channelization**
10a. EU Location, CLEC Switch, BellSouth Central Office	**10a. Check the appropriate Address type of the Service Location (CKL 1).** • **EU Loc (End User),**

BELLSOUTH ®

FIELD	FIELD DEFINITIONS
	• **CLEC Switch.** • **BellSouth C.O.(Central Office)**

11. Service Location Address (CKL 2)	**11. 1. Enter Service Location Address (CKL 2)**
	  2. Check Node Type
	  3. Check Channelization

11a. EU Location, CLEC Switch, BellSouth Central Office	**11a. Check the appropriate Address type of the Service Location (CKL 2).** • **EU Loc (End User)** • **CLEC Switch.** • **BellSouth C.O. (Central Office**
12. LSO: Local Servicing Office Switch	**12. Enter the Local Service Office NXX**
13. B8ZS: Bipolar Coding	**13. Check Yes___ or No____**
14. ESF: Extend Super Frame	**14. Check Yes___ or No____**
15. Automatic Protection Switching	**15. Check Yes___ or No___**
16. Competitive Local Exchange Carrier Name	**16. Identifies the end user's Competitive Local Exchange Carrier (Company Name).**
17. Authorized Representative Name	**17. Identifies the CLEC representative authorized to request service on behalf of the end user.**
18. Authorized Representative Telephone Number	**18. Indicates the authorized CLEC representative's telephone number.**
19. Authorized Representative Signature	**19. Enter the signature of the CLEC representative indicated at line item 12.**
20. Date	**20. Date**

LACT (Listing Activities) Tables

The following charts show the Required, Conditional and Optional (R/C/O) fields for the DL and DSCR forms/screens for the valid Listing Activities (LACTs). Refer to the **Completing the DL and DSCR Forms/Screens** Section for a listing of the valid LACTs for each account level activity.

All unmentioned fields are either invalid, not applicable, prohibited or not supported. When fields are populated which are not supported by BellSouth, these not supported fields will be ignored. Populating any other fields may result in a fatal reject or a clarification of the service request.

Note the following codes:

- Mandatory entries are indicated by quotation marks ("xxx")
- Optional fields marked with an asterisk (*) force at least one of the conditional fields to become required when populated
- Fields used only for manual orders are followed by (m)
- Fields used only for electronic orders are followed by (e).

See the **Data Element Dictionary** Section for additional information on each of the fields listed below.
