## Carrier Notification

SN91084236
Date: $\quad$ September 17, 2004

## To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs - (Documentation/Guides) - Update to the BellSouth Local Ordering Handbook (LOH) Version 17.0, New Local Service Ordering Guide 6 (LSOG 6) and EDI Local Mechanization Specifications 6 (ELMS 6) for Release 17.0

This is to advise that BellSouth has identified the following documentation defects in the LOH Version 17.0 for ELMS 6 Release 17.0.

| CCP <br> Number | Description Of The Change |
| :---: | :--- |
| 1960 | Remove the LCSC Contact Telephone Numbers table from the LOH and updated verbiage <br> around url: http://interconnection.bellsouth.com/centers/html/lcsc.html. |
| 1996 | Change DQTY field from "Conditional" to "Optional". |
| 1997 | Modify Data Dictionary for DL and LSR [sections] for the LACT and ACT fields. |
| 2011 | LSO field: Modify Conditional Usage Note for LSO field on LSR Data Dictionary |
| 2036 | Add note to TNAQ-MISC field and add Usage Note to CITY field on the TNAQ-MISC query in <br> the TAG Business Rules, and in the EDI Data Dictionary |
| 2037 | SPEC [field] update for Dark Fiber Combo for Data Dictionary. |
| 2038 | R/C/O changes from Ordering LOH Audit: Changes to R/C/O tables as the result of an audit <br> of the Ordering LOH by the documentation team. (ELMS6 Release 17. only). Add <br> Conditional Usage Notes to Data Dictionary for FB-ROOM, FB-FLOOR, and FB-SBILLNM. |
| 2039 | REQTYP A UCL-ND (If ACT is tables): Modify the UCL=ND REQTYP A (IF ACT is tables) to <br> indicate that LNA = D 'N/A' and LS form is prohibited. |
| 2040 | Add new fields to the Pre-Order Data Dictionary for both TAG and EDI Data Dictionary. <br> Add the EATN and LEATN fields to the Estimated Service Date Query (table) in the TAG and <br> EDI Business Rules. |
| 2043 | Contract Assumption Agreements: Create a section for Contract Service Agreements in the <br> General Local Service Ordering section and remove the section for Local Resale contract <br> assumption agreements. |
| 2045 | DDDO field: Modify DDDO field in Data Dictionary and R/C/O tables. |

| 2046 | Modify R/C/O tables for LD1, LD2, LD3, LV1, LV2, LV3 fields; change "Optional" occurrences <br> of these fields LD1, LD2, LD3, LV1, LV2, LV3 to "Conditional". |
| :---: | :--- |
| 2047 | UNE-P to Resale (ACT W): Remove ACT W, update UNE-P to Resale - Remove ACT W (not <br> valid). |
| 2048 | R/C/O Table for MegaLink Channelized Trunk Service: /C/O Table for MegaLink Channelized <br> Trunk Service. |

Please refer to the attachments for specific details of the changes listed above.
These changes will be reflected in the next update of the ELMS 6 Release 17.0/LOH Version 17.0a scheduled to be posted September 17, 2004.

A summary of all changes within this document will be listed in the Summary of Changes Section. This update can be found on the BellSouth Interconnection Services Web site in the Customer Guides Section at:
http://www.interconnection.bellsouth.com/guides/html/leo.html
Please contact your BellSouth local support manager with any questions.
Sincerely,

## ORIGINAL SIGNED BY JERRY HENDRIX

## Jerry Hendrix - Assistant Vice President <br> BellSouth Interconnection Services

## General Local Service Ordering section

## Manual and Electronic Ordering

Manual LSRs (Local Service Request) are requests for local service submitted by a CLEC to the LCSC. There are two options available to the CLEC for submitting manual LSRs to the LCSC:

- Option 1: Fax directly to the LCSC for manual input. Manually submitted LSR's are manually handled and tracked.
- Option 2: Web Based LSR Web Based LSR's are submitted to the LCSC via the LENS GUI and are manually handled and tracked. (Refer to LENS User Guide for information on WEB Based LSR's)

Note: Alternate method of receipt for individual LSR's greater than 100 pages must be pre-arranged by the CLEC with LCSC management.

CLECs can submit orders either manually or electronically. Depending upon the method chosen, the CLEC may have to provide different information to BellSouth ${ }^{\circledR}$, that is, some data elements may be applicable only to manual or electronic orders, not both. For example, many of the data elements in the Administrative section of the LSR are repeated on each of the manual forms and must be completed to match the information on the LSR. These fields include PON, VER, AN, and ATN. When submitting an electronic request, however, these fields are populated once and the data flows through to all subsequent screens used in the order. Watch for these types of distinctions as they are made throughout this document.
LCSC LCSC/CRSG Contact Telephone Numbers
The Local Carrier Service Center (LCSC) is the single point of contact for a CLEC when manually submitting orders. Use the telephone numbers link below to find to contact numbers for the LCSC and CRSG. for questions relating to manually submitted local service requests and billing inquiries. All completed local service ordering forms may be sent via facsimile to the number indicated below. Prior to submitting service requests each CLEC will be assigned to either the Atlanta, Georgia or Birmingham, Alabama LCSC.
Click here for LCSC/CRSG Contact Telephone Numbers:
http://interconnection.bellsouth.com/centers/html/lcsc.html
Note: Local Service Requests that are sent to the incorrect fax server will be returned as rejected.

For questions/disputes concerning an LSR rejection, clarification or jeopardy notification the initial point of contact is the Fleming Island LCSC at 800-872-3116 (select appropriate ACD option to be transferred to Service Representative). In the event the LCSC is unable to resolve the issue the CLEC should follow normal escalation procedures. Click here for escalation procedures:
http://interconnection.bellsouth.com/centers/html/lcsc.html
Note: Local Service Requests that are sent to the incorrect fax server will be returned as rejected.

| Atlanta LCSC | Telephone Number | Fax Number |
| :---: | :---: | :---: |
| Resale - Consumer | $800-872-3116$ | $800-872-7059$ |

## CCP 1997 Attachment Listed Below

## LOH-17.0A-ELMS6

## ACT - Activity Type

## LSR Form/Screen

(LSOG6 / ELMS6 map)

## Definition:

Identifies the activity involved in this service request.

## Definition Notes:

None
Valid Entries:
Entry Description
Activity Activity Description
N New Installation and or account
C Change an existing account, e.g., rearrangement, partial disconnect or
addition
D Disconnection
L Suspend full account
T Move of an end user location to a new location, where LSP is not changing
R Record activity - ordering administrative changes
V Conversion of service to a new LSP
W Conversion of service to new LSP as is
S Suspend / restore partial account
B $\quad$ Restore full account / restore denied account
Y Deny

## Valid Entry Notes:

NOTE 1: REQTYP AB / ACT is V is only applicable for conversions from Retail, Resale, Non-
Complex UNE-P/WLP services, Complex UNE-P/WLP, BRI or PBX services where the Telephone Number
resides in the BellSouth ${ }^{\circledR}$ switch.

NOTE 2: When the REQTYP is A and the ACT is T, the serving wire center (Central Office) cannot be changed.

NOTE 3: When the ACT is T, the LSP may not be changed.
NOTE 4: Valid entry of C is used for INP to LNP conversions when the NPT is D (LNP).

NOTE 5: When the CC or NNSP field is populated with a wireless OCN the only valid entry in this field is $V$.

NOTE 6: [BULK] ACT of V is only valid ACT for Reqtyp B UNE to UNE Bulk.
NOTE 7: When the request is for directory delivery only, the ACT data must be R.
NOTE 8: ACT of V is only valid ACT for LNP to Resale UNE-P/WLP Migration (REQTYP E or M), and the SC=LCSL Data Characteristics:
1 alpha character
Examples:
V
Conditional Usage Notes:
None
Business Rules
Rule 1: On a supplement to a request this field carries the original activity type.
Rule 2: When the ACT field involves a change, the PON should be canceled and a new PON
submitted.
Rule 3: When ACT is S , the LNA must equal "L" or "B". This allows the end user to seasonally
suspend or restore some of the lines on an account.
Manual:
Rule 4\#\# : For split billing of a multi-line account, it is necessary to submit 2 LSR's. LSR\#1 - (ACT=C, LNA=D) Removes the line from the existing account. LSR\#2 - $(A C T=N, L N A=N)$ Establishes the NEW account.

Rule 5\#\#: (REQTYP B and C) Use ACT of C, when NPT is D (LNP) on LSNP or NP form/screen for INP to LNP conversions.

## LACT - Listing Activity Indicator

## DL Form/Screen

(LSOG6 / ELMS6 map)

## Definition:

Identifies the activity involved for this listing request.

## Definition Notes:

None
Valid Entries:
Entry Description
N New Listing
D Delete Listing
I Change Listing (new data to be inserted)
O Change Listing (old data)
Z No change to listing
ACT / LACT COMBINATIONS
If ACT is: Then LACT is: ( If there is Listing activity)
B Prohibited
C $\quad$, D, I or O
D Prohibited
L Prohibited
$\mathrm{N} \quad \mathrm{N}$
R N, D, I or O
S Prohibited
T N
V N, D or Z
W Prohibited
Y Prohibited

Valid Entry Notes:

N0TE 1: An LACT entry of Z is prohibited if there is no existing listing for the LTN.
NOTE 2: When the LNA, TACT or TNA is D, LACT must be D and the LTN must match the TNS.

NOTE 3: When the LNA, TACT or TNA is N and the telephone number being added matches the LTN, then if LACT is populated the LACT data must be N .

NOTE4: The valid entry of D is only allowed for ACT V with REQTYP E or M, when it is being used for a listing other than the main listing for the account and the request is not changing from Residence to Business or Business to Residence.

NOTE 5: When REQTYP is B or C and the ACT is V the only valid values are N or Z .
NOTE 6: When the REQTYP is E or M and the ACT is V and the class of service is not changing from residence to business or business to residence, the only valid values are D , N or Z .

NOTE 7: The valid entry of "D" is prohibited when the ACT is R and the 2nd and 3rd characters of the RTY field are ML.

NOTE 8: The valid entry of "O" and " I " are prohibited when the ACT is "V".
NOTE 9: When the ACT is " $N$ " the only valid entry for this field is " $N$ ".
NOTE 10: LACT of $Z$ is prohibited when the REQTYP is E (Non-Complex) or M (Switched Combinations RES/BUS) with ACT of C when the request is changing from a residence to business or business to residence class of service.

NOTE 11: When the REQTYP IS E or M and the ACT is V and the class of service is changing from residence to business or business to residence, the only valid values are D and/or N.

NOTE 12: When RTY 2nd and 3rd characters are ML, and ACT=V, and MI=A, LACT N is required.
Data Characteristics:
1 alpha character
Examples:
N
SW
Conditional Usage Notes:
Note 1: Required when establishing, deleting or changing data in the listing control, listing indicator or listing instructions, otherwise prohibited.
Note 2: Required when the DLNUM is populated.
Note 3: When the LACT is O , the LACT of I is required.
Note 4: When the LACT is I, the LACT of $O$ is required.
Note 5: Prohibited when ELT is populated with A or B.
Note 6: Required when ELT is populated with C.
Business Rules
Rule 1: When changing an existing customer end user listing, two transactions listing segments are required. The first transaction would have a LACT entry of $O$ to specify the data to be deleted. The second transaction would have a LACT entry of I to specify the new data.

## REQTYP - Request Type

LSR Form/Screen
(LSOG6 / ELMS6 map)

## Definition:

Identifies the type of service being requested and the status of the request.

## Definition Notes:

None
Valid Entries:
Entry Description
REQTYP (1st character)
A Loop
B Loop with Number Portability
C Number Portability
E Resale
F Port
J Directory Listing and Directory Assistance
K Private Line/Sychronet
M Unbundled Network Element Switched Combinations
N DID/PBX
P BellSouth ${ }^{\circledR}$ CENTREX Resale, ESSX®, and MultiServ®/MultiServ PLUS®

REQTYP (2nd character)
B Firm Order

## Valid Entry Notes:

NOTE 1: The first character of the REQTYP specifies the type of service.
NOTE 2: The second character of REQTYP is always ' B '.
NOTE 3: When the CC or NNSP field is populated with a wireless OCN the only valid entry allowed in this field is "CB".
NOTE 4: When the 1st character of the REQTYP begins with K or P , the LSR must be submitted manually.
NOTE 5: When the request is for directory delivery only, the REQTYP must be J.
Data Characteristics:
2 alpha characters
Examples:
AB
Conditional Usage Notes:
None
Business Rules
Rule 1: A submitted request is always a Firm Order.

## (ㄷ) BELLSOUTH ${ }^{\circ}$

Attachment
SN91084236
Rule 2: If a change in REQTYP is being made, the original PON must be canceled and a new PON sent with the new REQTYP.

Rule 3: Stand-alone wireless listing request must be submitted to the Wireless Service Center via a Wireless Service Request (WSR). When submitted to the LCSC, a standalone listing request for Wireless listings will be returned to the originator.

Rule 4: A request for wireless listings may be submitted to the LCSC for processing when the REQTYP is C, and the CC or NNSP field is populated with a wireless OCN.

Rule \#\#: When REQTYP is $\mathbf{J}$ and the LSR request is changing the service type from Residence to Business or Business to Residence, the existing class of service (CS) on the existing CSR must be LNPRL or LNPBL.

## CCP 2011 Attachment Listed Below

ELMS6

## LSO - Local Service Office

## LSR Form/Screen

(LSOG6 / ELMS6 map)
Definition:
Identifies the NPA / NXX of the local or alternate serving central office of the customer location or primary location of the end user.
Definition Notes:
None
Valid Entries:
None

## Valid Entry Notes:

None
Data Characteristics:
6 numeric characters
Examples:
201885
Conditional Usage Notes:
Note 1: Excluding (REQTYP A Local Channels, EELS and Interoffice Channels) this field is required when the ACT is C, D, N, T or V and the LNA is not N.

Note 2: Required when the REQTYP is E and the 2nd character of the TOS is H .
Note 3: Required when the REQTYP is F.
Electronic:
Note 4: Required on REQTYP N, when the 2nd character of the TOS is Q, and the ACT is $\mathrm{C}, \mathrm{V}$ or W .

Manual:
Note 5: Required when USOCs RCF++, RD5++, UEPVB or UEPVR are populated.
Note 6: Required when 4th character of TOS code is F.
Note 7: Required for REQTYP E (Non-Complex) and M (Non-Complex) and the product type is On/Off Premise extensions/ Different Premise Address (DPA).

Note 8: Excluding (REQTYP A Local Channels, EELS and Interoffice Channels), this field is optional when the ACT is C, D, N, T or V and the LNA is N. Business Rules
Rule 1: Must be a valid BellSouth ${ }^{\circledR}$ NPA NXX.
***** End of definition for LSO / LSR form screen **

## CCP 2036 Attachment Listed Below

## TAG/LENS

ELMS6

## Parsed Customer Record Response (PCSRR)

This message is used to return customer record information in a parsed format. Since customer records can be very large, this message size will be limited to one (1) MG of data. The parsed CSR response contains the parsed sections and will also contain unparsed sections in a block of data. The following sections will return parsed and unparsed and the unparsed sections will be returned in a block of data (see table).

The Bellsouth Parsed CSR transaction is intended for noncomplex accounts. The Parse transaction supports POTS accounts and currently doesn't support complex accounts.

IDENT section
LISTING section
DIRECTORY section
TRAFFIC section
BILLING section
Note: Local Service Freeze (LSF) will be returned when indicated on the CSR in states where LSF is a valid offering.
S\&E section
Ported out lines
Related account information
Billing transfer section
Completed activity section
Remarks section
Error message information

## Parsed Customer Record Response (PCSRR) for Wireless Type 1 Block Accounts

The following Parsed CSR data will be returned if available for the Wireless Type 1 Block account request only. If no Parsed CSR data is available a message will be returned in the Message ID and Message Text fields. This query will be returning limited data.
Note: Wireless Type 1 accounts will not receive the LSF information.

## Parse Customer Record Response (PCSRR)

This message is used to return customer record information in a parsed format. Since customer records can be very large, this message size will be limited to one (1) MG of data. The parsed CSR response contains the parsed sections and will also contain unparsed sections in a block of data. The following sections will return parsed and unparsed and the unparsed sections will be returned in a block of data (see table)

The Bellsouth Parsed CSR transaction is intended for noncomplex accounts, PBX and DID.

1. IDENT section
2. LISTING section
3. DIRECTORY section
4. TRAFFIC section
5. BILLING section
6. Note: Local Service Freeze (LSF) will be returned when indicated on the CSR in states where LSF is a valid offering.
7. S\&E section
8. Ported out lines
9. Related account information
10. Billing transfer section
11. Completed activity section
12. Remarks section
13. Error message information

## SPEC - Service and Product Enhancement Code

## LSR Form/Screen

(LSOG6 / ELMS6 map)
Definition:
Identifies a specific product or service offering. Definition Notes:
NOTE 1: SPEC may be applicable for circuit level features and options other than those already identified by the Network Channel (NC) and Network Channel Interface (NCI) codes.
Valid Entries:
None
Valid Entry Notes:
Note 1: For REQTYPs A and B, positions 1-7 = any alpha character except " I " or any numeric
character except '0' (zero)
Note 2: For REQTYP A the following SPEC codes for EELs and OCU's service types is valid:

| SPEC Code | Service Type |
| :--- | :--- |
| UNCVX | Voice Grade |
| UNCNX | ISDN |
| UNCDX | $56 / 64 \mathrm{kbps}$ |
| UNC1X | DS1 |
| UNC3X | DS3 |
| UNCSX | STS-1 |

Note 3: When UNC3X or UNCSX is populated the LSR must be submitted manually.

Note 4: When the REQTYP is B and the product is EELs, the only valid entry in the SPEC field is UNCVX (Voice Grade).

[^0]
## Examples:

BD11T
BD1T5AD
Conditional Usage Notes:
Manual:
Note 1: Required when ordering REQTYP A Unbundled Dark Fiber (UDF) as an Ordinarily Combined UNE Combination.
Business Rules
Rule 1: For REQTYP B, when the SPEC field is populated with UNCVX, CFA is required.

Rule 2: For REQTYP B, when SPEC field is populated and the product is EELS, the 1st 8 characters of the SWC CLLI of the EATN must equal the 1 st 8 characters of the NonACTL CLLI (MUXLOC).

## ELMS6

## FB-FLOOR - Final Bill Floor

## EU Form/Screen

(LSOG6 / ELMS6 map)
Definition:
Identifies the floor of the billing address associated with the billing name.

## Definition Notes:

None
Valid Entries:
None

## Valid Entry Notes:

None
Data Characteristics:
Up to 10 alpha/numeric characters
Examples:
32
Conditional Usage Notes:
Electronic:
Note 1: Prohibited when the MI field is A or B.
Note 2: Optional when the FBI field is Y, otherwise prohibited.
Manual:
Note 3: Optional when the FBI field is D , otherwise prohibited Business Rules
None

## FB-ROOM - Final Bill Room

EU Form/Screen
(LSOG6 / ELMS6 map)
Definition:
Identifies the room for the billing address associated with the billing name.

## Definition Notes:

None
Valid Entries:
None

## Valid Entry Notes:

None
Data Characteristics:
Up to 10 alpha/numeric characters
Examples:
1K151A
Conditional Usage Notes:
Electronic:
Note 1: Prohibited when the MI field is A or B.
Note 2: Optional when the FBI field is Y, otherwise prohibited.
Manual:
Note 3: Optional when the FBI field is D, otherwise prohibited
Business Rules
None
FB-SBILLNM - Final Billing Secondary NameEU Form/Screen(LSOG6 / ELMS6 map)
Definition:
Identifies the name of a department or group within the designated BILLNM entry.
Definition Notes:
None
Valid Entries:
None
Valid Entry Notes:
None
Data Characteristics:
Up to 25 alpha/numeric characters
Examples:
ACCOUNTS RECEIVABLE
Conditional Usage Notes:
Note 1: Prohibited when the MI field is A or B.
Note 2: Optional when the FBI field is $\mathbf{Y}$, otherwise prohibited.

## Unbundled Copper Loop - Non-Designed (UCL-ND) Product Listing

## Unbundled Copper Loop - Non-Designed (UCL-ND)

Tables to request Unbundled Copper Loop - Non-Designed (UCL-ND) service are located in this section.
Ordering Forms/Screens
The following chart illustrates the required, conditional and optional forms/screens for ordering this service. Detailed information will follow to assist you in filling out each of these forms/screens.

| Forms/ScreensUnbundled Copper Loop - Non-Designed (UCL-ND) |  |  |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| SI | LSR | Hunting | EU | DL | RS | DRS | PS | NP | LS | LSNP | RPL | Proprietary |
| O | R |  | R |  |  |  |  |  | R |  |  |  |
| $\mathrm{R}=$ Required $\mathrm{C}=$ Conditional $\mathrm{O}=$ Optional |  |  |  |  |  |  |  |  |  |  |  |  |

## Completing the DL Form/Screen

If directory listings are required, refer to REQTYP J for more information on completing the DL form/screen.

## Completing the LSR and EU Forms/Screens

Account level activities (ACT) apply to the entire account. A complete list of ACTs and their definition can be found in the Data Dictionary entry for ACT.

The following chart shows all of the valid account level activities for this service.

| Valid Account Level Activities |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| N | C | D | T | R | V | S | B | W | L | Y |  |  |  |  |  |  |
| X | X | X | X | - | X | - | - | X | - | - |  |  |  |  |  |  |

The Required, Conditional and Optional (R/C/O) fields on the LSR and EU forms/screens will be given for every valid ACT code in the ACT Tables section.

## Completing the LS Form/Screen

The Loop Service (LS) form/screen may be required or invalid depending on the account level activity. Each account level activity has valid Line Level Activities (LNAs). These LNAs determine how, or if, the LS form/screen should be populated. A complete list of LNAs and their definition can be found in the Data Dictionary entry for LNA.

The following chart gives the valid LNAs for each account level activity (ACT) and the associated LS form/screen usage for this service.

| If ACT is: | Then LNA is: | And LS form is: |
| :---: | :---: | :---: |
| N | N | Required |
| C | $\mathrm{N}, \mathrm{C}$ or D | Required |
| D | B N/A | Required Prohibited |
| T | N or T | Required |
| V | $\mathrm{N}, \mathrm{D}$, or V | Required |
| W | W | Required |

The Required, Conditional and Optional (R/C/O) fields for the Loop Service (LS) form/screen are listed according to the Line Level Activity (LNA) in the LNA Tables Section.

## TCIF 9 and ELMS 6

## Removing this section and creating a new section in the General Local Service Ordering chapter.

#### Abstract

\# Local Resale Asstmption Agreements For 'Switch As Is' and 'Switch With Change' requests, if the End User has an existing eontract arrangement with BellSouth $®$, then the CLEC must decide whether to assume or decline that existing contract. To make this decision: 1. The CLEC will review the Customer Service Record (CSR) and determine if any of the Universal Service Order Codes (USOCs) indicate that the services are provided under a contractual arrangement. The CSR will indicate the date that the eontract was signed and the total number of months in the contract period. Z. If the CLEC does not plan to assume the contract, a Remarks entry should be included on the LSR stating: "CLEC not assuming contract; bill termination eharges to end user." The LSR should be issued to the LCSC as Switeh-WithChange, due to changes that must be made on the customer's record to remove the contract information. The Firm Order Confirmation (FOC) will contain the amount due as termination charges. To determine the amount of the termination eharges due prior to receiving the FOC, the CLECs may calculate the total termination charge as specified in the tariff for that particular service based on the months remaining multiplied by the total monthly charges of the USOCs under eontract. If the CLEC disagrees with the mannt shown on the FOC, normat escalation procedures will be followed. 3. If the CLEC does want to assume the contract, a copy of the Assumption Agreement template should be downloaded from the BellSouth® Web site, eompleted and signed by the CLEC. Attachment A should include a list of all of the USOC s included in the original agreement, as indicated on the CSR. The ELEC must send the signed Assumption Agreement, along with the Switch-As-Is LSR, to the CRSG. The CRSG will verify the USOCs, sign the agreement, return a copy to the CLEC, and forward the order to the LCSC.

## TCIF9 \& ELMS6

New section in the General Local Service Ordering chapter

## TITLE: Resale Contract Assumption Agreements

DESCRIPTION:

Contract Service Arrangements (CSA), Term Agreements (TA) and Special Assemblies are special arrangements used to offer special pricing or discounts on BellSouth ${ }^{\circledR}$ products and services.

CSAs and TAs are used to provide special pricing or discounts for tariffed service; while Special Assemblies (SA) are used for non-tariffed offerings.

When migrating from BST to Resale, or when migrating from Resale to Resale the new LSP may exercise the option to assume the CSA, TA and SA when one is present on the end users account at the time of migration.

When the Customer Service Record (CSR) has a contractual agreement indicator on the account, the CLEC must decide at the time of migration whether to assume the existing contractual arrangement, or decline. If the CLEC opts not to assume the contractual agreement, termination charges if applicable will be billed to the billing party of record if applicable.

A contract service arrangement/Special Assembly when present is formatted in the Bill section of the CSR as well as in the S\&E section, below is an example of how the information is formatted on the CSR:

Example:
---Bill
CN 950234, MM-DD-YY
---S\&E
USOC/CN 950234

Where $95=$ Year ( 2 numerics)
Where 0234=Contract Number (4 numerics)
Where MM-DD-YY=Expiration date
Note: Only the USOCS listed in the contract service arrangement will have the CN indicator floated next to them. Special Assembly USOCS typically begin with a W (example: WVV5U)

Term agreements like CSA and Special Assembly agreements are also indicated in the billing and S\&E sections of the CSR.
---BILL
TA 36, MM-DD-YY
Where $36=$ The number of months included in the term agreement payment plan
Where MM-DD-YY=The beginning or start date of the contract
---S\&E
USOC/SPP VT1/TA 36

Where SPP=Special Pricing Plan
Where VT1=Variable term entry
Where TA $36=$ Number of months in payment plan

To determine if a contractual agreement exist the CLEC should obtain copies of the existing CSR and check for the following information:

| IF | Then |
| :--- | :--- |
| The FID CN appears in the <br> Bill section of the CSR <br> EXAMPLE: | The customer should verify the expiration date to <br> determine if the contract arrangement is still in effect. <br> C-BILL |
| The expiration date is still in <br> effect | Contact the CRSG (Complex Resale Service Group) to <br> determine what options are available. |
| The FID TA appears in the <br> Bill section of the CSR <br> EXAMPLE: <br> ---BILL <br> TA, XX, MM-DD-YY | The customer should verify the expiration date to <br> determine if the contract arrangement is still in effect. |
| The expiration date is still in <br> effect | Contact the CRSG (Complex Resale Service Group) to <br> determine what options are available. |
| If the CN or TA is expired. | The LSR request my be submitted to the appropriate <br> BellSouth order processing group based on product <br> ordering specifications (ex:CSRG/LCSC). |

## SERVICE RESTRICTIONS:

Contract Service arrangements do not apply to UNE/UNE-P or WLP services.

## LSR RESTRICTIONS:

- If the migrating account has a contractual agreement that is still in effect and the CLEC does not wish to assume responsibility for the contract the LSR must be submitted as $\mathrm{ACT}=\mathrm{V}$
- All assumptions/terminations of contractual agreements must be processed by the CRSG (Note: once the account has been transferred to or orders issued to transfer to the new LSP, the new LSP may process subsequent order activities via the normal process).
- When termination charges are applicable, the termination charges will be returned on the FOC.

## DDDO - Desired Due Date Out

## LSR Form/Screen

(LSOG6 / ELMS6 map)

## Definition:

Identifies the customer's desired due date for the suspension or disconnection of service. Definition Notes:
NOTE 1: This field is used to identify the date the service is to be disconnected at the old location when the end user's service is moving to a new location.
Valid Entries:
Manual:
Entry Description
1 and 2 Two Digit Month (01-12)
3 Always a Hyphen
4 and $5 \quad$ Two Digit Day (01-31)
6
7 and $8 \quad$ Two Digit Century (20-99)
9 and 10 Two Digit Year (00-99)
Electronic:
Entry Description

Two Digit Century (CC) 20-99
Two Digit Year (YY) 00-99
Two Digit Month (MM) 01-12
Two Digit Day (DD) 01-31
Valid Entry Notes:
None
Data Characteristics:
Manual: 10 alpha/numeric characters
Electronic: 8 alpha/numeric characters
Examples:
Manual: 03-22-2001
Electronic: 20010322
Conditional Usage Notes:
Manmal:
Note 1: This field is required when the ACT field is T, and the 2nd character of the TOS field is H .
Business Rules
Rule 1: Interval between the DDD and DDDO fields must be 30 calendar days or less (Excluding REQTYP A).

Rule 2: The DDDO is populated on requests to move service. Therefore, population of both the DDD and DDDO field is required.
| Rule 3 2: Must be a valid date.
| Rule 43: When the TOS field is populated with 4CF (Coin), or 4CM (Coin) and the ACT is T for REQTYPs E and M (Non-Complex), the DDD and DDDO fields must match.
| Rule 54: When the REQTYP is A and the ACT is T, when populated the DDDO and DDD must match.

## CCP 2047 Attachment Listed Below

TCIF9 \& ELMS6

## Reqtyp E, Non-complex Non-Complex Resale Service

Product Listing

## Non-Complex Resale Service

Resale Services are those bundled services where the service provider is different from the network provider. Competitive Local Exchange Carriers (CLECs) can purchase telecommunications products, features and services from Local Exchange Carriers such as BellSouth ${ }^{\circledR}$, for resale to their customers.

## Ordering Forms/Screens

The following chart illustrates the required, conditional and optional forms/screens for ordering this service. Detailed information will follow to assist you in filling out each of these forms/screens.

| Forms/Screens |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| LSR | Hunting | EU | DL | RS | DRS | PS | NP | LS | LSNP | RPL |
| R | $\begin{array}{c}\mathrm{O} \\ {[1]}\end{array}$ | R | C | C |  |  |  |  |  |  |
| $[2]$ |  |  |  |  |  |  |  |  |  |  |
| $[3]$ |  |  |  |  |  |  |  |  |  |  |$]$

[1] = Hunting is optional only when ACT is N, C, T or V, otherwise Hunting is prohibited.
[2] = DL form/screen is required when the ACT is N or T .
$[3]=R S$ form/screen is required only when the ACT is $\mathrm{N}, \mathrm{C}, \mathrm{T}, \mathrm{V}$ or S .
Otherwise, the RS form/screen is not required.
Note: Changes to the RESCN (Resellers contact name) are not allowed with NonComplex REQTYP E ACTs of B, L, S and Y.

If directory listings are required, refer to REQTYP J for more information on completing the DL form/screen.

## Completing the HUNTING Section on the LSR-HGI Form/Screen

Hunting is an optional feature only when the ACT is N, C, T or V. For more information on Hunting, refer to the Hunting Section.

Note 1: ELECTRONIC ORDERS - When ACT is V, if Hunting exists on the account being converted and the CLEC wishes to keep the EXISTING hunting, the HA field should be populated with " E " and all other required fields populated, or the HA field should not be populated (NO Hunting Page submitted Electronically).

Note 2: When ordering Hunting Service in conjunction with other service(s) refer to the Hunting section of the LOH-Local Ordering Handbook for processing the hunting portion of the LSR request.

## Completing the LSR and EU Forms/Screens

Account level activities (ACT) apply to the entire account. A complete list of ACTs and their definition can be found in the Data Dictionary entry for ACT.

The following chart shows all of the valid account level activities for this service.

| Valid Account Level Activities |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Non-Complex Resale Service |  |  |  |  |  |  |  |  |  |  |
| N | C | D | T | R | V | S | B | W | L | Y |
| X | X | X | X | - | X | X | X | X | X | X |
| Note: $\times \mathrm{X}$ " denotes valid account level activities. A dash (-) indicates a non-valid account level activity. |  |  |  |  |  |  |  |  |  |  |

The Required, Conditional and Optional ( $\mathrm{R} / \mathrm{C} / \mathrm{O}$ ) fields on the LSR and EU forms/screens will be given for every valid ACT code in the ACT Tables section.

## Completing the RS Form/Screen

The Resale Service (RS) form/screen may be required or invalid depending on the account level activity. Each account level activity has valid Line Level Activities (LNAs). These LNAs determine how, or if, the RS form/screen should be populated. A
complete list of LNAs and their definition can be found in the Data Dictionary entry for LNA.

The following chart gives the valid LNAs for each account level activity (ACT) and the associated RS form/screen usage for this service.

| If ACT is: | Then LNA is: | And RS form/screen is: |
| :---: | :---: | :---: |
| N | N | Required |
| C | $\mathrm{N}, \mathrm{C}, \mathrm{D}, \mathrm{X}$ or P | Required |
| D | Prohibited | Not Required |
| T | $\mathrm{N}, \mathrm{T}$ | Required |
| V | $\mathrm{N}, \mathrm{D}, \mathrm{G}, \mathrm{X}, \mathrm{V}, \mathrm{W}$ or P | Required |
| V <br> $\left(\begin{array}{c}\text { UNE-P/WLP } \\ \text { to Resale })\end{array}\right.$ | $\mathrm{N}, \mathrm{D}, \mathbf{G}, \mathbf{X}, \mathrm{V}$ or P | Required |
| S |  |  |
| B | L or B | Required |
| W | Prohibited | Not Required |
| L | Prohibited | Not Required |
| Y | Prohibited | Not Required |

The Required, Conditional and Optional ( $\mathrm{R} / \mathrm{C} / \mathrm{O}$ ) fields for the RS form/screen are listed according to the Line Level Activity (LNA) in the LNA Tables Section.

## UNE-P/WLP (Switched Combination) to Resale

Product Listing

## UNE-P/WLP (Switched Combination) to Resale

This section will provide information on ordering when converting/migrating Unbundled Network Elements-Platform (UNE-P/WLP) (Switched Combination) to Resale. This Process allows a CLEC End-User to migrate/convert a telephone number(s) from a UNEP/WLP (Switched Combination) to Resale.

## Restrictions

- Electronic Ordering for Limited to ACT of V-or W.

## Ordering Guidelines

- REQTYP: E
- ACTTYP: V-or W
- LNA: V, G, X, D, Wor N
- R/C/O and LNA Tables: Follow and-For LSR processing, use the appropriate Reqtyp E, Non-complex ACT of V RCO tablesResale REQTYP E Guidelines
- Due Date: Follow BellSouth ${ }^{\circledR}$ Products and Services Interval Guide.

## Ordering Forms/Screens

The following chart illustrates the required, conditional and optional forms for ordering this service

| Forms/ScreensUNE-P/WLP (Switched Combination) to Resale |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| LSR | Hunting | EU | DL | RS | DRS | PS | NP | LS | LSNP | RPL |
| R | $\begin{gathered} \theta \\ {[1]} \\ \hline \end{gathered}$ | R | $\begin{gathered} \mathrm{E} \\ {[2]} \\ \hline \end{gathered}$ | $\begin{gathered} \epsilon \\ {[3]} \\ \hline \end{gathered}$ |  |  |  |  |  |  |

H1- Hunting is optional only when $A C T$ is N, C , T or V . Otherwise, Hunting is prohibited.
[2]-DL form/sereen is required when the $\Lambda C T$ is N or T .
$[3]-\mathrm{RS}$ form/sereen is required only when the $\Lambda C T$ is $\mathrm{N}, \mathrm{C}, \mathrm{T}$, V or S .
Otherwise, the RS form/screen is not required.
Completing the Local Service Request Form(s)
When converting/migrating UNE-P/WLP (Switched Combination) to Resale, the R/C/O tables must be used. If also ordering line feature(s)/services, the RS-Resale Service form
is also required. Not populating these fields and/or forms will result in a clarification of the LSR.

Follow the REQTYP E Resale Service (Non-Complex) specific ordering guidelines for the Required, Conditional and Optional ( $\mathrm{R} / \mathrm{C} / \mathrm{O}$ ) fields on the appropriate form( s ).

## CCP 2048 Attachment Listed Below

ELMS6
BellSouth® MegaLink® Channel Trunk Service
Product Listing

## BellSouth® MegaLink® Channel Services

MegaLink ${ }^{\circledR}$ Channel Service provides a "channelization" capability for subscribers between the subscriber's premises and the Company's central office, or between central offices.
Ordering Forms/Screens
The following chart illustrates the required, conditional and optional forms/screens for ordering this service. Detailed information will follow to assist you in filling out each of these forms/screens.

- = Complex Work Aid for DID Trunks
- = Complex Work Aid is not needed when ordering PBX Trunks

## CLEC Forms On-Line

Refer to the ICS Web Portal page (www.interconnection.bellsouth.com), select 'Tools, Forms \& Reports' on toolbar, select 'Forms and Templates', then select "CLEC Forms Online" or just go to CLEC Forms On-Line web page located at:
http://www.interconnection.bellsouth.com/forms/html/lec form.html
Then below the 'WebForms' table-header, select "Click here to go to the WebForms Main Page" (http://interconnection.bellsouth.com/forms/html/webforms/stdsrch.html).

## Completing the DL Form/Screen

If directory listings are required, refer to REQTYP J for more information on completing the DL form/screen.

## Completing the LSR and EU Forms/Screens

Account level activities (ACT) apply to the entire account. A complete list of ACTs and their definition can be found in the Data Dictionary entry for ACT.

The following chart shows all of the valid account level activities for this service.

| Valid Account Level Activities <br> BellSouth ${ }^{\circledR}$ MegaLink ${ }^{\circledR}$ Channel Services (Channelized T1) |  |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| N | C | D | T | R | V | S | B | W | L | Y |
| X | X | X | X | - | X | - | - | X | - | - |

The Required, Conditional and Optional ( $\mathrm{R} / \mathrm{C} / \mathrm{O}$ ) fields on the LSR and EU forms/screens will be given for every valid ACT code in the ACT Tables section.

## RCO Tables

The following tables show the Required, Conditional and Optional ( $R / C / O$ ) fields on the valid forms/screens for this product. All unmentioned fields are either invalid, not applicable, prohibited or not supported. When fields are populated which are not supported by BellSouth, these not supported fields will be ignored. Populating any other fields may result in a fatal reject or a clarification of the service request.

Please note the following codes:

- Optional fields marked with an asterisk (*) force at least one of the conditional fields to become required when populated.
- Fields used only for manual orders are followed by (M).
- Fields used only for electronic orders are followed by (E).
- For fields marked with a DOUBLE asterisk (**) please refer to the Data Dictionary for clarification.

See the Data Dictionary Section for additional information on each field.
