Carrier Notification**SN91084237**

Date: September 17, 2004

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – (Documentation/Guides) - Update to the BellSouth Local Ordering Handbook (LOH) Version **16.0b**, New Local Service Ordering Guide 6 (LSOG 6) and EDI Local Mechanization Specifications 6 (ELMS 6) for Release 16.0

This is to advise that BellSouth has identified the following documentation defects in the LOH Version **16.0b** for ELMS 6 Release 16.0.

CCP Number	Description Of The Change
1960	Remove the LCSC Contact Telephone Numbers table from the LOH and updated verbiage around url:: http://interconnection.bellsouth.com/centers/html/lcsc.html .
1996	Change DQTY field from "Conditional" to "Optional".
1997	Modify Data Dictionary for DL and LSR [sections] for the LACT and ACT fields.
2011	LSO field: Modify Conditional Usage Note for LSO field on LSR Data Dictionary
2036	Add note to TNAQ-MISC field and add Usage Note to CITY field on the TNAQ-MISC query in the TAG Business Rules, and in the EDI Data Dictionary
2037	SPEC [field] update for Dark Fiber Combo for Data Dictionary.
2039	REQTYP A UCL-ND (If ACT is tables): Modify the UCL=ND REQTYP A (IF ACT is tables) to indicate that LNA = D 'N/A' and LS form is prohibited.
2040	Add new fields to the Pre-Order Data Dictionary for both TAG and EDI Data Dictionary. Add the EATN and LEATN fields to the Estimated Service Date Query (table) in the TAG and EDI Business Rules.
2043	Contract Assumption Agreements: Create a section for Contract Service Agreements in the General Local Service Ordering section and remove the section for Local Resale contract assumption agreements.
2045	DDDO field: Modify DDDO field in Data Dictionary and R/C/O tables.
2046	Modify R/C/O tables for LD1, LD2, LD3, LV1, LV2, LV3 fields; change 'Optional' occurrences of these fields LD1, LD2, LD3, LV1, LV2, LV3 to "Conditional".

2047	UNE-P to Resale (ACT W): Remove ACT W, update UNE-P to Resale - Remove ACT W (not valid).
2048	R/C/O Table for MegaLink Channelized Trunk Service: /C/O Table for MegaLink Channelized Trunk Service.

Please refer to the attachments for specific details of the changes listed above.

These changes will be reflected in the next update of the ELMS 6 Release 16.0/LOH Version **16.0c**, scheduled to be posted September 17, 2004.

A summary of all changes within this document will be listed in the **Summary of Changes** Section. This update can be found on the BellSouth Interconnection Services Web site in the Customer Guides Section at:

<http://www.interconnection.bellsouth.com/guides/html/leo.html>

Please contact your BellSouth local support manager with any questions.

Sincerely,

General Local Service Ordering section

Manual and Electronic Ordering

Manual LSRs (Local Service Request) are requests for local service submitted by a CLEC to the LCSC. There are two options available to the CLEC for submitting manual LSRs to the LCSC:

- Option 1: Fax directly to the LCSC for manual input. Manually submitted LSR's are manually handled and tracked.
- Option 2: Web Based LSR Web Based LSR's are submitted to the LCSC via the LENS GUI and are manually handled and tracked. (Refer to LENS User Guide for information on WEB Based LSR's)

Note: Alternate method of receipt for individual LSR's greater than 100 pages must be pre-arranged by the CLEC with LCSC management.

CLECs can submit orders either manually or electronically. Depending upon the method chosen, the CLEC may have to provide different information to BellSouth®, that is, some data elements may be applicable only to manual or electronic orders, not both. For example, many of the data elements in the Administrative section of the LSR are repeated on each of the manual forms and must be completed to match the information on the LSR. These fields include PON, VER, AN, and ATN. When submitting an electronic request, however, these fields are populated once and the data flows through to all subsequent screens used in the order. Watch for these types of distinctions as they are made throughout this document.

~~LCSC/LCSC/CRSG Contact Telephone Numbers~~

~~The Local Carrier Service Center (LCSC) is the single point of contact for a CLEC when manually submitting orders. Use the telephone numbers [link](#) below to find to contact numbers for the LCSC and CRSG. for questions relating to manually submitted local service requests and billing inquiries. All completed local service ordering forms may be sent via facsimile to the number indicated below. Prior to submitting service requests each CLEC will be assigned to either the Atlanta, Georgia or Birmingham, Alabama LCSC.~~

Note: Local Service Requests that are sent to the incorrect fax server will be returned as rejected.

For questions/disputes concerning an LSR rejection, clarification or jeopardy notification the initial point of contact is the Fleming Island LCSC at 800-872-3116 (select appropriate ACD option to be transferred to Service Representative). In the event the LCSC is unable to resolve the issue the CLEC should follow normal escalation procedures. Click here for escalation procedures:

CCP 1997 Attachment Listed Below**LOH-16.0C-ELMS6****LACT – Listing Activity Indicator****DL Form/Screen**

(LSOG6 / ELMS6 map)

Definition:

Identifies the activity involved for this listing request.

Definition Notes:

None

Valid Entries:

Entry	Description
N	New Listing
D	Delete Listing
I	Change Listing (new data to be inserted)
O	Change Listing (old data)
Z	No change to listing

ACT / LACT COMBINATIONS

If ACT is: Then LACT is: (If there is Listing activity)

B	Prohibited
C	N, D, I or O
D	Prohibited
L	Prohibited
N	N
R	N, D, I or O
S	Prohibited
T	N
V	N, D or Z
W	Prohibited
Y	Prohibited

Valid Entry Notes:

NOTE 1: An LACT entry of Z is prohibited if there is no existing listing for the LTN.

NOTE 2: When the LNA, TACT or TNA is D, LACT must be D and the LTN must match the TNS.

NOTE 3: When the LNA, TACT or TNA is N and the telephone number being added matches the LTN , then if LACT is populated the LACT data must be N.

NOTE4: The valid entry of D is only allowed for ACT V with REQ TYP E or M, when it is being used for a listing other than the main listing for the account **and the request is not changing from Residence to Business or Business to Residence.**

NOTE 5: When REQ TYP is B or C and the ACT is V the only valid values are N or Z.

NOTE 6: When the REQ TYP is E or M and the ACT is V and the class of service is not changing from residence to business or business to residence, the only valid values are D, N or Z.

NOTE 7: The valid entry of “D” is prohibited when the ACT is R and the 2nd and 3rd characters of the RTY field are ML.

NOTE 8: The valid entry of “O” and “I” are prohibited when the ACT is “V”.

NOTE 9: When the ACT is “N” the only valid entry for this field is “N” .

NOTE 10: LACT of Z is prohibited when the REQ TYP is E (Non-Complex) or M (Switched Combinations RES/BUS) with ACT of C when the request is changing from a residence to business or business to residence class of service.

NOTE 11: When the REQ TYP IS E or M and the ACT is V and the class of service is changing from residence to business or business to residence, the only valid values are D and/or N.

NOTE 12: When RTY 2nd and 3rd characters are ML, and ACT=V, and MI=A, LACT N is required.

Data Characteristics:

1 alpha character

Examples:

N

SW

Conditional Usage Notes:

Note 1: Required when establishing, deleting or changing data in the listing control, listing indicator or listing instructions, otherwise prohibited.

Note 2: Required when the DLNUM is populated.

Note 3: When the LACT is O, the LACT of I is required.

Note 4: When the LACT is I, the LACT of O is required.

Note 5: Prohibited when ELT is populated with A or B.

Note 6: Required when ELT is populated with C.

Business Rules

Rule 1: When changing an existing customer end user listing, two transactions listing segments are required. The first transaction would have a LACT entry of O to specify the data to be deleted. The second transaction would have a LACT entry of I to specify the new data.

ACT – Activity Type

LSR Form/Screen

(LSOG6 / ELMS6 map)

Definition:

Identifies the activity involved in this service request.

Definition Notes:

None

Valid Entries:

Entry	Description
Activity	Activity Description
N	New Installation and or account
C	Change an existing account, e.g., rearrangement, partial disconnect or addition
D	Disconnection
L	Suspend full account
T	Move of an end user location to a new location, where LSP is not changing
R	Record activity - ordering administrative changes
V	Conversion of service to a new LSP
W	Conversion of service to new LSP as is
S	Suspend / restore partial account
B	Restore full account / restore denied account
Y	Deny

Valid Entry Notes:

NOTE 1: REQ TYP AB / ACT is V is only applicable for conversions from Retail, Resale, Non-Complex UNE-P/WLP services, Complex UNE-P/WLP, BRI or PBX services where the Telephone Number resides in the BellSouth® switch.

NOTE 2: When the REQ TYP is A and the ACT is T, the serving wire center (Central Office) cannot be changed.

NOTE 3: When the ACT is T, the LSP may not be changed.

NOTE 4: Valid entry of C is used for INP to LNP conversions when the NPT is D (LNP).

NOTE 5: When the CC or NNSP field is populated with a wireless OCN the only valid entry in this field is V.

NOTE 6: [BULK] ACT of V is only valid ACT for Reqtyp B UNE to UNE Bulk.

NOTE 7: When the request is for directory delivery only, the ACT data must be R.

NOTE 8: ACT of V is only valid ACT for LNP to Resale UNE-P/WLP Migration (REQTYP E or M), and the SC=LCSL

Data Characteristics:

1 alpha character

Examples:

V

Conditional Usage Notes:

None

Business Rules

Rule 1: On a supplement to a request this field carries the original activity type.

Rule 2: When the ACT field involves a change, the PON should be canceled and a new PON submitted.

Rule 3: When ACT is S, the LNA must equal "L" or "B". This allows the end user to seasonally suspend or restore some of the lines on an account.

Manual:

Rule ~~4~~### : For split billing of a multi-line account, it is necessary to submit 2 LSR's.

LSR#1 - (ACT=C, LNA=D) Removes the line from the existing account.

LSR#2 - (ACT=N, LNA=N) Establishes the NEW account.

Rule ~~5~~###: (REQTYP B and C) Use ACT of C, when NPT is D (LNP) on LSNP or NP form/screen for INP to LNP conversions.

Removing this section and creating a new section in the General Local Service Ordering chapter.

~~# Local Resale Assumption Agreements~~

~~For 'Switch As Is' and 'Switch With Change' requests, if the End User has an existing contract arrangement with BellSouth®, then the CLEC must decide whether to assume or decline that existing contract.~~

~~To make this decision:~~

- ~~1. The CLEC will review the Customer Service Record (CSR) and determine if any of the Universal Service Order Codes (USOCs) indicate that the services are provided under a contractual arrangement. The CSR will indicate the date that the contract was signed and the total number of months in the contract period.~~
- ~~2. If the CLEC does not plan to assume the contract, a Remarks entry should be included on the LSR stating: "CLEC not assuming contract; bill termination charges to end user." The LSR should be issued to the LCSC as Switch With Change, due to changes that must be made on the customer's record to remove the contract information. The Firm Order Confirmation (FOC) will contain the amount due as termination charges. To determine the amount of the termination charges due prior to receiving the FOC, the CLECs may calculate the total termination charge as specified in the tariff for that particular service based on the months remaining multiplied by the total monthly charges of the USOCs under contract. If the CLEC disagrees with the amount shown on the FOC, normal escalation procedures will be followed.~~
- ~~3. If the CLEC does want to assume the contract, a copy of the Assumption Agreement template should be downloaded from the BellSouth® Web site, completed and signed by the CLEC. Attachment A should include a list of all of the USOCs included in the original agreement, as indicated on the CSR. The CLEC must send the signed Assumption Agreement, along with the Switch As Is LSR, to the CRSG. The CRSG will verify the USOCs, sign the agreement, return a copy to the CLEC, and forward the order to the LCSC.~~

TCIF9 & ELMS6**New section in the General Local Service Ordering chapter****TITLE: Resale Contract Assumption Agreements****DESCRIPTION:**

Contract Service Arrangements (CSA), Term Agreements (TA) and Special Assemblies are special arrangements used to offer special pricing or discounts on BellSouth® products and services.

CSAs and TAs are used to provide special pricing or discounts for tariffed service; while Special Assemblies (SA) are used for non-tariffed offerings.

When migrating from BST to Resale, or when migrating from Resale to Resale the new LSP may exercise the option to assume the CSA, TA and SA when one is present on the end users account at the time of migration.

When the Customer Service Record (CSR) has a contractual agreement indicator on the account, the CLEC must decide at the time of migration whether to assume the existing contractual arrangement, or decline. If the CLEC opts not to assume the contractual agreement, termination charges if applicable will be billed to the billing party of record if applicable.

A contract service arrangement/Special Assembly when present is formatted in the Bill section of the CSR as well as in the S&E section, below is an example of how the information is formatted on the CSR:

Example:

---Bill

CN 950234, MM-DD-YY

---S&E

USOC/CN 950234

Where 95=Year (2 numerics)

Where 0234=Contract Number (4 numerics)

Where MM-DD-YY=Expiration date

Note: Only the USOCS listed in the contract service arrangement will have the CN indicator floated next to them. Special Assembly USOCS typically begin with a W (example: WVV5U)

Term agreements like CSA and Special Assembly agreements are also indicated in the billing and S&E sections of the CSR.

---BILL

TA 36, MM-DD-YY

Where 36=The number of months included in the term agreement payment plan

Where MM-DD-YY=The **beginning** or start date of the contract

---S&E

USOC/SPP VT1/TA 36

Where SPP=Special Pricing Plan

Where VT1=Variable term entry

Where TA 36=Number of months in payment plan

To determine if a contractual agreement exist the CLEC should obtain copies of the existing CSR and check for the following information:

IF	Then
The FID CN appears in the Bill section of the CSR EXAMPLE: ---BILL CN XXXXXX, MM-DD-YY	The customer should verify the expiration date to determine if the contract arrangement is still in effect.
The expiration date is still in effect	Contact the CRSG (Complex Resale Service Group) to determine what options are available.
The FID TA appears in the Bill section of the CSR EXAMPLE: ---BILL TA, XX, MM-DD-YY	The customer should verify the expiration date to determine if the contract arrangement is still in effect.
The expiration date is still in effect	Contact the CRSG (Complex Resale Service Group) to determine what options are available.
If the CN or TA is expired.	The LSR request may be submitted to the appropriate BellSouth order processing group based on product ordering specifications (ex:CSRG/LCSC).

SERVICE RESTRICTIONS:

Contract Service arrangements do not apply to UNE/UNE-P or WLP services.

LSR RESTRICTIONS:

- If the migrating account has a contractual agreement that is still in effect and the CLEC does not wish to assume responsibility for the contract the LSR must be submitted as ACT=V
- All assumptions/terminations of contractual agreements must be processed by the CRSG (Note: once the account has been transferred to or orders issued to transfer

to the new LSP, the new LSP may process subsequent order activities via the normal process).

- When termination charges are applicable, the termination charges will be returned on the FOC.

Non-Complex Resale Service****Product Listing****Non-Complex Resale Service**

Resale Services are those bundled services where the service provider is different from the network provider. Competitive Local Exchange Carriers (CLECs) can purchase telecommunications products, features and services from Local Exchange Carriers such as BellSouth®, for resale to their customers.

Ordering Forms/Screens

The following chart illustrates the required, conditional and optional forms/screens for ordering this service. Detailed information will follow to assist you in filling out each of these forms/screens.

Forms/Screens Non-Complex Resale Service										
LSR	Hunting	EU	DL	RS	DRS	PS	NP	LS	LSNP	RPL
R	O [1]	R	C [2]	C [3]						
R = Required C = Conditional O = Optional										

[1] = Hunting is optional only when ACT is N, C, T or V, otherwise Hunting is prohibited.

[2] = DL form/screen is required when the ACT is N or T.

[3] = RS form/screen is required only when the ACT is N, C, T, V or S.
Otherwise, the RS form/screen is not required.

Note: Changes to the RESCN (Resellers contact name) are not allowed with Non-Complex REQTYP E ACTs of B, L, S and Y.

Completing the DL Form/Screen

If directory listings are required, refer to **REQTYP J** for more information on completing the DL form/screen.

Completing the HUNTING Section on the LSR-HGI Form/Screen

Hunting is an optional feature only when the ACT is N, C, T or V. For more information on Hunting, refer to the Hunting Section.

Note 1: ELECTRONIC ORDERS - When ACT is V, if Hunting exists on the account being converted and the CLEC wishes to *keep the EXISTING hunting*, the HA field should be populated with "E" and all other required fields populated, **or** the HA field should **not be populated** (NO Hunting Page submitted Electronically).

Note 2: When ordering Hunting Service in conjunction with other service(s) refer to the Hunting section of the LOH-Local Ordering Handbook for processing the hunting portion of the LSR request.

Completing the LSR and EU Forms/Screens

Account level activities (ACT) apply to the entire account. A complete list of ACTs and their definition can be found in the Data Dictionary entry for ACT.

The following chart shows all of the valid account level activities for this service.

Valid Account Level Activities Non-Complex Resale Service										
N	C	D	T	R	V	S	B	W	L	Y
X	X	X	X	-	X	X	X	X	X	X
Note: "X" denotes valid account level activities. A dash (-) indicates a non-valid account level activity.										

The Required, Conditional and Optional (R/C/O) fields on the LSR and EU forms/screens will be given for every valid ACT code in the **ACT Tables** section.

Completing the RS Form/Screen

The Resale Service (RS) form/screen may be required or invalid depending on the account level activity. Each account level activity has valid Line Level Activities (LNAs). These LNAs determine how, or if, the RS form/screen should be populated. A

complete list of LNAs and their definition can be found in the Data Dictionary entry for LNA.

The following chart gives the valid LNAs for each account level activity (ACT) and the associated RS form/screen usage for this service.

If ACT is:	Then LNA is:	And RS form/screen is:
N	N	Required
C	N, C, D, X or P	Required
D	Prohibited	Not Required
T	N, T	Required
V	N, D, G, X, V, W or P	Required
V (UNE-P/WLP to Resale)	N, D, G, X, V or P	Required
S	L or B	Required
B	Prohibited	Not Required
W	Prohibited	Not Required
L	Prohibited	Not Required
Y	Prohibited	Not Required

The Required, Conditional and Optional (R/C/O) fields for the RS form/screen are listed according to the Line Level Activity (LNA) in the **LNA Tables** Section.

RCO Tables

The following tables show the Required, Conditional and Optional (R/C/O) fields on the valid forms/screens for this product. All unmentioned fields are either invalid, not applicable, prohibited or not supported. When fields are populated which are not supported by BellSouth, these not supported fields will be ignored. Populating any other fields may result in a fatal reject or a clarification of the service request.

Please note the following codes:

- Optional fields marked with an asterisk (*) force at least one of the conditional fields to become required when populated.
- Fields used only for manual orders are followed by (M).
- Fields used only for electronic orders are followed by (E).
- For fields marked with a DOUBLE asterisk (**) please refer to the Data Dictionary for clarification.

See the Data Dictionary Section for additional information on each field.
