Subject: All Interconnection Services Customers – (Network Operations) – **REVISED** - Re-route of Fiber Trunk Cables for Miami River Dredging Project in Miami, Florida (Latest revision posted on October 14, 2004)

This is to advise that BellSouth will be routing traffic from the existing fiber trunk cables in the Miami River duct crossing at NW 29th Avenue onto new fiber trunk cables as required to accommodate the Miami River Dredging Project. The existing crossing is in conflict with this dredging project. This project is primarily a re-routing of facilities, and the splicing will be fiber to fiber. Circuits will be switched to protect mode, if applicable, prior to splicing activity. Circuits will be turned back to normal mode once splicing is complete

This activity will be performed on the scheduled cut dates listed in the chart below between the hours of 1:00 AM EST and 5:00 AM EST.

Below is a list of all fiber trunk cables involved in the project and their scheduled cut dates:

TRUNK	FIBERS	CO CLLI A	CO CLLI Z	WKG FIBERS	Scheduled Cut Date
TF249	1-48	MIAMFLAL	MIAMFLAE	16	10/24/04
TF 321	1-72	MIAMFLAL	MIAMFLFL	64	10/31/04
TF 155	1-48	MIAMFLGR	MIAMFLPL	35	11/01/04
TF 248	1-24	MIAMFLAL	MIAMFLPL	21	11/01/04
TF 121	1-12	MIAMFLAL	MIAMFLFL	06	11/07/04
TF 139	1-12	MIAMFLAL	MIAMFLAE	04	11/07/04

Please contact your BellSouth account team representative with any questions.

Sincerely,
