**Carrier Notification
SN91085005**

Date: January 18, 2005

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – (Product/Service) - Unbundled Network Elements-Platform (UNE-P)
Customers only - End-User Inside Premises Wiring Installation Charges

This is to clarify that installation charges to UNE-P CLECs for End-User Inside Premises Wiring apply as follows:

- **Basic Inside Premises Wiring** charges apply to all telecommunications wire and associated material that is located on the end user's side of the network interface device, on the same premises, which does not terminate in a communications system.
- **Non-Basic Inside Premises Wiring** charges apply to telecommunications wire and associated material, and station wire or cable, located on the end user's side of the network interface device or demarcation point on the same premises, which terminates in a communications systems such as PBX, Centrex, BellSouth Centrex, BellSouth® Multiserv® Service, Foreign Exchange, Telephone Answering Service, Special Services, WATS, access lines for Customer Public Telephones and Off Premises Extensions associated with Non-Basic Service.

Basic Residential and Business orders requesting End User Premises Inside Wiring require Uniform Service Order Codes (USOC) for Basic Inside Wiring. Non-Basic Business orders requesting End User Premises Inside Wiring require USOCs for Non-Basic Inside Wiring.

After **February 1, 2005**, Local Service Requests (LSR) will be returned for clarification when the incorrect USOC is populated on the Port Service (PS) page of the LSR.

Rates and the applicable USOCs for End-User Premises Inside Wiring are located in the "Non-Regulated Services Pricing" section of the tariff for each state in the BellSouth region. Because rates are subject to change, they should be viewed periodically. The tariffs may be accessed from the BellSouth Web site located at:
