Subject: All Interconnection Services Customers – (Tariff and Product/Service) – Promotional Offer for BellSouth Special Access (SPA) DS1 Local Channel Services

This is to advise that on May 1, 2005, BellSouth will trial a Special Access (SPA) promotion, which will provide a credit for SPA DS1 local channel services purchased during the contract tariff period. To be eligible for a credit during a month in the contract tariff period, a customer must reach a targeted band for net SPA DS1 local channels for that month. This promotion would only be available to BellSouth interconnection customers for a period of 6 months beginning on May 1, 2005, and ending on October 31, 2005.

Interconnection customers must have an Area Commitment Plan (ACP) contract with BellSouth for SPA DS1 local channel services to qualify for this promotion. Additional minimum qualifications are shown in the BellSouth FCC Tariff No.1, Section 25.

After the appropriate negotiations have taken place with your BellSouth account team representative to take advantage of this offering, interconnection customers can order Special Access DS1 local channel services from Section 23 of the BellSouth FCC Tariff No. 1 via the normal Access Service Request (ASR) process. Your BellSouth account team will make sure that the ordering and provisioning will be handled to your specifications.

If you have questions, please contact your BellSouth account team representative.

Sincerely,
