**Carrier Notification****SN91085190**

Date: September 23, 2005

To: Facility Based Competitive Local Exchange Carriers (CLEC) and Wireless Service Providers (WSP)

Subject: CLECs and WSP – (E911 and Network Operations) – Rehome Orleans Parish and Plaquemines Parish that work out of New Orleans Franklin 911 Tandem to New Orleans Carrollton 911 Tandem in Louisiana

This is to advise that, due to Hurricane Katrina, BellSouth will re-home the Orleans Parish and Plaquemines Parish that work out of the New Orleans Franklin 911 Tandem, Common Language Location Identification (CLLI) NWORLAFRDS0, to the New Orleans Carrollton 911 Tandem, CLLI NWORLACADS0. This is a temporary solution to re-route traffic until these Parishes can be operational in the New Orleans Franklin 911 Tandem.

If your company has any customers in the Orleans and Plaquemines Parishes that were served by the New Orleans Franklin 911 Tandem, and you wish to have those customers re-routed to the New Orleans Carrollton 911 Tandem, please use the following guidelines:

- Verify that the Public Safety Answering Point (PSAP) is able to handle enhanced 911 calls before placing your orders.
- If your company requires trunks to the New Orleans Carrollton 911 Tandem, Facility-Based CLECs should issue an Access Service Request (ASR) and Wireless carriers should contact their Wireless Account Team Representative.
- Include **Project ID of KATRINAE911** on all of orders for this project.

If you have any questions concerning this project, please contact Rosemary Parker at 205.321.2951.

Sincerely,

**ORIGINAL SIGNED BY W. KEITH MILNER**

W. Keith Milner – Assistant Vice President  
BellSouth Interconnection Services
