Date: November 3, 2005

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs - (Documentation/Guides) - Update to the BellSouth Local Ordering Handbook (LOH) Version 20.0a for Telecommunications Industry Forum 9 (TCIF 9) Release 20.0

This is to advise that BellSouth has identified the need for updating documentation in the LOH Version **20.0a** for TCIF 9, Release 20.0.

CCP Number	Description Of The Change
2300	Update the LOH-Section 3: Ordering (General Local Service Ordering Information) for Partial Move Order Request - REQ TYP E & M, Non-Complex on the process on submitting partial move requests. Update Class of Service Change for Non-Complex REQ TYPs E & M in the LOH-Section 3: Ordering (General Local Service Ordering Information) documentation to provide additional ordering instructions.

Please refer to the attachment for specific details of the changes listed above.

These changes will be reflected in the next update of the TCIF 9 Release 20.0/LOH Version **20.0b** scheduled to be posted Friday, November 4, 2005.

A summary of all changes within this document will be listed in the **Summary of Changes** section.

This update can be found on the BellSouth Interconnection Services Web site in the Customer Guides Section at:

<http://www.interconnection.bellsouth.com/guides/html/leo.html>

Please contact your BellSouth local support manager with any questions.

Sincerely,

ORIGINAL SIGNED BY KRISTEN E. SHORE

CCP 2300 Attachment Listed Below**BellSouth Local Ordering Handbook
Section 3 – Ordering*****Partial Move Order Request - REQTYPE & M, Non-complex
(TCIF 9)*****Description:**

A partial move request occurs when a customer is requesting to move lines from an existing account at one location to a new location, but wishes to leave at least one (1) working line at the old location.

Restrictions:

- Limited to manual ordering
- **Dual service is not applicable**

Ordering Considerations:

The customer must submit multiple LSR packages and use the RPON and NOR fields to associate the LSRs.

- The first LSR should be submitted with an ACT C, LNA D for all lines that are moving to the new location, or are simply being disconnected at the time of the move
- The second LSR should be submitted with an ACT N, LNA N for all lines that are being installed at the new service address. Additional lines (that did not exist at the previous address) may also be added on this LSR using LNA N
- The RPON field should be populated with the PON from the lead LSR, on **all** LSRs involved with the partial move request
- The NOR field, for the lead PON, must be 01-XX, where XX is equal to the total number of LSRs involved with the partial move request. Each subsequent value for this field must be increased by one digit with XX data remaining the same
- The customer should follow the REQTYPE E (NON-Complex) R/C/O tables for ACT of C and ACT of N for completing an LSR for a partial move order on a resale account
- The customer should follow the REQTYPE M (Non-Complex) R/C/O tables for ACT of C and ACT of N for completing an LSR for a partial move order on Port/Loop combination residence/business
- If the existing Account Telephone Number is moving to the new location, the new Main TN must be indicated in the Remarks section of the LSR.

Change Basic Class of Service (BCS) from Residence to Business or Business to Residence (TCIF 9)

Description:

This section addresses the process for changing a Residence Class of Service to a Business Class of service, or changing from a Business class of service to a Residence class of service.

Ordering Considerations:

All line features that should appear after the class of service change (residence to business or business to residence), must be indicated via LSR entry (FA=N), **including existing line features on the existing CSR**. If not, all existing features will be removed.

Restrictions:

Change from Residence to Business restrictions:

- Limited to REQTYPE E (Non-Complex), M (Non-Complex) or J
- ACT is limited to C or V when REQTYPE E (Non-Complex) and M (Non-Complex)
- ACT is limited to R when the REQTYPE is J
- When the ACT is R, the basic class of service must be changing from LNPRL to LNPBL
- TOS 1st character must be 1
- LNECLSSVC field is required and must correspond to the TOS field
- Changes from residence to business service may be made without change in telephone number, if the subscriber so desires.

Change from Business to Residence restrictions:

- Limited to REQTYPE E (Non-Complex), M (Non-Complex) or J
- ACT is limited to C or V when REQTYPE E (Non-Complex) and M (Non-Complex)
- ACT is limited to R when the REQTYPE is J
- When the ACT is R, the basic class of service must be changing from LNPBL to LNPRL
- TOS 1st character must be 2
- LNECLSSVC field is required and must correspond to the TOS field
- Telephone Number Restrictions:
