Date April 13, 2006

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – (Documentation/Guides) – Implementation of Local Service Ordering Guide 10 and EDI Local Mechanization Specifications 10 Ordering Forms

This is to advise that, with the implementation of ENCORE Release 22.0 on July 10, 2006, BellSouth will adopt the following Local Service Ordering Guide 10 (LSOG10) and EDI Local Mechanization Specifications 10 (ELMS10) forms:

- Local Service Request (LSR)
- Hunt Group Information
- End User (EU)
- Resale Service (RS)
- Resale Private Line (RPL) (Manual Only)
- Port Service (PS)
- Number Portability (NP)
- Loop Service (LS)
- Loop Service with Number Portability (LSNP)
- Directory Listing (DL)
- Direct Inward Dialing (DID)/PBX/Direct Outward Dialing (DOD)

BellSouth is making this change as a result of the ELMS10 enhancements that participating CLECs requested via the Change Control Process (CCP). In addition, moving to the LSOG Version 10 forms will position BellSouth to be in concert with the latest industry guidelines.

BellSouth recognizes that the transition may have an effect on your company's business and systems. Therefore, on March 24, 2006, BellSouth posted the Local Ordering Handbook (LOH) for LSOG10/ELMS10. In order to afford your company adequate time to transition, the timelines for conversion to these forms are as follows:

- July 10, 2006 – Implement the designated LSOG10/ELMS10 ordering forms
- July 10, 2006 – November 5, 2006 – A four-month grace period to transition from LSOG6 to LSOG10 forms for manual ordering
- November 5, 2006 – Retire LSOG6 forms for manual ordering

On November 5, 2006, a complete transition to the designated Ordering and Billing Forum (OBF) LSOG10 Ordering Forms will be effective. As of that date, CLECs must submit all manual orders on the LSOG10 forms or the service request will be rejected.

If you have any questions please contact your BellSouth local support manager.

Sincerely,
