**Carrier Notification
SN91086083**

Date: April 25, 2006

To: Competitive Local Exchange Carriers (CLEC), Independent Telephone Companies (ICO) and Wireless Service Providers (WSP)

Subject: CLECs, ICOs and WSPs – (E911) – Announcing a Reduction for the Number Portability Administration Center Validation Timeframe from 14 days to 7 days

This is to advise that, effective Monday, May 15, 2006, BellSouth and Intrado will reduce the number of days to recycle failed Migrate errors (755) for all carriers from 14 days to 7 days. Once the failed Migrate error (755) has recycled to a hard error code, Lock Exceeds Number of Retries (760), Intrado will perform a Number Portability Administration Center (NPAC) validation and take appropriate actions to resolve the error(s) as outlined in Section 22B of the National Emergency Number Association (NENA) O2-011 Data Standards. This reduction will enable faster resolution of failed Migrate errors for all carriers in the BellSouth region.

All carriers are encouraged to submit appropriate Unlocks and Migrates based upon the actual porting date of their customers to ensure accuracy of porting in the E911 database.

Intrado will continue to provide daily Local Number Portability (LNP) reports that can be obtained through the Data Exchange mailbox connecting each carrier to Intrado. All carriers are encouraged to review the reports daily to ensure successful porting activity.

If you have any questions, please call Rosemary Parker at (205) 321-2951.

Sincerely,
