**Carrier Notification
SN91086122**

Date: June 13, 2006

To: All Business Markets – Wholesale Customers

Subject: All Business Markets – Wholesale Customers – (Billing) – **REVISED** – Billing Option
Change to a Multiple Bill Arrangement for Alaska Native Broadband 1 License, LLC in the
State of Kentucky (Originally posted on June 9, 2006)

This is to advise of a new billing arrangement being implemented between BellSouth and Alaska Native Broadband 1 License, LLC in the state of Kentucky. This new arrangement is known as multiple billing and is associated with Tandem Level Type 2A and Type 2D Wireless Interconnections.

Multiple billing occurs when subscribers of one telecommunications carrier, either a Competitive Local Exchange Carrier (CLEC), Commercial Mobile Radio Service (CMRS) Provider, Independent Company (ICO) or Interexchange Carrier (IXC), originate telecommunications traffic that is terminated to subscribers of another telecommunications carrier through a third telecommunications carrier's network. In this environment, each telecommunications carrier may bill the Originating Carrier for its portion of the telecommunications services provided. The Multiple Exchange Carrier Access Billing (MECAB) document, prepared by the Ordering and Billing Forum (OBF), establishes the guidelines for billing when multiple telecommunications carriers are involved in providing telecommunications service.

Effective with switched access usage and/or telecommunications traffic generated beginning on **June 27, 2006**, the billing option for Alaska Native Broadband 1 License, LLC in the state of Kentucky will be changed to a multiple bill arrangement. In accordance with OBF guidelines, where such traffic is routed through BellSouth's network, BellSouth will provide call detail records to the terminating carrier for the telecommunications traffic originated by and/or terminated to Alaska Native Broadband 1 License, LLC.

Please contact your BellSouth account team representative with any questions.

Sincerely,
