**Carrier Notification
SN91086135**

Date: September 1, 2006

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – (Interconnection/Contractual) – Master List of Wire Centers that Satisfy the Non-Impairment Thresholds in the BellSouth Region (Originally posted July 19, 2006)

With this Carrier Notification letter, BellSouth is posting to its Web site the Master List of Unimpaired Wire Centers as Approved by State Commissions in its Region. BellSouth is posting this Master List so that the unimpaired wire centers for each state, as approved by each state commission, can be viewed in one central location. To date, this Master List includes the unimpaired wire centers approved by the Alabama, Florida, Georgia, **Louisiana**, North Carolina and South Carolina Commissions.

Effective August 15, 2006, BellSouth **began** rejecting Unbundled Network Element (UNE) orders for high capacity loop and transport circuits that **were** not available as UNEs **in Alabama, Florida, Georgia, North Carolina and South Carolina. Effective September 30, 2006, BellSouth will begin rejecting UNE orders for high capacity loop and transport circuits that are not available as UNEs in Louisiana.** Although BellSouth will not be rejecting orders at this time in the remaining states, BellSouth stands by the earlier list of unimpaired wire centers as submitted in the Generic Change of Law Docket in each of these respective states.

BellSouth will update the Master List when each of the Kentucky, Mississippi and Tennessee Commissions issue their orders in the Generic Change of Law Proceedings.

On a continuing basis, this Master List may be viewed on the BellSouth Interconnection Services Web site at:

http://interconnection.bellsouth.com/tools_forms_and_reports/index.html

Please contact your BellSouth contract negotiator with any questions.

Sincerely,
