**Carrier Notification
SN91086149**

Date: July 10, 2006

To: Facility-based Competitive Local Exchange Carriers (CLEC)

Subject: Facility-based CLECs – (Product/Service) – Removal of Unbundled Network Elements-Platform/DS0 Wholesale Local Platform Service to Unbundled Network Element-Loop Bulk Migration CLEC Information Package, Version 5

This is to announce that, on July 11, 2006, the Unbundled Network Elements-Platform (UNE-P)/DS0 Wholesale Local Platform Service to UNE-Loop (UNE-L) Bulk Migration CLEC Information Package, Version 5, will be removed from the BellSouth Interconnection Services Web site. This document is being removed due to the sunset of the bulk migration process supported by this CLEC Information Package.

As you are aware, on April 29, 2005, BellSouth notified the CLEC community through Change Management Change Request (CR) 2220 that the bulk process as it existed then would be sunset with Release 22.0 in July 2006. Also, on March 8, 2006, BellSouth conducted the Release 22 Walkthrough to review the various CRs, which included CR2220.

Included in CR2220, and as requested by the CLEC community, BellSouth committed to implement CR1737- Bulk Ordering Process (Single Local Service Request (LSR) in a bulk arrangement). This process was implemented in Release 19 in July 2005, and will continue to be maintained by BellSouth. Should you wish to use this process, and for those CLECs that have not done so, please contact your BellSouth negotiator to include the bulk migration Uniform Service Order Codes (USOC) in your Interconnection Agreement. For information regarding this process, refer to the Bulk Migration (Single LSR/Bulk Arrangement) CLEC Information Package which can be found on the BellSouth Interconnection Web site at:

http://interconnection.bellsouth.com/reference_library/guides/html/unes.html

If you have any questions, please contact your BellSouth local support manager.

Sincerely,
