

**Purpose
Statement**

The purpose of this guide is to provide a billing instructional overview for CLECs engaged in offering local telecommunications services through AT&T. After procuring products and services from AT&T, the CLEC will be given a bill format that will vary depending on factors such as the type of CLEC (e.g. Reseller, Facility-Based, Unbundled Network Elements) and the service or products purchased.

For simplicity, the explanations provided in the body of this document will refer to just UNE-P, but the procedures will apply to both UNE-P and the commercially available wholesale version of this service, described as the Wholesale Local Platform Service.
