Indicate MH, conduit & Cable records information on additional sheets & attach as required .

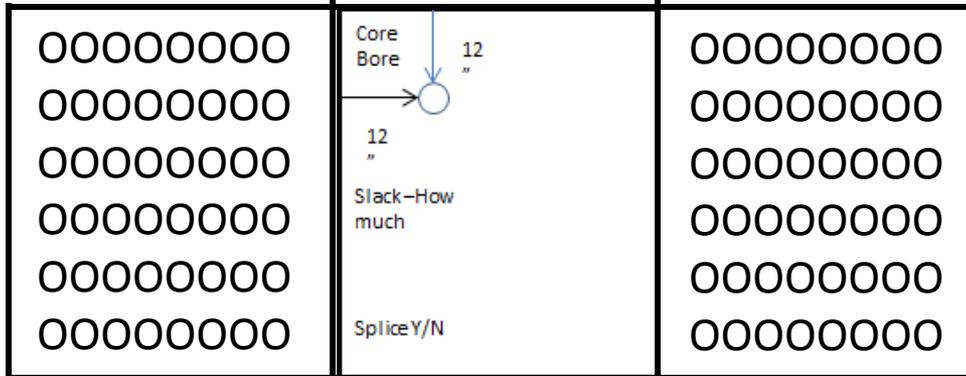

Provide Digital Photos with Detail forms if possible

Max 2-6" Core bores for Ingress & Egress, 4' Schd 40PVC with 3- 1/4" HDPE Ducts. Openings to be sealed water tight using Link Seals &/or Hydraulic Cement.

All proposed slack loops and splice locations are subject to Engineering review.

If space exists, the placement of 3-1.25" INDU's will be required, to maximize the conduit capacity.
