**Carrier Notification
SN91082472**

Date: June 28, 2001

To: Interexchange Carriers (IXCs), Meet Point Billed (MPB) Commercial Mobile Radio Service (CMRS) and Competitive Local Exchange Carriers (CLECs)

Subject: IXCs, MPB, CMRS CLECs - Billing Change for South Central Rural Telephone Co in Kentucky

This is to advise of a billing change to non-common minutes of use being implemented in Kentucky between South Central Rural Telephone Co (EC/OCN 0418) and BellSouth.

Non-common minutes occur when each company bills from its recordings without the exchange of summary records between exchange companies. Primarily, the Initial Billing Company (IBC) is responsible for determining the jurisdiction, factoring, etc., for all usage (i.e. interstate, intrastate and local) and providing it to the Subsequent Billing Company (SBC) for billing to the customers. The Multiple Exchange Carrier Access Billing (MECAB) document, prepared by the Ordering and Billing Forum (OBF), establishes the guidelines for billing when multiple local exchange carriers are involved in providing service. The elimination of common minute of use billing was approved at the OBF in November 2000 for implementation between companies beginning January 1, 2001, and ending August 31, 2002.

With minutes of use generated beginning July 23, 2001, the billing change to non-common minutes will be implemented. The last bill for BellSouth and South Central Rural for billing in a common minute of use environment will be usage through July 22, 2001, and an IBC bill date of August 1, 2001.

South Central Rural Telephone Co should also be notifying its customers of this change.

All payments will still be made to the company rendering the access bill.

Please contact your BellSouth account team representative with any questions.

Sincerely,
