Carrier Notification**SN91082540**

Date: August 7, 2001

To: Competitive Local Exchange Carriers (CLECs)

Subject: CLECs - Implementation of "Go Ahead" Notification in the BellSouth Enhanced Delivery Initiative System

This is to advise that on November 1, 2001, BellSouth will implement a change in the current turn-up process for SL1 non-designed, non-coordinated unbundled services. The Enhanced Delivery Initiative (EnDI) system was designed to deliver notification directly to CLECs to advise of completion of non-coordinated conversion activity. This "go ahead" notification will alert the CLEC to port the converted service.

Currently, notification of "go ahead" ready for porting of these orders is provided via telephone from the BellSouth Customer Wholesale Interconnection Network Services (CWINS) Center to CLEC representatives. With the utilization of this delivery system, "go ahead" notification will be sent directly to a facsimile machine, as specified by each CLEC, rather than the CLEC representative.

All other work processes will remain unchanged. Provisioning concerns should continue to be directed to the CWINS Center and will be handled by CWINS personnel.

Please contact your BellSouth account team representative with any questions.

Sincerely,

ORIGINAL SIGNED BY MATEO CAYMOL FOR JIM BRINKLEY
