Date: August 9, 2001

To: Interexchange Carriers (IXCs), Meet Point Billed (MPB) Commercial Mobile Radio Service (CMRS) and Competitive Local Exchange Carriers (CLECs)

Subject: IXCs, MPB, CMRS and CLECs - Billing Change for two ALLTEL Companies (Georgia Telephone and Standard Telephone Company)

This is to advise of a billing change to non-common minutes of use being implemented with two ALLTEL companies. Georgia Telephone Company (EC/OCN 0364) and Standard Telephone Company (EC/OCN 0386) in Georgia are implementing this change with BellSouth.

Non-common minutes occur when each company bills from its recordings without the exchange of summary records between exchange companies. Primarily, the Initial Billing Company (IBC) is responsible for determining the jurisdiction, factoring, etc., for all usage (i.e., interstate, intrastate and local) and providing it to the Subsequent Billing Company (SBC) for billing to the customers. The Multiple Exchange Carrier Access Billing (MECAB) document, prepared by the Ordering and Billing Forum (OBF), establishes the guidelines for billing when multiple local exchange carriers are involved in providing service. The elimination of common minutes of use billing was approved at the OBF in November 2000 for implementation between companies beginning January 1, 2001, and ending August 31, 2002.

With minutes of use generated on the dates effective below, the billing change to non-common minutes will be implemented. The last bill for BellSouth and these companies for billing in a common minute of use environment will be any usage through one (1) day prior to the effective date.

<u>Company Name</u>	<u>OCN</u>	<u>Effective Date</u>
Georgia Telephone Company	0364	September 10, 2001
Standard Telephone Company	0386	September 25, 2001

ALLTEL of Georgia should also be notifying its customers of this change.

All payments will continue to be made to the company rendering the access bill.

Please contact your BellSouth account team representative with any questions.

Sincerely,
