Subject: BellSouth ATM Service Customers - Interruption of ATM Services Due to Switch Software Upgrade

This is to advise that BellSouth is in the process of upgrading the software in the switches that support BellSouth's broadband ATM services. The software upgrades will begin on September 23, 2001, and conclude on January 8, 2002. The attached schedule lists the dates on which specific switches will be upgraded.

As a result of the software upgrade, customers can expect to experience a three-to-five minute interruption between the hours of 2:00 AM and 4:00 AM Local Time on the date that the specific switch is upgraded and rebooted. If your company experiences an interruption beyond this time, please contact BellSouth through the normal reporting procedures.

If you have any questions regarding the software upgrade, please contact your BellSouth account team representative.

Sincerely,
