
BellSouth Interconnection Services

675 West Peachtree Street
Atlanta, Georgia 30375

Carrier Notification**SN91082686**

Date: November 1, 2001

To: Competitive Local Exchange Carriers (CLECs)

Subject: CLECs - Announcement of E911 Professional Services

This is to advise that BellSouth is offering professional services that can be instrumental in assisting CLECs, along with CLEC wireless carrier customers, in meeting their Phase II obligations as required by the Federal Communications Commission's (FCC) Wireless 911 Order in CC Docket 94-102 (FCC 96-264), released on July 26, 1996. Under Phase II of the FCC Wireless 911 rules, wireless carriers are required to provide the location of a wireless 911 call to the Public Safety Answering Point (PSAP). The Commission's critical date for E911 Phase II deployment was October 1, 2001; however, due to a number of waiver requests, the FCC has extended that compliance date into the future for many wireless carriers.

BellSouth is offering professional services to assist your company with coordination of the activities required to comply with Phase II deployments.

For more details regarding BellSouth professional services for the Phase II deployments, you may contact your BellSouth account team representative or Karen Nurkiewicz at (404) 927-1277.

Sincerely,
