To: Competitive Local Exchange Carriers (CLECs)

Subject: CLECs - Update to Hunt Group Activity (HA) Tables

This is to advise that the BellSouth Business Rules for Local Ordering (BBR-LO) HA Tables for Hunting will be updated in the BBR-LO scheduled to be posted to the BellSouth Interconnection Services' Web site on March 1, 2002. These changes appear in the REQ TYP E-Resale chapter and apply to *both* REQ TYP E and M.

This update clarifies the use of HA Tables for Hunting and appears as follows:

HA Tables for Hunting

Hunting is an OPTIONAL feature. The attached tables apply only to CLECs retaining existing Hunt Group(s), creating, modifying or removing Hunt Groups. **If Hunting is not involved, these tables do not apply.**

The attached tables will provide the Required, Conditional and Optional (R/C/O) fields for the Local Service Request (LSR) form/screen for every valid Hunt Group Activity for this requisition type. Please refer to the Hunt Group Activity section for a listing of the valid HAs for each account level activity (ACT).

All fields that are not mentioned are either invalid, not applicable, prohibited or not supported. When fields are populated, which are not supported by BellSouth, those fields not supported will be ignored. Populating any other fields may result in a fatal reject or a clarification of the service request.

Please note the following codes:

- Mandatory entries are indicated by quotation marks ("xxx").
- Optional fields marked with an asterisk (\*) force at least one of the conditional fields to become required when populated.
- Fields used only for manual orders are followed by (m).
- Fields used only for electronic orders are followed by (e).

See the **Data Element Dictionary** Section for additional information on each of the fields listed in the attachment.

This update can be found at the BellSouth Interconnection Services' Web site located at:

Please contact your BellSouth Local Contract Manager with any questions.

Sincerely,

**NOTE: The HLA is required for each Telephone Number in the Hunt Sequence when HA = C.**

- NOTE: If HA is C (and you are deleting or disconnecting a line(s) from the Hunt sequence), then use: HLA: D = Delete (On each HT (Hunt Telephone Number) coming out) and HLA: E=Existing (On each HT (Hunt Telephone Number) remaining in the sequence).
- If HA is C (and you are adding a line(s) in the Hunt sequence), then use: HLA: N = Install (On each HT (Hunt Telephone Number) going in) and HLA: E=Existing (On each HT (Hunt Telephone Number) remaining in the sequence).
- If HA is C (and you are re-arranging the Hunt Sequence for the Existing Hunt Telephone Numbers or re-arranging the Hunt Sequence when deleting or adding a Hunt Telephone Number(s)), then use: HLA: E=Existing/Changing Sequence Position on all existing Hunt Telephone Numbers.
