**Carrier Notification  
SN91082954**

Date: April 1, 2002

To: All Competitive Local Exchange Carrier (CLECs), Commercial Mobile Radio Service (CMRS), Interexchange Carriers (IXCs) and Meet Point Billed (MPB)

Subject: CLECs, CMRS, IXCs and MPB - Billing Change to Non-Common Minutes of Use for Glenwood Telephone Company in Georgia

This is to advise that, effective June 17, 2002, a billing change to non-common minutes of use will be implemented between BellSouth and Glenwood Telephone Company in Georgia (OCN/EC 0365).

Non-common minutes occur when each company bills from their recordings without the exchange of summary records between exchange companies. Primarily, the Initial Billing Company (IBC) was responsible for determining the jurisdiction, factoring, etc., for all usage (i.e., interstate, intrastate and local) and providing it to the Subsequent Billing Company (SBC) for billing to the customers. The Multiple Exchange Carrier Access Billing (MECAB) document, prepared by the Ordering and Billing Forum (OBF), establishes the guidelines for billing when multiple local exchange carriers are involved in providing service. The elimination of common minutes of use billing was approved at the OBF in November 2000, for implementation between companies starting January 1, 2001, and ending August 31, 2002.

With minutes of use generated June 17, 2002, the billing change to non-common minutes will be implemented. The last bill for BellSouth and Glenwood for billing in a common minutes of use environment will be usage through June 16, 2002, and an IBC bill date of July 1, 2002.

Glenwood Telephone Company should also be notifying its customers of this change. All payments will continue to be made to the company rendering the access bill.

Please contact your BellSouth Account Team Representative with any questions.

Sincerely,

**ORIGINAL SIGNED BY JIM BRINKLEY**
