**BellSouth Interconnection Services**

675 West Peachtree Street  
Atlanta, Georgia 30375

**Carrier Notification****SN91082973**

Date: April 3, 2002

To: Competitive Local Exchange Carriers (CLECs)

Subject: CLECs – CLEC Application Verification Environment (CAVE) Availability, ENCORE Release 10.5 and Local Number Portability (LNP), Release 7.0

This is to advise that BellSouth will deploy ENCORE Release 10.5 and LNP Release 7.0 in CAVE on May 4, 2002. CAVE will be available for testing beginning May 6, 2002, through May 17, 2002. Telecommunications Access Gateway (TAG) Application Program Interface (API) 7.9 will also be available for testing.

CLECs who would like the opportunity to test ENCORE Release 10.5 and LNP Release 7.0 should contact their BellSouth Electronic Commerce Account Team.

Please refer to the attachment for further details.

Sincerely,

**ORIGINAL SIGNED BY MATEO CAYMOL FOR JIM BRINKLEY**

Jim Brinkley – Senior Director  
BellSouth Interconnection Services

<b>CCP CR#</b>	<b>FEATURES</b>																																																		
CR0494	LSRs in Q Status-Do Not Display Error Message on SUPP																																																		
CR0368	Provide CFA via pre-order																																																		
CR0365	Change Main Account Number																																																		
CR0078	Mechanization of Enhanced Extended Links (EEL)																																																		
CR0020	View Multiple CSRs Simultaneously																																																		
CR0038	TOS Field on REQ TYP J																																																		
CR0145	Remove a TN from a LENS LSR																																																		
CR0146	Default the listed TN																																																		
CR0040	Order Tracking Phase 2A - xDSL																																																		
CR0557	Electronic Ordering of UDC-Phase II-Planned Manual Fallout to Flow Through																																																		
CR0461	Perform Facility Check in Florida																																																		
<b>CCP CR#</b>	<b>DEFECTS</b>																																																		
CR0535	LENS does not display original TN in Selected Box of TN reservation screen on supp if TN is unavailable in backend systems																																																		
CR0618	RESID Validation Defect for Migration of xDSL multi-line accounts and documentation update																																																		
CR0574	XDSL RESID Defect for Reuse of Facilities																																																		
CR0668	Bldg-EU on xDSL Firm Order is not being mapped by SGG																																																		
CR0692	When SGG encounters an IO File Error in the File Processor, notifications are not being returned																																																		
CR0471	Process cancel SUP after auto-clarify defect																																																		
CR0586	No FOCs Received After Jeopardies																																																		
CR0473	Sending CLEC LORD and ECKKT on auto-clarify defect																																																		
CR0679	LENS has invalid Type Of Service on Line Share orders																																																		
CR0705	LESOG Hunting Defect - Hunting FID remains populated behind the line USOC in error when Hunting has been removed																																																		
CR0697	LENS designer alternate call drop down box retained on listing type field																																																		
CR0678	LENS does not display partial LMU information when backend systems timeout																																																		

	CR0642	EDI Mercator Software Incorrectly Sending Positive Functional Acknowledgements
	CRO682	ZDRG FID for REQTyps M & A, ACTYP V, P, & Q defect

<b>LNP Release 7.0</b>
