Subject: CLECs, CMRS, IXCs and MPB - Billing Change to Non-Common Minutes of Use for KMC Telecom

This is to advise that, effective June 1, 2002 and June 20, 2002, a billing change to non-common minutes of use will be implemented between BellSouth and KMC Telecom based on the individual state and OCN/EC codes.

Non-common minutes occur when each company bills from their recordings without the exchange of summary records between exchange companies. Primarily, the Initial Billing Company (IBC) was responsible for determining the jurisdiction, factoring, etc., for all usage (i.e., interstate, intrastate and local) and providing it to the Subsequent Billing Company (SBC) for billing to the customers. The Multiple Exchange Carrier Access Billing (MECAB) document, prepared by the Ordering and Billing Forum (OBF), establishes the guidelines for billing when multiple local exchange carriers are involved in providing service. The elimination of common minutes of use billing was approved at the OBF in November 2000, for implementation between companies starting January 1, 2001, and ending August 31, 2002.

The conversion schedule for KMC Telecom is as follows:

For the IBC bill date of June 8, 9, and 10, 2002, containing usage through May 31, 2002, the following states and OCN/EC codes will be converted effective June 1, 2002:

Alabama – 5648	Kentucky – 0416	North Carolina – 2540
Florida – 8982	Louisiana – 5653	South Carolina – 5717, 6124
Georgia – 5651	Mississippi – 5656	

For the IBC bill date of July 1, 2002, containing usage through June 19, 2002, the following states and OCN/EC codes will be converted effective June 20, 2002:

Alabama – 7451	Louisiana – 7637	South Carolina – 4389
Florida – 7582	Mississippi – 4664	Tennessee – 2757
Georgia – 7583, 4389	North Carolina – 7585	

KMC Telecom should also be notifying its customers of this change. All payments will continue to be made to the company rendering the access bill.

Please contact your BellSouth Account Team Representative with any questions.

Sincerely,
