
BellSouth Interconnection Services

675 West Peachtree Street
Atlanta, Georgia 30375

Carrier Notification**SN91083106**

Date: June 7, 2002

To: Competitive Local Exchange Carriers (CLECs) Interexchange Carriers (IXCs),
Wireless Service Providers (WSP) and Other Providers of Aggregated Directory
Assistance (DA) Services

Subject: Facility Based CLECs, IXCs, WSPs and Other Providers of Aggregated DA
Services – Introduction of Wholesale National Directory Assistance, Dual Trunking
for Call Completion

BellSouth is pleased to announce that it now offers a Wholesale National Directory Assistance (WNDA) Call Completion option that is switch-independent by utilizing dual trunking. Previously, Call Completion was only available for the WNDA product by means of Release Link Trunking (RLT), which required a Nortel DMS 250 or higher switch.

With WNDA Volume and Term Pricing options, as directory assistance call volumes grow, so do the savings. Optional features include call completion capability by means of RLT or Dual Trunking, Custom Branding and Introductory Messaging.

If you would like additional information, please contact your BellSouth Account Team Manager.

Sincerely,

ORIGINAL SIGNED BY MATTHEW STONE FOR JIM BRINKLEY
