
BellSouth Interconnection Services675 West Peachtree Street
Atlanta, Georgia 30375**Carrier Notification****SN91083127**

Date: July 12, 2002

To: All Competitive Local Exchange Carrier (CLECs), Commercial Mobile Radio Service (CMRS), Interexchange Carriers (IXCs) and Meet Point Billed (MPB)

Subject: CLECs, CMRS, IXCs and MPB – **REVISED** - Billing Change to Non-Common Minutes of Use between BellSouth and CLECs (originally posted on June 6, 2002)

This is to advise that a billing change to non-common minutes of use will be implemented between BellSouth and the companies listed below effective with the respective conversion dates.

Non-common minutes occur when each company bills from their recordings without the exchange of summary records between exchange companies. Primarily, the Initial Billing Company (IBC) was responsible for determining the jurisdiction, factoring, etc., for all usage (i.e., interstate, intrastate and local) and providing it to the Subsequent Billing Company (SBC) for billing to the customers. The Multiple Exchange Carrier Access Billing (MECAB) document, prepared by the Ordering and Billing Forum (OBF), establishes the guidelines for billing when multiple local exchange carriers are involved in providing service. The elimination of common minutes of use billing was approved at the OBF in November 2000, for implementation between companies starting January 1, 2001, and ending August 31, 2002.

With minutes of use generated on the conversion dates below for each company, the billing change to non-common minutes will be implemented. The last bill for BellSouth and these companies for billing in a common minute of use environment will be usage through the date prior to the conversion date.
