Subject: All BellSouth Interconnection Services' Customers - Revised Expanded Service Area Restrictions for Customized Code Restriction (CCR) Customers in North Carolina

Effective January 1, 2002, BellSouth reduced to a zero rate for most customers calling to bands A and B of the Expanded Service Area in North Carolina. This is to advise that effective July 5, 2002, BellSouth will revise the Expanded Service Area restrictions for CCR customers in North Carolina to allow calling within the new free calling area, while blocking calls to the remaining Expanded Service Area exchanges. All customers who subscribe to CCR with Expanded Service Area blocking will now be able to place calls to exchanges in bands A and B of the Expanded Service Area.

These calls will be free for all customers except for grandfathered services of Thrifty Caller Service and Message Rate Service, as well as calls that are part of the MetroConnectionSM plan.

If you have any questions, please contact your BellSouth Local Contract Manager.

Sincerely,
