**Carrier Notification****SN91083157**

Date: June 14, 2002

To: All Wireless Carriers

Subject: All Wireless Carriers – Updates to E911 Guide For Wireless Carriers

This to advise that beginning June 24, 2002, all Wireless Carriers will receive their E911 daily error reports electronically from Intrado, the E911 data vendor for BellSouth. The errors will be delivered to the Wireless Carrier's Intrado Connect Mailbox instead of being faxed.

In order to support the transition from manually faxed error reports to electronic reports, Wireless Carriers will receive both faxed and electronic error reports simultaneously for the first two weeks. After the two-week transition period, Wireless Carriers will be responsible for downloading the electronic error reports and, of course, correcting their errors in a timely manner.

Tab 6 of the E911 Guide for Wireless Carriers has been updated to reflect this change. The E911 Guide can be viewed at the BellSouth Interconnection Services' Web site located at the following address:

<http://www.interconnection.bellsouth.com/main/wireless.html>

If you have any questions, please contact the BellSouth 911 Implementation Manager at 205-321-2951.

Sincerely,

**ORIGINAL SIGNED BY JIM BRINKLEY**

Jim Brinkley – Senior Director  
BellSouth Interconnection Services
