Subject: All BellSouth Interconnection Services' Customers - Three-Way Calling with Transfer Available in South Carolina

This is to advise that effective August 1, 2002, Three-Way Calling with Transfer can be ordered and provisioned in South Carolina for business customers **only**, as a stand-alone service or in packages, using the Uniform Service Order Code (USOC) ESCWT. This feature allows an end user to hold an in-progress call and complete a second call while maintaining privacy from the first call or to add on the previously held call for a three-way conference.

When submitting a manual or electronic Local Service Request (LSR) for USOC ESCWT, the Field Identifier (FID) telephone number (TN) with data of NPA-NXX-XXX should be floated behind the USOC ESCWT for each Line Number (LNUM).

If you have any questions, please contact your BellSouth Local Support Manager.

Sincerely,
