In order to better serve customer needs and streamline its service offerings, BellSouth will discontinue or make obsolete less commonly used services and replace with more up-to-date services in the states as detailed in the table below. BellSouth tariff filings to change obsolete restrictions for certain residential and business calling services began in July 2001, and will continue through December 2002.

The table below indicates the actions to be applied to services in the following state:

Alternate services will be offered to BellSouth customers as a replacement for these services. For customers who currently subscribe to expanded calling plans, BellSouth also offers Optional Calling Plans that can help reduce local toll calling costs.
