Date: July 16, 2002

To: Competitive Local Exchange Carriers (CLECs)

Subject: CLECs – Update to the BellSouth Business Rules for Local Ordering (BBR-LO), Issue, 10.6current - Type of Service (TOS) Field for COIN Application

This is to advise that the BBR-LO, Issue 10.6current, is scheduled to be posted to the BellSouth Interconnection Service's Web site on Monday, August 26, 2002. The BBR-LO update includes the TOS field in the Data Element Dictionary for ordering COIN service.

This update primarily affects documentation changes for ordering COIN Unbundled Network Element-Platform (UNE-P) service via the Local Exchange Navigation System (LENS). Currently, there is a NOTE indicating that for LENS ordering of COIN UNE-P service, the TOS of 1BF will be used. The following change is effective immediately for ordering of UNE-P COIN service using the LENS application:

*** = Use 1BF for COIN UNE-P conversions LENS users only.**

**** = Request for UNE-P COIN ACT of N; LENS users only, must be submitted manually.**

Please refer to the attachment for the complete TOS field.

A summary of all changes within this document will be listed in the Revision History Section. This update can be found at the BellSouth Interconnection Service's Web site in the Customer Guides Section located at:

Please contact your BellSouth Support Manager with any questions.

Sincerely,
