**Carrier Notification
SN91083502**

Date: December 6, 2002

To: Competitive Local Exchange Carriers (CLECs)

Subject: CLECs – Defect in the “ADL” Field Identifier (FID) to Resale Accounts with Line Number Activity (LNA) G

This is to advise that BellSouth has discovered a defect that incorrectly adds the “ADL” FID to a limited number of Resale orders on conversions with the designation of LNA of G. BellSouth is evaluating this defect correction for possible inclusion in ENCORE Release 11.1 scheduled in January 2003.

Through the Change Control Process (CCP), Change Request CR0968 has been opened to track this issue to resolution. The Change Request can be viewed at the BellSouth Interconnection Services' Web site located at:

http://www.interconnection.bellsouth.com/markets/lec/ccp_live/docs/statuses/change_requests/cr0968.pdf

Until BellSouth corrects the population of the “ADL” FID with LNA G on Resale orders, CLEC auditing processes may find some errors on Resale records only. When a CLEC initiates a Resale order with LNA of G, there is a potential for the “ADL” FID to be incorrectly populated on that order. The population of this “ADL” FID results in a slightly higher Subscriber Line Charge (SLC) for the additional line. If a CLEC discovers this issue on its bill, it should follow the billing dispute procedures outlined in its Interconnection Agreement.

Sincerely,
