**Carrier Notification
SN91083589**

Date: February 19, 2003

To: All Telecommunications Carriers

Subject: All Telecommunications Carriers - **REVISED**: Billing Option Change to a Multiple Bill Arrangement for Verizon Wireless of the East L.P. in Georgia **and South Carolina** (Original posted on February 13, 2003)

This is to advise of a new billing option being implemented between BellSouth and Verizon Wireless of the East L.P. in the States of Georgia **and South Carolina**.

Multiple billing occurs when subscribers of one telecommunication carrier, either a Competitive Local Exchange Carrier (CLEC), Commercial Mobile Radio Service (CMRS) Provider, Independent Company (ICO) or Interexchange Carrier (IXC), terminate traffic to subscribers of another telecommunication carrier through a third telecommunications carrier's network. In this environment, each telecommunication carrier may bill the Originating Carrier for its portion of the telecommunications services (multiple bill) to terminate the call. The Multiple Exchange Carrier Access Billing (MECAB) document, prepared by the Ordering and Billing Forum (OBF), establishes the guidelines for billing when multiple telecommunication carriers are involved in providing telecommunications service.

Effective with switched access usage and/or telecommunications traffic generated April 18, 2003, the billing option for Verizon Wireless of the East L.P. **in Georgia and South Carolina** will be changed to a multiple bill arrangement.

Please contact your BellSouth Account Team Representative with any questions.

Sincerely,
