To: All BellSouth Interconnection Services Customers

Subject: All BellSouth Interconnection Services Customers - Enhancements to the BellSouth Fast Packet Savings Plan

This is to advise that BellSouth Interconnection Services' Marketing is enhancing its Fast Packet Savings Plan (FSP), the company's premier discount plan for Asynchronous Transfer Mode (ATM) and Frame Relay services. The following changes will be effective on March 8, 2003:

- \$5M/7-Year plan discounts for DS1s and DS3s have been increased as follows:
 - DS1 discount is now 50%;
 - DS3 discount is now 45%.
- \$10M plan has been added, with advantageous discounts for every ATM and Frame Relay speed.
- Portion of Special Access (SPA) and Switched Access (SWA) transport revenues will now be counted towards qualifying revenues, based on the length of commitment:
 - 3-Year commitments: 10% of SPA and SWA transport revenue qualifies
 - 5-Year commitments: 25% of SPA and SWA transport revenue qualifies
 - 7 & 12-Year commitments: 35% of SPA and SWA transport revenue qualifies

These changes will be reflected in the BellSouth Tariff FCC No. 1, Section 2.4.8 (F). Specific SPA and SWA transport products included as part of qualifying revenues will be listed in the tariff.

Please contact your BellSouth Account Representative with any questions.

Sincerely,
