CLEC Information Package, Version 10

This is to advise that the BellSouth Unbundled Dedicated Transport (UDT) – **Ordinarily** Combined UNE Combinations CLEC Information Package, Version 10, will be updated and posted to the BellSouth Interconnection Services' Web site by April 1, 2003, at the following address:

<http://www.interconnection.bellsouth.com/guides/html/unes.html>

The updated document will include additional explanation that specifically addresses the Enhanced Extended Link (EEL), as an ordinarily combined UNE combination. Also, a chart will be inserted prior to the Critical Fields and Entries diagrams. The purpose of the chart is to identify which combinations represent EELs.
