**Carrier Notification  
SN91083634**

Date: March 19, 2003

To: Competitive Local Exchange Carriers (CLECs)

Subject: CLECs – BellSouth will no longer be providing alternative local exchange telephone service to the Willow Lakes Apartment Complex in Apopka, Florida

This is to advise that effective June 1, 2003, BellSouth Telecommunications, Inc. will no longer provide alternative local exchange telephone service to the Willow Lakes Apartment Complex in Apopka, Florida.

Since BellSouth is currently the only facility provider at the apartment complex and intends to remove its facilities on June 1, 2003, it will be necessary for CLECs to use other facilities to continue to provide services to their customers. BellSouth is working with Sprint Telecommunications, the Incumbent Local Exchange Carrier (ILEC) to assure that facilities are available at the complex.

Due to number assignment errors, it will be necessary for the CLEC end user to change their telephone numbers when their service moves to new facilities provided by Sprint. If a CLEC desires to have BellSouth place an intercept message on the old telephone number directing callers to the new number, the CLEC will need to make arrangements with its BellSouth Local Contract Manager for the intercept message. For a period of six months after the telephone number is changed, BellSouth will provide the intercept message on the old telephone number to refer calls to the new telephone number at no charge.

Listed below is the current schedule BellSouth has developed to exit the property:

Sprint complete facility deployment – March 1, 2003

Carrier Notification – April 15, 2003

Customer contact via Telephone – May 15, 2003

Complete move of Network Terminating Wire to Sprint – June 1, 2003

Final date to remove BellSouth facilities from the property – July 1, 2003

Should you have any questions, please contact your BellSouth Local Contract Manager.

Sincerely,

**ORIGINAL SIGNED BY JERRY HENDRIX**

Jerry Hendrix – Assistant Vice President  
BellSouth Interconnection Service
