Atlanta, Georgia 30375

**Carrier Notification****SN91083636**

Date: March 17, 2003

To: Competitive Local Exchange Carriers (CLECs)

Subject: Other Supporting Data Files (OSDF) Posted to the BellSouth Performance Measurement Analysis Platform (PMAP)

This is to advise that, in accordance with the North Carolina Utilities Commission Order released on May 22, 2002, in Docket No. P-100, SUB 133k, BellSouth is making available Other Supporting Data Files (OSDF) to the CLECs. OSDF is defined as:

- Records initiated by CLECs but not used in measurement calculations because of Service Quality Measurement (SQM) exclusions.
- Error records not included in measurement calculations but for which the originating CLEC can be identified.
- Records not included in any Supporting Data File.

The OSDF data for individual CLECs for the February 2003 data month will be made available to CLECs on March 21, 2003. These OSDF data files will be posted to the BellSouth PMAP Web site and will be accessible to CLECs utilizing their User IDs and Passwords currently assigned. CLECs without PMAP access should contact their BellSouth Account Team representative.

The Raw Data User's Manual (RDUM) has been updated to define these files and will be available in the Exhibits and Other Documentation sections on the home page of the PMAP Web site located at:

<http://pmap.bellsouth.com>

In the future, OSDF data will be available with the regular PMAP reports on the 21<sup>st</sup> of each month following the recorded data month.

Sincerely,

**ORIGINAL SIGNED BY JERRY HENDRIX**

Jerry Hendrix – Assistant Vice President  
BellSouth Interconnection Services
