Atlanta, Georgia 30375

**Carrier Notification  
SN91083731**

Date: June 17, 2003

To: Interexchange Carriers (IXCs) and Competitive Local Exchange Carriers (CLEC)

Subject: IXCs and CLECs – Implementation of the BellSouth® Network Visibility Service (NVS)  
Reference and Ordering Guidelines for ATM and Frame Relay Services

This is to announce the implementation of the BellSouth NVS Reference and Ordering Guidelines for ATM and Frame Relay Services. BellSouth NVS is a tool that provides customers a view into their BellSouth®Fast Packet Network to monitor fault and alarm information as network events occur. NVS will also provide customers the ability to view near real-time network performance and historical reports.

This package will be posted to the BellSouth Interconnection Services' Web site by June 28, 2003.

For ordering information, please click onto the Web site listed below and access the document titled NVS.
