**Carrier Notification****SN91083766**

Date: July 18, 2003

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs - Announcement of Update to the Unbundled Network Terminating Wire (UNTW) Service Inquiry (SI) Process

This is to advise that effective August 22, 2003, BellSouth will update the UNTW SI Process.

The major change in the SI Process when requesting UNTW at a multi-unit property is that only one Circuit ID will be assigned per property address. With this process change, the CLEC will only submit one Purchase Order Number (PON) per property on the SI, rather than submitting one PON per Access Terminal. Typically when UNTW was requested, one PON per Access Terminal resulted in multiple PONs being issued and multiple Circuit IDs being assigned for the CLEC to maintain.

With this change, the UNTW Revised CLEC Information Package, Version 1, will replace the current UNTW CLEC Information Package, Version 10 on July 23, 2003. The CLEC Information Package can be found on the BellSouth Interconnection Services' Web site at:

<http://interconnection.bellsouth.com/guides/html/unes.html>

To the extent this change is in conflict with the CLEC's Interconnection Agreement, the CLEC may want to negotiate an amendment to its Interconnection Agreement to take advantage of this change.

If you have any questions, please contact your BellSouth Local Support Manager.

Sincerely,

**ORIGINAL SIGNED BY JERRY HENDRIX**

Jerry Hendrix – Assistant Vice President  
BellSouth Interconnection Services
