**Carrier Notification  
SN91083775**

Date: July 25, 2003

To: All Telecommunications Carriers

Subject: All Telecommunications Carriers - Billing Option Change to a Multiple Bill Arrangement for Public Service Cellular, Inc. in Alabama, Georgia and South Carolina.

This is to advise of a new billing arrangement being implemented between BellSouth and Public Service Cellular, Inc. in the states of Alabama, Georgia and South Carolina. This new arrangement is known as multiple billing, and is associated with Tandem Level Type 2A and Type 2D Wireless Interconnections.

Multiple billing occurs when subscribers of one telecommunications carrier, either a Competitive Local Exchange Carrier (CLEC), Commercial Mobile Radio Service (CMRS) Provider, Independent Company (ICO) or Interexchange Carrier (IXC), terminate traffic to subscribers of another telecommunications carrier through a third telecommunications carrier's network. In this environment, each telecommunications carrier may bill the Originating Carrier for its portion of the telecommunications services (multiple bill) to terminate the call. The Multiple Exchange Carrier Access Billing (MECAB) document, prepared by the Ordering and Billing Forum (OBF), establishes the guidelines for billing when multiple telecommunications carriers are involved in providing telecommunications service.

Effective with switched access usage and/or telecommunications traffic generated September 1, 2003, the billing option for Public Service Cellular will be changed to a multiple bill arrangement.

Please contact your BellSouth Account Team Representative with any questions.

Sincerely,

**ORIGINAL SIGNED BY JERRY HENDRIX**

Jerry Hendrix – Assistant Vice President  
BellSouth Interconnection Services
