To: All Customers

Subject: All Customers - Implementation of Access Service Request (ASR) Version 27

This is to advise that BellSouth will implement ASR Version 27 on Saturday, September 13, 2003, with an effective date of Monday, September 15, 2003. ASRs received on or after September 15, 2003, must comply with the requirements of ASR Version 27 in order to avoid being rejected.

Because BellSouth does not currently support the process of trunk augments and translation changes on one ASR, the Activity Indicator (ACTI) value of "B" – Trunk group augment with translation changes – will not be supported at this time. ASRs utilizing this value will be rejected.

The Access Ordering Guidelines for ASR Version 27 can be purchased from the Alliance for Telecommunications Industry Solutions (ATIS) at the following Web site address:

<https://www.atis.org/atis/docstore/index.asp>

Please contact your BellSouth Account Team Representative with any questions.

Sincerely,

**ORIGINAL SIGNED BY JERRY HENDRIX**

Jerry Hendrix – Assistant Vice President  
BellSouth Interconnection Services
