Atlanta, Georgia 30375

**Carrier Notification  
SN91083830**

Date: September 25, 2003

To: Competitive Local Exchange Carriers (CLEC)

Subject: CLECs – Update to the BellSouth Local Ordering Handbook (LOH) – EDI Local Mechanization Specifications 6 (ELMS 6) Release 14.0/LOH Version 14.0

This is to advise that BellSouth has identified the following documentation defects in the LOH Version 14.0 for ELMS 6 Release 14.0

<b>CCP Number</b>	<b>Description Of The Change</b>
1274	Update Partial Move Order Request – REQ TYP E & M, Non-complex

Please refer to the attachments for specific details of the changes listed above.

These changes were reflected in the update of the ELMS 6 Release 14.0/LOH Version 14.0a on September 19, 2003.

A summary of all changes within this document will be listed in the **Summary of Changes Section**. This update can be found on the BellSouth Interconnection Services' Web site in the Customer Guides Section at:

<http://www.interconnection.bellsouth.com/guides/html/leo.html>

Please contact your BellSouth Local Support Manager with any questions.

Sincerely,

**ORIGINAL SIGNED BY JERRY HENDRIX**

Jerry Hendrix – Assistant Vice President  
BellSouth Interconnection Services

Attachment

## **CRB 3850 / CCP 1274 Attachment Listed Below**

### **2.19 Partial Move Order Request – Reqtyp E & M, Non-complex**

A partial move request occurs when a customer is requesting to move lines from an existing account at one location to a new location, but wishes to leave at least one (1) working line at the old location.

## **Ordering Considerations**

The customer must submit multiple LSR packages and use the RPON and NOR fields to associate the LSRs.

- The first LSR should be submitted with an ACT C, LNA D for all lines that are moving to the new location, or are simply being disconnected at the time of the move.
- The second LSR should be submitted with an ACT N, LNA N for all lines that are being installed at the new service address. Additional lines (that did not exist at the previous address) may also be added on this LSR using LNA N.
- The RPON field should be populated with the PON from the lead LSR, on **all** LSRs involved with the partial move request.
- The NOR field, for the lead PON, must be 01-XX, where XX is equal to the total number of LSRs involved with the partial move request. Each subsequent value for this field must be increased by one digit with XX data remaining the same.

NOTE: If the existing Account Telephone Number is moving to the new location, the new Main TN must be indicated in the Remarks section of the LSR.

*BellSouth Local Ordering Handbook  
Section 3 – Ordering*

### **2.19 Partial Move Order Request – Reqtyp E & M, Non-complex**

A partial move request occurs when a customer is requesting to move lines from an existing account at one location to a new location, but wishes to leave at least one (1) working line at the old location.

### 2.19.1 Ordering Considerations

~~• Partial Move orders must be submitted manually.~~

- The customer must submit multiple LSR packages and use the RPON field to associate the LSRs.
- The first LSR should be submitted with an ACT C, LNA D for all lines which are moving to the new location, or are simply being disconnected at the time of move. This LSR should be RPON'd to the second LSR.

~~NOTE: If the existing Account Telephone Number is moving to the new location, the new Main TN must be indicated in the Remarks section of the LSR. The second LSR should be submitted with an ACT N, LNA N for all lines that are being installed at the new service address. Additional lines (that did not exist at the previous address) may also be added on this LSR using LNA N. This LSR should be RPON'd to the first LSR.~~

- The second LSR should be submitted with an ACT N, LNA N for all lines that are being installed at the new service address. Additional lines (that did not exist at the previous address) may also be added on this LSR using LNA N. This LSR should be RPON'd to the first LSR.

NOTE: If the existing Account Telephone Number is moving to the new location, the new Main TN must be indicated in the Remarks section of the LSR.
