
BellSouth Interconnection Services

675 West Peachtree Street
Atlanta, Georgia 30375

**Carrier Notification
SN91083849**

Date: October 10, 2003

To: Competitive Local Exchange Carriers (CLEC) and Interexchange Carriers (IXC)

Subject: Facility Based CLECs and IXC's - (Product/Service) Implementation of Exchange Access and Managed Shared Asynchronous Transfer Mode (ATM) DS1 Circuit Emulation Service (CES)

This is to announce the implementation of ATM CES for Exchange Access and Managed Shared DS1 ATM services. ATM CES will offer the carrier the ability to provide point-to-point channelized DS1 circuits over the ATM network, while preserving the individual DSO channels of the Time Division Multiplexed (TDM) stream, or it can map the T1 as a clear channel.

This package will be posted to the BellSouth Interconnection Services' Web site on October 23, 2003.

For ordering information, please click onto the Web site listed below and click onto ATM Managed Shared and Exchange Access Ordering Guide.
